Asking the Right Questions: Best Practices for Designing Exams

TUESDAY, Sept. 17TH
12:15 PM – 1:30 PM

Laura Massa, Ph.D.
Office of Assessment, Loyola Marymount University

Creating an exam can be a challenging task. Unfortunately many of us have had little to no training in how to develop fair and effective tests. ‘Asking the Right Questions’ will prepare you to purposely design test that will both accurately capture your student’s learning and help reinforce that learning.

In this workshop we will cover general design principles, the dos and don’ts of common question types (e.g., multiple choice, short answer), and how to use the results to understand achievement of student learning outcomes.

Lunch will be provided, please RSVP to assessment@lmu.edu or 310.258.2628. Visit us on the web at www.lmu.edu/assessment.

This program will be video and audio taped and may be podcast. By your willing participation in the program, you expressly and irrevocably consent to be photographed, video taped and/or audio taped and quoted/cited. The films, tapes, and other digital recordings will become the property of the Center of Teaching Excellence, LMU.
