Technology-Enhanced Learning Speaker Series

“Helping Faculty Survive (and Thrive) When Transitioning to Teaching Online”
Thursday, February 25, 4:30-5:30pm
McIntosh Center UH 3999

Abstract: An overview of the University of Detroit Mercy’s College of Engineering & Science experience with moving some programs and classes online. Lesson’s learned and how college leadership and university services can support successful implementation. Some issues that are obvious and not so obvious and how we dealt with them.

Katherine Snyder
Associate Dean of Academics,
Engineering & Science
University of Detroit Mercy

Dr. Katherine Snyder is Associate Dean of Academics for the College of Engineering & Science at the University of Detroit Mercy. She taught high school in the city of Detroit, before moving on to the University of Detroit Mercy, where has been for 22 years as faculty member, Mathematics and Computer Science department chair, and now Associate Dean of Academics for the College of Engineering & Science. She has developed and taught online courses in the Mathematics and Computer Science Department, as well as developed support mechanisms for faculty in the college to support and encourage on-line course development and instruction.

Refreshments will be provided

Please RSVP to Andrea Middleton at Andrea.Middleton@lmu.edu by February 22nd.

This program will be video and audio taped and may be podcast. By your willing participation in the program, you expressly and irrevocably consent to be photographed, videotaped and/or audio taped and quoted/cited. The films, tapes, and other digital recordings will become the property of Technology-Enhanced Learning, LMU.
