Upcoming Events

- November TBD:
  - Native plant gardening at Ballona Discovery Park

- November 10: Ballona freshwater marsh bird count, 7am

- October 30:
  - Ballona Wetlands Mock Wildlife Crime Investigation, 10am-1pm
  - Ballona Wetlands, LMU, 11am: Wildlife Crime Investigation

The development of Module 12, which provides students the opportunity to better understand bird migration and the environmental cues that drive migratory behavior, is aligned to the CA-NGSS. Special Thanks to our following Partners who are instrumental in the creation of this module:

- Centennial College Preparatory Academy has invited CURes to return to conduct a seminar at their school on September 30.

- The Partnership Los Angeles Schools located at David Starr Jordan High School (2265 E 103rd St, Los Angeles, CA 90002) has invited CURes to present at the Partnership Los Angeles Schools on October 30.

- Undergraduates also attended a range of sustainability talks by Dr. Eric Strauss (CURes Executive Director), Dr. Cristina Tirado (CURes Program Manager), and Dr. Sylvia Sanchez (CURes Program Coordinator) at the Global Action Climate Summit. The summit highlighted the need for urgent action to address climate change. The summit featured a panel discussion on preventing climate change, which included discussions on the role of urban ecosystems in mitigating climate change. The summit concluded with a call to action for individuals and communities to take steps towards reducing their carbon footprint and promoting sustainable living practices.
