

Natural Resources

To the tune of: Marine Cadence
Lyrics ©2006 Senecca Ball, Longfellow Elementary, Pasco, WA
Classroom Educational Use Only

We just know what we've been told
Natural resources are worth their weight in gold
Supplying our needs here and there
Making lives better everywhere

Sound off...water
Sound off..soil
Sound off; one, two, three, four
Learn more!

Natural resources from the earth
We all know just what they're worth
Water helps the plants to grow
We need it too, don't you know!

Sound off... air
Sound off.. minerals
Sound off; one, two, three, four
Learn more?

Natural resources from the earth
We all know just what they're worth
The air that we all breathe free
Needed by all that you see.

Sound off... plants
Sound off... fuels
Sound off; one, two, three, four
I'm cool!
