In The Field Site

Activity 2.2 Experiencing the Field Site

What does your field site LOOK like?

Describe what you *see* in your field site. You may use drawings to help you describe the site. *What do you see around you?*

What does your field site SOUND like?

Describe what you *hear* at your field site. There may be different kinds of sounds, so just try to hear as many as you can. *What do you hear around you?*

What does your field site SMELL like?

Describe what you *smell* at your field site. Some smells may be familiar, some you may never have smelled before. *What do you smell around you?*

Name: _____ Date: _____ Period: _____

What does your field site FEEL like?

Describe the way your site *feels*. You may stand still or you may touch different things at your field site. *What do you feel around you?*

What was impressive?

8-] What is something that impressed you about your field site? Why?

What was surprising?

8-O What is something that surprised you about your field site? Why?

Field Study Site Discussion

1. Would you consider this site to be a typical urban ecosystem? Why or why not?
2. What differences in the data would you expect to see if you were to visit the field site at a different time of day, day of the week, or season?
3. What did you find that was biotic, abiotic, and man-made?
4. What evidence did you find of humans or human activity at your field site?
