The 9th Annual Undergraduate Research Symposium

The annual Undergraduate Symposium (URS) is a chance for undergraduate students to present what they have learned through their research experience to a larger audience. The symposium includes an arts showcase, poster sessions, and presentation sessions by students from all academic disciplines.

All LMU undergraduates involved in research are encouraged to apply and those not yet involved in research will discover that attending the URS is a great way to learn about the broad range of opportunities available at LMU. In 2016, over 350 undergraduates participated in the Symposium with more than 700 people attending.

Participant abstracts are published in the Symposium Program, and students can include their presentations on resumes and graduate school applications.
