It is subject to change due to forces beyond the University's control or as deemed necessary by the University in order to fulfill its educational objectives.
The University
The University

History and Goals

The names “Loyola” and “Marymount” have long been associated with Catholic higher education in countries around the globe. Saint Ignatius Loyola, founder of the Society of Jesus, the Jesuits, sanctioned the foundation of his order’s first school in 1548. The Religious of the Sacred Heart of Mary have conducted educational institutions since their establishment in France by Father Jean Gailhac. These two traditions of education have come together in Los Angeles as Loyola Marymount University.

The present institution is the successor to the pioneer Catholic college and first institution of higher learning in Southern California. In 1865 the Vincentian Fathers inaugurated St. Vincent’s College for Boys in Los Angeles. When this school closed in 1911, members of the Society of Jesus opened the high school division in their newly founded Los Angeles College.

Rapid growth prompted the Jesuits to commence the collegiate department that same year, seek a new campus in 1917, and incorporate as Loyola College of Los Angeles in 1918. Relocating to the present Westchester campus in 1929, the school achieved university status one year later.

Graduate instruction began in 1920 with the foundation of a separate law school. The formation of the Graduate Division occurred in June 1950, though graduate work had formed an integral part of the Teacher Education Program during the preceding two years.

The Religious of the Sacred Heart of Mary began teaching local young women in 1923. Ten years later they opened Marymount Junior College in Westwood which first granted the baccalaureate degree in 1948. The school later transferred classes to a new campus on the Palos Verdes Peninsula in 1960. Eight years later, Marymount College moved again, this time to the Westchester campus of Loyola University as an autonomous college. At this juncture, the Sisters of St. Joseph of Orange joined the Marymount Sisters as partners.

After five years of sharing faculties and facilities, Loyola University and Marymount College merged and formed Loyola Marymount University in July 1973. Through this union, the expanded school maintained the century-old mission of Catholic higher education in Los Angeles.

In articulating a vision for this unique collegiate enterprise, the Board of Trustees turned to the history of the four-century-old Jesuit educational philosophy as well as to the history and traditions of the Marymount and St. Joseph's Sisters. They also recognized the riches of a variety of religious traditions represented among the dedicated faculty and staff that complemented and enhanced the school’s heritage of Catholic values.

The University pursues quality in:

- Curricula of All Academic Programs
- Co-curricular Programs and Support Services
- Faculty, Administration and Staff
- Students
- Campus Life, Hospitality and Services

Loyola Marymount University:

- Promotes Academic Excellence
- Provides a Liberal Education
- Fosters a Student-centered University
- Creates a Sense of Community on Campus
- Participates Actively in the Life of the Larger Community
- Lives an Institutional Commitment to Roman Catholicism and the Judeo-Christian Tradition

University Mission Statement

Loyola Marymount University is dedicated to the education and development of the whole person, the pursuit of academic excellence, advancement of scholarship, the service of faith, and the promotion of justice. As a Catholic institution, the University takes its fundamental inspiration from the Jesuit and Marymount traditions of its founding religious orders. Loyola Marymount University seeks to foster in each member of its community respect for the dignity of the individual, a devotion to intellectual and spiritual life, an appreciation for diversity, and a thirst for
justice in all endeavors. Loyola Marymount University strives to send forth “men and women for others,” to lead and to serve.

Therefore, the University pursues quality in:

Curricula of All Academic Programs

Instruction in all disciplines and courses is to be challenging, intellectually stimulating, and current, including discussion, conducted in an atmosphere of academic freedom, of the important moral and other value questions of contemporary society; students are to acquire skills, knowledge, and the ability to use their skills and knowledge creatively now and in the future.

The undergraduate core curriculum is to be structured, integrated, and centered on the humanities, especially philosophy and Catholic theology; students are to acquire the arts of precise and elegant expression, a sound and critical grasp of ideas, a familiarity with the modern world’s ways of knowing itself, a personal understanding of this nation’s history and multicultural heritage, and an appreciation of other cultures around the globe.

Concentrations in the liberal arts and sciences as well as in carefully selected pre-professional programs are to give students not only technical knowledge and expertise but also awareness of the larger human context which calls them to use their competencies for personal growth and service to others; similarly, the University’s commitment to graduate and professional education is aimed at the formation of men and women of competence and conscience.

Co-curricular Programs and Support Services

Other campus activities—resident life, clubs and organizations, recreational and sports programs, social events, counseling and health services—are to complement academic pursuits; students are to have opportunities, experiences, and responsibilities that will assist and guide their struggle to become fully human.

University life as a whole is to be open to the subtle presence and activity of God, God’s Word and Spirit; students are to find a campus environment, reinforced by specific programs, that nourishes faith and contemplation, seeks the integration of reason and faith, the religious and secular, and recognizes the implications of faith for right conduct and service.

All offices of the University—academic, student life, business, university relations, facilities management, campus ministry—are to be supportive of the University’s efforts to graduate intelligent, faith-filled men and women for others.

Faculty, Administration, and Staff

The University is to recruit faculty who are supportive of its mission and goals, well-educated, well-trained in their fields, diverse, and committed to excellence in the classroom, significant scholarship and contributions to their disciplines; the University is to assist individual faculty members with the challenge of combining in one life dedicated teaching, close relationships with students, collegiality, and scholarly activity and achievement.

The University is to recruit and develop administrators and staff, of diverse backgrounds, who are supportive of its missions and goals, skilled, dedicated to their work, and collegial.

Students are to find in all who labor on behalf of the University examples of generosity, service, and personal integrity.

Students

The University is to recruit and attract literate, capable students, as academically prepared as possible, who are comfortable with its mission and goals, eager to study and to participate in campus life, searching to discover and follow a worthwhile direction for their own lives; the mix of the student body—interests, special talents, geographic origin, socioeconomic class, and, particularly, ethnicity—is to be as varied as reasonable and possible, manifesting always the biblical option for the poor.

From admission to commencement, inside and outside the classroom, the University is to encourage and challenge students as individuals to liberate their own minds and hearts and to develop their God-given abilities for service to others and God’s greater glory.

The University is always to measure and judge its success with students by their lives as alumni—the quality of their personal lives, of their careers, of their influence and leadership, of their accomplishments.

Campus Life, Hospitality, and Service

All on campus—faculty, administration and staff, students—are to collaborate and share responsibility for the formation of an academic community based on mutual respect, friendship,
and a shared commitment to the University’s mission and goals; all are to expect from one another good work, disciplined behavior, and courtesy.

The University community is to be open and welcoming to others from off-campus who visit for intellectual stimulation and reflection, artistic events and programs, worship, or relaxation and recreation; those invited are to include, especially, alumni, parents and families, benefactors and friends, professional colleagues, neighbors, and church members, but also others whom the University can appropriately serve with its facilities, buildings, and grounds.

The University is to be known not only as an intellectual and cultural center which others can visit but also as one which sends its members—faculty, administration and staff, students—into the community to learn, to teach, to minister, to labor, to participate in and lead efforts to create a more rational, faith-filled, just society.

Accreditation

Loyola Marymount’s academic programs have been accredited by the following organizations:

- American Art Therapy Association
- American Assembly of Collegiate Schools of Business
- American Bar Association
- American Chemical Society
- Association of American Law Schools
- California State Commission on Teacher Credentialing
- Committee of Bar Examiners of the State Bar of California
- The Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology
- National Association of Schools of Music
- National Association of Schools of Theatre
- National Council for Accreditation of Teacher Education
- Western Association of Schools and Colleges

Address: 985 Atlantic Avenue, Suite 100
Alameda, CA 94501
Telephone: (510) 748-9001

Membership

Loyola Marymount University is a member of the following organizations:

- American Academy in Rome
- American Association of Colleges for Teacher Education
- American Association of Collegiate Registrars and Admissions Officers
- American College Personnel Association
- American College of Physicians
- American Council on Education
- American Counseling Association
- American Mathematical Society
- American Schools of Oriental Research

University Facilities

Academic

A complex of four buildings, the Burns Fine Arts Center was opened in 1984. In Hogan Hall and Lemon Hall are housed the primary studios of the Dance Program, studios, and classrooms utilized by the Department of Art and Art History, the Department of Music rehearsal rooms and classrooms, as well as the offices of faculty dedicated to the various Fine Arts disciplines. The two additional buildings located here are the Laband Art Gallery and Murphy Recital Hall.

The Jerome and Elvira Doolan Building, built in 1985, houses Computer Science and Engineering faculty, classrooms, and laboratories.

Foley Building, constructed in 1962, houses the Charles H. Strub Memorial Theatre, faculty offices, seminar rooms, and computer labs.

The Hilton Center for Business opened in the Fall of 1995. It houses classrooms, meeting rooms, lecture halls, faculty offices, Information Services, and a 350-seat auditorium in a spacious, technologically advanced facility.

The Frank R. Seaver Hall of Science, erected in 1962, houses the departments of Biology, Chemistry and Biochemistry and Physics and Engineering Physics. In addition to 22 undergraduate and research laboratories, the building contains faculty offices, seminar rooms, classrooms, and a computer lab.

St. Robert’s Hall, erected in 1929, houses classrooms, the offices of the Dean of Communication and Fine Arts, the Office of the Registrar, and the Student Housing Office.

The Charles Von der Ahe Library, named for its principal donor, was constructed in 1959 and doubled in size in 1977.

Wil and Mary Jane Von der Ahe Communication Arts Building, completed in 1971, houses the Louis B. Mayer Motion Picture Theatre, faculty offices, film classrooms, conference room, color television studios, and motion picture sound stage.

North Hall and South Hall, located on the east side of the campus, house the Del Rey Theatre, the Natural Science program, classrooms, Science and Engineering labs, and faculty offices.

Pereira Hall, erected in 1955, houses the College of Science and Engineering Dean’s offices, classrooms, faculty offices, computer labs, and engineering labs.

Research Annex, erected in 1970, houses faculty offices and labs for the College of Science and Engineering.

West Hall was erected in 1968 at the time of the Loyola Marymount affiliation. This structure houses classrooms and offices, including Environmental Health and Safety and Conference and Event Services.

Administrative

The Harry & Kathleen Daum Hall, on the east side of campus, was erected in 1998 and houses Facilities Planning, Emergency Medical Technicians, and Public Safety on the first floor. The Learning Resource Center is located on the second floor. The Tower and the Loyolan are on the second floor.

East Hall, the former Mail Distribution Center building, houses the Human Performance Lab, the Scene Shop, Event Operations, and storage for Operations and Maintenance.

Gracian Hall accommodates the Sinatra Opera Workshop, the PRESS program, the REU/RET program, and faculty offices for the Colleges of Communication and Fine Arts and Science and Engineering.

Malone Memorial Student Center, named in honor of the late Fr. Lorenzo M. Malone, S.J., former Vice President of the University, was completed in August 1958. Renovation and expansion of the Center was completed in August 1996. Located in the Center are the Vice President for Student Affairs, Department of Student Life, Associated Student offices, Campus Ministry Center, student dining, bookstore, Center for Service and Action, Student Development Services, and conference rooms.

Pereira Annex, located behind Pereira Hall, includes the Industrial Assessment Center and faculty offices for the College of Science and Engineering as its residents.

University Hall, opened in 2000, houses University Administration, classrooms, faculty administration, an auditorium, dining facilities, Campus Graphics, and the following staff departments: University Relations, Human Resources, LMU Extension, Career Development Services, Distribution Center, Information Services administrative offices, Controller’s Office, Graduate Admissions, Center for the Study of Los Angeles, Marymount Center, the Doctoral Program for the School of Education, and Academic Grants Office.
West Hall Annex houses the Asian Business Center, the Irvine Grants office, Classroom Management, and faculty offices for the College of Communication and Fine Arts.

Xavier Hall, one of the first buildings constructed on this campus in the 1920s, is home to the Office of Financial Aid, Undergraduate Admissions, and the Associate Vice President for Academic Affairs.

**Residence Halls**

Built in 2002, two apartment buildings, Leavey 4 and Leavey 5, house men and women.

Desmond Hall, erected in 1958, was named in honor of the Desmond family of Los Angeles, generous benefactors of the University. This residence hall accommodates women.

Doheny Hall was completed in 1986 and houses 120 women.

Hannon Apartments, erected in 1978, were named in honor of Eugenie B. Hannon. They house 282 upperclass students, and include the Hannon Recreation Center.

Huesman, erected in 1947, houses men and has a chapel.

The Jesuit Community Residence, built in 1999, accommodates the members of the Society of Jesus.

The Dorothy and Thomas E. Leavey Center, erected in 1968, is a women’s residence hall and houses the Ignatian Center for Spirituality, a chapel, and the faculty/staff club.

McCarthy Hall, erected 1996, was the first residence hall built on the Leavey Campus. It accommodates 247 men and women. Named in honor of J. Thomas McCarthy, philanthropist and generous benefactor of the University.

McKay Hall, erected in 1968, accommodates men and women and contains a snack bar and recreational area. It has been named for Sr. M. Raymund McKay, R.S.H.M., former President of Marymount College.

O’Malley Student Apartments, completed in Summer 2000, accommodates 164 men and women. It has been named in honor of former LMU president Fr. Thomas P. O’Malley, S.J.

Rains Hall, on the Leavey Campus, was built in 1997. Named in honor of Lilore Green Rains, a philanthropist and generous benefactor of the University, this building houses 300 men and women.

Rosecrans Hall, erected in 1962, was named in honor of William S. Rosecrans, for many years Chairman of the Board of Regents and a generous benefactor of the University. This residence hall accommodates men and women.

Sullivan, erected in 1947, houses women.

Tenderich Apartments, completed January 1971, accommodates 143 men and women in 39 units on campus.

Whelan Hall was completed in the Summer of 1965. It has been named for the Rev. Edward J. Whelan, S.J., President of Loyola University from 1942 to 1949. Whelan Hall accommodates men and women.

**The Chapel**

The Chapel of the Sacred Heart was completed in 1953. It has a seating capacity of 1,000. The tower of the Chapel, donated by the Board of Regents, has become a landmark of the campus.

**Athletic Facilities**

The Burns Recreation Center, completed in August 2000, holds a fitness center, multipurpose center, concession stand, two gyms and the recreation offices, plus the Student Health Center and Student Psychological Services.

The Albert Gersten Athletic Pavilion, dedicated in early 1982, expands the University’s existing facilities to accommodate the intercollegiate athletic program, support facilities, Founder’s Room, and Weight Room.

On Sullivan Field, adjacent to the Pavilion, are located other athletic facilities of the University. These include the swimming pool, tennis courts, Page Baseball Stadium, and soccer facilities.

**Student-Managed Social and Recreation Facilities**

The Bird Nest, adjacent to Loyola Apartments, offers a beautiful view of Marina del Rey, Santa Monica, and the Pacific Ocean. The Bird Nest sponsors and hosts a wide variety of events for the entertainment pleasure of the student body.

Hannon Loft, located in the heart of the Hannon Apartments, Tenderich Apartments, and McKay residence hall, provides the southern campus with an informal, comfortable location to host a variety of events. Hannon Loft was built in 1978 and renovated in 1994.
The McKay Snack Shop has much to offer the students of LMU. The snack bar has a great menu of snacks and drinks and a comfortable lounge in which to study, relax, and socialize.

Adjacent to St. Robert’s Hall is St. Robert’s Auditorium which plays host to hundreds of events and programs from educational conferences and panel discussions to dances, speakers, and concerts. The auditorium can accommodate up to 350 people.

**The School of Law**

Established in 1920, the School of Law is one of the oldest law schools in Southern California. The Law School campus is located in the Pico-Union district near downtown Los Angeles. Expansion of the Law School facilities began in 1980 under the direction of internationally acclaimed architect, Frank O. Gehry. The completed campus includes the William M. Rains Library, the Fritz B. Burns Academic Center, three lecture buildings, the Chapel of the Advocate, the Rev. Charles S. Casassa Building, the Albert H. Girardi Advocacy Center, and the Student Services Center.
University Services
University Services

Campus Ministry

Director: Fernando Moreno

Sacred Heart Chapel, which can easily be seen from any vantage point on campus, provides a strong symbol of the University’s commitment to Christianity and the Catholic tradition. The Campus Ministry Center, situated in the most active and readily accessible part of the campus, is the location for many encounters with students, chaplains, faculty, staff, and all who choose to participate in the faith life of the University community.

In addition to the large number and variety of daily and weekend Eucharistic Liturgies, Campus Ministry provides a number of weekend retreats off campus, personal and religious counseling or spiritual guidance, and a wide variety of community service programs. Faculty and students serve as music ministers, lectors, Eucharistic ministers, and liturgy planners; there are also groups which meet regularly for theological reflection. The community service and justice ministry programs provide learning and practical experiences as well as career opportunities. These experiences are coordinated with the appropriate academic and student affairs departments as well as parishes and organizations off campus. Pastoral services for Jewish, Muslim, and students of all Christian faiths are also coordinated through Campus Ministry.

The Campus Ministry programs are all voluntary and yet are an integral part of the University’s life. The chaplains have a visible and explicit responsibility for leadership, but the faith life and ministry on this campus is accomplished by many groups and individuals.

Center for Ignatian Spirituality

Director: Rev. Randy Roche, S.J.

The Center for Ignatian Spirituality exists to promote the integration of Ignatian spirituality with the life of the University. It serves as a resource for those seeking to develop a personal spirituality, one rooted in an ever-deepening commitment to the service of faith and the promotion of justice. For more than four-and-a-half centuries, Ignatian spirituality has stood radically open to the diverse ways in which God enters the history of individuals and groups.

The Center has four main goals:

- To develop programs that enable the faculty and staff to grow in knowledge and experience of Ignatian education and spirituality;
- To assist those members of the faculty and staff who desire to integrate Ignatian values more deeply into their professional and personal lives;
- To encourage and support faculty and staff members to assume leadership roles in these spiritual endeavors within their college, department, and division; and
- To serve as a resource for all members of the University community interested in Ignatian values.

The Center can be reached at (310) 258-8695.

Conference and Event Services

Director: TBA

The Department of Conference and Event Services consists of three offices located in two areas:

The Conferences component oversees all aspects related to on- and off-campus use of bookable space at LMU. This includes the Summer Conference program which accommodates thousands of off-campus guests during the summer months at LMU as well as all other non-class uses of space on campus. This office is located behind Doolan Hall and can be reached directly at (310) 338-2975.

LMU Event Services is comprised of the Event Operations and Event Scheduling offices.

Event Operations is responsible for the delivery, set-up, maintenance, and resetting of event equipment including tables, chairs, audio visual components, and podiums. Event Operations is located behind Doolan Hall and can be reached directly at (310) 338-7512. The Event Scheduling Office is responsible for managing space allocation and confirming event meeting space locations throughout most of the campus as well as the related meeting or special event equipment. Event Scheduling is located on the first floor of University Hall, Suite 1768 and can be reached directly at (310) 338-2878.
Marymount Institute for Faith, Culture, and the Arts

Director: Renée Harrangue

The Marymount Institute for Faith, Culture, and the Arts preserves the transformative educational tradition of the Religious of the Sacred Heart of Mary and promotes a dialogue between faith and culture as expressed in fine, performing, literary, and communication arts.

The Institute strengthens the contributions of the Marymount tradition and legacy to the Loyola Marymount University community and the larger society. It does this by encouraging interdisciplinary and intercultural scholarly and artistic activity in the form of research and publication, exhibits, performances, conferences, seminars, and lectures.

The Marymount Center is located on the third floor of University Hall and may be reached at (310) 338-4570.

Food Services

Sodexo, the dining service of the LMU community, provides a program that strives to meet the nutritional needs of its student population. There are several dining areas on campus that offer flexible hours, in settings that complement and enhance the dining experience.

Call (310) 338-2977 for more information.

The Lair Marketplace

This dining location in Malone Student Center provides menu selections such as fresh fruits, soups, salad bar, made-to-order sandwiches, pastas, vegan-only items, hot meals, foods to go, and ice creams. Also available is a variety of fresh baked pastries for breakfast and dessert items throughout the day.

Students may receive free nutrition counseling by appointment.

Hours of operation:
Monday-Thursday: 7:30 a.m.-12:30 a.m.
Friday: 7:30 a.m.-9:00 p.m.
Saturday: 8:00 a.m.-9:00 p.m.
Sunday: 10:00 a.m.-10:00 p.m.

Jamba Juice

A new addition to the campus, Jamba Juice offers fresh fruit and smoothies. It is located next door to the Lair Marketplace.

Hours of operation:
Monday-Thursday: 7:30 a.m.-9:30 p.m.
Friday: 7:30 a.m.-9:00 p.m.
Saturday: 9:30 a.m.-9:00 p.m.
Sunday: 9:30 a.m.-9:30 p.m.

Lion's Café

This full-service coffee bar, located on Alumni Mall, offers cappuccino and blended mochas.

Hours of operation:
Monday-Thursday: 7:30 a.m.-9:30 p.m.
Friday: 7:30 a.m.-4:00 p.m.

Lion's Corner Café

This café offers an array of organic coffee drinks, as well as sandwiches and soups to go. The Lion's Corner Café is located on the first floor of University Hall.

Hours of operation:
Monday-Thursday: 7:30 a.m.-9:00 p.m.
Friday: 7:30 a.m.-5:00 p.m.

Hot Dog Cart

Located in front at the southwest corner of McCarthy Hall, this traditional hot dog cart offers four different kinds of hot dogs, chips, fruit, and a variety of cold beverages.

Hours of operation:
Monday-Thursday: 11:00 a.m.-4:00 p.m.
Friday: 11:00 a.m.-3:00 p.m.

Lion's Den

Located adjacent to the LMU Bookstore, the Lion's Den serves espresso, café latte, or coffee in a café-style setting. This facility is run by students.
Information Technology Services

LMU Information Technology Services (ITS) maintains the campus' voice and data communications network.

LMU-Net

Network (Ethernet) data connections are available in all residence halls and apartments on campus. LMU-Net provides students on campus with a broadband Internet (web browser) connection and access to LION student e-mail.

Student E-Mail

All registered students receive an LMU e-mail account. LMU student e-mail addresses follow the convention: loginname@lion.lmu.

LMU student e-mail is accessible via any web browser. Visit the LMU website at http://www.lmu.edu. Click the link for “Student E-Mail” on the lower section of the page. Student e-mail can also be accessed at http://lion.lmu.edu. First-time users may look up their e-mail addresses by following the “First Time Users” link.

The LION e-mail account is used for official University communications, and thus it is very important that students check for messages.

Students who use an alternate e-mail account (i.e., Hotmail, Yahoo!, etc.) may choose to forward their LION messages there. Forwarded options may be accessed by logging into the LION system. E-mail forwarding instructions are available at the “E-Mail Instructions” link on http://lion.lmu.edu.

On-Campus Telephone Service

A telephone jack and active service is provided for each residence room. For additional information, please see the Resident In-Room Guide or visit http://its.lmu.edu.

Computer Labs

The St. Robert's Computing Lab, located in the St. Robert's basement, is a “hybrid” facility, equipped with both Mac and PC workstations.

The Von der Ahe Computing lab, located in the library basement, contains PC workstations. Students may contact the Lab Coordinator at (310) 338-4489 for more information.

Other computing labs on campus are designed to meet specific departmental academic functions. Students may contact the Director of Academic Computing and Instructional Technology at (310) 338-7537 for more information about these specialty labs.

Help Desk

The ITS Help Desk, located on the basement level of the Hilton Business Center, provides computing, network, and telecommunication support for LMU students. This office serves as a single point of contact for students requiring assistance on technology-related issues including network connectivity, e-mail, telephone, and voicemail.

The Help Desk is open Monday-Thursday from 8:00 a.m. to 7:00 p.m. and Fridays, 8:00 a.m. to 5:00 p.m.

Telephone: (310) 338-7777

E-mail: HelpDesk@lmu.edu.

Website

Additional information about LMU Information Technology Services may be obtained via the ITS website located at http://its.lmu.edu.

Loyola Marymount University Children's Center

Director: Anita Velasquez

The Loyola Marymount University Children's Center was established to address the child care needs of the University community. The LMUCC is an on-site, employer-sponsored organization dedicated to quality care for children of all those who make up the LMU and greater Westchester communities. Care is made available for children of the faculty, staff, and students, with a limited number of spaces available to alumni, qualified on-campus employees of University service contractors, and neighborhood residents. In keeping with the Jesuit and Marymount traditions, we strive to meet the needs of the community of which we are a part by incorporating diversity into a values-centered curriculum.

The Center's early childhood professionals are committed to educating the whole child—socially, emotionally, physically, and intellectually—to set the stage for life-long learning. Based on developmentally appropriate practice, the curriculum focuses on play, creativity, and hands-on discovery learning for children 6 weeks to 11 years of age. Our intention is to be a model of quality Early Childhood Education programs for the communities we serve.

The LMUCC is open year-round, providing full- and part-time enrollment for infants through preschoolers. Our School-Age program provides after-school care for K-5th grades and a full-day Summer Camp.

Contact (310) 258-8900 for more information.
**Public Safety**

Director: Ray Hilyar

The Public Safety Office is located in Daum Hall and is open seven days a week, 24 hours a day. Lost and found is located here.

Public Safety may be contacted by phone at (310) 338-2893. In case of emergency, dial 222 from any on-campus phone.

**University Bookstore**

Books, sundry items, school spirit clothing, and gifts are available through the University Bookstore. The operating hours during the academic year are: Monday-Thursday, 7:45 a.m.-7:00 p.m.; Friday, 7:45 a.m.-5:00 p.m.; Saturday, 9:00 a.m.-3:00 p.m.; and closed on Sundays.

The main campus store is located on the ground floor of the Malone Student Center. There is also an annex, selling snacks and gift items, located on the first floor of University Hall.

Shop 24 hours a day at http://www.efollett.com.

**University Media**

**L.A. Miscellany**

The University literary magazine is known as *L.A. Miscellany*. It affords a medium of literary expression for all departments and divisions of the University. It primarily features fiction and verse and is illustrated by student artists.

**President’s Report**

This annual report highlights activities and accomplishments of the past year.

**Vistas**

*Vistas* magazine is one of the many ways Loyola Marymount University serves its alumni, current parents, friends, faculty, and staff. Published three times a year by the Department of Communications and Public Affairs, *Vistas* features news and articles of interest to the LMU community.

**University Organizations**

**LionsFund**

Focused on providing a well-rounded educational experience, LionsFund supports our student-athletes’ quest for excellence through scholarships and team support. Gifts to the LionsFund assist to provide the resources needed for LMU student-athletes to achieve the highest possible level of success both athletically and academically. Supporting each of LMU’s 17 intercollegiate athletic teams, LionsFund is a vital part of the University’s ability to compete at the NCAA Division I level.

The LionsFund Council is a volunteer council, helping to support LMU Athletics and student-athletes through annual advancement, fundraising, and direct outreach to increase support for the LionsFund. Donor benefits include special events, personal contact, and the opportunity to purchase priority seating for home Lions games. For additional information, please contact the Annual Support Office for Athletic Giving at (310) 338-2908 or by e-mailing golions@lmu.edu.

**Loyola Marymount University Parents Association**

The LMU Parents Association is an informal organization of all LMU parents. Under the leadership of the Parent Ambassador Council, the Association seeks to broaden the understanding of the educational philosophy and goals of the University, act as a liaison between the administration and parents to ensure the exchange of ideas and mutual concerns, and respond to the needs of the University. For additional information or to become a Parent Ambassador, please contact the Office of Parent Relations at (310) 338-7037.

**Alumni Association**

The Loyola Marymount Alumni Association is composed of more than 50,000 former students. The mission of the Association is to be the nucleus for sustaining lifelong relationships among and between students, alumni, and the University. By delivering quality programs and services, the Association challenges alumni to continue the LMU journey in their intellectual, social, professional, and spiritual lives. Programs which promote this mission include: Alumni for Others—LMU’s signature alumni service program, President’s Day—where alumni come back annually to take classes, the Grand Reunion, the annual Alumni BBQ, and regional events, all of which recapture the LMU experience for our alumni. Guiding our programs are dedicated volunteers comprising the Alumni Association Board of Directors, regional leaders, and student leaders.
Student Affairs

The Division of Student Affairs is committed to providing those services and experiences which complement and enhance the educational mission and foster the total development of the student. The Office of the Vice President for Student Affairs is the central administrative office for the departments within the Division and is responsible for coordination and supervision within the Division. In addition, the Vice President assures that the student affairs program is supportive of the academic mission and goals of the University.

The Division of Student Affairs holds students as central to the Division's mission and values, which are consistent with the mission, goals, and objectives of the University. The goals of the Division of Student Affairs are:

- To promote innovative programs and events which develop an enlivened and engaged campus community.
- To instill in students the value of service and the promotion of justice.
- To guide students through a process of reflection, self-discovery, and character development.
- To promote the balanced development of body, mind, and spirit.
- To foster students' respect for each other in an intercultural community.
- To advance the University's recruitment and retention efforts.

These goals are implemented through services and programs which are provided by the following areas:

- Athletics
- Campus Recreation
- Career Development Services
- Ethnic and Intercultural Services
- Judicial Affairs
- Office of the Vice President
- Student Affairs Deans' Office
- Student Health Services
- Student Housing
- Student Media
- Student Programs and Leadership
- Student Psychological Services

Student Programs and Services

Athletics

Loyola Marymount University participates in eight intercollegiate sports for men—basketball, baseball, crew, cross country, golf, soccer, tennis, and water polo—and nine intercollegiate sports for women—basketball, crew, cross country, soccer, softball, swimming, tennis, water polo, and volleyball. LMU is a member of the National Collegiate Athletic Association Division I and competes in the West Coast Conference.

Career Development Services

Career Development Services provides students and alumni with the opportunity to develop and enhance essential transferable skills necessary for major and career exploration. Its purpose is to provide guidance and resources that allow exploration of self, foster critical decision-making skills, encourage service to others, provide experience for the development of lifetime goals, and ease the transition from school to the working world. These skills are developed through the following services:

- Career and Graduate School Fairs
- Career Counseling
- Career Exploration Course (LIBA 250/251)
- Career Resource Library
- Educational Placement File
- Federal Work Study Jobs and Other Work Awards
- Internships
- Interest Inventories
- Job Search Assistance
- Mentoring Program
- Mock Interviews
- On-Campus Recruiting
- Part-Time, Seasonal Jobs, and Tutoring Network
- Personality Preference Assessment
- Resume Guidance

Medical Insurance

The University requires that all full-time undergraduate students who are not covered by personal medical insurance MUST BE covered by the University's Sickness Insurance Plan. If the student has adequate private sickness insurance, a waiver must be returned to the Controller's Office within the specified time. All students taking seven or more units are automatically covered for accident insurance. Forms for filling insurance claims for the University's Accident and Sickness Insurance Plan may be obtained from the Controller's Office.
be filed within thirty days of disability. Students should be aware of the name of their insurance company and provider numbers. Coverage by the University's Insurance Plan is not a prerequisite for use of the Student Health Center.

**Student Health Services**

The Student Health Service (SHS) assists students in staying healthy by promoting healthy lifestyles and by providing medical care for common health problems. The staff includes a full-time physician, nurse practitioner, registered nurse, and x-ray technician.

The University may require immunizations and/or TB testing of incoming students. Students will be notified of the requirements by mail. Failure to fulfill the requirements may result in a hold applied to the student's registration and not being able to register.

Services offered by the Student Health Service include: treatment for minor illnesses and injuries, Pap smears and pelvics, dermatological care, pregnancy tests, lab work, X-rays, immunizations, and prescriptions. An orthopedic clinic is held weekly.

The service is free. There are charges for medication, lab work, X-rays, and some medical supplies. You do not need health insurance to use Student Health Services. The Student Health Service does not bill private insurance companies. This is the responsibility of the student. Copies of all charges are available for the SHS.

Occasionally, a student may need to see a specialist. In this case, the student may be referred to a specialist by the SHS or may select her/his own specialist. The student is responsible for transportation and medical costs.

All medical records are covered by the laws of confidentiality of the State of California.

**Student Housing**

LMU Student Housing provides a unique opportunity for participation in community living. Knowing that the physical and social environment affects the intellectual and social development of students, every effort is made to create communities which reflect the University’s educational mission.

A Resident Director (RD) and Resident Advisors (RAs), under the supervision of an Area Coordinator for Residence Life (AC), are responsible for overseeing the living environment and developing programs in each housing facility. The staff is responsible for creating an atmosphere conducive to building community and promoting scholarship. They provide opportunities for students to become acquainted with one other and involved in campus activities. They also encourage students to take full advantage of cultural and intellectual opportunities within the University and in Los Angeles.

LMU is proud of its Resident Chaplain program. Resident Chaplains (RCs) are priests, sisters, and lay ministers who live in the residence halls and apartments with the students. They assist in creating a vibrant Christian community marked by mutual respect and social responsibility. Their primary role is to provide guidance on social, moral, and spiritual issues which students face daily.

**Student Psychological Services**

University life provides opportunities for students' growth and development as well as challenges to their well-being. Student Psychological Services (SPS), staffed by professional psychologists and counselors, provides confidential personal counseling to facilitate students' personal, social, intellectual, spiritual, and emotional development. SPS offers individual, couple, and group counseling plus workshops and educational programs on topics of interest to students. Services are available free of charge to regularly enrolled students.

**Ethnic and Intercultural Services**

Ethnic and Intercultural Services (EIS) assists the University in its commitment to support a diverse student body and enhance greater intercultural understanding. Through its five units—Asian Pacific Student Services, Chicano Latino Student Services, Office of Black Student Services, Academic Persistence Program, and Intercultural Affairs—EIS provides a variety of culturally sensitive services and programs. EIS also serves as a resource for the LMU community on issues of racial and ethnic diversity.

**Academic Persistence Program**

The Academic Persistence Program (APP) is a student-based outreach program that provides peer counseling and academic support for students of color. APP is designed to enhance student achievement through academic, interpersonal, social, and cultural experiences. APP is committed to helping students of color excel in their first year of college. This commitment is actualized through programs and services that promote growth and development of the “whole person.” Trained APP peer mentors, coordinators, and professional staff collaborate with the LMU community to provide educational, personal, and spiritual support. APP students develop clear academic and career goals, become leaders within LMU and their home communities, gain enhanced self-awareness, and acquire an enriched knowledge of their own culture as well as the cultures of others.
Asian Pacific Student Services

Asian Pacific Student Services (APSS) serves the needs of Asian Pacific American (APA) students. It strives to educate the campus about APA issues and the ethnic diversity represented within its community. APSS programs and services include an annual Cultural Welcome, a monthly Third Tuesday Series, Asian Pacific American Leadership Retreat, speakers, support for student groups, educational conferences, and community projects. APSS works closely with the Asian Pacific American community both on and off campus as well as the greater LMU community.

Chicano Latino Student Services

Chicano Latino Student Services (CLSS) provides culturally sensitive programs that foster and promote the academic and personal success of Latino/a students. In addition, it strives to educate the campus about Latino/a issues and the ethnic diversity represented within the community (i.e., Central and South America, Caribbean, and Mexico).

CLSS programs include Bienvenida Latina—the Latino Fall Welcome, Leadership Roundtable Meetings, Latino Leadership Retreat, Latin America’s Independences Days Celebration—Day of Pride!, Latino Spiritual Retreat, Middle/High School Visit to LMU, Latino Leadership Legacy Week, POWER TRIPS (i.e., museums, community resource centers, entertainment/theatre, restaurants, speakers, etc.), Dia de Reconocimiento (Latino graduation ceremonies), Latino Resource Handbook, and Weekly E-CLSS Newsletter, among others. CLSS also offers student advocacy, personal support, assistance for Latino/a student groups, and transitional/beyond LMU programming. CLSS programs and services also consider gender, class, religion/spirituality, bi-monolingual, generational, sexual orientation, and bi-racial/ethnic identities, among other factors.

Intercultural Affairs

Intercultural Affairs works with students and staff to create a learning environment that encourages greater awareness, understanding, and interaction among diverse groups. Its mission is to empower all members of the campus community as agents of social change committed to a vision of justice.

Intercultural Affairs sponsors/offers programs that include Spring Festival, an intercultural retreat, intercultural leadership training, speakers, educational forums, and intercultural conversations.

Office of Black Student Services

The Office of Black Student Services (OBSS) works to promote a positive campus environment that supports the academic and personal success of African American students. OBSS programs and services include an annual Fall Welcome, Student Retreat, Kente Graduation, Black History Month events, speakers, cultural enrichment programs, community activities, support for student groups, student advocacy, and personal support. OBSS also strives to build close ties with the local African American community.

Campus Recreation

The state-of-the-art Fritz B. Burns Recreation Center houses the Department of Campus Recreation. The department continually strives to meet the recreational needs of the LMU community.

The award-winning Burns Recreation Center is comprised of a 7,000 square foot weight room containing free weights, individual weight machines, treadmills, Lifecycles, StairMasters, and elliptical machines. The Main Gym accommodates two courts of basketball or volleyball, while the upstairs gym is a single court used for recreation or special events. Two multipurpose rooms are located upstairs and provide space for aerobics, kickboxing, yoga, spinning, and more. A new outdoor 50-meter pool is located steps from the men's and women's locker rooms. A games area is available for table tennis, pool, foosball, and video games. A variety of sports equipment, energy bars, and beverages are available for purchase at the conveniently located pro shop.

Intramural Sports provides a wide range of structured sports and activities such as flag football, volleyball, soccer, basketball, and more. The Intramural Sports philosophy is “play for fun,” and everyone is welcome to participate regardless of ability.

Fitness and Wellness Classes are available throughout the year. These programs allow individuals to drop in for an aerobics class, learn self defense in a kickboxing class, or stretch and relax with a yoga session. Nutritional seminars, weight training clinics, and advice from personal trainers are also available.

The Aquatics program provides a variety of opportunities including swimming laps, water aerobics and exercise, and a learn-to-swim program. Whether looking to improve your technique or just to swim some laps, the new 50-meter pool is the place to be.

The Club Sports program offers LMU students the chance to compete against club teams from other universities. Competitive Club Sport opportunities currently exist for
Rugby, Men’s Lacrosse, Women’s Lacrosse, Men’s Volleyball, Women’s Volleyball, and Men’s Soccer. Campus Recreation is the place to come for all of your recreational needs.

**The Center for Service and Action**

The Center for Service and Action (CSA) seeks to educate and form men and women for others, especially with and for the disadvantaged and the oppressed. Through direct personal contact between students and the marginalized in service-learning experiences, CSA fosters a solidarity with the poor that will lead to intellectual inquiry, moral reflection, and social action.

CSA is directly responsible for the Service and Action House, the Service Organization Program, Special Games, El Espejo, Habitat for Humanity, Amnesty International, Alternative Break Programs, and the Community Relations Task Force.

The Center works with students and faculty to encourage and facilitate community-based learning integration into course curriculum.

Each year CSA recognizes the six most outstanding LMU undergraduate students who have excelled in their community service. These students each receive a $1,000 Riordan Community Service Award.

Through the generosity of the Marymount Institute, CSA also recognizes outstanding graduating seniors for their commitment to community service. These students receive the Arete Award.

**Office for International Students and Scholars**

The Office for International Students and Scholars (OISS) promotes the general interest of international education, mutual understanding, and cultural exchange through the administration of international programs and services designed to promote greater collaboration among the international and domestic communities.

The OISS provides vital immigration assistance to international students and faculty, both at the Westchester Campus and Loyola Law School. OISS provides assistance in matters related to maintaining non-immigrant status under LMU’s international programs and complying with the regulations of the U.S. Department of Justice/Immigration and Naturalization Service (INS) and the U.S. Department of State.

Moreover, the OISS acts as a resource for the international concerns of the University community through its contacts with embassies, consulates, and other international and U.S. government agencies.

**Student Programs and Leadership**

Student Programs and Leadership strives to enrich the learning environment for students seeking growth outside the classroom. The staff works with ASLMU, all co-curricular clubs and organizations, Commuter Students, the Greek Community, and Special Programs such as the Student Managers and Student Workers. Student Programs and Leadership offers assistance with programming and planning of events and special projects, as well as assistance and support in the formation of new organizations. The department also provides advocacy and support to students throughout their academic career.

**Associated Students of Loyola Marymount University (ASLMU)**

All regularly enrolled full-time undergraduate students are automatically members of the Associated Students of Loyola Marymount University. ASLMU, through the Student Senate, Executive Cabinet, and Judiciary, is the voice of the student body, speaking for students on issues such as allocation of funds for clubs and organizations, academic concerns, personnel matters, and other areas affecting student life. In addition to planning on-campus activities, such as speakers, concerts, movies, and dances, ASLMU also initiates service programs in the community. Services offered by ASLMU are supported by the student fee.

**Magis Leadership Program**

This leadership program encourages students to work toward mutual goals involving awareness and empowerment of the needs of individuals, groups and society. Each year, the program centers on a theme to guide the participants and encourage students to face a pressing social issue.

**Student Organizations**

As a student-centered, Catholic university, Loyola Marymount University recognizes the importance of clubs, programs, and services in fostering the educational mission of the University and offers a wide variety of each appealing to the needs of the student body. There are academic and professional clubs. Their primary objective is to further interest in professional development. In addition, LMU registers a number of honorary and social clubs. Membership in the honorary societies is by invitation and is based upon scholastic achievement and requirements of individual societies. Social clubs provide the student body with a variety of activities designed to
complement the academic mission of the University. Some of these activities include philanthropic, cultural, social, and educational programs.

The following is a list of registered student clubs on campus. Note: The views or positions of a registered club does not necessarily reflect the position of Loyola Marymount University.

**Academic**

- Accounting Society
- American Society of Civil Engineers (ASCE)
- American Society of Mechanical Engineers
- Animation Club
- Arnold Air Society
- Black Pre-Health Organization
- Chemical Society
- Chicanos for Creative Medicine
- Communication Studies Society
- Delta Sigma Pi
- Economics Society
- Film and TV Club
- Filmmakers Club
- Finance Club
- Flying Lions
- Institute of Electrical and Electronic Engineers
- Latino Business Student Association
- LMU TV

Scuba Club
Volleyball Club—Men
Women's Lacrosse
Women's Volleyball

The University programs and services have varying membership requirements and offer an opportunity to become involved in a variety of activities geared to foster a sense of deeper understanding of people of all colors, creeds, and national origins.

The following is a list of University Programs and Services on campus.

Intramural Sports
Special Games
Student Manager Program
Bird Nest
Hannon Loft
Lion's Den
Malone Student Center
McKay Snack Shop
St. Robert's Auditorium
Student Worker Program

Student Campus Media

The Los Angeles Loyolan

The Los Angeles Loyolan, written and edited by students, is the official weekly newspaper of LMU. The Loyolan provides a forum for discussion of higher education and serves as an information source for the campus community. It affords students an opportunity for gaining practical journalism experience and provides them with a method for improving campus awareness. The Loyolan is a member of the American Collegiate Press Association and the National Collegiate Press Association.

KXLU/KLMU

KXLU Radio serves the Loyola Marymount campus and a large portion of the Los Angeles area with alternative, contemporary, classical, and fine arts programming.

KXLU-FM operates at a frequency of 88.9 MHz. The station, broadcasting in stereo, operates 24 hours a day, 365 days a year. KXLU-FM serves the varied needs of the community through a combination of musical programming. At the same time, the station strives to present informative and meaningful discussions and interviews.

KLMU-AM operates at a frequency of 840 KHz. The station, exclusively serving the LMU community, operates from 7:00 a.m. until 1:00 a.m.

The Tower

The Tower, a student-run publication, is the official yearbook for the University. Students are responsible for all aspects of production. The Tower strives to include all dimensions of the University community: faculty, staff, students, graduating seniors, sports, clubs and organizations, and activities. The Tower is a member of the American Collegiate Press Association and the National Collegiate Press Association.

Policies and Procedures

Standards of Conduct

Loyola Marymount University endeavors to facilitate each student's personal development and to foster self-awareness. LMU endeavors to provide experiences which will increase students' knowledge of both their potential and responsibilities, allow students the qualitative satisfaction which results from working with others in a cooperative manner, and facilitate an understanding that the implications of their actions are the essence of intelligent, moral decision making. This approach is in harmony with our goals as a Christian and Catholic institution.

These concepts are basic in the development of a student conduct code that aims to assist students in becoming aware of their responsibilities, rights, and obligations. It is understood that members of the University community will conduct themselves in a manner compatible with the educational and Catholic nature of the University. This demands not only demonstrating respect for the teaching, research, and administrative functions of the University but also exhibiting a respect and genuine concern for the health, safety, and rights of members of the University community and our visitors.
In the event that respect is lacking or obligations toward the University community are not met, the Code outlines procedures for hearings as well as appeals. These procedures ensure student rights are acknowledged and equity is maintained.

All LMU students are members of both the academic community of scholars and the social community of their fellow students. The Dean and faculty of a particular college have authority regarding all academic disciplinary matters. The Vice President for Student Affairs and designated administrators and judicial boards have full authority in all non-academic disciplinary matters.

The Student Code of Conduct is published in the LMU Student Handbook. All students are responsible for the contents of the Student Handbook, which is available in the Office of the Vice President for Student Affairs.

**Use of University Property**

No person may use University property in a manner, or for a purpose, or under circumstances forbidden by any applicable public law, ordinance, regulation, or order, or tending to interfere materially with the efficient and orderly conduct of any University business or function.

In line with this directive, any person or persons, whether students or non-students, registered student organization or other student groups, shall be required to obtain a permit from the Office of the Vice President for Student Affairs prior to any proposed march, demonstration, public meeting, etc.

**Motor Vehicles**

All motor vehicles used on campus must be registered. Registration is established during University registration at the opening of each term. The registered owner is responsible for displaying the University parking decal, affixed at the time of vehicle registration.

**Legal Responsibility of the University**

The University endeavors to safeguard students in the use of physical facilities, laboratories, athletic fields, and gymnasium, and to this end regulations concerning the use of such facilities have been established, but it is clearly understood that students who use the same do so entirely at their own risk. The University has no legal responsibility for injuries or other damages suffered by students on or off the campus, or in travel to and from school-related activities, or for any expense in connection therewith.
Admission
Financial Aid
Tuition and Fees
Admission

Loyola Marymount University welcomes applications from students who subscribe to the goals of the University and who are qualified to undertake its programs. The University makes selective and individual decisions, and the academic record is the primary consideration. Writing ability; accomplishments in academic, artistic, athletic, co-curricular, or work- or service-related endeavors; recommendations; national test scores; and relationship to the University are also given significant consideration. Each application is individually evaluated.

Candidates are considered for admission to either the Fall or Spring semester, provided ALL required documents have been received before the priority dates. The Fall priority date for freshmen applicants is February 1; transfer applications are due June 1; the Spring priority date for all applicants is December 1. Full consideration cannot be assured to applicants failing to meet these priority dates. A personal interview is not required, but individual Admissions counseling appointments are encouraged. Personal appointments and campus tours can be arranged through the Office of Admissions. Please call (310) 338-2750. The fax number is (310) 338-2797.

High School Subjects Recommended for Admission

The following high school course of study is recommended for admission into the University.

<table>

Business students must complete a unit in each of the following: elementary algebra, geometry, and intermediate algebra/trigonometry. Engineering, computer science, mathematics, and science majors should complete four units of mathematics and one unit each of biology, chemistry, and physics.

Admission Procedure

The following procedures apply to all candidates. Transfer and international applicants should be sure to note specific additional requirements as stated below. Candidates seeking admission to Loyola Marymount University should:

1. File an application and submit a $45 non-refundable application fee or an appropriate fee waiver. Forms are available from the University's Admissions Office.
2. Request official transcripts to be sent from the last high school attended and from each college attended. Students currently enrolled in college should submit work in progress. Advanced Placement students must submit official AP test score results in order to receive college credit.
3. Arrange for SAT I or ACT scores to be sent to the Director of Admissions. Information about SAT I may be obtained from the College Board/Box 6200, Princeton, New Jersey 08541-6200. Information about ACT may be obtained from the American College Testing Program/ACT Records, P.O. Box 451, Iowa City, IA 52243.
4. Before school begins, entering freshmen are required to submit an official final high school transcript certifying the completion of secondary requirements and showing the high school graduation date. Transfer students are required to submit official transcripts for any courses completed since the application for admission was filed. Students failing to submit required transcripts will be prevented from registering for subsequent semesters until this requirement is satisfied.

Notification of Acceptance

Candidates will be evaluated for admission as soon as all of the required steps in the admission procedure have been completed. Notification of the candidate's eligibility for admission will be sent on a rolling basis. A final transcript is required as verification that all work in progress has been completed with a GPA equal to or greater than the student's overall grade point average at the time of acceptance. In the event that the final semester of work does not meet required criteria, acceptance may be rescinded.

Honors at Entrance

Honors at Entrance is awarded to first-time freshmen who show academic excellence as determined by their secondary school record, national test scores, letters of recommendation, and personal involvement in responsible positions of leadership. Special application is not required; all admitted applicants are considered. Students are notified in their acceptance letter. A
certificate is sent to the student, and public acknowledgment is made at the student’s high school graduation exercises.

**Academic Scholars**

Each year the Scholarship Committee carefully selects from among the Honors at Entrance candidates a small number of first-time freshmen whose achievement deserves additional recognition. These candidates are designated Academic Scholars and are awarded significant scholarships that are renewable and are not necessarily based upon financial need. Selection is based on outstanding GPA and SAT I/ACT scores, leadership potential, and school or community involvement. Academic Scholars are invited to apply to the University’s Honors Program. In addition, those students awarded Academic Scholarships will be invited to participate in the Presidential Preview Weekend, which offers a special opportunity to see the campus and to interview for the Presidential and Trustee Scholarships. (See the Financial Aid section for more information on these scholarships.)

**Commitment Deposit**

Accepted students intending to enroll are required to submit a $250 commitment deposit to secure their seat in the class.

The commitment deposit is held by the University but refunded to the student approximately one month after leaving the University either by withdrawal, dismissal, or graduation. The commitment may also be applied at the discretion of the University against any delinquent and unpaid debts. This deposit is payable from the student’s own resources. It will neither be deducted from any financial aid awards nor billed as part of tuition and fees.

If the commitment deposit is not received within the stated time, the acceptance for admission may be canceled. Refund of the $250 commitment deposit will not be made to those who fail to register and attend classes.

**Housing**

First-time freshmen entering in the Fall term are guaranteed University housing provided their commitment deposit and housing request are received postmarked no later than May 1 for Fall admission.

Fall term transfer students and any student entering in the Spring term are not guaranteed housing. Instead, they are offered accommodations on a space-available basis. Their housing requests will be processed on a first-come, first-served basis as they make their commitment deposits and return all requested Housing information.

**Admission of Transfer Students**

Each semester the University considers students for transfer, provided they are in good standing and not under academic or disciplinary probation or suspension from the last school attended. Please see the paragraph on Admission Procedure for general admission requirements above. The priority date for transfer applications is June 1 for Fall semester and December 1 for Spring semester. Transfer students are considered for admission as follows:

Students who would have been acceptable for admission as freshmen to Loyola Marymount University at the time of their graduation from high school will be considered for transfer standing if they have at least a 2.75 cumulative average for all previous college work and at least a 2.75 average for the most recent college work attempted prior to admission.

Students who, for academic reasons, were not acceptable for admission as freshmen at the time of their graduation from high school will be considered for transfer standing if they have completed at least the equivalent of 30 semester hours of transferable college work with at least a 2.75 cumulative average and at least a 2.75 average for the most recent college work attempted prior to admission.

Admission of transfer students is selective and subject to available space and enrollment limitations. The minimum transfer GPA of 2.75 may not always be sufficient to secure admission. Likewise, certain majors require that some prerequisites be completed prior to transferring (see Business Administration, Transfer Credit).

Credit for work completed at institutions accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities, other than course work identified by such institutions as remedial or in other ways as being nontransferable, will be accepted toward the satisfaction of baccalaureate degree and credential requirements at the University within limitations of residence requirements. Courses with grades below C (2.0) do not transfer. A maximum of 60 semester hours from two-year colleges are transferable to the degree program of the University.

Policies regarding transfer credit for a particular degree may vary slightly among the individual colleges, depending upon degree requirements. In general, courses having comparable content and class level with those in the LMU curriculum will transfer.
Admission of International Students

International students should follow the same admission procedures and priority dates outlined above.

Further, international students are cautioned to comply with the following additional guidelines to ensure compliance with immigration authorities and avoid delay in the processing of the applications:

1. Take the Test of English as a Foreign Language (TOEFL) given by the Educational Testing Service and arrange for scores to be sent to the Director of Admissions. Information about this test may be obtained by writing to: Test of English as a Foreign Language, P.O. Box 6151, Princeton, NJ 08541-6151. The University’s minimum standard for undergraduate admission is 550, or 213 for the computer-based exam.

2. Submit a statement of financial responsibility for all obligations covering the full period of time for which the student is making application.

3. Submit official transcripts of previous academic training. Documents must be sent from the originating sources directly to the Admissions Office and must cover all secondary schools attended and, if college study was attempted, all colleges and universities attended. Documents should include results of standard examinations administered by government or certifying agencies.

4. Transcripts from non-U.S. institutions must be submitted to an LMU-approved credential evaluation agency for translation into English and/or for evaluation of U.S. equivalent course work and corresponding grade. It is the responsibility of the student to submit all foreign transcripts to an evaluating agency. Information on such agencies may be obtained by calling the Office of Admissions. Foreign transcripts submitted without the appropriate evaluations will not be considered eligible for transfer credit to LMU.

5. International Students attending a high school, college, or university in the United States must submit a Transfer Verification Form that will be sent to them by the Office of Admissions.

6. The United States Department of Justice Immigration and Naturalization Form (I-20) will be sent after the $250 non-refundable Commitment Deposit has been received by the Office of Admissions. Photostatic copies are acceptable only if they are notarized as true copies and bear the original seal of the notarizing authority. All documents submitted for admission become property of the University and will not be returned.

Medical Examination and Insurance

All students entering the University for the first time or re-entering the University after an absence of one year are required to return a completed Student Health Immunization Form to the Student Health Service. Immunizations must be current and documented. Students with incomplete forms will have their registration withheld for the following semester until immunization information is provided.

The Student Health Service does not fill out private insurance forms. However, copies of charges will be given to the students upon written request.

The University requires that all full-time undergraduate students who are not covered by personal medical insurance MUST BE covered by the University’s Sickness Insurance Plan. If the student has adequate private sickness insurance, a waiver must be returned to the Controller’s Office within the specified time. All students taking seven or more units are automatically covered for accident insurance. Information about filing insurance claims for the University’s Accident and Sickness Insurance Plan may be obtained in the Student Health Service Office. Claims must be filed within thirty days of disability. Students should be aware of the name of their insurance company and provider numbers. Coverage by the University’s Insurance Plan is not a prerequisite for the use of the Health Center.

Medical Examination for Intercollegiate Student-Athletes

New and returning students planning to participate in intercollegiate sports are required to submit a completed LMU Athletics Department Medical Clearance Form, signed by their private physician, to the Assistant to the Athletics Director prior to their participation in conditioning, practice, and/or competition.
Non-Degree Students

Students wishing to take courses at the University on a non-degree basis must file an application with the Office of Admissions in accordance with regularly stated deadlines. Proof of eligibility to study at the University will be required, including transcripts or other appropriate documents.

Non-degree students will be allowed to study for a period of no more than three semesters or a total of 18 semester hours, whichever occurs first.

Accelerated Degree Options

Advanced Credit

The University offers high school students opportunities to earn advanced credit by enrolling in courses at LMU. For these on-campus courses, high school students must have completed the 11th grade; must rank in the top 10% of their class and carry a B (3.0) or greater average in all academic subjects; and must have earned a B+ (3.3) or better in the subject area of the Advanced Credit course. The special Advanced Credit application is available from the Office of Admissions. This form must be signed by the student's counselor and be supported with an official high school transcript, including PSAT, PACT, SAT I, or ACT scores. Advanced Credit courses carry a special tuition of $50 per semester hour. Students are limited to two Advanced Credit courses per semester.

Advanced Placement

LMU participates in the Advanced Placement Program of the College Board. Students may be granted credit at the time of entrance into the University for subjects in which they have completed the AP examinations with scores of 5 or 4. When official scores have been received from the College Board, applicants will be notified of the advanced placement and course credit in accordance with the following table. Note that an essay is required for all examinations offering optional essays.

* Credit subject to final review by Art faculty.
** Credit subject to final review by Music faculty.
*** Maximum of 9 semester hours of language credit may be granted, whether for language or literature on both exams.
Financial Aid

The Financial Aid Office assists those students who require financial aid to pursue their higher education at Loyola Marymount University. Financial Aid is awarded in the form of grants, scholarships and loans. To be eligible for federal, state, or LMU financial aid programs awarded by this office, students must be citizens or eligible non-citizens enrolled in at least 6 semester hours in an eligible program. Qualified students must not be in default or owe a refund to any federal program.

Some financial aid programs are available for certain study abroad programs. Students should contact the Financial Aid Office to determine if their financial aid can be used to study abroad.

Counseling and information are available to students, prospective students, and parents on a walk-in or appointment basis. Information and application forms are available in the Financial Aid Office.

FINANCIAL AID OFFICE
Xavier Hall
1 LMU Drive, MS 8330
Los Angeles, California 90045-2793
(310) 338-2753 - Fax (310) 338-2793
E-mail: finaid@lmu.edu
http://www.lmu.edu/financialaid

Office Hours
Monday through Friday
8:00 a.m.-5:00 p.m.

Rights and Responsibilities

Financial Aid and Enrollment: All financial aid programs assume the student will enroll full-time in coursework at LMU and will maintain satisfactory academic progress. Student aid applicants who will enroll in fewer than 12 semester hours should notify the Financial Aid Office. Undergraduates are eligible for aid from federal funds if they are enrolled in at least 6 semester hours. Students who will enroll in fewer than 6 semester hours are not eligible for most types of financial aid.

Refund Calculations: When students receiving financial aid are eligible for a refund or a cancellation of LMU charges, their financial aid funding will also be adjusted. The financial aid officer will calculate the adjustment and notify the Controller’s Office/Student Accounts. Any resulting refund, due to a federal financial aid program, will be made by LMU for the student. Any resulting charge will be added to the student’s account. Specific information is available from the Financial Aid Office.

Satisfactory Progress Standards and Financial Aid Probation: Financial Aid probation is more rigorous than academic probation, which is described later in the section on "Academic Policies."

Undergraduate Students receiving financial aid must:

Complete the required number of units as outlined below.

Minimum Units that Must Be Completed If:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

For financial aid purposes, the grades of F, NC, AU, and W will not be counted toward meeting the minimum term hours requirement. Grades of A, B, C, D, and CR will be counted. Grades of I or NR temporarily will not be counted until the final grade is posted. Hours for repeat coursework do not count towards the minimum semester hours required for satisfactory progress.

NOTE: All LMU-funded sources of financial aid as well as California state grants are available for a maximum of eight semesters if all other eligibility requirements are met. Please refer to the Academic Degree Requirements and Policies section of this Bulletin for information on the recommended course load required to complete degree requirements in eight semesters (4 years).

All undergraduate students must also maintain a semester and cumulative grade point average of 2.0.

If a student repeats a course, the course is counted only once, both in the computation of total hours completed and in the cumulative GPA. In this case, the most recent grade received is the one used to determine the student’s status. In determining the cumulative grade point average, only courses completed at Loyola Marymount will be considered.

Students failing to meet the above conditions (completion of minimum term hours and minimum term and cumulative grade point average) are placed on Financial Aid Probation and given two terms from the beginning of the subsequent semester to rectify the deficiency. Students failing to do so are not eligible to receive financial aid.
Renewal Applicants:

1. A Renewal Free Application for Federal Student Aid (FAFSA) must be filed by all students. The Renewal FAFSA is available in January online at http://www.fafsa.ed.gov for those students who completed a FAFSA in the prior year using their federal PIN. Other students will have their renewal FAFSA mailed to them in January.

Renewal applicants are advised to complete the Renewal FAFSA as early as possible and no later than March 2. LMU must have received a valid FAFSA record by April 16 in order for the student to be considered to have filed the FAFSA on time.

2. The Undergraduate Renewal Application for Financial Aid must be filed by all renewal applicants and is available from the Financial Aid office or for download at http://www.lmu.edu/financialaid.

The Undergraduate Renewal Application must be received by the Financial Aid Office by April 16 or be postmarked April 16.

3. All renewal applicants must submit signed copies of their student federal tax forms, all schedules, and W-2s to the Financial Aid Office by April 16.

4. Renewal applicants must submit their parents’ federal tax returns, including all schedules and W-2s, to the Financial Aid Office by April 16 if:
   • Requested by the Financial Aid Office
   • Selected for federal verification
   • Student received the LMU grant in the prior year
   • The student is submitted an appeal or requesting that the Financial Aid Office consider special circumstances

If the student must submit parents’ tax forms and the parents do not need to file a federal tax return, they must submit the LMU parent non-filer form.

Applying for Financial Assistance

Consideration for financial aid begins when the student is admitted to the University. Thus, a student applying for financial aid should also apply for admission and financial aid at the same time.

To apply for financial assistance, it is necessary to file the following forms and information:

New freshmen, transfer students, and continuing LMU students applying for financial aid for the first time:

1. A Free Application for Federal Student Aid (FAFSA) must be filed by all students. The FAFSA form is available from high schools or from financial aid offices around the country, or you can apply online at http://www.fafsa.ed.gov.

   New applicants should file the FAFSA by February 15.

2. The CSS PROFILE, which requires a fee, must be filed by all new applicants, which includes students new to LMU and continuing LMU students applying for financial aid for the first time. The CSS PROFILE registration form is available from high schools or from financial aid offices around the country, or you can apply online at http://www.collegeboard.org/profile.

   New applicants should file the CSS PROFILE by February 15.

3. CALIFORNIA RESIDENTS ONLY: To apply for a new Cal Grant A or B (see Grants), students must complete the FAFSA and GPA Verification form no later than March 2. GPA Verification forms are available at California high schools and at the LMU Financial Aid Office.

4. All new applicants must submit signed copies of student and parents’ federal tax forms, all schedules and W-2s to the Financial Aid Office by April 16.
Programs of Assistance

Academic Scholars

Each year the Scholarship Committee recommends to the President of the University a number of students whose achievements merit exceptional recognition. Recommendations are based upon the potential for academic accomplishment and leadership which is demonstrated in outstanding academic records, GPA and SAT/ACT scores, and in demonstrated leadership in school or community. Academic Scholars receive grants worth $5,000, renewable with a 3.0 cumulative GPA for a total of 8 semesters. These awards are made possible by annual contributions as well as by eight endowment funds:

- Bernard and Catherine Bannan Presidential Scholarship Fund
- Loretta Clougherty Dodd '61 Memorial Presidential Scholarship Fund
- Cyril and Edith Nigg Presidential Scholarship Fund
- Rains Presidential Scholarship Fund
- Seaver Institute Presidential Scholarship Fund
- Joseph M. Sexton Presidential Scholarship Fund
- John A. Teske Presidential Scholarship Fund
- Yerkes/Exxon Presidential Scholarship Fund

Trustee and Presidential Scholars

From among the Academic Scholars, the President will select a very limited number of entering freshmen each year for LMU's top academic scholarship, the Trustee Scholarship, and an additional number to receive the Presidential Scholarship. In addition to the academic and leadership criteria used to select the Academic Scholars, Trustee and Presidential candidates will interview with the Scholarship Committee at LMU. Trustee Scholars receive grants equal to full tuition, room, and board, renewable with a 3.0 cumulative GPA for four years. Presidential Scholars receive $12,500 per year, renewable with a 3.0 cumulative GPA for four years.

Thomas P. O'Malley, S.J., Jesuit High School Scholarships

The University will select one graduate from each Jesuit high school each year for special recognition, based upon superior academic achievement, demonstration of community leadership, and commitment to the ideals of Jesuit education. Scholarship winners will receive renewable grants of $12,500 per year for eight semesters, provided the student maintains a 3.2 grade point average.

Marymount High School Scholarships

The University will select one graduate from each Marymount secondary school each year for special recognition, based upon superior academic achievement, demonstration of community leadership, and commitment to the ideals of Marymount education. Scholarship winners will receive renewable grants of $12,500 per year for eight semesters, provided the student maintains a 3.2 grade point average.

Jesuit Community Scholarships

The Jesuit Community at LMU supports a scholarship fund designed to assist students from Jesuit high schools or other Catholic high schools. Criteria for selection include scholarship, leadership, and Christian service. Scholarship winners receive grants worth $5,000, renewable with a 3.0 cumulative GPA for a total of 8 semesters.

Leadership Scholars

The Scholarship Committee recommends to the Academic Vice President each year an additional number of students characterized by notable contributions to their school or community. While these recommendations presume an excellent academic record, special consideration is given to students who demonstrate exceptional promise as campus or community leaders. The Committee also gives special consideration to students from economically-disadvantaged circumstances.

Recommendations are based upon excellent academic records, active involvement in school and community, and demonstrated potential for leadership on campus and in the community. Leadership scholars receive grants worth $11,500, renewable with a 3.0 cumulative GPA for a total of 8 semesters.

Los Angeles County Scholarships

Instituted in 2001, the Los Angeles County Scholarship is awarded to selected entering freshmen from Los Angeles County who demonstrate distinguished academic achievement and determination to excel in the face of educational and economic disadvantage. Awards range to full tuition and may be combined with federal and state grants.

California Scholastic Federation

Loyola Marymount sponsors four scholarships for CSF Sealbearers. To apply, students must send a copy of their CSF Certificate to the Financial Aid Office by March 1.
Grants

University Grants

Loyola Marymount University funds and administers grants of its own. They include academic scholarships and Loyola Marymount University (LMU) grants. LMU grant eligibility is based on financial need and limited to eight semesters. Transfer students are evaluated individually to determine the equivalent number of semesters completed prior to enrollment at LMU. All coursework completed elsewhere is counted when determining semesters of eligibility for University Grants.

Transfer students who have completed more than 100 units prior to enrolling at LMU are not eligible for University grants.

The Pell Grant program is a federal aid program designed to provide financial assistance to eligible students for postsecondary studies. The amount of the Pell Grant is determined based on the financial resources of the student and parents. Grants range from $200 to $4,050.

The Supplemental Educational Opportunity Grant program is designed to assist those students who would not otherwise be financially able to pursue an undergraduate course of study. The amount of the grant is determined by reviewing the student's financial resources and also the resources of the parents. The amount of the award varies based on the student's Pell Grant and, like other grants, does not have to be repaid.

Cal Grant A is a method by which many students finance their education at the University. This grant is awarded to residents of the State of California and may be used at many approved institutions within the State of California. Normally, the grant is awarded to freshmen students; however, many transfer students and upperclassmen who apply also receive this grant. The grant is normally renewable each year once it has been obtained. Information concerning this grant may be obtained from either the high school counselor’s office or the Financial Aid Office.

Cal Grant B, which is funded through the State of California, is another way students may finance their education at Loyola Marymount University. This program in many cases allows for payment of tuition, books and supplies, and other educational expenses.

Student Employment

The Student Employment Service provides employment assistance to the students of Loyola Marymount University including part-time jobs ranging from 10 to 20 hours a week, part-time/full-time seasonal work during the Christmas and summer vacations, temporary jobs on an hourly basis, and tutoring positions within the student's major field of study. These services are for all students regardless of their financial need. They are primarily off-campus positions.

The Federal College Work Study program is another source of employment for students who qualify based on financial need. This program is funded jointly by the Federal Government and the University. It is designed to create jobs for students at the University; such as library researchers, teaching assistants, laboratory technicians, intramural referees, team managers, etc. Under the Work Study Program, most students will be awarded funds to average 12-15 hours per week during the term. Students are hired for part-time positions for the entire academic year, and they may earn up to the amount listed on their current financial aid award letter.

The Student Worker program is another employment program designed to give resident students an opportunity to earn an education by working on campus. The Student Worker Organization is an autonomous group that is primarily student-directed and -operated. Jobs include maintenance, recycling, and clerical and miscellaneous tasks for departments on campus. To apply, students should contact the Student Worker office at (310) 338-5013.

Loans

Many types of financing options are open to students and parents.

The following loans require the student to apply for financial aid (see the Applying for Financial Aid section) to determine eligibility:

Perkins Loan is a low-interest loan available to students who qualify for the Federal Pell Grant. Students may borrow a sum normally not to exceed $4,000 per year. After students leave school, they have a 9-month grace period before interest begins to accrue. The loan must be repaid on a quarterly basis at a rate of usually not less than $120 per quarter. If a student defaults and the school is unable to collect, the Federal Government may take action to recover the loan. Under certain conditions there are loan deferment and/or cancellation provisions for borrowers. The Office of Financial Aid provides information about such provisions.
The Stafford Student Loan is a low-interest federal loan made by a bank, credit union, or savings and loan. First-year students can borrow $2,625; second-year $3,500; and third-, fourth-, and fifth-year students can borrow up to $5,500. Students who qualify will not be charged interest on their loans while they are enrolled at least 1/2 time (6 semester hours) in an eligible program. Students who do not qualify to have their interest paid by the federal program may still borrow an unsubsidized Stafford loan. They will pay the interest on their loan during the periods of enrollment.

The Parent Loan for Undergraduate Students (PLUS) is a low-interest federal loan made by lending institutions to parents who have good credit. Parents may borrow up to the total cost of their dependent student's education, minus any other financial aid. The PLUS interest rate is variable up to 9%. A loan origination fee and an insurance premium is charged. Parents must begin repayment within 60 days of final disbursement. Contact the Financial Aid Office for the current interest rate.

Fritz B. Burns Loan Fund
This loan is available for freshmen who are not from California and have been awarded one of the LMU's merit scholarships. This loan is renewable for 4 years. Interest is 3% while the student is in school and 8% during repayment. A parent signature is required as a co-borrower. Parents may not borrow from both this program and the federal PLUS program.

LMU California Student Loan Fund
A loan offered to freshmen who graduated from a California high school, are U.S. citizens, and have been awarded one of LMU's merit scholarships. This loan is renewable for 4 years and is interest-free. A creditworthy parent co-borrower is required and credit check is required annually to renew. All proceeds must be used for direct LMU charges including tuition, fees, campus housing, and meal plans.

K. Miyawaki Loan Fund
A revolving loan fund established by Dr. and Mrs. Edison H. Miyawaki to help financially needy students with good academic records, with preference given to students from Hawaii.

Scholarships
Loyola Marymount University acknowledges its gratitude to the generous donors who have contributed scholarship funds to the University.

Most scholarships are awarded by the Financial Aid Office and do not require that students complete a special application. However, to be considered for a scholarship, students must apply for financial aid as stated on page 35 of this Bulletin.

Scholarships that require a separate application will be advertised either on the Financial Aid website or by a direct mailing to eligible students throughout the school year.

The following scholarships require a separate application:

AFROTC College Scholarship Program
Four-year scholarships are available to highly qualified high school senior students interested in becoming Air Force officers. Scholarships are awarded based on needs of the Air Force, not necessarily the financial need of the applicant.

The Air Force ROTC also offers three-year scholarship opportunities to college freshmen. Two-year scholarships are available to all college students with two years of academic work remaining, either undergraduate or graduate. One-year scholarships are available to students majoring in career fields in which the Air Force has a shortage, such as engineering. Scholarships pay all or a portion of tuition, books, fees, and a stipend of $250-400 per month.

Boeing Space Systems Scholarship
For students from Westchester High School who are engineering or computer science majors. This award is renewable for four years and covers tuition and books. In addition, Boeing offers a summer job and job offer upon student's graduation.

Coca-Cola First Generation Scholarship
This scholarship is awarded every other year (even-numbered years) to incoming freshmen who demonstrate involvement and leadership in community and campus activities. High school seniors need to apply through their high school and the official Coke brochure.

Communication and Fine Arts Scholarship Fund
Selection is based on talent and experience.

Richard A. Hollow, Jr., Memorial Scholarship
Named in memory of a former LMU student, this scholarship will be awarded to students who demonstrate merit and need and who are involved in church and community activities. This scholarship is awarded annually on the anniversary of Richard's passing.

Lewis A. Kingsley Foundation Scholarship
Applicants must be employed. Available only to continuing students with minimum cumulative GPA of 2.0.

Mexican American Alumni Association Scholarship
Scholarship assistance for current students of Hispanic descent, up to $2,000 each. Apply to Chicano/Latino Supportive Services.
Ralph M. Parsons Memorial Scholarship
Applicants must be related to an employee of the Ralph M. Parsons Company.

Los Angeles Philanthropic Foundation Scholarship
Provides financial assistance for continuing students who maintain a 3.0 GPA and participate in community or University organizations.

Pike/Christopher Scholarship Fund
Awarded to students who exemplify the qualities of high moral integrity, love of one’s fellow man, truthfulness, a strong commitment to religious and moral principles, devotion to duty and to the service of others, courage of conviction, and leadership. Donated by Mr. and Mrs. Thomas P. Pike. Application deadline is approximately April 30 each year.

Mabel Wilson Richards Scholarship
Applicants must be needy female Los Angeles County residents with at least a 3.0 GPA. Forms available in the Financial Aid Office during the Fall semester of each year.

Donald A. Strauss Public Service Scholarship
$10,000 scholarship for senior year students interested in public service. Application procedure includes a proposal on a public service project.

TELACU Scholarship
Provides scholarship assistance to freshmen Hispanic/Latino students who graduated from specified East Los Angeles area high schools or continuing and transferring students from selected colleges or universities. See application for further requirements.

Margaret Tritle Rome Scholarship
Awards are based on merit and need. Applications must be directed to the director of the Rome program.

Sharon Walter Memorial Scholarship Fund
Awarded to students majoring in art and art history who have demonstrated superior academic achievement. Financial need is not a consideration. Forms available in the Financial Aid Office.

John F. Warwar Scholarship Program
Scholarship assistance to seniors from high schools in the harbor area majoring in engineering, science, or business.

Scholarships that do not require a separate application are listed according to the specifications made by their donors.
John and Dorothy Shea Foundation Scholarships
Strople Family Scholarship Fund
The Gertrude H. Stuart Scholarship Fund
Tiger International Scholarship Fund
UPS Foundation Scholarship
Washington Mutual

Mary Adams Balmat Scholarship Fund
Provides scholarships for financially needy undergraduate students with exceptional academic promise.

Bank of America/ICSC Scholars Program
Provides scholarship assistance to students entering junior year.

Bannan/Western Gear Engineering Scholarship Fund
Financial assistance awarded to engineering majors.

Virginia Barnelle Scholarship Fund
Established in honor of Miss Virginia Barnelle for theatre arts majors.

Dr. Halbert Blair Memorial Scholarship
Provides financial assistance to a music/voice major in memory of Dr. Blair.

Albert R. Broccoli Scholarship Fund
Provides assistance to needy and deserving students studying film.

Russ Buckley Memorial Athletic Scholarship Fund
Provides scholarships to fifth-year student athletes or undergraduate student athletes who have completed NCAA Division I eligibility or undergraduate student athletes who have been injured and can no longer compete at the NCAA Division I level.

Sr. Martin Byrne Memorial Scholarship
Award to be given to an undergraduate finance student for senior year tuition support.

Otto A. Carabba III Scholarship Fund
To be awarded to a female senior majoring in English with at least a 3.0 GPA. Recipient selection based on either financial need or academic achievement.

E. Frank Casado Scholarship
Provides scholarship assistance to financially needy students interested in music, politics, or journalism. Preference given to Latino students.

The following scholarships are designated for students in Accounting or Business and are administered by the Financial Aid Office and/or the College of Business Administration:

Accounting Alumni Scholarship
Argyros/ICSC Scholarship
Arthur Andersen & Co. Accounting Scholarship
Arthur Andersen & Co. Scholarship Fund
Business Affiliates Scholarship Fund
Deloitte & Touche Scholarship
Ernst & Young Scholarship
William J. McIntosh, S.J., Scholarship Fund
KPMG Peat Marwick Scholarship
Moss Adams, LLP, Scholarship
Pfizer Business Scholarship
PricewaterhouseCoopers Scholarship
Xerox Scholarship Fund
Arthur Young & Co. Scholarship

The following scholarships are administered by the Financial Aid Office according to the stated donor requirements:

Alpha Delta Gamma Scholarship Fund
Provides financial assistance to sons or daughters, brothers or sisters of Alpha Delta Gamma alumni from the Lambda Chapter.

Alpha Sigma Nu Scholarship
Awarded to outstanding students with financial need.

Robert and Lois Atherton Scholarship
For students majoring in engineering or business.

Georgianna “Charlie” Atol Memorial Fund
Award based on financial need for student who is enrolled as an undergraduate in the English department.

ANA Scriptwriting Award
Students are selected based upon a demonstrated television writing ability and an interest and skill for writing for family.

Avery Dennison Scholarship
Provides financial assistance to needy students with first preference to children of Avery Dennison employees.

Avery Dennison Careers in Education Scholarship
 Provides financial assistance to a senior who is planning a career in teaching in the public school system. Preferences for minority students.
Edna Van Wart Castera Fund
Financial assistance for needy and worthy female students.

Catholic Press Council Scholarship Fund
Awarded to senior or graduate student in the College of Communication and Fine Arts and based on creative promise and demonstrated productivity. Preference given to students who without this assistance could not complete their creative project.

CFA Council Scholarship
This scholarship is selected by the Communication and Fine Arts Council headed by the Dean of CFA. Each participating CFA department selects candidates.

Fr. Maurice G. Chase Scholarship Fund
An endowed fund established by Mr. and Mrs. Michael McCarthy in honor of their long-time friend and University administrator. Income from this fund is used to provide financial aid to deserving students from poor families who would not otherwise be able to attend the University.

Rev. Peter Ciklic Memorial Scholarship Fund
To be awarded to deserving undergraduate or graduate students majoring in psychology.

Class of 1952 Alumni Scholarship Fund
Established by Loyola University class of 1952 for deserving children of alumni.

Class of 1972 Alumni Scholarship Fund
Available to sons and daughters of alumni based on academic achievement and financial need.

Warren and Elizabeth Conrad Scholarship for the Blind
Provides financial assistance to students who have been declared blind or legally blind.

John Charles Cosgrove Scholarship
Provides financial assistance for students enrolled in the College of Communication and Fine Arts, in honor of John F. Cosgrove's father, John Charles Cosgrove.

Rev. Jerome L. Cummings Scholarship Fund
Provides financial assistance for needy entering freshman student with a 3.0 high school GPA from the South Coast area and majoring in business, engineering, or science.

Daguierre Fund
Recipients are preferably from Orange County.

Frank and Mary L. Daley Memorial Scholarship
Awarded to students enrolled in a pre-law, pre-medical, or graduate program at Loyola Law School.

Myles P. Dempsey Scholarship
Provides scholarships for needy out-of-state students from low or middle income families.

Mary S. DeMartini Memorial Scholarship
Preference given to science or pre-med students engaged in studies which might lead to improved understanding or care of human eyes, ears, and throats.

James M. and Dorothy E. Deveny Scholarship
Awarded to a deserving mathematics major.

George A.V. Dunning Music Scholarship Fund
Established by George A.V. Dunning to provide financial assistance for piano, voice, and stringed instrument majors.

Escarde Scholarship Fund
Scholarships are awarded each year to graduates of Loyola High School.

Paul Feit Memorial Scholarship
Awards are given to deserving entering freshmen who are graduates of Mater Dei High School and who demonstrate financial need.

William F. Fitzgerald Scholarship Fund
Provides financial assistance for needy minority students preferably enrolled in the Bellarmine College of Liberal Arts.

J. Simon and J. Robert Fluor Memorial Scholarship
Awarded to a senior student needing financial assistance to complete college.

Charles Robert Forgnone Memorial Scholarship
Provides assistance for studio arts majors with financial need, in memory of Mr. and Mrs. Robert Forgnone's son, Charles.

Franciscan Scholarship Fund
Scholarship assistance for Franciscan Fathers of the Western Province.

Andrea Kingaard Friedman Award
This scholarship is awarded to new freshmen and transfer students majoring in art and art history.

Andrea Kingaard Friedman Scholarship
Provides a scholarship to an outstanding art student, in honor of Sr. Genevieve Underwood, R.S.H.M.

Eudice L. Friedman Memorial Scholarship Fund
Established by University Regent Dan Friedman in honor of his late wife to aid women preparing for a career in medicine.

Garvin Annual Scholarship
For students majoring in business or the liberal arts.

George W. Goman Scholarship Fund
Provides scholarship assistance to needy students who have been residents of Los Angeles County for at least five years prior to application for admission to LMU.
 Getty Music Scholarship  
Provides assistance to incoming freshmen who are majoring in music and who show promise in the field of music.

Dr. Peter J. Haen Scholarship  
Awarded to undergraduate biology majors doing research in the field of biology.

Andrew L. Hannon Electrical Engineering Scholarship Fund  
Provides financial assistance for junior or senior students majoring in electrical engineering demonstrating promise for successful completion of studies.

Eugenie B. Hannon Scholarships  
Awarded to freshmen with financial need, academic promise, potential leadership, and school or community involvement.

Eugenie B. Hannon Engineering Scholarship  
Provides financial assistance to sophomore, junior, or senior students who are majoring in engineering.

William H. Hannon Science and Engineering Scholarship  
Awarded to freshmen entering the Frank R. Seaver College of Science and Engineering.

William H. Hannon Science and Engineering Scholarship for Upperclassmen  
Provides assistance to upperclassmen from the Frank R. Seaver College of Science and Engineering who are U.S. citizens and have been residents of California for at least two years.

Julian Hatcher Scholarship Fund  
Provides financial assistance to seniors majoring in electrical engineering.

Brenda Renee Horn Memorial Scholarship  
Preference given to females majoring in business or pre-law.

Truman Hutton Fund  
Scholarships for music majors, with an emphasis on string players.

Amparo Iturbi Music Fund  
Scholarship fund established by Jose Iturbi in memory of his sister, Amparo Iturbi, for music majors, particularly those specializing in piano.

Harry Johansing, Sr., Memorial Fund  
A scholarship in memory of Harry Johansing, Sr., donated by Mr. Joseph L. Flaig.

Howard A. and Shirley V. Jones Scholarship Fund  
Provides financial assistance to female juniors or seniors enrolled in the College of Business Administration.

Rev. Alfred J. Kilp, S.J., Alumni Scholarship Fund  
Provides financial assistance for sons and daughters of alumni with evidence of personal character and involvement in school and church activities.

Nelly and John B. Kilroy  
This scholarship provides financial assistance to graduating seniors.

John and Maria Laffin Scholarship  
Scholarships awarded to full-time students in the Asian and Pacific Studies Program.

Thomas E. Larkin, Jr., Scholarship  
For students committed to leadership and service and who also demonstrates financial need.

Latino Scholars Program  
Provides financial assistance to bilingual and bicultural students who plan a career in business.

Laurel and Hardy Scholarship Fund  
Provides assistance for talented students in the College of Communication and Fine Arts with financial need.

Michael Leahy Scholarship in the Humanities  
Awarded to an LMU junior or senior enrolled in a humanities class but majoring in a field other than humanities.

Magda E. Lempart Memorial Scholarship  
This scholarship provides financial assistance to students studying the Romance languages.

Liberal Arts Scholarship Fund  
Income from this fund provides financial aid to students majoring in the liberal arts.

The Lipsky Family Scholarship in Memory of Irving and Edith Lipsky  
For students majoring in the sciences.

Harold Lloyd Memorial Fund  
Partial scholarships for undergraduate and graduate students majoring in motion picture film production.

Rev. James N. Loughran, S.J., Scholarship Fund  
Awarded to undergraduate, graduate, and Law School students. Recipients are selected by the President of the University.

Loyola Marymount Guild Fund  
Established by contributions from the Loyola Marymount Guild.

Loyolan L.A. Catholic High School Scholarship  
For students who graduated from a Catholic high school in the Los Angeles Area.

</tbody>
</table>
Nanette Salamunovich Goodman Scholarship
The recipient of this grant must be a member of the University Choruses and have a good scholastic record. Selection will be based on talent and dedication to choral singing and not on financial need.

Clarence K. Santo Memorial Scholarship
Awarded to needy and deserving incoming freshmen.

Louise G. Sauvage Memorial Scholarship Fund
For females majoring in journalism, pre-medicine, or any of the liberal arts.

Sister Agnes Marie Schon, C.S.J., Scholarship
Provides financial assistance to a deserving Hispanic female student in honor of Sr. Agnes Marie’s dedicated service to Loyola Marymount University.

Elsbeth Schulz-Bischof Memorial Scholarship Fund
Provides annual award for either a student study/travel summer fellowship in western Europe or a fellowship for study for a worthy student in modern languages.

Anthony Francis and Bessie Joanna Sidlow Memorial Scholarship Fund
Provides financial assistance for female students majoring in business administration or engineering. Priority given to students of Czechoslovakian descent, followed by students of European heritage.

Peter Stankovich Memorial Scholarship
Priority given to needy and gifted students of Croatian or Slavic descent.

John Stauffer Memorial Fund
Preference given to students taking courses in the physical sciences, particularly chemistry.

Robert H. Taylor, S.J., Scholarship
Awarded on the basis of merit to students majoring in philosophy.

Howard Towner Memorial Scholarship
Provides scholarship assistance to students in biology.

Fred H. Trickett Memorial Scholarship Fund
Preference given to needy fatherless or orphan students.

Union Bank/ICSC Scholarship
Scholarship assistance for needy California residents.

David William Upham, Jr., Memorial Scholarship Fund
Awarded to student majoring in film.

Giovanni Vai Fund
Partial scholarship for students of Italian descent of Southern California.

Jack A. Vanier Fund
Contributed by Kieran F. Vanier ’37 for aid to a student majoring in music.

Marjory K. Vanier Memorial Scholarship Fund
A perpetual award for female students enrolled in either the Bellarmine College of Liberal Arts or the College of Communication and Fine Arts.

Manny Varela Scholarship Fund
Provides scholarship assistance for a graduate of Cantwell High School.

Linda Von der Ahe Scholarship Fund
Provides financial assistance primarily to graduates of Catholic high schools on the basis of service, academic achievement, and leadership potential.

Western Italian Golf Association Scholarship Fund
Provides financial assistance to a student of Italian heritage.

James Wong Scholarship Fund
Provides financial assistance to film and/or television students.

Michael J. Wright Fund
To be awarded to undergraduate mathematics majors.

Franco Zeffirelli Communication Arts Scholarship Fund
Income from this fund is awarded to students in the College of Communication and Fine Arts.

Robert W. Zinn Memorial Scholarship Fund
Provides financial assistance to MBA students with an emphasis in marketing.

Archbishop Zwijsen Scholarship
An annual scholarship established by the Brothers of Our Lady, Mother of Mercy, for deserving and needy students, with preference to those in a pre-health program.
Tuition and Fees

The tuition charge supports the instructional program and general services of the University, such as ordinary health services, various counseling services, lectures, intercollegiate athletic events, and the library.

Regular Tuition

Undergraduate Full-Time Students
(programs of 12 through 18 semester hours):

- per academic year .................................. $25,266
- per semester ......................................... $12,633

Special Tuition

Part-Time Undergraduate Students
(Unit Rate for 11 semester hours or less and overload
hours in excess of 18):

- Undergraduate Students
  per semester hour ................................ $1,052
- Auditors, per semester hour ....................... $263
- High School Advanced Credit,
  per semester hour ................................ $50

Residence Hall Fees

- Housing Deposit .......................... $250 mandatory
  This deposit is applied to the room charge but is
  forfeited by those who fail to register.

- Desmond, Doheny, Rosecrans, Whelan Halls
  double room, per academic year ........ $5,716

- Huesman and Sullivan Halls
  per academic year ............................ $5,716

- McKay Hall
  double rooms with adjoining baths,
  per academic year ............................ $6,121

- McCarthy and Rains Halls
  double rooms with adjoining baths,
  per academic year ............................ $6,493

- Leavey Center ................................. $6,121

Housing cost applies to the academic year only. Additional costs are added for special living accommodations and single or private accommodations. Students who live on campus during recess periods will be charged a daily rate as indicated in their lease agreement. Summer Session Housing fees are additional.

Apartment Fees

The University has beds in completely furnished apartment-style residence halls on campus. Each apartment accommodates four students in two bedrooms with adjoining bath and a living room with a pullman-style kitchen.

- Hannon and Tenderich Apartments
  per academic year ................................ $7,271

- O'Malley/Leavey IV and V Apartments
  per academic year ................................ $7,742

- Loyola Houses 8000 and 8001 .................... $6,975

Apartments are open during recess and semester breaks.

Board Programs

The various plans are referred to as Lion Dollar Plans. All students living in non-apartment residences are required to purchase a plan. Special dietary food may be obtained by arrangement. Four plans are offered by Sodexho Marriott Food Services. Both the Malone Center and University Hall dining facilities will feature restaurant-style food selections on a declining balance, à la carte basis. Lion Dollar Plans are not refundable.

- Plan L, per academic year ..................... $3,600
- Plan I, per academic year ..................... $2,700
- Plan O, per academic year ..................... $2,250
- Plan N, per academic year ..................... $1,800

Commuter students and apartment residents may purchase any of the plans listed above or may open a Plan S account with a minimum value of $100 or multiples thereof.

(These rates are subject to change.)

Other Fees

- Accident Insurance
  (mandatory for 7 or more units) ............. $100

- Admissions Application Fee .................. $50

- Commitment Deposit ......................... $250 mandatory
  The commitment deposit is a one-time non-refundable fee required by all entering and transfer students admitted.
## Orientation Fee
(mandatory for entering freshmen and transfers):
- Fall entry ................................................. $185
- Spring entry ............................................. $90

## Registration Fee, per semester (mandatory):
- Full-time .................................................. $50
- Part-time .................................................. $25
- Summer Session ........................................ $50

## Sickness Insurance
(mandatory for 7 or more units, unless proof of coverage provided) ........................................ $390

## Student Activity Fee
(mandatory for full-time undergraduates):
- per academic year (full-time) ................. $125
- per semester hour (part-time) ................. $5

## Student Recreation Facility Fee
(mandatory for all full-time undergraduate students, voluntary for all part-time and graduate students):
- per academic year ................................... $120
- per semester .......................................... $60
- guests of students ................................. $5 per visit

## Media Fee
(mandatory for full-time undergraduates) ................. $45

## Miscellaneous Fees—Generally all miscellaneous fees are non-refundable unless stated otherwise and due when charged to your Student Account.
- Collection Cost ........................................... $75 minimum to a maximum of 40% of the outstanding balance
- Credit Card/Debit Convenience Fee
($3 per $100 transaction) ........................................ $5
- Credit by Examination ................................. $50
- Deferred Payment Fee
  - Standard Payment Plan Fee ......................... $90
  - (12) & (10) Auto-Check Payment Plan Fee .... $45
  - Semester and Company Reimbursement ......... $90
- Directed Teaching Fee, per semester hour:
  - Elementary ........................................... $25
  - Secondary ............................................ $25
- Duplicate billing fee (duplicate statements and/or expense letters) ........................................ $7
- Equipment Insurance Fee ........................................ $5
- Late Financial Clearance Fee .............................. $75
- Late Payment Fee (monthly) ................................ $75
- Replacement Charge for OneCards ......................... $15
- Returned Check Charge ................................ $25
- Rush Transcript ........................................ $10
- Teacher Placement Fee ................................ $30

Certain courses may also require mandatory laboratory fees. Check with departments.

Any unpaid fines or charges (such as parking, library, delinquent telephone charges, property damage) or any miscellaneous charges incurred by a student while in attendance at the University will be charged to the student’s account. Certain fees deemed optional are required to obtain that good or service.

The tuition, fees, and other charges described above are good faith projections for the academic year. They are, however, subject to change from one academic term to the next as deemed necessary by the University in order to meet its financial commitments and to fulfill its role and mission.

There are other fees and charges unique to certain programs that are dependent upon a student’s matriculation at the University. These fees or charges may be determined by contacting the University offices that administer those programs or activities in which the student intends to enroll or engage.

### Estimate of Charges

Since each student may elect various services with associated charges, it is not possible to determine precisely all student charges before registration. However, the following schedule estimates the charges for one academic year for a typical freshman undergraduate resident exclusive of entertainment, transportation, sickness insurance, or other personal costs:

<table>

</tbody>
</table>

* Assumes Lion Dollar Plan I.
** Assumes Lion Dollars S Plan only.
*** Financial Aid Budget may vary due to individual circumstances.
Payment of Student Charges

Tuition, fees, and board charges are payable by the semester. Financial clearance is necessary prior to registration and subject to Late Financial Clearance/Defeferment Fee after the deadline. Clearance may be obtained from the Controller’s Office at the time of payment or by making arrangements for the payment plan described below.

Registration for classes may be canceled for any student whose payment check for tuition or fees is returned unpaid from the bank or who has defaulted on payment arrangements.

Financial clearance cannot be granted, and preregistration will not be permitted, if a student's account is delinquent.

Failure to pay tuition and other outstanding debts will result in the withholding of the academic transcript. The student diploma will not be released until all debts are satisfied in full. Students are prohibited from future registrations due to delinquent accounts.

Sickness Insurance

The annual Sickness Insurance fee of $315 (estimated) is mandatory for students who are U.S. citizens taking 7 or more units. Domestic students may waive coverage by submitting the appropriate form to the Controller’s Office by September 1, 2004. Students entering for the first time or returning to the University during the Spring 2005 semester and taking 7 or more units will be charged a prorated amount for the Spring semester unless a waiver form is submitted to the Controller’s Office by February 1, 2005.

International (Visa) students, regardless of the number of units in which they are enrolled, must purchase the Mandatory International Student Sickness Insurance. The International Sickness Insurance may not be waived, and the cost is $390 (estimated) for single coverage. Higher premiums may be charged depending upon marital status and number of dependents.

(Accident Insurance is mandatory for all students registered for 7 or more units and may not be waived.)

Monthly Payment Plan

Parents who prefer to meet educational expenses out of monthly income rather than in a single payment at the beginning of each semester may apply for the University’s annual 10-month or 12-month payment plan. The 10-month payment plan requires the first two months’ payments to start the plan. The plan requires a $90.00 fee for enrollment; however, interest is 0% on the outstanding balances. The 10- or 12-month Debit Checking Plan requires a $45.00 enrollment fee and is a 0% interest plan. The 12-month plan is for Automatic Checking Deduction only. A monthly late fee is assessed on students who fail to make their payment by the end of each month. Students may take advantage of the Automatic ACH Debit Checking feature that allows a one-time authorization followed by regular monthly charges and deductions. Debit cards are accepted.

Certificate of Eligibility for Veterans

All expenses incurred by a veteran that have not been properly authorized by the Veterans Administration must be paid by the veteran. Therefore, it is the responsibility of every veteran to see that papers are in proper order at the time of the first and each subsequent registration. Also, all veterans who are receiving benefits for educational expenses are required to contact the Student Financial Aid Office.

The University is required by the Veterans Administration to report failure on the part of the student to complete 75% of the semester hours attempted in any given term. Benefits to a veteran who fails to complete 75% of the semester hours originally enrolled in may be suspended. Counseling by the Veterans Administration will be required before the student enrolls for another term with benefits. The Veterans Administration’s Advisement and Counseling Service is a free service provided under Federal Law. Failures, withdrawals, and NCs are not recognized as making satisfactory progress.

Refunds/Cancellation

Refunds for tuition and/or housing are made only after a complete withdrawal or leave of absence from the University (dropping all courses) has been processed by the Office of the Registrar and, in the case of a resident student, also by the Housing Office. For resident students, if the official withdrawal dates from the Registrar and Housing Offices are different, the respective dates will be used for tuition or housing refunding purposes. See the accompanying table for the allowable refund percentage.

Meal plans are non-refundable. A student should complete the Withdrawal/Leave of Absence form in the Office of the Registrar and, if a resident student, the withdrawal form in the Housing Office.

The University strives to meet the expectations of its students and tries to act compassionately in a time of crisis that interrupts a student’s semester studies so that she/he cannot or should not finish the semester. In an attempt to ease the cost of tuition, the refund policy is in place to allow for a sliding refund for those who withdraw from all courses in a given semester according to the following schedule. This policy applies to, but is not
limited to, the following leave or withdrawal reasons:
hospitalization, illness, moving out of the area, employment changes/relocation, and family-related emergencies.

No refund may be given for registered courses which a student did not attend and did not withdraw from within the full refund period. No refund or cancellation is granted to a student who withdraws from a portion of his/her program after the end of the 100% Drop/Add period. Consult the following refund schedule for the academic category corresponding to your enrollment and type of program.

The University's Federal Aid refund policy complies with the Higher Education Amendments Act.

**Refund Payments**

Refund credits are applied to the student’s account. Refunds of credit balances will be made in accordance with Federal guidelines. Refunding of credit balances is subject to a holding period until verification that funds received have cleared the University’s bank. Refund payments are issued in the name of the student unless written authorization from the student is received to the contrary.

**Security Interest in Student Records**

A student may not receive a diploma, certificate, or transcript until all accounts, current or otherwise, have been settled in accordance with University and Agency requirements. Students with delinquent accounts will be prohibited from future registration until all balances are resolved to the University’s satisfaction. Such documents and services will be retained by Loyola Marymount University as security for such obligations until they are satisfied.

If a student defaults on payment of a Federal Perkins Student Loan, a Federal Family Educational Loan, or an Institutional Loan, or if a student fails to satisfy exit interview requirements, a security interest in records and services will remain in effect until debts and requirements are satisfied. Unpaid accounts are reported to the three major credit reporting agencies. Exit interviews are administered through the Student Loan Office and the Financial Aid Office.
University Core Curriculum
University Core Curriculum

Goals and Objectives of the Core Curriculum

Consistent with the goals of the University and with the desire to provide undergraduate students with an education founded strongly in human values, Loyola Marymount University has adopted the following goals and objectives.

**Goals:**

- To provide a strong undergraduate humanistic education within the traditions of the Society of Jesus and the Religious of the Sacred Heart of Mary.
- To foster the desire for knowledge and to provide the skills necessary for a lifetime of intellectual growth in a global society.
- To prepare students to play active roles in addressing the problems and challenges they will face in attempting to create a just world.

**Objectives:**

- To develop an understanding of religious experience and beliefs, with particular attention to theological questions as addressed by Catholic Christianity.
- To develop a habit of philosophical reflection.
- To develop an understanding and appreciation of the history of humankind in the arts, literature, and philosophy.
- To develop a knowledge of the structures, values, and practices of contemporary societies.
- To develop the arts of precise and elegant expression in speaking and writing.
- To develop the skills of critical thinking.
- To develop quantitative skills and an understanding of the history and principles of mathematics and science and technology.
- To cultivate and engage the creative imagination.
- To explore ways to live more fully and to act more responsibly within a culturally diverse world.

The following core curriculum encourages intellectual breadth. No matter the student's major, all students should be acquainted with the nature of discourse and practice in the major areas of knowledge that will prepare students for life after Loyola Marymount University.

Students should consult the College or School sections of this Bulletin for core curriculum requirements specific to each College or School.

**Core Curriculum Requirements**

- American Cultures
- College Writing
- Communication or Critical Thinking
- Critical and Creative Arts
- History
- Literature
- Mathematics, Science and Technology
- Philosophy
- Social Sciences
- Theological Studies

**American Cultures**

American Cultures courses will examine and compare the American experience of at least three of the following groups: African American, American Indian, Asian American, Chicana/o-Latino/a, and European American. The objective of these courses is to explore the contributions of these groups to human knowledge and development. Classes will also explore the varieties of cultural expression, behavior, and interaction.

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS.

A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

**College Writing**

**Proficiency in Writing**

All entering first-year students will demonstrate writing proficiency by completing an essay administered in all English 110 sections during the first week of classes. Based on performance in this essay, students will remain in ENGL 110 or be placed in ENGL 100 (English as a
Critical Thinking

The course in critical thinking helps students to improve their reasoning skills through a study of logic and its application to several types of argumentation, both oral and written. The students are taught both the technical skills of argument evaluation and the other skills needed to construct sound arguments and debates.

Critical and Creative Arts

Critical Arts

Critical Arts courses are those courses in the history and theory of the arts which analyze artistic works in their social contexts as well as the aesthetic expectations and conventions which inform them.

Creative Arts

The objective of courses in the Creative Arts is to develop individual expression through exploration, analysis, and creation of artistic works.

History

This category of courses analyzes the major concepts, ideologies, and movements that have dominated the course of civilization in order to develop in students the historical perspective necessary to better understand the global society in which they live.

Literature

Prerequisite: Successful completion of college writing requirement.

Core literature courses enhance students’ understanding and appreciation of literary works. A study of fiction, poetry, or drama familiarizes the students with both the strategies available to the fiction writer, poet, or playwright in creating the literary work and the variety of critical approaches for analyzing and evaluating literature.

Mathematics, Science and Technology

Proficiency in Mathematics

All students must demonstrate proficiency in mathematics. The mathematics course(s) required for a student to demonstrate mathematics proficiency teaches the student the quantitative and analytic skills needed to function as an informed citizen in an increasingly technological world.
Any student with a grade of 4 or 5 on at least one of the Calculus A/B, Calculus B/C, or the Statistics Advanced Placement Examinations has already demonstrated proficiency in mathematics.

Students in the College of Communication and Fine Arts and students in the Bellarmine College of Liberal Arts who are NOT required to take a mathematics course as part of their major requirements normally demonstrate proficiency in mathematics by receiving credit in Quantitative Skills for the Modern World (MATH 102). The Mathematics Placement Examination is not necessary for enrollment in this course.

Students in the College of Business Administration, the Frank R. Seaver College of Science and Engineering, and the Bellarmine College of Liberal Arts majoring in economics or liberal studies demonstrate mathematics proficiency by receiving credit in the mathematics courses required by their particular majors. These students must take the Mathematics Placement Examination to determine placement in appropriate classes. If the results of this placement examination indicate, students are required to enroll in and pass Algebra (MATH 101) before they qualify to enter the mathematics course required by their major. In all cases, mathematics proficiency is met only after receiving credit in the mathematics coursework required by the major.

Psychology majors demonstrate mathematics proficiency by passing Elementary Statistics (MATH 104) with a grade of C (2.0) or better. These students do not take the Mathematics Placement Examination but enroll directly into Elementary Statistics (MATH 104).

Special Circumstances

- Students desiring to take MATH 106, 111, 112, 120, 122, or 131 in order to fulfill the mathematics proficiency requirement should see their advisor for appropriate action. The Mathematics Placement Examination is required before taking any of these courses.

- Transfer students should see the Dean of their College or School for specific information.

All students should see their individual College or School section in the Bulletin and their major requirements described in the Bulletin for further specific information.

Mathematics, Science and Technology Courses

Prerequisite: Credit in MATH 101, 102, 104, or placement into MATH 106 or higher.

These courses introduce the student to the methodology and mathematics used in a field of mathematics, science, or engineering as well as provide a more in-depth study in a specific area. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Philosophy

The lower division core course is designed to introduce students to the nature of philosophy as a discipline and to address selected central metaphysical and epistemological issues surrounding the question of human nature.

Upper division courses examine questions that a person asks in order to form an intelligent philosophy of moral choice, with particular attention to those moral concepts that have been most important in shaping Christian culture. The approach may emphasize either the major moral theories or selected contemporary moral problems.

Social Sciences

These courses will introduce students to systematic, empirically grounded investigations of individuals and the structures, values, and practices of contemporary societies. Students develop conceptual and analytical skills necessary to understand the economic, political, psychological, cultural, and/or social conditions that influence our lives.

Theological Studies

A general objective of Theological Studies courses is for students to face the issues of religious beliefs and their consequences in their lives.

The objectives of the lower division core courses are to examine the nature of religion, the nature of Christian faith, and the methods for understanding scripture.

The objectives of the upper division core courses are to deepen the students’ knowledge of at least one of the three areas covered in the lower division course under one of the following categories: biblical theology, historical theology, systematic theology, moral and practical theology, and world religions.
**Note: International/Global Studies**

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America.

**Recommendations**

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

**Business**
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

**Computer Skills**
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

**Foreign Language**
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

**International/Global Studies**
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

**Study Abroad**
A semester of international study abroad is also recommended. Consult the Study Abroad office.
Academic Degrees and Programs

Undergraduate Degrees and Major Programs with Areas of Concentration

Loyola Marymount University offers courses leading to the following undergraduate degrees:

- B.S. in Acc. . . . . Accounting
- B.A. . . . . . . . . . African American Studies
- B.A. . . . . . . . . . Animation
- B.S. . . . . . . . . . Applied Mathematics
- B.A. . . . . . . . . . Art History
- B.A. . . . . . . . . . Asian and Pacific Studies
- B.S. . . . . . . . . . Biochemistry
- B.A. or B.S. . . . Biology
- B.B.A. . . . . . . Business Administration
  - Business Law
  - Computer Information Systems and Operations Management
  - Finance
  - International Business
  - Management
  - Marketing
  - Travel and Tourism
- B.S. . . . . . . . . . Chemistry
- B.A. . . . . . . . . . Chicana/o Studies
- B.S. in E. . . . . . . Civil Engineering
  - Environmental Engineering
- B.A. . . . . . . . . . Classical Civilization
  - Greek Civilization
  - Roman Civilization
  - Near Eastern Civilization
- B.A. . . . . . . . . . Classics
- B.A. . . . . . . . . . Communication Studies

**Graduate Degrees**

Loyola Marymount University offers courses leading to the following graduate degrees:

- **Ed.D.** Educational Leadership for Social Justice
- **M.A.** Administration
- **M.A.** Bilingual/Bicultural Education
- **M.A.** Catholic School Administration
- **M.A.** Child and Adolescent Literacy
- **M.A.** Counseling Psychology
  - Counseling in Chemical Dependency
  - General Counseling (doctoral preparation)
  - Marriage and Family Therapy
- **M.A.** Educational Psychology
- **M.A.** Elementary Education
  - Literacy and Language Arts
- **M.A.** English
  - Creative Writing
  - Literature
  - Rhetoric
- **M.A.** General Education
- **M.A.** Marital and Family Therapy (Clinical Art Therapy)
- **M.A.** Pastoral Theology
- **M.A.** Philosophy
- **M.A.** Secondary Education
- **M.A.** Special Education
- **M.A.** Teaching English as a Second Language/Multicultural Education
- **M.A.** Theology
- **M.B.A.** Business Administration
- **M.B.A./J.D.** M.B.A./Law (dual program degree)
- **M.F.A.** Film Production
- **M.F.A.** Screenwriting
- **M.F.A.** Television Production
- **M.S.** Computer Science
- **M.S.** Engineering and Production Management
- **M.S.** Environmental Science
- **M.S.** Civil Engineering
- **M.S.** Electrical Engineering
- **M.S.** Mechanical Engineering

**Credential Programs**

Under the jurisdiction of the State of California and the approval of the Commission on Teacher Credentialing, Loyola Marymount’s School of Education offers courses leading to several state-granted credentials. Programs that may be completed concurrently with an undergraduate degree program are:

- Bilingual Education (BCLAD Spanish—Multiple and Single Subject)
- Elementary Education (Multiple Subject)
- Secondary Education (Single Subject)
- Special Education (Mild/Moderate Disabilities)

Credential and certificate programs are also offered at the graduate level. Please see the Graduate Bulletin for further details.

**Certificate Programs**

Loyola Marymount University offers courses leading to the following certificate programs:

- Business Administration (Graduate)
  - International M.B.A.
- Education (Graduate)
  - Bilingual, Crosscultural, Language, and Academic Development (BCLAD)
  - Catholic School Administration
  - Crosscultural, Language, and Academic Development (CLAD)
  - Reading
Engineering and Production Management (Graduate)
  - Total Quality Engineering

Mechanical Engineering (Graduate)
  - Finite Element Methods
  - Manufacturing
  - Materials Engineering
  - Mechanical Design
  - Structural Dynamics
  - Systems Engineering
  - Thermal Engineering

Additional certificate programs are available through the Continuing Education Division.

**Law Degree**

Loyola Law School offers courses leading to the degree of Juris Doctor. The Graduate Division and the Law School offer a dual program in Juris Doctor and Master of Business Administration.
All regulations and rules or procedures contained in this official Bulletin apply to undergraduate programs. Questions in individual cases should be presented through written petition to the appropriate dean.

Students are held individually responsible for information contained in these pages. Failure to read and understand these regulations will not excuse a student from their observance.

Academic Calendar

The University offers two fifteen-week semesters and two six-week summer sessions.

Degree Requirements

All candidates for the baccalaureate degree at LMU must fulfill the following requirements:

1. All candidates in the undergraduate colleges must complete a minimum of 120 semester hours, including core and program requirements and 45 semester hours of upper-division course work. Certain programs require more than 120 semester hours. These are noted under the appropriate department listings.

2. All work done at LMU must have a cumulative grade point average of C (2.0). All courses taken in the major, minor, or area of concentration must have a cumulative grade point average of C (2.0).

3. At least 30 of the last 36 semester hours for the bachelor’s degree must be taken in residence at LMU. At least two-thirds of the upper division semester hours of the major must be taken in residence at LMU unless, for programmatic purposes, the dean and the director of the major deem an exception appropriate.

4. A student is held responsible for academic regulations in effect at the time of entrance or for those in effect in the senior year provided the student maintains continuous enrollment. Similarly, a student who declares or changes a major after being admitted to the University is held responsible for the academic regulations in effect at the time the major is declared or changed. A student who interrupts LMU enrollment is subject to the academic regulations in effect in the University Bulletin at the time enrollment is resumed.

5. Degrees are awarded at the end of the Spring term, August 31, and December 31. The date of the degree posted on a student's diploma is the one by which all graduation requirements are completed or documents are submitted. These include:
   A. A submission of transcripts from other institutions prior to the degree date;
   B. The completion of all incomplete work prior to the degree date;
   C. File application for degree by the deadline date for the term in which all of the above conditions will be met. If a student has been canceled for graduation in a given term, it is the responsibility of the student to again file for graduation for a later term.

Second Baccalaureate Degree

A student who possesses an earned bachelor’s degree from an institution accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities may earn a second undergraduate degree with a different major field of study by meeting all of the following requirements:

1. Completion of at least 30 semester hours at LMU beyond those required for the first degree; these must include at least 24 semester hours of upper division work and at least 20 semester hours of upper division work in the major field of study;

2. Fulfillment of the core requirements of the College in which the major is offered;

3. Satisfaction of all the requirements for the major;

4. Completion of the application for degree process (c.f., #5 above).

Academic Advising

Students are assigned academic advisors within their college. As part of the registration process, students consult their advisors in preparation of their academic programs and prior to registering for classes. Advisors are not authorized to change established policy of the University. The student is solely responsible for assuring that his/her academic program complies with the policy of the University. Any advice at variance with established policy, i.e., a degree audit exception, must be confirmed.
in writing by the chairperson of the department or director of the program and then by the Dean's Office.

Academic Probation

Academic probation carries a serious warning to the student that the scholastic record is unsatisfactory and continued failure to improve this record may result in being declared ineligible to attend the University. Students on probation may also have restrictions imposed by the dean regarding their program of studies and their participation in extracurricular activities. The following classes of students will be placed on probation:

1. A student who in any term fails to earn a C (2.0) average,
2. A student whose cumulative grade point average falls below a C (2.0),
3. An upper division student who in any one term fails to earn a C (2.0) average in the major requirements, or
4. A student whose cumulative grade point average in the major requirements is below a C (2.0).

Academic Disqualification

Disqualification terminates a student’s relationship with the University. A disqualified student may not register in any division or session of the University and is denied all privileges of the University and of all organizations or activities in any way connected with it.

The following classes of students will be subject to disqualification:

1. A student who while on probation fails to earn a C (2.0) average during the next semester, or who has not attained an accumulated grade point average of C (2.0) within two semesters after having been placed on probation;
2. A student who does not make satisfactory progress in the coursework associated with the declared major.
3. A student who has had special academic requirements imposed by the dean or the Committee on Academic Standing and Degrees and does not meet the requirements within the time prescribed.

Readmission after Disqualification

Disqualified students are not eligible for readmission until the lapse of one calendar year.

1. A disqualified student who wishes to be considered for readmission to the University must file a formal application with the Admissions Office.
2. A formal interview must take place with the Dean’s Office prior to formal readmission.
3. A disqualified student who is readmitted will be on strict probation which requires that the student must satisfactorily complete all requirements set by the dean in the initial semester after readmission.
4. A student who has been disqualified a second time may not apply for readmission.

LMU Honor Code and Process

Loyola Marymount University is a community dedicated to academic excellence, student-centered education, and the Jesuit and Marymount traditions. As such, the University expects all members of its community to act with honesty and integrity at all times, especially in their academic work. Academic honesty respects the intellectual and creative work of others, flows from dedication to and pride in performing one’s own best work, and is essential if true learning is to take place.

Examples of academic dishonesty include, but are not limited to, the following: all acts of cheating on assignments or examinations, or facilitating other students’ cheating; plagiarism; fabrication of data, including the use of false citations; improper use of non-print media; unauthorized access to computer accounts or files or other privileged information; and improper use of internet sites and resources.

Definitions of Academic Dishonesty:

The following are examples of academic dishonesty which may be interpreted as intentional or unintentional. This list is not meant to be exhaustive. It is the student’s responsibility to make sure that his/her work meets the standards of academic honesty set forth in the Honor Code. If the student is unclear about how these definitions and standards apply to his/her work, it is the student’s responsibility to contact the instructor to clarify the ambiguity.

A. Cheating and Facilitating Cheating

1. Possession, distribution, and/or use of unauthorized materials or technology before or during an examination or during the process of preparing a class assignment.
2. Collaboration on class assignments, including in-class and take home examinations, without the permission of the instructor.
3. Provision of assistance to another student attempting to use unauthorized resources or collaboration on class assignments or examinations.
B. Plagiarism
1. Presentation of someone else's ideas or work, either in written form or non-print media, as one's own.
2. Omission or improper use of citations in written work.
3. Omission or improper use of credits and attributions in non-print media.

C. Falsification of Data
1. Presentation of altered or fabricated data, such as lab reports, with the intention of misleading the reader.
2. Presentation of forged signatures as authentic.
3. Use of false citations, either incorrect or fabricated, including sources found on the Internet.

D. Unauthorized Access to Computers or Privileged Information
1. Use of University network and/or computer hardware to gain unauthorized access to files, and alteration or other use of those files.

E. Improper Use of Internet Sites and Resources
1. Inappropriate use of an Internet source, including, but not limited to, submission of a paper, in part or in its entirety, purchased or otherwise obtained via the Internet, and failure to provide proper citation for sources found on the Internet.

F. Improper Use of Non-Print Media
1. All above standards apply to non-print media.

G. Other Academic Dishonesty
1. Any other means of violating the standards of academic honesty set out above.

Honor Code Process
This section sets out the process to be followed when an Instructor suspects a violation of the Honor Code. The recommended sanctions are not mandatory, but are intended to guide the Instructor’s discretion. Instructors are encouraged to consult with their colleagues and chairs in making these decisions. This section also outlines the student appeal process for Honor Code violations.

I. Intentional and Unintentional Academic Dishonesty
A. Notification: Instructors will notify the Student of the suspected act of academic dishonesty. The Student will be given the opportunity to admit, deny, or explain the situation. If the suspected violation of the Honor Code occurs with respect to an assignment that the Instructor has not reviewed until after the class has stopped meeting, the Instructor will send a letter to the permanent address of the Student and keep a copy of the letter. Failure to notify will result in a reasonable extension of the Student's time to appeal, but is not in and of itself a defense to the violation of the Honor Code.

B. Determination: If the Instructor determines that a violation has occurred, he/she will next determine whether or not the violation was intentional or unintentional. The distinction between intentional and unintentional violations of academic honesty is not based upon the purely subjective intentions of the Student. The question is whether a Student who has carefully read the Honor Code should have understood that his/her action violated the Honor Code and standards of academic honesty.

C. Unintentional Violation: If the Instructor believes the violation was unintentional, he/she may take any of the following actions:
1. Warn Student
2. Require assignment or exam to be resubmitted
3. Reduce the grade on the assignment, project, or exam

The Instructor shall inform the Student of his/her decision and also inform the Student of the right to appeal the Instructor’s decision.

D. Intentional Violation: If the Instructor believes the violation is intentional, he/she may take any of the following actions:
1. Fail the Student on the assignment or exam
2. Fail the Student in the course

The Instructor may consult with the Chair, Program Director, or equivalent and refer the matter directly to the Dean of the Instructor’s college or school with a recommendation that the Student be suspended or expelled. Upon such a referral, the Dean shall appoint an Academic Honesty Panel consisting of two Faculty members and one Student from the ASLMU Judiciary.
II. Departmental Appeal

A. The Student may appeal the Instructor’s decision under section I(C) or (D) to the Department Chair, Program Director, or equivalent. In accordance with the grade appeal policy in the Undergraduate Bulletin and Graduate Division Bulletin, the Student will be required to make his/her appeal in writing no later than three weeks into the semester following the decision.

B. If either the Student or Instructor wishes, he/she may appeal the decision of the Department Chair, Program Director, or equivalent to the Dean of the Instructor’s college or school, who will refer the matter to the Academic Honesty Panel. Appeals must be made within 30 days of receipt of the chair's decision.

III. Academic Honesty Panel Appeal

A. The Academic Honesty Panel is an ad hoc recommending body of the Instructor’s college/school. The Panel consists of two Faculty members and one Student appointed by the Dean. The Dean will appoint one of the Faculty members as Chair of the Academic Honesty Panel.

B. Responsibilities of the Panel

1. The Panel will hear appeals by the Student or Instructor of the Chair’s decision for any penalty short of expulsion or suspension.

2. The Panel will make the initial recommendation as to whether the Student should be suspended or expelled.

C. In fulfilling these responsibilities, the Panel will make two determinations:

1. It will determine whether there is clear and convincing evidence that the Student has violated the Honor Code. The Student is entitled to the presumption of innocence and the right to review and respond to all evidence and information relevant to the Panel's decision.

2. Upon the finding of clear and convincing evidence of a violation, the Panel is to determine the appropriate penalty. With regard to the appropriateness of serious recommendations such as suspension and expulsion, the Panel shall take into account the following factors:
   a. the severity of the violation;
   b. whether the violation is an isolated instance, or part of a pattern of two or more violations; and
   c. other mitigating or extenuating circumstances.

D. The recommendation of the Academic Honesty Panel, along with an explanation of the reason for the recommendation, will be reported in writing to the Dean of the Instructor's college or school. The Dean will normally follow the recommendation of the Panel. However, the Dean's decision is final.

E. The Dean will inform the Student and Instructor, in writing, of his/her decision. The Dean will also report his/her decision to the AVP. The Office of the AVP will keep a permanent, confidential record of all proceedings of the Academic Honesty Panel.

Attendance

The policy on class attendance is within the discretion of the individual faculty member and shall be announced by the faculty member at the first class meeting of the semester or listed on the class syllabus.

Concurrent Enrollment

Enrollment by degree-seeking students at another institution at the same time they are enrolled at LMU is not permitted.

Auditing a Course

Enrolled LMU students may not enroll as auditors in a regularly scheduled LMU course through the Continuing Education Division.

Students will be permitted to register as auditors only for exceptional reasons and with the authorization of the Dean of the college or school in which the course is offered. Not all courses are open to auditors. Auditors are not held responsible for the work expected of regular students and receive no grade or credit for the course. Regular attendance at class is expected.

A student who has previously enrolled as an auditor may not take the course for credit in the subsequent term except by special permission of the Dean of the college or school in which the course is offered.

Part-time students and students enrolled in an overload seeking to change from credit to audit status will be eligible for tuition adjustment only if the change is made within the period for late registration.
Change of Address

All students must notify the Office of the Registrar immediately of any change in their addresses or those of their parents or guardians. The University assumes no responsibility for materials sent through the mail not received.

Classification of Matriculated Students

Students are classified according to the following norms:

- **Freshman:** Satisfaction of entrance requirements.
- **Sophomore:** Completion of 30 semester hours.
- **Junior:** Completion of 60 semester hours.
- **Senior:** Completion of 90 semester hours.

Course Explanations

Classification of Courses

This section contains a list of symbols for all courses offered at the University, excluding the courses offered at the School of Law.

- **000-099** Courses offered in this number range do not carry degree-granting credit.
- **100-299** Lower division courses—degree-granting credit.
- **300-499** Upper division courses—degree-granting credit.
- **500-599** Upper division undergraduate courses in which graduate students may enroll and receive graduate credit.
- **600-699** Graduate courses—degree-granting credit.
- **800-999** Continuing Education courses. Courses offered in this number range do not carry degree-granting credit.
- **6000-6999** School of Education graduate courses—degree-granting credit.
- **7000-7999** School of Education Doctor of Education courses—degree-granting credit.

In exceptional circumstances, seniors may take courses in the 600 series with the written permission of the Chairperson of their major department and the Dean of the Graduate Division. In such cases, they register for “599—Independent Studies.” In this instance, the course is calculated in the undergraduate career. No undergraduate student may register for a course in the 600 series. Only students accepted into the Graduate Division may register for 600-, 6000-, and 7000-numbered courses.

Special Studies (98)

Courses whose numbers have as the last two digits “98” are Special Studies. These courses have a special syllabus and description not listed in the Bulletin. They can be held in a lecture, discussion, or seminar format at a specified or arranged time and place for a group of students.

Independent Studies (99)

Courses whose numbers have as the last two digits “99” are Independent Studies. This is an individualized study arranged by a student with a faculty member and approved by the Chairperson of the Department and the Dean.

These courses are for the educational enrichment of the student particularly qualified for the kind of experiences that are beyond the scope of a regular course. Under the supervision of a faculty member, the work will be of research or similarly creative nature and will normally culminate in a project or examination. Only full-time matriculated students are eligible, and approval will be given for only one Independent Studies course per semester. Freshmen and first-semester transfer students are not eligible.

Arrangements to undertake an Independent Studies course must be completed during the semester prior to the one in which the student expects to enroll in the course. An Independent Studies course is considered part of the student’s semester program. Registration for such courses takes place only during the regular registration periods.

Course Load

In Fall or Spring semesters, students in good standing from the previous semester may register for 18 units; 19 units or more constitutes an academic overload, for which academic advisor or Dean approval is required. Extra tuition is charged to any student who registers in 19 units or more.

Credit by Challenge Examination

A student may obtain credit by examination for undergraduate courses in the Loyola Marymount Bulletin in selected undergraduate courses as approved by the Chairperson and Dean of the respective departments and colleges or schools.

To challenge a Loyola Marymount undergraduate course by examination, a student must be regularly enrolled and a full-time student. A course may be challenged only once and only during the Fall and Spring semesters, not during the Summer session. Students may not challenge a
course that is at a level more elementary than one in which they are currently enrolled or for which they have already received credit. Moreover, a student may not challenge a course which has been audited. Nor may students challenge a course for which they have received a W, I, NC, or F until a period of one year has elapsed from the time of their original registration in the course. A challenge examination once failed may not be repeated. 100- and 200-level courses in the Department of Modern Languages and Literatures may not be challenged.

A petition for receiving course credit by examination must be obtained from the Office of the Registrar. The examination carries a fee of $50, payable in advance and non-refundable.

Credit/No Credit Grading

Students may not be graded on a Credit/No Credit basis in courses which are part of a major, minor, or core curriculum program. Credit courses count toward the fulfillment of graduation requirements. Neither credit (CR) nor no credit (NC) grades affect the student’s grade point average. Once the petition for either grade or credit/no credit basis has been filed in the Registrar’s Office, it may not be rescinded or changed after the last day of registration.

Students may be graded on this basis for not more than 20% of their total semester hours at Loyola Marymount. Students wishing to be graded on this basis must file the appropriate petition in the Office of the Registrar by the published date in the Schedule of Classes.

In the case of courses that are graded on a Credit/No Credit basis, the student may petition the instructor for a letter grade with the approval of the Dean, before the end of the third week of the semester.

In order for a student to receive a grade of Credit, the work must be of C (2.0) or better.

Cross-Listed Courses

A cross-listed course is one that carries credit in more than one department or program.

Diploma

Diplomas are granted to students who have completed all graduation requirements and who have no outstanding financial obligations to the University. Diplomas left unclaimed are destroyed after three years. Students must re-order destroyed diplomas.

Double Credit

A student may not count the same course to meet the requirements for both an undergraduate and graduate degree.

Final Examinations

Students are required to take all scheduled examinations. Final examinations are to be held at the time published by the Registrar’s Office. No student is allowed to take a final examination before the scheduled time.

Full-Time Standing

Any undergraduate student carrying 12 or more semester hours is considered a full-time student. Students carrying less than 12 semester hours are classified as part-time students. This applies to the academic standing. Please refer to the Financial Aid full-time/part-time standing.

Grades

Final grades are submitted by the student’s instructors and are issued to the student by the Registrar at the end of each term.

Grade Appeals

It is understood that, except in rare instances, only the instructor, with the Department Chairperson’s, Program Directors, or equivalent to the Dean of the instructor’s college or school (hereafter called Department Chairperson) and Dean’s approval, may change the final grade through the Registrar’s Office. The Dean may, however, change the grade if all of the following processes of appeal have been followed. The Dean must notify the instructor, in writing, of the change in final grade.

1. No later than three weeks into the semester following the issuance of a disputed grade, the student must meet with the instructor to review the reasons for the grade.

2. If the instructor is not available for discussion or if discussion fails to resolve the problem, the student may ask the appropriate Department Chairperson to meet with both the instructor and the student. If the chairperson and the instructor are in agreement about the validity of the grade, the student may appeal to the appropriate Dean. If the chairperson cannot agree with the instructor, he will automatically refer the student to the Dean.

3. The student who appeals beyond the department level must file a written appeal to the appropriate Dean.
The Dean, upon receipt of the written appeal, will bring all parties together in an attempt to resolve the matter by mutual agreement. If agreement cannot be reached at this meeting, the Dean may appoint a committee of three impartial persons to investigate the matter and make a recommendation to the Dean. The Dean will normally follow the recommendation of the committee; however, the decision of the Dean is final.

Grading System

The work of all students at LMU is reported in terms of grades. Instructors are required to assign a final grade for each student registered in a course.

Undergraduate Grades

The following grades are used to report the quality of undergraduate student work at LMU:

- **A** Superior
- **B** Good
- **C** Satisfactory
- **D** Poor
- **F** Failure
- **CR** Credit—Equivalent to grade of C or higher
- **NC** No Credit—Equivalent to grade of C- or lower
- **NG** Non-graded course
- **NR** Not reported by instructor
- **AU** Audit
- **I** Work incomplete
- **IP** Work in progress (for courses requiring more than one semester to complete)
- **W** Official withdrawal from course

A grade of A may be modified by a minus (-) suffix, and grades B and C may be modified by a plus (+) or minus (-) suffix. Grades A, B, and CR denote satisfactory progress toward the degree, but a D grade must be offset by higher grades in the same term for students to remain in good academic standing. Courses in which a grade of B- through C- is received may be applied toward graduate degrees unless otherwise prohibited by the program requirements. A student must maintain a 3.0 GPA in order to remain in good academic standing. See the Graduate Bulletin for specific information. An F or NC grade yields no unit or course credit.

The withdrawal must be submitted to the Registrar's Office by the published withdrawal date. Failure to withdraw officially from a course will result in a grade of F (see Withdrawal).

Graduate Grades

The following grades are used to report the quality of graduate student work at LMU:

- **A** Superior
- **B** Satisfactorily demonstrated potential for professional achievement in field of study
- **C** Passed the course but did not do work indicative of potential for professional achievement in field of study
- **F** Failure
- **CR** Credit—Equivalent to grade of B or higher
- **NC** No Credit—Equivalent to grade of B- or lower
- **NG** Non-graded course
- **NR** Not reported by instructor
- **AU** Audit
- **I** Work incomplete
- **IP** Work in progress (for courses requiring more than one semester to complete)
- **W** Official withdrawal from course

A grade of A may be modified by a minus (-) suffix, and grades B and C may be modified by a plus (+) or minus (-) suffix. Grades A, B, and CR denote satisfactory progress toward the degree, but a B- grade must be offset by higher grades in the same term for students to remain in good academic standing. Courses in which a grade of B- through C- is received may be applied toward graduate degrees unless otherwise prohibited by the program requirements. A student must maintain a 3.0 GPA in order to remain in good academic standing. See the Graduate Bulletin for specific information. An F or NC grade yields no unit or course credit.

The withdrawal must be submitted to the Registrar's Office by the published withdrawal date. Failure to withdraw officially from a course will result in a grade of F (see Withdrawal).

Grade Point Average

Grade points are a measure of the quality of the academic work completed, just as semester hours are a measure of the quantity of this work. The University uses a letter grade to indicate the level of individual student achievement. Each letter grade has a point value assigned for the grade achieved. The point value assigned to each letter grade is as follows:

- **A** 4.0 grade points
- **A-** 3.7 grade points
- **B+** 3.3 grade points
- **B** 3.0 grade points
- **B-** 2.7 grade points
- **C+** 2.3 grade points
- **C** 2.0 grade points
- **C-** 1.7 grade points
- **D** 1.0 grade points
- **F** 0.0 grade points

The grades of AU, CR, NC, I, IP, and W have no point value and are not used in calculating the grade point average.

The LMU grade point average is determined by dividing the total number of LMU grade points by the number of LMU semester hours completed with a letter grade.
Change of Grades

Grades, once submitted to the Office of the Registrar, will be changed only in case of error. An instructor desiring a change of grade must present a written explanation to the Chairperson and the Dean. No grade changes will be made after the fourth week of instruction of the next full term.

A student’s permanent record reflects the one upon which the University awarded the degree or recommended a credential. Therefore, no grade or other changes are permitted either after awarding the degree or recommending the credential.

Mid-Term Deficiencies

The Registrar’s Office mails mid-term deficiency notices to students informing them of unsatisfactory work as submitted by instructors. The notices, advisory in nature and issued prior to the last day to withdraw in a term, are not part of the student’s permanent academic record.

Graduation Rate

The completion or graduation rate by August 2003 for students who entered Loyola Marymount University in Fall 1997 on a full-time basis was 73%.

Incomplete Course Work

An incomplete grade may be assigned by the professor only if a student has completed at least 80% of the coursework.

Normally the student obtains from the Office of the Registrar a “Petition to Receive a Grade of Incomplete” form. The form is filled out by the student and given to the instructor who then completes the form by assigning a default grade which will be entered on the student’s record if the student does not complete the coursework by the deadline.

An incomplete grade not removed by the deadline, which is three weeks after the first scheduled class day of the next semester, will result in the assignment of the default grade as submitted by the instructor. If no default form or grade was submitted, the incomplete grade will be converted to an F by the Registrar’s Office.

If a student requires an extension to the deadline, the student must petition to obtain an extension to the deadline for removal of the incomplete grade. The petition, approved by the instructor, must be submitted to the Registrar’s Office.

A degree will not be granted while a grade of Incomplete remains on a student’s record.

Leave of Absence

A leave of absence may be granted to a student upon written request to the Office of the Registrar. A leave of absence may be granted for no more than two years.

For a student enrolled in a current term, application for the leave must be made before the stated deadline for withdrawal from classes. This date may be found in the academic calendar in the University Bulletin or the Schedule of Classes for the given term. A leave of absence may be granted only if the student withdraws from all courses in the term. If completed by the deadline, a student will receive grades of W for all courses in that given semester. A student may not take a leave of absence from the term if application is made after the stated deadline for withdrawal from classes. Any student who stops attendance after the deadline to withdraw from classes will receive a grade of F for each course in progress.

A student who is accepted to the University but not yet enrolled may defer admission through the Admissions Office. A student with prior enrollment may apply for a leave through the Registrar’s Office. A leave of absence is canceled if the student registers in another college or university without prior written permission of the student’s Dean. In this case, the student has de facto withdrawn (see Withdrawal) from LMU and must reapply through the Admissions Office. The student may enroll again at LMU if accepted through the Admissions Office. Similarly, a student is considered to have withdrawn from LMU if the leave of absence is extended unofficially beyond two years.

Major

A major indicates a particular curriculum within a degree program offered by one of the four undergraduate Colleges and one undergraduate School. The major is usually declared by the student at the time of acceptance to the University. If a student is unsure about a particular program of study within a degree program, some Colleges will allow for an undeclared major within that college. This option is at the discretion of the College or School. A student must, under normal circumstances, declare a major within a degree program prior to earning sixty semester hours of credit.

A student must have a cumulative grade point average of C (2.0) in all courses required by the major. Please note that certain majors have more stringent requirements. The particular requirements are listed under the department listings in this Bulletin.
Change of Major

A student wishing to change from one major to another in the same College or School must present to the Registrar’s Office a Change of Major petition approved and signed by the Chairpersons of the involved major departments and the Dean of the College. If the change involves another College or School, approval of the accepting College or School must be secured first. A student is subject to the major and degree requirements of the new program and responsible for making up any deficiencies under direction of the Dean. Changes of major should be processed prior to registration for the subsequent term.

Double Major

A student may earn a Bachelor’s degree with a double (secondary) major by successfully completing the following requirements for the second major prior to, or in the same term as, the first (primary) major:

1. Completion of the requirements of the primary major; and
2. Completion of the requirements of the secondary major; and
3. Completion of requirements for the primary Bachelor’s degree.

No more than eight semester hours of upper division work in the primary major can be used to satisfy the requirements of the secondary major. The two majors will be printed on the student’s transcript of record and University diploma.

Minor

Students who choose to complete a minor must meet the following general requirements:

1. A minor program consists of 18 or more semester hours. At least half of the upper division semester hours of the minor program must be completed in residence at Loyola Marymount.
2. Specific semester hour requirements are listed by each department offering a minor program. A student who declares a minor is held responsible for the academic regulations in effect at the time the minor is declared. A student who interrupts LMU enrollment is subject to the academic regulations in effect in the University Bulletin at the time enrollment is resumed.
3. A student must have a cumulative grade point average of C (2.0) for courses taken in the minor program.
4. The minor may not be in the same program as the student’s major.
5. Courses may not count as fulfilling both a major and minor program, unless a specific course is required by both programs.
6. A minor may be earned only while the student is concurrently completing the requirements for a baccalaureate degree. The minor must be cleared by the Dean’s office at the same time that the baccalaureate degree is cleared.
7. Students are advised to consult department regulations in the Bulletin for further information.

Privacy Rights of Students in Education Records

The Federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) and California Education Code Section 67100 et seq., set out requirements designed to protect the privacy of students concerning their education records maintained by LMU.

Specifically, the statute and regulations govern access to student records maintained by the campus and the release of such records. In brief, the law dictates that LMU provide students access to records directly related to the student and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the instructor. The law generally requires that written consent of the student be received before releasing personally identifiable data about the student from records to other than a specified list of exceptions.

Among the types of information included in the campus statement of policies and procedures are: 1) the types of student records and the information contained therein, 2) the official responsible for the maintenance of each type of record, 3) the location of access lists that indicate persons requesting or receiving information from the record, 4) policies for reviewing and expunging records, 5) the access rights of students, 6) the procedures for challenging the content of student records, 7) the cost that is charged for reproducing copies of records, and 8) the right of the student to file a complaint with the Department of Education.

An office and review board have been established by the department to investigate and adjudicate violations and complaints. The office designated for this purpose is the Family Educational Rights and Privacy Act Office (FERPA), U.S. Department of Education, 330 C Street, Room 4511, Washington, D.C. 20202.
LMU is authorized under the Act to release public “directory information” concerning students. “Directory information” includes the student’s name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

The above designated information is subject to release by LMU at any time unless it has received prior written objection from the student. Written objections should be sent to the Office of the Registrar.

LMU is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in connection with the campus’ academic, administrative, or service functions and who have reason for using student records connected with their campus or other related academic responsibilities.

Registration

The days of registration are listed in the University Calendar. All students must follow the registration procedures as established by the Registrar’s Office. A student is not considered registered until official clearance has been obtained from the Controller’s Office and successful registration has been processed by the Registrar’s Office. The official academic program consists of the courses in which the student is enrolled at the close of official registration. Students may not attend a course for which they are not registered.

Repeating Courses

Students may repeat a course previously taken at LMU in a subsequent term at LMU up to two additional times, including any withdrawals; the prior occurrence is excluded from the cumulative grade point average but remains on the transcript. All units attempted are used to determine the student’s grade point average and graduation eligibility. The grade of the latest occurrence of the repeated course will be the one calculated into the cumulative average. Please note that although the term GPA will change accordingly, the academic status of the term will not change. Courses taken on a credit/no credit basis may not be used as a repeat course to exclude from the cumulative average a grade of a prior occurrence taken on a letter grade basis. Students may not register for any course in the College of Business Administration for a third time without the written permission of the Department Chairperson of the course and the Dean. Questions concerning this policy should be directed to the Office of the Registrar.

Undergraduate students may not repeat an elementary or intermediate foreign language course after successful completion of a more advanced course in the same language.

For graduate students, repetition of a course more than once requires the approval of the Graduate Program Director and is granted only under extraordinary circumstances.

Transcripts

Official transcripts of courses taken at the University are issued only with the written permission of the student concerned. Partial transcripts are not issued.

Transcripts show all Loyola Marymount University work completed as of the date of application for the transcript. Work in progress accompanies the transcript. Requests for transcripts to show end of current semester’s work are held until all grades are recorded.

Transcript requests are processed in accordance with the date of filing. Transcripts will not be issued when a student has outstanding financial obligations to the University. In this case, the student will be notified by the Controller’s Office.

Transcripts from other institutions which have been presented for admission or evaluation become a part of the student’s permanent academic file and are not returned or copied for distribution. Students desiring transcripts covering work attempted elsewhere should request them from the appropriate institutions.

Transfer Credit

Credit for work completed at institutions accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities, other than course work identified by such institutions as remedial or in other ways as being nontransferable, may be accepted toward the satisfaction of baccalaureate degree and credential requirements at the University within limitations of residence requirements and community college transfer maximums. Courses with grades below C (2.0) do not transfer. A maximum of 60 semester hours from a community college and 90 hours from a four-year institution is transferable to the degree program of the University. In order for work from foreign institutions to be considered for transfer credit, that institution must be recognized by the Ministry of Education of that country.

Any student regularly enrolled as a degree candidate who elects to take courses at a college or university other than Loyola Marymount University must obtain written approval of the Chairperson of the major department and
the Dean prior to enrollment in such courses. Courses taken without this approval may not be counted toward the degree. Approved courses must be passed with a grade of C (2.0) or higher in order to transfer. Semester hour value is granted to transfer courses; grades or GPA information on transfer work is neither listed on nor calculated in LMU work printed on the academic record.

Transfer work taken at a foreign college or university may be used toward degree work if the institution is recognized by the Ministry of Education in the country where the institution is located.

It is the responsibility of the student to submit all foreign transcripts to an LMU-approved credentials-evaluating agency for translation into English and/or for evaluation of U.S. equivalent course work and corresponding grade. Information on such agencies may be obtained by contacting the Office of the Registrar.

Foreign transcripts submitted without appropriate evaluations will not be considered for eligible transfer work to LMU.

Tutorials

Only regularly offered courses described in this Bulletin may be taken as tutorial courses. Students may individually arrange with a faculty member to take the course as a tutorial. A tutorial course is considered part of a student’s semester program. Registration for it takes place during the regular registration periods. Only full-time students are eligible, and approval will be given for only one tutorial course per semester. Freshmen and first-semester transfer students are not eligible.

Withdrawal

Withdrawal from Courses

A student may withdraw from any or all courses prior to the last day to withdraw in a term as published in the University Bulletin and Schedule of Classes. A currently enrolled student may withdraw from a course(s) by using the drop function in the computer registration system (PROWL) or the telephone registration system (ROAR).

Prior to the deadline, an undergraduate student is allowed to drop all but one course using PROWL or ROAR. In order to completely withdraw from a term or the University, this student must contact the Office of the Registrar.

Prior to the deadline, a student may drop all courses using PROWL or ROAR and withdraw either from the term or the University. When successfully completed, the student will receive grades of W in each of the courses and will be considered to be on a leave of absence for up to two years unless the student gives written notice to the Registrar’s Office that he/she is withdrawing from the University. After the deadline, students may withdraw from courses only for medical or psychological reasons. A written petition with accompanying documentation from a licensed professional should be submitted to the Registrar with the signature of the Dean of the student’s major college or school. The documentation from the licensed professional must certify that the student is not able to complete the semester for medical or psychological reasons. If approved, the student will be withdrawn for all courses and not a portion of the course schedule. Students are eligible for tuition and fee refunds according to the University’s published policy. Additional documentation from a licensed professional is required indicating that the student is able to resume study at the University.

Withdrawal from the University

A withdrawal from the University is the termination of the academic program and course of study and the rights and privileges offered to currently enrolled students. (See above.)
Academic Programs and Services

Programs

University Honors

Director: Kelly Younger

As a means of creatively challenging the potential of the outstanding student and thereby contributing to the intellectual life of the entire academic community, the University adopted the Honors Program in 1958. By constant experimentation and periodic revision, the program attempts to keep true to its original intent of providing intellectual adventure.

The program is interdepartmental and does not involve a separate faculty. It relies on the interest and generosity of the entire University faculty and on the enthusiasm of the truly exceptional students to become mutually involved in an intellectual experience. Not being a separate unit apart from the rest of the University community, the University Honors faculty and students thus share with the rest of the school the stimulation of their special academic experience.

Taking advantage of its freedom from some of the restrictions involved in the structure of regular courses, the University Honors Program attempts to challenge as well as to inform, to ask hard questions as well as to examine tested solutions. Its goal is to provide a carefully integrated and demanding curriculum for the exceptional student.

The University Honors Program is open to students from all the undergraduate Colleges and the undergraduate School of Loyola Marymount. The Program is administered by the Honors Director with the assistance of the Assistant Director and the Honors Advisory Council. Faculty members from all disciplines at Loyola Marymount are invited to participate.

The University Honors core curriculum begins with an intensive undergraduate experience combining four interdisciplinary courses in the humanities and sciences with an individualized sequence in writing, critical thinking, and cultural studies. A second-year sequence in historiography, theology, and natural philosophy prepares the Honors student for the third-year seminars in ethics, interdisciplinary study, and thesis preparation. The fourth year results in the publication of the capstone thesis project: the culmination of independent research under the individual guidance of a professor and the participation in the Senior Thesis Forum.

University Honors students must maintain an average GPA of 3.50 and display proficiency in a foreign language. Successful completion of the University Honors Program is announced at the annual Commencement ceremonies and noted on the student’s permanent transcript. This recognition is of lasting personal, professional, and academic value.

The University Honors Program is open to incoming and current first year students. First semester sophomores and transfer students may also apply. More is expected of students in the Honors Program; not everyone is qualified to join. We are interested in: a sense of academic adventure, highly motivated individuals, rigorous educational experience, social awareness, personal responsibility, interesting personal background, a first-rate cumulative GPA (4.0 scale), highly competitive test scores (SAT and/or ACT), the constant pursuit of excellence. Interested students should complete an application; schedule an interview with the Director, Assistant Director, or member of the Honors Advisory Council; provide a critical writing sample; and submit a letter of reference.

Each Fall, the University Honors Program carefully selects a limited number of incoming students to join the Program. Application materials are available at http://www.lmu.edu/honors.

Further details on requirements and course descriptions are continued under University Honors Program in the Bulletin.

Individualized Study Program

Director: College or School Dean

The Individualized Study Program involves a select number of creative and highly motivated students within all colleges and schools of the University whose educational needs and goals cannot fully be met by individual departments or majors. The program is thus designed to offer each participant greater responsibility in determining the content of his or her major program, based upon the goals to which that major is directed. Students may wish to construct their programs or areas of concentration from interdisciplinary, independent study, field work alternatives, or a combination thereof.

The program is open to freshmen and sophomores who have completed at least one semester in the participating colleges or schools. Once accepted into the program by the Dean of the student’s college or school, the student selects a counselor who assists in designing the specific content of the major in line with the student’s objectives.
The student’s program is then formalized into a contract signed by the student, advisor, and Dean. Upon completion of the contracted course of studies, the student is issued a degree in the major or area of concentration.

Naval ROTC

Eligible Loyola Marymount University students who wish to participate in the Naval Reserve Officers Training Corps may do so through a program established with the UCLA University Extension. The program, in conjunction with an LMU baccalaureate degree, leads to a commission in the United States Navy or Marine Corps. Appropriate academic credit for courses accredited by the University of California is given in accordance with the policies governing LMU’s Aerospace Studies program. Further information may be obtained from the Chairperson of the Department of Naval Science, University of California, Los Angeles.

Preparation for a Career in Law

Director: Evan Gerstmann

The University offers several curricula that are appropriate for students who plan to enter law school upon the completion of their undergraduate degree. The prelaw student should select a course of study that insures the development of the skills essential to the successful study of law: 1) the ability to use language and communicate effectively and 2) the ability to think critically and creatively. In addition, the prelaw curriculum must provide a broad understanding of basic human institutions and values.

To insure they follow an appropriate course of study, prelaw students are advised to select their classes in consultation with the University Prelaw Advisor. The Prelaw Advisor also serves as a resource person for students during the law school application process.

Preparation for the Health Professions

Director: Stephen Scheck

The Health Professions Information Program provides the student with regular informational meetings. The Director of the Program serves as a resource person and is available for individual consultation. The Director’s Office distributes relevant materials to prospective applicants and maintains their files for the Health Professions Advisory Committee. The Committee assists students in completing the application process to health professional schools.

The University offers pre-health professional curricula for those students who plan to apply for admission to the following programs: Medicine, Dentistry, Optometry, Pediatric Medicine, Veterinary Medicine, Pharmacy, Medical Technology, Occupational Therapy, Physical Therapy, and Public Health. These curricula are not degree programs, and students who wish to complete the requirements for a Bachelor’s degree before admission to a professional school should select a major within the University. Students usually select a biology, biochemistry, or other science major. Students in other majors should consult with the director early in their college career about blending pre-health profession courses with their chosen major. In addition to fulfilling the requirements of the chosen major, specific requirements of the professional programs should be satisfied. The following lower division courses are usually required: BIOL 101, 102, 111, 112, 201, 202; CHEM 110, 111, 112, 113, 220, 221, 222, 223; English (6 semester hours); MATH 122, 123; PHYS 253, 254, 255, 256; and PSYC 100. In addition, other specified upper division biology courses and electives from Liberal Arts, Fine Arts, and the Sciences may be required.

Students should be aware that many health professional schools do not recognize some AP credits and that alternative coursework may need to be completed to meet admission requirements. Please discuss with the Director.

ROTC Programs

Director: TBA

Loyola Marymount offers its own program of instruction designed to prepare students for commissioning as second lieutenants in the United States Air Force. Additional information can be found under Aerospace Studies in this Bulletin.

Services

LMU Extension

Center for Religion and Spirituality

Director: TBA

The Center for Religion and Spirituality makes a vital contribution to the mission of Loyola Marymount University by expanding LMU’s religious and educational outreach to a wider range of constituencies in Southern California and beyond. As part of LMU Extension, the Center embodies LMU’s commitment to serve the Roman Catholic Archdiocese of Los Angeles, other local churches, religious groups, and the general public through the development of diverse programs related to religion, spirituality, faith, and justice.

In collaboration with the Department of Theological
Studies and other departments and divisions of the University, the Center sponsors a variety of continuing education courses, certificate programs, lecture series, weekend workshops, summer institutes, and special events. It also provides online courses and other non-traditional venues for religious education, faith formation, and spiritual development, thus linking the University and its mission to the greater Los Angeles community and beyond.

Continuing Education

Directors: Madge Claybion and Ben Hayes

LMU Extension offers certificates, courses, programs, institutes, conferences, and lectures which provide a variety of educational experiences to members of the community. There are three types of classifications of such offerings.

The first of these is Professional Development courses in a certificate or professional development program with identifiable subject areas or in particular disciplines, e.g., teacher education. These are offered under a departmental rubric and carry University semester hours of continuing education/professional development credit. The second type are those courses with academic content falling outside the normal undergraduate or graduate offerings. Such courses and programs are offered under the rubric CNTX. Credit is recorded in semester hours; 1.0 semester hour represents 10 continuing education contact hours. The third type is personal enrichment programs covering a variety of activities that might include dance, martial arts, or yoga, to name but a few.

Regular Loyola Marymount undergraduate students may enroll in “For Credit” Continuing Education courses with permission of their College Dean, at the fees quoted for such courses, above and beyond regular full-time tuition. Enrollment in other Continuing Education offerings is unrestricted unless otherwise specified, also at the fees quoted.

Encore Program

Director: Susan Pentz

Encore is designed to assist non-traditional students (those over 25 years old) who are just beginning college or are resuming an interrupted college education after at least five years absence from an organized degree program. Students must have a high school diploma or have passed the GED. Encore provides the opportunity, guidance, and support (academic, administrative, and social) for non-traditional students, on a full- or part-time basis, to work towards their academic goals. Encore students enroll in regular LMU courses and participate in two special one-unit seminar courses that focus on weaving the non-traditional student into the fabric of academic life at LMU.

Study Abroad

Director: Patricia Masters

LMU sponsors several study abroad programs for summer, semester, and full-year.

New Europe Program

Important economic and political changes are taking place in Europe. LMU’s New Europe Program, in Bonn, Germany, is conveniently located near vital European centers such as Brussels and the Hague.

In affiliation with the Academy for International Education, the New Europe Program offers both semester and full-year opportunities.

A range of courses is available in business administration, liberal arts (including German and other European languages), and communication, giving participants an opportunity to work toward their degrees in an academically diverse environment without losing a semester. Faculty come from LMU, German universities, and AIB. Enrollment in a German language course is mandatory for all students who participate in the Program.

Students with a minimum GPA of 2.8, who are in good standing at any college or university, are invited to apply for the Fall, Spring, or full academic year. Applications to the New Europe Program are available through the Study Abroad Office. Students may register for 12 to 17 semester hours of credit during the Fall or Spring semester. Students receive semester hour credit on the LMU transcripts for courses taken.

The program costs (comparable to the cost of a full-time student in residence at LMU) include tuition, housing, breakfast and dinner, public transportation in Bonn, several cultural activities, and excursions and site visits to metropolitan centers such as Paris, Brussels, Brugge, Berlin, Prague, and Dresden. For those students staying the entire academic year on the New Europe Program, an additional excursion to Spain is offered during the Spring semester. The cost does not include round-trip airfare, textbooks, and other personal expenses.

All LMU financial packages can be applied to the New Europe Program; LMU tuition payment plans are applicable. For complete information, consult the Study Abroad Office in University Hall 1840.
Film and Television Program in Germany

This program is located in Dusseldorf, Germany, and focuses on film in the European context—the Avante Garde, independent film making, and other experimental media. This is designed as a semester program with Fall semester offerings focusing on Film and TVPD majors, and with the Spring semester focusing on Media Studies for all students. Taught by LMU faculty and European film and television experts in the Loyola Marymount University tradition, the courses are offered in the form of master workshops, providing students with an exclusive learning experience. The close interaction with faculty that is afforded by this format makes the program unique. Students receive 15 units of credit by taking workshops and a German language and culture course.

The semester in Dusseldorf includes excursions and educational field trips to give students a deeper insight into film and TV production in Europe. Depending on the semester and opportunity, students will attend film festivals, visit production sites, go to film museums, and meet and talk with directors, producers, and others in the media field. A week excursion to Berlin and Prague, two centers of film production, will bring to life the theories learned in the classroom and will help to inform and stimulate students in their own artistic productions. Each student will produce a 10-15 minute video documentary. Staff and teaching assistants in film will assist with the technical and creative needs, if necessary.

Students with a minimum GPA of 2.8, who are in good standing at any university or college and, for the Fall semester, have completed the FILM and TVPD prerequisites, are invited to apply. The program cost is comparable to full-time residency at LMU and includes tuition, housing, breakfast and dinner, excursions, and public transportation within Dusseldorf. Applications are available through the Study Abroad Office in University Hall, Suite 1840.

Ahmedabad Semester in India Program

The Ahmedabad Semester in India Program offers a unique opportunity for students to learn about India, one of the world’s oldest civilizations. The primary focus of the program is on Indian religions, arts, languages, and cultures. There will also be components that will involve the study of environmental sciences in India and an opportunity to engage in service learning.

The program will be located at Gujarat University, which has a spacious campus setting and a large and growing library collection. Adjacent to the campus is the L.D. Institute of Indology and St. Xavier’s College, a Jesuit institution of higher learning. The L.D. Institute features a superb library, museum, study space, and a staff adept at assisting American students and scholars. St. Xavier’s College, part of a world-wide network of Jesuit colleges and universities, offers logistical support. The nearby Gandhi Labor Institute will help facilitate field placement for service learning, and the Somalalitha Institute of Business Management (SIBM) offers air-conditioned classrooms. SIBM has up-to-date computer facilities and instructors holding American doctorates in Business Management. The Nehru Center for Environmental Education is also located nearby with a working outdoor laboratory and will allow students interested in environmental science to intern at the Center in such areas such as forestation, technological innovations appropriate to the Indian context, research into issues such as the Narmada Dam controversy, and educational outreach. Mahatma Gandhi’s central ashram is also located in Ahmedabad and will serve as an important site for field research and service learning.

Jesuit China Study Abroad Program

The Beijing Center for Language and Culture (TBC) is a study abroad program for undergraduate students interested in other cultures, languages, peoples, philosophies, religions, and economies. The program offers a unique mix of study and first-hand experience in China through intensive language classes, cultural seminars, and contemporary business and political science courses brought to life by extensive academic adventure travel.

TBC offers a comprehensive set of seminar-style courses on Chinese culture, history, literature, philosophy, religions, sociology, communication, art, political science, and business. Students do not need to know Chinese prior to participating in the program. All courses are taught in English by Beijing’s top scholars, and many of the courses’ lectures incorporate discussion with some of the business and political leaders in Beijing. In particular, courses in mass communications, cinema, international relations, and economics are noted for meeting Chinese leaders. Please see the TBC course catalog or website for course descriptions, professor biographies, and additional academic information.

If you are interested in having an extraordinary semester and want to find out more, please come to the Study Abroad Office at UH 1842, or visit the program website, http://www.TheBeijingCenter.org.

Summer Abroad

Summer programs are offered in Africa, China, France, Germany, Greece, Honduras, Ireland, Italy, Mexico, and the United Kingdom. The Washington Center in Washington, D.C. also offers summers internships opportunities for students. These programs offer courses in language, culture, business administration, science, the arts, and humanities.
Affiliate Programs

LMU is affiliated with programs in the following countries: Australia, Austria, China, France, Germany, Greece, Ireland, Italy, Japan, Korea, Spain, the United Kingdom, Venezuela, and many other countries throughout Europe, South America, and Asia. The University has both formal and informal affiliations with programs sponsored by institutions or organizations around the world. LMU has formal student exchange programs with Sophia University in Tokyo, Japan; Sogang University in Seoul, Korea; Universidad de Deusto in San Sebastian, Spain; Ateneo de Manila; and Iberoamericana Universidad in Mexico.

It is also possible for students to plan with their advisors individually tailored programs with non-affiliated institutions abroad.

Credit Transfer

All Study Abroad work done at an American institution must be done at an institution accredited as a degree-granting institution by one of the accrediting bodies recognized by the Commission on Recognition of Postsecondary Accreditation (CORPA). Foreign institutions must be recognized by that country’s Ministry of Education. (See Transfer Credit on page 67.)

Summer Session

Director: Susan Pentz

The Summer Session is open to Loyola Marymount students and to prospective students admitted to the University, to students from other colleges or universities, and to members of the community. Academic standards and requirements that apply during the Fall and Spring terms are likewise maintained in the Summer Session. Summer enrollment does not constitute admission to the University.

Summer offerings generally are of two types:

1. Courses in the principal academic and professional preparation areas for all categories of undergraduate and graduate students.

2. Innovative and experimental courses in which students and professors explore new and unusual methods of study and content over a short term. Such courses carry credit and maintain the usual academic standards of the University.

Further information may be obtained by consulting the current Summer Session Bulletin, on the web at http://summer.lmu.edu, or by writing to the Summer Session Office.

Other University Services

Basil P. Caloyeras Center for Modern Greek Studies

Director: Demetrios Liappas

The Caloyeras Center for Modern Greek Studies provides students with an opportunity to study the culture of contemporary Greece. By means of courses in the language, literature, and the arts of the Greece of today, a doorway is opened to the past, which is thus given a fresh and compelling reality.

The Center has the following goals:

- To offer courses in modern Greek language, post-classical and modern literature and history, the Greek Orthodox tradition, theatre, cinema, dance, music, and the fine arts.
- To encourage students to pursue a minor in Modern Greek Studies.
- To sponsor lectures on subjects pertaining to Greece which are of interest to the academic community and to the public at large.
- To encourage students and faculty to pursue studies and research projects in Greece.

The Center supports the courses that lead to a minor in Modern Greek. (See “Classics and Archaeology” in this Bulletin.)

Thomas and Dorothy Leavey Center for the Study of Los Angeles

Director: Fernando Guerra

Overview

The Thomas and Dorothy Leavey Center for the Study of Los Angeles was established in 1994 to assist students, the University, and the community at large to become agents for change that leads to social justice. Using Los Angeles as a laboratory for understanding the urban experience, the center has become a university leader in developing multidisciplinary courses, producing highly regarded applied research, and promoting civic involvement.

Programs

Southern Californians and Their Leaders is one of the only systematic analyses of how our leaders view contemporary Los Angeles, the opportunities and constraints they face, and the conditions that facilitate leadership. Current activities include leadership roundtables, public opinion polls and leadership surveys, leadership internships, and a leadership lecture series.
These activities enable students to apply their classroom knowledge in a real-world setting and aim to empower them to serve their community with skill and compassion.

The Community Studies Program gives students the opportunity to examine patterns and trends reshaping Los Angeles from the perspective of individual neighborhoods. Through in-depth neighborhood analyses, this program gives residents a voice on issues facing their communities. Community studies have focused on communities with a strong Jesuit presence: Hollywood, Pico Union, East Los Angeles, Watts, Lennox, Westchester, and Playa Vista.

In a short span of time, the center has established one of the best undergraduate archives in the nation, the Research Collection. The research collection promotes preservation and analysis of historical documents of public officials, post-World War II developers, late-twentieth-century Los Angeles reformers and reform movements, and prominent Catholic families. Holdings include a decade’s worth of the original program tapes of KCRW 89.9 FM’s Which Way, L.A.? as well as the papers of Rebuild L.A., Los Angeles Educational Alliance for Restructuring Now (LEARN), Los Angeles Annenberg Metropolitan Project (LAAMP), Fritz B. Burns, and Mike Roos, to name just a few. A complete index to the research collection and the contents of individual collections is available online at http://lib.lmu.edu/special/csla/csla.htm.

Disability Support Services

The Disability Support Services (DSS) Office, which is located on the second floor of Daum Hall, provides specialized assistance and resources that enable students with documented physical, learning, and/or psychological disabilities to achieve maximum independence while they pursue their educational goals. Students with a disability that substantially impacts their ability to learn and perform to the best of their capacity may be eligible for a variety of services. To be eligible, documentation of the disability must be provided from an appropriate licensed/certified professional. To request a form assisting you with providing the complete documentation and/or if you require further information, you may locate more information from our website: http://www.lmu.edu/dss/, or contact the DSS office at (310) 338-4535.

Learning Resource Center

Director: Marcia L. Albert

The Learning Resource Center, which is located on the second floor of Daum Hall, is a place where LMU students can enlist the help of specialists and tutors to enhance the learning process. Every LMU student is invited to make use of the LRC’s free services and workshops. The Center’s full-time specialists in writing, mathematics, and learning skills, as well as its peer tutoring staff, are ready to work with students to encourage those essential learning skills which bring greater academic and personal success. In addition, the Center offers one hour, appointment-based tutoring in a variety of LMU courses. For additional information on LRC services, please call (310) 338-2847 or visit http://www.lmu.edu/lrc.

Orientation

Director: Page Streb

The Orientation Program welcomes new students to the Loyola Marymount community. During Orientation, students are introduced to the academic programs of the University, meet with faculty for individual academic advisement, and are assisted in registering for courses. Students also become familiar with all of the services, activities, and resources available to them. Throughout the Orientation Program, students interact in small “O” groups, led by students who attend LMU. Since Orientation provides a useful introduction to the people, programs, and opportunities LMU offers, all new students are required to participate in the program. For additional information, please contact the Director of Orientation at (310) 338-7429.

University Libraries

Associate Academic Vice President for Library and Information Services: G. Edward Evans

The Charles Von der Ahe Library, named for its principal donor, was constructed in 1959 and doubled in size in 1977. It contains the collections of the University’s Westchester campus, which totals approximately 398,000 books and bound periodicals, 12,000 various media titles, 140,000 microforms, 3,000 current periodical subscriptions in paper format, and over 13,000 electronic periodical subscriptions. In addition to the Library’s online catalog, LINUS, network access is also available to online index databases such as FirstSearch™, EBSCOhost™, and PROquest Research Library™. For a complete listing of available databases, please go to the Library home page: http://www.lmu.edu/library. In addition, the Library is a member of the LINK+ Consortium, an organization created to allow patrons to borrow books from member libraries. LINK+ includes over 4.5 million titles available by patron request from LINUS, the online catalog. The Library’s Instruction Program offers classroom instruction in information literacy and database searching.

The Department of Archives and Special Collections houses collections of art, rare books, manuscripts, and the University Archives. Notable holdings include the St. Thomas More, Oliver Goldsmith, and Helena and John Weadock Collection of rare English and American first editions. Other important collections are the papers of the
motion picture producer Arthur P. Jacobs, best known for the *Planet of the Apes* series, and the Werner Von Boltenstern postcard collection which contains one million cards. The department also houses the Research Collection of the Center for the Study of Los Angeles which collects research materials relating to local public officials, post-World War II developers, late twentieth-century reformers, and prominent Catholic families.

The Library's Media and Reserve Services Department provides reserve materials for student classwork as well as equipment and materials in various multi-media formats. Study carrels are equipped so that students can listen to audiocassettes, compact discs, and LPs, and view videocassettes, laserdiscs, slides, filmstrips, and CD-ROMs. More information about the Library may be found at http://www.lmu.edu/library.
Academic Awards and Commencement Honors

Honors at Commencement

To be eligible for scholastic honors at commencement, a student must have completed at least 60 semester hours toward the baccalaureate degree on a graded basis (Credit/No Credit grades do not apply) at Loyola Marymount. Honors at commencement are determined by the cumulative grade point average on LMU work only. The following grade point averages are required for the honors indicated:

- 3.9 Summa Cum Laude
- 3.7 Magna Cum Laude
- 3.5 Cum Laude

These honors are entered on the transcript and are inscribed on the diploma.

Dean’s List

A Dean’s List, comprised of full-time matriculated undergraduate students, is published at the end of the Fall and Spring semesters. To be eligible for the Dean’s list, students must have completed 15 semester hours at LMU and received letter grades in at least 12 semester hours with a cumulative term grade point average of 3.50 or better. To qualify for the Dean’s List, one must have completed all courses and not received a grade of F in any course.

Jesuit Honor Society

Alpha Sigma Nu is a national honor society for men and women. The society was organized to honor students from Jesuit colleges and universities who have distinguished themselves in scholarship, loyalty, and service to the University. A limited number of juniors and seniors are selected for membership each year. The society offers its services to the University, particularly in an effort to stimulate intellectual interest and accomplishment.

University Academic Awards

The University Scholar of the Year Award

Presented to the student who, in the four-year undergraduate program at LMU, is determined to have achieved the best overall academic record in the graduating class.

The Ignatian Award

Awarded to the graduating senior man who has achieved well academically and who has distinguished himself in leadership and service to the student body and the University.

The Marian Award

Awarded to the graduating senior woman who has achieved well academically and who has distinguished herself in leadership and service to the student body and the University.

The Valedictorian Award

Presented to the student who, in the four-year undergraduate program, is chosen after a presentation to the Valedictorian Committee to give the Valedictorian Address at the Undergraduate Commencement Services.

Presidential Citations

Presented to outstanding graduates who have combined excellence in the classroom with effective service and leadership in the University community.

College, Departmental, and Program Awards

The College Scholar Awards

Presented to the top graduating senior who has achieved the highest academic record in each of the four undergraduate colleges.

The Clinton J. Albertson, S.J., University Honors Program Award

Presented to an outstanding graduating student in the University Honors Program.

The American Chemical Society Analytical Division Award

Given to the third-year student who has demonstrated excellence in analytical chemistry and displays an aptitude for a career in the field.
The American Chemical Society Organic Division Award
Given to the outstanding student of two semesters of organic chemistry.

The American Institute of Chemists Award
The gift of the Western Chapter of the American Institute of Chemists presented to the graduating senior who, in the opinion of the faculty of the Department of Chemistry, is deserving of special recognition for leadership, character, and excellence in scholarship.

The Leonard Simon Blenkiron English Award
The gift of Mrs. Mae Emma Blenkiron, in memory of her husband, Leonard Simon Blenkiron, awarded to a senior English major for excellence in English.

The Sister Regina Buchholz, S.C.R.H., Award
Presented in honor of Sister Regina Buchholz, S.C.R.H., Professor Emerita of Art, by the Department of Art and Art History, to a senior Studio Arts major in recognition of excellence in the field of art and of service to the University.

The Stanley Chan Award
Given to the outstanding graduate of the Political Science Department who demonstrates superior academic achievement, outstanding service to the University, and commitment to Judeo-Christian values.

The Caloyeras Center Summer Scholarship
This all-expenses-paid summer scholarship to study in Greece is awarded to a student in the Modern Greek Studies Program who has demonstrated superior academic achievement.

The CRC Press First-Year Chemistry Award
Given to the outstanding student of two semesters of first-year general chemistry.

The Delta Sigma Pi Professional Fraternity Award
The gift of the local chapter of Delta Sigma Pi to a business student for academic excellence and leadership potential.

The Dockweiler Gold Medal
The gift of Mrs. Henry I. Dockweiler awarded annually to the graduating senior who has achieved general excellence in the field of history and in service to the University.

The Jerome K. Doolan Endowed Engineering Award
The gift of Mr. and Mrs. Jerome K. Doolan, awarded to the graduating senior engineer, who, by reasons of his or her scholarship, participation in student activities, and promise of future success in his chosen profession, shall have been judged deserving of special recognition.

The Financial Executives Medallion Awards
Presented by the Financial Executives Institute, recognizing the top student in the field of finance for the four years of study.

The Finnegan-Reiland Education Award
Named in honor of two professors emeriti of the School of Education, the award recognizes distinction in student teaching, superior scholastic achievement, and service to others.

The Barbara and Hugh Gray Award for Greek Studies
Presented by the Basil P. Caloyeras Center for Modern Greek Studies to the author of the best paper on Modern Greek Studies.

The Carl G. Kadner Award
Presented to the graduating senior who has achieved academic excellence, exhibited strong leadership, and provided dedicated service to the Biology Department.

The Jerome J. Korth Award
Presented to the graduating senior in the Frank R. Seaver College of Science and Engineering with the highest grade point average in the University’s core curriculum.

The Marketing Student Award
Presented by the Loyola Marymount Collegiate Chapter of the American Marketing Association to the senior with outstanding participation, academic achievement, and career potential in marketing.

Dr. Thomas D. Pitts Award
A gift of the Alumni, honoring Dr. Thomas D. Pitts, Professor of Biology from 1948-1974, to a graduating senior in the Department of Biology who has shown a growth to academic excellence and provided service to the University.

The Alan Seydoux Memorial Award
Given to a graduating senior who has achieved excellence in the area of field or marine biology and who has provided service to the University.
The Mary Tsassis Award in European History
Presented by the Basil P. Caloyeras Center for Modern Greek Studies to the graduating senior who has demonstrated excellence in European history.

The Wall Street Journal Student Achievement Awards
The gift of Dow Jones & Company, publishers of the Wall Street Journal, to be given to the senior who ranks highest in finance and in economics.

Special Awards

The AFROTC Award
The gift of the President of Loyola Marymount University to the graduating senior in the Air Force ROTC who exemplifies the high ideals of the University through leadership and service to AFROTC, the school, and the community.

The Samuel Z. Arkoff Awards
The gift of Samuel Z. Arkoff, awarded annually in two categories of achievement: best film and best full-length film script by an undergraduate student.

Eugene Escallier Foreign Study Scholarship Award
An endowed gift of Lucien Escallier to a full-time junior or senior student for educational enrichment through travel and foreign study within the area where western culture was born.

The Jack Haley, Jr., Film Award
Originally created by Jack Haley, Sr., and now supported by a grant from Jack Haley, Jr. Designed to foster and encourage excellence in student film production.

Rev. James N. Loughran, S.J., Award for Community Service
Presented to the outstanding graduating senior in good academic standing who, through his/her leadership, activities, and involvement with the community beyond the campus and throughout his or her years at Loyola Marymount University, has improved relations between the community and the University and has created a positive view of Loyola Marymount University. The recipient has exemplified Jesuit and Marymount ideals of hard work and generosity, has had a significant impact in off-campus service, and has given promise of selfless and effective leadership in the years ahead.

Sr. Raymunde McKay, R.S.H.M., Service and Leadership Award for Seniors
Presented to ten graduating seniors in good academic standing who, during their years at Loyola Marymount, have excelled as leaders and servants. The recipients of the McKay Award have: been instrumental in initiating change; taken on leadership roles that have motivated their peers to challenge themselves and others; enriched the quality of University life by building school spirit and by creating a positive and respectful community; and given selflessly of their time and energy in an attempt to make the world—that of the University, local community, and nation—a better place.
University Honors Program

Program Requirements:

Year One
- HNRS 100: Writing Tutorial
- HNRS 101: American Persona
- HNRS 115: On the Sublime
- HNRS 120: On Human Dignity
- HNRS 130: Society and Its Discontents
- HNRS 140: On Motion and Mechanics

Year Two
- HNRS 215: Imago Dei
- HNRS 220: Republic to Prince
- HNRS 230: Age of Leviathan
- HNRS 240: On the Nature of Things

Year Three
- HNRS 330: Beyond Good and Evil
- HNRS 398: Interdisciplinary Seminar
- HNRS 495: Thesis Seminar I

Year Four
- HNRS 496: Thesis Seminar II
- HNRS 497: Honors Thesis

Foreign Language Requirement
- Proficiency to the level of nine semester hours

Additional core chosen from University offerings:
- Arts, critical or creative
- Theological Studies, 300-level
- Social Science

A.P. and transfer credits are applicable to the social science and foreign language requirements (as well as results from the Language Placement Examination administered during Summer Orientation). Students pursuing a Bachelor of Science degree or a Bachelor of Arts degree in mathematics are exempt from taking HNRS 140. In addition, Engineering majors take either HNRS 220 or HNRS 230 and are exempt from the social science requirement.

HNRS 100
Writing Tutorial
1 Semester Hour

An individual tutorial which guides students in the writing of clear, logical, and cogent essays, with an emphasis on close and accurate readings of the texts from HNRS 115.

Concurrent enrollment in HNRS 115.

HNRS 101
American Persona
3 Semester Hours

A writing intensive course based on readings reflecting the political, social, and literary diversity of the cultures in which we live.

University Honors Program

All University Colleges

Director:
Kelly Younger

Objectives:
The University Honors core curriculum is an intensive undergraduate experience beginning with four interdisciplinary courses in the humanities and sciences with an individualized sequence in writing, critical thinking, and cultural studies. A second-year sequence in historiography, theology, and natural philosophy prepares the Honors student for the third-year seminars in ethics, interdisciplinary studies, and thesis preparation. The fourth year results in the publication of the capstone thesis project: the culmination of independent research under the individual guidance of a professor and the participation in the Senior Thesis Forum.

University Honors students must maintain an average GPA of 3.50 and display proficiency in a foreign language. Successful completion of the University Honors Program is announced at the annual commencement ceremonies and noted on the student's permanent transcript. This recognition is of lasting personal, professional, and academic value.

The University Honors Program is open to incoming and current first year students. First semester sophomores and transfer students may also apply. More is expected of students in the Honors Program; not everyone is qualified to join. We are interested in: a sense of academic adventure, highly motivated individuals, rigorous educational experience, social awareness, personal responsibility, interesting personal background, a first-rate cumulative GPA (4.0 scale), highly competitive test scores (SAT and/or ACT), the constant pursuit of excellence. Interested students should complete an application; schedule an interview with the Director, Assistant Director, or member of the Honors Advisory Council; provide a critical writing sample; and submit a letter of reference.

Each Fall the University Honors Program carefully selects a limited number of incoming students to join the Program. Application materials are available at http://www.lmu.edu/honors.

Bellarmine College of Liberal Arts
Bellarmine College of Liberal Arts

Administration
Dean: Michael E. Engh, S.J.
Associate Dean: John R. Popiden

Mission of the College
The Bellarmine College of Liberal Arts (BCLA) embodies the wider University goals of liberal education and commitment to Roman Catholicism and the Judaeo-Christian tradition. The curriculum in the College liberates the mind, nourishes the spirit, and cultivates creativity for the challenges of today and tomorrow. Its courses, therefore, are at the heart of the University’s core curriculum for all undergraduates.

BCLA Student Learning Outcomes
By virtue of their liberal arts courses, LMU students should understand:
• The various ways in which knowledge is established and integrated
• The broad outlines of human history and the interconnectedness of the world
• The philosophical and theological dimensions of our intellectual traditions.

By virtue of their liberal arts courses, LMU students should be able to:
• Demonstrate written and oral competencies
• Synthesize and apply knowledge to solve problems, personal and social
• Interact cross-culturally and pursue justice, locally and globally.

By virtue of their liberal arts courses, LMU students should value:
• The life of the mind, enhanced self-awareness and social awareness
• Critical reflection that leads to thoughtful action
• Diversity, responsibility, justice, and globally sound human practice.

Similarly, BCLA students attain the learning outcomes of their majors and minors, found in the following program descriptions.

Organization of the College
The College offers undergraduate majors and/or minors in the following fields of learning:

Graduate programs are also offered in the departments of English, Philosophy, and Theological Studies. For further information, consult the Graduate Bulletin.

**Application of General University Requirements**

The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the Bellarmine College of Liberal Arts.

**Degree Requirements for a Baccalaureate Degree in the Bellarmine College of Liberal Arts**

The degree program has three components: core, major, and electives. The core curriculum, which is taken throughout the four-year program, provides educational breadth and embodies Loyola Marymount's educational mission and vision. The major provides a field of concentration that develops a depth of understanding in the humanities or social sciences. Finally, up to one-third of the program is made up of electives. This provides the opportunity for exploring fields of study complementary to the major or for developing expertise in a second major or minor.

**Total Program**

120 semester hours are required for graduation with the following distribution: a) at least 45 semester hours of upper division, and b) a maximum of 30 upper division semester hours in any one department will be accepted toward graduation requirements.

No more than 9 semester hours in any of the following programs will be accepted toward degree requirements: ART, DANC (studio technique/performance), MUSC (applied music, studio, or performance), THEA (technical or performance).

Liberal Arts students with a double major or minor in one of the above departments are allowed to exceed the 9 semester hour limit in order to complete their programs. Only those units that are applicable to the double major or minor will be accepted toward graduation requirements.

Enrollment by degree-seeking students at another institution at the same time they are enrolled at LMU is not permitted.

The Bellarmine College of Liberal Arts accepts a maximum of two units of physical education only upon entrance for a new transfer student. Other physical education hours do not count toward degree requirements.

A maximum of 10 units of Aerospace credit will be accepted. This credit is limited to:

- AERO 100: 1 unit
- AERO 101: 1 unit
- AERO 200: 1 unit
- AERO 201: 1 unit
- AERO 300/400: 3 units
- AERO 301/401: 3 units

Students should consult the Dean's Office for specific policies applicable to the Bellarmine College of Liberal Arts.

**Core Curriculum for the Baccalaureate Degree in the Bellarmine College of Liberal Arts**

**American Cultures**

3 Semester Hours

Course Selection:
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

**College Writing**

3 Semester Hours

Course Selection:
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- (1.7) or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.
Communication or Critical Thinking
3 Semester Hours

Course Selection:
Communication: Choose from CMST 100, 110, 130, or 140
or
Critical Thinking: Choose from CMST 206 or PHIL 220.

Critical and Creative Arts
6 Semester Hours

Course Selection:
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.
Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FILM 210, 314, 315; INDA 100; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.
Creative Arts: Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); FILM 260; MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

History
6 Semester Hours

Course Selection:
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.
Western Civilization: Choose from HIST 100 or 101.
Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection:
Prerequisite: Successful completion of college writing requirement.

Choose from CLAS 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430. Or choose any upper division literature course in a modern or classical language, e.g., CHIN, FLPN, FREN, GREK, GRMN, ITAL, JAPN, LATN, MDGK, or SPAN.

Mathematics
3 Semester Hours

Course Selection:
Choose MATH 102 or higher. Some majors require a specific mathematics course, which also fulfills this requirement.

Science and Technology
3 Semester Hours

Course Selection:
Choose one course from a department other than Mathematics. Courses numbered 260-279 in each department of the College of Science and Engineering are specifically designed for non-science majors. Choose from BIOL, CHEM, CMSI, ELEC, MECH, NTLS, or PHYS.

Philosophy
6 Semester Hours

Course Selection:
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose one PHIL course numbered 320 through 330.

Social Sciences
6 Semester Hours

Course Selection:
1. Select two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.
2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100, and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.
3. Select two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.
Theological Studies
6 Semester Hours

Course Selection:
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose from the 300-level series of THST courses only.

Major Requirements
Students must have a major. Please see the following pages for the requirements for specific programs. Students ordinarily enter the University with a major, but may enter undeclared. Undeclared students must declare a major prior to enrolling in classes for their junior year.

Minor Requirements
Students may, if they so desire, dedicate some of their electives in pursuit of a minor. Please see the following pages for the requirements for specific programs.

Recommendations:
Students are encouraged to enrich their program of study with courses from the following areas.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select courses that deal with international and/or global issues. Such courses are offered throughout the University and are available as electives or as options within the core or major. Consult the Bulletin listings.

Internships
Students are encouraged to link academics and career exploration through internships. Internships may be arranged through the Career Development Office. Also, internship courses are offered through various academic departments.

Study Abroad
A semester of international study abroad is also recommended for the junior year. Consult the Study Abroad Office.

First Year Institute
Director: Barbara Roche Rico
The First Year Institute (FYI) is a program for entering first-year students, offering thematically linked core courses. The FYI professors work closely together and coordinate readings, guest speakers, and field trips to complement the classroom experience. Smaller class size allows for a higher level of interaction and engagement.

Students Interested in Teaching in California Public Schools
Students wishing to teach grades K-5 in California public schools are required to obtain a Multiple Subjects Subject Matter Teaching Credential and demonstrate “subject matter competence” to teach the many subjects commonly taught in elementary school. Subject matter competence can be demonstrated by either passing a national exam or by successfully completing the requirements of the Liberal Studies Bachelor’s of Arts degree in the Bellarmine College of Liberal Arts. Students interested in the Liberal Studies degree program should consult a Liberal Studies advisor.

Students wishing to teach in grades 6-12 in California public schools are required to obtain a Single Subject Credential and demonstrate “subject matter competence” to teach a particular subject (e.g., English, Social Studies, Foreign Language, Math, or Science). Subject matter competence can be demonstrated by either passing a national exam or by successfully completing an approved subject matter preparation program in English. Students interested in teaching English at the 6-12 grades levels should consult the English Subject Matter advisor in the English Department. The College of Science and Engineering offers an approved single subject preparation program in math. Students interested in teaching math should consult an advisor in the Math Department. Subject matter preparation programs in science, the social sciences, French, and Spanish are pending.
A Multiple Subjects Subject Matter or Single Subject Matter teaching credential can be earned concurrently with a Bachelor’s degree. Except for Liberal Studies majors, students may declare a minor in Education and begin taking Education courses after completion of 30 semester hours (first semester Sophomore standing). In order to maximize the full potential of taking Education courses with the undergraduate program, students are strongly encouraged to declare the Education minor early in their career. Credential programs are also available in Special Education (K-12) and Bilingual Education (Spanish, K-12). For more information on Education programs, see the School of Education section in this Bulletin.
African American Studies

Faculty:
Chairperson: John A. Davis
Associate Professor: John A. Davis
Assistant Professors: Dionne Bennett, Dianne D. Glave

Objectives:
African American Studies is an interdisciplinary department with a worldview grounded in the perspective of Africa and the Diaspora. This worldview forms the basis of our intellectual, theoretical, and methodological approaches. The objective of African American Studies is to understand the forces that impact the lives of people of African descent in America as well as the influences of African descent on America and beyond. The Department's curriculum challenges students to integrate knowledge and analytical skills from disciplines such as sociology, history, literature, political science, philosophy, and economics so that a more holistic understanding emerges.

By examining the lived experiences of Africans in America and throughout the Diaspora from the perspective of various disciplines, students develop a deeper understanding of themselves and their interactions within a diverse society. Thus, African American Studies provides students with an excellent preparation for graduate study, professional schools, and numerous employment opportunities that require a Bachelor of Arts degree.

African American Studies Student Learning Outcomes
By virtue of exposure to African American Studies courses,

African American Studies students should know:
- The general history of African American people in the U.S. and the Diaspora
- The significance of the concept of an African world-view and its significance to African American-centered scholarship
- How to conduct social science research and to interpret scientific data
- The basic research questions posed by the various disciplines contributing to a better understanding of the African American experience
- The value of embracing the concept of diversity in the modern and complex world in which we live

African American Studies students should be able to:
- Effectively employ social science methodologies in the analysis of issues related to African Americans
- Demonstrate written and oral competencies in the analysis of theories and practices
- Identify and utilize appropriate primary data, including census and demographic data
- Apply their understanding of social issues to the development and critical analysis of programs and policies that impact residents in rural and urban areas
- Develop a basic knowledge and appreciation of the Black Aesthetic
- Develop an understanding of the forces that negatively impact the Black family and other institutions in the Black community;

African American Studies students should value:
- The contributions of Black people to America and to world civilization
- The importance of diversity in a complex world
- Critical thinking as an important problem solving skill
- Community service and service learning as meaningful activities
- The dignity of all human cultures.

Major Requirements:
Lower Division:
AFAM 115
AFAM 150
AFAM 155

One course in research methods chosen from the following:
AFAM 208
POLS 210
SOCL 109

Upper Division:
24 semester hours in upper division courses must include AFAM 335 (SOCL 335) and AFAM 497. AFAM 335 should be taken in the first semester of the junior or senior year. AFAM 497 should be taken in the senior year. The remaining 18 hours
are to be chosen from the five focus areas in which the upper division courses in African American Studies are grouped: I) Sociology, II) History, III) Literature/English, IV) Economics and Urban Studies, V) Senior Seminar. An average grade of C (2.0) must be obtained in courses included in the major.

### I. Sociology
- AFAM 301 Black Family Life
- AFAM 334 Race and Ethnic Relations*
- AFAM 335 Sociology of the Black Community
- AFAM 435 Sex, Race, and Violence
- AFAM 485 African American Social Thought*

### II. History
- AFAM 390 African Kingdom*
- AFAM 392 Colonial Africa 1860-1960*
- AFAM 490 The Nile Quest*
- AFAM 491 South Africa*
- AFAM 590 Seminar in African History*

### III. Literature/English
- AFAM 337 Black Arts Movements
- AFAM 395 Black Drama
- AFAM 396 Survey of African Amer. Literature

### IV. Economics and Urban Studies
- AFAM 326 Econ. Dev. Minority Communities*
- AFAM 365 Metropolitan L.A.*

### V. Senior Seminar
- AFAM 497 Senior Seminar

* cross-listed courses

### Minor Requirements:
18 semester hours, including AFAM 115, 150 or 155, and 335 and nine (9) semester hours in upper division courses. An average grade of C (2.0) must be obtained in the courses included in the minor.

### African American Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as AFAM major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

AFAM 301 Black Family Life
3 Semester Hours

This course examines relevant issues about life within the Black Family and the impact that these issues have on the individual, the community, and the society at large. Emphasis is placed on myths, gender roles, socialization, parenting styles, and male/female relationships. The course gives students an opportunity to select an aspect of Black life and do an in-depth critical analysis of it with a focus on the current research, competing views, and implications for the future.

AFAM 335 Sociology of the Black Community
3 Semester Hours

A survey of the effects of long-standing discrimination and deprivation upon family structure, occupational patterns, health and educational conditions, motivation, and personal as well as group identity. An analysis of the Black power concept and its influence upon the growing community control of the ghetto.

AFAM 337 Black Arts Movement
3 Semester Hours

AFAM 395 Black Drama
3 Semester Hours

A survey of dramatic literature written by African American playwrights from the 19th century to the current day. Representative playwrights include Garland Anderson, Theodore Ward, Langston Hughes, James Baldwin, Lorraine Hansberry, Charles Gordone, Charles Fuller, Ntozake Shange, and August Wilson. Students will have opportunities to attend live performances of African American drama in L.A. communities and to stage readings of selected works.

AFAM 396 Survey of African American Literature
3 Semester Hours

A study of the major themes in selected works of African American literature; examination of their social, historical, cultural, and contemporary significance.

AFAM 398 Special Studies
1-3 Semester Hours

AFAM 399 Independent Studies
1-3 Semester Hours

AFAM 435 Sex, Race, and Violence
3 Semester Hours

This course examines the issues of sex, race, and violence and their implications for the individual, the family, and the community. Emphasis is placed on the role of socialization and the myths that impact societal attitudes about sex and violence. Students have an opportunity to identify and to explore factors that influence the manifestation of physical violence (including dating violence, child abuse, and domestic violence) and sexual violence (including date rape, stranger rape, and marital rape) across the dimensions of race, ethnicity, and gender.

AFAM 485 African American Social Thought
3 Semester Hours

A survey of the development of African American social thought with special emphasis upon current philosophies which have influenced contemporary African American social movements.

AFAM 497 Senior Seminar
3 Semester Hours

Designed as a capstone experience for African American Studies majors and minors. In the seminar format, students will be challenged to integrate knowledge, skills gained in course work, and life experiences into a meaningful project that meets the challenge of academic excellence and social responsibility.

Prerequisite: Senior standing.

American Cultures Studies

Coordinator:
Edward Park

Mission of American Cultures Studies

Courses in American Cultures Studies will enhance students' familiarity with and appreciation of several of the diverse cultural groups that comprise the multi-ethnic society of the United States. The in-depth, comparative, and interdisciplinary study of the cultures, behaviors, experiences, and inter-group relations of the following groups—African American, Asian/Pacific Islander American, Chicano/Latino American, European American, and Native American—will provide students with some of the strategies and help them gain competencies and sensibilities that will enable them to contribute to and thrive in a culturally diverse world. (It is understood that the above categories do not include the entirety of peoples comprising the United States of America. Moreover, it is recognized that a rich variety of cultures is also represented within these broad groups.)

Students will strengthen their knowledge and awareness of their own ethnic or cultural group. They will also develop their own creative and critical faculties, their own analytical and affective responses to various forms of cultural expression. This approach would, by definition, coax students to challenge the boundaries of ethnicity, culture, and academic discipline. In so doing, students will not only improve their intergroup communication skills, they will also become better able to see, appreciate, and respect the perspectives of others—factors that are essential to the creation of a more understanding and just society.

Goals of American Cultures Studies

Courses in American Cultures Studies are designed to:

- Provide strategies and enable competencies necessary to thrive in and contribute to a multi-ethnic and inter-cultural environment.
- Link theory and practice in the Jesuit-Marymount tradition.

American Cultures Studies Student Learning Outcomes

Students who have completed an AMCS course will:

- Know the histories, cultures, and politics of major ethno-racial groups in American society
- Know the role of race and ethnicity in shaping the American experience.
AMCS 299
Independent Studies
1-3 Semester Hours

AMCS 300
Advanced Survey of American Cultures
3 Semester Hours

Upper division courses in American Cultures Studies explore the meaning and dynamics of race, ethnicity, class, sexuality, and other factors that define members of our society. These issues are explored from the vantage point of at least three ethno-cultural groups. Courses may be taught from myriad disciplinary perspectives and emphasize the development of basic skills for understanding and interacting in today’s multicultural society.

Prerequisite: Junior and Senior students only.

AMCS 398
Special Studies
1-3 Semester Hours

Prerequisite: Junior and Senior students only.

AMCS 399
Independent Studies
1-3 Semester Hours
Asian and Pacific Studies

Director:
Robin Wang

Objectives:
Asian and Pacific Studies, an interdisciplinary area studies program, provides a general background to the traditions and cultures of Asia and the Pacific as well as an understanding of contemporary issues relating to that region. Furthermore, given the present shift of interest to the Pacific region, it aims to deepen the student's knowledge of Asia and the Pacific or of a country/area through a concentrated study in one academic discipline. This academic program, therefore, is intended to develop the student's personal interest in Asian and Pacific affairs and to prepare her or him for Asia-related career opportunities. All students are encouraged to spend some time in Asia through the various programs available to them.

Asian and Pacific Studies Student Learning Outcomes

- Students will come to understand the culture of the Asia Pacific region and its contributions to human civilization, with special attention to distinctively Asian culture and spiritual traditions that originated in this region;
- Students will enhance their competencies by doing original research on topics of concern in the Asia Pacific region, and communicate their findings in both written and oral presentations. Students will also acquire a basic knowledge and skill in an Asian language;
- Students will have the opportunity to develop self-awareness by exploring interactively the relationships between their own cultures and those of the Asian Pacific region.

Major Requirements:

Lower Division Requirements (18 units) including:

- ASPA 201 Asian Civilizations
- HIST 182 Modern Asia

Language Requirement:
Study of an Asian language (competence expected is the equivalent of a two-year study, i.e., 12 units). Native speakers of an Asian language may be exempted from the language requirement but will be strongly encouraged to study another language. At LMU, course credit may be obtained for CHIN 101, 102, 203, 204; CLAS 201, 202 (Sanskrit); FLPN 101, 102, 203, 204; JAPN 101, 102, 203, 204. At UCLA, credit may be obtained through the SOCCIS program for Arabic, Korean, and Mongolian.

Upper Division Requirements (24 units):

ASPA courses (9 units):

<table>

<td>Senior Integrating Seminar</td>
</tr>
</tbody>
</table>

Electives (15 units):
Electives within the major may be chosen from a variety of disciplines, including: History, Religion and Philosophy, Arts and Literature, Political Science, Business and Economics.

Minor Requirements:

Students who elect to pursue the minor will, in consultation with the Director, plot an appropriate course of study. The minor requires 18 semester hours of course work: HIST 182 (3 units); one semester of Asian language (3 units); three electives (9 units), at least two of which must be from the Bellarmine College of Liberal Arts; and ASPA 500 (3 units).

Asian and Pacific Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as ASPA major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

### ASIAN AND PACIFIC STUDIES / 97
ASPA 500
Senior Integrating Seminar
3 Semester Hours

This requirement enables the students to integrate their work in Asian and Pacific Studies. The actual content of the course will depend on the student's chosen focus. Students write a senior thesis under the guidance of a faculty member. The thesis, while focused on a particular topic, is intended to be interdisciplinary.

**Upper Division Electives**

**Bellarmine College of Liberal Arts:**
- APAM 371 Asian American Literature
- APAM 417 Contemporary Issues of Asian Pacific Americans
- APAM 427 Asian American Psychology
- HIST 482 Imperial China
- HIST 483 Modern China
- HIST 484 Age of Samurai
- HIST 485 Twentieth-Century Japan
- HIST 580 Seminar in Asian History
- PHIL 364 Asian Philosophy
- PHIL 365 Chinese Philosophy
- POLS 355 Politics of Asia
- SOCL 375 Hawaii and the Pacific Islands
- THST 382 Religions of India
- THST 384 Religions of East Asia
- THST 385 Buddhism
- THST 480 Topics in Comparative Theology

**College of Communication and Fine Arts:**
- ARHS 320 The Arts of Islam
- ARHS 321 Arts of Asia: Zen
- ARHS 420 Arts of Early India
- ARHS 421 Arts of Later India
- ARHS 425 Arts of China
- ARHS 428 Arts of Japan
- DANC 371 Martial Arts (2 units)
- DANC 372 Martial Arts in China (2 units)
- DANC 374 Yoga (2 units)
- MUSC 403 Music of Indonesia
- MUSC 404 Music of India
- MUSC 454 World Music: Small Ensemble
- MUSC 455 World Music: Large Ensemble
- THEA 348 Asian Spirit in Drama

**College of Business Administration:**
- FNCE 442 Multinationals and the Third World
- INBA 340 Intro. to International Business
- TOUR 381 Travel and Tourism Internship
- TOUR 382 Marketing Travel and Tourism
- TOUR 384 Financial Management in Travel & Tourism
- TOUR 484 Eco-Tourism

Credit is contingent upon substantial work on Asia and/or the Pacific. Check for course prerequisites or requirements.

Additionally, courses in BLAW, ECON, FNCE, MGMT, MRKT, and POLS with an international focus and courses in DANC, ENGL, and MUSC with a world focus and that have substantial work on Asia and/or the Pacific may fulfill upper division hours in the major or minor. Please consult with the Director.

In all cases, check for course prerequisites or requirements.
Asian Pacific American Studies

Director:
Edward Park

Objectives:
Asian Pacific American Studies (APAM) is a program that supports Loyola Marymount’s commitment to multicultural education. APAM grew out of the Asian Pacific Studies Program (ASPA) in 1992. While ASPA focuses on the traditions and cultures of Asia and the Pacific, APAM is designed to enhance student understanding of the history and contemporary issues that impact the lives of Asian Pacific Americans in the United States. A minor in APAM is available at LMU.

People of all races and ethnicities are encouraged to enroll in APAM courses. Only through a critical understanding of our multicultural society can we begin to “live together, learn together, work together, and forge new ties that bind together.”

Asian Pacific American Studies Student Learning Outcomes

- A greater understanding of the historical contributions of Asian Pacific Americans
- A more critical understanding of contemporary issues facing the Asian Pacific American communities
- A deeper appreciation of the ethnic, class, gender, and generation diversity of Asian Pacific Americans
- A greater appreciation of Asian Pacific American cultural, literary, and artistic expressions

APAM Minor Requirements (18 units)

APAM 117
Introduction to Asian Pacific American Studies
3 Semester Hours

An introductory course which surveys the cultures and histories of the Asian Pacific American in the U.S. Interaction among various Asian Pacific American groups and various issues facing Asian Pacific Americans in the United States will also be discussed.

Fulfills core curriculum requirement for Social Sciences.

APAM 198

1-3 Semester Hours

APAM 199
Independent Studies
1-3 Semester Hours

APAM 298
Special Studies
1-3 Semester Hours

APAM 299
Independent Studies
1-3 Semester Hours

APAM 371
Asian American Literature
3 Semester Hours

APAM 398
Special Studies
1-3 Semester Hours

APAM 399
Independent Studies
1-3 Semester Hours

APAM 417
Contemporary Issues of Asian Pacific Americans
3 Semester Hours

Topical studies of timely and pertinent contemporary interest involving Asian Americans in the U.S. Focus will change from year to year.

Note: Other courses may be approved with the consent of the Director.
APAM 427
Asian American Psychology
3 Semester Hours
Coverage of major psychological issues relevant to Asian American personality, identity, and mental health, including acculturation, stereotypes, racial identity, intergenerational conflict, etc.

APAM 435
Asian Pacific American Women's Experience
3 Semester Hours
An interdisciplinary and comparative examination of the histories and experiences of Asian Pacific American women. Topics include social and economic inequality, literary and cultural representation, and political and community activism.

APAM 437
Asian Pacific Americans and the American Law
3 Semester Hours
An examination of constitutional, immigration, and civil rights laws and their impact on the Asian Pacific American experience. Analysis of historical court cases and legislation, including those pertaining to citizenship, exclusion, and World War II internment. Study of contemporary legal issues in Asian Pacific American communities.

APAM 450
Specific Ethnic Focus Seminars
3 Semester Hours
An in-depth examination of the experience of a single Asian American subgroup. Populations covered will vary.

APAM 453
Filipino American Experience
3 Semester Hours
Comprehensive introduction to the Filipino American experience. Historical analysis of U.S. colonialism and the experiences of Filipino Americans as “American Nationals.” Review of contemporary issues such as immigration patterns, community formation, and family dynamics. In-depth study of Filipino Americans in Los Angeles and Southern California.

APAM 457
Vietnamese American Experience
3 Semester Hours
Comprehensive introduction to the Vietnamese American experience. Review of Southeast Asian politics during the Cold War with emphasis on U.S. policies in Vietnam. Review of contemporary issues in the Vietnamese American community including economic integration, political mobilization, and community and family dynamics. In-depth study of the social and cultural life of Vietnamese Americans in Los Angeles and California.

APAM 459
Pacific Islander American Experience
3 Semester Hours
Comprehensive study of the Pacific Islander American experience, including the history and culture of Pacific Islands, especially Hawaii, and contemporary issues facing the Pacific Islander American communities, particularly in Southern California.

APAM 478
Comparative Study of Asian Pacific American History
3 Semester Hours
Traces the many-faceted histories of Asian Americans and Pacific Islanders from cross-cultural and transnational perspectives, focusing on interactions and exchanges between Asian Pacific Americans and various ethnic and racial groups.

APAM 498
Special Studies
1-3 Semester Hours

APAM 499
Independent Studies
1-3 Semester Hours

APAM 500
Capstone Course
3 Semester Hours
A mandatory course that provides APAM minors with the opportunity to create an individualized thesis project that draws on knowledge and experiences gained from previous coursework in APAM studies. Specific requirements will be finalized based on research interest.

Prerequisite: Completion of all other APAM requirements.
Chicana/o Studies

Faculty:
Chairperson: Deena J. González
Professor: Deena J. González
Associate Professors: KarenMary Davalos, Fernando J. Guerra
Assistant Professor: “Sonny” Richard E. Espinoza

Objectives:
The interdisciplinary Chicana/o Studies curriculum is designed to enhance the students’ understanding of the unique influence of the Chicano/Latino community in the United States. It is the belief of the Department that a liberal arts education should expose students to as many cultures and perspectives as possible. This exposure emphasizes the following aspects of the goals of the University: the encouragement of learning, the education of the whole person, the service of faith, and the promotion of justice. The goals of Chicana/o Studies have a special meaning given the significant historical and contemporary presence of Mexican and Chicana/o peoples in Los Angeles. Chicana/o Studies courses attempt to prepare all students to live in and contribute to a society which is increasingly diverse.

Chicana/o Studies Student Learning Outcomes
At the end of a course of study, in the major or minor in Chicana/o Studies, students will be able to:

• Interpret, define, and evaluate historical and contemporary information about Mexican-origin people living in the U.S.;
• Use and apply humanistic, scientific, and/or social science methods to arrive at their understandings about Chicana/os;
• Compare and contrast recent theories, methodologies, ideas, and developments central to the discipline of Chicana/o Studies.

Major Requirements:

Lower Division Requirements:

| CHST 116 |
| CHST 126 |
| CHST 206 |

Upper Division Requirements:

24 semester hours: 12 semester hours in upper division requirements (CHST 302, 332, 360, and 461) and 12 semester hours in Chicana/o Studies upper division electives.

Minor Requirements:

18 semester hours: CHST 116, 206, 302, 360, 461, and one Chicana/o Studies upper division elective.

Chicana/o Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

---

**CHST 116**

**Introduction to Chicana/o Studies**

*3 Semester Hours*

An interdisciplinary overview of Chicana/o Studies to familiarize the student with historical and contemporary issues in Chicana/o and Latina/o communities.

---

**CHST 126**

**Chicana/o Cultural Production**

*3 Semester Hours*

Examines contemporary Chicana/o cultural production, including performance, film, and art. Comparisons are made to other ethnic groups and crosscultural production.

---

**CHST 198**

**Special Studies**

*1-3 Semester Hours*

---

**CHST 199**

**Independent Studies**

*1-3 Semester Hours*

---

**CHST 206**

**Introduction to Chicana/o-Latina/o Literature**

*3 Semester Hours*

An overview of a range of genres, themes, and concepts created by Chicana/o and other U.S. Latina/o writers.

<td>Focuses on current writings by Chicana feminists and connects this material to African American and Asian American feminist theory. The course traces the development of Chicana feminism and its concern with the interlocking conditions of gender, race, sexuality, and class.</td>
</tr>
</tbody>
</table>

(See POLS 337)
CHST 405  
Chicana/o Critical Thought  
3 Semester Hours  
This interdisciplinary course examines Chicano and Chicana critical and philosophical thought from Meso-American cosmology to Chicana/o Critical Race Theory.

CHST 406  
Chicana/o Conciencia  
3 Semester Hours  
Surveys through literature a Chicana/o form of conciencia, Spanish for “consciousness.”

CHST 407  
Chicana/o Art: Performing Politics  
3 Semester Hours  
A historical and social investigation of Chicana/o art and the politics of identity and museum practices, including exhibition, collection, interpretation, and preservation. The course includes options for curating a virtual art gallery and field trips.

CHST 435  
The Politics of California  
1-3 Semester Hours  
An examination of the structure and dynamics of California government and politics.  
(See POLS 435)

CHST 436  
The Politics of Los Angeles  
3 Semester Hours  
A study of the structure and dynamics of county, city, and special district governments in the Los Angeles metropolitan area.  
(See POLS 436)

CHST 437  
Chicana/o Politics  
3 Semester Hours  
A study of the social and political development of the Chicano community in the United States.  
(See POLS 437)

CHST 460  
The Chicana/o Southwest  
3 Semester Hours  
An examination of the historical and contemporary issues shaping this important region of the U.S. Attention to indigenous communities, women, and current political issues.

CHST 461  
Chicana/o Research Seminar  
3 Semester Hours  
A seminar and practicum using the research tools of social scientists and humanists, including oral interviews and primary documents to explore Mexican/American, Chicana/o Los Angeles. The collections of the Center for the Study of Los Angeles serve as the basis for the topics students explore.

CHST 465  
Chicana/os-Latina/os in Film and Mass Media  
3 Semester Hours  
An examination of film and other forms of mass media, focusing on issues of representation as well as production. Subject matter alternates between Chicano cinema and Mexican/Latin American cinema.

CHST 485  
Community Research and Internship  
3 Semester Hours  
Field work in a political, governmental, religious, cultural, or social organization in the Chicana/o community, combined with assigned readings, research, and group discussion with others engaged in these same endeavors.

CHST 498  
Special Studies  
1-3 Semester Hours  
(See POLS 438)

CHST 499  
Independent Studies  
1-3 Semester Hours  
(See POLS 439)

Recommended Electives

For the purpose of providing our majors and minors with a broader perspective, the Department recommends courses in American Cultures Studies that include a Latino component, as well as the following courses:

- GEOG 361 Geog. of Mexico & Central America
- HIST 172 Modern Latin America
- HIST 367 History of Los Angeles
- POLS 354 Politics of Latin America
- PSYC 324 Ethnopsychology
- SOCL 334 Race and Ethnic Relations
- SOCL 336 Social Stratification
- SPAN 441 Latin American Novel
- SPAN 442 Latin American Poetry
- SPAN 443 Latin American Women Writers
- SPAN 444 Latin American Drama
- THST 346 The Latino Exp. in the U.S. Church
Classics and Archaeology

Faculty:

Chairperson: Matthew Dillon
Professors: Matthew Dillon, William J. Fulco, S.J., Robert B. Lawton, S.J.
Associate Professor: Katerina Zacharia

Objectives:

The study of Greek and Latin language and literature, the foundation of the Western humanistic and scientific traditions, offers the student a well-rounded liberal arts education. It is also a practical study. The student receives an excellent preparation not only for the graduate study of Classics, Theology, or Comparative Literature but also for professional school in law, medicine, or business.

Classics and Archaeology Student Learning Outcomes

As a Classics major, the student will:

- Master the grammar and syntax of Classical Greek and Latin;
- Be able to read and analyze Classical authors in the original;
- Value the lasting influence of Greco-Roman literature from antiquity to the present.

As a Classical Civilizations major, the student will:

- Know numerous aspects of Ancient Mediterranean and Near Eastern culture, including language (optional, but recommended); literature, in the original or in translation; art; history; archaeology;
- Be able to express with elegant language ideas and arguments about these cultures;
- Value the lasting influence of these cultures from antiquity to the present.

As a Greek major, the student will:

- Master the grammar and syntax of Classical Greek;
- Be able to read and analyze Greek authors in the original;
- Value the lasting influence of Greek literature from antiquity to the present.

As a Latin major, the student will:

- Master the grammar and syntax of Classical Latin;
- Be able to read and analyze Latin authors in the original;
- Value the lasting influence of Roman literature from antiquity to the present.

Major Programs

The Department of Classics and Archaeology offers a variety of majors: Classics, Greek, Latin, and Classical Civilizations. The Classics major offers a traditional training in both Greek and Latin language and literature (in the original), although students may opt to major exclusively in Greek or Latin. The Classical Civilizations major allows the student to study the cultures of Greece, Rome, and the Near East from various cultural perspectives in conjunction with other departments; in this major, language study is encouraged but not required.

Classics Major: Requirements

Lower Division:

LATN 101, 102, and 201.
GREK 101, 102, and 201.

HIST 100.

Upper Division Requirements (23 semester hours):

LATN 301, GREK 301, and 21 semester hours in upper division Latin and Greek, not in translation.

The Chairperson of the Department may alter the sequence of courses in Latin and/or Greek. In certain circumstances, upper division Classical Civilization courses may be substituted for upper division Latin or Greek.

Classical Civilizations Major: Requirements

The Classical Civilizations major is an interdisciplinary program focusing on the classical civilizations of Greece, Rome, and the Near East through the study of literature, history, archaeology, art history, philosophy, theatre, and theology. Greek and/or Latin language study is encouraged but not required.

The Classical Civilizations major consists of 39 semester hours, at least 24 of which must be in upper division courses emphasizing Greek, Roman, or Near Eastern civilization. The actual distribution of courses is selected with the guidance of the Director of the major.
In addition to the courses listed under the Department of Classics and Archaeology, the following courses may also be taken as part of the Classical Civilizations major, with the approval of the Director of the major:

HIST 100, 405, 406, 407, 408, 410, 411
PHIL 381, 382
THEA 331
THST 320

Greek Major: Requirements

Lower Division:
GREK 101, 102, 201;
Note: These requirements may be waived if the student has received prior language training sufficient for entry into upper division courses.

HIST 100.

Upper Division (22 semester hours):
GREK 301 and
21 semester hours in upper division Greek, not in translation.

Latin Major: Requirements

Lower Division Requirements:
LATN 101, 102, 201;
Note: These requirements may be waived if the student has received prior language training sufficient for entry into upper division courses.

HIST 100.

Upper Division Requirements (22 semester hours):
LATN 301 and
21 semester hours in upper division Latin, not in translation.

Minor Programs

The Department of Classics and Archaeology offers a Minor in Classics, Classical Civilizations, Greek, Latin, and Archaeology.

Minor Requirements

All minors require 18 semester hours, with at least 9 semester hours at the 300 or 400 level. For the Classics, Latin, and/or Greek minors, all courses should be in Greek and/or Latin language and literature. The Classical Civilizations minor consists of any combination of Latin, Greek, or Classical Civilizations (CLAS or ARCH) courses. The minor in Archaeology consists of ARCH 401 and 15 additional units, of which 6 may be in courses in an appropriate Mediterranean language (e.g., ancient or modern Greek, Latin, Hebrew, or Arabic, or a Romance language if it is relevant to a particular archaeological emphasis).

For the minor in Modern Greek Studies, see below.

Classics Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

### Classical Civilizations

#### Classical Epic (in Translation)

3 Semester Hours

*The Iliad, Odyssey, Argonautica, and Aeneid.*

#### Elementary Sanskrit

3 Semester Hours

The fundamentals of Sanskrit; exercises in reading. Sanskrit is the primary language for the Hindu and Buddhist traditions and the oldest surviving member of the Indo-European language group. Students learn the Devanagari script, basic vocabulary, rules for sound combination (sandhi), and foundational grammar.

#### Intermediate Sanskrit

3 Semester Hours

A continuation of CLAS 201. This course continues the study of Sanskrit grammar, and reading includes passages from such texts as the Yoga Sutra, the Bhagavad Gita, and the Ramayana.

#### Greek Tragedy (in Translation)

3 Semester Hours

The plays of Aeschylus, Sophocles, and Euripides.

#### Ancient Comedy (in Translation)

3 Semester Hours

The plays of Aristophanes, Menander, Plautus, and Terence.

#### Ancient Historians (in Translation)

3 Semester Hours

The works of Herodotus, Thucydides, Livy, and Tacitus.

#### Special Studies

1-3 Semester Hours

#### Independent Studies

1-3 Semester Hours

The GREK 101, 102, 201 sequence covers the full grammar and syntax of the Classical language and prepares the student to read and write basic prose. This series requires one additional weekly contact hour for drill and practice.

For Modern Greek, please see below.

GREK 101
Elementary Greek I
3 Semester Hours

The fundamentals of Classical Greek, including three declensions, personal and demonstrative pronouns, adjectives; the omega verb: present, imperfect, future, first aorist, active, and middle-passive; exercises in reading.

Prerequisite: GREK 101 or equivalent.

GREK 102
Elementary Greek II
3 Semester Hours

A continuation of GREK 101, including second aorist, perfect active, middle-passive; aorist passive; subjunctive; participles; relative pronouns; exercises in reading.

Prerequisite: GREK 101 or equivalent.

GREK 198
Special Studies
1-3 Semester Hours

GREK 199
Independent Studies
1-3 Semester Hours

GREK 201
Intermediate Greek
3 Semester Hours

Grammar review and selections from prose authors.

Prerequisite: GREK 102 or equivalent.

GREK 298
Special Studies
1-3 Semester Hours

GREK 299
Independent Studies
1-3 Semester Hours

GREK 301
Greek Prose Composition
1 Semester Hour

GREK 311
Readings in Homeric Greek
3 Semester Hours

Readings in the Iliad and/or Odyssey.

This course may be repeated for credit.

GREK 312
Readings in Classical Greek: Drama
3 Semester Hours

Readings in Greek Tragedy (Aeschylus, Sophocles, Euripides) and/or Comedy (Aristophanes, Menander).

This course may be repeated for credit.

GREK 321
Readings in Classical Greek: History and Oratory
3 Semester Hours

Readings in Herodotus, Thucydides, Xenophon, and/or the orators (Demosthenes, Lysias, etc.).

This course may be repeated for credit.

GREK 322
Readings in Classical Greek: Philosophy
3 Semester Hours

Readings in Plato and/or Aristotle.

This course may be repeated for credit.

GREK 323
The Epistles of Paul
3 Semester Hours

This course may be repeated for credit.

GREK 331
Readings in Hellenistic Greek
3 Semester Hours

Readings in Greek literature from the 3rd century B.C. to the New Testament.

This course may be repeated for credit.

GREK 398
Special Studies
1-3 Semester Hours

GREK 399
Independent Studies
1-3 Semester Hours
**GREK 410**  
Practicum: Teaching Classical Greek  
3 Semester Hours

Practicum in teaching skills for undergraduate elementary Greek class. Topics include planning, presentation, grading, problem solving, and tutoring.  
This course may be repeated for credit.  
Prerequisite: GREK 201 or the equivalent.

**GREK 415**  
Special Topics in Greek Literature  
3 Semester Hours

This course may be repeated for credit.

**Latin**

The LATN 101, 102, 201 sequence covers the full grammar and syntax of the Classical language and prepares the student to read and write basic prose. This series requires one additional weekly contact hour for drill and practice.

**LATN 101**  
Elementary Latin I  
3 Semester Hours

Basic introduction to grammar and syntax; the first three declensions of Latin nouns; demonstrative and personal pronouns; all four conjugations and all six tenses of Latin verbs (active voice). Translation of simple prose passages.

**LATN 102**  
Elementary Latin II  
3 Semester Hours

Continuation of Latin grammar and syntax, covering the last two declensions of nouns; relative pronouns; passive voice and subjunctive mood of verbs; indirect statement; conditions. Translation of more complex prose passages.  
Prerequisite: LATN 101 or equivalent.

**LATN 198**

CLASSICS AND ARCHAEOLOGY / 115
Archaeology

ARCH 201
Beginning and Intermediate Classical Hebrew
3 Semester Hours
A concentrated course in Hebrew, with attention paid to its historical development and to comparative phonetics and morphology.

ARCH 298
Special Studies
1-3 Semester Hours

ARCH 299
Independent Studies
1-3 Semester Hours

ARCH 301
Rapid Readings in Classical Hebrew
3 Semester Hours
Selected readings in both prose and poetry.

ARCH 354
Near Eastern Religions
3 Semester Hours
Study of the religions, rituals, and pantheons of ancient Near Eastern societies.

ARCH 361
Ancient Near East
3 Semester Hours
Study of the Near Eastern background of classical civilizations from the Neolithic to the Hellenistic periods.

ARCH 362
Ancient Near Eastern Languages
3 Semester Hours
Study of the languages and writing systems of the ancient Near East, including Sumerian, Babylonian, Egyptian, Hebrew, Aramaic, and Arabic.

ARCH 363
Archaeology and the Bible
3 Semester Hours
Study of selections from the Old or New Testament, combining historical criticism and exegesis with the relevant archaeological data.

ARCH 364
Principles of Archaeology
3 Semester Hours
Modern archaeological methodology, theory, and interpretation.

ARCH 398
Special Studies
1-3 Semester Hours

ARCH 399
Independent Studies
1-3 Semester Hours

ARCH 401
Near Eastern Archaeology
3 Semester Hours
Hands-on study of the archaeology and excavated artifacts of the Levant, from the paleolithic to the Roman periods.

ARCH 402
Mediterranean Archaeological Studies
3 Semester Hours
Study of the archaeology of a specific ancient Mediterranean culture, period, type of artifact, or phenomenon in Egypt, Anatolia, Crete, Greece, Italy, Israel-Palestine, etc.

This course may be repeated for credit.

ARCH 403
Classical Numismatics
3 Semester Hours
Hands-on study of the coinages of ancient Greece, Rome, and the Eastern Mediterranean, with emphasis on archaeology, art history, and monetary origins.

ARCH 404
Egyptology
3 Semester Hours
Study of Egypt from the Neolithic to the Roman period: history, culture, religion, art, language, and literature.

ARCH 410
Archaeology Field Experience
1-3 Semester Hours
Active participation in archaeological excavations or surveys at Near Eastern, Classical, or selected New World sites.

This course may be repeated for credit.
Modern Greek

Objectives:
The Modern Greek Studies Program offers students the opportunity to study Modern Greece—its language, literature, history (from the Byzantine Empire to the present), its Christian Orthodox tradition, and its arts. Modern Greek Studies on the LMU campus may be supplemented by the Summer Study Abroad courses of The Odyssey Program.

Minor Program
The minor in Modern Greek Studies consists of 18 semester hours, of which at least 6 hours must be at the 300 or 400 level. The following distribution is recommended, with the approval of the Director of the minor:

9 semester hours of Modern Greek language instruction;
3-6 semester hours from MDGK 341, 354, 398, 399;
3-6 semester hours from the following: CLAS 200, 210, 220, 230, 402, 451, 452; DANC 390; HIST 410, 450; THST 322; or any course in Ancient Greek (GREK 101-415).

MDGK 100
Modern Greece
3 Semester Hours
Introduction to Modern Greek language, culture, and history.

MDGK 101
Elementary Modern Greek I
3 Semester Hours
An introductory course covering the fundamentals of grammar, syntax, reading skills, and oral expression.

MDGK 102
Elementary Modern Greek II
3 Semester Hours
Continuation of MDGK 101.

MDGK 198
Special Studies
1-3 Semester Hours

MDGK 199
Independent Studies
1-3 Semester Hours

The Basil P. Caloyeras Center also sponsors the following courses with other departments:

- CLAS 305  Art and Architecture of the Ancient World
- DANC 390  Dances of Greece
- HIST 410  History of the Byzantine Empire
- THST 322  Greek Orthodox Tradition
Economics

Faculty:
Chairperson: James Konow
Professors: James Devine, James Konow, Seid Zekavat
Associate Professors: Joseph E. Earley, Zaki Eusufzai, Kamal Shoukry, Robert Singleton, Renate Thimester

Objectives:
The study of economics illuminates both the limitations and successes of different systems of the production, distribution, and consumption of material wealth. Because of the economy’s importance to the human condition, economic knowledge is useful to many other fields, such as political science, sociology, anthropology, law, and history. It, thus, is as central to a liberal arts education as it is to the business program.

The study of economics involves (1) the development of theories of economic behavior and their application to new problems; (2) the use of statistics and other evidence to test or add content to existing theories; (3) the development of perspective on economic institutions, economic history, and the development of economic philosophy. Students are encouraged to engage in independent research on all of these levels.

The goal of the program is to provide the student with the best preparation for employment in business, government, or secondary education, or for continuation to graduate studies in business, law, or economics, leading to careers in management, banking, finance, law, government, or academia.

Economics Student Learning Outcomes
- Students should demonstrate a solid understanding of modern microeconomics, macroeconomics, and statistics, including the dominant theories of decision-making, markets, and the macro-economy;
- Students should be able to think analytically using both the verbal and quantitative tools commonly employed in economics and to apply those tools to solve both theoretical as well as practical real world problems;
- Students should appreciate the importance of economics in human endeavors and the value of rigorous economic training for evaluating social phenomena; they should understand the ethical concerns that underlie economic policy, including efficiency and equity.

Major Requirements:

Lower Division Requirements:
Economics requirements comprise ECON 110, 120, 230. Mathematics requirements may be satisfied with Plan A: at least two courses from among MATH 120, 131, and 132, or Plan B: MATH 111 and 112. A grade of at least C (2.0) is required in ECON 110, 120, and 230. With the permission of the Department, ECON 100 may be accepted in lieu of 110 or 120. A student entering from high school with the equivalent of any of the above mentioned courses may challenge them by examination.

Upper Division Requirements:
A minimum of 24 hours of upper division courses. Students are permitted to take up to 30 upper division hours in economics. An average grade of C (2.0) must be obtained in economics courses. Two degrees, a Bachelor of Arts and a Bachelor of Science, are offered in economics with differing course requirements. Since graduate studies require special preparation, students considering the later pursuit of graduate degrees must consult the Graduate Advisor as soon as possible (preferably in their first few years). The Chairperson can direct these students to the Graduate Advisor, who will recommend how to structure their curriculum accordingly.

Bachelor of Arts (B.A. Economics)
At least eight upper division economics courses are needed for the B.A. degree in Economics, although students can take up to ten. Three of these courses are required: ECON 310, 320, and 410. ECON 310, 320, and 410 should be taken in the sophomore or junior year. Upper division economics courses must be taken in the LMU Economics Department, except by prior permission of the Chairperson. The B.A. degree is suitable for pre-law students, pre-M.B.A. students, business and economics double majors, or those interested in careers in general business, banking, government, urban planning, or secondary education.

Bachelor of Science (B.S. Economics)
At least eight upper division economics courses are needed for the B.S. degree in Economics, although students can take up to ten. Five of these courses are required: ECON 310, 320, 410, 530, and 532. ECON 310, 320, and 410 should be taken in the sophomore or junior year, and ECON 530 and 532 in the senior year. Upper division economics courses must be taken in the LMU Economics Department, except by prior permission
 Bachelor of Arts (B.A. Economics) with an International Emphasis

At least eight upper division economics courses are needed for the B.A. degree in Economics with an International emphasis, although students can take up to ten. Six of these courses are required: ECON 310, 320, 410, 470, 471, and 474. ECON 310 and 320 should be taken in the sophomore or junior year, and ECON 410, 470, 471, and 474 should be taken in the junior or senior year. Upper division economics courses must be taken in the LMU Economics Department, except by prior permission of the Chairperson. The B.A. degree with an International emphasis is suitable for students who intend to pursue careers in international agencies of government, NGO, and private corporations doing business in the international arena.

 Business and Economics Double Major Requirements:

Students with majors in business may also pursue a major in economics by fulfilling the requirements of the B.A. or B.S. track described above. With prior permission of the Department, double majors in Business and Economics may select two upper division Business Administration courses as part of their economics electives.

 Minor Requirements:

18 semester hours consisting of 3-6 lower division hours from the ECON 100-level series and 12-15 upper division hours selected in consultation with the advisor. An average grade of C (2.0) must be maintained in the minor.

 Test of Economic Literacy:

Once a year, the Economics Department requires all majors who have completed basic principles courses (110 and 120 or 100) to take a nationally recognized proficiency test in Economics, the Test of Economic Literacy (TEL). The student who scores highest wins a cash prize: The Award for Economic Literacy. This prize is bestowed at the annual Department banquet near the end of the Spring semester.

 Economics Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

---

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

### ECON 100

**Economic Literacy**

3 Semester Hours

Overview of microeconomics and macroeconomics, including supply and demand, theory of production and cost, competition, monopoly, inflation, unemployment, and government money and spending policy. Some attention may be given to issues of the history of economic ideas and economic history. Not intended for economics or business majors.
ECON 110
Introductory Microeconomics
3 Semester Hours

Analysis of behavior of individual economic agents including consumers and firms. Supply and demand, elasticity, theory of production, and cost. Pricing and output decisions under competition, monopoly, and other market forms.

ECON 120
Introductory Macroeconomics
3 Semester Hours

Analysis of inflation, unemployment, and gross national product. Money and banking, Keynesian and Monetarist economics, government policy toward money supply, spending, the national debt, and exchange rates.

ECON 230
Introductory Statistics
3 Semester Hours

An introduction to the modern methods of analyzing sample data. Topics include descriptive statistics, probability theory, binomial and normal distributions, estimation, hypothesis testing, and simple regression analysis.

Prerequisite: MATH 131 (or 112).

ECON 310
Intermediate Microeconomics I
3 Semester Hours

Microeconomic theory applied to the private sector. Indifference curves, utility theory, Slutsky equation, individual and market demand, technology, cost minimization, cost curves, consumer and producer surplus, efficiency, perfect competition, monopoly, price discrimination, classical oligopoly theory, game theory including Nash equilibrium, resource markets.

Prerequisites: ECON 110, MATH 131 (or 112).

Offered in the Fall semester only.

ECON 320
Intermediate Macroeconomics
3 Semester Hours

Macroeconomic analysis: The determination of national income and output and their components, employment, the price level (and inflation), interest rates, and long-term economic growth. An introduction to business cycle theory, monetary theory, balance of payments, and exchange rates. A study of economic policies to achieve goals and the limits of such policies.

Prerequisites: ECON 120 and MATH 131 (or 112).

Offered in the Spring semester only.

ECON 322
Money and Banking
3 Semester Hours

The role of monetary matters in the economy. The organization, operation, and impact of money, banks and nonbank financial intermediaries, and financial markets in the economy. The impact of these on the determination of interest rates, the price level, and economic activity. The role of central bank and regulatory agency policies in financial markets and the economy.

Prerequisite: ECON 120.

ECON 330
Regression Analysis
3 Semester Hours

Analysis of the linear regression model and its practical applications in economics, finance, marketing, and other areas of business. Material covered will be the two variable model, hypothesis testing, forecasting, functional forms of regression models, regression using dummy explanatory variables, multiple regression, autocorrelation, heteroscedasticity, and multicollinearity. Emphasis is placed on the application of the techniques covered in the course to the solution of real world problems.

Prerequisites: ECON 110, 120, and 230.

ECON 332
Introductory Computer Applications in Economics
3 Semester Hours

An introduction to the computer software used by economists to model economic and business problems. Designed for beginning users of computers.

Prerequisite: ECON 110 or 120. Recommended: ECON 230.
**ECON 334**  
**Business Forecasting**  
*3 Semester Hours*

Analysis of a wide range of forecasting methods, including regression, smoothing, and arima models.

**ECON 336**  
**Seminar in Guided Business and Economic Research**  
*3 Semester Hours*

Designed to teach students the skills necessary to perform actual quantitative research in a workshop setting. Involves the use of actual data and the application of appropriate research tools such as Box and Whisker Plot, Risk Analysis, Chi-square, analysis of Variance, Quality Control, Multiple Regression, Time Series Forecasting, and Linear Programming.

Prerequisite: ECON 230.

**ECON 338**  
**Experimental Economics**  
*3 Semester Hours*

Experimental methods of research in economics. Basic experimental concepts, induced value theory, individual decisions, game theory, market experiments, auctions, bargaining, public choice.

Prerequisite: ECON 310.

**ECON 340**  
**U.S. Economic History**  
*3 Semester Hours*

Historical study of the economic growth and institutional development of the U.S. economy from the colonial era to the twentieth century. Topics may include: the economic ramifications of the American Revolution and the Constitution, the economics of slavery, industrialization, and the origins of the Great Depression.

Prerequisites: ECON 110 and 120.

**ECON 352**  
**Labor Economics**  
*3 Semester Hours*

Modern theories of market and non-market behavior relating to issues of labor and the determination of wages, salaries, and perquisites. Empirical evidence and public policy considerations are always relevant. Topics may include: education, poverty, discrimination, internal job ladders and management systems, collective bargaining, and unemployment.

Prerequisite: ECON 110.

**ECON 356**  
**Urban Economics**  
*3 Semester Hours*

A survey of the policy and theoretical issues that are raised when economic analysis is applied in an urban setting. Topics include urbanization and urban growth housing markets, location decisions of households and firms, transportation, urban labor markets, the local public sector, and discrimination.

Prerequisite: ECON 110.

**ECON 360**  
**Financial Economics**  
*3 Semester Hours*

Practical application of financial theory in both a certain and uncertain environment. Focus on capital budgeting, financial structure, cost of capital, and dividend policy.

Prerequisites: ECON 110 and 120.

**ECON 362**  
**Managerial Economics**  
*3 Semester Hours*

Provides a solid foundation of economic understanding for use in managerial decision making. It focuses on optimization techniques in the solution of managerial problems.

Prerequisites: ECON 110 and 120.

**ECON 364**  
**Multinational Corporation**  
*3 Semester Hours*

The economic power and impact; the expansion of multinational business, international movement of management techniques, labor, resources, and technology.

Prerequisite: ECON 110 or 120.

**ECON 366**  
**Personal Finance**  
*3 Semester Hours*

This course is a comprehensive coverage of consumer finance. Topics are consumer credit, consumer spending, and investing for the short run and the long run. Housing and real estate investing, personal financial planning, and various investment vehicles such as equity, fixed rate of return instruments, annuities, and insurance as well as the fundamentals of tax planning are addressed. The emphasis is on evaluating choices and understanding the consequences of decisions in terms of opportunity costs.

Prerequisite: ECON 110 or 120.
ECON 371  
Economic Development of Minority Communities  
3 Semester Hours

Historical study of minority groups in the American economy. Emphasis upon institutions, ideas, and individuals.

Prerequisite: ECON 110.

ECON 410  
Intermediate Microeconomics II  
3 Semester Hours

Prerequisite: ECON 310.

ECON 450  
Industrial Organization  
3 Semester Hours

Analysis of firm behavior. Classical models of perfect competition, monopoly and oligopoly. Game theory including dominant strategy, Nash and subgame perfect equilibrium. Price discrimination, antitrust policy and regulation.

Prerequisite: ECON 310.

ECON 454  
Public Choice  
3 Semester Hours

The study of political decision making using economic theories and methods. Theory of voting rules, the theory of regulation, taxation, interest groups, the growth of government, and the design of constitutions.

Prerequisite: ECON 310.

ECON 470  
International Trade  
3 Semester Hours

Analysis of classical and modern theories of international trade and their relation to internal and external equilibria. Income and monetary factors, commercial policies affecting international trade. Resource movements, regional economic integration.

Prerequisite: ECON 110.

ECON 471  
International Finance Theory  
3 Semester Hours

Introduction to foreign exchange markets and the determination of exchange rates. Understanding balance of payments accounts, enacting policies to affect the current account, and examining balance of payments crises. Overview of international policy coordination and the international monetary system. Application of theory to current international issues.

Prerequisite: ECON 120.

ECON 474  
Economic Development  
3 Semester Hours

Study of the nature and characteristics of developing countries. Economic development theories applied to selected nations. Analysis of special problems of different parts of the world and obstacles to development.

Prerequisites: ECON 310 and 320, or ECON 110 and 120 with consent of instructor.

ECON 530  
Mathematical Economics  
3 Semester Hours

Absolutely necessary for those continuing to graduate school and required for those pursuing the B.S. degree in economics. Review of fundamental mathematical concepts and logic. Treatment of linear algebra, univariate and multivariate calculus, real analysis, and unconstrained and constrained optimization. Applications of mathematical techniques to typical problems in microeconomics and macroeconomics.

Prerequisites: ECON 310 and MATH 131 (or 112), or ECON 110 with consent of instructor. Recommended: ECON 320.

ECON 532  
Econometrics  
3 Semester Hours

This branch of economics uses mathematical and statistical tools to analyze economic phenomena. Mathematical formulation, establishment of hypotheses, model construction, data collection, and statistical estimation and inference. Required for the B.S. degree in Economics.

Prerequisite: ECON 230.
ECON 540
History of Economic Thought
3 Semester Hours

An analysis of the evolution of moral, political, and economic ideas and theories and their influence on the development of economic society.

Prerequisites: ECON 110 and 120.
English

Faculty:

Chairperson: David Killoran
Professors: Linda Bannister, Mel Bertolozzi, Robert Caro, S.J., Theresia de Vroom, David Killoran, Richard L. Kocher, Sharon Locy, John Menaghan, Barbara Roche Rico, Chuck Rosenthal, Greg Sarris, Lucy Wilson, Gail Wronsky
Associate Professors: Paul Harris, Holli Levitsky, John Reilly
Assistant Professors: Juan Mah y Busch, Stuart Ching, Robin Miskolce, K.J. Peters, Kelly Younger

English Department Mission:

Believing that literature is a profound expression of human experience, the English Department uses a range of critical methods to introduce students to literatures in English from a variety of cultural traditions. The course work reveals the art form’s creative beauty, strategies for representing the human experience, and its power to shape the reader.

The English Department encourages an understanding of the critical and creative union of reading and writing as fundamental to the processes of developing the self. Through their imaginations, students who major or minor in English interact with language and literature, thereby encountering another equally open and attentive mind: that of the writer they are reading or of the reader who comes to the work they have created. As students of the literary arts, English majors and minors prepare for a lifetime of reading and writing, enlightenment and fulfillment, learning to do what Toni Morrison describes as a dance of two minds.

A Note on the Core: English majors and minors must take a course to satisfy the university’s core literature requirement, and this course is separate from and in addition to the courses taken to fulfill the English major and minor requirements.

English Student Learning Outcomes

English majors know:

- The history of literatures in the English language;
- A variety of critical theories;
- The range of creative choices made by the literary artist.

English majors are able to:

- Read literary texts closely and carefully;
- Interpret analytically and innovatively using a variety of critical and theoretical approaches;
- Write creatively and effectively;
- Perceive and express the artistry, ideas, and social significance of language.

English majors value:

- The ways in which literature represents human experience;
- The affect of literature on the artist and reader;
- The artistry of precise and elegant expression.

Major Requirements:

Lower Division Requirements:

ENGL 201 and either ENGL 200 or 202; ENGL 203 and 204.

A grade of C (2.0) is required in each premajor course before qualifying for upper division status as an English major. Students transferring into the Department after their sophomore year may enroll in upper division courses in the major concurrently with the premajor courses. Students must complete all upper division courses in the major with a minimum grade of C (2.0) in order to maintain status as English majors. Failure to maintain this standard or failure to make sufficient progress toward completion of the major will result in probation or disqualification from the Department.

Upper Division Requirements:

There are two programs for the major in English:

I. The English Major: Literature Emphasis

A minimum of 27 semester hours in upper division courses. Up to six of these semester hours may be taken in writing classes.

Upper Division Requirements:

ENGL 321 or 322.

One course in English and/or American Literature prior to 1800, excluding Shakespeare.

One of the two survey courses in the History of American Literature (ENGL 371 or 372).

Two courses in English and/or American Literature after 1800.
One course in Theory (selected from ENGL 361, 422, 467, 559, 561, 562, 565, 566, 567, 569, 574, 575, 577, 579, 580, or 584).

One course in Comparative Literatures (includes any course in multi-ethnic literature, gender-based literature, world literature, or foreign language literature in translation. Check with your advisor to determine which courses may be used to fulfill this requirement.)

**Total Units: Literature Emphasis**

**Lower Division Requirements:**

12 Units (ENGL 201, 200 or 202, 203, 204)

**Upper Division Requirements:**

21 Units (see above)

**Upper Division Electives:**

6 Units

Total: 39 Units

A minimum grade of C (2.0) must be obtained in each course in the major.

**II. The English Major: Writing Emphasis**

A minimum of 27 semester hours in upper division courses.

**Upper Division Requirements:**

ENGL 321 or 322

One of the two survey courses in the History of American Literature (ENGL 371 or 372).

One course in English or American Literature after 1800.

Two 400- or 500-level writing courses, excluding ENGL 402 and 569.

One course in Theory (selected from ENGL 361, 422, 467, 559, 561, 562, 565, 566, 567, 569, 574, 575, 577, 579, 580, or 584).

One course in Comparative Literatures/Writing (includes any multi-ethnic writing or literature course, gender-based writing or literature course, world writing or literature course, or any foreign language literature course in translation. Check with your advisor to determine which courses may be used to fulfill this requirement.)

**Total Units: Writing Emphasis**

**Lower Division Requirements:**

12 Units (ENGL 201, 200 or 202, 203, 204)

**Upper Division Requirements:**

21 Units (see above)

**Upper Division Electives:**

6 Units

Total: 39 Units

A minimum grade of C (2.0) must be obtained in each course in the major.

**Minor Requirements:**

18 semester hours exclusive of ENGL 110 or its equivalent and core literature courses. ENGL 200 or 201 or 202 and at least one “survey” course selected from ENGL 203, 204, 371, or 372 must be included. At least nine semester hours, exclusive of ENGL 371 or 372, must be at the 300-, 400-, or 500-level. Three of these nine hours (or at least one course) must be selected from pre-1800 literature courses. Students may select ENGL 203 or 371 to fulfill this pre-1800 course requirement, but then they must take a second course from ENGL 203, 204, 371, or 372 to fulfill the “survey” requirement.

A minimum grade of C (2.0) must be obtained in each course in the minor.

**Pre-Journalism Curriculum**

Although LMU doesn’t offer a journalism major or minor, a large number of LMU graduates have gone on to successful careers or graduate work in journalism. These students, who have majored or minored in English or Communication Studies, have taken advantage of a number of exciting LMU courses. These courses comprise the LMU “Pre-Journalism Curriculum” and are particularly recommended for students who intend pursuing a Masters or Ph.D. in Journalism, or who plan to work as a journalist, freelance, or for a newspaper or magazine. No student need complete all of the courses listed below, but a healthy sampling will stand a future journalist in good stead and will assist in admission to most graduate programs in journalism across the country.

It is important to note that a working journalist often develops a specialization in a particular area, such as sports, entertainment, or the environment. Content courses in these areas would, of course, be useful. The Pre-Journalism Curriculum includes Political Science...
courses specifically, since local, state, and national politics have an impact on most news, and politics is considered an important working knowledge base for any journalist.

A pre-journalism certificate can be issued to the student who successfully completes 18 units of pre-journalism coursework. Students who seek a certificate will be advised on how to create a program that focuses on their area of interest: for example, political reporting, sports reporting, electronic media, etc.

Pre-Journalism courses are offered by a variety of departments and colleges across the University, making the Pre-Journalism Curriculum truly interdisciplinary.

Students interested in assembling a Pre-Journalism Curriculum should review each semester’s course offerings across the colleges, paying particular attention to special studies courses focusing on journalistic issues, media topics, or related fields. Students may consult with Dr. Linda Bannister, Pre-Journalism Advisor, to determine which special or new courses may be appropriate.

There are a number of Pre-Journalism eligible courses offered by the College of Communication and Fine Arts, some of which may entail prerequisites and/or college permission. Please consult with Dr. Linda Bannister for more information about these courses.

Note: Although there is no set sequence for taking pre-journalism courses, some of the above listed courses may carry prerequisite courses that must be completed first. Students interested in journalism are also strongly advised to participate in LMU’s award-winning student newspaper The Los Angeles Loyolan, the campus yearbook The Tower, and/or radio station KXLU.

A Pre-Journalism Curriculum Completion Certificate is available to those students who successfully complete (earning a C [2.0] or better in each course) 18 units of approved pre-journalism coursework. Bring transcript showing 18 units of accepted completed courses to Dr. Bannister at least two months prior to intended graduation.

Secondary Teaching

Students interested in obtaining a secondary teaching credential must fulfill all of the requirements for the major in English as well as some additional coursework specified by the State of California. These requirements are set forth in detail in the “Subject Matter Preparation Program in English” section of the Guide for English Majors. The Guide is available from the administrative assistant to the English Department or from Dr. Richard Kocher, who is the secondary credential advisor for English majors. Students interested in a secondary credential should see Dr. Kocher as soon as possible, and they should also coordinate their program with the School of Education.
English Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

### ENGL 100
**English as a Second Language**

3 Semester Hours

Students enroll in ENGL 100 based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A course designed to give students essential skills in writing and reading English.

Students must earn a grade of C (2.0) or better in order to pass this course. Concurrent enrollment in ENGL 101 required.

### ENGL 101
**Required Writing Lab—ESL**

1 Semester Hour

The required lab component of English 100. Taken concurrently with English 100.

Credit/No Credit grading.

Students must earn a grade of Credit in this lab course in order to pass ENGL 100.

### ENGL 110
**College Writing**

3 Semester Hours

The art of clear and effective college writing. This course will teach students how to generate clear and persuasive expository prose suitable to a variety of academic disciplines.

A grade of C (2.0) or better is required.

### ENGL 111
**Elective Writing Lab**

1 Semester Hour

A program of individualized tutorial instruction designed specifically to reinforce and develop those skills important to improving college-level prose.

Credit/No Credit grading.

### ENGL 115
**University Writing Lab**

1 Semester Hour

Intensive work on individual writing issues encountered in course work across the curriculum. Emphasis is placed on clarity and style.

Credit/F grading. This course may be repeated twice for degree credit.

### ENGL 130
**Introduction to Poetry**

3 Semester Hours

A course designed to develop an appreciation of the meaning, forms, techniques, and impact of poetry; critical essays based on the reading.

Prerequisite: Successful completion of ENGL 110 or 112.

### ENGL 140
**Introduction to Fiction**

3 Semester Hours

An introduction to significant works in the novel and short story; critical essays based on the reading.

Prerequisite: Successful completion of ENGL 110 or 112.

Ethics

Director:
Scott Cameron

Objectives:
In response to the need to address ethical issues in the various professions, the Philosophy Department, in conjunction with other departments in the different Colleges and Schools of the University, offers a minor in Ethics. Its main focus is the deepening and broadening of the students’ grasp of the foundations and applications of ethics. It will complement and support the students’ chosen major by providing them with the opportunity to pursue ethical inquiry of issues arising from their major study.

The objectives of this program are: 1) to heighten the students’ attentiveness to the pervasive moral dimension of human experience; 2) to broaden and deepen their understanding of ethical theories and their foundations; and 3) to promote moral deliberation, evaluation, decision, and conduct in concrete human living—in the community; in the professions for which they are being trained; in economic, social, and political institutions; and in the unfolding course of human history.

Minor Requirements:
The minor in Ethics consists of 18 units, which include the two core philosophy courses:

PHIL 160 Philosophy of Human Nature 3 semester hours
PHIL 320 Ethics 3 semester hours

TWO Foundations Courses:

One course selected from these Philosophy courses:

PHIL 331 Political Philosophy
PHIL 332 Philosophy of Law
PHIL 333 Feminist Theory
PHIL 351 Philosophy of Culture
PHIL 352 Philosophy of the Arts
PHIL 353 Philosophy and Literature
PHIL 361 Philosophy of God
PHIL 362 Philosophy and Christianity
PHIL 363 Personalism
PHIL 364 Asian Philosophy
PHIL 365 Chinese Philosophy
PHIL 366 Philosophy of Religion
PHIL 367 African Philosophy

PHIL 421 American Pragmatism
PHIL 422 Analytic Tradition
PHIL 423 Phenomenology
PHIL 424 Existentialism
PHIL 425 Process Philosophy
PHIL 426 Postmodernism
PHIL 451 Major Thinkers 3 semester hours

One foundations course in ethics offered by departments in any of the Colleges or Schools in the University. 3 semester hours

TWO Applications Courses:

One course in Applied Ethics related to the student’s College or School of origin chosen from PHIL 321-329. 3 semester hours

One elective course in Applied Ethics selected from the PHIL 321-330 options without regard for the student’s College or School of origin. 3 semester hours
European Studies

Director:
Véronique Flambard-Weisbart

Faculty:
The faculty of the European Studies major are those professors in various departments of the University who regularly offer courses that are directly concerned with issues relating to Europe, or to specific countries or traditions of Europe, past and present.

Description:
The European Studies major is an integrated, interdisciplinary area-studies program. Students choose from a range of courses taught in different departments, selecting a focus that reflects their individual interests. Since the program provides the student with competence in a European language, sufficient background to grasp the complexity of European history and civilization as a whole, as well as a specialization in one field of study, it is a solid preparation for graduate school or a career in government or private enterprise. A semester of study in Europe is strongly recommended but is not mandatory.

Objectives:
- Intermediate proficiency in one European language (equivalent to level 2/3 on the scale of five levels developed by the American Council on the Teaching of Foreign Language). LMU offers French, German, Italian, and Spanish in the Department of Modern Languages and Literatures as well as Greek, Latin, and Modern Greek in the Department of Classics and Archaeology.
- Knowledge of the historical, intellectual, political, and religious contexts of Europe, past and present.
- Knowledge of the art and literary works of Europeans, past and present.

European Studies Student Learning Outcomes
Students should demonstrate:
- Linguistic proficiency in one European language (French, German, Italian, Spanish, Greek, Latin, and/or Modern Greek);
- Knowledge and understanding of:
  - the history of Europe (History)
  - the history of ideas in Europe (Philosophy)
- the politics of Europe (Political Science)
- the religious contexts of Europe (Theological Studies);
- Familiarity with cultural expressions of Europeans such as:
  - European literature (Classics, English, European Studies, Foreign Literature in Translation, French, German, Italian, Spanish)
  - European art history and creative arts (Art History, Film, Theatre Arts);
- Reflection on/assessment of:
  - reasons why the major in European Studies was chosen
  - cultural competency (what they have learned)
  - content of the courses selected for the European Studies major
  - development and evolution in the European Studies major
  - extra-curricular activities connected with the European Studies major (study abroad experiences, program-related activities, work experience/internships).

Student Learning Outcomes will be assessed through a Senior Capstone Project (EURO 500), which consists of a portfolio during the second semester of the senior year. The portfolio is a collection of multiple samples usually compiled over time accompanied by a personal reflection essay, which would show that the student has met the objectives of the European Studies Program.

Major Requirements:

Lower Division Requirements (18 hours):

HIST 100 and 101

Elementary I and II and Intermediate I and II, or the equivalent, of one European language: FREN, GRMN, ITAL, SPAN, GREK, LATN, or MDGK (i.e., 12 hours). EURO 181, 182, 283, 284 language courses are available in the LMU Study Abroad Programs in Europe; Study Abroad students must take the LMU Placement Exam upon return to fulfill lower division requirements.

Upper Division Requirements (25 hours):

At least 9 hours chosen from these courses examining the historical, intellectual, political, and religious contexts of Europe, past and present.

HIST: Area I: Europe, Seminars Area 1: Europe
PHIL: Area V: History of Philosophy, 422, 423, 424, 426, 451
POLS: 321, 324, 351, 352, 357
THST: 320, 321, 322, 323, 328, 420, 425, 427
At least 9 hours chosen from these courses examining the art and literary works of Europeans, past and present.

- **ARHS**: 303, 304, 306, 315, 410, 413, 415, 419
- **CLAS**: 305, 353, 415, 452, 453, 454
- **DANC**: 390, 397 with a European focus
- **ENGL**: 321, 322, 342, 502, 503, 511, 512, 513, 521, 522, 531, 532, 533, 534, 541, 542, 543, 544, 545, 546, 559, 561
- **EURO**: 371, 372, 272
- **FILM**: 314, 413 with a European focus, 514
- **FNLT**: 341
- **FREN**: 333, 334, 341, 431, 432, 443
- **GRMN**: 321, 340, 352, 431, 432, 433
- **ITAL**: 322, 332, 334, 335, 350, 380, 451
- **SPAN**: 331, 451, 452, 453, 455, 457, 460
- **THEA**: 331, 336, 341, 346, 349
- **EURO**: 500

One hour: **EURO**

Alternatively, students may take a second or third European language for up to 6 hours, and up to the same number of hours will be waived from the total upper division requirement. Students must still meet the University degree requirement of 45 upper division hours.

European Studies majors are encouraged to select core classes with a European focus.

**European Studies Model Four-Year Plan**

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

---

#### EURO 181
**European Language and Culture I**
3 Semester Hours

Introduction to a specific European language. Designed for complete beginners. No placement test necessary upon on-site arrival. Only available to LMU Study Abroad Program students.

#### EURO 182
**European Language and Culture II**
3 Semester Hours

Designed for false beginners—i.e., students who either took a language a long time ago and do not remember it, or students who were exposed to the language, but not in a formal way—in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level. Only available to LMU Study Abroad Program students.

#### EURO 198
**Special Studies**
1-3 Semester Hours

#### EURO 199
**Independent Studies**
1-3 Semester Hours

#### EURO 283
**European Language and Culture III**
3 Semester Hours

Designed for students with intermediate proficiency in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level. Only available to LMU Study Abroad Program students.

#### EURO 284
**European Language and Culture IV**
3 Semester Hours

Designed for students with intermediate to advanced proficiency in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level. Only available to LMU Study Abroad Program students.

#### EURO 298
**Special Studies**
1-3 Semester Hours

#### EURO 299
**Independent Studies**
1-3 Semester Hours
**EURO 371**
*European Art and Literature of Consciousness*
3 Semester Hours
Comparative study of contemporary European literature and the arts.
(This course can fulfill some of the requirements for the major in European Studies.)
Only available to students in the LMU Summer Study Abroad Program in Paris, France.

**EURO 372**
*Paris through French Film*
3 Semester Hours
From French New Wave to the present.
(This course can fulfill some of the requirements for the major in European Studies.)
Only available to students in the LMU Summer Study Abroad Program in Paris, France.

**EURO 373**
*Paris Metisse: Multiculturalism in Paris*
3 Semester Hours
The course's objective is to understand the concept of "métissage" in contemporary Parisian society through contact with the modern arts—poetic, pictorial, and musical—through an analysis of various texts and through personal interviews with exiles.
(This course can fulfill some of the requirements for the major in European Studies.)
Only available to students in the LMU Summer Study Abroad Program in Paris, France.

**EURO 398**
*Special Studies*
1-3 Semester Hours

**EURO 399**
*Independent Studies*
1-3 Semester Hours

**EURO 498**
*Special Studies*
1-3 Semester Hours

**EURO 499**
*Independent Studies*
1-3 Semester Hours

**EURO 500**
*Capstone Project*
1 Semester Hour
The capstone project consists of a portfolio that meets the objectives of the European Studies major.
Credit/No Credit grading.
Prerequisite: Senior standing.
Geography

Director:
Peter Hoffman

GEOG 100
Human Geography
3 Semester Hours

An introduction to general world patterns of major cultural elements and processes and their influence on relationships between human societies and their environment. Cultural and environmental differences between developed and less developed nations and their regional implications in the modern world are emphasized.

GEOG 125
Urban Physical Environment
(See URBN 125)

GEOG 198
Special Studies
1-3 Semester Hours

GEOG 298
Special Studies
1-3 Semester Hours

GEOG 299
Independent Studies
1-3 Semester Hours

GEOG 360
Modern Mexico
3 Semester Hours

A survey of the distinctive social, cultural, economic, and political elements of modern Mexico. The environmental and historical basis of the country’s recent development is examined.

GEOG 365
Metropolitan Los Angeles
(See URBN 365)

GEOG 378
International Tourism
3 Semester Hours

A survey of the social, cultural, economic, and environmental elements of international tourism with special emphasis on the impacts of the expansion of tourism from the developed nations into the less developed realm. Modern trends in tourism, such as ecotourism, are analyzed for their potential costs-benefits and their implications for careers in the tourist industry.

GEOG 398
Special Studies

GEOG 399
Independent Studies
1-3 Semester Hours

GEOG 498
Special Studies
1-3 Semester Hours

GEOG 499
Independent Studies
1-3 Semester Hours
History

Faculty:
Chairperson: John H. Grever, C.F.M.M.
Professors: Michael E. Engh, S.J.,
John H. Grever, C.F.M.M., Lawrence J. Jelinek,
Richard W. Rolfs, S.J., Ernest Sweeney, S.J.,
Joseph S. Tiedemann, Lawrence A. Tritle
Associate Professors: Najwa Al-Qattan, Cara Anzilotti,
Jok Madut Jok,
Assistant Professors: Carla J. Bittel, Constance J.S. Chen,
Suzanne O'Brien, Anthony M. Perron,
Amy Woodson-Boulton

Objectives:
Since history takes all knowledge for its province, it forms
a bridge between all disciplines. To arrive at a fuller
awareness and understanding of the many vital problems
of existence, the Loyola Marymount student requires
history, for without a knowledge of man and his past, no
one can claim to be an educated individual or can hope
to establish perspective and meaning in a course of
studies for life.

History also makes an invaluable contribution to an
understanding of the learning process itself and to the
achievement of “learning goals.” In history, the student
studies evidence, selects relevant materials, searches for
causes and effects, and formulates conclusions. In
studying the past, a person must analyze, synthesize,
evaluate, and interpret evidence. With knowledge of the
historical setting, one can understand and appreciate
one’s own heritage and culture and the cultural
experience of others.

History Student Learning Outcomes
• History students develop an understanding of events,
processes, and patterns in the human experience. History
students should gain an understanding of how
their lives relate to a larger historical process.

• Students should be able to analyze historical texts and
to gain an understanding of the methods used in
interpreting the past, such as criticism of sources, the
definition of historical questions, comparative analysis,
and the diverse perspectives of participants in history.
They will employ evidence to craft arguments about
historical change and analyze the factors that cause
change on local, national, and global scales.

• Students should value the vast range of ways in which
individuals and societies have responded to the
problems confronting them. The insights they have
gained through historical analysis will enrich their lives
as citizens of an interconnected world.

Major Requirements:
Lower Division Requirements:
15 semester hours distributed as follows: HIST 100,
101, 161, 162, and one course selected from HIST 152,
172, 182, and 192. A student must accumulate a C
(2.0) average in the prerequisite courses. In addition, the
Department recommends the study of geography and
foreign languages.

Upper Division Requirements:
24 semester hours in upper division courses.
All major programs must include a course in
historical method (HIST 310 or 330) and at least
one 500-level seminar. The remaining courses are
to be chosen with the approval of the student’s
advisor, and not more than half of the total 24
semester hours may be taken from one of the
following areas: 1) Europe, 2) United States, or
3) Africa, Asia, Latin America and modern Middle
East. An average grade of C (2.0) must be
obtained in the courses included in the major.

Minor Requirements:
21 semester hours. One course must be selected
from HIST 100 or 101; one course from 161 or
162. At least 9 semester hours must be from
upper division course offerings.

The history minor is a flexible program. Aside
from the two lower division course requirements,
students can select any history course as long as
at least three of the remaining five courses are
upper division history courses. However, students
might want to consider selecting courses that
relate to their major and belong to geographical or
thematic units.
History Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as HIST major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

</table>
Area 1: Europe

HIST 312
Society and Culture in the Middle Ages
3 Semester Hours
An inquiry into the social and cultural developments culminating in the achievements of the high Middle Ages with reference to their influence on modern culture.

HIST 317
Victorian Culture and Society
3 Semester Hours

HIST 322
Revolt and Crisis in Europe
3 Semester Hours
An inquiry into the general crisis of seventeenth-century Europe and into the emergence of new forms of political and cultural stability.

HIST 324
Revolutionary Europe, 1750-1850
3 Semester Hours
A study of European cultural change ranging from Romanticism to industrialization, materialism to religious revival.

HIST 326
Nineteenth-Century Europe, 1815-1914
3 Semester Hours
An investigation into the political, social, and economic crises of the European nations between the Congress of Vienna and the outbreak of World War I.

HIST 327
Twentieth-Century Europe
3 Semester Hours
Europe from 1900 to the present with emphasis on political and social history.

HIST 328
States and Nations in Eastern Europe, 1795-1991
3 Semester Hours
An analysis of the forces of nationalism and socialism in the history of modern Eastern Europe. The course will focus on the interrelated cases of Russia, Ukraine, Poland, and the Baltic states.

HIST 335
Women in European History
3 Semester Hours
An analysis of how philosophical constructs, religion, education, employment, and family structures have defined the role of women since the Renaissance.

HIST 405
History of Ancient Greece
3 Semester Hours
The history of Greece from its origins to the death of Philip of Macedon.

HIST 406
Alexander and the Hellenistic World
3 Semester Hours
An investigation of the spread of Greek culture through the lands of the successors of Alexander the Great and its relations with the older civilizations of the known world.

HIST 407
Ancient Rome
3 Semester Hours
The history of Rome from its origins to the creation of the empire.

HIST 408
Imperial Rome
3 Semester Hours
A study of the Roman Empire and world to the seventh century and the end of antiquity.

HIST 410
History of the Byzantine Empire
3 Semester Hours
A study of the eastern Roman Empire to its fall in 1453. Topics include the Byzantine recovery, the Slavic and Moslem invasions, and the Crusades.

HIST 411
Birth of Europe
3 Semester Hours
An examination of the institutional, intellectual, and cultural growth of Europe from 400 to 1050.

HIST 412
The Later Middle Ages
3 Semester Hours
A study of the flowering of medieval civilization in Europe from 1050 to 1450.
HIST 414  
The Crusades  
3 Semester Hours  
A study of the origins and the impact of the Crusades on medieval Europe and on the Middle East.

HIST 420  
Age of the Renaissance  
3 Semester Hours  
A study of the origins and character of the Renaissance in Italy, its social, political, and economic context; and its cultural expressions.

HIST 422  
Age of the Reformation  
3 Semester Hours  
The religious, political, and cultural upheaval of the Protestant challenge to medieval Christendom and the Catholic response.

HIST 425  
The French Revolution  
3 Semester Hours  
An inquiry into the causes of the fall of the French monarchy, the creation of a civic order, a new political culture, and the impact of war and terror on French society.

HIST 430  
The Rise of Russia, 900-1825  
3 Semester Hours  
A study of the origins of the Russian Empire from the arrival of the Vikings to the emergence of Russia as a Great Power. Topics include autocracy, serfdom, religious revolts, imperial expansion, and competitive emulation of the West.

HIST 431  
Modern Russia, 1825-1991  
3 Semester Hours  
Traces the revolutionary challenges to the Romanov dynasty, attempts to modernize the multi-national empire, the revolution and civil war, and the interplay between communism and nationalism in the history of the Soviet Union.

HIST 435  
Modern Germany  
3 Semester Hours  
An analysis of the political, economic, social, and cultural developments during the 19th and 20th centuries.

HIST 444  
3 Semester Hours  
An examination of the relations between the English monarchs and their parliaments during the Tudor and Stuart periods, intending to show conflict and collaboration, and the role of political and economic interest groups.

HIST 446  
Modern Britain  
3 Semester Hours  
England’s rise to world importance, her role in continental politics, the Industrial Revolution, the new British Empire, the evolution of the British constitution.

HIST 447  
Modern Ireland  
3 Semester Hours  
Examines Ireland’s struggles for independence from England, ranging from Cromwell’s conquests to the “current troubles.”

HIST 448  
The British Empire  
3 Semester Hours  
An examination of the rise of the British empire, its impact on British and colonial culture, and its collapse and imperial legacy.

HIST 450  
Modern Greece  
3 Semester Hours  
History of the modern Greek state and the Balkans during the 19th and 20th centuries.

Area 2: United States

HIST 340  
American Slavery and Racism  
3 Semester Hours  
A survey of the origins and evolution of slavery and racism in American society.

HIST 345  
War and Violence in America  
3 Semester Hours  
An examination into the various incidents of war and violence to show how they have affected the American experience.

</table>
HIST 478
Asian Pacific American History
3 Semester Hours
Traces the many-faceted histories of Asian Americans and Pacific Islanders from cross-cultural and transnational perspectives, focusing on interactions and exchanges between Asian Pacific Americans and various ethnic and racial groups.

HIST 479
The Politics and the Culture of the Cold War, 1917-1989
3 Semester Hours
An inquiry into the impacts of the Cold War on American domestic policies, foreign relations, as well as cultural and social developments.

Area 3: World Regions

HIST 300
History of Global Encounters before 1500
3 Semester Hours
A history of global encounters among the regions of the Middle East, the Mediterranean World, Europe, and Asia. It will include a focus on the exchange of ideas, trade, and cultural developments.

HIST 301
History of Global Encounters after 1500
3 Semester Hours
A history of global encounters during the early modern and modern periods that includes the regions of the Middle East, Africa, Latin America, Asia, and Europe. It will examine the global impact of Christianity, Islam, and the market economy. Through the use of primary and secondary sources, different interpretations are offered on historic and current events.

HIST 338
Islam in History
3 Semester Hours
The study of the role of Islamic culture and institutions in the social and political history of the Middle East from the rise of Islam to the present.

HIST 372
History of Mexico
3 Semester Hours
An analysis of the colonial and national periods, with emphasis on 20th-century revolution and socio-economic development.

Humanities

Director:
Katerina Zacharia

Objectives:
The Humanities major is designed to meet the needs of a student who has a broad interest in liberal arts but whose interest would not be served by a major program within a single department. The Humanities major is an interdisciplinary program. In the first two years the student acquires a broad background in the arts, history, and literature. Language study through the advanced level is also required. In the second two years, the student concentrates in a particular area of interest. The concentration consists of five (5) upper division courses taken from departmental offerings in Archaeology, Art History, Classics, Economics, English, French, German, Greek, History, Italian, Latin, Philosophy, Political Science, Psychology, Sociology, Spanish, or Theological Studies. The concentration is then supported by two (2) upper division history courses and two (2) upper division courses in one national literature selected in consultation with the Humanities advisor. Each student will prepare a portfolio outlining his/her initial proposal in beginning the major, including adaptations and refinements of the goals and a final essay which reflects on and synthesizes what has been achieved in the course work for the major. This integrated project (HMNT 497) is reviewed by the Director and given one unit of credit upon satisfactory completion.

The program is a fine preparation for students interested in professional courses in law, business, or education. Also, the program is designed to allow students to complete a major in a departmental area which would qualify them for graduate studies.

Humanities Student Learning Outcomes

By virtue of pursuing a major in Humanities,

Students should know:

- How knowledge has been pursued, established, and critically evaluated in the three different disciplines representing their concentration, their literature support, and their historical support
- The various ways in which artists have developed the fine arts to convey their sense of the world’s surface and its depth
- A foreign language
- The content as well as analytical and communicative skills that the disciplines study of their concentration demands;

Students should be able to:

- Communicate insights clearly, effectively, and with nuance in both oral and written form
- Synthesize insights from a variety of disciplines
- Develop insights from one discipline for the enrichment of others;

Students should value:

- The variety of ways in which cognitive, moral, and aesthetic disciplines have enriched our sense of the human condition
- The further pursuit of those disciplines, as required by their deeper sense of the complexity of the human condition
- Their responsibility to serve the world as whole persons, with head, heart, and hand.

Major Requirements:

Lower Division Requirements:
15 semester hours distributed as follows:
- 6 semester hours from: ARHS 200, 201, 202.
- 3 semester hours in Studio Arts.
- 6 semester hours from one of the following language sequences:
  - CHIN 203, 204;
  - FREN 203, 204;
  - GREK 201, any upper division Greek;
  - GRMN 201, 202;
  - ITAL 203, 204;
  - JAPN 203, 204;
  - LATN 201, any upper division Latin;
  - MDGK 203, 204;
  - SPAN 203, 204.

Upper Division Requirements:
28 semester hours in upper division courses distributed as follows:
- 15 semester hours in concentration in a departmental major.
- 6 semester hours in one national literature which supports the concentration.
- 6 semester hours in history which supports the concentration.
1 semester hour for the Integrating Project (HMNT 497).

The choice of a concentration and of support courses must be formally approved by the Director.

Humanities Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.
Irish Studies

Director:
John Menaghan

Objectives:
Irish Studies is an interdisciplinary minor designed to complement a wide variety of majors by providing students with an understanding of the historical and cultural development of the Irish people and the significance of their intellectual, artistic, spiritual, and economic contribution to world civilization, including their experiences as both a post-colonial nation and an emigrant diaspora. Taken together, Ireland’s historical evolution; its long experience of colonization and cultural oppression; its rich contribution to world literature, art, and music; the creative tension in contemporary Ireland between its ancient Celtic heritage and its modern Anglo-Irish/Hiberno-English identity; and its remarkable though often unacknowledged influence upon the countries—chiefly the United States, Great Britain, Canada, Australia, New Zealand and South Africa—that make up the far-flung Irish diaspora constitute a fertile field for intellectual inquiry.

Focused simultaneously on a small nation on the edge of Europe and a far-flung diaspora and offered within the context of the most culturally diverse city in the world, the minor in Irish Studies is designed to be not merely interdisciplinary but intercultural. At a time when the nearly simultaneous phenomena of a European drive toward unification and an American emphasis on diversity both complicate and enrich our very notions of what constitutes a nation, culture, or people, students minoring in Irish Studies will have the flexibility to explore the richness of the Irish experience from a broad range of perspectives and the opportunity to assess its influence not only in Europe and America but on struggles against cultural and political oppression around the globe.

Irish Studies Student Learning Outcomes

Students minoring in Irish Studies are given opportunities to learn about:
- The general history of Ireland and the Irish diaspora
- The distinctive literary achievements of the Irish
- Irish achievements in cinema and dance
- Historical, religious, and moral issues in contemporary Irish politics
- The intersection/intermingling of Celtic and Christian worldviews
- The connection of Irish struggles for freedom and self-determination to similar struggles in the United States and around the world;

Students minoring in Irish Studies will be given opportunities to develop:
- Their ability to perform research into several distinct aspects of the Irish experience
- Their ability to compose well-written and thoughtful essays on Irish history, politics, religion, and culture
- Their ability to evaluate and appreciate Irish achievements in the arts
- Their ability to make connections across disciplines, countries, and cultures;

Students minoring in Irish Studies will be encouraged to value:
- The Irish struggle against cultural and political oppression and its relation and continuing relevance to similar struggles around the world
- The distinctive contributions of the Irish to European, American, and world civilization.

Study Abroad

Students can earn up to six credits toward the minor in Irish Studies in the LMU Summer in Ireland Program at Trinity College Dublin, one of the oldest and most renowned universities in the world. Students can also arrange to spend a semester or year abroad at an Irish university.

Minor Requirements:

18 semester hours, including at least one course in Irish literature and one in Irish history. At least 12 semester hours must be in upper division courses. An average grade of C (2.0) must be maintained in Irish Studies courses.

The Irish Renaissance  
3 Semester Hours  
A study of the period from the 1890s through the 1920s in Ireland focusing on the effort of Irish writers and others to preserve the rich legacy of Irish culture and carry it forward into the modern age.

IRST 309  
Ireland in Fiction and Film  
3 Semester Hours  
An examination of the diverse images of Ireland put forth by various writers and directors.  
Usually taught in Dublin, Ireland.

IRST 310  
Ireland: Riots, Rebellion, Revolution  
3 Semester Hours  
An examination of Ireland’s struggle for independence from England, ranging from Cromwell’s conquests to the current “Troubles.”

IRST 330  
Irish Drama  
3 Semester Hours  
A study of Irish drama from Yeats to Beckett and beyond.  
Usually taught in Dublin, Ireland.

IRST 398  
Special Studies  
1-3 Semester Hours

IRST 399  
Independent Studies  
1-3 Semester Hours

IRST 441  
Irish Moral and Political Philosophy  
3 Semester Hours  
An examination of historical, religious, and moral issues in contemporary Irish politics. Topics include “The Troubles” in Irish cinema, political sovereignty, the use of violence to achieve political ends, and the morality of hunger strikes.  
Usually taught in Dublin, Ireland.

IRST 498  
Special Studies  
1-3 Semester Hours

IRST 499  
Independent Studies  
1-3 Semester Hours

Cross-listed Courses

IRST 311  
Immigrant America  
(See HIST 357)

IRST 318  
Anglo-Saxon and Norman England  
(See HIST 441)

IRST 319  
The British Empire  
(See HIST 448)

IRST 345  
Celtic Christianity  
(See THST 323)

IRST 350  
World Dance: Ireland  
(See DANC 397)

IRST 435  
National Film: Ireland  
(See FILM 413)
Note:

Courses offered in other departments and programs may be used as hours to fulfill the minor requirements in IRST, provided the student receives approval of the Director in advance of taking the course. Students seeking such approval must arrange with the relevant instructor to complete a substantial paper/project on Ireland and/or the Irish diaspora and must submit a copy of same to the Director at the end of the course. No more than nine hours (3 such courses) may be applied toward the 18 total semester hours required to complete the Irish Studies minor. Such courses may also have departmental prerequisites; consult course descriptions for further details.
Liberal Arts

The following courses, offered by the Bellarmine College of Liberal Arts, are designed to enrich the academic, career-related, and life skills of our students.

**LIBA 101**
Mastering Educational Technology  
1 Semester Hour

A competence-based course designed to prepare first-year students to use the tools to conduct basic research, creative writing, and other academic work. Consideration of academic honesty and ethics will also be discussed.

Credit/No Credit grading.

**LIBA 125**
Foundations for Academic Achievement  
1 Semester Hour

A course in acquiring study skills such as time management, note taking, reading comprehension, and test-taking strategies essential for academic success at the university level.

Credit/F grading.

**LIBA 170**
An Orientation to Learning I  
1 Semester Hour

Information on coping with the technicalities of being a college student—registration, matriculation, library use, study skills, learning resources, career planning, college re-entry. Credit applicable for baccalaureate degree is determined by individual colleges.

Encore students only.

Credit/No Credit grading.

**LIBA 171**
An Orientation to Learning II  
1 Semester Hour

Prerequisite: LIBA 170.

Encore students only.

Credit/No Credit grading.

**LIBA 198**
Special Studies  
1-3 Semester Hours

**LIBA 199**
Independent Studies  
1-3 Semester Hours

**LIBA 250**
Strategies for Career Development  
2 Semester Hours

This course utilizes the popular models of career theory and traditional personality assessments to help students identify interests, skills, and values and describe how they relate to a career choice. The decision-making model is utilized to synthesize personal information, and research is conducted on employment trends. By the end of the course, students will be familiarized with the job search process including resume writing, interviewing skills, and job search strategies.

Credit/No Credit grading.

**LIBA 251**
Career Development Internship  
1 Semester Hour

Engage in a mentoring/training type relationship with an employer in a career field of interest. Internships are established through the office of Career Development Services to aid in career decision-making, to make contacts with employers, and to evaluate employment opportunities firsthand.

Credit/No Credit grading.

**LIBA 291**
Intercultural Practicum I  
1 Semester Hour

This course will teach students advanced human relations skills and provide them the occasion for integrating intercultural theory and practice in an increasingly diverse society.

Credit/No Credit grading.

**LIBA 292**
Intercultural Practicum II  
2 Semester Hours

This course will teach students advanced skills in cross-cultural conflict management, intercultural leadership, strategies for organizational change in multiethnic settings, institutionalizing social change, and preparing personal action plans.

Prerequisite: LIBA 291.

Credit/No Credit grading.

Completion of LIBA 291 and 292 earns the Certificate for Intercultural Competence.

Liberal Studies

Director:
Sharon Locy

Objectives:
The Liberal Studies program enables the student to meet the teacher preparation standards mandated by the California Commission on Teacher Credentialing. The Liberal Studies program curriculum likewise serves the Loyola Marymount University mission.

Liberal Studies Student Learning Outcomes
The Liberal Studies program student will master the content required of professional educators in the State of California, to include:

• Key concepts in the following academic fields: the social sciences and history, the arts and humanities, language studies, mathematics and science, health, physical education, human development, and in an approved academic concentration of the candidate's choice
• Candidates will demonstrate their mastery of the subject matter by successfully passing the CSET (California Subject Examination for Teachers) at the completion of their coursework;

The Liberal Studies program student will master the skills required of professional educators in the State of California:

• To synthesize subject content in the liberal arts, professional content related to classroom teaching, and educational policies; candidates will demonstrate this ability to synthesize and the other skills listed below in a Subject Mastery Portfolio compiled at the completion of their coursework
• To apply reading, writing, and research skills appropriate to the work of the academic disciplines being studied
• To apply academic concepts to practical teaching contexts
• To analyze, reflect on, and evaluate the relationships among academic theories, the practical and applied contexts of teaching, and the multiple and complex needs of students comprising a rich and diverse globe;

The Liberal Studies program student will value:
• Intellectual inquiry across a range of subjects
• A world view comprising faith, social justice, and a respect for diversity
• The individual's role as a future educator who will shape the lives of children, local communities, and larger national and global societies.

There are five components to the Liberal Studies major:

1. University Core Curriculum
50 Semester Hours
Because the subject-matter requirements set by the Commission on Teacher Credentialing are very specific, many of the core requirements for Liberal Studies majors are specified and may differ from those of other majors within the Bellarmine College of Liberal Arts. These core requirements are as follows:

• College Writing (3 units): ENGL 110;
• Communication or Critical Thinking (3 units): choice of one of the following: CMST 100, 110, 140, or 206;
• History (6 units): HIST 300 and 301;
• Social Sciences (6 units): PSYC 100 and choice of one of the following: AFAM 115, APAM 117, or CHST 116;
• American Cultures (3 units): HIST 161 (fulfills the U.S. Constitution requirement for credential candidates);
• Literature (3 units): choice of one of the following drama-based courses: CLAS 210, 220; ENGL 150, 170; THEA 240, 245;
• Mathematics (see major requirements)
• Science and Technology (8 units): NTLS 270 and 271 (4 units each);
• Fine Arts Critical (3 units): MUSC 104;
• Fine Arts Creative (3 units): ART 250;
• Philosophy (6 units): PHIL 160 and one course from PHIL 320-330;
• Theological Studies (6 units): one course from the THST 100-level series and one course from the 300-level series.
II. Liberal Studies Major Requirements
25 Semester Hours

- DANC 384: Creative Dance for Children (3 units)
- DANC 385: Movement Arts for Children (3 units)
- ENGL 305: Advanced Composition for Credential Candidates (3 units)
- ENGL 346: Children's Literature (3 units)
- HIST 366: History of California (3 units)
- LIBA 400: Subject Mastery Portfolio (1 unit)
- MATH 106, 107: Mathematics for Elementary Teachers I, II (6 units)
  Liberal Studies majors must either pass out of or take MATH 101 as a prerequisite to MATH 106, 107.
- PSYC 352: Developmental Psychology (3 units)

III. Education Program Requirements
21 Semester Hours

- EDUC 400: Sociocultural Analysis of Education (3 units)
- EDUC 401: Educational Psychology for the Childhood and Adolescent Years (3 units)
- EDUC 409: Reading and Language Arts in the Elementary Curriculum (3 units)*
- EDUC 414: Theories of Second Language Acquisition (3 units)
- EDUC 425: Methods in English Language Development/Specially Designed Academic Instruction in English (3 units)*
- EDUC 434: Elementary Curriculum and Methods (3 units)*
- EDUC 440: Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs (3 units)

* Starred courses require a separate application to and acceptance into the Elementary Education program or the Mild/Moderate Specialist Credential program. Acceptance into either of these programs requires an LMU cumulative GPA of 2.8. See the Director of Liberal Studies for other application requirements.

IV. Concentration
12-18 Semester Hours

In addition, Liberal Studies majors also fulfill a concentration (generally, 12 upper division semester hours) in a subject commonly taught in elementary schools or closely related areas of study. Courses applying to the concentration may not be those required of all Liberal Studies majors (see above). With careful planning the concentration can constitute most, if not all, of an LMU minor. See the Director of Liberal Studies for qualifying concentrations and their specific requirements.

V. Electives

Remaining baccalaureate units are elective. They may include the 9 units of student teaching, after the Education program requirements have been completed.

Liberal Studies Model Four-Year Plan

This model is based on the student having a 12-unit concentration. Students with larger concentrations or required to take MATH 101 will need to work those courses into their schedules—overloading some semesters and/or taking summer courses. This model also includes some 0-unit Education requirements (TPAs: Teaching Performance Assessments which students fulfill once accepted into the Education program) which are not part of the Liberal Studies degree but are required for the teaching credential; they are represented on the model plan during the semesters in which the School of Education anticipates they would be fulfilled. In addition, before being granted the teaching credential, candidates must demonstrate basic computer skills and knowledge of health education in the schools; this may be accomplished through Continuing Education EDUX 841 and EDUX 842, short courses which students may arrange to take on their own at any time.

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.
Chinese

The 101, 102, 203, 204 series emphasizes speaking and understanding Mandarin while developing a command of Chinese characters for reading and writing. This series requires one hour weekly language lab.

CHIN 101
Elementary Chinese I
3 Semester Hours

This course enables students to speak and understand the basic linguistics of Mandarin and to read and write a limited number of Chinese characters. Importance is placed on mastery of the Pin-Yin system of pronunciation and tonal emphasis. Students develop a comprehensive speaking and listening vocabulary of approximately 450 words and a reading and writing knowledge of approximately 150 Chinese characters. Introduction to the fundamentals of Chinese grammar and selected topics on Chinese culture.

Fall semester only.

CHIN 102
Elementary Chinese II
3 Semester Hours

This course continues the study of Chinese grammar patterns; up to two-thirds of the fundamentals are taught. The primary emphasis is on speaking and understanding Mandarin. Four hundred fifty new words are introduced into the speaking and listening vocabulary and 250 new characters into the reading and writing vocabulary.

Spring semester only.

Prerequisite: CHIN 101 or equivalent, or consent of instructor.

CHIN 198
Special Studies
1-3 Semester Hours

CHIN 199
Independent Studies
1-3 Semester Hours
CHIN 203
Intermediate Chinese I
3 Semester Hours
Builds upon the fundamentals of Chinese grammar studied in CHIN 101 and 102 and introduces students to translation. Intensive practice in oral skills and the development of an increased command of reading and writing Chinese characters. Introduction of 450 new words into the speaking and listening vocabulary and 200 new characters into the reading and writing vocabulary.
Fall semester only.
Prerequisite: CHIN 102 or equivalent, or consent of instructor.

CHIN 204
Intermediate Chinese II
3 Semester Hours
Strengthens and improves Chinese language skills: speaking, listening, reading, and writing. This course emphasizes grammar, idiomatic expression, writing short paragraphs in Chinese, and translation skills. Introduction of 450 new words into the speaking and listening vocabulary and 250 characters into the reading and writing vocabulary.
Spring semester only.
Prerequisite: CHIN 203 or equivalent, or consent of instructor.

CHIN 298
Special Studies
1-3 Semester Hours

CHIN 299
Independent Studies
1-3 Semester Hours

CHIN 305
Advanced Chinese I
3 Semester Hours
This course is for American Chinese learners who have reached an advanced level of Chinese language in the U.S. and are now learning Chinese in China. The content is based on the reality of the contemporary Chinese society and has a close relationship with foreign students' daily life and studies in China.
Taught in Beijing, China.
Prerequisite: CHIN 204 or equivalent, or consent of instructor.

CHIN 306
Advanced Chinese II
3 Semester Hours
This course is for American Chinese learners who have reached an advanced level of Chinese language in the U.S. and are now learning Chinese in China. The content is based on the reality of the contemporary Chinese society and has a close relationship with foreign students' daily life and studies in China.
Taught in Beijing, China.
Prerequisite: CHIN 305 or equivalent, or consent of instructor.

CHIN 342
Classical Chinese Literature
3 Semester Hours
This course is a survey of classical Chinese literature from ancient times to the beginning of the century.
Taught in Chinese in Beijing, China.
Prerequisite: CHIN 306 or equivalent, or consent of instructor.

CHIN 343
Modern Chinese Literature
3 Semester Hours
This course is a survey of modern Chinese literature from 1918 to the present. It will focus on the fiction, poetry, and essays during the three periods (1918-1949, 1949-1976, since 1976) in the 20th century.
Taught in Chinese in Beijing, China.
Prerequisite: CHIN 306 or equivalent, or consent of instructor.

CHIN 398
Special Studies
1-3 Semester Hours

CHIN 399
Independent Studies
1-3 Semester Hours
Filipino

The courses are designed to develop student competency in Filipino/Tagalog focusing first on the sounds and rhythm of the language, vocabulary building, and sentence patterns. A functional-situational approach to language learning is utilized to develop an understanding and appreciation of Filipino culture and customs associated with the use of various linguistic forms. All levels will enhance and work toward increased proficiency in speaking, listening, reading, and writing through language games and exercises.

**FLPN 101**
*Elementary Filipino I*
*3 Semester Hours*

This course is designed for students who have little or no knowledge of the language. Students will learn how to construct the basic sentence patterns in Filipino/Tagalog and to use the actor focus verbs *UM, MAG, and MA* and the object focus Verb *-IN*, as well as the different sets of pronouns and their proper use: nominative, dative, and genitive.

**FLPN 102**
*Elementary Filipino II*
*3 Semester Hours*

This course is a continuation of FLPN 101. The course will also cover the object focus verbs *-IN, I-, and -AN*, the ablitative focus verbs *MAKA-* and *MAKAPAG-*, and the causative verb *MAGPA-.* There will be extensive role play and multimedia materials to assist students in learning the language.

Prerequisite: FLPN 101 or consent of instructor.

**FLPN 203**
*Intermediate Filipino I*
*3 Semester Hours*

This course is designed to strengthen listening, speaking, reading, and writing skills and to improve communicative competence by teaching social rules along with the linguistic rules. Students will be introduced to more complex sentence structures and the other verb focuses: locative, instrumental, and directional.

Prerequisite: FLPN 102 or consent of instructor.

**FLPN 204**
*Intermediate Filipino II*
*3 Semester Hours*

This course is a continuation of FLPN 203. Students will have extensive practice in narration (pagsasalaysay); description of people, places, objects, feelings (paglalarawan); defining and explaining a procedure (paglalahad); and argumentation (pangangatwiran). More complex grammatical structures and readings will be used to further the students’ proficiency in the language.

Prerequisite: FLPN 203 or consent of instructor.
Foreign Literature in English Translation

The following are courses offered in foreign literature for which no knowledge of the foreign language is required.

**FNLT 180**  
*World Literature*  
3 Semester Hours

A study of selected texts from international literature.

**FNLT 341**  
*Introduction to Modern Greek Literature*  
3 Semester Hours

A study of the works of Kazantzakis, Cavafy, Seferis, Elytis, and Ritsos.

**FNLT 342**  
*Classical Chinese Literature in Translation*  
3 Semester Hours

This course is a survey of classical Chinese literature from ancient times to the beginning of the century. Taught in Beijing, China.

**FNLT 343**  
*Modern Chinese Literature in Translation*  
3 Semester Hours

This course is a survey of modern Chinese literature from 1918 to the present. It will focus on the fiction, poetry, and essays during the three periods (1918-1949, 1949-1976, since 1976) in the 20th century. Taught in Beijing, China.

**FNLT 398**  
*Special Studies*  
1-3 Semester Hours

**FNLT 399**  
*Independent Studies*  
1-3 Semester Hours

---

French/Francophone Studies

**Objectives:**

The French/Francophone Studies curriculum is designed to enhance students’ understanding of the French/Francophone world by exposing them to French/Francophone cultures and perspectives. It also responds to the increasing demand for a more practical emphasis in language learning after the lower division level and allows students to tackle the professional world immediately beyond graduation. It may complement LMU’s Summer Study Abroad Program in Paris, France.

**French/Francophone Studies Student Learning Outcomes**

Student Learning Outcomes will be assessed through a Senior Capstone Project (FREN 500) which consists of a portfolio during the second semester of the senior year. The portfolio is a collection of multiple samples usually compiled over time accompanied by a personal reflection essay which would show that the student has met the objectives of the French/Francophone Studies program.

Majors in French/Francophone Studies will know:

- The principal aspects of the French language
- The principal aspects of French/Francophone cultures and civilizations
- The principal aspects of cultural expressions such as literature, art, social practices, gender, and media of the French-speaking world;

Majors in French/Francophone Studies will be able to:

- Understand spoken French
- Speak and write French
- Read literary texts in French and discuss their content, technique, and social significance;

Majors in French/Francophone Studies will value:

- French/Francophone cultures and civilizations
- French cultural expressions
- Increasing intercultural awareness.

**Major Requirements:**

Lower Division Requirements:

FREN 101, 102, 203, 204.

These requirements may be waived or modified based upon proficiency demonstrated on the LMU French Placement Examination. For majors, a minimum grade of C (2.0) is required in all pre-major courses.
**Upper Division Requirements:**

25 semester hours in upper division courses:
- FREN 314, 321, 333, 334, 341, three courses in the 400-level series, and 500.

A minimum grade of C (2.0) must be maintained in all upper division courses.

**Minor Requirements:**

18 semester hours taken beyond FREN 203: FREN 204, 314, 321, 333 or 334, 341, and one (1) course in the 400-level series.

The FREN 101, 102, 203, and 204 series is recommended for those who seek basic proficiency in the language. This series requires attendance of a one hour weekly language lab.

**French Placement Exam**

Any student who has knowledge of or has had prior instruction in French in high school or at a college or university other than LMU must take the French Placement Exam. This exam is administered by the Learning Resource Center during summer Orientation sessions and at the beginning of the Fall and Spring terms.

This requirement includes students who have taken the AP French Exam in high school. Generally, a student who receives a score of 5 or 4 on the AP French Exam (Language or Literature) places in FREN 204. Final placement is conditional upon the instructor's consent. Course credit will be given for FREN 101, 102, and 203 once the student's official scores have been received from the College Board. It is the responsibility of each student to ensure that the official AP scores have been sent to Loyola Marymount University.

**French/Francophone Studies Model Four-Year Plan**

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

FREN 101
Elementary French I
3 Semester Hours
A course intended for students who have not taken French before. Based on a communicative approach, the course emphasizes reading, writing, and oral proficiency in basic French. Materials covered include an introduction to all articles, pronouns, regular and irregular verbs in past and present tenses and in indicative and imperative modes, adjectives, prepositions, and basic vocabulary.

FREN 102
Elementary French II
3 Semester Hours
A continuation of FREN 101. New materials covered include an introduction to pronominal verbs, verbs in the future tense and in the subjunctive and conditional modes, adjectives, pronouns, adverbs, and many idiomatic vocabulary and verbal expressions.
Prerequisite: FREN 101 or by LMU Placement Exam.

FREN 203
Intermediate French I
3 Semester Hours
After reviewing FREN 101 and 102, an introduction to more complex linguistic patterns presented in a French/Francophone cultural and comparative context. Includes practice in speaking, listening, reading, and writing through discussion of short texts, written exercises and short compositions, and work with multimedia resources.
Prerequisite: FREN 102 or LMU Placement Exam.
**FREN 204**  
**Intermediate French II**  
*3 Semester Hours*

Developing complex linguistic patterns introduced in FREN 203 in a French/Francophone cultural and comparative context. Includes more practice in speaking, listening, reading, and writing through discussion of various texts, written exercises and longer compositions, and work with multimedia resources.

Prerequisite: FREN 203 or by LMU Placement Exam.

---

**FREN 211**  
**Intermediate French Conversation and Culture**  
*1-3 Semester Hours*

A French elective focusing on conversational skills in French through discussion of cultural topics in the French/Francophone world and of multimedia resources in French.

Fall semester only.

Prerequisite: FREN 204. May be taken concurrently with FREN 204.

---

**FREN 298**  
**Special Studies**  
*1-3 Semester Hours*

**FREN 299**  
**Independent Studies**  
*1-3 Semester Hours*

---

**FREN 314**  
**Stylistics and Translation**  
*3 Semester Hours*

A study of different modes of writing and of the major grammatical, stylistic, and vocabulary challenges when translating from English into French and vice versa. Practice with a broad range of literary, professional, and journalistic texts.

Spring semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

---

**FREN 321**  
**Writing Workshop in French**  
*3 Semester Hours*

A course designed to improve written expository prose in French. Practice of various forms of writing, such as extensive, intensive, and team writing, through the approach of global simulations.

Fall semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

---

**FREN 333**  
**French Literature and Society I**  
*3 Semester Hours*

A survey of literary themes and of the evolution of the social, political, and philosophical ideas in France, expressed in a variety of forms through the works of major writers, from the inception of French literature to the French Revolution.

Fall semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

---

**FREN 334**  
**French Literature and Society II**  
*3 Semester Hours*

An overview of French literature and of modernity through the study of French novels, short fiction, drama, and poetry, by representative writers, from the French Revolution to present times.

Spring semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

---

**FREN 341**  
**France through Its Media**  
*3 Semester Hours*

A study of French culture today through current magazines, newspapers, television programs, the Internet, music, and other sources.

Spring semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

---

**FREN 398**  
**Special Studies**  
*1-3 Semester Hours*

Prerequisite: FREN 204 or by LMU Placement Exam or consent of instructor.

---

**FREN 399**  
**Independent Studies**  
*1-3 Semester Hours*

Prerequisite: FREN 204 or by LMU Placement Exam or consent of instructor.
FREN 431
French/Francophone Film
3 Semester Hours

A course designed to introduce students to French/Francophone film poetics through the examination of film narratives by representative directors.

Spring semester only.

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 432
French/Francophone Women Writers
3 Semester Hours

An examination of the issues raised in French/Francophone women’s writings as well as a study of French feminism across the disciplines.

Spring semester only.

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 433
Francophone Literature
3 Semester Hours

A study of representative writers from the French-speaking world outside of France.

Spring semester only.

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 443
Selected Topics in French
3 Semester Hours

Topics in French literature and culture.

May be repeated as specific content changes.

Fall semester only.

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 498
Special Studies
1-3 Semester Hours

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 499
Independent Studies
1-3 Semester Hours

Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 500
Senior Capstone Project
1 Semester Hour

Exit portfolio (for majors only).

Credit/No Credit grading.

Seniors only.
German

Objectives:
During the phase of early language acquisition, our German courses build language skills and intercultural awareness. While still perfecting their language skills, students in GRMN 204 and above are introduced to the literatures in German from a variety of cultural traditions. Literature courses range from a general survey of German literature over the centuries to the study of specific genres, such as drama, the novella, and the German fairy tale. In addition to literary studies, the German section also offers a course on German film and a course on German culture and civilization that provides an introduction to German history, society, politics, and the arts, while developing students’ general intercultural awareness. For students interested in the language of business, the German section offers two business-related courses.

German Student Learning Outcomes
Students minoring in German will know:

- The principal aspects of the German language
- The principal aspects of the history of German literature and film
- The principal aspects of the history and culture of German-speaking countries;

Students minoring in German will be able to:

- Speak, understand, read, and write German in meaningful contexts
- Use the latest relevant applications in educational technology
- Read literary texts in German and discuss their content, techniques, and social significance;

Students minoring in German will value:

- German language, literature, and culture
- Expressing independent critical opinions
- Increasing intercultural awareness.

German courses at LMU foster communication and understanding others as essential aspects of the education of the whole person. Students thus embark on a road of lifelong learning that will take them into a richer future.

Minor Requirements:
The German minor consists of 18 semester hours above the 100 level: GRMN 203, 204, 301, and three courses from upper division offerings (300-400 level). Within this minor a professional German emphasis is possible, with GRMN 302 and 437 as upper division course options for the business-oriented student.

The GRMN 101, 102, 203 series is recommended for those who seek a basic speaking, writing, and reading knowledge of the language. This series requires one hour weekly in the department’s language center. The conversation courses are designed to be taken concurrently with regular language courses.

Once per year, the German section offers a general proficiency test in German (ZD), which is internationally recognized and certifies the language skills of the student to prospective employers in the public and private sector.

Students of German may wish to take advantage of LMU’s semester or full year New Europe Program in Bonn, Germany, to improve their language skills. Lower division elementary and intermediate German language courses in Bonn are listed as EURO 181 and 283 each semester. Upper division German courses are also available.

GRMN 101
Elementary German I
3 Semester Hours

A course intended for students who have not taken German before. Based on the communicative approach, the course emphasizes oral proficiency in basic German as well as reading and writing. Materials covered include an introduction to the nominative and accusative cases with their corresponding articles and pronouns, regular and irregular verbs in the present tense, and word order as well as basic vocabulary and the development of cross-cultural awareness. 

Prerequisite: GRMN 101 or equivalent.

</tbody>
</table>
Italian

Objectives:
The Italian minor introduces students to the rich, complex culture of Italy, first by providing them with basic linguistic skills in the Italian language, and subsequently by familiarizing them with important literary works produced in Italy over the centuries as well as with historically significant films.

Italian Student Learning Outcomes
Students learn to communicate successfully in Italian and develop an understanding of the practices and perspectives of Italian culture down through the centuries. They also acquire specific skills in textual analysis and research, gain a more complex understanding of the many forms of cultural expression, and sharpen their ability to think critically.

Minor Requirements:
The minor consists of 18 semester hours taken above the 100 level: ITAL 203, 204, and four courses taken from upper division offerings.

The ITAL 101, 102, 203 series is recommended for those who seek a basic speaking, writing, and reading knowledge of the language. This series requires one hour of independent study in the language lab each week.

ITAL 101
Elementary Italian I
3 Semester Hours
An introduction to Italian language and culture, with emphasis on communicative skills. This course imparts basic skills in listening, speaking, reading, and writing Italian, simultaneously providing some basic information on Italian culture and society. The grammatical material covered includes an introduction to definite and indefinite articles, pronouns, adjectives, prepositions, and regular and irregular verbs in past and present tenses. The acquisition of vocabulary is reinforced with regular oral and written assignments. Students who successfully complete the course are able to communicate in Italian, orally and in writing, on simple, everyday topics.
ITAL 102
Elementary Italian II
3 Semester Hours

A continuation of ITAL 101. New grammatical material covered includes additional verb tenses, the imperatives, direct and indirect object pronouns, negative constructions, and demonstratives. The progressive acquisition of new vocabulary is reinforced through regular discussion of topics of Italian cultural interest. Students who successfully complete the course are able to communicate orally and in writing on everyday topics using a variety of tenses and vocabulary.

Prerequisite: ITAL 101 or equivalent.

ITAL 112
Beginning Conversational Italian
3 Semester Hours

Prerequisite: ITAL 102 or concurrent enrollment.

ITAL 203
Intermediate Italian
3 Semester Hours

A continuation of ITAL 102. New materials covered include the subjunctive and conditional modes, double pronouns, comparisons, and superlatives. Additional vocabulary on selected topics. The students learn to read Italian texts of moderate difficulty and study additional aspects of Italian culture and society. Students who successfully complete the course are able to communicate orally and in writing on everyday topics and on the specific cultural content of the course.

Prerequisite: ITAL 102 or equivalent.

ITAL 204
Advanced Italian
3 Semester Hours

A review of the main elements of Italian grammar and introduction to more complex linguistic patterns. The course provides further practice in speaking, listening, and writing Italian through the study and discussion of authentic Italian texts multimedia resources. Students who successfully complete the course are able to communicate orally and in writing on a range of cultural topics.

Spring semester only.

Prerequisite: ITAL 203 or equivalent.

ITAL 211
Advanced Conversation
3 Semester Hours

Prerequisite: ITAL 203 (may be taken concurrently).

ITAL 298
Special Studies
1-3 Semester Hours

ITAL 299
Independent Studies
1-3 Semester Hours

ITAL 321
Stylistics and Composition
3 Semester Hours

An introduction to reading, writing, and editing texts in Italian. Students develop skills in writing clear and correct Italian and provide critical commentary on selected topics using the techniques of formal composition.

Prerequisite: ITAL 204 or equivalent.

ITAL 332
Italian Literature of the Fourteenth Century
3 Semester Hours

 Providing an overview of the historical context in which Dante, Petrarch, and Boccaccio emerged, the course introduces students to some of the most famous works in the Italian literary tradition. The course develops the students’ ability to write critical essays in Italian, while sharpening their skills in literary and cultural analysis.

Prerequisite: ITAL 204 or equivalent.

ITAL 333
The Italian Novella
3 Semester Hours

A survey of the short story form from the fourteenth century to the present.

Prerequisite: ITAL 204 or equivalent.

ITAL 334
Italian Literature of the Twentieth Century
3 Semester Hours

A survey of poetry, drama, and prose from Pirandello to Calvino and beyond.

Prerequisite: ITAL 204 or equivalent.
Japanese

The courses develop listening, speaking, reading, and writing skills using the direct method. Grammar points are explained in English. The student is provided an opportunity to practice conversation with native speakers to further improve oral skills. Selected topics are presented to enhance awareness and understanding of Japanese culture.

JAPN 101
Elementary Japanese I
3 Semester Hours

An introduction to the fundamentals of Japanese, emphasizing listening and speaking skills. Introduces reading and writing of Hiragana, Katakana, and approximately 30 Kanji along with essentials of Japanese culture and custom.

Fall semester only.

JAPN 102
Elementary Japanese II
3 Semester Hours

A continuation of JAPN 101. Review of Katakana and approximately 75 new Kanji are introduced. Useful grammatical patterns emphasizing the use of adjectives and verb conjugations. Practical patterns such as polite commands, permissions, prohibitions, and progressive forms are studied.

Spring semester only.

Prerequisite: JAPN 101 or equivalent, or consent of instructor.
JAPN 203
Intermediate Japanese I
3 Semester Hours

A course designed to improve oral proficiency as well as reading and writing skills in Hiragana, Katakana, and Kanji. Approximately 75 new Kanji are introduced. More complex grammatical patterns such as potentials, giving advice, and expressing one's desires. Increased knowledge and understanding of Japanese culture and customs.

Fall semester only.

Prerequisite: JAPN 102 or equivalent, or consent of instructor.

JAPN 204
Intermediate Japanese II
3 Semester Hours

A continuation of JAPN 203. A course designed to enable students to express their ideas effectively through the use of more complex patterns such as advanced relative clauses, giving and receiving verbs, and the different levels of politeness in speech (honorable and humble expressions). Seventy-five new Kanji are practiced, and students write short essays on selected topics.

Spring semester only.

Prerequisite: JAPN 203 or equivalent, or consent of instructor.

JAPN 298
Special Studies
1-3 Semester Hours

Modern Greek

For courses and curriculum in Modern Greek, see Classics and Archaeology.
Spanish

Spanish Major:

Objectives:
This major equips students with language proficiency in Spanish as it introduces them to the multicultural nature and historical evolution of Hispanic literary and cultural expressions in Europe and the Americas. It provides students with opportunities to comprehend, interpret, and practice advanced linguistic skills in Spanish through oral and written exercises and assignments. Survey and seminar classes familiarize them with representative literary works and cultural texts from Spain, Spanish America, and the U.S., and provide theoretical terminology and concepts essential for structural and conceptual analyses of these products. The major also requires the study of Spanish phonology, morphology, syntax, and dialectal varieties. Finally, it helps students to develop a sense of social justice through their consistent participation in intercultural events and service learning activities that involve both academic and culturally significant contexts.

Spanish Student Learning Outcomes

Spanish majors will know:
• The principal aspects of Spanish
• The variety and nature of linguistic practices, cultural texts, and perspectives in Spanish-speaking countries
• Representative literary works and cultural texts from Spain, Spanish America, and the U.S.
• Theoretical terminology and concepts essential for structural and conceptual analyses of these texts;

Spanish majors will be able to:
• Communicate creatively and effectively in written and oral forms in Spanish
• Understand spoken Spanish
• Read Spanish literature
• Apply acquired theoretical and critical skills in textual analyses and scholarly research
• Demonstrate an advanced command of how literary works, cultural expressions, and linguistic varieties of the Spanish-speaking world represent the multiplicity of human experience;

Spanish majors will value:
• The evolution and variety of perspectives in Hispanic cultures
• Social justice and intercultural awareness.

Major Requirements:

Lower Division Requirements:
SPAN 101, 102, 203, and 204 or 205.

The elementary and intermediate courses may be satisfied by Advanced Placement examination. A minimum grade of C (2.0) is required in all pre-major courses.

Upper Division Requirements:
Spanish Major: The major in Spanish requires 25 semester hours in upper division courses: SPAN 321, 322, 330, 331, 332; 9 hours in 400-level Spanish electives; and SPAN 500, a senior portfolio (1 semester hour). Students are permitted to take up to 30 upper division hours in Spanish.

Spanish Major Portfolio Requirement:
Spanish majors are required to register for a one-credit course (SPAN 500, Senior Capstone Project), in the Spring semester of their senior year. Each graduating student constructs a portfolio that includes a 6-8 page reflective essay written in Spanish that demonstrates how the student has met the goals of the Spanish program. These goals comprise language proficiency, cultural competency, mastery of literary and linguistic studies, development of a sense of social justice through intercultural understanding, and the prospect of using this knowledge after graduation. In addition, the portfolio contains a brief description of the student’s involvement in extracurricular intercultural activities connected with the Spanish major. Finally, students must orally present their portfolio to their peers and the Spanish program faculty at a group meeting during the Spring semester of their senior year.

Guidelines for the collection of materials included in the portfolio as well as deadlines for the oral presentation of the material are available in the Department. This exit interview course is graded Credit/No Credit.

Single Subject Teaching Credential:

Students interested in obtaining a Single Subject teaching credential in Spanish must fulfill the requirements for the Spanish major and take SPAN 420 and 432 or their equivalent. Students must attend an orientation meeting at the School of Education and apply for admission to the Single Subject Teaching Program. To complete both
programs in four years, students are encouraged to start this process early. Prospective teachers are also required to meet with a faculty member in the School of Education.

**Spanish Minor:**

The minor consists of 18 semester hours taken beyond SPAN 203: SPAN 204 or 205, 321, 322 or 330, to be followed by SPAN 331, 332, and one upper division 400-level Spanish elective.

**Spanish Placement Exam:**

Any student who has knowledge of or has had prior instruction in Spanish in high school or at a college or university other than LMU must take the LMU Spanish Placement Exam. This exam is administered by the Learning Resource Center during the summer Orientation sessions and at the beginning of the Fall and Spring terms.

This requirement includes students who have taken an AP Spanish Exam in high school. Generally, a student who receives a score of 5 or 4 on the AP Spanish Exam (Language or Literature) places in SPAN 204 (Intermediate Spanish II) or SPAN 205 (Intermediate Spanish II for Latino Students). Final placement is conditional upon the instructor’s consent. Course credit will be given for SPAN 101, 102, and 203 once the student’s official scores have been received from the College Board. It is the responsibility of each student to ensure that the official AP scores have been sent to Loyola Marymount University.

**Study Abroad:**

Students are strongly encouraged to go abroad for a semester during their sophomore year (Spring semester) or junior year (Fall or Spring semester). Prior to departure, students must obtain transfer credit approval for any courses that they take, and no more than two Spanish courses will transfer for the major. Consult the Study Abroad Office for information about the Loyola Marymount University Summer program in Cuernavaca, Mexico, as well as for semester, year-long, or Summer study abroad programs offered by other universities that the Spanish program endorses.

**Spanish Model Four-Year Plan**

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**Spanish Program Course Offerings***

* All courses are taught in Spanish unless otherwise indicated.

**SPAN 101**
Elementary Spanish I
3 Semester Hours

The course emphasizes reading, writing, aural, and oral proficiency in basic Spanish and reflects the diversity within Hispanic cultures. Instruction includes articles, pronouns, regular and irregular verbs (including reflexive verbs) in the present, and the preterite tenses of the indicative mood, adjectives, and basic vocabulary.

Prerequisite: Students with no prior study of Spanish or LMU Placement Exam.

**SPAN 102**
Elementary Spanish II
3 Semester Hours

A continuation of SPAN 101. New material studied includes an introduction to the present and present perfect subjunctive, the preterite vs. imperfect tense distinction, passive se, uses of por and para, direct and indirect object pronouns, past participle, formal commands, comparisons, and additional vocabulary and idioms.

Prerequisite: SPAN 101 or LMU Placement Exam.

**SPAN 112**
Conversational Spanish
1-3 Semester Hours

A course designed to permit students to learn and practice communicative strategies, increase their vocabulary, and to become acquainted with Spanish, Latin American, and U.S. Latino cultures. A final oral presentation is required.

Credit/No Credit only.

**SPAN 203**
Intermediate Spanish I
3 Semester Hours

After a review of SPAN 101 and 102 material, topics include the preterite vs. imperfect tense distinction, the pluperfect indicative tense, the present and present perfect subjunctive contrasted with the indicative mood, commands, and the ser vs. estar distinction. Coursework includes the discussion of short texts, oral exercises, and medium-length compositions.

Prerequisite: SPAN 102 or LMU Placement Exam.

**SPAN 204**
Intermediate Spanish II
3 Semester Hours

Course strengthens the students’ receptive and productive skills in Spanish while developing an appreciation and deeper knowledge of diversity of Hispanic cultures. After a grammatical review, the course studies adverbial conjunctions, indirect speech, “SI” clauses, uses of the infinitive, relative pronouns, and the description of reciprocal actions. Students present oral and written reports in formal Spanish, to narrate and describe in paragraphs of connected discourse, and to establish automaticity in high-frequency linguistic structures.

Prerequisite: SPAN 203 or by LMU Placement Exam.

**SPAN 205**
Intermediate Spanish II for Latino Students
3 Semester Hours

This course, specially designed for students with a cultural Latino/Hispanic background, is the equivalent of SPAN 204. It strengthens the students’ communicative skills in Spanish while developing an appreciation and deeper knowledge of their cultural background. Students are trained to present oral and written reports in formal Spanish, to narrate and describe in paragraphs of connected discourse, and to establish automaticity in high-frequency linguistic structures. They will acquire and demonstrate a solid knowledge of Spanish grammar.

Prerequisite: SPAN 203 or by LMU Placement Exam.

### SPAN 420
**Hispanic Cultural Studies**
3 Semester Hours

General survey that may include Iberian, U.S. Latino, and/or pre-Columbian civilizations and the literature of Meso- and South America; the impact of the Encounter with Europe; the Conquest; the Colonial Period; the Independence Era; and modern literary, socio-historical, economic, and political events that have shaped present-day Spanish American cultures.

Prerequisite: SPAN 322 or consent of instructor.

### SPAN 441
**Latin American Novel**
3 Semester Hours

A comparative study of representative narratives written by Latin American and/or Latino/a authors during the 19th, 20th, and 21st centuries.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

### SPAN 442
**Latin American Poetry**
3 Semester Hours

Survey and comparative study of Spanish language poetry of the Americas from a variety of historical periods, national origins, and cultural and literary movements.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

### SPAN 443
**Latin American Women Writers**
3 Semester Hours

Survey and comparative study of representative works by Latin American and/or Latina women writers from a variety of historical periods, national origins, and cultural and literary movements.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

### SPAN 444
**Latin American Drama**
3 Semester Hours

An introduction to and comparison of representative works written by Latin American dramatists from a variety of historical periods, national origins, and literary and cultural movements.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.

### SPAN 445
**Latin American Short Story**
3 Semester Hours

A comparative and literary study of the short story as well as representative works written by Latin American and/or Latino/a authors from a variety of historical periods, national origins, and literary and cultural movements.

Specific course content depends on the instructor.

Prerequisite: SPAN 322 or consent of instructor.
SPAN 451
Nineteenth-Century Spanish Literature
3 Semester Hours

Analysis of representative literary works and authors of the Spanish 19th century in their historical and cultural contexts through a particular theme and from different perspectives.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 452
Early Modern Spanish Narrative
3 Semester Hours

The course analyzes narrative texts of the early modern period in Spain studied within their historical and cultural contexts. It will pay particular attention to their relevance for modern and contemporary literature.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 453
Twentieth-Century Spanish Literature
3 Semester Hours

Analysis of representative literary works and authors from the Spanish 20th century in their historical and cultural contexts through a particular theme and from different perspectives.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 455
Early Modern Spanish Drama and Poetry
3 Semester Hours

The course analyzes poetic and dramatic works of the early modern period in Spain studied within their historical and cultural contexts. It will pay particular attention to their relevance for modern and contemporary literature.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 457
Spanish Authors
3 Semester Hours

An in-depth study of the work of a specific author, such as Miguel de Cervantes or Federico García Lorca, or a group of authors, such as Spanish women writers.

May be repeated for degree credit, when content varies.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 460
Selected Topics in Spanish Studies
3 Semester Hours

Topics in Peninsular Spanish literature, film, and culture.

May be repeated for degree credit, when content varies.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 498
Special Studies
1-3 Semester Hours

SPAN 499
Independent Studies
1-3 Semester Hours

SPAN 500
Senior Capstone Project
1 Semester Hour

Exit portfolio (for majors only).

Credit/No Credit grading.
Peace Studies

Director:
Daniel L. Smith-Christopher

Objectives:
In order to accommodate the significant diversity in approaches to peace and justice, Loyola Marymount University’s Peace Studies program is a contract-based minor that is arranged on an individual basis, working with the particular interests and study areas of each student. Students may choose from a variety of courses that relate to chosen fields of interest and emphasis, drawing from programs such as Political Science, History, Ethnic Studies, Theological Studies, Philosophy, Classics, English, Sociology, and any number of other departments. The proposed contract, with the suggested list of courses, must be accepted in writing by both the Director of the Program and the Dean of the Bellarmine College of Liberal Arts before the minor is officially entered in the academic record of each student who wishes to enter the program.

Minor Requirements
Eighteen semester hours (6 courses) are required for the minor. There are no required courses, but it is strongly suggested that students take THST 304, War and Peace in the Bible, as a foundation course for the program. There is a limit of 2 courses (6 units) in lower division courses, and a single 400-level course is strongly encouraged. A Thesis/Independent Study option is available to fulfill this recommended course, to be arranged with the Director.

Required Proficiencies
In selecting the program, the student must keep in mind the essential goals of the Peace Studies minor include several proficiencies. Students may accomplish these proficiencies in a variety of ways, but typically it would involve the student selecting class projects or papers with the proficiencies in mind and then presenting a portfolio during the senior year to the Director of Peace Studies. This portfolio of class papers/assignments will establish the student’s completion of these areas of expected proficiency:

1) Every Peace Studies minor will demonstrate their ability to differentiate the historical, political, and economic issues surrounding a selected conflict (e.g., the Middle East, Northern Ireland, Sri Lanka, or South Africa).
2) Every Peace Studies minor will analyze a historic conflict involving the United States (e.g., WWI, WWII, Korea, or Viet Nam) and its implications for the world in which we live today.
3) Every Peace Studies minor will compare the religious arguments that are a part of a specific conflict, or various religious traditions’ approaches to war and peace generally.
4) Every Peace Studies minor will apply the concept of Nonviolence and Nonviolent Strategy as exemplified by such activists as Gandhi, King, or Abdul Ghaffer Khan (or others by agreement), and/or theorists of Nonviolence such as Gene Sharp, Elise Boulding, or Richard Taylor to their analysis of a selected conflict.

Please direct all questions to the Director of Peace Studies.

Special Events
In addition to the minor, the Peace Studies Program also sponsors speakers and major events during the academic year to promote discussion and awareness of issues related to peace and justice locally, nationally, and internationally. The first “Bellarmine Forum” on World Genocide in 2001 provided speakers on Native American issues, Middle East issues, and Religion and Nonviolence.
Philosophy

Faculty:
Chairperson: Timothy Shanahan
Professors: Jasper Blystone, James G. Hanink,
Mary Elizabeth Ingham, C.S.J., Mark D. Morelli,
Elizabeth Murray, Timothy Shanahan
Associate Professors: W. Scott Cameron,
Christopher Kaczor
Assistant Professors: Jason S. Baehr, Eric D. Perl,
Thomas Sherman, S.J., Brad Elliott Stone, Brian Treanor,
Robin Wang, Jeffrey Wilson
Adjunct Professor: Richard Morris

Objectives:
Philosophy is a reflective and critical discipline whose aim is to explore fundamental ideas which underlie and penetrate human existence and constitute the deep background of all human endeavors: ideas such as Meaning and Truth, Knowledge and Being, Objectivity and Bias, Good and Evil, Value and Disvalue. Philosophic inquiry into these and related notions is governed by the complementary ideals of analytic precision and comprehensive synthesis, and so it aims to raise these basic notions from their everyday obscurity, to articulate them with logical precision and rigor, and to bind them together into an overarching vision of the nature and purpose of human life.

Accordingly, the Department of Philosophy offers basic courses in Critical Thinking, Human Nature, Ethics, and Contemporary Moral Problems in the core curriculum and a wide variety of courses complementary to studies in a broad range of fields. For convenience, courses are grouped into eight content areas:

I. Morality, Law, and Politics (320 through 334)
II. Natural and Social Sciences (341, 342, 344)
III. Arts and Literature (254, 351, 352, 353)
IV. Religion and Theology (361 through 366)
V. History of Philosophy (381, 382, 383, 385, 387)
VI. Contemporary Movements (421 through 426)
VII. Major Thinkers (451)
VIII. Mind and Reality (461 through 464)

Philosophy Student Learning Outcomes
Philosophy students will understand:
- The history of philosophy from the pre-Socratics to modern European thinkers
- Contemporary philosophical movements, issues, and techniques
- Central themes in the primary texts of important philosophers;

Philosophy students will be able to:
- Demonstrate written competency in the analysis of philosophical issues
- Apply the tools of logic in the analysis and critical evaluation of philosophical texts
- Synthesize philosophical insights in relation to their own lived experience;

Philosophy students will value:
- The contributions of philosophers to civilization
- An understanding of the relationship of philosophy to a variety of areas of human experience such as faith, morality, and culture
- Rigorous philosophical inquiry and reflection in relation to their own self-development, their interactions with others, and the quest for a better world.

Major Requirements:
An overall GPA of C (2.0) is required for students wishing to declare a Philosophy major.

Required:

HIST 100 and PHIL 201.

The History of Philosophy sequence—PHIL 381, 383, 385, 387.

Five Philosophy electives (excluding the first course to be taken to fulfill the upper division core requirement, PHIL 320 through 330), at least three of which must be upper division courses taken at LMU.

Students are strongly encouraged to study a foreign language to enhance their philosophical studies. Programs should be planned in consultation with their faculty advisor.

An average grade of C+ (2.3) must be maintained in Philosophy courses by majors.

Majors may take up to 13 upper division courses in Philosophy.
Honors in Philosophy

To graduate with honors in Philosophy, a Philosophy major must have a minimum GPA in Philosophy of 3.3, enroll in the PHIL 500 Senior Project in place of one of the upper division electives, and receive at least a grade of B+ (3.3) on the project.

Minor Requirements:

18 semester hours in Philosophy, of which at least 12 are in upper division courses. Core requirements PHIL 160, 220, and 320 through 330 may be counted towards the minor. An average of C (2.0) must be attained in courses in the minor.

The Department of Philosophy also offers a minor in Ethics for students who wish to explore further the foundations of ethics and ethical issues as they arise in a range of theoretical and applied domains. Philosophy majors and minors may not minor in Ethics.

Philosophy Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as PHIL major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

- PHIL ___ Elective.................................3
- S.H. 15

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.

---

**PHIL 160**

**Philosophy of Human Nature**

3 Semester Hours

An introductory exploration of central questions and interpretations of human existence, carried on in light of the Catholic intellectual tradition. Satisfies core requirement in all Colleges and Schools.

---

**PHIL 201**

**Symbolic Logic**

3 Semester Hours

An introduction to the techniques of modern mathematical logic, including proofs relying on the logic of truth-functions and quantifiers and their application to arguments in English. No mathematical training presupposed. Required for Philosophy majors.

---

**PHIL 220**

**Critical Thinking**

3 Semester Hours

An introduction to the methods and principles of sound reasoning, with special attention to the analysis of deductive and inductive arguments, informal fallacies, and the nature and purpose of definition. Satisfies core requirement.

---

**PHIL 254**

**Philosophy in Film**

3 Semester Hours

An investigation of the philosophical use of the film medium and an examination of particular philosophical ideas portrayed in films.

---

**PHIL 298**

**Special Studies**

1-3 Semester Hours

---

**PHIL 299**

**Independent Studies**

1-3 Semester Hours

---

**I. Morality, Law, and Politics**

---

**PHIL 320**

**Ethics**

3 Semester Hours

A study of the questions which a person must ask in forming an intelligent philosophy of moral choice, carried on in the light of the Catholic intellectual tradition. Satisfies core requirement in all Colleges and Schools.

Prerequisite: Junior standing.
PHIL 321
Bioethics
3 Semester Hours

This course looks carefully at ethical issues that arise in the field of medicine, such as abortion, euthanasia, physician-assisted suicide, and the distribution of medical resources and care. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 322
Business Ethics
3 Semester Hours

This course considers ethical issues that arise in the field of business. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 323
Crimes and Punishments
3 Semester Hours

A critical introduction to the moral theories and practices embodied by the criminal justice system. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 324
Engineering Ethics
3 Semester Hours

This course looks at ethical questions that arise in the sciences, especially engineering, focusing on examples such as the Challenger disaster and the decisions that led up to it. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 325
Ethics and the Arts
3 Semester Hours

The course examines ethical questions that arise about the arts, including the role the arts play in moral education, the expression of moral values in the arts, obscenity, and public funding of the arts. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 326
Ethics of Love and Marriage
3 Semester Hours

This course focuses on the ethical dimensions of friendship, love, marriage, and commitment.

Prerequisite: Junior standing.

PHIL 327
Ethics and Education
3 Semester Hours

A look at the ethical and justice-related issues posed by the institutions of public and private education in modern democracies, with special focus on education in America.

Prerequisite: Junior standing.

PHIL 328
Media Ethics
3 Semester Hours

An exploration of the ethical challenges of professionals working in the media and communications industries, providing strategies for students to assess ethical dilemmas in business and creative decisions in film, television, popular music, news, public relations, and advertising professions. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 329
Topics in Applied Ethics
3 Semester Hours

An in-depth study of a contemporary ethical issue. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 330
Contemporary Moral Problems
3 Semester Hours

A study from the perspective of ethical theory of selected moral problems of contemporary interest and significance.

Prerequisite: Junior standing.
PHIL 331
Political Philosophy
3 Semester Hours

A philosophical analysis of the purposes and functions of the political state, including an analysis of the limits of political authority. Course content may vary from historical surveys (of, for example, Hobbes, Locke, Hume, Rousseau, Mill) to in-depth treatments of specific schools of political theory.

PHIL 332
Philosophy of Law
3 Semester Hours

A philosophical analysis of the rule of law and the operation of contemporary legal systems. Topics will include the nature of law and legal obligations, the relation between law and morality, and the criteria for ascribing both civil and criminal (legal) liability.

PHIL 333
Feminist Theory
3 Semester Hours

A survey of the political, epistemological, and metaphysical questions raised for philosophy as traditionally conceived by the claim that sex and/or gender should play a significant role in its self-understanding.

PHIL 334
Images of Women in Philosophy
3 Semester Hours

An exploration of the understanding of women and human nature in the various philosophical traditions.

PHIL 341
Philosophy of Science
3 Semester Hours

A study of the nature of science, with special attention to the history of science, contemporary scientific developments, and scientific method.

PHIL 342
Philosophy of Biology
3 Semester Hours

A critical examination of central philosophical issues and controversies in the life sciences.

PHIL 344
Philosophy and Psychoanalysis
3 Semester Hours

A critical study of the philosophic presuppositions of psychoanalytic theory, including an examination of the distinction between philosophic and psychological methods.

III. Arts and Literature

PHIL 351
Philosophy of Culture
3 Semester Hours

A study of cultural forms as carriers of meaning and value. Topics may vary from year to year and could include analysis of cultural modes of expression, their interpretation and their origins, cultural pluralism, cultural relativism, and the notion of the transcultural.

PHIL 352
Philosophy of the Arts
3 Semester Hours

A study of the meaning of art and what it can tell us about human beings, the nature of artistic intuition, and the creative process.

PHIL 353
Philosophy and Literature
3 Semester Hours

An investigation of the philosophical use of literature and an examination of philosophical ideas portrayed in a variety of literary works, which may include plays, novels, autobiographies, and short stories.

IV. Religion and Theology

PHIL 361
Philosophy of God
3 Semester Hours

The focus of this course is on the debate regarding concepts of God and the arguments for and against God’s existence. It will examine the contributions of both classical and contemporary schools of thought to the debate.

PHIL 362
Philosophy and Christianity
3 Semester Hours

An exploration of central philosophical issues that arise in Christian life—understood as pilgrimage. What is happiness? How does one integrate the immanent and the transcendent? How does Christian praxis relate to the political sphere?

VI. Contemporary Movements

PHIL 421
American Pragmatism
3 Semester Hours

A study of 19th and 20th century pragmatism, including the philosophies of Charles Sanders Peirce, William James, and John Dewey.

PHIL 422
The Analytic Tradition
3 Semester Hours

An examination of some of the most influential philosophers whose work constitutes the Anglo-American tradition of the 20th century, including Frege, Russell, G.E. Moore, Wittgenstein, the Logical Positivists, the Ordinary Language Philosophers, and several contemporary post-analytic philosophers.

PHIL 423
Phenomenology
3 Semester Hours

An introduction to phenomenological method through the close study of the works of Husserl and later phenomenologists.

PHIL 424
Existentialism
3 Semester Hours

PHIL 425
Process Philosophy
3 Semester Hours

A study of the main philosophical doctrines of the process philosophies of A.N. Whitehead and/or Charles Hartshorne.

PHIL 426
Postmodernism
3 Semester Hours

A study of strategies in Western philosophy from Meister Eckhart and Nicolaus Cusanus to Spinoza/Nietzsche/Scheler, Fichte/Peirce/Mead, Wittgenstein/Heidegger/Gadamer, and Derrida/Foucault.

PHIL 427
Chinese Contemporary Philosophy
3 Semester Hours

An exploration of contemporary Chinese thought, focusing on its relationship to historically important philosophies such as Confucianism and Marxism, as well as to contemporary political, ecological, and religious influences.

VII. Major Thinkers

PHIL 451
Major Thinkers
3 Semester Hours

Concentrated study of a single, major figure. The thinker will vary from year to year and may be one of the following: Confucius, Socrates, Plato, Aristotle, Aquinas, Franciscan thinkers (Duns Scotus and William of Ockham), Kant, Hegel, Nietzsche, Peirce, Heidegger, Whitehead, Lonergan, Gadamer, Habermas. Repeatable for degree credit.

VIII. Mind and Reality

PHIL 461
Theory of Knowledge
3 Semester Hours

An introduction to the principal problems of epistemology as they appear in both classical and contemporary theories.

PHIL 462
Symbol and Interpretation
3 Semester Hours

Semiotic and hermeneutic inquiries into human symbolic activity and its preeminent products, the dramatic presentation of sociocultural modes of self-personification.

PHIL 463
Metaphysics
3 Semester Hours

An introduction to classical and contemporary metaphysics, the general theory of being.
PHIL 464
Philosophy of Mind
3 Semester Hours

An exploration of the nature of mind. Topics may vary and may include consciousness, experience, the self, the historical discovery of mind, and consideration of psychological theories of mental operations. Alternative theories will be critically examined.

PHIL 481
Special Topics
3 Semester Hours

A seminar course which aims to expose students to the current research and special philosophical interests of departmental faculty. Topics vary from semester to semester.

PHIL 498
Special Studies
1-3 Semester Hours

PHIL 499
Independent Studies
1-3 Semester Hours

PHIL 500
Senior Project
3 Semester Hours

A research and writing project completed under the guidance and direction of a faculty supervisor.
Political Science

Faculty:
Chairperson: Seth B. Thompson
Professors: Michael A. Genovese, Joseph G. Jabbra, Seth B. Thompson
Associate Professors: Lance H. Blakesley, Evan Gerstmann, Fernando J. Guerra, Janie S. Steckenrider, Robert J. Welch, S.J.
Assistant Professors: Antonio Brown, Jodi Susan Finkel, Matt Streb

Objectives:
The Department challenges and encourages students to:

- be perceptive observers of political life in all its variety and richness;
- seek a systematic understanding of the causes and consequences of political institutions, policies, and behavior;
- develop a moral and ethical perspective that allows them to critically evaluate actions, institutions, and policies; and
- prepare themselves for a life of active citizenship and involvement in creating a more just and humane world.

The Department challenges and encourages its faculty to:

- master the art of teaching,
- contribute to their profession as active scholars and researchers, and
- promote an atmosphere of care and concern for each student inside and outside the classroom.

Both faculty and students share a responsibility for creating a lively and diverse community of scholars marked by civility, mutual respect, and support.

Political Science Student Learning Outcomes
Political Science majors learn to describe:

- The dynamics and central institutions of American politics
- The content and impact of public policies in particular areas
- The similarities and differences in political behavior and institutions in countries around the world at various levels of political, economic, and social development
- The contemporary and emerging outlines of global politics
- The persistent questions and range of approaches in the rich history of Western political thought
- The relationships between the political and the legal systems;

Political Science majors learn to apply and evaluate:

- Standards for effective written and oral presentation of their work
- Competing explanations for why the American political system functions as it does
- Different understandings of what the good citizen, the good government, and the good society ought to do
- Alternative approaches to public policies and solutions to contemporary problems
- Our constitutional system and legal reasoning
- Frameworks for understanding the problems and prospects for development in the diverse nations of the world
- Theories of war and peace, globalization and security, in the international system
- Strategies for efficient and effective work in groups;

Political Science majors learn to explain and predict:

- Political participation patterns
- Outcomes of alternative public policies
- Variations in political attitudes and belief systems
- The development of effective political leadership
- The existence and longevity of political institutions
- Trends in law, legal systems, and international norms;

Political Science majors learn to value:

- Open, diverse, and free political thought and discussion
- Engaged and active citizenship
- Leadership for a more just and humane world
- The pursuit of academic excellence and intellectual rigor.

Major Requirements:

Lower Division Requirements: 9 semester hours

POLS 130, 150, 210.

An average grade of C (2.0) must be attained in these courses.
Upper Division Requirements: 27 semester hours, including

1) At least one course in two of these four groups: U.S. Politics, Public Administration and Policy Analysis, Comparative Politics, and Public Law;
2) POLS 321, Survey of Political Thought;
3) At least one course in International and World Politics. It is strongly recommended that POLS 360 be the first course taken in this group;
4) At least one 500-level seminar, preferably in the senior year.

An average grade of C (2.0) must be obtained in courses included in the major.

Minor Requirements:

18 semester hours in Political Science, including two of the lower division major required courses listed. The remaining 12 semester hours must be upper division and selected from two of the groups 2 through 7. Specific programs should be planned individually with the advice of a faculty advisor.

An average grade of C (2.0) must be obtained in the courses included in the minor.

Honors in Political Science:

Students who attain a GPA of 3.5 of higher, both overall and in the major, are eligible to enroll in the Honors Seminar (POLS 581) in the Fall of their senior year and to write an Honors Thesis (POLS 591) in the Spring of the senior year. The Honors Seminar is a prerequisite for the Honors Thesis. Students who attain a grade of A- or higher for the Honors Thesis will graduate with Honors in Political Science. Both the Honors Seminar and Honors Thesis count toward the 27 semester hours of upper division course work required of majors.

Political Science Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

Group 1:

POLS 130
American Politics
3 Semester Hours
A survey of the basic structure and procedures of the American political system.
Prerequisite: Political Science majors and minors only.

POLS 135
Comparative Politics
3 Semester Hours
An overview of the major political processes in contemporary American life.
Prerequisite: Non-Political Science majors only.

POLS 150
Comparative Foreign Governments
3 Semester Hours
Analyzes political institutions and policies in democratic and authoritarian countries. Combines conceptual understanding with case studies from Europe, Africa, Asia, and Latin America.
Prerequisite: Political Science majors and minors only.

</table>
POLS 591
Honors Thesis
3 Semester Hours

This is an opportunity for Honors-Eligible students to complete a substantive research project to qualify for Departmental Honors.

Prerequisite: POLS 581.

Group 3: U.S. Politics

POLS 331
Political Socialization
3 Semester Hours

This course focuses on the processes of political learning involved in the development of the political self from childhood through the adult years. Emphasis on the individual's orientations and on political culture.

POLS 332
Political Parties and Elections
3 Semester Hours

An analysis of political parties from the institutional and behavioral perspectives. Focus on party structures, participation, and the contemporary electoral process.

POLS 333
The United States Congress
3 Semester Hours

A study of the workings of the U.S. Congress with an emphasis on congressional elections, the legislative process, relations with other institutions, and representation.

POLS 334
Presidency
3 Semester Hours

A study of the powers, process, and problems of the modern United States presidency.

POLS 336
The Judiciary
3 Semester Hours

A study of how America's courts really work, focusing on the role of judges, juries, and attorneys.

POLS 337
Racial and Ethnic Politics
3 Semester Hours

Comparative analysis of racial and ethnic groups within the United States political system. A focus on the effect of political institutions on minority groups at federal, state, and local levels. Examines the experience of minority groups to illuminate political process in the U.S.

Psychology

Faculty:
Chairperson: Michael J. O’Sullivan
Professors: Ronald K. Barrett, Larry C. Bernard,
Judith G. Foy, Michael R. Foy, Richard L. Gilbert,
Cheryl N. Grills, Ricardo A. Machón,
Michael J. O’Sullivan, Leland C. Swenson,
R. Patricia Walsh
Associate Professors: Jennifer S. Abe-Kim,
Michael E. Mills
Assistant Professors: David J. Hardy,
Joseph W. LaBrie, S.J., Vandana Thadani

Mission:
The Psychology program shares the University’s commitment to develop ethical leaders for a culturally diverse world, and contributes to the liberal education of students. Through a comprehensive education in the science of psychology, the Psychology Department seeks to educate the whole person, pursue academic excellence, advance scholarship, promote service and justice, and encourage life-long learning.

Description:
The Psychology Department provides a high quality curriculum emphasizing excellence in teaching and learning. Students majoring in psychology examine in depth many aspects of human and animal behavior, along with the biological, psychological, and sociocultural aspects of behavior. Students are provided the opportunity to apply these perspectives to a variety of individual, family, and community contexts. As students progress through the curriculum, they have opportunities to assist faculty with research and engage in their own research with faculty supervision. The program prepares students for graduate study in psychology and related fields or careers in other professions.

Goals and Objectives:
The goals of the Psychology curriculum focus on educating students in the methodology, content, and application of psychological science.

Goal 1: Theory and Methodology in Psychology
Students should:
• Understand the role of psychology as a discipline that uses an empirical approach to knowledge; and
• Use, respect, and value skeptical inquiry, critical thinking, and the scientific approach to understanding behavior.

Knowledge areas students will study/learn:
• Basic research methods and ethics
• History and systems and philosophy of science
• Data analysis and interpretation
• Scientific and critical thinking
• Scientific writing and communication.

Goal 2: Mastery of Content (Discipline Specific Knowledge)
Students should be familiar with:
• Core theoretical approaches and research findings that reflect a biopsychosocial understanding of behavior; and
• More in-depth theoretical approaches and research findings within at least one subject area in psychology.

Core knowledge areas students will study/learn:
• Biological foundations of behavior
• Psychological foundations of behavior
• Social and cultural foundations of behavior
• Biopsychosocial development across the lifespan.

Goal 3: Application of Knowledge and Scientific Method
Students should demonstrate the application of psychological theory, methodology, and findings to:
• An understanding of the whole person, as an individual and as a member of a larger community, society, and culture; and
• The promotion of social justice in these contexts.

Psychology Student Learning Outcomes
Upon completion of the Psychology curriculum, students will demonstrate knowledge of the history, foundations, content, and analytical skills of psychology in their ability to:

• Value the importance of a scientific approach to understanding human behavior
• Apply critical thinking in their understanding of psychological principles
• Evaluate critically research both in the social sciences and as presented in the media
• Locate, understand, and critique relevant empirical research on a selected topic
• Identify ethical issues in research
• Apply ethical principles in their own research
• Formulate a hypothesis based on past research
• Design research to test a hypothesis
• Write complete manuscripts in APA style
• Demonstrate increased skills in their oral and written communication on psychological topics
• Analyze and critically evaluate the biopsychosocial components of behavior
• Apply psychological principles, including the consideration of ethics and social justice, in understanding and solving contemporary problems/issues

**Major Requirements:**

**Pre-major Requirements:**

- Introduction to Psychology (PSYC 101)
- Critical Thinking (PHIL 220)
- Human Anatomy & Physiology (BIOL 150)
- Elementary Statistics (MATH 104)

  **Note:** A student must earn a grade of C (2.0) or higher in each of these courses before they can be eligible to declare or to remain a Psychology major. Students must retake pre-major requirements for which they earned a grade of C- (1.7) or lower and achieve a grade of C (2.0) or higher.

**Lower Division Major Requirements:**

1. Statistical Methods for Psychology (PSYC 241) and Lab (PSYC 243). Prerequisites: Grade of C (2.0) or higher in each: MATH 104, PSYC 100 or 101, 243 or concurrent enrollment.

2. Brain and Behavior (PSYC 251). Prerequisites: Grade of C (2.0) or higher in each: BIOL 150, PSYC 100 or 101, or consent of instructor.

3. Experimental Methods (PSYC 261). Prerequisites: Grade of C (2.0) or higher in each: PHIL 220, PSYC 100 or 101, 241, 243.

4. Nonexperimental Methods (PSYC 265). Prerequisites: Grade of C (2.0) or higher in each: PHIL 220, PSYC 100 or 101, 241, 243.

**Upper Division Major Requirements:**

1. Cognition (PSYC 401) or Learning (PSYC 402). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).

2. Social (PSYC 410). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).

3. Lifespan Development (PSYC 415). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).

  **NOTE:** Students must earn a grade of C (2.0) or higher in each course fulfilling these three requirements before they can (a) continue on in a Concentration in the major, and (b) take other 400- or 500-level PSYC courses. Students must retake any of these courses for which they earned a grade of C- (1.7) or lower and achieve a grade of C (2.0) or higher.

4. Concentration (12 semester hours). Students will declare one of the four concentrations listed below. In consultation with their academic advisor, students will select four upper division courses within their concentration. No more than 6 semester hours may be taken from the PSYC 300 series.

**Concentrations:**

**General Psychology:** This concentration provides the greatest flexibility. Students will select any four upper division courses. No more than two courses may be taken from the PSYC 300 series.

**Biology and Behavior:** This concentration emphasizes theory and research investigating the interrelation between biology and behavior. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 310, 351, 430, 432, 443, 445, 452, 455, 456, 457, 458.

**Individual/Family:** This concentration emphasizes the application of psychological theory and research to individuals and families. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 301, 310, 315, 320, 321, 325, 330, 362, 430, 432, 434/435, 436, 438, 442, 445, 452, 455, 456, 465.
Community/Organizational: This concentration emphasizes the application of psychological theory and research to communities and organizations. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 301, 315, 320, 330, 362, 432, 433, 442, 445, 462.

5. Capstone Course: PSYC 510 or 515. Prerequisites: All required courses completed or currently in progress.

6. Senior Assessment: PSYC 595. Prerequisite: Concurrent enrollment in PSYC 510 or 515, or completed with a grade of C (2.0) or higher.

Students may take an additional 6 semester hours of upper division psychology courses and have them count as electives. Students may not take more than 30 semester hours of upper division psychology courses.

Honors in Psychology

To qualify for the Honors in Psychology program, a Psychology major must have senior status (completed 90 units or more), a minimum overall GPA of 3.5, and a Psychology GPA ranking in the top 10% of senior psychology majors. Eligible students enroll in the Honors Seminar (PSYC 540) in the Fall of their senior year and complete the Honors Research Thesis (PSYC 545) in the Spring of their senior year. The Honors Seminar is a prerequisite for the Honors Research Thesis. Both PSYC 540 and PSYC 545 are in addition to the 24 semester hours of upper division course work required of majors.

Senior Assessment

All senior students majoring in Psychology are required to register for and take the Senior Assessment (PSYC 595) prior to graduating. The assessment is offered each semester and summer.

A grade of C (2.0) or higher must be obtained in major courses. Psychology majors are prohibited from taking 400-level or higher psychology courses before completing all lower division Psychology major requirements. Exceptions to this policy may be made only with the prior consent of the Psychology Department Chairperson.

All courses fulfilling lower division pre-major and major requirements, PSYC 401 or 402, PSYC 410, and PSYC 415 must be taken at Loyola Marymount University. Transfer students are exempt from this requirement only for those courses they have completed prior to admission to Loyola Marymount University.

Psychology Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

3rd & 4th Year
12 units

4th Year
3 units

4th Year
6 units

NOTE: ALL COURSES ARE 3 UNITS UNLESS OTHERWISE SPECIFIED

Indicates prerequisite (completed with a grade of C or better) required for next course or level on chart
Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**PSYC 100**  
*General Psychology*  
3 Semester Hours

Introduction to psychology: historical origins; methods of investigation; topics such as sensation, perception, learning, cognition, motivation, and emotion; fields such as physiological, development, personality, social, abnormal, testing, applied psychology, and psychotherapy.

**PSYC 101**  
*Introduction to Psychology*  
3 Semester Hours

Introduction to the scientific study of behavior, including an overview of the history of psychology, biological basis of behavior, sensation/perception, consciousness, learning, memory, cognition, language, motivation, emotion, intelligence, development, personality, psychological disorders, therapy, social behavior, and psychological testing.

Majors/minors only.

**PSYC 241**  
*Statistical Methods for Psychology*  
3 Semester Hours

Statistical concepts and methods related to psychological testing and research, including measures of central tendency, variance, hypothesis testing, analysis of variance, correlation, regression, non-parametric tests, use of computer aids.

Lab Required.

Prerequisites: Grade of C (2.0) or higher in each: MATH 104, PSYC 100 or 101, 243 or concurrent enrollment.

**PSYC 242**  
*Research Methods*  
3 Semester Hours

Introduction to the fundamentals of psychological research including experimental, non-experimental, and quasi-experimental designs; emphasis on critical analysis of research, interpretation of data (with use of computer aids), and scientific writing.

Lab Required.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 241, 243, 244 or concurrent enrollment.

**PSYC 243**  
*Statistical Methods for Psychology Lab*  
1 Semester Hour

Companion lab course to PSYC 241. Data management and statistical analysis using SPSS.

Prerequisite: Grade of C (2.0) or higher in PSYC 241 or concurrent enrollment.

**PSYC 244**  
*Research Methods Lab*  
1 Semester Hour

Companion lab course to PSYC 242. Provides students with hands-on exercises applying their theoretical knowledge of research design. Students gain practical experience with literature searches, experimental and non-experimental designs, and scientific writing in APA style.

Prerequisite: Grade of C (2.0) or higher in PSYC 242 or concurrent enrollment.

**PSYC 251**  
*Brain and Behavior*  
3 Semester Hours

Biological basis of behavior; structure and function of the sensory and effector mechanisms, neural and endocrine systems, and their underlying physiological substrates.

Prerequisites: Grade of C (2.0) or higher in each: BIOL 150, PSYC 100 or 101, or consent of instructor.

**PSYC 261**  
*Experimental Methods*  
3 Semester Hours

Introduces the basic principles of experimental designs. Provides students with fundamental background for planning, conducting, and critiquing experimental research in psychology. Emphasizes scientific writing, including APA style; and data interpretation using inferential, descriptive, and relational statistics. Includes how to generate and test hypotheses, search the scientific literature, the nature of variables, types of measurement, types and assessment of reliability and validity, and ethical issues in empirical research.

Prerequisites: Grade of C (2.0) or higher in each: PHIL 220; PSYC 100 or 101, 241, 243.
PSYC 265
Nonexperimental Methods
3 Semester Hours

Introduces the basic principles of nonexperimental and quasi-experimental designs. Provides students with fundamental background for planning, conducting, and critiquing nonexperimental, quasi-experimental, and qualitative research in psychology. Emphasizes philosophy of science and scientific writing, including APA style. Methods and designs may include quasi-experimental, correlational, meta-analytic, survey, longitudinal, narrative, participatory action, ethnographic, focus groups, and mixed methodologies. Statistical procedures include those appropriate to these methods and designs.

Prerequisites: Grade of C (2.0) or higher in each: PHIL 220; PSYC 100 or 101, 241, 243.

PSYC 298
Special Studies
1-3 Semester Hours

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 299
Independent Studies
1-3 Semester Hours

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 301
Introduction and Overview of Alcohol, Tobacco, and Other Drugs
3 Semester Hours

History of alcohol and other mood-altering drugs in the United States, the myths and stereotypes of alcohol use, the socio-cultural factors that contribute to drug use, and the patterns and progressions of alcoholism and other drug dependency.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 310
Psychology of Sex Differences
3 Semester Hours

Explores sex and sex differences from a biosocial or evolutionary psychology perspective. Examines evolution of sexual reproduction, the two sexes, sexually dimorphic morphology, behavior, and emotion. Identifies and examines different reproductive strategies employed by males and females (including nonhuman species) and resulting conflicts of interests between the sexes. Particular focus given to sex differences in sexuality, courtship, jealousy, mating systems, and parenting.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 315
Psychology of Women
3 Semester Hours

Women’s biological, emotional, cognitive, and behavioral functioning will be reviewed. Topics of special concern to women (e.g., discrimination, sexual harassment, parenting, etc.) will also be discussed.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 319
African and Black Psychology
3 Semester Hours

A biopsychosocial/spiritual review of topics in psychology from an Africentric perspective. A survey course examining and contrasting basic theories, research, and concepts in African psychology and Black psychology. Selected features of the discipline of western psychology are critiqued from an African-centered perspective.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 320
Psychology of Race, Culture, and Ethnicity
3 Semester Hours

Theories and research on psychological, social, and cultural influences in prejudice, racism, ethnic identification, stereotyping, and racial conflict.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.
PSYC 321
Psychology of Marriage
3 Semester Hours

Exploration of theories and research on psychological processes in interpersonal attraction; intimacy, marriage, and family relationships.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 325
Applied Sport Psychology
3 Semester Hours

Explores the relationship of psychological factors to performance in sports. Emphasizes the application of psychological techniques to sport and exercise, including such topics as: personality, motivation, arousal, anxiety, competitiveness, and aggression. Examines psychosocial aspects of team versus individual sports, performance enhancement strategies, and injury avoidance and recovery. Self-assessment and activities facilitate growth and development in personal abilities to enhance performance in a sport and in a variety of non-sport settings.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 330
Forensic Psychology
3 Semester Hours

Examines the interaction of psychology and law. Topics include basic assumptions of law and professional and academic psychology; psychological malpractice; role of mental health experts as expert witnesses, diagnosticians, treatment providers, and advisors in tort law, family law, mental health law, criminal law, and alternative dispute resolution including mediation. Covers fundamental legal procedures, roles of mental health professionals who interact with the legal system, psychological research on legal issues, and common ethical and legal issues related to psychological practices in these areas.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 332
Psychological Disorders
3 Semester Hours

An introduction to the biological, psychological, and social determinants of psychopathology and maladaptive behaviors. Focus on the causes, diagnosis, and treatment of these disorders. This course is designed for students not majoring in Psychology.

Not open to majors in Psychology.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 335
Comparative Animal Behavior
3 Semester Hours

An examination of the ecological and social determinants of the evolution of adaptive behavioral strategies for various classes of behavior across species, including foraging, courtship and reproduction, mating systems, aggression, territoriality, and parenting. Field trips to observe animals.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 352
Developmental Psychology
3 Semester Hours

Research and theories of normal human development from conception through adult maturity, old age, and death. Focus on growth and change in biological, cognitive, and social processes in psychological development. This course is designed for students not majoring in Psychology.

Not open to majors in Psychology.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 362
Psychology of Religion
3 Semester Hours

Examines the religious experience from a psychological perspective, including methods of developing spiritual awareness, classic writings in the field, and review of empirical research.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 435
Psychology of Death and Dying Lab
1 Semester Hour

Companion lab course to PSYC 434. Observation and data collection from various institutions and community settings related to concerns of illness, health maintenance, dying, death, and funerals.

Prerequisites: Grade of C (2.0) or higher in PSYC 434 or concurrent enrollment.

PSYC 436
Personality
3 Semester Hours

A survey of the major contemporary theories of personality and relevant research and applications related to each theory.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.

PSYC 438
Abnormal Psychology
3 Semester Hours

Causes, diagnosis, and treatment of various mental disorders: schizophrenia, mood disorders, anxiety disorders, personality disorders, childhood disorders, sexual dysfunctions, and other conditions covered in DSM IV.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.

PSYC 442
Psychological Assessment
3 Semester Hours

Basic concepts of measurement theory including reliability, validity, and scaling; developing and standardizing tests, behavioral observation, unobtrusive measures, intelligence tests, personality assessment, including projectives and vocational tests.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.

PSYC 443
Advanced Statistics
3 Semester Hours

Advanced statistical methods using computer statistical packages. Topics include factor analysis, multiple regression, and multivariate analysis of variance.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.
PSYC 457
Psycholinguistics Research
3 Semester Hours

Students participate in on-going studies in the areas of speech, language, and reading under the mentorship of the professor. Students study a current research topic in detail, formulate a research hypothesis, design an experiment, and collect and statistically analyze the data. The final product for the course is dissemination of the research report at a major conference and/or submission of the APA-style manuscript to a major journal.

Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415. Consent of instructor.

PSYC 458
Psychobiology Research
3 Semester Hours

Students participate in on-going laboratory research on the psychobiology of learning and memory. Emphasis is on theoretical and methodological issues, research design, data collection, analysis, and interpretation.

Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415. Consent of instructor.

PSYC 462
Industrial/Organizational Psychology
3 Semester Hours

Human problems in industry and business: motivation, morale, efficiency, human relations, occupational fatigue and rest, accident proneness, human engineering, and leadership.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.

PSYC 465
Couple and Family Systems
3 Semester Hours

Imparts an understanding of individuals in systems and introduces the practice of therapeutic intervention at the couple and family level. Some of the major approaches are critically reviewed, demonstrated, and practiced. Students explore themselves, their own backgrounds and biases, their ability to work therapeutically at the systemic level, and sensitivities relating to cultural and other difference in people from various backgrounds. Covers ethics and professional issues in working with people in systems. Requires participation in self-development exercises such as role-playing, as well as self, peer, and instructor critiques of one’s performance.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.

PSYC 490
Teaching Internship
1-3 Semester Hours

Guided teaching of undergraduate laboratories. May be repeated for credit.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.

PSYC 498
Special Studies
1-3 Semester Hours

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.

PSYC 499
Independent Studies
1-3 Semester Hours

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.
PSYC 510
Capstone Course: The History and Future of Psychology
3 Semester Hours
Survey of major trends in philosophy and science culminating in the establishment of scientific psychology, with attention to theories and systems that have influenced psychology to the present time. Review and critique of psychology and the biopsychosocial model. Future of psychology and its methods and models. Course fulfills capstone requirement.
Senior psychology majors only.
Prerequisites: All required courses for the major completed or currently in progress.

PSYC 515
Capstone Seminar
3 Semester Hours
Seminar focuses on a faculty-selected topic to be investigated using the biopsychosocial perspective. The topic of this seminar may be related to the focus of the annual Bellarmine Forum, other major university forum, or a selected issue of current social importance. Students will review and integrate their learning in psychology. Course fulfills capstone requirement.
Senior psychology majors only.
Prerequisites: All required courses for the major completed or currently in progress.

PSYC 540
Honors Seminar
3 Semester Hours
For departmental Honors-Eligible students, this seminar examines a faculty-selected topic from one or more of the biopsychosocial perspectives. Students will complete an extensive literature review on the topic.
Senior psychology majors only.
Prerequisites: Consent of Department Chairperson.

PSYC 545
Honors Research Thesis
3 Semester Hours
Departmental Honors-Eligible students design and conduct empirical research in a specific area of psychology. The completed research report, written in APA style, is the student's Honors Thesis.
Senior psychology majors only.
Prerequisites: Consent of Department Chairperson.

PSYC 595
Senior Assessment
0 Semester Hours
Assessment of student learning outcomes in the field of psychology. Includes written examination or some other form of written assessment, completion of survey instruments, senior exit interview, or other forms of end-of-program evaluation. PSYC 595 is offered three times a year (spring, summer, and fall) on a Credit/No Credit basis.
CR/NC grading only.
Lab fee.
Senior Psychology majors only.
Prerequisites: All required courses for the major completed or currently in progress.

PSYC 598
Special Studies
1-3 Semester Hours
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.

PSYC 599
Independent Studies
1-3 Semester Hours
Students work individually with a selected professor on a specific area of interest. Students who have completed PSYC 445 may wish to conduct further research independently.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401 or 402, 410, 415.
Sociology

Faculty:
Chairperson: James Faught
Professors: James Faught, James Mathieu, 
           Loretta Morris
Associate Professors: John A. Davis, Peter Hoffman
Assistant Professors: Stacy Burns, Margaret L. Hunter, 
                     Eric Magnuson, David Marple

Objectives:
As a department, our objectives are to foster the 
intellectual development of students and to promote 
lifetime learning experiences. We do this through teaching 
and applying the insights of sociological perspectives to 
achieve a critical understanding of social reality and the 
human condition.

Our curriculum is designed to explore relationships within 
society, the social and cultural influences on human 
behavior, dynamics of interaction, and social institutions 
and social change in a global context.

Sociology Student Learning Outcomes
Students majoring in Sociology should know:
• The processes and structures that establish the 
  underlying regularities of social life
• The ways in which social life is continually 
  reconstructed through opposition and deviance
• The significance of cultural differences in 
  traditional and modern societies
• The origin and development of principal 
  theoretical ideas that inform contemporary 
  sociological inquiries
• The basic methodological and statistical strategies 
  used in contemporary sociology;

Students majoring in Sociology should be able to:
• Recognize how social life is structured in ways 
  that influence choices, opportunities, and action
• Demonstrate an ability to write and speak 
  effectively about contemporary social issues
• Read, assess, and interpret the results of 
  sociological research
• Successfully complete an independent research 
  project that competent draws from current 
  theoretical, methodological, and empirical 
  research;

Students majoring in Sociology should value:
• A knowledge of the range of interests and goals 
  expressed by groups and organizations in society
• The ways in which sociological research may be 
  effectively employed by organizations and institutions
• The application of sociological knowledge in order 
  to enhance the quality of life
• A reasoned participation in community life that is 
  informed by grounded sociological knowledge.

Major Requirements:
Lower Division Requirements:
SOCL 100, 105, 109, 210, 211. A grade of at 
least C (2.0) will be required in all lower division 
courses.

Upper Division Requirements:
27 semester hours in upper division courses in 
sociology which must include SOCL 301, 401, 
and 495. An average grade of C (2.0) must be 
obtained in courses included in the major.

SOCL 495 should be taken in the senior year. The 
remaining 18 semester hours are to be chosen 
from the six theme areas into which upper 
division sociology courses are grouped: 
I. Deviance and Control; II. Social Inequality; 
III. Urban, Population, and Demographic 
Processes; IV. Social Structure, Culture, and 
Process; V. Family and Life Cycle; and 
VI. Globalization. Students must take at least 
one course from four of the theme areas. The 
remaining courses may be taken from any of the 
upper division offerings.

At least two 300- or 400-level sociology courses 
must be taken in the senior year.

Minor Requirements:
18 semester hours, including SOCL 100 or 105, 109, 
301 or 401, and 9 semester hours in upper division 
courses. An average grade of C (2.0) must be obtained in 
courses included in the minor. At least one 300- or 400-
level sociology course must be taken in the senior year.
Sociology Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

15

Students may take no more than **ten upper division**
courses in any one department, except for Philosophy, in
which the maximum is thirteen.

---

**SOCL 100**

**Principles of Sociology**

3 Semester Hours

Development of the perspectives, concepts, and
methodologies needed for objective, analytical thinking
about human interaction. Relationships explored in terms
of the development of the self through interaction, basic
types of social organization, collective behavior, types of
institutions, and aspects of the total social system such as
social change and population phenomena.

---

**SOCL 105**

**Cultural Anthropology**

3 Semester Hours

An introduction to the social organization and culture of
preliterate and modern societies. Major emphasis is on
cultural anthropology, a study of how humans have
learned to cope with their world, and the varieties and
similarities of this coping.

---

**SOCL 109**

**Social Research Methods**

3 Semester Hours

An introduction to scientific inquiry and research in the
social sciences, with special emphasis on
conceptualization and operationalization process, various
data collection strategies, and the use of computers in
data analysis.

---

**SOCL 210**

**Elementary Social Statistics**

3 Semester Hours

An introduction to basic inferential and descriptive
statistics commonly used in the social sciences. Among
the topics covered are: table construction; central
tendency; variation; probability, sampling distributions,
and the normal curve; hypothesis testing; and measures
of association.

Recommended to be taken concurrently with SOCL 109.

---

**SOCL 211**

**Advanced Social Research**

3 Semester Hours

Emphasis is given to applied aspects of sociological
research, utilizing a fieldwork project resulting in a report
that embodies advanced research techniques.

Prerequisites: SOCL 109 and 210.

---

**SOCL 301**

**Development of Sociological Theory**

3 Semester Hours

An introduction to 19th century contributions to
sociological thought: Comte, Tocqueville, Marx,
Durkheim, Weber, and others are examined within their
historical settings.

---

**SOCL 401**

**Contemporary Theory**

3 Semester Hours

A survey of the variety of 20th century sociological
perspectives, including symbolic interactionism,
ethnmethodology, functionalism, critical theory, and
others.

---

**SOCL 495**

**Sociology Seminar**

3 Semester Hours

Designed as a senior seminar for sociology majors. Stress
will be on organization and integration of sociology
studies, bringing together in a meaningful way
sociological facts, understandings, and knowledge.
Students must have 90 units completed at time of
registration.

Prerequisite: SOCL 211 and SOCL 301 or 401. Senior
majors only.
### I. Deviance and Social Control

**SOCL 322**  
**Deviant Behavior**  
3 Semester Hours

A social interactionist approach to the study of deviant behavior; an examination of the process whereby society defines and labels an act as deviant, trends in deviance theory, deviant careers, and the mechanisms involved in confronting the label.

**SOCL 422**  
**Criminal Justice**  
3 Semester Hours

An introduction to the system of criminal justice in contemporary America with a focus on how criminal behavior is processed by the system’s agencies: police, courts, and correctional institutions. Legal concerns such as the rights of the accused and due process will also be discussed in terms of their application in each of these areas.

**SOCL 423**  
**Criminal Law**  
3 Semester Hours

This course examines the criminal law in the U.S. from a sociological perspective, as a set of “social control” processes by which norms are transmitted and enforced. Topics include how the law defines crime and particular forms of crime, drug abuse and alcohol-related crime, and various legal defenses available to the accused.

**SOCL 424**  
**Crime and Delinquency**  
3 Semester Hours

An introduction to the nature and dynamics of criminal and delinquent behavior from a sociological viewpoint. Topics to be covered: the nature of crime and the criminal law, the measurement of crime, major theories—both historical and contemporary, and patterns of criminal and delinquent behavior.

### II. Social Inequality

**SOCL 332**  
**Gender and Society**  
3 Semester Hours

An examination of processes resulting in socio-cultural sex role differences and the cultural consequences relating to opportunity, power, and prestige in society. An attempt to understand the effects of social organization and change on the status of women and men.
III. Urban, Population, and Demographic Processes

SOCL 340 Urban Sociology
3 Semester Hours

An examination of the basic historical processes which have shaped cities, including spatial differentiation. Topics may include the formation of community, metropolitan deconcentration, urban poverty, housing segregation, and third world urbanization.

SOCL 341 Community
3 Semester Hours

This course examines a wide range of American community studies, ranging from the 1920s to the present. Primary attention is directed toward an understanding of the scope of change in community structure and process in industrial society.

SOCL 342 Demography and Population Analysis
3 Semester Hours

An analysis of major international population trends, problems of overpopulation, and population control, with an introduction to the methods and techniques of demographic and ecological analysis.

SOCL 348 Urban Anthropology
3 Semester Hours

A comparative analysis of urban social relationships. Emphasis is directed to the use of ethnographic methodologies in understanding contemporary American urbanism and to the problems associated with pluralistic urban society.

SOCL 349 Research in Urban Society
3 Semester Hours

An examination of the methodologies and strategies employed by social scientists researching urban society. Case studies and research agendas are drawn from modern and postmodern cities, including metropolitan Los Angeles.

IV. Social Structure, Culture, and Process

SOCL 350 American Society and Culture
3 Semester Hours

An examination of the historical and contemporary relationships of the basic institutions of American society. Among the topics considered are: the distribution of economic resources, labor and business political processes, education, religion, community organization, and lifestyles.

SOCL 351 Sociology of Sport
3 Semester Hours

An examination of the social nature of sport in society. Topics may include the interrelation of sport and culture, sport and the socialization process, deviance and violence in sport, sport and race, the status of women in sport, and the political and economic ramifications of sport.

SOCL 352 Political Sociology
3 Semester Hours

An analysis of the relationship between forms of social organization and the exercise of power in society. Among the subjects considered are: types of political regimes, cross-cultural patterns of voting, voluntary associations, social classes, social movements, and revolution.

SOCL 354 Social Organization
3 Semester Hours

The study of large-scale, highly structured groups, such as athletic teams, local school systems, colleges and universities, hospitals, businesses, and governmental agencies.

SOCL 355 Social Psychology
3 Semester Hours

The interrelationships between individual behavior and the larger social order. Language and communication, the self, interaction and interactional strategy, aggression, perception and attribution theory, prejudice and discrimination, and collective behavior.
SOCL 356
Sociology of Law
3 Semester Hours

A survey of the important theoretical and research traditions and recent empirical developments in sociology of law. A variety of law-related topics will be covered, including law and social structure, the economy and culture, law and inequality, law and social control, courts and alternative dispute resolution, and the legal profession.

SOCL 357
Media and Society
3 Semester Hours

An examination of the social role of the media in our lives and our society. Topics include: culture, race, class, and gender, as well as alternative media and the political struggles over social change and the media system.

SOCL 358
Medical Sociology
3 Semester Hours

Development of the field of medical sociology, with emphasis on changing patterns in the health care and delivery systems, doctor-patient relationships and health care.

SOCL 359
Sociology of Popular Culture
3 Semester Hours

The study of the artifacts of everyday life—newspapers, films, sports, music, and such—as important sources of sociological knowledge.

SOCL 454
Religion, Culture, and Society
3 Semester Hours

The study of religion as an expression of culture, its diverse subcultural characteristics as a social institution, and the interrelationships of religion and other social institutions.

V. Family and Life Cycle

SOCL 361
Sociology of Marriage and Families
3 Semester Hours

A study of marriage and family as social institutions, including normative aspects, socialization activities, value orientations, family structures and behavior, and societal influences on families.

SOCL 362
Sociology of Children
3 Semester Hours

A sociological study of the world of children, interactional events in children’s activities, and examination of the cultures of children and of adults.

SOCL 363
Concepts and Issues in Aging
3 Semester Hours

A general introduction to the study of physiological, psychological, and sociological aspects of aging. The focus is on the individual in society throughout the adult phase of the lifespan.

SOCL 367
Sociology of Adolescence
3 Semester Hours

An examination of the adolescent society with particular focus on the high school. Topics to be discussed: peer socializations, cliques and crowd formations, lifestyles, fads and fashions, and changing patterns and relations resulting from globalization.

VI. Globalization

SOCL 370
Social Change
3 Semester Hours

An examination of the social, economic, and political sources of social change.

SOCL 371
Social Ecology
3 Semester Hours

An analysis of the interaction and interrelationship of population, natural resources, and environment as they affect social organization and place limits on life on the earth.

SOCL 372
Sociology of Work and Occupations
3 Semester Hours

Explores the social dynamics of work and occupations in terms of culture, ideology, race, class, and gender. Topics will include the day-to-day experiences of the workplace, the politics of the economic system, and the social changes related to globalization and the international economy.
SOCL 374
Sociology of Africa
3 Semester Hours

A study of the contemporary issues and crises of sub-Saharan Africa, including human conditions, revolutionary movements, neo-colonialism, urbanization, multinational intervention, and geo-political alliances.

SOCL 375
Hawaii and the Pacific Islands
3 Semester Hours

Sociology of everyday life and social processes of the peoples of Hawaii and the Pacific areas of Polynesia, Melanesia, and Micronesia.

SOCL 378
International Tourism
3 Semester Hours

A survey of the social, cultural, economic, and environmental elements of international tourism with special emphasis on the impacts of the expansion of tourism from the developed nation into the less developed realm. Modern trends in tourism, such as ecotourism, are analyzed for their potential costs-benefits and their implications for careers in the tourist industry.

SOCL 379
Sociology of Immigration
3 Semester Hours

An investigation into current and historical immigration trends as they encompass the economy, education, language, identity, politics, and culture. There is a particular focus on globalization and Los Angeles as an immigration center.

VII. Special Areas

SOCL 398
Special Studies
1-3 Semester Hours

SOCL 399
Independent Studies
1-3 Semester Hours

SOCL 498
Special Studies
1-3 Semester Hours

SOCL 499
Independent Studies
1-3 Semester Hours
The Theological Studies program provides students with opportunities to develop critical research and analytical skills, to engage with theological and religious texts, and to articulate the significance of religious values for church, society, and culture. The program values a broad understanding of religious traditions, including Catholicism, as well as the beliefs and practices of the world religions. It also emphasizes the development of a spiritual life, living responsibly within a culturally diverse world, and promotes justice and service.

Objectives:

The Department of Theological Studies makes an essential contribution to the mission of Loyola Marymount University through its teaching of theology and its investigation of the broader area of religious experience. Areas of study include biblical, historical, systematic and moral theology, world religions/comparative theology, and pastoral studies, with special emphasis on the Roman Catholic theological tradition. The mission of the Department includes the education of undergraduate and graduate students at Loyola Marymount, participation in the scholarly community of academic theology through presentations and publications, and service to the church community.

Theological Studies Student Learning Outcomes

By virtue of their Theological Studies courses, students should be able to:

- Conduct critical research and write intelligently and persuasively on theological and religious issues
- Critically interpret theological or religious texts
- Articulate the significance of theological and religious values for church, society, and culture;

By virtue of their Theological Studies courses, students should value:

- The Catholic theological tradition
- The beliefs and practices of the religions of the world
- Ecumenical and interfaith dialogue and cooperation
- The development of a spiritual life
- Living responsibly within a culturally diverse world
- Action in the promotion of justice and service of faith.

Major Requirements:

THST 100, 110. A grade of at least C (2.0) in each of these courses is required.

24 semester hours in upper division courses including:

- **A. Biblical Theology:**
  - One course (301, 302, 304, 305, 310, 311, 314, 316, 415).

- **B. Historical Theology:**
  - One course (320, 321, 322, 323, 324, 328, 420, 425, 427).

- **C. Systematic Theology:**

- **D. Moral Theology:**
  - One course (360, 361, 363, 367, 368, 465, 470).

- **E. World Religions:**
  - One course (381, 382, 383, 384, 385, 480).

- **F. Seminar:**
  - Major Christian Thinkers (495).

Twelve of the 24 upper division semester hours must be at the 400 level.

An average grade of C (2.0) must be obtained in the courses included in the major.
We highly recommend that students wishing to pursue graduate study in Theology have a reading knowledge of two languages, either classical or modern.

We further recommend that additional philosophy courses be taken as early as possible. The specific courses are to be determined in conjunction with the student's Theological Studies advisor.

**Minor Requirements:**

18 semester hours with at least 12 semester hours from upper division courses, including six semester hours at the 400 level. The courses for the minor must be selected in conjunction with the Theological Studies advisor for minors.

**Lay Ministry Minor Requirements:**

18 semester hours with at least 15 semester hours from upper division courses, including six semester hours at the 400 level. The courses for the minor must be selected under the direction of the faculty advisor for the Lay Ministry Minor. The student must select at least one course from each of the following areas:

- a) Biblical Theology
- b) Systematic Theology
- c) Moral Theology
- d) Personal Growth and Spirituality
- e) Pastoral Aspects of Ministry

In addition, the student will be required to participate in 90 hours of active service in related fields of lay ministry. This will be under the direction of the faculty advisor and contracted through the Career Development office.

An average grade of C (2.0) must be obtained in the courses included in the minors.

**Theology Society**

The Theology Society is a co-curricular student group open to all Theological Studies undergraduate majors and minors, as well as non-majors/minors who are interested in theological issues and topics. The group convenes monthly, typically sharing lunch and discussion, often with a guest speaker. The group also organizes various outings as opportunities for students to socialize with one another and with Theological Studies faculty. The Theology Society hosts annual visits from admissions representatives from graduate theological programs around the country for interested students. The Theology Society’s members also participate in an annual paper competition sponsored by the Department of Theological Studies, in which the winning paper is presented to faculty and students each spring.

**Core Curriculum in Theological Studies:**

- One course from THST 100-199;
- One course from THST 300-399 (Prerequisite: Junior standing).

Only courses in the 100 series and 300 series will fulfill the core curriculum requirements. All 400-level courses have a prerequisite of one 300-level course. The 400-level courses fulfill major or minor requirements. Except for those entering LMU as a transfer student, no student may take a 300-level course without successful prior completion of a 100-level course.

For students interested in the study of Catholicism in the core curriculum, the Theological Studies Department offers three courses, THST 120, 326, and 345, which are designed to study the Catholic tradition. For the non-majors who wish a core sequence in Catholic Theology, we recommend THST 120 and either 326 or 345.

**Theological Studies Model Four-Year Plan**

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

THST 328
Age of Reformation
3 Semester Hours
The religious, political, and cultural upheaval of the protestant challenge to medieval Christendom and Catholic response.
Usually taught in Bonn, Germany.

THST 420
Patristics
3 Semester Hours
A study of the development of Christian theology from the Apostolic Fathers through the period of the Cappadocians to the era of Jerome and Augustine.

THST 425
Medieval Theology
3 Semester Hours
Selected topics on medieval theology, such as the development of a specifically Christian culture, the tensions between religion and empire and between popular and institutional forms of religious expression, and monastic and scholastic theological methods.

THST 427
Theology and History of Vatican II
3 Semester Hours
This course explores Roman Catholic theology by reading the major Conciliar documents and analyzing the social and historical context, with emphasis on ecumenism, historical understanding, and the recovery of the biblical tradition.

Systematic Theology

THST 330
What Is Faith in Jesus Christ
3 Semester Hours
An analysis of past and present meanings of Christian faith in its relation to the person of Jesus Christ, the Church, doctrine, and Christian life.

THST 331
Salvation and Liberation
3 Semester Hours
An examination of the theme of liberation in Scripture, church history, and the recent theologies, as well as its impact on our own lives.

THST 341
Liturgy and Culture
3 Semester Hours
A study of Christian worship examining the historical development of worship in its interaction with various cultures from ancient to modern.

THST 345
The Catholic Church of Today and Tomorrow
3 Semester Hours
An examination of the post-Vatican II Catholic Church. How has the Church’s self-understanding changed in recent years, and what projections can be made for the future?

THST 346
The Latino Experience in the U.S. Church
3 Semester Hours
A review of the Latino presence in the Catholic Church with emphasis on the historical experience, Latino popular religion, and current trends and issues in Hispanic ministry and theology.

THST 348
African American Religious Experience
3 Semester Hours
A survey of African American religious experience from the time of slavery to the present, emphasizing the role of faith in African American society and the role of the church in the struggle for equality.

THST 350
Foundations of Christian Spirituality
3 Semester Hours
An analysis of themes central to Christian spirituality including prayer, the nature of religious experience, asceticism, and the schools of spirituality. Essential to the analysis is an articulation of key doctrinal themes.

THST 355
After Eden
3 Semester Hours
An exploration of the human person in relation to God.

THST 359
Theology of Religious Life
3 Semester Hours
For Jesuit Novices only.
THST 360
Moral Issues and Christian Responses
3 Semester Hours
An exploration of the issues involved in a variety of moral problems and a survey of present and past Christian responses to them.

THST 361
Christian Ethics in the Marketplace
3 Semester Hours
An analysis and discussion of business ethics case studies in the light of Christian economic teachings.

THST 363
Christian Marriage and Sexuality
3 Semester Hours
An examination of the varieties of Christian views of marriage and the full range of moral issues concerning human sexuality today.

THST 367
Christian Voices on War and Peace
3 Semester Hours
An examination of Christian attitudes toward war and peace that address U.S. policies during the twentieth century.

THST 368
Bioethics and Christian Morality
3 Semester Hours
A theological and ethical study of bioethical topics, e.g., euthanasia, assisted reproductive technologies, and human cloning, that confront contemporary society.

THST 450
Topics in Christian Spirituality
3 Semester Hours
A survey of key persons and movements in the history of Western Christian spirituality.

THST 451
Ignatian Spirituality
3 Semester Hours
A study of the spirituality of Ignatius of Loyola based on a close reading of his Spiritual Exercises and contemporary writings on Ignatian themes.

THST 455
Theology of Liberation
3 Semester Hours
A study of recent Latin American theology as a Christian response to current political, social, and economic injustice in Latin American countries.

Moral and Practical Theology

THST 374
Marriage and Contemporary Christianity
3 Semester Hours
A study of the nature of marriage and the contemporary understanding of marital life from a Christian point of view. The problem of marriage in today’s world.

THST 375
Service, Justice, and Ministry
3 Semester Hours
This course engages students in active reflection on Christian theology and practice. The course analyzes selected sources from the Christian theological tradition concerning the relationship among three phenomena: service, justice, and ministry. Weekly field placement in off-campus service activity is required for this course.

THST 465
Moral Theology Today
3 Semester Hours
A study of the developments and critical issues within Roman Catholic moral theology since 1940.

Urban Studies

Director:
Peter R. Hoffman

Faculty:
Assistant Professor: Ayanna Yonemura

Objectives:
As an interdisciplinary program, Urban Studies encourages students to examine urbanization and the multitude of issues inherent in urban life from the perspectives of a wide range of disciplines and methodological traditions. The critical analysis of urban issues helps students evaluate the various political, socio-cultural, and economic strategies available to urban planners, local governments, law enforcement agencies, and others seeking to remedy the problems of contemporary cities.

The curriculum of the Urban Studies program, including its internship program, allows students to take advantage of one of LMU's greatest assets: the many linkages that connect LMU to the extraordinarily dynamic, multicultural metropolitan area surrounding the University. Los Angeles is both an educational resource and a laboratory for Urban Studies students.

Career options for Urban Studies majors may be found in local government, law enforcement, real estate development, and urban social services. The major is also appropriate preparation for students seeking careers or graduate education in urban planning, public administration, social welfare, policy analysis, or the law.

Urban Studies Student Learning Outcomes

By virtue of their Urban Studies Program courses, students should know:

• The general history of urbanization and its associated economic and demographic processes
• The structures and expressions of urbanization and urban life associated with modern and postmodern cities
• The structures and expressions of urbanization and urban life associated with cities of the developed realms/core and those associated with cities of the less developed realm/periphery
• The basic research questions and agendas associated with the various disciplines contributing to our understanding of urban issues
• The general expressions of urbanization and urban life associated with contemporary Los Angeles

By virtue of their Urban Studies Program courses, students should be able to:

• Effectively employ contemporary social science methodology in the analysis of urban issues
• Demonstrate written and oral competencies in the analysis of urban issues and policy
• Identify and utilize appropriate primary data, including census materials, for the analysis of urban issues
• Apply their understanding of urban issues to the development and critical analysis of programs and policies appropriate to addressing contemporary social and economic problems
• Successfully pursue graduate education in such areas as urban planning, public administration, policy analysis, social welfare, and the law upon completion of their major;

By virtue of their Urban Studies Program courses, students should value:

• Diverse perspectives in the analysis and assessment of urban issues and policies
• Thoughtful analysis of the implications of urbanization and urban policy in the context of social justice and sound environmental practices
• Rigorous, scientific research that enlightens the experience of urban populations and contributes to the resolution of the social and environmental problems associated with urbanization
• Community-based participation in the development of programs and policies that contribute to the social, economic, political, and environmental improvement of their communities and cities.

Major Requirements:

Lower Division Requirements:

15 semester hours:
URBN 125 and 135;
AFAM 115 or APAM 117 or CHST 116;
SOCL 109 and 210.

A grade of C (2.0) will be required in all lower division major courses. It is recommended that students majoring in Urban Studies complete ECON 100, 110, or 120 in partial fulfillment of the University Core Curriculum requirement in social science.
Upper Division Requirements:

24 semester hours in upper division courses, including:

- URBN 345, 455, and 456;

and 15 semester hours in one or more of the following areas:

1. Law and Justice:
   - POLS 336 The Judiciary
   - POLS 471 U.S. Constitutional Law: Case Method I
   - POLS 472 U.S. Constitutional Law: Case Method II
   - SOCL 322 Deviant Behavior
   - SOCL 356 Sociology of Law
   - SOCL 422 Criminal Justice
   - SOCL 423 Criminal Law
   - SOCL 424 Crime and Delinquency

2. Urban Politics, Public Administration, and Policy Analysis:
   - CHST 337 Racial and Ethnic Politics
   - CHST 437 Chicano Politics
   - ECON 356 Urban Economics
   - POLS 340 Public Administration
   - POLS 341 Race, Class, Culture, and Public Policy
   - POLS 345 Urban Politics
   - POLS 436 Politics of Los Angeles
   - POLS 440 Public Policy Analysis
   - SOCL 354 Social Organization

3. Urban Culture:
   - HIST 367 History of Los Angeles
   - SOCL 340 Urban Sociology
   - SOCL 341 Community
   - SOCL 348 Urban Anthropology
   - SOCL 349 Research in Urban Society
   - URBN 365 Metropolitan Los Angeles

4. Urban-Ethnic Communities:
   - APAM 427 Asian American Psychology
   - CHST 485 Community Research & Internship
   - ECON 371 Economic Development of Minority Communities
   - SOCL 334 Race and Ethnic Relations

5. Urban Planning:
   - ECON 330 Regression Analysis
   - ECON 334 Business Forecasting
   - ECON 532 Econometrics
   - SOCL 342 Demography and Population Analysis
   - SOCL 371 Social Ecology

An average grade of C (2.0) must be obtained in the upper division courses included in the major.

Minor Requirements:

18 semester hours, including URBN 125, 135, 345, 455, and 6 semester hours in upper division courses selected from one or more of the areas of specialization.

An average grade of C (2.0) must be obtained in the courses included in the minor.

Urban Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Women’s Studies

Faculty:
Chairperson: Nancy W. Jabbra (Spring 2005)
Acting Chairperson: Áine O’Healy (Fall 2004)
Professor: Nancy W. Jabbra

Objectives:
The mission of Women’s Studies at Loyola Marymount University is to engage students in a critical understanding of the complex ways gender shapes the world around them, particularly in relation to race, sexuality, class, and other social factors. Women’s Studies welcomes all students to participate in a vibrant interdisciplinary program of study that places women at the center of traditional disciplines in which they have been historically marginalized. It encourages the critical examination of academic fields such as the humanities, social sciences, natural sciences, and the arts, together with the gendered assumptions that underwrite them. Further, Women’s Studies proposes not only that we ask different questions of academic disciplines from the perspective of women, but also that we transform those fields and ways of knowing through the innovative theoretical tools and new methodologies that have been developed by feminist scholars and activists over the past thirty years. As a department committed to transformation through education, the mission of Women’s Studies is to call attention to the androcentric nature of society, propose alternatives and strategies that honor women’s human rights, and promote a vision of society where gender hierarchy, as well as other forms of social injustice, are eliminated. Grounded in feminist pedagogy, Women’s Studies courses provide students with a broad understanding of the asymmetry of gender relations within diverse historical and cultural contexts. Our mission is to foster a vigorous intellectual environment where students can develop their analytical thinking skills and conceptual tools for social change.

Women’s Studies Student Learning Outcomes
After completing their program in Women’s Studies, students will have:

• Acquired a critical understanding of the complex ways gender shapes the world, particularly in relation to race, sexuality, class, and other social factors
• Acquired a strong commitment to social justice for women of all ethnicities
• Learned new methodologies and theoretical tools
• Learned to express themselves well both orally and in writing.

Major Requirements:
Lower Division Requirements: 12 semester hours

WNST 100, 101, and 200, plus one of the following for the Lower Division Health and Sexualities Requirement: WNST 220, 221, or 222.

Upper Division Requirements: 12 semester hours

WNST 301, 302, 351, and 497.

Upper Division Electives: 12 semester hours

Choose 9 semester hours (3 classes) from one of the following cluster, plus 3 semester hours (1 class) from one of the others. Please note that some classes are listed in more than one cluster. Students may take such classes for credit in only one cluster. At times a special studies class may be taken in lieu of one of the electives listed below. Please consult the Department for advice.

Note: One of the upper division electives must include WNST 303 or another History of Women class.

Transnationalism and Women in the Third World: WNST 346, 347, 431, 434, 435, 452, or 454.

Gender at the Intersection of Race, Ethnicity, Class, and Sexuality: WNST 341, 342, 344, 345, 349, 358, 440, 445, or 453.

Social Movements, Social Justice, and Public Policy: WNST 347, 451, 454, or 490.

Feminist Theology and Philosophy: WNST 361, 370, or 371.

Total: 36 semester hours. Women’s Studies majors should have a minimum of a C (2.0) in all Women’s Studies classes.

Please note that cross-listed courses may have departmental prerequisites; consult departments for details.
Minor Requirements:

18 semester hours, including WNST 100, 301, and 497. At least 12 semester hours must be in upper division courses. A minimum grade of C (2.0) must be earned in both WNST 100 and 497. An average grade of C (2.0) must be earned in the Women's Studies minor courses.

Please note that cross-listed courses may have departmental prerequisites; consult departments for details.

Women's Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. **WNST 301**  
Feminist Theories  
3 Semester Hours

Focuses on the historical roots of feminist political thought in relation to other social movements. Examines the intellectual traditions within feminist theory today such as postmodernism, psychoanalysis, postcolonial theory, queer theory, and the intersectional analyses produced by women of color.

**WNST 302**  
Feminist Research Methods  
3 Semester Hours

Examines feminist methodologies through hands-on research and considers the complex relationships between researchers and their subjects, the impact of social location on our field of vision, ethical issues in the research process, as well as research that facilitates social and gender justice.

**WNST 303**  
History of Feminisms  
3 Semester Hours

This course traces the development of feminist theories as structures of ideas and relates them to the historical contexts and feminist movements in which they developed.

Women in the Middle East  
3 Semester Hours

This course explores the themes and variations in women's lives in the Middle East. Particular attention will be paid to family structures, rural-urban, social class and ethnic differences, social and political movements, religion, work, and education.

**WNST 347**  
Women’s Movements in Latin America and the Caribbean  
3 Semester Hours

Examines feminism's and women's participation in indigenous, environmental, and labor movements, Christian-based communities, peasant struggles, and new social movements concerned with race, sexuality, feminism, and human rights.

**WNST 349**  
Ethnicity, Race, and Gender  
3 Semester Hours

This course is an exploration of the ways in which gender, race, ethnicity, and class intersect to shape individuals' life chances and experiences in the contemporary United States. The following areas will be emphasized: income and occupation, the justice system, social reputation and credibility, religion, education, and health. Treatment of these topics will be analytical and comparative, focusing on the experiences of African Americans, Latinas/os, and European-Americans. Satisfies American Cultures core requirement.

Prerequisites: SOCL 100, 105; WNST 100 or 101.

**WNST 350**  
Psychology of Marriage

</table>

Within a cross-cultural and cross-societal framework, gender roles are examined in relation to a central question: Why does patriarchy exist? Case studies from the Americas, Europe, Africa, Asia, and Oceania are examined in light of theories addressing the course’s central question. Work, kinship, values, religion, and politics are among the topics examined.

Examines how gender is shaped by globalization through the feminization of labor and migration, environmental degradation, diaspora, sexuality, cultural displacement, and militarization. Explores the ways women have confronted these conditions as well as the possibilities and challenges of cross-border feminist coalitions.
WNST 490
Service Learning in Women’s Studies
3 Semester Hours

Service learning in Women's Studies combines practical experience and feminist theory through the theme of women's empowerment. Students work in selected placements while reading through a sequenced bibliography. They discuss their experiences and readings in seminars and papers.

WNST 497
Senior Seminar in Women’s Studies
3 Semester Hours

Designed as a last course for students obtaining the Women's Studies minor. Stress is on the organization and integration of knowledge gained regarding women in society. Offered only during the Spring semester.

WNST 498

College of Business Administration

Administration

Dean: John T. Wholihan
Associate Dean: George L. Hess (Undergraduate)
Associate Dean: Rachelle Katz (Graduate)
Assistant Dean: William Lindsey (Center for Executive Learning)
Directors: John Daly, S.J. (Center for Asian Business); Alan K. Hogenauer (Program in Travel and Tourism); Thomas White (Center for Ethics and Business)

Organization

The College has four Departments, four Centers, and one Program, each led by a Chairperson or Director. The Areas of Concentration within these units are designated by four letter codes.

- Department of Accounting (ACCT)
- Department of Finance and Computer Information Systems (FNCE), (ISQM)
- Department of Management (MGMT), (INBA)
- Department of Marketing and Business Law (MRKT), (BLAW)
- Center for Asian Business
- Center for Entrepreneurship (courses are offered through the Departments)
- Center for Ethics and Business (courses and activities are offered through the Departments)
- Center for Executive Learning
- Program in Travel and Tourism (TOUR)

The College offers the Master of Business Administration in different formats. The traditional MBA (MBAA) addresses the educational demands of persons who recognize the need to continue to build their careers. The Executive MBA (EMBA) is for the experienced business leader who aspires to executive-level responsibility.

Baccalaureate Degree Program

The College offers two Baccalaureate Degrees: Bachelor of Business Administration (B.B.A.) and the Bachelor of Science in Accounting (B.S.A.).

The Vision and Mission of the College of Business Administration

The vision of the College is to be recognized as the leading College of Business Administration within a Catholic university in the Western United States through our commitment to learning, values, and research. The underlying theme is the development of ethical leaders for a diverse, technologically-driven, global economy. These statements confirm our commitment to the principles of continuous improvement.

The mission of the College is to continuously develop an environment in which all stakeholders learn and grow together and contribute to an understanding of:

- The global economy,
- The business theories and practices which explain its operations,
- The decision models and analytical frameworks for meeting ethical challenges,
- The importance and interdependence of people in the work environment,
- The technologies that stimulate change, and
- The skills and management tools needed to manage an enterprise successfully.

The primary focus is on excellence in instruction and learning.

The mission of the undergraduate programs is to:

- Help students of high potential experience personal growth in the acquisition of knowledge in a broad range of subjects based on the University core curriculum and an integrated business curriculum;
- Help students develop technical, analytical, and interpersonal skills and personal qualities and values to realize their potential as future leaders in a global economy; and
- Graduate students who are able to demonstrate a depth of understanding in their primary field of interest.
University Core Curriculum for the Baccalaureate Degree in the College of Business Administration

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course (100s or 200s) listed. Third- and fourth-year students choose from any upper division course (300s or 400s) listed. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement, which is also cross-listed as AMCS (please see the Associate Dean's Office for details).

College Writing
3 Semester Hours

Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication
3 Semester Hours

Course Selection
Choose from CMST 100, 110, 130, or 140.

Critical and Creative Arts
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts:
Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FILM 210, 314, 315; INDA 100; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Creative Arts:
Choose from ANIM 120, 220; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); FILM 260; MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

History
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization:
Choose from HIST 100 or 101.

Contemporary Societies:
Choose from HIST 152, 162, 172, 182, 192.

Literature
3 Semester Hours

Course Selection
Prerequisite: Successful completion of college writing requirement.

Choose from CLAS 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Mathematics, Science and Technology
6 Semester Hours

Course Selection
Prerequisite: Success on the Mathematics Placement Examination or successful completion of MATH 101.

Students must complete MATH 112. MATH 101 and 111 are normally required as prerequisites but may be waived if the student has a high enough score on the Mathematics Placement Examination. All incoming College of Business Administration students must take the Mathematics Placement Examination unless they have already completed MATH 112 or its equivalent. If MATH 111 is waived, the student must complete a 3 semester hour non-business course for MATH 111.

Students must complete one 3 semester hour science and technology course. Courses ordinarily recommended to students majoring outside the College of Science and Engineering are those numbered 260-279 in each department within the College. Courses in this series are specifically designed for the non-major.

Choose from BIOL 260, 261, 262, 263, 264, 265, 271, 272, 275, 276; CHEM 260, 261, 262, 263, 264; ELEC 260, 265; MECH 260, 270, 275; NTLS 260, 270; PHYS 271, 272. Other Physical Science courses from the College of Science and Engineering may be used to satisfy this requirement with the approval of the Associate Dean's office of the College of Business Administration.
All College of Business Administration students should be alert to the following policies:

Students on academic probation can enroll in a maximum of 15.0 semester hours and will need to have their Advisor Hold removed prior to registration by their academic advisors.

Certain courses must be taken in residence at LMU.

Upper division business courses may only be transferred from AACSB accredited institutions.

Transfer course approvals must be obtained from the Associate Dean's office prior to enrollment.

Three (3) semester hours of credit for approved internships may be counted as part of an Area of Concentration. Credits for approved internships beyond three hours will be counted as free electives.

A minimum of 50% of the business-related coursework must be completed at LMU.

Recommendations:

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

**Computer Skills**

Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

**Foreign Language**

Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

**International/Global Studies**

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses that include the study of European cultures such as: ARHS 200, 201, 202; CLAS 200, 210, 220; DANC 281; FILM 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; HIST 172, 182; MUSC 303, 365; THEA 348; THST 180, 361, 382, 383, 384, 385.
The B.B.A. degree program requires a minimum of 120 semester hours, and the B.S.A. degree program requires a minimum of 126 hours, including the prescribed business administration core courses and those listed above. A minimum of 45 semester hours must be from upper division course offerings.

Students should consult the Dean’s office for specific policies applicable to the College of Business Administration.

All courses are 3 semester hours unless otherwise stated.

**Business Administration**

**Curriculum**

The courses within the two degree programs (Bachelor of Business Administration and Bachelor of Science in Accounting) are categorized in six groups:

<table>
<thead>
<tr>
<th></th>
<th>B.B.A.</th>
<th>B.S.A.</th>
</tr>
</thead>
<tbody>
<tr>
<td>A.</td>
<td>45</td>
<td>45</td>
</tr>
<tr>
<td>B.</td>
<td>45</td>
<td>45</td>
</tr>
<tr>
<td>C.</td>
<td>6</td>
<td>6</td>
</tr>
<tr>
<td>D.</td>
<td>9</td>
<td>24</td>
</tr>
<tr>
<td>E.</td>
<td>6</td>

</tr>
<tr>
<td>F.</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>120</strong></td>
<td><strong>126</strong></td>
</tr>
</tbody>
</table>

The specific courses in the two curricula are as follows:

A. **University Core Curriculum**

B. **Business/Economics Core Requirements:**

- ACCT 211 Financial Accounting
- ACCT 212 Managerial Accounting
- BLAW 205 Legal Environment of Business
- ECON 110 Introductory Microeconomics
- ECON 120 Introductory Macroeconomics
- ECON 230 Introductory Statistics
- FNCE 325 Financial Planning and Control
- INBA 340 International Business
- ISQM 275 Computers in Business
- ISQM 370 Management Information Systems
- ISQM 377 Production Operations Analysis
- MGMT 355 Principles of Management and Organizational Behavior
- MRKT 365 Principles of Marketing
- MGMT 405 Business as an Institution in Society
- MGMT 409 Management Policy

B.B.A. majors are required to take MGMT 335, Human Resources Management.

Accounting majors are required to take BLAW 301, Business Law Applications and Cases.

C. **Math/Science Requirement**

D. **Student Academic Plan:** Students will develop an Academic Plan to identify the degree sought and the majors, minors, and areas of emphasis or concentration in their degree track program of study. Students working toward the Bachelor of Business Administration (BBA) degree will select one or two of the following Areas of Emphasis:

- Business Law
- Finance
- Computer Information Systems
- International Business
- Management
- Marketing
- Travel and Tourism

For each Area of Emphasis, the student will select three Advanced Business Electives. Students will also select minors and/or other majors as well as elective courses which may be taken as part of their Academic Plan. This Plan will be developed and implemented in consultation with the student’s Academic Advisor and the Office of the Associate Dean.

Students pursuing the Bachelor of Science in Accounting (BSA) degree will develop an Academic Plan to include the required 24 hours in Accounting beyond the lower division ACCT 211 and 212 courses. Their Plan will also include minors and additional majors to be undertaken. Accounting majors are encouraged to include 150 semester hours of study in their Academic Plan, which are now required to practice accounting in most states outside of California.
### Management

- **Finance**
  - FNCE 381 Internship (1 semester hour)
  - FNCE 412 Tax Law and Planning
  - FNCE 426 Investments
  - FNCE 427 Financial Policy
  - FNCE 428 Real Estate Finance and Investments
  - FNCE 429 Capital Markets
  - FNCE 430 Mergers and Acquisitions
  - FNCE 442 Multinationals and the Third World
  - FNCE 443 International Investments
  - FNCE 448 International Finance
  - FNCE 491 International Finance Elective

### Computer Information Systems and Operations Management

- ISQM 381 Internship (1 semester hour)
- ISQM 471 Database Management Systems
- ISQM 472 Object Oriented Systems Analysis and Design
- ISQM 473 Data Communications and Networks
- ISQM 474 Management Support Systems
- ISQM 476 PC-Based Decision Support Modeling
- ISQM 477 Total Quality Management
- ISQM 478 Electronic Business

### International Business

- INBA 340 International Business
- INBA 381 Internship (1 semester hour)

Additionally, the following International Business courses are cross-listed with their respective departments:

- INBA 440 International Management (MGMT)
- INBA 441 International Entrepreneurship (MGMT)
- INBA 442 Multinationals and the Third World (FNCE)
- INBA 443 International Investing (FNCE)
- INBA 445 International Marketing (MRKT)
- INBA 447 International Business Law (BLAW)
- INBA 448 International Finance (FNCE)
- INBA 451 Business Practices in a Global Context (MGMT and MRKT)
- INBA 464 International Supply Chain Management (MRKT)
- INBA 481 Strategic Management Seminar in Travel and Tourism
- INBA 491 International Elective
- INBA 496 Travel and Tourism Information Technology (1 semester hour)

### Marketing

- MRKT 381 Internship (1 semester hour)
- MRKT 445 International Marketing
- MRKT 461 E-Commerce Marketing
- MRKT 462 Perspectives on Consumption
- MRKT 463 Entertainment Marketing
- MRKT 464 International Supply Chain Management
- MRKT 465 Marketing Promotional Strategy
- MRKT 466 Sports Marketing
- MRKT 467 Marketing Research
- MRKT 469 Consumer Behavior
- MRKT 471 Retail Management
- MRKT 472 Sales Management
- MRKT 473 Marketing Law
- MRKT 474 Competitive Strategy
- MRKT 475 Marketing Planning
- MRKT 476 Entrepreneurial and Small Business Marketing
- MRKT 477 Brand Management
- MRKT 491 International Marketing Elective

### Travel and Tourism

- TOUR 280 Introduction to Travel and Tourism (2 semester hours)
- TOUR 282 Global Tourism Destinations (2 semester hours)
- TOUR 381 Internship (1 semester hour)
- TOUR 382 Marketing and Selling Travel and Tourism
- TOUR 383 Legal Foundations of Travel and Tourism
- TOUR 384 Financial Management in Travel and Tourism
TOUR 481 Strategic Management Seminar in Travel and Tourism
TOUR 482 Air Transportation in Travel and Tourism (1 semester hour)
TOUR 483 The Cruise Industry (1 semester hour)
TOUR 484 Eco-tourism (1 semester hour)
TOUR 485 Field Experience/Familiarization Trips (1 semester hour)
TOUR 486 Gaming Industry Management (1 semester hour)
TOUR 487 Hospitality Management (1 semester hour)
TOUR 488 Human Resources in Travel and Tourism (1 semester hour)
TOUR 4891 International Travel and Tourism Elective
TOUR 492 Meeting and Convention Management (1 semester hour)
TOUR 493 Road and Rail Transportation in Travel and Tourism (1 semester hour)
TOUR 494 Services Enterprise Management (1 semester hour)
TOUR 495 Tourism and Travel Packaging and Management (1 semester hour)
TOUR 496 Travel and Tourism Information Technology (1 semester hour)
TOUR 498 Special Topics
TOUR 499 Independent Study

F. Free Electives: Students in the B.B.A. program have 9 semester hours of electives that may be taken from any College within the University, including Business Administration.

Special Note:

The purpose of the above listing is simply to indicate the overall structure of the two programs in business. The order in which the courses must be taken is governed in all cases by the contribution of each course to the overall system. The suggested sequence of courses is shown in the following curriculum sections.

Transfer Credit

Lower division courses in business and economics that may be accepted include the equivalents of the following Loyola Marymount courses:

- ACCT 211 Financial Accounting
- ACCT 212 Managerial Accounting
- BLAW 205 Legal Environment of Business
- ECON 110 Introductory Microeconomics
- ECON 120 Introductory Macroeconomics
- ECON 230 Introductory Statistics
- ISQM 275 Computers in Business

The following policies apply to all work transferred to the College of Business Administration at Loyola Marymount, whether from a two-year or a four-year school. The College can accept only those business and economics courses which are reasonably equivalent and at the same level of instruction as courses offered by Loyola Marymount. Thus, a course that Loyola Marymount offers at the junior level (courses numbered 300 and above) but that is taken by a transfer student at the sophomore level at a previous school cannot be accepted for credit. Such courses can be recognized only if the student takes the appropriate examinations after admission to the College (see Credit by Examination). Further, all transfer courses must be taken for a letter grade, and the student must receive a grade of C (2.0) or higher in order to obtain transfer credit.

Upper division business courses may only be transferred from a four-year, AACSB-accredited institution.

A student must have completed a course in Calculus or the equivalent of MATH 112 (Math Analysis for Business II) with a grade of C (2.0) or higher in order to transfer into the College of Business Administration.
Bachelor of Business Administration Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.B.A. degree.

Freshman Year

**Fall Semester**
- ECON 110 Introductory Microeconomics
- ENGL 110 College Writing
- HIST 100 Western Traditions 100 or 101
- MATH 111 Math Analysis for Business I
- THST 1XX Lower Division THST

**Spring Semester**
- ECON 120 Introductory Macroeconomics
- ENGL ___ Literature (See Core Curriculum)
- HIST ___ HIST 152, 162, 172, 182, or 192
- MATH 112 Math Analysis for Business II
- PHIL 160 Philosophy of Human Nature

Sophomore Year

**Fall Semester**
- ACCT 211 Financial Accounting
- BLAW 205 Legal Environment of Business
- ECON 230 Introductory Statistics
- PSYC 100 General Psychology
- SCTC ___ Science (See Core Curriculum)

**Spring Semester**
- ACCT 212 Managerial Accounting
- CMST ___ Communications (See Core Curriculum)
- ISQM 275 Computers in Business
- Elective ___ Critical Arts (See Core Curriculum)
- Elective ___ Creative Arts (See Core Curriculum)

Junior Year

**Fall Semester**
- FNCE 325 Financial Planning and Control
- INBA 340 Intro to International Business
- MGMT355 Principles of Management and Organizational Behavior
- MRKT 365 Principles of Marketing
- THST 3XX Upper Division Theology

**Spring Semester**
- AMCS ___ American Cultures (3 s.h.)
- ISQM 370 Management Info Systems
- ISQM 377 Production Operations Systems
- MGMT335 Human Resources Management
- PHIL 320-330 Ethics-related Course

Senior Year

**Fall Semester**
- MGMT405 Business as an Institution in Society
- Elective ___ Applied Concentration Course (Advanced Business Elective)
- Elective ___ Non-Business Elective (3 semester hours)
- Elective ___ Free Elective (3 semester hours)

**Spring Semester**
- MGMT409 Management Policy
- Elective ___ Applied Concentration Course (Advanced Business Elective)
- Elective ___ Non-Business Elective (3 semester hours)
- Elective ___ Free Elective (3 semester hours)

Business Administration Minor Requirements

The minor in Business Administration is open to non-Business majors only. (Business Administration majors must take all courses required for the minor in order to complete the Business major.) Courses required for the Business minor include ACCT 211, ECON 110 (or 100), MRKT 365, and MGMT 355. Two additional courses must be taken at the upper division level (300s-400s). Upper division courses may only be transferred from AACSB-accredited institutions. A minimum cumulative GPA of C (2.0) must be earned in the minor area.
Hispanic Business Studies Minor

In recognition of the growing number of Spanish-speaking people in the United States and the world, as well as the potential business opportunities they represent, the College of Business Administration has implemented a minor in Hispanic Business Studies. This minor requires that three of the courses be in Spanish language and three in Hispanic culture. The courses in this minor are selected in consultation with the Associate Dean of Business Administration. This minor is available to Business Administration and Accounting majors only. A minimum cumulative GPA of C (2.0) must be earned in the minor area.

Travel and Tourism Management Minor

Selected courses in the Program in Travel and Tourism are available as a minor for non-business students only.

The Travel and Tourism Management minor includes one of the following two courses: ECON 100 or 110; each of the following four courses described previously: TOUR 280, 282, 382, and 383; three of the fourteen elective courses listed previously; and at least 2 internships (TOUR 381).

Bachelor of Science in Accounting Curriculum

The first two years of the program are identical to the Bachelor of Business Administration Curriculum. All 300- and 400-level accounting courses must be taken in residence at Loyola Marymount University.

Junior Year

Fall Semester
ACCT 311 Intermediate Accounting I
FNCE 325 Financial Planning and Control
ISQM 377 Production Operations Systems
MRKT 365 Principles of Marketing
THST 3XX Upper Division Theology

Spring Semester
ACCT 312 Intermediate Accounting II
ACCT 313 Cost Accounting
AMCS ___ American Cultures (3 s.h.)
MGMT355 Principles of Management and Organizational Behavior
PHIL 320-330 Ethics-related Course

Senior Year

Fall Semester
ACCT 314 Accounting Info. Systems
ACCT 411 Advanced Accounting
ACCT 416 Auditing, Assurance, and Attestation
INBA 340 Intro to International Business
MGMT405 Business as an Institution in Society

Spring Semester
ACCT 412 Income Tax Accounting
BLAW 301 Business Law Applications and Cases
MGMT409 Management Policy
Elective ___ Non-Business Elective (3 semester hours)
Elective ___ Non-Business Elective (3 semester hours)

Accounting Minor Requirements

ACCT 211, 212, and at least three of the following courses: ACCT 311, 312, 313, and 412. All upper division Accounting courses must be taken in residence. A minimum cumulative GPA of C (2.0) must be earned in the minor area.
Accounting

Faculty:
Chairperson: J. Ross Bengel
Professors: J. Ross Bengel, Alan Cherry, Frank Daroca, George Dasaro, Alan Falcon, Mahmoud Nourayi
Associate Professors: Sean Chen, Patricia Douglas
Assistant Professor: Sudha Krishnan

Objectives:
The Bachelor of Science in Accounting degree program is designed to prepare students for a career in public, corporate, or governmental accounting. Students will learn the basic definitions, concepts, and techniques of accounting, as well as the role accounting plays in society.

Major Requirements:
Lower Division Requirements:
- ACCT 211, 212; BLAW 205; ECON 110, 120, 230; ISQM 275; MATH 111, 112.

Upper Division Requirements:
- ACCT 311, 312, 313, 314, 411, 412, 416; BLAW 301; FNCE 325; INBA 340; ISQM 377; MGMT 355, 405, 409; MRKT 365. All upper division accounting courses must be taken in residence at LMU. A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

For purposes of meeting the requirements for the B.S.A. degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in the following Accounting major courses: 311, 312, 313, 314, 411, 412, and 416.

ACCT 211
Financial Accounting
3 Semester Hours
An introduction to the basic concepts and techniques of financial accounting, including the accounting cycle and financial statement preparation. Uses and limitations of the balance sheet, income statement, and statement of cash flows will also be studied.

ACCT 212
Managerial Accounting
3 Semester Hours
Continuing the study of financial accounting begun in ACCT 211, followed by an introduction to managerial accounting, including cost analysis and budgeting. In addition, operational and financial information for planning, control, and decision-making will be studied.

Prerequisite: ACCT 211.

ACCT 311
Intermediate Accounting I
4 Semester Hours
This course begins the in-depth study of financial accounting. Topics covered include the conceptual framework, financial statement preparation, and accounting for various assets. Additional topics include accounting standards and procedures applicable to cash, notes and accounts receivables, inventories, and current liabilities and contingencies.

Prerequisites: ACCT 212 and ISQM 275.

ACCT 312
Intermediate Accounting II
4 Semester Hours
The conceptual and procedural aspects of some of the more complex topics of financial accounting are studied. Topics include long-term debt, leases, pensions, error correction, and the statement of cash flows.

Prerequisite: ACCT 311 with a minimum grade of C- (1.7).

ACCT 313
Cost Accounting
4 Semester Hours
Continuing the study of the managerial uses of cost data begun in ACCT 212. The procedural aspects will be considered as they relate to ACCT 212 concepts. Allocation approaches will be discussed. The conceptual aspect will be enhanced to include resource management and performance evaluation.

Prerequisites: ACCT 212 and ISQM 275.
ACCT 314  
Accounting Information Systems  
3 Semester Hours

This course stresses the role of accountants in the analysis, design, development, implementation, maintenance, and control of information systems. The course also stresses the critical role that information systems play in the day-to-day work of accountants.

Prerequisites: ACCT 212 and ISQM 275.

Accounting majors only, except by permission of instructor.

ACCT 411  
Financial Accounting  
4 Semester Hours

This course completes the undergraduate study of financial accounting. Much of the course is devoted to consolidated financial statements. Other topics studied include partnerships, not-for-profit accounting, foreign currency transactions, translation of financial statements of foreign subsidiaries, and hedging risk.

Prerequisites: ACCT 312, 314 (or ISQM 370).

Accounting majors only, except by permission of instructor.

ACCT 412  
Federal Income Taxation  
4 Semester Hours

A comprehensive study of federal tax laws and administration with emphasis on the taxation of individuals. In addition, application of the components of the federal income tax formulas for partnerships, corporations, and other business entities will be examined.

Prerequisite: ACCT 311.

ACCT 416  
Auditing, Assurance, and Attestation  
4 Semester Hours

The study of procedures used by public accountants and internal auditors for the verification of financial records. Ethical, legal, and other aspects of the auditor’s work are included.

Prerequisites: ACCT 312, 313, 314 (or ISQM 370); ECON 230.

Accounting majors only, except by permission of instructor.
Finance, Computer Information Systems and Operations Management

Faculty:

Chairperson: Richard J. Perle
Associate Professors: Dolphy Abraham, Allen Gray, Charles J. Higgins, Chun I. Lee, Linda A. Leon, Kala Chand Seal
Assistant Professors: Robbie Nakatsu, Ying Sai

Objectives:

The Bachelor of Business Administration degree with an emphasis on finance prepares students for careers in the private and public sectors. Students develop skills in the application of concepts and techniques essential to financial planning, investments, and corporate planning.

The computer information systems and operations management emphasis involves the application of computers to meet the information needs of organizations. It prepares students to use modern information technology to solve business problems at the operational, technical, and strategic levels.

Finance

FNCE 325
Financial Planning and Control
3 Semester Hours

Topics include structure and financial problems of business enterprises; methods and instruments available for promoting, financing, recapitalizing, and reorganizing business enterprises; and social control of security issues and exchanges. In addition, time value of money, risk and return trade-offs, security valuation, and working capital management will be studied.

Prerequisites: ACCT 212; ECON 110, 120, 230; MATH 112.

FNCE 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student's major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

FNCE 412
Income Tax Accounting
3 Semester Hours

A practical guide for the professional manager and the entrepreneur to help them understand federal tax laws with emphasis on tax considerations in entrepreneurial and strategic planning.

FNCE 426
Investments
3 Semester Hours

Topics to be discussed include sources of, and demand for, investment capital; determination of investment policy and current procedures for the analysis of securities will be covered. Financial instruments examined include futures contracts, options, and convertibles.

Prerequisite: FNCE 325.

FNCE 427
Financial Policy
3 Semester Hours

Use of cases to analyze problems and policies of business as well as investment issues related to discounted cash flow, securities valuation, cost of capital, capital budgeting, and mergers and acquisitions will be examined. Focus also includes capital structure policy, dividend policy, and working capital management.

Prerequisite: FNCE 325.

FNCE 428
Real Estate Finance and Investments
3 Semester Hours

Financial modeling and analysis of real estate investment opportunities to include financing strategy, risk analysis, taxation, market area supply and demand analysis by property type, as well as evaluating alternative financing instruments in both primary and secondary markets.

Prerequisite: FNCE 325.

FINANCE, COMPUTER INFORMATION SYSTEMS AND OPERATIONS MANAGEMENT / 255
Computer Information Systems and Operations Management

**ISQM 275**
**Computers in Business**
3 Semester Hours

An introduction to computers and related technologies, including basic computer concepts and terminology and hands-on experience in use of spreadsheets, programming language, and database applications. In addition, an introduction to the role of IS in business organizations will be discussed.

Prerequisite: MATH 101, 111, or 112, or consent of instructor.

**ISQM 370**
**Management Information Systems**
3 Semester Hours

This course stresses the role of managers in the analysis, design, development, implementation, maintenance, and control of information systems as shared corporate resources. This course also stresses the critical role of IS in business organizations.

Accounting majors should substitute ACCT 314.

Prerequisite: ISQM 275.

**ISQM 377**
**Production Operations Analysis**
3 Semester Hours

This course will introduce students to decision making; forecasting, capacity, layout, aggregate, and material planning; inventory; scheduling; simulation and quality assurance; with computer applications.

Prerequisites: ECON 110, 230; ISQM 275; MATH 112.

**ISQM 381**
**Internship**
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student’s major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

**ISQM 471**
**Database Management Systems**
3 Semester Hours

This course provides an introduction to the concepts of database systems. Topics to be covered include technical and managerial issues involved in the analysis and design of databases. The ER model and logical data models such as the relational, network, and hierarchical are discussed. Concepts of object-oriented and distributed databases are also discussed.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

**ISQM 472**
**Object Oriented Systems Analysis and Design**
3 Semester Hours

A rigorous approach to information analysis essential to information systems design. Emphasizes the formalization of the information systems design process and explores relevant state-of-the-art techniques.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

**ISQM 473**
**Data Communications and Networks**
3 Semester Hours

An introduction to the use of data communications and other automation systems in the business environment, including the study of local and wide area networks, voice and electronic mail, video conferencing, and other automation tools in support of management.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

**ISQM 474**
**Management Support Systems**
3 Semester Hours

Examines the concepts and techniques associated with decision support systems, executive information systems, and expert systems. The course focuses on the specification, design, and implementation of DSS, EIS, and ES in organizations for solving real-world business problems.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.
ISQM 476  
**PC-Based Decision Support Modeling**  
3 Semester Hours  

Explores the potential of personal computer spreadsheet models as a medium for providing strategic information to managers. Emphasizes how database modeling, risk analysis, LP, and forecasting can be performed and integrated in the spreadsheet environment.

Prerequisite: ISQM 377 or consent of instructor.

---

ISQM 477  
**Total Quality Management**  
3 Semester Hours  

Reviews the contributions of notable professionals in the TQM movement: Deming, Juran, Crosby and Taguchi. Tools for planning and improving quality are examined and demonstrated. Finally, TQM procedures such as SPC and D of E are studied. Software packages are employed. Relevant statistical methods will be reviewed.

Prerequisite: ISQM 377 or consent of instructor.

---

ISQM 478  
**Electronic Business**  
3 Semester Hours  

A focused study of how to plan, analyze, design, develop, and implement information systems to support business activity via electronic mediums such as the Internet. Also includes an assessment of current business and technology factors that impact such business activity.

Prerequisite: ACCT 314 or ISQM 370.

---

ISQM 498  
**Special Studies**  
1-3 Semester Hours

---

ISQM 499  
**Independent Studies**  
1-3 Semester Hours
Management

Faculty:

Chairperson: Edmund Gray
Professors: Jeffrey Gale, Edmund Gray, George Hess,
Fred Kiesner, David Mathison, Yongsun Paik,
Peter Ring, H. Daniel Stage, Charles Vance,
John Wholihan, Anatoly Zhuplev
Associate Professors: Ellen Ensher, Cathleen McGrath
Assistant Professors: Dong Chen, David Choi

Objectives:

Management is planning, organizing, leading, and controlling the functions necessary to successfully run an organization. In studying management, the student will focus on the practical skills, ethical issues, and management theory necessary to succeed in our diverse global economy. The Department offers, essentially, two types of courses: general knowledge courses and specialized courses. General knowledge courses are required of all business majors. The specialized courses, conversely, are elected by majors and minors who wish to gain specialized training in specific areas of management.

MGMT 101
Your Future in Business
1 Semester Hour

Examines the major business disciplines and exciting career opportunities in today's organizations—large and small, profit and non-profit, domestic and global. This course also provides a valuable introduction to important skills and campus resources that contribute to success, both now and in the future.

Open to all majors.

MGMT 335
Human Resource Management
3 Semester Hours

Examines critical issues and concepts for managing human resources in organizations, including planning, staffing, training, performance evaluation, compensation, discipline, labor relations, and employment law. Special attention is paid to career development.

MGMT 355
Principles of Management and Organizational Behavior
3 Semester Hours

Provides a foundation of important concepts and principles for managing organizations effectively by understanding how groups and individuals function within organizations. The critical functions of planning, organizing, directing, and controlling and basic concepts of organizational behavior will also be examined.

MGMT 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help students achieve a worthwhile learning experience relevant to their major program of study or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

MGMT 405
Business as an Institution in Society
3 Semester Hours

A practical course that focuses on the social, economic, and political implications of modern business in society. Social responsibilities and managerial ethics faced by practicing managers are stressed.

Must be taken in residence at LMU.

MGMT 409
Management Policy
3 Semester Hours

An integrating course dealing with the problems of general management, using cases, simulations, and field study for analysis and decision-making practice. Issues related to business and corporate-level strategies will be stressed.

Must be taken in residence at LMU with senior standing. Business Administration and Accounting majors only.

Prerequisites: FNCE 325, ISQM 377, MGMT 355, MRKT 365.

MGMT 412
Tax Law and Planning
3 Semester Hours

A practical guide for the professional manager and the entrepreneur to help them understand federal tax laws with emphasis on tax considerations in entrepreneurial and strategic planning.

Taught on site as part of the Study Abroad Programs.</td>
</tr>
</tbody>
</table>
MGMT 456  
**Behavioral Science in Management**  
3 Semester Hours  
In-depth study of the application of concepts in leadership, motivation, and decision-making and how these are applied to problems faced by managers.  
Prerequisite: MGMT 355.

MGMT 457  
**Entrepreneurship**  
3 Semester Hours  
Provides an overall understanding of entrepreneurship and small business management. Emphasis placed on the development of a business plan and application of the proper methods, techniques, and skills needed for developing a new venture.  
Prerequisites: MGMT 355 and MRKT 365.

MGMT 458  
**Small Business Management**  
3 Semester Hours  
An integrative course combining skills in all business disciplines. The focus is on the identification and analysis of operating problems confronting the small business manager.  
Prerequisites: MGMT 355 and MRKT 365.

MGMT 459  
**Leadership**  
3 Semester Hours  
Focuses on the role of leadership and leaders in organizations. Principal topics include sources and uses of power, leadership traits, leadership styles and behaviors, contingency theories, charisma, transformational leadership, team leadership, strategic leadership, and the development of leaders. Lectures, discussions, case studies, videos, experimental exercises, and field research.  
Prerequisite: MGMT 355.

MGMT 460  
**Entertainment Management**  
3 Semester Hours  
Focuses on industry organizational models to describe structures and functions of executives and managers within their organizations as this industry consolidates and is impacted by technology.
International Business Studies

INBA 340
Introduction to International Business
3 Semester Hours

This course will introduce students to the international business environments: political, economic, financial, and socio-cultural. As the global economy becomes closely integrated, the need for understanding its driving forces as well as its impacts on the domestic economy becomes critical. To help students prepare for this challenge, areas such as international trade and investment policies, cross-cultural differences, foreign exchange market, and business strategies in manufacturing, marketing, and human resources will be examined.

INBA 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience which is relevant to the program of study in the student’s major or area of emphasis. The internship, conducted with an off-campus operating organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

INBA 440
International Management
3 Semester Hours

This course will examine various managerial issues facing multinational companies operating in international business environments. Building upon the comprehensive understanding of the global economy, students will study various factors that affect the success of global business. These include the extent of globalization strategy, organization structure, mode of entry and control, managing government intervention, human resource management practices, ethics, and social responsibility.

Prerequisites: INBA 340 and MGMT 355.

INBA 441
International Entrepreneurship
(See MGMT 441)

INBA 442
Multinationals and the Third World
(See FNCE 442)
Marketing and Business Law

Faculty:
Co-Chairperson: Renee Florsheim
Co-Chairperson: Arthur Gross-Schaefer
Professors: Arthur Gross-Schaefer, Gary P. Sibeck, Robert D. Winsor
Associate Professors: Renee Florsheim, Ralph L. Quiñones
Assistant Professors: Mark Bandsuch, S.J., Mark Leach, Annie Liu, Idil Yaveroglu

Objectives:
Marketing focuses on activities that facilitate exchange between individuals and organizations. It prepares students for careers in marketing research, sales and sales management, marketing management, retailing, and advertising—all of which can serve as good career paths leading to top-level positions in general management in all types of organizations and industries.

Business Law courses introduce students to the legal environment of business. A focus in Business Law will prepare students for the fundamental legal challenges that affect all aspects of business including: Marketing, Management, Human Resources Management, Accounting, International Business, and Entrepreneurship and will prepare them for careers in highly-regulated industries, contract-based positions (e.g., insurance), or those in which intellectual property considerations play a strong role (e.g., entertainment).

Business Law

BLAW 205
Legal Environment of Business
3 Semester Hours

The nature, formation, and application of the law; law and the business environment; law and society; the social significance of law; the judicial system. This core requirement of Business Administration majors will give students a solid introduction to the legal aspects of a business relationship.

BLAW 301
Business Law Applications and Cases
3 Semester Hours

The course offers a detailed study of the nature of contracts and their applications in business organizations, personal property, real property, and commercial transactions. A focus will be placed on interpreting the law through existing case studies.

Prerequisite: BLAW 205.

BLAW 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student's major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

BLAW 404
Employment Law
3 Semester Hours

A survey course on general employment law concepts, this study will take a management perspective in understanding the legal interaction of the employer and the employee in the work environment. A focus will be placed on the evolution of employment law and current interpretations by related employment protection agencies.

Prerequisite: BLAW 205.

Marketing

MRKT 365
Principles of Marketing
3 Semester Hours

This course will introduce the role of marketing management in a market economy as well as in the modern organization. Students will be exposed to consumer-oriented managerial decisions regarding product planning, pricing structures, distribution channels, and promotional methods for a variety of products and services and in a range of organizational settings.

Prerequisite: ECON 100 or 110.

MRKT 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile employment experience as part of an overall program of study in Marketing. The internship, conducted with an off-campus organization and coordinated by a department faculty member, will develop marketing skills, assist the student in tying coursework to the workplace experience, and allow the student to realize and understand better what it is that (s)he is looking for in a career.

MRKT 382
Marketing and Selling Travel and Tourism
3 Semester Hours

Provides an in-depth examination of travel and tourism marketing from both the supplier and destination perspectives. Case studies are extensively utilized to discuss product development, pricing management, sales strategies, service practices, promotion methods, and distribution channels, both personal and electronic.

Prerequisite: MRKT 365.

MRKT 445
International Marketing
3 Semester Hours

This course will examine marketing principles and planning factors and techniques applied in a global environment. Students will develop an appreciation for the external forces which shape the international marketer’s decisions and will learn about strategies used by international firms as they successfully enter and adapt to new cultures and nations.

Prerequisite: MRKT 365.

MRKT 461
E-Commerce Marketing
3 Semester Hours

This course introduces the student to e-Marketing, which refers to the use of the Internet and related technologies to adapt traditional marketing activities to suit the creation, offer, and exchange of products and services online. The focus will be on the use of emerging technologies and related ideas to enhance marketing outcomes.

Prerequisite: MRKT 365.

MRKT 462
Perspectives on Consumption
3 Semester Hours

This course examines the roles individuals play in society and the economy through the acts of shopping, consuming, discussing, displaying, and disposing of goods and services. In addition, the processes by which organizations conceptualize, reinforce, and exploit these roles in the marketing of goods and services will be examined.

Prerequisite: MRKT 365.

MRKT 463
Entertainment Marketing
3 Semester Hours

Marketing is an essential element in the commercial success of entertainment products in the world today. Los Angeles is the center of the world’s entertainment industry. This course looks at product development, market research, distribution, and promotional methods used in the marketing of films, music, television, and new media products.

Prerequisite: MRKT 365.

MRKT 464
International Supply Chain Management
3 Semester Hours

A look at the front-end functions of marketing planning, logistical planning, business relationships, networking, and the marketing benefits of business collaboration inherent in the dynamic channels of distribution used in a global business environment. Note that this is the same course previously named “International Logistics.”

Prerequisite: MRKT 365.
MRKT 465  
Marketing Promotional Strategy  
3 Semester Hours

The new term, Integrated Marketing Communications (IMC), is a recognition of the need for firms to coordinate their various promotional activities and expenditures. This course will cover advertising, public relations, sales promotions, and direct marketing techniques, and will allow students to develop overall promotional programs using elements of each of these vehicles as appropriate.

Prerequisite: MRKT 365.

MRKT 466  
Sports Marketing  
3 Semester Hours

A thorough examination of the expanding field of sports marketing, including team, event, personality, and facility marketing, sponsorship, and merchandising. Some prior familiarity with sport is highly recommended.

Prerequisite: MRKT 365.

MRKT 467  
Marketing Research  
3 Semester Hours

The application of both qualitative and quantitative research methodology to the solution of marketing questions. Students will study the role of marketing research and will be involved in the design, execution, analysis, and implementation of a complete research project.

Prerequisite: MRKT 365.

MRKT 469  
Consumer Behavior  
3 Semester Hours

This course is designed to refocus the student on the consumer as the object of marketing programs. Social science concepts (from psychology, sociology, anthropology, and economics) are used to examine influences on consumer behavior, as well as to study the consumer decision process itself. Emphasis will be put on how marketers use this knowledge to develop their overall strategies.

Prerequisite: MRKT 365.

MRKT 471  
Retail Management  
3 Semester Hours

This course examines various aspects of retailing. The focus is on analyzing situations faced by a variety of managers in the effective distribution of goods and services.

Prerequisite: MRKT 365.

MRKT 472  
Sales Management  
3 Semester Hours

An examination of the sales function, encompassing both personal selling and sales management principles. This course emphasizes development of professional sales techniques as well as creation of sales objectives and strategies, selection, training, compensation and motivation of the sales force, and the use of technology in the contemporary sales function.

Prerequisite: MRKT 365.

MRKT 473  
Marketing Law  
3 Semester Hours

Focuses on the various legal constraints, problems, and ramifications which should be recognized and addressed by marketers during decision-making processes. This will explore the legal interaction of the marketer and the customer in the development of product, promotion, pricing, and distribution plans.

Prerequisites: BLAW 205 and MRKT 365.

MRKT 474  
Competitive Strategy  
3 Semester Hours

This course provides an in-depth analysis of competition and competitive strategy from both theoretical and applied perspectives. Competitive models, strategic metaphors, game-theory, product positioning, and competitive pricing strategy are explored in detail.

Prerequisite: MRKT 365.
MRKT 475  
Marketing Planning  
3 Semester Hours  

Even the most experienced marketer would run into difficulties without a plan. A comprehensive marketing plan is essential for obtaining funding of an enterprise as well as for coordinating marketing efforts for that organization. This course encompasses a study of all of the elements of a successful marketing plan and entails the development of a finished plan by the students.

Prerequisite: MRKT 365.

MRKT 476  
Entrepreneurial and Small Business Marketing  
3 Semester Hours  

Whereas traditional marketing courses often assume that marketers are operating in a predictable environment with generous budgets, this course examines shoestring methods to be used under conditions of considerable uncertainty.

Prerequisite: MRKT 365.

MRKT 477  
Brand Management  
3 Semester Hours  

The objective of this course is to learn the decision-making processes used by product or brand managers with primary responsibility for the market success of the company's products and services, including environmental scanning and coordination of marketing activities for the firm's offerings.

Prerequisite: MRKT 365.

MRKT 498  
Special Studies  
1-3 Semester Hours  

MRKT 499  
Independent Studies  
1-3 Semester Hours
Travel and Tourism

Faculty:
Director: Alan K. Hogenauer
Associate Professor: Alan K. Hogenauer

Objectives:
Tourism is considered to be the largest industry in the world. It is also one of the fastest growing industries when all of its related business are included. Employment within this industry in the United States is estimated at over eighteen million people.

The mission of the Travel and Tourism program in the College of Business Administration is to:
- Prepare graduates for leadership and professional positions in the tourism-travel industry;
- Provide service to the global economy by providing well-qualified, ethically sensitive graduates; and
- Generate new knowledge in the industry through research.

The courses are designed to build on the Business core curriculum, with advanced courses covering specific industry technologies, business practices, and operations. Students will be advised to consider related courses in the social sciences and modern languages to complement their studies in this area. The Travel and Tourism Management concentration comprises 18 semester hours, including two approved internships.

TOUR 280
Introduction to Travel and Tourism
2 Semester Hours
Provides a comprehensive overview of the global travel and tourism industry. Examines transportation (air, rail, cruise, and road), accommodations, attractions, and intermediaries (tour packagers, travel agencies, visitor bureaus, government tourist offices, travel literature and media) and their interaction. Briefly discusses destinations in the context of the above.

TOUR 282
Global Tourism Destinations
2 Semester Hours
Provides a comprehensive overview of world tourism destinations, focusing on their respective attractions, target markets, marketing techniques, and prospects. Course covers all seven continents.

TOUR 381
Travel and Tourism Internship
1 Semester Hour (at least 2 internships required)
Provides a valuable learning experience relevant to the student's desired emphasis within the industry. Offered as a tri-partite arrangement that involves the student, a faculty mentor, and the course instructor, the internship provides unique, real-world work experience and networking opportunities.

TOUR 382
Marketing and Selling Travel and Tourism
3 Semester Hours
Provides an in-depth examination of travel and tourism marketing from both the supplier and destination perspectives. Case studies are extensively utilized to discuss product development, pricing management, sales strategies, service practices, promotion methods, and distribution channels, both personal and electronic.
Prerequisite: MRKT 365.

TOUR 383
Legal Foundations of Travel and Tourism
3 Semester Hours
Encompasses a comprehensive review of legal and regulatory issues in travel and tourism, including government regulation, the deregulation trend, unilateral/bilateral/multilateral agreements, and the legal liability of suppliers and intermediaries.
Prerequisite: BLAW 205.

TOUR 384
Financial Management in Travel and Tourism
3 Semester Hours
Examines in detail financial planning for selected segments of the industry. Covers both capital and operating aspects, including pricing, yield management, bidding, rebates, service fees, commissions, public and private capital programs, and short- and long-term investment strategies.
Prerequisite: FNCE 325.
TOUR 481  
Strategic Management Seminar in Travel and Tourism  
3 Semester Hours

This capstone course integrates all previous course work through the development of a comprehensive travel and tourism marketing or business plan on a topic of the student's choice, subject to instructor approval.

As an optional focus for the Strategic Management Seminar, students may substitute three of the following fourteen elective courses (TOUR 482-499, 1 semester hour each) offered in sequences of three four-week modules per semester, depending on enrollment.

TOUR 482  
Air Transportation in Travel and Tourism  
1 Semester Hour

Examines domestic and international air passenger transportation in greater detail, using case studies from all six populated continents.

TOUR 483  
The Cruise Industry  
1 Semester Hour

Examines the cruise industry in greater detail, using case studies in the Caribbean, Mediterranean, Alaska, Panama Canal, and elsewhere.

TOUR 484  
Eco-Tourism  
1 Semester Hour

Examines the concept of eco-tourism, its historic foundations, and its present implementation in both developed and developing tourist economies, using case studies in the U.S., Costa Rica, Europe, Africa, Australia, Antarctica, and elsewhere.

TOUR 485  
Field Experience/Familiarization Trips  
1 Semester Hour

Guided local and regional field trips to tourist attractions in both the U.S. and Mexico will serve as the basis for further understanding of the tourism industry.

TOUR 486  
Gaming Industry Management  
1 Semester Hour

Examines the gaming industry worldwide, with focus on both established (Las Vegas, Monte Carlo, etc.) and emerging (Native American reservations, riverboats, etc.) destinations.

TOUR 487  
Hospitality Management  
1 Semester Hour

Examines the nature of the hospitality industry in greater detail, focusing on both accommodations and food services.

TOUR 488  
Human Resources in Travel and Tourism  
1 Semester Hour

Explores the role of human resources in the travel and tourism industry, including transnational employment, labor relations, and case studies of both successful and unsuccessful employment practices.

TOUR 492  
Meeting and Convention Management  
1 Semester Hour

Examines in greater detail the nature of the meeting and convention components of the travel and tourism industry, focusing on the development of convention centers, the role of the meeting planner, and the role of convention and visitor bureaus.

TOUR 493  
Road and Rail Transportation in Travel and Tourism  
1 Semester Hour

Examines in greater detail the role of surface transportation in travel and tourism, including highway networks, bus and rental car transportation, and both scheduled and seasonal tourist rail transportation.

TOUR 494  
Services Enterprise Management  
1 Semester Hour

Explores in greater detail the management of the services enterprise, focusing on product planning, product implementation, financial analysis, and customer satisfaction measurement.

TOUR 495  
Tourism and Travel Packaging and Management  
1 Semester Hour

Examines in greater detail the operation of the packager intermediary in travel and tourism, focusing on product design, competition, and sales strategies.
TOUR 496
Travel and Tourism Information
1 Semester Hour

Examines in greater detail the role of technology in travel and tourism information, including CRS systems, the Internet, wireless innovations, and traditional personal contact in connection with technology.

TOUR 498
Special Studies
1-3 Semester Hours

Requires approval of the director.

TOUR 499
Independent Studies
1-3 Semester Hours

Requires approval of the director.
College of Communication and Fine Arts

Administration:
Dean: Barbara J. Busse
Associate Dean: Suzanne Frentz

Objectives:
Based on a thorough background in the Liberal Arts, Loyola Marymount’s College of Communication and Fine Arts offers majors in Art History, Communication Arts, Dance, Music, Studio Arts, and Theatre Arts. Disciplines are concerned with exploring the place of the creative process within humanism. Many programs are professionally oriented with the Departments seeking to produce individuals who are practitioners of the arts they profess.

Application of General University Requirements
The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the College of Communication and Fine Arts.

College Curriculum
The curriculum of each department in the College of Communication and Fine Arts incorporates required courses in general education, major sequences, and elective courses which complement and enhance the student's major field of concentration.

Core Curriculum for the Baccalaureate Degree in the College of Communication and Fine Arts

American Cultures 3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours

Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking 3 Semester Hours

Course Selection:
Communication: Choose from CMST 100, 110, 130, or 140.

OR

Critical Thinking: Choose from CMST 206, PHIL 220.

Communication Studies majors must choose CMST 100 or 206.

Critical and Creative Arts 6 Semester Hours

Course Selection:
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FILM 210, 314, 315; INDA 100; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Creative Arts: Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); FILM 260; MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

Students may not select courses in the department of their major.
History
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection
Prerequisite: Successful completion of college writing requirement.

Choose from CLAS 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Mathematics, Science and Technology
6 Semester Hours

Course Selection
All students take MATH 102, 103, and one other course in Science and Engineering. The MATH 102 course is designed to allow students to attain a level of mathematical literacy which will enable them to deal with the types of mathematical questions that they will encounter on a regular basis after they graduate.

Prerequisite: Demonstration of proficiency in mathematics by success in MATH 102 or a grade of C or better in MATH 111, 112, 120, 122, 131, or 306. The Mathematics Placement Examination is required before taking any of these courses.

The course in science and engineering introduces the student to the methodology used in that field of science or engineering. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Courses ordinarily recommended to students majoring outside the College of Science and Engineering are those numbered 260-279 in each department within the College. Courses in this series are specifically designed for the non-major.

Choose from BIOL 260, 261, 262, 263, 264, 265, 271, 272, 275, 276; CHEM 260, 261, 262, 263, 264; CMSI 261; ELEC 260, 265; MECH 260, 270, 275; NTLS 260, 270; PHYS 271, 272. All other lower division courses (at least 3 semester hours) in the College of Science and Engineering also satisfy this requirement.

Only one mathematics course will be credited toward the Mathematics, Science and Technology component of the Core.

Philosophy
6 Semester Hours

Course Selection
Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one PHIL course from 320 through 330.

Social Sciences
6 Semester Hours

Students must select one of the following options:

1. Two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. One course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies
6 Semester Hours

Course Selection
Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses
dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: ARHS 200, 201, 202; CLAS 200, 210, 220; DANC 281; FILM 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331. To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; HIST 172, 182; MUSC 303, 365; POLS 155; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations:

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad office.

Total Program

120 semester hours are required for graduation with the following distribution:

a) a maximum of 36 upper division semester hours in any one department will be accepted toward the 120 semester hours requirement; and

b) at least 45 semester hours are required from upper division offerings.

Students should consult the Dean’s Office for specific policies applicable to the College of Communication and Fine Arts.

Individualized Study Program

Admission to the Individualized Study Program in Communication and Fine Arts requires:

1. a B (3.0) grade point average.
2. the submission of an Individualized Study Program form delineating courses and signed by the student’s advisor and the chairperson of the advisor’s department.
3. the submission by the advisor of a complete curriculum from an accredited college or university.
4. the signature of the Dean of the College.

All subsequent changes in the Individualized Study Program require points 2, 3, and 4 above.

Students registering for an Individualized Study Program are advised that their diploma and transcript will read “Individualized Study” and not the specific major they elect within that program.
Art and Art History

**Faculty:**
Chairperson: Rev. Michael Tang
Professors: Michael Brodsky, Rudolf Fleck, Teresa Muñoz, Susan Barnes Robinson, Rev. Michael Tang
Associate Professors: Jane Brucker, Carm Goode, Katherine Harper
Assistant Professors: Soo Jin Kim, Garland Kirkpatrick

**Objectives:**
The philosophy of the Department rests on the premise that its students should receive a broad education which combines creativity and scholarly study. Two majors are offered, Studio Arts and Art History. The foremost objective is to prepare the student intellectually and professionally for careers in studio arts and art history.

Courses offered to undergraduate majors and non-majors stress the cultural value of the visual arts.

The Department is a fully accredited member of the National Association of Schools of Art and Design.

**Semester Hours:**
For studio classes, a semester hour of credit, one unit, represents three hours of work each week. In lecture and seminar courses, an hour of credit represents one hour each week in class and two hours of work outside of class.

Following the customary procedure of most colleges and universities, the Department of Art and Art History reserves the right to retain for a period of three years any work which a student has completed for course credit.

**Art History Major**
The major in Art History is designed to increase the student's understanding of the meaning and purpose of the arts, their historical development, their formal and expressive means, their role in society, and their relationship to other humanistic disciplines.

The Department of Art and Art History reserves the right to retain, display, use, and reproduce any student course work, including original work, a student has rendered or created for course credit; this material will be used solely for educational and University purposes, including without limitation for recruitment, display, and republication in University media and publications.

**Major Requirements:**
**Lower Division Requirements:**
12 semester hours of lower division courses:
ARHS 200, 201, 202; ART 150 or 151.

**Upper Division Requirements:**
30 semester hours of upper division courses, including ARHS 449.
Recommended: Knowledge of at least one foreign language.
A minimum grade of C (2.0) must be obtained in each course included in the major requirements.

**Minor Requirements:**
18 semester hours:
ARHS 200, 201, 202; and 9 semester hours in upper division courses selected under the direction of an advisor in the department. Studio Arts majors who elect an Art History minor are required to take an additional 3 semester hours of upper division work for the total of 21 hours in the minor.
Recommended: ARHS 449.

Studio Arts Major

This program of study provides a broad foundation in fundamental techniques and concepts and permits each individual to experience the possibilities of creative expression and to develop an understanding of art as a key to cultural awareness. Students in Studio Arts are expected to engage in studio work in addition to scheduled class time. Studios are open to enrolled students outside of class time on a twenty-four hour basis. At the junior level students are required to declare a Fine Arts, Graphic Arts, or Multimedia Arts Emphasis. Students declaring the Art Education Emphasis are required to meet with the Art Education Coordinator and the Coordinator of Secondary Education in the School of Education as freshmen and should declare the emphasis no later than the beginning of the junior year. Students are urged to take additional upper division Art History classes as electives.

A minimum grade of C (2.0) must be obtained in each course included in the major requirements.

Art Education Emphasis

Major Requirements

Core Requirements

Consult with the Art Education Coordinator for Core recommendations. HIST 162 or POLS 135 required.

Lower Division Requirements:

24 semester hours of lower division courses: ART 153, 160, 257, 260, 275, 278; ARHS 200, 201.

Upper Division Requirements:

27 semester hours of upper division courses: ART 351, 450, 496, and 12 units of upper division ART electives; ARHS 302, and an upper division non-Western Art History Elective (ARHS 320, 321, 420, 425, 428), or any non-Western ARHS 398 or 498 course.

ARHS 494
Curatorial Practices
3 Semester Hours

Study of the professional aspects of museum and gallery work including exhibition preparation, design, and the curatorial process.

ARHS 498
Special Studies
3 Semester Hours

ARHS 499
Independent Studies
3 Semester Hours

Prerequisite: Senior standing.

### Multimedia Arts Emphasis

#### Major Requirements

**Lower Division Requirements:**

21 semester hours of lower division courses: ART 160, 260, and 290; CMSI 182 and 252.

Students choose a concentration in Text, Image, Sound, or Motion, then choose both lower and upper division courses from within that concentration. In consultation with an advisor, students may select an individualized option in Multimedia Arts Concentrations.

**Text:** ARHS 200, 201, 202; ENGL 201, 202; SCWR 220.

**Image:** ART 153, 154, 257, 280; FILM 260; TVPD 241.

**Sound:** MUSC 102, 104, 105, 106, 107; RECA 250; THEA 110, 210.

**Motion:** ANIM 120, 220; DANC 160, 163; FILM 260; TVPD 241.
Upper Division Requirements:

30 semester hours of upper division courses: ART 363, 366, 367, 374, 494; CMSI 361, 461, 462.

Choose two courses from one of the following concentrations: Text, Image, Sound, or Motion below. In consultation with an advisor, students may select an Individualized option in Multimedia Arts concentrations.

Text: ARHS 340, 345, 360; ART 360, 362, 368; CMST 301, 310; ENGL 311, 312; SCWR 320; THEA 400.

Image: ART 356, 360, 362, 365, 368, 380, 381, 382, 453 or 454, 481; FILM 366; TVPD 345, 346.

Sound: MUSC 303, 304, 316, 317, 318; RECA 367; THEA 312, 314.

Motion: ANIM 320, 330; DANC 381, 397; FILM 366; TVPD 345, 346.

Recommended Courses:
It is also recommended that the student take additional courses in Animation, Studio Arts, Art History, Communication Arts, and Computer Science.

S.H. 15

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor.

Minor Requirements:

18 semester hours;

Art 153 or 160, and 15 semester hours of Studio Arts electives with at least 6 semester hours in upper division courses.

Studio Arts

ART 150 Introduction to Studio Arts
3 Semester Hours

Open to non-Studio Arts majors only.

Exploration of the materials, techniques, and inspiration of the artist in the media of drawing, painting, printmaking, sculpture, and two- and three-dimensional design.

ART 151 Introduction to Drawing and Printmaking
3 Semester Hours

Open to non-Studio Arts majors only.

Development of basic drawing skills in various media and the exploration of printmaking techniques.

ART 153 Drawing I
3 Semester Hours

An introduction to drawing and the development of visual awareness. Experimentation and exploration of technique developed through a variety of subject matter. Varied media, including pencil, charcoal, ink, and conte.

ART 154 Drawing II: Figure Drawing
3 Semester Hours

Development of technique and principles used in Drawing I, ART 153, with emphasis placed on working from the figure and anatomy.

Prerequisite: ART 153.

ART 160 Two-Dimensional Design
3 Semester Hours

Examination of the basic elements of two-dimensional design emphasizing the conceptual process and utilizing various media and techniques.

ART 200 Figure Drawing Workshop I
1 Semester Hour

A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

<tbody>
<tr>
<td>ART 201</td>
<td>Figure Drawing Workshop II</td>
<td>1</td>
<td>Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy. May be repeated once for degree credit. Prerequisites: ART 153 and 154, or consent of instructor.</td>
</tr>
<tr>
<td>ART 250</td>
<td>Visual Arts for the Elementary Teacher</td>
<td>3</td>
<td>Designed to develop the visual arts for the Liberal Studies student. Emphasizes media, techniques, art history, and studio art fundamentals. Students will complete a teaching portfolio. Participation in the ArtSmart Program is required. Liberal Studies majors only.</td>
</tr>
<tr>
<td>ART 257</td>
<td>Painting I</td>
<td>3</td>
<td>Study of basic theoretical methods and techniques as applied to both representation and abstraction. Acrylic paints will be utilized. Prerequisite: ART 153, 160, or consent of instructor.</td>
</tr>
<tr>
<td>ART 260</td>
<td>Computer Graphics I</td>
<td>3</td>
<td>Introduction to principles and practices of electronic imaging as they apply to graphics, art, and design. Recommended: ART 160.</td>
</tr>
<tr>
<td>ART 275</td>
<td>Three-Dimensional Design</td>
<td>3</td>
<td>Examination of the basic elements of three-dimensional design emphasizing the conceptual process and utilizing various media. Prerequisite: ART 160 or consent of instructor.</td>
</tr>
<tr>
<td>ART 278</td>
<td>Ceramics I</td>
<td>3</td>
<td>Basic techniques of hand building and throwing on the potter’s wheel integrated with aesthetic exploration through various projects.</td>
</tr>
<tr>
<td>ART 280</td>
<td>Photography I</td>
<td>3</td>
<td>Photography as a medium of personal and artistic expression. Creativity is stressed. Camera, darkroom, and presentation fundamentals. Student must have a camera.</td>
</tr>
<tr>
<td>ART 290</td>
<td>Multimedia Survey</td>
<td>3</td>
<td>Examination of the current state of the arts and various career options through research and discussions. Includes development and presentation of a professional portfolio and resume. Prerequisites: ART 160 and 260.</td>
</tr>
<tr>
<td>ART 298</td>
<td>Special Studies</td>
<td>1-3</td>
<td></td>
</tr>
<tr>
<td>ART 299</td>
<td>Independent Studies</td>
<td>1-3</td>
<td></td>
</tr>
<tr>
<td>ART 300</td>
<td>Figure Drawing Workshop I</td>
<td>1</td>
<td>A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy. May be repeated once for degree credit. Prerequisites: ART 153 and 154, or consent of instructor.</td>
</tr>

<td>1</td>
<td>Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy. May be repeated once for degree credit. Prerequisites: ART 153 and 154, or consent of instructor.</td>
</tr>
<tr>
<td>ART 350</td>
<td>Visual Thinking</td>
<td>3</td>
<td>This course promotes concept development and creative thinking. Visual problem solving and projects will be based on a concern for how each person examines and explores, ultimately interprets and recreates the world around them.</td>
</tr>
</tbody>
</table>

ART AND ART HISTORY / 285
ART 351  
**Media and Methods: Contemporary Craft**  
3 Semester Hours  

Methods and techniques for creating expression in printmaking and crafts including fibers and wearable art, and techniques using wood, glass, metal, and found objects.

Required for Art Education Emphasis majors.

Elective for non-majors/minors of Art Education Emphasis.

Prerequisites: ART 153 and 160.

---

ART 353  
**Advanced Figure Composition**  
3 Semester Hours  

This course promotes concept development and psychological possibilities inherent in the human form. Using a variety of media, it explores anatomical structure, imaginative composition, and perspective.

May be repeated for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

---

ART 356  
**Painting II**  
3 Semester Hours  

A continuation of theoretical methods and techniques used in Painting I, ART 257. Emphasis is on color, materials, and individual concept development. A variety of media will be utilized.

Prerequisites: ART 153, 160, and 257, or consent of instructor.

---

ART 358  
**Painting III**  
3 Semester Hours  

A continuation of Painting II, ART 356. Emphasis is on color, materials, and individual concept development.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 356 or consent of instructor.

---

ART 359  
**Mural Painting**  
3 Semester Hours  

Emphasis on student collaboration in the process and execution of large-scale paintings and public mural projects.

May be repeated for degree credit with consent of instructor.

---

ART 360  
**Graphic Design I**  
3 Semester Hours  

The application of the basic principles of graphic design and visual problem solving in the creation of effective visual communications. Projects emphasize the uses of metaphor, typography, symbol, and image-making in communication design.

Prerequisites: ART 160, 260, and 368; recommended: ART 369.

---

ART 361  
**Product and Packaging Design**  
3 Semester Hours  

The application of design principles and marketing concepts in the development of products and packaging.

Prerequisites: ART 160, 260, 360, and 368.

---

ART 362  
**Advertising Design**  
3 Semester Hours  

The application of design principles and marketing concepts in the development of advertising campaigns and collateral materials.

May be repeated for degree credit.

Prerequisites: ART 160 and 260.

---

ART 363  
**3D Digital Toolbox**  
3 Semester Hours  

Survey of concepts and processes utilized in the production of artworks with 3D digital tools. Study of computer techniques integrating digital processing into the creative process.

May be repeated for degree credit.

Prerequisites: ART 160 and 260.
ART 364
Digital Illustration
3 Semester Hours

The integration of illustration practices, design principles, and conceptual problem-solving procedures in the creation of illustrations for editorial designs, book jackets, and advertising. Illustrations are computer assisted or computer generated in black and white and in color.

May be repeated for degree credit.

Prerequisites: ART 153, 160, and 260.

ART 365
Illustration
3 Semester Hours

The integration of illustration practices, design principles, and conceptual problem-solving procedures in the creation of illustrations for editorial designs, book jackets, and advertising art. Illustrations are conceived of by conventional means.

May be repeated for degree credit.

Prerequisites: ART 153 and 160.

ART 366
Multimedia Computer Arts
3 Semester Hours

Explorations of computer multimedia technologies with emphasis on the development of personal artistic expression.

May be repeated twice for degree credit.

Prerequisite: ART 260.

ART 367
Online Computer Arts
3 Semester Hours

An emphasis on a working expertise in graphics, art, design, and aesthetics as they apply to interactive web authoring. This course will also utilize interactive linkages to a larger virtual arts community.

May be repeated for degree credit.

Prerequisite: ART 260.

ART 368
Typography I
3 Semester Hours

An introduction to the basic principles of typography in both the historical and contemporary practice of communication design. Projects emphasize how type works as a compositional element in the creation of effective visual communication.

Prerequisites: ART 160 and 260; recommended: ART 369.

ART 369
Design and Pre-press
3 Semester Hours

The integration of design, pre-press planning, and problem solving practices.

Prerequisites: ART 160 and 260.

ART 372
Jewelry I
3 Semester Hours

A basic jewelry course with an emphasis on creative design and various techniques including fabrication, soldering, forging, wax working, and casting. Also includes bezel stone setting.

Prerequisite: ART 372.

ART 373
Jewelry II
3 Semester Hours

Advanced jewelry making with an emphasis on creative design and exploration of various techniques such as fabrication, casting, rolling mill texturing, hydraulic press forming, enameling processes, and the setting of faceted stones. Also an introduction to larger scale, sculptural design.

Prerequisite: ART 372.

ART 374
Advanced Design for Multimedia Arts
3 Semester Hours

Advanced multimedia-oriented design concepts of the “on-screen” motion graphics and interactive presentations of images, text, motion, and sound.

Prerequisites: ART 160 and 260.
ART 375  
**Figure Sculpture**  
3 Semester Hours  
Modeling of the human figure with an emphasis on anatomy, leading to the extension of the figure as image.  
May be repeated for degree credit with consent of instructor.

ART 376  
**Sculpture Workshop**  
3 Semester Hours  
Advanced exploration of sculptural problems, techniques, and concepts using a variety of materials.  
May be repeated for degree credit with consent of instructor.  
Prerequisite: ART 275 or consent of instructor.

ART 378  
**Drawing and Clay**  
3 Semester Hours  
Emphasis on the surface treatment of ceramic work incorporating drawing, painting, and printmaking techniques.  
May be repeated for degree credit with consent of instructor.

ART 380  
**Photography II**  
3 Semester Hours  
Exploration of advanced concepts of photography as applied to the development of personal expression. Topics of study change each semester.  
May be repeated for degree credit with consent of instructor.  
Prerequisite: ART 280.

ART 382  
**Digital Photography**  
3 Semester Hours  
An emphasis on a working expertise in digital imaging, technologies utilizing Adobe Photoshop for image creation, manipulation, with input and output to various media.  
May be repeated for degree credit.  
Prerequisite: ART 260; recommended: ART 280.

ART 385  
**Printmaking I**  
3 Semester Hours  
Introduction to the basic relief printmaking and transfer processes using monoprinting, linoleum blocks, woodblocks, and collagraphs. Emphasis on black and white with an introduction to multicolor printing.

ART 386  
**Etching Printmaking**  
3 Semester Hours  
Process using etching, aquatint, and other incising techniques on metal plates. Emphasis on black and white images with an introduction to multicolor printing.  
May be repeated for degree credit.  
Recommended: ART 153.

ART 387  
**Silkscreen Printmaking**  
3 Semester Hours  
Introduction to the use of serigraphy to create posters and fine art prints. The emphasis is on the development of personal expression in the creation of multicolor prints.  
May be repeated for degree credit.  
Recommended: ART 160 and 260.

ART 388  
**T-Shirt Silkscreening**  
3 Semester Hours  
Introduction to the use of silkscreening to communicate a message. Basic screening techniques will be used, including using traditional hand-cut and painterly stencils, and photographic and computer-generated images. Emphasis will be on producing multicolor prints for self-promotion; events; and political, cultural, and humanitarian causes.  
May be repeated for degree credit.  
Recommended: ART 153, 160 and 260.

ART 400  
**Figure Drawing Workshop I**  
1 Semester Hour  
A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.  
May be repeated once for degree credit.  
Prerequisites: ART 153 and 154, or consent of instructor.
ART 401
Figure Drawing Workshop II
1 Semester Hour
Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.
May be repeated once for degree credit.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 445
Multimedia Forum
3 Semester Hours
Examination of the current state of the arts and various career options through research and discussions. Includes development and presentation of a professional portfolio and resume.
Prerequisites: Art major, senior standing, or consent of instructor.

ART 450
Seminar in Art Education
3 Semester Hours
Examination of current issues and principles of art education through research, discussions, and guest speakers. Includes principles of aesthetic development, creative lesson planning, and community experience project.
Prerequisite: Art Education Emphasis or consent of instructor.

ART 453
Drawing III: Formal Issues
3 Semester Hours
This course explores traditional and contemporary issues in drawing. Using a variety of media, content, space, color, value, and form are examined.
May be repeated for degree credit with consent of instructor.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 454
Drawing IV: Figure Composition
3 Semester Hours
This course promotes concept development and psychological possibilities inherent in the human form. Using a variety of media, it explores anatomical structure and imaginative composition.
May be repeated for degree credit with consent of instructor.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 460
Graphic Design II
3 Semester Hours
Advanced problems in graphic design. Projects emphasize a thorough understanding of both the principles of graphic design and typography as they are applied to visual communications.
Prerequisites: ART 160, 260, 360, 368, and 369.

ART 468
Typography II
3 Semester Hours
Typography II builds on the fundamentals of typography in Typography I. Projects emphasize the advanced application of typographic design principles and visual problem-solving methods in the design of publications, books, and information systems.
Prerequisites: ART 160, 260, 360, and 368.

ART 478
Ceramics Workshop
3 Semester Hours
Design problems with ceramic materials incorporating wheel-thrown and hand building techniques. Development of a personal style in addition to advanced firing techniques.
May be repeated for degree credit with consent of instructor.
Prerequisite: ART 278 or consent of instructor.
ART 481
Color Photography
3 Semester Hours
Introduction to general color principles and lab procedures. Emphasis on personal expression.
May be repeated for degree credit with consent of instructor.
Prerequisite: ART 280.

ART 485
Advanced Printmaking
1-3 Semester Hours
Continuation and more advanced work in relief, etching, or silkscreen techniques.
May be repeated for degree credit with consent of instructor.
Prerequisite: ART 385 or 386 or 387.

ART 494
Multimedia Internship
3 Semester Hours
Professional experience in multimedia.
Prerequisites: Senior standing, Art major, and consent of instructor.

ART 495
Advanced Studio Studies
1-3 Semester Hours
Pre-professional directed study in studio art.
May be repeated for degree credit three times.
Prerequisite: Permission of instructor and Department Chairperson.

ART 496
Senior Seminar in Studio Arts
3 Semester Hours
Examination of the current state of the arts and various career options through research, discussions, and guest speakers. Includes development and presentation of a professional portfolio and resume.
Prerequisite: Art major or consent of instructor.

ART 497
Senior Thesis
1-3 Semester Hours
This course continues for Fine Arts emphasis students the professional development experience of ART 496, Senior Seminar. The curriculum includes all aspects of exhibition design, promotion, and artwork presentation.
Required for Fine Arts Emphasis majors.
Prerequisites: ART 496, and Art Major Fine Arts Emphasis, or consent of instructor.

ART 498
Special Studies
1-3 Semester Hours

ART 499
Independent Studies
1-3 Semester Hours
Prerequisite: Senior standing.
### Minor Requirements: (18 semester hours)

**Lower Division Requirements:**
6 semester hours of lower division: CMST 203 and 204 (both completed with a grade of C [2.0] or better).

**Upper Division Requirements:**
12 semester hours of upper division: CMST 351 or 352 (completed with a grade of C [2.0] or better), and three courses selected from CMST 330, 335, 336, 375, 376, 385, 386, 387, or 393.

</table>

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor. 

**CMST 100**
**Introduction to Public Speaking**
3 Semester Hours

Designed to assist the student in developing the skills necessary to communicate effectively to others and to listen effectively to communication from others. Development of proficiency in speaking results from the practice and criticism of informative speeches, persuasive speeches, and discussion.

**CMST 101**
**Introduction to Communication Studies**
3 Semester Hours

Designed to assist in developing basic skills and knowledge for future classes. Topics include: history of the discipline, the rhetorical tradition, introduction to communication theory, and research methods. Development of library skills and writing for the social sciences.

**CMST 110**
**Interpersonal Communication**
3 Semester Hours

Examination of students' communication strengths and weaknesses in order to develop proficiency in interpersonal communication. A variety of practice speaking contexts is provided, including public speaking, group discussion and problem solving, and informal and formal one-to-one communication.

**CMST 130**
**Argumentation and Debate**
3 Semester Hours

The principles of reasoning, evidence, and organization of argumentation for debate and related forms of competitive speech; practical application in debate and other forensic speech.

**CMST 131**
**Argumentation Practicum**
3 Semester Hours

Forensics competition in various debate formats requiring intramural and intercollegiate debate competition.

Prerequisite: CMST 130 and consent of instructor.

**CMST 140**
**Business and Professional Communication**
3 Semester Hours

A study of the principles and methods involved in improving oral communication in business and the professions. Emphasis on interviewing, conference speaking, selling and persuading, problem-solving discussions, and interpersonal relations.

**CMST 160**
**Small Group Processes**
3 Semester Hours

Introduction to small group processes and theory; practice in small group discussion. Special emphasis on problem solving processes.

**CMST 170**
**Interpersonal and Small Group Communication**
3 Semester Hours

This course is designed to introduce the students to interpersonal and small group communication theories, processes, and skills. The course challenges students to examine their own communication behaviors and focus on their strengths and weaknesses as a way to develop and apply new communication skills and proficiencies. The course includes a variety of oral and written presentations at both the individual and group levels.

CMST 335  
Gender Communication  
3 Semester Hours  

Course surveys gender similarities and differences in verbal and nonverbal communication. Emphasis is also placed on how males and females perceive the world and how these perceptions affect the human communication process.

CMST 336  
Intercultural Communication  
3 Semester Hours  

A study of the principles and theories of human communication related to cross cultural encounters. Emphasis is placed on cultural relativity, culture shock, verbal and nonverbal interaction, and value differences among diverse cultures.

CMST 351  
Contemporary Rhetorical Theory  
3 Semester Hours  

This course provides a survey of major rhetorical themes and theories, including classical, symbolic, argumentation, critical, feminist, and non-Western approaches to rhetoric. Students will explore the relationship between rhetorical theory and practice, the contributions of rhetorical theory to the social world, and the potential for rhetorical studies to inform issues of democratic governance, marginalized groups, social justice, and technology in society.

Prerequisites: CMST 203 and 204 with a grade of C (2.0) or better.

CMST 352  
Theories of Organizational Communication  
3 Semester Hours  

This course is designed to introduce the students to the field of organizational communication and the relationship between organization and communication. The course is designed to allow students to examine a range of organizational communication perspectives, theories, issues, and constructs. At the same time, students are encouraged to explore the ways these perspectives shape, expand, and limit our understanding of communicating and organizing. Significantly, the course encourages critical and analytical thinking by using the course content as a basis for critique.

Prerequisites: CMST 203 and 204 with a grade of C (2.0) or better.

CMST 375  
Organizational Communication Advanced Topical Seminar  
3 Semester Hours  

Advanced topical studies in organizational communication.  
May be repeated once for degree credit with a different topic.

CMST 376  
Communication and Consulting  
3 Semester Hours  

Course surveys methods of designing, conducting, and evaluating organizational communication change strategies. Emphasis is on various methods of conducting organizational communication needs analysis, designing training programs, implementing organizational development strategies, and evaluating change efforts.

CMST 385  
Political Communication  
3 Semester Hours  

Course analyzes the rhetorical dimensions of political campaigns and methods of carrying out various political objectives.

CMST 386  
Rhetoric of Social Movements  
3 Semester Hours  

This course is a survey of the historical events and rhetorical documents of major American movements for social change. Movements may include: abolitionist (anti-slavery), labor, socialist, women's rights, environmental justice, civil rights (Black, Chicana/o, and Native American), gay and lesbian, and student movements. Emphasis will be placed on rhetorical strategies and tactics relating to effects of movements on systems and structures conceived as dominant; analyses of how social movement actors construct meaning and identity in their discourses is also stressed.

CMST 387  
Communication and Legal Practice  
3 Semester Hours  

This course brings the legal trial to the classroom, providing students an opportunity to incorporate an array of communication principles and skills with the experience of trial practice. Students are introduced progressively to key aspects of communication and litigation and participate in exercises that culminate in mock trials before a jury.

Dance—Department of Theatre Arts and Dance

Faculty:
Co-chairperson: Judith Scalin
Professors: Scott Heinzerling, Judith Scalin
Assistant Professors: Teresa Heiland, Patrick Damon Rago

Objectives:
The Dance major curriculum builds upon the foundation of dance as a humanistic experience. The study of dance as an art form serves as the heart of the course of study. Studio and theory coursework are designed to integrate practical dance experience with more formal academic study so that the student is educated as a dancer who can perform, write, and speak about the art of dance and dancing. Dance majors earn a B.A. degree and are prepared for advanced study in graduate school as well as careers in performing, teaching, and related work in the fields of business and health care.

The Dance program is housed in the Department of Theatre Arts and Dance. It offers coursework for the Dance major, the Dance minor and the general student. The program is accredited by the National Association of Schools of Dance.

Dance Major
Dance Generalist Track
Major Requirements:
Lower Division Requirements:
A minimum of 21 semester hours: DANC 100, 101, 160, 161, 183, 260, 262, 281; and taken for at least 4 semester hours and at the level of proficiency: for 0-2 semester hours Modern Dance and Ballet each semester, and for 0-2 semester hours World Dance one semester.

Upper Division Requirements:
A minimum of 25 semester hours: DANC 380, 381, 460 (or PHIL 352), 461 (minimum of C [2.0] grade), 480, 481, 484; and taken for at least 4 semester hours and at the level of proficiency: for 0-2 semester hours Modern Dance and Ballet each semester, and for 0-2 semester hours World Dance one semester.

Dance Performance Track
Major Requirements:
• Juried acceptance into Emphasis at the end of the first or second year.
• Juried approval for continuation in Emphasis at the end of the second and third years.

Dance Technique and Performance Requirements:
Coursework (minimum): Technique
1. Modern Dance Six semesters
2. Ballet Eight semesters
3. Jazz Dance Two semesters
4. World Dance Two semesters
5. Pilates and/or Yoga Two semesters

Coursework (minimum): Performance
Performance in at least two dance concerts (DANC 279) in the lower division and three dance concerts (selected from DANC 379, 479) in the upper division.

Daily Study of Dance Technique: At least one class three days a week and at least two classes two days a week.

Proficiency:
At least two semesters in DANC 402, Modern Dance IV, and two semesters in DANC 423, Ballet V

or
At least four semesters in DANC 402, Modern Dance IV, two semesters in DANC 420, Ballet IV, and two semesters in DANC 446, Jazz Dance VI or equivalent.

Lower Division Requirements:

Upper Division Requirements:
A minimum of 27 semester hours: DANC 360, 380, 381, 384, 460 (or PHIL 352), 461 (minimum of C [2.0] grade), 480, 481, 484. See above for Dance Technique and Performance requirements.
Minor Requirements:

General minor—18 semester hours: DANC 160, 161, 384, 385, 484 or 480; one theory course selected from DANC 260, 262, 281, 380, 381, 384, 385, 480, 481, 484; 6 semester hours in studio technique (modern, ballet, jazz, and/or world dance).

Performance minor—20 semester hours: DANC 160, 161 (6 semester hours), dance technique (8 U.D. semester hours), performance in at least three dance concerts (3 semester hours), and 3 semester hours of dance theory selected from DANC 384, 385, 480, 481, 484.

---

**DANC 100**  
**Orientation to Dance I**  
*1-3 Semester Hours*

An introduction to the discipline of Dance for Dance major students. This course addresses: careers, health, wellness, performance, community service, and community resources. Introduction to yoga and other movement fundamentals.

Majors only.

**DANC 101**  
**Principles of Movement**  
*0-1 Semester Hours*

Orientation to use of breath, alignment, and basic principles of motion. Exploration of the body-mind connection. (Fall)

Majors only.

**DANC 102**  
**Modern Dance I**  
*0-2 Semester Hours*

Fundamental movement techniques and the manipulation of time, force, and space are explored through participation in improvisation and structured skill activity, as well as basic relaxation and body awareness experiences. Introduction to jazz dance forms.

May be repeated for degree credit up to 2 times.

**DANC 120**  
**Ballet I**  
*0-2 Semester Hours*

Barre and center work for alignment, strength, flexibility, and coordination. Introduction to ballet terminology, aesthetics, and study of fundamentals of style and history.

May be repeated for degree credit up to 2 times.

</tbody>
</table>
DANC 360
Advanced Choreography
3 Semester Hours

Dance composition with focus on the craft elements of development, variation, thematic, and non-thematic subject matter. Strategies for building a dance from study to completed work.

Prerequisite: DANC 262.

DANC 371
Martial Arts
0-2 Semester Hours

Study of Tae Kwan Do, Aikido, Tai Chi Chuan, or other selected martial arts forms.

May be repeated for degree credit as long as subject changes.

DANC 372
Martial Arts in China
2 Semester Hours

The study of martial arts on location in China. Enrollment through Study Abroad.

DANC 374
Yoga I
0-2 Semester Hours

Theory and practice of yoga through exercise, meditation, and selected readings.

DANC 375
Yoga II
0-2 Semester Hours

Continuation of yoga practice begun in Yoga I.

Prerequisite: DANC 374.

DANC 376
Yoga for Dancers
0-2 Semester Hours

Yoga practice particularly designed for those pursuing in-depth dance technique training.

Prerequisite: Majors only.

DANC 379
Dance Touring Group
0-3 Semester Hours

Performance group which tours local K-12 schools.

May be repeated for degree credit up to 4 times.

DANC 380
Music for Dance
3 Semester Hours

Study of the elements of music theory and history which are common to dance and music.

DANC 381
To Dance Is Human: Dance, Culture, and Society
3 Semester Hours

A study of dance as a cultural, political, and socio-economic phenomena. The dance of three selected cultures in the United States today with origins in Africa, Asia, and Europe and current life in the United States will form the focus of study. (Fall)

DANC 382
Drumming for Dance
2 Semester Hours

African drumming techniques used in dance for dancers and musicians.

DANC 384
Creative Dance for Children
3 Semester Hours

Creative dance experience designed to prepare the elementary school teacher to offer dance instruction. Meets Liberal Studies Credential requirements.

DANC 385
Movement Arts for Children
3 Semester Hours

Movement arts experience (“new games,” dance, sport) and study of the child’s physical and motor development. Designed as pre-service Elementary School teacher training. Meets Liberal Studies Credential requirements.

DANC 390
Dance of Greece
0-2 Semester Hours

Intensive study of folk dance of Greece with historical and cultural perspectives.

Offered in the Fall semester only.

DANC 394
Dunham Dance Technique
0-2 Semester Hours

A study of the dance technique of Katherine Dunham.

Audition: First class meeting.

May be repeated for degree credit up to 6 times.
DANC 396  
Musical Theatre Dance  
0-2 Semester Hours  
Practice and study of dances from the musical theatre repertory.  
May be repeated for degree credit up to 2 times.

DANC 397  
World Dance  
0-3 Semester Hours  
Intensive study of selected world cultures from Africa, Asia, the Pacific, and Europe with particular attention to historical and cultural perspective.  
May be repeated for degree credit as long as selected culture differs.

DANC 398  
Special Studies  
1-3 Semester Hours

DANC 399  
Independent Studies  
1-3 Semester Hours

DANC 402  
Modern Dance IV  
0-2 Semester Hours  
Continuation of DANC 302. Study focuses on subtlety in energy, range, and expression, along with concentration of style, rhythmic patterns, and movement design. Dance films and study of current research on dance criticism.  
Audition: First class meeting.  
May be repeated for degree credit up to 8 times.

DANC 403  
Friday Dance Workshop  
0-1 Semester Hours  
In-depth exploration of dance technique and partnering.  
Audition: First class meeting.  
May be repeated for degree credit up to 8 times.

DANC 421  
Pointe and Variations  
0-1 Semester Hour  
Study of pointe work in ballet and reconstruction of variations from ballets of different periods.  
Audition: First class meeting.  
May be repeated for degree credit up to 4 times.

DANC 422  
Partnering  
0-1 Semester Hours  
Exploration of partnering techniques as used in classical ballet, modern and post-modern dance.

DANC 423  
Ballet V  
0-2 Semester Hours  
Continuation of DANC 420.  
Audition: First class meeting.  
May be repeated for degree credit up to 8 times.

DANC 444  
Tap Dance IV  
0-2 Semester Hours  
A continuation of DANC 344. Focus on developing better skills, exploring rhythms, and mastering ability to keep time and phrase rhythms.  
Audition: First class meeting.  
May be repeated for degree credit up to 6 times.

DANC 445  
Jazz Dance V  
0-2 Semester Hours  
Continuation of DANC 345. Emphasis on study of jazz dance, hip hop, funk, and other dance styles used in commercial/media dance.  
Prerequisite: By audition only.  
May be repeated for degree credit up to 8 times.

DANC 446  
Jazz Dance VI  
0-2 Semester Hours  
Continuation of DANC 445. Pre-professional emphasis including auditioning and career planning.  
Prerequisite: By audition only.  
May be repeated for degree credit up to 8 times.

DANC 498
Special Studies
1-3 Semester Hours

DANC 499
Independent Studies
1-3 Semester Hours
Interdisciplinary Arts and Media

Director:
Suzanne Frentz

Objectives:
The philosophy of the program rests on the premise that its students should receive a broad education that combines creativity and scholarly activity. The foremost objective is to prepare students intellectually and professionally for careers in interactive digital arts and media. Courses offered are interdisciplinary in nature and bring together visual and electronic arts and mediated communication to form new modes of exploring the human experience.

INDA 100
Civilization and the Arts
3 Semester Hours
The study of art, literature, philosophy, and religion as it manifests itself in various world civilizations from the Ancients to the Middle Ages, the Renaissance through the Age of Reason, and the Industrial Revolution to the present.

INDA 101
Introduction to Media Production
3 Semester Hours

INDA 201
Intermediate Media Production
3 Semester Hours

INDA 301
Advanced Media Production
3 Semester Hours

INDA 320
Broadcast Writing
3 Semester Hours
An introductory course to teach the basic skills of broadcast writing. Primary emphasis on television news and secondary emphasis on radio news. Techniques taught will also emphasize writing for allied fields such as public relations, advertising, and technical production.

INDA 330
Broadcast News Production
3 Semester Hours
An introduction to news gathering, writing, and production for radio and television. Course covers the use of basic broadcast journalism tools, such as cameras, microphones, and conversational writing.

INDA 350
Radio Drama Production
3 Semester Hours
Working as an ensemble, students will write, act, direct, and produce live on tape weekly performances for broadcast on KXLU-FM.
Lab fee.

INDA 360
Workshop in Media Production
3 Semester Hours

INDA 390
KXLU Workshop
1 Semester Hour
Hands-on study of radio broadcasting. The areas to be mastered are proper station operations, voice, writing, delivery, and simple production.

INDA 391
KXLU Practicum
3 Semester Hours
A concentrated study of the management process associated with the day-to-day operation of KXLU-FM, recommended for radio station directors and others.

INDA 401

Music

Faculty:
Chairperson: Mary Breden
Professors: Mary Breden, Virginia Saya
Associate Professor: Paul W. Humphreys, Mark Saya
Assistant Professor: Michael Miranda

Objectives:
The purpose of the Department of Music is to provide quality music instruction both for students who wish to pursue music as a career and for students who wish to enrich their lives through non-career oriented study and performance. Students and faculty work together to foster aesthetic involvement and creative and scholarly inquiry that support a vital community of music learning. Instruction emphasizes a personal approach. Through the presentation of diverse musical programs, the department also sustains and enriches the cultural vitality of the University and its surrounding communities. The work of the department further supports the goals of Jesuit and Marymount education by strengthening the socializing influence of music both within the University and the world at large.

The Department of Music offers the Bachelor of Arts in Music degree, the requirements of which can serve as an excellent foundation for students undertaking advanced studies in preparation for such careers as musicology, composition, ethnomusicology, music librarianship, and pedagogy-oriented teaching. In addition to meeting all general University admissions requirements, students who wish either to major or minor in Music must meet specific Department of Music entrance requirements.

Loyola Marymount University and the Department of Music are accredited by the National Association of Schools of Music.

Admission to the Major and Minor:
An audition in the applied emphasis (Instrument or Voice) is required before admission to the major or minor. Audition requirements appropriate to each instrumental and voice emphasis are available from the Secretary of the Department of Music.

A grade of C (2.0) or better is required in:
MUSC 122 (Music Theory & Form II)

A grade of B (3.0) or better is required in:
MUSC 181, 280, 281 (Applied Lessons)

Foreign Language Requirement:
Two semesters of foreign language(s) through selection of one of the following options:
ITAL 101, 102 or GRMN 101, 102 or FREN 101, 102 or ITAL 101, GRMN 101 or ITAL 101, FREN 101 or GRMN 101, FREN 101

The language options selected may be taken credit/no credit but require the approval of the Chairperson and the applied emphasis instructor.

Music Major Curriculum
48 Semester Hours (plus Foreign Language Requirement)

### Concentration Requirements

**10 Semester Hours/Upper Division**

With the approval of the Director of the Concentration, every music major must declare and complete an upper division Concentration. It is possible to complete two Concentrations with the approval of the Advisor and the Department Chairperson. In order to fulfill the double Concentration, the student will take all classes required in each of the selected Concentrations. Music courses fulfilling one Concentration may not be used to satisfy the requirements of the second Concentration.

Applied Music

Individual Instructions

Music Major/Minor

Music majors are required to complete a minimum of four semesters, and Music minors two semesters, of individual instruction in the following emphasis areas:

- Piano, Guitar, Percussion, Strings, or Voice:
  - MUSC 180, 181, 280, 281 (Major/4 semester hours)
  - MUSC 180, 181 (Minor/2 semester hours)

Each semester hour of earned credit in private applied lessons requires the following:

- A. One 50-minute private lesson weekly (total 14)
- B. Enrollment in MUSC 101, Studio Class
- C. Minimum of one (1) Studio Class performance per semester

Only students who have been officially accepted through audition and declared music majors or minors by the Department of Music may enroll in private applied lessons (180, 181, 280, 281, 380, 381, 480, 481). No applied music fee is required.

Practice room facilities (free of charge) are available to all applied music students enrolled for credit.

Applied music courses are repeatable for credit. Majors who wish to continue credit enrollment beyond minimum requirements may enroll in the subsequent MUSC 380, 381, 480, and 481 offerings.

Music Non-Major/Non-Minor

Individual instruction is available in Piano, Guitar, Drum Set, Strings, and Voice:

- Permission of professor required.
- MUSC 182, 282, 382, 482 . . . . 1 S.H. each

There is an applied music fee of $308.00 per semester for fourteen 30-minute weekly lessons. Applied music courses are repeatable for credit.

Class instruction is available in Piano, Guitar, and Voice for students at the beginning level:

- MUSC 175, 176, 177 Piano Class . . . 1 S.H. each
- MUSC 178 Voice Class . . . . . . . . . 1 S.H.
- MUSC 179 Guitar Class . . . . . . . . . 1 S.H.

These classes meet once weekly, have a limited enrollment, and may only be repeated once for credit. There is a $20 lab fee for the piano classes.

Ensembles

Music Major/Minor

Music majors are required to complete four semesters, and Music minors two semesters, of active participation in an ensemble appropriate to the area of individual instruction emphasis.

**MUSC 101**

*Studio Class*

*0 Semester Hours*

Recital class for music majors and minors enrolled in applied lessons, including composition lessons.

May be repeated for degree credit.

**MUSC 102**

*Enjoyment of Music*

*3 Semester Hours*

An overview of the evolution of Western Art music from the era of Gregorian Chant to modern times. Focus is on style periods and the contributions of the great composers. Concert attendance required.

Non-majors and non-minors only.

**MUSC 104**

*Fundamentals of Music*

*3 Semester Hours*

Practical study of the rudiments of music—notation, rhythm, keys, scales, and terminology, with the object of attaining and applying a basic musical literacy. Concert attendance required.

Non-majors and non-minors only.

**MUSC 105**

*The Vocal Experience*

*3 Semester Hours*

Exploration of the basic techniques of singing with emphasis on the expressive elements inherent in simple vocal literature; study of fundamental musical elements—rhythm, melody, key structures, notation—leading to successful sight singing.

**MUSC 106**

*The Guitar Experience*

*3 Semester Hours*

Exploration of the basic technique of performing on the guitar including 1) learning to read music, 2) chords and styles of accompaniment, and 3) the preparation of solo pieces.

Exploration of the basic techniques of performing piano literature; study of fundamental musical elements—rhythm, melody, key structures, notation, and reading music.

**MUSC 107**

*The Piano Experience*

*3 Semester Hours*

Exploration of the basic techniques of performing piano literature; study of fundamental musical elements—rhythm, melody, key structures, notation, and reading music.

**MUSC 121**

*Music Theory and Form I*

*3 Semester Hours*

Introduction to the fundamentals of functional tonal harmony, basic musical terminology and notation, figured bass, and diatonic harmonic progression and voice leading.

Corequisite: MUSC 133.

<td>Introduction to the style of eighteenth-century counterpoint, as exemplified by the instrumental works of J.S. Bach. Techniques and procedures covered include species counterpoint, canon, invention, and fugue.</td>
</tr>
<tr>
<td>MUSC 325</td>
<td>Music for the Recordist</td>
<td>3</td>
<td>An in-depth investigation of the businesses of music as they apply to the recording and entertainment industry.</td>
</tr>
</tbody>
</table>
**MUSC 328**  
**Choral Methods I**  
*2 Semester Hours*

Practical aspects of choral techniques ranging from the audition through the working rehearsal with emphasis on development of choral tone, phrasing, articulation, dynamics, blend, and balance, as well as selection of repertoire.

Prerequisites: MUSC 281 (voice), 332, and 491 or 495.

**MUSC 330**  
**Score Reading I**  
*2 Semester Hours*

Score reading preparation of concert and transposed musical scores involving two through six parts including the use of multiple clefs.

Prerequisite: MUSC 333.

**MUSC 331**  
**Score Reading II**  
*2 Semester Hours*

Score reading preparation of concert and transposed scores involving seven or more diverse instrumentations including the use of multiple clefs.

Prerequisite: MUSC 330.

**MUSC 332**  
**Choral Conducting**  
*2 Semester Hours*

Basic conducting skills, technical and expressive uses of the conducting gesture, and methods of verbal and non-verbal communication appropriate to a choral ensemble.

Prerequisite: MUSC 235.

**MUSC 333**  
**Instrumental Conducting**  
*2 Semester Hours*

Basic conducting skills, technical and expressive uses of the conducting gesture, and methods of communication appropriate to an instrumental ensemble.

Prerequisite: MUSC 235.

**MUSC 335**  
**Accompanying I**  
*1 Semester Hour*

The literature and performance practices applicable for solo and small genre accompaniment.

Prerequisite: Consent of instructor.

**MUSC 336**  
**Accompanying II**  
*1 Semester Hour*

Continuation of 335.

Prerequisite: MUSC 335 or consent of instructor.

**MUSC 340**  
**Diction for Singers I**  
*1 Semester Hour*

Development and refinement of enunciation and performing skills in English, Italian, and Latin. An extensive working knowledge of the International Phonetic Alphabet will be acquired.

Prerequisite: Major or minor.

**MUSC 341**  
**Vocal Pedagogy**  
*3 Semester Hours*

Study of the physiology and acoustics of the voice and its application to singing and to the teaching of singing.

Prerequisite: Major or minor.

**MUSC 342**  
**Diction for Singers II**  
*1 Semester Hour*

Continuation of MUSC 340; emphasis on German and French.

Prerequisite: MUSC 340.

**MUSC 343**  
**Opera Scenes/Workshop**  
*1-2 Semester Hours*

Preparation of scenes from major operas in either staged or concert versions, and study of the complete works to aid singers in establishing context and characterization. Repeatable credit.

Prerequisites: Audition after enrollment.

May be repeated for degree credit.

**MUSC 344**  
**Stage Movement**  
*0-1 Semester Hours*

Basic skills of coordinated movement appropriate to stage work. Exploration of the elements of poise, postural habits, and style based on principles developed by F.M. Alexander.

Corequisite: MUSC 343.

May be repeated for degree credit.
MUSC 361
Music of Africa
3 Semester Hours
An in-depth investigation of differences found in Sub-Saharan and North African genres.

MUSC 365
History of Jazz
3 Semester Hours
Evolution of jazz from its African origins to the present.

MUSC 366
History of Rock
3 Semester Hours
Evolution of rock and roll from its African-American origins to the present.

MUSC 380
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Fifth semester of private applied lessons in the major.
Prerequisite: MUSC 281.
Corequisite: MUSC 101.

MUSC 381
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Sixth semester of private applied lessons in the major.
Prerequisite: MUSC 380.
Corequisite: MUSC 101.

MUSC 382
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Third year of private applied lessons for non-majors (repeatable credit).
Permission of instructor required.

MUSC 387
Music Composition I
1 Semester Hour
The composition of original instrumental and vocal works for solo performers and small ensembles employing structures such as binary, ternary, and song forms.
Prerequisite: MUSC 222.

MUSC 388
Music Composition II
1 Semester Hour
Continuation of 387.
Prerequisite: MUSC 387.

MUSC 401
Music in Native North America
3 Semester Hours
A survey of traditional and contemporary music/dance within primary culture areas.

MUSC 402
Music of East, Central, and Southeast Asia
3 Semester Hours
A historically-oriented survey of traditional, art, and popular genres within each region.

MUSC 403
Music of Indonesia
3 Semester Hours
An exploration of performing arts in Java, Bali, and outer islands of the archipelago.

MUSC 404
Music of India
3 Semester Hours
An exploration of performing arts in North and South India.

MUSC 405
Music in Contemporary Society
3 Semester Hours
Using live performance as the springboard, the elements of music are examined from a cross-cultural perspective.

MUSC 407
Research and Methods in Ethnomusicology
1 Semester Hour
A survey of the essential literature of ethnomusicology; introduction to field methods, transcription, and analysis.
Prerequisite: MUSC 303 or consent of instructor.

MUSC 412
Pre-Renaissance and Renaissance Music
3 Semester Hours
The study of the major musical figures and their representative works from the chants of the early Christian church to the Baroque Era.
Prerequisites: MUSC 316, 317, and 318.

</table>
MUSC 481
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Eighth semester of private applied lessons in the major.
Prerequisite: MUSC 480.
Corequisite: MUSC 101.

MUSC 482
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Fourth year of private applied lessons for non-majors (repeatable credit).
Permission of instructor required.

MUSC 487
Music Composition III
1 Semester Hour
The composition of original instrumental and vocal works for large ensembles employing extended structures such as sonata, rondo, variation, and concerto forms.
Prerequisite: MUSC 388.

MUSC 488
Music Composition IV
1 Semester Hour
Continuation of 487.
Prerequisite: MUSC 487.

MUSC 490
Chamber Orchestra
0-1 Semester Hours
Offers students and members of the community instruction in orchestral music through the study and performance of quality literature representing a variety of style periods and musical genre.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 491
Consort Singers
0-1 Semester Hours
Smaller, more advanced choral ensemble provides an opportunity for students to perform challenging choral literature from a wide range of composers and styles. Should have previous choral experience.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.
MUSC 492  
Chamber Music Ensembles  
0-1 Semester Hours  
To gain an understanding of and to develop the skills necessary for small ensemble playing (includes guitar, string, and piano ensembles).  
Prerequisite: Audition after enrollment; permission of instructor required (piano ensembles).  
May be repeated for degree credit.

MUSC 493  
Women's Chorus  
0-1 Semester Hours  
The ensemble explores and performs choral literature for treble voices.  
Prerequisite: Audition after enrollment.  
May be repeated for degree credit.

MUSC 494  
Men's Chorus  
0-1 Semester Hours  
The ensemble explores and performs choral literature for male voices.  
Prerequisite: Audition after enrollment.  
May be repeated for degree credit.

MUSC 495  
Concert Choir  
0-1 Semester Hours  
The large choral ensemble offers students and members of the community instruction in choral music with emphasis on vocal techniques as well as the study and performance of quality literature representing a variety of style periods and musical genres.  
Prerequisite: Audition after enrollment.  
May be repeated for degree credit.

MUSC 496  
Theory Placement Practicum  
0-1 Semester Hours  
Techniques of preparation for theory/form/dictation placement examinations required of music graduate school programs.

MUSC 497  
Musicology Placement Practicum  
0-1 Semester Hours  
Techniques of preparation for musicology placement examinations required for entrance into music graduate school programs.

MUSC 498*  
Special Studies*  
1-3 Semester Hours  
*MUSC 498 and 499 may not be designated to stand in lieu of course content addressed by another course in the music curriculum, except by permission of the Chairperson.
Theatre Arts—
Department of Theatre Arts and Dance

Faculty:
Co-chairperson: Katharine B. Free
Professors: Katharine B. Free, Judith Royer, C.S.J.
Associate Professors: Diane Benedict, Charles E. Erven, Ron Marasco
Assistant Professors: Clifford A. Reed, Dan Weingarten

Objectives:
The Theatre Arts curriculum is planned to provide a broad education in the humanities and to develop in the student an appreciation of self and the universality of the human experience. Participation in the performing arts experience is central to this work. All students pursue a general theatre program. Some students may elect to emphasize work in the areas of acting, directing, playwriting, history/literature/criticism, or design/technical theatre. The Theatre Arts program is accredited by the National Association of Schools of Theatre.

Major Requirements:
Lower Division Requirements:
24 semester hours: THEA 111, 120, 220, 240, 245, 250 (2 semesters), and 7 hours of lower division Theatre coursework planned in consultation with departmental advisor.

Upper Division Requirements:
30 semester hours: 9 hours of Theatre history/literature/criticism courses from the THEA 330s, 340s, 430s; THEA 370, THEA 450 (3 semesters), THEA 490, and 12 hours of upper division Theatre electives.

A minimum grade of C (2.0) must be obtained in each course included in the major requirements.

Minor Requirements:
18 semester hours divided into 6 semester hours of lower division work, 12 semester hours of upper division theatre offerings, and participation in Departmentally-sponsored events.

Minor programs must be planned in consultation with a departmental advisor. A minimum grade of C (2.0) must be obtained in each course included in the minor program.

This schedule is typical. The sequence and choice of courses must be decided in consultation with an advisor.
THEA 210
Scene Study and Presentation
3 Semester Hours
Concentrated approach to scene analysis and presentation. Emphasis on further development and integration of acting skills in voice, movement, interpretation, and characterization for performance. (Fall)
Prerequisite: THEA 111 or equivalent experience, Theatre Arts majors/minors only.

THEA 212
Genre Performance Workshop
3 Semester Hours
An intensive study of the vocal, physical, and textual elements of selected styles and genres: Chekhov, Brecht, Shakespeare, or musical theatre. (Spring)
Prerequisite: THEA 210 or consent of instructor, Theatre Arts majors/minors only.

THEA 220
Introduction to Basic Scene, Lighting, and Costume Design
3 Semester Hours
A practical study of the elements and principles inherent in all modern theatrical design with the purpose of developing the students' awareness of and sensitivity to design in the world around them.
Lab included.

THEA 221
Visual Communication 2D
3 Semester Hours
This course refines the sense of color and design begun in earlier courses by enhancing students' responsiveness to visual form, organization, and structure. By learning basic sketching and painting techniques in a variety of media, this course examines methods and procedures for effective communication and realization of visual concepts.
Prerequisite: THEA 220 or consent of instructor.

THEA 222
Visual Communication 3D
3 Semester Hours
Building on the lessons learned in THEA 221, this course applies various sceno-graphic techniques used in the various stages of planning and executing a setting for the theatre. It seeks to bring together for the special use of drafting techniques selected portions of descriptive geometry, pattern making or developments from engineering drawing, model construction, and the graphics of perspective.
Prerequisite: THEA 221 or consent of instructor.

THEA 225
Basic Stage Make-Up
2 Semester Hours
The art and application of stage make-up. Recommended for acting students and cast members.

THEA 240
Western Theatre History and Literature I
3 Semester Hours
A study of the theatre (literature, playhouse, performance conventions) of the ancient Greek and Roman worlds, the Medieval world, the Renaissance, and the Elizabethan period. (Fall)

THEA 245
Western Theatre History and Literature II
3 Semester Hours
A study of the theatre (literature, playhouse, performance conventions) from the 17th century to the 20th century. (Spring)

THEA 250
Theatre Practicum: Crew
1-3 Semester Hours
Participation in production in Theatre and Dance presentations. May be repeated for credit up to 9 semester hours.
Prerequisite: Theatre Arts majors/minors only.

THEA 251
Theatre Practicum: Performance
1-3 Semester Hours
Participation in performance in theatre presentations. May be repeated for credit up to 9 semester hours.
Prerequisite: By audition.

Courses numbered from 260-279 are designed specifically to meet the University core requirements in math, science and technology for students not majoring within the College. With the exception of MATH 101, other lower-division courses in the College may also satisfy University core requirements. Check with your Dean’s office.

Application of General University Requirements

The University requirements for admission and graduation and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the Frank R. Seaver College of Science and Engineering.

Degrees Offered

Bachelor of Arts in: Biology and Mathematics

Bachelor of Science in Engineering in: Civil, Electrical, and Mechanical Engineering.

Master of Arts in Teaching in: Mathematics.

Master of Science in Engineering in: Civil, Electrical, and Mechanical Engineering.

Master of Science in: Computer Science, Environmental Science, Engineering and Production Management, and Systems Engineering.

Teacher Preparation Programs

The College offers subject matter preparation programs in mathematics and in science specifically designed to meet State of California subject matter requirements for a secondary teaching credential. Both the Bachelor of Arts degree in Mathematics (see the Mathematics section) and the Bachelor of Science degree in Natural Science following the secondary science emphasis in either Biology or Chemistry (see the Natural Science section) are designed to allow completion of the California Preliminary Single Subject (Secondary) credential in four years. These programs are offered in conjunction with the School of Education. The College also offers courses in mathematics.
and science to support the multiple subject credential program for teaching elementary school (see the Liberal Studies section in the Liberal Arts part of the Bulletin).

All students interested in teaching mathematics or science at the secondary level should inform their departmental advisors as soon as possible and should also contact the School of Education for help in coordinating their programs.

Core Curriculum

Students in the Frank R. Seaver College of Science and Engineering will follow core curriculum A, B, or C below, depending on degree plan.

Note: Engineering and Engineering Physics students should follow Core Curriculum B.

A. Core Curriculum for the Bachelor of Science Degree

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours

Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking
3 Semester Hours

Course Selection
Communication:
Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:
Choose from CMST 206 or PHIL 220.

Critical/Creative Arts
3 Semester Hours

Course Selection
Choose from ANIM 120; ART 150, 250, 350; DANC 163; MUSC 105, 106; THEA 110, 400.

History
3 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization.

Western Civilization:
Choose from HIST 100 or 101.

Literature
3 Semester Hours

Course Selection
Choose from CLAS 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology
18 Semester Hours

Course Selection
This requirement is met by the curriculum of the major.

Philosophy
6 Semester Hours

Course Selection
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose one course from PHIL 320 through 330.
Social Sciences  
6 Semester Hours

Student must select one of the following options:

1. Select two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies  
6 Semester Hours

Course Selection
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101 which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: CLAS 200, 210, 220; FNLT 180; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: GEOG 100; POLS 155; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations:

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad Office.

B. Core Curriculum for the Bachelor of Science in Engineering or the Bachelor of Science in Engineering Physics Degree

American Cultures  
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing  
3 Semester Hours

Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.
Communication or Critical Thinking
3 Semester Hours
Course Selection
Communication:
Choose from CMST 100, 110, 130, or 140.
OR Critical Thinking:
Choose from CMST 206 or PHIL 220.

Critical/Creative Arts
3 Semester Hours
Course Selection
Choose from ANIM 120; ART 150, 250, 350; DANC 163; MUSC 105, 106; THEA 110, 400.

History
3 Semester Hours
Course Selection
This requirement is satisfied by taking one course from Western Civilization.
Western Civilization:
Choose from HIST 100 or 101.

Literature
3 Semester Hours
Course Selection
Choose from CLAS 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.
Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology
18 Semester Hours
Course Selection
This requirement is met by the curriculum of the major.

Philosophy
6 Semester Hours
Course Selection
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose one course from PHIL 320 through 330.

Social Sciences
6 Semester Hours
For students pursuing a Bachelor of Science in Engineering or Engineering Physics degree, this requirement is met by the major curricula.

Theological Studies
6 Semester Hours
Course Selection
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.
Upper Division:
Choose from the 300-level series of THST courses only.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad Office.

C. Core Curriculum for the Bachelor of Arts Degree

American Cultures
3 Semester Hours
Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours
Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking
3 Semester Hours
Course Selection
Communication:
Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:
Choose from CMST 206 or PHIL 220.

Critical/Creative Arts
6 Semester Hours
Course Selection
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts:
Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FILM 210, 314, 315; INDA 100; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Creative Arts:
Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); FILM 260; MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

History
6 Semester Hours
Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization:
Choose from HIST 100 or 101.

Contemporary Societies:
Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours
Course Selection
Choose from CLAS 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology
18 Semester Hours
Course Selection
This requirement is met by the curriculum of the major.
Philosophy

6 Semester Hours

Course Selection

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one course from PHIL 320 through 330.

Social Sciences

6 Semester Hours

Student must select one of the following options:

1. Select two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies

6 Semester Hours

Course Selection

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101 which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: ARHS 200, 201, 202; CLAS 200, 210, 220; DANC 281; FILM 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; GEOG 100; HIST 172, 182; MUSC 303, 365; POLS 158; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations:

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business

Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

A semester of international study abroad is also recommended. Consult the Study Abroad Office.
Biology

Faculty:
Chairperson: M. Catharine McElwain
Profsesors: Michael Danciger, Roy S. Houston, Stephen H. Scheck, Anthony P. Smulders, CFMM, John P. Waggoner III
Associate Professors: Philippa M. Drennan, Gary Kuleck, M. Catharine McElwain, Martin Ramirez
Assistant Professors: Wendy J. Binder, Jennifer R. Gillette, Carl R. Urbinati

The mission of the Biology Department is to promote an appreciation for and understanding of the science of biology in our students. The particular objectives of the Biology Department are to: (1) provide students with a broad background in the biological sciences; (2) enable students to master the essential concepts of biology; (3) develop students’ ability to think critically about scientific information and solve scientific problems; (4) enable students to articulate ideas and present information in both written and oral forms in a clear, organized fashion; (5) teach students the skills of both field and laboratory biology, and enable them to participate directly in the scientific discovery process; (6) facilitate students’ independent exploration of career opportunities; and (7) participate in the University’s effort to educate non-science majors in the areas of science and technology.

The B.S. in Biology
The B.S. in Biology degree prepares students for a variety of careers following graduation. Substantial numbers of students go on to health professional schools to study medicine, dentistry, pharmacy, optometry, podiatric medicine, and veterinary medicine. Other students go on to various graduate programs in the basic biological sciences (e.g., physiology, genetics, molecular biology, immunology, microbiology, marine biology, ecology, etc.), college teaching, and positions in industry and in research and development.

The B.S. in Biology program provides for the opportunity to double major in Biology-Chemistry, Biology-Physics, Biology-Mathematics, Biology-Engineering, and Biology-Psychology. A special option is available in Marine Biology.

Major Requirements, Lower Division: for the B.S. in Biology
BIOL 101*, 102*, 111*, 112*, 201*, 202*; CHEM 110*, 111*, 112*, 113*, 220*, 221*, 222, 223; MATH 122*, 123 (MATH 131, 132 may be substituted for MATH 122, 123); PHYS 253, 254, 255, 256.

* A student must complete with a C (2.0) average the lower division requirements indicated by asterisks, including a C (2.0) average in BIOL 101, 102, 111, 112, 201, and 202, prior to becoming eligible to take any upper division biology course.

The B.A. in Biology
The B.A. in Biology degree is a general liberal arts program. The core curriculum for the B.A. in Biology is identical to that for the Bellarmine College of Liberal Arts except that additional Mathematics, Science and Technology courses are required by the major. The B.A. will allow for a double major with other liberal arts programs. Preprofessional students should select the program leading to the B.S. degree.

Major Requirements, Lower Division: for the B.A. in Biology
BIOL 101*, 102*, 111*, 112*, 201*, 202*; CHEM 110*, 111*, 112*, 113*, 220*, 6 semester hours of mathematics to include MATH 122*, plus 3.0 additional semester hours in science to be approved by the Department Chairperson.

* A student must complete with a C (2.0) average the courses indicated with an asterisk, including a C (2.0) average in BIOL 101, 102, 111, 112, 201, and 202, prior to becoming eligible to take any upper division biology course.

Major Requirements, Upper Division: (both B.S. and B.A. in Biology)
27 (B.S.) or 24 (B.A.) upper division semester hours in Biology, to be selected from the groups listed below, and to include at least 4 laboratory courses.

(a) One course in Cell/Organism Function, to be selected from BIOL 351, 353, 356, 357, 371.
(b) One course in Molecular Biology, to be selected from BIOL 330, 437, 439, 443.
(c) One course in Organismal Diversity, to be selected from BIOL 312, 328, 329, 333, 334, 335, 361, 421, 422.
(d) One course in Populations, to be selected from BIOL 315, 316, 318, 328, 329, 422, 423, 475, 477.

Note: BIOL 328, 329, or 422 can satisfy only (c) or (d).

(e) One 2 semester hour seminar or research course from the 500 series.

(f) 3 (B.S.) or 2 (B.A.) additional upper division biology courses.

(g) The above requirements must also include one plant biology course to be selected from BIOL 312, 315, 353, 371, 437, and one field biology course to be selected from BIOL 312, 318 plus 319, 328, 329, 333, 421, 422, 423 (BIOL 312 can satisfy only one of these two categories).

In addition to the 27 or 24 required semester hours, upper division biology courses may be taken as electives. Students preparing for specific graduate careers should discuss appropriate courses with their advisors.

To graduate as a biology major, a student must accumulate a C (2.0) average in all major requirements and pass the Biology Proficiency Exam.

Secondary Teaching Credential

See the appropriate biology faculty advisor.

Minor Requirements:

BIOL 101, 102, 111, 112, 201, and 202; CHEM 110 and 112; plus 7 semester hours in upper division BIOL courses. The upper division courses for the minor must be selected under the direction of the Chairperson of the Department.

An average grade of C (2.0) must be accumulated in all lower division requirements prior to taking upper division courses. An average grade of C (2.0) must also be accumulated in all upper division courses included in the minor.

* The course sequence in Mathematics depends on the results of the Mathematics Placement Exam.

Students who have completed MATH 123 or 132 may begin the physics sequence in the Fall semester of either the sophomore or junior year.

The sequence of the University Core courses should be discussed with the student’s advisor.

---

**BIOL 101**

**General Biology I**

3 Semester Hours

Unifying principles of biology; introduction to cell structure and function, histology, genetics, control systems, organ systems, and taxonomy.

College of Science and Engineering majors only.

Lecture, 3 hours.

**BIOL 102**

**General Biology II**

3 Semester Hours

The mechanism of evolution; major patterns of biotic evolution; principles of ecology.

College of Science and Engineering majors only.

Lecture, 3 hours.

Prerequisites: BIOL 101 and 111.

**BIOL 111**

**General Biology I Laboratory**

2 Semester Hours

A survey of the five kingdoms.

College of Science and Engineering majors only.

Lecture, 1 hour; Laboratory, 4 hours.

Prerequisite: BIOL 101 or concurrent enrollment.

**BIOL 112**

**General Biology II Laboratory**

2 Semester Hours

An experimental approach to biology with emphasis on design, execution, and analysis to answer biological questions.

College of Science and Engineering majors only.

Lecture, 1 hour; Laboratory, 4 hours.

Prerequisite: BIOL 101 or BIOL 102, or concurrent enrollment, plus CHEM 112 and 113 or concurrent enrollment.

**BIOL 150**

**Human Anatomy and Physiology**

3 Semester Hours

The development, structure, and function of the human body with emphasis on integration and homeostasis.

For majors in liberal studies and psychology only.

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 194</td>
<td>Introduction to Research</td>
<td>1</td>
<td>An introduction to scientific research methodology: information gathering, data analysis, laboratory research practice. Attendance at departmental seminars is required. Laboratory, 4 hours.</td>
</tr>
<tr>
<td>BIOL 198</td>
<td>Special Studies</td>
<td>1-4</td>
<td></td>
</tr>
<tr>
<td>BIOL 199</td>
<td>Independent Studies</td>
<td>1-4</td>
<td></td>
</tr>
<tr>
<td>BIOL 201</td>
<td>Cell Function</td>
<td>3</td>
<td>Cellular and sub-cellular structures and functions including: DNA and RNA structure and function, protein synthesis and structure, enzyme function, metabolic pathways, membrane function. Prerequisites: BIOL 101, CHEM 112, or concurrent enrollment.</td>
</tr>
<tr>
<td>BIOL 202</td>
<td>Genetics</td>
<td>3</td>
<td>A study of Mendelian and molecular genetics. Prerequisite: BIOL 201.</td>
</tr>
<tr>
<td>BIOL 260</td>
<td>Human Biology</td>
<td>3</td>
<td>The discussion of general biological principles with a human emphasis. Topics include: cells, heredity and reproduction, animal behavior, organ systems, drugs, disease, ecology, and evolution. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>BIOL 261</td>
<td>Evolutionary Thought</td>
<td>3</td>
<td>The development of the idea of evolution, beginning with the introduction of Greek ideas into the medieval European culture, to the present day. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>BIOL 262</td>
<td>Human Health</td>
<td>3</td>
<td>A study of important diseases. Not open for credit for students who have completed the Community College Health Education Requirement. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>BIOL 263</td>
<td>Natural History of Southern California</td>
<td>3</td>
<td>Introduction to the geography, climate, plant communities, and common animals of Southern California; animals will be covered in regard to behavior, taxonomy, and ecology. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>BIOL 264</td>
<td>The Marine Environment</td>
<td>3</td>
<td>An introduction to marine biology, including its history, different communities and the animals and plants that occur in marine ecosystems, and their economic importance. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>BIOL 265</td>
<td>Biology of African Wildlife</td>
<td>3</td>
<td>Study of ecological, behavioral, and life history characteristics of selected African animals. Includes a two-week study trip to eastern or southern Africa (Biology majors should take BIOL 332). Offered alternate years. Summers only—Study Abroad Program. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>BIOL 266</td>
<td>Sacred and Medicinal Plant Use</td>
<td>3</td>
<td>The sacred and medicinal use of plants and hallucinogenic fungi by traditional and modern cultures, including the biological basis for their use. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>

<tr>
<td>BIOL 271</td>
<td>Human Reproduction and Development</td>
<td>3</td>
<td>The biological aspects of human reproduction, including the basic reproductive system, genetics, fetal development, nutrition, pregnancy, birth, and neonatal development.</td>
</tr>
<tr>
<td>BIOL 272</td>
<td>Human Drug Use</td>
<td>3</td>
<td>The physiological, psychological, and social effects of the use of alcohol, tobacco, and other therapeutic and recreational drugs.</td>
</tr>
<tr>
<td>BIOL 275</td>
<td>Human Genetics</td>
<td>3</td>
<td>Basic Mendelian genetics and the application to individual risk assessments. Population genetics and the implications of artificial selection. Modern molecular genetics and medical applications.</td>
</tr>
<tr>
<td>BIOL 276</td>
<td>Human Exercise</td>
<td>3</td>
<td>Introduction to basic biological responses and adaptations of the body to exercise. Particular attention is given to physical fitness, health, and athletics; how biomedical research is conducted; and how the lay person can decipher research findings.</td>
</tr>
<tr>
<td>BIOL 277</td>
<td>Plants and Society</td>
<td>3</td>
<td>An introduction to the natural evolution of plant species and the associated cultural evolution of man's relationship to plants. A multidisciplinary approach to studying the relationship between plants and people. An exploration of plants as sources of food and medicine, commercial products, and the role of plants in preserving and restoring the environment.</td>
</tr>
<tr>
<td>BIOL 278</td>
<td>Tropical Marine Ecology</td>
<td>3</td>
<td>Field studies of the tropical marine habitats in Isla Roatán, Honduras. This includes the examination of the ecology and biology of coral reefs, mangroves, seagrass beds, and intertidal communities.</td>
</tr>
<tr>
<td>BIOL 294</td>
<td>Independent Research</td>
<td>1-4</td>
<td>Prerequisite: BIOL 194 or concurrent enrollment.</td>
</tr>
<tr>
<td>BIOL 295</td>
<td>Biology Internship</td>
<td>1</td>
<td>Work experience involving research, industry-, or community-based projects. May be taken only once for credit.</td>
</tr>
<tr>
<td>BIOL 298</td>
<td>Special Studies</td>
<td>1-4</td>

</table>
BIOL 333
Biology of Mammals
4 Semester Hours
Examination of physical, physiological, and ecological characteristics of mammals, including taxonomic relationships, feeding and reproductive strategies, and local and world distribution of mammalian orders and families.
Lecture, 3 hours; Laboratory, 4 hours; Weekend field trips.
For majors only.
Prerequisites: BIOL 102; CHEM 110, 112.

BIOL 334
Invertebrate Zoology
4 Semester Hours
A study of the anatomy, physiology, behavior, and ecology of invertebrates and the evolutionary relationships within and among the invertebrate phyla.
Lecture, 3 hours; Laboratory, 4 hours.
Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

BIOL 335
Comparative Anatomy
4 Semester Hours
A comparative study of the vertebrate structures and their significance in terms of their evolution and function.
Lecture, 3 hours; Laboratory, 4 hours.
Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

BIOL 351
General Physiology
3 Semester Hours
Introduction to physiological principles and concepts with emphasis on organ systems.
Prerequisite: BIOL 201.

BIOL 352
Physiology Laboratory
1 Semester Hour
Laboratory experiments in physiology.
Laboratory, 4 hours; Data analysis, 1 hour.
Prerequisite: BIOL 351 or 356 or 357, or concurrent enrollment.

BIOL 353
Plant Physiology
3 Semester Hours
Introduction to plant function, including photosynthesis, mineral nutrition, water relations, metabolism, and growth processes.
Prerequisites: BIOL 201; CHEM 220, 221; MATH 122 or 131.

BIOL 354
Plant Physiology Laboratory
1 Semester Hour
Laboratory experiments in plant physiology.
Laboratory, 4 hours.
Prerequisite: BIOL 353 or concurrent enrollment.

BIOL 356
Cell Biology
3 Semester Hours
A detailed study of subcellular organelles, including their origin, function, and regulation within the cell.
Prerequisites: BIOL 202; CHEM 222, 223.

BIOL 357
Comparative Animal Physiology
3 Semester Hours
A study of the different strategies utilized by various organisms to deal with problems of oxygen supply, temperature, water, salt balance, etc. Emphasis is on the vertebrates.
Prerequisites: BIOL 102, 201; CHEM 110, 112.

BIOL 361
General Microbiology
3 Semester Hours
Properties and ecology of viruses, bacteria, and protists; principles of genetics and physiology of bacteria; pathogenesis of bacteria and viruses; microbes as tools for molecular biology.
Prerequisites: BIOL 202; CHEM 220.

BIOL 362
General Microbiology Laboratory
1 Semester Hour
Laboratory experiments in general microbiology.
Laboratory, 4 hours.
Prerequisite: BIOL 361 or concurrent enrollment.

</tbody>
</table>
BIOL 438
Plant Development Laboratory
1 Semester Hour
Laboratory experiments in plant developmental biology.
Laboratory, 4 hours.
Prerequisite: BIOL 437 or concurrent enrollment.

BIOL 439
Molecular Biology Applications
4 Semester Hours
The application of the techniques employed in molecular biology to the study of inherited diseases, genetic engineering, infectious diseases, cancer, and gene therapy.
Lecture, 2 hours; Laboratory, 6 hours.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 443
Molecular Biology
3 Semester Hours
Study of properties, synthesis, and interactions of macromolecules; genetic engineering.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 445
Endocrinology
3 Semester Hours
The study of the production, functions, and interactions of hormones and other chemical messengers involved in the integration of the living organism.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 449
Immunology
3 Semester Hours
The study of the immune response mechanisms in the vertebrate organism, with special reference to humans.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 461
Microbial Genetics
3 Semester Hours
Mechanisms of inheritance and the regulation of gene expression in bacteria and viruses. Viral interactions with higher eukaryotes.
Prerequisites: BIOL 202; CHEM 222, 223 or concurrent enrollment.

BIOL 475
Evolution
3 Semester Hours
Study of the pattern and process of evolution. Topics include the development of theories of evolutionary change; the mechanisms of evolutionary change at the population (micro) level; and evolution at the macro level, focusing on speciation, phylogenetic analysis, historical biogeography, and extinctions.
Lecture, 3 hours; laboratory, 4 hours.
Prerequisites: BIOL 101, 102, 112, 201, 202.

BIOL 476
Evolution Laboratory
1 Semester Hour
Companion laboratory to BIOL 475.
Laboratory, 4 hours.
Prerequisite: BIOL 475 or concurrent enrollment.

BIOL 477
Conservation Genetics
4 Semester Hours
Survey of the major topics in conservation genetics. Basic models of population genetics and topics relevant to conservation genetics, such as population structure, inbreeding, genetic load, genetic variation, reserve design, and the ethical, moral, and political aspects of species conservation.
Lecture, 3 hours; laboratory, 4 hours.
Prerequisites: BIOL 101, 102, 202.

BIOL 490
Biological Teaching
1-2 Semester Hours
Guided teaching of undergraduate laboratories.
May be repeated for credit.
Requires consent of instructor.

BIOL 494
Independent Research
1-4 Semester Hours
Prerequisite: BIOL 194 or concurrent enrollment.

BIOL 498
Special Studies
1-4 Semester Hours

BIOL 563  
Molecular Genetics Research  
2 Semester Hours  
Laboratory work in gene mapping and gene isolation.  
Requires consent of instructor.

BIOL 565  
Plant Developmental Biology Research  
2 Semester Hours  
Laboratory work in molecular and genetic analysis of plant development.  
Requires consent of instructor.  
Prerequisite: BIOL 194 or concurrent enrollment.

BIOL 569  
Ethnobotany Seminar  
2 Semester Hours  
An introduction to the mutual relationships between plants and traditional peoples with an emphasis on phyto medicines and sustainability.  
Requires consent of instructor.

BIOL 571  
Conservation Biology Seminar  
2 Semester Hours  
A survey of topics relating to the conservation of animals and plants, including extinction, genetic aspects, demography, insularization, threats to biodiversity, economics and politics, religious and ethical perspectives, and practical applications.  
Requires consent of instructor.

BIOL 577  
Tetrahymena Genetics Research  
2 Semester Hours  
An introduction to the production and analysis of genetic variants of the ciliated protozoan tetrahymena.  
Requires consent of instructor.  
Prerequisite: BIOL 194 or concurrent enrollment.

BIOL 583  
Quantitative Biology Seminar  
2 Semester Hours  
Mathematical and computer tools used in biology.  
Requires consent of instructor.

BIOL 585  
Issues in Biotechnology Seminar  
2 Semester Hours  
An interdisciplinary seminar series bringing together faculty from different disciplines to present and discuss topics in biotechnology. Examples include sustainable agriculture, advances in medicine and biotechnology, legal and ethical considerations and biotechnology, the environment and biotechnology, the manipulation of biological machinery (proteins), the fusion of engineering and biotechnology (nanotechnology), the business of biotechnology.  
Requires consent of instructor.

BIOL 587  
Molecular Mechanisms in Development Seminar  
2 Semester Hours  
An exploration of current research utilizing molecular/genetic techniques to study developmental biology.  
Requires consent of instructor.

BIOL 594  
Independent Research  
1-4 Semester Hours

BIOL 598  
Special Studies  
1-3 Semester Hours  
Requires consent of instructor.

BIOL 599

Chemistry and Biochemistry

Faculty:
Chairperson: James A. Roe
Professors: William F. Cain, S.J., Rebecca D. Crawford, James M. Landry, James A. Roe
Associate Professors: S.W. Tina Choe, Thomas J. Reilly
Assistant Professor: Lambert A. Doezema

Chemistry and biochemistry are empirical sciences. In addition to intellectual mastery of the disciplines, the major programs also develop practical experimental skills. The LMU student obtains “hands on” experience, both in traditional synthetic and analytic bench chemistry, and with all the major contemporary methods and techniques, taking advantage of the department’s complete instrumentation. This equipment includes preparative, separative, thermal analysis, and spectroscopic instruments. Besides ordinary laboratory apparatus, the student will work with a spinning band column, a high speed centrifuge, HPLC, GC, GC-MS, DSC, FT-IR, UV-Vis, flame and furnace AA, AES-ICP, and FT-NMR.

Because of the complex and sensitive nature of the equipment and techniques of chemistry and biochemistry, continued participation in the programs is contingent on appropriate development of the ability to work maturely and responsibly in the laboratory.

Chemistry

Objectives:
The Bachelor of Science degree program, approved by the Committee on Professional Training of the American Chemical Society, is designed to prepare the student not only for immediate entry into the profession of chemistry at the Bachelor’s level but also for graduate study toward advanced degrees. It is also an excellent preparation for entry into medical, dental, and other health professional schools.

Major Requirements:
Lower Division Requirements: Chemistry
CHEM 110, 111, 112, 113, 220, 221, 222, 223. A grade of at least C (2.0) is required in each of these. CHEM 190; MATH 131 and 132; PHYS 101, 103, 201, and 203. With approval of the Chairperson, MATH 122 and 123; PHYS 253, 254, 255, and 256 may be substituted, as a complete package, for MATH 131 and 132; PHYS 101, 103, 201, and 203. Recommended elective: MATH 234.

Upper Division Requirements: Chemistry
34 upper division semester hours of chemistry, which will include CHEM 330, 340, 341, 342, 343, 360, 361, 370 or 470, 390, 391, 430, 431, 460, 461, 490, 491, and 560, but not 495.

Except for CHEM 390 and 490, a grade of at least C (2.0) must be obtained in each course included in the upper division requirements of the major.

Strongly recommended for those intending graduate study: CHEM 499 or 599; German, Japanese, Russian, or other appropriate modern language.

A maximum of 12 semester hours of Chemistry/Biochemistry Co-op and/or Directed Research (CHEM 393, 493, 499, 599) may be included toward the 124-hour baccalaureate requirement.

Minor Requirements: Chemistry
CHEM 110, 111, 112, 113, 220, 221, 222, 223; plus a minimum of 7 upper division semester hours of CHEM courses including one upper division laboratory course. These must be selected under the direction of the Chairperson of the Department.

A grade of C (2.0) must be obtained in each course included in the minor.

No chemistry minor is available in conjunction with a biochemistry major. It is suggested that the student interested in in-depth study of both subjects should major in chemistry and minor in biochemistry.

Variances:
Petitions for waivers of departmental requirements or prerequisites should be addressed to the Chairperson of the Department.

Biochemistry

**Objectives:**

The Bachelor of Science in Biochemistry degree program is designed to prepare the student for a career in the intensively active biochemistry or chemical biology fields, seeking to understand the functions and intricate interactions of those molecules that give rise to the phenomenon of life. There are many opportunities either for immediate entry into the field or for further study at the graduate level. In addition, for qualified students, biochemistry is one of the best preparations for entry into health professional schools.

The American Chemical Society is reviewing a proposal to certify the BS in Biochemistry as an approved “Chemistry with Biochemistry emphasis” degree.

**Major Requirements:**

**Lower Division Requirements: Biochemistry**

CHEM 110, 111, 112, 113, 220, 221, 222, and 223. A grade of at least C (2.0) is required in each of these. BIOL 101, 111, 112, 201, and 202; CHEM 190; MATH 131 and 132; PHYS 101, 103, 201, and 203. With approval of the chairperson, MATH 122 and 123; PHYS 253, 254, 255, and 256 may be substituted, as a complete package, for MATH 131 and 132; PHYS 101, 103, 201, and 203.

**Upper Division Requirements: Biochemistry**

30 upper division semester hours of chemistry and biochemistry, which will include CHEM 340, 341, 346, 360, 361, 390, 391, 470, 471, 472, 473, 490, 491, and 537, 570, 580, or other advanced biochemical elective, but not CHEM 495. Three upper division courses in biology which will include BIOL 356 and two others selected from BIOL 330, 351, 353, 361, 371, 437, 439, 443, 445, or 449. It is recommended that this selection include one laboratory course or one molecular biology course. An additional advanced biochemistry elective may be taken in place of one of the upper division biology courses.

Students wishing to be awarded ACS certification may take CHEM 460 and 461 in place of one of the upper division biology electives.

Except for CHEM 390 and 490, a grade of at least C (2.0) must be obtained in each course included in the upper division requirements of the major.

Strongly recommended for those intending graduate study: CHEM 499 or 599; German, Japanese, Russian, or other appropriate modern language.

A maximum number of 12 semester hours of Chemistry/Biochemistry Co-op and/or Directed Research (CHEM 393, 493, 499, 599) may be included toward the 124-hour baccalaureate requirement.

**Minor Requirements: Biochemistry**

BIOL 101, 111, 201; CHEM 110, 111, 112, 113, 220, 221, 222, 223, 370, or 470; and 4 additional upper division semester hours selected from CHEM 471, 472, 473, or 580 or other advanced biochemical elective including one upper division laboratory course. These must be selected under the direction of the Chairperson of the Department.

A grade of C (2.0) must be obtained in each course included in the minor.

**Variances:**

Petitions for waivers of departmental requirements or prerequisites should be addressed to the Chairperson of the Department.

CHEM 110
General Chemistry I
3 Semester Hours

Atomic theory, stoichiometry, properties of gases, solids, liquids, periodic law, solutions, thermochemistry, redox equations.
Lecture, 3 hours.

CHEM 111
General Chemistry I Lab
1 Semester Hour

Use of balance, atomic, molecular, and equivalent weights; molar volumes; introduction to gravimetric and titrimetric analysis.
Lecture and laboratory, 4 hours.
Prerequisite: CHEM 110 or concurrent enrollment.

CHEM 112
General Chemistry II
3 Semester Hours
Chemical kinetics, thermodynamics, acids and bases, equilibria, electrochemistry, descriptive chemistry.
Lecture, 3 hours.
Prerequisites: CHEM 110 and 111.

CHEM 113
General Chemistry II Lab
1 Semester Hour
Kinetics, redox, pH, electrode potentials, spectrophotometry, qualitative inorganic analysis.
Lecture and laboratory, 4 hours.
Prerequisite: CHEM 112 or concurrent enrollment.

CHEM 190
World of Chemistry and Biochemistry
1 Semester Hour
Introduction to chemistry/biochemistry as a program and a profession. How to study and succeed. How to plan a profession and a career.
Seminar, 2 hours.
CR/NC Grading only.

CHEM 198
Special Studies: Chemistry Topics
1-3 Semester Hours

CHEM 199
Independent Studies
1-3 Semester Hours

CHEM 220
Organic Chemistry I
3 Semester Hours
Lecture, 3 hours.
Prerequisites: CHEM 112 and 113.
CHEM 221
Organic Chemistry I Lab
1 Semester Hour

Techniques of simple, fractional, and steam distillation; crystallization and extraction; some synthesis.
Lecture and laboratory, 4 hours.
Prerequisite: CHEM 220 or concurrent enrollment.

CHEM 222
Organic Chemistry II
3 Semester Hours

Spectroscopy. Chemistry of alcohols and carbonyl compounds. Amines, amino acids, carbohydrates, and proteins. Glycolysis, the citric acid cycle, and oxidative phosphorylation.
Lecture, 3 hours.
Prerequisites: CHEM 220 and 221.

CHEM 223
Organic Chemistry II Lab
1 Semester Hour

Reactions of aldehydes and ketones. Syntheses using the Grignard and Sandmeyer reactions. Preparation of an ester, an azo dye, and a ketone.
Lecture and laboratory, 4 hours.
Prerequisite: CHEM 222 or concurrent enrollment.

CHEM 260
Energy
3 Semester Hours

The concepts of energy and power; the basic principles of thermodynamics; techniques and systems for converting natural energy resources into useful forms; alternate energy resources; short- and long-term aspects of energy supply.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

CHEM 261
The Science in Science Fiction
3 Semester Hours

The physics, chemistry, and biology found in science fiction literature, examined for accuracy and probability. Topics include the physics of space and space habitats, the chemistry and biology of life arising under non-earthlike conditions, and the ecology of imagined worlds. “Engineering” new worlds on the basis of sound scientific theory will be expected. Understanding of physical implications of simple algebraic expressions is required.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

CHEM 262
The Chemical Environment
3 Semester Hours

The important chemical processes of the world in which we live; air, water, agriculture, food additives, household chemicals, cosmetics, chemotherapy, sports, toxic waste management.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

CHEM 263
Consumer Chemistry
3 Semester Hours

The chemistry of everyday consumer products and how the products work will be examined. Product examples discussed will include foods, shampoo, selected drugs, clothing, and others.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

CHEM 265
The Chemistry of Food
3 Semester Hours

The chemistry involved in food preparation and development. Examples include flavorings, food additives, what happens when it is cooked, then eaten; nutritional aspects of foods, food supplements, preservation, food fads.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

Chemistry Seminar  
1 Semester Hour

Regular attendance at Departmental Seminar Program.
CR/NC grading only.

CHEM 391  
Chemistry Seminar  
1 Semester Hour

Regular attendance at Departmental Seminar Program and presentation of a seminar.

CHEM 393  
Chemistry/Biochemistry Internship  
1-3 Semester Hours

Research/Development work conducted in a professional chemical setting in a local government or industrial laboratory. Work includes both theory and laboratory practice on a project designed cooperatively by the laboratory’s supervisory staff and LMU faculty. The project is jointly supervised by on-site staff and LMU faculty.
May be repeated for credit up to 6 seminar hours.

CHEM 398  
Special Studies: Chemistry Topics  
1-3 Semester Hours

CHEM 399  
Independent Studies  
1-3 Semester Hours

CHEM 430  
Advanced Inorganic Chemistry I  
3 Semester Hours

Chemical bonding treated from the viewpoints of valence bond, ligand field, and molecular orbital theories. Applied thermodynamics, kinetics, and acid-base concepts.
Lecture, 3 hours.
Prerequisites: CHEM 342 and 343.

CHEM 431  
Advanced Inorganic Chemistry I Lab  
1 Semester Hour

Inorganic synthesis using special methods such as furnace, dry box, high vacuum, and electric discharge. Resolution of stereoisomers, and determination of magnetic susceptibility.
Lecture and laboratory, 4 hours.
Prerequisites: CHEM 360, CHEM 430 or concurrent enrollment, CHEM 360.

CHEM 460  
Instrumental Analysis  
3 Semester Hours

Analytical methods using instrumental techniques, including gas and liquid chromatography, atomic, molecular, nuclear magnetic resonance, and mass spectroscopy.
Lecture, 3 hours.
Prerequisites: CHEM 340 and 341 or concurrent enrollment.
CHEM 461
Intrumental Analysis Lab
1 Semester Hour
Laboratory in selected methods of modern instrumental analysis, including gas and liquid chromatography, UV-visible spectroscopy, atomic absorption and plasma emission spectroscopy, Fourier-transform infrared spectroscopy, gas chromatography-mass spectrometry, nuclear magnetic resonance spectroscopy, laboratory computers.
Laboratory, 4 hours.
Prerequisites: CHEM 360, CHEM 460 or concurrent enrollment.

CHEM 470
Biochemistry I
3 Semester Hours
Macromolecular structure and function; enzymology; bioenergetics and kinetics; major metabolic pathways. Biochemistry and chemistry majors. Not available for credit with CHEM 370.
Lecture, 3 hours.
Prerequisites: CHEM 222 and 223.

CHEM 471
Biochemistry I Lab
1 Semester Hour
Techniques of protein purification, enzyme assay, and kinetics.
Lecture and laboratory, 4 hours.
Prerequisite: CHEM 370 or 470 or concurrent enrollment.

CHEM 472
Biochemistry II
3 Semester Hours
Metabolic regulation; macromolecular structure, function, and synthesis; membrane transport. DNA and RNA metabolism and control. Biochemistry of vitamins and other nutrients. Protein biosynthesis.
Lecture, 3 hours.
Prerequisite: CHEM 470.

CHEM 473
Biochemistry II Lab
1 Semester Hour
Techniques in lipid and carbohydrate analysis; enzyme regulation; enzymes as diagnostic tools, restriction enzymes.
Lecture and laboratory, 4 hours.
Prerequisites: CHEM 471 and 472 or concurrent enrollment.

CHEM 490
Chemistry Seminar
1 Semester Hour
Regular attendance at Departmental Seminar Program.
CR/NC grading only.

CHEM 491
Chemistry Seminar
1 Semester Hour
Regular attendance at Departmental Seminar Program and presentation of a seminar.

CHEM 493
Chemistry/Biochemistry Internship
1-3 Semester Hours
Research/Development work conducted in a professional chemical setting in a local government or industrial laboratory. Work includes both theory and laboratory practice on a project designed cooperatively by the laboratory's supervisory staff and LMU faculty. The project is jointly supervised by on-site staff and LMU faculty.
May be repeated for credit up to 6 semester hours.

CHEM 495
Chemistry Teaching
1-2 Semester Hours
Guided teaching of the undergraduate laboratories. Credit/No-Credit grading only. May be repeated for additional credit.
Prerequisite: Approval of Department Chair.
May be repeated for credit up to 8 semester hours.

CHEM 497
Introduction to Chemistry/Biochemistry Research
1-3 Semester Hours
CHEM 498  
Special Studies: Chemistry Topics  
1-3 Semester Hours

CHEM 499  
Independent Studies: Directed Research  
1-3 Semester Hours

May be repeated for credit up to 6 semester hours.

CHEM 530  
Advanced Inorganic Chemistry II  
3 Semester Hours

Organometallic chemistry, boron hydrides and carboranes, inorganic polymers and complex chemistry of transition elements.

Lecture, 3 hours.

Prerequisite: CHEM 430.

CHEM 537  
Bioinorganic Chemistry  
3 Semester Hours

The study of the function and structure of metal ions in biology; the properties and spectroscopy of metal ions; metalloproteins; the interaction between metal ions and DNA or RNA; introduction of metal ions into biological systems as probes and as drugs.

Lecture, 3 hours.

Prerequisite: CHEM 370, CHEM 470, or by consent of instructor.

CHEM 540  
Physical Methods in Chemistry  
3 Semester Hours

Development of physical methods of analysis incorporating elements of group theory and molecular orbital theory. Molecular spectroscopy; nuclear magnetic, electron paramagnetic, and nuclear quadrupole resonance spectroscopy; magnetism; Mossbauer spectroscopy; and X-ray spectroscopy.

Lecture, 3 hours.

Prerequisites: CHEM 342 and 460.

CHEM 560  
Advanced Organic Techniques  
4 Semester Hours

Modern synthetic reactions. Qualitative and preparative chromatographic methods. Determination of molecular structure by nuclear magnetic resonance and infrared spectroscopy.

Lecture, 2 hours; Laboratory, 8 hours.

Prerequisites: CHEM 222, 223, 342, 343, 360, 460, 461.

CHEM 570  
Advanced Topics in Biophysical and Bioinorganic Chemistry  
3 Semester Hours

Begins with an introduction to inorganic chemistry and physical techniques used in studying bioinorganic systems for biochemistry majors, followed by an examination of case studies of inorganic chemistry in biological systems, particularly studies of catalysis by metalloenzymes. Recent research topics will be emphasized—a substantial portion of the course will involve critical reading and discussion as well as student presentations of primary journal articles.

Lecture, 3 hours.

Prerequisites: CHEM 340 and either CHEM 370 or 470.

CHEM 580  
Medicinal Chemistry  
3 Semester Hours

Chemical principles involved in design and formulation of drugs; their absorption, distribution, and elimination; and their interaction at possible active sites. Mechanism of action of specific groups of drugs are discussed.

Lecture, 3 hours.

Prerequisite: CHEM 370 or 470 or consent of instructor.

CHEM 598  
Special Studies: Chemistry Topics  
1-3 Semester Hours

CHEM 599  
Independent Studies: Directed Research  
1-3 Semester Hours

May be repeated for credit up to 6 semester hours.
Civil Engineering and Environmental Science

Faculty:
Chairperson: William J. Trott
Professors: Michael E. Mulvihill, Joseph C. Reichenberger, William J. Trott
Associate Professor: Michael E. Manoogian
Assistant Professors: Rachel G. Adams, Jose A. Saez
Adjunct Professor: Joseph Haworth

Description:
The civil engineer applies scientific and economic principles to plan, design, and oversee a wide variety of public and private projects which improve the quality of life, protect the environment, and facilitate economic growth. These projects include roads and highways, railroads, mass transit systems, airports, bridges, buildings, structures, harbors, flood control and drainage works, water supply, treatment and distribution systems, wastewater treatment and reuse systems, irrigation systems, pipelines, and power plants.

The civil engineering curriculum emphasizes practicality and design, supported by a strong background in scientific and mathematical concepts. The program provides a broad background in all aspects of civil engineering, providing our graduates with the flexibility to practice in any of the specialties or to pursue an advanced degree. The program provides an opportunity to get hands-on experience with classes in surveying as well as laboratories in fluid mechanics, hydraulics, soil mechanics, mechanics of materials, structures, steel, and reinforced concrete design. Engineering design experiences are integrated throughout the curriculum beginning with the freshman engineering courses and extending through the last semester of the senior year. Design courses provide working experience with computer software used in the profession. Group and team projects prepare the student for real world engineering experiences.

The civil engineering student can select courses and electives that emphasize environmental engineering as described below.

Accreditation:
The Civil Engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700.

Objectives:
The Civil Engineering program has established the following program educational objectives that are consistent with the mission of the University and that describe the expected accomplishments of graduates during the first several years following graduation. Civil Engineering program graduates will:

1) Be productive in the civil engineering profession or other professional fields;
2) Further develop their professional and technical skills through graduate studies and continuing education;
3) Be involved with civil engineering professional organizations;
4) Uphold the code of ethics of the profession and be cognizant of social justice issues in the practice of civil engineering; and
5) Exhibit leadership in the practice of civil engineering.

To accomplish these program educational objectives, analysis and design courses in the fields of environmental, geotechnical, hydraulic, structural, and water resources engineering are offered in addition to preparatory courses in oral and written communications, mathematics, sciences, and basic mechanics. A broad base of theory and design is provided along with discussion of current issues and practices of the profession. Through class assignments, students will become proficient in the use of computers and pertinent software, spreadsheets, presentations, drawing, and geographical information system (GIS) programs. Integrated with these courses is the University core curriculum.

Design in Civil Engineering:
The civil engineering student participates in design projects throughout the curriculum both as an individual and as a member of a design team. The design experience varies in complexity as the student progresses through the program ending with the senior capstone design experience. Engineering design is the process of devising a system, component, or process to meet a specified need in an optimal manner. While the resulting design must stay within the appropriate specifications and constraints, consideration must also be given to economic, social, and environmental impacts and constructability. Accomplishing these varied goals requires creativity and involves considerable decision making. Many design projects are performed while part of a project team.
Civil Engineering Curriculum
(132 S.H.)

Major Requirements:

Lower Division Requirements:

- CHEM 110, 111; CIVL 200, 210, 220; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; MECH 251; PHYS 101, 103, 201, 203.

Upper Division Requirements:

- CIVL 302, 305, 310, 315, 340, 395, 400, 406, 410, 415, 450, 460; ELEC 313; ENGR 300, 305; ENVS 300, 320; Civil Engineering electives (3 semester hours).

University Core

- 3 semester hours.

Total S.H. 132
## Engineering Emphasis within the Civil Engineering Major

(132 S.H.)

The civil engineering student may choose to take courses and electives emphasizing environmental engineering. Opportunities exist to take classes in aquatic chemistry, microbiology, air pollution control, and solid, hazardous, and industrial waste management.

### Major Requirements:

**Lower Division Requirements:**

<table>
<thead>
<tr>

The proper sequence of the University Core courses should be discussed with the student's advisor.

Civil Engineering

CIVL 200
Mechanics of Materials
3 Semester Hours
Development of relationships between loads applied to an elastic body to stresses and deformations produced in the body, the relation between stresses and strains, approaches for finding necessary dimensions of a member with respect to material capabilities and design constraints, and a design project.

Lecture, 3 hours.
Prerequisite: ENGR 200.

CIVL 210
Surveying
3 Semester Hours
Study of basic surveying instruments and related computations for topographic surveys, horizontal and vertical curves, land surveying. Introduction to total station survey systems, computer applications, and design of highways.

Lecture, 2 hours; Laboratory, 4 hours.
Prerequisite: Sophomore standing.

CIVL 220
Autocad and GIS
3 Semester Hours
Computer aided drafting, design, and geographic information systems. The use of autocad as applied to civil engineering designs. Basic fundamentals of GIS using software packages such as Arcview and ARCAD.

Lecture, 2 hours; Laboratory, 3 hours.
Prerequisite: ENGR 140.

CIVL 302
Seismic Design of Structures
3 Semester Hours
Free and forced vibration of discrete single and multiple degree of freedom systems, continuous systems, design for earthquake loading, application of the Uniform Building Code to the seismic design of structures.

Lecture, 3 hours.
Prerequisite: CIVL 200.
CIVL 305
Structural Theory
4 Semester Hours
Analysis of determinate and indeterminate deformable structures using classical methods and an introduction to computer methods of analysis.
Lecture, 3 hours; Laboratory, 3 hours.
Prerequisite: CIVL 200.

CIVL 310
Fluid Mechanics I
3 Semester Hours
Properties of fluids, fluid statics, kinematics, energy, hydrodynamics, momentum and dynamic forces, steady flow of compressible and incompressible fluids.
Lecture, 3 hours.

CIVL 315
Fluid Mechanics II
3 Semester Hours
A continuation of CIVL 310. Similarity and dimensional analysis, laboratory experiments with fluid flow phenomena, fluid measurements, pipe and open channel flow, forces on immersed bodies.
Lecture, 2 hours; Laboratory, 3 hours.

CIVL 340
Analytical Methods in Civil Engineering I
3 Semester Hours
Introduction to probability and statistics with an emphasis on techniques and applications useful in engineering.
Lecture, 3 hours.
Prerequisite: MATH 234.

CIVL 395
Engineering Economics and Decision Theory
3 Semester Hours
The economic evaluation of engineering alternatives. Topics include: time value of money relationships, nominal and effective interest rates, present worth method, annual worth method, rate of return and incremental analysis, depreciation and income taxes, replacement analysis and benefit/cost analysis.
Lecture, 3 hours.

CIVL 400
Fundamentals of Water and Waste-Water Treatment
3 Semester Hours
Basic concepts of water quality management. Review of the chemical and biological basis for water and wastewater treatment and disposal.
Lecture, 3 hours.
Prerequisite: CIVL 310.

CIVL 406
Water Resources Planning and Design
3 Semester Hours
Flood control hydrology including rainfall, unit hydrographs, flood frequency analysis, and flood routing. Development of surface and groundwater supplies, reservoir yield and operation, determination of water requirements, analysis of water supply and distribution systems, including reservoirs and pump stations.
Lecture, 3 hours.
Prerequisite: CIVL 315.

CIVL 410
Soil Mechanics
4 Semester Hours
Physical and mechanical properties of soil, consolidation, settlement of structures, shear strength, analysis of earth pressures, bearing capacity, slope stability, flow through porous media, and open ended design problems.
Lecture, 3 hours; Laboratory, 3 hours.
Prerequisites: CIVL 200 and 310.

CIVL 411
Design of Foundations and Earth Structures
2 Semester Hours
Design methods for foundations and earth structures. Design of footings and piles including stability and settlement, slopes, and retaining structures.
Prerequisite: CIVL 410.

CIVL 415
Reinforced Concrete Design
4 Semester Hours
Theory and design of reinforced concrete columns, beams, retaining walls, footings, and slabs. Introduction to prestressed concrete design, application to design projects.
Lecture, 3 hours; Laboratory, 3 hours.
Prerequisite: CIVL 200.

CIVL 515
Industrial Waste Management
2 Semester Hours

Principles and methods of treatment and disposal of industrial wastes that may adversely affect the environment, including general characterization of wastes from industries of major significance and typical treatment processes involved. Regulatory constraints.

Lecture, 2 hours.

Prerequisites: CIVL 400 and ENVS 510.

CIVL 548
Hazardous Substances Management
2 Semester Hours

The study of regulation and management strategies for environmental programs (hazardous substances) including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.

Lecture, 2 hours.

CIVL 549
Hazardous Waste Remediation
2 Semester Hours

This course provides an overview of the regulatory framework, site assessment and sampling techniques, and remediation technologies for hazardous waste sites. Emphasis is placed on cost-effective remediation technologies, regulatory agency coordination, and new emerging technologies for hazardous waste site clean-up projects.

Lecture, 2 hours.

CIVL 550
Fundamentals of Environmental Health Risk Assessment
2 Semester Hours

The fundamental technical aspects and non-technical policy aspects of environmental health risk assessments. Basics of environmental chemistry partitioning fate and transport of pollutants in the atmosphere and water; human exposure scenarios; fundamentals of toxicology and epidemiology.

Lecture, 2 hours.

CIVL 598
Special Studies
1-4 Semester Hours

CIVL 599
Independent Studies
1-4 Semester Hours

Electrical Engineering and Computer Science

Faculty:
Chairperson: Barbara E. Marino
Director, Computer Science: Philip M. Dorin
Professors: Philip M. Dorin, Tai-Wu Kao, John A. Page,
Paul A. Rude, Raymond J. Toal, Nazmul Ula
Associate Professor: Barbara E. Marino
Assistant Professors: Stephanie E. August,
John David N. Dionisio, Lei Huang

Electrical Engineering

Description:
The electrical engineering curriculum consists of classroom and laboratory experiences related to the following topics: engineering design, electrical and electronic circuits and models, control systems, communication systems and properties of electromagnetic waves, design of analog and digital systems, theory and design of computer systems, and organization and design of microprocessor-based computer systems.

The electrical engineering curriculum leads to the B.S.E. degree. Department criteria for graduation include completion of all courses in one of the two emphases, with a minimum grade-point average of C (2.0) in the Upper Division Requirements listed below.

A minor field program in electrical engineering is also supported. Course work includes 18 semester hours to be determined in consultation with the Department Chairperson. All minor field programs require the approval of the student's major field faculty advisor and the Department Chairperson in the student's major field.

Accreditation:
The electrical engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700.

Objectives:
The electrical engineering program has established the following program educational objectives that are consistent with the mission of the University and the Frank R. Seaver College of Science and Engineering. The objectives describe the expected accomplishments of graduates during the first several years following graduation. The electrical engineering program graduates will:

1) Perform effectively as practicing engineers and/or successfully undertake graduate study in electrical engineering or related fields;
2) Meet the challenges of the future through continuing professional growth; and
3) Exhibit concern for service and justice through leadership within their profession, as well as the community as a whole.

These program educational objectives are met by providing a curriculum which has both breadth and depth. Engineering science and design, mathematics and basic sciences are significant components of the electrical engineering program. In addition to these traditional technical courses, and in keeping with the Jesuit tradition of educating the whole person, the curriculum includes core requirements in the humanities, communications, and the fine arts.

Opportunities for involvement in professional societies, student design competitions, and University co-curricular activities are plentiful and help to accomplish these objectives.

Design in Electrical Engineering

Design is interwoven throughout the electrical engineering curriculum, culminating in a formal senior design project course. Freshman and sophomore engineering courses provide an introduction to design. The two junior and first semester senior laboratory courses extend this design experience to the integration of material from the upper division electrical engineering courses. Finally, the senior design project experience builds on the analytical and theoretical background developed throughout the curriculum as well as topics covered in the University's core curriculum.
Computer Science

Description:

The computer science curriculum consists of classroom and laboratory experiences related to the following topics: algorithms and data structures, theory and design of computer programming systems, operating systems, compilers, computer graphics, distributed systems, interactive multimedia, object technologies, network programming, and organization and design of microprocessor-based computer systems.

The B.S. degree is awarded upon successful completion of the computer science curriculum. Department criteria for graduation include completion of all courses in the curriculum with a minimum grade point average of C (2.0) in the Upper Division Requirements listed below.

Two minor field programs in computer science are also offered. Students may select from:

One program which emphasizes algorithms and data structures (CMSI 185, 186, 281, 284, plus two upper-division CMSI electives), or

One which emphasizes interactive multimedia (CMSI 252, 361, 461, 462, plus ART 260 and 366).

Objectives:

The program educational objectives for graduates are: 1) preparation for professional practice; 2) preparation for advanced study; 3) promotion of the ideas of life-long learning; 4) development of self-fulfillment through professional activity; and 5) development of ethical values and personal responsibility.

The program educational objectives are met by providing a curriculum which follows contemporary guidelines for computer science. Mathematics and digital hardware courses are important components of the curriculum. In addition to these traditional technical courses, and in keeping with the Jesuit tradition of educating the whole person, the curriculum includes core requirements in the humanities, communications, social sciences, and the fine arts.

Opportunities for involvement in professional societies, student design competitions, and University co-curricular activities are plentiful and help to accomplish these objectives.

Electrical Engineering Curriculum
(128 S.H.)

Major Requirements:

Lower Division Requirements:

CHEM 110, 111; ELEC 232, 281; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245, 285; PHYS 101, 103, 201, 203.

Upper Division Requirements:

ELEC 301, 302, 333, 353, 354, 361, 371, 383, 400, 401, 402, 423, 424, and two courses selected from other offerings in Electrical Engineering; ENGR 400; MATH 355.

Electives:

One course selected from other offerings in the College of Science and Engineering with advisor approval.

### Computer Engineering Emphasis within the Electrical Engineering Major

*(128 S.H.)*

#### Major Requirements:

**Lower Division Requirements:**

- CHEM 110, 111; CMSI 185, 186, 281; ELEC 232, 281; ENGR 100, 140, 200; MATH 131, 132, 234, 245; PHYS 101, 103, 201, 203.

**Upper Division Requirements:**

#### Electives:

One CMSI elective and one course selected from other offerings in the College of Science and Engineering. Both electives are to be approved by the student’s advisor.

### Computer Science Curriculum

**Major Requirements:**

**Lower Division Requirements:**
- CMSI 185, 186, 281, 282, 284; ELEC 281; MATH 131, 132, 248.

**Upper Division Requirements:**

**Electives:**

- Twenty-one (21) semester hours designated as electives are to be selected as follows:
  1. At least nine semester hours to be selected from:
     - 300 and 400-Level CMSI courses and/or MATH 321, 331, 357, 471, or 500-level MATH courses.
  2. At least twelve semester hours of science electives, including a two-semester sequence of laboratory science.

### Electrical Engineering

**ELEC 232**

**Circuits**

3 Semester Hours

Introduction to techniques in electrical circuit analysis, including branch, node, and mesh methods; Thevenin and Norton theorems; step and sinusoidal responses of RLC circuits; operational amplifier circuits; single phase power; mutual inductance, transformers, resonance.

Lecture, 3 hours.

Prerequisites: CMSI 185 or ENGR 240; MATH 132; PHYS 201 recommended.

**ELEC 260**

**Introduction to Electricity and Applications**

3 Semester Hours

Presentation of a brief history of electricity and electrical devices. Introduction to basic concepts of circuit and system analysis, electronic instruments, devices, and modern electric equipment. Demonstrations of concepts and devices are included.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

**ELEC 281**

**Logic Design**

3 Semester Hours

Introduction to computer systems, number systems. Boolean algebra, combinational and sequential logic design, minimization and analysis techniques. Concepts of programmable logic devices.

Lecture, 3 hours.

**ELEC 301**

**Junior Lab I**

3 Semester Hours

Introduction to the use of contemporary lab equipment and techniques of measurement and experimentation; introduction to technical report writing; class is used to provide a laboratory experience related to junior level courses.

Laboratory, 3 hours; Lecture, 1 hour.

Prerequisites: ELEC 281 and concurrent enrollment in ELEC 333 and 353 or permission of the instructor.
ELEC 302
Junior Lab II
3 Semester Hours
Continuation of ELEC 301 with emphasis on design; introduction to use of CAD tools and FPGA-based system design.
Laboratory, 4 hours.
Prerequisites: ELEC 301 and 383; concurrent enrollment in ELEC 354.

ELEC 311
Electronics and Instrumentation
3 Semester Hours
Introduction to circuit principles, amplifiers, op-amps, digital components and systems, system analysis, and instrumentation techniques.
For mechanical engineering or science majors.
Lecture, 3 hours.
Corequisite: ELEC 312.

ELEC 312
Electronics and Instrumentation Lab
0 Semester Hours
Concurrent laboratory for ELEC 311.
Laboratory, 2 hours.
Corequisite: ELEC 311.

ELEC 313
Electronics and Instrumentation
3 Semester Hours
Introduction to circuit principles, amplifiers, op-amps, digital components and systems, power and machines, and instrumentation techniques.
For civil engineering or science majors.
Lecture, 3 hours.

ELEC 333
Circuit Applications
3 Semester Hours
Laplace transform applications, network functions, frequency response, analog filters, two-ports, three phase power.
Lecture, 3 hours.
Prerequisites: ELEC 232 and MATH 245.

ELEC 353
Electronics I
3 Semester Hours
Fundamentals of semiconductor devices and the physics of their operation. Applications of semiconductor devices in electronic circuits and device modeling. Introduction to CAD tools. Design of single stage amplifiers.
Lecture, 3 hours.
Prerequisites: ELEC 232 and MATH 132.

ELEC 354
Electronics II
3 Semester Hours
Introduction to engineering design methods utilized in the synthesis of contemporary analog electronic circuits including extensive use of CAD tools. Topics include multi-transistor circuits, large signal limitations, feedback techniques, amplifier stability and oscillators.
Lecture, 3 hours.
Prerequisite: ELEC 353.

ELEC 361
Electromagnetics
3 Semester Hours
Introduction to Maxwell's equations, wave propagation, transmission line theory, and the solution of static and time varying field problems.
Lecture, 3 hours.
Prerequisites: MATH 355 and PHYS 201.

ELEC 371
Linear Systems
3 Semester Hours
Time and frequency domain analysis of continuous and discrete linear systems including simulation diagrams, state variable analysis, Fourier and Z transforms.
Lecture, 3 hours.
Prerequisites: ELEC 333 and MATH 355 or concurrent enrollment in MATH 355.
ELEC 383
Introduction to Microprocessors (ELEC)
3 Semester Hours
Basic concepts in design and organization of microprocessors and microcomputers. Assembly language programming design for incorporating peripheral devices in solving application designs. Not open to CMSI majors.
Lecture, 3 hours.
Prerequisite: ELEC 281.

ELEC 384
Introduction to Microprocessors (CMSI)
3 Semester Hours
Basic concepts in design and organization of microprocessor-based systems. Assembly language programming of microprocessors and the use of peripheral devices in solving application designs.
Lecture, 3 hours.
Prerequisites: CMSI 284 and ELEC 281.

ELEC 385
Computer System Design
3 Semester Hours
Lecture, 3 hours.
Prerequisite: ELEC 383 or 384.

ELEC 398
Special Studies
1-4 Semester Hours

ELEC 399
Independent Studies
1-4 Semester Hours

ELEC 400
Design Methodology
2 Semester Hours
A study of design methodology and development of professional project-oriented skills including communication, team management, creative problem solving, interpersonal management, and leadership skills. Case studies are used to describe the application of project-oriented skills to the solution of design problems.
Lecture, 2 hours.
Prerequisite: Concurrent enrollment in ELEC 401.

ELEC 401
Senior Lab I
3 Semester Hours
Course is intended to provide a laboratory experience related to other senior level courses; emphasis is on design and technical report writing and oral presentation.
Laboratory, 4 hours.
Prerequisites: ELEC 302, 354, 383, concurrent enrollment in ELEC 400.

ELEC 402
Senior Project
3 Semester Hours
A study of design methodology and development of professional project-oriented skills including communication, team management, creative problem solving, interpersonal management, and leadership skills. Team project activities are used to apply project-oriented skills to solution of design problems. Periodic design reports and design reviews are presented to and critiqued by the faculty and the design team.
Lecture, 1 hour; Laboratory, 3 hours.
Prerequisites: ELEC 354, 400, 401, 423.
Corequisite: ENGR 400.

ELEC 423
Communications I
3 Semester Hours
Introduction to signals, spectra, Fourier Transforms, AM, FM, and digital communication systems.
Lecture, 3 hours.
Prerequisite: ELEC 371.

ELEC 424
Communications II
3 Semester Hours
Probability and random processes, correlation and power spectral density, noise and signal detection, analysis of communication links will be discussed.
Lecture, 3 hours.
Prerequisite: ELEC 423 or permission of the instructor.

<tr>
<td>ELEC 521</td>
<td>Introduction to Communication Systems</td>
<td>3</td>
<td>The concept of signal formulation, modulation, transmission and reception, and demodulation of signals in noise will be discussed. Prerequisites: ELEC 423 and 532, or equivalents.</td>
</tr>
<tr>
<td>ELEC 525</td>
<td>Digital Signal Processing</td>
<td>3</td>
<td>The representation, analysis, and processing of discrete signals are discussed. Topics include sampling, quantization, Z-transform of signal, discrete Fourier and fast Fourier transforms, analysis and design of digital filters, and spectral estimation of random digital signals. Prerequisite: ELEC 371.</td>
</tr>
<tr>
<td>ELEC 532</td>
<td>Probability and Random Processes</td>
<td>3</td>
<td>A study of the concepts of probability, random variables, and stochastic processes. The topics of correlation, power spectral density, and linear mean-square estimation are included. Prerequisite: Senior or graduate standing.</td>
</tr>
<tr>
<td>ELEC 561</td>
<td>IC Fabrication Processes</td>
<td>3</td>
<td>Overview of processes in manufacture of integrated circuits. Topics include: single crystal growth, oxide growth, photolithographic processes, ion implantation and impurity diffusion, metal deposition, and passivation and packaging of chips. Use is made of Unix workstations for modeling and simulation. Prerequisite: ELEC 353 or equivalent.</td>
</tr>
</tbody>
</table>
ELEC 563
ASIC Design
3 Semester Hours

Topics include programmable logic devices and gate array architectures, programmability of PLDs and gate arrays, field programmable gate arrays (FPGAs), and applications of FPGAs in digital system design. Course includes laboratory experiments and extensive use of Computer Aided Design tools.

Prerequisite: ELEC 383 or permission of instructor.

ELEC 567
Introduction to Digital VLSI Design
3 Semester Hours

Custom and semi-custom design of VLSI circuits using standard cells, design methodologies of advanced complementary metal-oxide-semiconductor (CMOS) circuits, and simulation of designed circuits will be emphasized. At the end of the semester, circuits designed by the students will be sent for fabrication through MOSIS and later tested by the students for functionality.

Prerequisite: ELEC 383 or permission of instructor.

ELEC 583
Finite State Machines
3 Semester Hours

An introduction to the theory and design of finite state automata and sequential machines.

Prerequisite: ELEC 281 or equivalent.

ELEC 584
Introduction to Microprocessors II
3 Semester Hours

Design and applications of 32-bit microprocessors. Topics include: basic concepts, software, architecture, programming, interfacing, and system design. (Not open to students with credit in ELEC 384.)

Prerequisite: ELEC 383 or equivalent.

ELEC 585
Computer Organization and Architecture
3 Semester Hours

System structure of minicomputers and main frame computers. Structured memory based systems; parallel and multiunit processors; introduction to input/output processing.

Prerequisite: ELEC 385 or equivalent.

Computer Science

CMSI 182
Introduction to Computer Science
3 Semester Hours

Great ideas in computer science, including some programming using a contemporary programming language.

Lecture, 3 hours.

CMSI 185
Computer Programming
3 Semester Hours

Introduction to algorithms and computer programming using Java.

Enrollment is limited to CMSI, ELEC, MATH, and PHYS majors and CMSI minors.

Lecture, 3 hours.

CMSI 186
Programming Laboratory
3 Semester Hours

Workshop in Java programming, treating one medium-sized application every two weeks in a laboratory setting. Typical projects: discrete simulation, randomized estimation, maze solving, dynamic programming, large-number arithmetic, numerical methods, GUIs.

For majors and minors only.

Prerequisite: A grade of C (2.0) or better in CMSI 185.

CMSI 252
Multimedia Authoring Languages
3 Semester Hours

Creation of programs (scripts) for interactive multimedia using languages like Icon Author and Director; construction of user interfaces; integration and editing of still images, audio, and video; building computer-based training and entertainment applications, languages for the entertainment industry.

Lecture, 3 hours.
CMSI 261
Epistemological Foundations of Computer Science
3 Semester Hours
A study of the philosophical and epistemological roots of computer science. Topics include: language, thought, cognition, logic, computation, the Church-Turing thesis, computer programming, and artificial intelligence.
Lecture, 3 hours.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

CMSI 264
Cryptography throughout the Ages
3 Semester Hours
Descriptions of mathematical systems that have been used for enciphering and deciphering information, and a study of the context in which these systems arose. In particular, systems used in warfare, especially World War II, and modern systems including public key cryptography.
Lecture, 3 hours.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

CMSI 281
Data Structures and Algorithms I
3 Semester Hours
Introduction to data types, information structures, and algorithms. Topics include: collection classes and interfaces for sets, lists, stacks, queues, and dictionaries; implementation techniques such as arrays, linked lists, and efficient tree structures; introduction to computational complexity; elementary sorting; hashing.
Lecture, 3 hours.
Prerequisite: A grade of C (2.0) or better in CMSI 185.

CMSI 282
Data Structures and Algorithms II
3 Semester Hours
Lecture, 3 hours.
Prerequisite: CMSI 281.

CMSI 284
Computer System Organization
3 Semester Hours
Topics include: data representations, instructions and instruction formats, assemblers and assembly languages, linking and loading, process execution, interrupt and device-handling, file management, and mixed-language programming.
Lecture, 3 hours.
Prerequisite: CMSI 281.

CMSI 298
Special Studies
1-3 Semester Hours

CMSI 299
Independent Studies
1-3 Semester Hours

CMSI 342
Object Technologies
3 Semester Hours
Software design and implementation using object-oriented and component technologies. Topics include: object-oriented principles such as classes, interfaces, inheritance, polymorphism and message passing, object-oriented languages, componentware, software architecture, design patterns, UML, COM, and CORBA.
Lecture, 3 hours.
Prerequisite: CMSI 281.

CMSI 361
Internet Technologies
3 Semester Hours
History of the internet and basics of its operation. Topics include: protocols, XML, XHTML, CSS, Perl, Java, SMIL, building web applications, multimedia content, databases, JSP, RDF, security, current trends, and future directions.
Lecture, 3 hours.
CMSI 365
Enterprise Production Practicum
1-3 Semester Hours

The design, construction, and management of an online information system. Experience will be gained producing an in-use online system with emphasis on stability and usability for the target audience.

Prerequisite: Consent of instructor.

This course may be repeated for up to 3 semester hours of credit.

CMSI 371
Computer Graphics
3 Semester Hours

Introduction to interactive computer graphics, emphasizing raster-scan techniques. Topics include the design and use of graphics packages and standards, graphics engines, animation, the user-system interface, three dimensional modeling, ray tracing, and fractal geometry.

Lecture, 3 hours.

Prerequisite: CMSI 281.

CMSI 385
Introduction to the Theory of Computation
3 Semester Hours

Introduction to the formal theory of computation. Topics include: finite automata and regular sets; context-free grammars and pushdown automata; Turing machines and computability; intractability and NP-completeness.

Lecture, 3 hours.

Prerequisites: CMSI 281 and MATH 248.

CMSI 386
Programming Languages
3 Semester Hours

A comparative study of the rationale, concepts, design, and features of several major programming languages. Topics include the role of bindings, control flow, types, subroutines, modules, objects, and concurrency. Major attention is given to C++, Java, ML, Perl, Ada, and XSLT.

Lecture, 3 hours.

Prerequisite: CMSI 284.

CMSI 387
Operating Systems
3 Semester Hours

Concepts in the design of operating systems, including: processes, process management, mutual exclusion, synchronization and message-passing, primary memory management, multiprogramming, paged allocation and paging policies, resource and I/O management, file systems, and security. Major emphasis is placed on UNIX and NT architectures and C-language system programming.

Lecture, 3 hours.

Prerequisite: CMSI 284 or ELEC 383.

CMSI 388
Special Studies
1-4 Semester Hours

CMSI 398
Independent Studies
1-4 Semester Hours

CMSI 401
Software Engineering Lab
3 Semester Hours

Design and implementation of large programs in a group setting, using principles of modularization, abstraction, and information hiding.

Lecture and Laboratory, 3 hours.

Prerequisite: Consent of instructor.

CMSI 402
Senior Project Lab
4 Semester Hours

Analysis, design, implementation, and presentation of a large-scale, individual project, demonstrating mastery of the computer science curriculum.

Lecture and Laboratory, 4 hours.

Prerequisite: Consent of instructor.
CMSI 461
Multimedia Design
3 Semester Hours
Multimedia program development, including project concept, audience analysis, needs analysis, creative and visual treatments, CD-ROM and World Wide Web technical issues, interface design, media formats, authoring languages, and multimedia project management. A project requires that students design a multimedia program leading to a proof-of-concept prototype.

Lecture, 3 hours.

Prerequisite: Consent of instructor.

CMSI 462
Multimedia Production
3 Semester Hours
Production of medium to large-scale multimedia programs including usability analysis, detailed design, script writing, media production, audio production, graphics production, authoring, program engine development, media integration, packaging, marketing, and duplication. A project requires that students produce a multimedia program leading to a web site and CD-ROM distribution.

Lecture, 3 hours.

Prerequisite: CMSI 461.

CMSI 475
Computational Complexity
3 Semester Hours
Introduction to the study of computational complexity, including efficient algorithms for matrix multiplication and fast Fourier transforms, the classes P and NP, approximation algorithms, randomized algorithms and RP, parallel algorithms and NC.

Lecture, 3 hours.

Prerequisites: CMSI 282 and 385.

CMSI 485
Artificial Intelligence
3 Semester Hours
Introduction to the theory and applications of artificial intelligence. Topics include heuristic search theory, knowledge representation and symbolic reasoning and machine learning.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386.

CMSI 486
Introduction to Database Systems
3 Semester Hours
Theory and design of database systems, with emphasis on relational and object-oriented models. Topics include semantic data modeling, database languages, data integrity, physical database design, indexing, query processing, transaction management, and concurrency control.

Lecture, 3 hours.

Prerequisites: CMSI 386 and 387.

CMSI 488
Compiler Construction
4 Semester Hours
Introduction to the theory and design of translators for high-level computer programming languages. Topics include programming language specification, scanner construction, parser construction, intermediate representations, code generation, and optimization. Coursework includes implementation of a compiler.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386.

CMSI 498
Special Studies
1-4 Semester Hours

CMSI 499
Independent Studies
1-4 Semester Hours

CMSI 583
Theory of Computation
3 Semester Hours
Finite automata, regular sets; context-free grammars, pushdown automata; context-free languages; Turing machines, decidable and undecidable problems; complexity, intractability, and NP-completeness.

Lecture, 3 hours.

Prerequisite: CMSI 281.
CMSI 585  
**Programming Languages**  
*3 Semester Hours*

Introduction to the principles of programming language design and implementation via a comparative study of several major languages. Topics include syntactic and semantic specification, bindings, control flow, types, subroutines, modules, objects, and concurrency. Major attention is given to C++, Java, ML, Perl, and Ada.

Prerequisites: CMSI 284 and 386.

---

CMSI 587  
**Operating Systems**  
*3 Semester Hours*

Topics in the design of operating systems with emphasis on large-scale multiprocessing, multiprogramming, and distributed environments. Topics include process scheduling, interprocess communication, I/O management, virtual memory management, file systems, and network, distributed, and real-time operating systems.

Prerequisite: CMSI 284.

---

CMSI 588  
**Compiler Construction**  
*3 Semester Hours*

Topics in the theory and design of compilers and interpreters for high-level programming languages, including scanners and scanner-generators, context-free grammars and pushdown automata, parser construction, code generation, syntax-directed translation, error analysis and recovery, and optimization and data-flow analysis.

Lecture, 3 hours.

Prerequisites: CMSI 583 and 585.
General Engineering

A General Engineering curriculum is offered during the first three semesters in which all requirements are nearly identical regardless of major. This provides maximum flexibility since students can switch to any major at any time during their first three semesters without losing any time or credit. During this period, students can be classified as “Undecided Engineering” or can opt for one of the engineering majors—civil, electrical, or mechanical engineering. The principles and concepts that students learn during the General Engineering curriculum provide the foundation necessary for more advanced study in all engineering disciplines.

The freshman engineering advisor advises all engineering students during the first three semesters. Students must consult each semester with the freshman advisor and register for the appropriate courses listed under the General Engineering curriculum. Any variation from the recommended paradigm must be approved by the freshman advisor.

Unless unusual circumstances suggest otherwise, a commitment to a particular major should be made before the second semester of the sophomore year. Students will then be assigned to a faculty advisor within their major. The Office of the Registrar must be informed whenever a student changes or declares a major.

* Students following the Computer Engineering emphasis take CMSI 185, Computer Programming, in place of ENGR 240 (see Electrical Engineering).

ENGR 100
Introduction to Engineering Analysis and Problem Solving
3 Semester Hours

This course is designed to excite an interest in the engineering profession, establish a foundation of proper study skills, encourage creativity, stimulate cooperative learning, enhance communication skills, improve problem solving skills, introduce the design process, and develop a working knowledge of spreadsheets and word processing.

Lecture, 2 hours; Workshop, 2 hours.

</table>
Mathematics Placement Examination:

The purpose of this examination is to determine the level of preparation of the student and to place him/her in the appropriate mathematics course. Any student with three years of high school mathematics including two years of algebra and one year of geometry should be adequately prepared to take this examination. However, students may wish to review these areas.

All first-year students who are majoring in the Frank R. Seaver College of Science and Engineering or the College of Business Administration, or who are Economics majors or Liberal Studies majors, must take the mathematics placement examination. Psychology majors are required to take MATH 104. All other majors are required to take MATH 102 or higher (see the section on Proficiency in Mathematics).

All students transferring into the Frank R. Seaver College of Science and Engineering or the College of Business Administration, or who are Economics majors or Liberal Studies majors, must take the mathematics placement examination unless they have transferred a college algebra or higher level college mathematics class approved by the Mathematics Department before entering LMU.

Any student, no matter his or her major, planning to take MATH 106, 111, 112, 120, 122, or 131 and who has not transferred a college algebra or higher level college mathematics class is required first to take the mathematics placement examination.

General Major Requirements:

Students must complete the corresponding Bachelor of Arts or Bachelor of Science University Core requirements as defined by the Frank R. Seaver College of Science and Engineering; students will choose the proper sequence of University Core courses in consultation with their advisor.

Mathematics majors and minors are not permitted to enroll in any mathematics course without a minimum grade of C (2.0) in that course’s prerequisite. A minimum grade of C (2.0) is required in each course in the lower division major requirements. A minimum cumulative grade point average of C (2.0) is required in the upper division major requirements for graduation.
Lower Division Major Requirements:
MATH 131, 132, 190, 191, 234, 245, 248, 250, 282; one science course chosen from PHYS 101, 201, and CMSI 185, 281. The Bachelor of Science in Mathematics and the Bachelor of Science in Applied Mathematics degrees require an additional science course chosen from the PHYS and CMSI courses listed above; a second CMSI or PHYS course also may be counted towards the Bachelor of Arts degree in Mathematics (please see upper division requirements below).

Bachelor of Arts with a Major in Mathematics:
This major is designed for students who are interested in pursuing a career in teaching mathematics at the secondary (i.e., high school) level. With the help of her/his advisor, the student may design a schedule carefully so that s/he can complete the California Preliminary Single Subject (Secondary) CLAD Teaching Credential during her/his four years at LMU. Furthermore, a program may be designed that allows a student to complete the mathematics degree, credential, and a Master of Arts in Teaching Mathematics at LMU in five years including two summer sessions.

Upper Division Requirements (11 courses):
MATH 321, 331, 357, 360, 490, 493 or 497, 550, and one additional 3-unit upper division MATH elective (excluding MATH 301, 302, 308, and 309) chosen in consultation with his/her advisor; EDUC 488; and two 3-unit EDUC courses chosen from the list of requirements for the preliminary single subject secondary credential or one such EDUC course and one course from BIOL 101, 102, 201, 202; CHEM 110, 112, 220; CMSI 185, 281, 282; or PHYS 101, 201.

Bachelor of Science with a Major in Mathematics:
This degree program is designed for students who want a broad foundation in pure mathematics. It is especially suited for students who expect to pursue a graduate degree in mathematics.

Upper Division Requirements (10 courses):
MATH 321, 322, 331, 332 or 350, 357, 360, 471 or 473, 491 or 497, and two additional 3-unit upper division MATH electives (excluding MATH 301, 302, 308, and 309) chosen in consultation with his/her advisor.

Bachelor of Science with a Major in Applied Mathematics:
This degree program is designed for students who want a broad foundation in applied and computational mathematics. It is especially suited for students who intend to work in a mathematics-related field in industry or who wish to pursue a graduate degree in applied mathematics or science.

Upper Division Requirements (10 courses):
MATH 321, 322 or 357, 331 or 350, 355, 360, 495 or 497, 560; one of 561, 562, or 582; and two additional 3-unit courses chosen in consultation with his/her advisor from the following list: upper division mathematics classes numbered MATH 321 or higher; CIVL 310, 315; CMSI 282, 371, 385, 583; ELEC 232, 333, 361; PHYS 212, 301, 302, 321, 322.

Biomathematics:
Under the direction of an advisor, the student selects courses from the fields of biology, chemistry, computer science, and mathematics and obtains a Bachelor of Science degree in biomathematics through the Individualized Studies Program.

Any deviation from the above programs requires formal approval of the student’s advisor and the Department Chairperson.

Minor in Applied Mathematics Requirements:
At least 24 semester hours including MATH 131, 132, 234, 245; MATH 355, 360 or 366; MATH 321 (MATH 248 is a prerequisite for MATH 321, so the MATH 321 option requires 27 semester hours), 357, 560, or 562; and one additional 3 semester-hour upper division MATH course chosen in consultation with the applied mathematics minor advisor or MATH 248 and 250 (this option requires 27 semester hours). A cumulative grade point average of C (2.0) or better is required in the courses included in the minor.

Minor in Pure Mathematics Requirements:
At least 23 semester hours including MATH 131, 132, 248; MATH 234 or 250; MATH 321, 357, or 471; MATH 331 or 350; and one additional 3 semester-hour upper division MATH course chosen in consultation with the pure mathematics minor advisor. A minimum cumulative grade point average of C (2.0) is required in the courses included in the minor.
Minor in Secondary Education Mathematics Requirements:

At least 24 semester hours including MATH 131, 132, 234, 248, 360, 490, and 550. A cumulative grade point average of C (2.0) or better is required in the courses included in the minor.

* Either MATH 332 or MATH 350 is required (but not both) for the Bachelor of Science in Mathematics.

** Either MATH 471 or MATH 473 is required (but not both) for the Bachelor of Science in Mathematics.

*** Either MATH 491 or MATH 497 is required (but not both) for the Bachelor of Science in Mathematics.

### MATH 101

**Algebra**

3 Semester Hours

Polynomials, rational expressions, exponents, radicals, equations in one and two variables, the quadratic formula, functions and graphs.

### MATH 102

**Quantitative Skills for the Modern World**

3 Semester Hours

Quantitative and analytic skills used to understand personal and social issues faced in everyday life. Topics include problem solving, computer spreadsheets, probability and statistics, and the mathematics of finance.

Corequisite: MATH 103.

### MATH 103

**Quantitative Skills for the Modern World Lab**

0 Semester Hours

Concurrent laboratory for MATH 102.

Corequisite: MATH 102.

### MATH 104

**Elementary Statistics**

3 Semester Hours

Introduction to methods of inferential statistics, histograms, elementary probability, and random variables and distributions.

</tbody>
</table>
MATH 234
Calculus III
4 Semester Hours
Partial derivatives, multiple integrals, three-dimensional space, vectors in two- and three- dimensional space, line integrals, Green's theorem.
Prerequisite: MATH 132 or equivalent.

MATH 245
Ordinary Differential Equations
3 Semester Hours
Differential equations as mathematical models; analytical, qualitative, and numerical approaches to differential equations and systems of differential equations; and Laplace transform techniques.
Prerequisite: MATH 132 or equivalent.

MATH 248
Introduction to Methods of Proof
3 Semester Hours
Number theory, sets, functions, equivalence relations, cardinality, methods of proof, induction, contradiction, contraposition.
Prerequisite: MATH 132 or equivalent.

MATH 250
Linear Algebra
3 Semester Hours
Prerequisite: MATH 248 or consent of instructor.

MATH 264
Cryptography throughout the Ages
3 Semester Hours
A study of mathematical systems used for enciphering and deciphering information and the context in which these systems arose; in particular, encryption/decryption used during World War II and modern systems, including public key cryptography. Policy issues related to cryptography also will be studied.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

MATH 282
Elementary Numerical Methods
3 Semester Hours
Prerequisite: MATH 131 or equivalent.

MATH 285
Discrete Mathematics for Engineering
3 Semester Hours
An introduction to basic counting; permutations; combinations; probability; the binomial distribution; set theory; generating functions; recurrence relations; with C programming.
Prerequisite: MATH 132 or equivalent.

MATH 293
Mathematics Teaching Field Experience
0 Semester Hours
Planned observation, instruction or tutoring experiences appropriate for future secondary or middle school mathematics teachers; related professional reading and reflections.

MATH 298
Special Studies
1-4 Semester Hours

MATH 299
Independent Studies
1-4 Semester Hours
MATH 301
Mathematical Ideas for Future Teachers I
3 Semester Hours

A selection of topics from number theory, algebra, game theory, probability, and statistics of interest to future teachers. The emphasis is on deepening students' understanding of the methods and philosophy of mathematics. Students will actively engage in exploring mathematics through student investigations and presentations.

Prerequisites: MATH 107 and MATH 111 or 112 or 120 or 122 or 131.

MATH 302
Mathematical Ideas for Future Teachers II
3 Semester Hours

A selection of topics from geometry and topology of interest to future teachers. The emphasis is on deepening students' understanding of the methods and philosophy of mathematics. Students will actively engage in exploring mathematics through student investigations and presentations.

Prerequisites: MATH 107 and MATH 111 or 112 or 120 or 122 or 131.

MATH 308
Mathematics for Elementary Teachers Workshop I
1 Semester Hour

Hands-on use of math manipulatives related to the elementary school concepts of sets, systems of numeration, whole numbers, integers, fractions, and decimals.

Prerequisite: MATH 106 or concurrent enrollment or consent of instructor.

MATH 309
Mathematics for Elementary Teachers Workshop II
1 Semester Hour

Hands-on use of math manipulatives related to geometry, probability, and statistics appropriate to the elementary school mathematics curriculum.

Prerequisite: MATH 107 or concurrent enrollment or consent of instructor.

MATH 321
Real Variables I
3 Semester Hours

The real number system, least upper bound, sequences, Cauchy sequences, functions, limits of functions, continuity, derivatives, and Riemann integration.

Prerequisite: MATH 248.

MATH 322
Real Variables II
3 Semester Hours

Infinite series, uniform convergence, power series, and improper integrals.

Prerequisite: MATH 321.

MATH 331
Elements of Group Theory
3 Semester Hours

Group theory. Binary operations, subgroups, cyclic groups, factor groups, isomorphism, homomorphism, and Cayley's theorem.

Prerequisite: MATH 248.

MATH 332
Elements of the Theory of Rings and Fields
3 Semester Hours

Rings, integral domains, fields, ideals, factor rings, polynomial rings, and unique factorization domains.

Prerequisite: MATH 331.

MATH 350
Advanced Linear Algebra
3 Semester Hours

Vector spaces over an arbitrary field, dual spaces, Cayley-Hamilton theorem, invariant subspaces, canonical forms for matrices, inner product spaces over C, the spectral theorem.

Prerequisite: MATH 250.

MATH 355
Methods of Applied Mathematics
3 Semester Hours

Series solutions and special functions. Orthogonal functions and Fourier series, partial differential equations and boundary value problems.

Prerequisites: MATH 234 and 245.

MATH 357
Complex Variables
3 Semester Hours

Complex variables; analytic functions, Laurent expansions and residues; evaluation of real integrals by residues; integral transforms.

Prerequisite: MATH 234.
MATH 360
Introduction to Probability and Statistics
3 Semester Hours

Descriptive statistics, probability, discrete and continuous random variables, limit theorems, sampling distributions, estimations of parameters, nonparametric methods, hypothesis testing, linear regression.

Prerequisite: MATH 123 or 132.

MATH 366
Discrete Methods
3 Semester Hours

An introduction to graph theory; trees; coloring; Eulerian circuits. Combinatorics; permutations and combinations; recurrence relations.

Prerequisites: MATH 248 and Junior standing.

MATH 393
Mathematics Internship
1-3 Semester Hours

Research or applied mathematical work conducted in an industrial, business, or government setting on a project designed jointly by an on-site supervisor and a departmental faculty member. Enrollment is subject to available opportunities and approval of the Department Chairperson. Suitable opportunities in an educational setting are also acceptable.

MATH 398
Special Studies
1-4 Semester Hours

MATH 399
Independent Studies
1-4 Semester Hours

MATH 471
Topology
3 Semester Hours

An introduction to metric and topological spaces; continuity and homeomorphism; separation properties; connectivity and compactness; examples and applications.

Prerequisite: MATH 321.

MATH 473
Differential Geometry
3 Semester Hours

Curves, parametrizations, and arc length; surfaces, differentiable functions, and the first fundamental form (area); the Gauss map; isometries, Gauss’ Theorema Egregium, geodesics, and the Gauss-Bonnet theorem.

Prerequisites: MATH 234 and 250.

MATH 490
History of Mathematics
3 Semester Hours

The development of mathematics from historical and cultural viewpoints, including both European and non-European roots of mathematics as well as contributions by women.

Prerequisite: MATH 248.

MATH 491
Senior Mathematics Seminar
3 Semester Hours

MATH 493
Senior Seminar for Future Mathematics Educators
3 Semester Hours

Topics in high school mathematics are examined from an advanced standpoint by developing and exploring extensions and generalizations of typical high school problems, by making explicit connections between these problems and upper division mathematics courses, and by providing historical context. Current issues in secondary mathematics education will be investigated. Written and oral presentations are required.

Prerequisite: Senior standing or consent of instructor.

MATH 495
Mathematical Modeling
3 Semester Hours

Introduction to various modeling techniques, design and implementation of algorithms, organization and presentation of results, introduction to problem solving using computer algebra systems.

Prerequisite: Senior standing or consent of instructor.
MATH 497
Senior Thesis
3 Semester Hours

This course is intended to provide the student with an opportunity to complete a substantive research project under the guidance of a faculty member. The student will prepare a written report and an oral presentation on the project at the end of the semester.

Prerequisite: Senior standing and the consent of both the Chairperson and a faculty thesis advisor.

MATH 498
Special Studies
1-3 Semester Hours

MATH 499
Independent Studies
1-3 Semester Hours

MATH 550
Fundamental Concepts of Geometry
3 Semester Hours

Euclidean and non-Euclidean planar geometries, axiomatic systems, synthetic and analytic representations, relationships with algebra, and selected topics and applications.

Prerequisites: MATH 248 and 250.

MATH 560
Advanced Topics in Probability and Statistics
3 Semester Hours

Material to be covered will be determined by the instructor. Consult with the instructor for the specific topics in probability and statistics that will be covered in any given semester.

Prerequisites: MATH 234 and 360.

MATH 561
Computational Methods in Linear Algebra
3 Semester Hours

Numerical solutions of linear systems of equations, Gauss elimination and iterative methods, eigenvalues and eigenvectors.

Prerequisites: CMSI 185 or MATH 282, and MATH 250 or consent of instructor.

MATH 562
Numerical Analysis
3 Semester Hours

Prerequisites: CMSI 185 or MATH 282, and MATH 245 or consent of instructor.

MATH 568
Mathematical Methods of Operations Research
3 Semester Hours

Linear and dynamic programming, network analysis, inventory control.

Prerequisite: MATH 360.

MATH 575
Introduction to Orbit Determination
3 Semester Hours

A brief introduction to Banach and Hilbert spaces, the Projection Theorem, linear minimum variance estimates, the Kalman filter, variational equations and orbit determination examples. The final exam is a computer problem that involves tracking a spacecraft orbiting an asteroid by means of Doppler measurements.

Prerequisites: MATH 245, 250, and consent of instructor.

MATH 582
Analysis of Algorithms
3 Semester Hours

Design, comparison, and analysis of mathematical algorithms, including implementation and testing using Fortran.

Prerequisite: CMSI 185 or MATH 282 or consent of instructor.

MATH 598
Special Studies
1-3 Semester Hours

MATH 599
Independent Studies
1-3 Semester Hours
Mechanical Engineering

Faculty:

Chairperson: Nader Saniei  
Professors: Omar S. Es-Said, Gerald S. Jakubowski, Mel I. Mendelson, Rafiqlul I. Noorani, Bohdan W. Oppenheim, Nader Saniei  
Assistant Professor: Matthew T. Siniawski

Description:

Mechanical Engineering is very broad in scope and is pertinent to a variety of engineering activities and products including vehicles for ground, sea, air, and space transportation, power plants, machines, manufacturing systems, structures, and process plants. The Mechanical Engineering program provides a solid foundation for work in all of these fields. Engineering design is a major emphasis of the curriculum and is supported by modern, well-equipped laboratories. Laboratories include the computer-aided design, engineering and manufacturing laboratory, the materials processing and structures laboratory, the thermal/fluids laboratory, the Engineering Design Center and the video/multimedia laboratory. The curriculum covers contemporary technology as well as the fundamentals for future technologies. It is designed to prepare students for graduate school as well as for employment in industry.

Students can participate in national competitions designing and building projects such as Formula SAE, human-powered vehicles, and Mini Baja (“off road”) vehicles. Students can also participate in the work of the U.S. Department of Energy Industrial Assessment Center located on the LMU campus. THE DOE/IAC affords LMU engineering students the opportunity to gain income, academic credit, and professional experience as they perform on-site energy, pollution, and productivity audits for small- and medium-sized manufacturing firms.

The undergraduate program is augmented by graduate programs in Mechanical Engineering and in Engineering and Production Management. Undergraduate students can take 500-level graduate courses as electives. Part-time faculty of the graduate programs include individuals with worldwide reputations in their fields.

Accreditation:

The Mechanical Engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700.

Mission:

The mission of the Mechanical Engineering Department is to provide a high quality, practice-oriented, design-focused curriculum that prepares students for both graduate studies and leadership roles in industry.

Objectives:

The Mechanical Engineering program has established the following program educational objectives that are consistent with the University’s mission and the department’s program outcomes. They are supported through major requirements, core curriculum, research activities, national engineering programs, design competitions, internships, professional society involvement, and extra-curricular activities. During the first 3-5 years after graduation, Mechanical Engineering graduates will:

1. Advance in their professional careers and pursue graduate studies and continuous learning in areas relevant to their long-term goals;
2. Demonstrate leadership in professional activities such as research, experimental studies, and industrial projects;
3. Be capable of working effectively in cross-functional teams, communicating effectively, and participating in the practice of mechanical engineering design; and
4. Contribute to professional societies and demonstrate ethical conduct.

These program educational objectives are accomplished through the major requirements, the core curriculum, design competitions, internships, professional society involvement, and extracurricular activities.

Design in Mechanical Engineering:

Engineering design is the key task of the engineer. It is the process of creatively conceiving a system, component, or process to meet a specified societal need in an optimal manner. While the resulting design must satisfy the appropriate specifications and constraints, consideration must also be given to economics, social impact, marketability, manufacturability, product support, environmental impact, safety, and final disposition. The Mechanical Engineering faculty have adopted a methodology of design which guides the student through the design process. The steps of this methodology are studied and practiced in the Mechanical Engineering curriculum. The course descriptions which follow reflect how the design methodology is integrated throughout the curriculum.
**Mechanical Engineering Curriculum**  
*(130 S.H.)*

**Major Requirements:**

*Lower Division Requirements:*

CHEM 110, 111; CIVL 200; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; MECH 231, 240, 251; PHYS 101, 103, 201, 203.

*Upper Division Requirements:*

CIVL 310, 395; ELEC 311, 312; ENGR 300, 400; MATH 355; MECH 300, 312, 315, 334, 340, 341, 342, 353, 441, 445, 483, 484, 536, 550; Mechanical Engineering Elective (3 semester hours of 400- or 500-level MECH course work).

The proper sequence of the University Core courses should be discussed with the student's advisor.

---

### MECH 231

**Dynamics I**

3 Semester Hours

Kinematics and kinetics of particles and rigid bodies, Newton’s Laws, application of principles of work and energy, impulse and momentum, and vector approach.

Lecture, 3 hours.

Prerequisites: ENGR 200 and MATH 234.

### MECH 240

**Engineering Systems I**

2 Semester Hours

Introduction to computer-aided design techniques and applications to design and manufacturing problems. Topics include: computer graphics for geometric design, design of curves and shapes, numerical methods for CAD and optimization. Practice and use of solid modeling software package.

Lecture and Lab, 2 hours.

---

### MECH 251

**Thermodynamics**

3 Semester Hours

The fundamental concepts of classical thermodynamics including properties, work and heat; first and second laws; entropy; irreversible processes, gas mixtures and combustion; and thermodynamic analysis of engine, refrigeration, and propulsion systems. Design project required.

Lecture, 3 hours.

Prerequisites: Sophomore standing in engineering.

### MECH 270

**Materials**

3 Semester Hours

Introduction to the chemistry and physics of different materials. Types of materials (metals, ceramics, polymers, and composites) and the relation between their structure and properties. Selection of materials in different applications.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

### MECH 275

**Energy and the Environment**

3 Semester Hours

The basic concepts of temperature, heat, and energy conversion; various methods of energy conversion including stationary electric power plants, nuclear energy, solar heating and cooling, wind energy, geothermal energy, and ocean thermal energy; the effects of energy conversion on the environment.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

### MECH 298

**Special Studies**

1-3 Semester Hours

### MECH 299

**Independent Studies**

1-3 Semester Hours

MECH 441  
**Mechanical Engineering Lab III**  
2 Semester Hours  
Laboratory applications of vibrations and data acquisition; elasticity, buckling, material testing; compressible flow and jet engine testing; and computer-aided manufacturing such as NC machining, rapid prototyping, investment casting, and robotics.  
Lecture/Laboratory, 3 hours.  
Corequisite: MECH 550.

MECH 445  
**Probability and Statistics**  
2 Semester Hours  
Lecture, 2 hours.  
Prerequisite: Junior standing in Mechanical Engineering.

MECH 483  
**Elements of Design**  
3 Semester Hours  
The philosophy of design. Development of the methods of design. Application of the analysis of mechanical systems for stress, deflection, buckling, fatigue, and general reliability to the design of components such as springs, power screws, fasteners, bearings, and gears.  
Lecture, 3 hours.  
Prerequisites: CIVL 200 and MECH 334.

MECH 484  
**Mechanical Engineering Design**  
3 Semester Hours  
Design projects. The philosophy and methodology of design applied to the design of mechanical engineering systems. Steps include project definition, feasibility study, generation of candidate solutions, analysis, synthesis, decision making, and component selection. Project record book, design drawings, design reviews, oral presentations, and a final report are required.  
Prerequisite: MECH 483.  
Corequisite: ENGR 400.

MECH 493  
**Mechanical Engineering Internship**  
1-3 Semester Hours  
Engineering analysis, testing, design, and/or production work conducted by the student in an industrial setting. The work will be supervised jointly by an engineer with the industrial firm and by a LMU Mechanical Engineering faculty member. The project must be approved by the Departmental faculty. Senior standing is required.

MECH 498  
**Special Studies**  
1-3 Semester Hours

MECH 499  
**Independent Studies**  
1-3 Semester Hours

MECH 500  
**Quality**  
3 Semester Hours  
Lecture, 3 hours.  
Prerequisite: Senior standing in Mechanical Engineering.

MECH 516  
**Materials Selection in Design**  
3 Semester Hours  
Application of principles of materials engineering to selection of materials for optimized engineering design, case studies in failure analysis.  
Lecture, 3 hours.  
Prerequisite: Senior standing in Mechanical Engineering.

MECH 525  
**Advanced Mechanics of Materials**  
3 Semester Hours  
Application of bending, combined bending and axial loads, curved bars, energy methods, buckling and elastic stability, inelastic and plastic deformations to the design of mechanical components.  
Lecture, 3 hours.  
Prerequisite: Senior standing in Mechanical Engineering.

Natural Science

Bachelor of Science in Natural Science
  General Science Emphasis
  Pre-Physical/Occupational Therapy Emphasis
  Environmental Science Emphasis
  Secondary Science Education Emphasis

Bachelor of Science in Athletic Training

Faculty:
  Chairperson: James M. Landry
  Professor: James M. Landry
  Assistant Professors: John H. Dorsey,
  David A. Ramirez, Carolyn M. Viviano

Traditionally the University has offered degree programs in the sciences and mathematics. Although these programs provide for a broad overall education, the major curricula requirements are by necessity somewhat restricted and limiting. The Natural Science Department offers programs of study applying basic scientific knowledge to either multidisciplinary fields of study or specialties not easily accommodated through the traditional science disciplines. The Department offers two majors: the Natural Science major, with emphases in General Science, Pre-Physical/Occupational Therapy, Environmental Science, and Secondary Science Education; and the Athletic Training major. All students in Natural Science are required to complete an Independent Studies course. This can be accomplished by carrying out a research project under the guidance of a faculty member or through an internship in the emphasis of interest.

Bachelor of Science in Natural Science

The Natural Science major fills a need within the University for a more flexible general undergraduate degree program with an emphasis on natural sciences. In addition, specialized programs within Natural Science provide prerequisite training for graduate programs in physical and occupational therapies (and other allied health professions), training for careers and graduate programs in environmental science, and content preparation for a high school teaching credential.

General Science Emphasis

Objectives:

The Natural Science major General Science emphasis is designed to serve those students interested in a broad education combining general science, engineering science, and liberal arts.

The program prepares students interested in the areas of law, business, elementary education, studio and graphic arts, journalism, and other professions for work where a science background could be an asset.

Major Requirements:

66 semester hours are to be taken from course offerings in the Departments of Biology, Chemistry, Mathematics, Natural Science, Physics, and Engineering.

Lower Division Requirements:

NTLS 190 and one additional course must be taken in Natural Science. At least two courses numbered 100-259 must be taken from the Departments of Biology, Chemistry, Mathematics, and Physics. MATH 112, 122, or 131 must be included. In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

27 semester hours must be taken in upper division offerings in the Departments of Biology, Chemistry, Natural Science, or Physics. This includes an upper division NTLS course with lab and two additional upper division laboratory courses. Up to 6 semester hours of internship courses, undergraduate research courses, and natural science teaching courses can be counted toward the upper division science requirement.

This requirement includes completion of 3 semester hours of Independent Studies at the senior level to enhance development of the student's science program.

A student must have a C (2.0) average in upper division science courses.
Minor Requirements:

Two courses must be taken in Natural Science. At least one course numbered 100-259 must be taken from the Departments of Biology, Chemistry, and Physics. For one of these disciplines, two courses numbered 100-259 must be taken. 6 semester hours from upper division offerings in science departments must be completed.

This minor is not available to students within the College of Science and Engineering.

</tbody>
</table>
The proper sequence of the University Core courses should be discussed with the student's advisor. The course sequence in Mathematics depends on the results of the mathematics placement examination.

**Pre-Physical/Occupational Therapy Emphasis**

**Objectives:**
This emphasis provides the student with the required courses in science, mathematics, psychology, and liberal arts needed to apply to either physical therapy or occupational therapy graduate programs. In addition, students are required to do internship work in a physical therapy or occupational therapy setting. This internship experience helps satisfy the volunteer hours required by the physical therapy or occupational therapy graduate programs.

**Major Requirements:**

**Lower Division Requirements:**
BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; MATH 104, 122; NTLS 151, 152, 153, 154, 190; PHYS 253, 254, 255, 256; PSYC 100.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

**Upper Division Requirements:**
27 semester hours must be taken in upper division offerings in the Departments of Biology, Chemistry, Natural Science, or Physics and must include: NTLS 355, 356, 480, 485, and 495 or 496. Two additional upper division laboratory courses must be taken. Up to 6 semester hours of internship courses, undergraduate research courses, and natural science teaching courses can be counted toward the upper division science requirement.

A student must have a C (2.0) average in upper division science courses.

The following upper division psychology courses are required: PSYC 332 and 352.

The proper sequence of the University Core courses should be discussed with the student’s advisor. The course sequence in Mathematics depends on the results of the mathematics placement examination.

### Environmental Science Emphasis

**Objectives:**

This program of study is excellent preparation for a wide range of opportunities within the field of environmental science. This is due to the strong background obtained in Biology, Chemistry, and Engineering. It is also excellent preparation for graduate studies in environmental science programs.

**Major Requirements:**

**Lower Division Requirements:**

- BIOL 101, 102, 111, 112, and 201; CHEM 110, 111, 112, 113, 220, 221, and 222; MATH 104, 131, 132 (or MATH 122, 123); NTLS 101 and 190; PHYS 101, 103, 201, and 203 (or PHYS 253, 254, 255, and 256).

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

**Upper Division Requirements:**

39 upper division hours which will include: BIOL 318, 319, 361, and 362; CHEM 360 and 361; ENVS 300; and NTLS 301, 302, 330, 332, 375, 401, 512, and 531. In addition, an upper division elective course in chemistry and an upper division science elective are required.

A student must have a C (2.0) average in upper division science courses.

### Notes

- **S.H.** denotes semester hours.
- **Fall Semester** and **Spring Semester** indicate the semesters in which the courses are offered.
The proper sequence of the University Core courses should be discussed with the student's advisor. The course sequence in Mathematics depends on the results of the Mathematics Placement Exam.

* May be substituted with PHYS 253, 254, 255, 256.
** May be substituted with MATH 122, 123.

Secondary Science Education Emphases

Objectives:

These programs of study provide a good grounding in basic scientific and mathematical principles appropriate for those interested in pursuing teaching careers at the secondary level. The programs consist of: a breadth of knowledge requirement specifying courses in Biology, Chemistry, Geosciences, and Physics, a concentration requirement which allows for in-depth study in Biology or Chemistry, and an education requirement. The secondary school programs are designed to meet the State Teacher Credential requirements for subject matter preparation in science and are currently under review.

* The course sequence in Mathematics depends on the results of the Mathematics Placement Examination.

** Completion of either course will satisfy a University core requirement. Please see advisor for the proper sequence of the University Core courses.

### Bachelor of Science in Athletic Training

Director: David A. Ramirez

The Athletic Training major is designed for students interested in pursuing a career as a certified athletic trainer. The profession of Athletic Training is recognized by the American Medical Association as an allied health profession. Certified Athletic Trainers (ATC) are members of the National Athletic Trainers' Association (NATA) and are medical experts in preventing, assessing, managing, and rehabilitating injuries that result from physical activity. ATCs function as integral members of the health care team in professional sports organizations, colleges and universities, secondary schools, military branches, sports medicine clinics, industrial settings, and other health care venues.

### Accreditation:

The Athletic Training major curriculum, referred to as the Athletic Training Education Program (ATEP), is seeking accreditation through the Commission on the Accreditation of Allied Health Education Programs (CAAHEP). Currently, ATEP is in candidacy. Accreditation will follow pending completion of a minimum of two years of candidacy, submission of a self-study, and a site visit review by the Joint Review Committee on Educational Programs in Athletic Training.
Objectives:
The athletic training student who successfully completes the ATEP curriculum will qualify to take the National Athletic Trainers’ Association—Board of Certification national exam. Upon successful completion of the exam, the student will become a Certified Athletic Trainer.

Also, the athletic training program provides the prerequisites needed to apply to graduate programs in a number of allied health careers. These include, but are not limited to, athletic training, physical therapy, occupational therapy, exercise science, and nutrition.

Athletic Training Education Program (ATEP):
As well as the general LMU entrance requirements, there are additional standards for continuation and completion of the ATEP. Each student will be reviewed in five areas: 1) collegiate academic performance, 2) personal and professional recommendations, 3) written communications, 4) oral communications, and 5) practical experiences. Each student in the ATEP will commit to a minimum of four semesters of clinical experiences. Those in the ATEP will be progressively rotated through a variety of clinical settings to learn and perfect the needed knowledge and skills.

Those students interested in the Athletic Training Education Program should meet as soon as possible with the Director to plan their academic program.

Major Requirements:

Lower Division Requirements:
BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; MATH 104 and 122; NTLS 151, 152, 153, 154, 160, 162, 190, 255; PHYS 253, 254, 255, 256; PSYC 100.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:
37 semester hours must be taken in upper division natural science courses which include: NTLS 355, 356, 360, 362, 368, 369, 397, 460, 462, 464, 468, 469, 480, 485, and 497.

A student must have a C (2.0) average in upper division science courses.

One upper division psychology course is required: PSYC 332 or 352.

The proper sequence of the University Core courses should be discussed with the student’s advisor. The course sequence in Mathematics depends on the results of the mathematics placement examination.

**NTLS 101 Introduction to Environmental Science**

*3 Semester Hours*

Introduction to the study of environmental science. Examination of issues and problems associated with the environment including examples from air, water, and soil pollution and some remediation strategies.

**NTLS 151 Human Anatomy and Physiology I**

*3 Semester Hours*

Comprehensive coverage of anatomy and physiology for the pre-health professions major. Topics include homeostasis and integumentary, skeletal, muscular, nervous, and endocrine systems.

Lecture, 3 hours.

**NTLS 152 Human Anatomy and Physiology I Lab**

*1 Semester Hour*

Companion lab course to NTLS 151.

Laboratory, 4 hours.

Prerequisite: NTLS 151 or concurrent enrollment.

**NTLS 153 Human Anatomy and Physiology II**

*3 Semester Hours*

Continuation of comprehensive coverage of anatomy and physiology for the pre-health professions major. Topics include blood, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems.

Lecture, 3 hours.

Prerequisites: NTLS 151 and 152.

<tr>
<td>NTLS 154</td>
<td>Human Anatomy and Physiology II Lab</td>
<td>1 Semester</td>
<td>Companion lab course to NTLS 153. Laboratory, 4 hours. Prerequisite: NTLS 153 or concurrent enrollment.</td>
</tr>
<tr>
<td>NTLS 160</td>
<td>Principles of Athletic Training</td>
<td>3 Semester</td>
<td>Provides knowledge in basic athletic training skills. Instruction and experience in prevention and care of athletic injuries. Recognition of athletic injuries and methods of taping, bracing, and therapy will be addressed. Standard nomenclature of athletic injuries will be introduced. Lecture, 3 hours.</td>
</tr>
<tr>
<td>NTLS 162</td>
<td>First Aid and Emergency Response</td>
<td>2 Semester</td>
<td>An advanced first aid course addressing responses to life-threatening emergencies. Injuries examined include those to the head, spine, and abdominal/thorax, while illnesses discussed include heat illness, shock, asthma, and diabetes. Lecture, 2 hours.</td>
</tr>
<tr>
<td>NTLS 190</td>
<td>Exploring the Natural Sciences</td>
<td>1 Semester</td>
<td>Introduction to the areas of study and career opportunities within the natural sciences. CR/NC grading only. College of Science and Engineering majors only.</td>
</tr>
<tr>
<td>NTLS 198</td>
<td>Special Studies</td>
<td>1-4 Semester</td>
<td></td>
</tr>
<tr>
<td>NTLS 199</td>

<td>1-4 Semester</td>
<td></td>
</tr>
<tr>
<td>NTLS 250</td>
<td>Introduction to Earth Science</td>
<td>3 Semester</td>
<td>The study of the internal and external structure of the earth. This includes study of rock materials, plate tectonics, geomorphic processes, natural/environmental hazards, natural mineral resources, and dating methods for rocks, minerals, and organic materials. Lecture, 3 hours.</td>
</tr>
<tr>
<td>NTLS 255</td>
<td>Nutrition</td>
<td>3 Semester</td>
<td>Nutrition as it relates to the physical well-being and behavior of people and how it affects athletic performance. Topics addressed will include carbohydrates, fats, proteins, vitamins and minerals, dietary supplements, weight gain/weight loss, and water. Lecture, 3 hours.</td>
</tr>
<tr>
<td>NTLS 261</td>
<td>The Science in Science Fiction</td>
<td>3 Semester</td>
<td>The physics, chemistry, and biology found in science fiction literature are examined for accuracy and probability. Topics include the physics of space and space habitats, the chemistry and biology of life arising under non-earthlike conditions, and the ecology of imagined worlds. “Engineering” new worlds on the basis of sound scientific theory will be expected. Understanding of physical implications of simple algebraic expressions is required. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>NTLS 263</td>
<td>Surfin' Science</td>
<td>3 Semester</td>
<td>Various basic principles of oceanography, meteorology, and marine biology are explored as applied to the art of surfing. Topics include the genesis, propagation, and dynamics of waves; marine weather systems and surf prediction; marine organisms; and marine pollution issues of concern to surfers. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>

<tr>
<td>NTLS 264</td>
<td>Survey of Marine Pollution</td>
<td>3</td>
<td>Information and discussion about marine pollution problems in Southern California. Issues of safe swimming, safe consumption of fish, and protection of marine environment will be examined. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>NTLS 265</td>
<td>Women in Science and Mathematics: Breaking the Stereotype</td>
<td>3</td>
<td>A study of the work of prominent women scientists and mathematicians. The course will also examine their lives and how they succeeded in traditionally male disciplines. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>NTLS 267</td>
<td>The Science and Life of Galileo</td>
<td>3</td>
<td>A study of the scientific works of Galileo and how they influenced changes in our world view during the 17th century. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>NTLS 270</td>
<td>Experimenting in Science I</td>
<td>4</td>
<td>Combination lecture and laboratory course designed to acquaint student with how science is done. Emphasis on active learning strategies such as performing experiments, demonstrations, group discussions. The study of general science principles, such as those typically introduced in K-8 education, in the areas of physical and earth science. Lecture, 3 hours; Lab, 2 hours. Liberal Studies majors only. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>NTLS 271</td>
<td>Experimenting in Science II</td>
<td>4</td>
<td>Combination lecture and laboratory course designed to acquaint student with how science is done. Emphasis on active learning strategies such as performing experiments, demonstrations, group discussions. The study of general science principles, such as those typically introduced in K-8 education, in the areas of earth science and life science. Lecture, 3 hours; Lab, 2 hours. Liberal Studies majors only. Prerequisite: NTLS 270.</td>
</tr>
<tr>
<td>NTLS 272</td>
<td>Technology and the Environment</td>
<td>3</td>
<td>Scientific principles applied to Environmental Management and Public Health. The historical perspective. Pollution control and planning in the area of water resources, solid and liquid waste management. Radiation and thermonuclear power production, fundamentals of energy. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>NTLS 273</td>
<td>Earthquakes and Landslides</td>
<td>3</td>
<td>Examination of the processes that control the genesis and distribution of earthquakes, and review of methods of measuring and predicting earth movements. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>NTLS 274</td>
<td>Volcanoes—Origins and Processes</td>
<td>3</td>
<td>Examination of volcanoes, their etiology, world-wide distribution, and evaluation of their impact on local and global ecologies. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>

<tr>
<td>NTLS 310</td>
<td>Oceanography</td>
<td>3</td>
<td>The basic concepts of physical and biological oceanography will be presented.</td>
</tr>
<tr>
<td>NTLS 320</td>
<td>Science, Theology, and the Future</td>
<td>3</td>
<td>A look at scientific discoveries, advances, and knowledge will be presented. The implications of the findings in science on theological questions and our world view will be explored.</td>
</tr>
<tr>
<td>NTLS 330</td>
<td>Environmental Chemistry</td>
<td>3</td>
<td>A study of environmental chemistry. Topics include stratospheric chemistry, the chemistry of ground-level air and air pollution, toxic organic chemicals, the chemistry of natural waters, soil chemistry and heavy metals, energy production and the environment.</td>
</tr>
<tr>
<td>NTLS 332</td>
<td>Environmental Science Lab II</td>
<td>1</td>
<td>Use of standard methods of analysis to determine pollutants found in air, water, and soil systems. Emphasis will be on the use of instrumental methods and techniques.</td>
</tr>
<tr>
<td>NTLS 355</td>
<td>Exercise Physiology</td>
<td>3</td>
<td>In-depth examination of the biochemical, cellular, and organ system functions and adaptations associated with physical fitness and athletic conditioning.</td>
</tr>
<tr>
<td>NTLS 356</td>
<td>Exercise Physiology Lab</td>
<td>1</td>
<td>Companion lab course to NTLS 355.</td>

<td>Work experience in occupational therapy at a private facility or hospital.</td>
</tr>
</tbody>
</table>
NTLS 397  
Athletic Training Internship I  
4 Semester Hours

Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. Emphasis on sport assignment and the daily working experience and duties associated with each respective team. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.

Prerequisite: NTLS 468.

NTLS 398  
Special Studies  
1-4 Semester Hours

NTLS 399  
Independent Studies  
1-4 Semester Hours

NTLS 401  
Senior Seminar/Project  
3 Semester Hours

Research work on a project within the field of environmental science including presentation of a seminar over work.

NTLS 460  
Therapeutic Modalities in Sports Medicine  
3 Semester Hours

Provides information regarding the physics and physiological effects of athletic training modalities. Gain understanding of the inflammatory process and pain management in relation to athletic injuries. Includes the physiological reactions, contraindications, and indications to such modalities as heat, cold, electricity, ultrasound, water, and massage. Instruction on proper use and application of specific modalities.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154.

NTLS 462  
Therapeutic Rehabilitation in Sports Medicine  
3 Semester Hours

Instruction on how to design, implement, and supervise rehabilitation programs for sports-related injuries and conditions. Theoretical and clinical bases for the use of therapeutic exercises, basic biomechanics, indications, contraindications, and proper application of exercises in therapeutic rehabilitation.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154.

NTLS 464  
Administration in Sports Medicine  
3 Semester Hours

Addresses organization and administration of athletic training programs both in athletic training rooms and clinical sites. Areas such as building a facility, legal issues, staffing, budgeting, insurance, computer use, record keeping, emergency care planning, and public relations will be discussed. Pharmacological issues as they pertain to athletic performance will be addressed.

Lecture, 3 hours.

NTLS 468  
Athletic Training Practicum III  
1 Semester Hour

Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.

Prerequisite: NTLS 369.

NTLS 469  
Senior Seminar in Athletic Training  
1 Semester Hour

Preparation for the National Athletic Trainers’ Association Board of Certification Exam. Attention will be focused on a review of the NATA Athletic Training Educational Competencies.

Lecture, 1 hour.

Prerequisite: NTLS 397.

Corequisite: NTLS 497.
NTLS 480  
Kinesiology  
3 Semester Hours

Analysis of the physics, anatomy, physiology, and psychology of movement mechanics and behavior.

Prerequisites: NTLS 153 and 154.

NTLS 485  
Biomechanics  
3 Semester Hours

Identification of muscle action as related to the body’s mechanics. Understanding basic mechanical principles as they apply to human movement.

Prerequisite: NTLS 480.

NTLS 490  
Natural Science Teaching  
1-2 Semester Hours

Guided teaching of undergraduate laboratories.

May be repeated for credit.

Requires consent of Director.

NTLS 491  
Science Education Internship  
1-4 Semester Hours

Work on a project in science education either in the elementary school or secondary school setting or at another appropriate location.

NTLS 493  
Environmental Science Internship  
1-4 Semester Hours

Work experience in the field of environmental science in a research, industry, or municipal setting.

NTLS 495  
Physical Therapy Internship  
1-4 Semester Hours

Work experience in physical therapy at a private facility, hospital, or athletic training facility.

NTLS 496  
Occupational Therapy Internship  
1-4 Semester Hours

Work experience in occupational therapy at a private facility or hospital.

NTLS 497  
Athletic Training Internship II  
4 Semester Hours

Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. Emphasis on sport assignment and the daily working experience and duties associated with each respective team. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.

Prerequisite: NTLS 397.

NTLS 498  
Special Studies  
1-4 Semester Hours

NTLS 499  
Independent Studies  
1-4 Semester Hours

NTLS 510  
Chemistry for Environmental Engineers  
2 Semester Hours

Review of inorganic chemistry with particular emphasis on solution equilibrium and gas-solid solution interaction.

Prerequisite: CHEM 110.

NTLS 512  
Air Pollution Analysis  
2 Semester Hours

Detailed analysis of emission sources, emission calculation methods, and air pollution controls. The dispersion of air pollutants in the atmosphere (fates and lifetimes, dispersion modeling methods). In-depth techniques of conducting risk assessments due to exposure to air pollutants.

NTLS 513  
Solid Wastes Engineering  
2 Semester Hours

An application of current technology in the control, disposal, and recovery of value from solid wastes.
NTLS 531  
**Principles of Water Quality**  
2 Semester Hours

Review of basic parameters used to describe water quality. Fundamentals of aquatic interaction in natural systems and fate of pollutants in the natural environments. Basic water and wastewater treatment systems.

Prerequisite: Consent of Director.

---

NTLS 534  
**Groundwater Management**  
2 Semester Hours

Management of groundwater basins for optimum yield, quality, and environmental consideration, artificial recharge, methods of exploration, groundwater models, water rights, and conjunctive use of surface and groundwater.

---

NTLS 548  
**Hazardous Substances Management**  
2 Semester Hours

The study of regulation and management strategies for environment programs (hazardous substances), including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.

---

NTLS 591  
**Science Education Internship**  
1-4 Semester Hours

Work on a project in science education either in the elementary school or secondary school setting or at another appropriate location.

---

NTLS 593  
**Environmental Science Internship Workshop**  
1-4 Semester Hours

Advanced work experience in the field of environmental science in a research, industry, or municipal setting.

---

NTLS 598  
**Special Studies**  
1-4 Semester Hours

---

NTLS 599  
**Independent Studies**  
1-4 Semester Hours
Physics and Engineering Physics

Faculty:
Chairperson: Vincent P. Coletta
Professors: John B. Bulman, Vincent P. Coletta, Jeff Sanny
Assistant Professors: Jonas R. Mureika, Jeffrey A. Phillips, Gabriele Varieschi
Adjunct Professors: James McCarthy, A. Saleh-Jahromi

Physics

Objectives:
The B.S. Physics degree provides a solid foundation in classical and modern physics. This program is well suited for the student who wishes to continue the study of physics at the graduate level, leading to a career in research and/or university teaching. With a proper choice of electives, the physics degree is also suitable for a variety of other careers requiring graduate education. Physics graduates can pursue advanced studies in fields such as optics, biophysics, geophysics and space science, nuclear engineering, business management, or law. Some physics majors choose electives that prepare them for medical school. Physics graduates can also select immediate employment in a number of areas, including high school teaching and various areas of industrial science and technology. Because of the flexibility of the physics major, with its numerous electives, it is possible to double major in physics and some other discipline. Examples of double degrees that can be completed in four years are physics and math, or physics and chemistry. Each of these double majors is very powerful, in that it develops the ability to solve problems that require a knowledge of two separate disciplines.

Major Requirements:

Lower Division Requirements:
CHEM 110, 111, 112, 113; CMSI 185; MATH 131, 132, 234, 245; PHYS 101, 103, 190, 201, 203, 202, 204, 212. Each course in MATH and PHYS listed above must be passed with a grade of C (2.0) or better.

Upper Division Requirements:
MATH 355 and one from MATH 350, 357 or 360; PHYS 301, 302, 321, 322, 411, 412, 421, 441, 451. To graduate, a student must have at least a 2.0 average in all upper division physics courses.

Minor Requirements:
21 semester hours with at least 6 semester hours in upper division courses. These shall include PHYS 101, 103, 201, 202, 203, 204, or PHYS 253, 254, 255, 256.
A grade of C (2.0) is required for every course included in the minor.

Engineering Physics

Objectives:
The B.S. Engineering Physics degree provides extensive education in engineering as well as physics. The curriculum combines the strengths of a physics curriculum (with emphasis on understanding basic principles) and an engineering curriculum (with emphasis on applications). Graduates are especially well prepared for either graduate work in engineering or applied physics or for immediate employment by companies with an engineering research orientation. With the right electives, the curriculum provides excellent preparation for graduate work in biomedical engineering.

Major Requirements:

Lower Division:
CHEM 110, 111; ELEC 232, 281; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; PHYS 101, 103, 190, 201, 202, 203, 204, 212.
Each course in MATH and PHYS listed above must be passed with a grade of C (2.0) or better.

Upper Division:
ELEC 301, 353, 354; MATH 355; PHYS 301, 302, 321, 322, 412, 421, 441. Students must also take a two-course sequence in a technical area. Among the options are: ELEC 302 and ELEC 383; MECH 353 and PHYS 451; ELEC 371 and ELEC 423. To graduate, a student must have at least a 2.0 average in all upper division physics courses.
Physics Curriculum (125 S.H.)

**Freshman Year**

| Fall Semester | S.H. |  
|---------------|------|---
| CHEM 110      | General Chemistry I | 3  
| CHEM 111      | General Chemistry I Lab | 1

* A two-course sequence in a technical area is required. Some recommended sequences are:

a) ELEC 302 Junior Lab II and ELEC 383 Introduction to Microprocessors
b) MECH 353 Heat Transfer and PHYS 451 Thermodynamics and Statistical Mechanics
c) ELEC 371 Linear Systems and ELEC 423 Communications I

---

**PHYS 101**

**Introduction to Mechanics**

*4 Semester Hours*

Vectors, Newton’s laws of motion, work and energy, impulse and momentum, rotation, angular momentum, static equilibrium, harmonic motion.

Lecture, 3 hours.

Corequisites: MATH 131 and PHYS 103.

---

**PHYS 103**

**Introduction to Mechanics Lab**

*0 Semester Hours*

Laboratory experiments pertaining to mechanics. Measurement, estimation, and uncertainty. Projectile motion, Newton’s laws, friction, torque.

Laboratory, 2 hours.

Corequisite: PHYS 101.

---

**PHYS 150**

**Fundamental Ideas of Physics**

*4 Semester Hours*

Discussions and experiments on selected topics such as motion, electricity and magnetism, heat, sound, and light.

Liberal Studies majors only.

Lecture, 3 hours; Laboratory, 1 hour.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

---

**PHYS 151**

**Physical Science**

*4 Semester Hours*

An introduction to the physical sciences, including physics, chemistry, astronomy, and geology, with an emphasis on conceptual understanding.

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

---

**PHYS 190**

**Workshop in Physics**

*1 Semester Hour*

Problem-solving skills. Fields of study and recent advances in physics. Career opportunities in physics.

Lecture, 1 hour.

---

**PHYS 198**

**Special Studies**

*1-4 Semester Hours*

---

**PHYS 199**

**Independent Studies**

*1-4 Semester Hours*

---

**PHYS 201**

**Introduction to Electricity and Magnetism**

*4 Semester Hours*

Lecture, 3 hours.

Prerequisites: PHYS 101 and 103.

Corequisites: MATH 132 and PHYS 203.

---

**PHYS 202**

**Introduction to Thermodynamics and Optics**

*4 Semester Hours*

Lecture, 3 hours.

Prerequisites: PHYS 101 and 103.

Corequisites: MATH 132 and PHYS 204.

</table>
**PHYS 411**  
**Modern Physics Lab I**  
2 Semester Hours  
Project experiments in physical optics, optical spectroscopy, and experiments using digital imaging arrays. Theoretical interpretation and statistical analysis are emphasized.  
Lecture, 1 hour; Laboratory, 3 hours.  
Corequisite: PHYS 321.

**PHYS 412**  
**Modern Physics Lab II**  
2 Semester Hours  
Project experiments in various areas of modern physics, including measurement of electron charge, spin, Hall effect, Rutherford scattering, and Tc of a superconductor. Theoretical interpretation and statistical analysis are emphasized.  
Lecture, 1 hour; Laboratory, 3 hours.  
Corequisites: PHYS 322 and 441.

**PHYS 421**  
**Solid State Physics**  
3 Semester Hours  
Lecture, 3 hours.  
Prerequisite: PHYS 321.

**PHYS 441**  
**Modern Optics**  
3 Semester Hours  
Lecture, 3 hours; occasional laboratory work.  
Corequisite: PHYS 302.

**PHYS 451**  
**Thermodynamics and Statistical Mechanics**  
3 Semester Hours  
Lecture, 3 hours.  
Prerequisite: PHYS 322.

**PHYS 461**  
**Elementary Particles**  
3 Semester Hours  
Lecture, 3 hours.  
Prerequisite: PHYS 322.

**PHYS 490**  
**Physics Teaching**  
1-2 Semester Hours  
Guided teaching of introductory physics.  
May be repeated for credit.  
Requires consent of instructor.

**PHYS 493**  
**Physics/Engineering Physics Internship**  
1-3 Semester Hours  
Research/development work conducted in a local government or industrial laboratory. The project may be theoretical or experimental and is jointly supervised by on-site staff and LMU faculty.

**PHYS 498**  
**Special Studies**  
1-4 Semester Hours

**PHYS 499**  
**Independent Studies**  
1-4 Semester Hours
School of Education

Faculty:
Acting Dean: Shane P. Martin
Acting Associate Dean: Edmundo Litton
Professors: Thomas Batsis, Paul De Sena, Victoria Graf, Scott Kester, Albert P. Koppes, O.Carm., Brian Leung, Mary McCullough, Candace Poindexter
Associate Professors: Magaly Lavadenz, Shane P. Martin, Irene Oliver
Assistant Professors: Marta Baltodano, Michael Caruso, S.J., Edmundo F. Litton, Francisco Ramos
Clinical Faculty: Kimberly Haag, Greg Knotts

Mission Statement
In accordance with the Mission of Loyola Marymount University, the faculty, staff, and students of the School of Education understand and declare our purpose to be the encouragement of life-long learning and academic excellence, the education of the whole person, and the promotion of service and justice for all. We commit ourselves to serving public and private education by fostering excellence inspired by the Marymount and Jesuit traditions of Catholic education.

Goal Statement
The faculty, staff, and students of the School of Education strive to work collaboratively in a student-centered environment to be professionals who act to:

- **Value and respect all individuals**
  We believe in the worth of each individual. We affirm the inherent dignity and value of each person as a child of God. Therefore, we believe that all individuals have the potential to be successful learners with unique characteristics and experiences that bring positive value and meaning to the learning experience.

- **Promote social justice**
  We recognize the existence of social inequity, marginalization, and the different faces of oppression, and we commit ourselves to work actively for the establishment of a just and equitable society. While it is important to understand critically the structures, practices, and discourses that cause and perpetuate injustice, we also aim to nurture transformative structures, practices, and discourses that actively promote greater equity. This commitment challenges us to think with a global perspective, to embrace the notion of a preferential option for the poor, and to act with a conviction of equity.

  - **Promote cultural responsiveness**
    We recognize diversity as a strength, and we commit ourselves personally and professionally to serve culturally and linguistically diverse populations. These populations include those who represent cultural diversity broadly defined, including race, ethnicity, socio-economic status, gender, religion, sexual orientation, ability, and age. Among other valuable theories and approaches, we utilize sociocultural and constructivist perspectives in teaching and learning. We value these and other perspectives that promote active participation in learning as well as meaningful and authentic instruction and assessment and emphasize students’ cultural and linguistic background experiences.

  - **Integrate theory and practice**
    We strive to unite theory and practice in a reciprocal relationship that mutually informs each other. We are a community of reflective practitioners, guided by critical inquiry and social responsibility. We actively engage in educational research, including faculty/student collaboration. We affirm the use of technology in education as authentic, meaningful, and accessible to all learners.

  - **Develop moral, intellectual, responsible, and caring leaders**
    We are committed to the preparation of educators who will be leaders in the field and who reflect high standards of ethics and values. We seek to be, and to encourage others to be, women and men who have the intellectual skills to critically evaluate educational issues, have the moral conviction to respond as agents of change, and exhibit an ethic of care in the service of others.
• **Collaborate and share leadership across communities**

We believe in the value of working collaboratively with the districts, schools, parents, and students of the communities we serve to successfully educate all learners. We recognize, support, and promote the gifts and talents of community members and encourage their participation in decision-making processes.

**Statement of Professional Dispositions**

The National Council for Accreditation of Teacher Education (NCATE) requires the LMU School of Education to assess the professional dispositions of education credential and degree candidates. According to NCATE, professional dispositions are "The values, commitments, and professional ethics that influence behavior toward students, families, colleagues, and communities and affect student learning, motivation, and development as the educator’s own professional growth. Dispositions are guided by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility, and social justice." Throughout a candidate's program, the faculty will assess the School of Education Unit and Program Professional Dispositions, and failure to meet professional expectations may result in a remediation process for the candidate. In extreme cases, failure to meet professional expectations could warrant dismissal from an education program. The School of Education holds four Unit Dispositions that shape the professional expectations for all candidates: “We strive to be, and to educate professionals to be, educators who: Respect and value all individuals and communities; Educate by integrating theory and practice; Advocate for access to a socially just education; and Lead in order to facilitate transformation.”

**Teacher Education Division**

**THE NEW 2042 MULTIPLE AND SINGLE SUBJECT CREDENTIAL:** The California Commission on Teacher Credentialing created new standards that govern the issuance of multiple and single subject credentials based on California Senate Bill 2042. This new credential is referred to as the “2042 Credential.” In January 2003, Loyola Marymount University received approval to prepare candidates for the new 2042 credential. The program described in this section is the new preliminary 2042 credential. All students admitted to Loyola Marymount University (as either first year students or transfer students) and enrolled in classes for the 2003-2004 academic year who would like to be recommended for a multiple or single subject credential will have to meet the requirements of the 2042 credential. Since sophomore status is a requirement for taking Education courses, the School of Education will offer the new 2042 courses for undergraduate students starting in the 2004-2005 academic year.

Students enrolled in classes at Loyola Marymount University prior to the 2003 Summer term (even if they have not been admitted to the School of Education) are still governed by the standards of the Crosscultural Language and Academic Development (CLAD) or Bilingual (BCLAD Spanish) credential. However, all candidates in the CLAD program or pre-2042 BCLAD program must COMPLETE ALL program requirements AND APPLY for a teaching credential by December 1, 2008. For more information or clarification, students in the CLAD or pre-2042 BCLAD program should refer to the Bulletin of the year they were accepted into LMU or consult with the appropriate faculty member in the School of Education.

**EDUCATION SPECIALIST AND BILINGUAL (SPANISH) CREDENTIAL:** In addition to the new multiple and single subject 2042 credential, the Teacher Education Division offers the education specialist credential: Mild/Moderate Disabilities Level I and Level II. The Bilingual Crosscultural Language and Academic Development (BCLAD) credential (Spanish emphasis) is also available.

Teaching credential requirements are governed by the California Commission on Teacher Credentialing and are subject to change.
Elementary Education:

The 2042 Multiple Subject Preliminary Credential program is designed for students who are seeking teaching positions in grades K-5 or any self-contained classrooms in grades 6-8.

Coordinator: Irene Oliver
Assistant Coordinator: Candace Poindexter

Acceptance into the undergraduate 2042 multiple subject (elementary) teaching credential program is accomplished by completing and submitting the following to the School of Education:

1. MANDATORY INFORMATION MEETING: Informational meetings are held monthly at the University. Attendance at one of these meetings is required to obtain appropriate forms, instructions, and further information. Further assistance in filing paperwork may also be obtained from the School of Education office. Students should apply for admission into the School of Education during the semester that they are completing the last prerequisite course.

2. APPLICATION FORM: All students must complete an application form. This form is available in the School of Education.

3. MINIMUM GPA OF 2.8: A minimum GPA of 2.8 is required for admission to a teaching credential program. Students who do not meet this requirement may be admitted on probation after they have applied to the Exceptions Committee. Students must submit official transcripts from all colleges/universities attended outside of Loyola Marymount University. At the conclusion of the program, all students must request an official Loyola Marymount University transcript.

4. PREREQUISITE COURSES: Complete pre-requisite courses with a grade “B” or better. Students who do not meet this requirement may be admitted on probation upon review by the admissions committee. Students will not be allowed to take other courses beyond the prerequisites without formal admission into the School of Education. Prerequisite courses are available only to sophomores (30 semester hours earned) or higher.

5. CBEST SCORE REPORT: The California Basic Educational Skills Test (CBEST) must be passed prior to admission. An original score report must be submitted to the School of Education. Registration booklets are available in the School of Education.

6. SUBJECT MATTER COMPETENCY: Students must demonstrate mastery of the required subject matter by passing the appropriate subject matter exam (CSET). Results of subject matter examinations are valid for only five years. A student must apply for a teaching credential prior to the expiration of the results of the subject matter examinations.

7. OBSERVATION/VOLUNTEER HOURS: All students must present acceptable evidence of at least 60 hours experience with culturally diverse youth groups at the 4-13 year age level.

8. RECOMMENDATION FORMS: Four recommendation forms (one of which must be from the student’s major advisor) must be submitted. These forms are included in the application packet.

9. CERTIFICATE OF CLEARANCE AND VIOLATION AFFIDAVIT: An application for fingerprint clearance must be submitted prior to acceptance into the program. Fingerprint applications are available in the School of Education, and there are additional fees associated with the application that are submitted to the California Commission on Teacher Credentialing. Clear instructions are provided in the application packet. After receiving the Certificate of Clearance, all students will be asked to complete a Violation Affidavit prior to enrolling in student teaching.

10. TUBERCULIN TEST: California regulations require all students to submit an original copy of results of a tuberculin skin test given within the last year.

11. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination. At Loyola Marymount University, approved U.S. Constitution courses are HIST 161, 162; POLS 130, 135. Students who may have taken an approved course from another institution should ask the admissions office of the School of Education to evaluate the course for equivalency.

12. BASIC COMPUTER SKILLS: All students must be able to show evidence of knowledge of basic computer skills. Students may take EDUX 841 (a one-unit course) through LMU Extension or an equivalent course at another institution. Students can also provide documentation of knowledge of basic computer skills by having an employer or professor complete a verification form. Students may also pass a test (additional fee required)
administered by the School of Education. More information on this requirement is available in the School of Education.

13. HEALTH EDUCATION FOR EDUCATORS: All students must take a course on Health Education appropriate for future teachers. The course must meet the 2042 credential standards. At Loyola Marymount University, students may take EDUX 842 through LMU Extension. If a student fulfills this requirement at another institution, it is strongly recommended that the student obtain approval from the School of Education prior to taking the class. Official transcripts should be provided as evidence of completion of the course.

14. INTERVIEW WITH A FACULTY ADVISOR: When all application materials have been completed, students must interview with a faculty advisor of the Elementary Education Program.

REVIEW BY ADMISSION COMMITTEE: After all the steps outlined above have been completed, the candidate’s file will be submitted to the Teacher Admission and Advisory Committee (TAAC) for review. It is the student’s responsibility to ensure that all items have been received. The committee may accept, defer, or deny admission. Students will be notified of the committee’s decision in writing.

APPLICATION DEADLINES: Application deadlines are as follows: July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer Session.

All documents become the property of the University and will not be released to any person or institution.

Requirements for the Preliminary 2042 Multiple Subject (Elementary) CLAD or BCLAD Teaching Credential:

I. BASIC SKILLS TEST: All students must pass the California Basic Educational Skills Test (completed during the admission process).

II. CERTIFICATE OF CLEARANCE AND VIOLATION AFFIDAVIT: All students must obtain a Certificate of Clearance issued by the California Commission on Teacher Credentialing (application submitted during the admission process).

III. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination (completed during the admission process).

IV. BASIC COMPUTER SKILLS FOR EDUCATORS: All students must be able to show evidence of knowledge of basic computer skills (completed during the admission process).

V. HEALTH EDUCATION COURSE: All students must take a course on Health Education appropriate for future teachers (completed during the admission process).

VI. PREREQUISITE COURSES:
- EDUC 400 Sociocultural Analysis of Education
- EDUC 401 Educational Psychology for the Childhood and Adolescent Years
- EDUC 414 Theories of Second Language Acquisition
- EDUC 440 Education of Culturally and Linguistically Diverse Students with Exceptional Needs

Initial Assessment: Upon completion of initial coursework, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

VII. PROFESSIONAL COURSEWORK: (Suggested Sequence)
- EDUC 409 Literacy in the Curriculum
- EDUC 425 ELD Methods and SDAIE
- EDUC 434 Elementary Curriculum and Methods

Pre-fieldwork Assessment: Before student teaching or the final assessment course, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, readiness for final fieldwork, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

VIII. TEACHING PERFORMANCE ASSESSMENT: All students must complete and pass the four tasks of the Teaching Performance Assessment. Each course listed below is 0 units and must be completed at specific times during the program. Please consult your program advisor for more information on the Teaching Performance Assessment.
Secondary Education:

The Single Subject Credential program is designed for students who are seeking teaching positions in grades 9-12, or in 6-8 school settings that require teachers to teach in settings that are departmentalized. The program leads towards the 2042 Preliminary Teaching Credential granted by the State of California Commission on Teacher Credentialing.

Coordinator: Edmundo F. Litton

Acceptance into the 2042 preliminary single subject (secondary) teaching credential program is accomplished by completing and submitting the following items to the School of Education:

1. MANDATORY INFORMATION MEETING: Informational meetings are held monthly at the University. Attendance at one of these meetings is required to obtain appropriate forms, instructions, and further information. Further assistance in filing paperwork may also be obtained from the School of Education office. Students should apply for admission into the School of Education during the semester that they are completing the last prerequisite course.

2. APPLICATION FORM: All students must complete an application form. This form is available in the School of Education.

3. MINIMUM GPA OF 2.8: A minimum GPA of 2.8 is required for admission to a teaching credential program. Students who do not meet this requirement may be admitted on probation after they have applied to the Exceptions Committee. Students must submit official transcripts from all colleges/universities attended outside of Loyola Marymount University. At the conclusion of the program, all students must request an official Loyola Marymount University transcript.

4. PREREQUISITE COURSES: Complete prerequisite courses with a grade “B” or better. Students who do not meet this requirement may be admitted on probation upon review by the admissions committee. Students will not be allowed to take other courses beyond the prerequisites without formal admission into the School of Education. Prerequisite courses are available only to sophomores (30 semester hours earned) or higher.

5. CBEST SCORE REPORT: The California Basic Educational Skills Test (CBEST) must be passed prior to admission. An original score report must
be submitted to the School of Education. Registration booklets are available in the School of Education.

6. SUBJECT MATTER COMPETENCY: Students must present evidence for a plan for demonstrating mastery of the required subject matter. Students may either submit evidence of registration for the approved subject matter examination or a letter from the program coordinator of an approved subject matter program. At the time of this publication, Loyola Marymount University has approved subject matter programs for single subject candidates in Math, English, Art, and Spanish. Students should consult the Coordinator for Secondary Education for more information on other approved subject matter programs. Results of subject matter examinations are valid for only five years. A student must apply for a teaching credential prior to the expiration of the results of the subject matter examinations.

7. OBSERVATION/VOLUNTEER HOURS: All students must present acceptable evidence of at least 60 hours experience with culturally diverse youth groups at the middle or high school level.

8. RECOMMENDATION FORMS: Four recommendation forms (one of which must be from the student’s major advisor) must be submitted. These forms are included in the application packet.

9. CERTIFICATE OF CLEARANCE AND VIOLATION AFFIDAVIT: An application for fingerprint clearance must be submitted prior to acceptance into the program. Fingerprint applications are available in the School of Education, and there is an additional fee submitted to the California Commission on Teacher Credentialing. Clear instructions are provided in the application packet. After receiving the Certificate of Clearance, all students will be asked to complete a Violation Affidavit prior to enrolling in student teaching.

10. TUBERCULIN TEST: California regulations require all students to submit an original copy of results of a tuberculin skin test given within the last year.

11. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination. At Loyola Marymount University, approved U.S. Constitution courses are HIST 161, HIST 162, POLS 130, and POLS 135. Students who may have taken an approved course from another institution should ask the School of Education to evaluate the course for equivalency.

12. BASIC COMPUTER SKILLS: All students must be able to show evidence of knowledge of basic computer skills. Students may take EDUX 841 (a one-unit course) through LMU Extension or an equivalent course at another institution. Students can also provide documentation of knowledge of basic computer skills by having an employer or professor complete a verification form. Students may also pass a test (additional fee required) administered by the School of Education. More information on this requirement is available in the School of Education.

13. HEALTH EDUCATION FOR EDUCATORS: All students must take a course on Health Education appropriate for future teachers. The course must meet the 2042 credential standards. At Loyola Marymount University, students may take EDUX 842 through LMU Extension. If a student fulfills this requirement at another institution, it is strongly recommended that the student obtain approval from the School of Education prior to taking the class. Official transcripts should be provided as evidence of completion of the course.

14. INTERVIEW WITH A FACULTY ADVISOR: When all application materials have been completed, students must interview with a faculty advisor of the Secondary Education Program.

REVIEW BY ADMISSION COMMITTEE: After all the steps outlined above have been completed, the candidate’s file will be submitted to the Teacher Admission and Advisory Committee (TAAC) for review. It is the student’s responsibility to ensure that all items have been received. The committee may accept, defer, or deny admission. Students will be notified of the committee’s decision in writing.

APPLICATION DEADLINES: Application deadlines are as follows: July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer Session.

All documents become the property of the University and will not be released to any person or institution.
Requirements for the 2042 Preliminary Single Subject (Secondary) Teaching Credential:

I. BASIC SKILLS TEST: All students must pass the California Basic Educational Skills Test (completed during the admission process).

II. CERTIFICATE OF CLEARANCE AND VIOLATION AFFIDAVIT: All students must obtain a Certificate of Clearance issued by the California Commission on Teacher Credentialing (application submitted during the admission process).

III. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination (completed during the admission process).

IV. BASIC COMPUTER SKILLS FOR EDUCATORS: All students must be able to show evidence of knowledge of basic computer skills (completed during the admission process).

V. HEALTH EDUCATION COURSE: All students must take a course on Health Education appropriate for future teachers (completed during the admission process).

VI. PREREQUISITE COURSES:

EDUC 400 Sociocultural Analysis of Education
EDUC 401 Educational Psychology for the Childhood and Adolescent Years
EDUC 414 Theories of Second Language Acquisition
EDUC 440 Education of Culturally and Linguistically Diverse Students with Exceptional Needs

Initial Assessment: Upon completion of initial coursework, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

VII. PROFESSIONAL COURSEWORK: (Suggested Sequence)

EDUC 425 ELD Methods and SDAIE
EDUC 428 Reading/Language Arts for the Single Subject Teacher

One of the following courses, depending on the subject emphasis of the credential:

ART 450 Seminar in Art Education
EDUC 484 General Methods Teaching Languages Other Than English
EDUC 485 Teaching Social Studies in Secondary School
EDUC 486 Trends in Teaching English in Secondary Schools
EDUC 487 Trends in Teaching Secondary Science
EDUC 488 Recent Trends in Teaching Secondary Mathematics

Pre-fieldwork Assessment: Before student teaching or the final assessment course, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, readiness for final fieldwork, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

VIII. TEACHING PERFORMANCE ASSESSMENT: All students must complete and pass the Teaching Performance Assessment. Each course listed below is 0 units and must be completed at specific times during the program. Please consult your program advisor for more information on the Teaching Performance Assessment.

EDUC 461 Teaching Performance Assessment Task 1
EDUC 462 Teaching Performance Assessment Task 2
EDUC 463 Teaching Performance Assessment Task 3
EDUC 464 Teaching Performance Assessment Task 4

IX. STUDENT TEACHING: Students can only be admitted to student teaching after all admission and course requirements are completed. Students are not allowed to enroll in student teaching if they have a grade of “I” (Incomplete) in any courses.

EDUC 412 Secondary Directed Teaching (9 Semester Hours)

X. BACHELOR'S DEGREE: Students must submit an official transcript from Loyola Marymount University once the degree is posted.
XI. APPLICATION FOR A CREDENTIAL: When all requirements have been completed, a student must complete an application for a credential through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required).

2042 Professional Clear Single Subject Teaching Credential:

A student has five years after obtaining the preliminary credential in which to complete the requirements for the professional clear credential. Under the 2042 standards, candidates must complete an approved INDUCTION program through a school district or university. At the moment, Loyola Marymount University is creating an induction program, and the California Commission on Teacher Credentialing will review the program in the near future.

Bilingual Education:

Coordinator: Edmundo F. Litton

The Bilingual teaching credential (BCLAD Spanish) emphasis is designed for future teachers who want to conduct classroom instruction in both Spanish and English. The BCLAD component can be added to either a multiple (elementary) or single (secondary) subject teaching credential.

Acceptance into the BCLAD teaching credential program is accomplished by completing and submitting the following items to the School of Education:

1. ALL PROGRAM REQUIREMENTS FOR THE MULTIPLE OR SINGLE SUBJECT CREDENTIAL: BCLAD candidates must complete all the admission requirements outlined in either the Multiple or Single Subject credential program as described in previous sections.

2. MINIMUM LANGUAGE REQUIREMENT: All students must demonstrate minimum communicative competency in Spanish prior to starting the BCLAD program. BCLAD candidates can meet this language requirement by providing an official transcript showing completion of a Spanish major or minor, passing an approved language examination (such as the one offered by LMU’s Department of Modern Languages and Literatures), transcript showing extensive schooling in a Spanish-speaking country, or appropriate Peace Corps experience in a Spanish-speaking country.

REVIEW BY ADMISSION COMMITTEE: After all the steps outlined above have been completed, the candidate’s file will be submitted to the Teacher Admission and Advisory Committee (TAAC) for review. It is the student’s responsibility to ensure that all items have been received. The committee may accept, defer, or deny admission. Students will be notified of the committee’s decision in writing.

APPLICATION DEADLINES: Application deadlines are as follows: July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer Session.

All documents become the property of the University and will not be released to any person or institution.
Special Education:  
Coordinator: Victoria Graf

The Special Education program allows students from a variety of academic backgrounds to pursue a minor in Special Education or the Education Specialist Credential: Mild/Moderate Disabilities. These programs include preparation in the education of culturally and linguistically diverse students with exceptional needs. The Education Specialist Credential: Mild/Moderate Disabilities authorizes candidates to teach students with specific learning disabilities, mental retardation, emotional disturbance, or other health impairments.

Admission Requirements for Mild/Moderate Specialist Credential:

Application for admission into the Mild/Moderate specialist credential, elementary or secondary school-age emphasis, is accomplished by completing and submitting the following to the School of Education:

1. MANDATORY INFORMATION MEETING: Informational meetings are held monthly at the University. Attendance at one of these meetings is required to obtain appropriate forms, instructions, and further information. Further assistance in filing paperwork may also be obtained from the School of Education office. Students should apply for admission into the School of Education during the semester that they are completing the last prerequisite course.

2. APPLICATION FORM: All students must complete a Special Education Program application form. This form is available in the School of Education.

3. MINIMUM GPA OF 2.8: A minimum GPA of 2.8 is required for admission to a teaching credential program. Students who do not meet this requirement may be admitted on probation after they have applied to the Exceptions Committee. Students must submit official transcripts from all colleges/universities attended outside of Loyola Marymount University. At the conclusion of the program, all students must request an official Loyola Marymount University transcript.

4. PREREQUISITE COURSES: Complete prerequisite courses with a grade “B” or better. Students who do not meet this requirement may be admitted on probation upon review by the admissions committee. Students will not be allowed to take other courses beyond the

Requirements for the Bilingual (BCLAD Spanish) Teaching Credential (Multiple and Single Subject):

Candidates for the BCLAD credential must complete all the requirements for either the Multiple or Single Subject credential and the following additional requirements:

I. ADDITIONAL BCLAD COURSEWORK:
   
   EDUC 416  Methodology for Primary Language Instruction in Bilingual Settings
   
   EDUC 420  Chicano/Latino Cultures: An Interdisciplinary Perspective

II. BCLAD TEST 6: BCLAD candidates must pass test 6 (Spanish language) of the BCLAD exam prior to enrolling in student teaching. Candidates who are completing or have completed a degree with a Spanish major are exempt from this requirement.
prerequisites without formal admission into the School of Education. Prerequisite courses are available only to sophomores (30 semester hours earned) or higher.

5. CBEST SCORE REPORT: The California Basic Educational Skills Test (CBEST) must be passed prior to admission. An original score report must be submitted to the School of Education. Registration booklets are available in the School of Education.

6. SUBJECT MATTER COMPETENCY: Students must demonstrate mastery of the required subject matter by passing the appropriate subject matter exam, or they provide documentation that states that they are completing an approved single subject matter preparation program. Results of subject matter examinations are valid for only five years. A student must apply for a teaching credential prior to the expiration of the results of the subject matter examinations.

Elementary Education Emphasis: Students may either submit evidence of registration for the approved Multiple Subject assessment examination (CSET).

OR

Secondary Education Emphasis: Students may either submit evidence of registration for the approved subject matter examination or a letter from the program coordinator of an approved subject matter program. At the time of this publication, Loyola Marymount University has approved subject matter programs for single subject candidates in Math, English, Art, and Spanish. Students should consult the School of Education for more information on other approved programs.

7. OBSERVATION/VOLUNTEER HOURS: All students must present acceptable evidence of at least 60 hours experience with culturally and linguistically diverse youth groups between the ages of 4-22.

8. RECOMMENDATION FORMS: Four recommendation forms (one of which must be from the student’s major advisor) must be submitted. These forms are included in the application packet. Letters of recommendation should indicate the applicant’s promise as a teacher in special education programs, particularly with culturally and linguistically diverse students with exceptional needs. All recommendations should be on appropriate school or business letterhead.

9. TUBERCULIN TEST: California regulations require all students to submit an original copy of results of a tuberculin skin test given within the last year.

10. CERTIFICATE OF CLEARANCE AND VIOLATION AFFIDAVIT: An application for fingerprint clearance must be submitted prior to acceptance into the program. Fingerprint applications are available in the School of Education, and there are additional fees associated with the application that are submitted to the California Commission on Teacher Credentialing. Clear instructions are provided in the application packet. After receiving the Certificate of Clearance, all students will be asked to complete a Violation Affidavit prior to enrolling in student teaching.

11. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination. At Loyola Marymount University, approved U.S. Constitution courses are HIST 161, HIST 162, POLS 130, and POLS 135. Students who may have taken an approved course from another institution should ask the School of Education to evaluate the course for equivalency.

12. BASIC COMPUTER SKILLS: All students must be able to show evidence of knowledge of basic computer skills. Students may take EDUX 841 (a one-unit course) through LMU Extension or take an equivalent course at another institution. Students can also provide documentation of knowledge of basic computer skills by having an employer or professor complete a verification form. Students may also pass a test (additional fee required) administered by the School of Education. More information on this requirement is available in the School of Education.

13. INTERVIEW WITH A FACULTY COORDINATOR: When all application materials have been submitted, students must interview with the Coordinator of the Special Education Program.

REVIEW BY ADMISSION COMMITTEE: After all the steps outlined above have been completed, the candidate’s file will be submitted to the Teacher Admission and Advisory Committee (TAAC) for review. It is the student’s responsibility to ensure that all items have been received. The committee may accept, defer, or deny admission. Students will be notified of the committee’s decision in writing.
APPLICATION DEADLINES: Application deadlines are as follows: July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer Session.

All documents become the property of the University and will not be released to any person or institution.

Course Requirements for the Education Specialist Credential: Mild/Moderate Disabilities—Level I
(Elementary School-Age Emphasis)

This credential program should be started during the student’s sophomore year. Students in this program generally major in Liberal Studies (see admission requirement #6). Students must transfer their admission status to graduate student upon completion of their baccalaureate degree. The program listed is geared towards elementary school-age children.

Candidates are encouraged to meet regularly with their Program Coordinator for advice and assistance in meeting the admission requirements and registering for classes.

I. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing one of the following courses at Loyola Marymount University: HIST 161, 162; POLS 130, 135 (or equivalent). An appropriate exam also fulfills this requirement. Please contact the History Department for further information.

II. BASIC COMPUTER SKILLS FOR EDUCATORS: All students must be able to show evidence of knowledge of basic computer skills. There are several ways to meet this requirement. Candidates should consult with their program advisor to discuss options.

III. PREREQUISITE COURSES (Suggested Sequence):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC 400</td>
<td>Sociocultural Analysis of Education (3 units)</td>

Note on the RICA Test: The Reading Instruction Competency Assessment (RICA) is required for all multiple subject credential programs. This examination should not be attempted until completion of EDUC 409 and must be passed before a credential is issued.

Professional Level II Education Specialist Credential: Mild/Moderate Disabilities

Candidates who have completed the Preliminary Level I Mild/Moderate Specialist credential program and have a full-time special education teaching position working with students with mild/moderate disabilities must enroll in an approved program for the Professional Level II Education Specialist credential within 120 calendar days of service on the Preliminary credential. Please see the Graduate Bulletin for details.
Course Requirements for the Education Specialist Credential: Mild/Moderate Disabilities—Level I

(Secondary School-Age Emphasis)

This credential program should be started during the student's sophomore year. Students in this program are seeking teaching positions in grades 9-12 or in 6-8 school settings that require teachers to teach in settings that are departmentalized. Students must transfer their admission status to graduate student upon completion of their baccalaureate degree. The program listed is geared towards secondary school-age children.

Candidates are encouraged to meet regularly with their Program Coordinator for advice and assistance in meeting the admission requirements and registering for classes.

I. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing one of the following courses at Loyola Marymount University: HIST 161, 162; POLS 130, 135 (or equivalent). An appropriate exam also fulfills this requirement. Please contact the History Department for further information.

II. BASIC COMPUTER SKILLS FOR EDUCATORS: All students must be able to show evidence of knowledge of basic computer skills. There are several ways to meet this requirement. Candidates should consult with their program advisor to discuss options.

III. PREREQUISITE COURSES (Suggested Sequence):

EDUC 400 Sociocultural Analysis of Education (3 units)
EDUC 414 Theories of Second Language Acquisition (3 units)
EDUC 440 Introduction to the Culturally and Linguistically Diverse Students with Exceptional Needs (3 units)
EDUC 444 Observation and Participation in General and Special Education Programs (2 units)

Initial Assessment: Upon completion of initial coursework, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, readiness for final fieldwork, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

IV. PROFESSIONAL COURSEWORK:

EDUC 428 Reading/Language Arts for the Single Subject Teachers (* See Note on RICA Test below)

One of the following courses, depending on the subject emphasis of the credential:

ART 450 Seminar in Art Education (3 units)
EDUC 427 Creating Effective Classrooms in Diverse Settings (2 units)
EDUC 436 Creating Collaborative Partnerships (2 units)
EDUC 443 Informal Assessment and Individual Educational Program (IEP) Development for Students with Exceptional Needs (3 units)
EDUC 475 Teaching and Assessing Students with Mild/Moderate Subject Matter Disabilities (4 units)
EDUC 476 Policies and Issues in Education for Diverse Learners with Disabilities (3 units)
EDUC 484 General Methods Teaching Languages Other Than English (3 units)
EDUC 485 Teaching Social Studies in Secondary School (3 units)
EDUC 486 Trends in Teaching English in Secondary Schools (3 units)
EDUC 487 Trends in Teaching Secondary Science (3 units)
EDUC 488 Recent Trends in Teaching Secondary Mathematics (3 units)

Pre-fieldwork Assessment: Before student teaching or the final assessment course, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, readiness for final fieldwork, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

V. STUDENT TEACHING:

EDUC 456 Directed Teaching with Culturally/Linguistically Diverse Students with Mild/Moderate Disabilities (9 Semester Hours) (All Incompletes must be removed prior to registration.)
Note on the RICA Test: The Reading Instruction Competency Assessment (RICA) is required for all multiple subject credential programs. This examination should not be attempted until completion of EDUC 428 and must be passed before a credential is issued.

**Professional Level II Education Specialist Credential: Mild/Moderate Disabilities:**
Candidates who have completed the Preliminary Level I Mild/Moderate Specialist credential program and have a full-time special education teaching position working with students with mild/moderate disabilities must enroll in an approved program for the Professional Level II Education Specialist credential within 120 calendar days of service on the Preliminary credential. Please see the Graduate Bulletin for details.

**Additional Coursework for CLAD/BCLAD Certificate**
Please see the Graduate Bulletin for details.

**Minor in Education**
Students may declare a minor in Education so that their Education coursework is duly acknowledged in their official transcript. In order to maximize the full potential of taking Education courses within the undergraduate program, students are strongly encouraged to declare the Education minor early in their career. The Education minor is not applicable to Liberal Studies majors (multiple subject credential). **Completion of an Education minor does not equal completion of the requirements for a teaching credential.** Students may complete the Education minor without completing all the requirements for a teaching credential.

Students wishing to be admitted to the Minor in Education program must complete all the requirements for admission to the School of Education except for the subject matter competency and CBEST requirements.

**Minor in Elementary Education**
*(18 Semester Hours)*
For non-Liberal Studies majors only.

18 semester hours in Education from the following courses:
- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses from the following: EDUC 409, 425, 428, 484, 485, 486, 487, 488

**Minor in Secondary Education**
*(18 Semester Hours)*
18 semester hours in Education from the following courses:
- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses from the following: EDUC 425, 434, 428, 484, 485, 486, 487, 488

**Minor in Bilingual Education**
*(18 Semester Hours)*
For non-Liberal Studies majors only.

18 semester hours in Education from the following courses:
- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses in Bilingual Education: EDUC 416 and 420

**Minor in Special Education**
*(18 Semester Hours)*
The recommended course sequence is as follows:
- Sophomore Year: EDUC 400 and 440
- Junior Year: EDUC 443 and 444 (2 units)
- Senior Year: EDUC 427 (2 units), 436 (2 units), and capstone course (3 units)

**EDUC 400**
*Sociocultural Analysis of Education*  
*3 Semester Hours*
A study of the sociological and anthropological analysis of contemporary education with emphases on historical and cultural contexts, culturally sensitive pedagogy, cultural and ethnic diversity, social/cultural issues, equity, access to the core curriculum, and demographic trends in schools and society. Emphasis is placed on the preparation of professionals for the teaching profession and their awareness of social, psychological, and cultural forces shaping society today so that they are prepared to work with all learners. This course is designed for undergraduates in the traditional and/or blended teacher preparation program.

Prerequisite: Sophomore or higher.
<table>

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC 401</td>
<td>Educational Psychology for the Childhood and Adolescent Years</td>
<td>3</td>
<td>A study of the learning environment, the evaluation of learning, and the teaching/learning process. An analysis of the physical, intellectual, emotional, cultural, and ethnic factors affecting development, learning, and behavior. This course is a prerequisite for acceptance into the Multiple and Single Subject Credential Program. Emphasis is placed on implications for teaching and learning in the primary, elementary, middle, and senior high schools. Fieldwork is required. Prerequisite: Sophomore or higher.</td>
</tr>
<tr>
<td>EDUC 404</td>
<td>Science in the Elementary Curriculum</td>
<td>2</td>
<td>This course is designed to provide opportunities for prospective teachers to develop their understanding and ability to teach science to culturally diverse students in the elementary grades. Particular emphasis is placed on strategies which will accommodate linguistically diverse students. Laboratory type activities provide opportunities for the students to investigate a variety of methods related to teaching science using a conceptual approach. Investigations stress processes, attitudes, values, and technological relationships that are effective in multicultural and multilingual classrooms. Focus is on the interaction between the teacher, students, and the discipline of science, and how the student is actively involved in learning through a constructivist and experiential approach. Lab fee required. Prerequisite: Admission to program.</td>
</tr>

<td>EDUC 405</td>
<td>Mathematics in the Elementary Curriculum</td>
<td>2</td>
<td>This course is designed to provide opportunities for prospective teachers to develop their understanding and ability to teach mathematics in the elementary grades. Particular emphasis is placed on laboratory type activities where students investigate a variety of methods related to teaching math using a conceptual approach and utilizing strategies which are successful with culturally and linguistically diverse learners. Focus is on the development of lessons and long-term plans to actively involve the learner in all of the math strands through experiential activities. Lab fee required. Prerequisite: Admission to program.</td>
</tr>
<tr>
<td>EDUC 409</td>
<td>Reading and Language Arts in the Elementary Curriculum</td>
<td>3</td>
<td>This course is designed to provide opportunities for prospective teachers to develop their understanding and ability to teach reading/language arts to all students in the elementary grades. Particular emphasis will be placed on strategies which will accommodate culturally and linguistically diverse learners. Consideration is given to the procedures, skills development, organizations, systems of instruction, and instructional materials utilized in the development of an effective balanced and integrated approach to the teaching of reading/language arts instruction in the elementary school that supports literacy development. This course meets the requirements of section 44755 of the California Education Code. This course will be preparation for the RICA (Reading Instruction Competency Assessment) based on the following reading domains: Domain I Organizing Reading Instruction Based on Ongoing Assessment, Domain II Phonological and other Linguistic Processes Related to Reading, Domain III Developing Reading Comprehension and Promoting Independent Reading, Domain IV Supporting Reading through Oral and Written Language. Prerequisite: Admission to program.</td>
</tr>
<tr>
<td>EDUC 406</td>
<td>Social Studies in the Elementary Curriculum</td>
<td>2</td>
<td>This course is designed to provide opportunities for prospective teachers to develop professional knowledge and competence for teaching social studies. This course deals with purpose, content, procedures, and organization of instruction in those curricular areas as prescribed in the California State adopted framework. The current trends and social issues affecting the teacher’s selection of instructional approaches and the selection of instructional resources are explored. All state-mandated content areas, including culturally and linguistically diverse teaching techniques and methods for social studies, are included. Prerequisite: Admission to program.</td>

</tbody>
</table>
EDUC 410
Directed Teaching, Elementary
9 Semester Hours

Full-time supervised teaching in two culturally diverse public elementary schools; seminar sessions held throughout the term which include instruction in art, music, and physical education. Offered on a Credit/No Credit basis only.

Admission by consent of Coordinator.

EDUC 412
Fieldwork: Secondary Directed Teaching
9 Semester Hours

Use of good instructional practices in public or private schools; analysis of the secondary curriculum with special emphasis on the student's major; development of a professional viewpoint through participation in organized group discussion. During the term the student engages in supervised teaching in an accredited public or private junior or senior high school. Offered on a Credit/No Credit basis only.

Admission by consent of Coordinator.

EDUC 414
Theories of Second Language Acquisition
3 Semester Hours

Course content includes theoretical perspectives in first and second language learning, language teaching methodologies, assessment, identification, and program placement for Limited English Proficient students. The course provides an introduction to instructional strategies including English Language Development (ELD), Specially Designed Academic Instruction in English (SDAIE), and cooperative learning. Historical, political, legal, and social factors related to second language acquisition are addressed, including the history of bilingual education; federal, state, and local legislation; bilingual education models; and the role of parents and paraprofessionals in English language development. Fieldwork in a setting with English language learners is a required component of this class.

Prerequisite: Sophomore or higher.

EDUC 415
Politics of Education
3 Semester Hours

An overview of the historical and contemporary organization of schools, including federal, state, and local education and language policies. The philosophical and decision-making structures within schools will be examined from various perspectives. Of particular emphasis will be the impact of these on linguistically and culturally diverse populations.

Prerequisite: EDUC 414.

EDUC 416
Methodology for Primary Language Instruction in a Bilingual Setting
3 Semester Hours

Consideration is given to current trends and social issues affecting bilingual programs including program characteristics, instructional approaches, and selection and use of primary language materials. Specific emphasis is placed on literacy/biliteracy in the primary language, with an integrated approach to content area instruction. Fluency and literacy in Spanish is required.

Prerequisite: EDUC 415 and consent of Coordinator.

EDUC 420
Chicano-Latino Culture: An Interdisciplinary Perspective
3 Semester Hours

The presentation of a cultural analysis of the diversity within Chicano/Latino groups. Historical, political, economic, and social issues will be addressed, including the expression of culture in areas such as language, literature, and religion.

Prerequisite: Consent of Coordinator.
EDUC 425
ELD Methods/SDAIE
3 Semester Hours

The goal of this course is to provide students with the opportunity to acquire knowledge, skills, and ability to deliver comprehensive instruction to English learners. Students will learn how to implement instructional programs that facilitate English language acquisition and development, including receptive and productive language skills, and that logically progress to the grade level reading/language arts program for English speakers. Students will acquire and demonstrate the ability to utilize assessment information to diagnose students’ language abilities and to develop lessons that promote students’ access and achievement in relation to state-adopted academic content standards. Fieldwork observation is included as part of the class requirement.

Prerequisite: Sophomore or higher.

EDUC 427
Creating Effective Classrooms in Diverse Settings
2-3 Semester Hours

This course is designed to prepare candidates to be able to demonstrate knowledge and skills in managing environments for diverse learners that are safe and effective and that facilitate positive self-esteem and self-advocacy. In addition, the candidate will be prepared to demonstrate knowledge of behavioral management strategies, varying communication styles that impact learning and laws, and regulations for promoting behavior that is positive and self-regulatory.

EDUC 428
Reading/Language Arts for Single Subject Teachers
3 Semester Hours

This course is designed to provide opportunities for prospective teachers to develop understanding of the nature of the reading process in grades 7-12. Emphasis is placed on the role of subject-matter teachers in the overall school reading program. Provides training in a variety of instructional methodologies including strategies designed for culturally and linguistically diverse learners.

Prerequisite: Sophomore or higher.

EDUC 434
Elementary Curriculum and Methods
3 Semester Hours

Designed to provide opportunities for prospective teachers to develop professional knowledge and competence for teaching history/social science, mathematics, and science in kindergarten and grades 1 through 12, this course will deal with purpose, content, procedures and organization, and instruction in those curricular areas as prescribed by the California State adopted frameworks and academic content standards. This course focuses on instructional methods and classroom management for the elementary classroom. A fieldwork component will be required. Students should acquire skills in classroom discipline, creation of lesson plans, utilizing a variety of instructional and evaluation methods, and classroom teaching. Course shall include all state-mandated content areas including culturally and linguistically diverse teaching techniques/methods for history/social science, mathematics, and science.

Prerequisite: Admission to program.

EDUC 435
What Is School?
3 Semester Hours

This course focuses on the governmental, political, financial, legal, and historical perspectives of education in the United States. Students are given opportunities to integrate course topics and relate policy initiatives to the welfare of all students in responsible and ethical ways. School governance and management of human and fiscal resources in culturally diverse settings are stressed.

EDUC 436
Creating Collaborative Partnerships
2-3 Semester Hours

This course is designed to prepare candidates to be able to collaborate and communicate effectively with individuals with disabilities and their parents, other family members and primary care givers, school administrators, general and special education teachers, specialists, paraprofessionals, and community agency and related service personnel. The candidate will learn how to work in partnership to be able to design, implement, and evaluate integrated services that reflect transitional stages across life span for all learners.
EDUC 440  
Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs  
3 Semester Hours

General survey of exceptionalities affecting normal child development. Causation, diagnosis, treatment, programs, and resources are included. Implications of recent legislation for the disabled will be emphasized.

EDUC 441  
Basic Computer Skills for Educators  
1 Semester Hour

Learn basic computer skills to increase your productivity and succeed in your teacher preparation program. This is a hands-on introduction to using essential computer programs utilized in teaching and learning. This course will cover operating systems, word processing, e-mail, Internet, electronic databases, spreadsheets, and multimedia presentations. Enrollment is limited to candidates admitted to a degree or credential program in the School of Education.

EDUC 443  
Informal Assessment and Individual Education Program (IEP) Development for Students with Exceptional Needs  
3 Semester Hours

A survey of strategies for assessing and teaching FEP and LEP students in all areas of exceptionality.

Prerequisite: EDUC 409.

EDUC 444  
Observation and Participation in General and Special Education Programs  
2-3 Semester Hours

Direct contact experience observing and working with FEP and LEP students in all areas of exceptionality. A minimum of 100 clock hours must be spent with three exceptionalities. Credit/No Credit.

EDUC 452  
Psychological and Educational Assessment  
3 Semester Hours

Basic concepts of psychological testing, measurement, and evaluation applicable to the rationale, construction, evaluation, use, and interpretation of tests, rating scales, etc.; essential statistics. Practice required.

Prerequisite: Senior class standing.

EDUC 456  
Directed Teaching with Culturally and Linguistically Diverse Students with Mild/Moderate Disabilities  
9 Semester Hours

Actual teaching experience with culturally and linguistically diverse students with mild/moderate disabilities. Must have completed prerequisite and professional coursework in Special Education and be approved by the Coordinator of Special Education the semester prior to enrolling. Credit/No Credit.

Admission by consent of Coordinator.

EDUC 461  
Teaching Performance Assessment 1  
0 Semester Hours

Students enrolled in the course will complete Task 1 of the Teaching Performance Assessment.

Admission by consent of Coordinator.

EDUC 462  
Teaching Performance Assessment 2  
0 Semester Hours

Students enrolled in the course will complete Task 2 of the Teaching Performance Assessment.

Admission by consent of Coordinator.

EDUC 463  
Teaching Performance Assessment 3  
0 Semester Hours

Students enrolled in the course will complete Task 3 of the Teaching Performance Assessment.

Prerequisites: EDUC 461 and 462.

Concurrent enrollment with EDUC 410 or 412 required.

EDUC 464  
Teaching Performance Assessment 4  
0 Semester Hours

Students enrolled in the course will complete Task 4 of the Teaching Performance Assessment.

Prerequisites: EDUC 461 and 462.

Concurrent enrollment with EDUC 410 or 412 required.
EDUC 475
Teaching and Assessing Students with Mild/Moderate Disabilities
3-4 Semester Hours
Principles and techniques for diagnosing learning and behavioral strengths and weaknesses in children and youth with specific learning disability, mental retardation, other health impairments, or serious emotional disturbance. Additional emphasis is placed on effective techniques and methods in working with culturally and linguistically diverse youth. Development of teaching strategies, goals, and objectives suitable for direct intervention, implementation of individual instructional programs, and evaluation of program approaches and effectiveness.

EDUC 476
Policies and Issues in Education for Diverse Learners with Disabilities
3 Semester Hours
Survey of current issues and trends in the psychology and education of students with learning handicaps, e.g., theoretical instructional systems, use of research findings in program implementation, counseling, career guidance, and program evaluation with emphasis on history and practices of bilingual education, including organizational models and instructional strategies.

EDUC 484
General Methods Teaching Languages Other Than English
3 Semester Hours
This class will address the communicative approach to instruction in languages other than English. Major themes to include: proficiency-based instruction, the competency-based classroom/curriculum, critical issues in the reception and the production stages of second language acquisition, strategies to support and achieve these goals.
Prerequisite: Admission to program.

EDUC 485
Teaching Social Studies in the Secondary Schools
3 Semester Hours
This course is designed to provide opportunities for prospective teachers to observe, develop, and practice a variety of methods to create positive learning environments, effective discipline, and traditional and alternative assessments. Emphasis is placed on strategies to include and challenge students with widely ranging linguistic and academic abilities, diverse learning styles, and varying cultural backgrounds. Methods and content are closely tied to the new California State Framework for grades 6-12.
Prerequisite: Admission to program.

EDUC 486
Trends in Teaching English in the Secondary Schools
3 Semester Hours
This course addresses the concerns and needs of future English teachers. Major areas covered include developing a multicultural curriculum for all students, creating lesson plans, examining meaning making strategies for reading, instructing the writing process, teaching grammar in context, looking at methods of authentic classroom assessment, and building classroom portfolios.
Prerequisite: Admission to program.

EDUC 487
Trends in the Teaching of Secondary Science
3 Semester Hours
This course covers programs, guidelines, and practices in the individualization of instruction with emphasis on culturally and linguistically diverse student needs in relation to science and uses of technology; continuous progress curriculum in science; and uses of individualized science labs.
Prerequisite: Admission to program.

EDUC 488
Trends in the Teaching of Secondary Math
3 Semester Hours
This course covers programs, guidelines, and practices in the individualization of instruction with emphasis on culturally and linguistically diverse student needs in relation to mathematics; uses of technology and continuous progress curriculum.
Prerequisite: Admission to program.
EDUC 489
Leadership Seminar I
1 Semester Hour

This course is designed to develop student leaders' understanding of the basic concepts of personal and group leadership development. Participants will define an issue facing student leaders and identify a theoretical framework to address the issue. The class integrates readings, written reflection, in-class exercises, and a group project.

Prerequisite: Permission of instructor and concurrent leadership position in a student organization.

EDUC 490
Leadership Seminar II
1 Semester Hour

This course develops student leaders' understanding of the basic concepts of personal and group leadership development. Participants will apply a theoretical framework to an issue facing student leaders, create an implementation plan, and develop an evaluation process. The class integrates readings, written reflection, in-class exercises, and a group project.

Prerequisite: Permission of instructor and concurrent leadership position in a student organization.

EDUC 491
Leadership Seminar III
1 Semester Hour

A capstone leadership experience for advanced student leaders, this class combines readings, in-class activities, and experiential involvement as a peer educator with research and creation of a comprehensive leadership portfolio.

Prerequisite: Permission of instructor, successful completion of EDUC 489 or 490, and concurrent leadership position in a student organization.

EDUC 492
Behavior and Classroom Management Techniques for Teachers
3 Semester Hours

Explores current, alternative approaches to classroom discipline, management, and organization. Focuses on how teacher behavior, the learning task, and the classroom environment affect student behavior.

EDUC 498
Special Studies
1-3 Semester Hours

EDUC 499
Independent Studies
1-3 Semester Hours
School of Film and Television
School of Film and Television

Administration:
Dean: Teri Schwartz
Associate Dean: Roy Eric Xavier

Faculty:
Professors: Marilyn Beker, Mladen Milicevic, Art Nomura, John Stewart, Donald J. Zirpola
Associate Professors: Susan Torrey Barber, Rob Burchfield, Patrick Connolly, S.J., Steve Duncan, Glenn Gebhard, Richard Hadley, Howard Lavick
Assistant Professors: Kathy Baur, Jeffrey Davis, Jose Garcia-Moreno, Sylvia Morales, Rodger Pardee, Luis Proença, S.J., Susan Scheibler, Mark Evan Schwartz, Slobodan Sijan, Charles Swanson, Kennedy Wheatley

Objectives:
All School of Film and Television courses, whether they be humanistic inquiries into the nature of the media or professionally-oriented exercises in writing and producing film and television, are aimed at developing critical discernment and equipping the student with the technical, theoretical, and aesthetic means to communicate these insights effectively to an audience.

Major Requirements:
Lower Division Requirements:
The School of Film and Television offers five majors: Animation, Film Production, Recording Arts, Screenwriting, and Television Production.

The 12-18 units (depending upon program) of requirement must be completed by all students, including transfer students, before upper division classes are attempted.

Upper Division Requirements:
The requirements are between 24-36 semester hours chosen from the 300-500 level School of Film and Television courses under the direction of the appropriate school program advisor. All majors must complete a senior thesis project accomplished through ANIM 495 and 496; FILM 460 or 461; RECA 450; SCWR 420; TVPD 440 or 441.

Change of Program
Admission into one program in the School does not guarantee acceptance into any other program in the School. There is a formal application procedure for students wishing to transfer from one SFTV program to another SFTV program. This procedure is thoroughly explained in the SFTV Change of Program Application forms available from the School.

Change of Major
There is a formal application procedure for students who wish to be accepted into the School of Film and Television. The procedure is explained in the Change of Major application forms available from the School.

Applications are typically due on the last working day in September for the Fall semester and on the last working day in February for the Spring semester.

Application of General University Requirements
The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the School of Film and Television.

School Curriculum
The curriculum of the School of Film and Television incorporates required courses in general education, major sequences, and elective courses which complement and enhance the student’s major field of concentration.
Core Curriculum for the Baccalaureate Degree in the School of Film and Television:

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

History
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection
Prerequisite: Successful completion of college writing requirement.

Choose from CLAS 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Mathematics, Science and Technology
6 Semester Hours

Course Selection
All students take MATH 102 and 103 and one other course in Science and Engineering. The MATH 102 course is designed to allow students to attain a level of mathematical literacy which will enable them to deal with the types of mathematical questions that they will encounter on a regular basis after they graduate.

Prerequisite: Demonstration of proficiency in mathematics by success in MATH 102 or a grade of C or better in MATH 111, 112, 120, 122, 131, or 306. The Mathematics Placement Examination is required before taking any of these courses.

The course in science and engineering introduces the student to the methodology used in that field of science or engineering. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Courses ordinarily recommended to students majoring outside the College of Science and Engineering are those numbered 260-279 in each department within the College. Courses in this series are specifically designed for the non-major.
Choose from BIOL 260, 261, 262, 263, 264, 265, 271, 272, 275, 276; CHEM 260, 261, 262, 263, 264; CMSI 261; ELEC 260, 265; MECH 260, 270, 275; NTLS 260, 270; PHYS 271, 272. All other lower division courses (at least 3 semester hours) in the College of Science and Engineering also satisfy this requirement.

Only one mathematics course will be credited toward the Mathematics, Science and Technology component of the Core.

**Philosophy**

6 Semester Hours

Course Selection

Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one PHIL course from 320 through 330.

**Social Sciences**

6 Semester Hours

Student must select one of the following options:

1. Select two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

**Theological Studies**

6 Semester Hours

Course Selection

Lower Division:

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose from the 300-level series of THST courses only.

**European Satellite Program**

This program is located in Dusseldorf, Germany, and focuses on film in the European context—the Avante Garde, independent film making, and other experimental media. This is designed as a semester program with Fall semester offerings focusing on Film and TVPD majors, and with the Spring semester focusing on Media Studies for all students. Taught by LMU faculty and European film and television experts in the Loyola Marymount University tradition, the courses are offered in the form of master workshops, providing students with an exclusive learning experience. The close interaction with faculty that is afforded by this format makes the program unique. Students receive 15 units of credit by taking workshops and a German language and culture course.

The semester in Dusseldorf includes excursions and educational field trips to give students a deeper insight into film and TV production in Europe. Depending on the semester and opportunity, students will attend film festivals, visit production sites, go to film museums, and meet and talk with directors, producers, and others in the media field. A week excursion to Berlin and Prague, two centers of film production, will bring to life the theories learned in the classroom and will help to inform and stimulate students in their own artistic productions. Each student will produce a 10-15 minute video documentary. Staff and teaching assistants in film will assist with the technical and creative needs, if necessary.

Students with a minimum GPA of 2.8, who are in good standing at any university or college and, for the Fall semester, have completed the FILM and TVPD prerequisites, are invited to apply. The program cost is comparable to full-time residency at LMU and includes tuition, housing, breakfast and dinner, excursions, and public transportation within Dusseldorf. Applications are available through the Study Abroad Office in University Hall, Suite 1840.
Recommendations:

Students are encouraged to enrich their program of study with selected electives from the following areas.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad office.

Total Program

120 semester hours are required for graduation with the following distribution:

a) a maximum of 36 upper division semester hours in any one department will be accepted toward the 120 semester hours requirement; and

b) at least 45 semester hours are required from upper division offerings.

Students should consult the Dean’s Office for specific policies applicable to the School of Film and Television.
**Animation**

**Major Requirements:**

**Lower Division Requirements:**

26 semester hours of lower division courses distributed as follows:

- ANIM 100, 120 (completed with a grade of B [3.0] or better), 210, 220; ART 153, 154, 260; either TVPD 241, RECA 250, or FILM 260; and 2 semester hours of Drawing for Animation (ART 200, 201).

Starting in the Fall semester of the sophomore year, Animation majors are required to complete a minimum of 6 semester hours of drawing lab taken each semester until graduation for 1 semester hour (ART 200, 201, 300, 301, 400, 401).

Note: ART 153 and ART 154 are prerequisites for all Figure Drawing Workshops.

**Required fine arts core courses:**

- Critical Arts: ARHS 200, 201, or 202
- Creative Arts: ART 153

**Upper Division Requirements:**

25 semester hours from ANIM 310, 331 or 333, 340, 420, 430 or 431, 440, 490, 495, 496, 4 semester hours of Drawing for Animation, and one upper division Animation elective.

**Minor Requirements:**

18 semester hours divided into 9 semester hours of lower division work from:

ANIM 100, 210, and 220; and 9 semester hours of upper division work from:

ANIM 320, 331 or 420, 333, 340, or 440 selected under the direction of the program advisor.

Suggested Additional Electives—Animation Program

- **Acting**: Especially helpful for those interested in character animation, where the animator is the actor or actress.
- **Cinematography and Lighting**: Useful for 3D computer animation/stop motion.
- **Computer Programming**: Useful for interactive media and new technology.
- **Dance**: Also useful for those interested in character animation. These classes will foster an additional understanding of movement, meter, and rhythm.
- **Design**: 2D, 3D, and multimedia.
- **Directing**
- **Drawing**: Any drawing courses in addition to those required are recommended, especially for those interested in character animation. When appropriate (and pending approval of specific instructors), students are encouraged to attend additional sections of the life drawing labs. Other drawing courses may be taken at the Union school, ASIFA, and any number of other art academies in the Los Angeles area.
- **Editing**: Recommended especially for those without any previous film background.
- **Music**: As a source and as a partner.
- **Mythology, Literature**: For understanding storytelling.
- **Painting**: Also highly recommended for those persons who are interested in environmental animation, storyboarding, and background painting.
- **Perspective and Color Theory**
- **Screenwriting**: Useful for understanding the format of visual storytelling.
- **Sound Design**: Useful for engineering, mixing, and using sound creatively.

**ANIM 100**
**History of Animation**
**3 Semester Hours**

Survey of historical developments, styles, techniques, theory, and criticism of animation as an art form. History and use of creative arts used in animation to form effective communication in film and video.

</tr>
</tbody>
</table>
### ANIM 340
**Interactive Animation**  
3 Semester Hours  
Introduction to creative and technical aspects of interactive animation technology. 
Prerequisites: ANIM 331 or 333.

### ANIM 398
**Special Studies**  
1-3 Semester Hours

### ANIM 399
**Independent Studies**  
1-3 Semester Hours

### ANIM 420
**Experimental Animation**  
3 Semester Hours  
Workshop in the art of animated film production. Further development of student projects from ANIM 320. 
Prerequisite: ANIM 320.

### ANIM 440
**Interactive Animation II**  
3 Semester Hours  
Production and design using interactive animation technology. 
Prerequisite: ANIM 340.

### ANIM 490
**Animation Internship**  
3 Semester Hours  
Prerequisite: Senior standing.

### ANIM 495
**Senior Project in Animation/Pre-Production**  
3 Semester Hours  
Practical experience in animation pre-production. This course centers on the animation thesis project. Development, direction, production of a sophisticated, well-produced film or project. Students are free to determine style, format, and genre of project. 
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements. 
Prerequisite: ANIM 440.

### ANIM 496
**Senior Project in Animation/Production**  
3 Semester Hours  
Continuation of practical experience in animation production. Completion of animation thesis project. 
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements. 
Prerequisite: ANIM 495.

### ANIM 498
**Special Studies**  
1-3 Semester Hours

### ANIM 499
**Independent Studies**  
1-3 Semester Hours
Film Production

Lower Division Requirements:

18 semester hours of lower division courses distributed as follows: FILM 180, 210, 260 (completed with a grade of B [3.0] or better); RECA 250 or TVPD 241; SCWR 220; and TVPD 200.

Upper Division Requirements:

Satisfactory completion of FILM 360, 365, 366, 379, 460 or 461; RECA 367; TVPD 509 or FILM 510; and at least one cinema history course chosen from FILM 313, 314, 411, 412, or 413.

The proper sequence of these courses should be discussed with the student's advisor.

* At least one course must be chosen from FILM 313, 314, 411, 412, or 413.

** RECA 367 can be taken prior to, or concurrently with, FILM 360.

### FILM 180

**Art Direction and Sound Stage Procedures**

*Semester Hours*

Practicum in the design, construction, safety, and procedures of stage use. Lab fee.

Majors only.

### FILM 210

**Art of the Cinema**

*Semester Hours*

An introduction to visual literacy, using the major new art form of the 20th century. Selected screenings, readings, and lecture/discussions.

Lab Fee.

### FILM 211

**Art of the Cinema Lab**

*Semester Hours*

Weekly film discussion sections.

### FILM 260

**Introduction to Film Production**

*Semester Hours*

An introduction to the aesthetic and practical problems of communicating visually through motion pictures. Each student is required to produce several films in the Super-8 format.

Prerequisite: FILM 210 or RECA 250.

Animation Students:

Prerequisites: ANIM 100, 120, 210.

Lab Fee.

### FILM 261

**Introduction to Film Production Lab**

*Semester Hours*

Training in the technical aspects of beginning film production: camera, sound, and lighting.

### FILM 313

**History of American Film**

*Semester Hours*

A critical and historical survey of American film. Screenings, lectures, discussions.

Lab Fee.

### FILM 314

**History of European Film**

*Semester Hours*

A critical survey of European film. Screenings, lectures, discussions.

Lab Fee.

### FILM 315

**History of the Documentary**

*Semester Hours*

A critical and historical survey of the documentary film. Screenings, lectures, discussions.

Lab Fee.
FILM 329
Directing and Scene Analysis
3 Semester Hours
An in-depth workshop/lecture demonstration on
production and post-production processes and aesthetics
of film/video.
May require a lab fee.
Prerequisites: FILM 260 and SCWR 220.
SCWR majors only.

FILM 360
Intermediate Film Production
3 Semester Hours
Practicum in the production of 16mm sound films from
initial concept through final answer print. Lectures on
professional production procedures are linked to personal
experience on an actual film project. Non-sync project,
maximum length 10 minutes.
Prerequisites: FILM 365, 366; FILM 260 with a grade of
B (3.0) or better.
Majors only.

FILM 365
Cinematography
3 Semester Hours
An introduction to 16mm motion picture cameras, film
stocks, lighting, and grip equipment. Location and studio
procedures for both sync and non-sync situations.
Lecture and Lab, 5 hours.
Prerequisite: FILM 260 completed with a grade of B (3.0)
or better.
Majors only.

FILM 366
Film Editing
3 Semester Hours
Post-production theory and practice as applied to film.
Prerequisite: FILM 260 completed with a grade of B (3.0)
or better.
Majors only.
Note: A one-time substantial fee for editing supplies to be
used in this and subsequent film production courses is
required. An additional lab fee for this class is also
required.

FILM 368
Production Planning
3 Semester Hours
Pre-production theory and practice as applied to
film/television. Special emphasis on the latest production
facilities and their use.
Prerequisite: FILM 260 for Film Program, TVPD 241 for
TV Program.
Majors only.

FILM 379
Fundamentals of Directing
3 Semester Hours
Survey of pre-production preparation for directors,
including script analysis, casting, visualization, and
working with actors.
Prerequisite: FILM 260 for Film program, TVPD 241 for
TV program.
Majors only.

FILM 398
Special Studies
1-3 Semester Hours

FILM 399
Independent Studies
1-3 Semester Hours

FILM 410
Motion Picture Analysis
3 Semester Hours
Critical analysis of representative current movies joined,
whenever possible, by class encounters with the
filmmakers themselves.
Prerequisite: FILM 210.

FILM 411
Film Genres
3 Semester Hours
An in-depth study of one film genre (the western, the
musical, film noir, etc.). Screenings, lectures, and
discussions.
Lab Fee. May be repeated only when a different genre is
studied.

### RECA 250

**Sound Design**

3 Semester Hours

An introduction to the aesthetic, pragmatic, and technical issues of motion picture sound recording, editing, and mixing.

College of Communication and Fine Arts and School of Film and Television majors only.

Prerequisites: FILM 210 and TVPD 200.

### RECA 352

**The Nature of Sound**

3 Semester Hours

The behavior of sound in various environments and techniques of modifying sound.

Prerequisites: RECA 250 and concurrent enrollment in RECA 350 and 353.

RECA students only.

### RECA 353

**Production Sound Techniques**

3 Semester Hours

Production sound theory and practice, with actual experience in recording, producing sound, and introduction to initial post-production procedures for film and TV.

Prerequisites: Concurrent enrollment in RECA 350 and 352.

RECA students only.

### RECA 355

**Live Studio Recording**

3 Semester Hours

The theory and practice of recording small ensemble groups in the studio, capturing the immediacy of a “live” performance with no overdubs.

Lecture and Lab, 6 hours.

Prerequisites: RECA 350, 352, and 367.

RECA students only.

### RECA 356

**Multi-Track Studio Recording**

3 Semester Hours

Music production and sound engineering using multi-track studio recording techniques.

Lecture and Lab, 6 hours.

Prerequisites: RECA 350, 352, 355, and 367.

RECA students only.

### RECA 357

**Digital Sound Editing for Film**

3 Semester Hours

Introduction to sound effects and dialog editing using random access digital sound and picture.

Prerequisites: RECA 350, 352, and 367.

RECA students only.

## Screenwriting

### Lower Division Requirements:

- 12 semester hours of lower division courses distributed as follows: FILM 210, 260; SCWR 220 (completed with a grade of B [3.0] or better); and TVPD 200.

### Upper Division Requirements:

Satisfactory completion of FILM 329; SCWR 320, 321, 420, 426, 428; and two cinema history courses from FILM 313, 314, 411, 412, 413, or TVPD 417. In consultation with the advisor, it is also recommended that the student take courses outside the major in writing, literature, and drama courses from English, Classics, and Theatre department offerings.

### Minor in Screenwriting for English Majors

The School of Film and Television offers a minor as an option to students majoring in the writing emphasis in the English Department. The minor consists of 18 semester hours.

The proper sequence of these courses should be discussed with the student's advisor.

* Two courses must be chosen from FILM 313, 314, 315, 411, 412, or 413.
SCWR 398
Special Studies
1-3 Semester Hours

SCWR 399
Independent Studies
1-3 Semester Hours

SCWR 420
Senior Writing Project
3 Semester Hours

Specially directed projects in writing for film, television, or other media from initial concept through finished form.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Prerequisites: SCWR 320 and 321.

Lab Fee.

SCWR 426
Writing for Television
3 Semester Hours

Practical experience in writing one-hour episodic television drama.

Prerequisite: SCWR 320.

SCWR 428
Adaptation: One Medium to Another
3 Semester Hours

Practical experience in translating books (novels and/or non-fiction) into film scripts.

Prerequisite: SCWR 320.

SCWR 498
Special Studies
1-3 Semester Hours

SCWR 499
Independent Studies
1-3 Semester Hours
# Television Production

**Lower Division Requirements:**

18 semester hours of lower division courses distributed as follows: FILM 180; RECA 250; SCWR 220; and FILM 210, TVPD 200, and 241 (completed with a grade of B [3.0] or better). (FILM 180 can be taken in the freshman year or the Fall semester of the sophomore year.)

**Upper Division Requirements:**

Satisfactory completion of FILM 379; TVPD 341, 344, 345, 346; TVPD 416 or 417, 440 or 441; and FILM 315 or TVPD 490/491.

The proper sequence of these courses should be discussed with the student’s advisor.

#### TVPD 341
**Intermediate Television Production**
3 Semester Hours
Practicum in production of student projects from initial concept through post-production with rotating crew assignments in multi-camera TV studio.
Lecture and Lab, 6 hours.
Prerequisites: TVPD 345 and 346.

#### TVPD 342
**Live Television**
3 Semester Hours
Aesthetics and techniques of live television programming techniques.
Lecture and Lab, 6 hours.
Prerequisite: TVPD 341.

#### TVPD 344
**Location Video Production**
3 Semester Hours
Planning, producing, and editing a documentary, dramatic, or experimental video production on actual locations.
Lecture and Lab, 4 hours.
Prerequisites: TVPD 345 and 346.

#### TVPD 200
**Survey of Mass Communications**
3 Semester Hours
Structure, function, and effects of the mass media.

#### TVPD 210
**Art of Television**
3 Semester Hours
An introduction to television literacy, using a major new art form of the 20th century. Selected screenings, readings, and lecture/discussions.
Lab fee.

#### TVPD 241
**Television Production Techniques**
3 Semester Hours
An introduction to the aesthetic and practical problems of communications in the multi-camera television studio.
Lecture and Lab, 5 hours.

---

#### TVPD 345
**Electronic Cinematography**
3 Semester Hours
To increase students’ ability to see and express ideas visually. To provide students with a technical knowledge of the video camera and related equipment. To develop techniques for effective studio lighting.
Prerequisites: RECA 250 and TVPD 241.
Majors only.

#### TVPD 346
**Video Editing**
3 Semester Hours
Practical experience in the techniques and aesthetics of television editing.
Lecture and Lab, 4 hours.
Prerequisites: RECA 250 and TVPD 241.
Majors only.
TVPD 398
Special Studies
1-3 Semester Hours

TVPD 399
Independent Studies
1-3 Semester Hours

TVPD 400
Mass Media and Society
3 Semester Hours
The specialized problems in contemporary communications.
Prerequisite: TVPD 200.

TVPD 416
Television Genres
3 Semester Hours
In-depth historical study of a television genre (situation comedy, police drama, news, etc.). Screenings, lectures, and discussions.
Lab fee. May be repeated only when a different genre is studied.

TVPD 417
History of Broadcasting
3 Semester Hours
An introduction to the history, structure, and procedures of the broadcasting industry.
Lab fee.

TVPD 440
Advanced TV Production
3 Semester Hours
Practical experience in television production with individual responsibility for the creation and completion of a TV project and team experience in a variety of production functions on other student class projects.
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.
Prerequisites: FILM 379; TVPD 341 or 344; project approval by the instructor prior to registration.

TVPD 441
Directed Study in TV Production
3 Semester Hours
This class will fulfill your thesis requirement in lieu of TVPD 440, upon successful completion of the course. The course is an intensive investigation in one or more areas of production based upon a mentorship, interviews, practical experience, and a final research paper and presentation. It is an alternative form for the student to gain in-depth knowledge of the professional practices within the entertainment industry.
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.
Prerequisites: FILM 379; TVPD 341 or 344; project approval by the instructor prior to registration.
Majors only.

TVPD 490
Internship I
3 Semester Hours
Internship with one of several Los Angeles media companies currently accepting LMU students. Practical experience working at a professional level for network, film studio, advertising agency, radio station, etc.
Majors only. May be repeated once.

TVPD 491
Internship II
3 Semester Hours
Further directed experience with a professional company in a media field.
Majors only.

TVPD 498
Special Studies
1-3 Semester Hours

TVPD 499
Independent Studies
1-3 Semester Hours
Aerospace Studies

All University Colleges

Faculty:
Frances Dennewitz, Jonathan Jehn

General Military Course:
The first two years of Aerospace Studies (AERO 100, 200) are designated the General Military Course (GMC) for students enrolled in AFROTC. There are no prerequisites for these courses, and all University students may participate. These courses focus on developing individual communications skills, understanding the environment of the Air Force officer, and comprehending the historical development of the United States Air Force in the national security structure. AERO 100 and 200 may be taken concurrently to allow late entry into the program by sophomores or second-semester freshmen.

Professional Officer Course:
The last two years of AFROTC (AERO 300, 400) are designated the Professional Officer Course (POC) for students enrolled in AFROTC. They are designed to prepare cadets for duty as officers in the United States Air Force and provide the student with a working knowledge of advanced leadership and management theories and applications, as well as an understanding of the United States national security systems and processes. The POC includes academics, interaction with military and national security professionals, and the practice of leadership and management in a large group environment. Students not currently enrolled in AFROTC who desire to enroll as a cadet in the POC should contact the Department early in their sophomore year. This does not preclude normal enrollment in the class by students who are not cadets.

Special Notes:
All courses in Aerospace Studies may or may not count toward graduation, depending upon the student’s major. Students should consult their Dean and Department Chairperson for allowable courses. Leadership laboratories are mandatory for members of the cadet corps but optional for students taking the academic courses as electives.

Scholarship cadets incur a military obligation upon entry into their sophomore year on the start date of AERO 200.

Non-scholarship cadets do not incur a military obligation until as late as the end of the first semester of the Professional Officer Course (AERO 300).

Air Force Reserve Officer Training Corps Program
The Air Force ROTC program at Loyola Marymount University is conducted by active duty Air Force Officers assigned to the Department of Aerospace Studies. The program is designed to prepare qualified men and women for careers as commissioned officers in the United States Air Force. Textbooks, uniforms, and all other equipment used in this program are furnished by the Air Force at no expense to the student.

Air Force ROTC offers one-, two-, three-, and four-year scholarships. Additionally, Loyola Marymount University supplements some Air Force ROTC scholarships which do not cover total tuition. The scholarship recipient must successfully complete one course in English composition and one in mathematical reasoning.

The four-year program consists of two years of the General Military Course, followed by two years of the Professional Officer Course. Admission into the Professional Officer Course is limited to those students who successfully pass required written, oral, and physical examinations. During the summer between the sophomore and junior year, cadets are required to attend four weeks of field training at an Air Force Base to familiarize them with Air Force life. The Air Force furnishes all uniforms, equipment, and transportation. Students also receive pay and allowances authorized by current directives at the time of field training attendance. After successfully completing field training, qualified cadets enter the Professional Officer Course and receive $350-400 per month, tax-free, during the final two years of AFROTC.

An accelerated two-year program is also available. It consists of a longer field training at an Air Force base and the two-year professional officer course. Interested students should contact the AFROTC Department early in their sophomore year for application procedures.
AFROTC offers students expanded access to management theories and practice, exposure to industry and military leaders, and opportunities to comprehend the world political and security environment. All of this is in a small campus environment but includes extensive interaction with students from other local universities and colleges who participate in the program. Besides a commission upon graduation, completed cadets qualify for training as pilots, navigators, space and missile operators, business administrators, engineers, health professionals, intelligence, and many other management positions.

**AERO 100**  
The Foundation of the United States Air Force I  
1 Semester Hour  
A survey course designed to introduce students to the United States Air Force and Air Force Reserve Officers Training Corps. Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, officer career fields and opportunities, group leadership experiences, and an introduction to communicative skills.  

(Taken concurrently with AERO 100, mandatory for cadets, optional for other students).

**AERO 101**  
The Foundation of the United States Air Force II  
1 Semester Hour  
A survey course designed to introduce students to the United States Air Force and Air Force Reserve Officers Training Corps. Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, officer career fields and opportunities, group leadership experiences, and an introduction to communicative skills.  

(Taken concurrently with AERO 101, mandatory for cadets, optional for other students).

**AERO 102**  
Laboratory I  
0 Semester Hours  
Students are exposed to leadership experience by learning basic military drill and ceremonies, participating in physical fitness activities, and participating in challenging group activities.  

(Taken concurrently with AERO 100, mandatory for cadets, optional for other students).

**AERO 103**  
Laboratory II  
0 Semester Hours  
Students are exposed to leadership experience by learning basic military drill and ceremonies, participating in physical fitness activities, and participating in challenging group activities.  

(Taken concurrently with AERO 101, mandatory for cadets, optional for other students).

**AERO 200**  
The Evolution of USAF Air and Space Power I  
1 Semester Hour  
A study of Air Force history and heritage, discussion of significant Air Force leaders and their contributions, and an introduction to service issues, ethics, and values. Includes an examination of the role of airpower in war. Students make oral and written presentations and participate in group leadership exercises.

**AERO 201**  
The Evolution of USAF Air and Space Power II  
1 Semester Hour  
A study of Air Force history and heritage, discussion of significant Air Force leaders and their contributions, and an introduction to service issues, ethics, and values. Includes an examination of the role of airpower in war. Students make oral and written presentations and participate in group leadership exercises.

**AERO 202**  
Laboratory III  
0 Semester Hours  
Students are exposed to leadership experience by directing others in basic military drill and ceremonies, participating in physical fitness activities, and participating in challenging group activities.  

(Taken concurrently with AERO 200, mandatory for cadets, optional for other students).

**AERO 203**  
Laboratory IV  
0 Semester Hours  
Students are exposed to leadership experience by directing others in basic military drill and ceremonies, participating in physical fitness activities, and participating in challenging group activities.  

(Taken concurrently with AERO 201, mandatory for cadets, optional for other students).

**AERO 300**  
Air Force Leadership Studies I  
3 Semester Hours  
A study of leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics, and communications skills. Case studies are used to examine Air Force leadership and management situations by demonstrating and exercising practical application of the concept being studied.
AERO 301
Air Force Leadership Studies II
3 Semester Hours

A study of leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics, and communications skills. Case studies are used to examine Air Force leadership and management situations by demonstrating and exercising practical application of the concept being studied.

AERO 302
Laboratory V
0 Semester Hours

Students experience leadership by supervising basic military drill and ceremonies and by planning and participating in physical fitness activities and challenging group activities.

(Taken concurrently with AERO 301, mandatory for cadets, optional for other students).

AERO 303
Laboratory VI
0 Semester Hours

Students experience leadership by supervising basic military drill and ceremonies and by planning and participating in physical fitness activities and challenging group activities.

(Taken concurrently with AERO 301, mandatory for cadets, optional for other students).

AERO 400
National Security Affairs Preparation for Active Duty I
3 Semester Hours

Examines the national security process, regional studies, the laws of armed conflict, advanced leadership ethics, and Air Force and joint doctrine. Special topics of interest focus on the military profession, officerism, civilian control of the military, and current issues. Effective communications skills continue to be emphasized.

AERO 401
National Security Affairs Preparation for Active Duty II
3 Semester Hours

Examines the national security process, regional studies, the laws of armed conflict, advanced leadership ethics, and Air Force and joint doctrine. Special topics of interest focus on the military profession, officerism, civilian control of the military, and current issues. Effective communications skills continue to be emphasized.

AERO 402
Laboratory VII
0 Semester Hours

Students assume full responsibility for planning and running the leadership laboratory to include control of budgets and equipment, directing military drill and ceremonies, planning and participating in physical fitness activities, organizing trips and formal dinners, and designing and executing challenging group activities.

(Taken concurrently with AERO 400, mandatory for cadets, optional for other students).

AERO 403
Laboratory VIII
0 Semester Hours

Students assume full responsibility for planning and running the leadership laboratory to include control of budgets and equipment, directing military drill and ceremonies, planning and participating in physical fitness activities, organizing trips and formal dinners, and designing and executing challenging group activities.

(Taken concurrently with AERO 401, mandatory for cadets, optional for other students).

David J. Zuercher

Regents Emeriti
John J. Real, Esq.
Joseph P. Sanford
Msgr. Royale M. Vadakin

University Representatives
Robert B. Lawton, S.J., President, ex officio
Charles J. Rasberry, Vice President for University Relations, ex officio
Melany N. Duval, Assistant Vice President for Development, ex officio
Diane Duncan, Liaison to the Board, ex officio
# University Administration

## President and Staff
- **Robert B. Lawton, S.J.** President
- **Patrick J. Cahalan, S.J.** Chancellor
- **Elena M. Bove** Vice President, Student Affairs
- **Albert P. Koppes, O.Carm.** Acting Academic Vice President
- **Thomas O. Fleming, Jr.** Vice President, Business and Finance and Treasurer
- **Dennis Slon** Vice President, University Relations
- **Lynne B. Scarboro** Vice President, Administration
- **David Burcham** Dean, Loyola Law School
- **Maureen Cassidy** Director, Internal Audit
- **Fernando Moreno** Director, Campus Ministry
- **Richard A. Robin, S.J.** Assistant to the President
- **Abbie Robinson-Armstrong** Assistant to the President for Intercultural Affairs
- **Robert V. Caro, S.J.** Assistant to the President for Mission and Identity

## Academic Affairs
- **Albert P. Koppes, O.Carm.** Acting Academic Vice President
- **Mary Elizabeth Ingham, C.S.J.** Associate Academic Vice President

### Deans
- **Michael E. Engh, S.J.** Dean, Bellarmine College of Liberal Arts
- **John R. Popiden** Associate Dean, Bellarmine College of Liberal Arts
- **John T. Wholihan** Dean, College of Business Administration
- **George L. Hess** Associate Dean, Undergraduate, College of Business Administration
- **Rachelle Katz** Associate Dean, Graduate, College of Business Administration
- **Barbara J. Busse** Dean, College of Communication and Fine Arts
- **Suzanne Frenzt** Associate Dean, College of Communication and Fine Arts
- **Stephen H. Scheck** Acting Dean, Frank R. Seaver College of Science and Engineering
- **William T. Calder** Associate Dean, Frank R. Seaver College of Science and Engineering
- **Joseph C. Reichenberger** Associate Dean, Frank R. Seaver College of Science and Engineering
- **Shane P. Martin** Acting Dean, School of Education
- **Edmundo Litton** Acting Associate Dean, School of Education
- **Teri Schwartz** Dean, School of Film and Television
- **Roy Eric Xavier** Associate Dean, School of Film and Television
Academic Administration

G. Edward Evans  Assoc. Academic Vice President, Library and Information Resources
Christopher Key Chapple  Associate Academic Vice President, LMU Extension
Joseph A. Merante  Associate Academic Vice President, Academic Affairs
Rosenia M. St. Onge  Associate Academic Vice President, Records and Registration
Birutė A. Vileisis  Associate Academic Vice President, Academic Grants
Marcia L. Albert  Director, Learning Resource Center
Matthew X. Fissinger  Director, Undergraduate Admissions
Kathleen Harris  Director, Beyond LMU
Brian N. Hu  Director, Institutional Research
Catherine Graham Kasakoff  Director, Financial Aid
Chakê Kouyoumjian  Director, Graduate Admissions
Kelly Wahl  Director, Assessment and Data Analysis

Student Affairs

Elena M. Bove  Vice President, Student Affairs
Elizabeth A. Stoddard  Assistant Vice President, Student Affairs
Mark Zangrando, S.J.  Dean of Students
Marshall Sauceda  Associate Dean, Ethnic and Intercultural Services
TBA  Assistant Dean, Health Services
Trey Duval  Assistant Dean, Students and Director, Campus Recreation
Francesca Piumetti  Assistant Dean, University Judicial Officer
Elizabeth Atilano  Director, Career Development Services
Linda McMurdock Rhodes  Director, Student Psychological Services
William Husak  Director, Athletics
Richard T. Rocheleau  Director, Student Housing
Joanne Connolly, S.S.L.  Special Assistant, Mission and Identity

Business and Finance

Thomas O. Fleming, Jr.  Vice President, Business and Finance and Treasurer
Daniel Forgeron  Assistant Vice President, Business Affairs
TBA  University Controller
Raymond Dennis  University Bursar
Anita Velasquez  Director, Children’s Center

University Relations

Dennis Slon  Vice President, University Relations
TBA  Assistant Vice President, Development
Janis Johnson  Assistant Vice President, Communications and Public Affairs
Jennifer Warwick  Executive Director, University Relations Services
Lisa Piumetti Farland  Director, Alumni Relations
Joan Pohas  Director, Planned Giving
Administration

Lynne B. Scarboro  Vice President, Administration
Joseph Harbouk  Assistant Vice President, Administration
Rebecca Chandler  Assistant Vice President, Human Resources
Linda Lang  Assistant Vice President, Special Projects
David Trump  Acting Assistant Vice President, Facilities Management
TBA  Director, Environmental Health and Safety
TBA  Director, Conferences and Scheduling
Raymond Hilyar  Director, Public Safety
Mark E. Jacobsen  Director, Building Management
David B. Littell  Director, Plant Operations

Campus Ministry

Fernando Moreno  Director, Campus Ministry

School of Law

David Burcham  Dean
Victor J. Gold  Associate Dean, Academic Affairs
Michiko M. Yamamoto  Associate Dean, Student Affairs
Robert Bride  Associate Dean, Business Affairs
Sonel Shropshire  Assistant Dean, Admissions
Kenneth Ott  Assistant Dean, Development
Graham Sherr  Assistant Dean, Career Services
Pamela Buckles  Executive Director, Faculty Services and Institutional Research
John B. Hoyt  Executive Director, Student Financial and Information Services
James Kieley  Chief Technology Officer
Christian W. Butzen  Registrar
Maureen Hessler  Director, Financial Aid
Barbara Lu-Baltazar  Director, Human Resources
Robert Nissenbaum  Director, Law School Library
Carmen Ramirez  Director, Alumni Relations
Marti Reynolds  Director, Fiscal Affairs
Matthew Riojas  Director, Student Affairs
Robert W. Scholla, S.J.  Director, Campus Ministry
JENNIFER S. ABE-KIM (1994)
Associate Professor of Psychology
B.A., Wheaton College, 1985;
M.A., U.C. Los Angeles, 1987;

LEV ABOLNIKOV (1981)
Professor of Mathematics
M.S., Leningrad University, 1961;
Ph.D., Leningrad University, 1970.

DOLPHY ABRAHAM (1993)
Associate Professor of Computer Information Systems
B.Com., Bangalore University, 1986;
M.B.A., Syracuse University, 1988;
Ph.D., University of Pittsburgh, 1993.

REBECA ACEVEDO (1996)
Associate Professor of Modern Languages and Literatures
B.A., University of Guadalajara, 1984;
M.A., U.C. Los Angeles, 1991;
Ph.D., University of Michigan, 1996.

Assistant Professor of Civil Engineering
B.S., University of Michigan, 1994;
M.S., Massachusetts Institute of Technology, 2000;
Ph.D., Massachusetts Institute of Technology, 2002.

NAJWA AL-QATTAN (1998)
Associate Professor of History
B.A., American University in Beirut, Lebanon, 1977;
M.A., Georgetown University, 1979;
M.A., Harvard University, 1984;
Ph.D., Harvard University, 1996.

CARA ANZILOTTI (1996)
Associate Professor of History
B.A., U.C. Davis, 1978;
M.A., California State University, Long Beach, 1987;

WILKIE AU (1989)
Associate Professor of Theological Studies
B.A., Gonzaga University, 1968;
M.S.Ed., University of Southern California, 1971;
M.Div., Jesuit School of Theology, Berkeley, 1973;
S.T.M., Jesuit School of Theology, Berkeley, 1973;

STEPHANIE E. AUGUST (1999)
Assistant Professor of Computer Science
and Director of the Graduate Programs in
Electrical Engineering and Computer Science
B.A., U.C. Los Angeles, 1972;
M.S., U.C. Los Angeles, 1985;

JOSÉ IGNACIO BADENES, S.J. (1997)
Associate Professor of Modern Languages and Literatures
B.S., Georgetown University, 1980;
M.A., University of North Carolina, Chapel Hill, 1986;
M.Div., Jesuit School of Theology, Berkeley, 1992;
Th.M., Jesuit School of Theology, Berkeley, 1993;
Ph.D., U.C. Santa Barbara, 1996.

JASON S. BAEHR (2003)
Assistant Professor of Philosophy
B.A., Arizona State University, 1994;
M.A., Biola University, 1996;
Ph.D., University of Washington, 2002.

MARTA BALTODANO (2000)
Assistant Professor of Education
J.D., Universidad Centro Americana, 1980;
B.S., Universidad Centro Americana, 1985;
M.A., U.C. Los Angeles, 1993;
Ph.D., Claremont Graduate University, 1998.

Assistant Professor of Business Law
B.S.A, Miami University, 1984;
J.D., Cleveland State University, 1987;

LINDA BANNISTER (1983)
Professor of English
B.A., University of Michigan, 1974;
M.A., University of Southern California, 1976;
Ph.D., University of Southern California, 1982.

SUSAN TORREY BARBER (1991)
Associate Professor of Film and Television
B.A., University of Michigan, 1969;
M.E., University of Montana, 1973;
M.A., University of Southern California, 1983;
Ph.D., University of Southern California, 1988.
MELVIN R. BERTOLOZZI (1971)
Professor of English
B.A., Mount St. Mary’s College, 1963;
M.A., U.C. Davis, 1968;

Assistant Professor of Biology
B.S., U.C. Los Angeles, 1990;
M.S., Purdue University, 1993;

Assistant Professor of History
B.A., U.C. Davis, 1995;
M.A., Cornell University, 1999;
Ph.D., Cornell University, 2003.

LANCE H. BLAKESLEY (1974)
Associate Professor of Political Science
B.A., University of Illinois, 1965;
M.A., Northwestern University, 1967;
Ph.D., Northwestern University, 1970.

JASPER J. BLYSTONE (1965)
Professor of Philosophy
B.A., University of Southern California, 1949;
M.A., University of Southern California, 1958;
Ph.D., University of Mainz, 1964.

BENJAMIN F. BOBO (1992)
Professor of Finance
B.S., California State University, Long Beach, 1969;
M.B.A., U.C. Los Angeles, 1971;

MARY C. BREDEN (1992)
Professor of Music, Director of Choral Activities,
and Chairperson of the Department
B.A., Mount St. Mary’s College, 1972;
B.M., Mount St. Mary’s College, 1973;
M.M., Arizona State University, 1981;
D.M.A., Arizona State University, 1983.

MICHAEL BRODSKY (1988)
Professor of Art and Art History
B.A., U.C. Santa Cruz, 1975;
B.A., U.C. Santa Cruz, 1975;

ANTONIO BROWN (2000)
Assistant Professor of Political Science
B.A., Loyola Marymount University, 1995;
Ph.D., University of Michigan, 2001.
JANE BRUCKER (1993)
Associate Professor of Art and Art History
B.A., San Diego State University, 1982;
M.F.A., Claremont Graduate School, 1985;
M.A., School of Theology at Claremont, 1992.

JOHN BULMAN (1982)
Professor of Physics
B.S., Brown University, 1973;
M.S., University of Pennsylvania, 1975;
Ph.D., Tufts University, 1981.

ROB BURCHFIELD (1998)
Associate Professor of Film and Television
B.A., U.C. Los Angeles, 1982;

STACY LEE BURNS (2000)
Assistant Professor of Sociology
B.A., U.C. Los Angeles, 1976;
M.A., U.C. Los Angeles, 1978;
J.D., Yale University, 1982;

DOUGLAS BURTON-CHRISTIE (1994)
Associate Professor of Theological Studies and
Director of the Graduate Program in Theological Studies and Pastoral Studies
B.A., U.C. Santa Cruz, 1977;
M.A., Oxford University, 1980;
Ph.D., Graduate Theological Union, 1988.

BARBARA J. BUSSE (1969-72; 1980)
Associate Professor of Communication Studies and
Dean of the College of Communication and Fine Arts
B.A., California State University, Fullerton, 1968;
M.A., California State University, Northridge, 1969.

JAY B. BUSSE (1970)
Associate Professor of Communication Studies
B.A., California State University, Fullerton, 1968;
M.A., California State University, Northridge, 1969.

ANTHEA D. BUTLER (1999)
Assistant Professor of Theological Studies
B.A., University of Houston, 1983;
M.A., Fuller Theological Seminary, 1995;
M.A., Vanderbilt University, 2000;
Ph.D., Vanderbilt University, 2001.

Professor of Chemistry
B.S., Loyola University, 1958;
M.S., University of Detroit, 1965;
S.T.M., Santa Clara University, 1971;

ERIKA T. CAMACHO (2004)
Assistant Professor of Mathematics
B.A., Wellesley College, 1997;
B.A., Wellesley College, 1997;
M.S., Cornell University, 2001;
Ph.D., Cornell University, 2003.

WILLIAM SCOTT K. CAMERON (1995)
Associate Professor of Philosophy
B.A., Queen's University, 1984;
M.A., Queen's University, 1988;
Ph.D., Fordham University, 1995.

ROBERT V. CARO, S.J. (1976)
Professor of English and
Assistant to the President for Mission and Identity
B.S., Santa Clara University, 1958;
M.A., Gonzaga University, 1964;
S.T.M., Santa Clara University (JSTB), 1971;

MICHAEL CARUSO, S.J. (2001)
Assistant Professor of Education
B.A., Conception Seminary College, 1978;
S.T.B., Mundelein Seminary, 1981;

CHRISTOPHER KEY CHAPPLE (1985)
Professor of Theological Studies and
Associate Academic Vice President of LMU Extension
B.A., State University New York, Stony Brook, 1976;
M.A., Fordham University, 1978;
Ph.D., Fordham University, 1980.

CONSTANCE J.S. CHEN (2003)
Assistant Professor of History
B.A., U.C. Irvine, 1992;
M.A., U.C. Los Angeles, 1995;

DONG CHEN (2004)
Assistant Professor of Management
Ph.D., Rutgers University, 2004.

SEAN CHEN (2002)
Associate Professor of Accounting
B.B.A., National Taiwan University, 1976;
M.Ed., National Taiwan University, 1979;
M.B.A., Youngstown State University, 1985;
Ph.D., University of Pittsburgh, 1992.

ALAN A. CHERRY (1983)
Professor of Accounting
B.B.A., Baruch (CUNY), 1970;
M.S., U.C. Los Angeles, 1972;
STUART CHING (2001)
Assistant Professor of English
B.Ed., University of Hawaii, Manoa, 1987;
M.F.A., Colorado State University, 1990;
Ph.D., University of Nebraska, 2000.

Sir Thomas More Chair in Engineering Ethics
A.B., Loyola University of Chicago, 1971;
M.A., Boston College, 1976;
Ph.D., Yale University, 1987.

ALISSA S. CRANS (2004)
Assistant Professor of Mathematics
B.S., University of Redlands, 1999;
M.S., U.C. Riverside, 2000;

REBECCA D. CRAWFORD (1987)
Professor of Chemistry
B.A., U.C. Los Angeles, 1973;
Ph.D., University of Southern California, 1982.

MICHAEL DANCIGER (1978)
Professor of Biology
B.S., Drexel University, 1966;
Ph.D., University of Oregon, 1971.

FRANK P. DAROCA (1986)
Professor of Accounting
B.S., Louisiana State University, 1964;
M.S., Louisiana State University, 1974;
Ph.D., University of Illinois, 1981;

GEORGE DASARO (1977)
Professor of Accounting
B.B.A., Loyola University, Los Angeles, 1963;
M.S., California State University, Los Angeles, 1966;

KARENMARY DAVALOS (1997)
Associate Professor of Chicano/a Studies
B.A., Stanford University, 1987;
M.A., Stanford University, 1987;
Ph.D., Yale University, 1993.

JEFFREY DAVIS (2001)
Assistant Professor of Film and Television
B.A., Emerson College, 1970;
M.F.A., University of Iowa, 1972.

JOHN A. DAVIS (1978)
Associate Professor of Sociology and
Chairperson of African American Studies
B.A., U.C. Los Angeles, 1963;
M.A., U.C. Los Angeles, 1965;

ROBERTO DELL'ORO (2003)
Assistant Professor of Theological Studies
B.A., University of Milan, 1983;
M.A., Gregorian University, 1985;
Ph.D., Gregorian University, 1992.
DONALD DePAMPHILIS (2000)
Visiting Clinical Professor of Finance and Computer Information Systems
B.A., University of Pittsburgh, 1969;
M.A., Harvard University, 1971;
Ph.D., Harvard University, 1972.

PAUL A. DeSENA (1966)
Professor of Education
M.S., Central Connecticut State University, 1958;
M.Ed., Hartford University, 1960;

JAMES DEVINE (1985)
Professor of Economics
B.A., Yale University, 1974;

THERESIA DE VROOM (1990)
Professor of English
B.M., University of Southern California, 1980;
B.A., University of Southern California, 1980;
M.A., Emory University, 1982;
Ph.D., University of Southern California, 1988.

JACQUELINE M. DEWAR (1973)
Professor of Mathematics
B.S., St. Louis University, 1968;
M.S., University of Southern California, 1971;
Ph.D., University of Southern California, 1973.

MATTHEW DILLON (1987)
Professor of Classics and Archaeology and Chairperson of the Department
B.A., Wesleyan University, 1974;
M.A., Yale University, 1979;
M.Phil., Yale University, 1981;
Ph.D., Yale University, 1984.

JOHN DAVID N. DIONISIO (2004)
Assistant Professor of Computer Science
B.S., Loyola Marymount University, 1991;
M.S., U.C. Los Angeles, 1993;

LAMBERT A. DOEZEMA (2004)
Assistant Professor of Chemistry and Biochemistry
B.S., Trinity University, 1998;
M.S., U.C. Irvine, 2000;

PHILIP M. DORIN (1971)
Professor of Electrical Engineering and Computer Science and Director of Computer Science
B.S., Massachusetts Institute of Technology, 1970;
M.S., Northeastern University, 1971;

JOHN H. DORSEY (2002)
Assistant Professor of Natural Science
B.A., California State, Long Beach, 1972;
M.A., California State, Long Beach, 1975;
Ph.D., University of Melbourne, 1982.

PATRICIA C. DOUGLAS (1995)
Associate Professor of Accounting
B.S., University of Colorado, 1982;
M.S., University of Virginia, 1990;
Ph.D., Virginia Commonwealth University, 1995;

PHILIPPA M. DRENNAN (1995)
Associate Professor of Biology
B.Sc., University of Natal, Durban, 1979;
B.Sc. (Hons), University of Natal, Durban, 1980;
Ph.D., University of Natal, Durban, 1987.

STEPHEN V. DUNCAN (1999)
Associate Professor of Film and Television
B.S., North Carolina A&T State University, 1971;
M.B.A, Baruch College, NY, 1977;
M.A., Loyola Marymount University, 1979.

JOSEPH E. EARLEY (1975)
Associate Professor of Economics
B.A., Gannon College, 1967;
M.S., Rensselaer Polytechnical Institute, 1968;

PAIGE PETTYPADDOELEY (2003)
Assistant Professor of Communication Studies
B.A., Wake Forest University, 1984;
M.A., Wake Forest University, 1989;
Ph.D., Rutgers University, 1997.

JENNIFER L. EICH (1994)
Associate Professor of Modern Languages and Literatures
B.A., Knox College, 1981;
M.A., U.C. Los Angeles, 1987;

Professor of History and Dean of the Bellarmine College of Liberal Arts
B.A., Loyola University, Los Angeles, 1972;
M.A., Gonzaga University, 1978;
M.Div., Jesuit School of Theology, Berkeley, 1982;

ELLEN A. ENSHER (1997)
Assistant Professor of Management
B.A., Loyola Marymount University, 1987;
M.A., Claremont Graduate School, 1994;
Ph.D., Claremont Graduate School, 1997.
RICHARD ESPINOZA (2003)  
Assistant Professor of Chicana/o Studies  
B.A., U.C. Los Angeles, 1992;  
M.F.A., U.C. Los Angeles, 1995;  

RITA ESQUIVEL (1995)  
Adjunct Professor of Education  
B.A., Our Lady of the Lake University, 1953;  
M.Ed., Our Lady of the Lake University, 1960.

OMAR S. ES-SAID (1985)  
Professor of Mechanical Engineering  
B.S., American University, Cairo, 1976;  
M.S., American University, Cairo, 1978;  
Ph.D., University of Kentucky, 1985.

ZAKI EUSUFZAI (1989)  
Associate Professor of Economics  
B.S.S., University of Dhaka, 1980;  
M.A., Illinois State University, 1982;  

ALAN H. FALCON (1979)  
Professor of Accounting  
B.A., Temple University, 1970;  
M.A., University of Arizona, 1973;  
C.M.A., 1980;  
C.P.A., 1982;  

JAMES D. FAUGHT (1974)  
Professor of Sociology and Chairperson of the Department  
B.A., San Jose State University, 1967;  
M.A., San Jose State University, 1969;  

JODI SUSAN FINKEL (2001)  
Assistant Professor of Political Science  
B.A., U.C. Los Angeles, 1989;  
M.A., U.C. San Diego, 1992;  

BEN F. FITZPATRICK (2001)  
Professor of Mathematics and  
Clarence J. Wallen, S.J., Chair  
B.S., Auburn University, 1981;  
M.S., Auburn University, 1983;  

VERONIQUE FLAMBARD-WEISBART (1992)  
Associate Professor of Modern Languages and Literatures and Director of European Studies  
D.E.U.G., Université de Paris X, 1982;  
Licence, Université de Paris X, 1983;  
M.A., U.C. Los Angeles, 1985;  

JUDITH G. FOY (1991)  
Professor of Psychology  
B.A., Eastern Washington University, 1980;  
M.S., Eastern Washington University, 1981;  
M.A., Kent State University, 1986;  
Ph.D., Kent State University, 1987.

MICHAEL R. FOY (1987)  
Professor of Psychology  
B.S., U.C. Irvine, 1977;  
M.S., Kent State University, 1981;  
Ph.D., Kent State University, 1983.

JAMES L. FREDERICKS (1992)  
Professor of Theological Studies  
B.A., St. Joseph’s College, 1973;  
M.A., St. Patrick’s Seminary, 1976;  
S.T.L., Jesuit School of Theology, 1983;  

KATHARINE B. FREE (1970)  
Professor of Theatre Arts and Co-Chairperson of the Department  
B.A., Marymount College, 1966;  
M.A., U.C. Los Angeles, 1968;  
Professor of Classics and Archaeology and
NEH Professor of Ancient Mediterranean Studies
B.A., Gonzaga University, 1959;
M.A., Gonzaga University, 1960;
S.T.M., Santa Clara University, 1967;
Ph.D., Yale University, 1971.

JEFFREY GALE (1985)
Professor of Management
S.B., Massachusetts Institute of Technology, 1970;
S.M., Massachusetts Institute of Technology, 1971;
J.D., U.C. Los Angeles, 1975;

GORDON S. GAMLIN (2003)
Assistant Professor of Modern Languages and Literatures
B.A., University of British Columbia, 1988;
M.A., McGill University, 1992;
Ph.D., University of Constance, 1995;

JOSE GARCIA-MORENO (2003)
Assistant Professor of Film and Television
B.A., Universidad Iberoamericana, Mexico, 1984;
M.A., Charles University, Czech Republic, 1989;

GLENN GEBHARD (1995)
Associate Professor of Film and Television
B.A., University of Dayton, 1973;
M.F.A., University of Southern California, 1980.

MICHAEL GENOVESE (1983)
Professor of Political Science and
Loyola Chair of Leadership Studies
B.A., St. Mary's College, 1972;
M.A., University of Southern California, 1975;
Ph.D., University of Southern California, 1978.

EVAN GERSTMANN (1996)
Associate Professor of Political Science
B.A., Oberlin College, 1983;
J.D., University of Michigan Law School, 1986;
M.A. University of Wisconsin, 1992;
Ph.D., University of Wisconsin, 1996.

RICHARD GILBERT (1986)
Professor of Psychology
B.A., Princeton University, 1977;
M.A., U.C. Los Angeles, 1979;

JENNIFER R. GILLETTE (2002)
Assistant Professor of Biology
B.S., University of Puget Sound, 1995;
M.S., University of Louisiana, Lafayette, 1998;

DIANNE D. GLAVE (1997)
Assistant Professor of African American Studies
B.A., University Center, Binghamton, 1985;
M.A., University Center, Stony Brook, 1991;

DEENA GONZÁLEZ (2001)
Professor of Chicana/o Studies and
Chairperson of the Department
B.A., New Mexico State University, 1974;
M.A., U.C. Berkeley, 1976;

MICHELLE A. GONZÁLEZ (2001)
Assistant Professor of Theological Studies
B.S., Georgetown University, 1994;
M.A., Union Theological Seminary, 1996;
Ph.D., Union Theological Seminary, 2001.

CARM KEITH GOODE (1987)
Associate Professor of Art and Art History
B.S., Woodbury University, 1952;
B.A., California State University, Long Beach, 1963;
M.A., California State University, Los Angeles, 1984.

MICHAEL D. GRADY (1975)
Professor of Mathematics and
Chairperson of the Department
B.A., University of Missouri, 1968;
M.S., Southern Illinois University, 1970;
Ph.D., Utah, 1975.

VICTORIA L. GRAF (1979)
Professor of Education
B.A., De Paul University, 1972;
M.A., U.C. Riverside, 1975;

ALLEN P. GRAY (1980)
Associate Professor of Computer Information Systems
B.A., Loyola University, Los Angeles, 1970;
vM.A., California State University, Los Angeles, 1971;

EDMUND R. GRAY (1986)
Professor of Management and
Chairperson of the Department
B.A., Hofstra University, 1956;
M.B.A., U.C. Los Angeles, 1961;

JOHN H. GREVER, C.F.M.M. (1973)
Professor of History and
Chairperson of the Department
B.A., Loyola University, Los Angeles, 1965;
M.A., Loyola University, Los Angeles, 1967;
CHERYL GRILLS (1987)
Professor of Psychology
B.A., Yale University, 1980;
M.A., U.C. Los Angeles, 1982;

ARTHUR GROSS-SCHAEFER (1980)
Professor of Business Law and
Co-Chairperson of the Department
B.S., University of Southern California, 1973;
J.D., Boston College, 1976;
M.H.L., Hebrew Union, 1982;
C.P.A.

FERNANDO J. GUERRA (1987)
Associate Professor of Chicana/o Studies and Political
Science and Director, Center for the Study of
Los Angeles
B.A., University of Southern California, 1980;
M.A., University of Michigan, 1982;
Ph.D., University of Michigan, 1990.

RICHARD P. HADLEY, JR. (1991)
Associate Professor of Film and Television and
Director of the Graduate Program in Film and Television
B.A., U.C. Berkeley, 1970;
M.A., University of Wisconsin, Madison, 1972;
M.F.A., University of Southern California, 1980;
Ph.D., University of Southern California, 1989.

MICHELE HAMMERS (2004)
Assistant Professor of Communication Studies
B.S., Boston University, 1992;
J.D., University of Texas at Austin, 1995;
M.A., Arizona State University, 2000;

JAMES G. HANINK (1976)
Professor of Philosophy
B.A., St. Mary's College, 1968;
M.A., Michigan, 1971;
Ph.D., Michigan, 1975.

DAVID J. HARDY (2004)
Assistant Professor of Psychology
B.A., California State University, Long Beach, 1990;
M.A., California State University, Long Beach, 1994;
Ph.D., Catholic University of America, 1998.

KATHERINE HARPER (1977)
Associate Professor of Art and Art History
B.A., California State University, Los Angeles, 1967;
M.A., California State University, Los Angeles, 1969;
Ph.D., California State University, Los Angeles, 1977.

PAUL A. HARRIS (1995)
Associate Professor of English and
Director of the Graduate Program in English
B.A., McGill University, 1984;
M.A., U.C. Irvine, 1986;

JOSEPH HAWORTH (1988)
Adjunct Professor of Civil Engineering
B.S., Loyola University, Los Angeles, 1967;
M.S., Stanford University, 1968.

TERESA HEILAND (2004)
Assistant Professor of Dance
B.F.A., Kutztown University, 1985;
M.A., New York University, 1991;

SCOTT HEINZERLING (1991)
Professor of Dance
B.A., University of Akron, 1975;
M.F.A., Ohio State University, 1991.

GEORGE L. HESS (1975)
Professor of Management and
Associate Dean of the College of Business Administration
and Director of Small Business Institute
B.S., Xavier University, 1956;
M.B.A., Xavier University, 1957;

KRISTIN HEYER (2003)
Assistant Professor of Theological Studies
B.A., Brown University, 1996;

CHARLES J. HIGGINS (1982)
Associate Professor of Finance
B.A., University of Southern California, 1968;
M.B.A., University of Southern California, 1972;
Ph.D., Claremont Graduate School, 1984.

PETER R. HOFFMAN (1977)
Associate Professor and
Director of Geography and Urban Studies
B.A., U.C. Los Angeles, 1969;
M.A., Arizona, 1974;

ALAN K. HOGENAUER (2000)
Associate Professor and
Director, Travel and Tourism Program
A.B., City University of New York, 1962;
M.A., Columbia University, 1968;
M.Phil., Columbia University, 1975;
Ph.D., Columbia University, 1975.
MICHAEL P. HORAN (1994)
Associate Professor of Theological Studies
B.A., Iona College, 1977;
M.R.E., Catholic University of America, 1982;
Ph.D., Catholic University of America, 1989.

ROY S. HOUSTON (1974)
Professor of Biology
B.S., University of Arizona, 1968;
M.S., University of the Pacific, 1970;
Ph.D., University of Arizona, 1974.

LEI HUANG (2003)
Assistant Professor of Electrical Engineering
B.E., Beijing University of Posts and Telecommunications, 1993;
M.E., Nanyang Technological University, Singapore, 1998;
M.S. in E.E., University of Southern California, 1999;
Ph.D., University of Southern California, 2002.

PAUL W. HUMPHREYS (1997)
Assistant Professor of Music
B.M., University of Cincinnati, 1976;
M.A., U.C. Los Angeles, 1983;

MARGARET L. HUNTER (2001)
Assistant Professor of Sociology
B.A., University of Wisconsin, 1994;
M.A., U.C. Los Angeles, 1996;

K. ANNIKA HYLMÖ (2001)
Assistant Professor of Communication Studies
B.A., Lund University, 1991;
M.A., American University, 1994;
Ph.D., Purdue University, 2001.

MARY ELIZABETH INGHAM, C.S.J. (1987)
Professor of Philosophy and Academic Vice President
B.A., Marymount College, 1973;
B.A., Loyola Marymount University, 1981;
Lic.-es-arts, University of Fribourg, Switzerland, 1985;
Ph.D., University of Fribourg, Switzerland, 1989.

NANCY W. JABBRA (1990)
Professor of Women's Studies and Chairperson of the Department (Spring 2005)
B.A., U.C. Santa Barbara, 1964;
M.A., Indiana University, 1970;
Ph.D., Catholic University of America, 1975.

LAWRENCE J. JELINEK (1977)
Professor of History
B.A., University of Illinois, Urbana, 1964;

JOK MADUT JOK (1997)
Associate Professor of History
B.A., University of Alexandria, Egypt, 1988;
M.A., American University in Cairo, 1991;

CHRISTOPHER KACZOR (1998)
Associate Professor of Philosophy
B.A., Boston College, 1992;
M.A., University of Notre Dame, 1994;
Ph.D., University of Notre Dame, 1996.

TAI-WU KAO (1965)
Professor of Electrical Engineering
B.S., National University, Taiwan, 1958;
M.S., National University Taiwan, 1961;
Ph.D., University of Utah, 1965.

RACHELLE KATZ (1976)
Professor of Finance, Associate Dean and Director of the MBA Program
B.S., Purdue University, 1969;
M.B.A., University of Michigan, 1972;
Ph.D., Stanford University, 1980.

SCOTT W. KESTER (1977)
Professor of Education
B.A., Oklahoma Baptist University, 1959;
M.Ed., University of Oklahoma, 1966;
Ph.D., University of Oklahoma, 1969.

LILY KHADJAVI (1999)
Assistant Professor of Mathematics
A.B., Harvard University, 1990;

W. FREDERICK KIESNER, JR. (1977)
Professor of Management and Hilton Chair in Entrepreneurship
B.S.B., University of Minnesota, 1961;
M.B.A., Northwestern University, 1962;
Ph.D., Claremont Graduate School, 1985.

DAVID D. KILLORAN (1969)
Professor of English and Chairperson of the Department
B.A., Michigan State University, 1965;
Ph.D., Tulane University of Louisiana, 1974.

SOO JIN KIM (1999)
Assistant Professor of Art and Art History
B.A., U.C. Riverside, 1991;

GARLAND KIRKPATRICK (2004)
Assistant Professor of Art and Art History
B.A., Amherst College, 1984;
M.F.A., Yale University, 1990.
RICHARD L. KOCHER (1966)
Professor of English
B.A., Loyola University, Los Angeles, 1956;
M.A., University of Southern California, 1963;
Ph.D., University of Southern California, 1978.

JAMES D. KONOW (1989)
Professor of Economics and
Chairperson of the Department
B.A., Arizona State University, 1977;
M.A., U.C. San Diego, 1983;

ALBERT P. KOPPES, O.Carm. (1975)
Professor of Education and
Acting Academic Vice President
B.A., St. Bonaventure University, 1956;
B.S., St. Bonaventure University, 1958;
M.A., University of Notre Dame, 1963;
Ph.D., University of Southern California, 1973.

SUDHA KRISHNAN (1999)
Assistant Professor of Accounting
B.C., University of Bombay, 1985;
M.C., University of Bombay, 1989;
M.A., University of Southern California; 1993;
Ph.D., University of Southern California, 1999.

GARY KULECK (1994)
Associate Professor of Biology and
William McLaughlin Professor of Biology
B.A., University of Maryland, 1975;

Assistant Professor of Psychology
B.S., Marquette University, 1983;
Ph.L., Gonzaga University, 1988;
M.S., University of North Carolina at Chapel Hill, 1989;
M.Div., Jesuit School of Theology at Berkeley, 1995;
Ph.D., University of Southern California, 2002.

JAMES M. LANDRY (1984)
Professor of Chemistry and Natural Science and
Chairperson of the Natural Science Department
B.S., Xavier University, 1978;
M.S., Xavier University, 1983;
Ph.D., Miami University, 1984.

SUZANNE LARSON (1986)
Professor of Mathematics
B.A., St. Olaf College, 1979;
Ph.D., Claremont Graduate School, 1984.

MAGALY LAVADENZ (1994)
Associate Professor of Education
B.S., Oakland University, 1979;
M.A., California State University, Northridge, 1991;
Ph.D., University of Southern California, 1993.

HOWARD S. LAVICK (1986)
Associate Professor of Film and Television
M.A., University of Minnesota, 1969;
M.F.A., University of Southern California, 1976.

ROBERT B. LAWTON, S.J. (1999)
Professor of Classics and Archaeology and
Theological Studies and
President of the University
A.B., Fordham University, 1971;
Ph.D., Harvard University, 1977.

MARK LEACH (2001)
Assistant Professor of Marketing
B.S., University of Arizona, 1991;
Ph.D., Georgia State University, 1998.

CHUN I. LEE (2001)
Associate Professor of Finance, Computer Information
Systems and Operations Management
B.S., Chiao Tung University, Taiwan, 1980;
M.S., U.C. Los Angeles, 1985;
M.S., Carnegie-Mellon University, 1987;
M.S., Washington University in St. Louis, 1990;

JONGHWA LEE (2004)
Assistant Professor of Communication Studies
B.A., Kei-Myung University, 1994;
M.A., San Jose State University, 1998;
Ph.D., Ohio University, 2003.

LINDA LEON (1988)
Associate Professor of Finance
B.A., U.C. Los Angeles, 1982;

BRIAN P. LEUNG (1990)
Professor of Education
A.A., Pasadena City, 1974;
B.A., University of Southern California, 1976;
M.A., California State University, Long Beach, 1979;
Ph.D., University of Southern California, 1990.

HOLLI G. LEVITSKY (1991)
Associate Professor of English
B.A., University of Michigan, 1979;
M.A., University of Michigan, 1982;
PETRA LIEDKE KONOW (1995)
Associate Professor of Modern Languages and Literatures
B.A., Universität zu Köln, Germany, 1977; 
M.A., Universität zu Köln, Germany, 1983; 

DEBRA LINESCH (1991)
Professor of Marital and Family Therapy and 
Chairperson of the Department 
B.A., University of Toronto, 1975; 
B.Ed., Queens University, 1976; 
M.A., Loyola Marymount University, 1981; 
Ph.D., Union Institute, 1992.

EDMUNDO LITTON (1999)
Assistant Professor of Education and 
Acting Associate Dean of the School of Education 
B.A., De La Salle University, Philippines, 1985; 
M.A., Georgetown University, 1989; 

ANNIE LIU (2001)
Assistant Professor of Marketing 
B.B.A., Chinese Culture University, Taipei, 1983; 
M.S., Purdue University, 1988; 
Ph.D., Georgia State University, 1998.

SHARON LOCY (1971)
Professor of English and Director of Liberal Studies 
B.A., College of St. Teresa, 1963; 
M.A., U.C. Davis, 1966; 

MARC G. LONY (1998)
Associate Professor of Modern Languages and Literatures 
DEUG, Université de Paris III, 1978; 
M.A., Université de Paris VIII, 1980; 
M.A., Université de Paris VIII, 1988; 
Ph.D., U.C., Santa Barbara, 1994.

RICARDO A. MACHÓN (1986)
Professor of Psychology 
B.A., University of Southern California, 1979; 
M.A., University of Southern California, 1982; 
Ph.D., University of Southern California, 1986.

ERIC MAGNUSON (2003)
Assistant Professor of Sociology 
B.A., Brown University, 1991; 
M.A., U.C. Los Angeles, 1994; 

JUAN MAH Y BUSCH (2002)
Assistant Professor of English 
B.A., U.C. Los Angeles, 1993; 
M.A., Cornell University, 1998; 
Ph.D., Cornell University, 2003.

CHRISTOPHER A. MANNING (1986)
Professor of Finance 
B.S., San Diego State University, 1967; 
M.B.A., Northwestern University, 1971; 

MICHAEL E. MANOOGIAN (1993)
Associate Professor of Civil Engineering 
B.S., Loyola Marymount University, 1975; 
M.S., California State University, Northridge, 1983; 
M.S., California State University, Northridge, 1983; 
E.C.E., University of Southern California, 1987; 
Ph.D., University of Southern California, 1992; 
Registered Professional Engineer.

RON MARASCO (1993)
Associate Professor of Theatre Arts 
B.A., Fordham University, 1983; 
M.A., U.C. Los Angeles, 1988; 

BARTBARA E. MARINO (1997)
Associate Professor of Electrical Engineering and 
Chairperson of the Department 
B.S.E.E., Marquette University, 1989; 
M.S.E.E., University of Notre Dame, 1993; 
Ph.D., University of Notre Dame, 1996.

DAVID MARPLE (1978)
Assistant Professor of Sociology 
B.A., Western Kentucky University, 1968; 
M.A., State University New York, Albany, 1970; 
Ph.D., Cincinnati University, 1981.

SHANE P. MARTIN (1995)
Associate Professor of Education and 
Acting Dean of the School of Education 
B.A., Loyola Marymount University; 1980; 
M.Div., Jesuit School of Theology, Berkeley, 1991; 
Th.M., Jesuit School of Theology, Berkeley, 1992; 
Ph.D., University of Southern California, 1995.

JAMES T. MATHIEU (1972)
Professor of Sociology 
B.A., Grove City College, 1956; 
M. Div., Princeton Theological Seminary, 1959; 
Ph.D., University of Southern California, 1972.

DAVID L. MATHISON (1983)
Professor of Management 
B.A., Whittier College, 1969; 
M.Div., Bethel Theological Seminary, 1975; 
Ph.D., Bowling Green State University, 1978.

MARIE ANNE MAYESKI (1974)
Professor of Theological Studies 
B.A., Dominican College of San Rafael, 1960; 
M.A., Holy Names College, 1963; 
Ph.D., Fordham University, 1974.

Professor of Computer Information Systems
B. Tech, India Institute of Technology, 1985;
M.S., University of Texas, Dallas, 1989;
Ph.D., University of Texas, Dallas, 1990.

PATRICK D. SHANAHAN (1996)
Associate Professor of Mathematics
B.A., California State University, Long Beach, 1990;
M.S., U.C. Santa Barbara, 1992;
Ph.D., U.C. Santa Barbara, 1996.

TIMOTHY D. SHANAHAN (1988)
Professor of Philosophy and Chairperson of the Department
B.S./B.A., State University New York, Cortland, 1983;
M.A., University of Notre Dame, 1986;
Ph.D., University of Notre Dame, 1988.

THOMAS SHERMAN, S.J. (2001)
Assistant Professor of Philosophy
B.A., Marquette University, 1977;
M.A., St. Louis University, 1981;
M.Div., Weston School of Theology, 1987;
Ph.D., University of Toronto, 1999.

KAMAL SHOUKRY (1980)
Associate Professor of Economics
B.A., Alexandria University, Egypt, 1957;
M.A., Alexandria University, Egypt, 1963;
M.A., University of Southern California, 1971;
Ph.D., University of Southern California, 1972.

GARY P. SIBECK (1965)
Professor of Business Law
B.A., University of Oklahoma, 1951;
M.A., University of Oklahoma, 1960;
J.D., University of Oklahoma, 1962;
Ph.D., University of Southern California, 1971.

SLOBODAN SIJAN (2000)
Assistant Professor of Film and Television
B.A., University of Arts (Yugoslavia), 1970;
M.A., University of Arts (Yugoslavia), 1975.
JEFFREY S. SIKER (1987)
Professor of Theological Studies and Chairperson of the Department

ROBERT SINGLETON (1982)
Associate Professor of Economics

Assistant Professor of Mechanical Engineering

DAVID SMITH (1978)
Professor of Mathematics
B.S., Oklahoma State University, 1971; M.S., Oklahoma State University, 1973; Ph.D., Oklahoma State University, 1978.

DANIEL L. SMITH-CHRISTOPHER (1989)
Professor of Theological Studies and Director of Peace Studies

Professor of Biology
B.S., Loyola University, Los Angeles, 1966; Ph.D., U.C. Los Angeles, 1970.

H. DANIEL STAGE, JR. (1973)
Professor of Management
B.S., Massachusetts Institute of Technology, 1953; M.B.A., University of Southern California, 1969; D.B.A., University of Southern California, 1976.

JANIE S. STECKENRIDER (1991)
Associate Professor of Political Science

JOHN A. STEWART (1989)
Professor of Film and Television

BRAD ELLIOTT STONE (2003)
Assistant Professor of Philosophy

MATT STREB (2000)
Assistant Professor of Political Science
B.A., Indiana University, Bloomington, 1996; M.A., Indiana University, Bloomington, 1998; Ph.D., Indiana University, Bloomington, 2000.

CHARLES SWANSON (2003)
Assistant Professor of Film and Television

ERNEST S. SWEENEY, S.J. (1972)
Professor of History
A.B., Loyola University, Chicago, 1955; Ph.L., West Baden College, 1957; M.A., Loyola University, Chicago, 1959; S.T.L., Woodstock College, 1964; Ph.D., University of Texas, Austin, 1970.

LELAND C. SWENSON (1973)
Professor of Psychology
B.A., Western Michigan University, 1964; M.A., Wayne State University, 1967; Ph.D., Wayne State University, 1969.

LAWRENCE TAI (1990)
Professor of Finance
B.S., Illinois State University, 1974; M.B.A., Indiana University, 1976; Ph.D., Georgia State University, 1983; C.P.A.

REV. MICHAEL R. TANG (1990)
Professor of Art and Art History and Chairperson of the Department

VANDANA THADANI (2004)
Assistant Professor of Psychology
RENA IEEE THIMESTER (1971)
Associate Professor of Economics
Diplome D’Etudes de Civilization Francaise, Degree
Superior, Sorbonne, Paris, 1961;
B.S., University of Alabama, 1963;
M.S., University of Alabama, 1965;
Ph.D., University of Alabama, 1967.

SETH B. THOMPSON (1970)
Professor of Political Science and
Chairperson of the Department
B.A., Santa Clara University, 1966;
M.A., University of Oregon, 1968;
Ph.D., University of Oregon, 1972.

JOSEPH S. TIEDEMANN (1979)
Professor of History
B.A., St. Francis College, 1968;
Ph.D., City University of New York, 1977.

RAYMOND J. TOAL (1986)
Professor of Electrical Engineering/Computer Science
B.S., Loyola Marymount University, 1985;
M.S., Loyola Marymount University, 1986;

BRIAN TREANOR (2001)
Assistant Professor of Philosophy
B.A., U.C. Los Angeles, 1991;
M.A., California State University, Long Beach, 1997;

LAWRENCE A. TRITLE (1978)
Professor of History
B.A., U.C. Los Angeles, 1968;
M.A., University of South Florida, 1972;
Ph.D., University of Chicago, 1978.

WILLIAM TROTT (1975)
Professor of Civil Engineering and
Chairperson of the Department
B.S., U.C. Los Angeles, 1971;
M.S., U.C. Los Angeles, 1972;
Ph.D., U.C. Los Angeles, 1979;
Registered Professional Engineer.

NAZMUL ULA (1991)
Professor of Electrical Engineering
B.S., Bangladesh University of Engineering and
Technology, 1979;
M.S., University of Wyoming, 1985;

Assistant Professor of Biology
B.S., University of Illinois at Urbana-Champaign, 1992;
Ph.D., Loyola University Chicago, 1998.

CHARLES VANCE (1986)
Professor of Management
B.S., Brigham Young University, 1975;
M.A., Brigham Young University, 1977;
Ph.D., Syracuse University, 1981.

JEFFREY VANDERWILT (1998)
Assistant Professor of Theological Studies
B.A., Lawrence University, 1984;
B.Mus., Lawrence University, 1984;
M.A., University of Notre Dame, 1985;
Ph.D., University of Notre Dame, 1996.

ROBERT VANGOR (1981)
Adjunct Professor of Mathematics
B.S., University of Southern California, 1968;
M.A., University of Southern California, 1976.

GABRIELE VARIESCHI (2000)
Assistant Professor of Physics
B.S., University of Milano, Italy, 1989;
M.S., U.C. Los Angeles, 1996;

CAROLYN M. VIVIANO (2002)
Assistant Professor of Natural Science
B.A., Amherst College, 1982;
M.S., Columbia University, 1985;
M.Phil, Columbia University, 1985;
Ph.D., Columbia University, 1990.

JOHN P. WAGGONER, III (1976)
Professor of Biology
B.A., Duke University, 1965;
M.S., University of Nebraska, 1967;

R. PATRICIA WALSH (1973)
Professor of Psychology
B.A., University of Maryland, 1968;

JAMES J. WALTER (1999)
Austin and Ann O’Malley Professor of Bioethics;
Professor of Theological Studies; and
Director, The Bioethics Institute
B.A., St. Meinrad College, 1969;
B.A., Katholieke Universiteit te Leuven, 1970;
S.T.B., Katholieke Universiteit te Leuven, 1971;
M.A., Katholieke Universiteit te Leuven, 1971;
Ph.B., Katholieke Universiteit te Leuven, 1972;
