It is subject to change due to forces beyond the University's control or as deemed necessary by the University in order to fulfill its educational objectives.
The University
The University

History and Goals

The names “Loyola” and “Marymount” have long been associated with Catholic higher education in countries around the globe. Saint Ignatius Loyola, founder of the Society of Jesus, the Jesuits, sanctioned the foundation of his order’s first school in 1548. The Religious of the Sacred Heart of Mary have conducted educational institutions since their establishment in France by Father Jean Gailhac. These two traditions of education have come together in Los Angeles as Loyola Marymount University.

The present institution is the successor to the pioneer Catholic college and first institution of higher learning in Southern California. In 1865 the Vincentian Fathers inaugurated St. Vincent’s College for Boys in Los Angeles. When this school closed in 1911, members of the Society of Jesus opened the high school division in their newly founded Los Angeles College.

Rapid growth prompted the Jesuits to commence the collegiate department that same year, seek a new campus in 1917, and incorporate as Loyola College of Los Angeles in 1918. Relocating to the present Westchester campus in 1929, the school achieved university status one year later.

Graduate instruction began in 1920 with the foundation of a separate law school. The formation of the Graduate Division occurred in June 1950, though graduate work had formed an integral part of the Teacher Education Program during the preceding two years.

The Religious of the Sacred Heart of Mary began teaching local young women in 1923. Ten years later they opened Marymount Junior College in Westwood which first granted the baccalaureate degree in 1948. The school later transferred classes to a new campus on the Palos Verdes Peninsula in 1960. Eight years later, Marymount College moved again, this time to the Westchester campus of Loyola University as an autonomous college. At this juncture, the Sisters of St. Joseph of Orange joined the Marymount Sisters as partners.

After five years of sharing faculties and facilities, Loyola University and Marymount College merged and formed Loyola Marymount University in July 1973. Through this union, the expanded school maintained the century-old mission of Catholic higher education in Los Angeles.

In articulating a vision for this unique collegiate enterprise, the Board of Trustees turned to the history of the four-century-old Jesuit educational philosophy as well as to the history and traditions of the Marymount and St. Joseph’s Sisters. They also recognized the riches of a variety of religious traditions represented among the dedicated faculty and staff that complemented and enhanced the school’s heritage of Catholic values.

The University pursues quality in:

- Curricula of All Academic Programs
- Co-curricular Programs and Support Services
- Faculty, Administration and Staff
- Students
- Campus Life, Hospitality and Services

Loyola Marymount University:

- Promotes Academic Excellence
- Provides a Liberal Education
- Fosters a Student-centered University
- Creates a Sense of Community on Campus
- Participates Actively in the Life of the Larger Community
- Lives an Institutional Commitment to Roman Catholicism and the Judeo-Christian Tradition

University Mission Statement

Loyola Marymount University is dedicated to the education and development of the whole person, the pursuit of academic excellence, advancement of scholarship, the service of faith, and the promotion of justice. As a Catholic institution, the University takes its fundamental inspiration from the Jesuit and Marymount traditions of its founding religious orders. Loyola Marymount University seeks to foster in each member of its community respect for the dignity of the individual, a devotion to intellectual and spiritual life, an appreciation for diversity, and a thirst for
justice in all endeavors. Loyola Marymount University strives to send forth “men and women for others,” to lead and to serve.

Therefore, the University pursues quality in:

Curricula of All Academic Programs

Instruction in all disciplines and courses is to be challenging, intellectually stimulating, and current, including discussion, conducted in an atmosphere of academic freedom, of the important moral and other value questions of contemporary society; students are to acquire skills, knowledge, and the ability to use their skills and knowledge creatively now and in the future.

The undergraduate core curriculum is to be structured, integrated, and centered on the humanities, especially philosophy and Catholic theology; students are to acquire the arts of precise and elegant expression, a sound and critical grasp of ideas, a familiarity with the modern world’s ways of knowing itself, a personal understanding of this nation’s history and multicultural heritage, and an appreciation of other cultures around the globe.

Concentrations in the liberal arts and sciences as well as in carefully selected pre-professional programs are to give students not only technical knowledge and expertise but also awareness of the larger human context which calls them to use their competencies for personal growth and service to others; similarly, the University’s commitment to graduate and professional education is aimed at the formation of men and women of competence and conscience.

Co-curricular Programs and Support Services

Other campus activities—resident life, clubs and organizations, recreational and sports programs, social events, counseling and health services—are to complement academic pursuits; students are to have opportunities, experiences, and responsibilities that will assist and guide their struggle to become fully human.

University life as a whole is to be open to the subtle presence and activity of God, God’s Word and Spirit; students are to find a campus environment, reinforced by specific programs, that nourishes faith and contemplation, seeks the integration of reason and faith, the religious and secular, and recognizes the implications of faith for right conduct and service.

All offices of the University—academic, student life, business, university relations, facilities management, campus ministry—are to be supportive of the University’s efforts to graduate intelligent, faith-filled men and women for others.

Faculty, Administration, and Staff

The University is to recruit faculty who are supportive of its mission and goals, well-educated, well-trained in their fields, diverse, and committed to excellence in the classroom, significant scholarship and contributions to their disciplines; the University is to assist individual faculty members with the challenge of combining in one life dedicated teaching, close relationships with students, collegiality, and scholarly activity and achievement.

The University is to recruit and develop administrators and staff, of diverse backgrounds, who are supportive of its missions and goals, skilled, dedicated to their work, and collegial.

Students are to find in all who labor on behalf of the University examples of generosity, service, and personal integrity.

Students

The University is to recruit and attract literate, capable students, as academically prepared as possible, who are comfortable with its mission and goals, eager to study and to participate in campus life, searching to discover and follow a worthwhile direction for their own lives; the mix of the student body—interests, special talents, geographic origin, socioeconomic class, and, particularly, ethnicity—is to be as varied as reasonable and possible, manifesting always the biblical option for the poor.

From admission to commencement, inside and outside the classroom, the University is to encourage and challenge students as individuals to liberate their own minds and hearts and to develop their God-given abilities for service to others and God’s greater glory.

The University is always to measure and judge its success with students by their lives as alumni—the quality of their personal lives, of their careers, of their influence and leadership, of their accomplishments.

Campus Life, Hospitality, and Service

All on campus—faculty, administration and staff, students—are to collaborate and share responsibility for the formation of an academic community based on mutual respect, friendship,
and a shared commitment to the University’s mission and goals; all are to expect from one another good work, disciplined behavior, and courtesy.

The University community is to be open and welcoming to others from off-campus who visit for intellectual stimulation and reflection, artistic events and programs, worship, or relaxation and recreation; those invited are to include, especially, alumni, parents and families, benefactors and friends, professional colleagues, neighbors, and church members, but also others whom the University can appropriately serve with its facilities, buildings, and grounds.

The University is to be known not only as an intellectual and cultural center which others can visit but also as one which sends its members—faculty, administration and staff, students—into the community to learn, to teach, to minister, to labor, to participate in and lead efforts to create a more rational, faith-filled, just society.

**Interculturalism**

Interculturalism is sharing and learning across cultures with the aim of promoting understanding, equity, harmony, and justice in a diverse society. Our actions must be grounded in, and guided by, the following:

- LMU is composed of individuals and groups who continue to grow in knowledge of the historical contexts from which we emerged.

- Knowledge of self and others, inspired by a commitment to human dignity and justice, is the hallmark of interculturalism.

- Promotion of the common good requires the recognition of similarities within a common humanity, the appreciation of differences, and the willingness to share cross-cultural experiences.

- Interculturalism is a dynamic and critical endeavor that involves the acquisition of knowledge, ongoing examination of the way we view the world, and purposeful action to promote a just and harmonious society at LMU and beyond.

**Vision**

Grounded in the Catholic intellectual tradition, Loyola Marymount University affirms human dignity and promotes justice. Different cultures are unique expressions of these common aspirations. All cultures can contribute to the search for knowledge and the building of communities based on the common humanity of all people. At LMU, interculturalism is an essential source of academic excellence and a defining characteristic of our campus community. We draw upon interculturalism to create a university of excellence, to serve as a model Catholic institution, and to be a catalyst for the creation of a more just society built on respect and a sense of shared destiny.

We embody interculturalism in our policies, practices, and curricula. We promote personal and professional interaction, encouraging intercultural engagement to engender trust, respect, and compassion. Intercultural engagement enables us to share power and responsibility as we grow in self-knowledge, learn to value the unique qualities of diverse cultural groups, and understand the common elements of our shared humanity.

**Goals**

As part of a broad effort to fulfill our mission to promote educational excellence, the education of the whole person, service of faith, and the promotion of justice, we will:

- Promote a diverse LMU community at all levels: boards, administrators, faculty, staff, and students.

- Support academic success for all students, acknowledging the importance of retaining and graduating students from underrepresented groups and first-generation college students.

- Support faculty and staff retention and promotion, acknowledging the importance of underrepresented groups.

- Enhance curriculum, pedagogy, scholarship, and creative work to involve students and faculty in the learning process and to prepare them to engage issues of diversity as concerned citizens of the world.

- Provide ongoing education and development about interculturalism for the University community.

- Provide resources to create and sustain a culture of evidence that emphasizes assessment, critical analysis, and the identification of solutions that promote educational equity and excellence.
Accreditation

Loyola Marymount's academic programs have been accredited by the following organizations:

- American Art Therapy Association
- American Assembly of Collegiate Schools of Business
- American Bar Association
- Association of American Law Schools
- California Commission on Teacher Credentialing
- Committee of Bar Examiners of the State Bar of California
- The Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology

Address: 111 Market Place, Suite 1050
Baltimore, MD  21202-4012
Telephone: (410) 347-7700

International Association of Counseling Services
National Association of Schools of Art and Design Commission on Accreditation
National Association of Schools of Dance
National Association of Schools of Music

University Facilities

Academic

A complex of four buildings, the Burns Fine Arts Center was opened in 1984. In Hogan Hall and Lemon Hall are housed the primary studios of the Dance Program, studios, and classrooms utilized by the Department of Art and Art History, the Department of Music rehearsal rooms and classrooms, as well as the offices of faculty dedicated to the various Fine Arts disciplines. The two additional buildings located here are the Laband Art Gallery and Murphy Recital Hall.

The Jerome and Elvira Doolan Building, built in 1985, houses Computer Science and Engineering faculty, classrooms, and laboratories.

Foley Building, constructed in 1962, houses the Charles H. Strub Memorial Theatre, faculty offices, seminar rooms, and computer labs.

The Hilton Center for Business opened in the Fall of 1995. It houses classrooms, meeting rooms, lecture halls, faculty offices, Information Services, and a 350-seat auditorium in a spacious, technologically advanced facility.

North Hall and South Hall, located on the east side of the campus, house the Del Rey Theatre, the Natural Science program, classrooms, Science and Engineering labs, and faculty offices.

Pereira Hall, erected in 1955, houses the Frank R. Seaver College of Science and Engineering Dean’s offices, classrooms, faculty offices, computer labs, and engineering labs.

Research Annex, erected in 1970, houses faculty offices and labs for the Frank R. Seaver College of Science and Engineering.

The Frank R. Seaver Hall of Science, erected in 1962, houses the departments of Biology, Chemistry and Biochemistry and Physics and Engineering Physics. In addition to 22 undergraduate and research laboratories, the building contains faculty offices, seminar rooms, classrooms, and a computer lab.

St. Robert’s Hall, erected in 1929, houses classrooms, the offices of the Dean of the College of Communication and Fine Arts, the Dean of the School of Film and Television, the Office of the Registrar, Animation facilities, and in the annex, the OneCard Office and the Student Housing Office.

The Charles Von der Ahe Library, named for its principal donor, was constructed in 1959 and doubled in size in 1977.

Wil and Mary Jane Von der Ahe Communication Arts Building, completed in 1971, houses the Louis B. Mayer Motion Picture Theatre, faculty offices, film classrooms, conference room, color television studios, and motion picture sound stage.

West Hall was erected in 1968 at the time of the Loyola Marymount affiliation. This structure houses classrooms and offices, including Environmental Health and Safety and Conference and Event Services.

Administrative

The Harry & Kathleen Daum Hall, on the east side of campus, was erected in 1998 and houses Facilities Planning, Emergency Medical Technicians, and Public Safety on the first floor. The Learning Resource Center is located on the second floor. The Tower and the Loyolan are also on the second floor.

East Hall, the former Mail Distribution Center building, houses the Human Performance Lab, the Scene Shop, Event Operations, and storage for Operations and Maintenance.

Gracian Hall accommodates the Sinatra Opera Workshop, the PRESS program, the REU/RET program, and faculty offices for the College of Communication and Fine Arts and the Frank R. Seaver College of Science and Engineering.

Malone Memorial Student Center, named in honor of the late Fr. Lorenzo M. Malone, S.J., former Vice President of the University, was completed in August 1958. Renovation and expansion of the Center was completed in August 1996. Located in the Center are the Vice President for Student Affairs, Department of Student Life, Associated Student offices, Campus Ministry Center, student dining, bookstore, Center for Service and Action, Ethnic and Intercultural Services, and conference rooms.

Pereira Annex, located behind Pereira Hall, includes the Industrial Assessment Center and faculty offices for the Frank R. Seaver College of Science and Engineering as its residents.
University Hall, opened in 2000, houses University Administration, classrooms, faculty administration, an auditorium, dining facilities, Campus Graphics, and the following staff departments: University Relations; Human Resources; LMU Extension; Career Development Services; Distribution Center; Information Technology Services administrative offices; Controller’s Office; Graduate Admissions; Thomas and Dorothy Leavey Center for the Study of Los Angeles; Marymount Institute for Faith, Culture, and the Arts; the Dean’s office for the Bellarmine College of Liberal Arts; University Honors Program; the Doctoral Program for the School of Education; and Academic Grants Office.

West Hall Annex houses the Asian Business Center, the Irvine Grants office, Classroom Management, and faculty offices for the College of Communication and Fine Arts.

Xavier Hall, one of the first buildings constructed on this campus in the 1920s, is home to the Office of Financial Aid, Undergraduate Admission, the Associate Vice President for Academic Affairs, and faculty offices for the School of Film and Television.

Residence Halls

Desmond Hall, erected in 1958, was named in honor of the Desmond family of Los Angeles, generous benefactors of the University. This residence hall accommodates women.

Doheny Hall was completed in 1986 and houses 120 women.

Hannon Apartments, erected in 1978, were named in honor of Eugenie B. Hannon. They house 282 upperclass students, and include the Hannon Recreation Center.

Huesman, erected in 1947, houses men and has a chapel.

The Jesuit Community Residence, Ignatius Commons, built in 1999, accommodates the members of the Society of Jesus.

The Dorothy and Thomas E. Leavey Center, erected in 1968, is a women’s residence hall and houses the Ignatian Center for Spirituality, a chapel, and the faculty/staff club.

Leavey 4, 5, and 6 are apartment buildings that house men and women. Leavey 4 was built in 2002, Leavey 5 in 2003, and Leavey 6 in 2005. The latter also includes offices for Student Affairs and a convenience store.

Loyola Towers, opened in 2005, houses men and women and includes a pizza kitchen.

McCarthy Hall, erected 1996, was the first residence hall built on the Leavey Campus. It accommodates 247 men and women. It is named in honor of J. Thomas McCarthy, philanthropist and generous benefactor of the University.

McKay Hall, erected in 1968, accommodates men and women and contains a diner-style restaurant. It has been named for Sr. M. Raymunde McKay, R.S.H.M., former President of Marymount College.

O’Malley Student Apartments, completed in Summer 2000, accommodates 164 men and women. It has been named in honor of former LMU president Fr. Thomas P. O’Malley, S.J.

Rains Hall, on the Leavey Campus, was built in 1997. Named in honor of Lilore Green Rains, a philanthropist and generous benefactor of the University, this building houses 300 men and women.

Rosecrans Hall, erected in 1962, was named in honor of William S. Rosecrans, for many years Chairman of the Board of Regents and a generous benefactor of the University. This residence hall accommodates men and women.

Sullivan, erected in 1947, houses women.

Tenderich Apartments, completed January 1971, accommodates 143 men and women in 39 units on campus.

Whelan Hall was completed in the Summer of 1965. It has been named for the Rev. Edward J. Whelan, S.J., President of Loyola University from 1942 to 1949. Whelan Hall accommodates men and women.

The Chapel

The Chapel of the Sacred Heart was completed in 1953. It has a seating capacity of 1,000. The tower of the Chapel, donated by the Board of Regents, has become a landmark of the campus.

Athletic Facilities

The Burns Recreation Center, completed in August 2000, holds a fitness center, multipurpose center, concession stand, two gyms, and the recreation offices, plus the Student Health Center and Student Psychological Services.

The Albert Gersten Athletic Pavilion, dedicated in early 1982, expands the University’s existing facilities to accommodate the intercollegiate athletic program, support facilities, Founder’s Room, and Weight Room.
On Sullivan Field, adjacent to the Pavilion, are located other athletic facilities of the University. These include the swimming pool, tennis courts, Page Baseball Stadium, and soccer facilities.

**Student-Managed Social and Recreation Facilities**

The Bird Nest, adjacent to Loyola Apartments, offers a beautiful view of Marina del Rey, Santa Monica, and the Pacific Ocean. The Bird Nest sponsors and hosts a wide variety of events for the entertainment pleasure of the student body.

Hannon Loft, located in the heart of the Hannon Apartments, Tenderich Apartments, and McKay residence hall, provides the southern campus with an informal, comfortable location to host a variety of events. Hannon Loft was built in 1978 and renovated in 1994.

Adjacent to St. Robert’s Hall is St. Robert’s Auditorium, which plays host to hundreds of events and programs from educational conferences and panel discussions to dances, speakers, and concerts. The auditorium can accommodate up to 350 people.

**The School of Law**

Established in 1920, the School of Law is one of the oldest law schools in Southern California. The Law School campus is located in the Pico-Union district near downtown Los Angeles. Expansion of the Law School facilities began in 1980 under the direction of internationally acclaimed architect, Frank O. Gehry. The completed campus includes the William M. Rains Library, the Fritz B. Burns Academic Center, three lecture buildings, the Chapel of the Advocate, the Rev. Charles S. Casassa Building, the Albert H. Girardi Advocacy Center, and the Student Services Center.
University Services
University Services

Campus Ministry

Director: Fernando Moreno

Sacred Heart Chapel, which can easily be seen from any vantage point on campus, provides a strong symbol of the University’s commitment to Christianity and the Catholic tradition. The Campus Ministry Center, situated in the most active and readily accessible part of the campus, is the location for many encounters with students, chaplains, faculty, staff, and all who choose to participate in the faith life of the University community.

In addition to the large number and variety of daily and weekend Eucharistic Liturgies, Campus Ministry provides a number of weekend retreats off campus, personal and religious counseling or spiritual guidance, and a wide variety of community service programs. Faculty and students serve as music ministers, lectors, Eucharistic ministers, and liturgy planners; there are also groups which meet regularly for theological reflection. The community service and justice ministry programs provide learning and practical experiences as well as career opportunities. These experiences are coordinated with the appropriate academic and student affairs departments as well as parishes and organizations off campus. Pastoral services for Jewish, Muslim, and students of all Christian faiths are also coordinated through Campus Ministry.

The Campus Ministry programs are all voluntary and yet are an integral part of the University’s life. The chaplains have a visible and explicit responsibility for leadership, but the faith life and ministry on this campus is accomplished by many groups and individuals.

Center for Ignatian Spirituality

Director: Rev. Randy Roche, S.J.

The Center for Ignatian Spirituality exists to promote the integration of Ignatian spirituality with the life of the University. It serves as a resource for those seeking to develop a personal spirituality, one rooted in an ever-deepening commitment to the service of faith and the promotion of justice. For more than four-and-a-half centuries, Ignatian spirituality has stood radically open to the diverse ways in which God enters the history of individuals and groups.

The Center has four main goals:

• To assist those members of the faculty and staff who desire to integrate Ignatian values more deeply into their professional and personal lives;

• To encourage and support faculty and staff members to assume leadership roles in these spiritual endeavors within their college, department, and division; and

• To serve as a resource for all members of the University community interested in Ignatian values.

The Center can be reached at (310) 258-8695.

Conference and Event Services

Co-Director, Conference Services: Trish Carlson
Co-Director, Event Services: Martin Alvarez

The Department of Conference and Event Services consists of three offices:

The Conferences component oversees all aspects related to on- and off-campus use of bookable space at LMU. This includes academic year events and the Summer Conference program. This office is located in West Hall 101 and can be reached directly at (310) 338-2975.

LMU Event Services is comprised of the Event Operations and Event Scheduling offices.

Event Operations is responsible for the delivery, set-up, maintenance, and resetting of event equipment including tables, chairs, audio visual components, and podiums. The Event Scheduling Office is responsible for managing space allocation and confirming event meeting space locations throughout most of the campus as well as the related meeting or special event equipment. Event Scheduling is located on the first floor of University Hall, Suite 1768 and can be reached directly at (310) 338-2878.

Marymount Institute for Faith, Culture, and the Arts

Director: Renée Harrangue

The Marymount Institute for Faith, Culture, and the Arts preserves the transformative educational tradition of the Religious of the Sacred Heart of Mary and promotes a dialogue between faith and culture as expressed in fine, performing, literary, and communication arts.

The Institute strengthens the contributions of the Marymount tradition and legacy to the Loyola Marymount
University community and the larger society. It does this by encouraging interdisciplinary and intercultural scholarly and artistic activity in the form of research and publication, exhibits, performances, conferences, seminars, and lectures.

The Marymount Center is located on the third floor of University Hall, 3002, and may be reached at (310) 338-4570.

**Food Services**

Sodexho, the restaurant service of the LMU community, provides a program that strives to meet and exceed the dining needs of its student population. There are several locations on campus that offer flexible hours, in settings that complement and enhance the community experience, including the Lair Marketplace, the University Hall Roski Café, Jamba Juice, the Lion's Den, the Lion's Corner Café, the C-Lion convenience store, and Pete's Arena.

Call (310) 338-2977 for more information, or visit online at http://dining.lmu.edu.

**Information Technology Services**

LMU Information Technology Services (ITS) provides management and services in support of the University’s information technology resources. These resources include the campus network and telecommunications systems, computer labs, computer centers, administrative information systems, and web and instructional technology services. ITS provides these services in an effort to enhance the intellectual life and experience of students and the University community and to provide for efficient technology operations.

The ITS department’s services include the support of the technical infrastructure of campus networks and computer workstations, computer labs, data centers, registration systems, technical training and instructional technology, classroom management, and other academic and administrative systems.

The ITS department has two primary locations on campus as well as several distributed offices and functions throughout the campus. The main administrative offices are located in University Hall, Suite 2110, and in the basement of the Hilton Center for Business. The Student Help Desk is located in the ITS’ Hilton Basement offices. The ITS website is http://its.lmu.edu.

**ITS Help Desk**

ITS provides specialized Help Desk services to provide students, faculty, and staff with technical support.

The Student Help Desk is located in the ITS Office in the basement of the Hilton Center for Business. This service provides computing, network, and communications support for LMU students. This single point of contact is a convenient way for students to request assistance for technical issues, including network accounts, e-mail, telephone, and voicemail. ITS is unable to provide hardware support for student-owned computer equipment and recommends that students contact the original manufacturer or retailer for such support.

The Student Help Desk is open Monday-Friday from 8:00 a.m. to 5:00 p.m., with extended hours until 7:00 p.m. on Wednesdays and may be contacted via telephone at (310) 338-7777 (the on-campus extension is x877777), or via e-mail at studenthelp@lmu.edu.

**Student E-Mail and Network Access**

The campus-wide network is available to all LMU students. Upon enrollment and registration, an LMU student is automatically assigned an e-mail address and a network account. The network allows students to access services like PROWL (the on-line registration system), library databases, the Internet, and other services. There are no fees associated with using the campus network, and all accounts are password protected. Most systems, such as e-mail, are web-based and available from off-campus also.

Questions regarding account activation or use should be directed to the Student Help Desk, via telephone at (310) 338-7777, or via e-mail at studenthelp@lmu.edu.

**Student Telecommunications**

Long distance service from LMU student residence halls and apartments is provided by AT&T's ACUSTM service. Students are assigned a personal security code to access outside lines from their rooms or apartments and receive their own itemized telephone bill each month.

**Computer Labs and Villages**

The University provides technology access to students throughout the campus with its three general-purpose computer labs and 31 area-specific and specialty labs. Students may contact the Student Lab Coordinator at (310) 338-4489 for more information.
**General Purpose Labs**
Maintained by ITS, the general purpose labs have either Windows- or Mac-based workstations, offer extended hours, contain at least 20 workstations, and provide access to a variety of popular software programs. The locations of the general purpose labs include: the lower level of St. Robert's Hall, the lower level of Von der Ahe Library, and the first floor of Seaver Hall.

**Specialty Labs and Computer Villages**
In addition to the general purpose labs, many academic departments provide discipline-specific computer resources and training labs. These labs vary in size and function and often use specialty software for e-learning, research, and training. The computer village areas are located within academic departments in University Hall. In addition to spacious working areas, these villages provide a social dimension to workstation computing where students and faculty can interact and integrate technology into the educational experience.

**Classroom Management Office (CMO)**
ITS Classroom Management supports classroom-based, instructional technology equipment including: classroom computers, projectors, VCRs, audio-visual equipment, and laptops. In addition, support is provided for classroom furniture, consumables, environmental control, and housekeeping needs. The Classroom Management Office (CMO) has a student intern staff that is trained to provide timely and responsive assistance to faculty in support of instructional technology. For more information, contact CMO via telephone at (310) 338-1735 or via e-mail at classroom@lmu.edu.

**Other ITS Services for Students**

**ManeGate Portal**
ManeGate is a “one-stop” web community that provides students, faculty, and staff with access to various campus systems, online groups, e-mail, calendar, registration, forms, news, communications, and more. ManeGate is the online gateway for students to access student services and information. ManeGate is available from on and off campus at http://manegate.lmu.edu.

**Blackboard**
ITS supports the use of Blackboard, an environment for online teaching, learning, and collaboration. Blackboard is utilized by many LMU faculty and is available online through ManeGate at http://manegate.lmu.edu.

**PROWL**
The Personal Records Online Web Link (PROWL) provides faculty and students with secure web-based access to class registration, grades, and other information maintained by the Office of the Registrar. PROWL is accessed through ManeGate at http://manegate.lmu.edu.

**Student Web Pages**
In order to support the academic endeavors of LMU students, the student web server provides web server hosting space to all actively enrolled undergraduate and graduate students. Student web page hosting provides both a publicly accessible web space to publish web pages and a private file storage area for convenient access to student files. Instructions for setting up student web pages are available at http://stu.lmu.edu. Student club and organization websites are supported through the Associated Students of Loyola Marymount University (ASLMU) at http://aslmu.lmu.edu.

**Loyola Marymount University Children’s Center**
Director: Anita E. Velasquez Kinney

The Loyola Marymount University Children’s Center was established to address the child care needs of the University community. The LMUCC is an on-site, employer-sponsored organization dedicated to quality care for children of all those who make up the LMU and greater Westchester communities. Care is made available for children of the faculty, staff, and students, with a limited number of spaces available to alumni, qualified on-campus employees of University service contractors, and neighborhood residents. In keeping with the Jesuit and Marymount traditions, we strive to meet the needs of the community of which we are a part by incorporating diversity into a values-centered curriculum.

The Center’s early childhood professionals are committed to educating the whole child—socially, emotionally, physically, and intellectually—to set the stage for life-long learning. Based on developmentally appropriate practice, the curriculum focuses on play, creativity, and hands-on discovery learning for children 6 weeks to 11 years of age. Our intention is to be a model of quality Early Childhood Education programs for the communities we serve.

The LMUCC is open year-round, providing full- and part-time enrollment for infants through preschoolers. Our School-Age program provides after-school care for K-5th grades and a full-day Summer Camp.

Contact (310) 258-8900 for more information.
Public Safety

Director: Ray Hilyar

The Public Safety Office is located in Daum Hall and is open seven days a week, 24 hours a day. Lost and found is located here.

Public Safety may be contacted by phone at (310) 338-2893. In case of emergency, dial 222 from any on-campus phone.

For more information about Public Safety’s services, go to http://www.lmu.edu/publicsafety.

University Bookstore

Books, sundry items, school spirit clothing, and gifts are available through the University Bookstore. The operating hours during the academic year are: Monday-Thursday, 7:45 a.m.-7:00 p.m.; Friday, 7:45 a.m.-5:00 p.m.; Saturday, 9:00 a.m.-3:00 p.m.; and closed on Sundays.

The main campus store is located on the ground floor of the Malone Student Center. There is also an annex, selling snacks and gift items, located on the first floor of University Hall.

Shop 24 hours a day at http://www.efollett.com.

University Media

@LMU Newsletter

This is an online resource for news about the LMU community available at http://www.lmu.edu/@lmu.

L.A. Miscellany

The University literary magazine is known as L.A. Miscellany. It affords a medium of literary expression for all departments and divisions of the University. It primarily features fiction and verse and is illustrated by student artists.

LMU Annual Report

This annual report highlights activities and accomplishments of the past year.

Vistas

Vistas magazine is the University and alumni magazine for Loyola Marymount University. It is one of the many ways LMU keeps its alumni, faculty, staff, parents, and friends informed about what’s happening on this vibrant campus. The Vistas mission is also to help the LMU community learn more about students, faculty, staff, and alumni; explore contemporary issues in society; find service and networking opportunities; and stay in touch with our Jesuit and Marymount traditions. For more information, contact us at Vistas@lmu.edu.

University Organizations

LionsFund

Focused on providing a well-rounded educational experience, LionsFund supports our student-athletes’ quest for excellence through scholarships and team support. Gifts to the LionsFund assist to provide the resources needed for LMU student-athletes to achieve the highest possible level of success both athletically and academically. Supporting each of LMU’s 17 intercollegiate athletic teams, LionsFund is a vital part of the University’s ability to compete at the NCAA Division I level.

The LionsFund Council is a volunteer council, helping to support LMU Athletics and student-athletes through annual advancement, fundraising, and direct outreach to increase support for the LionsFund. Donor benefits include special events, personal contact, and the opportunity to purchase priority seating for home Lions games. For additional information, please contact the Annual Support Office for Athletic Giving at (310) 338-2908 or by e-mailing golions@lmu.edu.

Loyola Marymount University Parents Association

The LMU Parents Association is an informal organization of all LMU parents. Under the leadership of the Parent Ambassador Council, the Association seeks to broaden the understanding of the educational philosophy and goals of the University, act as a liaison between the administration and parents to ensure the exchange of ideas and mutual concerns, and respond to the needs of the University. For additional information or to become a Parent Ambassador, please contact the Office of Parent Relations at (310) 338-7037.
Alumni Association

The Loyola Marymount Alumni Association is composed of approximately 50,000 former students of Loyola University, Marymount College, and LMU. The Association’s vision is to build and maintain lifelong relationships that add value to alumni and to the University. Through the Association, alumni and students help ensure the continued excellence of LMU and are challenged to live LMU’s mission in their social, spiritual, professional, and intellectual experiences. Programs and events that promote this mission include: Alumni for Others—LMU’s signature alumni service program, President’s Day—when LMU’s president hosts alumni as they return and learn, Alumni Grand Reunion, Alumni BBQ, and regional events in cities across the country. Guiding the Alumni Association’s programs are dedicated volunteers including the Alumni Association Board of Directors, regional event planners and hosts, and student leaders. To access the Association’s calendar of events, benefits, and services, or ways to become involved, visit http://www.lmu.edu/alumni.
Student Affairs
Student Affairs

The Division of Student Affairs is committed to providing those services and experiences which complement and enhance the educational mission and foster the total development of the student. The Office of the Vice President for Student Affairs is the central administrative office for the departments within the Division and is responsible for coordination and supervision within the Division. In addition, the Vice President assures that the student affairs program is supportive of the academic mission and goals of the University.

The Division of Student Affairs holds students as central to the Division’s mission and values, which are consistent with the mission, goals, and objectives of the University. The goals of the Division of Student Affairs are:

- To promote innovative programs and events which develop an enlivened and engaged campus community.
- To instill in students the value of service and the promotion of justice.
- To guide students through a process of reflection, self-discovery, and character development.
- To promote the balanced development of body, mind, and spirit.
- To foster students’ respect for each other in an intercultural community.
- To advance the University’s recruitment and retention efforts.

These goals are implemented through services and programs which are provided by the following areas:

Athletics
Campus Recreation
Career Development Services
Ethnic and Intercultural Services
Judicial Affairs
Office of the Vice President
Student Affairs Deans’ Office
Student Health Services
Student Housing
Student Life
Student Media
Student Psychological Services

Student Programs and Services

Athletics
Loyola Marymount University participates in eight intercollegiate sports for men—basketball, baseball, crew, cross country, golf, soccer, tennis, and water polo—and nine intercollegiate sports for women—basketball, crew, cross country, soccer, softball, swimming, tennis, water polo, and volleyball. LMU is a member of the National Collegiate Athletic Association Division I and competes in the West Coast Conference.

Career Development Services
Career Development Services provides students and alumni with the opportunity to develop and enhance essential transferable skills necessary for major and career exploration. Its purpose is to provide guidance and resources that allow exploration of self, foster critical decision-making skills, encourage service to others, provide experience for the development of lifetime goals, and ease the transition from school to the working world. These skills are developed through the following services:

Career and Graduate School Fairs
Career Counseling
Career Development Strategies Course (LIBA 250/251)
Career Resource Library
Educational Placement Files
Etiquette Dinner
Federal Work Study Jobs and Other Work Awards
Internships
Interest Inventories
Job Search Assistance
Mentoring Program
Mock Interviews
On-Campus Interviewing
Part-Time, Seasonal Jobs, and Tutoring Network
Personality Preference Assessment
Resume Guidance

Medical Insurance
The University requires that all full-time undergraduate students who are not covered by personal medical insurance MUST BE covered by the University’s Sickness Insurance Plan. If the student has adequate private sickness insurance, a waiver must be returned to the Controller’s Office within the specified time. All students taking seven or more units are automatically covered for accident insurance. Forms for filing insurance claims for the University’s Accident and Sickness Insurance Plan...
may be obtained from the Controller’s Office. Claims must be filed within thirty days of disability. Students should be aware of the name of their insurance company and provider numbers. Coverage by the University’s Insurance Plan is not a prerequisite for use of the Student Health Center.

**Student Health Services**

The Student Health Service (SHS) assists students in staying healthy by promoting healthy lifestyles and by providing medical care for common health problems. The staff includes a full-time physician, nurse practitioners, registered nurses, and X-ray technician.

The University may require immunizations and/or TB testing of incoming students. Students will be notified of the requirements by mail. Failure to fulfill the requirements may result in a hold applied to the student’s registration and not being able to register.

Services offered by the Student Health Service include: treatment for minor illnesses and injuries, Pap smears and pelvic exams, dermatological care, pregnancy tests, lab work, X-rays, immunizations, and prescriptions.

The service is free. There are charges for medication, lab work, X-rays, and some medical supplies. You do not need health insurance to use Student Health Services. The Student Health Service does not bill private insurance companies. This is the responsibility of the student. Copies of all charges are available for the SHS.

Occasionally, a student may need to see a specialist. In this case, the student may be referred to a specialist by the SHS or may select her/his own specialist. The student is responsible for transportation and medical costs.

All medical records are covered by the laws of confidentiality of the State of California.

**Student Housing**

LMU Student Housing provides a unique opportunity for participation in community living. Knowing that the physical and social environment affects the intellectual and social development of students, every effort is made to create communities which reflect the University’s educational mission.

A Resident Director (RD) and Resident Advisors (RAs), under the supervision of an Area Coordinator for Residence Life (AC), are responsible for overseeing the living environment and developing programs in each housing facility. The staff is responsible for creating an atmosphere conducive to building community and promoting scholarship. They provide opportunities for students to become acquainted with one another and involved in campus activities. They also encourage students to take full advantage of cultural and intellectual opportunities within the University and in Los Angeles.

LMU is proud of its Resident Chaplain program. Resident Chaplains (RCs) are priests, sisters, and lay ministers who live in the residence halls and apartments with the students. They assist in creating a vibrant Christian community marked by mutual respect and social responsibility. Their primary role is to provide guidance on social, moral, and spiritual issues which students face daily.

**Student Psychological Services**

University life provides opportunities for students’ growth and development as well as challenges to their well-being. Student Psychological Services (SPS), staffed by professional psychologists and counselors, provides confidential personal counseling to facilitate students’ personal, social, intellectual, and emotional development. SPS offers individual, couple, and group counseling plus workshops and educational programs on topics of interest to students. Services are available free of charge to regularly enrolled students.

**Ethnic and Intercultural Services**

Ethnic and Intercultural Services (EIS) assists the University in its commitment to support a diverse student body and enhance greater intercultural understanding. Through its five units—Asian Pacific Student Services, Chicano Latino Student Services, Office of Black Student Services, Academic Persistence Program, and Intercultural Affairs—EIS provides a variety of culturally sensitive services and programs. EIS also serves as a resource for the LMU community on issues of racial and ethnic diversity.

**Academic Persistence Program**

The Academic Persistence Program (APP) is a student-based outreach program that provides peer counseling and academic support for students of color. APP is designed to enhance student achievement through academic, interpersonal, social, and cultural experiences.

APP is committed to helping students of color excel in their first year of college. This commitment is actualized through programs and services that promote growth and development of the “whole person.” Trained APP peer mentors, coordinators, and professional staff collaborate with the LMU community to provide educational, personal, and spiritual support. APP students develop clear academic and career goals, become leaders within LMU and their home communities, gain enhanced self-awareness, and acquire an enriched knowledge of their own culture as well as the cultures of others.
Asian Pacific Student Services

Asian Pacific Student Services (APSS) serves the needs of Asian Pacific American (APA) students. It strives to educate the campus about APA issues and the ethnic diversity represented within its community. APSS programs and services include an annual Cultural Welcome, a monthly Third Tuesday Series, Asian Pacific American Leadership Retreat, speakers, support for student groups, educational conferences, and community projects. APSS works closely with the Asian Pacific American community both on and off campus as well as the greater LMU community.

Chicano Latino Student Services

Chicano Latino Student Services (CLSS) provides culturally sensitive programs that foster and promote the academic and personal success of Latino/a students. In addition, it strives to educate the campus about Latino/a issues and the ethnic diversity represented within the community (i.e., Central and South America, Caribbean, and Mexico).

CLSS programs include Bienvenida Latina—the Latino Fall Welcome, Leadership Roundtable Meetings, Latino Leadership Retreat, Latin America’s Independences Days Celebration—Day of Pride!, Latino Spiritual Retreat, Middle/High School Visit to LMU, Latino Leadership Legacy Week, POWER TRIPS (i.e., museums, community resource centers, entertainment/theatre, restaurants, speakers, etc.), Dia de Reconocimiento (Latino graduation ceremonies), Latino Resource Handbook, and Weekly E-CLSS Newsletter, among others. CLSS also offers student advocacy, personal support, assistance for Latino/a student groups, and transitional/beyond LMU programming. CLSS programs and services also consider gender, class, religion/spirituality, bi-monolingual, generational, sexual orientation, and bi-racial/ethnic identities, among other factors.

Intercultural Affairs

Intercultural Affairs works with students and staff to create a learning environment that encourages greater awareness, understanding, and interaction among diverse groups. Its mission is to empower all members of the campus community as agents of social change committed to a vision of justice.

Intercultural Affairs sponsors/offers programs that include Spring Festival, an intercultural retreat, intercultural leadership training, speakers, educational forums, and intercultural conversations.

Office of Black Student Services

The Office of Black Student Services (OBSS) works to promote a positive campus environment that supports the academic and personal success of African American students. OBSS programs and services include an annual Fall Welcome, Student Retreat, Kente Graduation, Black History Month events, speakers, cultural enrichment programs, community activities, support for student groups, student advocacy, and personal support. OBSS also strives to build close ties with the local African American community.

Campus Recreation

The state-of-the-art Fritz B. Burns Recreation Center houses the Department of Campus Recreation. The department continually strives to meet the recreational needs of the LMU community.

The award-winning Burns Recreation Center is comprised of a 7,000 square foot weight room containing free weights, individual weight machines, treadmills, Lifecycles, StairMasters, and elliptical machines. The Main Gym accommodates two courts of basketball or volleyball, while the upstairs gym is a single court used for recreation or special events. Two multipurpose rooms are located upstairs and provide space for aerobics, kickboxing, yoga, spinning, and more. A new outdoor 50-meter pool is located steps from the men's and women's locker rooms. A games area is available for table tennis, pool, foosball, and video games. A variety of sports equipment, energy bars, and beverages is available for purchase at the conveniently located pro shop.

Intramural Sports provides a wide range of structured sports and activities such as flag football, volleyball, soccer, basketball, and more. The Intramural Sports philosophy is “play for fun,” and everyone is welcome to participate regardless of ability.

Fitness and Wellness Classes are available throughout the year. These programs allow individuals to drop in for an aerobics class, learn self defense in a kickboxing class, or stretch and relax with a yoga session. Nutritional seminars, weight training clinics, and advice from personal trainers are also available.

The Aquatics program provides a variety of opportunities including swimming laps, water aerobics and exercise, and a learn-to-swim program. Whether looking to improve your technique or just to swim some laps, the new 50-meter pool is the place to be.
The Club Sports program offers LMU students the chance to compete against club teams from other universities. Competitive Club Sport opportunities currently exist for Rugby, Men’s Lacrosse, Women’s Lacrosse, Men’s Volleyball, Women’s Volleyball, and Men’s Soccer.

Campus Recreation is the place to come for all of your recreational needs.

The Center for Service and Action

The Center for Service and Action (CSA) seeks to educate and form men and women for others, especially with and for the disadvantaged and the oppressed. Through direct personal contact between students and the marginalized in service-learning experiences, CSA fosters a solidarity with the poor that will lead to intellectual inquiry, moral reflection, and social action.

CSA is directly responsible for the Service and Action House, the Service Organization Program, Special Games, El Espejo, and the Community Relations Task Force.

Each year CSA recognizes the six most outstanding LMU undergraduate students who have excelled in their community service. These students each receive a $1,000 Riordan Community Service Award.

Through the generosity of the Marymount Institute, CSA also recognizes outstanding graduating seniors for their commitment to community service. These students receive the Arete Award.

Office for International Students and Scholars

The Office for International Students and Scholars (OISS) promotes the general interest of international education, mutual understanding, and cultural exchange through the administration of international programs and services designed to promote greater collaboration among the international and domestic communities.

The OISS provides vital immigration assistance to international students and faculty, both at the Westchester Campus and Loyola Law School. OISS provides assistance in matters related to maintaining non-immigrant status under LMU’s international programs and complying with the regulations of the Department of Homeland Security, the U.S. Department of Justice, U.S. Citizenship and Immigration Service (USCIS), and the U.S. Department of State.

Moreover, the OISS acts as a resource for the international concerns of the University community through its contacts with embassies, consulates, and other international and U.S. government agencies.

Student Life

Student Life strives to enrich the learning environment for students seeking growth outside the classroom. The staff works with ASLMU, all co-curricular clubs and organizations, Commuter Students, the Greek Community, and Special Programs such as the Student Managers and Student Workers. Student Life offers assistance with programming and planning of events and special projects, as well as assistance and support in the formation of new organizations. The department also provides advocacy and support to students throughout their academic career.

Associated Students of Loyola Marymount University (ASLMU)

All regularly enrolled full-time undergraduate students are automatically members of the Associated Students of Loyola Marymount University. ASLMU, through the Student Senate, Executive Cabinet, and Judiciary, is the voice of the student body, speaking for students on issues such as allocation of funds for clubs and organizations, academic concerns, personnel matters, and other areas affecting student life. In addition to planning on-campus activities, such as speakers, concerts, movies, and dances, ASLMU also initiates service programs in the community. Services offered by ASLMU are supported by the student fee.

Leadership Program

This leadership program encourages students to work toward mutual goals involving awareness and empowerment of the needs of individuals, groups and society.

Student Organizations

As a student-centered, Catholic university, Loyola Marymount University recognizes the importance of clubs, programs, and services in fostering the educational mission of the University and offers a wide variety of each appealing to the needs of the student body. There are academic and professional clubs. Their primary objective is to further interest in professional development. In addition, LMU registers a number of honorary and social clubs. Membership in the honorary societies is by invitation and is based upon scholastic achievement and requirements of individual societies. Social clubs provide
the student body with a variety of activities designed to complement the academic mission of the University. Some of these activities include philanthropic, cultural, social, and educational programs.

The following is a list of registered student clubs on campus. Note: The views or positions of a registered club does not necessarily reflect the position of Loyola Marymount University.

**Academic**
- Accounting Society
- American Society of Civil Engineers (ASCE)
- American Society of Mechanical Engineers
- Animation Club
- Arnold Air Society
- Business Law Society
- Chemistry Society
- Chicanos for Creative Medicine
- Delta Sigma Pi
- Dental Club
- Entertainment Association
- Finance Club
- Flying Lions
- Future Teachers Association
- Institute of Electrical and Electronic Engineers
- Latino Business Student Association
- LMU TV
- Management Society
- Mathematics Club
- Mock Trial & Pre-Law Society
- National Society of Black Engineers
- Phi Alpha Theta
- Political Science Association
- Psi Chi
- Society of Automotive Engineers
- Society of Hispanic Professional Engineers
- Society of Physics Students
- Society of Women Engineers
- Sociology Society
- Tri Beta (Biology Honor Society)

**Cultural**
- Armenian Student Organization
- Asian & Pacific Student Association
- Black Student Union
- Brothers of Consciousness
- Del Rey Players
- El Espejo
- Han Tao
- Isang Bansa

Women’s Lacrosse
Women’s Soccer Club
Women’s Volleyball

The University programs and services have varying membership requirements and offer an opportunity to become involved in a variety of activities geared to foster a sense of deeper understanding of people of all colors, creeds, and national origins.

The following is a list of University Programs and Services on campus.

Intramural Sports
Special Games
Student Manager Program
Bird Nest
Games Room—McKay
Hannon Loft
Lion’s Den
Malone Student Center
St. Robert’s Auditorium
Student Worker Program

Student Campus Media

The Los Angeles Loyolan

The Los Angeles Loyolan, written and edited by students, is the official weekly newspaper of LMU. The Loyolan provides a forum for discussion of higher education and serves as an information source for the campus community. It affords students an opportunity for gaining practical journalism experience and provides them with a method for improving campus awareness. The Loyolan is a member of the American Collegiate Press Association and the National Collegiate Press Association.

KXLU/KLMU

As one of the only opportunities in the Los Angeles market for students to experience all aspects of radio broadcasting, KXLU provides a supportive learning environment and training ground. The radio station offers an environment conducive to the creative expression of artistic freedom via musical exploration, experimentation, and interpretation. Students can also gain practical experience in all areas of station operations, including broadcasting, programming, technical engineering, production, public affairs, promotions, marketing, and management. Additionally, KXLU fosters an education in music industry knowledge and savvy regarding current musical trends, practices, and standards, as well as providing an opportunity to work with bands, record labels, venues, promoters, booking agents, and other industry professionals.

KXLU’s mission is to give underrepresented artists and musical genres that do not have a voice on the traditional mainstream circuit an alternative and supportive forum in which to showcase their talent. The station offers over 25 different types of musical genres for its listeners, including progressive and independent rock, punk, classical, opera, world, country, hip hop, metal, lounge, jazz, blues, and theater and film, as well as being home to one of the most successful and longest running Latin radio programs in the country, Alma del Barrio.

KLMU-AM operates at a frequency of 840 KHz. The station, exclusively serving the LMU community, operates from 7:00 a.m. until 1:00 a.m.

Interested students, staff, and faculty are encouraged to stop by the radio station for a tour, learn more, and apply for a DJ position.
Use of University Property

No person may use University property in a manner, or for a purpose, or under circumstances forbidden by any applicable public law, ordinance, regulation, or order, or tending to interfere materially with the efficient and orderly conduct of any University business or function.

In line with this directive, any person or persons, whether students or non-students, registered student organization or other student groups, shall be required to obtain a permit from the Office of the Vice President for Student Affairs prior to any proposed march, demonstration, public meeting, etc.

Motor Vehicles

All motor vehicles used on campus must be registered. Registration is established during University registration at the opening of each term. The registered owner is responsible for displaying the University parking decal, affixed at the time of vehicle registration.

Legal Responsibility of the University

The University endeavors to safeguard students in the use of physical facilities, laboratories, athletic fields, and gymnasium, and to this end regulations concerning the use of such facilities have been established, but it is clearly understood that students who use the same do so entirely at their own risk. The University has no legal responsibility for injuries or other damages suffered by students on or off the campus, or in travel to and from school-related activities, or for any expense in connection therewith.
Admission

Loyola Marymount University welcomes applications from students who subscribe to the goals of the University and who are qualified to undertake its programs. The University makes selective and individual decisions, and the academic record is the primary consideration. Writing ability, accomplishments in academic, artistic, athletic, co-curricular, or work- or service-related endeavors; recommendations; national test scores; and relationship to the University are also given significant consideration. Each application is individually evaluated.

Candidates are considered for admission to either the Fall or Spring semester, provided ALL required documents have been received before the priority dates. The Fall priority date for freshmen applicants is January 15; transfer applications are due June 1; the Spring priority date for all applicants is December 1. Full consideration cannot be assured to applicants failing to meet these priority dates. A personal interview is not required, but individual Admission counseling appointments are encouraged. Personal appointments and campus tours can be arranged through the Office of Admission. Please call (310) 338-2750. The fax number is (310) 338-2797.

High School Subjects Recommended for Admission

The following high school course of study is recommended for admission into the University.

- English ......................... 4 years
- Foreign Language ............ 3 years
- Mathematics ................... 3 years
- Laboratory Science .......... 2 years
- Social Sciences ............... 3 years
- Academic Electives .......... 1 year

Business students must complete a unit in each of the following: elementary algebra, geometry, and intermediate algebra/trigonometry. Engineering, computer science, mathematics, and science majors should complete four units of mathematics and one unit each of biology, chemistry, and physics.

Admission Procedure

The following procedures apply to all candidates. Transfer and international applicants should be sure to note specific additional requirements as stated below. Candidates seeking admission to Loyola Marymount University should:

1. File an application and submit a $50 non-refundable application fee or an appropriate fee waiver. Forms are available from the University's Admission Office.
2. Request official transcripts to be sent from the last high school attended and from each college attended. Students currently enrolled in college should submit work in progress. Advanced Placement students must submit official AP test score results in order to receive college credit.
3. Arrange for SAT I or ACT scores to be sent to the Director of Admission. Information about SAT I may be obtained from the College Board: P.O. Box 6200, Princeton, NJ 08541-6200. Information about ACT may be obtained from the American College Testing Program: ACT Records, P.O. Box 451, Iowa City, IA 52243.
4. Before school begins, entering freshmen are required to submit an official final high school transcript certifying the completion of secondary requirements and showing the high school graduation date. Transfer students are required to submit official transcripts for any courses completed since the application for admission was filed. Students failing to submit required transcripts will be prevented from registering for subsequent semesters until this requirement is satisfied.

Notification of Acceptance

Candidates will be evaluated for admission as soon as all of the required steps in the admission procedure have been completed. Notification of the candidate's eligibility for admission will be sent on a rolling basis. A final transcript is required as verification that all work in progress has been completed with a GPA equal to or greater than the student's overall grade point average at the time of acceptance. In the event that the final semester of work does not meet required criteria, acceptance may be rescinded.

Honors at Entrance

Honors at Entrance is awarded to first-time freshmen who show academic excellence as determined by their secondary school record, national test scores, letters of recommendation, and personal involvement in responsible positions of leadership. Special application is
not required; all admitted applicants are considered. Students are notified in their acceptance letter. A certificate is sent to the student, and public acknowledgment is made at the student’s high school graduation exercises.

**Academic Scholars**

Each year the Scholarship Committee carefully selects from among the Honors at Entrance candidates a small number of first-time freshmen whose achievement deserves additional recognition. These candidates are designated Academic Scholars and are awarded significant scholarships that are renewable and are not necessarily based upon financial need. Selection is based on outstanding GPA and SAT I/ACT scores, leadership potential, and school or community involvement. Academic Scholars are invited to apply to the University’s Honors Program. In addition, those students awarded Academic Scholarships will be invited to participate in the Presidential Preview Weekend which offers a special opportunity to see the campus and to interview for the Presidential and Trustee Scholarships. (See the Financial Aid section for more information on these scholarships.)

**Commitment Deposit**

Accepted students intending to enroll are required to submit a $250 commitment deposit to secure their seat in the class.

The commitment deposit is held by the University and is non-refundable. The commitment may be applied at the discretion of the University against any delinquent and unpaid debts. This deposit is payable from the student’s own resources. It will neither be deducted from any financial aid awards nor billed as part of tuition and fees.

If the commitment deposit is not received within the stated time, the acceptance for admission may be canceled. Refund of the $250 commitment deposit will not be made to those who fail to register and attend classes.

**Housing**

First-time freshmen entering in the Fall term are guaranteed University housing provided their commitment deposit and housing request are received postmarked no later than May 1 for Fall admission.

Fall term transfer students and any student entering in the Spring term are not guaranteed housing. Instead, they are offered accommodations on a space-available basis. Their housing requests will be processed on a first-come, first-served basis as they make their commitment deposits and return all requested Housing information.

**Admission of Transfer Students**

Each semester the University considers students for transfer, provided they are in good standing and not under academic or disciplinary probation or suspension from the last school attended. Please see the paragraph on Admission Procedure for general admission requirements above. The priority date for transfer applications is June 1 for Fall semester and December 1 for Spring semester. Transfer students are considered for admission as follows:

Students who would have been acceptable for admission as freshmen to Loyola Marymount University at the time of their graduation from high school will be considered for transfer standing if they have at least a 3.00 cumulative average for all previous college work and at least a 3.00 average for the most recent college work attempted prior to admission.

Students who, for academic reasons, were not acceptable for admission as freshmen at the time of their graduation from high school will be considered for transfer standing if they have completed at least the equivalent of 30 semester hours of transferable college work with at least a 3.00 cumulative average and at least a 3.00 average for the most recent college work attempted prior to admission.

Admission of transfer students is selective and subject to available space and enrollment limitations. The minimum transfer GPA of 3.00 may not always be sufficient to secure admission. Likewise, certain majors require that some prerequisites be completed prior to transferring (see Business Administration, Transfer Credit).

Credit for work completed at institutions accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities, other than course work identified by such institutions as remedial or in other ways as being nontransferable, will be accepted toward the satisfaction of baccalaureate degree and credential requirements at the University within limitations of residence requirements. Courses with grades below C (2.0) do not transfer. A maximum of 60 semester hours from two-year colleges are transferable to the degree program of the University.

Policies regarding transfer credit for a particular degree may vary slightly among the individual colleges, depending upon degree requirements. In general, courses having comparable content and class level with those in the LMU curriculum will transfer.
Admission of International Students

International students should follow the same admission procedures and priority dates outlined above. International students are admitted as degree-seeking students only.

Further, international students are cautioned to comply with the following additional guidelines to ensure compliance with immigration authorities and avoid delay in the processing of the applications:

1. Take the Test of English as a Foreign Language (TOEFL) given by the Educational Testing Service and arrange for scores to be sent to the Director of Admission. Information about this test may be obtained by writing to: Test of English as a Foreign Language, P.O. Box 6151, Princeton, NJ 08541-6151. The University’s minimum standard for undergraduate admission is 550, or 213 for the computer-based exam.

2. Submit a statement of financial responsibility for all obligations covering the full period of time for which the student is making application.

3. Submit official transcripts of previous academic training. Documents must be sent from the originating sources directly to the Admission Office and must cover all secondary schools attended and, if college study was attempted, all colleges and universities attended. Documents should include results of standard examinations administered by government or certifying agencies.

4. Transcripts from non-U.S. institutions must be submitted to an LMU-approved credential evaluation agency for translation into English and/or for evaluation of U.S. equivalent course work and corresponding grade.

   It is the responsibility of the student to submit all foreign transcripts to an evaluating agency. Information on such agencies may be obtained by calling the Office of Admission.

   Foreign transcripts submitted without the appropriate evaluations will not be considered eligible for transfer credit to LMU.

5. International Students attending a high school, college, or university in the United States must submit a Transfer Verification Form that will be sent to them by the Office of Admission.

6. The United States Department of Justice Immigration and Naturalization Form (I-20) will be sent after the $250 non-refundable Commitment Deposit has been received by the Office of Admission.

   Photostatic copies are acceptable only if they are notarized as true copies and bear the original seal of the notarizing authority. All documents submitted for admission become property of the University and will not be returned.

Medical Examination and Insurance

All students entering the University for the first time or re-entering the University after an absence of one year are required to return a completed Student Health Immunization Form to the Student Health Service. Immunizations must be current and documented. Students with incomplete forms will have their registration withheld for the following semester until immunization information is provided.

The Student Health Service does not fill out private insurance forms. However, copies of charges will be given to the students upon written request.

The University requires that all full-time undergraduate students who are not covered by personal medical insurance MUST BE covered by the University’s Sickness Insurance Plan. If the student has adequate private sickness insurance, a waiver must be returned to the Controller’s Office within the specified time. All students taking seven or more units are automatically covered for accident insurance. Information about filing insurance claims for the University’s Accident and Sickness Insurance Plan may be obtained in the Student Health Service Office. Claims must be filed within thirty days of disability. Students should be aware of the name of their insurance company and provider numbers. Coverage by the University’s Insurance Plan is not a prerequisite for the use of the Health Center.

Medical Examination for Intercollegiate Student-Athletes

New and returning students planning to participate in intercollegiate sports are required to submit a completed LMU Athletics Department Medical Clearance Form,
signed by their private physician, to the Assistant to the Athletics Director prior to their participation in conditioning, practice, and/or competition.

**Non-Degree Students**

Students wishing to take courses at the University on a non-degree basis must file an application with the Office of Admission in accordance with regularly stated deadlines. Proof of eligibility to study at the University will be required, including transcripts or other appropriate documents.

Non-degree students will be allowed to study for a period of no more than three semesters or a total of 18 semester hours, whichever occurs first.

**Accelerated Degree Options**

**Young Scholars**

The University offers enrollment to outstanding high school students looking for an academic challenge and the opportunity to earn college credits. By attending classes at LMU, Young Scholars will attain first-hand experience of college life as well as gain semester hours that will apply toward an eventual university degree. Young Scholars attend courses with current LMU students and are taught by LMU faculty. Integrating Young Scholars into these courses will enrich the academic experience for all enrolled. For these on-campus courses, high school students must have completed the 11th or 12th grade and carry at least a cumulative B+ (3.3) average. Students receive university level degree credit for all courses passed. Most courses are worth three semester hours of credit. Enrollment at LMU through this program does not constitute admission to LMU. Young Scholars are classified as "non-degree" students and are held to University academic policies and standards of conduct. Campus housing is not available. Students are responsible for tuition and fees associated with their enrollment and for adhering to deadlines as published in the academic calendar. Young Scholars are limited to two courses per semester or for summer, two courses per session. For more information, log in to http://registrar.lmu.edu, and follow the "Young Scholars" link.

**Advanced Placement**

LMU participates in the Advanced Placement Program of the College Board. Students may be granted credit at the time of entrance into the University for subjects in which they have completed the AP examinations with scores of 5 or 4. When official scores have been received from the College Board, applicants will be notified of the advanced placement and course credit in accordance with the following table. Note that an essay is required for all examinations offering optional essays.

Financial Aid

The Financial Aid Office assists those students who require financial aid to attend Loyola Marymount University. Financial Aid is awarded in the form of grants, endowed scholarships, work, and loans. To be eligible for federal and state programs, students must be U.S. citizens or eligible non-citizens enrolled in an LMU degree or credential program. LMU-funded financial aid requires full-time (12-18 semester hours) enrollment in an LMU degree or credential program. Federal and state financial aid is available for students enrolled part-time. Qualified students must not be in default or owe a refund to any federal program to receive any type of financial aid.

Federal and state funded financial aid is available for qualified study abroad programs. To qualify, the program must be approved to receive federal funds, and students must receive approval from their Dean's Office to transfer the units to their LMU academic record. LMU-funded financial aid, including endowed and donated scholarships awarded through the Financial Aid Office, can only be used towards study abroad programs approved for transfer credit and grades.

Counseling and information are available to students, prospective students, and parents on a walk-in or appointment basis. Information and application forms are available in the Financial Aid Office.

FINANCIAL AID OFFICE
Xavier Hall
1 LMU Drive, MS 8330
Los Angeles, California 90045-2659
(310) 338-2753 - Fax (310) 338-2793
E-mail: finaid@lmu.edu
http://www.lmu.edu/financialaid

Office Hours
Monday through Friday
8:00 a.m.-5:00 p.m.

Rights and Responsibilities

Financial Aid and Enrollment: All financial aid programs assume the student will enroll full-time in coursework at LMU and will maintain satisfactory academic progress. Student aid applicants who will enroll in fewer than 12 semester hours should notify the Financial Aid Office. Undergraduates are eligible for aid from federal funds if they are enrolled in at least 6 semester hours. Students who will enroll in fewer than 6 semester hours are not eligible for most types of financial aid.

Those students receiving financial aid who drop all coursework during a semester or summer term are required to notify the Financial Aid Office and officially withdraw or take a leave of absence through the Office of the Registrar.

Refund Calculations: When students receiving financial aid are eligible for a refund or a cancellation of LMU charges, their financial aid funding will also be adjusted. The financial aid officer will calculate the adjustment and notify the Controller's Office/Student Accounts. Any resulting refund, due to a federal financial aid program, will be made by LMU for the student. Any resulting charge will be added to the student's account. Specific information is available from the Financial Aid Office.

Satisfactory Progress Standards and Financial Aid Probation: Financial Aid probation is more rigorous than academic probation, which is described later in the section on "Academic Policies."

Undergraduate Students receiving financial aid must:

Complete the required number of units as outlined below.

Minimum Units that Must Be Completed If:

<table>
<thead>
<tr>
<th>Term</th>
<th>Full-Time</th>
<th>3/4 Time</th>
<th>1/2 Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>

<td>12</td>
<td>9</td>
<td>6</td>
</tr>
<tr>
<td>Summer Sessions (Combined)</td>
<td>6</td>
<td>4</td>
<td>3</td>
</tr>
</tbody>
</table>

For financial aid purposes, the grades of F, NC, AU, and W will not be counted toward meeting the minimum term hours requirement. Grades of A, B, C, D, and CR will be counted. Grades of I or NR temporarily will not be counted until the final grade is posted. Hours for repeat coursework do not count towards the minimum semester hours required for satisfactory progress.

NOTE: All LMU-funded sources of financial aid as well as California state grants are available for a maximum of eight semesters if all other eligibility requirements are met. Please refer to the Academic Degree Requirements and Policies section of this Bulletin for information on the recommended course load required to complete degree requirements in eight semesters (4 years).

All undergraduate students must also maintain a semester and cumulative grade point average of 2.0.
If a student repeats a course, the course is counted only once, both in the computation of total hours completed and in the cumulative GPA. In this case, the most recent grade received is the one used to determine the student’s status. In determining the cumulative grade point average, only courses completed at Loyola Marymount will be considered.

Students failing to meet the above conditions (completion of minimum term hours and minimum term and cumulative grade point average) are placed on Financial Aid Probation and given two terms from the beginning of the subsequent semester to rectify the deficiency. Students failing to do so are not eligible to receive financial aid.

Appeals Procedure: The University has established an appeals procedure to insure equitable treatment of all financial aid applicants and recipients. Appeals forms are available in the Financial Aid Office.

Any fraudulent use of financial aid funds is cause for immediate suspension or dismissal, as well as discontinuance of future financial aid. This includes, but is not limited to, fraudulent statements on Financial Aid forms, inaccurate tax returns, and Student Time Cards for both hours worked and signatures obtained.

Applying for Financial Assistance

Consideration for financial aid begins when the student is admitted to the University. Thus, a student applying for financial aid should also apply for admission and financial aid at the same time.

To apply for financial assistance, it is necessary to file the following forms and information:

New freshmen, transfer students, and continuing LMU students applying for financial aid for the first time:

By March 2:

1. A Free Application for Federal Student Aid (FAFSA) must be filed by all students. The FAFSA form is available from high schools or from financial aid offices around the country, or you can apply online at http://www.fafsa.ed.gov.

2. The CSS PROFILE, which requires a fee, must be filed by all new applicants, which includes students new to LMU and continuing LMU students applying for financial aid for the first time. The CSS PROFILE registration form is available from high schools or from financial aid offices around the country, or you can apply online at http://www.collegeboard.org/profile.

3. CALIFORNIA RESIDENTS ONLY: To apply for a new Cal Grant A or B (see Grants), students must complete the GPA Verification form.

By April 1:

4. All new applicants must submit signed copies of student and parents’ federal tax forms, all schedules and W-2s to the Financial Aid Office.

Continuing Applicants:

By March 2:

1. A Renewal Free Application for Federal Student Aid (FAFSA) must be filed by all continuing LMU students. The Renewal FAFSA is available in January online at http://www.fafsa.ed.gov for those students who completed a FAFSA in the prior year using their federal PIN. Other students will have their renewal FAFSA mailed to them in January.

2. The Undergraduate Financial Aid Application must be filed by all continuing applicants and is available to download at http://www.lmu.edu/financialaid.

By April 16:

3. Students who are selected for Verification by the Federal Processor when they complete their FAFSA must submit signed copies of their and their parents’ federal tax forms, all schedules, and W-2s to the Financial Aid Office by April 16. If the student or parent is not required to file a 2004 tax return, they must submit an LMU Student Non-Filer form or a Parent Non-Filer form. These forms are available to download from the Financial Aid Office website.
Programs of Assistance

Academic Scholars

Each year the Scholarship Committee recommends to the President of the University a number of students whose achievements merit exceptional recognition. Recommendations are based upon the potential for academic accomplishment and leadership which is demonstrated in outstanding academic records, GPA and SAT/ACT scores, and in demonstrated leadership in school or community. Academic Scholars receive grants worth $5,000, renewable with a 3.0 cumulative GPA for a total of 8 semesters. These awards are made possible by annual contributions as well as by eight endowment funds:

- Bernard and Catherine Bannan Presidential Scholarship Fund
- Loretta Clougherty Dodd ’61 Memorial Presidential Scholarship Fund
- Cyril and Edith Nigg Presidential Scholarship Fund
- Rains Presidential Scholarship Fund
- Seaver Institute Presidential Scholarship Fund
- Joseph M. Sexton Presidential Scholarship Fund
- John A. Teske Presidential Scholarship Fund
- Yerkes/Exxon Presidential Scholarship Fund

Trustee and Presidential Scholars

From among the Academic Scholars, the President will select a very limited number of entering freshmen each year for LMU’s top academic scholarship, the Trustee Scholarship, and an additional number to receive the Presidential Scholarship. In addition to the academic and leadership criteria used to select the Academic Scholars, Trustee and Presidential candidates will interview with the Scholarship Committee at LMU. Trustee Scholars receive grants equal to full tuition, room, and board, renewable with a 3.0 cumulative GPA for four years. Presidential Scholars receive $17,000 per year, renewable with a 3.0 cumulative GPA for four years.

Thomas P. O’Malley, S.J., Jesuit High School Scholarships

The University will select one graduate from each Jesuit high school each year for special recognition, based upon superior academic achievement, demonstration of community leadership, and commitment to the ideals of Jesuit education. Scholarship winners will receive renewable grants of $17,000 per year for eight semesters, provided the student maintains a 3.2 grade point average.

Marymount High School Scholarships

The University will select one graduate from each Marymount secondary school each year for special recognition, based upon superior academic achievement, demonstration of community leadership, and commitment to the ideals of Marymount education. Scholarship winners will receive renewable grants of $17,000 per year for eight semesters, provided the student maintains a 3.2 grade point average.

Jesuit Community Scholarships

The Jesuit Community at LMU supports a scholarship fund designed to assist students from Jesuit high schools or other Catholic high schools. Criteria for selection include scholarship, leadership, and Christian service. Scholarship winners receive grants worth $5,000, renewable with a 3.0 cumulative GPA for a total of 8 semesters.

Leadership Scholars

The Scholarship Committee recommends to the Academic Vice President each year an additional number of students characterized by notable contributions to their school or community. While these recommendations presume an excellent academic record, special consideration is given to students who demonstrate exceptional promise as campus or community leaders. The Committee also gives special consideration to students from economically-disadvantaged circumstances. Recommendations are based upon excellent academic records, active involvement in school and community, and demonstrated potential for leadership on campus and in the community. Leadership scholars receive grants worth $11,500, renewable with a 3.0 cumulative GPA for a total of 8 semesters.

Los Angeles County Scholarships

Instituted in 2001, the Los Angeles County Scholarship is awarded to selected entering freshmen from Los Angeles County who demonstrate distinguished academic achievement and determination to excel in the face of educational and economic disadvantage. Awards range to full tuition and may be combined with federal and state grants.

California Scholastic Federation

Loyola Marymount sponsors four scholarships for CSF Sealbearers. To apply, students must send a copy of their CSF Certificate to the Financial Aid Office by March 1.
Grants

University Grants

Loyola Marymount University funds and administers grants of its own. They include academic scholarships and Loyola Marymount University (LMU) grants. LMU grant eligibility is based on financial need and limited to eight semesters. Transfer students are evaluated individually to determine the number of semesters for which they can receive LMU grants.

The Pell Grant program is a federal aid program designed to provide financial assistance to eligible students for postsecondary studies. The amount of the Pell Grant is determined based on the financial resources of the student and parents. Grants range from $200 to $4,050.

The Supplemental Educational Opportunity Grant program is designed to assist those students who would not otherwise be financially able to pursue an undergraduate course of study. The amount of the grant is determined by reviewing the student’s financial resources and also the resources of the parents. The amount of the award varies based on the student’s Pell Grant and, like other grants, does not have to be repaid.

Cal Grant A is a method by which many students finance their education at the University. This grant is awarded to residents of the State of California and may be used at many approved institutions within the State of California. Normally, the grant is awarded to freshmen students; however, many transfer students and upperclassmen who apply also receive this grant. The grant is normally renewable each year once it has been obtained. Information concerning this grant may be obtained from either the high school counselor’s office or the Financial Aid Office.

Cal Grant B, which is funded through the State of California, is another way students may finance their education at Loyola Marymount University. This program in many cases allows for payment of tuition, books and supplies, and other educational expenses.

Student Employment

The Student Employment Service provides employment assistance to the students of Loyola Marymount University including part-time jobs ranging from 10 to 20 hours a week, part-time/full-time seasonal work during the Christmas and summer vacations, temporary jobs on an hourly basis, and tutoring positions within the student’s major field of study. These services are for all students regardless of their financial need. They are primarily off-campus positions.

The Federal Work Study program is another source of employment for students who qualify based on financial need. This program is funded jointly by the Federal Government and the University. It is designed to create jobs for students at the University, such as library researchers, teaching assistants, laboratory technicians, intramural referees, team managers, etc. Under the Work Study Program, most students will be awarded funds to average 12-15 hours per week during the term. Students are hired for part-time positions for the entire academic year, and they may earn up to the amount listed on their current financial aid award letter.

The Student Worker program is another employment program designed to give resident students an opportunity to earn an education by working on campus. The Student Worker Organization is an autonomous group that is primarily student-directed and -operated. Jobs include maintenance, recycling, and clerical and miscellaneous tasks for departments on campus. To apply, students should contact the Student Worker office at (310) 338-5013.

Loans

Many types of financing options are open to students and parents.

The following loans require the student to apply for financial aid (see the Applying for Financial Aid section) to determine eligibility:

Perkins Loan is a low-interest loan available to students who qualify for the Federal Pell Grant. Students may borrow a sum normally not to exceed $4,000 per year. After students leave school, they have a 9-month grace period before interest begins to accrue. The loan must be repaid on a quarterly basis at a rate of usually not less than $120 per quarter. If a student defaults and the school is unable to collect, the Federal Government may take action to recover the loan. Under certain conditions there are loan deferment and/or cancellation provisions for borrowers. The Office of Financial Aid provides information about such provisions.

The Stafford Student Loan is a low-interest federal loan made by a bank, credit union, or savings and loan. First-year students can borrow $2,625; second-year $3,500; and third-, fourth-, and fifth-year students can borrow up to $5,500. Students who qualify will not be charged interest on their loans while they are enrolled at least 1/2 time (6 semester hours) in an eligible program. Students who do not qualify to have their interest paid by the federal program may still borrow an unsubsidized Stafford loan. They will pay the interest on their loan during the periods of enrollment.
Scholarships that require a separate application will be advertised either on the Financial Aid website or by a direct mailing to eligible students throughout the school year.

The following scholarships require a separate application:

**AFROTC College Scholarship Program**
Four-year scholarships are available to highly qualified high school senior students interested in becoming Air Force officers. Scholarships are awarded based on needs of the Air Force, not necessarily the financial need of the applicant.

The Air Force ROTC also offers three-year scholarship opportunities to college freshmen. Two-year scholarships are available to all college students with two years of academic work remaining, either undergraduate or graduate. One-year scholarships are available to students majoring in career fields in which the Air Force has a shortage, such as engineering. Scholarships pay all or a portion of tuition, books, fees, and a stipend of $250-400 per month.

**Coca-Cola First Generation Scholarship**
This scholarship is awarded every other year (even-numbered years) to incoming freshmen who demonstrate involvement and leadership in community and campus activities. High school seniors need to apply through their high school and the official Coke brochure.

**Communication and Fine Arts Scholarship Fund**
Selection is based on talent and experience.

**Richard A. Hollow, Jr., Memorial Scholarship**
Named in memory of a former LMU student, this scholarship will be awarded to students who demonstrate merit and need and who are involved in church and community activities. This scholarship is awarded annually on the anniversary of Richard’s passing.

**Lewis A. Kingsley Foundation Scholarship**
Applicants must be employed. Available only to continuing students with minimum cumulative GPA of 2.0.

**Mexican American Alumni Association Scholarship**
Scholarship assistance for current students of Hispanic descent, up to $2,000 each. Apply to Chicano/Latino Student Services.

**Ralph M. Parsons Memorial Scholarship**
Applicants must be related to an employee of the Ralph M. Parsons Company.

The following are scholarship funds designated for needy and deserving students and are administered by the Financial Aid Office:

- Carl W. Ackerman Family Scholarship
- Ahmanson Scholarship
- James E. Bahan Fund
- Louis Beaumont Foundation Fund
- Grover L. Bossert Memorial Scholarship
- Patricia C. Brinsenhan Scholarship
- Martin J. Burke Family Scholarship
- Louis J. Canepa Fund
- Cecilia Walsh Cantlay Memorial Fund
- Sr. Mary David Collins
- James S. Copley Foundation/ICSC Scholarship
- Mr. and Mrs. William J. Daze, Sr., Scholarship Fund
- Edison International Scholarship
- John Eugene and Sydney Jeanne Farnan Scholarship Fund
- Virgil L. Gentry Scholarship Fund
- Thomas Grojean Scholarship Fund
- Mrs. William Randolph Hearst, Sr., Memorial Scholarship Fund
- Donald J. Heintzelman and Margaret R. Heintzelman Memorial Fund
- Richard M. Hennessy Scholarship
- ICSC Scholars Program
- Mary Elizabeth Adelaide Jenkins Scholarship Fund
- Mrs. Luther Johnson Fund
- Peter Kogler, M.D., Memorial Fund
- Ouriz Kouyoumjian Memorial Scholarship
- Frank Lovett Fund
- Louis E. Manseau Memorial Scholarship Fund
- Helen L. McCormick Scholarship Fund
- Daniel Murphy Fund
- Nordstrom
- Alice Paden Memorial Scholarship
- Gerard Parent Fund
- Edwin & Margaret M. Park Scholarship Fund
- Walter and Janet Prockter Memorial Scholarship Fund
- Mary Quilter Scholarship Fund
- John and Dorothy Shea Foundation Scholarships
- Strople Family Scholarship Fund
- The Gertrude H. Stuart Scholarship Fund
- Tiger International Scholarship Fund
- UPS Foundation Scholarship
- Washington Mutual
The following scholarships are designated for students in Accounting or Business:

- Accounting Alumni Scholarship
- Argyros/ICSC Scholarship
- Arthur Andersen & Co. Accounting Scholarship
- Arthur Andersen & Co. Scholarship Fund
- Business Affiliates Scholarship Fund
- Deloitte & Touche Scholarship
- Ernst & Young Scholarship
- William J. McIntosh, S.J., Scholarship Fund
- KPMG Peat Marwick Scholarship
- Moss Adams, LLP Scholarship
- Pfizer Business Scholarship
- PricewaterhouseCoopers Scholarship
- Xerox Scholarship Fund
- Arthur Young & Co. Scholarship

The following scholarships are administered by the Financial Aid Office according to the stated donor requirements:

- Alpha Delta Gamma Scholarship Fund
  Provides financial assistance to sons or daughters, brothers or sisters of Alpha Delta Gamma alumni from the Lambda Chapter.

- Alpha Sigma Nu Scholarship
  Awarded to outstanding students with financial need.

- Robert and Lois Atherton Scholarship
  For students majoring in engineering or business.

- Georgianna “Charlie” Atol Memorial Fund
  Award based on financial need for student who is enrolled as an undergraduate in the English department.

- ANA Scriptwriting Award
  Students are selected based upon a demonstrated television writing ability and an interest and skill for writing for family.

- Avery Dennison Scholarship
  Provides financial assistance to needy students with first preference to children of Avery Dennison employees.

- Avery Dennison Careers in Education Scholarship
  Provides financial assistance to a senior who is planning a career in teaching in the public school system. Preferences for minority students.

- Mary Adams Balmat Scholarship Fund
  Provides scholarships for financially needy undergraduate students with exceptional academic promise.

- Bank of America/ICSC Scholars Program
  Provides scholarship assistance to students entering junior year.

- Bannan/Western Gear Engineering Scholarship Fund
  Financial assistance awarded to engineering majors.

- Virginia Barnelle Scholarship Fund
  Established in honor of Miss Virginia Barnelle for theatre arts majors.

- Dr. Halbert Blair Memorial Scholarship
  Provides financial assistance to a music/voice major in memory of Dr. Blair.

- Albert R. Broccoli Scholarship Fund
  Provides assistance to needy and deserving students studying film.

- Russ Buckley Memorial Athletic Scholarship Fund
  Provides scholarships to fifth-year student athletes or undergraduate student athletes who have completed NCAA Division I eligibility or undergraduate student athletes who have been injured and can no longer compete at the NCAA Division I level.

- Sr. Martin Byrne Memorial Scholarship
  Award to be given to an undergraduate finance student for senior year tuition support.

- Edgar D. Cahn Memorial Scholarship Fund
  Provides scholarships for needy and talented students enrolled in the University Honors Program.

- Mother M. Gertrude Cain, R.S.H.M., Scholarship
  Established by Dorothy and Thomas E. Leavey for student aid to be awarded to members or prospective members of the Congregation of the Religious of the Sacred Heart of Mary as a first priority.

- Cantwell High School Scholarship
  Provides scholarship assistance to students entering junior year.

- Arthur Young & Co. Scholarship
  Provides financial assistance to needy and worthy female students.

The following scholarships are administered by the Financial Aid Office according to the stated donor requirements:

- Alpha Delta Gamma Scholarship Fund
  Provides financial assistance to sons or daughters, brothers or sisters of Alpha Delta Gamma alumni from the Lambda Chapter.

- Alpha Sigma Nu Scholarship
  Awarded to outstanding students with financial need.

- Robert and Lois Atherton Scholarship
  For students majoring in engineering or business.

- Georgianna “Charlie” Atol Memorial Fund
  Award based on financial need for student who is enrolled as an undergraduate in the English department.

- ANA Scriptwriting Award
  Students are selected based upon a demonstrated television writing ability and an interest and skill for writing for family.

- Avery Dennison Scholarship
  Provides financial assistance to needy students with first preference to children of Avery Dennison employees.

- Avery Dennison Careers in Education Scholarship
  Provides financial assistance to a senior who is planning a career in teaching in the public school system. Preferences for minority students.

- Mary Adams Balmat Scholarship Fund
  Provides scholarships for financially needy undergraduate students with exceptional academic promise.

- Bank of America/ICSC Scholars Program
  Provides scholarship assistance to students entering junior year.
Catholic Press Council Scholarship Fund
Awarded to senior or graduate student in the College of Communication and Fine Arts and based on creative promise and demonstrated productivity. Preference given to students who without this assistance could not complete their creative project.

CFA Council Scholarship
This scholarship is selected by the Communication and Fine Arts Council headed by the Dean of CFA. Each participating CFA department selects candidates.

Fr. Maurice G. Chase Scholarship Fund
An endowed fund established by Mr. and Mrs. Michael McCarthy in honor of their long-time friend and University administrator. Income from this fund is used to provide financial aid to deserving students from poor families who would not otherwise be able to attend the University.

Rev. Peter Ciklic Memorial Scholarship Fund
To be awarded to deserving undergraduate or graduate students majoring in psychology.

Class of 1952 Alumni Scholarship Fund
Established by Loyola University class of 1952 for deserving children of alumni.

Class of 1972 Alumni Scholarship Fund
Available to sons and daughters of alumni based on academic achievement and financial need.

Warren and Elizabeth Conrad Scholarship for the Blind
Provides financial assistance to students who have been declared blind or legally blind.

John Charles Cosgrove Scholarship
Provides financial assistance for students enrolled in the College of Communication and Fine Arts, in honor of John F. Cosgrove's father, John Charles Cosgrove.

Rev. Jerome L. Cummings Scholarship Fund
Provides financial assistance for needy entering freshman student with a 3.0 high school GPA from the South Coast area and majoring in business, engineering, or science.

Daguerre Fund
Recipients are preferably from Orange County.

Frank and Mary L. Daley Memorial Scholarship
Awarded to students enrolled in a pre-law, pre-medical, or graduate program at Loyola Law School.

Myles P. Dempsey Scholarship
Provides scholarships for needy out-of-state students from low or middle income families.

Mary S. DeMartini Memorial Scholarship
Preference given to science or pre-med students engaged in studies which might lead to improved understanding or care of human eyes, ears, and throats.

James M. and Dorothy E. Deveny Scholarship
Awarded to a deserving mathematics major.

George A.V. Dunning Music Scholarship Fund
Established by George A.V. Dunning to provide financial assistance for piano, voice, and stringed instrument majors.

Eschardie Scholarship Fund
Scholarships are awarded each year to graduates of Loyola High School.

Paul Feit Memorial Scholarship
Awards are given to deserving entering freshmen who are graduates of Mater Dei High School and who demonstrate financial need.

William F. Fitzgertald Scholarship Fund
Provides financial assistance for needy minority students preferably enrolled in the Bellarmine College of Liberal Arts.

J. Simon and J. Robert Fluor Memorial Scholarship
Awarded to a senior student needing financial assistance to complete college.

Charles Robert Forgnone Memorial Scholarship
Provides assistance for studio arts majors with financial need, in memory of Mr. and Mrs. Robert Forgnone's son, Charles.

Franciscan Scholarship Fund
Scholarship assistance for Franciscan Fathers of the Western Province.

Andrea Kingaard Friedman Award
This scholarship is awarded to new freshmen and transfer students majoring in art and art history.

Andrea Kingaard Friedman Scholarship
Provides a scholarship to an outstanding art student, in honor of Sr. Genevieve Underwood, R.S.H.M.

Eudice L. Friedman Memorial Scholarship Fund
Established by University Regent Dan Friedman in honor of his late wife to aid women preparing for a career in medicine.

Garvin Annual Scholarship
For students majoring in business or the liberal arts.

George W. Goman Scholarship Fund
Provides scholarship assistance for needy students who have been residents of Los Angeles County for at least five years prior to application for admission to LMU.

Getty Music Scholarship
Provides assistance to incoming freshmen who are majoring in music and who show promise in the field of music.
Dr. Peter J. Haen Scholarship
Awarded to undergraduate biology majors doing research in the field of biology.

Andrew L. Hannon Electrical Engineering Scholarship Fund
Provides financial assistance for junior or senior students majoring in electrical engineering demonstrating promise for successful completion of studies.

Eugenie B. Hannon Scholarships
Awarded to freshmen with financial need, academic promise, potential leadership, and school or community involvement.

Eugenie B. Hannon Engineering Scholarship
Provides financial assistance to sophomore, junior, or senior students who are majoring in engineering.

William H. Hannon Science and Engineering Scholarship
Awarded to freshmen entering the Frank R. Seaver College of Science and Engineering.

William H. Hannon Science and Engineering Scholarship for Upperclassmen
Provides assistance to upperclassmen from the Frank R. Seaver College of Science and Engineering who are U.S. citizens and have been residents of California for at least two years.

Julian Hatcher Scholarship Fund
Provides financial assistance to seniors majoring in electrical engineering.

Brenda Renee Horn Memorial Scholarship
Preference given to females majoring in business or pre-law.

Truman Hutton Fund
Scholarships for music majors, with an emphasis on string players.

Amparo Iturbi Music Fund
Scholarship fund established by Jose Iturbi in memory of his sister, Amparo Iturbi, for music majors, particularly those specializing in piano.

Harry Johansing, Sr., Memorial Fund
A scholarship in memory of Harry Johansing, Sr., donated by Mr. Joseph L. Flaig.

Howard A. and Shirley V. Jones Scholarship Fund
Provides financial assistance to female juniors or seniors enrolled in the College of Business Administration.

Rev. Alfred J. Kilp, S.J., Alumni Scholarship Fund
Provides financial assistance for sons and daughters of alumni with evidence of personal character and involvement in school and church activities.

Nelly and John B. Kilroy
This scholarship provides financial assistance to graduating seniors.

John and Maria Laffin Scholarship
Scholarships awarded to full-time students in the Asian and Pacific Studies Program.

Thomas E. Larkin, Jr., Scholarship
For students committed to leadership and service and who also demonstrates financial need.

Latino Scholars Program
Provides financial assistance to bilingual and bicultural students who plan a career in business.

Laurel and Hardy Scholarship Fund
Provides assistance for talented students in the College of Communication and Fine Arts with financial need.

Michael Leahy Scholarship in the Humanities
Awarded to an LMU junior or senior enrolled in a humanities class but majoring in a field other than humanities.

Magda E. Lempart Memorial Scholarship
This scholarship provides financial assistance to students studying the Romance languages.

Liberal Arts Scholarship Fund
Income from this fund provides financial aid to students majoring in the liberal arts.

The Lipsky Family Scholarship in Memory of Irving and Edith Lipsky
For students majoring in the sciences.

Harold Lloyd Memorial Fund
Partial scholarships for undergraduate and graduate students majoring in motion picture film production.

Rev. James N. Loughran, S.J., Scholarship Fund
Awarded to undergraduate, graduate, and Law School students. Recipients are selected by the President of the University.

Loyola Marymount Guild Fund
Established by contributions from the Loyola Marymount Guild.

Loyolan L.A. Catholic High School Scholarship
For students who graduated from a Catholic high school in the Los Angeles Area.

Loyolan Out-of-State Catholic High School Scholarship
For students who graduated from a Catholic high school in a state other than California.
LMU Communication and Fine Arts Scholarship
For students majoring in the College of Communication and Fine Arts.

LMU Math Scholarship Fund
Awarded to a sophomore math major based on a competitive exam.

Macerich Scholarship (through ICSC)
For students who live in the area of shopping malls owned by the Macerich Company, e.g., Lawndale and Cerritos.

Michael Mantong/Delta Sigma Pi
Provides scholarship assistance to a member of Delta Sigma Pi Fraternity.

Rita A. Maurer Scholarship
Provides scholarship assistance to a most deserving student with preference to a student from a Catholic high school.

George Henry Mayr Scholarship
Awarded to needy and deserving freshman and sophomore California residents.

Andrew M. McIntyre and Family Scholarship Fund
Income from this fund to provide financial assistance to students in the College of Communication and Fine Arts.

Sr. Raymunde McKay, R.S.H.M., Scholarship Fund
Provides financial assistance for sons and daughters of alumni who show financial need.

William F. McLaughlin Memorial Scholarship
Awarded to junior(s) majoring in biology, in recognition of their accomplishments, career aspirations, and extracurricular activities.

Jess E. Metcalf Business Scholarship Fund
Awarded to a woman enrolled in the College of Business Administration.

Messina Scholarship Program
To be awarded to graduates of Jesuit preparatory schools throughout the world. The student must be from a family that needs financial assistance in order to send the student to LMU.

Foundation of the Milken Families Scholarship
Awarded to minority students majoring in business or economics.

George F. Montgomery Scholarship
Provides financial assistance to undergraduates majoring in English.

Willa Young Morehart Scholarship Fund
Provides scholarships for American-born Caucasian students majoring in engineering.

National Arts Association Scholarship
Awarded to students majoring in the fine arts, graphic arts, or the performing arts.

Norris Foundation Education Scholarship
This scholarship assists students enrolled in the School of Education who have financial need.

Northrop Grumman Engineering Scholarship
Awarded to an engineering or computer science major who is a U.S. citizen and exhibits interest in the aerospace/defense industry.

Kenneth Olsen Scholarship Fund
Provides scholarships for business majors who maintain a 3.25 GPA. Preference given to Black or Hispanic students.

Jordan and Stella Olivar Scholarship Fund
To be awarded to a needy and deserving student athlete, in loving memory of Loyola’s head football coach from 1949-1951, Jordan Olivar.

Richard O’Laughlin Memorial Scholarship Fund
Provides assistance to worthy and needy students, with preference to those in pre-medical or pre-dental courses. Awards may also be given to business administration majors or other students at LMU’s discretion.

Ralph M. Parsons Foundation Scholarship
This scholarship is awarded to a junior whose major is mathematics, science, or technology and is intended to help retention and should be renewed in the student’s senior year. In addition, the student is given further funding for an internship or research stipend to use on a project of his or her choice.

Ralph M. Parsons Memorial Independent Colleges Scholarships
Financial assistance for children of employees of The Parsons Corporation. If there are no applicants, the scholarship will be designated for either a business or engineering major.

Ralph M. Parsons Scholars Program
Financial aid for junior or senior who is majoring in a degree leading to a teaching or counseling career at the elementary or secondary school level.

Tom Reilly Communication Studies Memorial Scholarship
Awarded to students in communications.

Rev. Victor H. Rossetti Fund
Partial scholarships given annually to students in the Frank R. Seaver College of Science and Engineering.
Nanette Salamunovich Goodman Scholarship
The recipient of this grant must be a member of the University Choruses and have a good scholastic record. Selection will be based on talent and dedication to choral singing and not on financial need.

Clarence K. Santo Memorial Scholarship
Awarded to needy and deserving incoming freshmen.

Louise G. Sauvage Memorial Scholarship Fund
For females majoring in journalism, pre-medicine, or any of the liberal arts.

Sister Agnes Marie Schon, C.S.J., Scholarship
Provides financial assistance to a deserving Hispanic female student in honor of Sr. Agnes Marie’s dedicated service to Loyola Marymount University.

Elsbeth Schulz-Bischof Memorial Scholarship Fund
Provides annual award for either a student study/travel summer fellowship in western Europe or a fellowship for study for a worthy student in modern languages.

Anthony Francis and Bessie Joanna Sidlow Memorial Scholarship Fund
Provides financial assistance for female students majoring in business administration or engineering. Priority given to students of Czechoslovakian descent, followed by students of European heritage.

Peter Stankovich Memorial Scholarship
Priority given to needy and gifted students of Croatian or Slavic descent.

John Stauffer Memorial Fund
Preference given to students taking courses in the physical sciences, particularly chemistry.

Robert H. Taylor, S.J., Scholarship
Awarded on the basis of merit to students majoring in philosophy.

Howard Towner Memorial Scholarship
Provides scholarship assistance to students in biology.

Fred H. Trickett Memorial Scholarship Fund
Preference given to needy fatherless or orphan students.

Union Bank/ICSC Scholarship
Scholarship assistance for needy California residents.

David William Upham, Jr., Memorial Scholarship Fund
Awarded to student majoring in film.

Giovanni Vai Fund
Partial scholarship for students of Italian descent of Southern California.

Jack A. Vanier Fund
Contributed by Kieran F. Vanier ’37 for aid to a student majoring in music.

Marjory K. Vanier Memorial Scholarship Fund
A perpetual award for female students enrolled in either the Bellarmine College of Liberal Arts or the College of Communication and Fine Arts.

Manny Varela Scholarship Fund
Provides scholarship assistance for a graduate of Cantwell High School.

Linda Von der Ahe Scholarship Fund
Provides financial assistance primarily to graduates of Catholic high schools on the basis of service, academic achievement, and leadership potential.

Western Italian Golf Association Scholarship Fund
Provides financial assistance to a student of Italian heritage.

James Wong Scholarship Fund
Provides financial assistance to film and/or television students.

Michael J. Wright Fund
To be awarded to undergraduate mathematics majors.

Franco Zeffirelli Communication Arts Scholarship Fund
Income from this fund is awarded to students in the College of Communication and Fine Arts.

Robert W. Zinn Memorial Scholarship Fund
Provides financial assistance to MBA students with an emphasis in marketing.

Archbishop Zwijsen Scholarship
An annual scholarship established by the Brothers of Our Lady, Mother of Mercy, for deserving and needy students, with preference to those in a pre-health program.
Tuition and Fees

The tuition charge supports the instructional program and general services of the University, such as ordinary health services, various counseling services, lectures, intercollegiate athletic events, and the library.

Regular Tuition

Undergraduate Full-Time Students
(programs of 12 through 18 semester hours):
  per academic year .................. $27,162
  per semester ........................ $13,581

Special Tuition

Part-Time Undergraduate Students
(Unit Rate for 11 semester hours or less and overload hours in excess of 18):
  Undergraduate Students
    per semester hour .................. $1,131
  Auditors, per semester hour ...... $282.75
  High School Young Scholars,
    per semester hour ................ $1,131

Residence Hall Fees

Housing Deposit ...................... $400 mandatory
  This deposit is applied to the room charge but is forfeited by those who fail to register.

Desmond, Doheny, Rosecrans, Whelan Halls
  double room, per academic year ...... $6,259

Huesman and Sullivan Halls
  per academic year .................. $6,259

McKay Hall
  double rooms with adjoining baths,
    per academic year ................ $6,702

McCarthy and Rains Halls
  double rooms with adjoining baths,
    per academic year ................ $7,110

Leavey Center ....................... $6,702

Loyola Hall
  per academic year .................. $6,660

Housing cost applies to the academic year only. Additional costs are added for special living accommodations and single or private accommodations. Students who live on campus during recess periods will be charged a daily rate as indicated in their lease agreement. Summer Session Housing fees are additional.

Apartment Fees

The University has beds in completely furnished apartment-style residence halls on campus. Each apartment accommodates four students in two bedrooms with adjoining bath and a living room with a pullman-style kitchen.

Hannon and Tenderich Apartments
  per academic year .................. $7,962

O'Malley/Leavey IV, V, and VI Apartments
  per academic year .................. $8,477

Loyola Houses 8000 and 8001 ................. $7,638

Apartments are open during recess and semester breaks.

Board Programs

The various plans are referred to as Lion Dollar Plans. All students living in non-apartment residences are required to purchase a plan. Special dietary food may be obtained by arrangement. Four plans are offered by Sodexho Marriott Food Services. Both the Malone Center and University Hall dining facilities feature restaurant-style food selections on a declining balance, à la carte basis. Lion Dollar Plans are not refundable.

Plan L, per academic year ................ $3,800
Plan I, per academic year ................ $2,900
Plan O, per academic year ................ $2,450
Plan N, per academic year ................ $2,000

Commuter students and apartment residents may purchase any of the plans listed above or may open a Plan S account with a minimum value of $100 or multiples thereof.

(These rates are subject to change.)
Other Fees

Accident Insurance
(mandatory for 7 or more units) .................. $142

Admission Application Fee ....................... $50 mandatory

Commitment Deposit ............................. $250 mandatory
The commitment deposit is a one-time non-refundable fee required by all entering and transfer students admitted.

Orientation Fee
(mandatory for entering freshmen and transfers):
Fall entry ........................................ $200
Spring entry ....................................... $100

Registration Fee, per semester (mandatory):
assessed each term to all students .......... $50

Sickness Insurance
(mandatory for 7 or more units, unless proof of coverage provided) ......................... $550

Student Activity Fee
(mandatory for full-time undergraduates):
per academic year (full-time) ............... $136
per semester hour (part-time) ............... $5

Student Recreation Facility Fee
(mandatory for all full-time undergraduate students, voluntary for all part-time and graduate students):
per academic year ............................... $120
per semester .................................... $60
guests of students ............................. $5 per visit

Media Fee
(mandatory for full-time undergraduates)....... $50

Miscellaneous Fees—Generally all miscellaneous fees are non-refundable unless stated otherwise and due when charged to your Student Account.

Collection Cost .................................... $75 minimum
to a maximum of 40% of the outstanding balance

Credit Card/Debit Conveniences Fee
($3 per $100 transaction) ...................... $50

Deferred Payment Fee
Standard Payment Plan Fee ......................... $90
(12) & (10) Auto-Check Payment Plan Fee .. $45
Semester and Company Reimbursement ...... $90

Directed Teaching Fee, per semester hour:
Elementary ........................................ $25
Secondary ......................................... $25

Duplicate billing fee (duplicate statements and/or expense letters) ............................... $7

Equipment Insurance Fee ........................ $5

Late Financial Clearance Fee ..................... $75

Late Payment Fee (monthly) ....................... $75

Replacement Charge for OneCards ............ $15

Returned Check Charge ........................... $25

Rush Transcript .................................... $10

Teacher Placement Fee ......................... $30

Certain courses may also require mandatory laboratory fees. Check with departments.

Any unpaid fines or charges (such as parking, library, delinquent telephone charges, property damage) or any miscellaneous charges incurred by a student while in attendance at the University will be charged to the student's account. Certain fees deemed optional are required to obtain that good or service.

The tuition, fees, and other charges described above are good faith projections for the academic year. They are, however, subject to change from one academic term to the next as deemed necessary by the University in order to meet its financial commitments and to fulfill its role and mission.

There are other fees and charges unique to certain programs that are dependent upon a student's matriculation at the University. These fees or charges may be determined by contacting the University offices that administer those programs or activities in which the student intends to enroll or engage.
Estimate of Charges

Since each student may elect various services with associated charges, it is not possible to determine precisely all student charges before registration. However, the following schedule estimates the charges for one academic year for a typical freshman undergraduate resident exclusive of entertainment, transportation, sickness insurance, or other personal costs:

<table>
<thead>
<tr>
<th>Estimated Residence Hall</th>
<th>Apartment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition (12-18 semester hrs.) $27,162</td>
<td>$27,162</td>
</tr>
<tr>
<td>Mandatory Fees</td>
<td>748</td>
</tr>
<tr>
<td>Room</td>
<td>6,259</td>
</tr>
<tr>
<td>Meals</td>
<td>2,900*</td>
</tr>
<tr>
<td>Books, Supplies</td>
<td>1,000***</td>
</tr>
<tr>
<td><strong>Total Estimate $38,069</strong>*</td>
<td>$37,416***</td>
</tr>
</tbody>
</table>

* Assumes Lion Dollar Plan I.
** Assumes Lion Dollars S Plan only.
*** Financial Aid Budget may vary due to individual circumstances.

Payment of Student Charges

Tuition, fees, and board charges are payable by the semester. Financial clearance is necessary prior to registration and subject to Late Financial Clearance/Deferment Fee after the deadline. Clearance may be obtained from the Controller’s Office Student Accounts Department at the time of payment or by making arrangements for the payment plan described below.

Registration for classes may be canceled for any student whose payment check for tuition or fees is returned unpaid from the bank or who has defaulted on payment arrangements.

Financial clearance cannot be granted, and pre-registration will not be permitted, if a student’s account is delinquent.

Failure to pay tuition and other outstanding debts will result in the withholding of the academic transcript. The student diploma will not be released until all debts are satisfied in full. Students are prohibited from future registrations due to delinquent accounts.

Sickness Insurance

The annual Sickness Insurance fee of $550 (estimated) is mandatory for students who are U.S. citizens taking 7 or more units. Domestic students may waive coverage by submitting the appropriate form to the Controller’s Office by September 1, 2005. Students entering for the first time or returning to the University during the Spring 2006 semester and taking 7 or more units will be charged a prorated amount for the Spring semester unless a waiver form is submitted to the Controller’s Office by February 1, 2006.

International (Visa) students, regardless of the number of units in which they are enrolled, must purchase the Mandatory International Student Sickness Insurance. The International Sickness Insurance may not be waived, and the cost is $550 (estimated) for single coverage. Higher premiums may be charged depending upon marital status and number of dependents.

(Monthly Payment Plan

Parents who prefer to meet educational expenses out of monthly income rather than in a single payment at the beginning of each semester may apply for the University’s annual 10-month or 12-month payment plan. The 10-month payment plan requires the first two months’ payments to start the plan. The plan requires a $90.00 fee for enrollment; however, interest is 0% on the outstanding balances. The 10- or 12-month Debit Checking Plan requires a $45.00 enrollment fee and is a 0% interest plan. The 12-month plan is for Automatic Checking Deduction only. A monthly late fee is assessed on students who fail to make their payment by the end of each month. Students may take advantage of the Automatic ACH Debit Checking feature that allows a one-time authorization followed by regular monthly charges and deductions. Debit cards are accepted.

Certificate of Eligibility for Veterans

All expenses incurred by a veteran that have not been properly authorized by the Veterans Administration must be paid by the veteran. Therefore, it is the responsibility of every veteran to see that papers are in proper order at the time of the first and each subsequent registration. Also, all veterans who are receiving benefits for educational expenses are required to contact the Financial Aid Office.

The University is required by the Veterans Administration to report failure on the part of the student to complete 75% of the semester hours attempted in any given term. Benefits to a veteran who fails to complete 75% of the semester hours originally enrolled in may be suspended. Failures, withdrawals, and NCs are not recognized as making satisfactory progress.
Refunds/Cancellation

Refunds for tuition and/or housing are made only after a complete withdrawal or leave of absence from the University (dropping all courses) has been processed by the Office of the Registrar and, in the case of a resident student, also by the Housing Office. For resident students, if the official withdrawal dates from the Office of the Registrar and the Housing Office are different, the respective dates will be used for tuition or housing refunding purposes. See the accompanying table for the allowable refund percentage.

Meal plans are non-refundable. A student should complete the Withdrawal/Leave of Absence form in the Office of the Registrar and, if a resident student, the withdrawal form in the Housing Office.

The University strives to meet the expectations of its students and tries to act compassionately in a time of crisis that interrupts a student's semester studies so that she/he cannot or should not finish the semester. In an attempt to ease the cost of tuition, the refund policy is in place to allow for a sliding refund for those who withdraw from all courses in a given semester according to the following schedule. This policy applies to, but is not limited to, the following leave or withdrawal reasons: hospitalization, illness, moving out of the area, employment changes/relocation, and family-related emergencies.

No refund may be given for registered courses which a student did not attend and did not withdraw from within the full refund period. No refund or cancellation is granted to a student who withdraws from a portion of his/her program after the end of the 100% Drop/Add period. Consult the following refund schedule for the academic category corresponding to your enrollment and type of program.

The University's Federal Aid refund policy complies with the Higher Education Amendments Act.

Refund Payments

Refund credits are applied to the student's account. Refunds of credit balances will be made in accordance with Federal guidelines. Refunding of credit balances is subject to a holding period until verification that funds received have cleared the University's bank. Refund payments are issued in the name of the student unless written authorization from the student is received to the contrary.

Security Interest in Student Records

A student may not receive a diploma, certificate, or transcript until all accounts, current or otherwise, have been settled in accordance with University and Agency requirements. Students with delinquent accounts will be prohibited from future registration until all balances are resolved to the University's satisfaction. Such documents and services will be retained by Loyola Marymount University as security for such obligations until they are satisfied.

If a student defaults on payment of a Federal Perkins Student Loan, a Federal Family Educational Loan, or an Institutional Loan, or if a student fails to satisfy exit interview requirements, a security interest in records and services will remain in effect until debts and requirements are satisfied. Unpaid accounts are reported to the three major credit reporting agencies. Exit interviews are administered through the Student Loan Office and the Financial Aid Office.
University Core Curriculum

Goals and Objectives of the Core Curriculum

Consistent with the goals of the University and with the desire to provide undergraduate students with an education founded strongly in human values, Loyola Marymount University has adopted the following goals and objectives.

Goals:

• To provide a strong undergraduate humanistic education within the traditions of the Society of Jesus and the Religious of the Sacred Heart of Mary.

• To foster the desire for knowledge and to provide the skills necessary for a lifetime of intellectual growth in a global society.

• To prepare students to play active roles in addressing the problems and challenges they will face in attempting to create a just world.

Objectives:

• To develop an understanding of religious experience and beliefs, with particular attention to theological questions as addressed by Catholic Christianity.

• To develop a habit of philosophical reflection.

• To develop an understanding and appreciation of the history of humankind in the arts, literature, and philosophy.

• To develop a knowledge of the structures, values, and practices of contemporary societies.

• To develop the arts of precise and elegant expression in speaking and writing.

• To develop the skills of critical thinking.

• To develop quantitative skills and an understanding of the history and principles of mathematics and science and technology.

• To cultivate and engage the creative imagination.

• To explore ways to live more fully and to act more responsibly within a culturally diverse world.

The following core curriculum encourages intellectual breadth. No matter the student’s major, all students should be acquainted with the nature of discourse and practice in the major areas of knowledge that will prepare students for life after Loyola Marymount University.

Students should consult the College or School sections of this Bulletin for core curriculum requirements specific to each College or School.

Core Curriculum Requirements

American Cultures
College Writing
Communication or Critical Thinking
Critical and Creative Arts
History
Literature
Mathematics, Science and Technology
Philosophy
Social Sciences
Theological Studies

American Cultures

American Cultures courses will examine and compare the American experience of at least three of the following groups: African American, American Indian, Asian American, Chicana/o-Latino/a, and European American. The objective of these courses is to explore the contributions of these groups to human knowledge and development. Classes will also explore the varieties of cultural expression, behavior, and interaction.

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS.

A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.
College Writing

Proficiency in Writing

All entering first-year students will demonstrate writing proficiency by completing an essay administered in all English 110 sections during the first week of classes. Based on performance in this essay, students will remain in ENGL 110 or be placed in ENGL 100 (English as a Second Language) and ENGL 101 (Required Writing Lab—ESL). Some students will be recommended to enroll in English 111 (College Writing Lab).

College Writing Courses

The required course in college writing teaches students how to produce clear and logical, thoughtful and persuasive expository prose suitable to a variety of academic disciplines. To do this effectively, students must learn to be critical readers and thinkers. A critical analysis of both reading and writing enables students to create more meaningful and effective prose. ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- (1.7) or lower must retake ENGL 110 at LMU and receive a grade of C (2.0) or higher.

English 100: English as a Second Language

Students enroll in English 100 based on their performance in an essay administered in all ENGL 110 sections during the first week of classes. This course is designed to give students essential skills in writing and reading English. Students must earn a grade of C (2.0) or better in order to pass this course.

English 110: College Writing

The art of clear and effective college writing. This course will teach students how to generate clear and persuasive expository prose suitable to a variety of academic disciplines. Students must earn a grade of C (2.0) or better in order to fulfill the college writing requirement. Students who receive a C- (1.7) or lower in ENGL 110 must enroll in ENGL 110 the next semester.

Communication or Critical Thinking

Communication

The communication offerings develop students' abilities to analyze issues and problems more logically. Students will prepare arguments, presentations, and speeches. They will also learn to listen more critically and speak more effectively in a variety of settings.

Critical Thinking

The course in critical thinking helps students to improve their reasoning skills through a study of logic and its application to several types of argumentation, both oral and written. The students are taught both the technical skills of argument evaluation and the other skills needed to construct sound arguments and debates.

Critical and Creative Arts

Critical Arts

Critical Arts courses are those courses in the history and theory of the arts which analyze artistic works in their social contexts as well as the aesthetic expectations and conventions which inform them.

Creative Arts

The objective of courses in the Creative Arts is to develop individual expression through exploration, analysis, and creation of artistic works.

History

This category of courses analyzes the major concepts, ideologies, and movements that have dominated the course of civilization in order to develop in students the historical perspective necessary to better understand the global society in which they live.

Literature

Prerequisite: Successful completion of college writing requirement.

Core literature courses enhance students' understanding and appreciation of literary works. A study of fiction, poetry, or drama familiarizes the students with both the strategies available to the fiction writer, poet, or playwright in creating the literary work and the variety of critical approaches for analyzing and evaluating literature.
Mathematics, Science and Technology

Proficiency in Mathematics

All students must demonstrate proficiency in mathematics. The mathematics course(s) required for a student to demonstrate mathematics proficiency teaches the student the quantitative and analytic skills needed to function as an informed citizen in an increasingly technological world.

Any student with a grade of 4 or 5 on at least one of the Calculus A/B, Calculus B/C, or the Statistics Advanced Placement Examinations has already demonstrated proficiency in mathematics.

Students in the College of Communication and Fine Arts and students in the Bellarmine College of Liberal Arts who are NOT required to take a mathematics course as part of their major requirements normally demonstrate proficiency in mathematics by receiving credit in Quantitative Skills for the Modern World (MATH 102). The Mathematics Placement Examination is not necessary for enrollment in this course.

Students in the College of Business Administration, the Frank R. Seaver College of Science and Engineering, and the Bellarmine College of Liberal Arts majoring in economics or liberal studies demonstrate mathematics proficiency by receiving credit in the mathematics courses required by their particular majors. These students must take the Mathematics Placement Examination to determine placement in appropriate classes. If the results of this placement examination indicate, students are required to enroll in and pass Algebra (MATH 101) before they qualify to enter the mathematics course required by their major. In all cases, mathematics proficiency is met only after receiving credit in the mathematics coursework required by the major.

Psychology majors demonstrate mathematics proficiency by passing Elementary Statistics (MATH 104) with a grade of C (2.0) or better. These students do not take the Mathematics Placement Examination but enroll directly into Elementary Statistics (MATH 104).

Special Circumstances

• Students desiring to take MATH 106, 111, 112, 120, 122, or 131 in order to fulfill the mathematics proficiency requirement should see their advisor for appropriate action. The Mathematics Placement Examination is required before taking any of these courses.

• Transfer students should see the Dean of their College or School for specific information.

All students should see their individual College or School section in the Bulletin and their major requirements described in the Bulletin for further specific information.

Mathematics, Science and Technology Courses

Prerequisite: Credit in MATH 101, 102, 104, or placement into MATH 106 or higher.

These courses introduce the student to the methodology and mathematics used in a field of mathematics, science, or engineering as well as provide a more in-depth study in a specific area. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Philosophy

The lower division core course is designed to introduce students to the nature of philosophy as a discipline and to address selected central metaphysical and epistemological issues surrounding the question of human nature.

Upper division courses examine questions that a person asks in order to form an intelligent philosophy of moral choice, with particular attention to those moral concepts that have been most important in shaping Christian culture. The approach may emphasize either the major moral theories or selected contemporary moral problems.

Social Sciences

These courses will introduce students to systematic, empirically grounded investigations of individuals and the structures, values, and practices of contemporary societies. Students develop conceptual and analytical skills necessary to understand the economic, political, psychological, cultural, and/or social conditions that influence our lives.
Theological Studies

A general objective of Theological Studies courses is for students to face the issues of religious beliefs and their consequences in their lives.

The objectives of the lower division core courses are to examine the nature of religion, the nature of Christian faith, and the methods for understanding scripture.

The objectives of the upper division core courses are to deepen the students’ knowledge of at least one of the three areas covered in the lower division course under one of the following categories: biblical theology, historical theology, systematic theology, moral and practical theology, and world religions.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad office.
Loyola Marymount University offers courses leading to the following undergraduate degrees:

**B.S. in Acc. . . .Accounting**

**B.A. . . . . . . . . .African American Studies**

**B.A. . . . . . . . . .Animation**

**B.S. . . . . . . . . .Applied Mathematics**

**B.A. . . . . . . . . .Art History**

**B.A. . . . . . . . . .Asian and Pacific Studies**

**B.S. . . . . . . . . .Athletic Training**

**B.S. . . . . . . . . .Biochemistry**

**B.A. or B.S. . . .Biology**

**B.B.A. . . . . . .Business Administration**
- Business Law
- Computer Information Systems and Operations Management
- Finance
- International Business
- Management
- Marketing
- Travel and Tourism

**B.S. . . . . . . . . .Chemistry**

**B.A. . . . . . . . . .Chicana/o Studies**

| B.A.  | Women's Studies |

**Minor Programs**

Loyola Marymount University offers courses leading to the following undergraduate minor programs:

- Accounting
- African American Studies
- Animation
- Archaeology
- Art History
- Asian Pacific American Studies
- Asian and Pacific Studies
- Bilingual Education
- Biochemistry
- Biology
- Business Administration
- Chemistry
- Chicana/o Studies
- Classical Civilization
- Classics
- Communication Studies
- Computer Science  
  - Algorithms  
  - Multimedia
- Dance
- Economics
- Education
- Electrical Engineering
- Elementary Education
- English
- Ethics

- Physics
- Political Science
- Psychology
- Screenwriting
- Secondary Education
Sociology
Spanish
Special Education
Studio Arts
Theatre Arts
Theology
Travel and Tourism Management
Women's Studies

**Graduate Degrees**

Loyola Marymount University offers courses leading to the following graduate degrees:

- M.A. . . . . . . . .Administration
- M.A. . . . . . . . .Bilingual/Bicultural Education
- M.A. . . . . . . . .Bioethics
- M.A. . . . . . . . .Catholic School Administration
- M.A. . . . . . . . .Child and Adolescent Literacy
- M.A. . . . . . . . .Counseling
- M.A. . . . . . . . .Counseling Psychology
  - Counseling in Chemical Dependency
  - General Counseling (doctoral preparation)
  - Marriage and Family Therapy
- M.A. . . . . . . . .Educational Psychology
- M.A. . . . . . . . .Elementary Education
  - Literacy and Language Arts
- M.A. . . . . . . . .English
  - Creative Writing
  - Literature
  - Rhetoric
- M.A. . . . . . . . .General Education
- M.A. . . . . . . . .Marital and Family Therapy
  (Clinical Art Therapy)
- M.A. . . . . . . . .Pastoral Theology
- M.A. . . . . . . . .Philosophy
- M.A. . . . . . . . .Secondary Education
- M.A. . . . . . . . .Special Education
- M.A. . . . . . . . .Teaching English as a Second Language/Multicultural Education
- M.A. . . . . . . . .Theology
- M.A.T. . . . . . . .Mathematics
- M.B.A. . . . . . . .Business Administration
- M.B.A./J.D. . . .M.B.A./Law (dual program degree)
- M.F.A. . . . . . . .Film Production
- M.F.A. . . . . . . .Screenwriting
- M.F.A. . . . . . . .Television Production
- M.S. . . . . . . . .Computer Science
- M.S. . . . . . . . .Engineering and Productivity Management
- M.S. . . . . . . . .Environmental Science
- M.S. . . . . . . . .Systems Engineering
- M.S. in E. . . . .Civil Engineering
- M.S. in E. . . . .Electrical Engineering
- M.S. in E. . . . .Mechanical Engineering

**Credential Programs**

Under the jurisdiction of the State of California and the approval of the Commission on Teacher Credentialing, Loyola Marymount’s School of Education offers courses leading to several state-granted credentials. Programs that may be completed concurrently with an undergraduate degree program are:

- Bilingual Education (BCLAD Spanish—Multiple and Single Subject)
- Elementary Education (Multiple Subject)
- Secondary Education (Single Subject)
- Special Education (Mild/Moderate Disabilities)

Credential and certificate programs are also offered at the graduate level. Please see the Graduate Bulletin for further details.
Certificate Programs

Loyola Marymount University offers courses leading to the following certificate programs:

Business Administration (Graduate)
- International M.B.A.

Education (Graduate)
- Bilingual, Crosscultural, Language, and Academic Development (BCLAD)
- Catholic School Administration
- Crosscultural, Language, and Academic Development (CLAD)
- Reading

Engineering and Productivity Management (Graduate)
- Total Quality Engineering

Mechanical Engineering (Graduate)
- Finite Element Methods
- Manufacturing
- Materials Engineering
- Mechanical Design
- Structural Dynamics
- Systems Engineering
- Thermal Engineering

Additional certificate programs are available through the LMU Extension.

Law Degree

Loyola Law School offers courses leading to the degree of Juris Doctor. The Graduate Division and the Law School offer a dual program in Juris Doctor and Master of Business Administration.
Academic Degree Requirements and Policies

All regulations and rules or procedures contained in this official Bulletin apply to undergraduate programs. Questions in individual cases should be presented through written petition to the appropriate dean.

Students are held individually responsible for information contained in these pages. Failure to read and understand these regulations will not excuse a student from their observance.

Academic Calendar

The University offers two fifteen-week semesters plus a week of final examinations for each semester and two six-week summer sessions that include final examinations.

Degree Requirements

All candidates for the baccalaureate degree at LMU must fulfill the following requirements:

1. All candidates in the undergraduate colleges must complete a minimum of 120 semester hours, including core and program requirements and 45 semester hours of upper-division course work. Certain programs require more than 120 semester hours. These are noted under the appropriate department listings.

2. All work done at LMU must have a cumulative grade point average of C (2.0). All courses taken in the major, minor, or area of concentration must have a cumulative grade point average of C (2.0).

3. At least 30 of the last 36 semester hours for the bachelor’s degree must be taken in residence at LMU. At least two-thirds of the upper division semester hours of the major must be taken in residence at LMU unless, for programmatic purposes, the dean and the director of the major deem an exception appropriate.

4. A student is held responsible for academic regulations in effect at the time of entrance or for those in effect in the senior year provided the student maintains continuous enrollment. Similarly, a student who declares or changes a major after being admitted to the University is held responsible for the academic regulations in effect at the time the major is declared or changed. A student who interrupts LMU enrollment is subject to the academic regulations in effect in the University Bulletin at the time enrollment is resumed.

5. Degrees are awarded at the end of the Spring term, August 31, and December 31. The date of the degree posted on a student's diploma is the one by which all graduation requirements are completed or documents are submitted. These include:
   A. A submission of transcripts from other institutions prior to the degree date;
   B. The completion of all incomplete work prior to the degree date;
   C. File application for degree by the deadline date for the term in which all of the above conditions will be met. If a student has been canceled for graduation in a given term, it is the responsibility of the student to again file for graduation for a later term.

Second Baccalaureate Degree

A student who possesses an earned bachelor’s degree from an institution accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities may earn a second undergraduate degree with a different major field of study by meeting all of the following requirements:

1. Completion of at least 30 semester hours at LMU beyond those required for the first degree; these must include at least 24 semester hours of upper division work and at least 20 semester hours of upper division work in the major field of study;

2. Fulfillment of the core requirements of the College in which the major is offered;

3. Satisfaction of all the requirements for the major;

4. Completion of the application for degree process (c.f., #5 above).

Academic Advising

Students are assigned academic advisors within their college. As part of the registration process, students consult their advisors in preparation of their academic programs and prior to registering for classes. Advisors are not authorized to change established policy of the University. The student is solely responsible for assuring
that his/her academic program complies with the policy of the University. Any advice at variance with established policy, i.e., a degree audit exception (Petition for CAPP Adjustment form), must be confirmed in writing by the chairperson of the department or director of the program and then by the Dean's Office.

Academic Probation

Academic probation carries a serious warning to the student that the scholastic record is unsatisfactory and continued failure to improve this record may result in being declared ineligible to attend the University. Students on probation may also have restrictions imposed by the dean regarding their program of studies and their participation in extracurricular activities. The following classes of students will be placed on probation:

1. A student who in any term fails to earn a C (2.0) average,
2. A student whose cumulative grade point average falls below a C (2.0),
3. An upper division student who in any one term fails to earn a C (2.0) average in the major requirements, or
4. A student whose cumulative grade point average in the major requirements is below a C (2.0).

Academic Disqualification

Disqualification terminates a student's relationship with the University. A disqualified student may not register in any division or session of the University and is denied all privileges of the University and of all organizations or activities in any way connected with it.

The following classes of students will be subject to disqualification:

1. A student who while on probation fails to earn a C (2.0) average during the next semester, or who has not attained an accumulated grade point average of C (2.0) within two semesters after having been placed on probation;
2. A student who does not make satisfactory progress in the coursework associated with the declared major.
3. A student who has had special academic requirements imposed by the dean or the Committee on Academic Standing and Degrees and does not meet the requirements within the time prescribed.

Readmission after Disqualification

Disqualified students are not eligible for readmission until one calendar year has elapsed.

1. A disqualified student who wishes to be considered for readmission to the University must file a formal application with the Admission Office.
2. A formal interview must take place with the Dean's Office prior to formal readmission.
3. A disqualified student who is readmitted will be on strict probation which requires that the student must satisfactorily complete all requirements set by the dean in the initial semester after readmission.
4. A student who has been disqualified a second time may not apply for readmission.

Articulation

The articulation services at LMU help students to identify courses completed at other academic institutions that are transferable to LMU baccalaureate degree programs. Courses taken at other academic institutions may fulfill University core requirements, Program (major/minor) requirements or transfer in as electives. LMU has established articulation agreements with its major feeder community colleges. To view these articulation agreements, see http://www.lmu.edu/pages/1252.asp. Current students should consult the articulation agreements of the institutions listed on this page as well as the “existing histories” of courses previously transferred in from other institutions. A signed Transfer Course Approval form and an official transcript from the transfer institution must be submitted to the Office of the Registrar before any transfer courses may become a part of the continuing student's LMU degree program.

LMU Honor Code and Process

Loyola Marymount University is a community dedicated to academic excellence, student-centered education, and the Jesuit and Marymount traditions. As such, the University expects all members of its community to act with honesty and integrity at all times, especially in their academic work. Academic honesty respects the intellectual and creative work of others, flows from dedication to and pride in performing one's own best work, and is essential if true learning is to take place.
Examples of academic dishonesty include, but are not limited to, the following: all acts of cheating on assignments or examinations, or facilitating other students’ cheating; plagiarism; fabrication of data, including the use of false citations; improper use of non-print media; unauthorized access to computer accounts or files or other privileged information; and improper use of internet sites and resources.

Definitions of Academic Dishonesty:

The following are examples of academic dishonesty which may be interpreted as intentional or unintentional. This list is not meant to be exhaustive. It is the student’s responsibility to make sure that his/her work meets the standards of academic honesty set forth in the Honor Code. If the student is unclear about how these definitions and standards apply to his/her work, it is the student’s responsibility to contact the instructor to clarify the ambiguity.

A. Cheating and Facilitating Cheating
   1. Possession, distribution, and/or use of unauthorized materials or technology before or during an examination or during the process of preparing a class assignment.
   2. Collaboration on class assignments, including in-class and take home examinations, without the permission of the instructor.
   3. Provision of assistance to another student attempting to use unauthorized resources or collaboration on class assignments or examinations.

B. Plagiarism
   1. Presentation of someone else’s ideas or work, either in written form or non-print media, as one’s own.
   2. Omission or improper use of citations in written work.
   3. Omission or improper use of credits and attributions in non-print media.

C. Falsification of Data
   1. Presentation of altered or fabricated data, such as lab reports, with the intention of misleading the reader.
   2. Presentation of forged signatures as authentic.
   3. Use of false citations, either incorrect or fabricated, including sources found on the Internet.

D. Unauthorized Access to Computers or Privileged Information
   1. Use of University network and/or computer hardware to gain unauthorized access to files, and alteration or other use of those files.

E. Improper Use of Internet Sites and Resources
   1. Inappropriate use of an Internet source, including, but not limited to, submission of a paper, in part or in its entirety, purchased or otherwise obtained via the Internet, and failure to provide proper citation for sources found on the Internet.

F. Improper Use of Non-Print Media
   1. All above standards apply to non-print media.

G. Other Academic Dishonesty
   1. Any other means of violating the standards of academic honesty set out above.

Honor Code Process

This section sets out the process to be followed when an Instructor suspects a violation of the Honor Code. The recommended sanctions are not mandatory, but are intended to guide the Instructor’s discretion. Instructors are encouraged to consult with their colleagues and chairs in making these decisions. This section also outlines the student appeal process for Honor Code violations.

I. Intentional and Unintentional Academic Dishonesty

A. Notification: Instructors will notify the Student of the suspected act of academic dishonesty. The Student will be given the opportunity to admit, deny, or explain the situation. If the suspected violation of the Honor Code occurs with respect to an assignment that the Instructor has not reviewed until after the class has stopped meeting, the Instructor will send a letter to the permanent address of the Student and keep a copy of the letter. Failure to notify will result in a reasonable extension of the Student’s time to appeal, but is not in and of itself a defense to the violation of the Honor Code.

B. Determination: If the Instructor determines that a violation has occurred, he/she will next determine whether or not the violation was intentional or unintentional. The distinction between intentional and unintentional violations of academic honesty is not based upon the purely subjective intentions of the Student. The question is whether a Student who has carefully read the Honor Code should have understood that his/her action violated the Honor Code and standards of academic honesty.
C. Unintentional Violation: If the Instructor believes the violation was unintentional, he/she may take any of the following actions:
   1. Warn Student
   2. Require assignment or exam to be resubmitted
   3. Reduce the grade on the assignment, project, or exam

The Instructor shall inform the Student of his/her decision and also inform the Student of the right to appeal the Instructor's decision.

D. Intentional Violation: If the Instructor believes the violation is intentional, he/she may take any of the following actions:
   1. Fail the Student on the assignment or exam
   2. Fail the Student in the course

The Instructor shall inform the Student of his/her decision in writing and also inform the Student of the right to appeal the Instructor's decision.

II. Departmental Appeal

A. The Student may appeal the Instructor's decision under section I(C) or (D) to the Department Chair, Program Director, or equivalent. In accordance with the grade appeal policy in the Undergraduate Bulletin and Graduate Division Bulletin, the Student will be required to make his/her appeal in writing no later than three weeks into the semester following the decision.

B. If either the Student or Instructor wishes, he/she may appeal the decision of the Department Chair, Program Director, or equivalent to the Dean of the Instructor's college or school, who will refer the matter to the Academic Honesty Panel. Appeals must be made within 30 days of receipt of the chair's decision.

III. Academic Honesty Panel Appeal

A. The Academic Honesty Panel is an ad hoc recommending body of the Instructor's college/school. The Panel consists of two Faculty members and one Student appointed by the Dean. The Dean will appoint one of the Faculty members as Chair of the Academic Honesty Panel.

B. Responsibilities of the Panel
   1. The Panel will hear appeals by the Student or Instructor of the Chair's decision for any penalty short of expulsion or suspension.
   2. The Panel will make the initial recommendation as to whether the Student should be suspended or expelled.

C. In fulfilling these responsibilities, the Panel will make two determinations:
   1. It will determine whether there is clear and convincing evidence that the Student has violated the Honor Code. The Student is entitled to the presumption of innocence and the right to review and respond to all evidence and information relevant to the Panel's decision.
   2. Upon the finding of clear and convincing evidence of a violation, the Panel is to determine the appropriate penalty. With regard to the appropriateness of serious recommendations such as suspension and expulsion, the Panel shall take into account the following factors:
      a. the severity of the violation;
      b. whether the violation is an isolated instance, or part of a pattern of two or more violations; and
      c. other mitigating or extenuating circumstances.

D. The recommendation of the Academic Honesty Panel, along with an explanation of the reason for the recommendation, will be reported in writing to the Dean of the Instructor's college or school. The Dean will normally follow the recommendation of the Panel. However, the Dean's decision is final.
Classification of Matriculated Students

Students are classified according to the following norms:
- **Freshman:** Satisfaction of entrance requirements.
- **Sophomore:** Completion of 30 semester hours.
- **Junior:** Completion of 60 semester hours.
- **Senior:** Completion of 90 semester hours.

Course Explanations

Classification of Courses

This section contains a list of symbols for all courses offered at the University, excluding the courses offered at the School of Law.

- **000-099** Courses offered in this number range do not carry degree-granting credit.
- **100-299** Lower division courses—degree-granting credit.
- **300-499** Upper division courses—degree-granting credit.
- **500-599** Upper division undergraduate courses in which graduate students may enroll and receive graduate credit. Undergraduate students may not enroll in 500-level courses offered by the School of Education.
- **600-699** Graduate courses—degree-granting credit.
- **800-999** LMU Extension courses. Courses offered in this number range do not carry degree-granting credit.
- **5000-6999** School of Education graduate courses—degree-granting credit.
- **7000-7999** School of Education Doctor of Education courses—degree-granting credit.

In exceptional circumstances, seniors may take courses in the 600 series with the written permission of the Chairperson of their major department and the appropriate College or School. In such cases, they register for “599—Independent Studies.” In this instance, the course is calculated in the undergraduate career. No undergraduate student may register for a course in the 600 series. Only students accepted into the Graduate Division may register for 600-, 5000-, 6000-, and 7000-numbered courses.

Attendance

The policy on class attendance is within the discretion of the individual faculty member and shall be announced by the faculty member at the first class meeting of the semester or listed on the class syllabus.

Concurrent Enrollment

Enrollment by degree-seeking students at another institution at the same time they are enrolled at LMU is not permitted.

Auditing a Course

Enrolled LMU students may not enroll as auditors in a regularly scheduled LMU course through LMU Extension.

Students will be permitted to register as auditors only for exceptional reasons and with the authorization of the Dean of the college or school in which the course is offered. Not all courses are open to auditors. Auditors are not held responsible for the work expected of regular students and receive no grade or credit for the course. Regular attendance at class is expected.

A student who has previously enrolled as an auditor may not take the course for credit in the subsequent term except by special permission of the Dean of the college or school in which the course is offered.

Part-time students and students enrolled in an overload seeking to change from credit to audit status will be eligible for tuition adjustment only if the change is made within the period for late registration.

Individuals may not be formally admitted to the University only to audit courses.

Change of Address

All students must notify the Office of the Registrar immediately of any change in their addresses or those of their parents or guardians. Students may change their permanent, mailing, and billing addresses through PROWL. The University assumes no responsibility for materials sent through the mail or e-mail not received. In addition, students must submit through PROWL emergency contact information to the Office of the Registrar.

E. The Dean will inform the Student and Instructor, in writing, of his/her decision. The Dean will also report his/her decision to the AVP. The Office of the AVP will keep a permanent, confidential record of all proceedings of the Academic Honesty Panel.

The policy on class attendance is within the discretion of the individual faculty member and shall be announced by the faculty member at the first class meeting of the semester or listed on the class syllabus.
Special Studies (98)

Courses whose numbers have as the last two digits “98” are Special Studies. These courses have a special syllabus and description not listed in the Bulletin. They can be held in a lecture, discussion, or seminar format at a specified or arranged time and place for a group of students. Each department sponsoring Special Studies courses maintains these course descriptions.

Independent Studies (99)

Courses whose numbers have as the last two digits “99” are Independent Studies. This is an individualized study arranged by a student with a faculty member and approved by the Chairperson of the Department and the Dean.

These courses are for the educational enrichment of the student particularly qualified for the kind of experiences that are beyond the scope of a regular course. Under the supervision of a faculty member, the work will be of research or similarly creative nature and will normally culminate in a project or examination. Only full-time matriculated students are eligible, and approval will be given for only one Independent Studies course per semester. Freshmen and first-semester transfer students are not eligible.

Arrangements to undertake an Independent Studies course must be completed during the semester prior to the one in which the student expects to enroll in the course. An Independent Studies course is considered part of the student’s semester program. Registration for such courses takes place only during the regular registration periods.

Course Load

In Fall or Spring semesters, students in good standing from the previous semester may register for 18 semester hours; 19 semester hours or more constitutes an academic overload, for which approval from the student’s Dean is required. Extra tuition is charged to any student who registers in 19 semester hours or more. For Summer, students in good standing may register for 6 semester hours per session.

Credit by Challenge Examination

A student may obtain credit by examination for undergraduate courses in the Loyola Marymount University Bulletin in selected undergraduate courses as approved by the course Chairperson and student’s Dean.

To challenge an LMU undergraduate course by examination, a student must be regularly enrolled and a full-time student. A course may be challenged only once and only during the Fall and Spring semesters, not during the Summer. Students may not challenge a course that is at a level more elementary than one in which they are currently enrolled or for which they have already received credit. Moreover, a student may not challenge a course which has been audited. Nor may students challenge a course for which they have received a W, I, NC, or F until a period of one year has elapsed from the time of their original registration in the course. A challenge examination once failed may not be repeated. 100- and 200-level courses in the Department of Modern Languages and Literatures may not be challenged.

A petition for receiving course credit by examination must be obtained from the Office of the Registrar. The examination carries a fee of $50, payable in advance and non-refundable.

Credit/No Credit Grading

Students may not be graded on a Credit/No Credit basis in courses which are part of a major, minor, or core curriculum program. Credit courses count toward the fulfillment of graduation requirements. Neither credit (CR) nor no credit (NC) grades affect the student’s grade point average. Once the petition for either grade or credit/no credit basis has been filed in the Office of the Registrar, it may not be rescinded or changed after the last day of registration.

Students may be graded on this basis for not more than 20% of their total semester hours at LMU. Students wishing to be graded on this basis must file the appropriate petition in the Office of the Registrar by the published date in the Academic Calendar.

In the case of courses that are graded on a Credit/No Credit basis, the student may petition the instructor for a letter grade with the approval of the Dean, before the end of the third week of the semester.

In order for a student to receive a grade of Credit, the work must be of C (2.0) or better.

Cross-Listed Courses

A cross-listed course is one that carries credit in more than one department or program. Students may not enroll in more than one section of a cross-listed course and may receive credit in one department only.

Diploma

Diplomas are granted and mailed to students who have completed all academic degree requirements and who have no outstanding financial obligations to the University. Diplomas left unclaimed are destroyed after three years. Students must re-order destroyed diplomas.
**Double Credit**

A student may not count the same course to meet the requirements for both an undergraduate and a graduate degree.

**Electives**

Elective courses do not fulfill requirements in the student’s University Core, major(s) or minor(s) programs, but they do fulfill overall semester hours requirements.

**Final Examinations**

Students are required to take all scheduled examinations. Final examinations are to be held at the time published by the Office of the Registrar. No student is allowed to take a final examination before the scheduled time.

**Full-Time Standing**

Any undergraduate student carrying 12 or more semester hours in the Fall or Spring term is considered a full-time student. Students carrying fewer than 12 semester hours are classified as part-time students. This applies to the academic standing. For Summer, an undergraduate enrolled in 6 or more semester hours is considered a full-time student and fewer than 6 semester hours a part-time student. Please refer to the Financial Aid full-time/part-time standing for an explanation of how that department defines full-standing and the impact on financial aid awards.

**Grades**

Final grades are submitted by the student’s instructors and are issued to the student by the Office of the Registrar via PROWL at the end of each term.

**Grade Appeals**

It is understood that, except in rare instances, only the instructor, with the Department Chairperson’s, Program Director’s, or equivalent to the Dean of the instructor’s college or school (hereafter called Department Chairperson) and Dean’s approval, may change the final grade through the Office of the Registrar. The Dean may, however, change the grade if all of the following processes of appeal have been followed. The Dean must notify the instructor, in writing, of the change in final grade.

1. No later than three weeks into the semester following the issuance of a disputed grade, the student must meet with the instructor to review the reasons for the grade.

2. If the instructor is not available for discussion or if discussion fails to resolve the problem, the student may ask the appropriate Department Chairperson to meet with both the instructor and the student. If the chairperson and the instructor are in agreement about the validity of the grade, the student may appeal to the appropriate Dean. If the chairperson cannot agree with the instructor, he will automatically refer the student to the Dean.

3. The student who appeals beyond the department level must file a written appeal to the appropriate Dean.

The Dean, upon receipt of the written appeal, will bring all parties together in an attempt to resolve the matter by mutual agreement. If agreement cannot be reached at this meeting, the Dean may appoint a committee of three impartial persons to investigate the matter and make a recommendation to the Dean. The Dean will normally follow the recommendation of the committee; however, the decision of the Dean is final.

**Grading System**

The work of all students at LMU is reported in terms of grades. Instructors are required to assign a final grade for each student registered in a course.

**Undergraduate Grades**

The following grades are used to report the quality of undergraduate student work at LMU:

- **A** Superior
- **B** Good
- **C** Satisfactory
- **D** Poor
- **F** Failure
- **CR** Credit—Equivalent to grade of C or higher
- **NC** No Credit—Equivalent to grade of C- or lower
- **NR** Not reported by instructor
- **AU** Audit
- **I** Work incomplete
- **W** Official withdrawal from course

A grade of A may be modified by a minus (-) suffix, and grades B and C may be modified by a plus (+) or minus (-) suffix. Grades A, B, C, and CR denote satisfactory progress toward the degree, but a D grade must be offset by higher grades in the same term for students to remain in good academic standing. Note that a “C-” grade is not a passing grade in courses requiring a minimum grade of “C.” An F or NC grade yields no unit or course credit.
The grades of AU, CR, NC, I, IP, and W have no point value and are not used in calculating the grade point average.

The LMU grade point average is determined by dividing the total number of LMU grade points by the number of LMU semester hours completed with a letter grade.

Change of Grades

Grades, once submitted to the Office of the Registrar, will be changed only in case of error. An instructor desiring a change of grade must present a written explanation to the Chairperson and the Dean with a Correction of Grade form from the Office of the Registrar. No grade changes will be made after the fourth week of instruction of the next full term.

A student's permanent record reflects the coursework upon which the University awarded the degree or recommended a credential. Therefore, no grade or other changes are permitted either after awarding the degree or recommending the credential.

Mid-Term Deficiencies

The Office of the Registrar e-mails and posts to PROWL mid-term deficiency notices to students informing them of unsatisfactory work as submitted by instructors. The notices, advisory in nature and issued prior to the last day to withdraw in a term, are not part of the student's permanent academic record.

Graduation Rate

The completion or graduation rate by August 2004 for students who entered Loyola Marymount University in Fall 1998 on a full-time basis was 74%.

Incomplete Course Work

An incomplete grade may be assigned by the professor only if a student has completed at least 80% of the coursework.

Normally the student obtains from the Office of the Registrar a “Petition to Receive a Grade of Incomplete” form. The form is filled out by the student and given to the instructor who then completes the form by assigning a default grade which will be entered on the student’s record if the student does not complete the coursework by the deadline.

An incomplete grade not removed by the deadline, which is three weeks after the first scheduled class day of the next semester, will result in the assignment of the default grade as submitted by the instructor. If no default form or
grade was submitted, the incomplete grade will be converted to an F by the Office of the Registrar.

If a student requires an extension to the deadline, the student must petition to obtain an extension to the deadline for removal of the incomplete grade. The petition, approved by the instructor, must be submitted to the Office of the Registrar.

A degree will not be granted while a grade of Incomplete remains on a student’s record.

**Leave of Absence**

A leave of absence may be granted to a student upon written request to the Office of the Registrar. A leave of absence may be granted for no more than two years.

For a student enrolled in a current term, application for the leave must be made before the stated deadline for withdrawal from classes. This date may be found in the academic calendar in the University Bulletin or online for the given term. A leave of absence may be granted only if the student withdraws from all courses in the term. If completed by the deadline, a student will receive grades of W for all courses in that given semester. A student may not take a leave of absence from the term if application is made after the stated deadline for withdrawal from classes. Any student who stops attendance after the deadline to withdraw from classes will receive a grade of F for each course in progress.

A student who is accepted to the University but not yet enrolled may defer admission through the Admission Office. A student with prior enrollment may apply for a leave through the Office of the Registrar. A leave of absence is canceled if the student registers in another college or university without prior written permission of the student’s Dean. In this case, the student has de facto withdrawn (see Withdrawal) from LMU and must reapply through the Admission Office. The student may enroll again at LMU if accepted through the Admission Office. Similarly, a student is considered to have withdrawn from LMU if the leave of absence is extended unofficially beyond two years.

**Major**

A major indicates a particular curriculum within a degree program offered by one of the four undergraduate Colleges and one undergraduate School. The major is usually declared by the student at the time of acceptance to the University. If a student is unsure about a particular program of study within a degree program, some Colleges will allow for an undeclared major within that college. This option is at the discretion of the College or School. A student must, under normal circumstances, declare a major within a degree program prior to earning sixty semester hours of credit.

A student must have a cumulative grade point average of C (2.0) in all courses required by the major. Please note that certain majors have more stringent requirements. The particular requirements are listed under the department listings in this Bulletin.

**Change of Major**

A student wishing to change from one major to another in the same College or School must present to the Office of the Registrar a Change of Program petition approved and signed by the Chairpersons of the involved major departments and the Dean of the College or School. If the change involves another College or School, approval of the accepting College or School must be secured first. A student is subject to the major and degree requirements of the new program and responsible for making up any deficiencies under direction of the Dean. Changes of major should be processed prior to registration for the subsequent term.

**Double Major**

A student may earn a Bachelor’s degree with a double (secondary) major by successfully completing the following requirements for the second major prior to, or in the same term as, the first (primary) major:

1. Completion of the requirements of the primary major; and
2. Completion of the requirements of the secondary major; and
3. Completion of requirements for the primary Bachelor’s degree.

No more than eight semester hours of upper division work in the primary major can be used to satisfy the requirements of the secondary major. The two majors will be printed on the student’s transcript of record and University diploma.
Minor

Students who choose to complete a minor must meet the following general requirements:

1. A minor program consists of 18 or more semester hours. At least half of the upper division semester hours of the minor program must be completed in residence at Loyola Marymount.

2. Specific semester hour requirements are listed by each department offering a minor program. A student who declares a minor is held responsible for the academic regulations in effect at the time the minor is declared. A student who interrupts LMU enrollment is subject to the academic regulations in effect in the University Bulletin at the time enrollment is resumed.

3. A student must have a cumulative grade point average of C (2.0) for courses taken in the minor program.

4. The minor may not be in the same program as the student's major.

5. Courses may not count as fulfilling both a major and minor program, unless a specific course is required by both programs.

6. A minor may be earned only while the student is concurrently completing the requirements for a baccalaureate degree. The minor must be cleared by the Dean's office at the same time that the baccalaureate degree is cleared.

7. Students are advised to consult department regulations in the Bulletin for further information.

Privacy Rights of Students in Education Records

The Federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) ("FERPA") and regulations adopted thereunder and California Education Code Section 67100 et seq., set out requirements designed to protect the privacy of students concerning their education records maintained by LMU.

Specifically, FERPA governs access to student records maintained by the campus and the release of such records. In brief, the law dictates that LMU provide students access to records directly related to the student and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the instructor. The law generally requires that written consent of the student be received before releasing personally identifiable data about the student from records to other than a specified list of exceptions.

Among the types of information included in the campus statement of policies and procedures are: 1) the types of student records and the information contained therein, 2) the official responsible for the maintenance of each type of record, 3) the location of access lists that indicate persons requesting or receiving information from the records, 4) policies for reviewing and expunging records, 5) the access rights of students, 6) the procedures for challenging the content of student records, 7) the cost that is charged for reproducing copies of records, and 8) the right of the student to file a complaint with the Department of Education.

An office and review board have been established by the Department of Education to investigate and adjudicate violations and complaints. The office designated for this purpose is the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202.

LMU is authorized under the Act to release public "directory information" concerning students. "Directory information" includes the student’s name, address, telephone number, electronic mail address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

The above designated information is subject to release by LMU at any time unless it has received prior written objection from the student by the close of official registration. Written objections should be sent to the Office of the Registrar. Requests to withhold “directory information” must be filed each semester.

LMU is authorized to provide access to student records without a student's consent in a limited number of situations, including but not limited to: campus officials and employees who have legitimate educational interests in such records, pursuant to a lawfully issued subpoena, to educational institutions where a student seeks to enroll, to authorized Federal and state officials, and in the event of an emergency if necessary to protect health and safety.
Registration

The days of registration are listed in the University Calendar. All students must follow the registration procedures as established by the Office of the Registrar. A student is not considered registered until official clearance has been obtained from the Controller’s Office and successful registration has been processed by the Office of the Registrar. The official academic program consists of the courses in which the student is enrolled at the close of official registration. Students may not attend a course for which they are not registered.

Repeating Courses

Students may repeat a course previously taken at LMU in a subsequent term at LMU up to two additional times, including any withdrawals; the prior occurrence is excluded from the cumulative grade point average but remains on the transcript. All units attempted are used to determine the student’s grade point average and graduation eligibility. The grade of the latest occurrence of the repeated course will be the one calculated into the cumulative average. Please note that although the term GPA will change accordingly, the academic status of the term will not change. Courses taken on a credit/no credit basis may not be used as a repeat course to exclude from the cumulative average a grade of a prior occurrence taken on a letter grade basis. Students may not register for any course in the College of Business Administration for a third time without the written permission of the Department Chairperson of the course and the Dean.

Questions concerning this policy should be directed to the Office of the Registrar.

Undergraduate students may not repeat an elementary or intermediate foreign language course after successful completion of a more advanced course in the same language.

For graduate students, repetition of a course requires the approval of the Graduate Division Director and/or Dean and is granted only under extraordinary circumstances.

Courses taken at LMU after a degree has been granted will not change the graduation GPA.

Transcripts

Official transcripts of courses taken at the University are issued only with the written permission of the student concerned. Partial transcripts are not issued.

Transcripts show all Loyola Marymount University work completed as of the date of application for the transcript. Work in progress accompanies the transcript. Requests for transcripts to show end of current semester’s work are held until all grades are recorded.

Transcript requests are processed in accordance with the date of filing. Transcripts will not be issued when a student has outstanding financial obligations to the University. In this case, the student will be notified by the Controller’s Office.

Transcripts from other institutions which have been presented for admission or evaluation become a part of the student’s permanent academic file and are not returned to the student. Students desiring transcripts covering work attempted elsewhere should request them from the appropriate institutions.

Transfer Credit

Credit for work completed at institutions accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities, other than course work identified by such institutions as remedial or in other ways as being nontransferable, may be accepted toward the satisfaction of baccalaureate degree and credential requirements at the University within limitations of residence requirements and community college transfer maximums. Courses with grades below C (2.0) do not transfer. A maximum of 60 semester hours from a community college and 90 hours from a four-year institution is transferable to the degree program of the University. In order for work from foreign institutions to be considered for transfer credit, that institution must be recognized by the Ministry of Education of that country.

Any student regularly enrolled as a degree candidate who elects to take courses at a college or university other than Loyola Marymount University must obtain written approval of the Chairperson of the major department and the Dean prior to enrollment in such courses. Courses taken without this approval may not be counted toward the degree. Approved courses must be passed with a grade of C (2.0) or higher in order to transfer. Semester hour value is granted to transfer courses; grades or GPA information on transfer work is neither listed on nor calculated in LMU work printed on the academic record.

It is the responsibility of the student to submit all foreign transcripts to an LMU-approved credentials-evaluating agency for evaluation of U.S. equivalent course work and corresponding grade. Information on such agencies may be obtained by contacting the Office of the Registrar.

Foreign transcripts submitted without appropriate evaluations will not be considered for eligible transfer work to LMU.
Tutorials

Only regularly offered courses described in this Bulletin may be taken as tutorial courses. Students may individually arrange with a faculty member to take the course as a tutorial. A tutorial course is considered part of a student’s semester program. Registration for it takes place during the regular registration periods. Only full-time students are eligible, and approval will be given for only one tutorial course per semester. Freshmen and first-semester transfer students are not eligible.

Withdrawal

Withdrawal from Courses

A student may withdraw from any or all courses by the last day to withdraw in a term as published in the University Bulletin and online Academic Calendar. A currently enrolled student may withdraw from a course(s) by using the drop function in the computer registration system (PROWL).

Prior to the deadline, a student may drop all courses using PROWL. In order to completely withdraw from a term or the University, the student should contact the Office of the Registrar. The student will receive grades of W in each of the courses and will be considered to be on a leave of absence for up to two years unless the student gives written notice to the Office of the Registrar that he/she is withdrawing from the University.

After the deadline, and before the final day of classes, students may withdraw from courses only for medical or psychological reasons. A written petition with accompanying documentation from a licensed professional should be submitted to the Office of the Registrar. The documentation from the licensed professional must certify that the student is not able to complete the semester for medical or psychological reasons. If approved, the student will be withdrawn from all courses and not a portion of the course schedule. Students are eligible for tuition and fee refunds according to the University’s published policy. Additional documentation from a licensed professional is required indicating that the student is able to resume study at the University.

Withdrawal from the University

A withdrawal from the University is the termination of the academic program and course of study and the rights and privileges offered to currently enrolled students. (See above.)
Academic Programs and Services

Programs

The University Honors Program

Director: Kelly Younger

As a means of creatively challenging the potential of the outstanding student and thereby contributing to the intellectual life of the entire academic community, the University adopted the Honors Program in 1958. By constant experimentation and periodic revision, the program attempts to keep true to its original intent of providing intellectual adventure.

The program is interdepartmental and does not involve a separate faculty. It relies on the interest and generosity of the entire University faculty and on the enthusiasm of the truly exceptional students to become mutually involved in an intellectual experience. Not being a separate unit apart from the rest of the University community, the University Honors faculty and students thus share with the rest of the school the stimulation of their special academic experience.

Taking advantage of its freedom from some of the restrictions involved in the structure of regular courses, the University Honors Program attempts to challenge as well as to inform, to ask hard questions as well as to examine tested solutions. Its goal is to provide a carefully integrated and demanding curriculum for the exceptional student.

The University Honors Program is open to students from all the undergraduate Colleges and the undergraduate School of Loyola Marymount. The Program is administered by the Honors Director with the assistance of the Assistant Director and the Honors Advisory Council. Faculty members from all disciplines at Loyola Marymount are invited to participate.

The University Honors core curriculum begins with an intensive undergraduate experience combining four interdisciplinary courses in the humanities and sciences with an individualized sequence in writing, critical thinking, and cultural studies. A second-year sequence in historiography, theology, and natural philosophy prepares the Honors student for the third-year seminars in ethics, interdisciplinary study, and thesis preparation. The fourth year results in the publication of the capstone thesis project: the culmination of independent research under the individual guidance of a professor and the participation in the Senior Thesis Forum.

University Honors students must maintain an average GPA of 3.50 and display proficiency in a foreign language. Successful completion of the University Honors Program is announced at the annual Commencement ceremonies and noted on the student’s permanent transcript. This recognition is of lasting personal, professional, and academic value.

The University Honors Program is open to incoming and current first-year students. First semester sophomores and transfer students may also apply. More is expected of students in the Honors Program; not everyone is qualified to join. We are interested in: a sense of academic adventure, highly motivated individuals, rigorous educational experience, social awareness, personal responsibility, interesting personal background, a first-rate cumulative GPA (4.0 scale), highly competitive test scores (SAT and/or ACT), the constant pursuit of excellence. Interested students should complete an application; schedule an interview with the Director, Assistant Director, or member of the Honors Advisory Council; provide a critical writing sample; and submit a letter of reference.

Each Fall, the University Honors Program carefully selects a limited number of incoming students to join the Program. Application materials are available at http://www.lmu.edu/honors.

Further details on requirements and course descriptions are continued under University Honors Program in the Bulletin.

Individualized Study Program

Director: College or School Dean

The Individualized Study Program involves a select number of creative and highly motivated students within all colleges and schools of the University whose educational needs and goals cannot fully be met by individual departments or majors. The program is thus designed to offer each participant greater responsibility in determining the content of his or her major program, based upon the goals to which that major is directed. Students may wish to construct their programs or areas of concentration from interdisciplinary, independent study, field work alternatives, or a combination thereof.

The program is open to freshmen and sophomores who have completed at least one semester in the participating colleges or schools. Once accepted into the program by the Dean of the student’s college or school, the student selects a counselor who assists in designing the specific content of the major in line with the student’s objectives.
The student’s program is then formalized into a contract signed by the student, advisor, and Dean. Upon completion of the contracted course of studies, the student is issued a degree in the major or area of concentration.

**Naval ROTC**

Eligible Loyola Marymount University students who wish to participate in the Naval Reserve Officers Training Corps may do so through a program established with the UCLA University Extension. The program, in conjuction with an LMU baccalaureate degree, leads to a commission in the United States Navy or Marine Corps. Appropriate academic credit for courses accredited by the University of California is given in accordance with the policies governing LMU’s Aerospace Studies program. Further information may be obtained from the Chairperson of the Department of Naval Science, University of California, Los Angeles.

**Preparation for a Career in Law**

Director: Evan Gerstmann

The University offers several curricula that are appropriate for students who plan to enter law school upon the completion of their undergraduate degree. The prelaw student should select a course of study that insures the development of the skills essential to the successful study of law: 1) the ability to use language and communicate effectively and 2) the ability to think critically and creatively. In addition, the prelaw curriculum must provide a broad understanding of basic human institutions and values.

To insure they follow an appropriate course of study, prelaw students are advised to select their classes in consultation with the University Prelaw Advisor. The Prelaw Advisor also serves as a resource person for students during the law school application process.

**Preparation for the Health Professions**

Director: Rebecca Crawford

The Health Professions Information Program provides the student with regular informational meetings. The Director of the Program serves as a resource person and is available for individual consultation. The Director’s Office distributes relevant materials to prospective applicants and maintains their files for the Health Professions Advisory Committee. The Committee assists students in completing the application process to health professional schools.

The University offers pre-health professional curricula for those students who plan to apply for admission to the following programs: Medicine, Dentistry, Optometry, Pediatric Medicine, Veterinary Medicine, Pharmacy, Medical Technology, Occupational Therapy, Physical Therapy, and Public Health. These curricula are not degree programs, and students who wish to complete the requirements for a Bachelor’s degree before admission to a professional school should select a major within the University. Students usually select a biology, biochemistry, or other science major. Students in other majors should consult with the director early in their college career about blending pre-health profession courses with their chosen major. In addition to fulfilling the requirements of the chosen major, specific requirements of the professional programs should be satisfied. The following lower division courses are usually required: BIOL 101, 102, 111, 112, 201, 202; CHEM 110, 111, 112, 113, 220, 221, 222, 223; English (6 semester hours); MATH 122, 123; PHYS 253, 254, 255, 256; and PSYC 100. In addition, other specified upper division biology, biochemistry, and statistics courses and electives from Liberal Arts, Fine Arts, and the Sciences may be required.

Students should be aware that many health professional schools do not recognize some AP credits and that alternative coursework may need to be completed to meet admission requirements. Please discuss with the Director.

**ROTC Programs**

Director: Mark Fish

Loyola Marymount offers its own program of instruction designed to prepare students for commissioning as second lieutenants in the United States Air Force. Additional information can be found under Aerospace Studies in this Bulletin.

**Services**

**LMU Extension**

Center for Religion and Spirituality

Director: Robert A. Hurteau

The Center for Religion and Spirituality makes a vital contribution to the mission of Loyola Marymount University by expanding LMU’s religious and educational outreach to a wider range of constituencies in Southern California and beyond. As part of LMU Extension, the Center embodies LMU’s commitment to serve the Roman Catholic Archdiocese of Los Angeles, other local churches, religious groups, and the general public through the development of diverse programs related to religion, spirituality, faith, and justice.

In collaboration with the Department of Theological
Studies and other departments and divisions of the University, the Center sponsors a variety of continuing education courses, certificate programs, lecture series, weekend workshops, summer institutes, and special events. It also provides online courses and other non-traditional venues for religious education, faith formation, and spiritual development, thus linking the University and its mission to the greater Los Angeles community and beyond.

Continuing Education

Directors: Madge Claybion and Ben Hayes

LMU Extension offers certificates, courses, programs, institutes, conferences, and lectures which provide a variety of educational experiences to members of the community. There are three types of classifications of such offerings.

The first of these is Professional Development courses in a certificate or professional development program with identifiable subject areas or in particular disciplines, e.g., teacher education. These are offered under a departmental rubric and carry University semester hours of continuing education/professional development credit. The second type are those courses with academic content falling outside the normal undergraduate or graduate offerings. Such courses and programs are offered under the rubric CNTX. Credit is recorded in semester hours; 1.0 semester hour represents 10 continuing education contact hours. The third type is personal enrichment programs covering a variety of activities that might include dance, martial arts, or yoga, to name but a few.

Regular Loyola Marymount undergraduate students may enroll in “For Credit” LMU Extension courses with permission of their College or School Dean, at the fees quoted for such courses, above and beyond regular full-time tuition. Enrollment in other LMU Extension offerings is unrestricted unless otherwise specified, also at the fees quoted.

Encore Program

Director: Gary Gasca

Encore is designed to assist non-traditional students (those over 25 years old) who are just beginning college or are resuming an interrupted college education after at least five years absence from an organized degree program. Students must have a high school diploma or have passed the GED.

Encore provides the opportunity, guidance, and support (academic, administrative, and social) for non-traditional students, on a full- or part-time basis, to work towards their academic goals. Encore students enroll in regular LMU courses and participate in two special one-unit seminar courses that focus on weaving the non-traditional student into the fabric of academic life at LMU.

Study Abroad

Director: Patricia Masters

LMU sponsors several study abroad programs for summer, semester, and full-year.

New Europe Program

Important economic and political changes are taking place in Europe. LMU’s New Europe Program, in Bonn, Germany, is conveniently located near vital European centers such as Brussels and the Hague.

In affiliation with the Academy for International Education, the New Europe Program offers both semester and full-year opportunities.

A range of courses is available in business administration, liberal arts (including German and other European languages), and communication, giving participants an opportunity to work toward their degrees in an academically diverse environment without losing a semester. Faculty come from LMU, German universities, and AIB. Enrollment in a German language course is mandatory for all students who participate in the Program.

Students with a minimum GPA of 2.8, who are in good standing at any college or university, are invited to apply for the Fall, Spring, or full academic year. Applications to the New Europe Program are available through the Study Abroad Office. Students may register for 12 to 17 semester hours of credit during the Fall or Spring semester. Students receive semester hour credit on the LMU transcripts for courses taken.

The program costs (comparable to the cost of a full-time student in residence at LMU) include tuition, housing, breakfast and dinner, public transportation in Bonn, several cultural activities, and excursions and site visits to metropolitan centers such as Paris, Brussels, Bruges, Berlin, Prague, and Dresden. For those students staying the entire academic year on the New Europe Program, an additional excursion to Spain is offered during the Spring semester. The cost does not include round-trip airfare, textbooks, and other personal expenses.

All LMU financial packages can be applied to the New Europe Program; LMU tuition payment plans are applicable. For complete information, consult the Study Abroad Office in University Hall 1840.
Film and Television Program in Germany

This program is located in Dusseldorf, Germany, and focuses on film in the European context—the Avante Garde, independent film making, and other experimental media. This is designed as a semester program with Fall semester offerings focusing on Film and TVPD majors, and with the Spring semester focusing on Media Studies for all students. Taught by LMU faculty and European film and television experts in the Loyola Marymount University tradition, the courses are offered in the form of master workshops, providing students with an exclusive learning experience. The close interaction with faculty that is afforded by this format makes the program unique. Students receive 15 units of credit by taking workshops and a German language and culture course.

The semester in Dusseldorf includes excursions and educational field trips to give students a deeper insight into film and TV production in Europe. Depending on the semester and opportunity, students will attend film festivals, visit production sites, go to film museums, and meet and talk with directors, producers, and others in the media field. A week excursion to Berlin and Prague, two centers of film production, will bring to life the theories learned in the classroom and will help to inform and stimulate students in their own artistic productions. Each student will produce a 10-15 minute video documentary. Staff and teaching assistants in film will assist with the technical and creative needs, if necessary.

Students with a minimum GPA of 2.8, who are in good standing at any university or college and, for the Fall semester, have completed the FILM and TVPD prerequisites, are invited to apply. The program cost is comparable to full-time residency at LMU and includes tuition, housing, breakfast and dinner, excursions, and public transportation within Dusseldorf. Applications are available through the Study Abroad Office in University Hall 1840.

Semester in India Program

The Semester in India Program offers a unique opportunity for students to learn about India, one of the world’s oldest civilizations. The primary focus of the program is on Indian religions, arts, languages, and cultures. There are also components that involve a study of environmental sciences in India and an opportunity to engage in service learning.

The program is located in Sikkim, a state of northern India. This site is especially interesting in that it offers students an opportunity to engage in a multi-faceted study of the cultures of the Himalayan region, an area that is remote and unstudied but one with a rich and varied cultural history. The program allows students to engage with some of the world’s oldest cultures (Nepali, Tibetan, Indian, and Bhutanese) and to study the traditions, arts, religions, and practices of these cultures. Students will return from this experience with an enhanced appreciation of the unique character, deep spirituality, and aesthetic sensibilities developed by the various peoples living on the “roof of the world.”

The semester in Sikkim, India, includes excursions to the neighboring areas of Bhutan, Darjeeling, and Kalimpong, as well as a guided trek in the beautiful Himalayan highlands of Western Sikkim. Although Gangtok, the capital of Sikkim and the principal setting for the program, is situated at an altitude of about 6,000 feet above sea level, its temperature is remarkably temperate throughout most of the year, and it typically receives very little snow. The rich and verdant natural vegetation of the hillsides is filled with cardamom, exotic orchids, and many other unusual flowers. The area also contains a broad range of medicinal herbs that have been isolated over the centuries and continue to play a significant role in the traditional medicine practices of the region. These can be studied by those who wish to know more about Tibetan medicine and ecology.

The program includes a comprehensive set of courses, including sociology and anthropology, religions of India, environmental sciences and ecology, and art and history. Language instruction is available in Hindi, Tibetan, Sanskrit, and Nepali.

If you want an unique experience in studying abroad, please come in and ask about this India Program. The Study Abroad Office is located in University Hall 1840, or you can all and make an appointment to speak with a Study Abroad counselor (338-1973).

Jesuit China Study Abroad Program

The Beijing Center for Language and Culture (TBC) is a study abroad program for undergraduate students interested in other cultures, languages, peoples, philosophies, religions, and economies. The program offers a unique mix of study and first-hand experience in China through intensive language classes, cultural seminars, and contemporary business and political science courses brought to life by extensive academic adventure travel.

TBC offers a comprehensive set of seminar-style courses on Chinese culture, history, literature, philosophy, religions, sociology, communication, art, political science, and business. Students do not need to know Chinese prior to participating in the program. All courses are taught in English by Beijing’s top scholars, and many of the courses’ lectures incorporate discussion with some of the business and political leaders in Beijing. In particular, courses in mass communications, cinema, international relations, and economics are noted for meeting Chinese
Credit Transfer

All Study Abroad work done at an American institution must be done at an institution accredited as a degree-granting institution by one of the accrediting bodies recognized by the Commission on Recognition of Postsecondary Accreditation (CORPA). Foreign institutions must be recognized by that country’s Ministry of Education. (See Transfer Credit on page 67.)

Other University Services

Basil P. Caloyeras Center for Modern Greek Studies

Director: Demetrios Liappas

The Caloyeras Center for Modern Greek Studies provides students with an opportunity to study the culture of contemporary Greece. By means of courses in the language, literature, and the arts of the Greece of today, a doorway is opened to the past, which is thus given a fresh and compelling reality.

The Center has the following goals:

- To offer courses in modern Greek language, post-classical and modern literature and history, the Greek Orthodox tradition, theatre, cinema, dance, music, and the fine arts.
- To encourage students to pursue a minor in Modern Greek Studies.
- To sponsor lectures on subjects pertaining to Greece which are of interest to the academic community and to the public at large.
- To encourage students and faculty to pursue studies and research projects in Greece.

The Center supports the courses that lead to a minor in Modern Greek. (See “Classics and Archaeology” in this Bulletin.)

Thomas and Dorothy Leavey Center for the Study of Los Angeles

Director: Fernando J. Guerra

Overview

The Thomas and Dorothy Leavey Center for the Study of Los Angeles was established in 1994 to assist students, the University, and the community at large to become agents for change that leads to social justice. Using Los Angeles as a laboratory for understanding the urban experience, the center has become a university leader in developing multidisciplinary courses, producing highly regarded applied research, and promoting civic involvement.
**Programs**

**Southern Californians and Their Leaders** is one of the only systematic analyses of how our leaders view contemporary Los Angeles, the opportunities and constraints they face, and the conditions that facilitate leadership. Current activities include leadership roundtables, public opinion polls and leadership surveys, leadership internships, and a leadership lecture series. These activities enable students to apply their classroom knowledge in a real-world setting and aim to empower them to serve their community with skill and compassion.

The **Community Studies Program** gives students the opportunity to examine patterns and trends reshaping Los Angeles from the perspective of individual neighborhoods. Through in-depth neighborhood analyses, this program gives residents a voice on issues facing their communities. Community studies have focused on communities with a strong Jesuit presence: Hollywood, Pico Union, East Los Angeles, Watts, Lennox, Westchester, and Playa Vista.

In a short span of time, the center has established one of the best undergraduate archives in the nation, the **Research Collection**. The research collection promotes preservation and analysis of historical documents of public officials, post-World War II developers, late-twentieth-century Los Angeles reformers and reform movements, and prominent Catholic families. Holdings include a decade’s worth of the original program tapes of KCRW 89.9 FM’s *Which Way, L.A.?* as well as the papers of *Rebuild L.A.*, *Los Angeles Educational Alliance for Restructuring Now (LEARN)*, *Los Angeles Annenberg Metropolitan Project (LAAMP)*, Fritz B. Burns, and Mike Roos, to name just a few. A complete index to the research collection and the contents of individual collections is available online at http://lib.lmu.edu/special/csla/csla.htm.

**Disability Support Services**

The Disability Support Services (DSS) Office, which is located on the second floor of Daum Hall, provides specialized assistance and resources that enable students with documented physical, learning, and/or psychological disabilities to achieve maximum independence while they pursue their educational goals. Students with a disability that substantially impacts their ability to learn and perform to the best of their capacity may be eligible for a variety of services. To be eligible, documentation of the disability must be provided from an appropriate licensed/certified professional. To request a form assisting you with providing the complete documentation and/or if you require further information, you may locate more information from our website: http://www.lmu.edu/dss/, or contact the DSS office at (310) 338-4535.

**Learning Resource Center**

**Director: Marcia L. Albert**

The Learning Resource Center, which is located on the second floor of Daum Hall, is a place where LMU students can enlist the help of specialists and tutors to enhance the learning process. Every LMU student is invited to make use of the LRC's free services and workshops. The Center’s learning specialists in writing, ESL/reading, mathematics, science, and learning skills, as well as its peer tutoring staff, are ready to work with students to encourage those essential learning skills which bring greater academic and personal success. In addition, the Center offers one hour, appointment-based tutoring in a variety of LMU courses. For additional information on LRC services, please call (310) 338-2847 or visit http://www.lmu.edu/lrc.

**Orientation**

**Director: Beth Van Brussel**

The Orientation Program welcomes new students to the Loyola Marymount community. During Orientation, students are introduced to the academic and co-curricular programs of the University, meet with faculty for individual academic advisement, and are assisted in registering for courses. Students also become familiar with all of the services, activities, and resources available to them. Throughout the Orientation Program, students interact in small groups, led by students who attend LMU. Since Orientation provides a useful introduction to the people, programs, and opportunities LMU offers, all new students are required to participate in the program. For additional information, please contact the Orientation office at (310) 338-7429.

**University Libraries**

**University Librarian: TBA**

The Charles Von der Ahe Library, named for its principal donor, was constructed in 1959 and doubled in size in 1977. It contains the collections of the University’s Westchester campus, which totals approximately 398,000 books and bound periodicals, 12,000 various media titles, 140,000 microforms, 3,000 current periodical subscriptions in paper format, and over 13,000 electronic periodical subscriptions. In addition to the Library’s online catalog, LINUS, network access is also available to online index databases such as FirstSearch™, EBSCOhost™, and PROquest Research Library™. For a complete listing of available databases, please go to the Library home page: http://www.lmu.edu/library. In addition, the Library is a member of the LINK+ Consortium, an organization created to allow patrons to borrow books from member libraries. LINK+ includes...
over 4.5 million titles available by patron request from LINUS, the online catalog. The Library’s Instruction Program offers classroom instruction in information literacy and database searching.

The Department of Archives and Special Collections houses collections of art, rare books, manuscripts, and the University Archives. Notable holdings include the St. Thomas More, Oliver Goldsmith, and Helena and John Weadock Collections of rare English and American first editions. Other important collections are the papers of the motion picture producer Arthur P. Jacobs, best known for the *Planet of the Apes* series, and the Werner Von Boltenstern postcard collection which contains one million cards. The department also houses the Research Collection of the Center for the Study of Los Angeles which collects research materials relating to local public officials, post-World War II developers, late twentieth-century reformers, and prominent Catholic families.

The Library’s Media and Reserve Services Department provides reserve materials for student classwork as well as equipment and materials in various multi-media formats. Study carrels are equipped so that students can listen to audiocassettes and compact discs, and view videocassettes, laserdiscs, slides, filmstrips, and CD-ROMs. More information about the Library may be found at http://www.lmu.edu/library.
Academic Awards and Commencement Honors

Honors at Commencement

To be eligible for scholastic honors at commencement, a student must have completed at least 60 semester hours toward the baccalaureate degree on a graded basis (Credit/No Credit grades do not apply) at Loyola Marymount. Eligible students for honors at May commencement either received a degree on the previous August or December degree-granting dates or be a degree candidate for May. Honors at commencement are determined by the cumulative grade point average at the time the degree is granted, based on LMU work only. The following grade point averages are required for the honors indicated:

- 3.9 Summa Cum Laude
- 3.7 Magna Cum Laude
- 3.5 Cum Laude

These honors are entered on the transcript and are inscribed on the diploma.

Dean's List

A Dean’s List, comprised of full-time matriculated undergraduate students, is published at the end of the Fall and Spring semesters. To be eligible for the Dean’s list, students must have completed 15 semester hours at LMU and received letter grades in at least 12 semester hours with a cumulative term grade point average of 3.50 or better. To qualify for the Dean’s List, one must have completed all courses and not received a grade of F in any course.

University Honor Societies

Loyola Marymount University sponsors numerous honor societies to recognize significant academic achievement of its students.

Alpha Kappa Delta Sociology Society

Established at LMU in 1997, Alpha Kappa Delta is an academic organization dedicated to the study of sociology, the research of social problems, and other social and intellectual activities. It promotes the development of scholastic and leadership skills within the framework of a national honor society and the Department of Sociology. It was founded in 1920 at the University of Southern California.

Alpha Sigma Nu Jesuit Honor Society

Alpha Sigma Nu is a national honor society for men and women founded in 1915 at Marquette University. The society was organized to honor students from Jesuit colleges and universities who have distinguished themselves in scholarship, loyalty, and service to the University. A limited number of juniors and seniors are selected for membership each year. The society offers its services to the University, particularly in an effort to stimulate intellectual interest and accomplishment. It was established at LMU in 1939.

Alpha Psi Omega Honorary Theatre Society

The National Honorary Dramatic Fraternity, established in 1925 at Fairmont College in West Virginia, recognizes and encourages participation in the theatre. The society facilitates faculty/student networking and encourages the exploration of the varying theatrical disciplines. With members at the high school, junior college, and university levels, it is the largest such honor society in the United States. The LMU chapter was established in 2003.

Beta Beta Beta Biology Society

Since its inception at Oklahoma City University in 1922, Beta Beta Beta has been a society for students dedicated to improving the understanding and appreciation of biological study and extending boundaries of human knowledge through scientific research. The society has been at LMU since 1999.

Beta Gamma Sigma Business Society

The establishment of the first national honor society for business students was the result of the 1913 merger of three separate societies from the University of Wisconsin, University of Illinois, and University of California. Beta Gamma Sigma is an international honor society recognizing the outstanding academic achievements of students enrolled in collegiate business and management programs. LMU’s chapter started in 1982.
Gamma Kappa Alpha National Italian Honor Society

Gamma Kappa Alpha acknowledges superior scholastic performance in the field of Italian language, literature, and culture, and is open to membership at institutions of higher learning in the United States and Canada. The Society encourages college students to acquire a greater interest in, and a deeper understanding of, Italian culture, art, and history. It was founded at Nazareth College in Rochester, NY, in 1983 and established at LMU in 1998.

Kappa Delta Pi International Honor Society in Education

The Kappa Delta Pi International Honor Society in Education was founded in 1911 at the University of Illinois and established at LMU in 1996. It is dedicated to recognizing scholarship and excellence in education, promoting development and dissemination of worthy educational ideas and practices, and enhancing the continuous growth and leadership of its diverse membership.

Phi Alpha Theta History Society

Established at the University of Arkansas in 1921, Phi Alpha Theta is a professional society whose mission is to promote the study of history through the encouragement of research, teaching, publication, and the exchange of learning and ideas among historians. The LMU chapter started in 1968.

Phi Sigma Tau Philosophy Society

The purpose of Phi Sigma Tau is to serve as a means of awarding distinction to students having high scholarship and personal interest in philosophy and to promote student interest in research and advanced study in this field. It was founded at Muhlenberg College in 1930, incorporated in 1955, and became active at LMU in 1987.

Pi Delta Phi French Honor Society

This society was established in 1906 at the University of California at Berkeley, with the goals of recognizing outstanding scholarship in French language and literature and increasing knowledge of the contribution of French-speaking countries to world culture. LMU's chapter began in 1969.

Pi Mu Epsilon Mathematics Society

Pi Mu Epsilon is an honorary national mathematics society founded at Syracuse University in 1914, with the purpose of promoting scholarly activity in mathematics among the students in academic institutions. The society was established at LMU in 1975.

Pi Sigma Alpha National Political Science Honor Society

Pi Sigma Alpha was founded in 1920 at the University of Texas at Austin. Its goal is to stimulate scholarship and intelligent interest in the field of political science. LMU's chapter was established in 1998.

Psi Chi Psychology Society

Psi Chi Psychology Society was established in 1929 at Yale for the purposes of encouraging, stimulating, and maintaining excellence in scholarship and advancing the science of psychology. LMU started a chapter of the society in 1979.

Sigma Delta Pi Spanish Society

Sigma Delta Pi, the National Collegiate Hispanic Honor Society, was established in 1919 at the University of California at Berkeley. Its goals include honoring those who attain excellence in the study of the Spanish language and encouraging university students to acquire a greater interest in and a deeper understanding of Hispanic culture. LMU's chapter became active in 1972.

Sigma Pi Sigma National Physics Honor Society

Founded at Davidson College, North Carolina, in 1921, Sigma Pi Sigma exists to honor outstanding scholarship in physics, to encourage interest in physics among students at all levels, to promote an attitude of service of its members towards their fellow students and colleagues and to the public, and to provide a fellowship of persons who have excelled in physics. The society was established at LMU in 1979.

Sigma Tau Delta English Society

Founded at Dakota Wesleyan College in 1924 and established at LMU in 1994, Sigma Tau Delta members are expected to have superior creative talent and to have an interest in literature and language beyond the classroom. They are dedicated to providing cultural and intellectual enlightenment in a community of others who have similar talents and interests.
Sigma Xi Scientific Research Society
At LMU since 1967, Sigma Xi endeavors to encourage support of academic achievement and original work in science and technology and to promote an appreciation within society at large for the role research has played in human progress. Founded at Cornell University in 1886, it is among the oldest such societies in the nation.

Tau Beta Pi Engineering Society
This national engineering honor society was founded at Lehigh University in 1885 to honor students displaying excellence in scholarship and exemplary character as undergraduates in engineering and to foster a spirit of liberal culture in engineering colleges. The LMU chapter was established in 1974.

Theta Alpha Kappa Theology Society
Founded in 1976 at Manhattan College, Theta Alpha Kappa is the only national honor society recognizing excellence of students involved in the study of religion and theology. The society was established at LMU in 1981.

University Academic Awards
For students to be eligible for academic awards presented at the May Commencement ceremony, they must have either graduated in the previous Summer or Fall term or be a candidate for graduation for May.

The University Scholar of the Year Award
Presented to the student who, in the four-year undergraduate program at LMU, is determined to have achieved the best overall academic record in the graduating class.

The Ignatian Award
Awarded to the graduating senior man who has achieved well academically and who has distinguished himself in leadership and service to the student body and the University.

The Marian Award
Awarded to the graduating senior woman who has achieved well academically and who has distinguished herself in leadership and service to the student body and the University.

The Valedictorian Award
Presented to the student who, in the four-year undergraduate program, is chosen after a presentation to the Valedictorian Committee to give the Valedictorian Address at the Undergraduate Commencement Services.

President Citations
Presented to outstanding graduates who have combined excellence in the classroom with effective service and leadership in the University community.

College, School, Departmental, and Program Awards

The College or School Scholar Awards
Presented to the top graduating senior who has achieved the highest academic record in each of the four undergraduate colleges and the School of Film and Television.

The Clinton J. Albertson, S.J., University Honors Program Award
Presented to an outstanding graduating student in the University Honors Program.

The American Chemical Society Analytical Division Award
Given to the third-year student who has demonstrated excellence in analytical chemistry and displays an aptitude for a career in the field.

The American Chemical Society Organic Division Award
Given to the outstanding student of two semesters of organic chemistry.

The American Institute of Chemists Award
The gift of the Western Chapter of the American Institute of Chemists presented to the graduating senior who, in the opinion of the faculty of the Department of Chemistry, is deserving of special recognition for leadership, character, and excellence in scholarship.

The Leonard Simon Blenkiron English Award
The gift of Mrs. Mae Emma Blenkiron, in memory of her husband, Leonard Simon Blenkiron, awarded to a senior English major for excellence in English.

The Sister Regina Buchholz, S.C.R.H., Award
Presented in honor of Sister Regina Buchholz, S.C.R.H., Professor Emerita of Art, by the Department of Art and Art History, to a senior Studio Arts major in recognition of excellence in the field of art and of service to the University.
The Stanley Chan Award
Given to the outstanding graduate of the Political Science Department who demonstrates superior academic achievement, outstanding service to the University, and commitment to Judeo-Christian values.

The Caloyeras Center Summer Scholarship
This all-expenses-paid summer scholarship to study in Greece is awarded to a student in the Modern Greek Studies Program who has demonstrated superior academic achievement.

The CRC Press First-Year Chemistry Award
Given to the outstanding student of two semesters of first-year general chemistry.

The Delta Sigma Pi Professional Fraternity Award
The gift of the local chapter of Delta Sigma Pi to a business student for academic excellence and leadership potential.

The Dockweiler Gold Medal
The gift of Mrs. Henry I. Dockweiler awarded annually to the graduating senior who has achieved general excellence in the field of history and in service to the University.

The Jerome K. Doolan Endowed Engineering Award
The gift of Mr. and Mrs. Jerome K. Doolan, awarded to the graduating senior engineer, who, by reasons of his or her scholarship, participation in student activities, and promise of future success in his chosen profession, shall have been judged deserving of special recognition.

The Financial Executives Medallion Awards
Presented by the Financial Executives Institute, recognizing the top student in the field of finance for the four years of study.

The Finnegan-Reiland Education Award
Named in honor of two former professors of the School of Education, the award recognizes distinction in student teaching, superior scholastic achievement, and service to others.

The Barbara and Hugh Gray Award for Greek Studies
Presented by the Basil P. Caloyeras Center for Modern Greek Studies to the author of the best paper on Modern Greek Studies.

The Carl G. Kadner Award
Presented to the graduating senior who has achieved academic excellence, exhibited strong leadership, and provided dedicated service to the Biology Department.

The Jerome J. Korth Award
Presented to the graduating senior in the Frank R. Seaver College of Science and Engineering with the highest grade point average in the University's core curriculum.

The Marketing Student Award
Presented by the Loyola Marymount Collegiate Chapter of the American Marketing Association to the senior with outstanding participation, academic achievement, and career potential in marketing.

Dr. Thomas D. Pitts Award
A gift of the Alumni, honoring Dr. Thomas D. Pitts, Professor of Biology from 1948-1974, to a graduating senior in the Department of Biology who has shown a growth to academic excellence and provided service to the University.

The Alan Seydoux Memorial Award
Given to a graduating senior who has achieved excellence in the area of field or marine biology and who has provided service to the University.

The Mary Tsassis Award in European History
Presented by the Basil P. Caloyeras Center for Modern Greek Studies to the graduating senior who has demonstrated excellence in European history.

The Wall Street Journal Student Achievement Awards
The gift of Dow Jones & Company, publishers of the Wall Street Journal, to be given to the senior who ranks highest in finance and in economics.

Special Awards

The AFROTC Award
The gift of the President of Loyola Marymount University to the graduating senior in the Air Force ROTC who exemplifies the high ideals of the University through leadership and service to AFROTC, the school, and the community.

The Samuel Z. Arkoff Awards
The gift of Samuel Z. Arkoff, awarded annually in two categories of achievement: best film and best full-length film script by an undergraduate student.
Eugene Escallier Foreign Study Scholarship Award

An endowed gift of Lucien Escallier to a full-time junior or senior student for educational enrichment through travel and foreign study within the area where western culture was born.

The Jack Haley, Jr., Film Award

Originally created by Jack Haley, Sr., and now supported by a grant from Jack Haley, Jr. Designed to foster and encourage excellence in student film production.

Rev. James N. Loughran, S.J., Award for Community Service

Presented to the outstanding graduating senior in good academic standing who, through his/her leadership, activities, and involvement with the community beyond the campus and throughout his or her years at Loyola Marymount University, has improved relations between the community and the University and has created a positive view of Loyola Marymount University. The recipient has exemplified Jesuit and Marymount ideals of hard work and generosity, has had a significant impact in off-campus service, and has given promise of selfless and effective leadership in the years ahead.

Sr. Raymunde McKay, R.S.H.M., Service and Leadership Award for Seniors

Presented to ten graduating seniors in good academic standing who, during their years at Loyola Marymount, have excelled as leaders and servants. The recipients of the McKay Award have: been instrumental in initiating change; taken on leadership roles that have motivated their peers to challenge themselves and others; enriched the quality of University life by building school spirit and by creating a positive and respectful community; and given selflessly of their time and energy in an attempt to make the world—that of the University, local community, and nation—a better place.
University Honors Program

All University Colleges

Director:
Kelly Younger

Objectives:
The University Honors core curriculum is an intensive undergraduate experience beginning with four interdisciplinary courses in the humanities and sciences with an individualized sequence in writing, critical thinking, and cultural studies. A second-year sequence in historiography, theology, and natural philosophy prepares the Honors student for the third-year seminars in ethics, interdisciplinary studies, and thesis preparation. The fourth year results in the publication of the capstone thesis project; the culmination of independent research under the individual guidance of a professor and the participation in the Senior Thesis Forum.

University Honors students must maintain an average GPA of 3.50 and display proficiency in a foreign language. Successful completion of the University Honors Program is announced at the annual commencement ceremonies and noted on the student’s permanent transcript. This recognition is of lasting personal, professional, and academic value.

The University Honors Program is open to incoming and current first year students. First semester sophomores and transfer students may also apply. More is expected of students in the Honors Program; not everyone is qualified to join. We are interested in: a sense of academic adventure, highly motivated individuals, rigorous educational experience, social awareness, personal responsibility, interesting personal background, a first-rate cumulative GPA (4.0 scale), highly competitive test scores (SAT and/or ACT), the constant pursuit of excellence. Interested students should complete an application; schedule an interview with the Director, Assistant Director, or member of the Honors Advisory Council; provide a critical writing sample; and submit a letter of reference.

Each Fall the University Honors Program carefully selects a limited number of incoming students to join the Program. Application materials are available at http://www.lmu.edu/honors.

Program Requirements:

Year One
HNRS 100: Writing Tutorial
HNRS 101: American Persona
HNRS 115: On the Sublime
HNRS 120: On Human Dignity
HNRS 130: Society and Its Discontents
HNRS 140: On Motion and Mechanics

Year Two
HNRS 215: Imago Dei
HNRS 220: Republic to Prince
HNRS 230: Age of Leviathan
HNRS 240: On the Nature of Things

Year Three
HNRS 330: Beyond Good and Evil
HNRS 398: Interdisciplinary Seminar
HNRS 495: Thesis Seminar I

Year Four
HNRS 496: Thesis Seminar II
HNRS 497: Honors Thesis

Foreign Language Requirement
Proficiency to the level of nine semester hours

Additional core chosen from University offerings:
- Arts, critical or creative
- Theological Studies, 300-level
- Social Science

AP and transfer credits are applicable to the social science and foreign language requirements (as well as results from the Language Placement Examination administered during Summer Orientation). Students pursuing a Bachelor of Science degree or a Bachelor of Arts degree in mathematics are exempt from taking HNRS 140. In addition, Engineering majors take either HNRS 220 or HNRS 230 and are exempt from the social science requirement.

HNRS 100
Writing Tutorial
1 Semester Hour

An individual tutorial which guides students in the writing of clear, logical, and cogent essays, with an emphasis on close and accurate readings of the texts from HNRS 115.

Concurrent enrollment in HNRS 115.

HNRS 101
American Persona
3 Semester Hours

A writing intensive course based on readings reflecting the political, social, and literary diversity of the cultures in which we live.
<table>
<thead>
<tr>

Bellarmine College of Liberal Arts

Administration
Dean: Michael E. Engh, S.J.
Associate Dean: John R. Popiden

Mission of the College
The Bellarmine College of Liberal Arts (BCLA) embodies the wider University goals of liberal education and commitment to Roman Catholicism and the Judaeo-Christian tradition. The curriculum in the College liberates the mind, nourishes the spirit, and cultivates creativity for the challenges of today and tomorrow. Its courses, therefore, are at the heart of the University’s core curriculum for all undergraduates.

BCLA Student Learning Outcomes
By virtue of their liberal arts courses, LMU students should understand:
- The various ways in which knowledge is established and integrated
- The broad outlines of human history and the interconnectedness of the world
- The philosophical and theological dimensions of our intellectual traditions.

By virtue of their liberal arts courses, LMU students should be able to:
- Demonstrate written and oral competencies
- Synthesize and apply knowledge to solve problems, personal and social
- Interact cross-culturally and pursue justice, locally and globally.

By virtue of their liberal arts courses, LMU students should value:
- The life of the mind, enhanced self-awareness and social awareness
- Critical reflection that leads to thoughtful action
- Diversity, responsibility, justice, and globally sound human practice.

Similarly, BCLA students attain the learning outcomes of their majors and minors, found in the following program descriptions.

Organization of the College
The College offers undergraduate majors and/or minors in the following fields of learning:
- African American Studies ..........................AFAM
- Archaeology ........................................ARCH
- Asian Pacific American Studies ..................APAM
- Asian and Pacific Studies .........................ASPA
- Chicano/a Studies .................................CHST
- Classical Civilizations .............................CLCV
- Classics .............................................CLAS
- Economics ..........................................ECON
- English ............................................ENGL
- Ethics ................................................ETHC
- European Studies .................................EURO
- French ...............................................FREN
- German ..............................................GRMN
- Greek ................................................GREK
- History ............................................HIST
- Humanities ........................................HMNT
- Individualized Studies .........................ISLA
- Italian ...............................................ITAL
- Irish Studies .......................................IRST
- Latin ...............................................LATN
- Liberal Studies (Elementary Education) ......LBST
- Modern Greek Studies .........................MDGK
- Peace Studies .....................................PCST
- Philosophy .........................................PHIL
- Political Science ..................................POLS
- Psychology ........................................PSYC
- Sociology .........................................SOCL
Spanish .......................... SPAN
Theological Studies  .............. THST
Urban Studies  ..................... URBN
Women's Studies  .................. WNST

Graduate programs are also offered in Bioethics, English, Philosophy, and Theological Studies. For further information, consult the Graduate Bulletin.

Application of General University Requirements

The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the Bellarmine College of Liberal Arts.

Degree Requirements for a Baccalaureate Degree in the Bellarmine College of Liberal Arts

The degree program has three components: core, major, and electives. The core curriculum, which is taken throughout the four-year program, provides educational breadth and embodies Loyola Marymount's educational mission and vision. The major provides a field of concentration that develops a depth of understanding in the humanities or social sciences. Finally, up to one-third of the program is made up of electives. This provides the opportunity for exploring fields of study complementary to the major or for developing expertise in a second major or minor.

Total Program

120 semester hours are required for graduation with the following distribution: a) at least 45 semester hours of upper division, and b) a maximum of 30 upper division semester hours in any one department will be accepted toward graduation requirements.

No more than 9 semester hours in any of the following programs will be accepted toward degree requirements: ART, DANC (studio technique/performance), MUSC (applied music, studio, or performance), THEA (technical or performance).

Liberal Arts students with a double major or minor in one of the above departments are allowed to exceed the 9 semester hour limit in order to complete their programs. Only those units that are applicable to the double major or minor will be accepted toward graduation requirements.

Enrollment by degree-seeking students at another institution at the same time they are enrolled at LMU is not permitted.

The Bellarmine College of Liberal Arts accepts a maximum of two units of physical education only upon entrance for a new transfer student. Other physical education hours do not count toward degree requirements.

A maximum of 10 semester hours of Aerospace credit will be accepted. This credit is limited to:

- AERO 100: 1 semester hour
- AERO 101: 1 semester hour
- AERO 200: 1 semester hour
- AERO 201: 1 semester hour
- AERO 300/400: 3 semester hours
- AERO 301/401: 3 semester hours

Students should consult the Dean's Office for specific policies applicable to the Bellarmine College of Liberal Arts.

Core Curriculum for the Baccalaureate Degree in the Bellarmine College of Liberal Arts

(Majors in Liberal Studies (LBST), consult page 173.)

American Cultures
3 Semester Hours

Course Selection:
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours

Course Selection:
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- (1.7) or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.
Communication or Critical Thinking
3 Semester Hours

Course Selection:
Communication: Choose from CMST 100, 110, 130, or 140
or
Critical Thinking: Choose from CMST 206 or PHIL 220.

Critical and Creative Arts
6 Semester Hours

Course Selection:
This requirement is satisfied by taking one course from
Critical Arts and one course from Creative Arts.
Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DAN 281, 381; FIL 210, 314, 315; INDA 100; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.
Creative Arts: Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); FIL 260; MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

History
6 Semester Hours

Course Selection:
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.
Western Civilization: Choose from HIST 100 or 101.
Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection:
Prerequisite: Successful completion of college writing requirement.
Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430. Or choose any upper division literature course in a modern or classical language, e.g., CHIN, FLPN, FREN, GREEK, GRMN, ITAL, JAPN, LATN, MDGK, or SPAN.

Mathematics
3 Semester Hours

Course Selection:
Choose MATH 102 or higher. Some majors require a specific mathematics course, which also fulfills this requirement.

Science and Technology
3 Semester Hours

Course Selection:
Choose one lower division course from a department other than Mathematics. Courses numbered 260-279 in each department of the Frank R. Seaver College of Science and Engineering are specifically designed for non-science majors. Choose from BIOL, CHEM, CMSI, ELEC, MECH, NTLS, or PHYS.

Philosophy
6 Semester Hours

Course Selection:
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.
Upper Division:
Choose one PHIL course numbered 320 through 330.

Social Sciences
6 Semester Hours

Course Selection:
1. Select two courses from ECON 100, 110, 120; GEOG 100, 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.
2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100, and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.
3. Select two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.
Theological Studies
6 Semester Hours

Course Selection:
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose from the 300-level series of THST courses only.

Major Requirements
Students must have a major. Please see the following pages for the requirements for specific programs. Students ordinarily enter the University with a major, but may enter undeclared. Undeclared students must declare a major prior to enrolling in classes for their junior year.

Minor Requirements
Students may, if they so desire, dedicate some of their electives in pursuit of a minor. Please see the following pages for the requirements for specific programs.

Recommendations:
Students are encouraged to enrich their program of study with courses from the following areas.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select courses that deal with international and/or global issues. Such courses are offered throughout the University and are available as electives or as options within the core or major. Consult the Bulletin listings.

Internships
Students are encouraged to link academics and career exploration through internships. Internships may be arranged through the Career Development Office. Also, internship courses are offered through various academic departments.

Study Abroad
A semester of international study abroad is also recommended for the junior year. Consult the Study Abroad Office.

First Year Institute
Director: Barbara Roche Rico

The First Year Institute (FYI) is a program for entering first-year students, offering thematically linked core courses. The FYI professors work closely together and coordinate readings, guest speakers, and field trips to complement the classroom experience. Smaller class size allows for a higher level of interaction and engagement.

Students Interested in Teaching in California Public Schools
Students wishing to teach grades K-5 in California public schools are required to obtain a Multiple Subjects Subject Matter Teaching Credential and demonstrate "subject matter competence" to teach the many subjects commonly taught in elementary school. Subject matter competence must be demonstrated by passing the California Subject Examination for Teachers (CSET). To prepare for this examination, students complete the requirements of the Liberal Studies Bachelor's of Arts degree in the Bellarmine College of Liberal Arts. Students interested in the Liberal Studies degree program should consult a Liberal Studies advisor.

Students wishing to teach in grades 6-12 in California public schools are required to obtain a Single Subject Credential and demonstrate "subject matter competence" to teach a particular subject (e.g., English, Social Studies, Foreign Language, Mathematics, or Science). Subject matter competence can be demonstrated by either passing a national exam or by successfully completing an approved subject matter preparation program in English. Students interested in teaching English at the 6-12 grades levels should consult the English Subject Matter advisor in the English Department. The Frank R. Seaver College of Science and Engineering offers an approved single subject preparation program in mathematics. Students interested in teaching mathematics should consult an advisor in the Mathematics Department. Subject matter preparation programs in science, the social sciences, and French are pending, whereas Spanish has been approved.
A Multiple Subjects Subject Matter or Single Subject Matter teaching credential can be earned concurrently with a Bachelor’s degree. Except for Liberal Studies majors, students may declare a minor in Education and begin taking Education courses after completion of 30 semester hours (first semester Sophomore standing). In order to maximize the full potential of taking Education courses with the undergraduate program, students are strongly encouraged to declare the Education minor early in their career. Credential programs are also available in Special Education (K-12) and Bilingual Education (Spanish, K-12). For more information on Education programs, see the School of Education section in this Bulletin.
African American Studies

Faculty:

Acting Chairperson: Ronald K. Barrett
Associate Professor: John A. Davis
Assistant Professors: Dionne Bennett, Dianne D. Glave

Objectives:

African American Studies is an interdisciplinary department with a worldview grounded in the perspective of Africa and the Diaspora. This worldview forms the basis of our intellectual, theoretical, and methodological approaches. The objective of African American Studies is to understand the forces that impact the lives of people of African descent in America as well as the influences of African descent on America and beyond. The Department's curriculum challenges students to integrate knowledge and analytical skills from disciplines such as sociology, history, literature, political science, philosophy, and economics so that a more holistic understanding emerges.

By examining the lived experiences of Africans in America and throughout the Diaspora from the perspective of various disciplines, students develop a deeper understanding of themselves and their interactions within a diverse society. Thus, African American Studies provides students with an excellent preparation for graduate study, professional schools, and numerous employment opportunities that require a Bachelor of Arts degree.

African American Studies Student Learning Outcomes

By virtue of exposure to African American Studies courses,

African American Studies students should know:

- The general history of African American people in the U.S. and the Diaspora
- The significance of the concept of an African world-view and its significance to African American-centered scholarship
- How to conduct social science research and to interpret scientific data
- The basic research questions posed by the various disciplines contributing to a better understanding of the African American experience
- The value of embracing the concept of diversity in the modern and complex world in which we live

- The pathways to graduate schools and professional careers provided to a major or minor in African American Studies
- The scope and content of African-centered knowledge systems;

African American Studies students should be able to:

- Effectively employ social science methodologies in the analysis of issues related to African Americans
- Demonstrate written and oral competencies in the analysis of theories and practices
- Identify and utilize appropriate primary data, including census and demographic data
- Apply their understanding of social issues to the development and critical analysis of programs and policies that impact residents in rural and urban areas
- Develop a basic knowledge and appreciation of the Black Aesthetic
- Develop an understanding of the forces that negatively impact the Black family and other institutions in the Black community;

African American Studies students should value:

- The contributions of Black people to America and to world civilization
- The importance of diversity in a complex world
- Critical thinking as an important problem solving skill
- Community service and service learning as meaningful activities
- The dignity of all human cultures.

Major Requirements:

Lower Division:

AFAM 115
AFAM 150
AFAM 155

One course in research methods chosen from the following:

AFAM 208
POLS 210
SOCL 109

Upper Division:

24 semester hours in upper division courses must include AFAM 335 (SOCL 335) and AFAM 497. AFAM 335 should be taken in the first semester of the junior or senior year. AFAM 497 should be
taken in the senior year. The remaining 18 hours are to be chosen from the five focus areas in which the upper division courses in African American Studies are grouped: I) Sociology, II) History, III) Literature/English, IV) Economics and Urban Studies, V) Senior Seminar. An average grade of C (2.0) must be obtained in courses included in the major.

I. Sociology
AFAM 301 Black Family Life
AFAM 334 Race and Ethnic Relations*
AFAM 335 Sociology of the Black Community
AFAM 435 Sex, Race, and Violence
AFAM 485 African American Social Thought*

II. History
AFAM 390 African Kingdom*
AFAM 392 Colonial Africa 1860-1960*
AFAM 490 The Nile Quest*
AFAM 491 South Africa*
AFAM 590 Seminar in African History*

III. Literature/English
AFAM 337 Black Arts Movements
AFAM 395 Black Drama
AFAM 396 Survey of African Amer. Literature

IV. Economics and Urban Studies
AFAM 326 Econ. Dev. Minority Communities*
AFAM 365 Metropolitan L.A.*

V. Senior Seminar
AFAM 497 Senior Seminar

* cross-listed courses

Minor Requirements:
18 semester hours, including AFAM 115, 150 or 155, and 335 and nine (9) semester hours in upper division courses. An average grade of C (2.0) must be obtained in the courses included in the minor.

African American Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the plan below, a student will complete all lower division core requirements by the end of the sophomore year as well as AFAM major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

---

### AFAM 115

**Introduction to African American Studies**

*3 Semester Hours*

An introductory course designed to give an overview of African American Studies in order to familiarize the student with the history, culture, aspirations, and contemporary issues of the African American experience.

### AFAM 150

**Black Cultural Arts**

*3 Semester Hours*

A study of Black American art forms, such as music, dance, theatre, film, painting, sculpture, and literature, as they have developed in the African Diaspora from slavery to the modern age.

### AFAM 155

**African American History**

*3 Semester Hours*

An analysis of the historical forces which shaped the African American experience in America from past to present.

### AFAM 198

**Special Studies**

*1-3 Semester Hours*

### AFAM 199

**Independent Studies**

*1-3 Semester Hours*

### AFAM 208

**Social Research Methods**

*3 Semester Hours*

An introduction to scientific inquiry and research methods in the social sciences with special emphasis on African Americans.
AFAM 298
Special Studies
1-3 Semester Hours

AFAM 299
Independent Studies
1-3 Semester Hours

AFAM 301
Black Family Life
3 Semester Hours

This course examines relevant issues about life within the Black Family and the impact that these issues have on the individual, the community, and the society at large. Emphasis is placed on myths, gender roles, socialization, parenting styles, and male/female relationships. The course gives students an opportunity to select an aspect of Black life and do an in-depth critical analysis of it with a focus on the current research, competing views, and implications for the future.

AFAM 335
Sociology of the Black Community
3 Semester Hours

A survey of the effects of long-standing discrimination and deprivation upon family structure, occupational patterns, health and educational conditions, motivation, and personal as well as group identity. An analysis of the Black power concept and its influence upon the growing community control of the ghetto.

AFAM 337
Black Arts Movement
3 Semester Hours

AFAM 395
Black Drama
3 Semester Hours

A survey of dramatic literature written by African American playwrights from the 19th century to the current day. Representative playwrights include Garland Anderson, Theodore Ward, Langston Hughes, James Baldwin, Lorraine Hansberry, Charles Gordone, Charles Fuller, Ntozake Shange, and August Wilson. Students will have opportunities to attend live performances of African American drama in L.A. communities and to stage readings of selected works.

AFAM 396
Survey of African American Literature
3 Semester Hours

A study of the major themes in selected works of African American literature; examination of their social, historical, cultural, and contemporary significance.

AFAM 398
Special Studies
1-3 Semester Hours

AFAM 399
Independent Studies
1-3 Semester Hours

AFAM 435
Sex, Race, and Violence
3 Semester Hours

This course examines the issues of sex, race, and violence and their implications for the individual, the family, and the community. Emphasis is placed on the role of socialization and the myths that impact societal attitudes about sex and violence. Students have an opportunity to identify and to explore factors that influence the manifestation of physical violence (including dating violence, child abuse, and domestic violence) and sexual violence (including date rape, stranger rape, and marital rape) across the dimensions of race, ethnicity, and gender.

AFAM 485
African American Social Thought
3 Semester Hours

A survey of the development of African American social thought with special emphasis upon current philosophies which have influenced contemporary African American social movements.

AFAM 497
Senior Seminar
3 Semester Hours

Designed as a capstone experience for African American Studies majors and minors. In the seminar format, students will be challenged to integrate knowledge, skills gained in course work, and life experiences into a meaningful project that meets the challenge of academic excellence and social responsibility.

Prerequisite: Senior standing.
AFAM 498
Special Studies

American Cultures Studies

Coordinator:
Deena J. González

Mission of American Cultures Studies

Courses in American Cultures Studies will enhance students' familiarity with and appreciation of several of the diverse cultural groups that comprise the multi-ethnic society of the United States. The in-depth, comparative, and interdisciplinary study of the cultures, behaviors, experiences, and inter-group relations of the following groups—African American, Asian/Pacific Islander American, Chicano/Latino American, European American, and Native American—will provide students with some of the strategies and help them gain competencies and sensibilities that will enable them to contribute to and thrive in a culturally diverse world. (It is understood that the above categories do not include the entirety of peoples comprising the United States of America. Moreover, it is recognized that a rich variety of cultures is also represented within these broad groups.)

Students will strengthen their knowledge and awareness of their own ethnic or cultural group. They will also develop their own creative and critical faculties, their own analytical and affective responses to various forms of cultural expression. This approach would, by definition, coax students to challenge the boundaries of ethnicity, culture, and academic discipline. In so doing, students will not only improve their intergroup communication skills, they will also become better able to see, appreciate, and respect the perspectives of others—factors that are essential to the creation of a more understanding and just society.

Goals of American Cultures Studies

Courses in American Cultures Studies are designed to:
- Provide strategies and enable competencies necessary to thrive in and contribute to a multi-ethnic and inter-cultural environment.
- Link theory and practice in the Jesuit-Marymount tradition.

American Cultures Studies Student Learning Outcomes

Students who have completed an AMCS course will:
- Know the histories, cultures, and politics of major ethno-racial groups in American society
- Know the role of race and ethnicity in shaping the American experience.

Students who have completed an AMCS course will be able to:
- Become more informed and effective participants in a culturally diverse world
- Evaluate the multiracial and multiethnic dimension of American life.

Students who have completed an AMCS course will value:
- Historical and contemporary efforts to build a more just and inclusive America
- Commitment to social justice and interculturalism.

All courses in this curriculum satisfy the AMCS component of the student’s core requirement. Some of the courses are also cross-listed in other disciplines.

AMCS 100
Introduction to American Cultures
3 Semester Hours

Lower division introductory courses in American Cultures Studies explore the meaning and dynamics of such issues as race, ethnicity, gender, class, sexuality, and other factors that define members of our society. These issues are explored from the vantage point of at least three ethno-cultural groups. Courses may be taught from myriad disciplinary perspectives and emphasize the development of basic skills for understanding and interacting in today's multicultural society.

Prerequisite: Freshman and Sophomore students only.

AMCS 161
Young America: 1607-1900
3 Semester Hours

(See HIST 161)

AMCS 198
Special Studies
1-3 Semester Hours

Prerequisite: Freshman and Sophomore students only.

AMCS 199
Independent Studies
1-3 Semester Hours

AMCS 298
Special Studies
1-3 Semester Hours

Prerequisite: Freshman and Sophomore students only.
AMCS 299
Independent Studies
1-3 Semester Hours

AMCS 300
Advanced Survey of American Cultures
3 Semester Hours

Upper division courses in American Cultures Studies explore the meaning and dynamics of race, ethnicity, class, sexuality, and other factors that define members of our society. These issues are explored from the vantage point of at least three ethno-cultural groups. Courses may be taught from myriad disciplinary perspectives and emphasize the development of basic skills for understanding and interacting in today’s multicultural society.

Prerequisite: Junior and Senior students only.

AMCS 398
Special Studies
1-3 Semester Hours

Prerequisite: Junior and Senior students only.

AMCS 399
Independent Studies
1-3 Semester Hours
Asian and Pacific Studies

Director:
Robin Wang

Objectives:
Asian and Pacific Studies, an interdisciplinary area studies program, provides a general background to the traditions and cultures of Asia and the Pacific as well as an understanding of contemporary issues relating to that region. Furthermore, given the present shift of interest to the Pacific region, it aims to deepen the student’s knowledge of Asia and the Pacific or of a country/area through a concentrated study in one academic discipline. This academic program, therefore, is intended to develop the student’s personal interest in Asian and Pacific affairs and to prepare her or him for Asia-related career opportunities. All students are encouraged to spend some time in Asia through the various programs available to them.

Asian and Pacific Studies Student Learning Outcomes

• Students will come to understand the culture of the Asia Pacific region and its contributions to human civilization, with special attention to distinctively Asian culture and spiritual traditions that originated in this region;

• Students will enhance their competencies by doing original research on topics of concern in the Asia Pacific region, and communicate their findings in both written and oral presentations. Students will also acquire a basic knowledge and skill in an Asian language;

• Students will have the opportunity to develop self-awareness by exploring interactively the relationships between their own cultures and those of the Asian Pacific region.

Major Requirements:

Lower Division Requirements (18 semester hours) including:

ASPA 201 Asian Civilizations
HIST 182 Modern Asia

Language Requirement:

Study of an Asian language (competence expected is the equivalent of a two-year study, i.e., 12 semester hours).

Native speakers of an Asian language may be exempted from the language requirement but will be strongly encouraged to study another language. At LMU, course credit may be obtained for CHIN 101, 102, 203, 204; CLCV 201, 202 (Sanskrit); FLPN 101, 102, 203, 204; JAPN 101, 102, 203, 204. At UCLA, credit may be obtained through the SOCCIS program for Arabic, Korean, and Mongolian.

Upper Division Requirements (24 semester hours):

ASPA 301, 305, 500.

Choose the additional fifteen upper-division semester hours from ASPA courses or, in consultation with the Director, from courses with substantial content focused on Asia and the Pacific region in other disciplines, including art, business, economics, history, philosophy, political science, and theological studies.

Minor Requirements:

18 semester hours

HIST 182, one semester of Asian language, plus 12 upper-division semester hours in ASPA including ASAP 500. In consultation with the Director, the student may choose one course in another college or school, provided it has substantial content focused on Asia and the Pacific region.

Asian and Pacific Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as ASPA major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

**ASPA 301 Geography of Asia and the Pacific (3 Semester Hours)**

An introductory geography class in which basic geography concepts and the relationship between humans and nature are presented in the context of East and Southeast Asia. Emphasis will be placed on the study of resource base and the impact of the economy upon settlement, agriculture, transportation, and industrial growth in Asian countries and regions.

**ASPA 305 Economic and Political Issues in Contemporary Asia (3 Semester Hours)**

This course covers various issues that contemporary Asia, the most politically, economically, and socially dynamic region in the world today, is facing. Some of the issues to be dealt with are: economic uncertainties in Asian nations, population, human rights, reunification, and others.

**ASPA 386 Introduction to Asian Literature (3 Semester Hours)**

An introductory course in Asian literature from China, Japan, and India. Various literary genres such as poetry, fiction, diary, biographies, and drama and their relation to the Asian literary tradition will be examined.

**ASPA 486 Topics in Asian Literature (3 Semester Hours)**

The subject matter of this course will vary from semester to semester.

**ASPA 487 Asian Mythology (3 Semester Hours)**

This class will examine mythology and folktales from various Asian traditions: China, Japan, Korea, and India. The reading materials will be examined through psychological, philosophical, and cultural approaches. The topics for discussion include creation myths, heaven and hell, the mythic hero, metamorphosis, and immortality.

**ASPA 488 Modern Asian Fiction (3 Semester Hours)**

This course examines twentieth-century Chinese and Japanese fiction through the study of novels, short stories, novellas, biographies, diaries, and film. The class will also study major literary trends and movements.

**ASPA 489 Women in Asian Literature (3 Semester Hours)**

This course is a cross-cultural study of Asian women through the analysis of literary works including drama, fiction, and diaries in both classical and modern literature in China, Japan, Korea, and India. The class will examine patterns of sexism, women as literary subjects and personae, as well as images of women in various socio-sexual roles.

**ASPA 490 Asian Women Writers (3 Semester Hours)**

This is a cross-cultural study of Asian women writers through the readings of poetry, short stories, autobiographies, diaries, and novels. Most readings are derived from contemporary female writers from China, Japan, Korea, Hong Kong, Taiwan, and the United States.
ASPA 500
Senior Integrating Seminar
3 Semester Hours

This requirement enables the students to integrate their work in Asian and Pacific Studies. The actual content of the course will depend on the student's chosen focus. Students write a senior thesis under the guidance of a faculty member. The thesis, while focused on a particular topic, is intended to be interdisciplinary.

Upper Division Electives

Bellarmine College of Liberal Arts:

- APAM 371 Asian American Literature
- APAM 417 Contemporary Issues of Asian Pacific Americans
- APAM 427 Asian American Psychology
- HIST 482 Imperial China
- HIST 483 Modern China
- HIST 484 Age of Samurai
- HIST 485 Twentieth-Century Japan
- HIST 580 Seminar in Asian History
- PHIL 364 Asian Philosophy
- PHIL 365 Chinese Philosophy
- POLS 355 Politics of Asia
- SOCL 375 Hawaii and the Pacific Islands
- THST 382 Religions of India
- THST 384 Religions of East Asia
- THST 385 Buddhism
- THST 480 Topics in Comparative Theology

College of Communication and Fine Arts:

- ARHS 320 The Arts of Islam
- ARHS 321 Arts of Asia: Zen
- ARHS 420 Arts of Early India
- ARHS 421 Arts of Later India
- ARHS 425 Arts of China
- ARHS 428 Arts of Japan
- DANC 371 Martial Arts (2 semester hours)
- DANC 372 Martial Arts in China (2 semester hours)
- DANC 374 Yoga (2 semester hours)
- MUSC 403 Music of Indonesia
- MUSC 404 Music of India
- MUSC 454 World Music: Small Ensemble
- MUSC 455 World Music: Large Ensemble
- THEA 348 Asian Spirit in Drama

College of Business Administration:

- FNCE 442 Multinationals and the Third World
- INBA 340 Intro. to International Business
- TOUR 381 Travel and Tourism Internship
- TOUR 382 Marketing Travel and Tourism
- TOUR 384 Financial Management in Travel & Tourism
- TOUR 484 Eco-Tourism

Credit is contingent upon substantial work on Asia and/or the Pacific. Check for course prerequisites or requirements.

Additionally, courses in BLAW, ECON, FNCE, MGMT, MRKT, and POLS with an international focus and courses in DANC, ENGL, and MUSC with a world focus and that have substantial work on Asia and/or the Pacific may fulfill upper division hours in the major or minor. Please consult with the Director.

In all cases, check for course prerequisites or requirements.
Asian Pacific American Studies

Acting Director:
Stella Oh

Objectives:
Asian Pacific American Studies (APAM) is a program that supports Loyola Marymount’s commitment to multicultural education. APAM grew out of the Asian Pacific Studies Program (ASPA) in 1992. While ASPA focuses on the traditions and cultures of Asia and the Pacific, APAM is designed to enhance student understanding of the history and contemporary issues that impact the lives of Asian Pacific Americans in the United States. A minor in APAM is available at LMU.

People of all races and ethnicities are encouraged to enroll in APAM courses. Only through a critical understanding of our multicultural society can we begin to “live together, learn together, work together, and forge new ties that bind together.”

Asian Pacific American Studies Student Learning Outcomes

- A greater understanding of the historical contributions of Asian Pacific Americans
- A more critical understanding of contemporary issues facing the Asian Pacific American communities
- A deeper appreciation of the ethnic, class, gender, and generation diversity of Asian Pacific Americans
- A greater appreciation of Asian Pacific American cultural, literary, and artistic expressions

APAM Minor Requirements

18 semester hours

APAM 117
Introduction to Asian Pacific American Studies
3 Semester Hours

An introductory course which surveys the cultures and histories of the Asian Pacific American in the U.S. Interaction among various Asian Pacific American groups and various issues facing Asian Pacific Americans in the United States will also be discussed.

Fulfills core curriculum requirement for Social Sciences.

The Bioethics Institute

Faculty:

Director: James J. Walter  
Professor: James J. Walter (O’Malley Chair)  
Assistant Professor: Roberto Dell’Oro  
Adjunct Professor: Michael B. Pesce

The Bioethics Institute is a graduate department within the Bellarmine College of Liberal Arts. The faculty teach not only graduate courses within the College but also offer courses in bioethics at the undergraduate level through the Department of Theological Studies. Please consult the course listings of that department for further details.
Chicana/o Studies

Faculty:

Chairperson: Deena J. González
Professor: Deena J. González
Associate Professors: KarenMary Davalos, Fernando J. Guerra
Assistant Professor: “Sonny” Richard E. Espinoza

Objectives:

The interdisciplinary Chicana/o Studies curriculum is designed to enhance the students’ understanding of the unique influence of the Chicano/Latino community in the United States. It is the belief of the Department that a liberal arts education should expose students to as many cultures and perspectives as possible. This exposure emphasizes the following aspects of the goals of the University: the encouragement of learning, the education of the whole person, the service of faith, and the promotion of justice. The goals of Chicana/o Studies have a special meaning given the significant historical and contemporary presence of Mexican and Chicana/o peoples in Los Angeles. Chicana/o Studies courses attempt to prepare all students to live in and contribute to a society which is increasingly diverse.

Chicana/o Studies Student Learning Outcomes

At the end of a course of study, in the major or minor in Chicana/o Studies, students will be able to:

- Interpret, define, and evaluate historical and contemporary information about Mexican-origin people living in the U.S.;
- Use and apply humanistic, scientific, and/or social science methods to arrive at their understandings about Chicana/os;
- Compare and contrast recent theories, methodologies, ideas, and developments central to the discipline of Chicana/o Studies.

Major Requirements:

Lower Division Requirements:

9 semester hours

CHST 116
CHST 126
CHST 206

Upper Division Requirements:

24 semester hours: 12 semester hours in upper division requirements (CHST 302, 332, 360, and 461) and 12 semester hours in Chicana/o Studies upper division electives.

Minor Requirements:

18 semester hours: CHST 116, 206, 302, 360, 461, and one additional Chicana/o Studies upper division course.

Chicana/o Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

### Course Descriptions

#### CHST 116
**Introduction to Chicana/o Studies**
3 Semester Hours

An interdisciplinary overview of Chicana/o Studies to familiarize the student with historical and contemporary issues in Chicana/o and Latina/o communities.

#### CHST 126
**Chicana/o Cultural Production**
3 Semester Hours

Examines contemporary Chicana/o cultural production, including performance, film, and art. Comparisons are made to other ethnic groups and crosscultural production.

#### CHST 198
**Special Studies**
1-3 Semester Hours

#### CHST 199
**Independent Studies**
1-3 Semester Hours

#### CHST 206
**Introduction to Chicana/o-Latina/o Literature**
3 Semester Hours

An overview of a range of genres, themes, and concepts created by Chicana/o and other U.S. Latina/o writers.

</table>

CHST 298: Special Studies
--------------------------------------------------
1-3 Semester Hours

CHST 299: Independent Studies
--------------------------------------------------
1-3 Semester Hours

CHST 302: Chicanas and Other Latinas in the U.S.
--------------------------------------------------
3 Semester Hours
Analysis of the historical, social, and cultural variables that have conditioned the roles of Chicanas and Latinas in the U.S.

CHST 306: Chicana/o Popular Culture
--------------------------------------------------
3 Semester Hours
Surveys Chicano/a popular culture and critically examines the content, styles, and meanings of religious rituals, sports, music, graffiti, murals, and theater arts.

CHST 308: Contemporary Urban Chicana/o and Other Latina/o Issues
--------------------------------------------------
3 Semester Hours
Using service learning in Los Angeles, the course helps students understand how the lives of Chicanas/os and Latinos/as are shaped by politics, economics, culture, history, and access to nation-state institutions.

CHST 332: Survey of Chicana/o-Latina/o Literature
--------------------------------------------------
3 Semester Hours
A course to acquaint students with prose, poetry, drama, essay, and literary criticism written by Chicana/o-Latina/o authors.

CHST 337: Racial and Ethnic Politics
--------------------------------------------------
3 Semester Hours
Comparative analysis of racial and ethnic groups within the United States political system. A focus on the effect of political institutions on minority groups at federal, state, and local levels. Examines the experience of minority groups to illuminate political process in the U.S.

(See POLS 337)

CHST 348: Latina Writers
--------------------------------------------------
3 Semester Hours
A study of novels written by Latinas from both sides of the border. Included are the works of contemporary women novelists of the United States, as well as those from Mexico, Argentina, and Chile.

CHST 350: Survey: Anthropology of Chicanas/os
--------------------------------------------------
3 Semester Hours
This survey course reviews the classic texts and the most current research on Chicana/o populations. It traces the theories used to analyze Chicana/o communities: cultural determinism, nationalism, interpretive methods, socialist feminist cultural theory, postmodernism, and critical theory.

CHST 360: Chicana/o History
--------------------------------------------------
3 Semester Hours
An analytical survey of Native America, Mexican America, and the recent past with a focus on race, ethnicity, sexuality, and class.

CHST 366: History of California
--------------------------------------------------
3 Semester Hours
(See HIST 366)

CHST 372: History of Mexico
--------------------------------------------------
3 Semester Hours
(See HIST 372)

CHST 398: Special Studies
--------------------------------------------------
1-3 Semester Hours

CHST 399: Independent Studies
--------------------------------------------------
1-3 Semester Hours

CHST 404: Chicana and Third World Feminisms
--------------------------------------------------
3 Semester Hours
Focuses on current writings by Chicana feminists and connects this material to African American and Asian American feminist theory. The course traces the development of Chicana feminism and its concern with the interlocking conditions of gender, race, sexuality, and class.
### CHST 405
**Chicana/o Critical Thought**
3 Semester Hours

This interdisciplinary course examines Chicano and Chicana critical and philosophical thought from Meso-American cosmology to Chicana/o Critical Race Theory.

### CHST 406
**Chicana/o Conciencia**
3 Semester Hours

Surveys through literature and critical theory a Chicana/o form of conciencia, Spanish for “consciousness.”

### CHST 407
**Chicana/o Art: Performing Politics**
3 Semester Hours

A historical and social investigation of Chicana/o art and the politics of identity and museum practices, including exhibition, collection, interpretation, and preservation. The course includes options for curating a virtual art gallery and field trips.

### CHST 407
**The Politics of California**
1-3 Semester Hours

An examination of the structure and dynamics of California government and politics.

(See POLS 435)

### CHST 436
**The Politics of Los Angeles**
3 Semester Hours

A study of the structure and dynamics of county, city, and special district governments in the Los Angeles metropolitan area.

(See POLS 436)

### CHST 437
**Chicana/o Politics**
3 Semester Hours

A study of the social and political development of the Chicano community in the United States.

(See POLS 437)

### CHST 460
**The Chicana/o Southwest**
3 Semester Hours

An examination of the historical and contemporary issues shaping this important region of the U.S. Attention to indigenous communities, women, and current political issues.

### CHST 461
**Chicana/o Research Seminar**
3 Semester Hours

A seminar and practicum using the research tools of social scientists and humanists, including oral interviews and primary documents to explore Mexican/American, Chicana/o Los Angeles. The collections of the Center for the Study of Los Angeles assist the topics students explore.

### CHST 465
**Chicana/os-Latina/os in Film and Mass Media**
3 Semester Hours

An examination of film and other forms of mass media, focusing on issues of representation as well as production. Subject matter alternates between Chicano cinema and Mexican/Latin American cinema.

### CHST 498
**Special Studies**
1-3 Semester Hours

### CHST 499
**Independent Studies**
1-3 Semester Hours

### Recommended Electives

For the purpose of providing our majors and minors with a broader perspective, the Department recommends courses in American Cultures Studies that include a Latino component, as well as the following courses:

- GEOG 361 Geog. of Mexico & Central America
- HIST 172 Modern Latin America
- HIST 367 History of Los Angeles
- POLS 354 Politics of Latin America
- PSYC 324 Ethnopsychology
- SOCL 334 Race and Ethnic Relations
- SOCL 336 Social Stratification
- SPAN 441 Latin American Novel
- SPAN 442 Latin American Poetry
- SPAN 443 Latin American Women Writers
- SPAN 444 Latin American Drama
- THST 346 The Latino Exp. in the U.S. Church
Classics and Archaeology

Faculty:
Chairperson: Matthew Dillon
Professors: Matthew Dillon, William J. Fulco, S.J., Robert B. Lawton, S.J.
Associate Professor: Katerina Zacharia
Assistant Professor: Ethan Adams

Objectives:
The study of Greek and Latin language and literature, the foundation of the Western humanistic and scientific traditions, offers the student a well-rounded liberal arts education. It is also a practical study. The student receives an excellent preparation not only for the graduate study of Classics, Theology, or Comparative Literature but also for professional school in law, medicine, or business.

Classics and Archaeology Student Learning Outcomes
As a Classics major, the student will:
- Master the grammar and syntax of Classical Greek and Latin;
- Be able to read and analyze Classical authors in the original;
- Value the lasting influence of Greco-Roman literature from antiquity to the present.

As a Classical Civilizations major, the student will:
- Know numerous aspects of Ancient Mediterranean and Near Eastern culture, including language (optional, but recommended); literature, in the original or in translation; art; history; archaeology;
- Be able to express with elegant language ideas and arguments about these cultures;
- Value the lasting influence of these cultures from antiquity to the present.

As a Greek major, the student will:
- Master the grammar and syntax of Classical Greek;
- Be able to read and analyze Greek authors in the original;
- Value the lasting influence of Greek literature from antiquity to the present.

As a Latin major, the student will:
- Master the grammar and syntax of Classical Latin;
- Be able to read and analyze Latin authors in the original;
- Value the lasting influence of Roman literature from antiquity to the present.

Major Programs
The Department of Classics and Archaeology offers a variety of majors: Classics, Greek, Latin, and Classical Civilizations. The Classics major offers a traditional training in both Greek and Latin language and literature (in the original), although students may opt to major exclusively in Greek or Latin. The Classical Civilizations major allows the student to study the cultures of Greece, Rome, and the Near East from various cultural perspectives in conjunction with other departments; in this major, language study is encouraged but not required.

Classics Major: Requirements
Lower Division (18 semester hours):
LATN 101, 102, and 201.
GREK 101, 102, and 201.
These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.

Note: It is recommended that Classics majors take HIST 100 as part of the University Core.

Upper Division Requirements (24 semester hours):
LATN 302 and GREK 302
These requirements may be waived if the student has received prior language sufficient for entry into higher level upper division courses. A total of 24 upper division units is still required for the major.

GREK 303 or LATN 303
GREK 311
LATN 312
LATN 321
and one additional upper division course in GREK or LATN.

In certain circumstances, upper division Classical Civilization courses may be substituted for upper division Latin or Greek, at the discretion of the Chairperson of the Department.
Graduation with Honors: an additional 3 semester hours

In addition to the program above, a student wishing to graduate with honors in Classics must complete CLCV 500: Senior Thesis. See below.

Classics Minor: Requirements

18 semester hours, at least 9 in upper division. All courses must be in Greek and/or Latin Language and Literature. Students who test out of lower division language courses will fulfill 18 semester hours in the upper division.

Upper Division Requirements:
- GREK 303 or LATN 303
- GREK 311 or LATN 312

Classical Civilizations Major: Requirements

The Classical Civilizations major is an interdisciplinary program focusing on the classical civilizations of Greece, Rome, and the Near East through the study of literature, history, archaeology, art history, philosophy, theatre, and theology. Greek and/or Latin language study is encouraged but not required.

The Classical Civilizations major consists of 39 semester hours, at least 24 of which must be in upper division courses emphasizing Greek, Roman, or Near Eastern civilization. The study of the Greek and/or Latin language is highly recommended.

Lower Division Requirements (9 semester hours):
- CLCV 200
- CLCV 210 or CLCV 220
- CLCV 230

Note: It is recommended that HIST 100 be taken as the core class in Western Civilization.

Upper Division Requirements (24 semester hours):
- CLCV 305
- CLCV 451
- ARCH 361 or ARCH 364 or ARCH 401

The remaining 15 semester hours may be elected from any upper division CLCV, LATN, GREK, and ARCH offerings. In addition, the following courses may be taken as part of the Classical Civilizations major, with the approval of the Director of the major:

- HIST 405, 406, 407, 408, 410, 411
- PHIL 381, 382
- THEA 331
- THST 320

Graduation with Honors: an additional 3 semester hours

In addition to the program above, a student wishing to graduate with honors in Classical Civilizations must complete CLCV 500: Senior Thesis. See below.

Classical Civilizations Minor: Requirements

18 semester hours, at least 9 in the upper division.

Lower Division Requirement:
- CLCV 200 or CLCV 210

Upper Division Requirement:
- CLCV 451

Greek Major: Requirements

Lower Division:
- GREK 101, 102, 201;
  Note: These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.

Upper Division (24 semester hours):
- GREK 302
  Note: This requirement may be waived if the student has received prior language sufficient for entry into higher level upper division courses. A total of 24 upper division semester hours is still required for the major.
- GREK 303
- GREK 311
- GREK 312
- GREK 321 or GREK 322

and an additional 9 semester hours of upper division GREK

Graduation with Honors: an additional 3 semester hours

In addition to the program above, a student wishing to graduate with honors in Greek must complete CLCV 500: Senior Thesis. See below.
Greek Minor: Requirements

18 semester hours, at least 9 in the upper division.

Lower Division Requirements:

GREK 101, 102, 201

Note: Students who test out of lower division language courses will fulfill 18 semester hours of upper division work in Greek language and literature.

Upper Division Requirements:

GREK 302 or 303
GREK 311 or 312
GREK 321 or 322

Latin Minor: Requirements

18 semester hours, at least 9 in the upper division.

Lower Division Requirements:

LATN 101, 102, 201

Note: Students who test out of lower division language courses will fulfill 18 semester hours of upper division work in Latin language and literature.

Upper Division Requirements:

LATN 302 or 303
LATN 311 or 312
LATN 321

Graduation with Honors: an additional 3 semester hours

In addition to the program above, a student wishing to graduate with honors in Latin must complete CLCV 500: Senior Thesis. See below.

Latin Major: Requirements

18 semester hours, at least 9 in the upper division.

Lower Division Requirements:

LATN 101, 102, 201

Note: These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.

Upper Division Requirements (24 semester hours):

LATN 302

Note: This requirement may be waived if the student has received prior language sufficient for entry into higher level upper division courses. A total of 24 upper division semester hours is still required for the major.

LATN 303
LATN 311
LATN 312
LATN 321
and an additional 9 semester hours of upper division LATN

Graduation with Honors: CLCV 500: Senior Thesis

For Graduation with Honors in Classics, Classical Civilizations, Latin, or Greek, the student must have a minimum GPA of 3.3 within the major, enroll in CLCV 500: Senior Thesis, and receive at least a grade of B+ (3.3) on that project. A thesis prospectus must be approved in the previous semester by the faculty member who will oversee the project.

Archaeology Minor: Requirements

The minor in Archaeology consists of ARCH 401 and 15 additional semester hours, of which 6 may be in courses in an appropriate Mediterranean language (e.g., ancient or modern Greek, Latin, Hebrew, or Arabic, or a Romance language if it is relevant to a particular archaeological emphasis).

For the minor in Modern Greek Studies, see below.

Classics Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.
CLCV 305
Art and Architecture of the Ancient World
3 Semester Hours
A survey of significant monuments of art and architecture in the ancient world, with an emphasis on form and function in the cultural context. This course may be repeated for credit.

CLCV 353
Religions of the Greeks and Romans
3 Semester Hours
Study of the religious practices and beliefs of the Greeks and Romans from the archaic period to the triumph of Christianity.

CLCV 398
Special Studies
1-3 Semester Hours

CLCV 399
Independent Studies
1-3 Semester Hours

CLCV 415
Special Topics in Classical Civilizations
3 Semester Hours
This course may be repeated for credit.

CLCV 450
The Axial Age
3 Semester Hours
A study of the philosophy and culture of Eurasia in the 6th and 5th centuries B.C., with special emphasis on the great teachers of the Age: Socrates, Zoroaster, the later Hebrew Prophets, the Buddha, Confucius, and Laozi.

CLCV 451
Myth in Literature
3 Semester Hours
Study of the basic myths and myth patterns of the Greeks and Romans and their mythological heritage in Western literature.

CLCV 452
Women and Sexuality in Classical Antiquity
3 Semester Hours
Study of the status and roles of women in classical Greece and Rome, as well as other gender issues.

CLCV 453
Rome and Hollywood
3 Semester Hours
Study of modern cinematic representations of Roman civilization.

CLCV 454
Greek Cinema
3 Semester Hours
Study of the reworking of themes from Greek myth and literature in Greek cinema.

CLCV 498
Special Studies
1-3 Semester Hours

CLCV 499
Independent Studies
1-3 Semester Hours

CLCV 500
Senior Thesis
3 Semester Hours
The topic for the senior thesis will be selected by the student in consultation with a faculty advisor.
Greek

The GREK 101, 102, 201 sequence covers the full grammar and syntax of the Classical language and prepares the student to read and write basic prose. This series requires one additional weekly contact hour for drill and practice.

For Modern Greek, please see below.

GREK 101
Elementary Greek I
3 Semester Hours

The fundamentals of Classical Greek, including three declensions, personal and demonstrative pronouns, adjectives; the omega verb: present, imperfect, future, first aorist, active, and middle-passive; exercises in reading.

Prerequisite: GREK 101 or equivalent.

GREK 102
Elementary Greek II
3 Semester Hours

A continuation of GREK 101, including second aorist, perfect active, middle-passive; aorist passive; subjunctive; participles; relative pronouns; exercises in reading.

Prerequisite: GREK 101 or equivalent.

GREK 198
Special Studies
1-3 Semester Hours

GREK 199
Independent Studies
1-3 Semester Hours

GREK 201
Intermediate Greek
3 Semester Hours

Grammar review and selections from prose authors.

Prerequisite: GREK 102 or equivalent.

GREK 298
Special Studies
1-3 Semester Hours

GREK 299
Independent Studies
1-3 Semester Hours

GREK 302
Reading Comprehension
3 Semester Hours

In this course we will study excerpts from the historical works of Herodotus and Plato's *Apology of Socrates.*

Prerequisite: GREK 201 or equivalent.

GREK 303
Greek Prose Composition and Metrics
3 Semester Hours

Basic prose composition and study of poetic forms.

Prerequisite: GREK 302 or equivalent.

GREK 311
Readings in Homeric Greek
3 Semester Hours

Readings in the *Iliad* and/or *Odyssey.*

This course may be repeated for credit.

GREK 312
Readings in Classical Greek: Drama
3 Semester Hours

Readings in Greek Tragedy (Aeschylus, Sophocles, Euripides) and/or Comedy (Aristophanes, Menander).

This course may be repeated for credit.

GREK 321
Readings in Classical Greek: History and Oratory
3 Semester Hours

Readings in Herodotus, Thucydides, Xenophon, and/or the orators (Demosthenes, Lysias, etc.).

This course may be repeated for credit.

GREK 322
Readings in Classical Greek: Philosophy
3 Semester Hours

Readings in Plato and/or Aristotle.

This course may be repeated for credit.

GREK 323
The Epistles of Paul
3 Semester Hours

A study of selected epistles, with special attention to koine Greek, historical context, and theological questions.

This course may be repeated for credit.
The LATN 101, 102, 201 sequence covers the full grammar and syntax of the Classical language and prepares the student to read and write basic prose. This series requires one additional weekly contact hour for drill and practice.

LATN 101
Elementary Latin I
3 Semester Hours

Basic introduction to grammar and syntax; the first three declensions of Latin nouns; demonstrative and personal pronouns; all four conjugations and all six tenses of Latin verbs (active voice). Translation of simple prose passages.

Prerequisite: LATN 101 or equivalent.

LATN 102
Elementary Latin II
3 Semester Hours

Continuation of Latin grammar and syntax, covering the last two declensions of nouns; relative pronouns; passive voice and subjunctive mood of verbs; indirect statement; conditions. Translation of more complex prose passages.

Prerequisite: LATN 101 or equivalent.

The GREK 331, 398, 410, 498 courses are similar to the Latin courses in their structure and content. They cover the grammar and syntax of the Classical language, with a focus on different periods of Greek literature.

LATN 201
Intermediate Latin
3 Semester Hours

Grammar review and selections from prose authors.

Prerequisite: LATN 102 or equivalent.

Archaeology

ARCH 201
Beginning and Intermediate Classical Hebrew
3 Semester Hours
A concentrated course in Hebrew, with attention paid to its historical development and to comparative phonetics and morphology.

ARCH 298
Special Studies
1-3 Semester Hours

ARCH 299
Independent Studies
1-3 Semester Hours

ARCH 301
Rapid Readings in Classical Hebrew
3 Semester Hours
Selected readings in both prose and poetry.

ARCH 354
Near Eastern Religions
3 Semester Hours
Study of the religions, rituals, and pantheons of ancient Near Eastern societies.

ARCH 361
Ancient Near East
3 Semester Hours
Study of the Near Eastern background of classical civilizations from the Neolithic to the Hellenistic periods.

ARCH 362
Ancient Near Eastern Languages
3 Semester Hours
Study of the languages and writing systems of the ancient Near East, including Sumerian, Babylonian, Egyptian, Hebrew, Aramaic, and Arabic.

ARCH 363
Archaeology and the Bible
3 Semester Hours
Study of selections from the Old or New Testament, combining historical criticism and exegesis with the relevant archaeological data.

This course may be repeated for credit.
ARCH 364  
Principles of Archaeology  
3 Semester Hours  
Modern archaeological methodology, theory, and interpretation.

ARCH 398  
Special Studies  
1-3 Semester Hours

ARCH 399  
Independent Studies  
1-3 Semester Hours

ARCH 401  
Near Eastern Archaeology  
3 Semester Hours  
Hands-on study of the archaeology and excavated artifacts of the Levant, from the paleolithic to the Roman periods.

ARCH 402  
Mediterranean Archaeological Studies  
3 Semester Hours  
Study of the archaeology of a specific ancient Mediterranean culture, period, type of artifact, or phenomenon in Egypt, Anatolia, Crete, Greece, Italy, Israel-Palestine, etc.

This course may be repeated for credit.

ARCH 403  
Classical Numismatics  
3 Semester Hours  
Hands-on study of the coinages of ancient Greece, Rome, and the Eastern Mediterranean, with emphasis on archaeology, art history, and monetary origins.

ARCH 404  
Egyptology  
3 Semester Hours  
Study of Egypt from the Neolithic to the Roman period: history, culture, religion, art, language, and literature.

ARCH 405  
The Silk Road  
3 Semester Hours  
A study of the archaeology and history of the Silk Road in NW China.

ARCH 410  
Archaeology Field Experience  
1-3 Semester Hours  
Active participation in archaeological excavations or surveys at Near Eastern, Classical, or selected New World sites.

This course may be repeated for credit.

ARCH 411  
Near Eastern Archaeology Lab  
1-3 Semester Hours  
This course may be repeated for credit.

Prerequisite: ARCH 401 or concurrent enrollment.

ARCH 415  
Special Topics in Near Eastern Archaeology  
3 Semester Hours  
This course may be repeated for credit.

ARCH 498  
Special Studies  
1-3 Semester Hours

ARCH 499  
Independent Studies  
1-3 Semester Hours
Modern Greek

Objectives:
The Modern Greek Studies Program offers students the opportunity to study Modern Greece—its language, literature, history (from the Byzantine Empire to the present), its Christian Orthodox tradition, and its arts. Modern Greek Studies on the LMU campus may be supplemented by the Summer Study Abroad courses of The Odyssey Program.

Minor Program
The minor in Modern Greek Studies consists of 18 semester hours, of which at least 6 hours must be at the 300 or 400 level. The following distribution is recommended, with the approval of the Director of the minor:

- 9 semester hours of Modern Greek language instruction;
- 3-6 semester hours from MDGK 341, 354, 398, 399;
- 3-6 semester hours from the following: CLCV 200, 210, 220, 230, 402, 451, 452; DANC 390; HIST 410, 450; THST 322; or any course in Ancient Greek (GREK 101-415).

MDGK 100
Modern Greece
3 Semester Hours
Introduction to Modern Greek language, culture, and history.

MDGK 101
Elementary Modern Greek I
3 Semester Hours
An introductory course covering the fundamentals of grammar, syntax, reading skills, and oral expression.

MDGK 102
Elementary Modern Greek II
3 Semester Hours
Continuation of MDGK 101.

MDGK 198
Special Studies
1-3 Semester Hours

MDGK 199
Independent Studies
1-3 Semester Hours

MDGK 203
Intermediate Modern Greek I
3 Semester Hours
Completion of the study of grammar and syntax. This course is designed to help the student improve conversational skills through listening comprehension and class discussion.

MDGK 204
Intermediate Modern Greek II
3 Semester Hours
A course aimed at furthering proficiency through reading, listening comprehension, composition, and discussion.

MDGK 298
Special Studies
1-3 Semester Hours

MDGK 299
Independent Studies
1-3 Semester Hours

MDGK 305
Art and Architecture of the Ancient World
3 Semester Hours
A survey of Greek art from the Neolithic age through the Hellenistic period.

MDGK 321
Advanced Modern Greek
3 Semester Hours
A course designed to enable the students to refine their understanding of the language and enhance their verbal abilities. A reasonable command of Modern Greek is a prerequisite.

MDGK 325
Advanced Modern Greek Conversation
3 Semester Hours
Texts from prose and poetry serve as a basis for advanced discussion and composition.

MDGK 341
Introduction to Modern Greek Literature (in Translation)
3 Semester Hours
Study of the works of Kazantzakis, Cavafy, Seferis, Elytis, and Ritsos.
This course may be repeated for credit.
The Basil P. Caloyeras Center also sponsors the following courses with other departments:

- CLCV 305 Art and Architecture of the Ancient World
- DANC 390 Dances of Greece
- HIST 410 History of the Byzantine Empire

**MDGK 350**
**Greek Orthodox Tradition**
3 Semester Hours
A review of the unbroken dogmatic tradition of the Greek Orthodox Church, her liturgy, and her place in the religious life of the United States.

*(See THST 322)*

**MDGK 354**
**Greek Cinema**
3 Semester Hours
Study of the reworking of themes from Greek myth and literature in Greek cinema.

**MDGK 398**
**Special Studies**
1-3 Semester Hours

**MDGK 399**
**Independent Studies**
1-3 Semester Hours

**MDGK 450**
**Modern Greek History and Society**
3 Semester Hours
An examination of the crises and challenges that have shaped Modern Greek society, the transformations that have taken place, and the culture and literature it produced.

**MDGK 498**
**Special Studies**
1-3 Semester Hours

**MDGK 499**
**Independent Studies**
1-3 Semester Hours
Economics

Faculty:
Chairperson: James Konow
Professors: James Devine, James Konow, Seid Zekavat
Associate Professors: Joseph E. Earley, Zaki Eusufzai, Robert Singleton, Renate Thimester
Assistant Professors: Andrew J. Healy, Dorothea K. Herreiner, Jennifer P. Offenberg

Objectives:
The study of economics illuminates both the limitations and successes of different systems of the production, distribution, and consumption of material wealth. Because of the economy’s importance to the human condition, economic knowledge is useful to many other fields, such as political science, sociology, anthropology, law, and history. It, thus, is as central to a liberal arts education as it is to the business program.

The study of economics involves (1) the development of theories of economic behavior and their application to new problems; (2) the use of statistics and other evidence to test or add content to existing theories; (3) the development of perspective on economic institutions, economic history, and the development of economic philosophy. Students are encouraged to engage in independent research on all of these levels.

The goal of the program is to provide the student with the best preparation for employment in business, government, or secondary education, or for continuation to graduate studies in business, law, or economics, leading to careers in management, banking, finance, law, government, or academia.

Economics Student Learning Outcomes
• Students should demonstrate a solid understanding of modern microeconomics, macroeconomics, and statistics, including the dominant theories of decision-making, markets, and the macro-economy;
• Students should be able to think analytically using both the verbal and quantitative tools commonly employed in economics and to apply those tools to solve both theoretical as well as practical real world problems;
• Students should appreciate the importance of economics in human endeavors and the value of rigorous economic training for evaluating social phenomena; they should understand the ethical concerns that underlie economic policy, including efficiency and equity.

Major Requirements:
Students may pursue either a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. The specific requirements of these degrees are explained below.

Bachelor of Arts (B.A. Economics)
This degree is suitable for pre-law students or those interested in careers in education; urban planning; and federal, state, and local government.

Lower Division Requirements:
Economics requirements (9 semester hours): ECON 110, 120, and 230. A grade of at least C (2.0) is required in each of these courses.
Mathematics requirements (6 to 8 semester hours): The mathematics requirement for economics may be satisfied with one of two plans, Plan A or Plan B:
Plan A: Two courses from MATH 120, 131, 132, and 234.
Plan B: MATH 111 and 112.

Students are encouraged to follow Plan A and to take additional mathematics courses beyond these basic requirements in consultation with their economics advisor.

Upper Division Requirements (24 semester hours):
Eight upper division economics courses. Three theory courses are required: ECON 310, 320, and 410. These courses should be taken by the junior year, although well-prepared students can take them in their sophomore year. Five additional upper division economics courses are required. No more than 30 semester hours of upper division economics may count toward the degree requirement of 120 hours.
Bachelor of Science (B.S. Economics)

The Bachelor of Science degree is suitable for students who 1) wish to continue to graduate school in economics or business (especially finance), 2) are particularly interested in statistics or forecasting, or 3) are interested in any of the careers mentioned for the B.A. degree but who desire a more quantitative preparation. The B.S. degree has the same requirements as the B.A. degree, except for two upper division economics course requirements. Specifically, the B.S. degree additionally requires Mathematics for Economics (ECON 530) and Econometrics (ECON 532).

Lower Division Requirements:

These requirements are the same as for the B.A. Economics degree. Students pursuing the B.S. Economics degree, however, are strongly advised to follow Plan A for the mathematics requirements and to take additional mathematics courses beyond this sequence in consultation with their economics advisor.

Upper Division Requirements (24 semester hours):

Eight upper division economics courses. In addition to ECON 310, 320, and 410, students are required to take ECON 530 and 532. Three additional upper division economics courses are required. No more than 30 semester hours of upper division economics may count toward the degree requirement of 120 hours.

Bachelor of Arts (B.A. Economics) with an International Emphasis

At least eight upper division economics courses are needed for the B.A. degree in Economics with an International emphasis, although students can take up to ten. Six of these courses are required: ECON 310, 320, 410, 470, 471, and 474. ECON 310 and 320 should be taken in the sophomore or junior year, and ECON 410, 470, 471, and 474 should be taken in the junior or senior year. Upper division economics courses must be taken in the LMU Economics Department, except by prior permission of the Chairperson. The B.A. degree with an International emphasis is suitable for students who intend to pursue careers in international agencies of government, NGO, and private corporations doing business in the international arena.

Business and Economics Double Major Requirements:

Students with majors in business may also pursue a major in economics by fulfilling the requirements of the B.A. or B.S. track described above. With prior permission of the Department, double majors in Business and Economics may select two upper division Business Administration courses as part of their economics electives.

Minor Requirements:

18 semester hours consisting of ECON 110, 120, and four upper division ECON courses, which students may choose in consultation with their advisors. An average grade of C (2.0) must be maintained in the minor.

Assessment Tests

All Economics majors are required to take two tests of learning, one at the end of their freshman year, and another at the end of their senior year. These tests do not determine any grade, but they are required for graduation. In addition, students with the highest scores receive an award and cash prizes, which are bestowed at the Department’s annual year-end banquet.

Test of Introductory Economics:

During the Spring semester, all Economics majors enrolled in ECON 110 or ECON 120 are required to take a test of learning of introductory economics.

Comprehensive Test of Economics:

During the Spring semester, all Economics majors who have completed 100 semester hours or more are required to take a comprehensive examination of learning of economics.

Economics Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.
### Freshman Year

**Fall Semester**  
S.H.  
- **AMCS 100** Intro to American Cultures ..........3  
- **AMCS 161** Young Amer., 1607-1900 ...(3)

Students may take no more than **ten upper division** courses in Economics.

---

**ECON 100**  
**Economic Literacy**  
*3 Semester Hours*

Overview of microeconomics and macroeconomics, including supply and demand, theory of production and cost, competition, monopoly, inflation, unemployment, and government money and spending policy. Some attention may be given to issues of the history of economic ideas and economic history. Not intended for economics or business majors.

---

**ECON 110**  
**Intermediate Microeconomics I**  
*3 Semester Hours*

Microeconomic theory applied to the private sector. Indifference curves, utility theory, Slutsky equation, individual and market demand, technology, cost minimization, cost curves, consumer and producer surplus, efficiency, perfect competition, monopoly, price discrimination, classical oligopoly theory, game theory including Nash equilibrium, resource markets.

Prerequisites: ECON 110, MATH 131 (or 112).

Offered in the Fall semester only.

---

**ECON 120**  
**Intermediate Macroeconomics**  
*3 Semester Hours*

Macroeconomic analysis: The determination of national income and output and their components, employment, the price level (and inflation), interest rates, and long-term economic growth. An introduction to business cycle theory, monetary theory, balance of payments, and exchange rates. A study of economic policies to achieve goals and the limits of such policies.

Prerequisites: ECON 120 and MATH 131 (or 112).

Offered in the Spring semester only.

---

**ECON 310**  
**Money and Banking**  
*3 Semester Hours*

The role of monetary matters in the economy. The organization, operation, and impact of money, banks and nonbank financial intermediaries, and financial markets in the economy. The impact of these on the determination of interest rates, the price level, and economic activity. The role of central bank and regulatory agency policies in financial markets and the economy.

Prerequisite: ECON 120.
<table>

**ECON 364 Multinational Corporation**

The economic power and impact; the expansion of multinational business, international movement of management techniques, labor, resources, and technology.

Prerequisite: ECON 110 or 120.

**ECON 366 Personal Finance**

This course is a comprehensive coverage of consumer finance. Topics are consumer credit, consumer spending, and investing for the short run and the long run. Housing and real estate investing, personal financial planning, and various investment vehicles such as equity, fixed rate of return instruments, annuities, and insurance as well as the fundamentals of tax planning are addressed. The emphasis is on evaluating choices and understanding the consequences of decisions in terms of opportunity costs.

Prerequisite: ECON 110 or 120.

**ECON 369 Chinese Economic and Business System**

This course aims to provide an introduction to Chinese economic and business system as well as the major strategic and operational issues facing multinational corporations in doing business in China.

Taught only in Beijing, China.

**ECON 371 Economic Development of Minority Communities**

Historical study of minority groups in the American economy. Emphasis upon institutions, ideas, and individuals.

Prerequisite: ECON 110.

**ECON 410 Intermediate Microeconomics II**

Prerequisite: ECON 310.

**ECON 412 Economics and Ethics**

Economics and Ethics examines the roles and effects of ethics on economic analysis, behavior, and institutions. These issues arise, for example, in matters of charity, labor markets, and taxation. This course treats both descriptive and prescriptive theories as well as evidence on ethics from behavioral and experimental economics. It covers standard philosophical theories and connects them to empirical evidence and real world decision-making.

Prerequisite: ECON 310.

**ECON 414 Game Theory**

Game Theory is the study of strategic interaction. This course will focus on analyzing these interactions and predicting equilibrium outcomes. Topics to be covered include utility theory, rationality, simultaneous and sequential move games, Nash equilibrium, backward induction, repeated games, and games of incomplete information.

Prerequisite: ECON 310.

**ECON 416 Environmental Economics**

Environmental Economics deals with the use of society’s scarce environmental resources. Economic theory and analysis are applied to various environmental issues, including pollution, sustainable development, clean air, and quality of life.

Prerequisite: ECON 310.

**ECON 434 Experimental Economics**

Experimental methods of research in economics. Basic experimental concepts, induced value theory, individual decisions, game theory, market experiments, auctions, bargaining, public choice.

Prerequisite: ECON 310.

Faculty:
Chairperson: David Killoran
Professors: Linda Bannister, Mel Bertolozzi, Robert Caro, S.J., Theresia de Vroom, David Killoran, Sharon Locy, John Menaghan, Barbara Roche Rico, Chuck Rosenthal, Lucy Wilson, Gail Wronsky
Associate Professors: Paul Harris, Holli Levitsky, John Reilly
Assistant Professors: Juan Mah y Busch, Stuart Ching, Robin Miskolcze, K.J. Peters, Kelly Younger

English Department Mission:
Believing that literature is a profound expression of human experience, the English Department uses a range of critical methods to introduce students to literatures in English from a variety of cultural traditions. The course work reveals the art form’s creative beauty, strategies for representing the human experience, and its power to shape the reader.

The English Department encourages an understanding of the critical and creative union of reading and writing as fundamental to the processes of developing the self. Through their imaginations, students who major or minor in English interact with language and literature, thereby encountering another equally open and attentive mind; that of the writer they are reading or of the reader who comes to the work they have created. As students of the literary arts, English majors and minors prepare for a lifetime of reading and writing, enlightenment and fulfillment, learning to do what Toni Morrison describes as a dance of two minds.

A Note on the Core: English majors and minors must take a course to satisfy the University’s core literature requirement, and this course is separate from and in addition to the courses taken to fulfill the English major and minor requirements.

English Student Learning Outcomes
English majors know:

• The history of literatures in the English language;
• A variety of critical theories;
• The range of creative choices made by the literary artist.

English majors are able to:

• Read literary texts closely and carefully;
• Interpret analytically and innovatively using a variety of critical and theoretical approaches;
• Write creatively and effectively;
• Perceive and express the artistry, ideas, and social significance of language.

English majors value:

• The ways in which literature represents human experience;
• The affect of literature on the artist and reader;
• The artistry of precise and elegant expression.

Major Requirements:

Lower Division Requirements (12 semester hours):
ENGL 201 and either ENGL 200 or 202; ENGL 203 and 204.

A grade of C (2.0) is required in each premajor course before qualifying for upper division status as an English major. Students transferring into the Department after their sophomore year may enroll in upper division courses in the major concurrently with the premajor courses. Students must complete all upper division courses in the major with a minimum grade of C (2.0) in order to maintain status as English majors. Failure to maintain this standard or failure to make sufficient progress toward completion of the major will result in probation or disqualification from the Department.

Upper Division Requirements:

There are two programs for the major in English:

I. The English Major: Literature Emphasis

A minimum of 27 semester hours in upper division courses. Up to six of these semester hours may be taken in writing classes.

Upper Division Requirements:
ENGL 321 or 322.

One course in English and/or American Literature prior to 1800, excluding Shakespeare.

One of the two survey courses in the History of American Literature (ENGL 371 or 372).

Two courses in English and/or American Literature after 1800.
One course in Theory (selected from ENGL 361, 422, 467, 559, 561, 562, 565, 566, 567, 569, 574, 575, 577, 579, 580, or 584).

One course in Comparative Literatures (includes any course in multi-ethnic literature, gender-based literature, world literature, or foreign language literature in translation. Check with your advisor to determine which courses may be used to fulfill this requirement.)

**Total Semester Hours: Literature Emphasis**

**Lower Division Requirements:**
12 semester hours (ENGL 201, 200 or 202, 203, 204)

**Upper Division Requirements:**
21 semester hours (see above)

**Upper Division Electives:**
6 semester hours
Total: 39 semester hours

A minimum grade of C (2.0) must be obtained in each course in the major.

**II. The English Major: Writing Emphasis**

A minimum of 27 semester hours in upper division courses.

**Upper Division Requirements:**
ENGL 321 or 322.

One of the two survey courses in the History of American Literature (ENGL 371 or 372).

One course in English or American Literature before or after 1800.

Two 400- or 500-level writing courses, excluding ENGL 402 and 569.

One course in Theory (selected from ENGL 361, 422, 467, 559, 561, 562, 565, 566, 567, 569, 574, 575, 577, 579, 580, or 584).

One course in Comparative Literatures/Writing (includes any multi-ethnic writing or literature course, gender-based writing or literature course, world writing or literature course, or any foreign language literature course in translation. Check with your advisor to determine which courses may be used to fulfill this requirement.)

**Total Semester Hours: Writing Emphasis**

**Lower Division Requirements:**
12 semester hours (ENGL 201, 200 or 202, 203, 204)

**Upper Division Requirements:**
21 semester hours (see above)

**Upper Division Electives:**
6 semester hours
Total: 39 semester hours

A minimum grade of C (2.0) must be obtained in each course in the major.

**Minor Requirements:**

18 semester hours exclusive of ENGL 110 or its equivalent and core literature courses. ENGL 200 or 201 or 202 and at least one “survey” course selected from ENGL 203, 204, 371, or 372 must be included. At least nine semester hours, exclusive of ENGL 371 or 372, must be at the 300-, 400-, or 500-level. Three of these nine hours (or at least one course) must be selected from pre-1800 literature courses. Students may select ENGL 203 or 371 to fulfill this pre-1800 course requirement, but then they must take a second course from ENGL 203, 204, 371, or 372 to fulfill the “survey” requirement.

A minimum grade of C (2.0) must be obtained in each course in the minor.

**Minor in Screenwriting for English Majors**

The School of Film and Television offers a minor as an option to students majoring in the writing emphasis in the English Department. The minor consists of 18 semester hours. Check for the full description of the minor under the Screenwriting section of this Bulletin.

**Pre-Journalism Curriculum**

Although LMU doesn’t offer a journalism major or minor, a large number of LMU graduates have gone on to successful careers or graduate work in journalism. These students, who have majored or minored in English or Communication Studies, have taken advantage of a number of exciting LMU courses. These courses comprise the LMU “Pre-Journalism Curriculum” and are particularly recommended for students who intend pursuing a Masters or Ph.D. in Journalism, or who plan to work as a journalist, freelance, or for a newspaper or magazine. No student need complete all of the courses listed below, but
a healthy sampling will stand a future journalist in good stead and will assist in admission to most graduate programs in journalism across the country.

It is important to note that a working journalist often develops a specialization in a particular area, such as sports, entertainment, or the environment. Content courses in these areas would, of course, be useful. The Pre-Journalism Curriculum includes Political Science courses specifically, since local, state, and national politics have an impact on most news, and politics is considered an important working knowledge base for any journalist.

A pre-journalism certificate can be issued to the student who successfully completes 18 semester hours of pre-journalism coursework. Students must take at least five of the six courses from the English Department. Only one course may be selected from another discipline. Students who seek a certificate will be advised on how to create a program that focuses on their area of interest: for example, political reporting, sports reporting, electronic media, etc.

Pre-Journalism courses are offered by a variety of departments and colleges across the University, making the Pre-Journalism Curriculum truly interdisciplinary.

**Bellarmine College of Liberal Arts, English Department**

- ENGL 301 Writing for Journalism I: Workshop
- ENGL 302 Writing the Article: Workshop
- ENGL 304 Writing for Advertising
- ENGL 401 Writing for Journalism II: Workshop
- ENGL 402 Writing Internship in Media
- ENGL 403 Writing Workshop in Non-Fiction: Advanced
- ENGL 405 Literary Non-Fiction: Workshop
- ENGL 406 Journalism: The Interview: Workshop
- ENGL 407 Reviewing the Arts
- ENGL 408 Journalism: Editing Workshop
- ENGL 463 The Essay
- ENGL 469 Practicum in Journalism I
- ENGL 470 Practicum in Journalism II
- ENGL 562 Contemporary Rhetorical Theory
- ENGL 567 Style in Writing
- ENGL 574 Rhetoric and Media
- ENGL 575 The Art of Rhetoric

**Bellarmine College of Liberal Arts, Philosophy Department**

- PHIL 320 Ethics
- PHIL 321 Bioethics
- PHIL 322 Business Ethics
- PHIL 323 Crimes and Punishments
- PHIL 324 Engineering Ethics
- PHIL 325 Ethics and the Arts
- PHIL 326 Ethics of Love and Marriage
- PHIL 327 Ethics and Education
- PHIL 328 Media Ethics
- PHIL 329 Topics in Applied Ethics
- PHIL 330 Contemporary Moral Problems

Students interested in assembling a Pre-Journalism Curriculum should review each semester’s course offerings across the colleges, paying particular attention to special studies courses focusing on journalistic issues, media topics, or related fields. Students may consult with Dr. Linda Bannister, Pre-Journalism Advisor, to determine which special or new courses may be appropriate.

There are a number of Pre-Journalism eligible courses offered by the College of Communication and Fine Arts, some of which may entail prerequisites and/or college permission. Please consult with Dr. Linda Bannister for more information about these courses.

Note: Although there is no set sequence for taking pre-journalism courses, some of the above listed courses may carry prerequisite courses that must be completed first. Students interested in journalism are also strongly advised to participate in LMU’s award-winning student newspaper The Los Angeles Loyolan, the campus yearbook The Tower, and/or radio station KXLU.

A Pre-Journalism Curriculum Completion Certificate is available to those students who successfully complete (earning a C [2.0] or better in each course) 18 semester hours of approved pre-journalism coursework. Bring transcript showing 18 units of accepted completed courses to Dr. Bannister at least two months prior to intended graduation. If courses are in progress during the last semester before graduation, the certificate will be issued after a final grade of C (2.0) or better is posted for each course.
**Secondary Teaching**

Students interested in obtaining a secondary teaching credential must fulfill all of the requirements for the major in English as well as some additional coursework specified by the State of California. These requirements are set forth in detail in the “Subject Matter Preparation Program in English” section of the *Guide for English Majors*. The *Guide* is available from the administrative assistant to the English Department or from Dr. Richard Kocher, who is the secondary credential advisor for English majors. Students interested in a secondary credential should see Dr. Kocher as soon as possible, and they should also coordinate their program with the School of Education.

**English Model Four-Year Plan**

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

15
Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

Upper division courses are open to juniors and seniors only. With the permission of the Chairperson, ENGL 321, 322, 271, and 372 may be open to sophomores who have taken or are concurrently enrolled in the required lower division, pre-major English courses.

**ENGL 100**
English as a Second Language
3 Semester Hours

Students enroll in ENGL 100 based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A course designed to give students essential skills in writing and reading English.

Students must earn a grade of C (2.0) or better in order to pass this course. Concurrent enrollment in ENGL 101 is required.

**ENGL 101**
Required Writing Lab—ESL
1 Semester Hour

The required lab component of English 100. Taken concurrently with English 100.

Credit/No Credit grading.

Students must earn a grade of Credit in this lab course in order to pass ENGL 100.

**ENGL 110**
College Writing
3 Semester Hours

The art of clear and effective college writing. This course will teach students how to generate clear and persuasive expository prose suitable to a variety of academic disciplines.

A grade of C (2.0) or better is required.

**ENGL 111**
Elective Writing Lab
1 Semester Hour

A program of individualized tutorial instruction designed specifically to reinforce and develop those skills important to improving college-level prose.

Credit/No Credit grading.
ENGL 115
University Writing Lab
1 Semester Hour

Intensive work on individual writing issues encountered in course work across the curriculum. Emphasis is placed on clarity and style.

Credit/F grading. This course may be repeated twice for degree credit.

ENGL 130
Introduction to Poetry
3 Semester Hours

A course designed to develop an appreciation of the meaning, forms, techniques, and impact of poetry; critical essays based on the reading.

Prerequisite: Successful completion of ENGL 110 or 112.

ENGL 140
Introduction to Fiction
3 Semester Hours

An introduction to significant works in the novel and short story; critical essays based on the reading.

Prerequisite: Successful completion of ENGL 110 or 112.

ENGL 150
Introduction to Drama
3 Semester Hours

An introduction to significant works of dramatic literature; critical essays based on the reading.

Prerequisite: Successful completion of ENGL 110 or 112.

ENGL 170
Classics of Literature
3 Semester Hours

An introduction to significant works in literature outside the British and American traditions; critical essays based on the reading.

Prerequisite: Successful completion of ENGL 110 or 112.

Not available to students who already have credit in FNLT 180.

ENGL 198
Special Studies
1-3 Semester Hours

ENGL 199
Independent Studies
1-3 Semester Hours

ENGL 200
The Language of Drama
3 Semester Hours

An introduction to creating drama and writing about it.

Open to English majors and minors, and screenwriting majors.

ENGL 201
The Language of Poetry
3 Semester Hours

An introduction to creating poetry and writing about it.

Required of all English majors.

Open to English majors and minors, and screenwriting majors.

ENGL 202
The Language of Fiction
3 Semester Hours

An introduction to creating fiction and writing about it.

Open to English majors and minors, and screenwriting majors.

ENGL 203
The History of British Literature I
3 Semester Hours

British literature from the Anglo Saxons to the end of the eighteenth century.

Required of all English majors.

ENGL 204
The History of British Literature II
3 Semester Hours

British literature from Romanticism through the Moderns.

Required of all English majors.

ENGL 205
Creative Writing for Non-Majors
3 Semester Hours

A genre-based writing workshop (fiction, poetry, and drama). Fulfills the core requirement in creative arts. Not open to English majors and minors.

ENGL 298
Special Studies
1-3 Semester Hours

ENGL 299
Independent Studies
1-3 Semester Hours

Caribbean Literature
3 Semester Hours
The study of representative writers from the English-speaking Caribbean, such as George Lamming, Jean Rhys, Sam Salvon, and Jamaica Kincaid.
Fulfills post-1800 or comparative literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 559
Survey of Literary Criticism
3 Semester Hours
The principles and practice of literary criticism from the ancient Greeks to World War II.
Fulfills theory requirement.
Prerequisite: Junior or senior standing.

ENGL 561
Contemporary Literary Criticism
3 Semester Hours
The principles and practice of literary criticism from World War II to the present.
Fulfills theory requirement.
Prerequisite: Junior or senior standing.

ENGL 562
Contemporary Rhetorical Theory
3 Semester Hours
Textual analysis and production based on contemporary rhetorical theory.
Fulfills theory or writing requirement.
Prerequisite: Junior or senior standing.
ENGL 563
Creative Writing Seminar
3 Semester Hours

An intensive writing class in fiction, poetry, drama, creative non-fiction, or some combination of these genres.

Prerequisites: Undergraduates must complete ENGL 311 and 411 or ENGL 312 and 412 or ENGL 313 and 413 before enrolling in ENGL 563. Junior or senior standing.

ENGL 565
Theory of Teaching Writing and Literature
3 Semester Hours

A course for current and future teachers of composition and literature designed to facilitate the application of theory to pedagogy.

Fulfills theory or writing requirement.

Prerequisite: Junior or senior standing.

ENGL 566
Metaphor: Theory and Practice
3 Semester Hours

A course investigating metaphor theoretically and in the students' own writing.

Fulfills theory or writing requirement.

Prerequisite: Junior or senior standing.

ENGL 567
Style in Writing
3 Semester Hours

An examination of prose styles and theories of style to help students develop their own writing styles.

Fulfills theory or writing requirement.

Prerequisite: Junior or senior standing.

ENGL 569
Linguistics
3 Semester Hours

An introduction to issues in linguistics, such as phonology, morphology, syntax, and sociolinguistics.

Fulfills theory requirement.

Prerequisite: Junior or senior standing.

ENGL 571
Writing the Novella: Workshop
3 Semester Hours

Practice in writing extended narrative forms.

Prerequisite: Junior or senior standing.

ENGL 574
Rhetoric and Media
3 Semester Hours

A study of persuasion and rhetorical strategies used by the media.

Fulfills theory, writing, or comparative literatures requirement.

Prerequisite: Junior or senior standing.

ENGL 575
The Art of Rhetoric
3 Semester Hours

A survey of rhetoric from the classical to the modern period.

Fulfills theory requirement.

Prerequisite: Junior or senior standing.

ENGL 577
Major Figures in Rhetoric and Composition
3 Semester Hours

A course exploring one to three major theorists/writers in rhetoric and/or composition.

Fulfills theory requirement.

Prerequisite: Junior or senior standing.

ENGL 579
The Phenomenology of Reading
3 Semester Hours

A course in the phenomenon of reading from a variety of perspectives—reading theory, linguistics, literary theory, and rhetoric.

Fulfills theory requirement.

Prerequisite: Junior or senior standing.

The Black Aesthetic  
3 Semester Hours  
Study of theories of African American aesthetics.  
Fulfills theory requirement.  
Prerequisite: Junior or senior standing.  

ENGL 585  
Portraits of the Artist  
3 Semester Hours  
Fictional, poetic, and dramatic portraits of the developing artist.  
Prerequisite: Junior or senior standing.  

ENGL 598  
Special Studies  
1-3 Semester Hours  
Prerequisite: Junior or senior standing.  

ENGL 599  
Independent Studies  
1-3 Semester Hours  
Prerequisite: Junior or senior standing.
Ethics

Director:
Scott Cameron

Objectives:
In response to the need to address ethical issues in the various professions, the Philosophy Department, in conjunction with other departments in the different Colleges and Schools of the University, offers a minor in Ethics. Its main focus is to deepen and broaden the student's grasp of the theoretical foundations and practical applications of ethical thought. The Ethics minor will complement and support the student's studies by encouraging reflection on the ethical issues that arise in his or her major field of study.

The objectives of this program are: 1) to heighten the student's awareness of the pervasive moral dimensions of human experience; 2) to broaden and deepen the student's understanding of ethical theories and their foundations; and 3) to promote moral deliberation, evaluation, decision-making, and conduct that alone can renew and sustain healthy economic, social, political, and professional institutions in concrete human communities.

Ethics Minor Student Learning Outcomes
Ethics minor students will understand:

- The historical context, the import, and the strengths and weaknesses of various paradigms of ethical reflection;
- The ways in which ethical theories have been applied to concrete human concerns;
- The relevance of ethical reflection to critical issues arising in their chosen major field of study.

Ethics minor students will be able to:

- Demonstrate written competency in the analysis and application of ethical theories to vexed practical problems;
- Draw on their own experience and on insights gleaned from their major field of study to further the evaluation and refinement of ethical theories.

Ethics minor students will value:

- The importance of ethical reflection in creating and sustaining healthy human communities;
- The productive relation between ethical reflection and other practical and theoretical pursuits;
- The power of reflection and self-criticism to transform one's self-conception as well as one's relationships to others.

Minor Requirements:
The minor in Ethics consists of 18 semester hours divided as follows:

FOUR Foundations Courses, including:
PHIL 160 and PHIL 320, which also satisfy the University’s core requirements in Philosophy.

Two further classes chosen in consultation with the Ethics minor advisor, at least one of which must be in Philosophy, though the second may be offered by departments in any of the Colleges or Schools in the University. These courses should deepen the student's awareness of the context, presuppositions, and implications of various approaches to ethical reflection.

TWO Applications Courses including:

One course in Applied Ethics related to the student's College or School of origin chosen from PHIL 321-330.

One elective course in Applied Ethics selected from the PHIL 321-330 options without regard for the student's College or School of origin.

Note: Philosophy majors or minors cannot also have an Ethics minor.
European Studies

Director:
Véronique Flambard-Weisbart

Faculty:
The faculty of the European Studies major are those professors in various departments of the University who regularly offer courses that are directly concerned with issues relating to Europe, or to specific countries or traditions of Europe, past and present.

Description:
The European Studies major is an integrated, interdisciplinary area-studies program. Students choose from a range of courses taught in different departments, selecting a focus that reflects their individual interests (e.g., German or Irish Studies). Since the program provides the student with competence in a European language, sufficient background to grasp the complexity of European history and civilization as a whole, as well as a specialization in one field of study, it is a solid preparation for graduate school or a career in government or private enterprise. A semester of study in Europe is strongly recommended but is not mandatory.

Objectives:
- Intermediate proficiency in one European language (equivalent to level 2/3 on the scale of five levels developed by the American Council on the Teaching of Foreign Language). LMU offers French, German, Italian, and Spanish in the Department of Modern Languages and Literatures as well as Greek, Latin, and Modern Greek in the Department of Classics and Archaeology.
- Knowledge of the historical, intellectual, political, and religious contexts of Europe, past and present.
- Knowledge of the art and literary works of Europeans, past and present.

European Studies Student Learning Outcomes

Students should demonstrate:
- Linguistic proficiency in one European language (French, German, Italian, Spanish, Greek, Latin, and/or Modern Greek);
- Knowledge and understanding of:
  - the history of Europe (History)
  - the history of ideas in Europe (Philosophy)
  - the politics of Europe (Political Science)
  - the religious contexts of Europe (Theological Studies);
- Familiarity with cultural expressions of Europeans such as:
  - European literature (Classics, English, European Studies, Foreign Literature in Translation, French, German, Italian, Spanish)
  - European art history and creative arts (Art History, Film, Theatre Arts);
- Reflection on/assessment of:
  - reasons why the major in European Studies was chosen
  - cultural competency (what they have learned)
  - content of the courses selected for the European Studies major
  - development and evolution in the European Studies major
  - extra-curricular activities connected with the European Studies major (study abroad experiences, program-related activities, work experience/internships).

Student Learning Outcomes will be assessed through a Senior Capstone Project (EURO 500), which consists of a portfolio during the second semester of the senior year. The portfolio is a collection of multiple samples usually compiled over time accompanied by a personal reflection essay, which would show that the student has met the objectives of the European Studies Program.

Major Requirements:
Lower Division Requirements (18 semester hours):
- HIST 100 and 101
- Elementary I and II and Intermediate I and II, or the equivalent, of one European language: FREN, GRMN, ITAL, SPAN, GREK, LATN, or MDGK (i.e., 12 semester hours). EURO 181, 182, 283, 284 language courses are available in the LMU Study Abroad Programs in Europe; Study Abroad students must take the LMU Placement Exam upon return to fulfill lower division requirements.
Upper Division Requirements (25 semester hours):

At least 9 semester hours chosen from these courses examining the historical, intellectual, political, and religious contexts of Europe, past and present.

**HIST**: Area I: Europe, Seminars Area 1: Europe
**IRST**: 310, 319, 345, 441
**PHIL**: Area V: History of Philosophy, 422, 423, 424, 426, 451
**POLS**: 321, 324, 351, 352, 357
**THST**: 320, 321, 322, 323, 328, 420, 425, 427

At least 9 semester hours chosen from these courses examining the art and literary works of Europeans, past and present.

**ARCH**: 403
**ARHS**: 303, 304, 306, 315, 410, 413, 415, 419
**CLCV**: 305, 451, 452, 454
**ENGL**: 321, 322, 342, 502, 503, 504, 511, 512, 513, 521, 522, 531, 532, 533, 534, 541, 542, 543, 544, 545, 546, 547, 559, 561
**EURO**: 312, 323, 336, 339, 371, 372, 373, 432
**FILM**: 314, 413 with a European focus, 514
**FNLT**: 341
**FREN**: 333, 334, 431, 432, 443
**GREK**: 311, 312, 321, 322, 331, 415
**GRMN**: 321, 340, 352, 431, 432, 433
**IRST**: 300, 303, 304, 305, 309, 317, 330, 435
**ITAL**: 332, 333, 334, 350, 380, 451
**MDGK**: 341, 354, 450
**SPAN**: 331, 451, 452, 453, 455, 457, 460
**THEA**: 331, 336, 341, 346, 349

One hour: EURO 500

Alternatively, students may take a second or third European language for up to 6 hours, and up to the same number of hours will be waived from the total upper division requirement. Students must still meet the University degree requirement of 45 upper division hours.

European Studies majors are encouraged to select core classes with a European focus.

---

**European Studies Model Four-Year Plan**

The normal course load is 15 units per semester (5 courses). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

**Freshman Year**

- **Fall Semester**
  - S.H.
  - AMCS 100 Intro to American Cultures . .3
  - AMCS 161 Young Amer., 1607-1900 . .(3)

**EURO 181**

European Language and Culture I
3 Semester Hours

Introduction to a specific European language. Designed for complete beginners. No placement test necessary upon on-site arrival.

Only available to LMU Study Abroad Program students.

**EURO 182**

European Language and Culture II
3 Semester Hours

Designed for false beginners—i.e., students who either took a language a long time ago and do not remember it, or students who were exposed to the language, but not in a formal way—in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.

**EURO 198**

Special Studies
1-3 Semester Hours

**EURO 199**

Independent Studies
1-3 Semester Hours

**EURO 283**

European Language and Culture III
3 Semester Hours

Designed for students with intermediate proficiency in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.
EURO 284
European Language and Culture IV
3 Semester Hours

Designed for students with intermediate to advanced proficiency in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.

EURO 298
Special Studies
1-3 Semester Hours

EURO 299
Independent Studies
1-3 Semester Hours

EURO 371
European Art and Literature of Consciousness
3 Semester Hours

Comparative study of contemporary European literature and the arts.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Summer Study Abroad Program in Paris, France.

EURO 372
Paris through French Film
3 Semester Hours

From French New Wave to the present.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Summer Study Abroad Program in Paris, France.

EURO 373
Paris Metisse: Multiculturalism in Paris
3 Semester Hours

The course’s objective is to understand the concept of “métissage” in contemporary Parisian society through contact with the modern arts—poetic, pictorial, and musical—through an analysis of various texts and through personal interviews with exiles.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Summer Study Abroad Program in Paris, France.

(See CLCV 451)
Geography

Director:
Peter Hoffman

GEOG 100
Human Geography
3 Semester Hours
An introduction to general world patterns of major cultural elements and processes and their influence on relationships between human societies and their environment. Cultural and environmental differences between developed and less developed nations and their regional implications in the modern world are emphasized.

GEOG 125
Urban Physical Environment
(See URBN 125)

GEOG 198
Special Studies

GEOG 298
Special Studies
1-3 Semester Hours

GEOG 299
Independent Studies
1-3 Semester Hours

GEOG 360
Modern Mexico
3 Semester Hours
A survey of the distinctive social, cultural, economic, and political elements of modern Mexico. The environmental and historical basis of the country’s recent development is examined.

GEOG 365
Metropolitan Los Angeles
(See URBN 365)

GEOG 378
International Tourism
3 Semester Hours
A survey of the social, cultural, economic, and environmental elements of international tourism with special emphasis on the impacts of the expansion of tourism from the developed nations into the less developed realm. Modern trends in tourism, such as ecotourism, are analyzed for their potential costs-benefits and their implications for careers in the tourist industry.

History

Faculty:

Chairperson: John H. Grever, C.F.M.M.
Professors: Michael E. Engh, S.J.,
           John H. Grever, C.F.M.M., Lawrence J. Jelinek,
           Ernest Sweeney, S.J., Joseph S. Tiedemann,
           Lawrence A. Tritle
Associate Professors: Najwa Al-Qattan, Cara Anzilotti,
                      Jok Madut Jok
Assistant Professors: Carla J. Bittel, Constance J.S. Chen,
                     Suzanne O’Brien, Anthony M. Perron, Nigel A. Raab,
                     Amy Woodson-Boulton

Objectives:

Since history takes all knowledge for its province, it forms a bridge between all disciplines. To arrive at a fuller awareness and understanding of the many vital problems of existence, the Loyola Marymount student requires history, for without a knowledge of man and his past, no one can claim to be an educated individual or can hope to establish perspective and meaning in a course of studies for life.

History also makes an invaluable contribution to an understanding of the learning process itself and to the achievement of “learning goals.” In history, the student studies evidence, selects relevant materials, searches for causes and effects, and formulates conclusions. In studying the past, a person must analyze, synthesize, evaluate, and interpret evidence. With knowledge of the historical setting, one can understand and appreciate one’s own heritage and culture and the cultural experience of others.

History Student Learning Outcomes

• History students develop an understanding of events, processes, and patterns in the human experience. History students should gain an understanding of how their lives relate to a larger historical process.

• Students should be able to analyze historical texts and to gain an understanding of the methods used in interpreting the past, such as criticism of sources, the definition of historical questions, comparative analysis, and the diverse perspectives of participants in history. They will employ evidence to craft arguments about historical change and analyze the factors that cause change on local, national, and global scales.

• Students should value the vast range of ways in which individuals and societies have responded to the problems confronting them. The insights they have gained through historical analysis will enrich their lives as citizens of an interconnected world.

Major Requirements:

Lower Division Requirements:

15 semester hours distributed as follows: HIST 100, 101, 161, 162, and one course selected from HIST 152, 172, 182, and 192. A student must accumulate a C (2.0) average in the prerequisite courses. In addition, the Department recommends the study of geography and foreign languages.

Upper Division Requirements:

24 semester hours in upper division courses.

All major programs must include a course in historical method (HIST 310 or 330) and at least one 500-level seminar. The remaining courses are to be chosen with the approval of the student’s advisor, and not more than half of the total 24 semester hours may be taken from one of the following areas: 1) Europe, 2) United States, or 3) Africa, Asia, Latin America and modern Middle East. An average grade of C (2.0) must be obtained in the courses included in the major.

Minor Requirements:

21 semester hours. One course must be selected from HIST 100 or 101; one course from 161 or 162. At least 9 semester hours must be from upper division course offerings.

The history minor is a flexible program. Aside from the two lower division course requirements, students can select any history course as long as at least three of the remaining five courses are upper division history courses. However, students might want to consider selecting courses that relate to their major and belong to geographical or thematic units.
# History Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as HIST major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

## Freshman Year

**Fall Semester**
- **S.H.**
  - AMCS 100 Intro to American Cultures . . .3
  - ENGL 110 College Writing .....................3
  - HIST 100 Found. West. Civ. to 1500 ....3
  - HIST 161 Young Amer., 1607-1900 . .(3)
  - MATH ___ University Core .....................3
  - ____ ___ Social Science Core...............3

Lower Division Courses

HIST 100
Foundations of Western Civilization to 1500
3 Semester Hours
Survey of Western civilization in the ancient and medieval periods.

HIST 101
Western Traditions
3 Semester Hours
Survey of Western civilization from the Renaissance to the present.

HIST 152
Modern Middle East
3 Semester Hours
An introduction to the social and political history of the Middle East during the 19th and 20th centuries.

HIST 161
Young America, 1607-1900
3 Semester Hours
A survey of American history during the colonial period, the Revolutionary era, and the 19th century.

Fulfills U.S. Constitution requirement.

Upper Division Courses

HIST 162
Contemporary America
3 Semester Hours
The United States from 1900 to the present; emphasis on political and social history.
Fulfills U.S. Constitution requirement.

HIST 172
Modern Latin America
3 Semester Hours
An introduction to 19th- and 20th-century developments in Latin America.

HIST 182
Modern Asia
3 Semester Hours
This course introduces major themes in East Asian history and historiography since 1600, comparing the experiences of China and Japan, and placing them in a global context.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen. No more than 12 of the 24 upper division HIST semester hours (including seminars, but excluding HIST 310 or 330) may be taken from one of the following areas: 1) Europe, 2) United States, or 3) Africa, Asia, Latin America, and modern Middle East.

Historical Method Courses

HIST 310
History and Historians
3 Semester Hours
An introduction to the study of history, including historical method, writing of history, and historical interpretation.

HIST 330
History as Detective
3 Semester Hours
This course on historical evidence examines the sources which historians use: oral tradition, archeology, objects, sites, and documents.

HIST 368
Hollywood and History
3 Semester Hours

An examination of the American motion picture industry and the films it produced from the 1890s through the 1960s, including a study of shifting gender, class, racial, and ethnic positionings.

HIST 389
The Invention of Communities
3 Semester Hours

Examines a multitude of socio-economic and cultural conditions that have caused the formation and the disintegration of communal bonds in 19th- and 20th-century United States.

HIST 460
Colonial America, 1607-1763
3 Semester Hours

Origin and growth of the English colonies from 1607; the development of colonial economic, social, and intellectual life.

HIST 461
Revolutionary America, 1763-1787
3 Semester Hours

The origins, course, and results of the American Revolution; the Articles of Confederation.

HIST 462
Founding Fathers
3 Semester Hours

Formation of the Constitution; formation of political parties; cultural, economic, social, and diplomatic developments.

HIST 463
Jacksonian America, 1815-1845
3 Semester Hours

A study of thirty pivotal years in American history, focusing on the social, cultural, economic, and political developments of the era.

HIST 464
The Civil War and Reconstruction
3 Semester Hours

A history of the Civil War era that covers the causes, fighting, and consequences of the war, as well as the problems and challenges of Reconstruction.

HIST 465
The Age of Theodore Roosevelt
3 Semester Hours

A study of the age of Populism, Progressivism, overseas expansion, and American involvement in World War I.

HIST 466
The Rise of Modern America, 1920-1945
3 Semester Hours

A study of the emergence of the mass consumption culture, the Great Depression, the rise of the welfare state, and World War II.

HIST 467
Recent America, 1945 to the Present
3 Semester Hours

This course examines the dimensions of affluence and poverty, the politics of the welfare state, the Cold War, and détente.

HIST 468
Social and Cultural History of the United States in the Nineteenth Century
3 Semester Hours

A historical overview of 19th-century America through a social and cultural lens, including such topics as industrialization, urbanization, religion, literature, westward migration, class formation, gender roles, and notions of race.

HIST 476
Asian Pacific American History
3 Semester Hours

Traces the many-faceted histories of Asian Americans and Pacific Islanders from cross-cultural and transnational perspectives, focusing on interactions and exchanges between Asian Pacific Americans and various ethnic and racial groups.

HIST 479
The Politics and the Culture of the Cold War, 1917-1989
3 Semester Hours

An inquiry into the impacts of the Cold War on American domestic policies, foreign relations, as well as cultural and social developments.
HIST 488
Consensus and Conflict: America in the 1950s and 1960s
3 Semester Hours
This upper division class will focus on 1950s and 1960s United States. Some of the issues that will be addressed include the counterculture, the Civil Rights Movement, and changing gender ideals.

Area 3: World Regions

HIST 300
History of Global Encounters before 1500
3 Semester Hours
A history of global encounters among the regions of the Middle East, the Mediterranean World, Europe, and Asia. It will include a focus on the exchange of ideas, trade, and cultural developments.

HIST 301
History of Global Encounters after 1500
3 Semester Hours
A history of global encounters during the early modern and modern periods that includes the regions of the Middle East, Africa, Latin America, Asia, and Europe. It will examine the global impact of Christianity, Islam, and the market economy. Through the use of primary and secondary sources, different interpretations are offered on historic and current events.

HIST 338
Islam in History
3 Semester Hours
The study of the role of Islamic culture and institutions in the social and political history of the Middle East from the rise of Islam to the present.

HIST 372
History of Mexico
3 Semester Hours
An analysis of the colonial and national periods, with emphasis on 20th-century revolution and socio-economic development.

HIST 390
African Kingdoms
3 Semester Hours
A study of significant kingdoms of Black Africa exploring the major themes of the period.

HIST 392
Colonial Africa: 1860-1980
3 Semester Hours
A study of the inception and development of European rule over various parts of Africa by European imperialists of the 19th century.

HIST 395
Orientalism
3 Semester Hours
This course will introduce students to the history of Euro-American discourse on the “East,” often referred to as Orientalism, and its social, political, and cultural consequences for both “westerners” and people in the Middle East or Asia.

HIST 455
The Ottoman Empire
3 Semester Hours
A study of the Ottoman Empire from the Fall of Constantinople in 1453 until its dismemberment in 1918.

HIST 458
Society and Culture in the Modern Middle East
3 Semester Hours
A topical exploration of the history and politics of the Middle East in the 20th century that will be based on essays and novels written by Middle Eastern men and women.

HIST 459
The Palestine/Israel Conflict
3 Semester Hours
This course will trace the history of the conflict from its beginnings in the 19th century to the present. It will cover Zionism, Ottoman Palestine, and the conflict itself in its regional and international contexts.

HIST 474
Brazil
3 Semester Hours
Brazil from colonial times to the present, analyzing national development, major socio-economic problems, class, caste, power, poverty, and revolution.
HIST 482  
**Imperial China**  
3 Semester Hours  
This course explores the origins of Chinese civilization and culture and the growth of the Chinese Imperial state from earliest times to the early 19th century, just prior to full-scale contact with the Western world.

HIST 483  
**Modern China**  
3 Semester Hours  
This is a course on modern Chinese history from the mid-nineteenth century to the present. Major themes examined are the collapse of the traditional Chinese world order, the failure of the republican revolution of 1911, the birth of Chinese nationalism, Mao Zedong’s Chinese communism, and Deng Xiaoping’s strategy for modernization.

HIST 484  
**Samurai in Japanese History**  
3 Semester Hours  
This course explores the cultural, political, religious, and military history of the samurai as a status group from their earliest emergence in Japan to the collapse and abolition of samurai rule in Japan’s quest to remake itself as a modern nation-state in the 19th century.

HIST 485  
**Twentieth-Century Japan**  
3 Semester Hours  
This course examines the history of Japanese experiences of modernity across the 20th century, focusing on the diversity, unevenness, and conflicts that are often elided by assertions of Japanese homogeneity.

HIST 490  
**The Quest for the Nile’s Source**  
3 Semester Hours  
A study of the quest for the source of the Nile River and the interaction of African, European, and Asian peoples in the area.

HIST 491  
**South Africa**  
3 Semester Hours  
The history of South Africa during the last two centuries with emphasis on political rivalries, apartheid, and economic development.

HIST 494  
**Bodies and Gender in Japanese History**  
3 Semester Hours  
This course investigates how embodiment, a fundamental aspect of human experience, varies over time and across cultures. Readings and lectures compare Euro-American ideas about bodies and gender with Japanese examples from various time periods.

**Seminars**

**Area 1: Europe**

HIST 501  
**Seminar in European History**  
3 Semester Hours

HIST 505  
**Seminar in Ancient History**  
3 Semester Hours

HIST 510  
**Seminar in Medieval History**  
3 Semester Hours

HIST 515  
**Seminar in Early Modern Europe**  
3 Semester Hours

HIST 520  
**Seminar in Late Europe**  
3 Semester Hours

**Area 2: United States**

HIST 550  
**Seminar in American History**  
3 Semester Hours

HIST 555  
**Seminar in Early America**  
3 Semester Hours

HIST 560  
**Seminar in 19th Century America**  
3 Semester Hours

HIST 565  
**Seminar in Recent America**  
3 Semester Hours

Humanities

Director:
Katerina Zacharia

Objectives:
The Humanities major is designed to meet the needs of a student who has a broad interest in liberal arts but whose interest would not be served by a major program within a single department. The Humanities major is an interdisciplinary program. In the first two years the student acquires a broad background in the arts, history, and literature. Language study through the advanced level is also required. In the second two years, the student concentrates in a particular area of interest. The concentration consists of five (5) upper division courses taken from departmental offerings in Archaeology, Art History, Classics, English, French, German, Greek, History, Italian, Latin, Philosophy, Spanish, or Theological Studies. The concentration is then supported by two (2) upper division history or philosophy courses and two (2) upper division courses in either an ancient or a modern literature selected in consultation with the Humanities advisor. Each student is required to complete a senior thesis (HMNT 490). The topic will stem from the student’s concentration and after consultation with the Director and the senior thesis advisor. The Director and the student will identify a particular faculty member in the field of his/her concentration as an advisor. The student will then work closely with the advisor to produce a thesis which analyzes the chosen topic from the perspectives of language, literature, art history, history, and philosophy. The senior thesis project will be reviewed and graded by the thesis advisor in consultation with the Director.

The program is a fine preparation for students interested in professional courses in law, business, or education. Also, the program is designed to allow students to complete a major in a departmental area which would qualify them for graduate studies.

Humanities Student Learning Outcomes

By virtue of pursuing a major in Humanities,

Students should know:

- The various ways in which artists have developed the fine arts to convey their sense of the world’s surface and its depth
- A foreign language
- The content as well as analytical and communicative skills that the disciplines study of their concentration demands;

Students should be able to:

- Communicate insights clearly, effectively, and with nuance in both oral and written form
- Synthesize insights from a variety of disciplines
- Develop insights from one discipline for the enrichment of others;

Students should value:

- The variety of ways in which cognitive, moral, and aesthetic disciplines have enriched our sense of the human condition
- The further pursuit of those disciplines, as required by their deeper sense of the complexity of the human condition
- Their responsibility to serve the world as whole persons, with head, heart, and hand.

Major Requirements:

Lower Division Requirements:

15 semester hours distributed as follows:

- 6 semester hours from: ARHS 200, 201, 202.
- 3 semester hours in Studio or Performance Arts.
- 6 semester hours from one of the following language sequences:
  - CHIN 203, 204;
  - FREN 203, 204;
  - GREK 201, any upper division Greek;
  - GRMN 201, 202;
  - ITAL 203, 204;
  - JAPN 203, 204;
  - LATN 201, any upper division Latin;
  - MDGK 203, 204;
  - SPAN 203, 204.

An average grade of C (2.0) must be obtained in courses included in the major.
Upper Division Requirements:

30 semester hours in upper division courses distributed as follows:

- 15 semester hours in concentration in a departmental major.
- 6 semester hours in either an ancient or a modern literature which supports the concentration.
- 6 semester hours in either history or philosophy which supports the concentration.
- 3 semester hours for the Senior Thesis (HMNT 490) in the final semester.

An average grade of C (2.0) must be obtained in courses included in the major.

The choice of a concentration and of support courses must be formally approved by the Director.

**Humanities Model Four-Year Plan**

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

**HMNT 490**

**Senior Thesis**

3 Semester Hours

The student completes a substantive research project on his/her concentration, approaching it from the perspectives of language, literature, art history, history, and philosophy.

**Prerequisites:** Senior standing and consent of Director.
Irish Studies

Director:
John Menaghan

Objectives:

Irish Studies is an interdisciplinary minor designed to complement a wide variety of majors by providing students with an understanding of the historical and cultural development of the Irish people and the significance of their intellectual, artistic, spiritual, and economic contribution to world civilization, including their experiences as both a post-colonial nation and an emigrant diaspora. Taken together, Ireland’s historical evolution; its long experience of colonization and cultural oppression; its rich contribution to world literature, art, and music; the creative tension in contemporary Ireland between its ancient Celtic heritage and its modern Anglo-Irish/Hiberno-English identity; and its remarkable though often unacknowledged influence upon the countries—chiefly the United States, Great Britain, Canada, Australia, New Zealand and South Africa—that make up the far-flung Irish diaspora constitute a fertile field for intellectual inquiry.

Focused simultaneously on a small nation on the edge of Europe and a far-flung diaspora and offered within the context of the most culturally diverse city in the world, the minor in Irish Studies is designed to be not merely interdisciplinary but intercultural. At a time when the nearly simultaneous phenomena of a European drive toward unification and an American emphasis on diversity both complicate and enrich our very notions of what constitutes a nation, culture, or people, students minoring in Irish Studies will have the flexibility to explore the richness of the Irish experience from a broad range of perspectives and the opportunity to assess its influence not only in Europe and America but on struggles against cultural and political oppression around the globe.

Irish Studies Student Learning Outcomes

Students minoring in Irish Studies are given opportunities to learn about:

- The general history of Ireland and the Irish diaspora
- The distinctive literary achievements of the Irish
- Irish achievements in cinema and dance
- Historical, religious, and moral issues in contemporary Irish politics
- The intersection/intermingling of Celtic and Christian worldviews
- The connection of Irish struggles for freedom and self-determination to similar struggles in the United States and around the world;

Students minoring in Irish Studies will be given opportunities to develop:

- Their ability to perform research into several distinct aspects of the Irish experience
- Their ability to compose well-written and thoughtful essays on Irish history, politics, religion, and culture
- Their ability to evaluate and appreciate Irish achievements in the arts
- Their ability to make connections across disciplines, countries, and cultures;

Students minoring in Irish Studies will be encouraged to value:

- The Irish struggle against cultural and political oppression and its relation and continuing relevance to similar struggles around the world
- The distinctive contributions of the Irish to European, American, and world civilization.

Study Abroad

Students can earn up to six credits toward the minor in Irish Studies in the LMU Summer in Ireland Program at Trinity College Dublin, one of the oldest and most renowned universities in the world. Students can also arrange to spend a semester or year abroad at an Irish university.

Minor Requirements:

18 semester hours, including at least one course in Irish literature and one in Irish history. At least 12 semester hours must be in upper division courses. An average grade of C (2.0) must be maintained in Irish Studies courses.

Note:

Courses offered in other departments and programs may be used as semester hours to fulfill the minor requirements in IRST, provided the student receives approval of the Director in advance of taking the course. Students seeking such approval must arrange with the relevant instructor to complete a substantial paper/project on Ireland and/or the Irish diaspora and must submit a copy of same to the Director at the end of the course. No more than nine semester hours (3 such courses) may be applied toward the 18 total semester hours required to complete the Irish Studies minor. Such courses may also have departmental prerequisites; consult course descriptions for further details.
Liberal Arts

The following courses, offered by the Bellarmine College of Liberal Arts, are designed to enrich the academic, career-related, and life skills of our students.

**LIBA 101**
Mastering Educational Technology
1 Semester Hour

A competence-based course designed to prepare first-year students to use the tools to conduct basic research, creative writing, and other academic work. Consideration of academic honesty and ethics will also be discussed.

Credit/No Credit grading.

**LIBA 125**
Study and Library Research Skills
1 Semester Hour

This course covers academic skills for a successful university experience, including time management, library research processes, note taking, reading for meaning, avoiding plagiarism, and using MS Office applications.

Credit/F grading.

**LIBA 170**
An Orientation to Learning I
1 Semester Hour

Information on coping with the technicalities of being a college student—registration, matriculation, library use, study skills, learning resources, career planning, college re-entry. Credit applicable for baccalaureate degree is determined by individual colleges.

Encore students only.

Credit/No Credit grading.

**LIBA 171**
An Orientation to Learning II
1 Semester Hour

Prerequisite: LIBA 170.

Encore students only.

Credit/No Credit grading.

**LIBA 198**
Special Studies
1-3 Semester Hours

**LIBA 199**
Independent Studies
1-3 Semester Hours

**LIBA 250**
Strategies for Career Development
2 Semester Hours

This course utilizes the popular models of career theory and traditional personality assessments to help students identify interests, skills, and values and describe how they relate to a career choice. The decision-making model is utilized to synthesize personal information, and research is conducted on employment trends. By the end of the course, students will be familiarized with the job search process including resume writing, interviewing skills, and job search strategies.

Credit/No Credit grading.

**LIBA 251**
Career Development Internship
1 Semester Hour

Engage in a mentoring/training type relationship with an employer in a career field of interest. Internships are established through the office of Career Development Services to aid in career decision-making, to make contacts with employers, and to evaluate employment opportunities firsthand.

Credit/No Credit grading.

**LIBA 291**
Intercultural Practicum I
1 Semester Hour

This course will teach students advanced human relations skills and provide them the occasion for integrating intercultural theory and practice in an increasingly diverse society.

Credit/No Credit grading.

**LIBA 292**
Intercultural Practicum II
2 Semester Hours

This course will teach students advanced skills in cross-cultural conflict management, intercultural leadership, strategies for organizational change in multiethnic settings, institutionalizing social change, and preparing personal action plans.

Prerequisite: LIBA 291.

Credit/No Credit grading.

Completion of LIBA 291 and 292 earns the Certificate for Intercultural Competence.
LIBA 298
Special Studies
1-3 Semester Hours

LIBA 299
Independent Studies
1-3 Semester Hours

LIBA 398
Special Studies
1-3 Semester Hours

LIBA 399
Independent Studies
1-3 Semester Hours

LIBA 400
Subject Mastery Portfolio
1 Semester Hour

This course assists Liberal Studies majors in completing the Subject Mastery Portfolio portion of the Liberal Studies major.

Liberal Studies majors only. Seniors only.

Credit/No Credit grading.

LIBA 495
Seminar in College Teaching
3 Semester Hours

Seminar for students serving as teaching assistants in undergraduate courses. Topics include college teaching techniques, problems, and ethical considerations.

Consent of instructor required.

Prerequisite: Senior standing.

LIBA 498
Special Studies
1-3 Semester Hours

LIBA 499
Independent Studies
1-3 Semester Hours
Liberal Studies

Director:
Sharon Locy

Objectives:

The Liberal Studies program enables the student to meet the teacher preparation standards mandated by the California Commission on Teacher Credentialing. The Liberal Studies program curriculum likewise serves the Loyola Marymount University mission.

Liberal Studies Student Learning Outcomes

The Liberal Studies program student will master the content required of professional educators in the State of California, to include:

- Key concepts in the following academic fields: the social sciences and history, the arts and humanities, language studies, mathematics and science, health, physical education, human development, and in an approved academic concentration of the candidate’s choice
- Candidates will demonstrate their mastery of the subject matter by successfully passing the CSET (California Subject Examination for Teachers) at the completion of their coursework;

The Liberal Studies program student will master the skills required of professional educators in the State of California:

- To synthesize subject content in the liberal arts, professional content related to classroom teaching, and educational policies; candidates will demonstrate this ability to synthesize and the other skills listed below in a Subject Mastery Portfolio compiled at the completion of their coursework
- To apply reading, writing, and research skills appropriate to the work of the academic disciplines being studied
- To apply academic concepts to practical teaching contexts
- To analyze, reflect on, and evaluate the relationships among academic theories, the practical and applied contexts of teaching, and the multiple and complex needs of students comprising a rich and diverse globe;

The Liberal Studies program student will value:

- Intellectual inquiry across a range of subjects
- A world view comprising faith, social justice, and a respect for diversity
- The individual’s role as a future educator who will shape the lives of children, local communities, and larger national and global societies.

There are five components to the Liberal Studies major:

I. University Core Curriculum

50 Semester Hours

Because the subject-matter requirements set by the Commission on Teacher Credentialing are very specific, many of the core requirements for Liberal Studies majors are specified and may differ from those of other majors within the Bellarmine College of Liberal Arts. These core requirements are as follows:

- College Writing (3 semester hours): ENGL 110;
- Communication or Critical Thinking (3 semester hours): choice of one of the following: CMST 100, 110, 140, or 206;
- History (6 semester hours): HIST 300 and 301;
- Social Sciences (6 semester hours): PSYC 100 and choice of one of the following: AFAM 115, APAM 117, or CHST 116;
- American Cultures (3 semester hours): HIST 161 (fulfills the U.S. Constitution requirement for credential candidates);
- Literature (3 semester hours): choice of one of the following drama-based courses: CLCV 210, 220; ENGL 150, 170; THEA 240, 245;
- Mathematics (see major requirements)
- Science and Technology (8 semester hours): NTLS 270 and 271 (4 semester hours each);
- Fine Arts Critical (3 semester hours): MUSC 104;
- Fine Arts Creative (3 semester hours): ART 250;
- Philosophy (6 semester hours): PHIL 160 and one course from PHIL 320-330;
- Theological Studies (6 semester hours): one course from the THST 100-level series and one course from the 300-level series.
II. Liberal Studies Major Requirements  
24 Semester Hours

DANC 384: Creative Dance for Children (3 semester hours)
DANC 385: Movement Arts for Children (3 semester hours)
ENGL 305: Advanced Composition for Credential Candidates (3 semester hours)
ENGL 346: Children's Literature (3 semester hours)
HIST 366: History of California (3 semester hours)
MATH 106, 107: Mathematics for Elementary Teachers I, II (6 semester hours) Liberal Studies majors must either pass out of or take MATH 101 as a prerequisite to MATH 106, 107.
PSYC 352: Developmental Psychology (3 semester hours)

III. Education Program Requirements  
21 Semester Hours

EDUC 400: Sociocultural Analysis of Education (3 semester hours)
EDUC 401: Educational Psychology for the Childhood and Adolescent Years (3 semester hours)
EDUC 409: Reading and Language Arts in the Elementary Curriculum (3 semester hours)*
EDUC 414: Theories of Second Language Acquisition (3 semester hours)
EDUC 425: Methods in English Language Development/Specially Designed Academic Instruction in English (3 semester hours)*
EDUC 434: Elementary Curriculum and Methods (3 semester hours)*
EDUC 440: Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs (3 semester hours)
EDUX 842: Health Education in the Schools (0 semester hours)

* Starred courses require a separate application to and acceptance into the Elementary Education program or the Mild/Moderate Specialist Credential program. Acceptance into either of these programs requires an LMU cumulative GPA of 2.8. See the Director of Liberal Studies for other application requirements.

IV. Concentration  
12-18 Semester Hours

In addition, Liberal Studies majors also fulfill a concentration (generally, 12 upper division semester hours) in a subject commonly taught in elementary schools or closely related areas of study. Courses applying to the concentration may not be those required of all Liberal Studies majors (see above). With careful planning the concentration can constitute most, if not all, of an LMU minor. See the Director of Liberal Studies for qualifying concentrations and their specific requirements.

V. Electives

Remaining baccalaureate units are elective. They may include the 9 semester hours of student teaching, after the Education program requirements have been completed.

Liberal Studies Model Four-Year Plan

This model is based on the student having a 12-semester-hour concentration. Students with larger concentrations or required to take MATH 101 will need to work those courses into their schedules—overloading some semesters and/or taking summer courses. This model also includes some 0-semester hour Education requirements (TPAs: Teaching Performance Assessments which students fulfill once accepted into the Education program) which are not part of the Liberal Studies degree but are required for the teaching credential; they are represented on the model plan during the semesters in which the School of Education anticipates they would be fulfilled. In addition, before being granted the teaching credential, candidates must demonstrate basic computer skills and knowledge of health education in the schools; this is accomplished through LMU Extension EDUX 842, a short course which students must arrange to take on their own before admission into the School of Education program.

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

**Total:** 15

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.
Modern Languages and Literatures

Faculty:

Chairperson: Alicia Partnoy
Professor: Áine O’Healy
Associate Professors: Rebeca Acevedo,
   José Ignacio Badenes, S.J., Jennifer L. Eich,
   Véronique Flambard-Weisbart, Petra Liedke Konow,
   Marc Lony, Alicia Partnoy
Assistant Professors: Mónica Cabrera, Gordon S. Gamlin,
   Antonia Petro

Objectives:

Our Department equips students with language proficiency as it introduces them to the multicultural nature and historical evolution of literary and other texts in the target languages. Our courses provide opportunities to comprehend, interpret, and practice linguistic skills through oral and written exercises and assignments. Through a judicious selection of required courses and electives that include literature, history, and the arts, students reinforce their own beliefs and develop respect for those of other peoples. We thrive to provide tools to foster intercultural understanding as the basis for global harmony and social justice.

Courses Exempted from Challenge Examination:

Lower division language courses (100-200) may not be challenged by exam. Additionally, students with significant course credit in a language from high school or college will not be allowed to enroll in the 101 course of that language.

Chinese

The 101, 102, 203, 204 series emphasizes speaking and understanding Mandarin while developing a command of Chinese characters for reading and writing. This series requires one hour weekly language lab.

CHIN 101
Elementary Chinese I
3 Semester Hours

This course enables students to speak and understand the basic linguistics of Mandarin and to read and write a limited number of Chinese characters. Importance is placed on mastery of the Pin-Yin system of pronunciation and tonal emphasis. Students develop a comprehensive speaking and listening vocabulary of approximately 450 words and a reading and writing knowledge of approximately 150 Chinese characters. Introduction to the fundamentals of Chinese grammar and selected topics on Chinese culture.

Fall semester only.

CHIN 102
Elementary Chinese II
3 Semester Hours

This course continues the study of Chinese grammar patterns; up to two-thirds of the fundamentals are taught. The primary emphasis is on speaking and understanding Mandarin. Four hundred fifty new words are introduced into the speaking and listening vocabulary and 250 new characters into the reading and writing vocabulary.

Spring semester only.

Prerequisite: CHIN 101 or equivalent, or consent of instructor.

CHIN 198
Special Studies
1-3 Semester Hours

CHIN 199
Independent Studies
1-3 Semester Hours

Filipino

The courses are designed to develop student competency in Filipino/Tagalog focusing first on the sounds and rhythm of the language, vocabulary building, and sentence patterns. A functional-situational approach to language learning is utilized to develop an understanding and appreciation of Filipino culture and customs associated with the use of various linguistic forms. All levels will enhance and work toward increased proficiency in speaking, listening, reading, and writing through language games and exercises.

**FLPN 101**  
**Elementary Filipino I**  
3 Semester Hours

This course is designed for students who have little or no knowledge of the language. Students will learn how to construct the basic sentence patterns in Filipino/Tagalog and to use the actor focus verbs *UM*, *MAG*, and *MA* and the object focus verb *-IN*, as well as the different sets of pronouns and their proper use: nominative, dative, and genitive.

**FLPN 102**  
**Elementary Filipino II**  
3 Semester Hours

This course is a continuation of FLPN 101. The course will also cover the object focus verbs *-IN*, *I-,* and *-AN*, the abilitative focus verbs *MAKA-* and *MAKAPAG-*, and the causative verb *MAGPA-*. There will be extensive role play and multimedia materials to assist students in learning the language.

Prerequisite: FLPN 101 or consent of instructor.

**FLPN 203**  
**Intermediate Filipino I**  
3 Semester Hours

This course is designed to strengthen listening, speaking, reading, and writing skills and to improve communicative competence by teaching social rules along with the linguistic rules. Students will be introduced to more complex sentence structures and the other verb focuses: locative, instrumental, and directional.

Prerequisite: FLPN 102 or consent of instructor.

**FLPN 204**  
**Intermediate Filipino II**  
3 Semester Hours

This course is a continuation of FLPN 203. Students will have extensive practice in narration (pagsasalaysay); description of people, places, objects, feelings (paglalarawan); defining and explaining a procedure (paglalahad); and argumentation (pangangatwiran). More complex grammatical structures and readings will be used to further the students’ proficiency in the language.

Prerequisite: FLPN 203 or consent of instructor.
Foreign Literature in English Translation

The following are courses offered in foreign literature for which no knowledge of the foreign language is required.

**FNLT 180**  
World Literature  
3 Semester Hours  
A study of selected texts from international literature.

**FNLT 341**  
Introduction to Modern Greek Literature  
3 Semester Hours  
A study of the works of Kazantzakis, Cavafy, Seferis, Elytis, and Ritsos.

**FNLT 342**  
Classical Chinese Literature in Translation  
3 Semester Hours  
This course is a survey of classical Chinese literature from ancient times to the beginning of the century.  
Taught in Beijing, China.

**FNLT 343**  
Modern Chinese Literature in Translation  
3 Semester Hours  
This course is a survey of modern Chinese literature from 1918 to the present. It will focus on the fiction, poetry, and essays during the three periods (1918-1949, 1949-1976, since 1976) in the 20th century.  
Taught in Beijing, China.

**FNLT 398**  
Special Studies  
1-3 Semester Hours

**FNLT 399**  
Independent Studies  
1-3 Semester Hours

French/Francophone Studies

Objectives:

The French/Francophone Studies curriculum is designed to enhance students’ understanding of the French/Francophone world by exposing them to French/Francophone cultures and perspectives. It also responds to the increasing demand for a more practical emphasis in language learning after the lower division level and allows students to tackle the professional world immediately beyond graduation. It may complement LMU’s Summer Study Abroad Program in Paris, France.

French/Francophone Studies Student Learning Outcomes

Student Learning Outcomes will be assessed through a Senior Capstone Project (FREN 500) which consists of a portfolio during the second semester of the senior year. The portfolio is a collection of multiple samples usually compiled over time accompanied by a personal reflection essay which would show that the student has met the objectives of the French/Francophone Studies program.

Majors in French/Francophone Studies will know:

- The principal aspects of the French language
- The principal aspects of French/Francophone cultures and civilizations
- The principal aspects of cultural expressions such as literature, art, social practices, gender, and media of the French-speaking world;

Majors in French/Francophone Studies will be able to:

- Understand spoken French
- Speak and write French
- Read literary texts in French and discuss their content, technique, and social significance;

Majors in French/Francophone Studies will value:

- French/Francophone cultures and civilizations
- French cultural expressions
- Increasing intercultural awareness.

Major Requirements:

Lower Division Requirements:

FREN 101, 102, 203, 204.

These requirements may be waived or modified based upon proficiency demonstrated on the LMU French Placement Examination. For majors, a minimum grade of C (2.0) is required in all pre-major courses.
Upper Division Requirements:

25 semester hours in upper division courses: FREN 314, 321, 333, 334, 341, three courses in the 400-level series, and 500.

A minimum grade of C (2.0) must be maintained in all upper division courses.

Minor Requirements:

18 semester hours taken beyond FREN 203: FREN 204, 314, 321, 333 or 334, 341, and one (1) course in the 400-level series.

The FREN 101, 102, 203, and 204 series is recommended for those who seek basic proficiency in the language. This series requires attendance of a one hour weekly language lab.

French Placement Exam

Any student who has knowledge of or has had prior instruction in French in high school or at a college or university other than LMU must take the French Placement Exam. This exam is administered by the Learning Resource Center during summer Orientation sessions and at the beginning of the Fall and Spring terms.

This requirement includes students who have taken the AP French Exam in high school. Generally, a student who receives a score of 5 or 4 on the AP French Exam (Language or Literature) places in FREN 204. Final placement is conditional upon the instructor's consent. Course credit will be given for FREN 101, 102, and 203 once the student's official scores have been received from the College Board. It is the responsibility of each student to ensure that the official AP scores have been sent to Loyola Marymount University.

French/Francophone Studies Model

Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

FREN 101
Elementary French I
3 Semester Hours
A course intended for students who have not taken French before. Based on a communicative approach, the course emphasizes reading, writing, and oral proficiency in basic French. Materials covered include an introduction to all articles, pronouns, regular and irregular verbs in past and present tenses and in indicative and imperative modes, adjectives, prepositions, and basic vocabulary.

FREN 102
Elementary French II
3 Semester Hours
A continuation of FREN 101. New materials covered include an introduction to pronominal verbs, verbs in the future tense and in the subjunctive and conditional modes, adjectives, pronouns, adverbs, and many idiomatic vocabulary and verbal expressions.
Prerequisite: FREN 101 or by LMU Placement Exam.

FREN 203
Intermediate French I
3 Semester Hours
After reviewing FREN 101 and 102, an introduction to more complex linguistic patterns presented in a French/ Francophone cultural and comparative context. Includes practice in speaking, listening, reading, and writing through discussion of short texts, written exercises and short compositions, and work with multimedia resources.
Prerequisite: FREN 102 or LMU Placement Exam.

Senior Capstone Project
1 Semester Hour
Exit portfolio (for majors only).
Credit/No Credit grading.
Seniors only.
German

Objectives:

During the phase of early language acquisition, our German courses build students’ language skills and intercultural awareness. While still perfecting their language skills, students in GRMN 204 and above are introduced to the literatures in German from a variety of cultural traditions. Literature courses range from a general survey of German literature over the centuries to the study of specific genres, such as drama, the novella, and the German fairy tale. In addition to literary studies, the German section also offers a course on German film and a course on German culture and civilization that provides an introduction to German history, society, politics, and the arts, while developing students’ general intercultural awareness. For students interested in the language of business, the German section offers two business-related courses.

German Student Learning Outcomes

Students minoring in German will know:

• The principal aspects of the German language
• The principal aspects of the history of German literature and film
• The principal aspects of the history and culture of German-speaking countries;

Students minoring in German will be able to:

• Speak, understand, read, and write German in meaningful contexts
• Use the latest relevant applications in educational technology
• Read literary texts in German and discuss their content, techniques, and social significance;

Students minoring in German will value:

• German language, literature, and culture
• Expressing independent critical opinions
• Increasing intercultural awareness.

German courses at LMU foster communication and understanding others as essential aspects of the education of the whole person. Students thus embark on a road of lifelong learning that will take them into a richer future.

Minor Requirements:

The German minor consists of 18 semester hours above the 100 level: GRMN 203, 204, 301, and three courses from upper division offerings (300-400 level). Within this minor a professional German emphasis is possible, with GRMN 302 and 437 as upper division course options for the business-oriented student.

The GRMN 101, 102, 203 series is recommended for those who seek a basic speaking, writing, and reading knowledge of the language. This series requires one hour weekly in the Department’s language center. The conversation courses are designed to be taken concurrently with regular language courses.

Once per year, the German section offers a general proficiency test in German (ZD), which is internationally recognized and certifies the language skills of the student to prospective employers in the public and private sector.

Students of German may wish to take advantage of LMU’s semester or full year New Europe Program in Bonn, Germany, to improve their language skills. Lower division elementary and intermediate German language courses in Bonn are listed as EURO 181 and 283 each semester. Upper division German courses are also available. The German Mastery Workshop I and II (GRMN 398/498) counts as three semester hours towards the German minor.

GRMN 101
Elementary German I
3 Semester Hours

A course intended for students who have not taken German before. Based on the communicative approach, the course emphasizes oral proficiency in basic German as well as reading and writing. Materials covered include an introduction to the nominative and accusative cases with their corresponding articles and pronouns, regular and irregular verbs in the present tense, and word order as well as basic vocabulary and the development of cross-cultural awareness.

GRMN 102
Elementary German II
3 Semester Hours

A continuation of GRMN 101. Apart from the continued emphasis on oral competence, cross-cultural awareness, as well as reading and writing, the new grammar materials covered include an introduction to the dative case with its corresponding articles and pronouns, prepositions carrying the accusative and/or dative case, the present perfect tense, relative clauses, and adjective endings.

Prerequisite: GRMN 101 or equivalent.

Italian

Objectives:
The Italian minor introduces students to the rich, complex culture of Italy, first by providing them with basic linguistic skills in the Italian language, and subsequently by familiarizing them with important literary works produced in Italy over the centuries as well as with historically significant films.

Italian Student Learning Outcomes
Students learn to communicate successfully in Italian and develop an understanding of the practices and perspectives of Italian culture down through the centuries. They also acquire specific skills in textual analysis and research, gain a more complex understanding of the many forms of cultural expression, and sharpen their ability to think critically.

Minor Requirements:
The minor consists of 18 semester hours taken above the 100 level: ITAL 203, 204, and four courses taken from upper division offerings. Students who have not previously studied Italian and who wish to declare a minor in Italian are advised to begin their study of the language in their freshman year.

The ITAL 101, 102, 203 series is recommended for those who seek a basic speaking, writing, and reading knowledge of the language. This series requires one hour of independent study in the language lab each week.

ITAL 101
Elementary Italian I
3 Semester Hours

An introduction to Italian language and culture with emphasis on communicative skills, this course is designed for students who have little or no knowledge of Italian. Students will acquire the four basic language skills—listening, speaking, reading, and writing—in classes that are taught exclusively in Italian. Materials covered include an introduction to articles, pronouns, adjectives, prepositions, regular and irregular verbs in past and present tense indicative, and basic vocabulary on selected topics. Students are also introduced to the basic geography of Italy and to aspects of everyday Italian culture.

Japanese

The courses develop listening, speaking, reading, and writing skills using the direct method. Grammar points are explained in English. The student is provided an opportunity to practice conversation with native speakers to further improve oral skills. Selected topics are presented to enhance awareness and understanding of Japanese culture.

JAPN 101
Elementary Japanese I
3 Semester Hours
An introduction to the fundamentals of Japanese, emphasizing listening and speaking skills. Students learn to ask and answer simple questions in the present and past tense. Introduces reading and writing of Hiragana, Katakana, and approximately 30 Kanji along with essentials of Japanese culture and custom.

Fall semester only.

Prerequisite: JAPN 101 or equivalent.

JAPN 102
Elementary Japanese II
3 Semester Hours
A continuation of JAPN 101. Review of Katakana and approximately 75 new Kanji are introduced. Useful grammatical patterns emphasizing the use of adjectives and verb conjugations. Practical patterns such as polite commands, permissions, prohibitions, and progressive forms are studied.

Spring semester only.

Prerequisite: JAPN 101 or equivalent, or consent of instructor.
JAPN 203
Intermediate Japanese I
3 Semester Hours

A course designed to improve oral proficiency as well as reading and writing skills in Hiragana, Katakana, and Kanji. Approximately 75 new Kanji are introduced. More complex grammatical patterns such as potentials, giving advice, and expressing one's desires. Increased knowledge and understanding of Japanese culture and customs.

Fall semester only.

Prerequisite: JAPN 102 or equivalent, or consent of instructor.

JAPN 204
Intermediate Japanese II
3 Semester Hours

A continuation of JAPN 203. A course designed to enable students to express their ideas effectively through the use of more complex patterns such as advanced relative clauses, giving and receiving verbs, volitional forms and hearsay reports. Seventy-five new Kanji are practiced, and students write short essays on selected topics.

Spring semester only.

Prerequisite: JAPN 203 or equivalent, or consent of instructor.

JAPN 298

Modern Greek

For courses and curriculum in Modern Greek, see Classics and Archaeology.
Spanish

Spanish Major:

Objectives:

This major equips students with language proficiency in Spanish as it introduces them to the multicultural nature and historical evolution of Hispanic literary and cultural expressions in Europe and the Americas. It provides students with opportunities to comprehend, interpret, and practice advanced linguistic skills in Spanish through oral and written exercises and assignments. Survey and seminar classes familiarize them with representative literary works and cultural texts from Spain, Spanish America, and the U.S., and provide theoretical terminology and concepts essential for structural and conceptual analyses of these products. The major also requires the study of Spanish phonology, morphology, syntax, and dialectal varieties. Finally, it helps students to develop a sense of social justice through their consistent participation in intercultural events and service learning activities that involve both academic and culturally significant contexts.

Spanish Student Learning Outcomes

Spanish majors will know:

- The variety and nature of linguistic practices, cultural texts, and perspectives in Spanish-speaking countries
- Representative literary works and cultural texts from Spain, Spanish America, and the Latino U.S.
- Theoretical terminology and concepts essential for structural and conceptual analyses of these texts;

Spanish majors will be able to:

- Communicate creatively and effectively in written and oral forms in Spanish
- Understand spoken Spanish
- Read Spanish literature
- Apply acquired theoretical and critical skills in textual analyses and scholarly research
- Demonstrate an advanced command of how literary works, cultural expressions, and linguistic varieties of the Spanish-speaking world represent the multiplicity of human experience;

Spanish majors will value:

- The evolution and variety of perspectives in Hispanic cultures
- Social justice and intercultural awareness.

Major Requirements:

Lower Division Requirements:

SPAN 101, 102, 203, and 204 or 205.

The elementary and intermediate courses may be satisfied by Advanced Placement examination. A minimum grade of C (2.0) is required in all pre-major courses.

Upper Division Requirements:

Spanish Major: The major in Spanish requires 25 semester hours in upper division courses: SPAN 321, 322, 330, 331, 332; 9 semester hours in 400-level Spanish electives; and SPAN 500, a senior portfolio (1 semester hour). Students are permitted to take up to 30 upper division hours in Spanish. Students must complete all upper division courses with a minimum grade of C (2.0) to maintain status.

Spanish Major Portfolio Requirement:

Spanish majors are required to register for a one-credit course (SPAN 500, Senior Capstone Project) in their senior year. Each graduating student constructs a portfolio that includes a 6-8 page reflective essay written in Spanish that demonstrates how the student has met the goals of the Spanish program. These goals comprise language proficiency, cultural competency, mastery of literary and linguistic studies, development of a sense of social justice through intercultural understanding, and the prospect of using this knowledge after graduation. In addition, the portfolio contains a brief description of the student’s involvement in extracurricular intercultural activities connected with the Spanish major. Finally, students must orally present their portfolio to their peers and the Spanish program faculty at a group meeting.

Guidelines for the collection of materials included in the portfolio as well as deadlines for the oral presentation of the material are available in the Department. This exit interview course is graded Credit/No Credit.
Single Subject Teaching Credential:

Students interested in obtaining a Single Subject teaching credential in Spanish must fulfill the requirements for the Spanish major and take SPAN 420 and 432 or their equivalent. Students must attend an orientation meeting at the School of Education and apply for admission to the Single Subject Teaching Program. To complete both programs in four years, students are encouraged to start this process early. Prospective teachers are also required to meet with a faculty member in the School of Education.

Spanish Minor:

Lower Division Requirements:

SPAN 101, 102, 203, and 204 or 205.

Successful completion of or placement test placement in upper division course level is a requirement prior to beginning the minor.

Upper Division Requirements:

Spanish Minor: The minor consists of 18 semester hours taken beyond SPAN 204 or 205: SPAN 321, 322 or 330, to be followed by SPAN 331, 332, and one upper division 400-level Spanish elective. Students must complete all upper division courses with a minimum grade of C (2.0) to maintain status.

Spanish Placement Exam:

Any student who has knowledge of or has had prior instruction in Spanish in high school or at a college or university other than LMU must take the LMU Spanish Placement Exam. This exam is administered by the Learning Resource Center during the summer Orientation sessions and at the beginning of the Fall and Spring terms.

This requirement includes students who have taken an AP Spanish Exam in high school. Generally, a student who receives a score of 5 or 4 on the AP Spanish Exam (Language or Literature) places in SPAN 204 (Intermediate Spanish II) or SPAN 205 (Intermediate Spanish II for Latino Students). Final placement is conditional upon the instructor’s consent. Course credit will be given for SPAN 101, 102, and 203 once the student’s official scores have been received from the College Board. It is the responsibility of each student to ensure that the official AP scores have been sent to Loyola Marymount University.

Study Abroad:

Students are strongly encouraged to go abroad for a semester either during their sophomore year (Spring semester) or junior year (Fall or Spring semester). Prior to departure, students must obtain transfer credit approval for any courses that they take, and no more than two Spanish courses will transfer for the major. Consult the Study Abroad Office or the Spanish professors for information about semester, year-long, or Summer study abroad programs offered by other universities that the Spanish program endorses.

Spanish Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**Spanish Program Course Offerings**

* All courses are taught in Spanish unless otherwise indicated.

---

**SPAN 101**

**Elementary Spanish I**

3 Semester Hours

The course emphasizes reading, writing, aural, and oral proficiency in basic Spanish and reflects the diversity within Hispanic cultures. Instruction includes articles, pronouns, regular and irregular verbs (including reflexive verbs) in the present and the past tenses of the indicative mood, adjectives, and basic vocabulary.

Prerequisite: Students with no prior study of Spanish or LMU Placement Exam.
SPAN 205
Intermediate Spanish II for Latino Students
3 Semester Hours

This course, specially designed for students with a cultural Latino/Hispanic background, is the equivalent of SPAN 204. It strengthens the students' communicative skills in Spanish while developing an appreciation and deeper knowledge of their cultural background. Students are trained to present oral and written reports in formal Spanish, to narrate and describe in paragraphs of connected discourse in high-frequency linguistic structures. They will acquire and demonstrate a solid knowledge of Spanish grammar.

Prerequisite: SPAN 203 or by LMU Placement Exam.

SPAN 211
Advanced Conversational Spanish
1-3 Semester Hours

A course designed to permit intermediate students of Spanish to learn and practice communicative strategies, increase their vocabulary, and become acquainted with Spanish, Latin American, and U.S. Latino cultures. Oral presentations are required.

Prerequisite: SPAN 203 or concurrent enrollment.

Credit/No Credit only.

SPAN 298
Special Studies
1-3 Semester Hours

SPAN 299
Independent Studies
1-3 Semester Hours

SPAN 311
Professional Spanish
3 Semester Hours

The aim of this class is to strengthen the student's communicative skills in Spanish. During the course we study two professions: 1) business and 2) another profession chosen by each student. The course builds the student's technical vocabulary, teaches certain discursive strategies, and enhances cultural knowledge of particular Spanish-speaking regions by examining various types of texts related to business (e.g., business letters, newspapers, job interviews, and advertisements, magazine articles, etc.).

Prerequisite: SPAN 204 or 205, or by LMU Placement Exam.

SPAN 321
Stylistics and Composition
3 Semester Hours

An introduction to writing and editing Spanish compositions. Course work emphasizes the writing process: developing thesis, structuring arguments, and generating a clear, cohesive style.

Prerequisite: SPAN 204 or 205, or by LMU Placement Exam.

SPAN 322
Introduction to Hispanic Literatures
3 Semester Hours

A study of theoretical terminology and concepts essential for structural and conceptual analysis of literary works written in Spanish. Students are introduced to literary periods and genres from Spanish and Spanish American authors.

Prerequisite: SPAN 321.

SPAN 330
Introduction to Spanish Linguistics
3 Semester Hours

A study of the Spanish sound systems, word formation, word order, vocabulary, and the history of the Spanish language. Includes class exposure to varieties of Spanish such as Caribbean Spanish, Mexican Spanish, Peninsular Spanish, and Spanish spoken in the U.S.

Prerequisite: SPAN 321 or consent of instructor.

SPAN 331
Survey of Peninsular Spanish Literature
3 Semester Hours

Analysis of some of the most celebrated masterpieces of Spanish literature from the Middle Ages to the present in their historical and cultural contexts.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 332
Survey of Latin American Literature
3 Semester Hours

General survey of texts written by a representative body of Latin American authors from the pre-Columbian period to the present.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 398
Special Studies
1-3 Semester Hours
SPAN 399
Independent Studies
1-3 Semester Hours

SPAN 420
Hispanic Cultural Studies
3 Semester Hours
General survey that may include Iberian, U.S. Latino, and/or pre-Columbian civilizations and the literature of Meso- and South America; the impact of the Encounter with Europe; the Conquest; the Colonial Period; the Independence Era; and modern literary, socio-historical, economic, and political events that have shaped present-day Spanish American cultures.
Prerequisite: SPAN 322 or consent of instructor.

SPAN 430
Spanish Applied Linguistics
3 Semester Hours
A study of current directions in both theoretical and practical aspects of the teaching of Spanish. The course reviews problematic areas such as "ser" and "estar," Spanish past tenses, and subjunctive, among others.
Prerequisite: SPAN 330 or consent of instructor.

SPAN 431
Advanced Spanish Syntax
3 Semester Hours
A detailed examination of Spanish syntax. The following topics are covered: the verbal paradigm, analysis of verbal mood and tenses, the pronominal system, and sentence structure, coordination, and subordination.
Prerequisite: SPAN 330 or consent of instructor.

SPAN 432
Spanish of the Americas
3 Semester Hours
The course will begin with a review of changes in modern Spanish in America. It will provide a general introduction to the history and structure of the varieties of Spanish spoken in the New World. Topics to be treated will include the Peninsular origins of New World Spanish, the influence of American languages on Spanish, the features which characterize the different varieties of "New World" Spanish (including U.S. Spanish), and the grammatical and lexical features which distinguish European and American Spanish.
Prerequisite: SPAN 330 or consent of instructor.

SPAN 441
Latin American Novel
3 Semester Hours
A comparative study of representative narratives written by Latin American and/or Latino/a authors during the 19th, 20th, and 21st centuries.
Specific course content depends on the instructor.
Prerequisite: SPAN 322 or consent of instructor.

SPAN 442
Latin American Poetry
3 Semester Hours
Survey and comparative study of Spanish language poetry of the Americas from a variety of historical periods, national origins, and cultural and literary movements.
Specific course content depends on the instructor.
Prerequisite: SPAN 322 or consent of instructor.

SPAN 443
Latin American Women Writers
3 Semester Hours
Survey and comparative study of representative works by Latin American and/or Latina women writers from a variety of historical periods, national origins, and cultural and literary movements.
Specific course content depends on the instructor.
Prerequisite: SPAN 322 or consent of instructor.

SPAN 444
Latin American Drama
3 Semester Hours
An introduction to and comparison of representative works written by Latin American dramatists from a variety of historical periods, national origins, and literary and cultural movements.
Specific course content depends on the instructor.
Prerequisite: SPAN 322 or consent of instructor.

SPAN 445
Latin American Short Story
3 Semester Hours
A comparative and literary study of the short story as well as representative works written by Latin American and/or Latino/a authors from a variety of historical periods, national origins, and literary and cultural movements.
Specific course content depends on the instructor.
Prerequisite: SPAN 322 or consent of instructor.

Daniel L. Smith-Christopher

Objectives:
In order to accommodate the significant diversity in approaches to peace and justice, Loyola Marymount University’s Peace Studies program is a contract-based minor that is arranged on an individual basis, working with the particular interests and study areas of each student. Students may choose from a variety of courses that relate to chosen fields of interest and emphasis, drawing from programs such as Political Science, History, Ethnic Studies, Theological Studies, Philosophy, Classics, English, Sociology, and any number of other departments. The proposed contract, with the suggested list of courses, must be accepted in writing by both the Director of the Program and the Dean of the Bellarmine College of Liberal Arts before the minor is officially entered in the academic record of each student who wishes to enter the program.

Minor Requirements
Eighteen semester hours (6 courses) are required for the minor. There are no required courses, but it is strongly suggested that students take THST 304, War and Peace in the Bible, as a foundation course for the program. There is a limit of 2 courses (6 semester hours) in lower division courses, and a single 400-level course is strongly encouraged. A Thesis/Independent Study option is available to fulfill this recommended course, to be arranged with the Director.

Peace Studies Student Learning Outcomes
Peace Studies minors will know:

- The approaches to war and peace of various religious traditions
- Nonviolence and Nonviolent Strategy as exemplified by Gandhi or Dr. King
- The dimensions of a historic conflict involving the United States (e.g., WWI, WWII, Korea, Viet Nam, Iraq)
- The dimensions of a historic conflict not involving the United States (e.g., Israel and Palestine, Northern Ireland, Sri Lanka, South Africa)
- The significance of personal values arising from a commitment to peacemaking that may be applicable to one’s personal as well as social life;

Peace Studies minors will be able to:

- Analyze a given conflict with a critical ability to discern points of historical, cultural, economic, and religious difference
- Suggest skills and activities that may contribute to minimizing the potential for conflict and contribute to peacemaking in a given conflict situation
- Present a coherent defense of the values of peace within selected traditions, both religious and political
- Advise others knowledgeably about various career opportunities related to peacemaking and diplomacy;

Peace Studies minors will value:

- The diversity of approaches relevant to peacemaking skills
- The historical contributions made by peacemakers in the past, and assess their contributions to continued thought in Peace Studies
- The unique legacy of nonviolence in world history
- The varied Christian traditions of peacemaking and nonviolence as a theological as well as social value
- Contributions to peacemaking that are unique to their own tradition, if non-Christian (e.g., Jewish, Islamic, Buddhist).

To demonstrate the attainment of these learning outcomes, students submit a portfolio of class papers, tests, and other assignments from the six courses approved by the Director for their minor. Please direct all questions to the Director of Peace Studies.
Philosophy

Faculty:
Chairperson: Timothy Shanahan
Professors: Jasper Blystone, James G. Hanink,
Mary Elizabeth Ingham, C.S.J., Mark D. Morelli,
Elizabeth Murray, Timothy Shanahan
Associate Professors: W. Scott Cameron,
Christopher Kaczor, Eric D. Perl
Assistant Professors: Jason S. Baehr,
Virgil Martin Nemoianu, Thomas Sherman, S.J.,
Brad Elliott Stone, Brian Treanor, Robin Wang,
Jeffrey Wilson

Objectives:
Philosophy is a reflective and critical discipline whose aim is to explore fundamental ideas which underlie and penetrate human existence and constitute the deep background of all human endeavors: ideas such as Meaning and Truth, Knowledge and Being, Objectivity and Bias, Good and Evil, Value and Disvalue. Philosophic inquiry into these and related notions is governed by the complementary ideals of analytic precision and comprehensive synthesis, and so it aims to raise these basic notions from their everyday obscurity, to articulate them with logical precision and rigor, and to bind them together into an overarching vision of the nature and purpose of human life.

Accordingly, the Department of Philosophy offers basic courses in Critical Thinking, Human Nature, Ethics, and Contemporary Moral Problems in the core curriculum and a wide variety of courses complementary to studies in a broad range of fields. For convenience, courses are grouped into eight content areas:

I. Morality, Law, and Politics (320 through 334)
II. Natural and Social Sciences (341, 342, 344)
III. Arts and Literature (254, 351, 352, 353)
IV. Religion and Theology (361 through 366)
V. History of Philosophy (381, 382, 383, 385, 387)
VI. Contemporary Movements (421 through 426)
VII. Major Thinkers (451)
VIII. Mind and Reality (461 through 464)

Philosophy Student Learning Outcomes

Philosophy students will understand:

- The history of philosophy from the pre-Socratics to modern European thinkers
- Contemporary philosophical movements, issues, and techniques
- Central themes in the primary texts of important philosophers;

Philosophy students will be able to:

- Demonstrate written competency in the analysis of philosophical issues
- Apply the tools of logic in the analysis and critical evaluation of philosophical texts
- Synthesize philosophical insights in relation to their own lived experience;

Philosophy students will value:

- The contributions of philosophers to civilization
- An understanding of the relationship of philosophy to a variety of areas of human experience such as faith, morality, and culture
- Rigorous philosophical inquiry and reflection in relation to their own self-development, their interactions with others, and the quest for a better world.

Major Requirements:

An overall GPA of C (2.0) is required for students wishing to declare a Philosophy major.

Required:

HIST 100 and HIST 101 and PHIL 201.

The History of Philosophy sequence—PHIL 381, 383, 385, 387.

Five Philosophy electives (excluding the first course to be taken to fulfill the upper division core requirement, PHIL 320 through 330), at least three of which must be upper division courses taken at LMU.

Students are strongly encouraged to study a foreign language to enhance their philosophical studies. Programs should be planned in consultation with their faculty advisor.

An average grade of C+ (2.3) must be maintained in Philosophy courses by majors.

Majors may take up to 13 upper division courses in Philosophy.
Honors in Philosophy

To graduate with honors in Philosophy, a Philosophy major must have a minimum GPA in Philosophy of 3.3, enroll in the PHIL 500 Senior Project in place of one of the upper division electives, and receive at least a grade of B+ (3.3) on the project.

Minor Requirements:

18 semester hours in Philosophy, of which at least 12 are in upper division courses. Core requirements PHIL 160, 220, and 320 through 330 may be counted towards the minor. An average of C (2.0) must be attained in courses in the minor.

The Department of Philosophy also offers a minor in Ethics for students who wish to explore further the foundations of ethics and ethical issues as they arise in a range of theoretical and applied domains. Philosophy majors and minors may not minor in Ethics.

Philosophy Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as PHIL major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

15

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

### PHIL 160

**Philosophy of Human Nature**

*3 Semester Hours*

An introductory exploration of central questions and interpretations of human existence, carried on in light of the Catholic intellectual tradition. Satisfies core requirement in all Colleges and Schools.

### PHIL 201

**Symbolic Logic**

*3 Semester Hours*

An introduction to the techniques of modern mathematical logic, including proofs relying on the logic of truth-functions and quantifiers and their application to arguments in English. No mathematical training presupposed. Required for Philosophy majors.

### PHIL 220

**Critical Thinking**

*3 Semester Hours*

An introduction to the methods and principles of sound reasoning, with special attention to the analysis of deductive and inductive arguments, informal fallacies, and the nature and purpose of definition. Satisfies core requirement.

### PHIL 254

**Philosophy in Film**

*3 Semester Hours*

An investigation of the philosophical use of the film medium and an examination of particular philosophical ideas portrayed in films.

### PHIL 298

**Special Studies**

*1-3 Semester Hours*

### PHIL 299

**Independent Studies**

*1-3 Semester Hours*

### I. Morality, Law, and Politics

### PHIL 320

**Ethics**

*3 Semester Hours*

A study of the questions which a person must ask in forming an intelligent philosophy of moral choice, carried on in the light of the Catholic intellectual tradition. Satisfies core requirement in all Colleges and Schools.

Prerequisite: Junior standing.
PHIL 321
Bioethics
3 Semester Hours

This course looks carefully at ethical issues that arise in the field of medicine, such as abortion, euthanasia, physician-assisted suicide, and the distribution of medical resources and care. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 322
Business Ethics
3 Semester Hours

This course considers ethical issues that arise in the field of business. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 323
Crimes and Punishments
3 Semester Hours

A critical introduction to the moral theories and practices embodied by the criminal justice system. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 324
Engineering Ethics
3 Semester Hours

This course looks at ethical questions that arise in the sciences, especially engineering, focusing on examples such as the Challenger disaster and the decisions that led up to it. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 325
Ethics and the Arts
3 Semester Hours

The course examines ethical questions that arise about the arts, including the role the arts play in moral education, the expression of moral values in the arts, obscenity, and public funding of the arts. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 326
Ethics of Love and Marriage
3 Semester Hours

This course focuses on the ethical dimensions of friendship, love, marriage, and commitment.

Prerequisite: Junior standing.

PHIL 327
Ethics and Education
3 Semester Hours

A look at the ethical and justice-related issues posed by the institutions of public and private education in modern democracies, with special focus on education in America.

Prerequisite: Junior standing.

PHIL 328
Media Ethics
3 Semester Hours

An exploration of the ethical challenges of professionals working in the media and communications industries, providing strategies for students to assess ethical dilemmas in business and creative decisions in film, television, popular music, news, public relations, and advertising professions. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 329
Topics in Applied Ethics
3 Semester Hours

An in-depth study of a contemporary ethical issue. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.

Prerequisite: Junior standing.

PHIL 330
Contemporary Moral Problems
3 Semester Hours

A study from the perspective of ethical theory of selected moral problems of contemporary interest and significance.

Prerequisite: Junior standing.
PHIL 331
Political Philosophy
3 Semester Hours

A philosophical analysis of the purposes and functions of the political state, including an analysis of the limits of political authority. Course content may vary from historical surveys (of, for example, Hobbes, Locke, Hume, Rousseau, Mill) to in-depth treatments of specific schools of political theory.

PHIL 332
Philosophy of Law
3 Semester Hours

A philosophical analysis of the rule of law and the operation of contemporary legal systems. Topics will include the nature of law and legal obligations, the relation between law and morality, and the criteria for ascribing both civil and criminal (legal) liability.

PHIL 333
Feminist Theory
3 Semester Hours

A survey of the political, epistemological, and metaphysical questions raised for philosophy as traditionally conceived by the claim that sex and/or gender should play a significant role in its self-understanding.

PHIL 334
Images of Women in Philosophy
3 Semester Hours

An exploration of the understanding of women and human nature in the various philosophical traditions.

II. Natural and Social Sciences

PHIL 341
Philosophy of Science
3 Semester Hours

A study of the nature of science, with special attention to the history of science, contemporary scientific developments, and scientific method.

PHIL 342
Philosophy of Biology
3 Semester Hours

A critical examination of central philosophical issues and controversies in the life sciences.

PHIL 344
Philosophy and Psychoanalysis
3 Semester Hours

A critical study of the philosophic presuppositions of psychoanalytic theory, including an examination of the distinction between philosophic and psychological methods.

III. Arts and Literature

PHIL 351
Philosophy of Culture
3 Semester Hours

A study of cultural forms as carriers of meaning and value. Topics may vary from year to year and could include analysis of cultural modes of expression, their interpretation and their origins, cultural pluralism, cultural relativism, and the notion of the transcultural.

PHIL 352
Philosophy of the Arts
3 Semester Hours

A study of the meaning of art and what it can tell us about human beings, the nature of artistic intuition, and the creative process.

PHIL 353
Philosophy and Literature
3 Semester Hours

An investigation of the philosophical use of literature and an examination of philosophical ideas portrayed in a variety of literary works, which may include plays, novels, autobiographies, and short stories.

IV. Religion and Theology

PHIL 361
Philosophy of God
3 Semester Hours

The focus of this course is on the debate regarding concepts of God and the arguments for and against God’s existence. It will examine the contributions of both classical and contemporary schools of thought to the debate.

PHILOSOPHY / 205
VI. Contemporary Movements

PHIL 421
American Pragmatism
3 Semester Hours

A study of 19th and 20th century pragmatism, including the philosophies of Charles Sanders Peirce, William James, and John Dewey.

PHIL 422
The Analytic Tradition
3 Semester Hours

An examination of some of the most influential philosophers whose work constitutes the Anglo-American tradition of the 20th century, including Frege, Russell, G.E. Moore, Wittgenstein, the Logical Positivists, the Ordinary Language Philosophers, and several contemporary post-analytic philosophers.

PHIL 423
Phenomenology
3 Semester Hours

An introduction to phenomenological method through the close study of the works of Husserl and later phenomenologists.

PHIL 424
Existentialism
3 Semester Hours

PHIL 425
Process Philosophy
3 Semester Hours

A study of the main philosophical doctrines of the process philosophies of A.N. Whitehead and/or Charles Hartshorne.

PHIL 426
Postmodernism
3 Semester Hours

A study of strategies in Western philosophy from Meister Eckhart and Nicolaus Cusanus to Spinoza/Nietzsche/Scheler, Fichte/Peirce/Mead, Wittgenstein/Heidegger/Gadamer, and Derrida/Foucault.

PHIL 427
Chinese Contemporary Philosophy
3 Semester Hours

An exploration of contemporary Chinese thought, focusing on its relationship to historically important philosophies such as Confucianism and Marxism, as well as to contemporary political, ecological, and religious influences.

Offered in Beijing.

PHIL 428
Spanish Philosophy
3 Semester Hours

An exploration of Spanish (Iberian) philosophical figures and themes, including one or more of the following thinkers: Seneca, Averroës, Maimonides, Llull, Ibn Al’Arabi, Vives, St. Teresa of Jesus, St. John of the Cross, Suárez, Unamuno, Ortega y Gasset, Zubiri, Mora, Marias, and/or Trías.

VII. Major Thinkers

PHIL 451
Major Thinkers
3 Semester Hours

Concentrated study of a single, major figure. The thinker will vary from year to year and may be one of the following: Confucius, Socrates, Plato, Aristotle, Aquinas, Franciscan thinkers (Duns Scotus and William of Ockham), Kant, Hegel, Nietzsche, Peirce, Heidegger, Whitehead, Lonergan, Gadamer, Habermas. Repeatable for degree credit.

VIII. Mind and Reality

PHIL 461
Theory of Knowledge
3 Semester Hours

An introduction to the principal problems of epistemology as they appear in both classical and contemporary theories.

PHIL 462
Symbol and Interpretation
3 Semester Hours

Semiotic and hermeneutic inquiries into human symbolic activity and its preeminent products, the dramatistic presentation of sociocultural modes of self-personification.
PHIL 463
Metaphysics
3 Semester Hours
An introduction to classical and contemporary metaphysics, the general theory of being.

PHIL 464
Philosophy of Mind
3 Semester Hours
An exploration of the nature of mind. Topics may vary and may include consciousness, experience, the self, the historical discovery of mind, and consideration of psychological theories of mental operations. Alternative theories will be critically examined.

PHIL 481
Special Topics
3 Semester Hours
A seminar course which aims to expose students to the current research and special philosophical interests of departmental faculty. Topics vary from semester to semester.

PHIL 498
Special Studies
1-3 Semester Hours

PHIL 499
Independent Studies
1-3 Semester Hours

PHIL 500
Senior Project
3 Semester Hours
A research and writing project completed under the guidance and direction of a faculty supervisor.
Political Science

Faculty:
Chairperson: Seth B. Thompson
Professors: Michael A. Genovese, Seth B. Thompson
Associate Professors: Lance H. Blakesley,
Evan Gerstmann, Fernando J. Guerra,
Janie S. Steckenrider
Assistant Professors: Antonio Brown, Jodi Susan Finkel

Objectives:
The Department challenges and encourages students to:

- be perceptive observers of political life in all its variety and richness;
- seek a systematic understanding of the causes and consequences of political institutions, policies, and behavior;
- develop a moral and ethical perspective that allows them to critically evaluate actions, institutions, and policies; and
- prepare themselves for a life of active citizenship and involvement in creating a more just and humane world.

The Department challenges and encourages its faculty to:

- master the art of teaching,
- contribute to their profession as active scholars and researchers, and
- promote an atmosphere of care and concern for each student inside and outside the classroom.

Both faculty and students share a responsibility for creating a lively and diverse community of scholars marked by civility, mutual respect, and support.

Political Science Student Learning Outcomes
Political Science majors learn to describe:

- The dynamics and central institutions of American politics
- The content and impact of public policies in particular areas
- The similarities and differences in political behavior and institutions in countries around the world at various levels of political, economic, and social development
- The contemporary and emerging outlines of global politics
- The persistent questions and range of approaches in the rich history of Western political thought
- The relationships between the political and the legal systems;

Political Science majors learn to apply and evaluate:

- Standards for effective written and oral presentation of their work
- Competing explanations for why the American political system functions as it does
- Different understandings of what the good citizen, the good government, and the good society ought to do
- Alternative approaches to public policies and solutions to contemporary problems
- Our constitutional system and legal reasoning
- Frameworks for understanding the problems and prospects for development in the diverse nations of the world
- Theories of war and peace, globalization and security, in the international system
- Strategies for efficient and effective work in groups;

Political Science majors learn to explain and predict:

- Political participation patterns
- Outcomes of alternative public policies
- Variations in political attitudes and belief systems
- The development of effective political leadership
- The existence and longevity of political institutions
- Trends in law, legal systems, and international norms;

Political Science majors learn to value:

- Open, diverse, and free political thought and discussion
- Engaged and active citizenship
- Leadership for a more just and humane world
- The pursuit of academic excellence and intellectual rigor.

Major Requirements:

Lower Division Requirements: 9 semester hours
POLS 130, 150, 210.
An average grade of C (2.0) must be obtained in these courses.

Upper Division Requirements: 27 semester hours, including

1) At least one course in two of these four groups: U.S. Politics, Public Administration and Policy Analysis, Comparative Politics, and Public Law;
2) POLS 321, Survey of Political Thought;

3) At least one course in International and World Politics. It is strongly recommended that POLS 360 be the first course taken in this group;

4) At least one 500-level seminar, preferably in the senior year.

An average grade of C (2.0) must be obtained in courses included in the major.

Minor Requirements:

18 semester hours in Political Science, including two of the lower division major required courses listed. The remaining 12 semester hours must be upper division and selected from two of the groups 2 through 7. Specific programs should be planned individually with the advice of a faculty advisor.

An average grade of C (2.0) must be obtained in the courses included in the minor.

Honors in Political Science:

Students who attain a GPA of 3.5 or higher, both overall and in the major, are eligible to enroll in the Honors Seminar (POLS 581) in the Fall of their senior year and to write an Honors Thesis (POLS 591) in the Spring of the senior year. The Honors Seminar is a prerequisite for the Honors Thesis. Students who attain a grade of A- or higher for the Honors Thesis will graduate with Honors in Political Science. Both the Honors Seminar and Honors Thesis count toward the 27 semester hours of upper division course work required of majors.

Political Science Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

### Group 1:

**POLS 130**  
**American Politics**

3 Semester Hours

A survey of the basic structure and procedures of the American political system.

Prerequisite: Political Science majors and minors only.

**POLS 135**  
**Contemporary American Politics**

3 Semester Hours

An overview of the major political processes in contemporary American life.

Prerequisite: Non-Political Science majors only.

**POLS 150**  
**Comparative Politics**

3 Semester Hours

Analyzes political institutions and policies in democratic and authoritarian countries. Combines conceptual understanding with case studies from Europe, Africa, Asia, and Latin America.

Prerequisite: Political Science majors and minors only.

**POLS 155**  
**Comparative Foreign Governments**

3 Semester Hours

Analyzes political institutions and policies in democratic and authoritarian countries. Combines conceptual understanding with case studies from Europe, Africa, Asia, and Latin America.

Prerequisite: Non-Political Science majors only.

<td>The senior thesis provides the opportunity for students to complete a substantive research project to culminate their study of Political Science. Prerequisites: POLS 210, senior standing, and consent of department chairperson. Also, the student must obtain the written approval of the faculty supervisor the semester prior to writing the thesis.</td>
</tr>
</tbody>
</table>
POLITICAL SCIENCE

POLS 591
Honors Thesis
3 Semester Hours

This is an opportunity for Honors-Eligible students to complete a substantive research project to qualify for Departmental Honors.

Prerequisite: POLS 581.

Group 3: U.S. Politics

POLS 331
Political Socialization
3 Semester Hours

This course focuses on the processes of political learning involved in the development of the political self from childhood through the adult years. Emphasis on the individual's orientations and on political culture.

POLS 332
Political Parties and Elections
3 Semester Hours

An analysis of political parties from the institutional and behavioral perspectives. Focus on party structures, participation, and the contemporary electoral process.

POLS 333
The United States Congress
3 Semester Hours

A study of the workings of the U.S. Congress with an emphasis on congressional elections, the legislative process, relations with other institutions, and representation.

POLS 334
Presidency
3 Semester Hours

A study of the powers, process, and problems of the modern United States presidency.

POLS 336
The Judiciary
3 Semester Hours

A study of how America's courts really work, focusing on the role of judges, juries, and attorneys.

POLS 337
Racial and Ethnic Politics
3 Semester Hours

Comparative analysis of racial and ethnic groups within the United States political system. A focus on the effect of political institutions on minority groups at federal, state, and local levels. Examines the experience of minority groups to illuminate political process in the U.S.

**Group 6: International and World Politics**
### POLS 596
Special Studies in World Politics
1-3 Semester Hours

Prerequisites: POLS 210 and senior standing.

### POLS 597
Special Studies in Public Law
1-3 Semester Hours

Prerequisites: POLS 210 and senior standing.

## Group 7: Public Law

### POLS 397
Special Studies in Public Law
1-3 Semester Hours

### POLS 471
United States Constitutional Law: Case Method I
3 Semester Hours

Judicial, executive, and legislative power; individual rights.

### POLS 472
United States Constitutional Law: Case Method II
3 Semester Hours

Freedom of Speech and Equal Protection.

### POLS 475
International Law
3 Semester Hours

Focus on some of the major doctrines of international law and the processes of making and implementing law in the contemporary international system.

### POLS 497
Special Studies in Public Law
1-3 Semester Hours

### POLS 570
Child Advocacy Seminar
3 Semester Hours

Internship and seminar exploring family and juvenile law with an emphasis on Los Angeles.

Prerequisites: POLS 210, senior standing, and consent of instructor.

### POLS 571
The Law and Presidential Power
3 Semester Hours

A senior seminar examining the ways and extent to which the Constitution and statutes empower and enchain the American President.

Prerequisites: POLS 210 and senior standing.
Psychology

Faculty:
Chairperson: Michael J. O’Sullivan
Associate Professors: Jennifer S. Abe-Kim, Michael E. Mills
Assistant Professors: David J. Hardy, Joseph W. LaBrie, S.J., Vandana Thadani

Mission:
The Psychology program shares the University’s commitment to develop ethical leaders for a culturally diverse world, and contributes to the liberal education of students. Through a comprehensive education in the science of psychology, the Psychology Department seeks to educate the whole person, pursue academic excellence, advance scholarship, promote service and justice, and encourage life-long learning.

Description:
The Psychology Department provides a high quality curriculum emphasizing excellence in teaching and learning. Students majoring in psychology examine in depth many aspects of human and animal behavior, along with the biological, psychological, and sociocultural aspects of behavior. Students are provided the opportunity to apply these perspectives to a variety of individual, family, and community contexts. As students progress through the curriculum, they have opportunities to assist faculty with research and engage in their own research with faculty supervision. The program prepares students for graduate study in psychology and related fields or careers in other professions.

Goals and Objectives:
The goals of the Psychology curriculum focus on educating students in the methodology, content, and application of psychological science.

Goal 1: Theory and Methodology in Psychology
Students should:
• Understand the role of psychology as a discipline that uses an empirical approach to knowledge; and
• Use, respect, and value skeptical inquiry, critical thinking, and the scientific approach to understanding behavior.

Knowledge areas students will study/learn:
• Basic research methods and ethics
• History and systems and philosophy of science
• Data analysis and interpretation
• Scientific and critical thinking
• Scientific writing and communication.

Goal 2: Mastery of Content (Discipline Specific Knowledge)
Students should be familiar with:
• Core theoretical approaches and research findings that reflect a biopsychosocial understanding of behavior; and
• More in-depth theoretical approaches and research findings within at least one subject area in psychology.

Core knowledge areas students will study/learn:
• Biological foundations of behavior
• Psychological foundations of behavior
• Social and cultural foundations of behavior
• Biopsychosocial development across the lifespan.

Goal 3: Application of Knowledge and Scientific Method
Students should demonstrate the application of psychological theory, methodology, and findings to:
• An understanding of the whole person, as an individual and as a member of a larger community, society, and culture; and
• The promotion of social justice in these contexts.

Psychology Student Learning Outcomes
Upon completion of the Psychology curriculum, students will demonstrate knowledge of the history, foundations, content, and analytical skills of psychology in their ability to:
• Value the importance of a scientific approach to understanding human behavior
• Apply critical thinking in their understanding of psychological principles
• Evaluate critically research both in the social sciences and as presented in the media
• Locate, understand, and critique relevant empirical research on a selected topic
• Identify ethical issues in research
• Apply ethical principles in their own research
• Formulate a hypothesis based on past research
• Design research to test a hypothesis
• Write complete manuscripts in APA style
• Demonstrate increased skills in their oral and written communication on psychological topics
• Analyze and critically evaluate the biopsychosocial components of behavior
• Apply psychological principles, including the consideration of ethics and social justice, in understanding and solving contemporary problems/issues

**Major Requirements:**

**Pre-major Requirements (12 semester hours):**

- Introduction to Psychology (PSYC 101)
- Critical Thinking (PHIL 220)
- Human Anatomy & Physiology (NTLS 150)
- Elementary Statistics (MATH 104)

**Note:** A student must earn a grade of C (2.0) or higher in each of these courses. If a student earns a grade of C- (1.7) or lower, the student must repeat the course in the subsequent semester.

**A)** A calculus course with a grade of C or higher may be substituted for MATH 104 after consultation with a departmental advisor.

**B)** Another biology course with a grade of C or higher, containing information on anatomy, physiology, or human biology, may be substituted for NTLS 150 after consultation with a departmental advisor.

**NOTE:** Students must earn a grade of C (2.0) or higher in each of these courses before they can be eligible to declare or to remain a Psychology major. Students must retake pre-major requirements for which they earned a grade of C- (1.7) or lower and achieve a grade of C (2.0) or higher.

**Lower Division Major Requirements (13 semester hours):**

1. Statistical Methods for Psychology (PSYC 241) and Lab (PSYC 243). Prerequisites: Grade of C (2.0) or higher in each: MATH 104, PSYC 100 or 101, 243 or concurrent enrollment.
2. Brain and Behavior (PSYC 251). Prerequisites: Grade of C (2.0) or higher in each: NTLS 150, PSYC 100 or 101, or consent of instructor.
3. Experimental Methods (PSYC 261). Prerequisites: Grade of C (2.0) or higher in each: PHIL 220, PSYC 100 or 101, 241, 243.

4. Nonexperimental Methods (PSYC 265). Prerequisites: Grade of C (2.0) or higher in each: PHIL 220, PSYC 100 or 101, 241, 243.

**Upper Division Major Requirements (24 semester hours):**

1. Cognition (PSYC 401). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).
2. Social (PSYC 410). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).
3. Lifespan Development (PSYC 415). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).

**NOTE:** Students must earn a grade of C (2.0) or higher in each course fulfilling these three requirements before they can (a) continue on in a Concentration in the major, and (b) take other 400- or 500-level PSYC courses. Students must retake any of these courses for which they earned a grade of C- (1.7) or lower and achieve a grade of C (2.0) or higher.

4. Concentration (12 semester hours). Students will declare one of the four concentrations listed below. In consultation with their academic advisor, students will select four upper division courses within their concentration. No more than 6 semester hours may be taken from the PSYC 300 series.

**Concentrations:**

- **General Psychology:** This concentration provides the greatest flexibility. Students will select any four upper division courses. No more than two courses may be taken from the PSYC 300 series.

- **Biology and Behavior:** This concentration emphasizes theory and research investigating the interrelation between biology and behavior. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 310, 351, 402, 430, 432, 443, 445, 452, 455, 456, 457, 458.

- **Individual/Family:** This concentration emphasizes the application of psychological theory and research to individuals and families. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 301, 310, 315, 320, 321, 325, 330, 362, 402, 430, 432, 434/435, 436, 438, 442, 445, 452, 455, 456, 465.
Community/Organizational: This concentration emphasizes the application of psychological theory and research to communities and organizations. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 301, 315, 320, 330, 362, 432, 433, 442, 445, 462.

5. Capstone Course: PSYC 510 or 515. Prerequisites: All required courses completed or currently in progress.

6. Senior Assessment: PSYC 595. Prerequisite: Concurrent enrollment in PSYC 510 or 515, or completed with a grade of C (2.0) or higher.

Students may take an additional 6 semester hours of upper division psychology courses and have them count as electives. Students may not take more than 30 semester hours of upper division psychology courses.

Honors in Psychology

To qualify for the Honors in Psychology program, a Psychology major must have senior status (completed 90 units or more), a minimum overall GPA of 3.5, and a Psychology GPA ranking in the top 10% of senior psychology majors. Eligible students enroll in the Honors Seminar (PSYC 540) in the Fall of their senior year and complete the Honors Research Thesis (PSYC 545) in the Spring of their senior year. The Honors Seminar is a prerequisite for the Honors Research Thesis. Both PSYC 540 and PSYC 545 are in addition to the 24 semester hours of upper division course work required of majors.

Senior Assessment

All senior students majoring in Psychology are required to register for and take the Senior Assessment (PSYC 595) prior to graduating. The assessment is offered each semester and summer.

A grade of C (2.0) or higher must be obtained in major courses. Psychology majors are prohibited from taking 400-level or higher psychology courses before completing all lower division Psychology major requirements. Exceptions to this policy may be made only with the prior consent of the Psychology Department Chairperson.

All courses fulfilling lower division pre-major and major requirements, PSYC 401, PSYC 410, and PSYC 415 must be taken at Loyola Marymount University. Transfer students are exempt from this requirement only for those courses they have completed prior to admission to Loyola Marymount University.

Students may not register for any Psychology course for a third time without the written permission of the Psychology Department Chairperson and the Dean of the Bellarmine College of Liberal Arts.

Minor Requirements:

MATH 104; NTLS 150; PHIL 220; PSYC 100 or 101, 241, 243, 251, 261, 265; and at least two of the following upper division courses: PSYC 401, 410, 415, or any 300-level PSYC course. Courses are selected in consultation with the Psychology Department Chairperson. A grade of C (2.0) or higher must be obtained in minor courses. All courses fulfilling minor requirements must be taken at Loyola Marymount University. Transfer students are exempt from this requirement only for those courses they have completed prior to admission to Loyola Marymount University.

Psychology Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

**NOTE:** All courses are 3 units unless otherwise specified.

→ Indicates prerequisite (completed with a grade of C or better) required for next course or level on chart.
Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**PSYC 100**  
**General Psychology**  
*3 Semester Hours*

Introduction to psychology: historical origins; methods of investigation; topics such as sensation, perception, learning, cognition, motivation, and emotion; fields such as physiological, development, personality, social, abnormal, testing, applied psychology, and psychotherapy.

**PSYC 101**  
**Introduction to Psychology**  
*3 Semester Hours*

Introduction to the scientific study of behavior, including an overview of the history of psychology, biological basis of behavior, sensation/perception, consciousness, learning, memory, cognition, language, motivation, emotion, intelligence, development, personality, psychological disorders, therapy, social behavior, and psychological testing.

Majors/minors only.

**PSYC 241**  
**Statistical Methods for Psychology**  
*3 Semester Hours*

Statistical concepts and methods related to psychological testing and research, including measures of central tendency, variance, hypothesis testing, analysis of variance, correlation, regression, non-parametric tests, use of computer aids.

Lab Required.

Prerequisites: Grade of C (2.0) or higher in each: MATH 104, PSYC 100 or 101, 243 or concurrent enrollment.

**PSYC 243**  
**Statistical Methods for Psychology Lab**  
*1 Semester Hour*

Companion lab course to PSYC 241. Data management and statistical analysis using SPSS.

Prerequisite: Grade of C (2.0) or higher in PSYC 241 or concurrent enrollment.

**PSYC 251**  
**Brain and Behavior**  
*3 Semester Hours*

Biological basis of behavior; structure and function of the sensory and effector mechanisms, neural and endocrine systems, and their underlying physiological substrates.

Prerequisites: Grade of C (2.0) or higher in each: NTLS 150, PSYC 100 or 101, or consent of instructor.

**PSYC 261**  
**Experimental Methods**  
*3 Semester Hours*

Introduces the basic principles of experimental designs. Provides students with fundamental background for planning, conducting, and critiquing experimental research in psychology. Emphasizes scientific writing, including APA style; and data interpretation using inferential, descriptive, and relational statistics. Includes how to generate and test hypotheses, search the scientific literature, the nature of variables, types of measurement, types and assessment of reliability and validity, and ethical issues in empirical research.

Prerequisites: Grade of C (2.0) or higher in each: PHIL 220; PSYC 100 or 101, 241, 243.

**PSYC 265**  
**Nonexperimental Methods**  
*3 Semester Hours*

Introduces the basic principles of nonexperimental and quasi-experimental designs. Provides students with fundamental background for planning, conducting, and critiquing nonexperimental, quasi-experimental, and qualitative research in psychology. Emphasizes philosophy of science and scientific writing, including APA style. Methods and designs may include quasi-experimental, correlational, meta-analytic, survey, longitudinal, narrative, participatory action, ethnographic, focus groups, and mixed methodologies. Statistical procedures include those appropriate to these methods and designs.

Prerequisites: Grade of C (2.0) or higher in each: PHIL 220; PSYC 100 or 101, 241, 243.

**PSYC 298**  
**Special Studies**  
*1-3 Semester Hours*

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

**PSYC 299 Independent Studies**  
Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

**PSYC 301 Introduction and Overview of Alcohol, Tobacco, and Other Drugs**  
3 Semester Hours  
History of alcohol and other mood-altering drugs in the United States, the myths and stereotypes of alcohol use, the socio-cultural factors that contribute to drug use, and the patterns and progressions of alcoholism and other drug dependency.  
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

**PSYC 310 Psychology of Sex Differences**  
3 Semester Hours  
Explores sex and sex differences from a biosocial or evolutionary psychology perspective. Examines evolution of sexual reproduction, the two sexes, sexually dimorphic morphology, behavior, and emotion. Identifies and examines different reproductive strategies employed by males and females (including nonhuman species) and resulting conflicts of interests between the sexes. Particular focus given to sex differences in sexuality, courtship, jealousy, mating systems, and parenting.  
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

**PSYC 315 Psychology of Women**  
3 Semester Hours  
Women’s biological, emotional, cognitive, and behavioral functioning will be reviewed. Topics of special concern to women (e.g., discrimination, sexual harassment, parenting, etc.) will also be discussed.  
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

**PSYC 319 African and Black Psychology**  
3 Semester Hours  
A biopsychosocial/spiritual review of topics in psychology from an Africentric perspective. A survey course examining and contrasting basic theories, research, and concepts in African psychology and Black psychology. Selected features of the discipline of western psychology are critiqued from an African-centered perspective.  
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

**PSYC 320 Psychology of Race, Culture, and Ethnicity**  
3 Semester Hours  
Theories and research on psychological, social, and cultural influences in prejudice, racism, ethnic identification, stereotyping, and racial conflict.  
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

**PSYC 321 Psychology of Marriage**  
3 Semester Hours  
Exploration of theories and research on psychological processes in interpersonal attraction; intimacy, marriage, and family relationships.  
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

**PSYC 325 Applied Sport Psychology**  
3 Semester Hours  
Explores the relationship of psychological factors to performance in sports. Emphasizes the application of psychological techniques to sport and exercise, including such topics as: personality, motivation, arousal, anxiety, competitiveness, and aggression. Examines psychosocial aspects of team versus individual sports, performance enhancement strategies, and injury avoidance and recovery. Self-assessment and activities facilitate growth and development in personal abilities to enhance performance in a sport and in a variety of non-sport settings.  
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.
PSYC 330
Forensic Psychology
3 Semester Hours

Examines the interaction of psychology and law. Topics include basic assumptions of law and professional and academic psychology; psychological malpractice; role of mental health experts as expert witnesses, diagnosing, treatment providers, and advisors in tort law, family law, mental health law, criminal law, and alternative dispute resolution including mediation. Covers fundamental legal procedures, roles of mental health professionals who interact with the legal system, psychological research on legal issues, and common ethical and legal issues related to psychological practices in these areas.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 332
Psychological Disorders
3 Semester Hours

An introduction to the biological, psychological, and social determinants of psychopathology and maladaptive behaviors. Focus on the causes, diagnosis, and treatment of these disorders. This course is designed for students not majoring in Psychology.

Not open to majors in Psychology.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 351
Comparative Animal Behavior
3 Semester Hours

An examination of the ecological and social determinants of the evolution of adaptive behavioral strategies for various classes of behavior across species, including foraging, courtship and reproduction, mating systems, aggression, territoriality, and parenting. Field trips to observe animals.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 352
Developmental Psychology
3 Semester Hours

Research and theories of normal human development from conception through adult maturity, old age, and death. Focus on growth and change in biological, cognitive, and social processes in psychological development. This course is designed for students not majoring in Psychology.

Not open to majors in Psychology.

Prerequisites: Junior standing, Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 355
Psychology of Religion
3 Semester Hours

Examines the religious experience from a psychological perspective, including methods of developing spiritual awareness, classic writings in the field, and review of empirical research.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 398
Special Studies
1-3 Semester Hours

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 399
Independent Studies
1-3 Semester Hours

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 401
Cognition
3 Semester Hours

Contemporary theories and research regarding cognitive processes: perception, pattern recognition, attention, memory, representation of knowledge, mental imagery, psycholinguistics, concept formation, problem-solving, and reasoning. Explores the application of these theories to study skills, education, neuropsychology, psychopathology, cognitive development, intelligence, and computer models of cognition.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, 261, 265.
PSYC 402  
**Learning**  
*3 Semester Hours*

Systematic theories of learning and problem solving in animals and humans, with a discussion of the relation of such theories to theories of psychopathology, education, and psychotherapy.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

---

PSYC 410  
**Social Psychology**  
*3 Semester Hours*

Contemporary theories and empirical research related to person perception, affiliation, interpersonal attraction, group structure and dynamics, social influence, attitude change, aggression, prosocial behavior, and prejudice.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, 261, 265.

---

PSYC 415  
**Lifespan Development**  
*3 Semester Hours*

Research and theories of normal human development from conception through death, with emphasis on changes in physical, cognitive, and social-emotional processes with age.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, 261, 265.

---

PSYC 430  
**Motivation and Emotion**  
*3 Semester Hours*

Animal and human research related to needs, desires, feelings, and purposes that arouse and direct behavior.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

---

PSYC 432  
**Health Psychology**  
*3 Semester Hours*

Explores the relationship between behavioral principles/personality and physical health/illness.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

---

PSYC 433  
**Community Psychology**  
*4 Semester Hours*

History and principles of human services delivery systems of community mental and physical health in settings affected by poverty, social discord, and dehumanizing factors in urban living.

Lab Required.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

---

PSYC 434  
**Psychology of Death and Dying**  
*3 Semester Hours*

Theoretical and empirical research on the psychological nature of death and dying in the human life span process will be fully examined.

Lab Required.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415, 435 or concurrent enrollment.

---

PSYC 435  
**Psychology of Death and Dying Lab**  
*1 Semester Hour*

Companion lab course to PSYC 434. Observation and data collection from various institutions and community settings related to concerns of illness, health maintenance, dying, death, and funerals.

Prerequisites: Grade of C (2.0) or higher in PSYC 434 or concurrent enrollment.

---

PSYC 436  
**Personality**  
*3 Semester Hours*

A survey of the major contemporary theories of personality and relevant research and applications related to each theory.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.
PSYC 438  
Abnormal Psychology  
3 Semester Hours  
Causes, diagnosis, and treatment of various mental disorders: schizophrenia, mood disorders, anxiety disorders, personality disorders, childhood disorders, sexual dysfunctions, and other conditions covered in DSM IV-TR.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 442  
Psychological Assessment  
3 Semester Hours  
Basic concepts of measurement theory including reliability, validity, and scaling; developing and standardizing tests, behavioral observation, unobtrusive measures, intelligence tests, personality assessment, including projectives and vocational tests.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 443  
Advanced Statistics  
3 Semester Hours  
Advanced statistical methods using computer statistical packages. Topics include factor analysis, multiple regression, and multivariate analysis of variance.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 445  
Research Practicum  
3 Semester Hours  
Students design and conduct an experiment or other empirical research in a specific area of psychology. Highly recommended for undergraduates considering graduate school.  
Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401, 410, 415. Consent of instructor.

PSYC 452  
Evolutionary Psychology  
3 Semester Hours  
Examination of the biosocial development of adaptive behavioral strategies for various classes of behavior including altruism, intergenerational conflict, courtship, parenting, territoriality, sibling rivalry, aggression.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 455  
Neuropsychology  
3 Semester Hours  
Clinical neuropsychology: brain damage and organic syndromes, diagnosis, and biological therapies.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 456  
Psychopharmacology  
3 Semester Hours  
Study of psychopharmacological prevention, diagnosis, and treatment of mental disorders; secondary focus on psychopharmaco-dynamics and neurochemistry of drugs which derive their primary effect by acting on the central nervous system.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 457  
Psycholinguistics Research  
3 Semester Hours  
Students participate in on-going studies in the areas of speech, language, and reading under the mentorship of the professor. Students study a current research topic in detail, formulate a research hypothesis, design an experiment, and collect and statistically analyze the data. The final product for the course is dissemination of the research report at a major conference and/or submission of the APA-style manuscript to a major journal.  
Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401, 410, 415. Consent of instructor.
PSYC 458  
**Psychobiology Research**  
3 Semester Hours  
Students participate in on-going laboratory research on the psychobiology of learning and memory. Emphasis is on theoretical and methodological issues, research design, data collection, analysis, and interpretation.  
Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401, 410, 415. Consent of instructor.

PSYC 462  
**Industrial/Organizational Psychology**  
3 Semester Hours  
Human problems in industry and business: motivation, morale, efficiency, human relations, occupational fatigue and rest, accident proneness, human engineering, and leadership.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 465  
**Couple and Family Systems**  
3 Semester Hours  
Imparts an understanding of individuals in systems and introduces the practice of therapeutic intervention at the couple and family level. Some of the major approaches are critically reviewed, demonstrated, and practiced. Students explore themselves, their own backgrounds and biases, their ability to work therapeutically at the systemic level, and sensitivities relating to cultural and other difference in people from various backgrounds. Covers ethics and professional issues in working with people in systems. Requires participation in self-development exercises such as role-playing, as well as self, peer, and instructor critiques of one’s performance.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 490  
**Teaching Internship**  
1-3 Semester Hours  
Guided teaching of undergraduate laboratories. May be repeated for credit.  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 498  
**Special Studies**  
1-3 Semester Hours  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 499  
**Independent Studies**  
1-3 Semester Hours  
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 510  
**Capstone Course: The History and Future of Psychology**  
3 Semester Hours  
Survey of major trends in philosophy and science culminating in the establishment of scientific psychology, with attention to theories and systems that have influenced psychology to the present time. Review and critique of psychology and the biopsychosocial model. Future of psychology and its methods and models. Course fulfills capstone requirement.  
Senior psychology majors only.  
Prerequisites: All required courses for the major completed or currently in progress.

PSYC 515  
**Capstone Seminar**  
3 Semester Hours  
Seminar focuses on a faculty-selected topic to be investigated using the biopsychosocial perspective. The topic of this seminar may be related to the focus of the annual Bellarmine Forum, other major university forum, or a selected issue of current social importance. Students will review and integrate their learning in psychology. Course fulfills capstone requirement.  
Senior psychology majors only.  
Prerequisites: All required courses for the major completed or currently in progress.
**PSYC 540**  
**Honors Seminar**  
*3 Semester Hours*

For departmental Honors-Eligible students, this seminar examines a faculty-selected topic from one or more of the biopsychosocial perspectives. Students will complete an extensive literature review on the topic.

Senior psychology majors only.

Prerequisites: Consent of Department Chairperson.

---

**PSYC 545**  
**Honors Research Thesis**  
*3 Semester Hours*

Departmental Honors-Eligible students design and conduct empirical research in a specific area of psychology. The completed research report, written in APA style, is the student’s Honors Thesis.

Senior psychology majors only.

Prerequisites: Consent of Department Chairperson.

---

**PSYC 595**  
**Senior Assessment**  
*0 Semester Hours*

Assessment of student learning outcomes in the field of psychology. Includes written examination or some other form of written assessment, completion of survey instruments, senior exit interview, or other forms of end-of-program evaluation. PSYC 595 is offered three times a year (spring, summer, and fall) on a Credit/No Credit basis.

CR/NC grading only.

Lab fee.

Senior Psychology majors only.

Prerequisites: All required courses for the major completed or currently in progress.

---

**PSYC 598**  
**Special Studies**  
*1-3 Semester Hours*

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

---

**PSYC 599**  
**Independent Studies**  
*1-3 Semester Hours*

Students work individually with a selected professor on a specific area of interest. Students who have completed PSYC 445 may wish to conduct further research independently.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.
Sociology

Faculty:
Chairperson: James Faught
Professors: James Faught, James Mathieu
Associate Professors: John A. Davis, Peter Hoffman
Assistant Professors: Stacy Burns, Margaret L. Hunter, Eric Magnuson, David Marple

Objectives:
As a department, our objectives are to foster the intellectual development of students and to promote lifetime learning experiences. We do this through teaching and applying the insights of sociological perspectives to achieve a critical understanding of social reality and the human condition.

Our curriculum is designed to explore relationships within society, the social and cultural influences on human behavior, dynamics of interaction, and social institutions and social change in a global context.

Sociology Student Learning Outcomes
Students majoring in Sociology should know:
• The processes and structures that establish the underlying regularities of social life
• The ways in which social life is continually reconstructed through opposition and deviance
• The significance of cultural differences in traditional and modern societies
• The origin and development of principal theoretical ideas that inform contemporary sociological inquiries
• The basic methodological and statistical strategies used in contemporary sociology;

Students majoring in Sociology should be able to:
• Recognize how social life is structured in ways that influence choices, opportunities, and action
• Demonstrate an ability to write and speak effectively about contemporary social issues
• Read, assess, and interpret the results of sociological research
• Successfully complete an independent research project that competently draws from current theoretical, methodological, and empirical research;

Students majoring in Sociology should value:
• A knowledge of the range of interests and goals expressed by groups and organizations in society
• The ways in which sociological research may be effectively employed by organizations and institutions
• The application of sociological knowledge in order to enhance the quality of life
• A reasoned participation in community life that is informed by grounded sociological knowledge.

Major Requirements:
Lower Division Requirements (15 semester hours):
SOCL 100, 105, 109, 210, 211. A grade of at least C (2.0) will be required in all lower division courses.

Upper Division Requirements:
27 semester hours in upper division courses in sociology which must include SOCL 301, 401, and 495. An average grade of C (2.0) must be obtained in courses included in the major.

SOCL 495 should be taken in the senior year. The remaining 18 semester hours are to be chosen from the six theme areas into which upper division sociology courses are grouped: I. Deviance and Control; II. Social Inequality; III. Urban, Population, and Demographic Processes; IV. Social Structure, Culture, and Process; V. Family and Life Cycle; and VI. Globalization. Students must take at least one course from four of the theme areas. The remaining courses may be taken from any of the upper division offerings.

At least two 300- or 400-level sociology courses must be taken in the senior year.

Minor Requirements:
18 semester hours, including SOCL 100 or 105, 109, 301 or 401, and 9 semester hours in upper division courses. An average grade of C (2.0) must be obtained in courses included in the minor. At least one 300- or 400-level sociology course must be taken in the senior year.
The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

15

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

SOCL 100
Principles of Sociology
3 Semester Hours

Development of the perspectives, concepts, and methodologies needed for objective, analytical thinking about human interaction. Relationships explored in terms of the development of the self through interaction, basic types of social organization, collective behavior, types of institutions, and aspects of the total social system such as social change and population phenomena.

SOCL 105
Cultural Anthropology
3 Semester Hours

An introduction to the social organization and culture of preliterate and modern societies. Major emphasis is on cultural anthropology, a study of how humans have learned to cope with their world, and the varieties and similarities of this coping.

SOCL 109
Social Research Methods
3 Semester Hours

An introduction to scientific inquiry and research in the social sciences, with special emphasis on conceptualization and operationalization process, various data collection strategies, and the use of computers in data analysis.

SOCL 210
Elementary Social Statistics
3 Semester Hours

An introduction to basic inferential and descriptive statistics commonly used in the social sciences. Among the topics covered are: table construction; central tendency; variation; probability, sampling distributions, and the normal curve; hypothesis testing; and measures of association.

Recommended to be taken concurrently with SOCL 109.

SOCL 211
Advanced Social Research
3 Semester Hours

Emphasis is given to applied aspects of sociological research, utilizing a fieldwork project resulting in a report that embodies advanced research techniques.

Prerequisites: SOCL 109 and 210.

SOCL 301
Development of Sociological Theory
3 Semester Hours

An introduction to 19th century contributions to sociological thought: Comte, Tocqueville, Marx, Durkheim, Weber, and others are examined within their historical settings.

SOCL 401
Contemporary Theory
3 Semester Hours

A survey of the variety of 20th century sociological perspectives, including symbolic interactionism, ethnomethodology, functionalism, critical theory, and others.

SOCL 495
Sociology Seminar
3 Semester Hours

Designed as a senior seminar for sociology majors. Stress will be on organization and integration of sociology studies, bringing together in a meaningful way sociological facts, understandings, and knowledge. Students must have 90 units completed at time of registration.

Prerequisites: SOCL 211 and SOCL 301 or 401. Senior majors only.
### I. Deviance and Social Control

**SOCL 322**  
**Deviant Behavior**  
3 Semester Hours

A social interactionist approach to the study of deviant behavior; an examination of the process whereby society defines and labels an act as deviant, trends in deviance theory, deviant careers, and the mechanisms involved in confronting the label.

**SOCL 422**  
**Criminal Justice**  
3 Semester Hours

An introduction to the system of criminal justice in contemporary America with a focus on how criminal behavior is processed by the system's agencies: police, courts, and correctional institutions. Legal concerns such as the rights of the accused and due process will also be discussed in terms of their application in each of these areas.

**SOCL 423**  
**Criminal Law**  
3 Semester Hours

This course examines the criminal law in the U.S. from a sociological perspective, as a set of “social control” processes by which norms are transmitted and enforced. Topics include how the law defines crime and particular forms of crime, drug abuse and alcohol-related crime, and various legal defenses available to the accused.

**SOCL 424**  
**Crime and Delinquency**  
3 Semester Hours

An introduction to the nature and dynamics of criminal and delinquent behavior from a sociological viewpoint. Topics to be covered: the nature of crime and the criminal law, the measurement of crime, major theories—both historical and contemporary, and patterns of criminal and delinquent behavior.

### II. Social Inequality

**SOCL 332**  
**Gender and Society**  
3 Semester Hours

An examination of processes resulting in socio-cultural sex role differences and the cultural consequences relating to opportunity, power, and prestige in society. An attempt to understand the effects of social organization and change on the status of women and men.
III. Urban, Population, and Demographic Processes

SOCL 340
Urban Sociology
3 Semester Hours

An examination of the basic historical processes which have shaped cities, including spatial differentiation. Topics may include the formation of community, metropolitan deconcentration, urban poverty, housing segregation, and third world urbanization.

SOCL 341
Community
3 Semester Hours

This course examines a wide range of American community studies, ranging from the 1920s to the present. Primary attention is directed toward an understanding of the scope of change in community structure and process in industrial society.

SOCL 342
Demography and Population Analysis
3 Semester Hours

An analysis of major international population trends, problems of overpopulation, and population control, with an introduction to the methods and techniques of demographic and ecological analysis.

SOCL 348
Urban Anthropology
3 Semester Hours

A comparative analysis of urban social relationships. Emphasis is directed to the use of ethnographic methodologies in understanding contemporary American urbanism and to the problems associated with pluralistic urban society.

SOCL 349
Research in Urban Society
3 Semester Hours

An examination of the methodologies and strategies employed by social scientists researching urban society. Case studies and research agendas are drawn from modern and postmodern cities, including metropolitan Los Angeles.

IV. Social Structure, Culture, and Process

SOCL 350
American Society and Culture
3 Semester Hours

An examination of the historical and contemporary relationships of the basic institutions of American society. Among the topics considered are: the distribution of economic resources, labor and business political processes, education, religion, community organization, and lifestyles.

SOCL 351
Sociology of Sport
3 Semester Hours

An examination of the social nature of sport in society. Topics may include the interrelation of sport and culture, sport and the socialization process, deviance and violence in sport, sport and race, the status of women in sport, and the political and economic ramifications of sport.

SOCL 352
Political Sociology
3 Semester Hours

An analysis of the relationship between forms of social organization and the exercise of power in society. Among the subjects considered are: types of political regimes, cross-cultural patterns of voting, voluntary associations, social classes, social movements, and revolution.

SOCL 354
Social Organization
3 Semester Hours

The study of large-scale, highly structured groups, such as athletic teams, local school systems, colleges and universities, hospitals, businesses, and governmental agencies.

SOCL 355
Social Psychology
3 Semester Hours

The interrelationships between individual behavior and the larger social order. Language and communication, the self, interaction and interactional strategy, aggression, perception and attribution theory, prejudice and discrimination, and collective behavior.
SOCL 356
Sociology of Law
3 Semester Hours

A survey of the important theoretical and research traditions and recent empirical developments in sociology of law. A variety of law-related topics will be covered, including law and social structure, the economy and culture, law and inequality, law and social control, courts and alternative dispute resolution, and the legal profession.

SOCL 357
Media and Society
3 Semester Hours

An examination of the social role of the media in our lives and our society. Topics include: culture, race, class, and gender, as well as alternative media and the political struggles over social change and the media system.

SOCL 358
Medical Sociology
3 Semester Hours

Development of the field of medical sociology, with emphasis on changing patterns in the health care and delivery systems, doctor-patient relationships and health care.

SOCL 359
Sociology of Popular Culture
3 Semester Hours

The study of the artifacts of everyday life—newspapers, films, sports, music, and such—as important sources of sociological knowledge.

SOCL 454
Religion, Culture, and Society
3 Semester Hours

The study of religion as an expression of culture, its diverse subcultural characteristics as a social institution, and the interrelationships of religion and other social institutions.

V. Family and Life Cycle

SOCL 361
Sociology of Marriage and Families
3 Semester Hours

A study of marriage and family as social institutions, including normative aspects, socialization activities, value orientations, family structures and behavior, and societal influences on families.

SOCL 362
Sociology of Children
3 Semester Hours

A sociological study of the world of children, interactional events in children's activities, and examination of the cultures of children and of adults.

SOCL 363
Concepts and Issues in Aging
3 Semester Hours

A general introduction to the study of physiological, psychological, and sociological aspects of aging. The focus is on the individual in society throughout the adult phase of the lifespan.

SOCL 367
Sociology of Adolescence
3 Semester Hours

An examination of the adolescent society with particular focus on the high school. Topics to be discussed: peer socializations, cliques and crowd formations, lifestyles, fads and fashions, and changing patterns and relations resulting from globalization.

VI. Globalization

SOCL 370
Social Change
3 Semester Hours

An examination of the social, economic, and political sources of social change.

SOCL 371
Social Ecology
3 Semester Hours

An analysis of the interaction and interrelationship of population, natural resources, and environment as they affect social organization and place limits on life on the earth.

SOCL 372
Sociology of Work and Occupations
3 Semester Hours

Explores the social dynamics of work and occupations in terms of culture, ideology, race, class, and gender. Topics will include the day-to-day experiences of the workplace, the politics of the economic system, and the social changes related to globalization and the international economy.
SOCL 374
Sociology of Africa
3 Semester Hours

A study of the contemporary issues and crises of sub-Saharan Africa, including human conditions, revolutionary movements, neo-colonialism, urbanization, multinational intervention, and geo-political alliances.

SOCL 375
Hawaii and the Pacific Islands
3 Semester Hours

Sociology of everyday life and social processes of the peoples of Hawaii and the Pacific areas of Polynesia, Melanesia, and Micronesia.

SOCL 378
International Tourism
3 Semester Hours

A survey of the social, cultural, economic, and environmental elements of international tourism with special emphasis on the impacts of the expansion of tourism from the developed nation into the less developed realm. Modern trends in tourism, such as ecotourism, are analyzed for their potential costs-benefits and their implications for careers in the tourist industry.

SOCL 379
Sociology of Immigration
3 Semester Hours

An investigation into current and historical immigration trends as they encompass the economy, education, language, identity, politics, and culture. There is a particular focus on globalization and Los Angeles as an immigration center.

VII. Special Areas

SOCL 398
Special Studies
1-3 Semester Hours

SOCL 399
Independent Studies
1-3 Semester Hours

SOCL 498

1-3 Semester Hours
Theological Studies

Faculty:
Chairperson: Jeffrey S. Siker
Professors: Douglas Burton-Christie,
Christopher Key Chapple,
John A. Coleman, S.J. (Casassa Chair),
John R. Connolly, James L. Fredericks, Michael P. Horan,
Robert B. Lawton, S.J.,
Thomas P. Rausch, S.J. (Chilton Chair),
Herbert J. Ryan, S.J., Jeffrey S. Siker,
Daniel L. Smith-Christopher
Associate Professors: Wilkie Au, Amir Hussain,
John R. Popiden
Assistant Professors: Kristin Heyer, Charlotte C. Radler

Objectives:
The Department of Theological Studies makes an essential contribution to the mission of Loyola Marymount University through its teaching of theology and its investigation of the broader area of religious experience. Areas of study include biblical, historical, systematic and moral theology, world religions/comparative theology, and pastoral studies, with special emphasis on the Roman Catholic theological tradition. The mission of the Department includes the education of undergraduate and graduate students at Loyola Marymount, participation in the scholarly community of academic theology through presentations and publications, and service to the church community.

Theological Studies Student Learning Outcomes
By virtue of their Theological Studies courses, students should know:

• The nature of religion and religious experience
• The beliefs and practices of Christianity, with emphasis on the Catholic Tradition
• The central contours of the Bible, Church History, Systematic Theology, Theological Ethics, and Comparative Theology
• How culture, race, gender, class, and ethnicity impact theological reflection
• The social implications of religious beliefs and practices;

By virtue of their Theological Studies courses, students should be able to:

• Conduct critical research and write intelligently and persuasively on theological and religious issues
• Critically interpret theological or religious texts
• Articulate the significance of theological and religious values for church, society, and culture;

By virtue of their Theological Studies courses, students should value:

• The Catholic theological tradition
• The beliefs and practices of the religions of the world
• Ecumenical and interfaith dialogue and cooperation
• The development of a spiritual life
• Living responsibly within a culturally diverse world
• Action in the promotion of justice and service of faith.

Major Requirements:
6 semester hours in the lower division courses of THST 100, 110. A grade of at least C (2.0) in each of these courses is required.

24 semester hours in upper division courses including:

a) Biblical Theology:
One course (301, 302, 304, 305, 310, 311, 314, 316, 415).

b) Historical Theology:
One course (320, 321, 322, 323, 324, 328, 420, 425, 427).

c) Systematic Theology:

d) Moral Theology:
One course (360, 361, 363, 367, 368, 465, 470).

e) World Religions:
One course (381, 382, 383, 384, 385, 480).

f) Seminar:
Major Christian Thinkers (495).

Twelve of the 24 upper division semester hours must be at the 400 level.

An average grade of C (2.0) must be obtained in the courses included in the major.
We highly recommend that students wishing to pursue graduate study in Theology have a reading knowledge of two languages, either classical or modern.

We further recommend that additional philosophy courses be taken as early as possible. The specific courses are to be determined in conjunction with the student’s Theological Studies advisor.

**Minor Requirements:**

18 semester hours with at least 12 semester hours from upper division courses, including six semester hours at the 400 level. The courses for the minor must be selected in conjunction with the Theological Studies advisor for minors.

**Lay Ministry Minor Requirements:**

18 semester hours with at least 15 semester hours from upper division courses, including six semester hours at the 400 level. The courses for the minor must be selected under the direction of the faculty advisor for the Lay Ministry Minor. The student must select at least one course from each of the following areas:

a) Biblical Theology  
b) Systematic Theology  
c) Moral Theology  
d) Personal Growth and Spirituality  
e) Pastoral Aspects of Ministry

In addition, the student will be required to participate in 90 hours of active service in related fields of lay ministry. This will be under the direction of the faculty advisor and contracted through the Career Development office.

An average grade of C (2.0) must be obtained in the courses included in the minors.

**Theology Society**

The Theology Society is a co-curricular student group open to all Theological Studies undergraduate majors and minors, as well as non-majors/minors who are interested in theological issues and topics. The group convenes monthly, typically sharing lunch and discussion, often with a guest speaker. The group also organizes various outings as opportunities for students to socialize with one another and with Theological Studies faculty. The Theology Society hosts annual visits from admissions representatives from graduate theological programs around the country for interested students. The Theology Society’s members also participate in an annual paper competition sponsored by the Department of Theological Studies, in which the winning paper is presented to faculty and students each Spring.

**Core Curriculum in Theological Studies:**

One course from THST 100-199;  
One course from THST 300-399 (Prerequisite: Junior standing).

Only courses in the 100 series and 300 series will fulfill the core curriculum requirements. All 400-level courses have a prerequisite of one 300-level course. The 400-level courses fulfill major or minor requirements. Except for those entering LMU as a transfer student, no student may take a 300-level course without successful prior completion of a 100-level course.

For students interested in the study of Catholicism in the core curriculum, the Theological Studies Department offers three courses, THST 120, 326, and 345, which are designed to study the Catholic tradition. For the non-majors who wish a core sequence in Catholic Theology, we recommend THST 120 and either 326 or 345.

**Theological Studies Model Four-Year Plan**

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

### Biblical Theology

**THST 301**  
**Ancient Futures**  
3 Semester Hours

This course explores the corpus of Wisdom and Apocalyptic literatures in the Bible and samples of other extant Wisdom and Apocalyptic writings, both ancient and modern.

**THST 302**  
**Prophecy and Social Justice**  
3 Semester Hours

An examination of the Hebrew prophets in the socio-economic and historical context, with particular emphasis on issues of justice. Some considerations of more recent "prophet" figures are included for comparison.

**THST 304**  
**War and Peace in the Bible**  
3 Semester Hours

This course considers the development of Biblical and religious reflection on the issues of the Church, war, peace, and Christian nonviolence up to the present.

**THST 305**  
**The Four Gospels**  
3 Semester Hours

A social-historical, literary, and theological examination of the Gospels and early Christian and modern interpretations of Jesus.

**THST 310**  
**The Gospel of John**  
3 Semester Hours

An analysis of the interplay among the historical setting, literary development, and theological motifs of the Fourth Gospel.

**THST 311**  
**Pauline Epistles**  
3 Semester Hours

A study of the ministry and message of Paul presented in his letters, accounts in Acts, and deutero-Pauline epistles.

**THST 314**  
**Jesus in Gospel and Film**  
3 Semester Hours

An exploration of various portraits of Jesus in the Gospels, the identity of the historical Jesus, and contemporary interpretations of Jesus in various films.

**THST 415**  
**New Testament Theology**  
3 Semester Hours

An examination of various historical, literary, theological, and ethical issues in the interpretation of the New Testament, especially the Gospels and the Pauline epistles.

### Historical Theology

**THST 320**  
**History of Christianity I**  
3 Semester Hours

Selected themes treating major problem areas in the history of Christian life and thought from its origins to the end of the high Middle Ages.

**THST 321**  
**History of Christianity II**  
3 Semester Hours

Selected themes treating major problem areas in the history of Christian life and thought from the end of the high Middle Ages to the present.

**THST 322**  
**Greek Orthodox Tradition**  
3 Semester Hours

A review of the unbroken dogmatic tradition of the Greek Orthodox Church, her liturgy, and her place in the religious life of the United States.

Sponsored by the Basil P. Caloyeras Center for Modern Greek Studies.

**THST 323**  
**Celtic Christianity**  
3 Semester Hours

An examination of the inculturation of Christianity into the Celtic worldview from the fifth to eleventh centuries, including Celtic monasticism, liturgy, literature, art, and spirituality.

**THST 324**  
**Women in Christian History**  
3 Semester Hours

An historical investigation of Christian theology of women: what theologians said about women, what women said about themselves, and what they accomplished.

</table>
Moral and Practical Theology

THST 360
Moral Issues and Christian Responses
3 Semester Hours
An exploration of the issues involved in a variety of moral problems and a survey of present and past Christian responses to them.

THST 361
Christian Ethics in the Marketplace
3 Semester Hours
An analysis and discussion of business ethics case studies in the light of Christian economic teachings.

THST 363
Christian Marriage and Sexuality
3 Semester Hours
An examination of the varieties of Christian views of marriage and the full range of moral issues concerning human sexuality today.

THST 367
Christian Voices on War and Peace
3 Semester Hours
An examination of Christian attitudes toward war and peace that address U.S. policies during the twentieth century.

THST 368
Bioethics and Christian Morality
3 Semester Hours
A theological and ethical study of bioethical topics, e.g., euthanasia, assisted reproductive technologies, and human cloning, that confront contemporary society.

THST 374
Marriage and Contemporary Christianity
3 Semester Hours
A study of the nature of marriage and the contemporary understanding of marital life from a Christian point of view. The problem of marriage in today's world.

THST 375
Service, Justice, and Ministry
3 Semester Hours
This course engages students in active reflection on Christian theology and practice. The course analyzes selected sources from the Christian theological tradition concerning the relationship among three phenomena: service, justice, and ministry. Weekly field placement in off-campus service activity is required for this course.
THST 465
Moral Theology Today
3 Semester Hours
A study of the developments and critical issues within Roman Catholic moral theology since 1940.

THST 470
Topics in Theological Ethics
3 Semester Hours
An exploration of the history and methods of theological ethics with analysis of contemporary moral issues.

World Religions

THST 381
Contemporary Judaism and Its Historical Background
3 Semester Hours
An understanding of Jewish beliefs and practices, their Biblical and historical roots, their theological and cultural motivations.
Sponsored by the Jewish Chautauqua Society.

THST 382
Religions of India
3 Semester Hours
An exploration of the cultural/historical background and theological insight of Hinduism and Jainism. Sikhism, Christianity, and Islam in India are also discussed.

THST 383
Religions of the Near East
3 Semester Hours
An overview of the history, theology, and interactions of Judaism, Christianity, and Islam, both in their Middle Eastern and global contexts.

THST 384
Religions of East Asia
3 Semester Hours
The history and development of Confucianism, Taoism, Tibetan and Zen Buddhism, and Shinto, emphasizing primary textual sources. Islam and Christianity in East Asia will also be discussed.

THST 385
Buddhism
3 Semester Hours
A survey of the history of Buddhism in India and Southeast Asia, China, Japan, Tibet, and North America. Discussion of Buddhism's contributions to social ethics, ecological concern, and dialogue with Christianity.

THST 480
Topics in Comparative Theology
3 Semester Hours
Multiple religious perspectives will be utilized in this course to explore one or more topics of theological concern, such as violence and nonviolence, myth and symbol, modes of spirituality, images of God, and/or multicultural religious presence in Los Angeles.

Special Courses

THST 398
Special Studies
1-3 Semester Hours

THST 399
Independent Studies
1-3 Semester Hours

THST 495
Seminar: Major Christian Thinker
3 Semester Hours
An examination of the theological work of one major thinker, studying the work both as an integrated theological statement and as a part of continuing theological dialogue.

THST 497
Youth and Young Adult Ministry
3 Semester Hours
The course examines the theory and practice of ministry to youth and young adults, emphasizing faith development, community building, justice and service education, advocacy, and guidance of youth and young adults.

THST 498
Special Studies
1-3 Semester Hours

THST 499
Independent Studies
1-3 Semester Hours
Urban Studies

Director:
Peter R. Hoffman

Objectives:
As an interdisciplinary program, Urban Studies encourages students to examine urbanization and the multitude of issues inherent in urban life from the perspectives of a wide range of disciplines and methodological traditions. The critical analysis of urban issues helps students evaluate the various political, socio-cultural, and economic strategies available to urban planners, local governments, law enforcement agencies, and others seeking to remedy the problems of contemporary cities.

The curriculum of the Urban Studies program, including its internship program, allows students to take advantage of one of LMU’s greatest assets: the many linkages that connect LMU to the extraordinarily dynamic, multicultural metropolitan area surrounding the University. Los Angeles is both an educational resource and a laboratory for Urban Studies students.

Career options for Urban Studies majors may be found in local government, law enforcement, real estate development, and urban social services. The major is also appropriate preparation for students seeking careers or graduate education in urban planning, public administration, social welfare, policy analysis, or the law.

Urban Studies Student Learning Outcomes
By virtue of their Urban Studies Program courses, students should know:
• The general history of urbanization and its associated economic and demographic processes
• The structures and expressions of urbanization and urban life associated with modern and postmodern cities
• The structures and expressions of urbanization and urban life associated with cities of the developed realms/core and those associated with cities of the less developed realm/periphery
• The basic research questions and agendas associated with the various disciplines contributing to our understanding of urban issues
• The general expressions of urbanization and urban life associated with contemporary Los Angeles
• The common theories, practices, and methodologies employed in contemporary urban planning and policy analysis;

By virtue of their Urban Studies Program courses, students should be able to:
• Effectively employ contemporary social science methodology in the analysis of urban issues
• Demonstrate written and oral competencies in the analysis of urban issues and policy
• Identify and utilize appropriate primary data, including census materials, for the analysis of urban issues
• Apply their understanding of urban issues to the development and critical analysis of programs and policies appropriate to addressing contemporary social and economic problems
• Successfully pursue graduate education in such areas as urban planning, public administration, policy analysis, social welfare, and the law upon completion of their major;

By virtue of their Urban Studies Program courses, students should value:
• Diverse perspectives in the analysis and assessment of urban issues and policies
• Thoughtful analysis of the implications of urbanization and urban policy in the context of social justice and sound environmental practices
• Rigorous, scientific research that enlightens the experience of urban populations and contributes to the resolution of the social and environmental problems associated with urbanization
• Community-based participation in the development of programs and policies that contribute to the social, economic, political, and environmental improvement of their communities and cities.

Major Requirements:
Lower Division Requirements:
15 semester hours:
URBN 125 and 135;
AFAM 115 or APAM 117 or CHST 116;
SOCL 109 and 210.

A grade of C (2.0) will be required in all lower division major courses. It is recommended that students majoring in Urban Studies complete ECON 100, 110, or 120 in partial fulfillment of the University Core Curriculum requirement in social science.
Urban Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.
URBN 125
Urban Physical Environment
3 Semester Hours
An introduction to the physical-biotic and structural consequences of urbanization. The internal structure of contemporary American cities is emphasized.

URBN 135
Urban Social Environment
3 Semester Hours
An introduction to the social, psychological, and ethnic developments associated with urbanization and a pluralistic society. The nature of contemporary American urbanism is emphasized.

URBN 198
Special Studies
1-3 Semester Hours

URBN 199
Independent Studies
1-3 Semester Hours

URBN 298
Special Studies
1-3 Semester Hours

URBN 299
Independent Studies
1-3 Semester Hours

URBN 345
Urban Planning
3 Semester Hours
An introduction to the problems, principles, and practices of modern urban planning.

URBN 347
Community Development
3 Semester Hours
An exploration of the meanings and methodologies of community development, especially in contemporary urban America. Topics include: the history of community development; the intersection of race, class, and gender with community development; community-based organizations; and community development corporations.

URBN 349
Research in Urban Society
(See SOCL 349)

URBN 365
Metropolitan Los Angeles
3 Semester Hours
An introduction to the nature of contemporary urbanization as expressed in metropolitan Los Angeles. Physical and social geography of the urban region.

URBN 398
Special Studies
1-3 Semester Hours

URBN 399
Independent Studies
1-3 Semester Hours

URBN 455
Urban Internship
3 Semester Hours
A supervised internship in public administration, social service, urban planning, or law enforcement. Individual assignments are made on the basis of the intern’s academic preparation and career aspirations.
Prerequisite: Approval of the Program Director.

URBN 456
Senior Project
3 Semester Hours
Directed research and/or advanced internship work on a specific urban topic.
Prerequisites: URBN 455 and senior standing.

URBN 498
Special Studies
1-3 Semester Hours

URBN 499
Independent Studies
1-3 Semester Hours
Women’s Studies

Faculty:
Chairperson: Nancy W. Jabbra
Professor: Nancy W. Jabbra
Assistant Professor: Stella Oh

Objectives:
The mission of Women’s Studies at Loyola Marymount University is to engage students in a critical understanding of the complex ways gender shapes the world around them, particularly in relation to race, sexuality, class, and other social factors. Women’s Studies invites all students to participate in a vibrant interdisciplinary program of study that places women at the center of traditional disciplines in which they have been historically marginalized. It encourages the critical examination of academic fields such as the humanities, social sciences, natural sciences, and the arts, together with the gendered assumptions that underwrite them. Further, Women’s Studies proposes not only that we ask different questions of academic disciplines from the perspective of women, but also that we transform those fields and ways of knowing through the innovative theoretical tools and new methodologies that have been developed by feminist scholars and activists over the past thirty years. As a department committed to transformation through education, the mission of Women’s Studies is to call attention to the androcentric nature of society, propose alternatives and strategies that honor women’s human rights, and promote a vision of society where gender hierarchy, as well as other forms of social injustice, are eliminated. Grounded in feminist pedagogy, Women’s Studies courses provide students with a broad understanding of the asymmetry of gender relations within diverse historical and cultural contexts. Our mission is to foster a vigorous intellectual environment where students can develop their analytical thinking skills and conceptual tools for social change.

Women’s Studies Student Learning Outcomes
After completing their program in Women’s Studies, students will have:

- Acquired a critical understanding of the complex ways gender shapes the world, particularly in relation to race, sexuality, class, and other social factors
- Acquired a strong commitment to social justice for women of all ethnicities
- Learned new methodologies and theoretical tools
- Learned to express themselves well both orally and in writing.

Major Requirements:
Lower Division Requirements: 12 semester hours
WNST 100, 101, and 200, plus one of the following for the Lower Division Health and Sexualities Requirement: WNST 220, 221, or 222.

Upper Division Requirements: 24 semester hours
WNST 301, 302, 351, and 497.

Upper Division Options: 12 semester hours
Choose 9 semester hours (3 classes) from one of the following cluster, plus 3 semester hours (1 class) from one of the others. Please note that some classes are listed in more than one cluster. Students may take such classes for credit in only one cluster. At times a special studies class may be taken in lieu of one of the electives listed below. Please consult the Department for advice.

Note: One of the upper division electives must include WNST 303 or another History of Women class.

Transnationalism and Women in the Third World: WNST 346, 347, 431, 434, 435, 452, or 454.

Gender at the Intersection of Race, Ethnicity, Class, and Sexuality: WNST 341, 342, 344, 345, 349, 440, 445, or 453.

Social Movements, Social Justice, and Public Policy: WNST 347, 451, 454, or 490.

Feminist Theology and Philosophy: WNST 361, 370, or 371.

Total: 36 semester hours. Women’s Studies majors should have a minimum of a C (2.0) in all Women’s Studies classes.

Please note that cross-listed courses may have departmental prerequisites; consult departments for details.
Minor Requirements:
18 semester hours, including WNST 100, 301, and 497. At least 12 semester hours must be in upper division courses. A minimum grade of C (2.0) must be earned in both WNST 100 and 497. An average grade of C (2.0) must be earned in the Women's Studies minor courses.

Please note that cross-listed courses may have departmental prerequisites; consult departments for details.

Women's Studies Model Four-Year Plan

The normal course load is 15 units per semester (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, for which the maximum is thirteen.

---

### WNST 101

*Women of Color in the U.S.*

3 Semester Hours

An introduction to critical thinking skills about concepts such as gender, race, class, and sexuality, how these intersect in lives of women of color together with women's strategies of surviving, resisting, and overcoming barriers.

### WNST 198

Special Studies

1-3 Semester Hours

### WNST 199

Independent Studies

1-3 Semester Hours

### WNST 200

*Women in Global Communities*

3 Semester Hours

This course introduces students to the cultural, social, political, and economic contexts in which non-Western women live. It addresses the impact of globalization, colonization, and post-coloniality, and women's responses to these processes.

### WNST 220

*Women's Bodies, Health, and Sexuality*

3 Semester Hours

This course addresses women's health and sexuality from a feminist perspective. It also deals with body images not only from the perspective of health but also in terms of their relationship to structures of power.

### WNST 221

*Women in Science and Mathematics: Breaking the Stereotype*

*(See NTLS 265)*

### WNST 222

*Human Reproduction and Development*

*(See BIOL 271)*

### WNST 298

Special Studies

1-3 Semester Hours

### WNST 299

Independent Studies

1-3 Semester Hours

---

*WNST 100*

*Introduction to Women's Studies*

3 Semester Hours

An interdisciplinary study of women in society oriented toward exploring women's experiences in a variety of contexts. Topics covered include biology, sociology, psychology, politics, economics, religion, philosophy, history, literature and language, law, and culture. Course content is focused on North America and is multicultural. Satisfies social science core requirement.

WNST 461
Women in Classical Antiquity
(See CLAS 452)

WNST 490
Service Learning in Women's Studies
3 Semester Hours

Service learning in Women's Studies combines practical experience and feminist theory through the theme of women's empowerment. Students work in selected placements while reading through a sequenced bibliography. They discuss their experiences and readings in seminars and papers.

WNST 497
Senior Seminar in Women's Studies
3 Semester Hours

Designed as a last course for students obtaining the Women's Studies major or minor. Stress is on the organization and integration of knowledge gained regarding women in society. Offered only during the Spring semester.

WNST 498
Special Studies
1-3 Semester Hours

WNST 499
Independent Studies

College of Business Administration

Administration

Dean: John T. Wholihan  
Associate Dean: George L. Hess (Undergraduate)  
Associate Dean: Rachelle Katz (Graduate)  
Assistant Dean: William Lindsey (Center for Executive Learning)  
Directors: John Daly, S.J. (Center for Asian Business); Alan K. Hogenauer (Center for Travel and Tourism); Thomas White (Center for Ethics and Business)

Organization

The College has four Departments, four Centers, and one Program, each led by a Chairperson or Director. The Areas of Concentration within these units are designated by four letter codes.

  Department of Accounting (ACCT)  
  Department of Finance and Computer Information Systems (FNCE), (ISQM)  
  Department of Management (MGMT), (INBA)  
  Department of Marketing and Business Law (MRKT), (BLAW)  
  Center for Asian Business  
  Center for Entrepreneurship (courses are offered through the Departments)  
  Center for Ethics and Business (courses and activities are offered through the Departments)  
  Center for Executive Learning  
  Center for Travel and Tourism (TOUR)

The College offers the Master of Business Administration in different formats. The traditional MBA (MBAA) addresses the educational demands of persons who recognize the need to continue to build their careers. The Executive MBA (EMBA) is for the experienced business leader who aspires to executive-level responsibility.

Baccalaureate Degree Program

The College offers two Baccalaureate Degrees: Bachelor of Business Administration (B.B.A.) and the Bachelor of Science in Accounting (B.S.A.).

The Vision and Mission of the College of Business Administration

The vision of the College is to be recognized as a leading College of Business Administration within a Catholic university through our commitment to learning, values, and research. The underlying theme is the development of ethical leaders for a diverse, technologically-driven, global economy. These statements confirm our commitment to the principles of continuous improvement.

The mission of the College is to continuously develop an environment in which all stakeholders learn and grow together and contribute to an understanding of:

- The global economy,
- The business theories and practices which explain its operations,
- The decision models and analytical frameworks for meeting ethical challenges,
- The importance and interdependence of people in the work environment,
- The technologies that stimulate change, and
- The skills and management tools needed to manage an enterprise successfully.

The primary focus is on excellence in instruction and learning.

The mission of the undergraduate programs is to:

- Help students of high potential experience personal growth in the acquisition of knowledge in a broad range of subjects based on the University core curriculum and an integrated business curriculum;
- Help students develop technical, analytical, and interpersonal skills and personal qualities and values to realize their potential as future leaders in a global economy; and
- Graduate students who are able to demonstrate a depth of understanding in their primary field of interest.
University Core Curriculum for the Baccalaureate Degree in the College of Business Administration

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course (100s or 200s) listed. Third- and fourth-year students choose from any upper division course (300s or 400s) listed. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement, which is also cross-listed as AMCS (please see the Associate Dean's Office for details).

College Writing
3 Semester Hours

Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication
3 Semester Hours

Course Selection
Choose from CMST 100, 110, 130, or 140.

Critical and Creative Arts
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts:
Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FILM 210, 314, 315; INDA 100; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Creative Arts:
Choose from ANIM 120, 220; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); FILM 260; MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

History
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization:
Choose from HIST 100 or 101.

Contemporary Societies:
Choose from HIST 152, 162, 172, 182, 192.

Literature
3 Semester Hours

Course Selection
Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Mathematics, Science and Technology
6 Semester Hours

Course Selection
Prerequisite: Success on the Mathematics Placement Examination or successful completion of MATH 101.

Students must complete MATH 112. MATH 101 and 111 are normally required as prerequisites but may be waived if the student has a high enough score on the Mathematics Placement Examination. All incoming College of Business Administration students must take the Mathematics Placement Examination unless they have already completed MATH 112 or its equivalent. If MATH 111 is waived, the student must complete a 3 semester hour non-business course for MATH 111.

Students must complete one 3 semester hour science and technology course. Courses ordinarily recommended to students majoring outside the Frank R. Seaver College of Science and Engineering are those numbered 260-279 in each department within the College (with the exception of computer [CMSI] and Mathematics [MATH] courses). Courses in this series are specifically designed for the non-major.

Choose from BIOL 260, 261, 262, 263, 264, 265, 271, 272, 275, 276; CHEM 260, 261, 262, 263, 264; ELEC 260, 265; MECH 260, 270, 275; NTLS 260, 270; PHYS 271, 272. Other Physical Science courses from the Frank R. Seaver College of Science and Engineering may be used to satisfy this requirement with the approval of the Associate Dean's office of the College of Business Administration.
All College of Business Administration students should be alert to the following policies:

- Students on academic probation can enroll in a maximum of 15.0 semester hours and will need to have their Advisor Hold removed prior to registration by their academic advisors.
- Certain courses must be taken in residence at LMU.
- Upper division business courses may only be transferred from AACSB accredited institutions.
- Transfer course approvals must be obtained from the Associate Dean's office prior to enrollment.
- Credits for approved internships are not part of the three courses required for an area of emphasis.
- Internship credits, three (3) semester hours, may be counted as other business electives.
- A minimum of 50% of the business-related coursework must be completed at LMU.

Recommendations:

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

**Philosophy**  
*6 Semester Hours*

Course Selection  
**Lower Division:**  
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempt from the lower division requirement. The College of Business Administration requires that PHIL 160 be replaced with a 3-unit non-business course.

**Upper Division:**  
Choose one course from PHIL 320 through 330.

**Social Sciences**  
*6 Semester Hours*

Course Selection  
Choose ECON 120 and PSYC 100.

**Theological Studies**  
*6 Semester Hours*

Course Selection  
**Lower Division:**  
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempt from the lower division requirement. The College of Business Administration requires 100-level series of THST courses be replaced with a 3-unit non-business course.

**Upper Division:**  
Choose from the 300-level series of THST courses only.

**Note: International/Global Studies**

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses that include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, 210, 220; DANC 281; FILM 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; HIST 172, 182; MUSC 303, 365; THEA 348; THST 180, 361, 382, 383, 384, 385.
## Total Program

The B.B.A. degree program requires a minimum of 120 semester hours, and the B.S.A. degree program requires a minimum of 126 hours, including the prescribed business administration core courses and those listed above. A minimum of 45 semester hours must be from upper division course offerings.

Students should consult the Dean's office for specific policies applicable to the College of Business Administration.

All courses are 3 semester hours unless otherwise stated.

## Business Administration

### Curriculum

The courses within the two degree programs (Bachelor of Business Administration and Bachelor of Science in Accounting) are categorized in six groups:

<table>
<thead>
<tr>
<th></th>
<th>B.B.A.</th>
<th>B.S.A.</th>
<th>S.H.</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

The specific courses in the two curricula are as follows:

### A. University Core Curriculum

- ACCT 211 Financial Accounting
- ACCT 212 Managerial Accounting
- BLAW 205 Legal Environment of Business
- ECON 110 Introductory Microeconomics
- ECON 120 Introductory Macroeconomics
- ECON 230 Introductory Statistics
- FNCE 325 Financial Planning and Control
- INBA 340 International Business
- ISQM 275 Computers in Business
- ISQM 370 Management Information Systems
- ISQM 377 Production Operations Analysis
- MGMT 355 Principles of Management and Organizational Behavior
- MRKT 365 Principles of Marketing
- MGMT 405 Business as an Institution in Society
- MGMT 409 Management Policy

### B. Business/Economics Core Requirements:

- BLAW 301 Business Law Applications and Cases
- BLAW 381 Internship (1 semester hour)
- BLAW 404 Employment Law
- BLAW 408 Real Estate Law
- BLAW 412 Tax Law and Planning
- BLAW 447 International Business Law
- BLAW 462 Entertainment Law
- BLAW 473 Marketing Law
- BLAW 491 International Law Elective

### C. Math/Science Requirement

### D. Student Academic Plan: Students will develop an Academic Plan to identify the degree sought and the majors, minors, and areas of emphasis or concentration in their degree track program of study. Students working toward the Bachelor of Business Administration (BBA) degree will select one or two of the following Areas of Emphasis:

- Business Law
- Finance
- Computer Information Systems
- International Business
- Management
- Marketing
- Travel and Tourism

For each Area of Emphasis, the student will select three Advanced Business Electives. Students will also select minors and/or other majors as well as elective courses which may be taken as part of their Academic Plan. This Plan will be developed and implemented in consultation with the student’s Academic Advisor and the Office of the Associate Dean.

### Business Law

- BLAW 301 Business Law Applications and Cases
- BLAW 381 Internship (1 semester hour)
- BLAW 404 Employment Law
- BLAW 408 Real Estate Law
- BLAW 412 Tax Law and Planning
- BLAW 447 International Business Law
- BLAW 462 Entertainment Law
- BLAW 473 Marketing Law
- BLAW 491 International Law Elective

### Finance

- FNCE 381 Internship (1 semester hour)
- FNCE 412 Tax Law and Planning
- FNCE 426 Investments
- FNCE 427 Financial Policy
- FNCE 428 Real Estate Finance & Investments
- FNCE 429 Capital Markets
- FNCE 430 Mergers and Acquisitions
- FNCE 431 Entrepreneurial Finance
- FNCE 442 Multinationals and the Third World
- FNCE 443 International Investments
- FNCE 448 International Finance
- FNCE 491 International Finance Elective
Computer Information Systems and Operations Management

- ISQM 381 Internship (1 semester hour)
- ISQM 471 Database Management Systems
- ISQM 472 Object Oriented Systems Analysis and Design
- ISQM 473 Data Communications and Networks
- ISQM 474 Management Support Systems
- ISQM 475 PC-Based Decision Support Modeling
- ISQM 477 Total Quality Management
- ISQM 478 Electronic Business

International Business

- INBA 340 International Business
- INBA 381 Internship (1 semester hour)

Additionally, the following International Business courses are cross-listed with their respective departments:

- INBA 440 International Management (MGMT)
- INBA 441 International Entrepreneurship (MGMT)
- INBA 442 Multinationals and the Third World (FNCE)
- INBA 443 International Investing (FNCE)
- INBA 445 International Marketing (MRKT)
- INBA 447 International Business Law (BLAW)
- INBA 448 International Finance (FNCE)
- INBA 451 Business Practices in a Global Context (MGMT and MRKT)
- INBA 464 International Supply Chain Management (MRKT)
- INBA 481 Strategic Management Seminar in Travel and Tourism
- INBA 491 International Elective
- INBA 496 Travel and Tourism Information Technology (1 semester hour)

Management

- MGMT 101 Your Future in Business (1 semester hour)
- MGMT 381 Internship (1 semester hour)
- MGMT 412 Tax Law and Planning
- MGMT 431 Entrepreneurial Finance
- MGMT 435 Employee and Labor Relations
- MGMT 436 Training and Development Practicum
- MGMT 437 Professional Development Practicum
- MGMT 438 Compensation Management
- MGMT 439 Human Resources Practicum
- MGMT 440 International Management
- MGMT 441 International Entrepreneurship
- MGMT 449 Doing Business with East Asia

- MGMT 451 Business Practices in a Global Context
- MGMT 456 Behavioral Science in Management
- MGMT 457 Entrepreneurship
- MGMT 458 Small Business Management
- MGMT 459 Leadership
- MGMT 460 Entertainment Management
- MGMT 491 International Management Elective

Marketing

- MRKT 381 Internship (1 semester hour)
- MRKT 445 International Marketing
- MRKT 461 E-Commerce Marketing
- MRKT 462 Perspectives on Consumption
- MRKT 463 Entertainment Marketing
- MRKT 464 International Supply Chain Management
- MRKT 465 Marketing Promotional Strategy
- MRKT 466 Sports Marketing
- MRKT 467 Marketing Research
- MRKT 469 Consumer Behavior
- MRKT 471 Retail Management
- MRKT 472 Sales Management
- MRKT 473 Marketing Law
- MRKT 474 Competitive Strategy
- MRKT 475 Marketing Planning
- MRKT 476 Entrepreneurial and Small Business Marketing
- MRKT 477 Brand Management
- MRKT 478 Business to Business Marketing
- MRKT 491 International Marketing Elective

Travel and Tourism

- TOUR 280 Introduction to Travel and Tourism (2 semester hours)
- TOUR 282 Global Tourism Destinations (2 semester hours)
- TOUR 381 Internship (1 semester hour)
- TOUR 382 Marketing and Selling Travel and Tourism
- TOUR 383 Legal Foundations of Travel and Tourism
- TOUR 384 Financial Management in Travel and Tourism
- TOUR 481 Strategic Management Seminar in Travel and Tourism
- TOUR 482 Air Transportation in Travel and Tourism (1 semester hour)
- TOUR 483 The Cruise Industry (1 semester hour)
- TOUR 484 Eco-tourism (1 semester hour)
- TOUR 485 Field Experience/Familiarization Trips (1 semester hour)
- TOUR 486 Gaming Industry Management (1 semester hour)
TOUR 487 Hospitality Management (1 semester hour)
TOUR 488 Human Resources in Travel and Tourism (1 semester hour)
TOUR 492 Meeting and Convention Management (1 semester hour)
TOUR 493 Road and Rail Transportation in Travel and Tourism (1 semester hour)
TOUR 494 Services Enterprise Management (1 semester hour)
TOUR 495 Tourism and Travel Packaging and Management (1 semester hour)
TOUR 496 Travel and Tourism Information Technology (1 semester hour)
TOUR 498 Special Topics
TOUR 499 Independent Study

E. Non-Business Electives: Six semester hours in this category are required for either the B.B.A. Degree or the B.S.A. Degree. These may include courses from any College within the University except Business Administration. Courses may be selected from the entire list of University offerings, but students must be sure they have met all prerequisites in each case.

Lower division courses are acceptable for students to take in their junior or senior years, provided, however, that they complete a minimum of 45 semester hours of upper division coursework.

Agreements are in place with a number of the departments in the University under which students may take all or most of their non-business and free electives in a single area. By using a planned sequence of recommended courses and, in some cases, by taking extra courses, it is possible for a student to complete a minor area of study and, in a few cases, even a second major. It is recommended that each student consider this possibility in terms of career and personal objectives.

F. Free Electives: Students in the B.B.A. program have 9 semester hours of electives that may be taken from any College within the University, including Business Administration. These 9 semester hours may be used to complete a second area of emphasis.

Special Note:

The purpose of the above listing is simply to indicate the overall structure of the two programs in business. The order in which the courses must be taken is governed in all cases by the contribution of each course to the overall system. The suggested sequence of courses is shown in the following curriculum sections.

Transfer Credit

Lower division courses in business and economics that may be accepted include the equivalents of the following Loyola Marymount courses:

ACCT 211 Financial Accounting
ACCT 212 Managerial Accounting
BLAW 205 Legal Environment of Business
ECON 110 Introductory Microeconomics
ECON 120 Introductory Macroeconomics
ECON 230 Introductory Statistics
ISQM 275 Computers in Business

The following policies apply to all work transferred to the College of Business Administration at Loyola Marymount, whether from a two-year or a four-year school. The College can accept only those business and economics courses which are reasonably equivalent and at the same level of instruction as courses offered by Loyola Marymount. Thus, a course that Loyola Marymount offers at the junior level (courses numbered 300 and above) but that is taken by a transfer student at the sophomore level at a previous school cannot be accepted for credit. Such courses can be recognized only if the student takes the appropriate examinations after admission to the College (see Credit by Examination). Further, all transfer courses must be taken for a letter grade, and the student must receive a grade of C (2.0) or higher in order to obtain transfer credit.

Upper division business courses may only be transferred from a four-year, AACSB-accredited institution.

A student must have completed a course in Calculus or the equivalent of MATH 112 (Math Analysis for Business II) with a grade of C (2.0) or higher in order to transfer into the College of Business Administration.
Bachelor of Business Administration Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.B.A. degree.

Freshman Year

Fall Semester
- ECON 110 Introductory Microeconomics
- ENGL 110 College Writing
- HIST 10 Western Traditions 100 or 101
- MATH 111 Math Analysis for Business I
- THST 1XX Lower Division THST

Spring Semester
- ECON 120 Introductory Macroeconomics
- ENGL ___ Literature (See Core Curriculum)
- HIST ___ HIST 152, 162, 172, 182, or 192
- MATH 112 Math Analysis for Business II
- PHIL 160 Philosophy of Human Nature

Sophomore Year

Fall Semester
- ACCT 211 Financial Accounting
- BLAW 205 Legal Environment of Business
- ECON 230 Introductory Statistics
- PSYC 100 General Psychology
- SCTC ___ Science (See Core Curriculum)

Spring Semester
- ACCT 212 Managerial Accounting
- CMST ___ Communications (See Core Curriculum)
- ISQM 275 Computers in Business
- Elective ___ Critical Arts (See Core Curriculum)
- Elective ___ Creative Arts (See Core Curriculum)

Junior Year

Fall Semester
- FNCE 325 Financial Planning and Control
- INBA 340 Intro to International Business
- MGMT355 Principles of Management and Organizational Behavior
- MRKT 365 Principles of Marketing
- THST 3XX Upper Division Theology

Spring Semester
- AMCS ___ American Cultures (3 s.h.)
- ISQM 370 Management Info Systems
- ISQM 377 Production Operations Systems
- MGMT335 Human Resources Management
- PHIL 320-330 Ethics-related Course

Senior Year

Fall Semester
- MGMT405 Business as an Institution in Society
- Elective ___ Applied Concentration Course (Advanced Business Elective)
- Elective ___ Non-Business Elective (3 semester hours)
- Elective ___ Free Elective (3 semester hours)

Spring Semester
- MGMT409 Management Policy
- Elective ___ Applied Concentration Course (Advanced Business Elective)
- Elective ___ Non-Business Elective (3 semester hours)
- Elective ___ Free Elective (3 semester hours)
- Elective ___ Free Elective (3 semester hours)

Business Administration Minor Requirements

The minor in Business Administration is open to non-Business majors only. (Business Administration majors must take all courses required for the minor in order to complete the Business major.) Courses required for the Business minor include ACCT 211, ECON 110 (or 100), MRKT 365, and MGMT 355. Two additional courses must be taken at the upper division level (300s-400s). Upper division courses may only be transferred from AACSB-accredited institutions. A minimum cumulative GPA of C (2.0) must be earned in the minor area.
Hispanic Business Studies Minor

In recognition of the growing number of Spanish-speaking people in the United States and the world, as well as the potential business opportunities they represent, the College of Business Administration offers a minor in Hispanic Business Studies. This minor requires that three of the courses be in Spanish language and three in Hispanic culture. The courses in this minor are selected in consultation with the Associate Dean of Business Administration. This minor is available to Business Administration and Accounting majors only. A minimum cumulative GPA of C (2.0) must be earned in the minor area.

Travel and Tourism Management Minor

Selected courses in the Program in Travel and Tourism are available as a minor for non-business students only.

The Travel and Tourism Management minor includes one of the following two courses: ECON 100 or 110; each of the following four courses described previously: TOUR 280, 282, 382, and 383; three of the fourteen elective courses listed previously; and at least 2 internships (TOUR 381).

Beta Gamma Sigma Honor Society

Beta Gamma Sigma is the honor society for students enrolled in business and management programs accredited by AACSB International—the Association to Advance Collegiate Schools of Business. Election to lifetime membership in Beta Gamma Sigma is the highest honor a business student can achieve. Juniors in the top 7%, seniors in the top 10%, and MBA students in the top 20% of their class may be invited to membership.

Beta Gamma Sigma membership provides recognition for a lifetime. With alumni chapters in major metropolitan areas across the United States, the BGS Career Central job board and the BetaLink on-line membership community, those recognized for their academic achievements at Loyola Marymount University can continue an active relationship with Beta Gamma Sigma long after graduation. This lifelong commitment to its members’ academic and professional success is defined in the Society’s mission: to encourage and honor academic achievement in the study of business and personal and professional excellence in the practice of business.

Bachelor of Science in Accounting Curriculum

The first two years of the program are identical to the Bachelor of Business Administration Curriculum. All 300- and 400-level accounting courses must be taken in residence at Loyola Marymount University.

Junior Year

Fall Semester
ACCT 311 Intermediate Accounting I
ACCT 314 Accounting Info. Systems
AMCS ___ American Cultures (3 s.h.)
FNCE 325 Financial Planning and Control
MRKT 365 Principles of Marketing

Spring Semester
ACCT 312 Intermediate Accounting II
ACCT 313 Cost Accounting
ISQM 377 Production Operations Systems
MGMT355 Principles of Management and Organizational Behavior
THST 3XX Upper Division Theology

Senior Year

Fall Semester
ACCT 411 Advanced Accounting
ACCT 416 Auditing, Assurance, and Attestation
INBA 340 Intro to International Business
MGMT405 Business as an Institution in Society
PHIL 320-330 Ethics-related Course

Spring Semester
ACCT 412 Income Tax Accounting
BLAW 301 Business Law Applications and Cases
MGMT409 Management Policy
Elective ___ Non-Business Elective (3 s.h.)
Elective ___ Non-Business Elective (3 s.h.)
Academic Plan

Accounting majors are encouraged, but not required, to include 150 semester hours of study in their academic planning process. The 150 semester hours of study is now required to practice public accounting in most states and for Pathway Two in the State of California. Their plan might include undertaking minors and/or an additional major or pursuing graduate studies. Students are encouraged to discuss with the Associate Dean and/or their Accounting academic advisor various possible tracks to earn the 150 semester hours.

Accounting Minor Requirements

ACCT 211, 212, and at least three of the following courses: ACCT 311, 312, 313, and 412. All upper division Accounting courses must be taken in residence. A minimum cumulative GPA of C (2.0) must be earned in the minor area.
Accounting

Faculty:
Chairperson: Mahmoud Nourayi
Professors: J. Ross Bengel, Alan Cherry, Frank Daroca, George Dasaro, Alan Falcon, Lawrence Kalbers (R. Chad Dreier Chair in Accounting), Mahmoud Nourayi
Associate Professors: Sean Chen, Patricia Douglas
Assistant Professor: Sudha Krishnan

Objectives:
The Bachelor of Science in Accounting degree program is designed to prepare students for a career in public, corporate, or governmental accounting. Students will learn the basic definitions, concepts, and techniques of accounting, as well as the role accounting plays in society.

Major Requirements:
Lower Division Requirements:
ACCT 211, 212; BLAW 205; ECON 110, 120, 230; ISQM 275; MATH 111, 112.

Upper Division Requirements:
ACCT 311, 312, 313, 314, 411, 412, 416; BLAW 301; FNCE 325; INBA 340; ISQM 377; MGMT 355, 405, 409; MRKT 365. All upper division accounting courses must be taken in residence at LMU. A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

For purposes of meeting the requirements for the B.S.A. degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in the following Accounting major courses: 311, 312, 313, 314, 411, 412, and 416.

ACCT 211
Financial Accounting
3 Semester Hours
This is the first course in a two-accounting-course sequence that is required for all business majors and business minors. This course introduces the student to 1) the role of accounting in business and society, 2) the basic concepts and techniques of financial accounting, and 3) the use of financial statements for decision-making purposes. Topics covered include a summary of the accounting cycle, analyzing and recording transactions, accounting valuation and allocation practices, preparation, interpretation, and analysis of financial statements.

ACCT 212
Managerial Accounting
3 Semester Hours
This is the second in a two-semester sequence in accounting required of all business majors and is a prerequisite to all other accounting courses. Building on the basic understanding of accounting systems developed in ACCT 211, managerial accounting introduces concepts of cost behavior and analysis, as well as techniques for using operational and financial information within the business firm for decision-making, planning, and control.
Prerequisite: ACCT 211.

ACCT 311
Intermediate Accounting I
4 Semester Hours
This course begins the in-depth study of financial accounting and reporting. Topics covered include the environment of the standard setting process for financial accounting and reporting, the conceptual framework, accounting cycle procedures, financial statement preparation and financial disclosures, basic ratio analysis, and accounting standards and procedures for cash, notes and accounts receivable, and inventories. Uses and limitations of the balance sheet and the income statement are studied. Researching accounting issues through the use of a database and accounting websites are a course requirement.
Prerequisites: ACCT 212 and ISQM 275.
ACCT 312
Intermediate Accounting II
4 Semester Hours
This course continues the in-depth study of financial accounting and reporting begun in ACCT 311. The conceptual and procedural aspects of some of the most complex and controversial topics in financial accounting are studied. Topics include the accounting for property, plant, and equipment, intangible assets, investments, long-term debt, derivatives, leases, deferred taxes, stock options, error correction, and the statement of cash flows. Coverage of these topics includes an historical perspective, learning the current standards under generally accepted accounting principles, awareness of the flaws and limitations in current practice, and possible future directions.

Prerequisite: ACCT 311 with a minimum grade of C (2.0).

ACCT 313
Cost Accounting
4 Semester Hours
Continuing the study of the managerial uses of cost data begun in ACCT 212. The procedural aspects will be considered as they relate to ACCT 212 concepts. Allocation approaches will be discussed. The conceptual aspect will be enhanced to include resource management and performance evaluation.

Prerequisites: ACCT 212 and ISQM 275.

ACCT 314
Accounting Information Systems
3 Semester Hours
This course introduces business processes utilizing transaction processing cycles and accounting-based information technology (IT) such as e-commerce, electronic data processing, and continuous auditing. The course also stresses the design, development, implementation, and auditing of accounting information systems.

Prerequisites: ACCT 212 and ISQM 275.

ACCT 411
Financial Accounting
4 Semester Hours
This course completes the undergraduate study of financial accounting and reporting. An emphasis is placed on consolidated financial statements. Additional topics covered include foreign currency transactions, translation of the financial statements of foreign entities, governmental accounting for local and state governments, and accounting and reporting of private not-for-profit organizations.

Prerequisites: ACCT 312 with a minimum grade of C-(1.7) and 314.

ACCT 412
Federal Income Taxation
4 Semester Hours
A comprehensive study of federal tax laws and administration with emphasis on the taxation of individuals. In addition, application of the components of the federal income tax formulas for partnerships, corporations, and other business entities will be examined.

Prerequisite: ACCT 311.

ACCT 416
Auditing, Assurance, and Attestation
4 Semester Hours
The study of the methodology used by public accountants to obtain and evaluate evidence regarding assertions concerning financial statements and internal controls over financial reporting. Ethical and legal aspects of the auditing profession are examined with special reference to ramifications of the Sarbanes-Oxley Act.

Prerequisites: ACCT 312 with a minimum grade of C-(1.7), 313, 314; ECON 230.

Accounting majors only, except by permission of instructor.
ACCT 418
Fraud Examination
3 Semester Hours

An introductory course designed for business managers and those beginning careers in accounting and auditing. The course stresses the nature of fraud, its litigation, approaches to detecting and preventing fraud, fraud inquiry methods, and reports issued by fraud examiners. Specific topics covered include: financial statement fraud, asset conversion frauds, computer frauds, and bankruptcy frauds. The course advocates a more careful and skeptical view of financial transactions and information.

Prerequisite: ACCT 311.
Finance, Computer Information Systems and Operations Management

Faculty:
Chairperson: Richard J. Perle
Associate Professors: Dolphy Abraham, Allen Gray, Charles J. Higgins, Chun I. Lee, Linda A. Leon, Kala Chand Seal
Assistant Professors: Susan Elkinawy, Robbie Nakatsu, Ying Sai

Objectives:
The Bachelor of Business Administration degree with an emphasis on finance prepares students for careers in the private and public sectors. Students develop skills in the application of concepts and techniques essential to financial planning, investments, and corporate planning.

The computer information systems and operations management emphasis involves the application of computers to meet the information needs of organizations. It prepares students to use modern information technology to solve business problems at the operational, technical, and strategic levels.

Finance

FNCE 325
Financial Planning and Control
3 Semester Hours
Topics include structure and financial problems of business enterprises; methods and instruments available for promoting, financing, recapitalizing, and reorganizing business enterprises; and social control of security issues and exchanges. In addition, time value of money, risk and return trade-offs, security valuation, and working capital management will be studied.
Prerequisites: ACCT 212; ECON 110, 120, 230; MATH 112.

FNCE 381
Internship
1 Semester Hour
The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student's major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

FNCE 412
Income Tax Accounting
3 Semester Hours
A practical guide for the professional manager and the entrepreneur to help them understand federal tax laws with emphasis on tax considerations in entrepreneurial and strategic planning.

FNCE 426
Investments
3 Semester Hours
Topics to be discussed include sources of, and demand for, investment capital; determination of investment policy and current procedures for the analysis of securities will be covered. Financial instruments examined include futures contracts, options, and convertibles.
Prerequisite: FNCE 325.

Computer Information Systems and Operations Management

ISQM 275
Computers in Business
3 Semester Hours

An introduction to computers and related technologies, including basic computer concepts and terminology and hands-on experience in use of spreadsheets, programming language, and database applications. In addition, an introduction to the role of IS in business organizations will be discussed.

Prerequisite: MATH 101, 111, or 112, or consent of instructor.

ISQM 370
Management Information Systems
3 Semester Hours

This course stresses the role of managers in the analysis, design, development, implementation, maintenance, and control of information systems as shared corporate resources. This course also stresses the critical role of IS in business organizations.

Accounting majors should substitute ACCT 314.

Prerequisite: ISQM 275.

ISQM 377
Production Operations Analysis
3 Semester Hours

This course will introduce students to decision making; forecasting, capacity, layout, aggregate, and material planning; inventory; scheduling; simulation and quality assurance; with computer applications.

Prerequisites: ECON 110, 230; ISQM 275; MATH 112.

ISQM 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student’s major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

ISQM 471
Database Management Systems
3 Semester Hours

This course provides an introduction to the concepts of database systems. Topics to be covered include technical and managerial issues involved in the analysis and design of databases. The ER model and logical data models such as the relational, network, and hierarchical are discussed. Concepts of object-oriented and distributed databases are also discussed.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

ISQM 472
Object Oriented Systems Analysis and Design
3 Semester Hours

A rigorous approach to information analysis essential to information systems design. Emphasizes the formalization of the information systems design process and explores relevant state-of-the-art techniques.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

ISQM 473
Data Communications and Networks
3 Semester Hours

An introduction to the use of data communications and other automation systems in the business environment, including the study of local and wide area networks, voice and electronic mail, video conferencing, and other automation tools in support of management.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

ISQM 474
Management Support Systems
3 Semester Hours

Examines the concepts and techniques associated with decision support systems, executive information systems, and expert systems. The course focuses on the specification, design, and implementation of DSS, EIS, and ES in organizations for solving real-world business problems.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.
ISQM 476
PC-Based Decision Support Modeling
3 Semester Hours

Explores the potential of personal computer spreadsheet models as a medium for providing strategic information to managers. Emphasizes how database modeling, risk analysis, LP, and forecasting can be performed and integrated in the spreadsheet environment.

Prerequisite: ISQM 377 or consent of instructor.

ISQM 477
Total Quality Management
3 Semester Hours

Reviews the contributions of notable professionals in the TQM movement: Deming, Juran, Crosby and Taguchi. Tools for planning and improving quality are examined and demonstrated. Finally, TQM procedures such as SPC and D of E are studied. Software packages are employed. Relevant statistical methods will be reviewed.

Prerequisite: ISQM 377 or consent of instructor.

ISQM 478
Electronic Business
3 Semester Hours

A focused study of how to plan, analyze, design, develop, and implement information systems to support business activity via electronic mediums such as the Internet. Also includes an assessment of current business and technology factors that impact such business activity.

Prerequisite: ACCT 314 or ISQM 370.

ISQM 498
Special Studies
1-3 Semester Hours

ISQM 499
Independent Studies
1-3 Semester Hours
Management

Faculty:
Chairperson: Edmund Gray
Professors: Jeffrey Gale, Edmund Gray, George Hess, Fred Kiesner, David Mathison, Yongsun Paik, Peter Ring, H. Daniel Stage, Charles Vance, John Wholihan, Anatoly Zhuplev
Associate Professors: Ellen Ensher, Cathleen McGrath
Assistant Professors: Don G. Chen, David Choi

Objectives:
Management is planning, organizing, leading, and controlling the activities necessary to successfully run an organization. In studying management, the student will focus on the practical skills, ethical issues, and management theory necessary to succeed in our diverse global economy. The Department offers, essentially, two types of courses: general knowledge courses and specialized courses. General knowledge courses are required of all business majors. The specialized courses, conversely, are elected by majors and minors who wish to gain specialized training in specific areas of management.

MGMT 101
Your Future in Business
1 Semester Hour
Examines the major business disciplines and exciting career opportunities in today's organizations—large and small, profit and non-profit, domestic and global. This course also provides a valuable introduction to important skills and campus resources that contribute to success, both now and in the future.

Open to all majors.

MGMT 335
Human Resource Management
3 Semester Hours
Examines critical issues and concepts for managing human resources in organizations, including planning, staffing, training, performance evaluation, compensation, discipline, labor relations, and employment law. Special attention is paid to career development.

MGMT 355
Principles of Management and Organizational Behavior
3 Semester Hours
Provides a foundation of important concepts and principles for managing organizations effectively by understanding how groups and individuals function within organizations. The critical functions of planning, organizing, directing, and controlling and basic concepts of organizational behavior will also be examined.

MGMT 381
Internship
1 Semester Hour
The objective of this one-semester-hour course is to help students achieve a worthwhile learning experience relevant to their major program of study or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

MGMT 405
Business as an Institution in Society
3 Semester Hours
A practical course that focuses on the social, economic, and political implications of modern business in society. Social responsibilities and ethical problems faced by practicing managers are stressed.

Must be taken in residence at LMU.

MGMT 409
Management Policy
3 Semester Hours
An integrating course dealing with the problems of general management, using cases, simulations, and field study for analysis and decision-making practice. Issues related to business and corporate-level strategies will be stressed.

Must be taken in residence at LMU with senior standing
Business Administration and Accounting majors only.
Prerequisites: FNCE 325, ISQM 377, MGMT 355, MRKT 365.

MGMT 412
Tax Law and Planning
3 Semester Hours
A practical guide for the professional manager and the entrepreneur to help them understand federal tax laws with emphasis on tax considerations in entrepreneurial and strategic planning.

# International Business Studies

**INBA 340**  
**Introduction to International Business**  
3 Semester Hours

This course will introduce students to the international business environments: political, economic, financial, and socio-cultural. As the global economy becomes closely integrated, the need for understanding its driving forces as well as its impacts on the domestic economy becomes critical. To help students prepare for this challenge, areas such as international trade and investment policies, cross-cultural differences, foreign exchange market, and business strategies in manufacturing, marketing, and human resources will be examined.

**INBA 381**  
**Internship**  
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience which is relevant to the program of study in the student’s major or area of emphasis. The internship, conducted with an off-campus operating organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

**INBA 440**  
**International Management**  
3 Semester Hours

This course will examine various managerial issues facing multinational companies operating in international business environments. Building upon the comprehensive understanding of the global economy, students will study various factors that affect the success of global business. These include the extent of globalization strategy, organization structure, mode of entry and control, managing government intervention, human resource management practices, ethics, and social responsibility.

Marketing and Business Law

Faculty:
Co-Chairperson: Renee Florsheim
Co-Chairperson: Arthur Gross-Schaefer
Professors: Arthur Gross-Schaefer, Gary P. Sibeck, Robert D. Winsor
Associate Professors: Renee Florsheim, Ralph L. Quiñones
Assistant Professors: Mark Bandsuch, S.J., Mark Leach, Annie Liu, Idil Yaveroglu

Objectives:
Marketing focuses on activities that facilitate exchange between individuals and organizations. It prepares students for careers in marketing research, sales and sales management, marketing management, retailing, and advertising—all of which can serve as good career paths leading to top-level positions in general management in all types of organizations and industries.

Business Law courses introduce students to the legal environment of business. A focus in Business Law will prepare students for the fundamental legal challenges that affect all aspects of business including: Marketing, Management, Human Resources Management, Accounting, International Business, and Entrepreneurship and will prepare them for careers in highly-regulated industries, contract-based positions (e.g., insurance), or those in which intellectual property considerations play a strong role (e.g., entertainment).

Business Law

BLAW 205
Legal Environment of Business
3 Semester Hours
The nature, formation, and application of the law; law and the business environment; law and society; the social significance of law; the judicial system. This core requirement of Business Administration majors will give students a solid introduction to the legal aspects of a business relationship.

BLAW 301
Business Law Applications and Cases
3 Semester Hours
The course offers a detailed study of the nature of contracts and their applications in business organizations, personal property, real property, and commercial transactions. A focus will be placed on interpreting the law through existing case studies.
Prerequisite: BLAW 205.

BLAW 381
Internship
1 Semester Hour
The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student's major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

BLAW 383
Legal Foundations of Travel and Tourism
3 Semester Hours
(See TOUR 383)

BLAW 404
Employment Law
3 Semester Hours
A survey course on general employment law concepts, this study will take a management perspective in understanding the legal interaction of the employer and the employee in the work environment. A focus will be placed on the evolution of employment law and current interpretations by related employment protection agencies.
Prerequisite: BLAW 205.

Marketing

**MRKT 365**
**Principles of Marketing**
3 Semester Hours

This course will introduce the role of marketing management in a market economy as well as in the modern organization. Students will be exposed to consumer-oriented managerial decisions regarding product planning, pricing structures, distribution channels, and promotional methods for a variety of products and services and in a range of organizational settings.

Prerequisite: ECON 100 or 110.

**MRKT 381**
**Internship**
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile employment experience as part of an overall program of study in Marketing. The internship, conducted with an off-campus organization and coordinated by a department faculty member, will develop marketing skills, assist the student in tying coursework to the workplace experience, and allow the student to realize and understand better what it is that (s)he is looking for in a career.

**MRKT 382**
**Marketing and Selling Travel and Tourism**
3 Semester Hours

Provides an in-depth examination of travel and tourism marketing from both the supplier and destination perspectives. Case studies are extensively utilized to discuss product development, pricing management, sales strategies, service practices, promotion methods, and distribution channels, both personal and electronic.

Prerequisite: MRKT 365.

**MRKT 445**
**International Marketing**
3 Semester Hours

This course will examine marketing principles and planning factors and techniques applied in a global environment. Students will develop an appreciation for the external forces which shape the international marketer's decisions and will learn about strategies used by international firms as they successfully enter and adapt to new cultures and nations.

Prerequisite: MRKT 365.

**MRKT 461**
**E-Commerce Marketing**
3 Semester Hours

This course introduces the student to e-Marketing, which refers to the use of the Internet and related technologies to adapt traditional marketing activities to suit the creation, offer, and exchange of products and services online. The focus will be on the use of emerging technologies and related ideas to enhance marketing outcomes.

Prerequisite: MRKT 365.

**MRKT 462**
**Perspectives on Consumption**
3 Semester Hours

This course examines the roles individuals play in society and the economy through the acts of shopping, consuming, discussing, displaying, and disposing of goods and services. In addition, the processes by which organizations conceptualize, reinforce, and exploit these roles in the marketing of goods and services will be examined.

Prerequisite: MRKT 365.

**MRKT 463**
**Entertainment Marketing**
3 Semester Hours

Marketing is an essential element in the commercial success of entertainment products in the world today. Los Angeles is the center of the world's entertainment industry. This course looks at product development, market research, distribution, and promotional methods used in the marketing of films, music, television, and new media products.

Prerequisite: MRKT 365.

**MRKT 464**
**International Supply Chain Management**
3 Semester Hours

A look at the front-end functions of marketing planning, logistical planning, business relationships, networking, and the marketing benefits of business collaboration inherent in the dynamic channels of distribution used in a global business environment. Note that this is the same course previously named "International Logistics."

Prerequisite: MRKT 365.
MRKT 465
Marketing Promotional Strategy
3 Semester Hours

The new term, Integrated Marketing Communications (IMC), is a recognition of the need for firms to coordinate their various promotional activities and expenditures. This course will cover advertising, public relations, sales promotions, and direct marketing techniques, and will allow students to develop overall promotional programs using elements of each of these vehicles as appropriate.

Prerequisite: MRKT 365.

MRKT 466
Sports Marketing
3 Semester Hours

A thorough examination of the expanding field of sports marketing, including team, event, personality, and facility marketing, sponsorship, and merchandising. Some prior familiarity with sport is highly recommended.

Prerequisite: MRKT 365.

MRKT 467
Marketing Research
3 Semester Hours

The application of both qualitative and quantitative research methodology to the solution of marketing questions. Students will study the role of marketing research and will be involved in the design, execution, analysis, and implementation of a complete research project.

Prerequisite: MRKT 365.

MRKT 469
Consumer Behavior
3 Semester Hours

This course is designed to refocus the student on the consumer as the object of marketing programs. Social science concepts (from psychology, sociology, anthropology, and economics) are used to examine influences on consumer behavior, as well as to study the consumer decision process itself. Emphasis will be put on how marketers use this knowledge to develop their overall strategies.

Prerequisite: MRKT 365.

MRKT 471
Retail Management
3 Semester Hours

This course examines various aspects of retailing. The focus is on analyzing situations faced by a variety of managers in the effective distribution of goods and services.

Prerequisite: MRKT 365.

MRKT 472
Sales Management
3 Semester Hours

An examination of the sales function, encompassing both personal selling and sales management principles. This course emphasizes development of professional sales techniques as well as creation of sales objectives and strategies, selection, training, compensation, and motivation of the sales force, and the use of technology in the contemporary sales function.

Prerequisite: MRKT 365.

MRKT 473
Marketing Law
3 Semester Hours

Focuses on the various legal constraints, problems, and ramifications which should be recognized and addressed by marketers during decision-making processes. This will explore the legal interaction of the marketer and the customer in the development of product, promotion, pricing, and distribution plans.

Prerequisites: BLAW 205 and MRKT 365.

MRKT 474
Competitive Strategy
3 Semester Hours

This course provides an in-depth analysis of competition and competitive strategy from both theoretical and applied perspectives. Competitive models, strategic metaphors, game-theory, product positioning, and competitive pricing strategy are explored in detail.

Prerequisite: MRKT 365.

**MRKT 475 Marketing Planning**

Three Semester Hours

Even the most experienced marketer would run into difficulties without a plan. A comprehensive marketing plan is essential for obtaining funding of an enterprise as well as for coordinating marketing efforts for that organization. This course encompasses a study of all of the elements of a successful marketing plan and entails the development of a finished plan by the students.

Prerequisite: MRKT 365.

**MRKT 476 Entrepreneurial and Small Business Marketing**

Three Semester Hours

Whereas traditional marketing courses often assume that marketers are operating in a predictable environment with generous budgets, this course examines shoestring methods to be used under conditions of considerable uncertainty.

Prerequisite: MRKT 365.

**MRKT 477 Brand Management**

Three Semester Hours

The objective of this course is to learn the decision-making processes used by product or brand managers with primary responsibility for the market success of the company’s products and services, including environmental scanning and coordination of marketing activities for the firm’s offerings.

Prerequisite: MRKT 365.

**MRKT 478 Business to Business Marketing**

Three Semester Hours

The purpose of this course is to introduce students to business-to-business marketing by identifying the distinctive characteristics of the business market, exploring the way in which organizations make buying decisions, and isolating the requirements for marketing strategy success. The course also provides a vehicle for profiling leading business marketing firms and their marketing practices.

**MRKT 498 Special Studies**

One to Three Semester Hours

**MRKT 499 Independent Studies**

One to Three Semester Hours
Travel and Tourism

Director:
Alan K. Hogenauer

Faculty:
Associate Professor: Alan K. Hogenauer
Adjunct Professor: David Marchese

Objectives:
Tourism is considered to be the largest industry in the world. It is also one of the fastest growing industries when all of its related business are included. Employment within this industry in the United States is estimated at over five million people (Bureau of Economic Analysis, 2004).

The mission of the Center for Travel and Tourism in the College of Business Administration is to:

- Prepare graduates for leadership and professional positions in the tourism-travel industry;
- Provide service to the global economy by providing well-qualified, ethically sensitive graduates; and
- Generate new knowledge in the industry through research.

The courses are designed to build on the Business core curriculum, with advanced courses covering specific industry technologies, business practices, and operations. Students will be advised to consider related courses in the social sciences and modern languages to complement their studies in this area. The Travel and Tourism Management concentration comprises 18 semester hours, including two approved internships.

TOUR 280
Introduction to Travel and Tourism
2 Semester Hours

Provides a comprehensive overview of the global travel and tourism industry. Examines transportation (air, rail, cruise, and road), accommodations, attractions, and intermediaries (tour packagers, travel agencies, visitor bureaus, government tourist offices, travel literature and media) and their interaction. Briefly discusses destinations in the context of the above.

TOUR 282
Global Tourism Destinations
2 Semester Hours

Provides a comprehensive overview of world tourism destinations, focusing on their respective attractions, target markets, marketing techniques, and prospects. Course covers all seven continents.

TOUR 381
Travel and Tourism Internship
1 Semester Hour (at least 2 internships required)

Provides a valuable learning experience relevant to the student’s desired emphasis within the industry. Offered as a tri-partite arrangement that involves the student, a faculty mentor, and the course instructor, the internship provides unique, real-world work experience and networking opportunities.

TOUR 382
Marketing and Selling Travel and Tourism
3 Semester Hours

Provides an in-depth examination of travel and tourism marketing from both the supplier and destination perspectives. Case studies are extensively utilized to discuss product development, pricing management, sales strategies, service practices, promotion methods, and distribution channels, both personal and electronic.
Prerequisite: MRKT 365.

TOUR 383
Legal Foundations of Travel and Tourism
3 Semester Hours

Encompasses a comprehensive review of legal and regulatory issues in travel and tourism, including government regulation, the deregulation trend, unilateral/bilateral/multilateral agreements, and the legal liability of suppliers and intermediaries.
Prerequisite: BLAW 205.

TOUR 384
Financial Management in Travel and Tourism
3 Semester Hours

Examines in detail financial planning for selected segments of the industry. Covers both capital and operating aspects, including pricing, yield management, bidding, rebates, service fees, commissions, public and private capital programs, and short- and long-term investment strategies.
Prerequisite: FNCE 325.

Requires approval of the director.
College of Communication and Fine Arts

Administration:
Dean: Barbara J. Busse
Associate Dean: Suzanne Frentz

Mission of the College:
Grounded in and sustained by a significant commitment to the liberal arts, the College of Communication and Fine Arts aims to promote the Mission of Loyola Marymount University in the following ways:

Foster the encouragement of learning in all of our academic programs
Contribute in a distinctive way to the education of the whole person
Create in our own community and in the larger community beyond LMU the individual and collective resources and orientations that will allow us to better serve faith and promote justice

CFA’s programs and curricula create an environment conducive to understanding the complex phenomena of art and art making as well as human communication in all manner of forms. Driven by a passionate commitment to study, understand, and experience human creative expression requires that we assist students and our various publics in adopting a critical and discerning orientation to all forms of human expression. We commit to develop the capacity to use human expression in ways that are life enhancing, promoting the common good and contributing to the full development of our students, faculty, staff, alumni, and those we serve beyond LMU.

Our undergraduate programs in Art and Art History, Communication Studies, Dance, Music, and Theatre Arts and our graduate program in Marital and Family Therapy foster deep inquiry into the processes and artifacts of human expression and their capacity to shape life’s experiences, meanings, and expectations. We are intrigued by the ways in which art and communication reveal human interiority in all its mysterious and complex variety. Ultimately, our shared objective is to create and sustain a learning community composed of individuals, each more fully alive, more capable of experiencing life in all its complexity, in order to assist all to live more meaningful and productive lives.

Application of General University Requirements
The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the College of Communication and Fine Arts.

Teacher Preparation Program
The College of Communication and Fine Arts offers a subject matter preparation program in art education specially designed to meet the State of California subject matter requirements for a secondary credential. The Bachelor of Arts degree with an emphasis in Art Education is designed to allow completion of the California Preliminary Single Subject (Secondary) credential in four years. This program is offered in conjunction with the School of Education. All students interested in teaching art at a secondary level should contact Teresa Lenihan as soon as possible and should also contact the School of Education to arrange a time to attend an Undergraduate Information Session.

College Curriculum
The curriculum of each department in the College of Communication and Fine Arts incorporates required courses in general education, major sequences, and elective courses which complement and enhance the student’s major field of concentration.

Core Curriculum for the Baccalaureate Degree in the College of Communication and Fine Arts

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.
College Writing
3 Semester Hours

Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking
3 Semester Hours

Course Selection:
Communication: Choose from CMST 100, 110, 130, or 140.

OR

Critical Thinking: Choose from CMST 206, PHIL 220.

Communication Studies majors must choose CMST 100 or 206.

Critical and Creative Arts
6 Semester Hours

Course Selection:
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FILM 210, 314, 315; INDA 100; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Creative Arts: Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); FILM 260; MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

Courses must be taken outside of the student's major program of study.

History
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection
Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Mathematics, Science and Technology
6 Semester Hours

Course Selection
All students take MATH 102, 103, and one other course in Science and Engineering. The MATH 102 course is designed to allow students to attain a level of mathematical literacy which will enable them to deal with the types of mathematical questions that they will encounter on a regular basis after they graduate.

Prerequisite: Demonstration of proficiency in mathematics by success in MATH 102 or a grade of C or better in MATH 111, 112, 120, 122, 131, or 306. The Mathematics Placement Examination is required before taking any of these courses.

The course in science and engineering introduces the student to the methodology used in that field of science or engineering. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Courses ordinarily recommended to students majoring outside the Frank R. Seaver College of Science and Engineering are those numbered 260-279 in each department within the College. Courses in this series are specifically designed for the non-major.
Choose from BIOL 260, 261, 262, 263, 264, 265, 271, 272, 275, 276; CHEM 260, 261, 262, 263, 264; CMSI 261; ELEC 260, 265; MECH 260, 270, 275; NTLS 260, 270; PHYS 271, 272. All other lower division courses (at least 3 semester hours) in the Frank R. Seaver College of Science and Engineering also satisfy this requirement.

Only one mathematics course will be credited toward the Mathematics, Science and Technology component of the Core.

**Philosophy**  
6 Semester Hours

**Course Selection**  
**Lower Division:**

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

**Upper Division:**

Choose one PHIL course from 320 through 330.

**Social Sciences**  
6 Semester Hours

Students must select one of the following options:

1. Two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. One course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

**Theological Studies**  
6 Semester Hours

**Course Selection**  
**Lower Division:**

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

**Upper Division:**

Choose from the 300-level series of THST courses only.

**Note: International/Global Studies**

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, 210, 220; DANC 281; FILM 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331. To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; HIST 172, 182; MUSC 303, 365; POLS 105; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

**Recommendations:**

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

**Business**

Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

**Computer Skills**

Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

**Foreign Language**

Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.
International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad office.

Total Program
120 semester hours are required for graduation with the following distribution:

a) a maximum of 36 upper division semester hours in any one department will be accepted toward the 120 semester hours requirement; and

b) at least 45 semester hours are required from upper division offerings.

Students should consult the Dean’s Office for specific policies applicable to the College of Communication and Fine Arts.

Individualized Study Program
Admission to the Individualized Study Program in Communication and Fine Arts requires:

1. a B (3.0) grade point average.

2. the submission of an Individualized Study Program form delineating courses and signed by the student’s advisor and the chairperson of the advisor’s department.

3. the submission by the advisor of a complete curriculum from an accredited college or university.

4. the signature of the Dean of the College.

All subsequent changes in the Individualized Study Program require points 2, 3, and 4 above.

Students registering for an Individualized Study Program are advised that their diploma and transcript will read “Individualized Study” and not the specific major they elect within that program.
Art and Art History

Faculty:
Chairperson: Rev. Michael Tang
Professors: Michael Brodsky, Rudolf Fleck, Teresa Muñoz, Rev. Michael Tang
Associate Professors: Jane M. Brucker, Katherine Harper
Assistant Professors: Garland P. Kirkpatrick, Dmitry Kmelnitsky, Teresa I. Lenihan

Objectives:
The philosophy of the Department rests on the premise that its students should receive a broad education which combines creativity and scholarly study. Two majors are offered, Studio Arts and Art History. The foremost objective is to prepare the student intellectually and professionally for careers in studio arts and art history.

Courses offered to undergraduate majors and non-majors stress the cultural value of the visual arts.

The Department is a fully accredited member of the National Association of Schools of Art and Design.

Semester Hours:
For studio classes, a semester hour of credit, one unit, represents three hours of work each week. In lecture and seminar courses, an hour of credit represents one hour each week in class and two hours of work outside of class.

Following the customary procedure of most colleges and universities, the Department of Art and Art History reserves the right to retain for a period of three years any work which a student has completed for course credit.

Art History Major
The major in Art History is designed to increase the student's understanding of the meaning and purpose of the arts, their historical development, their formal and expressive means, their role in society, and their relationship to other humanistic disciplines.

The Department of Art and Art History reserves the right to retain, display, use, and reproduce any student course work, including original work, a student has rendered or created for course credit; this material will be used solely for educational and University purposes, including without limitation for recruitment, display, and republication in University media and publications.

Major Requirements:

Lower Division Requirements:
12 semester hours of lower division courses: ARHS 200, 201, 202; ART 150 or 151.

Upper Division Requirements:
30 semester hours of upper division courses, including ARHS 449.
Recommended: Knowledge of at least one foreign language.
A minimum grade of C (2.0) must be obtained in each course included in the major requirements.

Minor Requirements:
18 semester hours:
ARHS 200, 201, 202; and 9 semester hours in upper division courses selected under the direction of an advisor in the department. Studio Arts majors who elect an Art History minor are required to take an additional 3 semester hours of upper division work for the total of 21 hours in the minor.
Recommended: ARHS 449.

</table>
Studio Arts Major

This program of study provides a broad foundation in fundamental techniques and concepts and permits each individual to experience the possibilities of creative expression and to develop an understanding of art as a key to cultural awareness. Students in Studio Arts are expected to engage in studio work in addition to scheduled class time. Most studios are open to enrolled students outside of class time on a 24-hour basis. At the end of the sophomore year, students are required to declare an Art Education, Fine Arts, Graphic Design, or Multimedia Arts Emphasis.

A minimum grade of C (2.0) must be obtained in each course included in the major requirements.

Art Education Emphasis

Students who seek graduation with an Art Education Emphasis and a teaching credential should ideally declare the Art Education Emphasis as a freshman. Students declaring the Art Education Emphasis are required to meet with the Art Education Coordinator and should also contact the School of Education to arrange a time to attend an Undergraduate Information Session.

Major Requirements

Core Requirements

Consult with the Art Education Coordinator for Core recommendations. HIST 162 or POLS 135 required for students pursuing a teaching credential and recommended for all Art Education Emphasis students.

Lower Division Requirements:

24 semester hours of lower division courses: ART 153, 160, 257, 260, 275, 278; ARHS 200, 201. (Note: ARHS 200 or 201 also satisfies Critical Arts Core, and ART 153 satisfies Creative Arts Core.

Upper Division Requirements:

27 semester hours of upper division courses: ART 351, 450, 496, and 12 units of upper division ART electives; ARHS 302, and an upper division non-Western Art History Elective (ARHS 320, 321, 420, 425, 428), or any non-Western ARHS 398 or 498 course.

ARHS 446
Museum/Gallery Internship II
3 Semester Hours
Advanced professional experience in a museum or gallery. Majors only.
Prerequisites: ARHS 445, senior standing, and consent of instructor in the semester prior to registration.
May be repeated for degree credit.

ARHS 447
LA Now
3 Semester Hours
Internationally recognized practicing artists, designers, critics, and curators talk about their work, ideas, practices, and processes.
Recommended: ARHS 202 or 419.

ARHS 449
Junior/Senior Seminar in Art History
3 Semester Hours
Examination of art historical problems and ideas, emphasizing the methodological and scholarly processes of art history.
Prerequisite: Consent of instructor.

ARHS 494
Curatorial Practices
3 Semester Hours
Study of the professional aspects of museum and gallery work including exhibition preparation, design, and the curatorial process.
Prerequisite: ARHS 202.

ARHS 498
Special Studies
3 Semester Hours

ARHS 499
Independent Studies
1-3 Semester Hours
Prerequisite: Senior standing.

Multimedia Arts Emphasis

Major Requirements

Lower Division Requirements:

21 semester hours of lower division courses: ART 160, 202, 230, 260; CMSI 182.

Students choose a concentration in Text, Image, Sound, or Motion, then choose both lower and upper division courses from within that same concentration. In consultation with an advisor, students may select an individualized option in Multimedia Arts Concentrations.

Text: ARHS 200, 201; ENGL 201, 202; SCWR 220.

Motion: ANIM 120, 220; DANC 160, 163; FILM 260; TVPD 241.

Upper Division Requirements:

33 semester hours of upper division courses: ART 363, 366, 367, 374, 382, 494; ARHS 340 or 360 or 419; CMSI 461, 462.

Choose two courses from one of the following concentrations: Text, Image, Sound, or Motion below. In consultation with an advisor, students may select an Individualized option in Multimedia Arts concentrations.

Text: ARHS 340, 345, 360; ART 360, 362, 368; CMST 301, 310; ENGL 311, 312; SCWR 320; THEA 400.

Image: ART 356, 360, 362, 365, 368, 380, 453 or 454, 481; FILM 366; TVPD 345, 346.

Sound: MUSC 303, 304, 316, 317, 318; RECA 367; THEA 312, 314.

Motion: ANIM 320, 330; DANC 381, 397; FILM 366; TVPD 345, 346.

Recommended Courses:

It is also recommended that the student take additional courses in Animation, Studio Arts, Art History, Communication Arts, and Computer Science.

### Minor Requirements:

- 18 semester hours;
- Art 153 or 160, and 15 semester hours of Studio Arts electives with at least 6 semester hours in upper division courses.

**Minor Requirements:**

- 18 semester hours;
- Art 153 or 160, and 15 semester hours of Studio Arts electives with at least 6 semester hours in upper division courses.

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor.
# Studio Arts

**ART 150**  
**Introduction to Studio Arts**  
*3 Semester Hours*  
Open to non-Studio Arts majors only.  
Exploration of the materials, techniques, and inspiration of the artist in the media of drawing, painting, printmaking, sculpture, and two- and three-dimensional design.

**ART 151**  
**Introduction to Drawing and Printmaking**  
*3 Semester Hours*  
Open to non-Studio Arts majors only.  
Development of basic drawing skills in various media and the exploration of printmaking techniques.

**ART 153**  
**Drawing I**  
*3 Semester Hours*  
An introduction to drawing and the development of visual awareness. Experimentation and exploration of technique developed through a variety of subject matter. Varied media, including pencil, charcoal, ink, and conte.

**ART 154**  
**Drawing II: Figure Drawing**  
*3 Semester Hours*  
Development of technique and principles used in Drawing I, ART 153, with emphasis placed on working from the figure and anatomy.  
Prerequisite: ART 153.

**ART 160**  
**Two-Dimensional Design**  
*3 Semester Hours*  
Examination of the basic elements of two-dimensional design emphasizing the conceptual process and utilizing various media and techniques.

**ART 200**  
**Figure Drawing Workshop I**  
*1 Semester Hour*  
A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.  
May be repeated once for degree credit.  
Prerequisites: ART 153 and 154, or consent of instructor.

**ART 201**  
**Figure Drawing Workshop II**  
*1 Semester Hour*  
Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.  
May be repeated once for degree credit.  
Prerequisites: ART 153 and 154, or consent of instructor.

**ART 250**  
**Visual Arts for the Elementary Teacher**  
*3 Semester Hours*  
Designed to develop the visual arts for the Liberal Studies student. Emphasizes media, techniques, art history, and studio art fundamentals. Students will complete a teaching portfolio. Participation in the ArtSmart Program is required.  
Liberal Studies majors only.

**ART 257**  
**Painting I**  
*3 Semester Hours*  
Study of basic theoretical methods and techniques as applied to both representation and abstraction. Acrylic paints will be utilized.  
Prerequisite: ART 153, 160, or consent of instructor.

**ART 260**  
**Computer Graphics I**  
*3 Semester Hours*  
Introduction to principles and practices of electronic imaging as they apply to graphics, art, and design.  
Recommended: ART 160.

**ART 275**  
**Three-Dimensional Design**  
*3 Semester Hours*  
Examination of the basic elements of three-dimensional design emphasizing the conceptual process and utilizing various media.  
Prerequisite: ART 160 or consent of instructor.

**ART 278**  
**Ceramics I**  
*3 Semester Hours*  
Basic techniques of hand building and throwing on the potter’s wheel integrated with aesthetic exploration through various projects.

**ART AND ART HISTORY**
ART 359  
Mural Painting  
3 Semester Hours  

Emphasis on student collaboration in the process and execution of large-scale paintings and public mural projects.  

May be repeated for degree credit with consent of instructor.

ART 360  
Graphic Design I  
3 Semester Hours  
The application of the basic principles of graphic design and visual problem solving in the creation of effective visual communications. Projects emphasize the uses of metaphor, typography, symbol, and image-making in communication design.

Prerequisites: ART 160, 260, and 368; recommended: ART 369; Junior standing.

ART 361  
Product and Packaging Design  
3 Semester Hours  
The application of design principles and marketing concepts in the development of products and packaging.

Prerequisites: ART 160, 260, 360, and 368.

ART 362  
Advertising Design  
3 Semester Hours  
The application of design principles and marketing concepts in the development of advertising campaigns and collateral materials.

May be repeated for degree credit.

Prerequisites: ART 160 and 260; Junior standing.

ART 363  
3D Digital Toolbox  
3 Semester Hours  
Survey of concepts and processes utilized in the production of artworks with 3D digital software applications. Study of computer techniques integrating digital processing into the creative process.

May be repeated for degree credit.

Prerequisites: ART 160 and 260.

ART 364  
Digital Illustration  
3 Semester Hours  
The integration of illustration practices, design principles, and conceptual problem solving procedures in the creation of illustrations for editorial designs, book jackets, and advertising. Illustrations are computer assisted or computer generated in black and white and in color.

May be repeated for degree credit.

Prerequisites: ART 153, 160, and 260.

ART 365  
Illustration  
3 Semester Hours  
The integration of illustration practices, design principles, and conceptual problem-solving procedures in the creation of illustrations for editorial designs, book jackets, and advertising art. Illustrations are conceived of by conventional means.

May be repeated for degree credit.

Prerequisites: ART 153, 160, and 260; Junior standing.

ART 366  
Multimedia Computer Arts  
3 Semester Hours  
Explorations of interactive computer multimedia technologies with emphasis on the development of personal artistic expression.

May be repeated twice for degree credit.

Prerequisite: ART 260.

ART 367  
Online Computer Arts  
3 Semester Hours  
An emphasis on a working expertise in graphics, art, design, and aesthetics as they apply to interactive web authoring. This course will also utilize interactive linkages to a larger virtual arts community.

May be repeated for degree credit.

Prerequisites: ART 160 and 260.
ART 368
Typeface I
3 Semester Hours

An introduction to the basic principles of typography in both the historical and contemporary practice of communication design. Projects emphasize how type works as a compositional element in the creation of effective visual communication.

Prerequisites: ART 160 and 260; recommended: ART 369; Junior standing.

ART 369
Design and Pre-press
3 Semester Hours

The integration of design, pre-press planning, and problem solving practices.

Prerequisites: ART 160 and 260; Junior standing.

ART 370
Beginning Wheel Throwing
3 Semester Hours

Introduction to throwing, glazing, and firing at several temperature levels with the aim of developing skills to enhance the student's artistic voice in the contemporary clay context.

ART 371
Advanced Wheel Throwing
1-3 Semester Hours

Advanced work with wheel thrown forms with the aim of developing a thematic body of creative work in clay.

May be repeated for degree credit.

Prerequisite: ART 370.

ART 372
Jewelry I
3 Semester Hours

A basic jewelry course with an emphasis on creative design and various techniques including fabrication, soldering, forging, wax working, and casting. Also includes bezel stone setting.

ART 373
Jewelry II
3 Semester Hours

Advanced jewelry making with an emphasis on creative design and exploration of various techniques such as fabrication, casting, rolling mill texturing, hydraulic press forming, enameling processes, and the setting of faceted stones. Also an introduction to larger scale, sculptural design.

Prerequisite: ART 372.

ART 374
Motion Graphics
3 Semester Hours

Advanced multimedia-oriented design concepts of the "on-screen" motion graphics and interactive presentations of images, text, motion, and sound.

May be repeated for degree credit.

Prerequisites: ART 160 and 260.

ART 375
Figure Sculpture
3 Semester Hours

Modeling of the human figure with an emphasis on anatomy, leading to the extension of the figure as image.

May be repeated for degree credit with consent of instructor.

ART 376
Sculpture Workshop
3 Semester Hours

Advanced exploration of sculptural problems, techniques, and concepts using a variety of materials.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 275 or consent of instructor.

ART 378
Drawing and Clay
3 Semester Hours

Emphasis on the surface treatment of ceramic work incorporating drawing, painting, and printmaking techniques.

May be repeated for degree credit with consent of instructor.
ART 380
Photography II
3 Semester Hours

Exploration of advanced concepts of photography as applied to the development of personal expression. Topics of study change each semester.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 280.

ART 382
Digital Photography
3 Semester Hours

An emphasis on a working expertise in digital imaging, technologies utilizing Adobe Photoshop for image creation, manipulation, with input and output to various media.

May be repeated for degree credit.

Prerequisite: ART 260 or consent of instructor; recommended: ART 280.

ART 385
Printmaking I
3 Semester Hours

Introduction to the basic relief printmaking and transfer processes using monoprinting, linoleum blocks, woodblocks, and collagraphs. Emphasis on black and white with an introduction to multicolor printing.

ART 386
Etching Printmaking
3 Semester Hours

Process using etching, aquatint, and other incising techniques on metal plates. Emphasis on black and white images with an introduction to multicolor printing.

May be repeated for degree credit.

Recommended: ART 153.

ART 387
Silkscreen Printmaking
3 Semester Hours

Introduction to the use of serigraphy to create posters and fine art prints. The emphasis is on the development of personal expression in the creation of multicolor prints.

May be repeated for degree credit.

Recommended: ART 160 and 260.

ART 388
T-Shirt Silkscreening
3 Semester Hours

Introduction to the use of silkscreening to communicate a message. Basic screening techniques will be used, including using traditional hand-cut and painterly stencils, and photographic and computer-generated images. Emphasis will be on producing multicolor prints for self-promotion; events; and political, cultural, and humanitarian causes.

May be repeated for degree credit.

ART 400
Figure Workshop I
1 Semester Hour

A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 401
Figure Workshop II
1 Semester Hour

Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 450
Seminar in Art Education
3 Semester Hours

Examination of current issues and principles of art education through research, discussions, and guest speakers. Includes principles of aesthetic development, creative lesson planning, and community experience project.

Prerequisite: Art Education Emphasis or consent of instructor.
ART 453
Drawing III: Formal Issues
3 Semester Hours

This course explores traditional and contemporary issues in drawing. Using a variety of media, content, space, color, value, and form are examined.

May be repeated for degree credit with consent of instructor.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 454
Drawing IV: Figure Composition
3 Semester Hours

This course promotes concept development and psychological possibilities inherent in the human form. Using a variety of media, it explores anatomical structure and imaginative composition.

May be repeated for degree credit with consent of instructor.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 460
Graphic Design II
3 Semester Hours

Advanced problems in graphic design. Projects emphasize a thorough understanding of both the principles of graphic design and typography as they are applied to visual communications.

Prerequisites: ART 160, 260, 360, 368, and 369; Senior standing.

ART 468
Typography II
3 Semester Hours

Typography II extends the fundamental concepts introduced in Typography I. Projects emphasize the advanced application of typographic design principles and visual problem-solving methods in the design of print and multimedia.

Prerequisites: ART 160, 260, 360, and 368; Senior standing.

ART 478
Ceramics Workshop
3 Semester Hours

Design problems with ceramic materials incorporating wheel-thrown and hand building techniques. Development of a personal style in addition to advanced firing techniques.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 278 or consent of instructor.

ART 481
Color Photography
3 Semester Hours

Introduction to general color principles and lab procedures. Emphasis on personal expression.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 280.

ART 485
Advanced Printmaking
1-3 Semester Hours

Continuation and more advanced work in relief, etching, or silkscreen techniques.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 385 or 386 or 387.

ART 494
Multimedia Internship
3 Semester Hours

Professional experience in multimedia.

Prerequisites: Art major and consent of instructor.

ART 495
Advanced Studio Studies
1-3 Semester Hours

Pre-professional directed study in studio art.

May be repeated for degree credit three times.

Prerequisite: Permission of instructor and Department Chairperson.
ART 496  
**Senior Seminar in Studio Arts**  
*3 Semester Hours*  
Examines the current state of the arts and various career options through research, discussions, and guest speakers. Includes development and presentation of a professional portfolio and resume.

Prerequisites: Art major or consent of instructor; Senior standing.

ART 497  
**Senior Thesis**  
*1-3 Semester Hours*  
This course continues for Fine Arts emphasis students the professional development experience of ART 496, Senior Seminar. The curriculum includes all aspects of exhibition design, promotion, and artwork presentation.

Required for Fine Arts Emphasis majors.

Prerequisites: ART 496 and Art Major Fine Arts Emphasis, or consent of instructor.

ART 498  
**Special Studies**  
*1-3 Semester Hours*

ART 499  
**Independent Studies**  
*1-3 Semester Hours*  
Prerequisite: Senior standing.
Communication Studies

Faculty:
Acting Chairperson: Dean Scheibel
Professor: Dean Scheibel
Associate Professors: Barbara J. Busse, Jay B. Busse, Steven Combs
Assistant Professors: Paige Pettyjohn Edley, Michele Hammers, Annika Hylmó, Jonghwa Lee, Nina Maria Lozano-Reich, Kyra Pearson

Objectives:
We study communication as a practical and theoretical art form, one that is integral to understanding and contributing to the social world. Our major emphasizes the construction and critical analysis of a variety of communication forms.

Communication Studies courses focus on the history, theory, and criticism of all forms of human communication, concentrating on people as symbol users. Coursework promotes the study and application of communication theory and practice. The major program provides an emphasis in rhetoric and public address and organizational communication, with additional coursework in interpersonal communication and social influence.

Communication Studies majors learn advanced oral and written communication skills and acquire internship opportunities that provide them with valuable experiences in their future careers. Students are prepared to work in the business world, in nonprofit organizations, and in fields such as education, government, and media. They also are prepared for further study in graduate and professional programs in communication, law, and business.

Major Requirements: (42 semester hours)

Lower Division Requirements:
12 semester hours of lower division: CMST 130, 170, and 203 and 204 (both completed with a grade of C [2.0] or better). CMST 100 or 206 must be taken to fulfill the communication skills requirement in the University core.

Upper Division Requirements:
30 semester hours of upper division: Satisfactory completion of CMST 351, 352, 451, 452 (all four completed with a grade of C [2.0] or better), and 495. Five courses of “communication applications” selected from CMST 330, 335, 336, 375, 376, 385, 386, 387, 393, or 490.

Minor Requirements: (18 semester hours)

Lower Division Requirements:
6 semester hours of lower division: CMST 203 and 204 (both completed with a grade of C [2.0] or better).

Upper Division Requirements:
12 semester hours of upper division: CMST 351 or 352 (completed with a grade of C [2.0] or better), and three courses selected from CMST 330, 335, 336, 375, 376, 385, 386, 387, or 393.

* CMST 451 and 452 can be taken either semester.

** CMST 495, Senior Thesis, can be taken either semester.

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor.

**CMST 100**
**Introduction to Public Speaking**
*3 Semester Hours*

Designed to assist the student in developing the skills necessary to communicate effectively to others and to listen effectively to communication from others. Development of proficiency in speaking results from the practice and criticism of informative speeches, persuasive speeches, and discussion.

**CMST 110**
**Interpersonal Communication**
*3 Semester Hours*

Examination of students' communication strengths and weaknesses in order to develop proficiency in interpersonal communication. A variety of practice speaking contexts is provided, including public speaking, group discussion and problem solving, and informal and formal one-to-one communication.

**CMST 130**
**Argumentation and Debate**
*3 Semester Hours*

The principles of reasoning, evidence, and organization of argumentation for debate and related forms of competitive speech; practical application in debate and other forensic speech.

<tr>
<td>CMST 140</td>
<td>Business and Professional Communication</td>
<td>3</td>
<td>A study of the principles and methods involved in improving oral communication in business and the professions. Emphasis on interviewing, conference speaking, selling and persuading, problem-solving discussions, and interpersonal relations.</td>
<td>CMST 101 with a grade of C (2.0) or better.</td>
</tr>
<tr>
<td>CMST 160</td>
<td>Small Group Processes</td>
<td>3</td>
<td>Introduction to small group processes and theory; practice in small group discussion. Special emphasis on problem solving processes.</td>
<td></td>
</tr>
<tr>
<td>CMST 170</td>
<td>Interpersonal and Small Group Communication</td>
<td>3</td>
<td>This course is designed to introduce the students to interpersonal and small group communication theories, processes, and skills. The course challenges students to examine their own communication behaviors and focus on their strengths and weaknesses as a way to develop and apply new communication skills and proficiencies. The course includes a variety of oral and written presentations at both the individual and group levels.</td>
<td></td>
</tr>
<tr>
<td>CMST 201</td>
<td>Rhetorical Theory</td>
<td>3</td>
<td>This course provides a chronological survey of major rhetorical themes and theories drawn from Plato, Aristotle, Cicero, Quintilian, St. Augustine, Kenneth Burke, Stephen Toulmin, critical theorists, feminist rhetoric, and non-Western approaches to rhetoric.</td>
<td>CMST 101 with a grade of C (2.0) or better.</td>
</tr>
<tr>
<td>CMST 202</td>
<td>Organizational Communication</td>
<td>3</td>
<td>A study of the role of the individual communicator in an organization and the pattern of communication observed in different organizational structures.</td>
<td>CMST 101 with a grade of C (2.0) or better.</td>
</tr>
<tr>
<td>CMST 203</td>
<td>Foundations of Communication Theory</td>
<td>3</td>
<td>This course introduces students to the field of communication studies and its major areas of inquiry. It begins with an overview of the history of the discipline, tracing its humanistic roots, social scientific orientations, and approaches which combine these two traditions. The course then examines communication studies from the standpoint of four perspectives that can be used to organize major movements in the field: mechanistic, psycho-symbolic, pragmatic, and critical. These perspectives are used to organize the variety of communication theories examined in the course.</td>
<td></td>
</tr>
<tr>
<td>CMST 204</td>
<td>Introduction to Research in Communication Studies</td>
<td>3</td>
<td>This course introduces students to scholarship conducted in communication studies. It overviews the research process, including generating research questions, constructing bibliographies, gathering and assessing information, and developing scholarly arguments. Students will learn research techniques, including location and retrieval of information sources (i.e., newspapers, journals, books, electronic databases, and Internet sources). They will apply critical thinking skills to the evaluation of information sources and data/arguments in qualitative and quantitative research. Students will also be introduced to basic aspects of writing for the discipline, as well as expectations for scholarly ethics and proper citation of courses.</td>
<td>CMST 203 with a grade of C (2.0) or better, or permission of instructor.</td>
</tr>
<tr>
<td>CMST 206</td>
<td>Critical Thinking and Communication</td>
<td>3</td>
<td>A study of the techniques of critical thinking as applied to communication and rhetoric.</td>
<td></td>
</tr>
</tbody>
</table>
CMST 298
Special Studies  
1-3 Semester Hours

CMST 299
Independent Studies  
1-3 Semester Hours

CMST 301
Theories of Human Communication  
3 Semester Hours

Theories which describe the complexities of human messages and the relationships of persons who communicate are studied to develop approaches to more effective communication.

Prerequisite: CMST 101 with a grade of C (2.0) or better.

CMST 303
Research in Communication Studies  
3 Semester Hours

Study of qualitative methods in communication. Development of senior thesis literature review and research questions. Includes data collection, analysis, and interpretation of observations and interview data.

Prerequisite: CMST 101.

CMST 330
Advanced Forensics  
3 Semester Hours

A study of advanced principles of debate with emphasis on interdisciplinary research on current national collegiate debate topic.

Prerequisites: CMST 130 or consent of instructor; Junior standing.

CMST 331
Argumentation Practicum  
3 Semester Hours

Forensics competition in various debate formats requiring intramural and intercollegiate debate competition.

Prerequisites: CMST 130 and consent of instructor.

CMST 335
Gender Communication  
3 Semester Hours

Course surveys gender similarities and differences in verbal and nonverbal communication. Emphasis is also placed on how males and females perceive the world and how these perceptions affect the human communication process.

Prerequisite: Junior standing.

CMST 336
Intercultural Communication  
3 Semester Hours

A study of the principles and theories of human communication related to cross cultural encounters. Emphasis is placed on cultural relativity, culture shock, verbal and nonverbal interaction, and value differences among diverse cultures.

Prerequisite: Junior standing.

CMST 351
Contemporary Rhetorical Theory  
3 Semester Hours

This course provides a survey of major rhetorical themes and theories, including classical, symbolic, argumentation, critical, feminist, and non-Western approaches to rhetoric. Students will explore the relationship between rhetorical theory and practice, the contributions of rhetorical theory to the social world, and the potential for rhetorical studies to inform issues of democratic governance, marginalized groups, social justice, and technology in society.

Prerequisites: CMST 203 and 204 with a grade of C (2.0) or better.

CMST 352
Theories of Organizational Communication  
3 Semester Hours

This course is designed to introduce the students to the field of organizational communication and the relationship between organization and communication. The course is designed to allow students to examine a range of organizational communication perspectives, theories, issues, and constructs. At the same time, students are encouraged to explore the ways these perspectives shape, expand, and limit our understanding of communicating and organizing. Significantly, the course encourages critical and analytical thinking by using the course content as a basis for critique.

Prerequisites: CMST 203 and 204 with a grade of C (2.0) or better.

</table>
**CMST 452**  
*Qualitative Research Methods*  
*3 Semester Hours*

Study of qualitative research methods in communication, including data collection, analysis, and interpretation of observations and interview data. This course prepares students for Senior Thesis.

Prerequisite: CMST 352 with a grade of C (2.0) or better.

**CMST 490**  
*Communication Practicum I*  
*3 Semester Hours*

Students participate in an internship with one of several Los Angeles area companies or institutions currently accepting LMU students. The internship focuses on practical experience working in a position that utilizes communication skills. Students will integrate communication theory with their internship experience.

May be repeated once for elective credit.

Prerequisites: Majors only; Junior standing.

**CMST 491**  
*Communication Practicum II*  
*3 Semester Hours*

Further directed experience in on-the-job training with a professional company in the media field.

Prerequisites: Majors only; Junior standing.

**CMST 495**  
*Senior Thesis*  
*3 Semester Hours*

Original research using qualitative and/or rhetorical methods that culminates in a substantial written project.

Prerequisites: CMST 451 and 452 with a grade of C (2.0) or better.

Seniors only. May be repeated once for degree credit.

Dance—Department of Theatre Arts and Dance

Faculty:
Co-chairperson: Judith M. Scalin
Professors: Scott Heinzlerling, Judith M. Scalin
Assistant Professors: Teresa Heiland, Patrick Damon Rago

Objectives:
The Dance major curriculum builds upon the foundation of dance as a humanistic experience. The study of dance as an art form serves as the heart of the course of study. Studio and theory coursework are designed to integrate practical dance experience with more formal academic study so that the student is educated as a dancer who can perform, write, and speak about the art of dance and dancing. Dance majors earn a B.A. degree and are prepared for advanced study in graduate school as well as careers in performing, teaching, and related work in the fields of business and health care.

The Dance program is housed in the Department of Theatre Arts and Dance. It offers coursework for the Dance major, the Dance minor and the general student. The program is accredited by the National Association of Schools of Dance.

Dance Major

Dance Generalist Track

Major Requirements:
Lower Division Requirements:
A minimum of 21 semester hours: DANC 100, 101, 160, 161, 183, 260, 262, 281; and taken for at least 4 semester hours and at the level of proficiency: for 0-2 semester hours Modern Dance and Ballet each semester, and for 0-2 semester hours World Dance one semester.

Upper Division Requirements:
A minimum of 25 semester hours: DANC 380, 381, 460 (or PHIL 352), 461 (minimum of C [2.0] grade), 480, 481, 484; and taken for at least 4 semester hours and at the level of proficiency: for 0-2 semester hours Modern Dance and Ballet each semester, and for 0-2 semester hours World Dance one semester.

Dance Performance Track

Major Requirements:
• Juried acceptance into Emphasis at the end of the first or second year.
• Juried approval for continuation in Emphasis at the end of the second and third years.

Dance Technique and Performance Requirements:
Coursework (minimum): Technique
1. Modern Dance Six semesters
2. Ballet Eight semesters
3. Jazz Dance Two semesters
4. World Dance Two semesters
5. Pilates and/or Yoga Two semesters

Coursework (minimum): Performance
Performance in at least two dance concerts (DANC 279) in the lower division and three dance concerts (selected from DANC 379, 479) in the upper division.

Daily Study of Dance Technique: At least one class three days a week and at least two classes two days a week.

Proficiency:
At least two semesters in DANC 402, Modern Dance IV, and two semesters in DANC 423, Ballet V

or
At least four semesters in DANC 402, Modern Dance IV, two semesters in DANC 420, Ballet IV, and two semesters in DANC 446, Jazz Dance VI or equivalent.

Lower Division Requirements:

Upper Division Requirements:
A minimum of 27 semester hours: DANC 360, 380, 381, 384, 460 (or PHIL 352), 461 (minimum of C [2.0] grade), 480, 481, 484. See above for Dance Technique and Performance requirements.
### Minor Requirements:

General minor—18 semester hours: DANC 160, 161 (6 semester hours); one theory course selected from DANC 384, 385, 480, 484 (3 semester hours); one theory course selected from DANC 260, 262, 281, 380, 381, 384, 385, 480, 481, 484 (3 semester hours); 6 semester hours in studio technique (modern, ballet, jazz, and/or world dance).

Performance minor—21 semester hours: DANC 160, 161 (6 semester hours); DANC 183 (1 semester hour); dance technique (8 U.D. semester hours); performance in at least three dance concerts (3 semester hours); and 3 semester hours of dance theory selected from DANC 384, 385, 480, 481, 484.

## DANC 100

### Orientation to Dance I

**1-3 Semester Hours**

An introduction to the discipline of Dance for Dance major students. This course addresses: careers, health, wellness, performance, community service, and community resources. Introduction to yoga and other movement fundamentals.

Majors only.

### DANC 101

### Principles of Movement

**0-1 Semester Hours**

Orientation to use of breath, alignment, and basic principles of motion. Exploration of the body-mind connection. (Fall)

Majors only.

### DANC 102

### Modern Dance I

**0-2 Semester Hours**

Fundamental movement techniques and the manipulation of time, force, and space are explored through participation in improvisation and structured skill activity, as well as basic relaxation and body awareness experiences. Introduction to jazz dance forms.

May be repeated for degree credit up to 2 times.

### DANC 120

### Ballet I

**0-2 Semester Hours**

Barre and center work for alignment, strength, flexibility, and coordination. Introduction to ballet terminology, aesthetics, and study of fundamentals of style and history.

May be repeated for degree credit up to 2 times.

Interdisciplinary Arts and Media

Director:
Suzanne Frentz

Objectives:
The philosophy of the program rests on the premise that its students should receive a broad education that combines creativity and scholarly activity. The foremost objective is to prepare students intellectually and professionally for careers in interactive digital arts and media. Courses offered are interdisciplinary in nature and bring together visual and electronic arts and mediated communication to form new modes of exploring the human experience.

INDA 100
Civilization and the Arts
3 Semester Hours

The study of art, literature, philosophy, and religion as it manifests itself in various world civilizations from the Ancients to the Middle Ages, the Renaissance through the Age of Reason, and the Industrial Revolution to the present.

INDA 101
Introduction to Media Production
3 Semester Hours

INDA 201
Intermediate Media Production
3 Semester Hours

INDA 301
Advanced Media Production
3 Semester Hours

INDA 320
Broadcast Writing
3 Semester Hours

An introductory course to teach the basic skills of broadcast writing. Primary emphasis on television news and secondary emphasis on radio news. Techniques taught will also emphasize writing for allied fields such as public relations, advertising, and technical production.

INDA 330
Broadcast News Production
3 Semester Hours

An introduction to news gathering, writing, and production for radio and television. Course covers the use of basic broadcast journalism tools, such as cameras, microphones, and conversational writing.

INDA 350
Radio Drama Production
3 Semester Hours

Working as an ensemble, students will write, act, direct, and produce live on tape weekly performances for broadcast on KXLU-FM.

Lab fee.

INDA 360
Workshop in Media Production
3 Semester Hours

INDA 390
KXLU Workshop
1 Semester Hour

Hands-on study of radio broadcasting. The areas to be mastered are proper station operations, voice, writing, delivery, and simple production.

INDA 391
KXLU Practicum
3 Semester Hours

A concentrated study of the management process associated with the day-to-day operation of KXLU-FM, recommended for radio station directors and others.

INDA 401
Seminar in Media Projects
3 Semester Hours

INDA 498
Special Studies
1-3 Semester Hours

INDA 499
Independent Studies
1-3 Semester Hours

Interdisciplinary Arts and Media
Music

Faculty:
Chairperson: Mary C. Breden
Professors: Mary C. Breden, Virginia Saya
Associate Professors: Paul W. Humphreys, Mark R. Saya
Assistant Professor: Michael Miranda

Objectives:
The purpose of the Department of Music is to provide quality music instruction both for students who wish to pursue music as a career and for students who wish to enrich their lives through non-career oriented study and performance. Students and faculty work together to foster aesthetic involvement and creative and scholarly inquiry that support a vital community of music learning. Instruction emphasizes a personal approach. Through the presentation of diverse musical programs, the department also sustains and enriches the cultural vitality of the University and its surrounding communities. The work of the department further supports the goals of Jesuit and Marymount education by strengthening the socializing influence of music both within the University and the world at large.

The Department of Music offers the Bachelor of Arts in Music degree, the requirements of which can serve as an excellent foundation for students undertaking advanced studies in musicology, composition, ethnomusicology, music librarianship, and pedagogy-oriented teaching. In addition to meeting all general University admissions requirements, students who wish either to major or minor in Music must meet specific Department of Music entrance requirements.

Loyola Marymount University and the Department of Music are accredited by the National Association of Schools of Music.

Admission to the Major and Minor:
An audition in the applied emphasis (Instrument or Voice) is required before admission to the major or minor. Audition requirements appropriate to each instrumental and voice emphasis are available from the Secretary of the Department of Music.

A grade of C (2.0) or better is required in:
- MUSC 122 (Music Theory & Form II)

A grade of B (3.0) or better is required in:
- MUSC 181, 280, 281 (Applied Lessons)

Foreign Language Requirement:
Two semesters of foreign language(s) through selection of one of the following options:
- ITAL 101, 102 or
- GRMN 101, 102 or
- FREN 101, 102 or
- ITAL 101, GRMN 101 or
- ITAL 101, FREN 101 or
- GRMN 101, FREN 101

The language options selected may be taken credit/no credit but require the approval of the Chairperson and the applied emphasis instructor.

### Concentration Requirements

**10 Semester Hours/Upper Division**

With the approval of the Director of the Concentration, every music major must declare and complete an upper division Concentration. It is possible to complete two Concentrations with the approval of the Advisor and the Department Chairperson. In order to fulfill the double Concentration, the student will take all classes required in each of the selected Concentrations. Music courses fulfilling one Concentration may not be used to satisfy the requirements of the second Concentration.

Applied Music

Individual Instructions

Music Major/Minor

Music majors are required to complete a minimum of four semesters, and Music minors two semesters, of individual instruction in the following emphasis areas:

- Piano, Guitar, Percussion, Strings, or Voice:
  - MUSC 180, 181, 280, 281 (Major/4 semester hours)
  - MUSC 180, 181 (Minor/2 semester hours)

Each semester hour of earned credit in private applied lessons requires the following:

A. One 50-minute private lesson weekly (total 14)
B. Enrollment in MUSC 101, Studio Class
C. Minimum of one (1) Studio Class performance per semester

Only students who have been officially accepted through audition and declared music majors or minors by the Department of Music may enroll in private applied lessons (180, 181, 280, 281, 380, 381, 480, 481). No applied music fee is required.

Practice room facilities (free of charge) are available to all applied music students enrolled for credit.

Applied music courses are repeatable for credit. Majors who wish to continue credit enrollment beyond minimum requirements may enroll in the subsequent MUSC 380, 381, 480, and 481 offerings.

Music Non-Major/Non-Minor

Individual instruction is available in Piano, Guitar, Drum Set, Strings, and Voice:

- Permission of professor required.

MUSC 182, 282, 382, 482 ...........1 S.H. each

There is an applied music fee of $308.00 per semester for fourteen 30-minute weekly lessons. Applied music courses are repeatable for credit.

Class instruction is available in Piano, Guitar, and Voice for students at the beginning level:

- MUSC 175, 176, 177 Piano Class ...1 S.H. each
- MUSC 178 Voice Class .............1 S.H.
- MUSC 179 Guitar Class ............1 S.H.

These classes meet once weekly, have a limited enrollment, and may only be repeated once for credit. There is a $20 lab fee for the piano classes.

Ensembles

Music Major/Minor

Music majors are required to complete four semesters, and Music minors two semesters, of active participation in an ensemble appropriate to the area of individual instruction emphasis.
### Sophomore Year

The above schedule should be considered as guidelines and confirmed with a Music Advisor.

MUSC 101  
Studio Class  
0 Semester Hours

Recital class for music majors and minors enrolled in applied lessons, including composition lessons.

May be repeated for degree credit.

MUSC 102  
Enjoyment of Music  
3 Semester Hours

An overview of the evolution of Western Art music from the era of Gregorian Chant to modern times. Focus is on style periods and the contributions of the great composers. Concert attendance required.

Non-majors and non-minors only.

MUSC 104  
Fundamentals of Music  
3 Semester Hours

Practical study of the rudiments of music—notation, rhythm, keys, scales, and terminology, with the object of attaining and applying a basic musical literacy. Concert attendance required.

Non-majors and non-minors only.

MUSC 105  
The Vocal Experience  
3 Semester Hours

Exploration of the basic techniques of singing with emphasis on the expressive elements inherent in simple vocal literature; study of fundamental musical elements—rhythm, melody, key structures, notation—leading to successful sight singing.

MUSC 106  
The Guitar Experience  
3 Semester Hours

Exploration of the basic technique of performing on the guitar including 1) learning to read music, 2) chords and styles of accompaniment, and 3) the preparation of solo pieces.

MUSC 107  
The Piano Experience  
3 Semester Hours

Exploration of the basic techniques of performing piano literature; study of fundamental musical elements—rhythm, melody, key structures, notation, and reading music.
MUSC 121  
Music Theory and Form I  
3 Semester Hours

Introduction to the fundamentals of functional tonal harmony, basic musical terminology and notation, figured bass, and diatonic harmonic progression and voice leading.

Corequisite: MUSC 133.

MUSC 122  
Music Theory and Form II  
3 Semester Hours

Continuation of MUSC 121, introducing cadences, non-chord tones, 7th chords, chromatic harmony and voice leading (secondary chords), and various types of modulation. Also includes an introduction to formal analysis through the study of period and other phrase structures.

Corequisite: MUSC 134.

MUSC 131  
Sight Singing I  
1 Semester Hour

Study of notation, keys, scales, rhythm; recognition of intervals; development of the ability to sight-read vocally from the score and to take melodic dictation.

MUSC 132  
Sight Singing II  
1 Semester Hour

Continuation of MUSC 131.

Prerequisite: MUSC 131.

MUSC 133  
Aural Skills I  
1 Semester Hour

Developing of the aural skills of sight singing, audiation, and pitch discrimination leading to the ability to take musical dictation from simple to intermediate levels involving melody, rhythm and meter, chords in root position, and cadential harmony. Includes Computer Assisted Instruction (CAI).

Corequisite: MUSC 121.

MUSC 134  
Aural Skills II  
1 Semester Hour

Continuation of MUSC 133, further developing the ability to take musical dictation from intermediate to advanced levels involving tonal, modal, and atonal melody, rhythm and meter, all chord types including inversions and functional harmonic progression. Continuation of CAI.

Prerequisite: MUSC 133.

Corequisite: MUSC 122.

MUSC 135  
Functional Piano I  
1 Semester Hour

Development of pragmatic keyboard reading skills.

Music majors/minors only.

MUSC 136  
Functional Piano II  
1 Semester Hour

Continuation of MUSC 135.

Prerequisite: MUSC 135 or consent of instructor.

MUSC 175  
Beginning Piano Class  
1 Semester Hour

Development of pragmatic keyboard reading skills.

MUSC 176  
Intermediate Piano Class  
1 Semester Hour

Application of fundamental keyboard reading skills through sight reading, ensemble work, harmonizing, and improvising. Development of interpretive skills through the use of repertoire from different eras.

Prerequisite: MUSC 175 or consent of instructor.

MUSC 177  
Advanced Piano Class  
1 Semester Hour

Application of interpretive skills using more complex repertoire. Fundamentals of tonal music theory are addressed along with sight reading and improvising. Individual projects may be assigned.

Prerequisite: MUSC 176 or consent of instructor.
MUSC 178
Beginning Voice Class
1 Semester Hour

Group instruction in singing. The basics of breathing, tone production, diction and articulation, song preparation, and performance.

MUSC 179
Beginning Guitar Class
1 Semester Hour

The study of the classical guitar: learning to read music, learning to use the hands efficiently, gaining an understanding of the structures of music in order to develop an interpretive style.

MUSC 180
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

First semester of private applied lessons in the major/minor.

Corequisite: MUSC 101.

MUSC 181
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

Second semester of private applied lessons in the major/minor.

Prerequisite: MUSC 180.

Corequisite: MUSC 101.

MUSC 182
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

First year of private applied lessons for non-majors, non-minors (repeatable credit).

Permission of instructor required.

MUSC 221
Music Theory and Form III
3 Semester Hours

Introduction to modal species counterpoint, fugal process, fundamentals of formal analysis, binary and ternary forms, and further chromatic harmony and voice leading, including borrowed chords, the Neapolitan, and augmented 6th chords.

Prerequisite: MUSC 122.

MUSC 222
Music Theory and Form IV
3 Semester Hours

Introduction to song forms, rondo and sonata forms, and further chromatic harmony, including chromatic mediant relationships and enharmonic modulation. Introduction to 20th century concerns including modality, atonality, Impressionism, Expressionism, polyrhythm and polytonality, serial techniques, minimalism, and improvisation and chance.

Prerequisite: MUSC 221.

MUSC 235
Instrumentation
2 Semester Hours

Ranges, limits, use possibilities, technical parameters, and transpositions of instruments used for the making of music in performance.

Prerequisite: MUSC 122.

MUSC 280
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

Third semester of private applied lessons in the major.

Prerequisite: MUSC 181.

Corequisite: MUSC 101.

MUSC 281
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

Fourth semester of private applied lessons in the major.

Prerequisite: MUSC 280.

Corequisite: MUSC 101.

MUSC 282
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

Second year of private applied lessons for non-majors (repeatable credit).

Permission of instructor required.

MUSC 343  
**Opera Scenes/Workshop**  
1-2 Semester Hours  
Preparation of scenes from major operas in either staged or concert versions, and study of the complete works to aid singers in establishing context and characterization. Repeatable credit.

Prerequisites: Audition after enrollment.

May be repeated for degree credit.

**MUSC 344**  
**Stage Movement**  
0-1 Semester Hours  
Basic skills of coordinated movement appropriate to stage work. Exploration of the elements of poise, postural habits, and style based on principles developed by F.M. Alexander.

Corequisite: MUSC 343.

May be repeated for degree credit.

**MUSC 361**  
**Music of Africa**  
3 Semester Hours  
An in-depth investigation of differences found in Sub-Saharan and North African genres.

**MUSC 365**  
**History of Jazz**  
3 Semester Hours  
Evolution of jazz from its African origins to the present.

**MUSC 366**  
**History of Rock**  
3 Semester Hours  
Evolution of rock and roll from its African-American origins to the present.

**MUSC 367**  
**History of Popular Music**  
3 Semester Hours  
Survey of the musical and cultural history of the diverse styles and artists associated with popular music. Exploration will range from rock to blues to hip hop to heavy metal to country. The course will consider the social, political, and cultural themes that influence and are influenced by music.

**MUSC 380**  
**Guitar, Percussion, Piano, Strings, Voice**  
1 Semester Hour  
Fifth semester of private applied lessons in the major.

Prerequisite: MUSC 281.

Corequisite: MUSC 101.

**MUSC 381**  
**Guitar, Percussion, Piano, Strings, Voice**  
1 Semester Hour  
Sixth semester of private applied lessons in the major.

Prerequisite: MUSC 380.

Corequisite: MUSC 101.

**MUSC 382**  
**Guitar, Percussion, Piano, Strings, Voice**  
1 Semester Hour  
Third year of private applied lessons for non-majors (repeatable credit).

Permission of instructor required.

**MUSC 387**  
**Music Composition I**  
1 Semester Hour  
The composition of original instrumental and vocal works for solo performers and small ensembles employing structures such as binary, ternary, and song forms.

Prerequisite: MUSC 222.

**MUSC 388**  
**Music Composition II**  
1 Semester Hour  
Continuation of 387.

Prerequisite: MUSC 387.

**MUSC 401**  
**Music in Native North America**  
3 Semester Hours  
A survey of traditional and contemporary music/dance within primary culture areas.

**MUSC 402**  
**Music of East, Central, and Southeast Asia**  
3 Semester Hours  
A historically-oriented survey of traditional, art, and popular genres within each region.

**Advanced Instrumental Conducting**
2 Semester Hours

Application of concepts and fundamentals experienced in MUSC 333, development and application of interpretive conducting skills through major orchestral works.

Prerequisite: MUSC 333.

---

MUSC 435
**Instrumental Conducting Practicum**
2 Semester Hours

Preparation and application of conducting skills with a departmental instrumental ensemble resulting in a recital performance appearance as a student conductor.

Prerequisite: MUSC 433.

---

MUSC 445
**Choral Practicum**
1 Semester Hour

In-depth study of choral rehearsal practices resulting in a senior project or conducting recital.

Prerequisite: MUSC 432.

---

MUSC 450
**Senior Project/Recital**
1 Semester Hour

Preparation and presentation of a solo performance in a student recital format.

Permission of Applied instructor, advisor, and chairperson required.

---

MUSC 454
**World Music Ensembles I**
0-1 Semester Hours

Practice and performance of West African drumming and Balinese gamelan including both traditional and new compositions.

Prerequisite: Audition after enrollment.

May be repeated for degree credit.

---

MUSC 455
**World Music Ensembles II**
0-1 Semester Hours

Practice and performance of intermediate-level techniques in West African drumming and xylophone as well as Balinese gamelan and gender wayang.

Prerequisites: MUSC 454; permission of instructor required.

May be repeated for degree credit.

---

MUSC 457
**Music Management I**
3 Semester Hours

Subjects include but are not limited to: the music business system, professional songwriting, music publishing, music copyright, music licensing, unions and guilds, agents, managers and attorneys, artist management, concert promotion, theatrical production, music merchandising, and arts administration.

---

MUSC 458
**Music Management II**
3 Semester Hours

Subjects include but are not limited to: scope of the record industry, record markets, artists’ recording contracts, record production, record promotion, distribution and merchandising, studios and engineers, environmental music, music in radio, music in telecommunications, music in advertising, film scoring, career options, and career development.

Prerequisite: MUSC 457.

---

MUSC 480
**Guitar, Percussion, Piano, Strings, Voice**
1 Semester Hour

Seventh semester of private applied lessons in the major.

Prerequisite: MUSC 381.

Corequisite: MUSC 101.

---

MUSC 481
**Guitar, Percussion, Piano, Strings, Voice**
1 Semester Hour

Eighth semester of private applied lessons in the major.

Prerequisite: MUSC 480.

Corequisite: MUSC 101.
MUSC 482
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Fourth year of private applied lessons for non-majors (repeatable credit).
Permission of instructor required.

MUSC 487
Music Composition III
1 Semester Hour
The composition of original instrumental and vocal works for large ensembles employing extended structures such as sonata, rondo, variation, and concerto forms.
Prerequisite: MUSC 388.

MUSC 488
Music Composition IV
1 Semester Hour
Continuation of MUSC 487.
Prerequisite: MUSC 487.

MUSC 490
Chamber Orchestra
0-1 Semester Hours
Offers students and members of the community instruction in orchestral music through the study and performance of quality literature representing a variety of style periods and musical genre.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 491
Consort Singers
0-1 Semester Hours
Smaller, more advanced choral ensemble provides an opportunity for students to perform challenging choral literature from a wide range of composers and styles. Should have previous choral experience.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 492
Chamber Music Ensembles
0-1 Semester Hours
To gain an understanding of and to develop the skills necessary for small ensemble playing (includes guitar, string, and piano ensembles).
Prerequisite: Audition after enrollment; permission of instructor required (piano ensembles).
May be repeated for degree credit.

MUSC 493
Women’s Chorus
0-1 Semester Hours
The ensemble explores and performs choral literature for treble voices.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 494
Men’s Chorus
0-1 Semester Hours
The ensemble explores and performs choral literature for male voices.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 495
Concert Choir
0-1 Semester Hours
The large choral ensemble offers students and members of the community instruction in choral music with emphasis on vocal techniques as well as the study and performance of quality literature representing a variety of style periods and musical genres.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 496
Theory Placement Practicum
0-1 Semester Hours
Review of selected topics from Music Theory & Form I-IV and techniques of preparation for theory placement examinations required by music graduate schools.
MUSC 497  
Musicology Placement Practicum  
0-1 Semester Hours  

Techniques of preparation for musicology placement examinations required for entrance into music graduate school programs.

MUSC 498  
Special Studies*  
1-3 Semester Hours

MUSC 499  
Independent Studies*  
1-3 Semester Hours  

* MUSC 498 and 499 may not be designated to stand in lieu of course content addressed by another course in the music curriculum, except by permission of the Chairperson.
Theatre Arts—
Department of Theatre Arts and Dance

Faculty:

Co-chairperson: Katharine B. Free
Professors: Katharine B. Free, Judith Royer, C.S.J.
Associate Professors: Diane Benedict, Charles E. Erven, Ron Marasco
Assistant Professors: Katharine M. Noon, Dan Weingarten

Objectives:
The Theatre Arts curriculum is planned to provide a broad education in the humanities and to develop in the student an appreciation of self and the universality of the human experience. Participation in the performing arts experience is central to this work. All students pursue a general theatre program. Some students may elect to emphasize work in the areas of acting, directing, playwriting, history/literature/criticism, or design/technical theatre. The Theatre Arts program is accredited by the National Association of Schools of Theatre.

Major Requirements:

Lower Division Requirements:

24 semester hours: THEA 111, 120, 220, 240, 245, 250 (2 semesters), and 7 hours of lower division Theatre coursework planned in consultation with departmental advisor.

Upper Division Requirements:

30 semester hours: 9 hours of Theatre history/literature/criticism courses from the THEA 330s, 340s, 430s of which 3 semester hours must be chosen from THEA 347, 348, 349, 430, or 435; THEA 370, THEA 450 (3 semesters), THEA 490, and 12 hours of upper division Theatre electives.

A minimum grade of C (2.0) must be obtained in each course included in the major requirements.

Minor Requirements:

18 semester hours divided into 6 semester hours of lower division work, 12 semester hours of upper division theatre offerings, and participation in Departmentally-sponsored events.

Minor programs must be planned in consultation with a departmental advisor. A minimum grade of C (2.0) must be obtained in each course included in the minor program.

This schedule is typical. The sequence and choice of courses must be decided in consultation with an advisor.

---

**THEA 100**

**Beginning Acting**

*3 Semester Hours*

An introduction to the interpretation of drama through the art of the actor. Designed for the non-major.

**THEA 110**

**Introduction to Theatre Performance**

*3 Semester Hours*

A study of acting, directing, and writing techniques that create the theatre event. (Fall)

Prerequisite: Theatre Arts majors/minors only.

**THEA 111**

**Voice and Movement for Stage**

*3 Semester Hours*

A practicum designed to develop and practice movement skills to free the natural voice for the actor.

Prerequisites: THEA 111 or equivalent experience, Theatre Arts majors/minors only.

**THEA 120**

**Basic Stagecraft**

*3 Semester Hours*

A practical study of modern theatrical practice with the purpose of developing the student's awareness of and sensitivity to the many different aspects of a theatre production: acting, directing, set design and construction, costumes, stage management, lighting, sound, make-up, as well as handling administration and publicity. Included is a lab format which provides practical experience and hands-on work in the scene shop.

Corequisite: THEA 121.

**THEA 121**

**Basic Stagecraft Lab**

*0 Semester Hours*

A practical study of modern theatrical practice in a lab format which provides hands-on work in the scene shop.

Corequisite: THEA 120.

Offered for credit/no credit only.

</tbody>
</table>
THEA 252
Workshop: Playwrights and Actors
1-3 Semester Hours

The development of new scripts through several possible stages of interaction between actors and writers, leading to staged readings and/or workshop productions. May be repeated for credit up to 9 semester hours.

Prerequisites: Theatre Arts majors/minors only, consent of instructor.

THEA 298
Special Studies
1-3 Semester Hours

THEA 299
Independent Studies
1-3 Semester Hours

THEA 300
Theatre in Los Angeles
3 Semester Hours

Theatre-going and appreciation designed for the potential audience member through first-hand meetings with theatre artists and attendance at Los Angeles productions. Lab fee.

THEA 312
Voice Development
3 Semester Hours

The development of the full range of expressiveness in the speaking voice.

THEA 314
Intermediate Acting for Non-Majors
3 Semester Hours

A continuation of THEA 110.

Prerequisite: THEA 110 or consent of instructor.

THEA 315
Alexander Technique
3 Semester Hours

A course for actors and other performers to improve the use of their bodies, voices, and breathing. Through application of the Alexander Technique, interfering habits of tension and personality are transformed for greater command over the physical and emotional instrument. Movement ease and coordination as well as improved posture are achieved through informed choices.

Prerequisites: Theatre Arts majors/minors only, consent of instructor.

THEA 320
Intermediate Scene Design
3 Semester Hours

This course examines the theory and practice of scene design and manipulation of stage space. Special emphasis is placed on the development of a point of view toward the production of the play as related to all aspects of theatrical design.

Prerequisite: Consent of instructor.

THEA 321
Intermediate Lighting Design
3 Semester Hours

This course examines the theory and practice of lighting design. The core of this course is a series of discovery projects using minimal resources, to explore the use of light in the theatre. Through this exploration, students will discover a variety of approaches to developing a successful lighting design.

Prerequisite: Consent of instructor.

THEA 322
Intermediate Costume Design and Construction
3 Semester Hours

This course examines the craft of designing, planning, and constructing costumes, including beginning pattern-drafting.

Prerequisite: Consent of instructor.

THEA 324
Intermediate Technical Theatre
3 Semester Hours

This course illustrates the array of accepted responsibilities that are needed to operate a scene shop efficiently. Construction techniques, drafting, problem solving, estimating, and scheduling are among a few topics covered.

Prerequisite: Consent of instructor.

THEA 331
Classical Spirit in Drama
3 Semester Hours

An exploration of the classical drama throughout major periods.

THEA 336
Romantic Spirit in Drama
3 Semester Hours

An exploration of the romantic drama throughout major periods.

</tbody>
</table>
THEA 422
Advanced Costume Design
3 Semester Hours
Advanced study in theatre costume construction including pattern-making, advanced sewing techniques, and millinery.
Prerequisite: THEA 322 or consent of instructor.

THEA 425
Scene Painting
3 Semester Hours
This course is a guide to the tools and techniques used in modern scene painting.
Prerequisite: Consent of instructor.

THEA 426
Advanced Scene and Lighting Design
3 Semester Hours
This course is an advanced study of scene design and lighting design for the theatre with emphasis on their roles as creative members of a collaborative team.
Prerequisites: THEA 320 and 321.

THEA 430
Special Author/Genre Seminar
3 Semester Hours
Study of Shakespeare or other topics in selected authors and/or dramatic genres. May be repeated only when a different genre and/or author is studied.

THEA 435
Special Period Seminar
3 Semester Hours
Study of 20th Century American Drama, American Drama through the 19th Century, Modern British Playwrights, 17th and 18th Century Comedy, or other topics in theatre history. May be repeated only when a different topic and/or period is studied.

THEA 450
Theatre Practicum: Crew
1-3 Semester Hours
Participation in production in Theatre and Dance presentations. May be repeated for credit up to 9 semester hours.
Prerequisites: THEA 250, Theatre Arts majors/minors only.

THEA 451
Theatre Practicum: Performance
1-3 Semester Hours
Participation in performance in Theatre presentations. May be repeated for credit up to 9 semester hours.
Prerequisite: By audition.

THEA 452
Advanced Workshop: Playwrights and Actors
1-3 Semester Hours
The development of new scripts through several possible stages of interaction between actors and writers, leading to staged readings and/or workshop productions. May be repeated for credit up to 9 semester hours.
Prerequisites: Theatre Arts majors/minors only, consent of instructor.

THEA 461
Acting: Special Genre
3 Semester Hours
Acting techniques and style for particular genres such as musical theatre, Shakespeare, Molière, and ancient Greek drama.
Prerequisites: Theatre Arts majors/minors only, consent of instructor.

THEA 463
Acting: Auditions and Cold Reading
3 Semester Hours
This course is structured to give the advanced actor practical experience learning the techniques and developing the effective skills for the interview and cold reading process in order to get professional work. Students will develop an effective and organized business approach toward their careers by learning how to market their talent, acquire an effective headshot, and organize a professional resume for the auditioning process.
Prerequisites: Theatre Arts majors/minors only, consent of instructor.
THEA 467  
Career Development  
3 Semester Hours

A course in the how-to’s of getting professional work in theatre, television, and film. Visits with agents and casting directors, the development of a professional portfolio, and a professional showcase are aspects of the course.

Prerequisites: Theatre Arts majors/minors only, consent of chairperson and instructor.

THEA 490  
Senior Thesis: Project  
3 Semester Hours

Preparation and presentation of performance or research thesis.

Prerequisites: Theatre Arts majors only, consent of instructor.

THEA 498  
Special Studies  
1-3 Semester Hours

THEA 499  
Independent Studies  
1-3 Semester Hours
Frank R. Seaver College of Science and Engineering
Courses numbered from 260-279 are designed specifically to meet the University core requirements in math, science and technology for students not majoring within the College. With the exception of MATH 101, other lower-division courses in the College may also satisfy University core requirements. Check with your Dean's office.

Application of General University Requirements

The University requirements for admission and graduation and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the Frank R. Seaver College of Science and Engineering.

Degrees Offered

Bachelor of Arts in: Biology and Mathematics

Bachelor of Science in Engineering in: Civil, Electrical, and Mechanical Engineering

Bachelor of Science in: Applied Mathematics, Athletic Training, Biochemistry, Biology, Chemistry, Computer Science, Engineering Physics, Environmental Science, Individualized Studies, Mathematics, Natural Science, and Physics

Master of Arts in Teaching in: Mathematics

Master of Science in Engineering in: Civil, Electrical, and Mechanical Engineering

Master of Science in: Computer Science, Environmental Science, Engineering and Productivity Management, and Systems Engineering

Teacher Preparation Programs

The College offers subject matter preparation programs in mathematics and in science specifically designed to meet State of California subject matter requirements for a secondary teaching credential. Both the Bachelor of Arts degree in Mathematics (see the Mathematics section) and the Bachelor of Science degree in Natural Science following the secondary science emphasis in either Biology or Chemistry (see the Natural Science section) are designed to allow completion of the 2042 California Preliminary Single Subject (Secondary) credential in four years. These programs are offered in conjunction with the

Frank R. Seaver College of Science and Engineering

Administration

Dean: Richard G. Plumb
Associate Dean: W. Thomas Calder
Associate Dean: Stephen H. Scheck
Graduate Director: Joseph C. Reichenberger

College Mission Statement

The mission of the College is to provide students with the best possible education in science, engineering, and mathematics in a nurturing environment of individual attention and concern with particular emphasis on self-learning, service to society, and ethical behavior.

College Goals

Particularly applicable to the College are these goals: (1) to develop in the student the understanding that education is a self-discipline, and to place a greater responsibility for learning on the individual, (2) to integrate ethics into the curriculum in order to develop personal and professional integrity, (3) to help the student to become cognizant of the changing needs of humankind while interpreting and implementing the ever-increasing body of knowledge, (4) to encourage the student to recognize the wide applicability of scientific, engineering, and mathematical methods and to become skillful in their use, (5) to prepare the student for a world of accelerating scientific and technological change, (6) to impress upon the student that education must be a continuous process throughout one’s professional career, and (7) to help the student to become cognizant of the changing needs of humankind while interpreting and implementing the ever-increasing body of knowledge. 

Programs

The College offers degree programs in Applied Mathematics, Athletic Training, Biochemistry, Biology, Chemistry, Civil Engineering, Computer Science, Electrical Engineering, Engineering and Production Management, Engineering Physics, Environmental Science, Individualized Studies, Mathematics, Mechanical Engineering, Natural Science, and Physics. College of Science and Engineering faculty also teach the math, science and technology component of the University core curriculum.
School of Education. The College also offers courses in mathematics and science to support the multiple subject credential program for teaching elementary school (see the Liberal Studies section in the Liberal Arts part of the Bulletin).

All students interested in teaching mathematics or science at the secondary level should inform their departmental advisors as soon as possible and should also contact the School of Education to arrange a time to attend an Undergraduate Information Session.

Program for the Retention of Engineering and Science Students (PRESS)

The Frank R. Seaver College of Science and Engineering’s Program for the Retention of Engineering and Science Students (PRESS) is designed to provide a wide range of services and special activities aimed at improving academic performance and enhancing the career potential of students. The services provided include career workshops; counseling on summer jobs and research internships; counseling on graduate school; Student Study Center; Academic Excellence Workshops; support for minority engineering clubs, including National Society of Black Engineers (NSBE), Society of Hispanic Professional Engineers (SHPE), and Society of Women Engineers (SWE); and community outreach to local high schools with a high percentage of underrepresented students to help strengthen the high school curriculum and offer summer camp to at-risk students. For more information about PRESS, contact Barbara A. Christie, Director, at (310) 258-8647 or bchristie@lmu.edu.

Core Curriculum

Students in the Frank R. Seaver College of Science and Engineering will follow core curriculum A, B, or C below, depending on degree plan.

Note: Engineering and Engineering Physics students should follow Core Curriculum B.

A. Core Curriculum for the Bachelor of Science Degree

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours

Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking
3 Semester Hours

Course Selection
Communication:
Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:
Choose from CMST 206 or PHIL 220.

Critical/Creative Arts
3 Semester Hours

Course Selection
Choose from ANIM 120; ART 150, 250, 350; DANC 163; MUSC 105, 106; THEA 110, 400.
History
3 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization.

Western Civilization:
Choose from HIST 100 or 101.

Literature
3 Semester Hours

Course Selection
Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology
18 Semester Hours

Course Selection
This requirement is met by the curriculum of the major.

Philosophy
6 Semester Hours

Course Selection
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose one course from PHIL 320 through 330.

Social Sciences
6 Semester Hours

Student must select one of the following options:
1. Select two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.
2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.
3. Select two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155, PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies
6 Semester Hours

Course Selection
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose from the 300-level series of THST courses only.

Note: International/Global Studies
The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101 which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: CLAS 200, 210, 220; FNLT 180; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: GEOG 100; POLS 155; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations:
Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.
Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad Office.

B. Core Curriculum for the Bachelor of Science in Engineering or the Bachelor of Science in Engineering Physics Degree

American Cultures
3 Semester Hours
Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours
Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking
3 Semester Hours
Course Selection
Communication:
Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:
Choose from CMST 206 or PHIL 220.

Critical/Creative Arts
3 Semester Hours
Course Selection
Choose from ANIM 120; ART 150, 250, 350; DANC 163; MUSC 105, 106; THEA 110, 400.

History
3 Semester Hours
Course Selection
This requirement is satisfied by taking one course from Western Civilization.

Western Civilization:
Choose from HIST 100 or 101.

Literature
3 Semester Hours
Course Selection
Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.
Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology
18 Semester Hours
Course Selection
This requirement is met by the curriculum of the major.

Philosophy
6 Semester Hours
Course Selection
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose one course from PHIL 320 through 330.

Social Sciences
6 Semester Hours
For students pursuing a Bachelor of Science in Engineering or Engineering Physics degree, this requirement is met by the major curricula.
Theological Studies  
6 Semester Hours  
Course Selection  
Lower Division:  
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.  
Upper Division:  
Choose from the 300-level series of THST courses only.

3 Semester Hours  
Course Selection  
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.  

Choose: ENGL 110.  

Communication or Critical Thinking  
3 Semester Hours  
Course Selection  
Communication:  
Choose from CMST 100, 110, 130, or 140.  
OR Critical Thinking:  
Choose from CMST 206 or PHIL 220.  

Critical/Creative Arts  
6 Semester Hours  
Course Selection  
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.  

Critical Arts:  
Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FILM 210, 314, 315; INDA 100; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.
Creative Arts:
Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); FILM 260; MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

History
6 Semester Hours
Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.
Western Civilization:
Choose from HIST 100 or 101.
Contemporary Societies:
Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours
Course Selection
Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.
Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology
18 Semester Hours
Course Selection
This requirement is met by the curriculum of the major.

Philosophy
6 Semester Hours
Course Selection
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.
Upper Division:
Choose one course from PHIL 320 through 330.

Social Sciences
6 Semester Hours
Student must select one of the following options:
1. Select two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.
2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.
3. Select two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies
6 Semester Hours
Course Selection
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.
Upper Division:
Choose from the 300-level series of THST courses only.

Note: International/Global Studies
The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101 which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, 210, 220; DANC 281; FILM 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.
To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; GEOG 100; HIST 172, 182; MUSC 303, 365; POLS 158; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.
Recommendations:

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad Office.
Biology

Faculty:
Chairperson: M. Catharine McElwain
Professors: Michael Danciger, Roy S. Houston,
Stephen H. Scheick, Anthony P. Smulders, CFMM,
John P. Waggoner III
Associate Professors: Philippa M. Drennan,
Gary Kuleck, M. Catharine McElwain, Martin Ramirez
Assistant Professors: Wendy J. Binder,
Kam D. Dahlquist, Jennifer R. Gillette, Carl R. Urbinati

The mission of the Biology Department is to promote an appreciation for and understanding of the science of biology in our students. The particular objectives of the Biology Department are to: (1) provide students with a broad background in the biological sciences; (2) enable students to master the essential concepts of biology; (3) develop students' ability to think critically about scientific information and solve scientific problems; (4) enable students to articulate ideas and present information in both written and oral forms in a clear, organized fashion; (5) teach students the skills of both field and laboratory biology, and enable them to participate directly in the scientific discovery process; (6) facilitate students' independent exploration of career opportunities; and (7) participate in the University's effort to educate non-science majors in the areas of science and technology.

The B.S. in Biology

The B.S. in Biology degree prepares students for a variety of careers following graduation. Substantial numbers of students go on to health professional schools to study medicine, dentistry, pharmacy, optometry, podiatric medicine, and veterinary medicine. Other students go on to various graduate programs in the basic biological sciences (e.g., physiology, genetics, molecular biology, immunology, microbiology, marine biology, ecology, etc.), college teaching, and positions in industry and in research and development.

The B.S. in Biology program provides for the opportunity to double major in Biology-Chemistry, Biology-Physics, Biology-Mathematics, Biology-Engineering, and Biology-Psychology. A special option is available in Marine Biology.

Major Requirements, Lower Division: for the B.S. in Biology

BIOL 101*, 102*, 111*, 112*, 201*, 202*; CHEM 110*, 111*, 112*, 113*, 220*, 221*, 222, 223; MATH 122*, 123 (MATH 131, 132 may be substituted for MATH 122, 123); PHYS 253, 254, 255, 256.

* A student must complete with a C (2.0) average the lower division requirements indicated by asterisks, including a C (2.0) average in BIOL 101, 102, 111, 112, 201, and 202, prior to becoming eligible to take any upper division biology course.

The B.A. in Biology

The B.A. in Biology degree is a general liberal arts and sciences program. The core curriculum for the B.A. in Biology is identical to that of the Bellarmine College of Liberal Arts except no additional core Mathematics, Science and Technology courses are required. The B.A. will allow for a double major with other liberal arts programs. Preprofessional students should select the program leading to the B.S. degree.

Major Requirements, Lower Division: for the B.A. in Biology

BIOL 101*, 102*, 111*, 112*, 201*, 202*; CHEM 110*, 111*, 112*, 113*, 220*, 6 semester hours of mathematics to include MATH 122*, plus 3.0 additional semester hours in science to be approved by the Department Chairperson.

* A student must complete with a C (2.0) average the courses indicated with an asterisk, including a C (2.0) average in BIOL 101, 102, 111, 112, 201, and 202, prior to becoming eligible to take any upper division biology course.

Major Requirements, Upper Division: (both B.S. and B.A. in Biology)

27 (B.S.) or 24 (B.A.) upper division semester hours in Biology, to be selected from the groups listed below, and to include at least 4 laboratory courses.

(a) One course in Cell/Organism Function, to be selected from BIOL 351, 353, 356, 357, 371.
(b) One course in Molecular Biology, to be selected from BIOL 330, 437, 439, 443.
(c) One course in Organismal Diversity, to be selected from BIOL 312, 328, 329, 333, 334, 335, 361, 421, 422.
(d) One course in Populations, to be selected from BIOL 315, 316, 318, 328, 329, 422, 423, 475, 477.

Note: BIOL 328, 329, or 422 can satisfy only (c) or (d).

(e) One 2 semester hour seminar or research course from the 500 series.

(f) 3 (B.S.) or 2 (B.A.) additional upper division biology courses.

(g) The above requirements must also include one plant biology course to be selected from BIOL 312, 315, 353, 371, 437, and one field biology course to be selected from BIOL 312, 318 plus 319, 328, 329, 333, 421, 422, 423 (BIOL 312 can satisfy only one of these two categories).

In addition to the 27 or 24 required semester hours, upper division biology courses may be taken as electives. Students preparing for specific graduate careers should discuss appropriate courses with their advisors.

To graduate as a biology major, a student must accumulate a C (2.0) average in all major requirements and pass the Biology Proficiency Exam.

Secondary Teaching Credential

See the appropriate biology faculty advisor.

Minor Requirements:

BIOL 101, 102, 111, 112, 201, and 202; CHEM 110 and 112; plus 7 semester hours in upper division BIOL courses. The upper division courses for the minor must be selected under the direction of the Chairperson of the Department.

An average grade of C (2.0) must be accumulated in all lower division requirements prior to taking upper division courses. An average grade of C (2.0) must also be accumulated in all upper division courses included in the minor.

* The course sequence in Mathematics depends on the results of the Mathematics Placement Exam.

Students who have completed MATH 123 or 132 may begin the physics sequence in the Fall semester of either the sophomore or junior year.

The sequence of the University Core courses should be discussed with the student’s advisor.

* The course sequence in Mathematics depends on the results of the Mathematics Placement Exam.

The sequence of the University Core courses should be discussed with the student's advisor.
BIOL 194  
Introduction to Research  
1 Semester Hour  
An introduction to scientific research methodology: information gathering, data analysis, laboratory research practice. Attendance at departmental seminars is required.  
Laboratory, 4 hours.

BIOL 198  
Special Studies  
1-4 Semester Hours

BIOL 199  
Independent Studies  
1-4 Semester Hours

BIOL 201  
Cell Function  
3 Semester Hours  
Cellular and sub-cellular structures and functions including: DNA and RNA structure and function, protein synthesis and structure, enzyme function, metabolic pathways, membrane function.  
Prerequisites: BIOL 101, CHEM 112, or concurrent enrollment.

BIOL 202  
Genetics  
3 Semester Hours  
A study of Mendelian and molecular genetics.  
Prerequisite: BIOL 201.

BIOL 260  
Human Biology  
3 Semester Hours  
The discussion of general biological principles with a human emphasis. Topics include: cells, heredity and reproduction, animal behavior, organ systems, drugs, disease, ecology, and evolution.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

BIOL 261  
Evolutionary Thought  
3 Semester Hours  
The development of the idea of evolution, beginning with the introduction of Greek ideas into the medieval European culture, to the present day.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

BIOL 262  
Human Health  
3 Semester Hours  
A study of important diseases.  
Not open for credit for students who have completed the Community College Health Education Requirement.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

BIOL 263  
Natural History of Southern California  
3 Semester Hours  
Introduction to the geography, climate, plant communities, and common animals of Southern California; animals will be covered in regard to behavior, taxonomy, and ecology.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

BIOL 264  
The Marine Environment  
3 Semester Hours  
An introduction to marine biology, including its history, different communities and the animals and plants that occur in marine ecosystems, and their economic importance.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

BIOL 265  
Biology of African Wildlife  
3 Semester Hours  
Study of ecological, behavioral, and life history characteristics of selected African animals. Includes a two-week study trip to eastern or southern Africa (Biology majors should take BIOL 332). Offered alternate years.  
Summers only—Study Abroad Program.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

BIOL 266  
Sacred and Medicinal Plant Use  
3 Semester Hours  
The sacred and medicinal use of plants and hallucinogenic fungi by traditional and modern cultures, including the biological basis for their use.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

</table>
BIOL 312
Field Botany
4 Semester Hours
The identification, distribution, evolution, and ecological relationships of the native plants of Southern California.
Lecture, 3 hours; Laboratory, 4 hours; 4 weekend field trips.
Prerequisites: BIOL 102, 111; CHEM 110, 111; MATH 122 or 131.

BIOL 315
World Vegetation Ecology
3 Semester Hours
Characteristics and distribution of the major vegetation types of the world, emphasizing environmental conditions, plant adaptations, and ecosystem processes.
Prerequisites: BIOL 102, 111; CHEM 110, 112.

BIOL 316
Island Biology
3 Semester Hours
Island biogeography and evolution, dispersal, adaptive radiation, gigantism/dwarfism, flightlessness, reproductive biology, endemism, and relictualism.
Lecture, 3 hours.
Prerequisites: BIOL 101 and 102.

BIOL 318
Principles of Ecology
3 Semester Hours
Study of interactions between organisms and their physical environment, population ecology, biotic communities and ecosystems.
Lecture, 3 hours; 2 weekend field trips.
Prerequisites: BIOL 102, 111; CHEM 110, 112; MATH 122 or 131.

BIOL 319
Ecology Laboratory
1 Semester Hour
Laboratory and field investigation of ecological relationships.
Laboratory, 4 hours.
Prerequisite: BIOL 318 or concurrent enrollment.

BIOL 328
Tropical Marine Ecology
3 Semester Hours
Field studies of the tropical marine habitats on Isla Roatán, Honduras. This includes the examination of physical, chemical, and ecological aspects as applied to coral reefs, mangroves, seagrass beds, and intertidal communities.
Summer only—Study Abroad Program.
Prerequisites: BIOL 101, 102; CHEM 110, 112. Open water SCUBA certification highly recommended.

BIOL 329
Marine Ecology of Baja, California
3 Semester Hours
Field studies of subtropical, intertidal, and subtidal habitats along the coasts of Baja, California peninsula. Emphasis on community structure.
Summer only. Entire course held at the LMU Baja, California Biological Station.
Prerequisites: BIOL 102, 111; CHEM 110, 112.

BIOL 330
Embryology and Development
4 Semester Hours
The development of chordates with emphasis on experimental embryology and underlying molecular mechanisms.
Lecture, 3 hours; Laboratory, 4 hours.
Prerequisites: BIOL 202 or NTLS 375; CHEM 222, 223.

BIOL 332
Biology of African Wildlife
3 Semester Hours
Study of ecological, behavioral, and life history characteristics of selected African animals. Includes a two week study trip to eastern or southern Africa.
Summer only—Study Abroad program. Offered alternate years.
Prerequisites: BIOL 101, 102; CHEM 110, 112.

</table>
BIOL 499
Independent Studies
1-4 Semester Hours

All 500-level courses require consent of instructor.

BIOL 524
Malacology Research
2 Semester Hours

Studies on the functional morphology, ecology, and phylogeny of marine prosobranch gastropods.

Requires consent of instructor.
Prerequisite: BIOL 194 or concurrent enrollment.

BIOL 525
Subtidal Ecology Seminar
2 Semester Hours

An introduction to the ecology of subtidal systems including coral reefs, kelp forests, hard and soft bottoms, deep sea and pelagic communities.

Requires consent of instructor.

BIOL 526
Marine Pollution Seminar
2 Semester Hours

Study of the types of pollutants and their effect on marine organisms.

Requires consent of instructor.

BIOL 527
Benthic Ecology Research
2 Semester Hours

An introduction to underwater research techniques and studies of soft and hard bottom communities.

Requires consent of instructor.
Prerequisites: Basic open water SCUBA certification.

BIOL 528
Invertebrate Conservation Research
2 Semester Hours

Participation in research on topics in invertebrate conservation biology. Research may include ecological and/or genetic approaches and methodologies.

Requires consent of instructor.

BIOL 531
Developmental Genetics Research
2 Semester Hours

Investigation through original literature and laboratory experience of the ways in which genes direct development.

Requires consent of instructor.
Prerequisites: BIOL 194 or concurrent enrollment; BIOL 394, 494, or 594.

BIOL 532
Drosophila Genetics Research
2 Semester Hours

An introduction to the use of drosophila as a research tool in classical and molecular genetics.

Requires consent of instructor.
Prerequisites: BIOL 194 or concurrent enrollment; CHEM 220.

BIOL 535
Salamander Behavioral Ecology Research
2 Semester Hours

Participation in original research investigating behavioral ecology of amphibians. Research may focus on sexual selection and territoriality in salamanders.

Requires consent of instructor.

BIOL 542
Natural Products Seminar
2 Semester Hours

Direct experience in the preparation of food products made through microbiological action and characterization of biological parameters during the process.

Requires consent of instructor.
Prerequisite: BIOL 194 or concurrent enrollment.

BIOL 546
Physiology of Drugs Seminar
2 Semester Hours

An introduction into the pharmacology of certain drugs, their absorption, metabolism, use, misuse, abuse.

Requires consent of instructor.
BIOL 563  
Molecular Genetics Research  
2 Semester Hours  
Laboratory work in gene mapping and gene isolation.  
Requires consent of instructor.

BIOL 565  
Plant Developmental Biology Research  
2 Semester Hours  
Laboratory work in molecular and genetic analysis of plant development.  
Requires consent of instructor.  
Prerequisite: BIOL 194 or concurrent enrollment.

BIOL 569  
Ethnobotany Seminar  
2 Semester Hours  
An introduction to the mutual relationships between plants and traditional peoples with an emphasis on phyto medicines and sustainability.  
Requires consent of instructor.

BIOL 571  
Conservation Biology Seminar  
2 Semester Hours  
A survey of topics relating to the conservation of animals and plants, including extinction, genetic aspects, demography, insularization, threats to biodiversity, economics and politics, religious and ethical perspectives, and practical applications.  
Requires consent of instructor.

BIOL 577  
Tetrahymena Genetics Research  
2 Semester Hours  
An introduction to the production and analysis of genetic variants of the ciliated protozoan tetrahymena.  
Requires consent of instructor.  
Prerequisite: BIOL 194 or concurrent enrollment.

BIOL 583  
Quantitative Biology Seminar  
2 Semester Hours  
Mathematical and computer tools used in biology.  
Requires consent of instructor.

BIOL 585  
Issues in Biotechnology Seminar  
2 Semester Hours  
An interdisciplinary seminar series bringing together faculty from different disciplines to present and discuss topics in biotechnology. Examples include sustainable agriculture, advances in medicine and biotechnology, legal and ethical considerations and biotechnology, the environment and biotechnology, the manipulation of biological machinery (proteins), the fusion of engineering and biotechnology (nanotechnology), the business of biotechnology.  
Requires consent of instructor.

BIOL 587  
Molecular Mechanisms in Development Seminar  
2 Semester Hours  
An exploration of current research utilizing molecular/genetic techniques to study developmental biology.  
Requires consent of instructor.

BIOL 594  
Independent Research  
1-4 Semester Hours  
Independent research in a faculty laboratory. Results must be presented formally.

BIOL 598  
Special Studies  
1-3 Semester Hours  
Requires consent of instructor.

BIOL 599  
Independent Studies  
1-3 Semester Hours
Chemistry and Biochemistry

Faculty:
Chairperson: James A. Roe
Professors: William F. Cain, S.J., Rebecca D. Crawford, James M. Landry, James A. Roe
Associate Professors: S.W. Tina Choe, Thomas J. Reilly
Assistant Professors: Lambert A. Doezema, Jeremy E.B. McCallum, David A. Moffet

Chemistry and biochemistry are empirical sciences. In addition to intellectual mastery of the disciplines, the major programs also develop practical experimental skills. The LMU student obtains "hands on" experience, both in traditional synthetic and analytic bench chemistry, and with all the major contemporary methods and techniques, taking advantage of the department's complete instrumentation. This equipment includes preparative, separative, thermal analysis, and spectroscopic instruments. Besides ordinary laboratory apparatus, the student will work with a high speed centrifuge, HPLC, GC, GC-MS, DSC, FT-IR, UV-Vis, flame and furnace AA, fluorometer, and FT-NMR.

Because of the complex and sensitive nature of the equipment and techniques of chemistry and biochemistry, continued participation in the programs is contingent on appropriate development of the ability to work maturely and responsibly in the laboratory.

Chemistry

Objectives:
The Bachelor of Science degree program, approved by the Committee on Professional Training of the American Chemical Society, is designed to prepare the student not only for immediate entry into the profession of chemistry at the Bachelor's level but also for graduate study toward advanced degrees. It is also an excellent preparation for entry into medical, dental, and other health professional schools.

Major Requirements:

Lower Division Requirements: Chemistry

CHEM 110, 111, 112, 113, 220, 221, 222, 223. A grade of at least C (2.0) is required in each of these. CHEM 190; MATH 131 and 132; PHYS 101, 103, 201, and 203. With approval of the Chairperson, MATH 122 and 123; PHYS 253, 254, 255, and 256 may be substituted, as a complete package, for MATH 131 and 132; PHYS 101, 103, 201, and 203. Recommended elective: MATH 234.

Upper Division Requirements: Chemistry

34 upper division semester hours of chemistry, which will include CHEM 330, 340, 341, 342, 343, 360, 361, 370 or 470, 390, 391, 430, 431, 460, 461, 490, 491, and 560, but not 495.

Except for CHEM 390 and 490, a grade of at least C (2.0) must be obtained in each course included in the upper division requirements of the major.

Strongly recommended for those intending graduate study: CHEM 499 or 599.

A maximum of 12 semester hours of Chemistry/Biochemistry Co-op and/or Directed Research (CHEM 393, 493, 499, 599) may be included toward the 124-hour baccalaureate requirement.

Minor Requirements: Chemistry

CHEM 110, 111, 112, 113, 220, 221, 222, 223; plus a minimum of 7 upper division semester hours of CHEM courses including one upper division laboratory course. These must be selected under the direction of the Chairperson of the Department.

A grade of C (2.0) must be obtained in each course included in the minor.

No chemistry minor is available in conjunction with a biochemistry major. It is suggested that the student interested in in-depth study of both subjects should major in chemistry and minor in biochemistry.

Variances:

Petitions for waivers of departmental requirements or prerequisites should be addressed to the Chairperson of the Department.

Upper Division Requirements: Biochemistry

30 upper division semester hours of chemistry and biochemistry, which will include CHEM 340, 341, 346, 360, 361, 390, 391, 470, 471, 472, 473, 490, 491, and 537, 570, 580, or other advanced biochemical elective, but not CHEM 495. Three upper division courses in biology which will include BIOL 356 and two others selected from BIOL 330, 351, 353, 361, 371, 437, 439, 443, 445, or 449. It is recommended that this selection include one laboratory course or one molecular biology course. An additional advanced biochemistry elective may be taken in place of one of the upper division biology courses.

Students wishing to be awarded ACS certification may take CHEM 460 and 461 in place of one of the upper division biology electives.

Except for CHEM 390 and 490, a grade of at least C (2.0) must be obtained in each course included in the upper division requirements of the major.

Strongly recommended for those intending graduate study: CHEM 499 or 599.

A maximum number of 12 semester hours of Chemistry/Biochemistry Co-op and/or Directed Research (CHEM 393, 493, 499, 599) may be included toward the 124-hour baccalaureate requirement.

Biochemistry

Objectives:

The Bachelor of Science in Biochemistry degree program is designed to prepare the student for a career in the intensively active biochemistry or chemical biology fields, seeking to understand the functions and intricate interactions of those molecules that give rise to the phenomenon of life. There are many opportunities either for immediate entry into the field or for further study at the graduate level. In addition, for qualified students, biochemistry is one of the best preparations for entry into health professional schools.

The American Chemical Society is reviewing a proposal to certify the BS in Biochemistry as an approved “Chemistry with Biochemistry emphasis” degree.

Major Requirements:

Lower Division Requirements: Biochemistry

CHEM 110, 111, 112, 113, 220, 221, 222, and 223. A grade of at least C (2.0) is required in each of these. BIOL 101, 111, 112, 201, and 202; CHEM 190; MATH 131 and 132; PHYS 101, 103, 201, and 203. With approval of the chairperson, MATH 122 and 123; PHYS 253, 254, 255, and 256 may be substituted, as a complete package, for MATH 131 and 132; PHYS 101, 103, 201, and 203.

Minor Requirements: Biochemistry

BIOL 101, 111, 201; CHEM 110, 111, 112, 113, 220, 221, 222, 223, 370, or 470; and 4 additional upper division semester hours selected from CHEM 471, 472, 473, or 580 or other advanced biochemical elective including one upper division laboratory course. These must be selected under the direction of the Chairperson of the Department.

A grade of C (2.0) must be obtained in each course included in the minor.

Variances:

Petitions for waivers of departmental requirements or prerequisites should be addressed to the Chairperson of the Department.

### CHEM 110

**General Chemistry I**  
3 Semester Hours

Atomic theory, stoichiometry, properties of gases, solids, liquids, periodic law, solutions, thermochemistry, redox equations.

Lecture, 3 hours.

### CHEM 111

**General Chemistry I Lab**  
1 Semester Hour

Use of balance, atomic, molecular, and equivalent weights; molar volumes; introduction to gravimetric and titrimetric analysis.

Lecture and laboratory, 4 hours.

Prerequisite: CHEM 110 or concurrent enrollment.

### CHEM 112

**General Chemistry II**  
3 Semester Hours

Chemical kinetics, thermodynamics, acids and bases, equilibria, electrochemistry, descriptive chemistry.

Lecture, 3 hours.

Prerequisites: CHEM 110 and 111.

### CHEM 113

**General Chemistry II Lab**  
1 Semester Hour

Kinetics, redox, pH, electrode potentials, spectrophotometry, qualitative inorganic analysis.

Lecture and laboratory, 4 hours.

Prerequisite: CHEM 112 or concurrent enrollment.

### CHEM 190

**World of Chemistry and Biochemistry**  
1 Semester Hour

Introduction to chemistry/biochemistry as a program and a profession. How to study and succeed. How to plan a profession and a career.

Seminar, 2 hours.

CR/NC Grading only.

### CHEM 198

**Special Studies: Chemistry Topics**  
1-3 Semester Hours

### CHEM 199

**Independent Studies**  
1-3 Semester Hours

### CHEM 220

**Organic Chemistry I**  
3 Semester Hours

Lecture, 3 hours.

Prerequisites: CHEM 112 and 113.

CHEM 370
Introduction to Biochemistry
3 Semester Hours

Fundamentals of macromolecular structure, function, and central metabolic pathways as well as nucleic acid metabolism. Chemistry majors and non-majors. Not available for credit with CHEM 470 or CHEM 472.

Lecture, 3 hours.
Prerequisites: CHEM 222 and 223.

CHEM 390
Chemistry Seminar
1 Semester Hour

Regular attendance at Departmental Seminar Program. CR/NC grading only.

CHEM 391
Chemistry Seminar
1 Semester Hour

Regular attendance at Departmental Seminar Program and presentation of a seminar.

CHEM 393
Chemistry/Biochemistry Internship
1-3 Semester Hours

Research/Development work conducted in a professional chemical setting in a local government or industrial laboratory. Work includes both theory and laboratory practice on a project designed cooperatively by the laboratory's supervisory staff and LMU faculty. The project is jointly supervised by on-site staff and LMU faculty.

May be repeated for credit up to 6 seminar hours.

CHEM 398
Special Studies: Chemistry Topics
1-3 Semester Hours

CHEM 399
Independent Studies
1-3 Semester Hours

CHEM 430
Advanced Inorganic Chemistry I
3 Semester Hours

Chemical bonding treated from the viewpoints of valence bond, ligand field, and molecular orbital theories. Applied thermodynamics, kinetics, and acid-base concepts.

Lecture, 3 hours.
Prerequisites: CHEM 342 and 343.

CHEM 431
Advanced Inorganic Chemistry I Lab
1 Semester Hour

Inorganic synthesis using special methods such as furnace, dry box, high vacuum, and electric discharge. Resolution of stereoisomers, and determination of magnetic susceptibility.

Lecture and laboratory, 4 hours.
Prerequisites: CHEM 360, CHEM 430 or concurrent enrollment, CHEM 360.

CHEM 460
Instrumental Analysis
3 Semester Hours

Analytical methods using instrumental techniques, including gas and liquid chromatography, atomic, molecular, nuclear magnetic resonance, and mass spectroscopy.

Lecture, 3 hours.
Prerequisites: CHEM 340 and 341 or concurrent enrollment.

CHEM 461
Instrumental Analysis Lab
1 Semester Hour

Laboratory in selected methods of modern instrumental analysis, including gas and liquid chromatography, UV-visible spectroscopy, atomic absorption and plasma emission spectroscopy, Fourier-transform infrared spectroscopy, gas chromatography-mass spectrometry, nuclear magnetic resonance spectroscopy, laboratory computers.

Laboratory, 4 hours.
Prerequisites: CHEM 360, CHEM 460 or concurrent enrollment.
CHEM 470  
Biochemistry I  
3 Semester Hours  
Macromolecular structure and function; enzymology; bioenergetics and kinetics; major metabolic pathways.  
Biochemistry and chemistry majors. Not available for credit with CHEM 370.  
Lecture, 3 hours.  
Prerequisites: CHEM 222 and 223.

CHEM 471  
Biochemistry I Lab  
1 Semester Hour  
Techniques of protein purification, enzyme assay, and kinetics.  
Lecture and laboratory, 4 hours.  
Prerequisite: CHEM 370 or 470 or concurrent enrollment.

CHEM 472  
Biochemistry II  
3 Semester Hours  
Metabolic regulation; macromolecular structure, function, and synthesis; membrane transport. DNA and RNA metabolism and control. Biochemistry of vitamins and other nutrients. Protein biosynthesis.  
Lecture, 3 hours.  
Prerequisite: CHEM 470.

CHEM 473  
Biochemistry II Lab  
1 Semester Hour  
Techniques in lipid and carbohydrate analysis; enzyme regulation; enzymes as diagnostic tools, restriction enzymes.  
Lecture and laboratory, 4 hours.  
Prerequisites: CHEM 471 and 472 or concurrent enrollment.

CHEM 490  
Chemistry Seminar  
1 Semester Hour  
Regular attendance at Departmental Seminar Program.  
CR/NC grading only.

CHEM 491  
Chemistry Seminar  
1 Semester Hour  
Regular attendance at Departmental Seminar Program and presentation of a seminar.

CHEM 493  
Chemistry/Biochemistry Internship  
1-3 Semester Hours  
Research/Development work conducted in a professional chemical setting in a local government or industrial laboratory. Work includes both theory and laboratory practice on a project designed cooperatively by the laboratory’s supervisory staff and LMU faculty. The project is jointly supervised by on-site staff and LMU faculty.  
May be repeated for credit up to 6 semester hours.

CHEM 495  
Chemistry Teaching  
1-2 Semester Hours  
Guided teaching of the undergraduate laboratories. Credit/No-Credit grading only. May be repeated for additional credit.  
Prerequisite: Approval of Department Chair.  
May be repeated for credit up to 8 semester hours.

CHEM 497  
Introduction to Chemistry/Biochemistry Research  
1-3 Semester Hours

CHEM 498  
Special Studies: Chemistry Topics  
1-3 Semester Hours

CHEM 499  
Independent Studies: Directed Research  
1-3 Semester Hours  
May be repeated for credit up to 6 semester hours.

CHEM 530  
Advanced Inorganic Chemistry II  
3 Semester Hours  
Organometallic chemistry, boron hydrides and carboranes, inorganic polymers and complex chemistry of transition elements.  
Lecture, 3 hours.  
Prerequisite: CHEM 430.
CHEM 537  
Bioinorganic Chemistry  
3 Semester Hours  
The study of the function and structure of metal ions in biology: the properties and spectroscopy of metal ions; metalloproteins; the interaction between metal ions and DNA or RNA; introduction of metal ions into biological systems as probes and as drugs.
Lecture, 3 hours.
Prerequisite: CHEM 370, CHEM 470, or by consent of instructor.

CHEM 540  
Physical Methods in Chemistry  
3 Semester Hours  
Development of physical methods of analysis incorporating elements of group theory and molecular orbital theory. Molecular spectroscopy; nuclear magnetic, electron paramagnetic, and nuclear quadrupole resonance spectroscopy; magnetism; Mossbauer spectroscopy; and X-ray spectroscopy.
Lecture, 3 hours.
Prerequisites: CHEM 342 and 460.

CHEM 560  
Advanced Organic Techniques  
4 Semester Hours  
Modern synthetic reactions. Qualitative and preparative chromatographic methods. Determination of molecular structure by nuclear magnetic resonance and infrared spectroscopy.
Lecture, 2 hours; Laboratory, 8 hours.
Prerequisites: CHEM 222, 223, 342, 343, 360, 460, 461.

CHEM 580  
Medicinal Chemistry  
3 Semester Hours  
Chemical principles involved in design and formulation of drugs; their absorption, distribution, and elimination; and their interaction at possible active sites. Mechanism of action of specific groups of drugs are discussed.
Lecture, 3 hours.
Prerequisite: CHEM 370 or 470 or consent of instructor.

CHEM 598  
Special Studies: Chemistry Topics  
1-3 Semester Hours

CHEM 599  
Independent Studies: Directed Research  
1-3 Semester Hours  
May be repeated for credit up to 6 semester hours.
Civil Engineering and Environmental Science

Faculty:

Chairperson: William J. Trott
Professors: Michael E. Manoogian, Michael E. Mulvihill, Joseph C. Reichenberger, William J. Trott
Assistant Professors: Rachel G. Adams, Jose A. Saez
Adjunct Professor: Joseph Haworth

Description:

The civil engineer applies scientific and economic principles to plan, design, and oversee a wide variety of public and private projects which improve the quality of life, protect the environment, and facilitate economic growth. These projects include roads and highways, railroads, mass transit systems, airports, bridges, buildings, structures, harbors, flood control and drainage works, water supply, treatment and distribution systems, wastewater treatment and reuse systems, irrigation systems, pipelines, and power plants.

The civil engineering curriculum emphasizes practicality and design, supported by a strong background in scientific and mathematical concepts. The program provides a broad background in all aspects of civil engineering, providing our graduates with the flexibility to practice in any of the specialties or to pursue an advanced degree. The program provides an opportunity to get hands-on experience with classes in surveying as well as laboratories in fluid mechanics, hydraulics, soil mechanics, mechanics of materials, structures, steel, and reinforced concrete design. Engineering design experiences are integrated throughout the curriculum beginning with the freshman engineering courses and extending through the last semester of the senior year. Design courses provide working experience with computer software used in the profession. Group and team projects prepare the student for real world engineering experiences.

The civil engineering student can select courses and electives that emphasize environmental engineering as described below.

Objectives:

The Civil Engineering program has established the following program educational objectives that are consistent with the mission of the University and that describe the expected accomplishments of graduates during the first several years following graduation. Civil Engineering program graduates will:

1) Be productive in the civil engineering profession or other professional fields;

2) Further develop their professional and technical skills through graduate studies and continuing education;

3) Be involved with civil engineering professional organizations;

4) Uphold the code of ethics of the profession and be cognizant of social justice issues in the practice of civil engineering; and

5) Exhibit leadership in the practice of civil engineering.

To accomplish these program educational objectives, analysis and design courses in the fields of environmental, geotechnical, hydraulic, structural, and water resources engineering are offered in addition to preparatory courses in oral and written communications, mathematics, sciences, and basic mechanics. A broad base of theory and design is provided along with discussion of current issues and practices of the profession. Through class assignments, students will become proficient in the use of computers and pertinent software, spreadsheets, presentations, drawing, and geographical information system (GIS) programs. Integrated with these courses is the University core curriculum.

Design in Civil Engineering:

The civil engineering student participates in design projects throughout the curriculum both as an individual and as a member of a design team. The design experience varies in complexity as the student progresses through the program ending with the senior capstone design experience. Engineering design is the process of devising a system, component, or process to meet a specified need in an optimal manner. While the resulting design must stay within the appropriate specifications and constraints, consideration must also be given to economic, social, and environmental impacts and constructability. Accomplishing these varied goals requires creativity and involves considerable decision making. Many design projects are performed while part of a project team.
# Civil Engineering Curriculum

(132 S.H.)

## Major Requirements:

### Lower Division Requirements:

- CHEM 110, 111; CIVL 200, 210, 220; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; MECH 251; PHYS 101, 103, 201, 203.

### Upper Division Requirements:

- CIVL 302, 305, 310, 315, 340, 395, 400, 406, 410, 415, 450, 460; ELEC 313; ENGR 300, 400; ENVS 300, 320; Civil Engineering electives (3 semester hours).

### Environmental Engineering Emphasis within the Civil Engineering Major

(132 S.H.)

The civil engineering student may choose to take courses and electives emphasizing environmental engineering. Opportunities exist to take classes in aquatic chemistry; microbiology; air pollution control; and solid, hazardous, and industrial waste management.
Civil Engineering

CIVL 200
Mechanics of Materials
3 Semester Hours

Development of relationships between loads applied to an elastic body to stresses and deformations produced in the body, the relation between stresses and strains, approaches for finding necessary dimensions of a member with respect to material capabilities and design constraints, and a design project.

Lecture, 3 hours.

Prerequisite: ENGR 200.

CIVL 210
Surveying
3 Semester Hours

Study of basic surveying instruments and related computations for topographic surveys, horizontal and vertical curves, land surveying. Introduction to total station survey systems, computer applications, and design of highways.

Lecture, 2 hours; Laboratory, 4 hours.

Prerequisite: Sophomore standing.

CIVL 220
Autocad and GIS
3 Semester Hours

Computer aided drafting, design, and geographic information systems. The use of autocad as applied to civil engineering designs. Basic fundamentals of GIS using software packages such as Arcview and ARCAD.

Lecture, 2 hours; Laboratory, 3 hours.

Prerequisite: ENGR 140.

CIVL 302
Seismic Design of Structures
3 Semester Hours

Free and forced vibration of discrete single and multiple degree of freedom systems, continuous systems, design for earthquake loading, application of the Uniform Building Code to the seismic design of structures.

Lecture, 3 hours.

Prerequisite: CIVL 200.

The proper sequence of the University Core courses should be discussed with the student's advisor.
CIVL 305  
**Structural Theory**  
*4 Semester Hours*  
Analysis of determinate and indeterminate deformable structures using classical methods and an introduction to computer methods of analysis.  
Lecture, 3 hours; Laboratory, 3 hours.  
Prerequisite: CIVL 200.

CIVL 310  
**Fluid Mechanics I**  
*3 Semester Hours*  
Properties of fluids, fluid statics, kinematics, energy, hydrodynamics, momentum and dynamic forces, steady flow of compressible and incompressible fluids.  
Lecture, 3 hours.

CIVL 315  
**Fluid Mechanics II**  
*3 Semester Hours*  
A continuation of CIVL 310. Similarity and dimensional analysis, laboratory experiments with fluid flow phenomena, fluid measurements, pipe and open channel flow, forces on immersed bodies.  
Lecture, 2 hours; Laboratory, 3 hours.

CIVL 340  
**Analytical Methods in Civil Engineering I**  
*3 Semester Hours*  
Introduction to probability and statistics with an emphasis on techniques and applications useful in engineering.  
Lecture, 3 hours.  
Prerequisite: MATH 234.

CIVL 395  
**Engineering Economics and Decision Theory**  
*3 Semester Hours*  
The economic evaluation of engineering alternatives. Topics include: time value of money relationships, nominal and effective interest rates, present worth method, annual worth method, rate of return and incremental analysis, depreciation and income taxes, replacement analysis and benefit/cost analysis.  
Lecture, 3 hours.

CIVL 400  
**Fundamentals of Water and Waste-Water Treatment**  
*3 Semester Hours*  
Basic concepts of water quality management. Review of the chemical and biological basis for water and wastewater treatment and disposal.  
Lecture, 3 hours.  
Prerequisite: CIVL 310.

CIVL 406  
**Water Resources Planning and Design**  
*3 Semester Hours*  
Flood control hydrology including rainfall, unit hydrographs, flood frequency analysis, and flood routing. Development of surface and groundwater supplies, reservoir yield and operation, determination of water requirements, analysis of water supply and distribution systems, including reservoirs and pump stations.  
Lecture, 3 hours.  
Prerequisite: CIVL 315.

CIVL 410  
**Soil Mechanics**  
*4 Semester Hours*  
Physical and mechanical properties of soil, consolidation, settlement of structures, shear strength, analysis of earth pressures, bearing capacity, slope stability, flow through porous media, and open ended design problems.  
Lecture, 3 hours; Laboratory, 3 hours.  
Prerequisites: CIVL 200 and 310.

CIVL 411  
**Design of Foundations and Earth Structures**  
*2 Semester Hours*  
Design methods for foundations and earth structures. Design of footings and piles including stability and settlement, slopes, and retaining structures.  
Lecture, 2 hours.  
Prerequisite: CIVL 410.
<table>

<td>Open Channel Hydraulics</td>
<td>4</td>
<td>Steady uniform and non-uniform flow in open channels; design of channels, transitions, confluences, and culverts. Study of the elements of the hydrologic cycle related to open channel systems and computer-aided design of an open channel system. Lecture, 4 hours. Prerequisite: CIVL 315.</td>
</tr>
<tr>
<td>CIVL 511</td>
<td>Hydraulic Analysis and Design</td>
<td>2</td>
<td>Design and analysis of hydraulic structures and pump stations; rainfall-runoff models; determination of reservoir storage; unsteady flow and water hammer; flood routing techniques; sediment transport. Lecture, 2 hours.</td>
</tr>
</tbody>
</table>
**CIVL 512**  
Air Pollution Analysis  
2 Semester Hours  
Detailed analysis of emission sources, emission calculation methods, and air pollution controls. The dispersion of air pollutants in the atmosphere (fates and lifetimes, dispersion modeling methods). In-depth techniques of conducting risk assessments due to exposure to air pollutants.  
Lecture, 2 hours.

**CIVL 514**  
Groundwater Hydrology  
2 Semester Hours  
Theory of the movement and occurrence of water in a porous medium; steady and unsteady flow in confined and unconfined aquifers; Darcy’s law; equilibrium and non-equilibrium hydraulics of wells; computer applications.  
Lecture, 2 hours.  
Prerequisite: CIVL 315.

**CIVL 515**  
Industrial Waste Management  
2 Semester Hours  
Principles and methods of treatment and disposal of industrial wastes that may adversely affect the environment, including general characterization of wastes from industries of major significance and typical treatment processes involved. Regulatory constraints.  
Lecture, 2 hours.  
Prerequisites: CIVL 400 and ENVS 510.

**CIVL 548**  
Hazardous Substances Management  
2 Semester Hours  
The study of regulation and management strategies for environmental programs (hazardous substances) including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.  
Lecture, 2 hours.

**CIVL 549**  
Hazardous Waste Remediation  
2 Semester Hours  
This course provides an overview of the regulatory framework, site assessment and sampling techniques, and remediation technologies for hazardous waste sites. Emphasis is placed on cost-effective remediation technologies, regulatory agency coordination, and new emerging technologies for hazardous waste site clean-up projects.  
Lecture, 2 hours.

**CIVL 550**  
Fundamentals of Environmental Health Risk Assessment  
2 Semester Hours  
The fundamental technical aspects and non-technical policy aspects of environmental health risk assessments. Basics of environmental chemistry partitioning fate and transport of pollutants in the atmosphere and water; human exposure scenarios; fundamentals of toxicology and epidemiology.  
Lecture, 2 hours.

**CIVL 595**  
Structural Steel Design  
3 Semester Hours  
Theory and design of steel structures, component members, and connections using codes and specifications. Design projects.  
Lecture, 3 hours.  
Prerequisite: CIVL 200.

**CIVL 598**  
Special Studies  
1-4 Semester Hours

**CIVL 599**  
Independent Studies  
1-4 Semester Hours
Environmental Science

**ENVS 300**
Engineering Geology
*3 Semester Hours*

Atmospheric, aqueous, and igneous agencies; river and marine deposits, glaciers, earth movements, volcanos, earthquakes. Emphasis placed on factors affecting engineering projects; field trips.

Lecture, 3 hours.

**ENVS 320**
Introduction to Environmental Engineering
*2 Semester Hours*

Introduction to elements of water treatment, water pollution control, solid and hazardous waste disposal, and air pollution control. The interrelationships of the movement of pollutants between the land, air, and water media are discussed.

Lecture, 2 hours.

Prerequisites: Sophomore standing. College of Science and Engineering majors only.

**ENVS 420**
Environmental Systems Laboratory
*1 Semester Hour*

Chemical and microbiological tests and demonstrations for environmental systems.

Laboratory, 3 hours.

**ENVS 498**
Special Studies
*1-4 Semester Hours*

**ENVS 499**
Independent Studies
*1-4 Semester Hours*

**ENVS 510**
Chemistry for Environmental Engineers
*2 Semester Hours*

Review of inorganic chemistry with particular emphasis on solution equilibria and gas-solution interaction.

Lecture, 2 hours.

**ENVS 513**
Solid Wastes Engineering
*2 Semester Hours*

An application of current technology in the control, disposal, and recovery of value from solid wastes.

Lecture, 2 hours.

**ENVS 515**
Environmental Impact Reports
*2 Semester Hours*

An engineering perspective of managing projects through the California Environmental Quality Act (CEQA) process.

Lecture, 2 hours.

**ENVS 518**
Applied Oceanography
*2 Semester Hours*

A study of the physical, chemical, and biological characteristics of the oceans which must be considered in the design of wastewater outfalls, marine structures, etc.

Lecture, 2 hours.

**ENVS 525**
Inland Waters
*2 Semester Hours*

The structure and movement of water in lakes, rivers, and estuaries; cyclical and progressive changes of the physical, chemical, and biological composition of aquatic systems are discussed along with an explanation of lake remediation techniques.

Lecture, 2 hours.

Prerequisites: ENVS 510 and 544.

**ENVS 533**
Aquatic Chemistry
*2 Semester Hours*

Kinetics, equilibrium, and solubility concepts applied to natural water systems. Oxidation-reduction in the aquatic environment.

Lecture, 2 hours.

Prerequisite: ENVS 510.
ENVS 544
Applied Microbiology
2 Semester Hours

Emphasis on physical and biochemical aspects of bacterial metabolism and behavior as applied to environmental engineering; kinetics and energetics of microbial growth.

Lecture, 2 hours.

Prerequisites: CIVL 400 and ENVS 510.

ENVS 598
Special Studies
1-4 Semester Hours

ENVS 599
Independent Studies
1-4 Semester Hours
Electrical Engineering and Computer Science

Faculty:

Chairperson: Barbara E. Marino
Director, Computer Science: Philip M. Dorin
Professors: Philip M. Dorin, Tai-Wu Kao, John A. Page,
Richard G. Plumb, Paul A. Rude, Raymond J. Toal,
Nazmul Ula
Associate Professors: Stephanie E. August,
Barbara E. Marino
Assistant Professors: John David N. Dionisio, Lei Huang

Note: The computer science program is described immediately following the electrical engineering programs.

Electrical Engineering

Description:

The electrical engineering curriculum consists of classroom and laboratory experiences related to the following topics: engineering design, electrical and electronic circuits and models, control systems, communication systems and properties of electromagnetic waves, design of analog and digital systems, theory and design of computer systems, and organization and design of microprocessor-based computer systems.

The electrical engineering curriculum leads to the B.S.E. degree. Department criteria for graduation include completion of all courses in one of the two emphases, with a minimum grade-point average of C (2.0) in the Upper Division Requirements.

A minor field program in electrical engineering is also supported. Course work includes 18 semester hours to be determined in consultation with the Department Chairperson. All minor field programs require the approval of the student's major field faculty advisor and the Department Chairperson in the student's major field.

Accreditation:

The electrical engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700.

Objectives:

The electrical engineering program has established the following program educational objectives that are consistent with the mission of the University and the Frank R. Seaver College of Science and Engineering. The objectives describe the expected accomplishments of graduates during the first several years following graduation. The electrical engineering program graduates will:

1) Perform effectively as practicing engineers and/or successfully undertake graduate study in electrical engineering or related fields;
2) Meet the challenges of the future through continuing professional growth; and
3) Exhibit concern for service and justice through leadership within their profession, as well as the community as a whole.

These program educational objectives are met by providing a curriculum which has both breadth and depth. Engineering science and design, mathematics and basic sciences are significant components of the electrical engineering program. In addition to these traditional technical courses, and in keeping with the Jesuit tradition of educating the whole person, the curriculum includes core requirements in the humanities, communications, and the fine arts.

Opportunities for involvement in professional societies, student design competitions, and University co-curricular activities are plentiful and help to accomplish these objectives.

Design in Electrical Engineering

Design is interwoven throughout the electrical engineering curriculum, culminating in a formal senior design project course. Freshman and sophomore engineering courses provide an introduction to design. The two junior and first semester senior laboratory courses extend this design experience to the integration of material from the upper division electrical engineering courses. Finally, the senior design project experience builds on the analytical and theoretical background developed throughout the curriculum as well as topics covered in the University's core curriculum.
Electrical Engineering Curriculum

(128 S.H.)

Major Requirements:

Lower Division Requirements:

CHEM 110, 111; ELEC 232, 281; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245, 285; PHYS 101, 103, 201, 203.

Upper Division Requirements:

ELEC 301, 302, 333, 353, 354, 361, 371, 383, 400, 401, 402, 423, 424 and two courses selected from other offerings in Electrical Engineering; ENGR 400; MATH 355.

Electives:

One course selected from other offerings in the College of Science and Engineering with advisor approval.

The proper sequence of all courses should be discussed with the student’s advisor.

**Computer Engineering Emphasis within the Electrical Engineering Major**

(*128 S.H.*)

**Major Requirements:**

**Lower Division Requirements:**

- CHEM 110, 111; CMSI 185, 186, 281; ELEC 232, 281; ENGR 100, 140, 200; MATH 131, 132, 234, 245; PHYS 101, 103, 201, 203.

**Upper Division Requirements:**

**Electives:**

One CMSI elective and one course selected from other offerings in the Frank R. Seaver College of Science and Engineering. Both electives are to be approved by the student’s advisor.
### Electrical Engineering

#### ELEC 232
**Circuits**  
*3 Semester Hours*

Introduction to techniques in electrical circuit analysis, including branch, node, and mesh methods; Thevenin and Norton theorems; step and sinusoidal responses of RLC circuits; operational amplifier circuits; single phase power; mutual inductance, transformers, resonance.

Lecture, 3 hours.  
Prerequisites: CMSI 185 or ENGR 240; MATH 132; PHYS 201 recommended.

#### ELEC 260
**Introduction to Electricity and Applications**  
*3 Semester Hours*

Presentation of a brief history of electricity and electrical devices. Introduction to basic concepts of circuit and system analysis, electronic instruments, devices, and modern electric equipment. Demonstrations of concepts and devices are included.

Lecture, 3 hours.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

#### ELEC 281
**Logic Design**  
*3 Semester Hours*

Introduction to computer systems, number systems. Boolean algebra, combinational and sequential logic design, minimization and analysis techniques. Concepts of programmable logic devices.

Lecture, 3 hours.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

#### ELEC 301
**Junior Lab I**  
*3 Semester Hours*

Introduction to the use of contemporary lab equipment and techniques of measurement and experimentation; introduction to technical report writing; class is used to provide a laboratory experience related to junior level courses.

Laboratory, 3 hours; Lecture, 1 hour.  
Prerequisites: ELEC 281 and concurrent enrollment in ELEC 333 and 353 or permission of the instructor.

## ELEC 383
### Introduction to Microprocessors (ELEC)
3 Semester Hours

Basic concepts in design and organization of microprocessors and microcomputers. Assembly language programming design for incorporating peripheral devices in solving application designs. Not open to CMSI majors.

Lecture, 3 hours.

Prerequisite: ELEC 281.

## ELEC 384
### Introduction to Microprocessors (CMSI)
3 Semester Hours

Basic concepts in design and organization of microprocessor-based systems. Assembly language programming of microprocessors and the use of peripheral devices in solving application designs.

Lecture, 3 hours.

Prerequisites: CMSI 284 and ELEC 281.

## ELEC 385
### Computer System Design
3 Semester Hours

Lecture, 3 hours.

Prerequisite: ELEC 383 or 384.

## ELEC 398
### Special Studies
1-4 Semester Hours

## ELEC 399
### Independent Studies
1-4 Semester Hours

## ELEC 400
### Design Methodology
2 Semester Hours

An introduction to systems engineering, including a study of design methodology and development of professional project-oriented skills such as communication, team management, creative problem solving, interpersonal management, and leadership skills.

Lecture, 2 hours.

Prerequisite: Concurrent enrollment in ELEC 401.

## ELEC 401
### Senior Lab I
3 Semester Hours

Course is intended to provide a laboratory experience related to other senior level courses; emphasis is on design, technical report writing, and oral presentation.

Laboratory, 4 hours.

Prerequisites: ELEC 302, 354, 383, concurrent enrollment in ELEC 400.

## ELEC 402
### Senior Project
3 Semester Hours

A study of design methodology and development of professional project-oriented skills including communication, team management, creative problem solving, interpersonal management, and leadership skills. Team project activities are used to apply project-oriented skills to solution of design problems. Periodic design reports and design reviews are presented to and critiqued by the faculty and the design team.

Lecture, 1 hour; Laboratory, 3 hours.

Prerequisites: ELEC 400 and 401.

Corequisite: ENGR 400.

## ELEC 423
### Communications I
3 Semester Hours

Introduction to signals, spectra, Fourier Transforms, AM, FM, and digital communication systems.

Lecture, 3 hours.

Prerequisite: ELEC 371.

## ELEC 424
### Communications II
3 Semester Hours

Probability and random processes, correlation and power spectral density, noise and signal detection, analysis of communication links will be discussed.

Lecture, 3 hours.

Prerequisite: ELEC 423 or permission of the instructor.
ELEC 453  
Digital Integrated Electronics  
3 Semester Hours  
Extensive coverage of digital integrated circuit design, including TTL, NMOS, CMOS and BiCMOS digital logic circuits, Read Only Memory (ROM), and Random Access Memory (RAM).  
Lecture, 3 hours.  
Prerequisites: ELEC 281 and 354.

ELEC 462  
Microwave and Optical Communications  
3 Semester Hours  
Applications of electromagnetic theory. Topics include transmission lines, waveguides, impedance transformations and matching, passive devices, scatter parameters and their applications in circuits, antennas and wave propagation, fiber optics, and other communication links.  
Lecture, 2 hours; Laboratory, 3 hours.  
Prerequisite: ELEC 361.

ELEC 472  
Control Systems  
3 Semester Hours  
Analysis and design of feedback systems using root locus, Bode, Nyquist, and state variable techniques; introduction to discrete feedback control system analysis.  
Lecture, 3 hours.  
Prerequisite: ELEC 371.

ELEC 481  
Introduction to Computer Networks  
3 Semester Hours  
This course provides a basic introduction to computer networking. The topics covered include: types and uses of computer networks, data transmission, protocols and protocol layering, packets, message transactions, layered architecture, and a client-server introduction.  
Lecture, 3 hours.  
Prerequisites: Senior standing and permission of instructor.

ELEC 498  
Special Studies  
1-4 Semester Hours

ELEC 499  
Independent Studies  
1-4 Semester Hours

ELEC 521  
Introduction to Communication Systems  
3 Semester Hours  
The concept of signal formulation, modulation, transmission and reception, and demodulation of signals in noise will be discussed.  
Prerequisites: ELEC 423 and 532, or equivalents.

ELEC 525  
Digital Signal Processing  
3 Semester Hours  
The representation, analysis, and processing of discrete signals are discussed. Topics include sampling, quantization, Z-transform of signal, discrete Fourier and fast Fourier transforms, analysis and design of digital filters, and spectral estimation of random digital signals.  
Prerequisite: ELEC 371.

ELEC 532  
Probability and Random Processes  
3 Semester Hours  
A study of the concepts of probability, random variables, and stochastic processes. The topics of correlation, power spectral density, and linear mean-square estimation are included.  
Prerequisite: Senior or graduate standing.

ELEC 561  
IC Fabrication Processes  
3 Semester Hours  
Overview of processes in manufacture of integrated circuits. Topics include: single crystal growth, oxide growth, photolithographic processes, ion implantation and impurity diffusion, metal deposition, and passivation and packaging of chips. Use is made of Unix workstations for modeling and simulation.  
Prerequisite: ELEC 353 or equivalent.

ELEC 562  
Digital System Design with VHDL  
3 Semester Hours  
Computer aided design of digital VLSI (Very Large Scale Integrated) systems using Very High Speed Integrated Circuits (VHSIC) Hardware Description Language (VHDL).  
Prerequisites: ELEC 281 and 383, or equivalents.
ELEC 563
ASIC Design
3 Semester Hours

Topics include programmable logic devices and gate array architectures, programmability of PLDs and gate arrays, field programmable gate arrays (FPGAs), and applications of FPGAs in digital system design. Course includes laboratory experiments and extensive use of Computer Aided Design tools.

Prerequisite: ELEC 383 and 562, or permission of instructor.

ELEC 567
Introduction to Digital VLSI Design
3 Semester Hours

Custom and semi-custom design of VLSI circuits using standard cells, design methodologies of advanced complementary metal-oxide-semiconductor (CMOS) circuits, and simulation of designed circuits will be emphasized. At the end of the semester, circuits designed by the students will be sent for fabrication through MOSIS and later tested by the students for functionality.

Prerequisite: ELEC 383 or permission of instructor.

ELEC 583
Finite State Machines
3 Semester Hours

An introduction to the theory and design of finite state automata and sequential machines.

Prerequisite: ELEC 281 or equivalent.

ELEC 584
Introduction to Microprocessors II
3 Semester Hours

Design and applications of 32-bit microprocessors. Topics include: basic concepts, software, architecture, programming, interfacing, and system design. (Not open to students with credit in ELEC 384.)

Prerequisite: ELEC 383 or equivalent.

ELEC 585
Computer Organization and Architecture
3 Semester Hours

System structure of minicomputers and main frame computers. Structured memory based systems; parallel and multiunit processors; introduction to input/output processing.

Prerequisite: ELEC 385 or equivalent.

Computer Science

Description:

The computer science curriculum consists of classroom and laboratory experiences related to the following topics: algorithms and data structures, theory and design of computer programming languages and systems, operating systems, compilers, computer graphics, distributed systems, interactive multimedia, object technologies, network programming, and organization and design of microprocessor-based computer systems.

The B.S. degree is awarded upon successful completion of the computer science curriculum. Department criteria for graduation include completion of all courses in the curriculum with a minimum grade point average of C (2.0) in the Upper Division Requirements listed below.

Two minor field programs in computer science are also offered. Students may select from:

- One program which emphasizes algorithms and data structures (CMSI 185, 186, 281, 284, plus two upper-division CMSI electives), or
- One which emphasizes interactive multimedia (CMSI 252, 361, 461, 462, plus ART 260 and 366).

Objectives:

The program educational objectives for graduates are: 1) preparation for professional practice; 2) preparation for advanced study; 3) promotion of the ideas of life-long learning; 4) development of self-fulfillment through professional activity; and 5) development of ethical values and personal responsibility.

The program educational objectives are met by providing a curriculum which follows contemporary guidelines for computer science. Mathematics and digital hardware courses are important components of the curriculum. In addition to these traditional technical courses, and in keeping with the Jesuit tradition of educating the whole person, the curriculum includes core requirements in the humanities, communications, social sciences, and the fine arts.

Opportunities for involvement in professional societies, student design competitions, and University co-curricular activities are plentiful and help to accomplish these objectives.
## Computer Science Curriculum

**Major Requirements:**

**Lower Division Requirements:**

- CMSI 185, 186, 281, 282, 284; ELEC 281; MATH 131, 132, 248.

**Upper Division Requirements:**

**Electives:**

Twenty-one (21) semester hours designated as electives are to be selected as follows:

(a) At least nine semester hours to be selected from:

- 300 and 400-Level CMSI courses and/or MATH 321, 331, 357, 471, or 500-level MATH courses.

(b) At least twelve semester hours of science electives, including a two-semester sequence of laboratory science.

### Freshman Year

**Fall Semester**

- CMSI 185 Computer Programming ..........3
- ENGL 110 College Writing .....................3

- **Total:** 13

The proper sequence of the University core courses should be discussed with the student's advisor.

---

### Computer Science

**CMSI 182**  
*Introduction to Computer Science*  
*3 Semester Hours*

Great ideas in computer science, including some programming using a contemporary programming language.

Lecture, 3 hours.

**CMSI 185**  
*Computer Programming*  
*3 Semester Hours*

Introduction to algorithms and computer programming using Java.

Lecture, 3 hours.

**CMSI 186**  
*Programming Laboratory*  
*3 Semester Hours*

Workshop in Java programming, treating one medium-sized application every two weeks in a laboratory setting. Typical projects: discrete simulation, randomized estimation, maze solving, dynamic programming, large-number arithmetic, numerical methods, GUIs.

For majors and minors only.

Prerequisite: A grade of C (2.0) or better in CMSI 185.

**CMSI 252**  
*Introduction to Interactive Applications*  
*3 Semester Hours*

Creation of interactive applications using tools such as Flash and Director, as well as accompanying languages and utilities; model-view-controller paradigm; construction of user interfaces; integration and editing of still images, audio, and video; interactive Web applications.

Lecture, 3 hours.

</tbody>
</table>

**CMSI 284**  
Computer System Organization  
3 Semester Hours  
Basic principles of computer systems. Topics include: data representations, instructions and instruction formats, assemblers and assembly languages, linking and loading, process execution, interrupt and device-handling, file management, and mixed-language programming. Lecture, 3 hours.  
Prerequisite: CMSI 281.

**CMSI 298**  
Special Studies  
1-3 Semester Hours

**CMSI 299**  
Independent Studies  
1-3 Semester Hours

**CMSI 342**  
Object Technologies  
3 Semester Hours  
Software design and implementation using object-oriented and component technologies. Topics include: object-oriented concepts such as classes, interfaces, inheritance, polymorphism, and message passing; design patterns; integrated data exchange. Technologies covered include UML, EJB, XML, and object-oriented languages. Lecture, 3 hours.  
Prerequisite: CMSI 281.

**CMSI 361**  
Internet Technologies  
3 Semester Hours  
Introduction to the Internet and related technologies for storage and delivery of interactive multimedia content. Topics include: protocols, XML, XHTML, CSS, JavaScript, Perl, Java, SMIL, building web applications, multimedia content, databases, JSP, RSS, security, current trends, and future directions. Lecture, 3 hours.
**CMSI 365**  
Enterprise Production Practicum  
1-3 Semester Hours

The design, construction, and management of an online information system. Experience will be gained producing an in-use online system with emphasis on stability and usability for the target audience.

Prerequisite: Consent of instructor.

This course may be repeated for up to 3 semester hours of credit.

---

**CMSI 371**  
Computer Graphics  
3 Semester Hours

Introduction to interactive computer graphics, emphasizing raster-scan techniques. Topics include the design and use of graphics packages and standards, graphics engines, animation, the user-system interface, three dimensional modeling, ray tracing, and fractal geometry.

Lecture, 3 hours.

Prerequisite: CMSI 281.

---

**CMSI 385**  
Introduction to the Theory of Computation  
3 Semester Hours

Introduction to the formal theory of computation. Topics include: finite automata and regular sets; context-free grammars and pushdown automata; Turing machines and computability; intractability and NP-completeness.

Lecture, 3 hours.

Prerequisites: CMSI 281 and MATH 248.

---

**CMSI 386**  
Programming Languages  
3 Semester Hours

A comparative study of the rationale, concepts, design, and features of several major programming languages. Topics include the role of bindings, control flow, types, subroutines, modules, objects, and concurrency. Major attention is given to C++, Java, ML, Perl, Ada, and XSLT.

Lecture, 3 hours.

Prerequisite: CMSI 284.

---

**CMSI 387**  
Operating Systems  
3 Semester Hours

Concepts in the design of operating systems, including: processes, process management, mutual exclusion, synchronization and message-passing, primary memory management, multiprogramming, paged allocation and paging policies, resource and I/O management, file systems, and security. Major emphasis is placed on UNIX and NT architectures and C-language system programming.

Lecture, 3 hours.

Prerequisite: CMSI 284 or ELEC 383.

---

**CMSI 398**  
Special Studies  
1-4 Semester Hours

**CMSI 399**  
Independent Studies  
1-4 Semester Hours

---

**CMSI 401**  
Software Engineering Lab  
3 Semester Hours

Design and implementation of large programs in a group setting, including use of the Unified Modeling Language (UML) for specifying, visualizing, and documenting models.

Lecture and Laboratory, 3 hours.

Prerequisite: Consent of instructor.

---

**CMSI 402**  
Senior Project Lab  
4 Semester Hours

Analysis, design, implementation, and presentation of a large-scale, individual project, demonstrating mastery of the computer science curriculum.

Lecture and Laboratory, 4 hours.

Prerequisite: Consent of instructor.
CMSI 461  
Multimedia Design  
3 Semester Hours

Multimedia program development, including project concept, audience analysis, needs analysis, creative and visual treatments, CD-ROM and World Wide Web technical issues, interface design, media formats, authoring languages, and multimedia project management. A project requires that students design a multimedia program leading to a proof-of-concept prototype.

Lecture, 3 hours.

Prerequisite: Consent of instructor.

CMSI 462  
Multimedia Production  
3 Semester Hours

Production of medium to large-scale multimedia programs including usability analysis, detailed design, script writing, media production, audio production, graphics production, authoring, program engine development, media integration, packaging, marketing, and duplication. A project requires that students produce a multimedia program leading to a web site and CD-ROM distribution.

Lecture, 3 hours.

Prerequisite: CMSI 461.

CMSI 475  
Computational Complexity  
3 Semester Hours

Introduction to the study of computational complexity, including efficient algorithms for matrix multiplication and fast Fourier transforms, the classes P and NP, approximation algorithms, randomized algorithms and RP, parallel algorithms and NC.

Lecture, 3 hours.

Prerequisites: CMSI 282 and 385.

CMSI 485  
Artificial Intelligence  
3 Semester Hours

Introduction to the theory and applications of artificial intelligence. Topics include heuristic search theory, knowledge representation and symbolic reasoning, natural language understanding, and machine learning.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386.

CMSI 486  
Introduction to Database Systems  
3 Semester Hours

Theory and design of database systems, with emphasis on relational and object-oriented models. Topics include semantic data modeling, database languages, data integrity, physical database design, normalization, indexing, query processing, transaction management, and concurrency control.

Lecture, 3 hours.

Prerequisites: CMSI 386 and 387.

CMSI 488  
Compiler Construction  
4 Semester Hours

Introduction to the theory and design of translators for high-level computer programming languages. Topics include programming language specification, scanner construction, parser construction, intermediate representations, code generation, and optimization. Coursework includes implementation of a compiler.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386.

CMSI 498  
Special Studies  
1-4 Semester Hours

CMSI 499  
Independent Studies  
1-4 Semester Hours

CMSI 583  
Theory of Computation  
3 Semester Hours

Finite automata, regular sets; context-free grammars, pushdown automata; context-free languages; Turing machines, decidable and undecidable problems; complexity, intractability, and NP-completeness.

Lecture, 3 hours.

Prerequisite: CMSI 281.
CMSI 585
Programming Languages
3 Semester Hours

Introduction to the principles of programming language design and implementation via a comparative study of several major languages. Topics include syntactic and semantic specification, bindings, control flow, types, subroutines, modules, objects, and concurrency. Major attention is given to C++, Java, ML, Perl, and Ada.

Prerequisites: CMSI 284 and 386.

CMSI 587
Operating Systems
3 Semester Hours

Topics in the design of operating systems with emphasis on large-scale multiprocessing, multiprogramming, and distributed environments. Topics include process scheduling, interprocess communication, I/O management, virtual memory management, file systems, and network, distributed, and real-time operating systems.

Prerequisite: CMSI 284.

CMSI 588
Compiler Construction
3 Semester Hours

Topics in the theory and design of compilers and interpreters for high-level programming languages, including scanners and scanner-generators, context-free grammars and pushdown automata, parser construction, code generation, syntax-directed translation, error analysis and recovery, and optimization and data-flow analysis.

Lecture, 3 hours.

Prerequisites: CMSI 583 and 585.
General Engineering

A General Engineering curriculum is offered during the first three semesters in which all requirements are nearly identical regardless of major. This provides maximum flexibility since students can switch to any major at any time during their first three semesters without losing any time or credit. During this period, students can be classified as "Undecided Engineering" or can opt for one of the engineering majors—civil, electrical, or mechanical engineering. The principles and concepts that students learn during the General Engineering curriculum provide the foundation necessary for more advanced study in all engineering disciplines.

The freshman engineering faculty advisor advises all engineering students during the first three semesters. Students must consult each semester with the freshman advisor and register for the appropriate courses listed under the General Engineering curriculum. Any variation from the recommended paradigm must be approved by the freshman advisor.

Unless unusual circumstances suggest otherwise, a commitment to a particular major should be made before the second semester of the sophomore year. Students will then be assigned to a faculty advisor within their major. The Office of the Registrar must be informed whenever a student changes or declares a major.

* Students following the Computer Engineering emphasis take CMSI 185, Computer Programming, in place of ENGR 240 (see Electrical Engineering).

ENGR 100

Introduction to Engineering Analysis and Problem Solving

3 Semester Hours

This course is designed to excite an interest in the engineering profession, establish a foundation of proper study skills, encourage creativity, stimulate cooperative learning, enhance communication skills, improve problem solving skills, introduce the design process, and develop a working knowledge of spreadsheets and word processing.

Lecture, 2 hours; Workshop, 2 hours.

ENGR 140

Engineering Graphics and Design

3 Semester Hours

Visualization, sketching and drawing of 2- and 3-dimensional objects using perspective, isometric, oblique and orthographic projection techniques. Traditional (manual) drafting and computer-aided drafting using AutoCAD are both emphasized. Layout, detail, and assembly drawings for product design and fabrication are completed. Engineering design projects.

Lecture, 2 hours; Laboratory, 2 hours.
ENGR 200
Statics
3 Semester Hours

Resultants of force systems, free-body diagrams, equations of equilibrium and their applications, analysis of trusses, centroids and moments of inertia, shear and moment diagrams.

Lecture, 3 hours.

Prerequisite: PHYS 101.

Co-requisite: MATH 132.

ENGR 240
Algorithms and Applications
3 Semester Hours

The development of algorithms for the computer solution of engineering problems and the implementation of the algorithms using spreadsheets and programming languages.

Lecture, 3 hours.

ENGR 300
Fundamentals of Engineering (FE) Examination
0 Semester Hours

Prerequisite: Junior standing.

ENGR 400
Senior Seminar
0 Semester Hours

Presentations emphasizing ethics; economics; societal, political, and global issues; lifelong learning; and contemporary engineering issues.

Lecture, 1 hour.

Prerequisite: Senior standing.
Mathematics

Faculty:
Chairperson: Jacqueline M. Dewar
Professors: Lev Abolnikov, Michael Berg,
Jacqueline M. Dewar, Ben F. Fitzpatrick,
Michael D. Grady, Suzanne Larson, Herbert A. Medina,
David M. Smith, Connie J. Weeks, Warren S. Wright,
Dennis G. Zill
Associate Professors: Curtis D. Bennett, Lily S. Khadjavi,
Patrick D. Shanahan, Thomas Zachariah
Assistant Professors: Erika T. Carnacho, Alissa S. Crans,
Blake Mellor, Edward C. Mosteig

Objectives:
Mathematics, as an intellectual activity, is both an art and a powerful tool for problem solving and for understanding the physical universe. A mathematics major explores the different facets of the discipline through a broad spectrum of courses in applied, computational, and pure mathematics. In addition to exploring mathematics, a student majoring in mathematics takes classes from other fields (e.g., science and education) that help her/him prepare for her/his chosen career. The Department's programs allow a student to focus on different aspects of the discipline and lead to one of three undergraduate degrees:
- Bachelor of Arts with a major in Mathematics
- Bachelor of Science with a major in Mathematics
- Bachelor of Science with a major in Applied Mathematics

The Department offers minors in Pure Mathematics, Applied Mathematics, and Secondary Education Mathematics. These minors are designed for students majoring in another field (e.g., engineering, physics, business, economics, computer science, or Liberal Studies) who wish to develop an undergraduate background in mathematics that goes beyond the requirements of their degree program.

In addition to its major and minor degree programs, the Mathematics Department serves every department in LMU's four Colleges, the School of Film and Television, and the School of Education through the core curriculum and by providing students in other majors courses designed to serve the intellectual needs of their fields of study.

Mathematics Placement Examination:
The purpose of this examination is to determine the level of preparation of the student and to place him/her in the appropriate mathematics course. Any student with three years of high school mathematics including two years of algebra and one year of geometry should be adequately prepared to take this examination. However, students may wish to review these areas.

All first-year students who are majoring in the Frank R. Seaver College of Science and Engineering or the College of Business Administration, or who are Economics majors or Liberal Studies majors, must take the mathematics placement examination. Psychology majors are required to take MATH 104. All other majors are required to take MATH 102 or higher (see the section on Proficiency in Mathematics).

All students transferring into the Frank R. Seaver College of Science and Engineering or the College of Business Administration, or who are Economics majors or Liberal Studies majors, must take the mathematics placement examination unless they have transferred a college algebra or higher level college mathematics class approved by the Mathematics Department before entering LMU.

Any student, no matter his or her major, planning to take MATH 106, 111, 112, 120, 122, or 131 and who has not transferred a college algebra or higher level college mathematics class required first to take the mathematics placement examination.

General Major Requirements:
Students must complete the corresponding Bachelor of Arts or Bachelor of Science University Core requirements as defined by the Frank R. Seaver College of Science and Engineering; students will choose the proper sequence of University Core courses in consultation with their advisor.

Mathematics majors and minors are not permitted to enroll in any mathematics course without a minimum grade of C (2.0) in that course's prerequisite. A minimum grade of C (2.0) is required in each course in the lower division major requirements. A minimum cumulative grade point average of C (2.0) is required in the upper division major requirements for graduation.
Lower Division Major Requirements:
MATH 131, 132, 190, 191, 234, 245, 248, 250, 282; one science course chosen from PHYS 101, 201; and CMSI 185, 281. The Bachelor of Science in Mathematics and the Bachelor of Science in Applied Mathematics degrees require an additional science course chosen from the PHYS and CMSI courses listed above; a second CMSI or PHYS course also may be counted towards the Bachelor of Arts degree in Mathematics (please see upper division requirements below).

Bachelor of Arts with a Major in Mathematics:
This major is designed for students who are interested in pursuing a career in teaching mathematics at the secondary (i.e., high school) level. With the help of her/his advisor, the student may design a schedule carefully so that she can complete the 2042 California Preliminary Single Subject (Secondary) Teaching Credential during her/his four years at LMU. Furthermore, a program may be designed that allows a student to complete the mathematics degree, credential, and a Master of Arts in Teaching Mathematics at LMU in five years including two summer sessions.  

Upper Division Requirements (11 courses):
MATH 321, 331, 357, 360, 490, 493 or 497, 550, and one additional 3-unit upper division MATH elective (excluding MATH 301, 302, 308, and 309) chosen in consultation with his/her advisor; EDUC 488; and two 3-unit EDUC courses chosen from the list of requirements for the preliminary single subject secondary credential or one such EDUC course and one course from BIOL 101, 102, 201, 202; CHEM 110, 112, 220; CMSI 185, 281, 282; or PHYS 101, 201.

Bachelor of Science with a Major in Applied Mathematics:
This degree program is designed for students who want a broad foundation in applied and computational mathematics. It is especially suited for students who intend to work in a mathematics-related field in industry. 

Upper Division Requirements (10 courses):
MATH 321, 322 or 357, 331 or 350, 355, 360, 495 or 497, 560, one of 561, 562, or 582; and two additional 3-unit courses chosen in consultation with his/her advisor from the following list: upper division mathematics classes numbered MATH 321 or higher; CIVL 310, 315; CMSI 282, 371, 385, 583; ELEC 232, 333, 361; PHYS 212, 301, 302, 321, 322.

Biomathematics:
Under the direction of an advisor, the student selects courses from the fields of biology, chemistry, computer science, and mathematics and obtains a Bachelor of Science degree through the Individualized Studies Program.

Any deviation from the above programs requires formal approval of the student’s advisor and the Department Chairperson.

Minor in Applied Mathematics Requirements:
At least 24 semester hours including MATH 131, 132, 234, 245; MATH 355, 360 or 366; MATH 321 (MATH 248 is a prerequisite for MATH 321, so the MATH 321 option requires 27 semester hours), 357, 560, or 562; and one additional 3 semester-hour upper division MATH course chosen in consultation with the applied mathematics minor advisor or MATH 248 and 250 (this option requires 27 semester hours). A cumulative grade point average of C (2.0) or better is required in the courses included in the minor.

Minor in Pure Mathematics Requirements:
At least 23 semester hours including MATH 131, 132, 248; MATH 234 or 250; MATH 321, 357, or 471; MATH 331 or 350; and one additional 3 semester-hour upper division MATH course chosen in consultation with the pure mathematics minor advisor. A minimum cumulative grade point average of C (2.0) is required in the courses included in the minor.
### Minor in Secondary Education Mathematics Requirements:

At least 24 semester hours including MATH 131, 132, 234, 248, 360, 490, and 550. A cumulative grade point average of C (2.0) or better is required in the courses included in the minor.

12

* HIST 162 satisfies both the U.S. Constitution requirement for the preliminary teaching credential and 3 units of the history core requirement. POLS 135 satisfies both the U.S. Constitution requirement for the preliminary teaching credential and 3 units of the social science core requirement.

** This course is required for the student who wishes to get a secondary teaching credential.

*** For the student who is working on the teaching credential, these units can be used for secondary directed teaching (EDUC 412).

- Elective...............................3
- Elective...............................3

Upon successful completion of MATH 248, the student must make an appointment with her/his advisor to discuss which of the three major programs the student wishes to pursue. The student should then contact the Chairperson of the Mathematics Department to have an upper division advisor appropriate to that major assigned.

* Either MATH 331 or MATH 350 is required (but not both) for the Bachelor of Science in Applied Mathematics.

** Either MATH 322 or MATH 357 is required (but not both) for the Bachelor of Science in Applied Mathematics.
### Senior Year

#### Fall Semester
- MATH 332* or MATH 350*
- MATH 357
- MATH 471** or MATH 473**

#### Spring Semester
- MATH 3yy
- MATH 491***
- MATH 497***

*Either MATH 332 or MATH 350 is required (but not both) for the Bachelor of Science in Mathematics.

** Either MATH 471 or MATH 473 is required (but not both) for the Bachelor of Science in Mathematics.

*** Either MATH 491 or MATH 497 is required (but not both) for the Bachelor of Science in Mathematics.

MATH 199  
Independent Studies  
1-4 Semester Hours

MATH 234  
Calculus III  
4 Semester Hours
Partial derivatives, multiple integrals, three-dimensional space, vectors in two- and three- dimensional space, line integrals, Green's theorem.
Prerequisite: MATH 132 or equivalent.

MATH 245  
Ordinary Differential Equations  
3 Semester Hours
Differential equations as mathematical models; analytical, qualitative, and numerical approaches to differential equations and systems of differential equations; and Laplace transform techniques.
Prerequisite: MATH 132 or equivalent.

MATH 248  
Introduction to Methods of Proof  
3 Semester Hours
Number theory, sets, functions, equivalence relations, cardinality, methods of proof, induction, contradiction, contraposition.
Prerequisite: MATH 132 or equivalent.

MATH 250  
Linear Algebra  
3 Semester Hours
Prerequisite: MATH 248 or consent of instructor.

MATH 261  
Mathematics: Contributions by Women  
3 Semester Hours
A study of the biographies and mathematics of women mathematicians from the 1st through the 20th centuries. Topics include prime numbers, conic sections, cycloid curve, functions, sequences, series, polyhedra, and group theory.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

MATH 264  
Cryptography throughout the Ages  
3 Semester Hours
A study of mathematical systems used for enciphering and deciphering information and the context in which these systems arose; in particular, encryption/decryption used during World War II and modern systems, including public key cryptography. Policy issues related to cryptography also will be studied.
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

MATH 282  
Elementary Numerical Methods  
3 Semester Hours
Computer solutions of applied mathematical problems using a procedural programming language and a computer algebra system. Nonlinear equations, differentiation, integration.
Prerequisite: MATH 131 or equivalent.

MATH 285  
Discrete Mathematics for Engineering  
3 Semester Hours
An introduction to basic counting; permutations; combinations; probability; the binomial distribution; set theory; generating functions; recurrence relations; with C programming.
Prerequisite: MATH 132 or equivalent.

MATH 293  
Mathematics Teaching Field Experience  
0 Semester Hours
Planned observation, instruction or tutoring experiences appropriate for future secondary or middle school mathematics teachers; related professional reading and reflections.

MATH 298

MATH 497
Senior Thesis
3 Semester Hours

This course is intended to provide the student with an opportunity to complete a substantive research project under the guidance of a faculty member. The student will prepare a written report and an oral presentation on the project at the end of the semester.

Prerequisite: Senior standing and the consent of both the Chairperson and a faculty thesis advisor.

MATH 498
Special Studies
1-3 Semester Hours

MATH 499
Independent Studies
1-3 Semester Hours

MATH 550
Fundamental Concepts of Geometry
3 Semester Hours

Euclidean and non-Euclidean planar geometries, axiomatic systems, synthetic and analytic representations, relationships with algebra, and selected topics and applications.

Prerequisites: MATH 248 and 250.

MATH 560
Advanced Topics in Probability and Statistics
3 Semester Hours

Material to be covered will be determined by the instructor. Consult with the instructor for the specific topics in probability and statistics that will be covered in any given semester.

Prerequisites: MATH 234 and 360.

MATH 561
Computational Methods in Linear Algebra
3 Semester Hours

Numerical solutions of linear systems of equations, Gauss elimination and iterative methods, eigenvalues and eigenvectors.

Prerequisites: CMSI 185 or MATH 282, and MATH 250 or consent of instructor.

MATH 562
Numerical Analysis
3 Semester Hours

Prerequisites: CMSI 185 or MATH 282, and MATH 245 or consent of instructor.

MATH 568
Mathematical Methods of Operations Research
3 Semester Hours

Linear and dynamic programming, network analysis, inventory control.

Prerequisite: MATH 360.

MATH 575
Introduction to Orbit Determination
3 Semester Hours

A brief introduction to Banach and Hilbert spaces, the Projection Theorem, linear minimum variance estimates, the Kalman filter, variational equations and orbit determination examples. The final exam is a computer problem that involves tracking a spacecraft orbiting an asteroid by means of Doppler measurements.

Prerequisites: MATH 245, 250, and consent of instructor.

MATH 582
Analysis of Algorithms
3 Semester Hours

Design, comparison, and analysis of mathematical algorithms, including implementation and testing using Fortran.

Prerequisite: CMSI 185 or MATH 282 or consent of instructor.
Mission:
The mission of the Mechanical Engineering Department is to provide a high quality, practice-oriented, design-focused curriculum that prepares students for both graduate studies and leadership roles in industry.

Objectives:
The Mechanical Engineering program has established the following program educational objectives that are consistent with the University’s mission and the department’s program outcomes. They are supported through major requirements, core curriculum, research activities, national engineering programs, design competitions, internships, professional society involvement, and extracurricular activities. During the first 3-5 years after graduation, Mechanical Engineering graduates will:

1. Advance in their professional careers and pursue graduate studies and continuous learning in areas relevant to their long-term goals;
2. Demonstrate leadership in professional activities such as research, experimental studies, and industrial projects;
3. Be capable of working effectively in cross-functional teams, communicating effectively, and participating in the practice of mechanical engineering design; and
4. Contribute to professional societies and demonstrate ethical conduct.

These program educational objectives are accomplished through the major requirements, the core curriculum, design competitions, internships, professional society involvement, and extracurricular activities.

Design in Mechanical Engineering:

Engineering design is the key task of the engineer. It is the process of creatively conceiving a system, component, or process to meet a specified societal need in an optimal manner. While the resulting design must satisfy the appropriate specifications and constraints, consideration must also be given to economics, social impact, marketability, manufacturability, product support, environmental impact, safety, and final disposition. The Mechanical Engineering faculty have adopted a methodology of design which guides the student through the design process. The steps of this methodology are studied and practiced in the Mechanical Engineering curriculum. The course descriptions which follow reflect how the design methodology is integrated throughout the curriculum.
# Mechanical Engineering Curriculum (132 S.H.)

## Major Requirements:

### Lower Division Requirements:

- CHEM 110, 111; CIVL 200; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; MECH 231, 240, 251; PHYS 101, 103, 201, 203.

### Upper Division Requirements:

- CIVL 310, 395; ELEC 311, 312; ENGR 300, 400; MATH 355; MECH 300, 312, 315, 334, 340, 341, 342, 345, 353, 441, 483, 484, 488, 536, 550; Mechanical Engineering Elective (3 semester hours of 400- or 500-level MECH course work).

MECH 251
Thermodynamics
3 Semester Hours

The fundamental concepts of classical thermodynamics including properties, work and heat; first and second laws; entropy, irreversible processes, gas mixtures and combustion; and thermodynamic analysis of engine, refrigeration, and propulsion systems.

Lecture, 3 hours.

Prerequisites: Sophomore standing in engineering.

MECH 270
Materials
3 Semester Hours

Introduction to the chemistry and physics of different materials. Types of materials (metals, ceramics, polymers, and composites) and the relation between their structure and properties. Selection of materials in different applications.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

MECH 275
Energy and the Environment
3 Semester Hours

The basic concepts of temperature, heat, and energy conversion; various methods of energy conversion including stationary electric power plants, nuclear energy, solar heating and cooling, wind energy, geothermal energy, and ocean thermal energy; the effects of energy conversion on the environment.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

MECH 278
Automotive Technology
3 Semester Hours

An introduction to today's automotive technology, and the science that supports it, using a systems approach to automotive design. Automotive design, function, and features are discussed, along with the manufacturing processes involved in automotive construction and the effect of globalization on the automotive industry.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

</table>
MECH 596
Projects and Competitions
1-3 Semester Hours
Active participation in a team-oriented design project or competition, including: EV1 electric vehicle, Bio-diesel VW Golf, Solar Car Challenge, ASME Design Contest, SAE Formula One, SAE Mini-Baja, or others approved by the Department.

MECH 598
Special Studies
1-3 Semester Hours

MECH 599
Independent Studies
1-3 Semester Hours

MECH 559
Alternative Energy Technologies
3 Semester Hours
The analysis and design of various alternative energy production technologies and alternative fuel vehicles. Alternative energy production technologies include wind, solar, stationary fuel cells, bio-mass, geothermal, hybrid systems, etc. Alternative fuel vehicles include hybrides, ethanol, bio-diesel, fuel cells, electric, etc. The advantages and drawbacks of alternative energy technologies in comparison to conventional sources such as petroleum, natural gas, etc., are discussed. Case studies include the LMU University Hall solar panel system, the Toyota Prius, and the General Motors EV1.
Lecture, 3 hours.
Prerequisite: Junior or Senior standing in the College of Science and Engineering or permission of instructor.

MECH 560
Turbomachinery
3 Semester Hours
Analysis and design of compressors, pumps, and fans.
Lecture, 3 hours.
Prerequisite: Senior standing in Mechanical Engineering.

MECH 571
Design of Fluid-Thermal Systems
3 Semester Hours
The disciplines of thermodynamics, fluid mechanics, and heat transfer are reviewed and their principles applied to the design, selection, and analysis of pumps, pipes, heat exchangers, and power plants. Other topics include availability analysis, optimization, and design projects.
Lecture, 3 hours.
Prerequisite: Senior/Graduate standing.

MECH 595
Senior Research
1-3 Semester Hours
Research project consisting of experimental and/or theoretical studies under the direction of a faculty advisor.
Prerequisites: Senior standing and approval of Department Chairperson.
Natural Science

Bachelor of Science in Natural Science
  General Science Emphasis
  Pre-Physical/Occupational Therapy Emphasis
  Secondary Science Education Emphases

Bachelor of Science in Athletic Training

Bachelor of Science in Environmental Science

Faculty:

Chairperson: James M. Landry
Professor: James M. Landry
Assistant Professors: Hawley C. Almstedt, John H. Dorsey, David A. Ramirez, Carolyn M. Viviano

Traditionally the University has offered degree programs in the sciences and mathematics. Although these programs provide for a broad overall education, the major curricula requirements are by necessity somewhat restricted and limiting. The Natural Science Department offers programs of study applying basic scientific knowledge to either multidisciplinary fields of study or specialties not easily accommodated through the traditional science disciplines. The Department offers three majors: the Natural Science major, with emphases in General Science, Pre-Physical/Occupational Therapy, and Secondary Science Education; the Athletic Training major, and the Environmental Science major. All students in the Department of Natural Science are required to complete an Independent Studies course. This can be accomplished by carrying out a research project under the guidance of a faculty member or through an internship in the emphasis of interest.

Bachelor of Science in Natural Science

The Natural Science major fills a need within the University for a more flexible general undergraduate degree program with an emphasis on natural sciences. In addition, specialized programs within Natural Science provide prerequisite training for graduate programs in physical and occupational therapies (and other allied health professions) and content preparation for a high school teaching credential.

General Science Emphasis

Objectives:

The Natural Science major General Science emphasis is designed to serve those students interested in a broad education combining general science, engineering science, and liberal arts.

The program prepares students interested in the areas of law, business, elementary education, studio and graphic arts, journalism, and other professions for work where a science background could be an asset.

Major Requirements:

66 semester hours are to be taken from course offerings in the Departments of Biology, Chemistry, Mathematics, Natural Science, Physics, and Engineering.

Lower Division Requirements:

NTLS 190 and one additional course must be taken in Natural Science. At least two courses numbered 100-259 must be taken from the Departments of Biology, Chemistry, Mathematics, and Physics. MATH 112, 122, or 131 must be included. In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

27 semester hours must be taken in upper division offerings in the Departments of Biology, Chemistry, Natural Science, or Physics. This includes an upper division NTLS course with lab and two additional upper division laboratory courses. Up to 6 semester hours of internship courses, undergraduate research courses, and natural science teaching courses can be counted toward the upper division science requirement.

This requirement includes completion of 3 semester hours of Independent Studies at the senior level to enhance development of the student’s science program.

A student must have a C (2.0) average in upper division science courses.
Minor Requirements:

18 semester hours consisting of four courses at the lower division level (excluding NTLS 190) and two courses at the upper division level. In addition, one laboratory course is required.

This minor is not available to students within the College of Science and Engineering.

Minor Requirements:

18 semester hours consisting of four courses at the lower division level (excluding NTLS 190) and two courses at the upper division level. In addition, one laboratory course is required.

This minor is not available to students within the College of Science and Engineering.
The proper sequence of the University Core courses should be discussed with the student’s advisor. The course sequence in Mathematics depends on the results of the mathematics placement examination.

**Pre-Physical/Occupational Therapy Emphasis**

**Objectives:**

This emphasis provides the student with the required courses in science, mathematics, psychology, and liberal arts needed to apply to either physical therapy or occupational therapy graduate programs. In addition, students are required to do internship work in a physical therapy or occupational therapy setting. This internship experience helps satisfy the volunteer hours required by the physical therapy or occupational therapy graduate programs.

**Major Requirements:**

**Lower Division Requirements:**

- BIOL 101, 102, 111, 112, CHEM 110, 111, 112, 113; MATH 104, 122; NTLS 151, 152, 153, 154, 190; PHYS 253, 254, 255, 256; PSYC 100.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

**Upper Division Requirements:**

- 27 semester hours must be taken in upper division offerings in the Departments of Biology, Chemistry, Natural Science, or Physics and must include: NTLS 355, 356, 480, 485, and 495 or 496. Two additional upper division laboratory courses must be taken. Up to 6 semester hours of internship courses, undergraduate research courses, and natural science teaching courses can be counted toward the upper division science requirement.

Secondary Science Education Emphases

Objectives:

These programs of study provide a good grounding in basic scientific and mathematical principles appropriate for those interested in pursuing teaching careers at the secondary level. The programs consist of: a breadth of knowledge requirement specifying courses in Biology, Chemistry, Geosciences, and Physics, a concentration requirement which allows for in-depth study in Biology or Chemistry, and an education requirement. The secondary school programs are designed to meet the State Teacher Credential requirements for subject matter preparation in science and are currently under review.

* The course sequence in Mathematics depends on the results of the Mathematics Placement Examination.

** Completion of either course will satisfy a University Core requirement. Please see advisor for the proper sequence of the University Core courses.

*** The Department encourages all students to complete the internship requirement as early as possible. Most students do their first internship during the summer after their sophomore year.
### B.S. Degree in Natural Science

**Secondary Science Education in Chemistry Emphasis**
(126 S.H.)

*NATURAL SCIENCE*
Bachelor of Science in Athletic Training

Director: David A. Ramirez

The Athletic Training major is designed for students interested in pursuing a career as a certified athletic trainer. The profession of Athletic Training is recognized by the American Medical Association as an allied health profession. Certified Athletic Trainers (ATC) are members of the National Athletic Trainers’ Association (NATA) and are medical experts in preventing, assessing, managing, and rehabilitating injuries that result from physical activity. ATCs function as integral members of the health care team in professional sports organizations, colleges and universities, secondary schools, military branches, sports medicine clinics, industrial settings, and other health care venues.

Accreditation:

The Athletic Training major curriculum, referred to as the Athletic Training Education Program (ATEP), is seeking accreditation through the Commission on the Accreditation of Allied Health Education Programs (CAAHEP). Currently, ATEP is in candidacy. Accreditation will follow pending completion of a minimum of two years of candidacy, submission of a self-study, and a site visit review by the Joint Review Committee on Educational Programs in Athletic Training.

Objectives:

The athletic training student who successfully completes the ATEP curriculum will qualify to take the National Athletic Trainers’ Association—Board of Certification national exam. Upon successful completion of the exam, the student will become a Certified Athletic Trainer.

Also, the athletic training program provides the prerequisites needed to apply to graduate programs in a number of allied health careers. These include, but are not limited to, athletic training, physical therapy, occupational therapy, exercise science, and nutrition.
Athletic Training Education Program (ATEP):

As well as the general LMU entrance requirements, there are additional standards for continuation and completion of the ATEP. Each student will be reviewed in five areas: 1) collegiate academic performance, 2) personal and professional recommendations, 3) written communications, 4) oral communications, and 5) practical experiences. Each student in the ATEP will commit to a minimum of four semesters of clinical experiences. Those in the ATEP will be progressively rotated through a variety of clinical settings to learn and perfect the needed knowledge and skills.

Those students interested in the Athletic Training Education Program should meet as soon as possible with the Director to plan their academic program.

Major Requirements:

Lower Division Requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; MATH 104 and 122; NTLS 151, 152, 153, 154, 160, 162, 190, 255; PHYS 253, 254, 255, 256; PSYC 100.</td>
<td>16</td>
</tr>
</tbody>
</table>

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>NTLS 355, 356, 360, 362, 368, 369, 397, 460, 462, 464, 468, 469, 480, 485, and 497.</td>
<td>17</td>
</tr>
</tbody>
</table>

A student must have a C (2.0) average in upper division science courses.

One upper division psychology course is required: PSYC 332 or 352.

The proper sequence of the University Core courses 
should be discussed with the student's advisor. The 
course sequence in Mathematics depends on the results 
of the mathematics placement examination.

Bachelor of Science in Environmental Science  
Objectives:  
The objective of the Environmental Science major is to 
prepare a student for a career in the field of environmental 
sciences. Students receiving this degree can either pursue 
graduate studies, or enter the field of environmental 
science where many jobs are available, for example, with 
various private businesses, government agencies, and 
environmental advocacy groups.

The Environmental Science major is a rigorous 
interdisciplinary program involving course work in biology, 
chemistry, physics, and environmental science and 
engineering. Environmental science classes focus on 
theoretical and technical knowledge of the generation, 
transport and fate of pollutants, their impacts on natural 
resources and human health, resource management, and 
conveying technical information. Laboratory courses are 
designed to maximize hands-on experience in collecting 
samples from various media, and using an array of 
equipment to characterize samples of soils, water, and air. 
Many of the environmental science courses include field 
trips to the adjacent Ballona Wetlands and Santa Monica 
Bay to demonstrate methods for collecting samples, and 
to study environmental conditions and resident biota. 
Internships with local environmental organizations and 
companies are an integral component of the program. The 
major requires that the student conduct a research project 
followed by presentation of results upon completion.
Major Requirements:

Lower Division Requirements:

BIOL 101, 102, 111, and 112; CHEM 110, 111, 112, 113, 220, 221, 222, and 223; MATH 104, 122, and 123; NTLS 101, 190, and 250; PHYS 253, 254, 255, and 256.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

33 upper division hours which will include: BIOL 318, 319, 361, and 362; CHEM 460; and NTLS 301, 302, 330, 322, 401, 512, and 525. In addition, an upper division elective course in natural science and an upper division science elective are required.

A student must have a C (2.0) average in upper division science courses.

Minor Requirements: Environmental Science

BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; NTLS 101, 301, 302, 330. Any substitution must be made with the consent of the Chairperson of the Department. Natural Science majors with an emphasis in General Science must consult with the Chairperson to ensure selection of appropriate courses.

A grade of C (2.0) must be obtained in each course included in the minor.

The proper sequence of the University Core courses should be discussed with the student’s advisor. The course sequence in Mathematics depends on the results of the Mathematics Placement Exam.

### NTLS 101

**Introduction to Environmental Science**

3 Semester Hours

Introduction to the study of environmental science. Examination of issues and problems associated with the environment including examples from air, water, and soil pollution and some remediation strategies.

### NTLS 120

**Biology and Chemistry Applications**

4 Semester Hours

Fundamentals of biology and chemistry for engineering and science applications. Topics include microbial processes, cell chemistry and biology, rates of reaction, chemical equilibria, acid-base chemistry, and reduction-oxidation reactions as they apply to bioengineering, material science, nanotechnology, medical, and environmental applications. This is a project-based course conducted in a laboratory environment.

Lecture/lab, 4 hours.

### NTLS 150

**Human Anatomy and Physiology**

3 Semester Hours

The development, structure, and function of the human body with emphasis on integration and homeostasis.

For majors in psychology only.

### NTLS 151

**Human Anatomy and Physiology I**

3 Semester Hours

Comprehensive coverage of anatomy and physiology for the pre-health professions major. Topics include homeostasis and integumentary, skeletal, muscular, nervous, and endocrine systems.

Lecture, 3 hours.

### NTLS 152

**Human Anatomy and Physiology I Lab**

1 Semester Hour

Companion lab course to NTLS 151.

Laboratory, 4 hours.

Prerequisite: NTLS 151 or concurrent enrollment.

### NTLS 153

**Human Anatomy and Physiology II**

3 Semester Hours

Continuation of comprehensive coverage of anatomy and physiology for the pre-health professions major. Topics include blood, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems.

Lecture, 3 hours.

NTLS 250: The Blue Planet: Introduction to Earth System Science
3 Semester Hours

Students will learn about the earth’s internal and external structure and the different types of materials that make up the planet. Students will study the various processes that are acting to alter and change the minerals and rocks within the earth and the geomorphic processes such as weathering, erosion, and deposition that are acting at the surface. Students will also learn about natural/environmental hazards, the importance of various natural mineral resources, and the history of the earth and its life forms.

Lecture, 3 hours.

NTLS 255: Nutrition
3 Semester Hours

Nutrition as it relates to the physical well-being and behavior of people and how it affects athletic performance. Topics addressed will include carbohydrates, fats, proteins, vitamins and minerals, dietary supplements, weight gain/weight loss, and water.

Lecture, 3 hours.

NTLS 261: The Science in Science Fiction
3 Semester Hours

The physics, chemistry, and biology found in science fiction literature are examined for accuracy and probability. Topics include the physics of space and space habitats, the chemistry and biology of life arising under non-earthlike conditions, and the ecology of imagined worlds. “Engineering” new worlds on the basis of sound scientific theory will be expected. Understanding of physical implications of simple algebraic expressions is required.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.
**NTLS 263**  
*Surfin' Science*  
3 Semester Hours  
Various basic principles of oceanography, meteorology, and marine biology are explored as applied to the art of surfing. Topics include the genesis, propagation, and dynamics of waves; marine weather systems and surf prediction; marine organisms; and marine pollution issues of concern to surfers.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

**NTLS 264**  
*Survey of Marine Pollution*  
3 Semester Hours  
Information and discussion about marine pollution problems in Southern California. Issues of safe swimming, safe consumption of fish, and protection of marine environment will be examined.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

**NTLS 265**  
*Women in Science and Mathematics: Breaking the Stereotype*  
3 Semester Hours  
A study of the work of prominent women scientists and mathematicians. The course will also examine their lives and how they succeeded in traditionally male disciplines.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

**NTLS 267**  
*The Science and Life of Galileo*  
3 Semester Hours  
A study of the scientific works of Galileo and how they influenced changes in our world view during the 17th century.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

**NTLS 270**  
*Experimenting in Science I*  
4 Semester Hours  
Combination lecture and laboratory course designed to acquaint student with how science is done. Emphasis on active learning strategies such as performing experiments, demonstrations, group discussions. The study of general science principles, such as those typically introduced in K-8 education, in the areas of physical and earth science.  
Lecture, 3 hours; Lab, 2 hours.  
Liberal Studies majors only.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

**NTLS 271**  
*Experimenting in Science II*  
4 Semester Hours  
Combination lecture and laboratory course designed to acquaint student with how science is done. Emphasis on active learning strategies such as performing experiments, demonstrations, group discussions. The study of general science principles, such as those typically introduced in K-8 education, in the areas of earth science and life science.  
Lecture, 3 hours; Lab, 2 hours.  
Liberal Studies majors only.  
Prerequisite: NTLS 270.

**NTLS 272**  
*Technology and the Environment*  
3 Semester Hours  
Scientific principles applied to Environmental Management and Public Health. The historical perspective. Pollution control and planning in the area of water resources, solid and liquid waste management. Radiation and thermonuclear power production, fundamentals of energy.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

**NTLS 273**  
*Earthquakes and Landslides*  
3 Semester Hours  
Examination of the processes that control the genesis and distribution of earthquakes, and review of methods of measuring and predicting earth movements.  
Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.
NTLS 274  
Volcanoes—Origins and Processes  
3 Semester Hours

Examination of volcanoes, their etiology, world-wide distribution, and evaluation of their impact on local and global ecologies.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

NTLS 276  
Atmospheric Science  
3 Semester Hours

The study of general phenomena of weather, including storms, atmospheric disturbances, and possible effects of pollution. This course involves weather forecasting using real-time meteorological data.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

NTLS 298  
Special Studies  
1-4 Semester Hours

NTLS 299  
Independent Studies  
1-4 Semester Hours

NTLS 301  
Environmental Science  
3 Semester Hours

Study of environmental science problems stressing an interdisciplinary approach. Analysis of problem and formulation of remediation strategies considering appropriate principles from biology, chemistry, physics, earth science, and engineering.

Prerequisites: BIOL 101 and 102; CHEM 110 and 112.

NTLS 302  
Environmental Science Lab I  
1 Semester Hour

Use of standard tests in environmental science to determine chemical and biological species of interest in air, water, and soil systems.

Laboratory, 4 hours.
Prerequisite: NTLS 301 or concurrent enrollment.

NTLS 310  
Oceanography  
3 Semester Hours

The basic concepts of physical and biological oceanography will be presented.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113.

NTLS 320  
Science, Theology, and the Future  
3 Semester Hours

A look at scientific discoveries, advances, and knowledge will be presented. The implications of the findings in science on theological questions and our world view will be explored.

Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113.

NTLS 330  
Environmental Chemistry  
3 Semester Hours

A study of environmental chemistry. Topics include stratospheric chemistry, the chemistry of ground-level air and air pollution, toxic organic chemicals, the chemistry of natural waters, soil chemistry and heavy metals, energy production and the environment.

Prerequisites: CHEM 112 and 113.

NTLS 332  
Environmental Science Lab II  
1 Semester Hour

Use of standard methods of analysis to determine pollutants found in air, water, and soil systems. Emphasis will be on the use of instrumental methods and techniques.

Laboratory, 4 hours.
Prerequisites: BIOL 101 and 102; CHEM 110 and 112.

NTLS 355  
Exercise Physiology  
3 Semester Hours

In-depth examination of the biochemical, cellular, and organ system functions and adaptations associated with physical fitness and athletic conditioning.

Prerequisites: NTLS 153 and 154.

<tbody>
<tr>
<td>NTLS 356</td>
<td>Exercise Physiology Lab</td>
<td>1</td>
<td>Companion lab course to NTLS 355. Laboratory, 4 hours. Prerequisite: NTLS 355 or concurrent enrollment.</td>
</tr>
<tr>
<td>NTLS 360</td>
<td>Upper Extremity Evaluation</td>
<td>3</td>
<td>In-depth instruction on anatomy and functional abilities of the upper extremity. Emphasis on the assessment techniques for recognizing and evaluating athletic-related injuries. Additional concentration on the cervical region and postural issues of the spine will be addressed. Lecture, 3 hours. Prerequisites: NTLS 151 and 152 or concurrent enrollment.</td>
</tr>
<tr>
<td>NTLS 362</td>
<td>Lower Extremity Evaluation</td>
<td>3</td>
<td>In-depth instruction on anatomy and functional abilities of the lower extremity. Emphasis on the assessment techniques for recognizing and evaluating athletic-related injuries. Additional concentration on the thoracic, lumbar, and sacral regions of the spine and gait analysis will be addressed. Lecture, 3 hours. Prerequisites: NTLS 153 and 154 or concurrent enrollment.</td>
</tr>
<tr>
<td>NTLS 367</td>
<td>The Science and Life of Galileo</td>
<td>3</td>
<td>A study of the scientific works of Galileo and how they influenced changes in our world view during the 17th century. Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.</td>
</tr>
<tr>
<td>NTLS 368</td>
<td>Athletic Training Practicum I</td>
<td>1</td>
<td>Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility. Prerequisite: NTLS 160 or 360.</td>
</tr>
<tr>
<td>NTLS 369</td>
<td>Athletic Training Practicum II</td>
<td>1</td>
<td>Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility. <td>Workshop Biology: Life Works II</td>
<td>3</td>
<td>This course is a continuation of NTLS 370. Prerequisites: NTLS 370 and 371.</td>
</tr>
</tbody>
</table>
NTLS 373  
**Workshop Biology: Life Works II Laboratory**  
0 Semester Hours  
The laboratory companion course for NTLS 372.  
Corequisite: NTLS 372.

---

NTLS 375  
**Genetics**  
3 Semester Hours  
A study of Mendelian and molecular genetics.  
Prerequisite: BIOL 201.

---

NTLS 376  
**Workshop Chemistry: The Elements of Nature I**  
3 Semester Hours  
The course discusses science pedagogy and allows students to experience working with science content as teachers, before they enter the classroom. Students will complete at least twenty hours of observation in high school classrooms and will be teaching lessons that they develop.

---

NTLS 377  
**Workshop Chemistry: The Elements of Nature I Laboratory**  
0 Semester Hours  
The laboratory companion course for NTLS 376.  
Corequisite: NTLS 376.

---

NTLS 378  
**Workshop Chemistry: The Elements of Nature II**  
3 Semester Hours  
This course is a continuation of NTLS 376.  
Prerequisites: NTLS 376 and 377.

---

NTLS 379  
**Workshop Chemistry: The Elements of Nature II Laboratory**  
0 Semester Hours  
The laboratory companion course for NTLS 378.  
Corequisite: NTLS 378.

---

NTLS 391  
**Science Education Internship**  
1-4 Semester Hours  
Work on a project in science education either in the elementary school or secondary school setting or at another appropriate location.

---

NTLS 393  
**Environmental Science Internship**  
1-4 Semester Hours  
Work experience in the field of environmental science on a research, industry, or community-based project.

---

NTLS 395  
**Physical Therapy Internship**  
1-4 Semester Hours  
Work experience in physical therapy at a private facility, hospital, or athletic training facility.

---

NTLS 396  
**Occupational Therapy Internship**  
1-4 Semester Hours  
Work experience in occupational therapy at a private facility or hospital.

---

NTLS 397  
**Athletic Training Internship I**  
4 Semester Hours  
Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. Emphasis on sport assignment and the daily working experience and duties associated with each respective team. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.

---

NTLS 398  
**Special Studies**  
1-4 Semester Hours

---

NTLS 399  
**Independent Studies**  
1-4 Semester Hours

---

NTLS 401  
**Senior Seminar/Project**  
3 Semester Hours  
Research work on a project within the field of environmental science including presentation of a seminar over work.
NTLS 460  
Therapeutic Modalities in Sports Medicine  
3 Semester Hours

Provides information regarding the physics and physiological effects of athletic training modalities. Gain understanding of the inflammatory process and pain management in relation to athletic injuries. Includes the physiological reactions, contraindications, and indications to such modalities as heat, cold, electricity, ultrasound, water, and massage. Instruction on proper use and application of specific modalities.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154.

NTLS 462  
Therapeutic Rehabilitation in Sports Medicine  
3 Semester Hours

Instruction on how to design, implement, and supervise rehabilitation programs for sports-related injuries and conditions. Theoretical and clinical bases for the use of therapeutic exercises, basic biomechanics, indications, contraindications, and proper application of exercises in therapeutic rehabilitation.

Lecture, 3 hours.

Prerequisites: NTLS 153 and 154.

NTLS 464  
Administration in Sports Medicine  
3 Semester Hours

Addresses organization and administration of athletic training programs both in athletic training rooms and clinical sites. Areas such as building a facility, legal issues, staffing, budgeting, insurance, computer use, record keeping, emergency care planning, and public relations will be discussed. Pharmacological issues as they pertain to athletic performance will be addressed.

Lecture, 3 hours.

NTLS 468  
Athletic Training Practicum III  
1 Semester Hour

Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.

Prerequisite: NTLS 369.

NTLS 469  
Senior Seminar in Athletic Training  
1 Semester Hour

Preparation for the National Athletic Trainers’ Association Board of Certification Exam. Attention will be focused on a review of the NATA Athletic Training Educational Competencies.

Lecture, 1 hour.

Prerequisite: NTLS 397.

Corequisite: NTLS 497.

NTLS 480  
Kinesiology  
3 Semester Hours

Analysis of the physics, anatomy, physiology, and psychology of movement mechanics and behavior.

Prerequisites: NTLS 153 and 154.

NTLS 485  
Biomechanics  
3 Semester Hours

Identification of muscle action as related to the body’s mechanics. Understanding basic mechanical principles as they apply to human movement.

Prerequisite: NTLS 480.

NTLS 490  
Natural Science Teaching  
1-2 Semester Hours

Guided teaching of undergraduate laboratories.

May be repeated for credit.

Requires consent of Director.

NTLS 491  
Science Education Internship  
1-4 Semester Hours

Work on a project in science education either in the elementary school or secondary school setting or at another appropriate location.

NTLS 493  
Environmental Science Internship  
1-4 Semester Hours

Work experience in the field of environmental science in a research, industry, or municipal setting.
### NTLS 495
**Physical Therapy Internship**
1-4 Semester Hours

Work experience in physical therapy at a private facility, hospital, or athletic training facility.

### NTLS 496
**Occupational Therapy Internship**
1-4 Semester Hours

Work experience in occupational therapy at a private facility or hospital.

### NTLS 497
**Athletic Training Internship II**
4 Semester Hours

Supervised study experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. Emphasis on sport assignment and the daily working experience and duties associated with each respective team. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility. Prerequisite: NTLS 397.

### NTLS 498
**Special Studies**
1-4 Semester Hours

### NTLS 499
**Independent Studies**
1-4 Semester Hours

### NTLS 510
**Chemistry for Environmental Engineers**
2 Semester Hours

Review of inorganic chemistry with particular emphasis on solution equilibrium and gas-solid solution interaction. Prerequisite: CHEM 110.

### NTLS 512
**Air Pollution Analysis**
2 Semester Hours

Detailed analysis of emission sources, emission calculation methods, and air pollution controls. The dispersion of air pollutants in the atmosphere (fates and lifetimes, dispersion modeling methods). In-depth techniques of conducting risk assessments due to exposure to air pollutants.

### NTLS 513
**Solid Wastes Engineering**
2 Semester Hours

An application of current technology in the control, disposal, and recovery of value from solid wastes.

### NTLS 531
**Principles of Water Quality**
2 Semester Hours

Review of basic parameters used to describe water quality. Fundamentals of aquatic interaction in natural systems and fate of pollutants in the natural environments. Basic water and wastewater treatment systems. Prerequisite: Consent of Director.

### NTLS 534
**Groundwater Management**
2 Semester Hours

Management of groundwater basins for optimum yield, quality, and environmental consideration, artificial recharge, methods of exploration, groundwater models, water rights, and conjunctive use of surface and groundwater.

### NTLS 548
**Hazardous Substances Management**
2 Semester Hours

The study of regulation and management strategies for environment programs (hazardous substances), including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.

### NTLS 591
**Science Education Internship**
1-4 Semester Hours

Work on a project in science education either in the elementary school or secondary school setting or at another appropriate location.

### NTLS 593
**Environmental Science Internship Workshop**
1-4 Semester Hours

Advanced work experience in the field of environmental science in a research, industry, or municipal setting.

### NTLS 598
**Special Studies**
1-4 Semester Hours

### NTLS 599
**Independent Studies**
1-4 Semester Hours
Physics and Engineering Physics

Faculty:
Chairperson: Vincent P. Coletta
Professors: John B. Bulman, Vincent P. Coletta, Jeff Sanny
Assistant Professors: Jonas R. Mureika, Jeffrey A. Phillips, Gabriele Varieschi
Adjunct Professors: James McCarthy, A. Saleh-Jahromi

Physics

Objectives:
The B.S. Physics degree provides a solid foundation in classical and modern physics. This program is well suited for the student who wishes to continue the study of physics at the graduate level, leading to a career in research and/or university teaching. With a proper choice of electives, the physics degree is also suitable for a variety of other careers requiring graduate education. Physics graduates can pursue advanced studies in fields such as optics, biophysics, geophysics and space science, nuclear engineering, business management, or law. Some physics majors choose electives that prepare them for medical school. Physics graduates can also select immediate employment in a number of areas, including high school teaching and various areas of industrial science and technology. Because of the flexibility of the physics major, with its numerous electives, it is possible to double major in physics and some other discipline. Examples of double degrees that can be completed in four years are physics and math, or physics and chemistry. Each of these double majors is very powerful, in that it develops the ability to solve problems that require a knowledge of two separate disciplines.

Major Requirements:
Lower Division Requirements:
CHEM 110, 111, 112, 113; CMSI 185; MATH 131, 132, 234, 245; PHYS 101, 103, 190, 201, 203, 202, 204, 212. Each course in MATH and PHYS listed above must be passed with a grade of C (2.0) or better.

Upper Division Requirements:
MATH 355 and one from MATH 350, 357 or 360; PHYS 301, 302, 321, 322, 411, 412, 421, 441, 451. To graduate, a student must have at least a 2.0 average in all upper division physics courses.

Minor Requirements:
21 semester hours with at least 6 semester hours in upper division courses. These shall include PHYS 101, 103, 201, 202, 203, 204, or PHYS 253, 254, 255, 256.

A grade of C (2.0) is required for every course included in the minor.

Engineering Physics

Objectives:
The B.S. Engineering Physics degree provides extensive education in engineering as well as physics. The curriculum combines the strengths of a physics curriculum (with emphasis on understanding basic principles) and an engineering curriculum (with emphasis on applications). Graduates are especially well prepared for either graduate work in engineering or applied physics or for immediate employment by companies with an engineering research orientation. With the right electives, the curriculum provides excellent preparation for graduate work in biomedical engineering.

Major Requirements:
Lower Division:
CHEM 110, 111; ELEC 232, 281; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; PHYS 101, 103, 190, 201, 202, 203, 204, 212.

Each course in MATH and PHYS listed above must be passed with a grade of C (2.0) or better.

Upper Division:
ELEC 301, 353, 354; MATH 355; PHYS 301, 302, 321, 322, 412, 421, 441. Students must also take a two-course sequence in a technical area. Among the options are: ELEC 302 and ELEC 383; MECH 353 and PHYS 451; ELEC 371 and ELEC 423. To graduate, a student must have at least a 2.0 average in all upper division physics courses.

* A two-course sequence in a technical area is required. Some recommended sequences are:

a) ELEC 302 Junior Lab II and ELEC 383 Introduction to Microprocessors
b) MECH 353 Heat Transfer and PHYS 451 Thermodynamics and Statistical Mechanics
c) ELEC 371 Linear Systems and ELEC 423 Communications I

---

**PHYS 101**  
*Introduction to Mechanics*  
*4 Semester Hours*

Vectors, Newton's laws of motion, work and energy, impulse and momentum, rotation, angular momentum, static equilibrium, harmonic motion.

Lecture, 3 hours.

Corequisites: MATH 131 and PHYS 103.

---

**PHYS 103**  
*Introduction to Mechanics Lab*  
*0 Semester Hours*

Laboratory experiments pertaining to mechanics. Measurement, estimation, and uncertainty. Projectile motion, Newton's laws, friction, torque.

Laboratory, 2 hours.

Corequisite: PHYS 101.

---

**PHYS 150**  
*Fundamental Ideas of Physics*  
*4 Semester Hours*

Discussions and experiments on selected topics such as motion, electricity and magnetism, heat, sound, and light.

Liberal Studies majors only.

Lecture, 3 hours; Laboratory, 1 hour.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

---

**PHYS 151**  
*Physical Science*  
*4 Semester Hours*

An introduction to the physical sciences, including physics, chemistry, astronomy, and geology, with an emphasis on conceptual understanding.

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

---

**PHYS 190**  
*Workshop in Physics*  
*1 Semester Hour*

Problem-solving skills. Fields of study and recent advances in physics. Career opportunities in physics.

Lecture, 1 hour.

---

**PHYS 198**  
*Special Studies*  
*1-4 Semester Hours*

---

**PHYS 199**  
*Independent Studies*  
*1-4 Semester Hours*

---

**PHYS 201**  
*Introduction to Electricity and Magnetism*  
*4 Semester Hours*

Lecture, 3 hours.

Prerequisites: PHYS 101 and 103.

Corequisites: MATH 132 and PHYS 203.

---

**PHYS 202**  
*Introduction to Thermodynamics and Optics*  
*4 Semester Hours*

Lecture, 3 hours.

Prerequisites: PHYS 101 and 103.

Corequisites: MATH 132 and PHYS 204.

Corequisites: PHYS 255.

Corequisites: PHYS 256.

Corequisite: PHYS 253.

Corequisite: PHYS 256.

Corequisite: PHYS 254.

Corequisite: MATH 245.

Prerequisites: PHYS 101 and 103.

Prerequisites: MATH 122 or 131 and PHYS 255.

Prerequisites: PHYS 253 and 255.

NOTE: The PHYS 253-256 series is suitable for biology and chemistry majors and others desiring a college-level experience in physics. This series is not acceptable for credit in the physics or engineering programs.

Corequisite: PHYS 254.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.
### PHYC 272
**Phyics**
3 Semester Hours

An introduction to basic principles of physics. History of the development of physical theories, and the effects of science and technology on the world.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

### PHYC 274
**Weapons of Mass Destruction: Facts and Fiction**
3 Semester Hours

Scientific principles underlying weapons of mass destruction. Effects of nuclear and thermonuclear bombs, nerve agents, and biological pathogens.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

### PHYC 278
**Physics for Poets**
3 Semester Hours

Principles of physics with an emphasis on conceptual understanding. Physics as a human activity.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

### PHYC 299
**Physical Chemistry**
3 Semester Hours

Principles of physical chemistry with an emphasis on conceptual understanding. Physics as a human activity.

Lecture, 3 hours.

Prerequisite: MATH 101, 102, or 104, or placement into MATH 106 or higher.

### PHYC 301
**Electromagnetic Fields**
3 Semester Hours

Lecture, 3 hours.

Prerequisites: PHYS 201 and 203.

Corequisite: MATH 355.

School of Education

Faculty:

Dean: Shane P. Martin
Associate Dean: Elizabeth A. Stoddard
Professors: Thomas Batsis, Paul De Sena, Victoria Graf, Scott Kester, Brian Leung, Shane P. Martin, Mary McCullough, Candace A. Poindexter, Ernest Rose
Associate Professors: Magaly Lavadenz, Edmundo F. Litton, Irene Oliver, Lucretia D. Peebles, Elizabeth A. Stoddard
Assistant Professors: Kristen Rizzo Anguiano, Emily D. Arms, Marta P. Baltodano, Michael P. Caruso, S.J., Martin T. Connell, S.J., Emily S. Fisher, Ignacio Higareda, Terese C. Jimenez, Francisco Ramos
Visiting Assistant Professors: Tim Braun, Kathy Clemmer, Anthony Collatos, Franca Dell'Olio
Clinical Faculty: Patricia DelHagen, Greg Knotts, Lisa Layne, Marianne Mitchell

Mission Statement

In accordance with the Mission of Loyola Marymount University, the faculty, staff, and students of the School of Education understand and declare our purpose to be the encouragement of life-long learning and academic excellence, the education of the whole person, and the promotion of service and justice for all. We commit ourselves to serving public and private education by fostering excellence inspired by the Marymount and Jesuit traditions of Catholic education.

Goal Statement

The faculty, staff, and students of the School of Education strive to work collaboratively in a student-centered environment to be professionals who act to:

- **Value and respect all individuals**
  We believe in the worth of each individual. We affirm the inherent dignity and value of each person as a child of God. Therefore, we believe that all individuals have the potential to be successful learners with unique characteristics and experiences that bring positive value and meaning to the learning experience.

- **Promote social justice**
  We recognize the existence of social inequity, marginalization, and the different faces of oppression, and we commit ourselves to work actively for the establishment of a just and equitable society. While it is important to understand critically the structures, practices, and discourses that cause and perpetuate injustice, we also aim to nurture transformative structures, practices, and discourses that actively promote greater equity. This commitment challenges us to think with a global perspective, to embrace the notion of a preferential option for the poor, and to act with a conviction of equity.

- **Promote cultural responsiveness**
  We recognize diversity as a strength, and we commit ourselves personally and professionally to serve culturally and linguistically diverse populations. These populations include those who represent cultural diversity broadly defined, including race, ethnicity, socio-economic status, gender, religion, sexual orientation, ability, and age. Among other valuable theories and approaches, we utilize sociocultural and constructivist perspectives in teaching and learning. We value these and other perspectives that promote active participation in learning as well as meaningful and authentic instruction and assessment and emphasize students’ cultural and linguistic background experiences.

- **Integrate theory and practice**
  We strive to unite theory and practice in a reciprocal relationship that mutually informs each other. We are a community of reflective practitioners, guided by critical inquiry and social responsibility. We actively engage in educational research, including faculty/student collaboration. We affirm the use of technology in education as authentic, meaningful, and accessible to all learners.

- **Develop moral, intellectual, responsible, and caring leaders**
  We are committed to the preparation of educators who will be leaders in the field and who reflect high standards of ethics and values. We seek to be, and to encourage others to be, women and men who have the intellectual skills to critically evaluate educational issues, have the moral conviction to respond as agents of change, and exhibit an ethic of care in the service of others.
• Collaborate and share leadership across communities
  We believe in the value of working collaboratively with the districts, schools, parents, and students of the communities we serve to successfully educate all learners. We recognize, support, and promote the gifts and talents of community members and encourage their participation in decision-making processes.

Statement of Professional Dispositions
The National Council for Accreditation of Teacher Education (NCATE) requires the LMU School of Education to assess the professional dispositions of education credential and degree candidates. According to NCATE, professional dispositions are "The values, commitments, and professional ethics that influence behavior toward students, families, colleagues, and communities and affect student learning, motivation, and development as the educator’s own professional growth. Dispositions are guided by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility, and social justice." Throughout a candidate’s program, the faculty will assess the School of Education Unit and Program Professional Dispositions, and failure to meet professional expectations may result in a remediation process for the candidate. In extreme cases, failure to meet professional expectations could warrant dismissal from an education program. The School of Education holds four Unit Dispositions that shape the professional expectations for all candidates: “We strive to be, and to educate professionals to be, educators who: Respect and value all individuals and communities; Educate by integrating theory and practice; Advocate for access to a socially just education; and Lead in order to facilitate transformation.”

Department of Teacher Education
Chairperson: Magaly Lavadenz
The Department of Teacher Education offers the following teaching credential programs:
  • 2042 Multiple Subjects (Elementary)
  • 2042 Single Subject (Secondary)
  • Bilingual Crosscultural, Language, and Academic Development (BCLAD), Spanish emphasis
  • Education Specialist: Mild/Moderate Disabilities Level I and II

The Department of Teacher Education also offers graduate degrees. Please consult the Graduate Bulletin for more information on graduate programs.

Teaching credential requirements are governed by the California Commission on Teacher Credentialing and are subject to change.

Department of Professional Services
Chairperson: Mary McCullough
The Department of Professional Services offers graduate programs in Administration, School Counseling, School Psychology, and Catholic School Administration. Please consult the Graduate Bulletin for more information on graduate programs.

Elementary Education:
The 2042 Multiple Subject Preliminary Credential program is designed for students who are seeking teaching positions in grades K-5 or any self-contained classrooms in grades 6-8.

Director: Irene Oliver
I. Acceptance into the undergraduate 2042 multiple subject (elementary) teaching credential program is accomplished by completing and submitting the following to the School of Education:
  1. ATTEND INFORMATION SESSION (MANDATORY)
     • Held monthly at the School of Education; please call (310) 338-2863 to reserve a space.
     • You will receive the following forms required to apply: Application, Recommendations, Certificate of Clearance, Subject Matter Plan of Action, Technology Self-Verification, and Fact Sheet.
  2. GPA REQUIREMENTS
     • A minimum GPA of 2.8 is required.
     • Students who do not meet this requirement must schedule an appointment with the program coordinator to be considered for admission.
  3. PREREQUISITE COURSES
     • Complete three out of the four courses with a “B” (3.0) or better:
       EDUC 400 Sociocultural Analysis of Education
       EDUC 401 Applied Educational Psychology for the Childhood and Adolescent Years
9. TUBERCULIN TEST
   • Must submit official copy of tuberculin skin test results, given within one year, with application.

10. TECHNOLOGY REQUIREMENT
    • Demonstrate basic computer skill knowledge by either completing a self-verification form or taking EDUX 846 through LMU Extension (3 continuing education units).

11. SUBJECT MATTER COMPETENCY TEST
    • Students must demonstrate mastery of the required subject matter by passing the appropriate subject matter exam (CSET).
    • Results of the subject matter exams (CSET) are only valid for five years.

12. INTERVIEW WITH ELEMENTARY COORDINATOR
    • Following submission of all appropriate materials to the School of Education, students must schedule an interview with the program coordinator.

APPLICATION DEADLINES: Application deadlines are as follows: July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer Session.

REVIEW BY ADMISSION COMMITTEE: After all the steps outlined above have been completed, the candidate’s file will be submitted to the Teacher Admission and Advisory Committee (TAAC) for review. It is the student’s responsibility to ensure that all items have been received. Students will be notified of the committee’s decision in writing.

All documents become the property of the University and will not be released to any person or institution.

II. After being formally admitted to the program, students will need to complete the fourth prerequisite course as well as the following requirements:

   EDUC 409  Literacy in the Curriculum
   EDUC 425  Methods in English Language Development and Specially Designed Academic Instruction in English
   EDUC 434  Elementary Curriculum and Methods
III. At this stage of the program, the student’s performance will be assessed using the following criteria:

- **GPA:** A “B” (3.0) grade point average must be maintained in all education coursework. A “D” (1.0) is not acceptable in any of the coursework in the sequence. Students must clear all incompletes in ANY courses prior to student teaching. Courses may not be taken for a grade of “Credit/No Credit” (with the exception of student teaching).

- **SUBJECT MATTER COMPETENCY TEST (CSET):** An original score report verifying that all required sections have been passed must be submitted to the School of Education prior to enrolling in student teaching.

- **TEACHING PERFORMANCE ASSESSMENT:** Tasks 1 and 2 (two zero unit courses with an associated fee):
  
  - EDUC 461 TPA Task 1
  - EDUC 462 TPA Task 2

- **ORAL PRESENTATION TO THE TEACHER ADMISSIONS AND ADVISORY COMMITTEE (TAAC)**

IV. STUDENT TEACHING

- Students must attend a mandatory student teaching information meeting in order to complete the fieldwork application form and violation affidavit and schedule an interview with the elementary clinical faculty.

- Enroll in EDUC 410: Elementary Directed Teaching (9 semester hours)

- **RICA (Reading Instruction Competence Assessment):** After completion of EDUC 409 (Literacy in the Curriculum), students are required to take, pass, and submit an original score report to the School of Education before the completion of student teaching.

V. BACHELOR’S DEGREE

- Students must submit an official transcript with the degree posted to the Credential Analyst in the School of Education.

VI. APPLICATION FOR CREDENTIAL

- When all requirements have been completed, a student must complete an application for a credential through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

**2042 Professional Clear Multiple Subject Teaching Credential:**
A student has five years after obtaining the preliminary credential in which to complete the requirements for the professional clear credential. LMU offers an approved program for the Professional Clear Credential for teachers who do not have access to an Induction program at their school site. Contact the program coordinator for more information.

**Requirements for the Preliminary 2042 Multiple Subject (Elementary) CLAD or BCLAD Teaching Credential:**

I. **BASIC SKILLS TEST:** All students must pass the California Basic Educational Skills Test (completed during the admission process).

II. **CERTIFICATE OF CLEARANCE AND VIOLATION AFFIDAVIT:** All students must obtain a Certificate of Clearance issued by the California Commission on Teacher Credentialing (application submitted during the admission process).

III. **U.S. CONSTITUTION REQUIREMENT:** All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination (completed during the admission process).

IV. **BASIC COMPUTER SKILLS FOR EDUCATORS:** All students must be able to show evidence of knowledge of basic computer skills (completed during the admission process).

V. **HEALTH EDUCATION COURSE:** All students must take a course on Health Education appropriate for future teachers (completed during the admission process).

VI. **PREREQUISITE COURSES:**

- EDUC 400 Sociocultural Analysis of Education
- EDUC 401 Educational Psychology for the Childhood and Adolescent Years
EDUC 414  Theories of Second Language Acquisition
EDUC 440  Education of Culturally and Linguistically Diverse Students with Exceptional Needs

Initial Assessment: Upon completion of initial coursework, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

VII. PROFESSIONAL COURSEWORK: (Suggested Sequence)

EDUC 409  Literacy in the Curriculum
EDUC 425  ELD Methods and SDAIE
EDUC 434  Elementary Curriculum and Methods

Pre-fieldwork Assessment: Before student teaching or the final assessment course, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, readiness for final fieldwork, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

VIII. TEACHING PERFORMANCE ASSESSMENT: All students must complete and pass the four tasks of the Teaching Performance Assessment. Each course listed below is 0 units and must be completed at specific times during the program. Please consult your program advisor for more information on the Teaching Performance Assessment.

EDUC 461  Teaching Performance Assessment Task 1
EDUC 462  Teaching Performance Assessment Task 2
EDUC 463  Teaching Performance Assessment Task 3
EDUC 464  Teaching Performance Assessment Task 4

IX. STUDENT TEACHING: Students can only be admitted to student teaching after all admission and course requirements are completed. Students are not allowed to enroll in student teaching if they have a grade of “I” (Incomplete) in any courses.

EDUC 410  Elementary Directed Teaching (9 Semester Hours)

X. BACHELOR’S DEGREE: Students must submit an official transcript from Loyola Marymount University once the degree is posted.

XI. READING INSTRUCTION COMPETENCE ASSESSMENT (RICA): All candidates for the multiple subjects program are required to pass the RICA. Students must NOT attempt to take this test until after they have completed EDUC 409 (Literacy in the Curriculum).

XII. APPLICATION FOR A CREDENTIAL: When all requirements have been completed, a student must complete an application for a credential through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required).

2042 Professional Clear Multiple Subject Teaching Credential:

A student has five years after obtaining the preliminary credential to complete the requirements for the professional clear credential. Under the 2042 standards, candidates must complete an approved INDUCTION program through a school district or university.

Secondary Education:

The 2042 Single Subject Preliminary Credential program is designed for students who are seeking teaching positions in grades 9-12, or in 6-8 school settings that require teachers to teach in departments. The following Single Subject Preliminary Credentials are offered through the School of Education: Art, Biology, Chemistry, Dance/P.E., English, Mathematics, Physics, Social Science, and Spanish.

Director: Katharine Clemmer

1. Acceptance into the undergraduate 2042 single subject (secondary) teaching credential program is accomplished by completing and submitting the following to the School of Education:

   1. ATTEND INFORMATION SESSION (MANDATORY)

      • Held monthly at the School of Education; please call (310) 338-2863 to reserve a space.

      • You will receive the following forms required to apply: Application, Recommendations, Certificate of Clearance, Subject Matter Plan of Action, Technology Self-Verification, and Fact Sheet.
2. GPA REQUIREMENTS
   • A minimum GPA of 2.8 is required.
   • Students who do not meet this requirement must schedule an appointment with the program coordinator to be considered for admission.
3. PREREQUISITE COURSES
   • Complete three out of the four courses with a “B” (3.0) or better:
     EDUC 400 Sociocultural Analysis of Education
     EDUC 401 Applied Educational Psychology for the Childhood and Adolescent Years
     EDUC 414 Theories of Second Language Acquisition
     EDUC 440 Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs
   • Prerequisite courses are available only to sophomores (30 semester hours earned) or higher.
   • The fourth prerequisite course must be completed following formal admission to the program.
4. CBEST SCORE REPORT (CALIFORNIA BASIC EDUCATION SKILLS TEST)
   • This basic skills test must be passed prior to admission.
   • An original score report must be submitted to the School of Education with the application.
5. U.S. CONSTITUTION REQUIREMENT
   Satisfied by ONE of the following:
   • Taking ONE of the following LMU courses: HIST 161, HIST 162, POLS 130, or POLS 135.
   • Passing an approved examination.
   • Completing an approved course at another institution.
6. HEALTH EDUCATION FOR EDUCATORS
   Satisfied by ONE of the following:
   • Taking EDUC 8000 (1 semester hour).
   • Taking a 2042 approved course through another institution.
7. OBSERVATION/VOLUNTEER HOURS
   • Must submit verification of at least 20 hours of experience with culturally diverse youth at the middle or high school level.
8. CERTIFICATE OF CLEARANCE (COC)
   • Application for fingerprint clearance must be submitted with the application.
   • Involves additional fees (see COC packet for instructions).
9. TUBERCULIN TEST
   • Must submit official copy of tuberculin skin test results, given within one year, with application.
10. TECHNOLOGY REQUIREMENT
    • Demonstrate basic computer skill knowledge by either completing a self-verification form or taking EDUX 846 through LMU Extension (3 continuing education units).
11. SUBJECT MATTER COMPETENCY TEST
    • Students must demonstrate mastery of one of the following content areas (Art, Biology, Chemistry, Dance/PE, English, Mathematics, Physics, Social Science, or Spanish) by passing the appropriate subject matter exam (CSET).
    OR
    • Completing a 2042 Subject Matter program.
    LMU offers the following approved programs: Art, Biology (pending), Chemistry (pending), Dance/PE, Mathematics, or Spanish. Please see your major advisor to begin one of these approved programs.
    • Results of the subject matter exams (CSET) are only valid for five years.
III. At this stage of the program, the student’s performance will be assessed using the following criteria:

- **GPA:** A “B” (3.0) grade point average must be maintained in all education coursework. A “D” (1.0) is not acceptable in any of the coursework in the sequence. Students must clear all incompletes in ANY courses prior to student teaching. Courses may not be taken for a grade of “Credit/No Credit” (with the exception of student teaching).

- **SUBJECT MATTER COMPETENCY TEST (CSET):** An original score report verifying that all required sections have been passed or an official letter from the approved subject matter department signed by the credential analyst must be submitted to the School of Education prior to enrolling in student teaching.

- **TEACHING PERFORMANCE ASSESSMENT:** Tasks 1 and 2 (two zero unit courses with an associated fee):
  - EDUC 461 TPA Task 1
  - EDUC 462 TPA Task 2

12. **INTERVIEW WITH SECONDARY COORDINATOR**

- Following submission of all appropriate materials to the School of Education, students must schedule an interview with the program coordinator.

**APPLICATION DEADLINES:** Application deadlines are as follows: July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer Session.

**REVIEW BY ADMISSION COMMITTEE:** After all the steps outlined above have been completed, the candidate’s file will be submitted to the Teacher Admission and Advisory Committee (TAAC) for review. It is the student’s responsibility to ensure that all items have been received. Students will be notified of the committee’s decision in writing.

All documents become the property of the University and will not be released to any person or institution.

II. After being formally admitted to the program, students will need to complete the fourth prerequisite course as well as the following requirements:

- EDUC 425 Methods in English Language Development and Specially Designed Academic Instruction in English
- EDUC 428 Reading/Language Arts for Single Subject Teachers
- One of the following courses, depending upon the subject emphasis of the credential:
  - ART 450 Seminar in Art Education
  - EDUC 484 General Methods Teaching Language Other Than English
  - EDUC 485 Teaching Social Studies in the Secondary Schools
  - EDUC 486 Trends in Teaching English in the Secondary Schools
  - EDUC 487 Trends in the Teaching of Secondary Science
  - EDUC 488 Trends in the Teaching of Secondary Math

IV. **STUDENT TEACHING**

- Students must attend a mandatory student teaching information meeting in order to complete the fieldwork application form and violation affidavit and schedule an interview with the secondary clinical faculty.

- Enroll in EDUC 412: Secondary Directed Teaching (9 semester hours)

V. **BACHELOR’S DEGREE**

- Students must submit an official transcript with the degree posted to the Credential Analyst in the School of Education.

VI. **APPLICATION FOR CREDENTIAL**

- When all requirements have been completed, a student must complete an application for a credential through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).
2042 Professional Clear Single Subject Teaching Credential:
A student has five years after obtaining the preliminary credential in which to complete the requirements for the professional clear credential. LMU offers an approved program for the Professional Clear Credential for teachers who do not have access to an Induction program at their school site. Contact the program coordinator for more information.

Requirements for the 2042 Preliminary Single Subject (Secondary) Teaching Credential:

I. BASIC SKILLS TEST: All students must pass the California Basic Educational Skills Test (completed during the admission process).

II. CERTIFICATE OF CLEARANCE AND VIOLATION AFFIDAVIT: All students must obtain a Certificate of Clearance issued by the California Commission on Teacher Credentialing (application submitted during the admission process).

III. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination (completed during the admission process).

IV. BASIC COMPUTER SKILLS FOR EDUCATORS: All students must be able to show evidence of knowledge of basic computer skills (completed during the admission process).

V. HEALTH EDUCATION COURSE: All students must take a course on Health Education appropriate for future teachers (completed during the admission process).

I. STUDENT TEACHING: Students can only be admitted to student teaching after all admission and course requirements are completed. Students are not allowed to enroll in student teaching if they have a grade of “I” (Incomplete) in any courses.

EDUC 412 Secondary Directed Teaching (9 Semester Hours)

X. BACHELOR’S DEGREE: Students must submit an official transcript from Loyola Marymount University once the degree is posted.

XI. APPLICATION FOR A CREDENTIAL: When all requirements have been completed, a student must complete an application for a credential through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required).

2042 Professional Clear Single Subject Teaching Credential:

A student has five years after obtaining the preliminary credential in which to complete the requirements for the professional clear credential. Under the 2042 standards, candidates must complete an approved INDUCTION program through a school district or university. At the moment, Loyola Marymount University is creating an induction program, and the California Commission on Teacher Credentialing will review the program in the near future.

Bilingual Education:

Director: Magaly Lavadenz

The Bilingual teaching credential (BCLAD Spanish) emphasis is designed for future teachers who want to conduct classroom instruction in both Spanish and English. The BCLAD component can be added to either a multiple (elementary) or single (secondary) subject teaching credential.

Acceptance into the BCLAD teaching credential program is accomplished by completing and submitting the following items to the School of Education:

1. ALL PROGRAM REQUIREMENTS FOR THE MULTIPLE OR SINGLE SUBJECT CREDENTIAL: BCLAD candidates must complete all the admission requirements outlined in either the Multiple or Single Subject credential as described in previous sections.

2. MINIMUM LANGUAGE REQUIREMENT: All students must demonstrate minimum communicative competency in Spanish prior to starting the BCLAD program. BCLAD candidates can meet this language requirement by providing an official transcript showing completion of a Spanish major or minor, passing an approved language examination (such as the one offered by LMU’s Department of Modern Languages and Literatures), transcript showing extensive schooling in a Spanish-speaking country, or appropriate Peace Corps experience in a Spanish-speaking country.

REVIEW BY ADMISSION COMMITTEE: After all the steps outlined above have been completed, the candidate’s file will be submitted to the Teacher Admission and Advisory Committee (TAAC) for review. It is the student’s responsibility to ensure that all items have been received. The committee may accept, defer, or deny admission. Students will be notified of the committee’s decision in writing.

APPLICATION DEADLINES: Application deadlines are as follows: July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer Session.

All documents become the property of the University and will not be released to any person or institution.

Requirements for the Bilingual (BCLAD Spanish) Teaching Credential (Multiple and Single Subject):

Candidates for the BCLAD credential must complete all the requirements for either the Multiple or Single Subject credential and the following additional requirements:

I. ADDITIONAL BCLAD COURSEWORK:

EDUC 416 Methodology for Primary Language Instruction in Bilingual Settings

EDUC 420 Chicano/Latino Cultures: An Interdisciplinary Perspective

II. BCLAD TEST 6: BCLAD candidates must pass test 6 (Spanish language) of the BCLAD exam prior to enrolling in student teaching. Candidates who are completing or have completed a degree with a Spanish major are exempt from this requirement.
Special Education:

Director: Victoria Graf
Assistant Director: Marianne Mitchell

The Special Education program allows students from a variety of academic backgrounds to pursue a minor in Special Education or the Education Specialist Credential: Mild/Moderate Disabilities. These programs include preparation in the education of culturally and linguistically diverse students with exceptional needs. The Education Specialist Credential: Mild/Moderate Disabilities authorizes candidates to teach students with specific learning disabilities, mental retardation, emotional disturbance, or other health impairments.

Admission Requirements for Mild/Moderate Specialist Credential:

Application for admission into the Mild/Moderate specialist credential, elementary or secondary school-age emphasis, is accomplished by completing and submitting the following to the School of Education:

1. MANDATORY INFORMATION MEETING: Informational meetings are held monthly at the University. Attendance at one of these meetings is required to obtain appropriate forms, instructions, and further information. Further assistance in filing paperwork may also be obtained from the School of Education office. Students should apply for admission into the School of Education during the semester that they are completing the last prerequisite course.

2. APPLICATION FORM: All students must complete a Special Education Program application form. This form is available in the School of Education.

3. MINIMUM GPA OF 2.8: A minimum GPA of 2.8 is required for admission to a teaching credential program. Students who do not meet this requirement may be admitted on probation after they have applied to the Exceptions Committee. Students must submit official transcripts from all colleges/universities attended outside of Loyola Marymount University. At the conclusion of the program, all students must request an official Loyola Marymount University transcript.

4. PREREQUISITE COURSES: Complete prerequisite courses with a grade “B” or better. Students who do not meet this requirement may be admitted on probation upon review by the admissions committee. Students will not be allowed to take other courses beyond the prerequisites without formal admission into the School of Education. Prerequisite courses are available only to sophomores (30 semester hours earned) or higher.

5. CBEST SCORE REPORT: The California Basic Educational Skills Test (CBEST) must be passed prior to admission. An original score report must be submitted to the School of Education. Registration booklets are available in the School of Education.

6. SUBJECT MATTER COMPETENCY: Students must demonstrate mastery of the required subject matter by passing the appropriate subject matter exam, or they provide documentation that states that they are completing an approved single subject matter preparation program. Results of subject matter examinations are valid for only five years. A student must apply for a teaching credential prior to the expiration of the results of the subject matter examinations.

Elementary Education Emphasis: Students may either submit evidence of registration for the approved Multiple Subject assessment examination (CSET).

OR

Secondary Education Emphasis: Students may either submit evidence of registration for the approved subject matter examination or a letter from the program coordinator of an approved subject matter program. At the time of this publication, Loyola Marymount University has approved subject matter programs for single subject candidates in Math, English, Art, and Spanish. Students should consult the School of Education for more information on other approved programs.

7. OBSERVATION/VOLUNTEER HOURS: All students must present acceptable evidence of at least 20 hours experience with culturally and linguistically diverse youth groups between the ages of 4-22.
REVIEW BY ADMISSION COMMITTEE: After all the steps outlined above have been completed, the candidate’s file will be submitted to the Teacher Admission and Advisory Committee (TAAC) for review. It is the student’s responsibility to ensure that all items have been received. The committee may accept, defer, or deny admission. Students will be notified of the committee’s decision in writing.

APPLICATION DEADLINES: Application deadlines are as follows: July 15 for the Fall semester, November 15 for the Spring semester, and March 15 for the Summer Session.

All documents become the property of the University and will not be released to any person or institution.

Course Requirements for the Education Specialist Credential: Mild/Moderate Disabilities—Level I
(Secondary School-Age Emphasis)

This credential program should be started during the student’s sophomore year. Students in this program generally major in Liberal Studies (see admission requirement #6). Students must transfer their admission status to graduate student upon completion of their baccalaureate degree. The program listed is geared towards secondary school-age children.

Candidates are encouraged to meet regularly with their Program Coordinator for advice and assistance in meeting the admission requirements and registering for classes.

I. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination. At Loyola Marymount University, approved U.S. Constitution courses are HIST 161, HIST 162, POLS 130, and POLS 135. Students who may have taken an approved course from another institution should ask the School of Education to evaluate the course for equivalency.

II. BASIC COMPUTER SKILLS FOR EDUCATORS: All students must be able to show evidence of knowledge of basic computer skills. Students may take EDUX 841 (a one-unit course) through LMU Extension or take an equivalent course at another institution. Students can also provide documentation of knowledge of basic computer skills by having an employer or professor complete a verification form. Students may also pass a test (additional fee required) administered by the School of Education. More information on this requirement is available in the School of Education.

11. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing an approved course or passing an approved examination. At Loyola Marymount University, approved U.S. Constitution courses are HIST 161, HIST 162, POLS 130, and POLS 135. Students who may have taken an approved course from another institution should ask the School of Education to evaluate the course for equivalency.

12. BASIC COMPUTER SKILLS: All students must be able to show evidence of knowledge of basic computer skills. Students may take EDUX 841 (a one-unit course) through LMU Extension or take an equivalent course at another institution. Students can also provide documentation of knowledge of basic computer skills by having an employer or professor complete a verification form. Students may also pass a test (additional fee required) administered by the School of Education. More information on this requirement is available in the School of Education.

13. INTERVIEW WITH A FACULTY COORDINATOR: When all application materials have been submitted, students must interview with the Coordinator of the Special Education Program.
III. PREREQUISITE COURSES (Suggested Sequence):

EDUC 400 Sociocultural Analysis of Education (3 semester hours)
EDUC 414 Theories of Second Language Acquisition (3 semester hours)
EDUC 440 Introduction to the Culturally and Linguistically Diverse Students with Exceptional Needs (3 semester hours)
EDUC 444 Observation and Participation in General and Special Education Programs (2 semester hours)

Initial Assessment: Upon completion of initial coursework, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

IV. PROFESSIONAL COURSEWORK (Junior and Senior Years):

EDUC 404 Elementary Curriculum and Teaching Methods (3 semester hours)
EDUC 427 Creating Effective Classrooms in Diverse Settings (2 semester hours)
EDUC 409 Literacy in the Curriculum (* See note on RICA test below) (3 semester hours)
EDUC 443 Informal Assessment and Individual Education Program (IEP) Development (3 semester hours)
EDUC 436 Creating Collaborative Partnerships (2 semester hours)
EDUC 475 Teaching and Assessing Students with Mild/Moderate Disabilities (4 semester hours)

Pre-fieldwork Assessment: Before student teaching or the final assessment course, each candidate will be assessed in terms of performance in classes, fieldwork, standards, required testing, readiness for final fieldwork, and professional dispositions. The Teacher Admission and Advisory Committee (TAAC) will conduct the review.

V. STUDENT TEACHING:

EDUC 456 Directed Teaching with Students with Mild/Moderate Disabilities (9 semester hours)

Note on the RICA Test: The Reading Instruction Competency Assessment (RICA) is required for all multiple subject credential programs. This examination should not be attempted until completion of EDUC 409 and must be passed before a credential is issued.

Professional Level II Education Specialist Credential: Mild/Moderate Disabilities

Candidates who have completed the Preliminary Level I Mild/Moderate Specialist credential program and have a full-time special education teaching position working with students with mild/moderate disabilities must enroll in an approved program for the Professional Level II Education Specialist credential within 120 calendar days of service on the Preliminary credential. Please see the Graduate Bulletin for details.

Course Requirements for the Education Specialist Credential: Mild/Moderate Disabilities—Level I

(Secondary School-Age Emphasis)

This credential program should be started during the student’s sophomore year. Students in this program are seeking teaching positions in grades 9-12 or in 6-8 school settings that require teachers to teach in settings that are departmentalized. Students must transfer their admission status to graduate student upon completion of their baccalaureate degree. The program listed is geared towards secondary school-age children.

Candidates are encouraged to meet regularly with their Program Coordinator for advice and assistance in meeting the admission requirements and registering for classes.

I. U.S. CONSTITUTION REQUIREMENT: All students must demonstrate knowledge of the United States Constitution by completing one of the following courses at Loyola Marymount University: HIST 161, 162; POLS 130, 135 (or equivalent). An appropriate exam also fulfills this requirement. Please contact the History Department for further information.

II. BASIC COMPUTER SKILLS FOR EDUCATORS: All students must be able to show evidence of knowledge of basic computer skills. There are several ways to meet this requirement. Candidates should consult with their program advisor to discuss options.
III. PREREQUISITE COURSES (Suggested Sequence):

Note on the RICA Test: The Reading Instruction Competency Assessment (RICA) is required for all multiple subject credential programs. This examination should not be attempted until completion of EDUC 428 and must be passed before a credential is issued.

Professional Level II Education Specialist Credential: Mild/Moderate Disabilities:

Candidates who have completed the Preliminary Level I Mild/Moderate Specialist credential program and have a full-time special education teaching position working with students with mild/moderate disabilities must enroll in an approved program for the Professional Level II Education Specialist credential within 120 calendar days of service on the Preliminary credential. Please see the Graduate Bulletin for details.

Additional Coursework for CLAD/BCLAD Certificate

Please see the Graduate Bulletin for details.
Minor in Education

Students may declare a minor in Education so that their Education coursework is duly acknowledged in their official transcript. In order to maximize the full potential of taking Education courses within the undergraduate program, students are strongly encouraged to declare the Education minor early in their career. The Education minor is not applicable to Liberal Studies majors (multiple subject credential). Completion of an Education minor does not equal completion of the requirements for a teaching credential. Students may complete the Education minor without completing all the requirements for a teaching credential.

Students wishing to be admitted to the Minor in Education program must complete all the requirements for admission to the School of Education except for the subject matter competency and CBEST requirements.

Minor in Elementary Education
(18 Semester Hours)

For non-Liberal Studies majors only.

18 semester hours in Education from the following courses:

- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses from the following: EDUC 409, 425, 434

Minor in Secondary Education
(18 Semester Hours)

18 semester hours in Education from the following courses:

- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses from the following: EDUC 425, 434, 428, 484, 485, 486, 487, 488

Minor in Bilingual Education
(18 Semester Hours)

For non-Liberal Studies majors only.

18 semester hours in Education from the following courses:

- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses in Bilingual Education: EDUC 416 and 420

Minor in Special Education
(18 Semester Hours)

The recommended course sequence is as follows:

Sophomore Year: EDUC 400 and 440
Junior Year: EDUC 444 (2 semester hours) and an EDUC elective (3 semester hours) chosen with the approval of the coordinator
Senior Year: EDUC 427 (2 semester hours), 436 (2 semester hours), and capstone course (3 semester hours)

EDUC 400
Sociocultural Analysis of Education
3 Semester Hours

A study of the sociological and anthropological analysis of contemporary education with emphases on historical and cultural contexts, culturally sensitive pedagogy, cultural and ethnic diversity, social/cultural issues, equity, access to the core curriculum, and demographic trends in schools and society. Emphasis is placed on the preparation of professionals for the teaching profession and their awareness of social, psychological, and cultural forces shaping society today so that they are prepared to work with all learners. This course is designed for undergraduates in the traditional and/or blended teacher preparation program.

Prerequisite: Sophomore or higher.

EDUC 401
Educational Psychology for the Childhood and Adolescent Years
3 Semester Hours

A study of the learning environment, the evaluation of learning, and the teaching/learning process. An analysis of the physical, intellectual, emotional, cultural, and ethnic factors affecting development, learning, and behavior. This course is a prerequisite for acceptance into the Multiple and Single Subject Credential Program. Emphasis is placed on implications for teaching and learning in the primary, elementary, middle, and senior high schools. Fieldwork is required.

Prerequisite: Sophomore or higher.
EDUC 404  
**Science in the Elementary Curriculum**  
*2 Semester Hours*  
This course is designed to provide opportunities for prospective teachers to develop their understanding and ability to teach science to culturally diverse students in the elementary grades. Particular emphasis is placed on strategies which will accommodate linguistically diverse students. Laboratory type activities provide opportunities for the students to investigate a variety of methods related to teaching science using a conceptual approach. Investigations stress processes, attitudes, values, and technological relationships that are effective in multicultural and multilingual classrooms. Focus is on the interaction between the teacher, students, and the discipline of science, and how the student is actively involved in learning through a constructivist and experiential approach.  
Lab fee required.  
Prerequisite: Special approval required.

EDUC 405  
**Mathematics in the Elementary Curriculum**  
*2 Semester Hours*  
This course is designed to provide opportunities for prospective teachers to develop their understanding and ability to teach mathematics in the elementary grades. Particular emphasis is placed on laboratory type activities where students investigate a variety of methods related to teaching math using a conceptual approach and utilizing strategies which are successful with culturally and linguistically diverse learners. Focus is on the development of lessons and long-term plans to actively involve the learner in all of the math strands through experiential activities.  
Lab fee required.  
Prerequisite: Special approval required.

EDUC 406  
**Social Studies in the Elementary Curriculum**  
*2 Semester Hours*  
This course is designed to provide opportunities for prospective teachers to develop professional knowledge and competence for teaching social studies. This course deals with purpose, content, procedures, and organization of instruction in those curricular areas as prescribed in the California State adopted framework. The current trends and social issues affecting the teacher’s selection of instructional approaches and the selection of instructional resources are explored. All state-mandated content areas, including culturally and linguistically diverse teaching techniques and methods for social studies, are included.  
Prerequisite: Special approval required.

EDUC 409  
**Literacy in the Curriculum**  
*3 Semester Hours*  
This course is designed to provide opportunities for prospective teachers to develop their understanding and ability to teach reading/language arts to all students in the elementary grades. Particular emphasis will be placed on strategies which will accommodate culturally and linguistically diverse learners. Consideration is given to the procedures, skills development, organizations, systems of instruction, and instructional materials utilized in the development of an effective balanced and integrated approach to the teaching of reading/language arts instruction in the elementary school that supports literacy development. This course meets the requirements of section 44755 of the California Education Code. This course will be preparation for the RICA (Reading Instruction Competency Assessment) based on the following reading domains:  

- **Domain I** Organizing Reading Instruction Based on Ongoing Assessment  
- **Domain II** Phonological and other Linguistic Processes Related to Reading  
- **Domain III** Developing Reading Comprehension and Promoting Independent Reading  
- **Domain IV** Supporting Reading through Oral and Written Language  
Prerequisite: Special approval required.
EDUC 410
Elementary Directed Teaching
9 Semester Hours

Full-time supervised teaching in two culturally diverse public elementary schools; seminar sessions held throughout the semester, which include instruction in art, music, and physical education. Offered on a Credit/No Credit basis only.

Admission by special approval.

EDUC 412
Secondary Directed Teaching
9 Semester Hours

Full-time supervised teaching in one culturally diverse public middle and/or high school; seminar sessions held throughout the semester support the student in successfully completing his or her student teaching. Offered on a Credit/No Credit basis only.

Admission by special approval.

EDUC 414
Theories of Second Language Acquisition
3 Semester Hours

Course content includes theoretical perspectives in first and second language learning, language teaching methodologies, assessment, identification, and program placement for Limited English Proficient students. The course provides an introduction to instructional strategies including English Language Development (ELD), Specially Designed Academic Instruction in English (SDAIE), and cooperative learning. Historical, political, legal, and social factors related to second language acquisition are addressed, including the history of bilingual education; federal, state, and local legislation; bilingual education models; and the role of parents and paraprofessionals in English language development. Fieldwork in a setting with English language learners is a required component of this class.

Prerequisite: Sophomore or higher.

EDUC 415
Politics of Education
3 Semester Hours

An overview of the historical and contemporary organization of schools, including federal, state, and local education and language policies. The philosophical and decision-making structures within schools will be examined from various perspectives. Of particular emphasis will be the impact of these on linguistically and culturally diverse populations.

Prerequisite: EDUC 414.

EDUC 416
Methodology for Primary Language Instruction in a Bilingual Setting
3 Semester Hours

Consideration is given to current trends and social issues affecting bilingual programs including program characteristics, instructional approaches, and selection and use of primary language materials. Specific emphasis is placed on literacy/biliteracy in the primary language, with an integrated approach to content area instruction. Fluency and literacy in Spanish is required.

Prerequisites: EDUC 415 and special approval required.

EDUC 420
Chicano-Latino Culture: An Interdisciplinary Perspective
3 Semester Hours

The presentation of a cultural analysis of the diversity within Chicano/Latino groups. Historical, political, economic, and social issues will be addressed, including the expression of culture in areas such as language, literature, and religion.

Prerequisite: Special approval required.

EDUC 425
Methods in English Language Development and Specially Designed Academic Instruction in English
3 Semester Hours

The goal of this course is to provide students with the opportunity to acquire knowledge, skills, and ability to deliver comprehensive instruction to English learners. Students will learn how to implement instructional programs that facilitate English language acquisition and development, including receptive and productive language skills, and that logically progress to the grade level reading/language arts program for English speakers. Students will acquire and demonstrate the ability to utilize assessment information to diagnose students’ language abilities and to develop lessons that promote students' access and achievement in relation to state-adopted academic content standards. Fieldwork observation is included as part of the class requirement.

Prerequisite: Special approval required.
EDUC 427
Creating Effective Classrooms in Diverse Settings
2-3 Semester Hours

This course is designed to prepare candidates to be able to demonstrate knowledge and skills in managing environments for diverse learners that are safe and effective and that facilitate positive self-esteem and self-advocacy. In addition, the candidate will be prepared to demonstrate knowledge of behavioral management strategies, varying communication styles that impact learning and laws, and regulations for promoting behavior that is positive and self-regulatory.

EDUC 428
Reading/Language Arts for Single Subject Teachers
3 Semester Hours

This course is designed to provide opportunities for prospective teachers to develop understanding of the nature of the reading process in grades 7-12. Emphasis is placed on the role of subject-matter teachers in the overall school reading program. Provides training in a variety of instructional methodologies including strategies designed for culturally and linguistically diverse learners.

Prerequisite: Special approval required.

EDUC 434
Elementary Curriculum and Methods
3 Semester Hours

Designed to provide opportunities for prospective teachers to develop professional knowledge and competence for teaching history/social science, mathematics, and science in kindergarten and grades 1 through 12, this course will deal with purpose, content, procedures and organization, and instruction in those curricular areas as prescribed by the California State adopted frameworks and academic content standards. This course focuses on instructional methods and classroom management for the elementary classroom. A fieldwork component will be required. Students should acquire skills in classroom discipline, creation of lesson plans, utilizing a variety of instructional and evaluation methods, and classroom teaching. Course shall include all state-mandated content areas including culturally and linguistically diverse teaching techniques/methods for history/social science, mathematics, and science.

Prerequisite: Special approval required.

EDUC 435
What Is School?
3 Semester Hours

This course focuses on the governmental, political, financial, legal, and historical perspectives of education in the United States. Students are given opportunities to integrate course topics and relate policy initiatives to the welfare of all students in responsible and ethical ways. School governance and management of human and fiscal resources in culturally diverse settings are stressed.

EDUC 436
Creating Collaborative Partnerships
2-3 Semester Hours

This course is designed to prepare candidates to be able to collaborate and communicate effectively with individuals with disabilities and their parents, other family members and primary care givers, school administrators, general and special education teachers, specialists, paraprofessionals, and community agency and related service personnel. The candidate will learn how to work in partnership to be able to design, implement, and evaluate integrated services that reflect transitional stages across life span for all learners.

EDUC 440
Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs
3 Semester Hours

General survey of exceptionalities affecting normal child development. Causation, diagnosis, treatment, programs, and resources are included. Implications of recent legislation for the disabled will be emphasized.

EDUC 443
Informal Assessment and Individual Education Program (IEP) Development for Students with Exceptional Needs
3 Semester Hours

A survey of strategies for assessing and teaching FEP and LEP students in all areas of exceptionality.

Prerequisite: EDUC 409.

EDUC 444
Observation and Participation in General and Special Education Programs
2-3 Semester Hours

Direct contact experience observing and working with FEP and LEP students in all areas of exceptionality. A minimum of 100 clock hours must be spent with three exceptionalities. Credit/No Credit.

EDUC 8000  
Health Education  
1 Extension Semester Hour

This course will introduce health concepts, skills, and behaviors important for today's students to make informed choices. Candidates will be able to gather, interpret, evaluate, and use health information and topics in their future activities as teachers. The course consists of four modules: 1) overview of the California health framework and consumer and community health resources; 2) personal health with a focus on nutrition and tobacco, drugs, and alcohol use; 3) health choices that impact communicable and chronic diseases; and 4) the role of environmental health with a focus on injury prevention and safety.

Fee required.
School of Film and Television
School of Film and Television

Administration:
Dean: Teri Schwartz
Associate Dean: Roy Eric Xavier

Faculty:
Professors: Marilyn Beker, Mladen Milicevic, 
Art Nomura, John Stewart, Donald J. Zirpola
Associate Professors: Susan Torrey Barber, 
Rob Burchfield, Patrick Connolly, S.J., Steve Duncan, 
Glenn Gebhard, Richard Hadley, Howard Lavick
Assistant Professors: Kathy Baur, Jeffrey Davis, 
Jose Garcia-Moreno, Sylvia Morales, Rodger Pardee, 
Luis Proença, S.J., Susan Scheibler, 
Mark Evan Schwartz, Slobodan Sijan, 
Charles Swanson, Kennedy Wheatley

Objectives:
All School of Film and Television courses, whether they be 
humanistic inquiries, through visual storytelling, into the 
nature of the media or professionally-oriented exercises in 
writing and producing film and television, are aimed at developing 
critical discernment and equipping the student with the 
technical, theoretical, aesthetic, and creative means to 
communicate these insights effectively to an audience.

Major Requirements:
Lower Division Requirements:
The School of Film and Television offers five 
majors: Animation, Film Production, Recording 
Arts, Screenwriting, and Television Production.

The 12-18 semester hours (depending upon 
program) of requirement must be completed by 
all students, including transfer students, before 
upper division classes are attempted.

Upper Division Requirements:
The requirements are between 24-36 semester 
hours chosen from the 300-500 level School of 
Film and Television courses under the direction of 
the appropriate school program advisor. All 
majors must complete a senior thesis project 
accomplished through ANIM 495 and 496; FILM 
460 or 461; RECA 450; SCWR 420; TVPD 440 
or 441.

Change of Program
Admission into one program in the School does not 
guarantee acceptance into any other program in the 
School. There is a formal application procedure for 
students wishing to transfer from one SFTV program to 
another SFTV program. This procedure is thoroughly 
explained in the SFTV Change of Program Application 
forms available from the School.

Change of Major
There is a formal application procedure for students who 
wish to be accepted into the School of Film and 
Television. The procedure is explained in the Change of 
Major application forms available from the School.

Applications are typically due on the last working day in 
September for the Fall semester and on the last working 
day in February for the Spring semester.

Application of General University 
Requirements
The University requirements for admission, graduation, 
and all general rules and regulations of the University as 
set forth in this Bulletin are applicable to and binding 
upon all students enrolled in the School of Film and 
Television.

School Curriculum
The curriculum of the School of Film and Television 
incorporates required courses in general education, major 
sequences, and elective courses which complement and 
enhance the student’s major field of concentration.
Core Curriculum for the Baccalaureate Degree in the School of Film and Television:

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

History
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection
Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Mathematics, Science and Technology
6 Semester Hours

Course Selection
All students take MATH 102 and 103 and one other course in Science and Engineering. The MATH 102 course is designed to allow students to attain a level of mathematical literacy which will enable them to deal with the types of mathematical questions that they will encounter on a regular basis after they graduate.

Prerequisite: Demonstration of proficiency in mathematics by success in MATH 102 or a grade of C or better in MATH 111, 112, 120, 122, 131, or 306. The Mathematics Placement Examination is required before taking any of these courses.

The course in science and engineering introduces the student to the methodology used in that field of science or engineering. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Courses ordinarily recommended to students majoring outside the Frank R. Seaver College of Science and Engineering are those numbered 260-279 in each department within the College. Courses in this series are specifically designed for the non-major.
Choose from BIOL 260, 261, 262, 263, 264, 265, 271, 272, 275, 276; CHEM 260, 261, 262, 263, 264; CMSI 261; ELEC 260, 265; MECH 260, 270, 275; NTLS 260, 270; PHYS 271, 272. All other lower division courses (at least 3 semester hours) in the Frank R. Seaver College of Science and Engineering also satisfy this requirement.

Only one mathematics course will be credited toward the Mathematics, Science and Technology component of the Core.

**Philosophy**

*6 Semester Hours*

**Course Selection**

**Lower Division:**

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

**Upper Division:**

Choose one PHIL course from 320 through 330.

**Social Sciences**

*6 Semester Hours*

Student must select one of the following options:

1. Select two courses from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

**Theological Studies**

*6 Semester Hours*

**Course Selection**

**Lower Division:**

Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

**Upper Division:**

Choose from the 300-level series of THST courses only.

**European Satellite Program**

This program is located in Dusseldorf, Germany, and focuses on film in the European context—the Avante Garde, independent film making, and other experimental media. This is designed as a semester program with Fall semester offerings focusing on Film and TVPD majors, and with the Spring semester focusing on Media Studies for all students. Taught by LMU faculty and European film and television experts in the Loyola Marymount University tradition, the courses are offered in the form of master workshops, providing students with an exclusive learning experience. The close interaction with faculty that is afforded by this format makes the program unique. Students receive 15 semester hours of credit by taking workshops and a German language and culture course.

The semester in Dusseldorf includes excursions and educational field trips to give students a deeper insight into film and TV production in Europe. Depending on the semester and opportunity, students will attend film festivals, visit production sites, go to film museums, and meet and talk with directors, producers, and others in the media field. A week excursion to Berlin and Prague, two centers of film production, will bring to life the theories learned in the classroom and will help to inform and stimulate students in their own artistic productions. Each student will produce a 10-15 minute video documentary. Staff and teaching assistants in film will assist with the technical and creative needs, if necessary.

Students with a minimum GPA of 2.8, who are in good standing at any university or college and, for the Fall semester, have completed the FILM and TVPD prerequisites, are invited to apply. The program cost is comparable to full-time residency at LMU and includes tuition, housing, breakfast and dinner, excursions, and public transportation within Dusseldorf. Applications are available through the Study Abroad Office in University Hall, Suite 1840.
Recommendations:

Students are encouraged to enrich their program of study with selected electives from the following areas.

Internships
One in both the Junior and Senior year of study.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad office.

Total Program

120 semester hours are required for graduation with the following distribution:

  a)  a maximum of 36 upper division semester hours in any one department will be accepted toward the 120 semester hours requirement; and

  b)  at least 45 semester hours are required from upper division offerings.

Students should consult the Dean’s Office for specific policies applicable to the School of Film and Television.
Animation

Major Requirements:

Lower Division Requirements:

26 semester hours of lower division courses distributed as follows:

- ANIM 100, 120 (completed with a grade of B [3.0] or better), 110, 220, 230 or 231, 260;
- ART 153, 154; and 2 semester hours of Drawing for Animation (ART 200, 201).

Starting in the Fall semester of the sophomore year, Animation majors are required to complete a minimum of 6 semester hours of drawing lab taken each semester until graduation for 1 semester hour (ART 200, 201, 300, 301, 400, 401).

Note: ART 153 and ART 154 are prerequisites for all Figure Drawing Workshops.

Required fine arts core courses:

- Critical Arts: ARHS 200, 201, or 202
- Creative Arts: ART 153

Upper Division Requirements:

25 semester hours from ANIM 310, 330 or 331, 340, 490, 495, 496, 4 semester hours of Drawing for Animation, and one upper division Animation elective.

Minor Requirements:

18 semester hours divided into 9 semester hours of lower division work from:

- ANIM 100, 210, and 220;
- and 9 semester hours of upper division Animation work under the direction of the program advisor.

### Suggested Additional Electives—Animation Program

Acting: Especially helpful for those interested in character animation, where the animator is the actor or actress.

Cinematography and Lighting: Useful for 3D computer animation/stop motion.

Computer Programming: Useful for interactive media and new technology.

Dance: Also useful for those interested in character animation. These classes will foster an additional understanding of movement, meter, and rhythm.

Design: 2D, 3D, and multimedia.

Editing: Recommended especially for those without any previous film background.

Drawing: Any drawing courses in addition to those required are recommended, especially for those interested in character animation. When appropriate (and pending approval of specific instructors), students are encouraged to attend additional sections of the life drawing labs. Other drawing courses may be taken at the Union school, ASIFA, and any number of other art academies in the Los Angeles area.

Music: As a source and as a partner.

Mythology, Literature: For understanding storytelling.

Painting: Also highly recommended for those persons who are interested in environmental animation, storyboarding, and background painting.

Screenwriting: Useful for understanding the format of visual storytelling.

Perspective and Color Theory

Sound Design: Useful for engineering, mixing, and using sound creatively.

### ANIM 100

#### History of Animation

3 Semester Hours

Survey of historical developments, styles, techniques, theory, and criticism of animation as an art form. History and use of creative arts used in animation to form effective communication in film and video.

ANIM 496
Senior Project in Animation/Production
3 Semester Hours
Continuation of practical experience in animation production. Completion of animation thesis project.
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.
Prerequisite: ANIM 495.

ANIM 498
Special Studies
1-3 Semester Hours

ANIM 499
Independent Studies
1-3 Semester Hours

ANIM 340
Interactive Animation I
3 Semester Hours
Introduction to creative and technical aspects of interactive animation technology.
Prerequisites: ANIM 230 or 231.

ANIM 398
Special Studies
1-3 Semester Hours

ANIM 399
Independent Studies
1-3 Semester Hours

ANIM 420
Experimental Animation
3 Semester Hours
Workshop in the art of animated film production. Further development of student projects from ANIM 320.
Prerequisite: ANIM 320.

ANIM 440
Interactive Animation II
3 Semester Hours
Production and design using interactive animation technology.
Prerequisite: ANIM 340.

ANIM 490
Animation Internship
3 Semester Hours
Prerequisite: Senior standing.

ANIM 495
Senior Project in Animation/Pre-Production
3 Semester Hours
Practical experience in animation pre-production. This course centers on the animation thesis project. Development, direction, production of a sophisticated, well-produced film or project. Students are free to determine style, format, and genre of project.
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.
Film Production

Lower Division Requirements:
18 semester hours of lower division courses distributed as follows: FILM 180, 210, 260 (completed with a grade of B [3.0] or better); RECA 250; SCWR 220; and TVPD 200.

Upper Division Requirements:
Satisfactory completion of FILM 360, 365, 366, 379, 460 or 461; RECA 367; TVPD 509 or FILM 510; and at least one cinema history course chosen from FILM 313, 314, 315, 411, 412, or 413.

The proper sequence of these courses should be discussed with the student's advisor.

It is strongly suggest that Film Production students take an internship class in both their Junior and Senior years.

Acting, drawing, photography, computer graphics, additional film history, screenwriting, and business classes are among the suggested electives for Film majors.

* At least one course must be chosen from FILM 313, 314, 315, 411, 412, or 413.

** RECA 367 can be taken prior to, or concurrently with, FILM 360.

*** FILM 260 can be taken in either the Fall or Spring or Summer of the Sophomore year.

### FILM 180

**Art Direction and Sound Stage Procedures**

3 Semester Hours

Practicum in the design, construction, safety, and procedures of stage use. Lab fee.

Majors only.

### FILM 210

**Art of the Cinema**

3 Semester Hours

An introduction to visual literacy, using the major new art form of the 20th century. Selected screenings, readings, and lecture/discussions.

Lab fee.

### FILM 211

**Art of the Cinema Lab**

0 Semester Hours

Weekly film discussion sections.

### FILM 260

**Introduction to Film Production**

3 Semester Hours

An introduction to the aesthetic and practical problems of communicating visually through motion pictures. Each student is required to produce several films in the Super-8 format.

Prerequisite: FILM 210 or RECA 250.

Lab fee. Insurance fee.

### FILM 261

**Introduction to Film Production Lab**

0 Semester Hours

Training in the technical aspects of beginning film production: camera, sound, and lighting.

### FILM 313

**History of American Film**

3 Semester Hours

A critical and historical survey of American sound film. Screenings, lectures, discussions.

Lab fee.
FILM 314  
History of European Film  
3 Semester Hours  
A critical survey of European film. Screenings, lectures, discussions.  
Lab fee.

FILM 315  
History of the Documentary  
3 Semester Hours  
A critical and historical survey of the documentary film. Screenings, lectures, discussions.  
Lab fee.

FILM 329  
Directing and Scene Analysis  
3 Semester Hours  
An in-depth workshop/lecture demonstration on production and post-production processes and aesthetics of film/video.  
May require a lab fee.  
Prerequisites: FILM 260 and SCWR 220.  
SCWR majors only.

FILM 360  
Intermediate Film Production  
3 Semester Hours  
Practicum in the production of 16mm sound films from initial concept through final answer print. Lectures on professional production procedures are linked to personal experience on an actual film project. Non-sync project, maximum length 10 minutes. Media: 16mm film.  
Students must provide the School of Film and Television with a professional copy of their completed film.  
Prerequisites: FILM 365, 366; FILM 260 with a grade of B (3.0) or better.  
Majors only.  
Insurance fee.

FILM 365  
Cinematography  
3 Semester Hours  
An introduction to 16mm motion picture cameras, film stocks, lighting, and grip equipment. Location and studio procedures for both sync and non-sync situations.  
Lecture and Lab, 5 hours.  
Prerequisite: FILM 260 completed with a grade of B (3.0) or better.  
Majors only.

FILM 366  
Film Editing  
3 Semester Hours  
Post-production theory and practice as applied to film.  
Prerequisite: FILM 260 completed with a grade of B (3.0) or better.  
Majors only.  
Note: A one-time substantial fee for editing supplies to be used in this and subsequent film production courses is required. An additional lab fee for this class is also required.

FILM 368  
Production Planning  
3 Semester Hours  
Pre-production theory and practice as applied to film/television. Special emphasis on the latest production facilities and their use.  
Prerequisite: FILM 260 for Film Program, TVPD 241 for TV Program.  
Majors only.

FILM 379  
Fundamentals of Directing  
3 Semester Hours  
Survey of pre-production preparation for directors, including script analysis, casting, visualization, and working with actors.  
Prerequisite: FILM 260 for Film program, TVPD 241 for TV program.  
Majors only.

FILM 398  
Special Studies  
1-3 Semester Hours
FILM 399
Independent Studies
1-3 Semester Hours

FILM 410
Motion Picture Analysis
3 Semester Hours

Critical analysis of representative current movies joined, whenever possible, by class encounters with the filmmakers themselves.

Prerequisite: FILM 210.

FILM 411
Film Genres
3 Semester Hours

An in-depth study of one film genre (the western, the musical, film noir, etc.). Screenings, lectures, and discussions.

Lab fee. May be repeated only when a different genre is studied.

FILM 412
Film Authors
3 Semester Hours

An in-depth study of films of specific film authors (directors, writers, etc.). Screenings, lectures, and discussions.

Lab fee. May be repeated only when a different author is studied.

FILM 413
National Film
3 Semester Hours

An in-depth study of the films of one nation. Screenings, lectures, and discussions.

Lab fee. May be repeated only when a different nation is studied.

FILM 460
Advanced Film Production I
3 Semester Hours

Practical experience in motion picture production on a para-professional level including writing, directing, and editing a 16mm sync sound film. Sync sound project, maximum length 15 minutes. Media: 16mm film. At the discretion of the professor, students may also shoot in 35mm film or digital video.

Note: Insurance required for off-campus use of equipment.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Prerequisites: FILM 360, 365, 366, 379; RECA 367.

Majors only.

Insurance fee.

### RECA 250

**Sound Design**

3 Semester Hours

An introduction to the aesthetic, pragmatic, and technical issues of motion picture sound recording, editing, and mixing.

College of Communication and Fine Arts and School of Film and Television majors only.

Prerequisites: FILM 210 and TVPD 200.

### RECA 298

**Special Studies**

1-3 Semester Hours

### RECA 299

**Independent Studies**

1-3 Semester Hours

### RECA 350

**Recording Technology**

3 Semester Hours

The electronic theories of sound recording and reproduction.

Prerequisites: RECA 250 and concurrent enrollment in RECA 352 and 353.

RECA students only.

### RECA 352

**The Nature of Sound**

3 Semester Hours

The behavior of sound in various environments and techniques of modifying sound.

Prerequisites: RECA 250 and concurrent enrollment in RECA 350 and 353.

RECA students only.

### RECA 353

**Production Sound Techniques**

3 Semester Hours

Production sound theory and practice, with actual experience in recording, producing sound, and introduction to initial post-production procedures for film and TV.

Prerequisites: Concurrent enrollment in RECA 350 and 352.

RECA students only.

### RECA 355

**Live Studio Recording**

3 Semester Hours

The theory and practice of recording small ensemble groups in the studio, capturing the immediacy of a “live” performance with no overdubs.

Lecture and Lab, 6 hours.

Prerequisites: RECA 350, 352, and 353.

RECA students only.

### RECA 356

**Multi-Track Studio Recording**

3 Semester Hours

Music production and sound engineering using multi-track studio recording techniques.

Lecture and Lab, 6 hours.

Prerequisites: RECA 350, 352, 355, and 353.

RECA students only.

Screenwriting

Lower Division Requirements:

12 semester hours of lower division courses distributed as follows: FILM 210, 260; SCWR 220 (completed with a grade of B [3.0] or better); and TVPD 200.

Upper Division Requirements:

Satisfactory completion of FILM 329; SCWR 320, 321, 420, 426, 428; and two cinema history courses from FILM 313, 314, 411, 412, 413, or TVPD 417. In consultation with the advisor, it is also recommended that the student take courses outside the major in writing, literature, and drama courses from English, Classics, and Theatre department offerings.

Minor in Screenwriting for English Majors

The School of Film and Television offers a minor as an option to students majoring in the writing emphasis in the English Department. The minor consists of 18 semester hours.

Required Courses:

<table>

The proper sequence of these courses should be discussed with the student's advisor.

* Two courses must be chosen from FILM 313, 314, 315, 411, 412, or 413.
SCWR 326  
Writing the Documentary  
3 Semester Hours  
This course surveys the theory and practice of writing for the documentary and other forms of non-fiction media in television and film.  
Prerequisite: SCWR 220.  
Majors/minors only.  

SCWR 398  
Special Studies  
1-3 Semester Hours  

SCWR 399  
Independent Studies  
1-3 Semester Hours  

SCWR 400  
Writing for Production I  
3 Semester Hours  
Elements of screenwriting as applied to short films intended for production.  

SCWR 420  
Senior Writing Project  
3 Semester Hours  
Specially directed projects in writing for film, television, or other media from initial concept through finished form.  
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.  
Prerequisites: SCWR 320 and 321.  
Lab Fee.  

SCWR 426  
Writing for Television  
3 Semester Hours  
Practical experience in writing one-hour episodic television drama.  
Prerequisite: SCWR 320.  

SCWR 428  
Adaptation: One Medium to Another  
3 Semester Hours  
Practical experience in translating books (novels and/or non-fiction) into film scripts.  
Prerequisite: SCWR 320.
# Television Production

## Lower Division Requirements:

18 semester hours of lower division courses distributed as follows: FILM 180; RECA 250; SCWR 220; and FILM 210, TVPD 200, and 241 (completed with a grade of B [3.0] or better). (FILM 180 can be taken in the freshman year or the Fall semester of the sophomore year.)

## Upper Division Requirements:

Satisfactory completion of FILM 379; TVPD 341, 344, 345, 346; TVPD 416 or 417, 440 or 441; and FILM 315 or TVPD 490/491.

The proper sequence of these courses should be discussed with the student’s advisor.

TVPD 200
Survey of Mass Communications
3 Semester Hours
Structure, function, and effects of the mass media.

TVPD 210
Art of Television
3 Semester Hours
An introduction to television literacy, using a major new art form of the 20th century. Selected screenings, readings, and lecture/discussions.

Lab fee.

TVPD 211
Art of Television Lab
0 Semester Hours
Lab component of TVPD 210.

TVPD 241
Television Production Techniques
3 Semester Hours
An introduction to the aesthetic and practical problems of communications in the multi-camera television studio.
Lecture and Lab, 6 hours.

TVPD 341
Intermediate Television Production
3 Semester Hours
Practicum in production of student projects from initial concept through post-production with rotating crew assignments in multi-camera TV studio.
Lecture and Lab, 6 hours.
Prerequisites: TVPD 345 and 346.

TVPD 342
Live Television
3 Semester Hours
Aesthetics and techniques of live television programming techniques.
Lecture and Lab, 6 hours.
Prerequisite: FILM 260 or TVPD 241.

TVPD 344
Location Video Production
3 Semester Hours
Planning, producing, and editing a documentary, dramatic, or experimental video production on actual locations.
Lecture and Lab, 4 hours.
Prerequisites: TVPD 345 and 346.

TVPD 345
Electronic Cinematography
3 Semester Hours
To increase students’ ability to see and express ideas visually. To provide students with a technical knowledge of the video camera and related equipment. To develop techniques for effective studio lighting.
Prerequisites: RECA 250 and TVPD 241.
Majors only.
TVPD 346
Video Editing
3 Semester Hours

Practical experience in the techniques and aesthetics of television editing.

Lecture and Lab, 4 hours.

Prerequisites: RECA 250 and TVPD 241.

Majors only.

TVPD 398
Special Studies
1-3 Semester Hours

TVPD 399
Independent Studies
1-3 Semester Hours

TVPD 400
Mass Media and Society
3 Semester Hours

The specialized problems in contemporary communications.

Prerequisite: TVPD 200.

TVPD 416
Television Genres
3 Semester Hours

In-depth historical study of a television genre (situation comedy, police drama, news, etc.). Screenings, lectures, and discussions.

Lab fee. May be repeated only when a different genre is studied.

TVPD 417
History of Broadcasting
3 Semester Hours

An introduction to the history, structure, and procedures of the broadcasting industry.

Lab fee.

TVPD 440
Advanced TV Production
3 Semester Hours

Practical experience in television production with individual responsibility for the creation and completion of a TV project and team experience in a variety of production functions on other student class projects.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Prerequisites: FILM 379; TVPD 341 or 344; project approval by the instructor prior to registration.

TVPD 441
Directed Study in TV Production
3 Semester Hours

This class will fulfill your thesis requirement in lieu of TVPD 440, upon successful completion of the course. The course is an intensive investigation in one or more areas of production based upon a mentorship, interviews, practical experience, and a final research paper and presentation. It is an alternative form for the student to gain in-depth knowledge of the professional practices within the entertainment industry.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Prerequisites: FILM 379; TVPD 341 or 344; project approval by the instructor prior to registration.

Majors only.

TVPD 490
Internship I
3 Semester Hours

Internship with one of several Los Angeles media companies currently accepting LMU students. Practical experience working at a professional level for network, film studio, advertising agency, radio station, etc.

Majors only. May be repeated once.

TVPD 491
Internship II
3 Semester Hours

Further directed experience with a professional company in a media field.

Majors only.
TVPD 498
Special Studies
1-3 Semester Hours

TVPD 499
Independent Studies
1-3 Semester Hours
Department of Aerospace Studies
Aerospace Studies

All University Colleges

Faculty:

Frances Dennewitz, Mark Fish, Joh Holt, Jonathan Jeln

General Military Course:

The first two years of Aerospace Studies (AERO 100, 200) are designated the General Military Course (GMC) for students enrolled in Air Force Reserve Officer Training Corps (AFROTC). There are no prerequisites for these courses, and all University students may participate. These courses focus on developing individual communication skills, understanding the environment of the Air Force officer, and comprehending the historical development of the United States Air Force in the national security structure. AERO 100 and 200 may be taken concurrently to allow late entry into the program by sophomores or second-semester freshmen.

Professional Officer Course:

The last two years of AFROTC (AERO 300, 400) are designated the Professional Officer Course (POC) for students enrolled in AFROTC. They are designed to prepare cadets for duty as officers in the United States Air Force and provide the student with a working knowledge of advanced leadership and management theories and applications, as well as an understanding of the United States national security systems and processes. The POC includes academics, interaction with military and national security professionals, and the practice of leadership and management in a large group environment. Students not currently enrolled in AFROTC who desire to enroll as a cadet in the POC should contact the Department early in their sophomore year. This does not preclude normal enrollment in the class by students who are not cadets.

Special Notes:

All courses in Aerospace Studies may or may not count toward graduation, depending upon the student's major. Students should consult their Dean and Department Chairperson for allowable courses. Leadership laboratories are mandatory for members of the cadet corps but optional for students taking the academic courses as electives.

Scholarship cadets incur a military obligation upon entry into their sophomore year on the start date of AERO 200.

Non-scholarship cadets do not incur a military obligation until as late as the end of the first semester of the Professional Officer Course (AERO 300).

Air Force Reserve Officer Training Corps Program

The AFROTC program at Loyola Marymount University is conducted by active duty Air Force Officers assigned to the Department of Aerospace Studies. The program is designed to prepare qualified men and women for careers as commissioned officers in the United States Air Force. Textbooks, uniforms, and all other equipment used in this program are furnished by the Air Force at no expense to the student.

Air Force ROTC offers one-, two-, three-, and four-year scholarships. Additionally, Loyola Marymount University supplements some Air Force ROTC scholarships which do not cover total tuition. The scholarship recipient must successfully complete one course in English composition and one in mathematical reasoning.

The four-year program consists of two years of the General Military Course, followed by two years of the Professional Officer Course. Admission into the Professional Officer Course is limited to those students who successfully pass required written, oral, and physical examinations. During the summer between the sophomore and junior year, cadets are required to attend four weeks of field training at an Air Force Base to familiarize them with Air Force life. The Air Force furnishes all uniforms, equipment, and transportation. Students also receive pay and allowances authorized by current directives at the time of field training attendance. After successfully completing field training, qualified cadets enter the Professional Officer Course and receive $350-400 per month, tax-free, during the final two years of AFROTC.

An accelerated two-year program is also available. It consists of a longer field training at an Air Force base and the two-year professional officer course. Interested students should contact the AFROTC Department early in their sophomore year for application procedures.
AFROTC offers students expanded access to management theories and practice, exposure to industry and military leaders, and opportunities to comprehend the world political and security environment. All of this is in a small campus environment but includes extensive interaction with students from other local universities and colleges who participate in the program. Besides a commission upon graduation, completed cadets qualify for training as pilots, navigators, space and missile operators, business administrators, engineers, health professionals, intelligence, and many other management positions.

Professor of Theological Studies and Director of the Graduate Program in Theological Studies and Pastoral Studies

BARBARA J. BUSSE (1969-72; 1980)
Associate Professor of Communication Studies and Dean of the College of Communication and Fine Arts
B.A., California State University, Fullerton, 1968; M.A., California State University, Northridge, 1969.

JAY B. BUSSE (1970)
Associate Professor of Communication Studies
B.A., California State University, Fullerton, 1968; M.A., California State University, Northridge, 1969.

MÓNICA CABRERA (2005)
Assistant Professor of Modern Languages and Literatures
B.A., Pontificia Universidad Católica del Perú, 1991; M.A., University of Southern California, 2001; Ph.D., University of Southern California, 2005.

Professor of Chemistry
B.S., Loyola University, 1958; M.S., University of Detroit, 1965; S.T.M., Santa Clara University, 1971; Ph.D., U.C. San Diego, 1975.

ERIKA T. CAMACHO (2004)
Assistant Professor of Mathematics

WILLIAM SCOTT K. CAMERON (1995)
Associate Professor of Philosophy
B.A., Queen's University, 1984; M.A., Queen's University, 1988; Ph.D., Fordham University, 1995.

ROBERT V. CARO, S.J. (1976)
Professor of English and Assistant to the President for Mission and Identity

MICHAEL P. CARUSO, S.J. (2001)
Assistant Professor of Education

CHRISTOPHER KEY CHAPPLE (1985)
Professor of Theological Studies and Associate Academic Vice President of LMU Extension

CONSTANCE J.S. CHEN (2003)
Assistant Professor of History
DON G. CHEN (2004)  
Assistant Professor of Management  
B.A., Renmin University of China, 1994;  
M.A., Renmin University of China, 1996;  
Ph.D., Renmin University of China, 1999;  
Ph.D., Rutgers University, 2004.  

SEAN CHEN (2002)  
Associate Professor of Accounting  
B.B.A., National Taiwan University, 1976;  
M.Ed., National Taiwan University, 1979;  
M.B.A., Youngstown State University, 1985;  
Ph.D., University of Pittsburgh, 1992.  

ALAN A. CHERRY (1983)  
Professor of Accounting  
B.B.A., Baruch (CUNY), 1970;  
M.S., U.C. Los Angeles, 1972;  

STUART CHING (2001)  
Assistant Professor of English  
B.Ed., University of Hawaii, Manoa, 1987;  
M.A., Colorado State University, 1990;  
Ph.D., University of Nebraska, 2000.  

Sir Thomas More Chair in Engineering Ethics  
A.B., Loyola University of Chicago, 1971;  
M.A., Boston College, 1976;  
Ph.D., Yale University, 1987.  

S.W. TINA CHOE (1996)  
Associate Professor of Chemistry  
B.S., U.C. Los Angeles, 1988;  

DAVID CHOI (2003)  
Assistant Professor of Management  
B.S.E., U.C. Berkeley, 1989;  
M.E., U.C. Berkeley, 1990;  

JOHN A. COLEMAN, S.J. (1997)  
Casassa Professor of Social Values and  
Professor of Theological Studies  
B.A., St. Louis University, 1960;  
M.A., St. Louis University, 1961;  
St.M., Santa Clara University, 1968;  
Ph.D., U.C. Berkeley, 1973;  

VINCENT P. COLETTA (1969)  
Professor of Physics and  
Chairperson of the Department  
B.S., Christian Brothers College, 1964;  
Ph.D., University of Notre Dame, 1970.  

STEVEN C. COMBS (1993)  
Associate Professor of Communication Studies  
B.A., University of Southern California, 1981;  
M.A., University of Kansas, 1985;  
Ph.D., University of Southern California, 1993.  

Assistant Professor of Education  
B.A., Loyola University Chicago, 1987;  
M.A., University of Toronto, 1988;  

JOHN R. CONNOLLY, JR. (1971)  
Professor of Theological Studies  
B.A., St. Mary’s, 1960;  
S.T.B., St. Mary’s, 1963;  
B.S., Loyola University, New Orleans, 1964;  
M.A., Marquette University, 1966;  
Ph.D., Marquette University, 1971.  

PATRICK CONNOLLY, S.J. (1975)  
Associate Professor of Film and Television  
B.A., St. Louis University, 1959;  
M.A., St. Louis University, 1960;  
S.T.L., Gregorian, 1967;  
Ph.D., University of Southern California, 1973.  

ALISSA S. CRANS (2004)  
Assistant Professor of Mathematics  
B.S., University of Redlands, 1999;  
M.S., U.C. Riverside, 2000;  

REBECCA D. CRAWFORD (1987)  
Professor of Chemistry  
B.A., U.C. Los Angeles, 1973;  
Ph.D., University of Southern California, 1982.  

KAM D. DAHLQUIST (2005)  
Assistant Professor of Biology  
B.A., Pomona College, 1993;  

MICHAEL DANCIGER (1978)  
Professor of Biology  
B.S., Drexel University, 1966;  
Ph.D., University of Oregon, 1971.
FRANK P. DAROCA (1986)
Professor of Accounting
B.S., Louisiana State University, 1964;
M.S., Louisiana State University, 1974;
Ph.D., University of Illinois, 1981;

GEORGE DASARO (1977)
Professor of Accounting
B.B.A., Loyola University, Los Angeles, 1963;
M.S., California State University, Los Angeles, 1966;

KAREN MARY DAVALOS (1997)
Associate Professor of Chicana/o Studies
B.A., Stanford University, 1987;
M.A., Stanford University, 1987;
Ph.D., Yale University, 1993.

JEFFREY DAVIS (2001)
Assistant Professor of Film and Television
B.A., Emerson College, 1970;
M.F.A., University of Iowa, 1972.

JOHN A. DAVIS (1978)
Associate Professor of Sociology
B.A., U.C. Los Angeles, 1963;
M.A., U.C. Los Angeles, 1965;

ROBERTO DELL’ORO (2003)
Assistant Professor of Bioethics
S.T.B., University of Milan, 1983;
S.T.L., Gregorian University, 1985;
Ph.D., Gregorian University, 1992.

DONALD DePAMPHILIS (2000)
Visiting Clinical Professor of Finance and Computer Information Systems
B.A., University of Pittsburgh, 1969;
M.A., Harvard University, 1971;
Ph.D., Harvard University, 1972.

PAUL A. DeSENA (1966)
Professor of Education
M.S., Central Connecticut State University, 1958;
M.Ed., Hartford University, 1960;

JAMES DEVINE (1985)
Professor of Economics
B.A., Yale University, 1974;

THERESIA DE VROOM (1990)
Professor of English
B.M., University of Southern California, 1980;
B.A., University of Southern California, 1980;
M.A., Emory University, 1982;
Ph.D., University of Southern California, 1988.

JACQUELINE M. DEWAR (1973)
Professor of Mathematics and Chairperson of the Department
B.S., St. Louis University, 1968;
M.S., University of Southern California, 1971;
Ph.D., University of Southern California, 1973.

MATTHEW DILLON (1987)
Professor of Classics and Archaeology and Chairperson of the Department
B.A., Wesleyan University, 1974;
M.A., Yale University, 1979;
M.Ph.l., Yale University, 1981;
Ph.D., Yale University, 1984.

JOHN DAVID N. DIONISIO (2004)
Assistant Professor of Computer Science
B.S., Loyola Marymount University, 1991;
M.S., U.C. Los Angeles, 1993;

LAMBERT A. DOEZEMA (2004)
Assistant Professor of Chemistry
B.S., Trinity University, 1998;
M.S., U.C. Irvine, 2000;

PHILIP M. DORIN (1971)
Professor of Electrical Engineering and Computer Science and Director of Computer Science
B.S., Massachusetts Institute of Technology, 1970;
M.S., Northeastern University, 1971;

JOHN H. DORSEY (2002)
Assistant Professor of Natural Science
B.A., California State University, Long Beach, 1972;
M.A., California State University, Long Beach, 1975;
Ph.D., University of Melbourne, 1982.

PATRICIA C. DOUGLAS (1995)
Associate Professor of Accounting
B.S., University of Colorado, 1982;
M.S., University of Virginia, 1990;
Ph.D., Virginia Commonwealth University, 1995;
PHILIPPA M. DRENNAN (1995)  
Associate Professor of Biology  
B.Sc., University of Natal, Durban, 1979;  
P.H., University of Natal, Durban, 1987.  

RICHARD ESPINOZA (2003)  
Assistant Professor of Chicana/o Studies  
B.A., U.C. Los Angeles, 1992;  
M.A., U.C. Los Angeles, 1995;  

STEPHEN V. DUNCAN (1999)  
Associate Professor of Film and Television  
B.S., North Carolina A&T State University, 1971;  
M.B.A., Baruch College, NY, 1977;  
M.A., Loyola Marymount University, 1979.  

JOCKEY S. ES-SAID (1985)  
Professor of Mechanical Engineering  
B.S., American University, Cairo, 1976;  
M.S., American University, Cairo, 1978;  
Ph.D., University of Kentucky, 1985.  

RITA ESQUIVEL (1995)  
Adjunct Professor of Education  
B.A., Our Lady of the Lake University, 1953;  
M.Ed., Our Lady of the Lake University, 1960.  

OMAR S. ES-SAID (1985)  
Professor of Mechanical Engineering  
B.S., American University, Cairo, 1976;  
M.S., American University, Cairo, 1978;  
Ph.D., University of Kentucky, 1985.  

ZAKI EUSUFZAI (1989)  
Associate Professor of Economics  
B.S.S., University of Dhaka, 1980;  
M.A., Illinois State University, 1982;  

KEWUSI MENSAH (1986)  
Associate Professor of Economics  
B.S., University of Ghana, 1970;  
M.A., University of Oregon, 2001;  
Ph.D., University of Oregon, 2003.  

PHILIPPA M. DRENNAN (1995)  
Associate Professor of Biology  
B.Sc., University of Natal, Durban, 1979;  
P.H., University of Natal, Durban, 1987.  

JAMES D. FAUGHT (1974)  
Professor of Sociology and  
Chairperson of the Department  
B.A., San José State University, 1967;  
M.A., San José State University, 1969;  

JOSEPH E. EARLEY (1975)  
Associate Professor of Economics  
B.A., Gannon College, 1967;  
M.S., Rensseleaer Polytechnic Institute, 1968;  

JENNIFER L. EICH (1994)  
Associate Professor of Modern Languages and Literatures  
B.A., Knox College, 1981;  
M.A., U.C. Los Angeles, 1987;  

SUSAN ELKINAWY (2003)  
Assistant Professor of Finance  
B.A., U.C. Los Angeles, 1992;  
M.B.A., Loyola Marymount University, 1996;  
M.S., University of Oregon, 2001;  
Ph.D., University of Oregon, 2003.  

CHARLES E. ERVEN (2002)  
Associate Professor of Theatre Arts  
B.A., University of Wisconsin, 1971;  

Professor of History and  
Dean of the Bellarmine College of Liberal Arts  
B.A., Loyola University, Los Angeles, 1972;  
M.A., Gonzaga University, 1978;  
M.D., Jesuit School of Theology, Berkeley, 1982;  

ELLEN A. ENSHER (1997)  
Assistant Professor of Management  
B.A., Loyola Marymount University, 1987;  
M.A., Claremont Graduate University, 1994;  
Ph.D., Claremont Graduate University, 1997.  

WILLIAM W. FINKEL (2001)  
Assistant Professor of Political Science  
B.A., U.C. Los Angeles, 1989;  
M.A., U.C. San Diego, 1991;  

EMILY S. FISHER (2005)  
Assistant Professor of Education  
B.A., Connecticut College, 1996;  

PHILIPPA M. DRENNAN (1995)  
Associate Professor of Biology  
B.Sc., University of Natal, Durban, 1979;  
P.H., University of Natal, Durban, 1987.  

MARTIN E. CONKLING (1977)
Professor of Nursing
B.S., California State Polytechnic University, 1973;
M.S., University of Southern California, 1979;
Ph.D., University of Southern California, 1985.

PATRICK J. CONNALLY (1982)
Professor of Philosophy
B.A., California State University, Los Angeles, 1977;
M.A., University of Southern California, 1980;
Ph.D., University of Southern California, 1984.

JOHN J. CONNOLLY (1988)
Professor of Physics
B.S., University of Notre Dame, 1981;
M.S., University of Notre Dame, 1983;
Ph.D., University of Notre Dame, 1986.

SYLVIA M. COOK (1982)
Associate Professor of Dance
B.A., Loyola Marymount University, 1977;
M.A., Loyola Marymount University, 1978;
Ph.D., University of Wisconsin, 1985.

SUSAN R. COOK (1996)
Associate Professor of Theatre Arts and
Co-Chairperson of the Department
B.A., University of Oregon, 1978;
M.F.A., University of Cincinnati, 1983;
Ph.D., University of Cincinnati, 1991.

MILTON CORDON (1970)
Professor of Accounting
B.S., California State University, Los Angeles, 1970;
M.B.A., University of Southern California, 1976;
Ph.D., University of Southern California, 1984.

S. MILLER COOK (1988)
Professor of Mathematics
B.S., University of California, Los Angeles, 1981;
M.A., University of California, Los Angeles, 1984;
Ph.D., University of California, Los Angeles, 1989.

J. JACOB COOK (1985)
Professor of Psychology
B.A., Pomona College, 1976;
M.A., University of California, Los Angeles, 1978;
Ph.D., University of California, Los Angeles, 1983.

BEN F. FITZPATRICK (2001)
Professor of Mathematics and
Clarence J. Wallen, S.J., Chair
B.S., Auburn University, 1981;
M.S., Auburn University, 1983;

VÉRONIQUE FLAMBARD-WEISBART (1992)
Associate Professor of Modern Languages and Literatures
and Director of European Studies
D.E.U.G., Université de Paris X, 1982;
Licence, Université de Paris X, 1983;
M.A., U.C. Los Angeles, 1985;

RUDOLF FLECK (1977)
Professor of Art and Art History
B.A., Loyola University, Los Angeles, 1973;

RENEE FLORSHEIM (1989)
Associate Professor of Marketing and
Co-Chairperson of the Department
B.S., California State Polytechnic University, 1976;
M.B.A., U.C. Los Angeles, 1979;
Ph.D., Northwestern University, 1988;
J.D., Loyola Law School, 1999.

JUDITH G. FOY (1991)
Professor of Psychology
B.A., Eastern Washington University, 1980;
M.S., Eastern Washington University, 1981;
M.A., Kent State University, 1986;
Ph.D., Kent State University, 1987.

MICHAEL R. FOY (1987)
Professor of Psychology
B.S., U.C. Irvine, 1977;
M.S., Kent State University, 1981;
Ph.D., Kent State University, 1983.

JAMES L. FREDERICKS (1992)
Professor of Theological Studies
B.A., St. Joseph's College, 1973;
M.A., St. Patrick's Seminary, 1976;
S.T.L., Jesuit School of Theology, 1983;

KATHARINE B. FREE (1970)
Professor of Theatre Arts and
Co-Chairperson of the Department
B.A., Marymount College, 1966;
M.A., U.C. Los Angeles, 1968;

Professor of Classics and Archaeology and
NEH Professor of Ancient Mediterranean Studies
B.A., Gonzaga University, 1969;
M.A., Gonzaga University, 1969;
S.T.M., Santa Clara University, 1967;
Ph.D., Yale University, 1971.

JEFFREY GALE (1985)
Professor of Management
S.B., Massachusetts Institute of Technology, 1970;
S.M., Massachusetts Institute of Technology, 1971;
J.D., U.C. Los Angeles, 1975;

GORDON S. GAMLIN (2003)
Assistant Professor of Modern Languages and Literatures
B.A., University of British Columbia, 1988;
M.A., McGill University, 1992;
Ph.D., University of Constance, 1995;

JOSE GARCIA-MORENO (2003)
Assistant Professor of Film and Television
B.A., Universidad Iberoamericana, Mexico, 1984;
M.A., Charles University, Czech Republic, 1989;

GLENN GEBHARD (1995)
Associate Professor of Film and Television
B.A., University of Dayton, 1973;
M.F.A., University of Southern California, 1980.

MICHAEL GENOVESE (1983)
Professor of Political Science and
Loyola Chair of Leadership Studies
B.A., St. Mary's College, 1972;
M.A., University of Southern California, 1975;
Ph.D., University of Southern California, 1978.

EVAN GERSTMANN (1996)
Associate Professor of Political Science
B.A., Oberlin College, 1983;
J.D., University of Michigan Law School, 1986;
M.A. University of Wisconsin, 1992;
Ph.D., University of Wisconsin, 1996.

RICHARD GILBERT (1986)
Professor of Psychology
B.A., Princeton University, 1977;
M.A., U.C. Los Angeles, 1979;

JENNIFER R. GILLETTE (2002)
Assistant Professor of Biology
B.S., University of Puget Sound, 1995;
M.S., University of Louisiana, Lafayette, 1998;
DIANNE D. GLAVE (1997)
Assistant Professor of African American Studies
B.A., University Center, Binghamton, 1985;
M.A., University Center, Stony Brook, 1991;

DEENA J. GONZÁLEZ (2001)
Professor of Chicana/o Studies,
Chairperson of the Department, and
Coordinator of American Cultures Studies
B.A., New Mexico State University, 1974;
M.A., U.C. Berkeley, 1976;

MICHAEL D. GRADY (1975)
Professor of Mathematics
B.A., University of Missouri, 1968;
M.S., Southern Illinois University, 1970;
Ph.D., Utah, 1975.

VICTORIA L. GRAF (1979)
Professor of Education
B.A., De Paul University, 1972;
M.A., U.C. Riverside, 1975;

ALLEN P. GRAY (1980)
Associate Professor of Computer Information Systems
B.A., Loyola University, Los Angeles, 1970;
M.A., California State University, Los Angeles, 1971;

EDMUND R. GRAY (1986)
Professor of Management and
Chairperson of the Department
B.A., Hofstra University, 1956;
M.B.A., U.C. Los Angeles, 1961;

JOHN H. GREVER, C.F.M.M. (1973)
Professor of History and
Chairperson of the Department
B.A., Loyola University, Los Angeles, 1965;
M.A., Loyola University, Los Angeles, 1967;

CHERYL GRILLS (1987)
Professor of Psychology
B.A., Yale University, 1980;
M.A., U.C. Los Angeles, 1982;

ARTHUR GROSS-SCHAEFER (1980)
Professor of Business Law and
Co-Chairperson of the Department
B.S., University of Southern California, 1973;
J.D., Boston College, 1976;
M.H.L., Hebrew Union, 1982;
C.P.A.

FERNANDO J. GUERRA (1987)
Associate Professor of Chicana/o Studies and Political
Science and Director, Center for the Study of
Los Angeles
B.A., University of Southern California, 1980;
M.A., University of Michigan, 1982;
Ph.D., University of Michigan, 1990.

RICHARD P. HADLEY, JR. (1991)
Associate Professor of Film and Television and
Director of the Graduate Program in Film and Television
B.A., U.C. Berkeley, 1970;
M.A., University of Wisconsin, Madison, 1972;
M.F.A., University of Southern California, 1980;
Ph.D., University of Southern California, 1989.

MICHELE HAMMERS (2004)
Assistant Professor of Communication Studies
B.S., Boston University, 1992;
J.D., University of Texas at Austin, 1995;
M.A., Arizona State University, 2000;

JAMES G. HANINK (1976)
Professor of Philosophy
B.A., St. Mary's College, 1968;
M.A., Michigan, 1971;
Ph.D., Michigan, 1975.

DAVID J. HARDY (2004)
Assistant Professor of Psychology
B.A., California State University, Long Beach, 1990;
M.A., California State University, Long Beach, 1994;
Ph.D., Catholic University of America, 1998.

KATHERINE HARPER (1977)
Associate Professor of Art and Art History
B.A., California State University, Los Angeles, 1967;
M.A., California State University, Los Angeles, 1969;
Ph.D., California State University, Los Angeles, 1977.

PAUL A. HARRIS (1995)
Associate Professor of English and
Director of the Graduate Program in English
B.A., McGill University, 1984;
M.A., U.C. Irvine, 1986;
JOSEPH HAWORTH (1988)
Adjunct Professor of Civil Engineering
B.S., Loyola University, Los Angeles, 1967;
M.S., Stanford University, 1968.

ANDREW J. HEALY (2005)
Assistant Professor of Economics
B.S., Yale University, 1998;
B.A., Yale University, 1998;
Ph.D., Massachusetts Institute of Technology, 2005.

TERESA HEILAND (2004)
Assistant Professor of Dance
B.A., New York University, 1991;

SCOTT HEINZERLING (1991)
Professor of Dance
B.A., University of Akron, 1975;
M.F.A., Ohio State University, 1991.

DOROTHEA K HERREINER (2005)
Assistant Professor of Economics
B.A., University of Karlsruhe, 1990;
M.Sc., London School of Economics and Political Science, 1991;
Ph.D., European University, 2000.

GEORGE L. HESS (1975)
Professor of Management and
Associate Dean of the College of Business Administration and Director of Small Business Institute
B.S., Xavier University, 1956;
M.B.A., Xavier University, 1957;

KRISTIN HEYER (2003)
Assistant Professor of Theological Studies
B.A., Brown University, 1996;

IGNACIO HIGAREDA (2005)
Assistant Professor of Education

CHARLES J. HIGGINS (1982)
Associate Professor of Finance
B.A., University of Southern California, 1968;
M.B.A., University of Southern California, 1972;
Ph.D., Claremont Graduate University, 1984.

PETER R. HOFFMAN (1977)
Associate Professor and
Director of Geography and Urban Studies
B.A., U.C. Los Angeles, 1969;
M.A., Arizona, 1974;

ALAN K. HOGENAUER (2000)
Associate Professor of Travel and Tourism and
Director, Center for Travel and Tourism
A.B., City University of New York, 1962;
M.A., Columbia University, 1968;
M.Phil., Columbia University, 1975;
Ph.D., Columbia University, 1975.

MICHAEL P. HORAN (1994)
Professor of Theological Studies
B.A., Iona College, 1977;
M.R.E., Catholic University of America, 1982;
Ph.D., Catholic University of America, 1989.

ROY S. HOUSTON (1974)
Professor of Biology
B.S., University of Arizona, 1968;
M.S., University of the Pacific, 1970;
Ph.D., University of Arizona, 1974.

LEI HUANG (2003)
Assistant Professor of Electrical Engineering
B.E., Beijing University of Posts and Telecommunications, 1993;
M.E., Nanyang Technological University, Singapore, 1998;
M.S. in E.E., University of Southern California, 1999;
Ph.D., University of Southern California, 2002.

PAUL W. HUMPHREYS (1997)
Associate Professor of Music
B.M., University of Cincinnati, 1976;
M.A., U.C. Los Angeles, 1983;

MARGARET L. HUNTER (2001)
Assistant Professor of Sociology
B.A., University of Wisconsin, 1994;
M.A., U.C. Los Angeles, 1996;

AMIR HUSSAIN (2005)
Associate Professor of Theological Studies
B.S., University of Toronto, 1987;
M.A., University of Toronto, 1990;
Ph.D., University of Toronto, 2005.

K. ANNIKA HYLMÖ (2001)
Assistant Professor of Communication Studies
B.A., Lund University, 1991;
M.A., American University, 1994;
Ph.D., Purdue University, 2001.
MARY ELIZABETH INGHAM, C.S.J. (1987)
Professor of Philosophy
B.A., Marymount College, 1973;
M.A., Loyola Marymount University, 1974;
M.A., Loyola Marymount University, 1976;
Ph.D., University of Fribourg, Switzerland, 1984.

NANCY W. JABBRA (1990)
Professor of Women's Studies and
Chairperson of the Department
B.A., U.C. Santa Barbara, 1964;
M.A., Indiana University, 1970;
Ph.D., Catholic University of America, 1975.

LAWRENCE J. JELINEK (1977)
Professor of History
B.A., University of Illinois, Urbana, 1964;

TERESE C. JIMENEZ (2004)
Assistant Professor of Education
B.A., U.C. Berkeley, 1992;
M.A., Loyola Marymount University, 1997;
M.Ed., U.C. Santa Barbara, 2003;

JOK MADUT JOK (1997)
Associate Professor of History
B.A., University of Alexandria, Egypt, 1988;
M.A., American University in Cairo, 1991;

CHRISTOPHER KACZOR (1998)
Associate Professor of Philosophy
B.A., Boston College, 1992;
M.A., University of Notre Dame, 1994;
Ph.D., University of Notre Dame, 1996.

LAWRENCE P. KALBERS (2005)
R. Chad Dreier Chair of Accounting and
Professor of Accounting
B.A., Wittenberg University, 1974;
M.S., Kent State University, 1975;
Ph.D., The Pennsylvania State University, 1989;
C.P.A.

TAI-WU KAO (1965)
Professor of Electrical Engineering
B.S., National University, Taiwan, 1958;
M.S., National University, Taiwan, 1961;
Ph.D., University of Utah, 1965.

RACHELLE KATZ (1976)
Professor of Finance, Associate Dean and
Director of the MBA Program
B.S., Purdue University, 1969;
M.B.A., University of Michigan, 1972;
Ph.D., Stanford University, 1980.

SCOTT W. KESTER (1977)
Professor of Education
B.A., Oklahoma Baptist University, 1959;
M.Ed., University of Oklahoma, 1966;
Ph.D., University of Oklahoma, 1969.

LILY KHADJAVI (1999)
Associate Professor of Mathematics
A.B., Harvard University, 1990.

W. FREDERICK KIESNER, JR. (1977)
Professor of Management and
Hilton Chair in Entrepreneurship
B.S.B., University of Minnesota, 1961;
M.B.A., Northwestern University, 1962;
Ph.D., Claremont Graduate University, 1985.

DAVID D. KILLORAN (1969)
Professor of English and
Chairperson of the Department
B.A., Michigan State University, 1965;
Ph.D., Tulane University of Louisiana, 1974.

GARLAND P. KIRKPATRICK (2003)
Assistant Professor of Art and Art History
B.A., Amherst College, 1983;
M.F.A., Yale University, 1990.

DMITRY KMLENITSKY (2004)
Assistant Professor of Art and Art History
B.A., U.C. Los Angeles, 1997;

JAMES D. KONOW (1989)
Professor of Economics and
Chairperson of the Department
B.A., Arizona State University, 1977;
M.A., U.C. San Diego, 1983;

SUDHA KRISHNAN (1999)
Assistant Professor of Accounting
B.C., University of Bombay, 1985;
M.C., University of Bombay, 1989;
M.A., University of Southern California; 1993;
Ph.D., University of Southern California, 1999.

GARY KULECK (1994)
Associate Professor of Biology and
William McLaughlin Professor of Biology
B.A., University of Maryland, 1975;
Assistant Professor of Psychology
B.S., Marquette University, 1983;
Ph.L., Gonzaga University, 1988;
M.S., University of North Carolina at Chapel Hill, 1989;
M.Div., Jesuit School of Theology, Berkeley, 1995;
Ph.D., University of Southern California, 2002.

JAMES M. LANDRY (1984)
Professor of Chemistry and Natural Science and Chairperson of the Natural Science Department
B.S., Xavier University, 1978;
M.S., Xavier University, 1983;
Ph.D., Miami University, 1984.

YVETTE LAPAYESE (2003)
Assistant Professor of Education
B.A., California State University, Fullerton, 1995;
M.A., University of Southern California, 1998;

SUZANNE LARSON (1986)
Professor of Mathematics
B.A., St. Olaf College, 1979;
Ph.D., Claremont Graduate University, 1984.

MAGALY LAVADENZ (1994)
Associate Professor of Education and Chairperson of Teacher Education
B.S., Oakland University, 1979;
M.A., California State University, Northridge, 1991;
Ph.D., University of Southern California, 1993.

HOWARD S. LAVICK (1986)
Associate Professor of Film and Television
M.A., University of Minnesota, 1969;
M.F.A., University of Southern California, 1976.

ROBERT B. LAWTON, S.J. (1999)
Professor of Classics and Archaeology and Theological Studies and President of the University
A.B., Fordham University, 1971;
Ph.D., Harvard University, 1977.

MARK LEACH (2001)
Assistant Professor of Marketing
B.S., University of Arizona, 1991;
Ph.D., Georgia State University, 1998.

CHUN I. LEE (2001)
Associate Professor of Finance, Computer Information Systems and Operations Management
B.S., Chiao Tung University, Taiwan, 1980;
M.S., U.C. Los Angeles, 1985;
M.S., Carnegie-Mellon University, 1987;
M.S., Washington University in St. Louis, 1990;

JONGHWA LEE (2004)
Assistant Professor of Communication Studies
B.A., Kei-Myung University, 1994;
M.A., San José State University, 1998;
Ph.D., Ohio University, 2003.

TERESA I. LENIHAN (2003)
Assistant Professor of Art and Art History
B.F.A., San José State University, 1982;
M.F.A., Claremont Graduate University, 1984.

LINDA LEON (1988)
Associate Professor of Finance
B.A., U.C. Los Angeles, 1982;

BRIAN P. LEUNG (1990)
Professor of Education
A.A., Pasadena City, 1974;
B.A., University of Southern California, 1976;
M.A., California State University, Long Beach, 1979;
Ph.D., University of Southern California, 1990.

HOLLI G. LEVITSKY (1991)
Associate Professor of English
B.A., University of Michigan, 1979;
M.A., University of Michigan, 1982;

PETRA LIEDKE KONOW (1995)
Associate Professor of Modern Languages and Literatures
B.A., Universität zu Köln, Germany, 1977;
M.A., Universität zu Köln, Germany, 1983;

DEBRA LINESCH (1991)
Professor of Marital and Family Therapy and Chairperson of the Department
B.A., University of Toronto, 1975;
B.Ed., Queens University, 1976;
M.A., Loyola Marymount University, 1981;
Ph.D., Union Institute, 1992.

EDMUNDO LITTON (1999)
Associate Professor of Education
B.A., De La Salle University, Philippines, 1985;
M.A., Georgetown University, 1989;

ANNIE LIU (2001)
Assistant Professor of Marketing
B.B.A., Chinese Culture University, Taipei, 1983;
M.S., Purdue University, 1988;
Ph.D., Georgia State University, 1998.
SHARON LOCY (1971)
Professor of English and Director of Liberal Studies
B.A., College of St. Teresa, 1963;
M.A., U.C. Davis, 1966;

MARC G. LONY (1998)
Associate Professor of Modern Languages and Literatures
DEUG, Université de Paris III, 1978;
M.A., Université de Paris VIII, 1980;
M.A., Université de Paris VIII, 1988;

NINA MARIA LOZANO-REICH (2003)
Assistant Professor of Communication Studies
B.A., California State University, Long Beach, 1998;
M.A., California State University, Long Beach, 2000;
Ph.D., University of North Carolina at Chapel Hill, 2003.

RICHARD A. MACHÓN (1986)
Professor of Psychology
B.A., University of Southern California, 1979;
M.A., University of Southern California, 1982;
Ph.D., University of Southern California, 1986.

ERIC MAGNUSON (2003)
Assistant Professor of Sociology
B.A., Brown University, 1991;
M.A., U.C. Los Angeles, 1994;

JUAN MAH Y BUSCH (2002)
Assistant Professor of English
B.A., U.C. Los Angeles, 1993;
M.A., Cornell University, 1998;
Ph.D., Cornell University, 2003.

CHRISTOPHER A. MANNING (1986)
Professor of Finance
B.S., San Diego State University, 1967;
M.B.A., Northwestern University, 1971;

MICHAEL E. MANOOGIAN (1993)
Professor of Civil Engineering
B.S., Loyola Marymount University, 1975;
M.S., California State University, Northridge, 1983;
M.S., California State University, Northridge, 1983;
E.C.E., University of Southern California, 1987;
Ph.D., University of Southern California, 1992;
Registered Professional Engineer.

RON MARASCO (1993)
Associate Professor of Theatre Arts
B.A., Fordham University, 1983;
M.A., U.C. Los Angeles, 1988;

DAVID MARCHESE (2005)
Adjunct Professor of Travel and Tourism
B.A., Washington and Lee University, 1966;
M.A., Syracuse University, 1967.

BARBARA E. MARINO (1997)
Associate Professor of Electrical Engineering and
Chairperson of the Department
B.S.E.E., Marquette University, 1989;
M.S.E.E., University of Notre Dame, 1993;
Ph.D., University of Notre Dame, 1996.

DAVID MARPLE (1978)
Assistant Professor of Sociology
B.A., Western Kentucky University, 1968;
M.A., State University New York, Albany, 1970;
Ph.D., Cincinnati University, 1981.

SHANE P. MARTIN (1995)
Professor of Education and
Dean of the School of Education
B.A., Loyola Marymount University, 1980;
M.Div., Jesuit School of Theology, Berkeley, 1991;
Th.M., Jesuit School of Theology, Berkeley, 1992;
Ph.D., University of Southern California, 1995.

JAMES T. MATHIEU (1972)
Professor of Sociology
B.A., Grove City College, 1956;
M. Div., Princeton Theological Seminary, 1959;
Ph.D., University of Southern California, 1972.

DAVID L. MATHISON (1983)
Professor of Management
B.A., Whittier College, 1969;
M.Div., Bethel Theological Seminary, 1975;
Ph.D., Bowling Green State University, 1978.

JEREMY E.B. McCALLUM (2005)
Assistant Professor of Chemistry
B.A., Princeton University, 1996;

JAMES McCARTHY (2001)
Adjunct Professor of Physics
B.S., Pennsylvania State University, 1982;

MARY McCULLOUGH (1995)
Professor of Education and
Chairperson of Professional Services
B.A., Mount St. Mary's College, 1968;
M.A., University of San Francisco, 1985;
Ph.D., University of Southern California, 1992.
MARY CATHARINE McELWAIN (1987)
Associate Professor of Biology and
Chairperson of the Department
A.B., Bryn Mawr College, 1973;
Ph.D., University of Utah, 1985.

CATHLEEN McGrATH (1998)
Associate Professor of Management
B.A., University of Notre Dame, 1989;

HERBERT A. MEDINA (1992)
Professor of Mathematics
B.S., U.C. Los Angeles, 1985;
M.S., U.C. Berkeley, 1987;

BLAKE MELLOR (2002)
Assistant Professor of Mathematics
B.A., Harvard University, 1993;

JOHN M. MENAGHAN (1989)
Professor of English and Director of Irish Studies
A.B., Boston College 1976;
M.A., Syracuse University, 1979;

MEL I. MENDELSON (1994)
Professor of Mechanical Engineering and Director of the
Graduate Program in Engineering and Production
Management
B.S., U.C. Berkeley, 1964;
M.S., Northwestern University, 1966;
Ph.D., Northwestern University, 1973.

MLADEN MILICEVIC (1999)
Professor of Film and Television
B.A., Academy of Music, Sarajevo, 1982;
M.A., Academy of Music, Sarajevo, 1986;
M.A., Wesleyan University, 1988;

MICHAEL E. MILLS (1985)
Associate Professor of Psychology
B.A., U.C. Los Angeles, 1975;
M.S., California State University, Long Beach, 1977;
Ph.D., U.C. Santa Barbara, 1983.

MICHAEL MIRANDA (2001)
Assistant Professor of Music
B.A., California State University, Northridge, 1984;
M.A., California State University, Los Angeles, 1988;
Ph.D., Claremont Graduate University, 2001.

ROBIN MISKOLCZE (2003)
Assistant Professor of English
B.A., Indiana University of Pennsylvania, 1991;
M.A., University of Nebraska, 1992;
Ph.D., University of Nebraska, 2000.

DAVID A. MOFFET (2005)
Assistant Professor of Chemistry
B.S., Shippensburg University, 1997;
Ph.D., Princeton University, 2002.

SYLVIA MORALES (2003)
Assistant Professor of Film and Television
B.A., U.C. Los Angeles, 1972;

MARK D. MORELLI (1981)
Professor of Philosophy and
Director of the Graduate Program in Philosophy
B.A., Santa Clara University, 1970;
M.A., University of Toronto, 1973;
Ph.D., University of Toronto, 1979.

EDWARD C. MOSTEIG (2002)
Assistant Professor of Mathematics
B.S., University of Michigan, Ann Arbor, 1993;
M.S., University of Illinois, Champaign-Urbana, 1996;
M.S., Cornell University, 1999;
Ph.D., Cornell University, 2002.

MICHAEL E. MULVIHILL (1966)
Professor of Civil Engineering
B.S. in C.E., Loyola University, Los Angeles, 1960;
M.S., University of Southern California, 1963;
Ph.D., U.C. Los Angeles, 1973;
Registered Professional Engineer.

TERESA MUÑOZ (1974)
Professor of Art and Art History
B.A., Marymount College, 1971;
M.A., California State University, Northridge, 1974;
M.F.A., California State University, Long Beach, 1982.

Assistant Professor of Physics
B.Sc., University of Toronto, 1993;
M.Sc., University of Waterloo, 1995;
Ph.D., University of Toronto, 2002.

ELIZABETH MURRAY (1987)
Professor of Philosophy
B.A., Santa Clara University, 1971;
M.A., University of Toronto, 1973;
Ph.D., University of Toronto, 1981.
ROBBIE NAKATSU (2000)
Assistant Professor of Finance and Computer Information Systems
B.A., Yale University, 1986;

VIRGIL MARTIN NEMOIANU (2005)
Assistant Professor of Philosophy
B.A., College of the Holy Cross, 1995;
M.A., University of Washington, 1998;

ROBBIE NAKATSU (2000)
Assistant Professor of Finance and Computer Information Systems
B.A., Yale University, 1986;

ÁINE O'HEALY (1989)
Professor of Modern Languages and Literatures
B.A., University College, Galway, 1969;
M.A., University College Galway, 1971;
Ph.D., University of Wisconsin, Madison, 1976.

IRENE OLIVER (1982)
Associate Professor of Education
B.A., Marymount College, 1973;
M.Ed., Loyola Marymount University, 1976;
Ed.D., Pepperdine University, 1997.

BOHDAN W. OPPENHEIM (1983)
Professor of Mechanical Engineering and
Director of the Graduate Program in Mechanical Engineering
B.S.C., Warsaw Polytechnic, 1970;
M.S.C., Stevens Institute of Technology, 1974;
Naval Architect, Massachusetts Institute of Technology, 1974;
Ph.D., Southampton University, 1980.

MICHAEL O'SULLIVAN (1985)
Professor of Psychology, Chairperson of the Department,
and Director of the Graduate Program in Counseling Psychology
B.A., St. Louis University, 1972;
M.S., St. Louis University, 1973;
M.Div., Jesuit School of Theology, Berkeley, 1978;
S.T.M., Jesuit School of Theology, Berkeley, 1979;
Ph.D., St. Louis University, 1982.

JOHN A. PAGE (1962)
Professor of Electrical Engineering
B.S. in E.E., Loyola University, Los Angeles, 1961;
M.S. in E., U.C. Los Angeles, 1964;
Ph.D., U.C. Los Angeles, 1970;
Registered Professional Engineer.

YONGSUN PAIK (1991)
Professor of Management
B.A., Yonsei University, 1978;
M.B.A., Chung-Ang University;
M.A., University of Texas, Austin, 1986;
Ph.D., University of Southern California, 1989.

RODDER PARDEE (2000)
Assistant Professor of Film and Television
B.A., University of Nebraska, 1977;
M.S., Purdue University, 1980;
Ph.D., University of Southern California, 1989.

ALICIA M. PARTNOY (1998)
Associate Professor of Modern Languages and Literatures
B.A., Universidad Nacional del Sur, 1989;
M.A., The Catholic University of America, 1991;
KYRA PEARSON (2002)
Assistant Professor of Communication Studies
B.A., U.C. Davis, 1995;
M.A., University of Iowa, 1999;
Ph.D., University of Iowa, 2003.

LUCRETIA PEEBLES (2005)
Associate Professor of Education
B.A., Yale University, 1984;
M.A., University of Toronto, 1985;
Ph.D., Yale University, 1991.

ERIC D. PERL (2004)
Associate Professor of Philosophy
B.A., Yale University, 1984;
M.A., University of Toronto, 1985;
Ph.D., Yale University, 1991.

RICHARD J. PERLE (1975)
Professor of Finance and Chairperson of the Department
B.S., Michigan Technological University, 1967;
M.B.A., California State University, Long Beach, 1972;
M.S., University of Southern California, 1974;
Ph.D., University of Southern California, 1981.

ANTHONY M. PERRON (2004)
Assistant Professor of History
B.A., University of Chicago, 1994;
M.A., University of Chicago, 1996;
Ph.D., University of Chicago, 2002.

MICHAEL B. PESCE (2003)
Adjunct Professor of Bioethics
B.A., U.C. Davis, 1972;
M.D., Mount Sinai School of Medicine, 1977;
J.D., University of San Diego School of Law, 1985.

K.J. PETERS (2000)
Assistant Professor of English
B.A., Tabor College, 1985;
M.A., Wichita State University, 1988;
Ph.D., University of Nebraska, 1998.

ANTONIA PETRO (2000)
Assistant Professor of Modern Languages and Literatures
B.A., University of Salamanca, 1994;
M.A., Michigan State University, 1996;
Ph.D., Michigan State University, 2000.

JEFFREY A. PHILLIPS (2001)
Assistant Professor of Physics
B.S., University of Virginia, 1993;
M.S., U.C. Irvine, 1996;

RICHARD G. PLUMB (2005)
Professor of Electrical Engineering and Dean of the Frank R. Seaver College of Science and Engineering
B.S.E.E., Syracuse University, 1982;
M.S.E.E., Syracuse University, 1985;
Ph.D., Syracuse University, 1988.

CANDACE A. POINDEXTER (1987)
Professor of Education
B.A., U.C. Los Angeles, 1967;
M.Ed., Loyola Marymount University, 1977;

JOHN R. POPIDEN (1977)
Associate Professor of Theological Studies and Associate Dean, Bellarmine College of Liberal Arts
B.A., Rice University, 1972;
M.A., University of Notre Dame, 1977;
Ph.D., University of Notre Dame, 1980.

LUIŠ PROENÇA, S.J. (2002)
Assistant Professor of Film and Television
B.A., Coimbra University, 1980;
S.T.L., Universidade Católica Portuguesa, Brage, 1986;
M.Div., Jesuit School of Theology, Berkeley, 1991;
M.A., Jesuit School of Theology, Berkeley, 1992;

ZBIGNIEW H. PRZASNYSKI (1985)
Professor of Operations Management
B.S., University of Sussex, 1972;
M.S., University of Sussex, 1973;
Ph.D., University of Sussex, 1977.

RALPH L. QUÍÑONES (1986)
Associate Professor of Business Law
B.A., Vassar College, 1974;
J.D., New York University, 1980;

NIGEL A. RAAB (2005)
Assistant Professor of History
B.Sc., Queen's University, Kingston, 1990;
B.A., Queen's University, Kingston, 1995;
M.A., University of Zurich, 1997;
M.Phil., Columbia University, 1997;
Ph.D., Columbia University, 2002.

CHARLOTTE C. RADLER (2003)
Assistant Professor of Theological Studies
B.A., University of Lund, 1997;
M.A., University of Lund, 1997;
PATRICK DAMON RAGO (2001)  
Assistant Professor of Dance  
B.A., California State University, Fullerton, 1994;  
M.F.A., University of Utah, 1996.

DAVID A. RAMIREZ (2002)  
Assistant Professor of Natural Science  
B.A., California State Polytechnic University, Pomona, 1991;  
A.T.C., 1991;  
M.A., California State University, Fresno, 1993;  

MARTIN RAMIREZ (1999)  
Associate Professor of Biology  
B.S., Loyola Marymount University, 1981;  

FRANCISCO RAMOS (2003)  
Assistant Professor of Education  
B.A., Escuela Universiteria de Formación del Profesorado de Soria, 1982;  
M.A., Universidad de Zaragoza, 1985;  
M.A., California State University, Los Angeles, 1995;  
Ph.D., University of Southern California, 2000.

T. Marie Chilton Professor of Catholic Theology and Professor of Theological Studies  
B.A., Gonzaga University, 1966;  
M.A., Gonzaga University, 1967;  
S.T.M., Jesuit School of Theology, Berkeley, 1972;  
Ph.D., Duke University, 1976.

JOSEPH C. REICHENBERGER (1993)  
Professor of Civil Engineering, and Graduate Director of the Frank R. Seaver College of Science and Engineering  
B.C.E., Marquette University, 1964;  
M.S., University of Southern California, 1967;  
Registered Professional Engineer.

JOHN T. REILLY (1984)  
Associate Professor of English  
B.A., Harpur College, 1968;  
M.F.A., Cornell University, 1972;  
Ph.D., Cornell University, 1977.

THOMAS J. REILLY (1976)  
Associate Professor of Chemistry  
B.A., Brooklyn College, 1963;  
Ph.D., University of Southern California, 1971.

BARBARA ROCHE RICO (1989)  
Professor of English  
B.A., Yale University, 1977;  
M.Phil., Yale University, 1981;  
Ph.D., Yale University, 1987.

PETER SMITH RING (1990)  
Professor of Management  
B.A., St. Anselm College, 1963;  
L.L.B., Georgetown, 1966;  
M.P.A., Harvard University, 1970;  

JAMES A. ROE (1991)  
Professor of Chemistry and Chairperson of the Department  
A.B., Williams College, 1977;  

ERNEST ROSE (2005)  
Professor of Education and Vice President, Academic Affairs  
B.A., U.C. Santa Barbara, 1978;  
M.S., University of Utah, 1978;  
Ph.D., University of Utah, 1984.

CHUCK ROSENTHAL (1986)  
Professor of English  
B.A., Allegheny University, 1973;  
M.A., Bowling Green State University, 1975;  
M.A., U.C. Davis, 1981;  
Ph.D., University of Utah, 1986.

JUDITH ROYER, C.S.J. (1973)  
Professor of Theatre Arts  
B.A., St. Joseph Teachers College, 1967;  
M.A., California State University, Los Angeles, 1973;  
Ph.D., U.C. Santa Barbara, 1983.

PAUL A. RUDE (1963)  
Professor of Electrical Engineering  
B.S. in E., U.C. Los Angeles, 1955;  
M.S. in E.E., University of Pittsburgh, 1957;  
Ph.D., University of Pittsburgh, 1962.

Professor of Theological Studies  
A.B., Loyola University Chicago, 1954;  
M.A., Loyola University Chicago, 1960;  
Ph.L., West Baden College, 1956;  
S.T.B., Woodstock College, 1961;  
S.T.L., Woodstock College, 1963;  
S.T.D., Gregorian University, Rome, 1967;  

JOSE A. SAEZ (2002)  
Assistant Professor of Civil Engineering  
B.S.E., Loyola Marymount University, 1986;  
M.S.E., Loyola Marymount University, 1991;  
Ph.D., U.C. Los Angeles, 2004;  
Registered Professional Engineer.
YING SAI (2004)  
Assistant Professor of Computer Information Systems  
B.S., Beijing Institute of Light Industry, 1983;  
M.S., Carnegie Mellon University, 1986;  
Ph.D., University of Texas at Austin, 2002.  

A. SALEH-JAHROMI (1984)  
Adjunct Professor of Physics  
B.S., Tehran University, 1963;  
M.S., Tehran University, 1967;  

NADER SANIEI (2004)  
Professor of Mechanical Engineering and  
Chairperson of the Department  
B.S., Purdue University, 1981;  
M.S., U.C. Davis, 1984;  

JEFF SANNY (1980)  
Professor of Physics  
B.S., Harvey Mudd College, 1974;  
M.S., U.C. Los Angeles, 1976;  

MARK R. SAYA (1993)  
Associate Professor of Music  
B.M., Indiana University, 1978;  
M.M., University of Cincinnati, 1980;  

VIRGINIA SAYA (1989)  
Professor of Music  
B.Mus., Simpson College, 1975;  
M.Mus., University of Cincinnati, 1983;  
Ph.D., University of Cincinnati, 1989.  

JUDITH M. SCALIN (1976)  
Professor of Theatre Arts and Dance  
and Co-Chairperson of the Department  
B.A., U.C. Los Angeles, 1968;  

STEPHEN H. SCHECK (1982)  
Professor of Biology and  
Associate Dean of the Frank R. Seaver College of  
Science and Engineering  
B.S., Fort Hays State University, 1975;  
M.S., Fort Hays State University, 1977;  
Ph.D., Iowa State University, 1980.  

DEAN F. SCHEIBEL (1991)  
Professor of Communication Studies and  
Acting Chairperson of the Department  
B.S., California State University, Northridge, 1975;  
B.A., California State University, Northridge, 1984;  
M.A., California State University, Northridge, 1986;  

SUSAN SCHEIBLER (2001)  
Assistant Professor of Film and Television  
B.A., Biola University, 1976;  
M.A., Claremont Graduate University, 1986;  
M.A., University of Southern California, 1986;  
Ph.D., University of Southern California, 1994.  

MARK EVAN SCHWARTZ (2001)  
Assistant Professor of Film and Television  
B.F.A., East Carolina University, 1975;  
M.F.A., Boston University, 1980.  

TERI SCHWARTZ (2003)  
Dean, School of Film and Television  
B.A., U.C. Los Angeles, 1971;  

KALA CHAND SEAL (1990)  
Professor of Computer Information Systems  
B. Tech, India Institute of Technology, 1985;  
M.S., University of Texas, Dallas, 1989;  
Ph.D., University of Texas, Dallas, 1990.  

PATRICK D. SHANAHAN (1996)  
Associate Professor of Mathematics  
B.A, California State University, Long Beach, 1990;  
M.S., U.C. Santa Barbara, 1992;  
Ph.D., U.C. Santa Barbara, 1996.  

TIMOTHY D. SHANAHAN (1988)  
Professor of Philosophy and  
Chairperson of the Department  
B.S./B.A., State University New York, Cortland, 1983;  
M.A., University of Notre Dame, 1986;  
Ph.D., University of Notre Dame, 1988.  

THOMAS SHERMAN, S.J. (2001)  
Assistant Professor of Philosophy  
B.A., Marquette University, 1977;  
M.A., St. Louis University, 1981;  
M.Div., Weston School of Theology, 1987;  
Ph.D., University of Toronto, 1999.  

GARY P. SIBECK (1965)  
Professor of Business Law  
B.A., University of Oklahoma, 1951;  
M.A., University of Oklahoma, 1960;  
J.D., University of Oklahoma, 1962;  
Ph.D., University of Southern California, 1971.  

SLOBODAN SIJAN (2000)  
Assistant Professor of Film and Television  
B.A., University of Arts (Yugoslavia), 1970;  
M.A., University of Arts (Yugoslavia), 1975.
JEFFREY S. SIKER (1987)
Professor of Theological Studies and Chairperson of the Department

ROBERT SINGLETON (1982)
Associate Professor of Economics

Assistant Professor of Mechanical Engineering

DAVID SMITH (1978)
Professor of Mathematics
B.S., Oklahoma State University, 1971; M.S., Oklahoma State University, 1973; Ph.D., Oklahoma State University, 1978.

DANIEL L. SMITH-CHRISTOPHER (1989)
Professor of Theological Studies and Director of Peace Studies

Professor of Biology
B.S., Loyola University, Los Angeles, 1966; Ph.D., U.C. Los Angeles, 1970.

H. DANIEL STAGE, JR. (1973)
Professor of Management
B.S., Massachusetts Institute of Technology, 1953; M.B.A., University of Southern California, 1969; D.B.A., University of Southern California, 1976.

JANIE S. STECKENRIDER (1991)
Associate Professor of Political Science

JOHN A. STEWART (1989)
Professor of Film and Television

ELIZABETH A. STODDARD (2005)
Associate Professor of Education and Associate Dean of the School of Education
B.A., Western Michigan University, 1977; M.A., Western Michigan University, 1979; Ph.D., Oregon State University, 1996.

BRAD ELLIOTT STONE (2003)
Assistant Professor of Philosophy

CHARLES SWANSON (2003)
Assistant Professor of Film and Television

ERNEST S. SWEENEY, S.J. (1972)
Professor of History
A.B., Loyola University Chicago, 1955; Ph.L., West Baden College, 1957; M.A., Loyola University Chicago, 1959; S.T.L., Woodstock College, 1964; Ph.D., University of Texas, Austin, 1970.

LAWRENCE TAI (1990)
Professor of Finance
B.S., Illinois State University, 1974; M.B.A., Indiana University, 1976; Ph.D., Georgia State University, 1983; C.P.A.

REV. MICHAEL R. TANG (1990)
Professor of Art and Art History and Chairperson of the Department

VANDANA THADANI (2004)
Assistant Professor of Psychology

RENATE THIMESTER (1971)
Associate Professor of Economics
SETH B. THOMPSON (1970)
Professor of Political Science and
Chairperson of the Department
B.A., Santa Clara University, 1966;
M.A., University of Oregon, 1968;
Ph.D., University of Oregon, 1972.

JOSEPH S. TIEDEMANN (1979)
Professor of History
B.A., St. Francis College, 1968;
Ph.D., City University of New York, 1977.

RAYMOND J. TOAL (1986)
Professor of Electrical Engineering/Computer Science
B.S., Loyola Marymount University, 1985;
M.S., Loyola Marymount University, 1986;

BRIAN TREANOR (2001)
Assistant Professor of Philosophy
B.A., U.C. Los Angeles, 1991;
M.A., California State University, Long Beach, 1997;

LAWRENCE A. TRITLE (1978)
Professor of History
B.A., U.C. Los Angeles, 1968;
M.A., University of South Florida, 1972;
Ph.D., University of Chicago, 1978.

WILLIAM TROTT (1975)
Professor of Civil Engineering and
Chairperson of the Department
B.S., U.C. Los Angeles, 1971;
M.S., U.C. Los Angeles, 1972;
Ph.D., U.C. Los Angeles, 1979;
Registered Professional Engineer.

NAZMUL ULA (1991)
Professor of Electrical Engineering
B.S., Bangladesh University of Engineering and Technology, 1979;
M.S., University of Wyoming, 1985;

Assistant Professor of Biology
B.S., University of Illinois at Urbana-Champaign, 1992;
Ph.D., Loyola University Chicago, 1998.

CHARLES VANCE (1986)
Professor of Management
B.S., Brigham Young University, 1975;
M.A., Brigham Young University, 1977;
Ph.D., Syracuse University, 1981.

GABRIELE VARIESCHI (2000)
Assistant Professor of Physics
B.S., University of Milano, Italy, 1989;
M.S., U.C. Los Angeles, 1996;

CAROLYN M. VIVIANO (2002)
Assistant Professor of Natural Science
B.A., Amherst College, 1982;
M.S., Columbia University, 1985;
M.Phil, Columbia University, 1985;
Ph.D., Columbia University, 1990.

JOHN P. WAGGONER, III (1976)
Professor of Biology
B.A., Duke University, 1965;
M.S., University of Nebraska, 1967;

R. PATRICIA WALSH (1973)
Professor of Psychology
B.A., University of Maryland, 1968;

JAMES J. WALTER (1999)
Austin and Ann O'Malley Professor of Bioethics and
Director of The Bioethics Institute
B.A., St. Meinrad College, 1969;
B.A., Katholieke Universiteit Leuven, 1970;
S.T.B., Katholieke Universiteit Leuven, 1971;
M.A., Katholieke Universiteit Leuven, 1971;
Ph.B., Katholieke Universiteit Leuven, 1972;

ROB WANG (1999)
Assistant Professor of Philosophy and
Director of Asian/Pacific Studies
B.A., Peking University, 1980;
M.A., Peking University, 1983;
M.A., University of Notre Dame, 1988;
Ph.D., University of Wales, 1998.

SHARON WATT (1995)
Adjunct Professor of Education
B.S., University of Southern California, 1971;
M.S., University of Southern California, 1972;
J.D., Loyola University School of Law, 1978.

CONNIE J. WEEKS (1987)
Professor of Mathematics
B.S., Harvey Mudd College, 1970;
M.S., University of Southern California, 1972;
Ph.D., University of Southern California, 1977.

DAN WEINGARTEN (2004)
Assistant Professor of Theatre Arts
B.S., Drexel University, 1988;
LAWRENCE A. WENNER (2000)
* Von der Ahe Professor of Communication and Ethics
B.A., California State University, Northridge, 1974;
M.A., University of Iowa, 1976;
Ph.D., University of Iowa, 1977.

KENNEDY WHEATLEY (2000)
* Assistant Professor of Film and Television
B.A., Michigan State University, 1980;
M.F.A., University of Southern California, 1998.

MARIYLN WHIRRY (1990)
* Adjunct Professor of Education
B.A., Immaculate Heart College, 1955;
M.A., Immaculate Heart College, 1958;

THOMAS I. WHITE (1994)
* Hilton Professor in Business Ethics, and
  Adjunct Professor of Philosophy
A.B., College of the Holy Cross, 1969;
M.A., Columbia University, 1970;
Ph.D., Columbia University, 1974.

JOHN T. WHOLIHAN (1984)
* Professor of Management and
  Dean of the College of Business Administration
B.S., University of Notre Dame, 1959;
M.B.A., Indiana University, 1960;
Ph.D., American University, 1973.

JEFFREY L. WILSON (1995)
* Assistant Professor of Philosophy
B.A., St. John's College, 1985;
M.A., Emory University, 1991;
Ph.D., Emory University, 1995.

LUCY WILSON (1982)
* Professor of English
B.A., Kutztown University, Pennsylvania, 1974;
M.A., Kutztown University, Pennsylvania, 1975;
Ph.D., Temple University, 1982.

ROBERT D. WINSOR (1991)
* Professor of Marketing
B.A., University of La Verne, 1982;
B.A., Claremont McKenna College, 1983;
Ph.D., University of Southern California, 1989.

AMY WOODSON-BOULTON (2004)
* Assistant Professor of History
B.A., U.C. Berkeley, 1994;
M.A., U.C. Los Angeles, 1999;

WARREN S. WRIGHT (1967)
* Professor of Mathematics
B.A., Pomona College, 1963;
M.A., University of Southern California, 1965.

GAIL WRONSKY (1987)
* Professor of English
B.A., University of Virginia, 1978;
M.F.A., University of Virginia, 1981;
Ph.D., University of Utah, 1986.

IDIL YAYEROGLU (2002)
* Assistant Professor of Marketing
B.S., ODTU, Turkey, 1995;
M.B.A., Bilkent University, 1997;
Ph.D., Georgia State University, 2002.

KELLY YOUNGER (2001)
* Assistant Professor of English and
  Director of the University Honors Program
B.A., Loyola Marymount University, 1994;
M.A., Loyola University Chicago, 1996;
Ph.D., University College, Dublin, 1999.

KATERINA ZACHARIA (1999)
* Associate Professor of Classics and Archaeology and
  Director of the Humanities Program
B.A., Capodistrian University, 1988;
M.A., University College, London, 1990;

THOMAS M. ZACHARIAH (1988)
* Associate Professor of Mathematics
B.S., Kerala University, 1971;
M.S., Kerala University, 1973;
M.A., Claremont Graduate University, 1980;
Ph.D., Claremont Graduate University, 1984.

SEID M. ZEKAVAT (1964)
* Professor of Economics
B.A., Tehran University, 1955;
B.A., Pepperdine University, 1960;
M.A., University of Southern California, 1961;
Ph.D., University of Southern California, 1964.

ANATOLY ZHUPLEV (1992)
* Professor of Management
B.S., Ordzhonikidze Engineering-Economics Institute,
  Moscow, 1974;
Ph.D., Moscow Management Institute, 1981.

DENNIS G. ZILL (1972)
* Professor of Mathematics
B.A., St. Mary's College, 1962;
M.S., Iowa State University, 1962;
Ph.D., Iowa State University, 1967.

DONALD ZIRPOLA (1978)
* Professor of Film and Television
B.A., Chapman College, 1970;
University Librarians

ANTHONY J. AMODEO (1984)
Reference Librarian
B.A., De Paul, 1967;
M.A.L.S., Rosary, 1981;
M.A., Loyola Marymount University, 1989.

CYNTHIA BECHT (1995)
Special Collections Librarian
B.A., U.C. Los Angeles, 1987;

TIFFANY CASTRO-KALISH (2003)
Reference Librarian
B.A., U.C. Santa Cruz, 1997;

MARcia FINDLEY (1981)
Assistant University Librarian for Collection Development
B.A., Oklahoma, 1961;

CHRISTINA HENNESSEY (2002)
Acting Systems Librarian
B.S., Virginia Polytechnic Institute & State University, 1992;

GLENN JOHNSON-GRAU (1996)
Reference Librarian and
Networked Resources Coordinator
B.A., U.C. Los Angeles, 1987;

ALEXANDER JUSTICE (2002)
Reference Librarian
B.A., Loyola Marymount University, 1991;

JANET H. LAI (1971)
Head Acquisitions/Serials Librarian
B.A., Tamkang College, 1961;

RHONDA ROSEN (1987)
Head of Media and Reserve Services
B.A., U.C. Los Angeles, 1977;

ELISA SLATER (1999)
Reference Librarian
B.A., U.C. Riverside, 1991;

SUSAN SLOMA (2004)
Cataloging Librarian
B.A., Illinois, 1974;
J.D., Boston University, 1978;
M.L.S., Dominican University, 1993.

CLAY STALLS (2000)
Manuscript Curator/Librarian
B.A., Texas Tech University, 1979;
Ph.D., U.C. Los Angeles, 1991;

ERROL WAYNE STEVENS (1994)
Assistant University Librarian for Archives
and Special Collections
A.B., Indiana, 1966;
M.A., Indiana, 1970;
Ph.D., Indiana, 1978.

WALTER WALKER (1996)
Head Cataloging Librarian
B.A., U.C. Santa Barbara, 1979;

SACHI YAGYU (1990)
Head of Reference/Circulation Services
B.A., Minnesota, 1980;
