It is subject to change due to forces beyond the University’s control or as deemed necessary by the University in order to fulfill its educational objectives.*
The University
The University

History

The names “Loyola” and “Marymount” have long been associated with Catholic higher education in countries around the globe. Saint Ignatius Loyola, founder of the Society of Jesus, the Jesuits, sanctioned the foundation of his order’s first school in 1548. The Religious of the Sacred Heart of Mary have conducted educational institutions since their establishment in France by Father Jean Gailhac. These two traditions of education have come together in Los Angeles as Loyola Marymount University.

The present institution is the successor to the pioneer Catholic college and first institution of higher learning in Southern California. In 1865 the Vincentian Fathers inaugurated St. Vincent's College for Boys in Los Angeles. When this school closed in 1911, members of the Society of Jesus opened the high school division in their newly founded Los Angeles College.

Rapid growth prompted the Jesuits to commence the collegiate department that same year, seek a new campus in 1917, and incorporate as Loyola College of Los Angeles in 1918. Relocating to the present Westchester campus in 1929, the school achieved university status one year later.

Graduate instruction began in 1920 with the foundation of a separate law school. The formation of the Graduate Division occurred in June 1950, though graduate work had formed an integral part of the Teacher Education Program during the preceding two years.

The Religious of the Sacred Heart of Mary began teaching local young women in 1923. Ten years later they opened Marymount Junior College in Westwood which first granted the baccalaureate degree in 1948. The school later transferred classes to a new campus on the Palos Verdes Peninsula in 1960. Eight years later, Marymount College moved again, this time to the Westchester campus of Loyola University as an autonomous college. At this juncture, the Sisters of St. Joseph of Orange joined the Marymount Sisters as partners.

After five years of sharing faculties and facilities, Loyola University and Marymount College merged and formed Loyola Marymount University in July 1973. Through this union, the expanded school maintained the century-old mission of Catholic higher education in Los Angeles.

In articulating a vision for this unique collegiate enterprise, the Board of Trustees turned to the history of the four-century-old Jesuit educational philosophy as well as to the history and traditions of the Marymount and St. Joseph’s Sisters. They also recognized the riches of a variety of religious traditions represented among the dedicated faculty and staff that complemented and enhanced the school’s heritage of Catholic values.

The University pursues quality in:

- Curricula of All Academic Programs
- Co-curricular Programs and Support Services
- Faculty, Administration and Staff
- Students
- Campus Life, Hospitality and Services

Loyola Marymount University:

- Promotes Academic Excellence
- Lives an Institutional Commitment to Roman Catholicism and the Judeo-Christian Tradition
- Provides a Liberal Education
- Fosters a Student-centered University
- Creates a Sense of Community on Campus
- Participates Actively in the Life of the Larger Community

University Mission Statement

Founded in 1911 and located in Los Angeles, Loyola Marymount is the only Jesuit/Marymount university in the southwestern United States. It is institutionally committed to Roman Catholicism and takes its fundamental inspiration from the traditions of its sponsoring religious orders. Loyola Marymount has always been, above all, a student-centered university.

Loyola Marymount understands and declares its purpose to be:

- The encouragement of learning
- The education of the whole person
- The service of faith and the promotion of justice

Therefore, the University pursues quality in:

Curricula of All Academic Programs

Instruction in all disciplines and courses is to be challenging, intellectually stimulating, and current. It is to be conducted in an atmosphere of academic freedom and is to include discussion of the important moral and other value questions of contemporary society. Students are to acquire skills, knowledge, and the ability to use their skills and knowledge creatively now and in the future.
The undergraduate core curriculum is to be structured, integrated, and centered on the humanities, especially philosophy and Catholic theology. Students are to acquire the arts of precise and elegant expression, a sound and critical grasp of ideas, a familiarity with the modern world’s ways of knowing itself, a personal understanding of this nation’s history and multicultural heritage, and an appreciation of other cultures and societies around the globe.

Concentrations in the liberal arts and sciences as well as in carefully selected pre-professional programs are to give students not only technical knowledge and expertise but also awareness of the larger human context that calls them to use their competencies for personal growth and service to others. Similarly, the University’s commitment to graduate and professional education is aimed at the formation of men and women of competence and compassion.

**Co-curricular Programs and Support Services**

Other campus activities—resident life, clubs and organizations, recreational and sports programs, social events, and health services—are to complement academic pursuits. Students are to have opportunities, experiences, and responsibilities that will assist and guide their struggle to become fully human.

University life as a whole is to be open to the subtle presence and activity of God, God’s Word, and Spirit. Students are to find a campus environment, reinforced by specific programs, that nourishes faith and contemplation, seeks the integration of reason and faith, the religious and secular, and recognizes the implications of faith for right conduct and service.

All offices of the University—academic, student life, business, university relations, facilities management, and campus ministry—are to be supportive of the university’s efforts to graduate intelligent, faith-filled men and women for others.

**Faculty, Administration, and Staff**

The university is to recruit faculty who are supportive of its mission and goals, well-educated, well-trained in their fields, diverse, and committed to excellence in the classroom, significant scholarship, and contributions to their disciplines. The university is to assist individual faculty members with the challenge of combining in one life dedicated teaching, close relationships with students, collegiality, and scholarly activity and achievement.

The university is to recruit and develop administrators and staff, of diverse backgrounds, who are supportive of its missions and goals, skilled, dedicated to their work, and collegial.

Students are to find in all who labor on behalf of the university examples of generosity, service, and personal integrity.

**Students**

The university is to recruit and attract literate, capable students, as academically prepared as possible, who are comfortable with its mission and goals, eager to study and to participate in campus life, searching to discover and follow a worthwhile direction for their own lives. The mix of the student body—interests, special talents, geographic origin, socioeconomic class, and, particularly, ethnicity—is to be as varied as reasonable and possible, manifesting always the biblical option for the poor.

From admission to commencement, inside and outside the classroom, the university is to encourage and challenge students as individuals to liberate their own minds and hearts and to develop their God-given abilities for service to others and God’s greater glory.

The university is always to measure and judge its success with students by their lives as alumni—the quality of their personal lives, of their careers, of their influence and leadership, and of their accomplishments.

**Campus Life, Hospitality, and Service**

All on campus—faculty, administration and staff, students—are to collaborate and share responsibility for the formation of an academic community based on mutual respect, friendship, and a shared commitment to the university’s mission and goals. All are to expect from one another good work, disciplined behavior, and courtesy.

The university community is to be open and welcoming to others from off campus who visit for intellectual stimulation and reflection, artistic events and programs, worship, or relaxation and recreation. Those invited are to include, especially, alumni, parents and families, benefactors and friends, professional colleagues, neighbors, and church members, but also others whom the university can appropriately serve with its facilities, buildings, and grounds.

The university is to be known not only as an intellectual and cultural center which others can visit but also one that sends its members—faculty, administration and staff, students—into the community to learn, to teach, to minister, to labor, to participate in and lead efforts to create a more rational, faith-filled, just society.

Guided by this mission, Loyola Marymount has become a comprehensive university with excellent undergraduate instruction, selected graduate programs, and a distinguished law school.
Goals

Loyola Marymount University promotes academic excellence by:

- Enrolling an academically ambitious, multicultural, and socio-economically diverse student body
- Recruiting, retaining, and supporting a diverse and multicultural faculty committed to excellence in teaching and active scholarship or artistic productivity
- Sustaining an excellent staff and administration as partners with the faculty in promoting academic excellence
- Engaging students in academic programs that explore the multicultural experience of American ethnic groups
- Maintaining an academic community in which freedom of inquiry and expression enjoy the highest priority
- Emphasizing the skills and knowledge necessary for a lifetime of intellectual growth and providing strong pre-professional and professional preparation in the undergraduate curriculum
- Offering excellent graduate and legal education in a context which promotes the highest standards of personal integrity and professional responsibility
- Developing and maintaining the physical facilities, equipment, and support systems that enable the university to carry out its academic mission
- Providing library facilities and services for excellence in the university's undergraduate, graduate, and professional programs

Lives an institutional commitment to Catholicism and the Judeo-Christian tradition by:

- Ensuring that Catholic faith and tradition continue to inform and inspire the Loyola Marymount educational experience
- Encouraging collaboration between members of the founding religious communities and other members of the University to give a distinctive tone to campus life
- Welcoming students, faculty, and staff from all faith traditions
- Emphasizing the examination of the moral and ethical implications of all human actions
- Fostering a just society through a commitment to social justice and service
- Offering opportunities for religious practice and faith development for the entire Loyola Marymount community

Provides a liberal education by:

- Offering a core curriculum that provides each undergraduate with a broad education in the liberal arts and sciences as the heart of the undergraduate experience
- Emphasizing the study of philosophy and theology in the undergraduate curriculum
- Challenging all students to think critically and reflect on basic values and issues, and free themselves from prejudice
- Supporting a faculty committed to excellent teaching and scholarship in a university based on the liberal arts tradition
- Encouraging students to understand their fields of studies in a broad intellectual, ethical, and social context
- Preparing students, undergraduate and graduate, to play active roles in addressing the problems and challenges of the larger society and world in which they live

Fosters a student-centered university by:

- Maintaining the residential character and medium size of the Westchester campus to assure that each student receives personal attention
- Encouraging staff, administration, and faculty to embrace the ideal of personal care and dedication to the well-being and development of each student
- Offering co-curricular programs that complement the academic programs and produce a coherent educational experience
- Supporting the full involvement of students in campus life by offering a wide variety of activities
- Providing opportunities for students to develop their leadership skills by actively involving them in decision making
- Challenging and encouraging students to lead and serve others

Creates a sense of community on campus by:

- Introducing new members of the community to the shared values and history of the university and reinforcing a sense of belonging for all members
- Assuring that the daily life of the campus reflects a vision of human dignity and fosters mutual understanding and caring
- Celebrating the richness and diversity of a multicultural campus
- Encouraging faculty, staff, administrators, and students to serve others, participate in the life of the University, and act as responsible and generous members of the academic community
• Providing opportunities to participate in making significant decisions through well-defined and fair procedures

Participates actively in the life of the larger community by:

• Using the resources of Los Angeles and Southern California to expand and deepen the student’s educational experience
• Developing academic programs that address the dynamics and opportunities of the nations and cultures of Latin America and the Pacific Rim
• Inspiring faculty, staff, students, and alumni to serve their communities and society by applying their skills and knowledge to critical problems
• Contributing to the intellectual and cultural life of society through scholarship and the arts
• Providing leadership in the examination and discussion of the ethical dimensions of social issues
• Recognizing a particular responsibility to serve the global Church, and especially the people of the Archdiocese of Los Angeles and the local dioceses.

Approved by Board of Trustees, December 3, 1990

**Interculturalism**

Interculturalism is sharing and learning across cultures with the aim of promoting understanding, equity, harmony, and justice in a diverse society. Our actions must be grounded in, and guided by, the following:

• LMU is composed of individuals and groups who continue to grow in knowledge of the historical contexts from which we emerged.
• Knowledge of self and others, inspired by a commitment to human dignity and justice, is the hallmark of interculturalism.
• Promotion of the common good requires the recognition of similarities within a common humanity, the appreciation of differences, and the willingness to share cross-cultural experiences.
• Interculturalism is a dynamic and critical endeavor that involves the acquisition of knowledge, ongoing examination of the way we view the world, and purposeful action to promote a just and harmonious society at LMU and beyond.

All cultures can contribute to the search for knowledge and the building of communities based on the common humanity of all people. At LMU, interculturalism is an essential source of academic excellence and a defining characteristic of our campus community. We draw upon interculturalism to create a university of excellence, to serve as a model Catholic institution, and to be a catalyst for the creation of a more just society built on respect and a sense of shared destiny.

We embody interculturalism in our policies, practices, and curricula. We promote personal and professional interaction, encouraging intercultural engagement to engender trust, respect, and compassion. Intercultural engagement enables us to share power and responsibility as we grow in self-knowledge, learn to value the unique qualities of diverse cultural groups, and understand the common elements of our shared humanity.

**Accreditation**

Loyola Marymount’s academic programs have been accredited by the following organizations:

- American Art Therapy Association
- American Bar Association
- Association of American Law Schools
- Association to Advance Collegiate Schools of Business
- California Commission on Teacher Credentialing
- Committee of Bar Examiners of the State Bar of California
- The Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology
  
  Address: 111 Market Place, Suite 1050
  Baltimore, MD 21202-4012
  Telephone: (410) 347-7700
- International Association of Counseling Services
- National Association of Schools of Art and Design Commission on Accreditation
- National Association of Schools of Dance
- National Association of Schools of Music
- National Association of Schools of Theatre
- National Association of School Psychology
- National Council for Accreditation of Teacher Education
- Western Association of Schools and Colleges
  
  Address: 985 Atlantic Avenue, Suite 100
  Alameda, CA 94501
  Telephone: (510) 748-9001

**Vision**

Grounded in the Catholic intellectual tradition, Loyola Marymount University affirms human dignity and promotes justice. Different cultures are unique expressions of these common aspirations.
Membership

Loyola Marymount University is a member of the following organizations:

- American Academy in Rome
- American Association of Colleges for Teacher Education
- American Association of Collegiate Registrars and Admissions Officers
- American Chemical Society
- American College Personnel Association
- American College of Physicians
- American Council on Education
- American Counseling Association

University Facilities
University Facilities

Academic and Administrative

A complex of four buildings, the Burns Fine Arts Center was opened in 1984. In Hogan Hall and Lemon Hall are housed the primary studios of the Dance Program, studios, and classrooms utilized by the Department of Art and Art History, the Department of Music rehearsal rooms and classrooms, as well as the offices of faculty dedicated to the various Fine Arts disciplines. The two additional buildings located here are the Laband Art Gallery and Murphy Recital Hall.

The Harry & Kathleen Daum Hall, on the east side of campus, was erected in 1998. The Learning Resource Center is located on the second floor. The Loyolan and The Tower have offices in this building. Information Technology Services also has offices here.

The Jerome and Elvira Doolan Building, built in 1985, houses Computer Science and Engineering faculty, classrooms, and laboratories.

East Hall, the former Mail Distribution Center building, houses the Human Performance Lab, the Scene Shop, Event Operations, and some offices for Facilities Management.

Foley Annex houses classrooms and offices, including Environmental Health and Safety, and Public Safety. Also, this annex accommodates the Sinatra Opera Workshop, the PRESS program, the REU/RET program, the Academic Community of Excellence (ACE) program, Emergency Medical Technicians, and faculty offices for the College of Communication and Fine Arts and the Frank R. Seaver College of Science and Engineering.

Foley Building, constructed in 1962, houses the Charles H. Strub Memorial Theatre, faculty offices, seminar rooms, and computer labs.

The Hilton Center for Business opened in the Fall of 1995. It houses classrooms, meeting rooms, lecture halls, faculty offices, Information Services, the Asian Business Center, and a 350-seat auditorium in a spacious, technologically advanced facility.

Malone Memorial Student Center, named in honor of the late Fr. Lorenzo M. Malone, S.J., former Vice President of the University, was completed in August 1958. Renovation and expansion of the Center was completed in August 1996. Located in the Center are the Senior Vice President for Student Affairs, Department of Student Life, Associated Student offices, Campus Ministry Center, student dining, bookstore, Center for Service and Action, Ethnic and Intercultural Services, and conference rooms. In addition, the Lion's Den, Living Room and The Hill are located in this building.

North Hall and South Hall, located on the east side of the campus, house the Del Rey Theatre, the Natural Science program, classrooms, Science and Engineering labs, and faculty offices.

Pereira Annex, located behind Pereira Hall, includes the Industrial Assessment Center and faculty offices for the Frank R. Seaver College of Science and Engineering as its residents.

Pereira Hall, erected in 1955, houses the Frank R. Seaver College of Science and Engineering Dean's offices, classrooms, faculty offices, computer labs, and engineering labs.

Research Annex, erected in 1970, houses faculty offices and labs for the Frank R. Seaver College of Science and Engineering.

The Frank R. Seaver Hall of Science, erected in 1962, houses the departments of Biology, Chemistry and Biochemistry, and Physics and Engineering Physics. In addition to 22 undergraduate and research laboratories, the building contains faculty offices, seminar rooms, classrooms, and a computer lab.

St. Robert's Hall, erected in 1929, houses classrooms, the offices of the Dean of the College of Communication and Fine Arts, the Dean of the School of Film and Television, the Office of the Registrar, Animation facilities, and in the annex, the OneCard Office, Conference Services, and the School of Film and Television External Affairs Office.
University Hall, opened in 2000, houses University Administration, classrooms, faculty administration, an auditorium, dining facilities, Campus Graphics, and the following staff departments: University Relations; Human Resources; LMU Extension; Career Development Services; Distribution Center; Controller’s Office; Graduate Admissions; Thomas and Dorothy Leavey Center for the Study of Los Angeles; Classroom Management; Marymount Institute for Faith, Culture, and the Arts; the Dean’s office for the Bellarmine College of Liberal Arts; University Honors Program; the Dean’s office for the School of Education; the Doctoral Program for the School of Education; and the Sponsored Projects Office.

The Charles Von der Ahe Library, named for its principal donor, was constructed in 1959 and doubled in size in 1977.

Wil and Mary Jane Von der Ahe Communication Arts Building, completed in 1971, houses the Louis B. Mayer Motion Picture Theatre, faculty offices, film classrooms, conference room, color television studios, and motion picture sound stage.

Xavier Hall, one of the first buildings constructed on this campus in the 1920s, is home to the Office of Financial Aid, Undergraduate Admission, and faculty offices for the School of Film and Television.

Residence Halls

Del Rey North and Del Rey South, opened in 2005, includes a pizza kitchen.

Desmond Hall, erected in 1958, was named in honor of the Desmond family of Los Angeles, generous benefactors of the University.

Doheny Hall was completed in 1986 and houses 120 students.

Hannon Apartments, erected in 1978, were named in honor of Eugenie B. Hannon. They house 282 upperclass students and include Hannon Loft.

Huesman, erected in 1947, houses men and has a chapel.

The Jesuit Community Residence, Ignatius Commons, built in 1999, accommodates the members of the Society of Jesus.

The Dorothy and Thomas E. Leavey Center, erected in 1968, is a women’s residence hall and houses the Ignatian Center for Spirituality, the Collins Faculty & Alumni Center, and a chapel.

Leavey 4, 5, and 6 are apartment buildings. Leavey 4 was built in 2002, Leavey 5 in 2003, and Leavey 6 in 2005. The latter also includes Student Housing and a convenience store.

McCarthy Hall, erected 1996, was the first residence hall built on the Leavey Campus. It accommodates 247 students. It is named in honor of J. Thomas McCarthy, philanthropist and generous benefactor of the University.

McKay Hall, erected in 1968, contains a diner-style restaurant and game room. It is named for Sr. M. Raymunde McKay, R.S.H.M., former President of Marymount College.

O’Malley Student Apartments, completed in summer 2000, accommodates 164 students. It is named in honor of former LMU president Fr. Thomas P. O’Malley, S.J.

Rains Hall, on the Leavey Campus, was built in 1997. Named in honor of Lilore Green Rains, a philanthropist and generous benefactor of the University, this building houses 300 students.

Rosecrans Hall, erected in 1962, was named in honor of William S. Rosecrans, for many years Chairman of the Board of Regents and a generous benefactor of the University.

Sullivan, erected in 1947, houses women.

Tenderich Apartments, completed January 1971, accommodates 143 students in 39 units.

Whelan Hall was completed in the summer of 1965. It is named for Rev. Edward J. Whelan, S.J., President of Loyola University from 1942 to 1949.

The Chapel

The Chapel of the Sacred Heart was completed in 1953. It has a seating capacity of 1,000. The tower of the Chapel, donated by the Board of Regents, has become a landmark of the campus.

Athletic Facilities

The Jane Browne Bove Boathouse was completed in 2002. The boathouse is in Marina del Rey.

The Fritz B. Burns Recreation Center, completed in August 2000, holds a fitness center, multipurpose center, concession stand, two gyms, and the recreation offices, plus the Student Health Center and Student Psychological Services.

The Albert Gersten Athletic Pavilion, dedicated in early 1982, expands the University’s existing facilities to accommodate the intercollegiate athletic program, support facilities, Founder’s Room, and Weight Room.
Leavey Field is situated on top of Drollinger Parking Plaza. Since 1995, it has provided space for Intramurals and intercollegiate sports.

On Sullivan Field, adjacent to the Pavilion, are located other athletic facilities of the University. These include the Burns Aquatics Center, LMU Tennis Center and the Morris A. Pivaroff and George P. Kading Tournament Court, George C. Page Baseball Stadium, Smith Field ballpark, Thomas Higgins, S.J., Short Game Center for golf practice, and soccer facilities.

Social and Recreation Facilities

The Bird Nest, adjacent to Del Rey North, offers a beautiful view of Marina del Rey, Santa Monica, and the Pacific Ocean. The Bird Nest sponsors and hosts a wide variety of events for the entertainment pleasure of the student body.

Hannon Loft, located in the heart of the Hannon Apartments, Tenderich Apartments, and McKay residence hall, provides the southern campus with an informal, comfortable location to host a variety of events. Hannon Loft was built in 1978 and renovated in 1994.

Adjacent to St. Robert's Hall is St. Robert's Auditorium, which plays host to hundreds of events and programs from educational conferences and panel discussions to dances, speakers, and concerts. The auditorium can accommodate up to 350 people.

The School of Law

Established in 1920, the School of Law is one of the oldest law schools in Southern California. The Law School campus is located in the Pico-Union district near downtown Los Angeles. Expansion of the Law School facilities began in 1980 under the direction of internationally acclaimed architect, Frank O. Gehry. The completed campus includes the William M. Rains Library, the Fritz B. Burns Academic Center, three lecture buildings, the Chapel of the Advocate, the Rev. Charles S. Casassa Building, the Albert H. Girardi Advocacy Center, and the Student Services Center.

Legal Responsibility of the University

The University endeavors to safeguard students in the use of physical facilities, laboratories, athletic fields, and gymnasium, and to this end regulations concerning the use of such facilities have been established, but it is clearly understood that students who use the same do so entirely at their own risk. The University has no legal responsibility for injuries or other damages suffered by students on or off the campus, or in travel to and from school-related activities, or for any expense in connection therewith.
University Services
University Services

Campus Ministry
Director: Anthony M. Bonta

The Chapel of the Sacred Heart, which can easily be seen from any vantage point on campus, provides a strong symbol of the University's commitment to Christianity and the Catholic tradition. The Campus Ministry Center, situated in the most active and readily accessible part of the campus, is the location for many encounters with students, chaplains, faculty, staff, and all who choose to participate in the faith life of the University community.

In addition to the large number and variety of daily and weekend Eucharistic Liturgies, Campus Ministry provides a number of weekend retreats off campus, personal and religious counseling or spiritual guidance, and a wide variety of community service programs. Faculty and students serve as music ministers, lectors, Eucharistic ministers, and liturgy planners; there are also groups which meet regularly for theological reflection. The community service and justice ministry programs provide learning and practical experiences as well as career opportunities. These experiences are coordinated with the appropriate academic and student affairs departments as well as parishes and organizations off campus. Pastoral services for Jewish, Muslim, and students of all Christian faiths are also coordinated through Campus Ministry.

The Campus Ministry programs are all voluntary and yet are an integral part of the University’s life. The chaplains have a visible and explicit responsibility for leadership, but the faith life and ministry on this campus is accomplished by many groups and individuals.

Center for Ignatian Spirituality
Director: Rev. Randy Roche, S.J.

The Center for Ignatian Spirituality exists to promote the integration of Ignatian spirituality with the life of the University. It serves as a resource for those seeking to develop a personal spirituality, one rooted in an ever-deepening commitment to the service of faith and the promotion of justice. For more than four-and-a-half centuries, Ignatian spirituality has stood radically open to the diverse ways in which God enters the history of individuals and groups.

The Center has four main goals:

- To develop programs that enable the faculty and staff to grow in knowledge and experience of Ignatian education and spirituality;
- To assist those members of the faculty and staff who desire to integrate Ignatian values more deeply into their professional and personal lives;
- To encourage and support faculty and staff members to assume leadership roles in these spiritual endeavors within their college, department, and division; and
- To serve as a resource for all members of the University community interested in Ignatian values.

The Center can be reached at (310) 338-1806.

Conference and Event Services
Co-Director, Conference Services: Trish Carlson
Co-Director, Event Services: Martin Alvarez

The Department of Conference and Event Services consists of three offices:

The Conferences component oversees all aspects related to on- and off-campus use of bookable space at LMU. This includes academic year events and the Summer Conference program. This office is located in St. Robert’s Annex and can be reached directly at (310) 338-2975.

LMU Event Services is comprised of the Event Operations and Event Scheduling offices.

Event Operations is responsible for the delivery, set-up, maintenance, and resetting of event equipment including tables, chairs, audio visual components, and podiums. The Event Scheduling Office is responsible for managing space allocation and confirming event locations, equipment, and support reserved by LMU faculty or staff. The Event Scheduling Office works closely with other campus service providers to ensure that all events on campus are properly set up and supported according to client needs and specifications. Event Scheduling is located on the first floor of University Hall, Suite 1768 and can be reached directly at (310) 338-2878.
Marymount Institute for Faith, Culture, and the Arts

Director: Theresia de Vroom

The Marymount Institute for Faith, Culture, and the Arts preserves the transformative educational tradition of the Religious of the Sacred Heart of Mary and promotes a dialogue between faith and culture as expressed in fine, performing, literary, and communication arts.

The Institute strengthens the contributions of the Marymount tradition and legacy to the Loyola Marymount University community and the larger society. It does this by encouraging interdisciplinary and intercultural scholarly and artistic activity in the form of research and publication, exhibits, performances, conferences, seminars, and lectures.

The Marymount Center is located on the third floor of University Hall, 3002, and may be reached at (310) 338-4570.

Food Services

Sodexho, the restaurant service of the LMU community, provides a program that strives to meet and exceed the dining needs of its student population. There are several locations on campus that offer flexible hours, in settings that complement and enhance the community experience, including the Lair Marketplace, the University Hall Roski Café, Jamba Juice, the Lion's Den, the Lion's Corner Café, the C-Lion convenience store, Crimson Lion, Iggy's Diner, and Pete's Arena.

Call (310) 338-2977 for more information, or visit online at http://dining.lmu.edu.

Information Technology Services

Assistant Vice President for Information Technology: Erin Griffin

LMU Information Technology Services (ITS) provides management and services in support of the University's information technology resources. These resources include the campus network and telecommunications systems, computer labs, computer centers, administrative information systems, and web and instructional technology services. ITS provides these services in an effort to enhance the intellectual life and experience of students and the University community and to provide for efficient technology operations.

The ITS department's services include the support of the technical infrastructure of campus networks and computer workstations, computer labs, data centers, registration systems, technical training and instructional technology, classroom management, and other academic and administrative systems.

The ITS department is located in the basement of the Hilton Center for Business and has offices in Daum Hall. The ITS website is http://its.lmu.edu.

ITS Help Desk

ITS provides specialized Help Desk services to provide students, faculty, and staff with technical support.

The Student Help Desk is located in the basement of St. Robert's Hall. This service provides computing, network, and communications support for LMU students. This single point of contact is a convenient way for students to request assistance for technical issues, including network accounts, e-mail, telephone, and voicemail. ITS is unable to provide hardware support for student-owned computer equipment and recommends that students contact the original manufacturer or retailer for such support.

The Student Help Desk is open Monday-Friday from 8:00 a.m. to 5:00 p.m., with extended hours until 7:00 p.m. on Wednesdays and may be contacted via telephone at (310) 338-7777 (the on-campus extension is x87777), or via e-mail at studenthelp@lmu.edu.

Student E-Mail and Network Access

The campus-wide network is available to all LMU students. Upon enrollment and registration, an LMU student is automatically assigned an e-mail address and a network account. The network allows students to access services like PROWL (the on-line registration system), library databases, the Internet, and other services. There are no fees associated with using the campus network, and all accounts are password protected. Most systems, such as e-mail, are web-based and available from off-campus also.

Questions regarding account activation or use should be directed to the Student Help Desk, via telephone at (310) 338-7777, or via e-mail at studenthelp@lmu.edu.

Student Telecommunications

Long distance service from LMU student residence halls and apartments is provided by AT&T's ACUSTM service. Students are assigned a personal security code to access outside lines from their rooms or apartments and receive their own itemized telephone bill each month.
Computer Labs and Villages

The University provides technology access to students throughout the campus with its three general-purpose computer labs and 31 area-specific and specialty labs. Students may contact the Student Lab Coordinator at (310) 338-4489 for more information.

General Purpose Labs

Maintained by ITS, the general purpose labs have either Windows- or Mac-based workstations, offer extended hours, contain at least 20 workstations, and provide access to a variety of popular software programs. The locations of the general purpose labs include: the lower level of St. Robert’s Hall, the lower level of Von der Ahe Library, and the first floor of Seaver Hall.

Specialty Labs and Computer Villages

In addition to the general purpose labs, many academic departments provide discipline-specific computer resources and training labs. These labs vary in size and function and often use specialty software for e-learning, research, and training. The computer village areas are located within academic departments in University Hall. In addition to spacious working areas, these villages provide a social dimension to workstation computing where students and faculty can interact and integrate technology into the educational experience.

Other ITS Services for Students

ManeGate Portal

ManeGate is a “one-stop” web community that provides students, faculty, and staff with access to various campus systems, online groups, e-mail, calendar, registration, forms, news, communications, and more. ManeGate is the online gateway for students to access student services and information. ManeGate is available from on and off campus at http://manegate.lmu.edu.

Blackboard

ITS supports the use of Blackboard, an environment for online teaching, learning, and collaboration. Blackboard is utilized by many LMU faculty and is available online through ManeGate at http://manegate.lmu.edu.

PROWL

The Personal Records Online Web Link (PROWL) provides faculty and students with secure web-based access to class registration, grades, and other information maintained by the Office of the Registrar. PROWL is accessed through ManeGate at http://manegate.lmu.edu.

Student Web Pages

In order to support the academic endeavors of LMU students, the student web server provides web server hosting space to all actively enrolled undergraduate and graduate students. Student web page hosting provides both a publicly accessible web space to publish web pages and a private file storage area for convenient access to student files. Instructions for setting up student web pages are available at http://stu.lmu.edu. Student club and organization websites are supported through the Associated Students of Loyola Marymount University (ASLMU) at http://aslmu.lmu.edu.

Loyola Marymount University Children’s Center

Acting Director: Ana Gallegos

The Loyola Marymount University Children’s Center was established to address the child care needs of the University community. The LMUCC is an on-site, employer-sponsored organization dedicated to quality care for children of all those who make up the LMU and greater Westchester communities. Care is made available for children of the faculty, staff, and students, with a limited number of spaces available to alumni, qualified on-campus employees of University service contractors, and neighborhood residents. In keeping with the Jesuit and Marymount traditions, we strive to meet the needs of the community of which we are a part by incorporating diversity into a values-centered curriculum.

The Center’s early childhood professionals are committed to educating the whole child—socially, emotionally, physically, and intellectually—to set the stage for life-long learning. Based on developmentally appropriate practice, the curriculum focuses on play, creativity, and hands-on discovery learning for children 6 weeks to 11 years of age. Our intention is to be a model of quality Early Childhood Education programs for the communities we serve.

The LMUCC is open year-round, providing full- and part-time enrollment for infants through preschoolers. Our School-Age program provides after-school care for K-5th grades. Contact (310) 258-8900 for more information.
Public Safety

Director: Ray Hilyar

The Public Safety Office is located in Foley Annex and is open seven days a week, 24 hours a day. Lost and found is located here.

Public Safety may be contacted by phone at (310) 338-2893. In case of emergency, dial 222 from any on-campus phone.

All motor vehicles used on campus must be registered through Public Safety. The registered owner is responsible for displaying the University parking decal, affixed at the time of vehicle registration.

For more information about Public Safety's services, go to http://www.lmu.edu/publicsafety.

University Bookstore

Books, sundry items, school spirit clothing, and gifts are available through the University Bookstore. The operating hours during the academic year are: Monday-Thursday, 7:45 a.m.-7:00 p.m.; Friday, 7:45 a.m.-5:00 p.m.; Saturday, 9:00 a.m.-3:00 p.m.; and closed on Sundays.

The main campus store is located on the ground floor of the Malone Student Center. There is also an annex, selling snacks and gift items, located on the first floor of University Hall.

Shop 24 hours a day at http://www.efollett.com.

University Media

LMU Annual Report

This annual report highlights activities and accomplishments of the past year.

Vistas

Vistas magazine is the University and alumni magazine for Loyola Marymount University. It is one of the many ways LMU keeps its alumni, faculty, staff, parents, and friends informed about what’s happening on this vibrant campus. The Vistas mission is also to help the LMU community learn more about students, faculty, staff, and alumn; explore contemporary issues in society; find service and networking opportunities; and stay in touch with our Jesuit and Marymount traditions. For more information, contact Vistas@lmu.edu.

University Organizations

LionsFund

Focused on providing a well-rounded educational experience, LionsFund supports our student-athletes' quest for excellence through scholarships and team support. Gifts to the LionsFund assist to provide the resources needed for LMU student-athletes to achieve the highest possible level of success both athletically and academically. Supporting each of LMU’s 20 intercollegiate athletic teams, LionsFund is a vital part of the University's ability to compete at the NCAA Division I level.

The LionsFund Council is a volunteer council, helping to support LMU Athletics and student-athletes through annual advancement, fundraising, and direct outreach to increase support for the LionsFund. Donor benefits include special events, personal contact, and the opportunity to purchase priority seating for home Lions games. For additional information, please contact the Annual Support Office for Athletic Giving at (310) 338-2908 or by e-mailing golions@lmu.edu.

Loyola Marymount University Parents Association

The LMU Parents Association is an informal organization of all LMU parents. Under the leadership of the Parent Ambassador Council, the Association seeks to broaden the understanding of the educational philosophy and goals of the University, act as a liaison between the administration and parents to ensure the exchange of ideas and mutual concerns, and respond to the needs of the University. For additional information or to become a Parent Ambassador, please contact the Office of Parent Relations at (310) 338-7037.
**Alumni Association**

The Loyola Marymount Alumni Association is composed of approximately 50,000 former students of Loyola University, Marymount College, and LMU. The Association's vision is to build and maintain lifelong relationships that add value to alumni and to the University. Through the Association, alumni and students help ensure the continued excellence of LMU and are challenged to live LMU's mission in their social, spiritual, professional, and intellectual experiences. Programs and events that promote this mission include: Alumni for Others—LMU's signature alumni service program, President's Day—when LMU's president hosts alumni as they return and learn, Alumni Grand Reunion, Alumni BBQ, and regional events in cities across the country. Guiding the Alumni Association's programs are dedicated volunteers including the Alumni Association Board of Directors, regional event planners and hosts, and student leaders. To access the Association's calendar of events, benefits, and services, or ways to become involved, visit [http://www.lmu.edu/alumni](http://www.lmu.edu/alumni).

**Use of University Property**

No person may use University property in a manner, or for a purpose, or under circumstances forbidden by any applicable public law, ordinance, regulation, or order, or tending to interfere materially with the efficient and orderly conduct of any University business or function.

In line with this directive, any person or persons, whether students or non-students, registered student organization or other student groups, shall be required to obtain a permit from the Office of the Senior Vice President for Student Affairs prior to any proposed march, demonstration, public meeting, etc.
Student Affairs
Student Affairs

The Division of Student Affairs is committed to providing co-curricular experiences which enhance the educational mission and foster the total development of the student. The Office of the Senior Vice President for Student Affairs is the central administrative office for the departments within the Division and is responsible for coordination and supervision within the Division. In addition, the Senior Vice President assures that the student affairs program is supportive of the academic mission and goals of the University.

The Division of Student Affairs holds students as central to the mission and values of the University.

The goals of the Division of Student Affairs are:

- To promote innovative programs and events which develop an enlivened and engaged campus community
- To instill in students the value of service and the promotion of justice
- To guide students through a process of reflection, self-discovery, and character development
- To promote the balanced development of body, mind, and spirit
- To foster students' respect for each other in an intercultural community
- To advance the University's recruitment and retention efforts.

These goals are implemented through services and programs which are provided by the following areas:

- Office of the Senior Vice President
- Athletics
- Campus Recreation
- Career Development Services
- Center for Service and Action
- Ethnic and Intercultural Services
- First Year Programs
- Judicial Affairs
- Office for International Students and Scholars
- Student Health Services
- Student Housing
- Student Life
- Student Media
- Student Psychological Services

Learning Outcomes

Graduates of Loyola Marymount University will:

- Develop a well-defined sense of self and confidence in their abilities and gifts
- Adopt lifestyles that reflect a balance of spiritual, physical, emotional, and intellectual health
- Integrate knowledge and experience in the process of discernment to make life-giving decisions
- Take initiative to make meaningful contributions as citizens within and beyond their communities
- Demonstrate an understanding of a diversity of the human experience and embody the ideals of interculturalism
- Educate themselves about contemporary social justice issues and strive to create a more just society.

Athletics

Loyola Marymount University participates in nine intercollegiate sports for men: basketball, baseball, crew, cross country, golf, soccer, tennis, track, and water polo; ten intercollegiate sports for women: basketball, crew, cross country, soccer, softball, swimming, tennis, track, water polo, and volleyball; and one coed sport: cheerleading. LMU is a member of the National Collegiate Athletic Association Division I and competes in the West Coast Conference.

Campus Recreation

The Department of Campus Recreation supervises a variety of facilities and services that are dedicated to providing recreational opportunities to the LMU community.

These facilities and services include the Fritz B. Burns Recreation Center, the Lion's Den coffee shop, McKay Game Room, and the Lion Express shuttle service.

The Recreation Center provides the opportunity for physical recreation, including group exercise classes, Intramural and Club Sports, lap swimming, and a state-of-the-art workout facility. For membership information, please contact Member Services at (310) 338-1720. (Please see Tuition and Fees for current rates.)
The Lion’s Den is a student-run coffee shop providing free trade coffee and tea, a comfortable space to hang out with friends, and weekly open mic nights and musical performances. There are also two lounge areas located near the coffee shop. The Living Room provides quiet lounge space during the day and a student performance space in the evenings, while the Commons is a small Internet and TV lounge. All three venues are located on the first floor of Malone.

McKay Game Room is located on the first floor of McKay residence hall and is the place for video games, pool, air hockey, and darts. There is no charge to play, but a valid LMU OneCard is required to check out equipment.

The Lion Express provides shuttle service to local attractions including shopping malls, restaurants, and of course, the beach. There is no charge to ride the shuttles, but a valid LMU OneCard is required.

For more information on any of the above facilities or services, please visit http://www.lmu.edu/campusrec.

Career Development Services

The vision of Career Development Services (CDS) is to empower students and alumni to achieve career success through enrichment of the whole person.

Career Development Services is committed to

- encouraging students to discover their own strengths, interests, and values
- engaging employers who present opportunities for students and alumni to use their professional work to make a positive difference
- providing meaningful services to our constituent communities

Services offered include:

- Access to Career Services at Other Universities
- Career and Graduate School Fairs
- Career Counseling
- Career Development Strategies Course (LIBA 250/251)
- Career Resource Library
- Educational Placement File Service
- Employer Information Sessions
- Etiquette Dinner
- Internships
- Job Search Advising
- Mentoring and Networking Programs
- Mock Interviews
- On- and Off-Campus Federal Work Study Jobs
- Online Job and Internship Listings on LionJobs
- Part-Time On- and Off-Campus Jobs
- Personality and Interest Inventories
- Resume Critiques and Preparation Assistance

Student Employment Services

Student Employment Services provides part-time employment assistance to all LMU students. Opportunities are available for Work Study and non-Work Study employment. Student employment provides more than financial assistance for the student’s college education. It offers skill development and contributes to the overall campus experience. All part-time employment opportunities may be found at http://lionjobs.lmu.edu.

Federal Work Study and LMU Work

Federal Work Study and LMU Work is the largest source of employment for students. Work Study is awarded to students based upon financial need and is jointly funded by the Federal Government and the University. Opportunities for employment are either on campus or off campus at designated non-profit organizations.

Transfer Work

Various University departments fund on-campus part-time positions through Transfer Work funding and do not require financial need as a qualification for eligibility.

Part-Time Employment Off Campus

Student Employment Services works with employers off campus to provide employment opportunities for students in a variety of fields.

Student Worker Program

The Student Worker Program gives students the opportunity to live and work on campus on a year-round basis while at the same time earning money toward their tuition. The Student Worker Program consists of 12 men and 12 women, working in various University departments. To apply, students should contact the Student Worker office at (310) 338-5013.

Center for Service and Action

The Center for Service and Action (CSA) seeks to educate and form men and women for others, especially with and for the disadvantaged and the oppressed. Through direct personal contact between students and the marginalized in service-learning experiences, CSA fosters a solidarity with the poor that will lead to intellectual inquiry, moral reflection, and social action.

CSA is directly responsible for the Service and Action House, the Service Organization Program, Alternative Breaks, Underwings Praxis, Post-Graduate Service advisement, Community Based Learning, and El Espejo.

Each year CSA recognizes the six most outstanding LMU undergraduate students who have excelled in their community service. These students each receive a $1,000 Riordan Community Service Award.
Through the generosity of the Marymount Institute, CSA also recognizes outstanding graduating seniors for their commitment to community service. These students receive the Arete Award.

**Ethnic & Intercultural Services**

Ethnic & Intercultural Services (EIS) is a student-centered department guided by Loyola Marymount University's mission to encourage learning, educate the whole person, and foster the service of faith and the promotion of justice.

EIS is grounded by LMU’s intercultural values and serves as a resource for all students as they prepare for the challenges and rewards of living in a diverse society. EIS offices work in concert to empower all students to participate fully in campus life and achieve personal success, with a special focus on helping first-year students of color transition to university life.

Ethnic & Intercultural Services consists of four linked offices—Asian Pacific Student Services, Chicano Latino Student Services, Intercultural Affairs, and the Office of Black Student Services—that reflect the rich diversity of Loyola Marymount University.

**Peer Mentor Program**

The EIS Peer Mentor Program is designed to provide services and activities to first-year students of color to aid in the transition from high school to college and engage them academically and socially in all aspects of the University. The Peer Mentors are committed to helping students excel in their first year of college by providing guidance, friendship, encouragement, information about university resources and college life, and opportunities for interaction within a multicultural environment. Assigned to mentor groups according to major, freshmen are immediately immersed within a group of students with whom they can socialize, study with, and learn from.

**Asian Pacific Student Services**

Asian Pacific Student Services (APSS) engages the intercultural community at Loyola Marymount University in the issues, culture, and experiences of Asian Pacific Americans through advocacy, community building, education, resources, programming, and the development of leaders. APSS aims to raise consciousness by developing a community of like-minded individuals who will continue throughout their lives to support the mission of Loyola Marymount University with an open and developing understanding of Asian Pacific Americans and the larger intercultural global community.

APSS programs include THIRD TUESDAY (a monthly opportunity to hang out in the casual setting of the Living Room while enjoying various Asian Pacific American performers—spoken word, theatre, live music, etc.); POWER TRIPS (empowering field trips out into Asian Pacific American Los Angeles); the APA ROUNDTABLE (a monthly gathering of APA student organizational leaders); and various other regular opportunities throughout the year to engage in—dialogue, learn, share, enjoy, empower, and celebrate—Asian Pacific America.

**Chicano Latino Student Services**

Chicano Latino Student Services (CLSS) provides culturally sensitive programs that foster and promote the academic and personal success of Latino/a students. In addition, it strives to educate the campus about Latino/a issues and the ethnic diversity represented within the community (i.e., Central and South America, Caribbean, and Mexico).

CLSS programs include Bienvenida Latina—the Latino Fall Welcome, Leadership Roundtable Meetings, EIS Leadership Retreat, Latin America's Independence Days Celebration, Latino Spiritual Retreat, Latino Leadership Legacy Week, POWER TRIPS (i.e., museums, community events, entertainment/theatre, restaurants, speakers, etc.), Dia de Reconocimiento (Latino graduation ceremonies), Latino Resource Handbook, and Weekly CLSS E-Newsletter. CLSS also offers student advocacy, personal support, assistance for Latino/a student groups, and transitional/beyond LMU programming. CLSS programs and services also consider gender, class, religion/spirituality, bi-monolingual, generational, sexual orientation, and bi-racial/ethnic identities.

**Intercultural Affairs**

Intercultural Affairs is dedicated to developing an environment that encourages intercultural awareness, understanding, and interaction. This office is committed to developing socially responsible men and women who understand that as we learn to value the qualities of diverse cultures, we begin to appreciate the shared element of our common humanity. This office seeks to create an environment that is both welcoming to our Lesbian, Gay, Bisexual, Transgender community, as well as supportive of their unique needs. The office provides human relations trainings, meditations, advocacy, open forums, LGBT focused programs, retreats, and classes all focused toward developing students committed to the Loyola Marymount legacy of cultural consciousness and progressive social action.
Office of Black Student Services

The Office of Black Student Services (OBSS) works to promote a positive campus environment that supports the academic and personal success of African American students. OBSS programs and services include an annual Fall Welcome, Student Retreat, Kente Graduation, Black History Month events, speakers, cultural enrichment programs, community activities, support for student groups, student advocacy, and personal support. OBSS also strives to build close ties with the local African American community.

Academic Community of Excellence

The Academic Community of Excellence (ACE) develops sophomore scholars of color for undergraduate research and graduate educational and professional opportunities. ACE is a competitive scholars program that emphasizes academic excellence, post-baccalaureate preparation, undergraduate research, and experiential leadership. ACE coordinates educational seminars and research symposia; provides competitive undergraduate research grants; sponsors students that attend and present at select research conferences; provides individualized educational support; and offers scholarship, test preparation, and other preparatory resources. Admission to ACE is selective, and prospective scholars are those who are committed to academic excellence and are interested in pursuing research and graduate and professional school opportunities.

First Year Programs

First Year Programs aspires to build relationships with students in order to ensure the successful transition of every first year student into the collegiate culture of Loyola Marymount University. This is accomplished through involvement in campus activities, learning, and development opportunities. Upon completion of their first year, it is our hope to have freshmen involved in campus organizations, clubs, and student groups in order to cultivate a positive sense of self, confidence, and to acquire the tools necessary to educate the whole person.

Judicial Affairs

Mission

The Judicial Affairs Office, operating within the context of the University’s mission and goals, provides learning experiences for students who are found to be responsible for violating the Student Conduct Code. Judicial Affairs strives to help students grow into more responsible and community-minded persons. Loyola Marymount University provides its students with an environment conducive to the pursuit of knowledge. Such an environment is based upon respect, trust, and integrity among all members of the community.

About Judicial Affairs

The Judicial Affairs Office is committed to fostering an environment conducive to the pursuit of knowledge. Such an environment is based upon respect, trust, and integrity among all members of the LMU community: students, faculty, and staff. As members of this community, students are entitled to certain rights and privileges. In order to protect rights and privileges for all students, there are guidelines for student conduct which facilitate the educational goals of the University. It is necessary that students become familiar with their rights and responsibilities as members of the LMU community. The LMU Community Standards Publication outlines standards of behavior which are appropriate for students in the community.

Policies have been established to assist in building a learning community where the respect, consideration, and dignity of every member of the LMU community are priorities. Of course, no single policy or group of policies can anticipate every eventuality. Accordingly, LMU expressly reserves the right to revise, supplement, or withdraw any policy or portion of a policy from time to time as it deems necessary.

The Student Conduct Code is published in Community Standards. All students are responsible for the contents of Community Standards, which is available online at http://www.lmu.edu.

Off-Campus Student Life

Working within the University’s mission to educate the whole person, Off-Campus Student Life provides programs and services for those LMU students living outside the University resident community, with efforts directed towards building positive community relations, encouraging personal responsibility and developing life-long citizenship.

Office for International Students and Scholars

The Office for International Students and Scholars (OISS) promotes the general interest of international education, mutual understanding, and cultural exchange through the administration of international programs and services designed to promote greater collaboration among the international and domestic communities.

The OISS provides vital immigration assistance to international students and faculty, both at the Westchester Campus and Loyola Law School. OISS provides assistance in matters related to maintaining non-immigrant status under LMU’s international programs and complying with the regulations of the Department of Homeland Security, the U.S. Department of Justice, U.S. Citizenship and Immigration Service (USCIS), and the U.S. Department of State.
Moreover, the OISS acts as a resource for the international concerns of the University community through its contacts with embassies, consulates, and other international and U.S. government agencies.

Student Health Services

The Student Health Service (SHS) assists students in staying healthy by promoting healthy lifestyles and by providing medical care for common health problems. The staff includes a physician, nurse practitioners, registered nurses, and X-ray technologist.

The University may require immunizations and/or TB testing of incoming students. Students will be notified of the requirements by mail. Failure to fulfill the requirements may result in a hold applied to the student’s registration and not being able to register.

Services offered by the Student Health Service include: treatment for minor illnesses and injuries, GYN care, dermatological care, pregnancy tests, lab work, X-rays, immunizations, and prescriptions.

The service is free. To be eligible to Health Services, you must be enrolled in six or more semester hours during the regular academic year. During the summer, health services are available to students who plan to enroll in six or more semester hours in the upcoming Fall semester. There are charges for medication, lab work, X-rays, and some medical supplies. You do not need health insurance to use Student Health Services. The Student Health Service does not bill private insurance companies. This is the responsibility of the student. Copies of all charges are available for the SHS.

Occasionally, a student may need to see a specialist. In this case, the student may be referred to a specialist by the SHS or may select her/his own specialist. The student is responsible for transportation and medical costs.

All medical records are covered by the laws of confidentiality of the State of California.

Medical Insurance

The University requires that all full-time undergraduate students who are not covered by personal medical insurance MUST BE covered by the University’s Sickness Insurance Plan. If the student has adequate private sickness insurance, a waiver must be returned to the Controller’s Office within the specified time. All students taking seven or more semester hours are automatically covered for accident insurance. Forms for filing insurance claims for the University’s Accident and Sickness Insurance Plan may be obtained from the Controller’s Office. Claims must be filed within thirty days of disability. Students should be aware of the name of their insurance company and provider numbers. Coverage by the University’s Insurance Plan is not a prerequisite for use of the Student Health Center.

Student Psychological Services

University life provides opportunities for students’ growth and development as well as challenges to their well-being. Student Psychological Services (SPS), staffed by professional psychologists and counselors, provides confidential personal counseling to facilitate students’ personal, social, intellectual, and emotional development. SPS offers individual, couple, and group counseling plus workshops and educational programs on topics of interest to students. Services are available free of charge to regularly enrolled students.

Student Housing and Residence Life

LMU Student Housing provides a unique opportunity for participation in community living. Knowing that the physical and social environment affects the intellectual and social development of students, every effort is made to create communities which reflect the University’s educational mission.

A Resident Director (RD) and Resident Advisors (RAs), under the supervision of an Area Coordinator for Residence Life (AC), are responsible for overseeing the living environment and developing programs in each housing facility. The staff is responsible for creating an atmosphere conducive to building community and promoting scholarship. They provide opportunities for students to become acquainted with one another and involved in campus activities. They also encourage students to take full advantage of cultural and intellectual opportunities within the University and in Los Angeles.

LMU is proud of its Resident Chaplain program. Resident Chaplains (RCs) are priests, sisters, and lay ministers who live in the residence halls and apartments with the students. They assist in creating a vibrant Christian community marked by mutual respect and social responsibility. Their primary role is to provide guidance on social, moral, and spiritual issues which students face daily.

Student Leadership & Development

Student Leadership & Development strives to enrich the learning environment for students seeking growth outside the classroom. The staff works with ASLMU, all co-curricular clubs and organizations, the Greek Community, and the leadership program. Student Leadership & Development offers assistance with programming and planning of events and special projects, as well as assistance and support in the formation of new organizations. The department also provides advocacy and support to students throughout their academic career.
Associated Students of Loyola Marymount University (ASLMU)

All full-time undergraduate students are automatically members of the Associated Students of Loyola Marymount University. ASLMU, through the Student Senate, Cabinet, and Judiciary, is the voice of the student body, speaking for students on issues such as allocation of funds for clubs and organizations, academic concerns, and other areas affecting student life. In addition to planning on-campus activities, such as speakers, concerts, movies, and dances, ASLMU also initiates service programs in the community. Services offered by ASLMU are supported by the student activity fee.

Leadership Program

The Leadership Program, granted in the University's mission to educate the whole person, provides leadership education, development, and training to cultivate personal leadership in all students.

Student Organizations

As a student-centered, Catholic university, Loyola Marymount University recognizes the importance of clubs, programs, and services in fostering the educational mission of the University and offers a wide variety of each appealing to the needs of the student body. There are academic and professional clubs.

The current list of registered student clubs and organizations on campus is available online at the Student Leadership and Development website at http://www.lmu.edu/page895.aspx. Note: The views or positions of a registered club or organization does not necessarily reflect the position of Loyola Marymount University.

Student Media

The Los Angeles Loyolan
The Los Angeles Loyolan, written and edited by students, is the official weekly newspaper of LMU. The Loyolan provides a forum for discussion of higher education and serves as an information source for the campus community. It affords students an opportunity for gaining practical journalism experience and provides them with a method for improving campus awareness. The Loyolan is a member of the American Collegiate Press Association and the National Collegiate Press Association.

KXLU/KLMU

As one of the only opportunities in the Los Angeles market for students to experience all aspects of radio broadcasting, KXLU provides a supportive learning environment and training ground. The radio station offers an environment conducive to the creative expression of artistic freedom via musical exploration, experimentation, and interpretation. Students can also gain practical experience in all areas of station operations, including broadcasting, programming, technical engineering, production, public affairs, promotions, marketing, and management. Additionally, KXLU fosters an education in music industry knowledge and savvy regarding current musical trends, practices, and standards, as well as providing an opportunity to work with bands, record labels, venues, promoters, booking agents, and other industry professionals.

KXLU’s mission is to give underrepresented artists and musical genres that do not have a voice on the traditional mainstream circuit an alternative and supportive forum in which to showcase their talent. The station offers over 25 different types of musical genres for its listeners, including progressive and independent rock, punk, classical, opera, world, country, hip hop, metal, lounge, jazz, blues, and theater and film, as well as being home to one of the most successful and longest running Latin radio programs in the country, Alma del Barrio.

KLMU-AM operates at a frequency of 840 KHz. The station, exclusively serving the LMU community, operates from 7:00 a.m. until 1:00 a.m.

Interested students, staff, and faculty are encouraged to stop by the radio station for a tour, learn more, and apply for a DJ position.
ROAR Network

ROAR Network is a student-run television station broadcasting on campus on LMU Channel 6. ROAR Network provides quality entertainment and current events programming to the campus community. Also, ROAR provides practical, hands-on broadcast and station management experience for students.

The Tower

The Tower, a student-run publication, is the official yearbook for the University. Students are responsible for all aspects of production. The Tower strives to include all dimensions of the University community: faculty, staff, students, graduating seniors, sports, clubs and organizations, and activities. The Tower is a member of the American Collegiate Press Association and the National Collegiate Press Association.
Loyola Marymount University welcomes applications from students who subscribe to the goals of the University and who are qualified to undertake its programs. The University makes selective and individual decisions, and the academic record is the primary consideration. Writing ability; accomplishments in academic, artistic, athletic, co-curricular, or work- or service-related endeavors; recommendations; national test scores; and relationship to the University are also given significant consideration. Each application is individually evaluated.

Candidates are considered for admission to either the Fall or Spring semester, provided ALL required documents have been received before the priority dates. The Fall priority date for freshman applicants is January 15; transfer applications are due March 15; the Spring priority date for all applicants is October 15. An Early Notification program is also offered to freshman applicants for the Fall semester. The Early Notification application deadlines is November 1. Full consideration cannot be assured to applicants failing to meet these priority dates. A personal interview is not required, but individual Admission counseling appointments are encouraged. Personal appointments and campus tours can be arranged through the Office of Admission. Please call (310) 338-750. The fax number is (310) 338-797, and the e-mail address is admissions@lmu.edu.

High School Subjects Recommended for Admission

The following high school course of study is recommended for admission into the University.

- English: 4 years
- Foreign Language: 3 years
- Mathematics: 3 years
- Laboratory Science: 2 years
- Social Sciences: 3 years
- Academic Electives: 1 year

Business students must complete a unit in each of the following: elementary algebra, geometry, and intermediate algebra/trigonometry. Engineering, computer science, mathematics, and science majors should complete four units of mathematics and one unit each of biology, chemistry, and physics.

Admission Procedure

The following procedures apply to all candidates. Transfer and international applicants should be sure to note specific additional requirements as stated below. Candidates seeking admission to Loyola Marymount University should:

1. File an application by the appropriate deadline and submit a $50 nonrefundable application fee or an appropriate fee waiver. Application forms are available from the University’s Admission Office and online at http://www.lmu.edu.

2. Request official transcripts to be sent from the last high school attended and from each college attended. Students currently enrolled in college should submit work in progress. Advanced Placement students must submit official AP test score results in order to receive college credit.

3. Arrange for SAT I or ACT scores to be sent to the Director of Admission. Information about SAT I may be obtained from the College Board: P.O. Box 6200, Princeton, NJ 08541-6200. Information about ACT may be obtained from the American College Testing Program: ACT Records, P.O. Box 451, Iowa City, IA 52243.

4. Before school begins, entering freshmen are required to submit an official final high school transcript certifying the completion of secondary requirements and showing the high school graduation date. Transfer students are required to submit official transcripts for any courses completed since the application for admission was filed. Students failing to submit required transcripts will be prevented from registering for subsequent semesters until this requirement is satisfied.

Notification of Acceptance

Candidates will be evaluated for admission as soon as all of the required steps in the application process have been completed, according to the following calendar:

- Fall freshman applicants (Early Notification): Decisions for candidates applying under the Early Notification program whose applications are submitted by November 1 will be announced before December 20. Early Notification applications may be accepted, denied, or deferred for further consideration during the regular decision process. Loyola Marymount’s Early Notification program is non-binding.
- **Fall freshman applicants (Regular Decision):** Decisions for candidates considered under the Regular Decision program (applications submitted after November 1 and before January 15) will be sent on a rolling basis, and no later than April 15.

- **Fall semester transfer applicants and all Spring semester candidates:** Notification of acceptance will be sent on a rolling basis.

A final transcript is required as verification that all work in progress has been completed with a GPA equal to or greater than the student’s overall grade point average at the time of acceptance. In the event that the final semester of work does not meet required criteria, acceptance may be rescinded.

**Academic Scholarships**

Each year the Loyola Marymount Scholarship Committee offers academic scholarships to the most accomplished candidates for freshman admission. These scholarships are renewable for four years and are not based on financial need.

The **Arrupe Scholarship**, named for Fr. Pedro Arrupe, S.J., the former Superior General of the Society of Jesus (the Jesuits), carries a value of $12,500 per year, and is offered to approximately 10% of all applicants. Selection is based on outstanding GPA and SAT I/ACT scores, with supplemental consideration to leadership potential and school or community service and involvement.

From among the Arrupe Scholars, the Scholarship Committee further selects a very limited number of students for additional scholarship consideration. These students—no more than 10% of all Arrupe Scholars—will be invited to participate in Presidential Preview Weekend in late February, which offers a special opportunity to see the campus and to interview for the Presidential and Trustee Scholarships (see the Financial Aid section of the Bulletin for more information on these scholarships).

While there are no absolute criteria for Arrupe Scholarships, students selected for these awards generally have a GPA of at least 3.5 (unweighted) and an SAT I score of 1300 (Critical Reading and Math) or an ACT of 29 or better. All students meeting the January 15 Regular Decision deadline will be eligible for selection as an Arrupe Scholar. Superior students are encouraged to apply under the Early Notification program to ensure full consideration for Presidential and Trustee Scholarships.

**Commitment Deposit**

Accepted students intending to enroll are required to submit a $250 commitment deposit to secure their seat in the class.

The commitment deposit is held by the University and is non-refundable. The commitment may be applied at the discretion of the University against any delinquent and unpaid debts. This deposit is payable from the student’s own resources. It will neither be deducted from any financial aid awards nor billed as part of tuition and fees.

If the commitment deposit is not received within the stated time, the acceptance for admission may be canceled. Refund of the $250 commitment deposit will not be made to those who fail to register and attend classes.

**Housing**

First-time freshmen entering in the Fall term are guaranteed University housing, provided their commitment deposit and housing request are received postmarked no later than May 1 for Fall admission.

Fall term transfer students and any student entering in the Spring term are not guaranteed housing. Instead, they are offered accommodations on a space-available basis. Their housing requests will be processed on a first-come, first-served basis as they make their commitment deposits and return all requested Housing information.

**Admission of Transfer Students**

Each semester the University considers students for transfer, provided they are in good standing and not under academic or disciplinary probation or suspension from the last school attended. Please see the paragraph on Admission Procedure for general admission requirements above. The priority date for transfer applications is March 15 for Fall semester and October 15 for Spring semester. Transfer students are considered for admission as follows:

Students who would have been acceptable for admission as freshmen to Loyola Marymount University at the time of their graduation from high school will be considered for transfer standing if they have at least a 3.00 cumulative average for all previous college work and at least a 3.00 average for the most recent college work attempted prior to admission.

Students who, for academic reasons, were not acceptable for admission as freshmen at the time of their graduation from high school will be considered for transfer standing if they have completed at least the equivalent of 30 semester hours of transferable college work with at least a 3.00 cumulative average and at least a 3.00 average for the most recent college work attempted prior to admission.
Admission of transfer students is selective and subject to available space and enrollment limitations. The minimum transfer GPA of 3.00 may not always be sufficient to secure admission. Likewise, certain majors require that some prerequisites be completed prior to transferring (see Business Administration, Transfer Credit).

Credit for work completed at institutions accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities, other than course work identified by such institutions as remedial or in other ways as being nontransferable, will be accepted toward the satisfaction of baccalaureate degree and credential requirements at the University within limitations of residence requirements. Courses with grades below C (2.0) do not transfer. A maximum of 60 semester hours from two-year colleges are transferable to the degree program of the University.

Policies regarding transfer credit for a particular degree may vary slightly among the individual colleges, depending upon degree requirements. In general, courses having comparable content and class level with those in the LMU curriculum will transfer.

Admission of International Students

International students should follow the same admission procedures and priority dates outlined above. International students are admitted as degree-seeking students only. Further, international students are cautioned to comply with the following additional guidelines to ensure compliance with immigration authorities and avoid delay in the processing of the applications:

1. Take the Test of English as a Foreign Language (TOEFL) given by the Educational Testing Service and arrange for scores to be sent to the Director of Admission. Information about this test may be obtained by writing to: Test of English as a Foreign Language, P.O. Box 6151, Princeton, NJ 08541-6151. The University's minimum standard for undergraduate admission is 550 (paper-based TOEFL), 213 (computer-based TOEFL), or 80 (Internet-based TOEFL).

2. Submit a statement of financial responsibility for all obligations covering the full period of time for which the student is making application.

3. Submit official transcripts of previous academic training. Documents must be sent from the originating sources directly to the Admission Office and must cover all secondary schools attended and, if college study was attempted, all colleges and universities attended. Documents should include results of standard examinations administered by government or certifying agencies.

4. Transcripts from non-U.S. institutions must be submitted to an LMU-approved credential evaluation agency for translation into English and/or for evaluation of U.S. equivalent course work and corresponding grade.

   It is the responsibility of the student to submit all foreign transcripts to an evaluating agency. Information on such agencies may be obtained by calling the Office of Admission.

   Foreign transcripts submitted without the appropriate evaluations will not be considered eligible for transfer credit to LMU.

5. International Students attending a high school, college, or university in the United States must submit a Transfer Verification Form that will be sent to them by the Office of Admission.

6. The United States Department of Justice Immigration and Naturalization Form (I-20) will be sent after the $250 non-refundable Commitment Deposit has been received by the Office of Admission.

   Photostatic copies are acceptable only if they are notarized as true copies and bear the original seal of the notarizing authority. All documents submitted for admission become property of the University and will not be returned.

Medical Examination and Insurance

All students entering the University for the first time or re-entering the University after an absence of one year are required to return a completed Student Health Immunization Form to the Student Health Service. Immunizations must be current and documented. Students with incomplete forms will have their registration withheld for the following semester until immunization information is provided.

The Student Health Service does not fill out private insurance forms. However, copies of charges will be given to the students upon written request.
The University requires that all full-time undergraduate students who are not covered by personal medical insurance MUST BE covered by the University's Sickness Insurance Plan. If the student has adequate private sickness insurance, a waiver must be returned to the Controller’s Office within the specified time. All students taking seven or more semester hours are automatically covered for accident insurance. Information about filing insurance claims for the University's Accident and Sickness Insurance Plan may be obtained in the Student Health Service Office. Claims must be filed within thirty days of disability. Students should be aware of the name of their insurance company and provider numbers. Coverage by the University's Insurance Plan is not a prerequisite for the use of the Health Center.

Medical Examination for Intercollegiate Student-Athletes

New and returning students planning to participate in intercollegiate sports are required to submit a completed LMU Athletics Department Medical Clearance Form, signed by their private physician, to the Assistant to the Athletics Director prior to their participation in conditioning, practice, and/or competition.

Non-Degree Students

Students wishing to take courses at the University on a non-degree basis must file an application with the Office of Admission in accordance with regularly stated deadlines. Proof of eligibility to study at the University will be required, including transcripts or other appropriate documents.

Non-degree students will be allowed to study for a period of no more than three semesters or a total of 18 semester hours, whichever occurs first.

Accelerated Degree Options

Young Scholars

The University offers enrollment to outstanding high school students looking for an academic challenge and the opportunity to earn college credits. By attending classes at LMU, Young Scholars will attain first-hand experience of college life as well as gain semester hours that will apply toward an eventual university degree.

*** Credit subject to final review by Music faculty.
Financial Aid

The Financial Aid Office provides information on federal, state, institutional, and private programs available to assist students and their families meet the educational costs to attend Loyola Marymount University.

The Financial Aid Office is located in Xavier Hall, Suite 200. Counseling and information are available to students Monday through Friday for walk-in, by appointment, or phone at (310) 338-2753 from 8:00 a.m. to 5:00 p.m. General inquiries can also be made at finaid@lmu.edu. The Financial Aid Office website (http://www.lmu.edu/financialaid) provides reminders of upcoming deadlines, publications and forms for download, links to complete required applications online, information on scholarships offered through LMU and through outside organizations, and financial aid FAQs.

General Eligibility Requirements

To be eligible for federal and state programs, students must be U.S. citizens or eligible non-citizens.

Students must not be in default or owe a refund to any federal program to receive any type of financial aid.

To receive federal, state, or institutional aid at LMU, students must be admitted and enrolled in an LMU degree or credential program. To receive LMU-funded financial aid, students must be enrolled full-time (12 or more semester hours). Federal and state financial aid is available for students enrolled part-time.

Financial aid is also available for students who study abroad for up to two semesters. Most federal and state financial aid is available for study abroad programs, provided the study abroad program has been approved to receive federal funds and the student has received approval to transfer semester hours from the program to their LMU academic record. Students who enroll in one of LMU's study abroad programs receive transfer credit and grades and are eligible to receive institutional financial aid, provided they meet other eligibility requirements.

Types of Financial Aid

Students who complete all financial aid application requirements are automatically considered for all sources and types of need-based assistance, including assistance from the federal and state government, outside agencies, and LMU resources. LMU resources may include institutional grants, merit scholarships, and endowment awards.

How to Apply

Entering freshmen and continuing LMU students who are applying for financial aid for the first time at LMU:

Students can apply for financial aid by completing the required forms prior to being formally admitted. LMU requires that all entering undergraduates complete the following:

1. The Free Application for Federal Student Aid (FAFSA). It is recommended that students apply online at http://www.fafsa.ed.gov. The paper FAFSA form is available from high schools or from financial aid offices around the country. Due: March 2.

3. CALIFORNIA RESIDENTS ONLY: To apply for a Cal Grant A or B (see Grants), students must have their GPA sent to the California Student Aid Commission (CSAC) and complete the FAFSA. Due: March 2.

4. All new applicants must submit signed copies of student and parents' federal tax forms, all schedules, and W-2s to the Financial Aid Office. Due: April 1.

5. Students must comply with any request for additional documents or information needed to evaluate their application within ten days of the request.

Transfer students:

Students who will transfer to LMU and begin enrollment in the Fall semester are required to complete the following:

1. The Free Application for Federal Student Aid (FAFSA). It is recommended that students apply online at http://www.fafsa.ed.gov. The paper FAFSA form is available from high schools or from financial aid offices around the country. Due: June 1.

2. The CSS PROFILE. Students apply online at http://profileonline.collegeboard.com. Due: June 1.

3. All new applicants must submit signed copies of student and parents' federal tax forms, all schedules, and W-2s to the Financial Aid Office. Due: June 1.

4. Students must comply with any request for additional documents or information needed to evaluate their application within ten days of the request.
Continuing LMU students:

LMU requires all continuing undergraduates who have received aid in a prior year at LMU to complete the following:

1. The Undergraduate Financial Aid Application must be filed by all continuing applicants and is available for download at http://www.lmu.edu/financialaid. Due: March 2.

2. The Free Application for Federal Student Aid (FAFSA) must be filed by all continuing LMU students who received or wish to receive federal funded financial aid, a Cal Grant or other state funded financial aid, LMU funded aid, such as grants, endowments, academic or athletic scholarships, merit awards, LMU Work, and/or the LMU California Loan or Burns Student Loan. The FAFSA is available online at http://www.fafsa.ed.gov beginning in January. A PIN is required to sign applications online. Due: March 2.

3. Students who are selected for Verification by the Federal Processor when they complete their FAFSA or at the request of the Financial Aid Office must complete a Verification Worksheet and submit signed copies of their and their parents' federal tax forms, all schedules, and W-2s to the Financial Aid Office. If the student or parent is not required to file a 006 tax return, they must submit an LMU Student Non-Filer form or a Parent Non-Filer form. These forms are available to download from the Financial Aid Office website. Due: May 1.

4. Students must comply with any request for additional documents or information needed to evaluate their application within ten days of the request.

Eligibility for Need-Based Aid

Loyola Marymount University uses two formulas to determine eligibility for need-based financial aid: the federal government’s formula to determine eligibility for federal and state awards and an institutional formula to determine eligibility for need-based LMU grant/endowment awards.

The institutional formula considers additional factors which LMU believes affect the ability of students and/or their families to contribute toward their college expenses. LMU expects that students and their families will contribute to the extent that they are able towards college expenses considering all family assets and income.

LMU expects all students to contribute towards their education from their savings and/or summer earnings and has incorporated a minimum student contribution into the institutional formula used to determine eligibility for institutional funds.

Change in Enrollment Status

All students who decide to take a leave of absence, withdraw from LMU, or drop all coursework after the add/drop deadline during any semester or summer term are required to notify the Office of the Registrar. Students receiving financial aid who change their enrollment status may be subject to a reduction(s), cancellation(s), and/or adjustment(s) in their financial aid as a result. Refer to the Financial Aid website for information on how financial aid will be affected as a result of a change in enrollment status.

Refund Calculations

When students receiving financial aid are eligible for a refund or a cancellation of LMU charges, their financial aid will also be adjusted. A financial aid officer will calculate the adjustment and notify the Controller’s Office/Student Accounts. Any resulting refund, due to a federal financial aid program, will be made by LMU for the student. Any resulting charge will be added to the student’s account. Specific information is available from the Financial Aid Office.

Maintaining Satisfactory Academic Progress

Financial Aid probation is more rigorous than academic probation, which is described later in the section on “Academic Policies.” Undergraduate Students receiving financial aid must:

1) Maintain a 2.0 cumulative and term grade point average.

For financial aid purposes, the grades of F, NC, AU, and W will not be counted toward meeting the minimum term hours requirement. Grades of A, B, C, D, and CR will be counted. Grades of I or NR temporarily will not be counted until the final grade is posted. Hours for repeat coursework do not count towards the minimum semester hours required for satisfactory progress.

2) Complete the required number of Semester Hours as outlined below.

Minimum Semester Hours that Must Be Completed If:

<table>
<thead>
<tr>
<th>Term</th>
<th>Full-Time</th>
<th>3/4 Time</th>
<th>1/2 Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>12</td>
<td>9</td>
<td>6</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>12</td>
<td>9</td>
<td>6</td>
</tr>
<tr>
<td>Summer Sessions (Combined)</td>
<td>6</td>
<td>4</td>
<td>3</td>
</tr>
</tbody>
</table>
NOTE: All LMU-funded sources of financial aid as well as California state grants are available for a maximum of eight semesters if all other eligibility requirements are met. Please refer to the Academic Degree Requirements and Policies section of this Bulletin for information on the recommended course load required to complete degree requirements in eight semesters (4 years).

All undergraduate students must also maintain a semester and cumulative grade point average of 2.0.

If a student repeats a course, the course is counted only once, both in the computation of total hours completed and in the cumulative GPA. In this case, the most recent grade received is the one used to determine the student’s status. In determining the cumulative grade point average, only courses completed at Loyola Marymount will be considered.

Students failing to meet the above conditions (completion of minimum term hours and minimum term and cumulative grade point average) are placed on Financial Aid Probation and given two terms from the beginning of the subsequent semester to rectify the deficiency. Students failing to do so must appeal to receive any future financial aid.

Appeals

The University has established an appeals procedure to ensure equitable treatment of all financial aid applicants and recipients. Appeals forms are available in the Financial Aid Office or at http://www.lmu.edu/financialaid.

Fraud

Any fraudulent use of financial aid funds is cause for immediate suspension or dismissal, as well as discontinuance of future financial aid. This includes, but is not limited to, fraudulent statements on Financial Aid forms, inaccurate tax returns, and Student Time Cards for both hours worked and signatures obtained.

Programs of Assistance

Academic Scholars

Each year the Scholarship Committee recommends to the President of the University a number of students whose achievements merit exceptional recognition. Recommendations are based upon the potential for academic accomplishment and leadership which is demonstrated in outstanding academic records, GPA and SAT/ACT scores, and in demonstrated leadership in school or community. Academic Scholars receive grants worth $5,000, renewable with a 3.0 cumulative LMU GPA for a total of eight semesters. These awards are made possible by annual contributions as well as by eight endowment funds:

- Bernard and Catherine Bannan Presidential Scholarship Fund
- Loretta Clougherty Dodd ’61 Memorial Presidential Scholarship Fund
- Cyril and Edith Nigg Presidential Scholarship Fund
- Rains Presidential Scholarship Fund
- Seaver Institute Presidential Scholarship Fund
- Joseph M. Sexton Presidential Scholarship Fund
- John A. Teske Presidential Scholarship Fund
- Yerkes/Teske Presidential Scholarship Fund

Trustee and Presidential Scholars

From among the Academic Scholars, the President will select a very limited number of entering freshmen each year for LMU’s top academic scholarship, the Trustee Scholarship, and an additional number to receive the Presidential Scholarship. In addition to the academic and leadership criteria used to select the Academic Scholars, Trustee and Presidential candidates will interview with the Scholarship Committee at LMU. Trustee Scholars receive grants equal to full tuition, room, and board, renewable with a 3.0 cumulative LMU GPA for four years. Presidential Scholars receive $17,000 per year, renewable with a 3.0 cumulative LMU GPA for four years.

Thomas P. O’Malley, S.J., Jesuit High School Scholarships

The University will select one graduate from each Jesuit high school each year for special recognition, based upon superior academic achievement, demonstration of community leadership, and commitment to the ideals of Jesuit education. Scholarship winners will receive renewable grants of $17,000 per year for eight semesters, provided the student maintains a 3.2 grade point average at LMU.

Marymount High School Scholarships

The University will select one graduate from each Marymount secondary school each year for special recognition, based upon superior academic achievement, demonstration of community leadership, and commitment to the ideals of Marymount education. Scholarship winners will receive renewable grants of $17,000 per year for eight semesters, provided the student maintains a 3.2 grade point average at LMU.

Jesuit Community Scholarships

The Jesuit Community at LMU supports a scholarship fund designed to assist students from Jesuit high schools or other Catholic high schools. Criteria for selection include scholarship, leadership, and Christian service.

Scholarship winners receive grants worth $5,000, renewable with a 3.0 cumulative LMU GPA for a total of eight semesters.
Leadership Scholars

The Scholarship Committee recommends to the Senior Vice President and Chief Academic Officer each year an additional number of students characterized by notable contributions to their school or community. While these recommendations presume an excellent academic record, special consideration is given to students who demonstrate exceptional promise as campus or community leaders. The Committee also gives special consideration to students from economically-disadvantaged backgrounds.

Recommendations are based upon excellent academic records, active involvement in school and community, and demonstrated potential for leadership on campus and in the community. Leadership scholars receive grants worth $11,500, renewable with a 3.0 cumulative LMU GPA for a total of eight semesters.

Los Angeles County Scholarships

Instituted in 2001, the Los Angeles County Scholarship is awarded to selected entering freshmen from Los Angeles County who demonstrate distinguished academic achievement and determination to excel in the face of educational and economic disadvantage. Awards range to full tuition and may be combined with federal and state grants.

California Scholastic Federation

Loyola Marymount sponsors four scholarships for CSF Sealbearers. To apply, students must send a copy of their CSF Certificate to the Financial Aid Office by March 1.

Grants

University Grants

Loyola Marymount University funds and administers grants of its own. They include academic scholarships and Loyola Marymount University (LMU) grants. LMU grant eligibility is based on financial need and limited to eight semesters. Transfer students are evaluated individually to determine the number of semesters for which they can receive LMU grants.

Federal Pell Grant

The Federal Pell Grant is a federal, need-based grant awarded to undergraduate students who have not yet earned a bachelor’s degree. Students enrolled in fewer than 12 semester hours may be eligible to receive a prorated Federal Pell Grant.

Federal Supplemental Education Opportunity Grant (FSEOG)

The FSEOG is a federal, need-based grant awarded to undergraduate students. Priority is given to students who demonstrate exceptional financial need and who have been awarded the Federal Pell Grant. Full-time enrollment (12 or more semester hours) is required to receive this award.

Federal Academic Competitiveness Grant

The Federal Academic Competitiveness Grant is a federal, need-based grant awarded to undergraduate freshmen and sophomore students who are eligible for the Federal Pell Grant, U.S. citizens, and who completed a “rigorous high school education” as defined by federal guidelines. Full-time enrollment (12 or more semester hours) is required to receive this award.

Federal SMART Grant

The Federal SMART Grant is a federal, need-based grant awarded to undergraduate junior and senior students who are Pell-eligible, U.S. citizens, and who are majoring in physical, life, or computer sciences; math, technology, or engineering; or in a foreign language determined critical to national security. Full-time enrollment (12 or more semester hours) is required to receive this award, along with a minimum 3.0 cumulative LMU GPA.

Cal Grants

Cal Grant A is a method by which many students finance their education at the University. This grant is awarded to residents of the State of California and may be used to pay tuition at many approved institutions within the State of California. Normally, the grant is awarded to freshmen students; however, many transfer students and upperclassmen who apply also receive this grant. The grant is normally renewable each year once it has been obtained. Information concerning this grant may be obtained from either the high school counselor’s office, or the Financial Aid Office.

Cal Grant B, which is funded through the State of California, is another way students who are California residents may finance their education at Loyola Marymount University. This program in many cases allows for payment of tuition, books and supplies, and other educational expenses.
Student Employment

The Student Employment Service provides employment assistance to the students of Loyola Marymount University including part-time jobs ranging from 10 to 20 hours a week, part-time/full-time seasonal work during the Christmas and summer vacations, temporary jobs on an hourly basis, and tutoring positions within the student’s major field of study. These services are for all students regardless of their financial need. They are primarily off-campus positions.

The Federal Work Study program is another source of employment for students who qualify based on financial need. This program is funded jointly by the Federal Government and the University. It is designed to create jobs for students at the University, such as library researchers, teaching assistants, laboratory technicians, intramural referees, team managers, etc. Under the Work Study Program, most students will be awarded funds to average 12-15 hours per week during the term. Students are hired for part-time positions for the entire academic year, and they may earn up to the amount listed on their current financial aid award letter.

The Student Worker program is another employment program designed to give resident students an opportunity to earn an education by working on campus. The Student Worker Organization is an autonomous group that is primarily student-directed and -operated. Jobs include maintenance, recycling, and clerical and miscellaneous tasks for departments on campus. To apply, students should contact the Student Worker office at (310) 338-5013.

Loans

Many types of financing options are open to students and parents.

The following loans require the student to apply for financial aid (see the Applying for Financial Aid section) to determine eligibility:

Perkins Loan is a low-interest loan available to students who qualify for the Federal Pell Grant. Students may borrow a sum normally not to exceed $4,000 per year. After students leave school, they have a 9-month grace period before interest begins to accrue. The loan must be repaid on a quarterly basis at a rate of usually not less than $120 per quarter. If a student defaults and the school is unable to collect, the Federal Government may take action to recover the loan. Under certain conditions there are loan deferment and/or cancellation provisions for borrowers. The Office of Financial Aid provides information about such provisions.

Federal Stafford Student Loan is a low fixed 6.8% interest federal loan provided by a bank or credit union. First-year students may borrow $3,500; second-year $4,500; and third-, fourth-, and fifth-year students may borrow up to $5,500. Students who have financial need may be eligible to receive a subsidized Stafford loan where interest is paid by the government while in-school. Every student is entitled to an unsubsidized loan where interest accrues while in-school, and the student has the option of paying of deferring the interest. Independent undergraduate students may borrow an additional Stafford unsubsidized loan amount of $4,000 as freshmen and sophomores and $5,000 as juniors and seniors. All students receiving a Stafford Loan must attend at least half-time in a degree-seeking program.

Federal PLUS (Parent) Loan is a low fixed 8.50% interest federal loan provided by lending institutions to biological, adoptive, or non-custodial parents who have good credit. Parents may borrow up to the total cost of their dependent student’s education, minus any other financial aid. A loan origination fee and an insurance fee may be charged. Parents must begin repayment within 60 days of final disbursement.

Fritz B. Burns Loan Fund is a revolving loan fund established by Dr. and Mrs. Edison H. Miyawaki to help financially needy students with good academic records, with preference given to students from Hawaii.

* These scholarships are usually funded annually. Funding for the following scholarships cannot be guaranteed.
Scholarships

We are grateful for the assistance of alumni, family, and friends of the University who have so generously invested in the success of LMU students.

Most scholarships are awarded by the Financial Aid Office and do not require that students complete a special application. However, to be considered for any scholarships, students must apply for financial aid as stated in this Bulletin.

Scholarships that do not require an application or special process:

- Accounting Alumni Scholarship
- Carl W. Ackerman Family Scholarship
- Aerospace Studies Scholarship*
- African American Alumni Association Scholarship*
- Ahmanson Scholarship*
- Alpha Delta Gamma Scholarship Fund*
- Alpha Sigma Nu Scholarship*
- Arrupe Scholarship*
- Asian Pacific Scholarship*
- Georgianna “Charlie” Atol Memorial Fund
- James E. Bahan Fund

* These scholarships are usually funded annually. Funding for the following scholarships cannot be guaranteed.
Scholarships that require a separate application will be advertised either on the Financial Aid website or by a direct mailing to eligible students throughout the school year.

The following scholarships require a separate application:

ANA Scriptwriting Award*: Writing students; demonstrated TV writing ability; interest and skill in family-friendly television; must be enrolled; must serve in an internship related to family-friendly TV writing or production.

Robert and Lois Atherton Scholarship*: Full-time student; engineering or business major; freshman or sophomore; renewed each year until senior year; GPA of 2.5 or better. Applicants need to write a paragraph about why they are deserving. Selection made by donor.

C&C Award Scholarship*: Written endorsement by two full-time faculty members in the department and Father Michael Tang, Chairperson of the Department of Art and Art History required; future potential of student.

CFA Council Scholarship*: Selection is based on talent and experience.

Coca-Cola First Generation Scholarship (through ICSC)*: First member of their immediate family to attend college; full-time student; at least a 3.0 GPA; must show involvement and leadership in campus and community activities; need and deserving. Incoming freshmen, high school seniors apply on official Coke brochure. Selection is made by the Coca-Cola Corporation.

Warren and Elizabeth Conrad Scholarship for the Blind: Recipient shall be declared blind or legally blind as defined by federal law; recipient shall provide written statement from certified ophthalmologist stating he/she is legally blind; graduate from high school no earlier than ten years prior to date of scholarship award. Selection made by Financial Aid.

CPG Marketing Excellence Award: Junior or senior standing; minimum GPA of 3.2; business major with an emphasis in marketing; selection will be competitive per required application components. Selections made by CPG Marketing Excellence Scholarship Awards Committee.

Delta Sigma Pi Scholarship*: Member must be in good standing of Delta Sigma Pi Fraternity; 2.7 GPA or higher; must be working a minimum of 10 hours per week to help pay for college education; financial ability of parents not considered; must submit a 100 or more word essay on what the Fraternity has taught them. Selection made by scholarship committee and current Delta Sigma Pi Faculty Advisor.

Myles P. Dempsey Scholarship*: Permanent residency out of state of California; great financial need; GPA over 3.0; application essay regarding reason why needy and deserving. Selection made by donor.

Edison International Scholarship (through ICSC)*: Member of under-represented ethnic group; family residence within Edison territory; U.S. citizen or permanent resident; demonstrated financial need; demonstrated academic achievement; first generation to attend college.

Linkey Booth Green Scholarship: Must be enrolled in the College of Business Administration; entering freshmen must have a GPA of 3.0; sophomores, juniors, and seniors applying must have minimum 2.5 GPA; financial need not a requirement. Selection made by donor.

Richard A. Hollow, Jr., Memorial Scholarship*: Merit; need; active contribution to church and community.

Lina Hu Scholarship in Asian/Pacific Entrepreneurial Studies*: Student engaged in Asian/Pacific entrepreneurial study in the U.S.; preference to qualified junior, senior, and/or graduate students; women and minorities strongly urged to apply; financial need; minimum 3.0 GPA. Students must write an essay including biographical summary, need for support, long-term goals, and how entrepreneurship will assist him/her to become leader in chosen field; essays must be submitted to Dr. Robin Wang. Selection made by Asian Pacific Studies Department in conjunction with Financial Aid.

ICSC Community Service Internship Corps*: Intern must successfully complete internship, be enrolled for the term following the internship, and demonstrate financial need. Selection made by participating non-profit agency.

Jesuit Community Scholarship: Must have attended a Jesuit high school or a Catholic high school in California, or must be attending Loyola Marymount; financial need; academic performance, leadership, and Christian service; special consideration given to applicants whose family has or has had several children in Catholic schools. Selected by Admission and Jesuit rector during admission process.

Rev. Alfred J. Kilp, S.J., Alumni Scholarship Fund: For sons or daughters of Marymount, Loyola, or LMU alumni; based on financial need; exemplary person character; involvement in school, religious activities, leadership in school and the community; and academic achievement, though grades will not be a principle determining factor. Online application is through LMU Alumni Association. Selection made by a committee of alumni, staff, and faculty.

* These scholarships are usually funded annually. Funding for the following scholarships cannot be guaranteed.
Lewis A. Kingsley Foundation Scholarship*: Applicant must be employed and must submit a letter of recommendation from employer; be enrolled full-time; earn a minimum of $5,000, not including LMU earnings; be a sophomore, junior, or senior; have a minimum GPA of 2.0; for students who have been found ineligible for financial aid. Student must prepare a 1-2 page essay on why he/she feels qualified as a recipient. Selection made by Financial Aid.

Lipsky Family Scholarship: Sophomore, junior, or senior science major; minimum 3.25 GPA. Students must write a paragraph about themselves, their need, and their future plans. Selected by Dean of Frank R. Seaver College of Science and Engineering.

LMU Math Scholarship: Mathematics major; sophomore; financial need should not be considered; competitive examination; full-time student in good standing. Selection made by Math-Merit scholarship committee.

Macerich Scholarship (through ICSC)*: For students from high schools near three Macerich shopping malls. Selection based on competition in malls.

Sr. Raymunde McKay, R.S.H.M., Scholarship Fund: For sons or daughters of Marymount, Loyola, or LMU alumni; based on financial need; exemplary personal character; involvement in school, religious activities, leadership in school and the community; and academic achievement, though grades will not be a principle determining factor. Online application is through LMU Alumni Association. Selection made by a committee of alumni, staff, and faculty.

William F. McLaughlin Memorial Scholarship: Merit based without regard for financial need; junior majoring in Biology; must have completed 60 semester hours at beginning of Fall semester of junior year. Selection made by Frank R. Seaver College of Science and Engineering scholarship selection committee.

Mexican American Alumni Association Scholarship (MAAA): Latino; financial need. Application process begins every Spring semester. Selection made through the MAAA scholarship selection committee.

George F. Montgomery Scholarship: Must be an English major or have a major within the Bellarmine College of Liberal Arts and be enrolled in an English class; must submit an original Gothic or horror short story or academic study of Gothic or horror fiction, excluding the works of Anne Rice (minimum of 5 pages). Applications will be judged blindly by a panel of University faculty in the English Department.

National Arts Association Scholarship: Art major; artistic ability; financial need. Selection made by Financial Aid Office in conjunction with the Art Department.

Northrop Grumann Engineering Scholarship*: U.S. citizen; Engineering or Computer Science major; 3.0 or higher GPA; interest in Aerospace/Defense industry. Selection made by Northrop Grumann.

Ralph M. Parsons Memorial (through ICSC)*: competitive scholarship for children of Parsons Corporation employees. Selection made by ICSC interview panel.

Pike/Christopher Scholarship: Student must have high moral integrity; love of one’s fellow men; truthfulness; strong commitment to religious and moral principles; dedication to service of others; scholastic achievement; emotional stability; deep religious conviction, but awards not limited to one religion. Student must assume position of leadership to better world conditions. Selection made by Financial Aid.

Mabel Wilson Richards Scholarship*: Female; resident of Los Angeles or other approved city; financial need; U.S. citizen; student enrolling for the first time must have earned a GPA of 3.0 or higher in last two years of high school or first year in college. Selection made by foundation based on recommendation by Financial Aid Office.

TELACU Scholarship*: Incoming Hispanic students must be a graduate of one of the qualifying East L.A.-area high schools; tranferring students must be transferring from one of the participating colleges/universities; required residency in unincorporated East L.A. Selection made by TELACU Scholarship Committee.

Margaret Tritle Rome Scholarship: For students studying abroad in the Summer Rome Program. Merit and need based. Selection made by the Director of the Rome Program.

* These scholarships are usually funded annually. Funding for the following scholarships cannot be guaranteed.
Tuition and Fees

The tuition charge supports the instructional program and general operating and administration of the University, such as ordinary health services, various counseling services, lectures, intercollegiate athletic events, and the library.

Regular Tuition

Undergraduate Full-Time Students
(programs of 12 or more semester hours):
per academic year .................................... $31,168
per semester ............................................ $15,584

Special Tuition

Part-Time Undergraduate Students
(Unit Rate for 11 semester hours or less and overload hours in excess of 18):
Undergraduate Students
per semester hour ...................................... $1,98
Auditors, per semester hour ....................... $34.50
Advanced Credit: High School Young Scholars,
per semester hour ...................................... $1,98

Residence Hall Fees

Housing Processing Fee/Deposit............ $400 mandatory
This deposit is applied to the room charge but is forfeited by those who fail to register and complete their Housing Arrangements.

Desmond, Doheny, Rosecrans, Whelan Halls
double room, per academic year .............. $7,368
Huesman and Sullivan Halls
per academic year ....................................... $7,368

McKay Hall
double rooms with adjoining baths,
per academic year ........................................ $7,890

McCarthy and Rains Halls
double rooms with adjoining baths,
per academic year ....................................... $8,368

Leavey Center ............................................. $7,890

Del Rey North/South Halls
per academic year ....................................... $7,840

Housing cost applies to the academic year only. Additional costs are added for special living accommodations and single or private accommodations. Students who live on campus during recess periods will be charged a daily rate as indicated in their lease agreement. Summer Session Housing fees are additional.

Apartment Fees

The University has beds in completely furnished apartment-style residence halls on campus. Each apartment generally accommodates four students in two bedrooms with adjoining bath and a living room with a pullman-style kitchen.

Hannon and Tenderich Apartments
per academic year ........................................ $9,372
O’Malley/Leavey IV, V, and VI Apartments
per academic year ........................................ $9,978
Loyola Houses 8000 and 8001 ............... $9,264

Apartments are open during recess and semester breaks.

Board Programs

The various plans are referred to as Lion Dollar Plans. All students living in non-apartment residences are required to purchase a plan. Special dietary food may be obtained by arrangement. Four plans are offered by Sodexho Food Services. Both the Malone Center and University Hall dining facilities feature restaurant-style food selections on a declining balance, a la carte basis.

Lion Dollar Plans are not refundable.

Plan L, per academic year ........................ $4,000
Plan I, per academic year ....................... $3,100
Plan O, per academic year ...................... $2,650
Plan N, per academic year ...................... $2,200

Commuter students and apartment residents may purchase any of the plans listed above or may open a Plan S account with a minimum value of $100 or multiples thereof. Students are allowed to switch between plans during the third week of each semester.
(These rates are subject to change.)

Other Fees

Accident Insurance
(mandatory for 7 or more semester hours) .... $195

Admission Application Fee ...................... $50 mandatory

Commitment Deposit ........................... $250 mandatory
The commitment deposit is a one-time non-refundable fee required by all new freshmen and transfer students admitted.
Orientation Fee (non-refundable mandatory for entering freshmen and transfers)
- Fall entry ..................................................... $210
- Spring entry ................................................... $105

Registration Fee, per semester (mandatory)
assessed each term to all students ....................... $55

Sickness Insurance (mandatory for 7 or more semester hours, unless proof of coverage provided)........ $630

Student Activity Fee
(mandatory for full-time undergraduates)
- per academic year (full-time).......................... $156
- per semester hour (part-time)............................. $5

Student Recreation Facility Fee (mandatory for all full-time undergraduate students, voluntary for all part-time and graduate students)
- per academic year........................................ $130
- per semester................................................ $65
- guests of students ........................................ $5 per visit

Media Fee
(mandatory for full-time undergraduates) ...................... $55

Miscellaneous Fees—Generally all miscellaneous fees are non-refundable unless stated otherwise and due when charged to your Student Account.

Collection Cost................ $95 minimum to a maximum of 40% of the outstanding balance charged to your Student Account.

Credit/Debit Card Service Fee OneCard purchases ($1.50 if applicable)

Deferred Payment Fee
Semester Plan ................................................ $95
Twelve/Ten Plan Check ...................................... $145
Twelve/Ten Plan ACH Auto-Deduct ....................... $45
Semester/Company Reimbursement Plan ............. $95

Directed Teaching Fee, per semester hour:
- Elementary ..................................................... $25
- Secondary...................................................... $25

Duplicate billing fee
(duplicate statements and/or expense letters) .......... $7

Equipment Insurance Fee........................................ $5

Late Financial Clearance Fee ......................... $95

Late Payment Fee (monthly) ............................ $95

Replacement Charge for OneCards ..................... $15

Returned Check Charge ................................. $25

Rush Transcript................................................ $10

Teacher Placement Fee.................................... $30

Certain courses may also require mandatory laboratory and material fees. Check with departments for more details.

Any unpaid fines or charges (such as parking, library, delinquent telephone charges, property damage) or any miscellaneous charges incurred by a student while in attendance at the University will be charged to the student’s account. Certain fees deemed optional are required to obtain that good or service.

The tuition, fees, and other charges described above are good faith projections for the academic year. They are, however, subject to change from one academic term to the next as deemed necessary by the University in order to meet its financial commitments and to fulfill its role and mission.

There are other fees and charges unique to certain programs that are dependent upon a student’s matriculation at the University. These fees or charges may be determined by contacting the University offices that administer those programs or activities in which the student intends to enroll or engage.

**Estimate of Charges**

Since each student may elect various services with associated charges, it is not possible to determine precisely all student charges before registration. However, the following schedule estimates the charges for one academic year for a typical freshman undergraduate resident exclusive of entertainment, transportation, injury insurance, or other personal costs. Your actual cost may vary.

Estimate assumptions for illustration:
Assumes Lion Dollar Plan I or Lion Dollars S Plan for apartments. (Average apartment rate used for apartment residents.) Actual Financial Aid Budget may vary due to individual economic circumstances.
Payment of Student Charges

Tuition, fees, and board charges are payable by the semester. Financial clearance is necessary prior to registration and subject to Late Financial Clearance/Deferment Fee after the deadline. Clearance may be obtained from the Controller’s Office Student Accounts Department at the time of payment or by making arrangements for the payment plan described below.

Registration for classes may be canceled for any student whose payment check for tuition or fees is returned unpaid from the bank or who has defaulted on payment arrangements.

Financial clearance cannot be granted, and pre-registration will not be permitted, if a student’s account is delinquent.

Failure to pay tuition and other outstanding debts will result in the withholding of the academic transcript. The student diploma will not be released until all debts are satisfied in full. Students are prohibited from future registrations due to delinquent accounts.

Sickness Insurance

The annual Sickness Insurance fee of $630 (estimated) is mandatory for students who are U.S. citizens taking 7 or more semester hours. Domestic students may waive coverage by submitting the appropriate form to the Controller’s Office by September 1, 2007. Students entering for the first time or returning to the University during the Spring 2008 semester and taking 7 or more semester hours will be charged a prorated amount for the Spring semester unless a waiver form is submitted to the Controller’s Office by February 1, 2008.

International (Visa) students, regardless of the number of semester hours in which they are enrolled, must purchase the Mandatory International Student Sickness Insurance. The International Sickness Insurance may not be waived, and the cost is $630 (estimated) for single coverage. Higher premiums may be charged depending upon marital status and number of dependents.

(Accident Insurance is mandatory for all students registered for 7 or more semester hours and may not be waived.)

Monthly Payment Plan

Parents and students may apply for the University’s annual 10-month or 12-month payment plan. The 10-month payment plan requires the first two months’ payments to start the plan. The check plan requires a $145.00 fee for enrollment; however, interest is 0% on the outstanding balances. The 10- or 12-month Debit Checking Plan requires a $45.00 enrollment fee and is a 0% interest plan. The 12-month plan is for Automatic Checking Deduction only. A monthly late fee is assessed on students who fail to make their payment by the end of each month. Students may take advantage of the Automatic ACH Debit Checking feature that allows a one-time authorization followed by regular monthly charges and deductions. Debit cards are accepted.

Certificate of Eligibility for Veterans

All expenses incurred by a veteran that have not been properly authorized by the Veterans Administration must be paid by the veteran. Therefore, it is the responsibility of every veteran to see that papers are in proper order at the time of the first and each subsequent registration. Also, all veterans who are receiving benefits for educational expenses are required to contact the Financial Aid Office.

The University is required by the Veterans Administration to report failure on the part of the student to complete 75% of the semester hours attempted in any given term. Benefits to a veteran who fails to complete 75% of the semester hours originally enrolled in may be suspended. Failures, withdrawals, and NCs are not recognized as making satisfactory progress.

Refunds/Cancellation

Refunds for tuition and/or housing are made only after a complete withdrawal or leave of absence from the University (dropping all courses) has been processed by the Office of the Registrar and, in the case of a resident student, also by the Housing Office. For resident students, if the official withdrawal dates from the Office of the Registrar and the Housing Office are different, the respective dates will be used for tuition or housing refunding purposes. See the accompanying table for the allowable refund percentage.

Meal plans are non-refundable. A student should complete the Withdrawal/Leave of Absence form in the Office of the Registrar and, if a resident student, the withdrawal form in the Housing Office.
The University strives to meet the expectations of its students and tries to act compassionately in a time of crisis that interrupts a student’s semester studies so that she/he cannot or should not finish the semester. In an attempt to ease the cost of tuition, the refund policy is in place to allow for a sliding refund for those who withdraw from all courses in a given semester according to the following schedule. This policy applies to, but is not limited to, the following leave or withdrawal reasons: hospitalization, illness, moving out of the area, employment changes/relocation, and family-related emergencies.

No refund may be given for registered courses which a student did not attend and did not withdraw from within the full refund period. No refund or cancellation is granted to a student who withdraws from a portion of his/her program after the end of the 100% Drop/Add period. Consult the following refund schedule for the academic category corresponding to your enrollment and type of program. Students, whether undergraduate, graduate, or non-degree, who have paid tuition by the semester hour are eligible for tuition refunds per semester hour, based on the published sliding scale. Full refunds for all other students are contingent upon withdrawal from all classes or from the University. The published sliding scale still applies to this type of refund.

The University’s Federal Aid refund policy complies with the Higher Education Amendments Act.

### Refund Payments

Refund credits are applied to the student’s account. Refunds of credit balances will be made in accordance with Federal guidelines. Refunding of credit balances is subject to a holding period until verification that funds received have cleared the University’s bank. Refund payments are issued in the name of the student unless written authorization from the student is received to the contrary.

### Security Interest in Student Records

A student may not receive a diploma, certificate, or transcript until all accounts, current or otherwise, have been settled in accordance with University and Agency requirements. Students with delinquent accounts will be prohibited from future registration until all balances are resolved to the University’s satisfaction. Such documents and services will be retained by Loyola Marymount University as security for such obligations until they are satisfied.

If a student defaults on payment of a Federal Perkins Student Loan, a Federal Family Educational Loan, or an Institutional Loan, or if a student fails to satisfy exit interview requirements, a security interest in records and services will remain in effect until debts and requirements are satisfied. Unpaid accounts are reported to the three major credit reporting agencies. Exit interviews are administered through the Student Loan Office and the Financial Aid Office.
University Core Curriculum
University Core Curriculum

Goals and Objectives of the Core Curriculum

Consistent with the goals of the University and with the desire to provide undergraduate students with an education founded strongly in human values, Loyola Marymount University has adopted the following goals and objectives.

Goals:

• To provide a strong undergraduate humanistic education within the traditions of the Society of Jesus and the Religious of the Sacred Heart of Mary.
• To foster the desire for knowledge and to provide the skills necessary for a lifetime of intellectual growth in a global society.
• To prepare students to play active roles in addressing the problems and challenges they will face in attempting to create a just world.

Objectives:

• To develop an understanding of religious experience and beliefs, with particular attention to theological questions as addressed by Catholic Christianity.
• To develop a habit of philosophical reflection.
• To develop an understanding and appreciation of the history of humankind in the arts, literature, and philosophy.
• To develop a knowledge of the structures, values, and practices of contemporary societies.
• To develop the arts of precise and elegant expression in speaking and writing.
• To develop the skills of critical thinking.
• To develop quantitative skills and an understanding of the history and principles of mathematics and science and technology.
• To cultivate and engage the creative imagination.
• To explore ways to live more fully and to act more responsibly within a culturally diverse world.

The following core curriculum encourages intellectual breadth. No matter the student’s major, all students should be acquainted with the nature of discourse and practice in the major areas of knowledge that will prepare students for life after Loyola Marymount University.

Students should consult the College or School sections of this Bulletin for core curriculum requirements specific to each College or School.

Core Curriculum Requirements

American Cultures
College Writing
Communication or Critical Thinking
Critical and Creative Arts
History
Literature
Mathematics, Science and Technology
Philosophy
Social Sciences
Theological Studies

American Cultures

American Cultures courses will examine and compare the American experience of at least three of the following groups: African American, American Indian, Asian American, Chicana/o-Latino/a, and European American. The objective of these courses is to explore the contributions of these groups to human knowledge and development. Classes will also explore the varieties of cultural expression, behavior, and interaction.

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS.

A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing

Proficiency in Writing

All entering first-year students will demonstrate writing proficiency by completing an essay administered in all English 110 sections during the first week of classes. Based on performance in this essay, students will remain in ENGL 110 or be placed in ENGL 100 (English as a Second Language) and ENGL 101 (Required Writing Lab—ESL). Some students will be recommended to enroll in English 111 (Elective Writing Lab).
College Writing Courses

The required course in college writing teaches students how to produce clear and logical, thoughtful and persuasive expository prose suitable to a variety of academic disciplines. To do this effectively, students must learn to be critical readers and thinkers. A critical analysis of both reading and writing enables students to create more meaningful and effective prose. ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- (1.7) or lower must retake ENGL 110 at LMU and receive a grade of C (2.0) or higher.

English 100: English as a Second Language

Students enroll in English 100 based on their performance in an essay administered in all ENGL 110 sections during the first week of classes. This course is designed to give students essential skills in writing and reading English. Students must earn a grade of C (2.0) or better in order to pass this course.

English 110: College Writing

The art of clear and effective college writing. This course will teach students how to generate clear and persuasive expository prose suitable to a variety of academic disciplines. Students must earn a grade of C (2.0) or better in order to fulfill the college writing requirement. Students who receive a C- (1.7) or lower in ENGL 110 must enroll in ENGL 110 the next semester.

Communication or Critical Thinking

Communication

The communication offerings develop students’ abilities to analyze issues and problems more logically. Students will prepare arguments, presentations, and speeches. They will also learn to listen more critically and speak more effectively in a variety of settings.

Critical Thinking

The course in critical thinking helps students to improve their reasoning skills through a study of logic and its application to several types of argumentation, both oral and written. The students are taught both the technical skills of argument evaluation and the other skills needed to construct sound arguments and debates.

Critical and Creative Arts

Critical Arts

Critical Arts courses are those courses in the history and theory of the arts which analyze artistic works in their social contexts as well as the aesthetic expectations and conventions which inform them.

Creative Arts

The objective of courses in the Creative Arts is to develop individual expression through exploration, analysis, and creation of artistic works.

History

This category of courses analyzes the major concepts, ideologies, and movements that have dominated the course of civilization in order to develop in students the historical perspective necessary to better understand the global society in which they live.

Literature

Prerequisite: Successful completion of college writing requirement.

Core literature courses enhance students’ understanding and appreciation of literary works. A study of fiction, poetry, or drama familiarizes the students with both the strategies available to the fiction writer, poet, or playwright in creating the literary work and the variety of critical approaches for analyzing and evaluating literature.

Mathematics, Science and Technology

Proficiency in Mathematics

All students must demonstrate proficiency in mathematics. The mathematics course(s) required for a student to demonstrate mathematics proficiency teaches the student the quantitative and analytic skills needed to function as an informed citizen in an increasingly technological world.

Any student with a grade of 4 or 5 on at least one of the Calculus A/B, Calculus B/C, or the Statistics Advanced Placement Examinations has already demonstrated proficiency in mathematics.
Students in the College of Communication and Fine Arts and students in the Bellarmine College of Liberal Arts who are NOT required to take a mathematics course as part of their major requirements normally demonstrate proficiency in mathematics by receiving credit in Quantitative Skills for the Modern World (MATH 102). The Mathematics Placement Examination is not necessary for enrollment in this course.

Students in the College of Business Administration, the Frank R. Seaver College of Science and Engineering, and the Bellarmine College of Liberal Arts majoring in economics or liberal studies demonstrate mathematics proficiency by receiving credit in the mathematics courses required by their particular majors. These students must take the Mathematics Placement Examination to determine placement in appropriate classes. If the results of this placement examination indicate, students are required to enroll in and pass Algebra (MATH 101) before they qualify to enter the mathematics course required by their major. In all cases, mathematics proficiency is met only after receiving credit in the mathematics coursework required by the major.

Psychology majors demonstrate mathematics proficiency by passing Elementary Statistics (MATH 104) with a grade of C (2.0) or better. These students do not take the Mathematics Placement Examination but enroll directly into Elementary Statistics (MATH 104).

Special Circumstances
- Students desiring to take MATH 106, 111, 112, 120, 122, or 131 in order to fulfill the mathematics proficiency requirement should see their advisor for appropriate action. The Mathematics Placement Examination is required before taking any of these courses.
- Transfer students should see the Dean of their College or School for specific information.

All students should see their individual College or School section in the Bulletin and their major requirements described in the Bulletin for further specific information.

Mathematics, Science and Technology Courses
Prerequisite: Credit in MATH 101 or higher, or placement into MATH 106 or higher.

These courses introduce the student to the methodology and mathematics used in a field of mathematics, science, or engineering as well as provide a more in-depth study in a specific area. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Philosophy
The lower division core course is designed to introduce students to the nature of philosophy as a discipline and to address selected central metaphysical and epistemological issues surrounding the question of human nature.

Upper division courses examine questions that a person asks in order to form an intelligent philosophy of moral choice, with particular attention to those moral concepts that have been most important in shaping Christian culture. The approach may emphasize either the major moral theories or selected contemporary moral problems.

Social Sciences
These courses will introduce students to systematic, empirically grounded investigations of individuals and the structures, values, and practices of contemporary societies. Students develop conceptual and analytical skills necessary to understand the economic, political, psychological, cultural, and/or social conditions that influence our lives.

Theological Studies
A general objective of Theological Studies courses is for students to face the issues of religious beliefs and their consequences in their lives.

The objectives of the lower division core courses are to examine the nature of religion, the nature of Christian faith, and the methods for understanding scripture.

The objectives of the upper division core courses are to deepen the students’ knowledge of at least one of the three areas covered in the lower division course under one of the following categories: biblical theology, historical theology, systematic theology, moral and practical theology, and world religions.

Note: International/Global Studies
The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America.
Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad office.
Academic Degrees and Programs

Undergraduate Degrees and Major Programs with Areas of Concentration

Loyola Marymount University offers courses leading to the following undergraduate degrees:

- **B.S. in Acc.** Accounting
- **B.A.** African American Studies
- **B.A.** Animation
- **B.S.** Applied Mathematics
- **B.A.** Art History
- **B.A.** Asian and Pacific Studies
- **B.S.** Athletic Training
- **B.S.** Biochemistry
- **B.A. or B.S.** Biology
- **B.B.A.** Business Administration
  - Business Law
  - Computer Information Systems and Operations Management
  - Entrepreneurship

Credential Programs
Under the jurisdiction of the State of California and the approval of the Commission on Teacher Credentialing, Loyola Marymount’s School of Education offers courses leading to several state-granted credentials. Programs that may be completed concurrently with an undergraduate degree program are:

- Bilingual Education (BCLAD Spanish—Multiple and Single Subject)
- Elementary Education (Multiple Subject)
- Secondary Education (Single Subject)
- Special Education (Mild/Moderate Disabilities)

Credential and certificate programs are also offered at the graduate level. Please see the Graduate Bulletin for further details.

Certificate Programs
Loyola Marymount University offers courses leading to the following certificate programs:

- Business Administration (Graduate)
  - International M.B.A.
- Education (Graduate)
  - Bilingual, Crosscultural, Language, and Academic Development (BCLAD)
  - Catholic School Administration

  - Structural Dynamics
  - Systems Engineering
  - Thermal Engineering

Additional certificate programs are available through LMU Extension.

Law Degree
Loyola Law School offers courses leading to the degree of Juris Doctor. The Graduate Division and the Law School offer a dual program in Juris Doctor and Master of Business Administration.
Academic Degree Requirements and Policies

All regulations and rules or procedures contained in this official Bulletin apply to undergraduate programs. Questions in individual cases should be presented through written petition to the appropriate dean.

Students are held individually responsible for information contained in these pages. Failure to read and understand these regulations will not excuse a student from their observance.

Academic Calendar

The University offers two fifteen-week semesters plus a week of final examinations for each semester and two six-week summer sessions that include final examinations.

Degree Requirements

All candidates for the baccalaureate degree at LMU must fulfill the following requirements:

1. All candidates in the undergraduate colleges must complete a minimum of 120 semester hours, including core and program requirements and 45 semester hours of upper-division coursework. Certain programs require more than 120 semester hours. These are noted under the appropriate department listings.

2. All work done at LMU must have a cumulative grade point average of C (2.0). All courses taken in the major, minor, or area of concentration must have a cumulative grade point average of C (2.0).

3. At least 30 of the last 36 semester hours for the bachelor’s degree must be taken in residence at LMU. At least two-thirds of the upper division semester hours of the major must be taken in residence at LMU unless, for programmatic purposes, the dean and the director of the major deem an exception appropriate.

4. A student is held responsible for academic regulations in effect at the time of entrance or for those in effect in the senior year provided the student maintains continuous enrollment. Similarly, a student who declares or changes a major after being admitted to the University is held responsible for the academic regulations in effect at the time the major is declared or changed. A student who interrupts LMU enrollment is subject to the academic regulations in effect in the University Bulletin at the time enrollment is resumed.

5. Degrees are awarded at the end of the Spring term, August 31, and December 31. The date of the degree posted on a student’s diploma is the one by which all graduation requirements are completed or documents are submitted. These include:

A. A submission of transcripts from other institutions prior to the degree date;
B. The completion of all incomplete work prior to the degree date;
C. File application for degree by the deadline date for the term in which all of the above conditions will be met. If a student has been canceled for graduation in a given term, it is the responsibility of the student to again file for graduation for a later term;
D. All course requirements for a degree must be completed or be in progress before or during the term of degree conferral. The University will award a degree if all required coursework is completed, and needed documentation received, within 30 working days of the University conferral date. After 30 working days, awarding of the diploma will be deferred to the next degree conferral date.

Second Baccalaureate Degree

A student who possesses an earned bachelor’s degree from an institution accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities may earn a second undergraduate degree with a different major field of study by meeting all of the following requirements:

1. Completion of at least 30 semester hours at LMU beyond those required for the first degree; these must include at least 24 semester hours of upper division work and at least 20 semester hours of upper division work in the major field of study;
2. Fulfillment of the core requirements of the College in which the major is offered;
3. Satisfaction of all the requirements for the major;
4. Completion of the application for degree process (c.f., #5 above).
Academic Advising

Students are assigned academic advisors within their college or school. As part of the registration process, students consult their advisors in preparation of their academic programs and prior to registering for classes. Advisors are not authorized to change established policy of the University. The student is solely responsible for assuring that his/her academic program complies with the policy of the University. Any advice at variance with established policy, i.e., a degree audit exception (Petition for CAPP Adjustment form), must be confirmed in writing by the chairperson of the department or director of the program and then by the Dean's Office.

Academic Probation

Academic probation carries a serious warning to the student that the scholastic record is unsatisfactory and continued failure to improve this record may result in being declared ineligible to attend the University. Students on probation may also have restrictions imposed by the dean regarding their program of studies and their participation in extracurricular activities. The following classes of students will be placed on probation:

1. A student who in any term fails to earn a C (2.0) average,
2. A student whose cumulative grade point average falls below a C (2.0),
3. An upper division student who in any one term fails to earn a C (2.0) average in the major requirements, or
4. A student whose cumulative grade point average in the major requirements is below a C (2.0).

Academic Disqualification

Disqualification terminates a student's relationship with the University. A disqualified student may not register in any division or session of the University and is denied all privileges of the University and of all organizations or activities in any way connected with it.

The following classes of students will be subject to disqualification:

1. A student who while on probation fails to earn a C (2.0) average during the next semester, or who has not attained an accumulated grade point average of C (2.0) within two semesters after having been placed on probation;
2. A student who does not make satisfactory progress in the coursework associated with the declared major.
3. A student who has had special academic requirements imposed by the dean or the Committee on Academic Standing and Degrees and does not meet the requirements within the time prescribed.

Readmission after Disqualification

Disqualified students are not eligible for readmission until one calendar year has elapsed.

1. A disqualified student who wishes to be considered for readmission to the University must file a formal application with the Admission Office.
2. A formal interview must take place with the Dean's Office prior to formal readmission.
3. A disqualified student who is readmitted will be on strict probation which requires that the student must satisfactorily complete all requirements set by the dean in the initial semester after readmission.
4. A student who has been disqualified a second time may not apply for readmission.

Articulation

The articulation services at LMU help students to identify courses completed at other academic institutions that are transferable to LMU baccalaureate degree programs. Courses taken at other academic institutions may fulfill University core requirements, Program (major/minor) requirements or transfer in as electives. LMU has established articulation agreements with its major feeder community colleges. To view these articulation agreements, see http://registrar.lmu.edu, and click on “Articulation Agreements.” Current students should consult the articulation agreements of the institutions listed on this page as well as the “existing histories” of courses previously transferred in from other institutions. A signed Transfer Course Approval form and an official transcript from the transfer institution must be submitted to the Office of the Registrar before any transfer courses may become a part of the continuing student's LMU degree program.

LMU Honor Code and Process

Loyola Marymount University is a community dedicated to academic excellence, student-centered education, and the Jesuit and Marymount traditions. As such, the University expects all members of its community to act with honesty and integrity at all times, especially in their academic work. Academic honesty respects the intellectual and creative work of others, flows from dedication to and pride in performing one's own best work, and is essential if true learning is to take place.
Examples of academic dishonesty include, but are not limited to, the following: all acts of cheating on assignments or examinations, or facilitating other students’ cheating; plagiarism; fabrication of data, including the use of false citations; improper use of non-print media; unauthorized access to computer accounts or files or other privileged information; and improper use of Internet sites and resources.

Definitions of Academic Dishonesty

The following are examples of academic dishonesty which may be interpreted as intentional or unintentional. This list is not meant to be exhaustive. It is the student’s responsibility to make sure that his/her work meets the standards of academic honesty set forth in the Honor Code. If the student is unclear about how these definitions and standards apply to his/her work, it is the student’s responsibility to contact the instructor to clarify the ambiguity.

A. Cheating and Facilitating Cheating
   1. Possession, distribution, and/or use of unauthorized materials or technology before or during an examination or during the process of preparing a class assignment.
   2. Collaboration on class assignments, including in-class and take home examinations, without the permission of the instructor.
   3. Provision of assistance to another student attempting to use unauthorized resources or collaboration on class assignments or examinations.

B. Plagiarism
   1. Presentation of someone else’s ideas or work, either in written form or non-print media, as one’s own.
   2. Omission or improper use of citations in written work.
   3. Omission or improper use of credits and attributions in non-print media.

C. Falsification of Data
   1. Presentation of altered or fabricated data, such as lab reports, with the intention of misleading the reader.
   2. Presentation of forged signatures as authentic.
   3. Use of false citations, either incorrect or fabricated, including sources found on the Internet.

D. Unauthorized Access to Computers or Privileged Information
   1. Use of University network and/or computer hardware to gain unauthorized access to files, and alteration or other use of those files.

E. Improper Use of Internet Sites and Resources
   1. Inappropriate use of an Internet source, including, but not limited to, submission of a paper, in part or in its entirety, purchased or otherwise obtained via the Internet, and failure to provide proper citation for sources found on the Internet.

F. Improper Use of Non-Print Media
   1. All above standards apply to non-print media.

G. Other Academic Dishonesty
   1. Any other means of violating the standards of academic honesty set out above.

Honor Code Process

This section sets out the process to be followed when an Instructor suspects a violation of the Honor Code. The recommended sanctions are not mandatory, but are intended to guide the Instructor’s discretion. Instructors are encouraged to consult with their colleagues and chairs in making these decisions. This section also outlines the student appeal process for Honor Code violations.

I. Intentional and Unintentional Academic Dishonesty

A. Notification: Instructors will notify the Student of the suspected act of academic dishonesty. The Student will be given the opportunity to admit, deny, or explain the situation. If the suspected violation of the Honor Code occurs with respect to an assignment that the Instructor has not reviewed until after the class has stopped meeting, the Instructor will send a letter to the permanent address of the Student and keep a copy of the letter. Failure to notify will result in a reasonable extension of the Student’s time to appeal, but is not in and of itself a defense to the violation of the Honor Code.

B. Determination: If the Instructor determines that a violation has occurred, he/she will next determine whether or not the violation was intentional or unintentional. The distinction between intentional and unintentional violations of academic honesty is not based upon the purely subjective intentions of the Student. The question is whether a Student who has carefully read the Honor Code should have understood that his/her action violated the Honor Code and standards of academic honesty.

C. Unintentional Violation: If the Instructor believes the violation was unintentional, he/she may take any of the following actions:
1. Warn Student
2. Require assignment or exam to be resubmitted
3. Reduce the grade on the assignment, project, or exam The Instructor shall inform the Student of his/her decision and also inform the Student of the right to appeal the Instructor’s decision.

D. Intentional Violation: If the Instructor believes the violation is intentional, he/she may take any of the following actions:

1. Fail the Student on the assignment or exam
2. Fail the Student in the course

The Instructor shall inform the Student of his/her decision in writing and also inform the Student of the right to appeal the Instructor’s decision.

The Instructor may consult with the Chairperson, Program Director, or equivalent and refer the matter directly to the Dean of the Instructor’s college or school with a recommendation that the Student be suspended or expelled. Upon such a referral, the Dean shall appoint an Academic Honesty Panel consisting of two Faculty members and one Student from the ASLMU Judiciary.

II. Departmental Appeal

A. The Student may appeal the Instructor’s decision under section I(C) or (D) to the Department Chairperson, Program Director, or equivalent. In accordance with the grade appeal policy in the Undergraduate Bulletin and Graduate Division Bulletin, the Student will be required to make his/her appeal in writing no later than three weeks into the semester following the decision.

B. If either the Student or Instructor wishes, he/she may appeal the decision of the Department Chairperson, Program Director, or equivalent to the Dean of the Instructor’s college or school, who will refer the matter to the Academic Honesty Panel. Appeals must be made within 30 days of receipt of the chair’s decision.

III. Academic Honesty Panel Appeal

A. The Academic Honesty Panel is an ad hoc recommending body of the Instructor’s college/school. The Panel consists of two Faculty members and one Student appointed by the Dean. The Dean will appoint one of the Faculty members as Chair of the Academic Honesty Panel.

B. Responsibilities of the Panel

1. The Panel will hear appeals by the Student or Instructor of the Chair’s decision for any penalty short of expulsion or suspension.
2. The Panel will make the initial recommendation as to whether the Student should be suspended or expelled.

C. In fulfilling these responsibilities, the Panel will make two determinations:

1. It will determine whether there is clear and convincing evidence that the Student has violated the Honor Code. The Student is entitled to the presumption of innocence and the right to review and respond to all evidence and information relevant to the Panel’s decision.
2. Upon the finding of clear and convincing evidence of a violation, the Panel is to determine the appropriate penalty. With regard to the appropriateness of serious recommendations such as suspension and expulsion, the Panel shall take into account the following factors:
   a. the severity of the violation;
   b. whether the violation is an isolated instance, or part of a pattern of two or more violations; and
   c. other mitigating or extenuating circumstances.

D. The recommendation of the Academic Honesty Panel, along with an explanation of the reason for the recommendation, will be reported in writing to the Dean of the Instructor's college or school. The Dean will normally follow the recommendation of the Panel. However, the Dean’s decision is final.

E. The Dean will inform the Student and Instructor, in writing, of his/her decision. The Dean will also report his/her decision to the Senior Vice President/Chief Academic Officer. The Office of the Senior Vice President/Chief Academic Officer will keep a permanent, confidential record of all proceedings of the Academic Honesty Panel.

Attendance

The policy on class attendance is within the discretion of the individual faculty member and shall be announced by the faculty member at the first class meeting of the semester or listed on the class syllabus.
Concurrent Enrollment

Enrollment by degree-seeking students at another institution at the same time they are enrolled at LMU is not permitted.

Auditing a Course

Enrolled LMU students may not enroll as auditors in a regularly scheduled LMU course through LMU Extension.

Students will be permitted to register as auditors only for exceptional reasons and with the authorization of the Dean of the college or school in which the course is offered. Not all courses are open to auditors. Auditors are not held responsible for the work expected of regular students and receive no grade or credit for the course. Regular attendance at class is expected.

A student who has previously enrolled as an auditor may not take the course for credit in the subsequent term except by special permission of the Dean of the college or school in which the course is offered.

Part-time students and students enrolled in an overload seeking to change from credit to audit status will be eligible for tuition adjustment only if the change is made within the period for late registration.

Individuals may not be formally admitted to the University only to audit courses.

Change of Address

All students must notify the Office of the Registrar immediately of any change in their addresses or those of their parents or guardians. Students may change their permanent, mailing, and billing addresses through PROWL. The University assumes no responsibility for materials sent through the mail or e-mail not received. In addition, students must submit through PROWL emergency contact information to the Office of the Registrar.

Classification of Matriculated Students

Students are classified according to the following norms:

- **Freshman:** Satisfaction of entrance requirements
- **Sophomore:** Completion of 30 semester hours
- **Junior:** Completion of 60 semester hours
- **Senior:** Completion of 90 semester hours

Course Explanations

Classification of Courses

This section contains a list of symbols for all courses offered at the University, excluding the courses offered at the School of Law.

- **000-099** Courses offered in this number range do not carry degree-granting credit.
- **100-299** Lower division courses—degree-granting credit
- **300-499** Upper division courses—degree-granting credit
- **500-599** Upper division undergraduate courses in which graduate students may enroll and receive graduate credit. Undergraduate students may not enroll in 500-level courses offered by the School of Education.
- **600-699** Graduate courses—degree-granting credit
- **800-999** LMU Extension courses. Courses offered in this number range do not carry degree-granting credit.
- **5000-6999** School of Education graduate courses—degree-granting credit
- **7000-7999** School of Education Doctor of Education courses—degree-granting credit
- **8000** School of Education required course through LMU Extension

In exceptional circumstances, seniors may take courses in the 600 series with the written permission of the Chairperson of their major department and the appropriate College or School. In such cases, they register for “599—Independent Studies.” In this instance, the course is calculated in the undergraduate career. No undergraduate student may register for a course in the 600 series. Only students accepted into the Graduate Division may register for 600-, 5000-, 6000-, and 7000-numbered courses.

Special Studies (98)

Courses whose numbers have as the last two digits “98” are Special Studies. These courses have a special syllabus and description not listed in the Bulletin. They can be held in a lecture, discussion, or seminar format at a specified or arranged time and place for a group of students. Each department sponsoring Special Studies courses maintains these course descriptions.
Independent Studies (99)

Courses whose numbers have as the last two digits "99" are Independent Studies. This is an individualized study arranged by a student with a faculty member and approved by the Chairperson of the Department and the Dean.

These courses are for the educational enrichment of the student particularly qualified for the kind of experiences that are beyond the scope of a regular course. Under the supervision of a faculty member, the work will be of research or similarly creative nature and will normally culminate in a project or examination. Only full-time matriculated students are eligible, and approval will be given for only one Independent Studies course per semester. Freshmen and first-semester transfer students are not eligible.

Arrangements to undertake an Independent Studies course must be completed during the semester prior to the one in which the student expects to enroll in the course. An Independent Studies course is considered part of the student’s semester program. Registration for such courses takes place only during the regular registration periods.

Course Load

In Fall or Spring semesters, the normal load for full-time, degree-seeking students in good standing from the previous semester is 15-18 semester hours. In order for a student to enroll in 19 or more semester hours, the following criteria must be met:

1) 3.50 overall GPA
2) a minimum of 15 semester hours completed during the prior full semester
3) petition signed by the Associate Dean's office turned in to the Office of the Registrar to adjust hours.

For Summer, students in good standing may register for 6 semester hours per session.

Credit by Challenge Examination

A student may obtain credit by examination for undergraduate courses in the Loyola Marymount University Bulletin in selected undergraduate courses as approved by the course Chairperson and student’s Dean.

To challenge an LMU undergraduate course by examination, a student must be regularly enrolled and a full-time student. A course may be challenged only once and only during the Fall and Spring semesters, not during the Summer. Students may not challenge a course that is at a level more elementary than one in which they are currently enrolled or for which they have already received credit. Moreover, a student may not challenge a course which has been audited. Nor may students challenge a course for which they have received a W, I, NC, or F until a period of one year has elapsed from the time of their original registration in the course. A challenge examination once failed may not be repeated. 100- and 200-level courses in the Department of Modern Languages and Literatures may not be challenged.

A petition for receiving course credit by examination must be obtained from the Office of the Registrar. The examination carries a fee of $50, payable in advance and non-refundable.

Credit/No Credit Grading

Students may not be graded on a Credit/No Credit basis in courses which are part of a major, minor, or core curriculum program. Credit courses count toward the fulfillment of graduation requirements. Neither Credit (CR) nor No Credit (NC) grades affect the student’s grade point average. Once the petition for either grade or Credit/No Credit basis has been filed in the Office of the Registrar, it may not be rescinded or changed after the last day of registration.

Students may be graded on this basis for not more than 20% of their total semester hours at LMU. Students wishing to be graded on this basis must file the appropriate petition in the Office of the Registrar by the published date in the Academic Calendar.

In the case of courses that are graded on a Credit/No Credit basis, the student may petition the instructor for a letter grade with the approval of the Dean, before the end of the third week of the semester.

In order for a student to receive a grade of Credit, the work must be of C (2.0) or better.

Cross-Listed Courses

A cross-listed course is one that carries credit in more than one department or program. Students may not enroll in more than one section of a cross-listed course and may receive credit in one department only.

Diploma

Diplomas are granted and mailed to students who have completed all academic degree requirements and who have no outstanding financial obligations to the University. Diplomas left unclaimed are destroyed after three years. Students must re-order destroyed diplomas.

Double Credit

A student may not count the same course to meet the requirements for both an undergraduate and a graduate degree.
Electives
Elective courses do not fulfill requirements in the student's University Core, major(s) or minor(s) programs, but they do fulfill overall semester hours requirements.

Final Examinations
Students are required to take all scheduled examinations. Final examinations are to be held at the time published by the Office of the Registrar. No student is allowed to take a final examination before the scheduled time.

Full-Time Standing
Any undergraduate student with 12 or more semester hours in the Fall or Spring term is considered a full-time student. Students carrying fewer than 12 semester hours are classified as part-time students. This applies to the academic standing. For Summer, an undergraduate enrolled in 6 or more semester hours per session is considered a full-time student and fewer than 6 semester hours a part-time student. Please refer to the Financial Aid full-time/part-time standing for an explanation of how that department defines full-time standing and the impact on financial aid awards.

Grades
Final grades are submitted by the student's instructors and are issued to the student by the Office of the Registrar via PROWL at the end of each term.

Grade Appeals
It is understood that, except in rare instances, only the instructor, with the Department Chairperson's, Program Director's, or equivalent to the Dean of the instructor's college or school (hereafter called Department Chairperson) and Dean's approval, may change the final grade through the Office of the Registrar. The Dean may, however, change the grade if all of the following processes of appeal have been followed. The Dean must notify the instructor, in writing, of the change in final grade.

1. No later than three weeks into the semester following the issuance of a disputed grade, the student must meet with the instructor to review the reasons for the grade.

2. If the instructor is not available for discussion or if discussion fails to resolve the problem, the student may ask the appropriate Department Chairperson to meet with both the instructor and the student. If the chairperson and the instructor are in agreement about the validity of the grade, the student may appeal to the appropriate Dean. If the chairperson cannot agree with the instructor, he will automatically refer the student to the Dean.

3. The student who appeals beyond the department level must file a written appeal to the appropriate Dean. The Dean, upon receipt of the written appeal, will bring all parties together in an attempt to resolve the matter by mutual agreement. If agreement cannot be reached at this meeting, the Dean may appoint a committee of three impartial persons to investigate the matter and make a recommendation to the Dean. The Dean will normally follow the recommendation of the committee; however, the decision of the Dean is final.

Grading System
The work of all students at LMU is reported in terms of grades. Instructors are required to assign a final grade for each student registered in a course.

Undergraduate Grades
The following grades are used to report the quality of undergraduate student work at LMU:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Superior</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
</tr>
<tr>
<td>D</td>
<td>Poor</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
</tr>
<tr>
<td>CR</td>
<td>Credit—Equivalent to grade of C or higher</td>
</tr>
<tr>
<td>NC</td>
<td>No Credit—Equivalent to grade of C- or lower</td>
</tr>
<tr>
<td>NR</td>
<td>Not reported by instructor</td>
</tr>
<tr>
<td>AU</td>
<td>Audit</td>
</tr>
<tr>
<td>I</td>
<td>Work incomplete</td>
</tr>
<tr>
<td>W</td>
<td>Official withdrawal from course</td>
</tr>
</tbody>
</table>

A grade of A may be modified by a minus (-) suffix, and grades B and C may be modified by a plus (+) or minus (-) suffix. Grades A, B, C, and CR denote satisfactory progress toward the degree, but a D grade must be offset by higher grades in the same term for students to remain in good academic standing. Note that a “C-” grade is not a passing grade in courses requiring a minimum grade of “C.” An F or NC grade yields no unit or course credit.

Failure to withdraw officially from a course will result in a grade of F (see Withdrawal).
Graduate Grades

The following grades are used to report the quality of graduate student work at LMU:

- **A** Superior
- **B** Satisfactorily demonstrated potential for professional achievement in field of study
- **C** Passed the course but did not do work indicative of potential for professional achievement in field of study
- **F** Failure
- **CR** Credit—Equivalent to grade of B or higher
- **NC** No Credit—Equivalent to grade of B- or lower
- **NR** Not reported by instructor
- **AU** Audit
- **I** Work incomplete
- **IP** Work in progress (for courses requiring more than one semester to complete)
- **W** Official withdrawal from course

A grade of A may be modified by a minus (-) suffix, and grades B and C may be modified by a plus (+) or minus (-) suffix. Grades A, B, and CR denote satisfactory progress toward the degree, but a B- grade must be offset by higher grades in the same term for students to remain in good academic standing. Courses in which a grade of B- through C- is received may be applied toward graduate degrees unless otherwise prohibited by the program requirements. A student must maintain a 3.0 GPA in order to remain in good academic standing. See the Graduate Bulletin for specific information. An F or NC grade yields no unit or course credit.

Failure to withdraw officially from a course will result in a grade of F (see Withdrawal).

Grade Point Average

Grade points are a measure of the quality of the academic work completed, just as semester hours are a measure of the quantity of this work. The University uses a letter grade to indicate the level of individual student achievement. Each letter grade has a point value assigned for the grade achieved. The point value assigned to each letter grade is as follows:

- **A** 4.0 grade points
- **A-** 3.7 grade points
- **B+** 3.3 grade points
- **B** 3.0 grade points
- **B-** 2.7 grade points
- **C+** 2.3 grade points
- **C** 2.0 grade points
- **C-** 1.7 grade points
- **D** 1.0 grade points
- **F** 0.0 grade points

The grades of AU, CR, NC, I, IP, and W have no point value and are not used in calculating the grade point average.

The LMU grade point average is determined by dividing the total number of LMU grade points by the number of LMU semester hours completed with a letter grade.

Change of Grades

Grades, once submitted to the Office of the Registrar, will be changed only in case of error. An instructor desiring a change of grade must present a written explanation to the Chairperson and the Dean with a Correction of Grade form from the Office of the Registrar. No grade changes will be made after the fourth week of instruction of the next full term.

A student’s permanent record reflects the coursework upon which the University awarded the degree or recommended a credential. Therefore, no grade or other changes are permitted either after awarding the degree or recommending the credential.

Mid-Term Deficiencies

The Office of the Registrar e-mails and posts to PROWL mid-term deficiency notices to students informing them of unsatisfactory work as submitted by instructors. The notices, advisory in nature and issued prior to the last day to withdraw in a term, are not part of the student’s permanent academic record.

Graduation Rate

The completion or graduation rate by August 005 for students who entered Loyola Marymount University in Fall 1999 on a full-time basis was 73%.

Incomplete Course Work

An incomplete grade may be assigned by the professor only if a student has completed at least 80% of the coursework.

Normally the student obtains from the Office of the Registrar a “Petition to Receive a Grade of Incomplete” form. The form is filled out by the student and given to the instructor who then completes the form by assigning a default grade which will be entered on the student’s record if the student does not complete the coursework by the deadline.

An incomplete grade not removed by the deadline, which is three weeks after the first scheduled class day of the next semester, will result in the assignment of the default grade as submitted by the instructor. If no default form or grade was submitted, the incomplete grade will be converted to an F by the Office of the Registrar.
If a student requires an extension to the deadline, the student must petition to obtain an extension to the deadline for removal of the incomplete grade. The petition, approved by the instructor, must be submitted to the Office of the Registrar.

A degree will not be granted while a grade of Incomplete remains on a student’s record.

**Leave of Absence**

A leave of absence may be granted to a student upon written request to the Office of the Registrar. A leave of absence may be granted for no more than two years. The leave of absence date will be the date that the Leave of Absence/Withdrawal form is received in the Office of the Registrar.

For a student enrolled in a current term, application for the leave must be made before the stated deadline for withdrawal from classes. This date may be found in the academic calendar in the University Bulletin or online for the given term. A leave of absence may be granted only if the student withdraws from all courses in the term. If completed by the deadline, a student will receive grades of W for all courses in that given semester. A student may not take a leave of absence from the term if application is made after the stated deadline for withdrawal from classes. Any student who stops attendance after the deadline to withdraw from classes will receive a grade of F for each course in progress.

A student who is accepted to the University but not yet enrolled may defer admission through the Admission Office. A student with prior enrollment may apply for a leave through the Office of the Registrar. A leave of absence is canceled if the student registers in another college or university without prior written permission of the student’s Dean. In this case, the student has de facto withdrawn (see Withdrawal) from LMU and must reapply through the Admission Office. Similarly, a student is considered to have withdrawn from LMU if the leave of absence is extended unofficially beyond two years.

**Major**

A major indicates a particular curriculum within a degree program offered by one of the four undergraduate Colleges and one undergraduate School. The major is usually declared by the student at the time of acceptance to the University. If a student is unsure about a particular program of study within a degree program, some Colleges will allow for an undeclared major within that college. This option is at the discretion of the College or School. A student must, under normal circumstances, declare a major within a degree program prior to earning sixty semester hours of credit.

A student must have a cumulative grade point average of C (2.0) in all courses required by the major. Please note that certain majors have more stringent requirements. The particular requirements are listed under the department listings in this Bulletin.

**Change of Major**

A student wishing to change from one major to another in the same College or School must present to the Office of the Registrar a Change of Program petition approved and signed by the Chairpersons of the involved major departments and the Dean of the College or School. If the change involves another College or School, approval of the accepting College or School must be secured first. A student is subject to the major and degree requirements of the new program and responsible for making up any deficiencies under direction of the Dean. Changes of major should be processed prior to registration for the subsequent term.

**Double Major**

A student may earn a Bachelor’s degree with a double (secondary) major by successfully completing the following requirements for the second major prior to, or in the same term as, the first (primary) major:

1. Completion of the requirements of the primary major; and
2. Completion of the requirements of the secondary major; and
3. Completion of requirements for the primary Bachelor’s degree.

No more than eight semester hours of upper division work in the primary major can be used to satisfy the requirements of the secondary major. The two majors will be printed on the student’s transcript of record and University diploma.

**Minor**

Students who choose to complete a minor must meet the following general requirements:

1. A minor program consists of 18 or more semester hours. At least half of the upper division semester hours of the minor program must be completed in residence at Loyola Marymount.
2. Specific semester hour requirements are listed by each department offering a minor program. A student who declares a minor is held responsible for the academic regulations in effect at the time the minor is declared. A student who interrupts LMU enrollment is subject to the academic regulations in effect in the University Bulletin at the time enrollment is resumed.
3. A student must have a cumulative grade point average of C (2.0) for courses taken in the minor program.
4. The minor may not be in the same program as the student’s major.
5. Courses may not count as fulfilling both a major and minor program, unless a specific course is required by both programs.
6. A minor may be earned only while the student is concurrently completing the requirements for a baccalaureate degree. The minor must be cleared by the Dean’s office at the same time that the baccalaureate degree is cleared.
7. Students are advised to consult department regulations in the Bulletin for further information.

Privacy Rights of Students in Education Records

The Federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) (“FERPA”) and regulations adopted thereunder and California Education Code Section 67100 et seq., set out requirements designed to protect the privacy of students concerning their education records maintained by LMU.

Specifically, FERPA governs access to student records maintained by the campus and the release of such records. In brief, the law dictates that LMU provide students access to records directly related to the student and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the instructor. The law generally requires that written consent of the student be received before releasing personally identifiable data about the student from records to other than a specified list of exceptions.

Among the types of information included in the campus statement of policies and procedures are: 1) the types of student records and the information contained therein, 2) the official responsible for the maintenance of each type of record, 3) the location of access lists that indicate persons requesting or receiving information from the records, 4) policies for reviewing and expunging records, 5) the access rights of students, 6) the procedures for challenging the content of student records, 7) the cost that is charged for reproducing copies of records, and 8) the right of the student to file a complaint with the Department of Education.

An office and review board have been established by the Department of Education to investigate and adjudicate violations and complaints. The office designated for this purpose is the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202.

LMU is authorized under the Act to release public “directory information” concerning students. “Directory information” includes the student’s name, address, telephone number, electronic mail address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

The above designated information is subject to release by LMU at any time unless it has received prior written objection from the student by the close of official registration. Written objections should be sent to the Office of the Registrar. Requests to withhold “directory information” must be filed each semester.

LMU is authorized to provide access to student records without a student’s consent in a limited number of situations, including but not limited to: campus officials and employees who have legitimate educational interests in such records, pursuant to a lawfully issued subpoena, to educational institutions where a student seeks to enroll, to authorized Federal and state officials, and in the event of an emergency if necessary to protect health and safety.

Registration

The days of registration are listed in the University Calendar. All students must follow the registration procedures as established by the Office of the Registrar. A student is not considered registered until official clearance has been obtained from the Controller’s Office and successful registration has been processed by the Office of the Registrar. The official academic program consists of the courses in which the student is enrolled at the close of official registration. Students may not attend a course for which they are not registered.

Students are limited to enrolling in a maximum of 17 semester hours during advance registration. If the requirements for a primary major require additional registration, contact the Associate Dean’s office for written permission. Once the approval for more than 17 semester hours has been received in the Office of the Registrar, the necessary adjustments will be made to allow for the additional registration. Two weeks prior to the first day of classes, students who are eligible may enroll in 18 semester hours. Additional semester hours require the approval of the Associate Dean.
Repeating Courses

Students may repeat a course previously taken at LMU in a subsequent term at LMU up to two additional times, including any withdrawals; the prior occurrence is excluded from the cumulative grade point average but remains on the transcript. All semester hours attempted are used to determine the student’s grade point average and graduation eligibility. The grade of the latest occurrence of the repeated course will be the one calculated into the cumulative average. Please note that although the term GPA will change accordingly, the academic status of the term will not change. Courses taken on a Credit/No Credit basis may not be used as a repeat course to exclude from the cumulative average a grade of a prior occurrence taken on a letter grade basis. Students may not register for any course in the College of Business Administration for a third time without the written permission of the Department Chairperson of the course and the Dean. Questions concerning this policy should be directed to the Office of the Registrar.

Undergraduate students may not repeat an elementary or intermediate foreign language course after successful completion of a more advanced course in the same language.

For graduate students, repetition of a course requires the approval of the Graduate Division Director and/or Dean and is granted only under extraordinary circumstances.

Courses taken at LMU after a degree has been granted will not change the graduation GPA.

Transcripts

Official transcripts of courses taken at the University are issued only with the written permission of the student concerned. Partial transcripts are not issued.

Transcripts show all Loyola Marymount University work completed as of the date of application for the transcript. Work in progress accompanies the transcript. Requests for transcripts to show end of current semester’s work are held until all grades are recorded.

Transcript requests are processed in accordance with the date of filing. Transcripts will not be issued when a student has outstanding financial obligations to the University. In this case, the student will be notified by the Controller’s Office.

Transcripts from other institutions which have been presented for admission or evaluation become a part of the student’s permanent academic file and are not returned to the student. Students desiring transcripts covering work attempted elsewhere should request them from the appropriate institutions.

Transfer Credit

Credit for work completed at institutions accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities, other than course work identified by such institutions as remedial or in other ways as being nontransferable, may be accepted toward the satisfaction of baccalaureate degree and credential requirements at the University within limitations of residence requirements and community college transfer maximums. Courses with grades below C (2.0) do not transfer. A maximum of 60 semester hours from a community college and 90 hours from a four-year institution is transferable to the degree program of the University.

Any student regularly enrolled as a degree candidate who elects to take courses at a college or university other than Loyola Marymount University must obtain written approval of the Chairperson of the major department and the Dean prior to enrollment in such courses. Courses taken without this approval may not be counted toward the degree. Approved courses must be passed with a grade of C (2.0) or higher in order to transfer. Semester hour value is granted to transfer courses; grades or GPA information on transfer work is neither listed on nor calculated in LMU work printed on the academic record.

Course work completed at non-U.S. institutions must be documented on an official academic record from an international institution recognized by the Ministry or Department of Education of that country.

It is the responsibility of the student to submit all international transcripts to an LMU-approved credentials-evaluating agency for evaluation of U.S. equivalent course work and corresponding grade.

Contact the following agencies for further information:

Educational Credential Evaluators, Inc.
PO Box 514070
Milwaukee, WI 53203-3470
(414) 289-3400 / (414) 289-3411 (fax)

American Association of Collegiate Registrars and Admissions Officers (AACRAO)
International Education Services
One Dupont Circle, NW, Suite 520,
Washington, D.C. 20036-1135
(202) 296-3359
http://www.aacrao.org/international/ForeignEdCred.cfm
oies@aacrao.org

International transcripts submitted without appropriate evaluations will not be considered for eligible transfer work to LMU.
Tutorials

Only regularly offered courses described in this Bulletin may be taken as tutorial courses. Students may individually arrange with a faculty member to take the course as a tutorial. A tutorial course is considered part of a student's semester program. Registration for it takes place during the regular registration periods. Only full-time students are eligible, and approval will be given for only one tutorial course per semester. Freshmen and first-semester transfer students are not eligible.

Withdrawal

Withdrawal from Courses

A student may withdraw from any or all courses by the last day to withdraw in a term as published in the University Bulletin and online Academic Calendar. A currently enrolled student may withdraw from a course(s) by using the drop function in the computer registration system (PROWL).

Prior to the deadline, a student may drop all courses using PROWL. In order to completely withdraw from a term or the University, the student should contact the Office of the Registrar. The student will receive grades of W in each of the courses and will be considered to be on a leave of absence for up to two years unless the student gives written notice to the Office of the Registrar that he/she is withdrawing from the University.

After the deadline, and before the final day of classes, students may withdraw from courses only for medical or psychological reasons. A written petition with accompanying documentation from a licensed professional should be submitted to the Office of the Registrar. The documentation from the licensed professional must certify that the student is not able to complete the semester for medical or psychological reasons. If approved, the student will be withdrawn from all courses and not a portion of the course schedule. Students are eligible for tuition and fee refunds according to the University’s published policy. Additional documentation from a licensed professional is required indicating that the student is able to resume study at the University.

Withdrawal from the University

A withdrawal from the University is the termination of the academic program and course of study and the rights and privileges offered to currently enrolled students. (See above.) The withdrawal date will be the date that the Leave of Absence/Withdrawal form is received in the Office of the Registrar.
Academic Programs and Services

Programs

The University Honors Program

Director: Mary Elizabeth Ingham, C.S.J.

As a means of creatively challenging the potential of the outstanding student and thereby contributing to the intellectual life of the entire academic community, the University adopted the Honors Program in 1958. By constant experimentation and periodic revision, the program attempts to keep true to its original intent of providing intellectual adventure.

The program is interdepartmental and does not involve a separate faculty. It relies on the interest and generosity of the entire University faculty and on the enthusiasm of the truly exceptional students to become mutually involved in an intellectual experience. Not being a separate unit apart from the rest of the University community, the University Honors faculty and students thus share with the rest of the school the stimulation of their special academic experience.

Taking advantage of its freedom from some of the restrictions involved in the structure of regular courses, the University Honors Program attempts to challenge as well as to inform, to ask hard questions as well as to examine tested solutions. Its goal is to provide a carefully integrated and demanding curriculum for the exceptional student.

The University Honors Program is open to students from all the undergraduate Colleges and the undergraduate School of Loyola Marymount. The Program is administered by the Honors Director with the assistance of the Program Supervisor and the Honors Advisory Council. Faculty members from all disciplines at Loyola Marymount are invited to participate.

The University Honors Program is open to students from all the undergraduate Colleges and the undergraduate School of Loyola Marymount. The Program is administered by the Honors Director with the assistance of the Program Supervisor and the Honors Advisory Council. Faculty members from all disciplines at Loyola Marymount are invited to participate.

The University Honors core curriculum begins with an intensive undergraduate experience combining four interdisciplinary courses in the humanities and sciences with an individualized sequence in writing, critical thinking, and cultural studies. A second-year sequence in historiography, theology, and natural philosophy prepares the Honors student for the third-year seminars in ethics, interdisciplinary study, and thesis preparation. The fourth year results in the publication of the capstone thesis project: the culmination of independent research under the individual guidance of a professor and the participation in the Senior Thesis Forum.

University Honors students must maintain an average GPA of 3.50 and display proficiency in a foreign language. Successful completion of the University Honors Program is announced at the annual Commencement ceremonies and noted on the student’s permanent transcript. This recognition is of lasting personal, professional, and academic value.

The University Honors Program is open to incoming and current first year students. First semester sophomores and transfer students may also apply. More is expected of students in the Honors Program; not everyone is qualified to join. We are interested in: a sense of academic adventure, highly motivated individuals, rigorous educational experience, social awareness, personal responsibility, interesting personal background, a first-rate cumulative GPA (4.0 scale), highly competitive test scores (SAT and/or ACT), the constant pursuit of excellence. Interested students should complete an application; schedule an interview with the Director or member of the Honors Advisory Council; provide a critical writing sample; and submit a letter of reference.

Each Fall, the University Honors Program carefully selects a limited number of incoming students to join the Program. Application materials are available at http://www.lmu.edu/honors.

Further details on requirements and course descriptions are continued under University Honors Program in the Bulletin.

Individualized Study Program

Director: College or School Dean

The Individualized Study Program involves a select number of creative and highly motivated students within all colleges and schools of the University whose educational needs and goals cannot fully be met by individual departments or majors. The program is thus designed to offer each participant greater responsibility in determining the content of his or her major program, based upon the goals to which that major is directed. Students may wish to construct their programs or areas of concentration from interdisciplinary, independent study, field work alternatives, or a combination thereof.

The program is open to freshmen and sophomores who have completed at least one semester in the participating colleges or school. Once accepted into the program by the Dean of the student’s college or school, the student selects a counselor who assists in designing the specific content of the major in line with the student’s objectives.
The student's program is then formalized into a contract signed by the student, advisor, and Dean. Upon completion of the contracted course of studies, the student is issued a degree in Individualized Studies.

**Naval ROTC**

Eligible Loyola Marymount University students who wish to participate in the Naval Reserve Officers Training Corps may do so through a program established with the UCLA University Extension. The program, in conjunction with an LMU baccalaureate degree, leads to a commission in the United States Navy or Marine Corps. Appropriate academic credit for courses accredited by the University of California is given in accordance with the policies governing LMU's Aerospace Studies program. Further information may be obtained from the Chairperson of the Department of Naval Science, University of California, Los Angeles.

**Preparation for a Career in Law**

Director: Stacy Burns

The University offers several curricula that are appropriate for students who plan to enter law school upon the completion of their undergraduate degree. The prelaw student should select a course of study that insures the development of the skills essential to the successful study of law: 1) the ability to use language and communicate effectively and 2) the ability to think critically and creatively. In addition, the prelaw curriculum must provide a broad understanding of basic human institutions and values.

To insure they follow an appropriate course of study, prelaw students are advised to select their classes in consultation with the University Prelaw Advisor. The Prelaw Advisor also serves as a resource person for students during the law school application process.

**Preparation for the Health Professions**

Director: Rebecca Crawford

The Health Professions Information Program provides the student with regular informational meetings. The Director of the Program serves as a resource person and is available for individual consultation. The Director’s Office distributes relevant materials to prospective applicants and maintains their files for the Health Professions Advisory Committee. The Committee assists students in completing the application process to health professional schools.

The University offers pre-health professional curricula for those students who plan to apply for admission to the following programs: Medicine, Dentistry, Optometry, Pediatric Medicine, Veterinary Medicine, Pharmacy, Medical Technology, Occupational Therapy, Physical Therapy, and Public Health. These curricula are not degree programs, and students who wish to complete the requirements for a Bachelor’s degree before admission to a professional school should select a major within the University. Students usually select a biology, biochemistry, or other science major. Students in other majors should consult with the director early in their college career about blending pre-health profession courses with their chosen major. In addition to fulfilling the requirements of the chosen major, specific requirements of the professional programs should be satisfied. The following lower division courses are usually required: BIOL 101, 102, 111, 112, 201, 202; CHEM 110, 111, 112, 113, 220, 221, 222, 223; English (6 semester hours); MATH 122, 123; PHYS 253, 254, 255, 256; and PSYC 100. In addition, other specified upper division biology, biochemistry, and statistics courses and electives from Liberal Arts, Fine Arts, and the Sciences may be required.

Students should be aware that many health professional schools do not recognize some AP credits and that alternative coursework may need to be completed to meet admission requirements. Please discuss with the Director.

**Air Force ROTC**

Director: Douglas Erlenbusch

AFROTC at Loyola Marymount University provides the opportunity for students to become commissioned officers in the United States Air Force. The program is very flexible, normally requires two to four years to complete, and accommodates both undergraduate and graduate students. The program seeks to better develop students in the areas of character, leadership, physical fitness, and academic performance. In addition, AFROTC provides a significant opportunity for scholarships and other financial aid. More information can be found under the “Aerospace Studies” section.
Services

LMU Extension

The Center for Global Education
Director: Gary Rhodes

The Center for Global Education promotes international education to foster cross-cultural awareness, cooperation, and understanding. Living and working effectively in a global society requires learning with an international perspective. We promote this type of learning by collaborating with colleges, universities, and other organizations around the world to:

- create new and enhance existing study abroad programs
- integrate an international and intercultural perspective into the US educational system
- increase the ethnic diversity of participants in study abroad and provide special resources to support their participation
- provide information to better prepare students and other travelers for their experience abroad
- encourage research in the field of international education.

Center for Religion and Spirituality
Director: Robert A. Hurteau

The Center for Religion and Spirituality makes a vital contribution to the mission of Loyola Marymount University by expanding LMU’s religious and educational outreach to a wider range of constituencies in Southern California and beyond. As part of LMU Extension, the Center embodies LMU’s commitment to serve the Roman Catholic Archdiocese of Los Angeles, other local churches, religious groups, and the general public through the development of diverse programs related to religion, spirituality, faith, and justice.

In collaboration with the Department of Theological Studies and other departments and divisions of the University, the Center sponsors a variety of continuing education courses, certificate programs, lecture series, weekend workshops, summer institutes, and special events. It also provides online courses and other nontraditional venues for religious education, faith formation, and spiritual development, thus linking the University and its mission to the greater Los Angeles community and beyond.

Continuing Education

Director: Cherie M. Schenck

LMU Extension offers certificates, courses, programs, institutes, conferences, and lectures which provide a variety of educational experiences to members of the community. There are three types of classifications of such offerings.

The first of these is Professional Development courses in a certificate or professional development program with identifiable subject areas or in particular disciplines, e.g., teacher education. These are offered under a departmental rubric and carry University semester hours of continuing education/professional development credit. The second type are those courses with academic content falling outside the normal undergraduate or graduate offerings. Such courses and programs are offered under the rubric CNTX. Credit is recorded in semester hours; 1.0 semester hour represents 10 continuing education contact hours. The third type is personal enrichment programs covering a variety of activities that might include dance, martial arts, or yoga, to name but a few.

Regular Loyola Marymount undergraduate students may enroll in “For Credit” LMU Extension courses with permission of their College or School Dean, at the fees quoted for such courses, above and beyond regular full-time tuition. Enrollment in other LMU Extension offerings is unrestricted unless otherwise specified, also at the fees quoted.

Encore Program

Director: Gary Gasca

Encore is designed to assist non-traditional students (those over 25 years old) who are just beginning college or are resuming an interrupted college education after at least five years absence from an organized degree program. Students must have a high school diploma or have passed the GED.

Encore provides the opportunity, guidance, and support (academic, administrative, and social) for non-traditional students, on a full- or part-time basis, to work towards their academic goals. Encore students enroll in regular LMU courses and participate in two special one-semester-hour seminar courses that focus on weaving the non-traditional student into the fabric of academic life at LMU.
Los Angeles Center for International Studies

Director: Jonathan S. Weil

The Los Angeles Center for International Studies (LACIS) prepares and encourages teachers and students to relate constructively to people of other traditions with dignity, respect, and understanding.

LACIS organized seminars and workshops for World History teachers in Los Angeles middle and high schools. Programs and services for teachers are supported by foundation grants and through fees for services. Support includes grants from the Freeman Foundation through the National Consortium for Teaching about Asia and from the Los Angeles Educational Partnership.

LACIS also administers the Southern California Consortium for International Studies (SOCCIS), a network of university faculty that encourages institutional and faculty commitment to an "internationalized" curriculum and sponsors seminars on area studies. These include African, East Asian, South Asian, Latin American, European and Russian, and Near Eastern Studies. SOCCIS also facilitates communication regarding Study Abroad at area campuses.

Study Abroad

Director: Patricia Masters

LMU sponsors several study abroad programs for summer, semester, and full-year.

The Study Abroad Office is located in University Hall 1840, or you can call and make an appointment to speak with a Study Abroad counselor at (310) 338-1973.

New Europe Program

Important economic and political changes are taking place in Europe. LMU’s New Europe Program, in Bonn, Germany, is conveniently located near vital European centers such as Brussels and the Hague.

In affiliation with the Academy for International Education, the New Europe Program offers both semester and full-year opportunities.

A range of courses is available in business administration, liberal arts (including German and other European languages), and communication, giving participants an opportunity to work toward their degrees in an academically diverse environment without losing a semester. Faculty come from LMU, German universities, and AIB. Enrollment in a German language course is mandatory for all students who participate in the Program.

Students with a minimum GPA of 2.8, who are in good standing at any college or university, are invited to apply for the Fall, Spring, or full academic year. Applications to the New Europe Program are available through the Study Abroad Office. Students may register for 12 to 17 semester hours of credit during the Fall or Spring semester. Students receive semester hour credit on the LMU transcripts for courses taken.

The program costs (comparable to the cost of a full-time student in residence at LMU) include tuition, housing, breakfast and dinner, public transportation in Bonn, several cultural activities, and excursions and site visits to metropolitan centers such as Paris, Brussels, Brugge, Berlin, Prague, and Dresden. For those students staying the entire academic year on the New Europe Program, an additional excursion to Spain is offered during the Spring semester. The cost does not include round-trip airfare, textbooks, and other personal expenses.

All LMU financial packages can be applied to the New Europe Program; LMU tuition payment plans are applicable. For complete information, consult the Study Abroad Office.

Film and Television Program in Germany

This program is located in Dusseldorf, Germany, and focuses on film in the European context—the Avante Garde, independent film making, and other experimental media. This is designed as a semester program with Fall semester offerings focusing on Production—Film and Television majors, and with the Spring semester focusing on Media Studies for all students. Taught by LMU faculty and European film and television experts in the Loyola Marymount University tradition, the courses are offered in the form of master workshops, providing students with an exclusive learning experience. The close interaction with faculty that is afforded by this format makes the program unique. Students receive 15 semester hours of credit by taking workshops and a German language and culture course.

The semester in Dusseldorf includes excursions and educational field trips to give students a deeper insight into film and TV production in Europe. Depending on the semester and opportunity, students will attend film festivals, visit production sites, go to film museums, and meet and talk with directors, producers, and others in the media field. A week excursion to Berlin and Prague, two centers of film production, will bring to life the theories learned in the classroom and will help to inform and stimulate students in their own artistic productions. Each student will produce a 10-15 minute video documentary. Staff and teaching assistants in film will assist with the technical and creative needs, if necessary.
Students with a minimum GPA of 2.8, who are in good standing at any university or college and, for the Fall semester, have completed the PROD and FTVS prerequisites, are invited to apply. The program cost is comparable to full-time residency at LMU and includes tuition, housing, breakfast and dinner, excursions, and public transportation within Dusseldorf. Applications are available in the Study Abroad Office.

**Semester in India Program**

The Semester in India Program offers a unique opportunity for students to learn about India, one of the world’s oldest civilizations. The primary focus of the program is on Indian religions, arts, languages, and cultures. There are also components that involve a study of environmental sciences in India and an opportunity to engage in service learning.

The program is located in Sikkim, a state of northern India. This site is especially interesting in that it offers students an opportunity to engage in a multi-faceted study of the cultures of the Himalayan region, an area that is remote and unstudied but one with a rich and varied cultural history. The program allows students to engage with some of the world’s oldest cultures (Nepali, Tibetan, Indian, and Bhutanese) and to study the traditions, arts, religions, and practices of these cultures. Students will return from this experience with an enhanced appreciation of the unique character, deep spirituality, and aesthetic sensibilities developed by the various peoples living on the “roof of the world.”

The semester in Sikkim, India, includes excursions to the neighboring areas of Bhutan, Darjeeling, and Kalimpong, as well as a guided trek in the beautiful Himalayan highlands of Western Sikkim. Although Gangtok, the capital of Sikkim and the principal setting for the program, is situated at an altitude of about 6,000 feet above sea level, its temperature is remarkably temperate throughout most of the year, and it typically receives very little snow. The rich and verdant natural vegetation of the hillsides is filled with cardamom, exotic orchids, and many other unusual flowers. The area also contains a broad range of medicinal herbs that have been isolated over the centuries and continue to play a significant role in the traditional medicine practices of the region. These can be studied by those who wish to know more about Tibetan medicine and ecology.

The program includes a comprehensive set of courses, including sociology and anthropology, religions of India, environmental sciences and ecology, and art and history. Language instruction is available in Hindi, Tibetan, Sanskrit, and Nepali.

**Semester in London**

The program is located in London at the facilities of the Foundation for International Education. FIE facilities are located in the Royal Borough of Kensington and Chelsea that covers an area of four-and-a-half square miles and has a population of 150,000. Some of London’s most famous streets, academic institutions, and historic sites—including the Victoria and Albert Museum, Imperial College, University of London - SOAS, and Royal Albert Hall—lie in the immediate neighborhood surrounding FIE’s facilities. Kensington is much more than monuments and museums. Kensington is a residential area of architectural beauty, a mixture of small alleyways and grand boulevards, where the ghosts of famous residents (T.S. Eliot, J.S. Mill, and Beatrix Potter) mingle with modern homeowners such as Hugh Grant, Elizabeth Hurley, and Dustin Hoffman. The West End, London’s main theater district, is just fifteen minutes away.

**Summer Abroad**

Summer programs are offered in Africa, China, France, Germany, Greece, Honduras, Ireland, Italy, Guatemala, Mexico, New Zealand, and the United Kingdom. The Washington Center in Washington, DC also offers summer internship opportunities for students. These programs offer courses in language, culture, business administration, science, the arts, and humanities.

**Affiliate Programs**

LMU is affiliated with programs in the following countries: Australia, Austria, China, France, Germany, Greece, Ireland, Italy, Japan, Korea, Spain, the United Kingdom, Venezuela, and many other countries throughout Europe, South America, and Asia. The University has both formal and informal affiliations with programs sponsored by institutions or organizations around the world. LMU has formal student exchange programs with Sophia University in Tokyo, Japan; Sogang University in Seoul, Korea; Universidad de Deusto in San Sebastian, Spain; Ateneo de Manilla; and Iberoamericana Universidad in Mexico.

It is also possible for students to plan with their advisors individually tailored programs with non-affiliated institutions abroad.

**Credit Transfer**

All Study Abroad work completed through a sponsoring institution must be documented on an official transcript from a U.S. institution accredited by one of the six regional associations of the Accrediting Commission for Senior Colleges and Universities. Study Abroad work completed at an international institution must be documented on an official academic record from an institution recognized by the Ministry or Department of Education of that country.
Other University Services

Basil P. Caloyeras Center for Modern Greek Studies

Director: Demetrios Liappas

The Caloyeras Center for Modern Greek Studies provides students with an opportunity to study the culture of contemporary Greece. By means of courses in the language, literature, and the arts of the Greece of today, a doorway is opened to the past, which is thus given a fresh and compelling reality.

The Center has the following goals:

- To offer courses in modern Greek language, post-classical and modern literature and history, the Greek Orthodox tradition, theatre, cinema, dance, music, and the fine arts
- To encourage students to pursue a minor in Modern Greek Studies
- To sponsor lectures on subjects pertaining to Greece which are of interest to the academic community and to the public at large
- To encourage students and faculty to pursue studies and research projects in Greece.

The Center supports the courses that lead to a minor in Modern Greek. (See “Classics and Archaeology” in this Bulletin.)

Thomas and Dorothy Leavey Center for the Study of Los Angeles

Director: Fernando J. Guerra

Overview

The Thomas and Dorothy Leavey Center for the Study of Los Angeles was established in 1994 to assist students, the University, and the community at large to become agents for change that leads to social justice. Using Los Angeles as a laboratory for understanding the urban experience, the center has become a university leader in developing multidisciplinary courses, producing highly regarded applied research, and promoting civic involvement.

Programs

Southern Californians and Their Leaders is one of the only systematic analyses of how our leaders view contemporary Los Angeles, the opportunities and constraints they face, and the conditions that facilitate leadership. Current activities include leadership roundtables, public opinion polls and leadership surveys, leadership internships, and a leadership lecture series. These activities enable students to apply their classroom knowledge in a real-world setting and aim to empower them to serve their community with skill and compassion.

The Community Studies Program gives students the opportunity to examine patterns and trends reshaping Los Angeles from the perspective of individual neighborhoods. Through in-depth neighborhood analyses, this program gives residents a voice on issues facing their communities. Community studies have focused on communities with a strong Jesuit presence: Hollywood, Pico Union, East Los Angeles, Watts, Lennox, Westchester, and Playa Vista.

In a short span of time, the center has established one of the best undergraduate archives in the nation, the Research Collection. The research collection promotes preservation and analysis of historical documents of public officials, post-World War II developers, late twentieth-century Los Angeles reformers and reform movements, and prominent Catholic families. Holdings include a decade’s worth of the original program tapes of KCRW 89.9 FM’s Which Way, L.A.? as well as the papers of Rebuild L.A., Los Angeles Educational Alliance for Restructuring Now (LEARN), Los Angeles Annenberg Metropolitan Project (LAAMP), Fritz B. Burns, and Mike Roos, to name just a few. A complete index to the research collection and the contents of individual collections is available online at http://lib.lmu.edu/special/csla/csla.htm.

Disability Support Services

The Disability Support Services (DSS) Office, which is located on the second floor of Daum Hall, provides specialized assistance and resources that enable students with documented physical, learning, and/or psychological disabilities to achieve maximum independence while they pursue their educational goals. Students with a disability that substantially impacts their ability to learn and perform to the best of their capacity may be eligible for a variety of services. To be eligible, documentation of the disability must be provided from an appropriate licensed/certified professional. To request further information, you may contact the Disability Support Services Office at (310) 338-4535. You may also locate more information from our website: http://www.lmu.edu/dss/.
Learning Resource Center

Director: Marcia L. Albert

The Learning Resource Center, which is located on the second floor of Daum Hall, is a place where LMU students can enlist the help of specialists and tutors to enhance the learning process. Every LMU student is invited to make use of the LRC’s free services and workshops. The Center’s learning specialists in writing, ESL/reading, mathematics, science, and learning skills, as well as its peer tutoring staff, are ready to work with students to encourage those essential learning skills which bring greater academic and personal success. In addition, the Center offers one hour, appointment-based tutoring in a variety of LMU courses. For additional information on LRC services, please call (310) 338-2847 or visit http://www.lmu.edu/lrc.

Orientation

Co-Directors: Robbie Lee, Beth Van Brussel

The Orientation Program welcomes new students to the Loyola Marymount community. During Orientation, students are introduced to the academic and co-curricular programs of the University, meet with faculty for individual academic advisement, and are assisted in registering for courses. Students also become familiar with all of the services, activities, and resources available to them. Throughout the Orientation Program, students interact in small groups, led by current LMU students. Since Orientation provides a useful introduction to the people, programs, and opportunities LMU offers, all new students are required to participate in the program. For additional information, please contact the Orientation office at (310) 338-7429.

University Libraries

Dean of University Libraries: Kristine Brancolini

The Charles Von der Ahe Library, named for its principal donor, was constructed in 1959 and doubled in size in 1977. It contains the collections of the University’s Westchester campus, which totals approximately 379,684 book volumes, 14,665 various media titles, 89,901 serials volumes, and 3,952 electronic volumes. In addition to the Library’s online catalog, LINUS, network access is also available to online index databases such as FirstSearch™, EBSCOhost™, and PROquest Research Library™. For a complete listing of available databases, please go to the Library home page: http://www.lmu.edu/library. In addition, the Library is a member of the LINK+ Consortium, an organization created to allow patrons to borrow books from member libraries. LINK+ includes over 4.5 million titles available by patron request from LINUS, the online catalog. The Library’s Instruction Program offers classroom instruction in information literacy and database searching. The Department of Archives and Special Collections houses collections of art, rare books, manuscripts, and the University Archives. Notable holdings include the St. Thomas More, Oliver Goldsmith, and Helena and John Weadock Collections of rare English and American first editions. Other important collections are the papers of the motion picture producer Arthur P. Jacobs, best known for the Planet of the Apes series, and the Werner Von Boltenstern postcard collection, which contains one million cards. The department also houses the Research Collection of the Center for the Study of Los Angeles which collects research materials relating to local public officials, post-World War II developers, late twentieth-century reformers, and prominent Catholic families.

The Library’s Media and Reserve Services Department provides reserve materials for student classwork as well as equipment and materials in various multi-media formats. Study carrels are equipped so that students can listen to audiocassettes and compact discs, and view videocassettes, laserdiscs, slides, filmstrips, and CD-ROMs. More information about the Library may be found at http://www.lmu.edu/library.
Academic Awards and Commencement Honors

Honors at Commencement

To be eligible for scholastic honors at commencement, a student must have completed at least 60 semester hours toward the baccalaureate degree on a graded basis (Credit/No Credit grades do not apply) at Loyola Marymount. Eligible students for honors at May commencement either received a degree on the previous August or December degree-granting dates or be a degree candidate for May. Honors at commencement are determined by the cumulative grade point average at the time the degree is granted, based on LMU work only. The following grade point averages are required for the honors indicated:

- 3.9 Summa Cum Laude
- 3.7 Magna Cum Laude
- 3.5 Cum Laude

These honors are entered on the transcript and are inscribed on the diploma.

Dean’s List

A Dean’s List, comprised of full-time matriculated undergraduate students, is published at the end of the Fall and Spring semesters. To be eligible for the Dean’s list, students must have completed 15 semester hours at LMU and received letter grades in at least 12 semester hours with a cumulative term grade point average of 3.50 or better. To qualify for the Dean’s List, one must have completed all courses and not received a grade of F in any course.

University Honor Societies

Loyola Marymount University sponsors numerous honor societies to recognize significant academic achievement of its students.

Alpha Kappa Delta Sociology Society

Established at LMU in 1997, Alpha Kappa Delta is an academic organization dedicated to the study of sociology, the research of social problems, and other social and intellectual activities. It promotes the development of scholastic and leadership skills within the framework of a national honor society and the Department of Sociology. It was founded in 1920 at the University of Southern California.

Alpha Sigma Nu Jesuit Honor Society

Alpha Sigma Nu is a national honor society for men and women founded in 1915 at Marquette University. The society was organized to honor students from Jesuit colleges and universities who have distinguished themselves in scholarship, loyalty, and service to the University. A limited number of juniors and seniors are selected for membership each year. The society offers its services to the University, particularly in an effort to stimulate intellectual interest and accomplishment. It was established at LMU in 1939.

Beta Beta Beta Biology Society

Since its inception at Oklahoma City University in 1922, Beta Beta Beta has been a society for students dedicated to improving the understanding and appreciation of biological study and extending boundaries of human knowledge through scientific research. The society has been at LMU since 1999.

Beta Gamma Sigma Business Society

The establishment of the first national honor society for business students was the result of the 1913 merger of three separate societies from the University of Wisconsin, University of Illinois, and University of California. Beta Gamma Sigma is an international honor society recognizing the outstanding academic achievements of students enrolled in collegiate business and management programs. LMU’s chapter started in 1982.

Gamma Kappa Alpha National Italian Honor Society

Gamma Kappa Alpha acknowledges superior scholastic performance in the field of Italian language, literature, and culture, and is open to membership at institutions of higher learning in the United States and Canada. The Society encourages college students to acquire a greater interest in, and a deeper understanding of, Italian culture, art, and history. It was founded at Nazareth College in Rochester, NY, in 1983 and established at LMU in 1998.

Kappa Delta Pi International Honor Society in Education

The Kappa Delta Pi International Honor Society in Education was founded in 1911 at the University of Illinois and established at LMU in 1996. It is dedicated to recognizing scholarship and excellence in education, promoting development and dissemination of worthy educational ideas and practices, and enhancing the continuous growth and leadership of its diverse membership.
<table>
<thead>
<tr>
<th>Society Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lambda Pi Eta Communication Studies Society</td>
<td>Founded at the University of Arkansas in 1985, this society later became the official honor society of the National Communication Association. Taking its name from the three elements of persuasion as described in Aristotle’s <em>Rhetoric</em>, it functions to foster development among students and professionals in the field.</td>
</tr>
<tr>
<td>Phi Alpha Theta History Society</td>
<td>Established at the University of Arkansas in 1921, Phi Alpha Theta is a professional society whose mission is to promote the study of history through the encouragement of research, teaching, publication, and the exchange of learning and ideas among historians. LMU’s chapter started in 1968.</td>
</tr>
<tr>
<td>Phi Sigma Tau Philosophy Society</td>
<td>The purpose of Phi Sigma Tau is to serve as a means of awarding distinction to students having high scholarship and personal interest in philosophy and to promote student interest in research and advanced study in this field. LMU’s chapter was established in 1955, and became active in LMU in 1987.</td>
</tr>
<tr>
<td>Pi Delta Phi French Honor Society</td>
<td>This society was established in 1906 at the University of California at Berkeley, with the goals of recognizing outstanding scholarship in French language and literature and increasing knowledge of the contribution of French-speaking countries to world culture. LMU’s chapter began in 1969.</td>
</tr>
<tr>
<td>Pi Mu Epsilon Mathematics Society</td>
<td>Pi Mu Epsilon is an honorary national mathematics society founded at Syracuse University in 1914, with the purpose of promoting scholarly activity in mathematics among the students in academic institutions. The society was established at LMU in 1975.</td>
</tr>
<tr>
<td>Pi Sigma Alpha National Political Science Honor Society</td>
<td>Pi Sigma Alpha was founded in 1920 at the University of Texas at Austin. Its goal is to stimulate scholarship and intelligent interest in the field of political science. LMU’s chapter was established in 1998.</td>
</tr>
<tr>
<td>Psi Chi Psychology Society</td>
<td>Psi Chi Psychology Society was established in 1929 at Yale for the purposes of encouraging, stimulating, and maintaining excellence in scholarship and advancing the science of psychology. LMU started a chapter of the society in 1979.</td>
</tr>
<tr>
<td>Sigma Delta Pi Spanish Society</td>
<td>Sigma Delta Pi, the National Collegiate Hispanic Honor Society, was established in 1919 at the University of California at Berkeley. Its goals include honoring those who attain excellence in the study of the Spanish language and encouraging university students to acquire a greater interest in and a deeper understanding of Hispanic culture. LMU’s chapter became active in 1972.</td>
</tr>
<tr>
<td>Sigma Pi Sigma National Physics Honor Society</td>
<td>Founded at Davidson College, North Carolina, in 1921, Sigma Pi Sigma exists to honor outstanding scholarship in physics, to encourage interest in physics among students at all levels, to promote an attitude of service of its members towards their fellow students and colleagues and to the public, and to provide a fellowship of persons who have excelled in physics. The society was established at LMU in 1979.</td>
</tr>
<tr>
<td>Sigma Tau Delta English Society</td>
<td>Founded at Dakota Wesleyan College in 1924 and established at LMU in 1994, Sigma Tau Delta members are expected to have superior creative talent and to have an interest in literature and language beyond the classroom. They are dedicated to providing cultural and intellectual enlightenment in a community of others who have similar talents and interests.</td>
</tr>
<tr>
<td>Sigma Xi Scientific Research Society</td>
<td>At LMU since 1967, Sigma Xi endeavors to encourage support of academic achievement and original work in science and technology and to promote an appreciation within society at large for the role research has played in human progress. Founded at Cornell University in 1886, it is among the oldest such societies in the nation.</td>
</tr>
<tr>
<td>Tau Beta Pi Engineering Society</td>
<td>This national engineering honor society was founded at Lehigh University in 1885 to honor students displaying excellence in scholarship and exemplary character as undergraduates in engineering and to foster a spirit of liberal culture in engineering colleges. The LMU chapter was established in 1974.</td>
</tr>
<tr>
<td>Theta Alpha Kappa Theology Society</td>
<td>Founded in 1976 at Manhattan College, Theta Alpha Kappa is the only national honor society recognizing excellence of students involved in the study of religion and theology. The society was established at LMU in 1981.</td>
</tr>
</tbody>
</table>
University Academic Awards

For students to be eligible for academic awards presented at the May Commencement ceremony, they must have either graduated in the previous Summer or Fall term or be a candidate for graduation for May.

The University Scholar of the Year Award

Presented to the student who, in the four-year undergraduate program at LMU, is determined to have achieved the best overall academic record in the graduating class.

The Ignatian Award

Awarded to the graduating senior man who has achieved well academically and who has distinguished himself in leadership and service to the student body and the University.

The Marian Award

Awarded to the graduating senior woman who has achieved well academically and who has distinguished herself in leadership and service to the student body and the University.

The Valedictorian Award

Presented to the student who, in the four-year undergraduate program, is chosen after a presentation to the Valedictorian Committee to give the Valedictorian Address at the Undergraduate Commencement Services.

Presidential Citations

Presented to outstanding graduates who have combined excellence in the classroom with effective service and leadership in the University community.

College, School, Departmental, and Program Awards

The College or School Scholar Awards

Presented to the top graduating senior who has achieved the highest academic record in each of the four undergraduate colleges and the School of Film and Television.

The Clinton J. Albertson, S.J., University Honors Program Award

Presented to an outstanding graduating student in the University Honors Program.

The American Chemical Society Analytical Division Award

Given to the third-year student who has demonstrated excellence in analytical chemistry and displays an aptitude for a career in the field.

The American Chemical Society Organic Division Award

Given to the outstanding student of two semesters of organic chemistry.

The American Institute of Chemists Award

The gift of the Western Chapter of the American Institute of Chemists presented to the graduating senior who, in the opinion of the faculty of the Department of Chemistry, is deserving of special recognition for leadership, character, and excellence in scholarship.

The Leonard Simon Blenkiron English Award

The gift of Mrs. Mae Emma Blenkiron, in memory of her husband, Leonard Simon Blenkiron, awarded to a senior English major for excellence in English.

The Sister Regina Buchholz, S.C.R.H., Award

Presented in honor of Sister Regina Buchholz, S.C.R.H., former Professor of Art, by the Department of Art and Art History, to a senior Studio Arts major in recognition of excellence in the field of art and of service to the University.

The Stanley Chan Award

Given to the outstanding graduate of the Political Science Department who demonstrates superior academic achievement, outstanding service to the University, and commitment to Judeo-Christian values.

The Caloyeras Center Summer Scholarship

This all-expenses-paid summer scholarship to study in Greece is awarded to a student in the Modern Greek Studies Program who has demonstrated superior academic achievement.

The CRC Press First-Year Chemistry Award

Given to the outstanding student of two semesters of first-year general chemistry.

The Delta Sigma Pi Professional Fraternity Award

The gift of the local chapter of Delta Sigma Pi to a business student for academic excellence and leadership potential.

The Dockweiler Gold Medal

The gift of Mrs. Henry I. Dockweiler awarded annually to the graduating senior who has achieved general excellence in the field of history and in service to the University.
The Jerome K. Doolan Endowed Engineering Award
The gift of Mr. and Mrs. Jerome K. Doolan, awarded to the graduating senior engineer, who, by reasons of his or her scholarship, participation in student activities, and promise of future success in his chosen profession, shall have been judged deserving of special recognition.

The Financial Executives Medallion Awards
Presented by the Financial Executives Institute, recognizing the top student in the field of finance for the four years of study.

The Finnegan-Reiland Education Award
Named in honor of two former professors of the School of Education, the award recognizes distinction in student teaching, superior scholastic achievement, and service to others.

The Barbara and Hugh Gray Award for Greek Studies
Presented by the Basil P. Caloyeras Center for Modern Greek Studies to the author of the best paper on Modern Greek Studies.

The Carl G. Kadner Award
Presented to the graduating senior who has achieved academic excellence, exhibited strong leadership, and provided dedicated service to the Biology Department.

The Jerome J. Korth Award
Presented to the graduating senior in the Frank R. Seaver College of Science and Engineering with the highest grade point average in the University's core curriculum.

The Marketing Student Award
Presented by the Loyola Marymount Collegiate Chapter of the American Marketing Association to the senior with outstanding participation, academic achievement, and career potential in marketing.

Dr. Thomas D. Pitts Award
A gift of the alumni, honoring Dr. Thomas D. Pitts, Professor of Biology from 1948-1974, to a graduating senior in the Department of Biology who has shown a growth to academic excellence and provided service to the University.

The Alan Seydoux Memorial Award
Given to a graduating senior who has achieved excellence in the area of field or marine biology and who has provided service to the University.

The Mary Tsassis Award in European History
Presented by the Basil P. Caloyeras Center for Modern Greek Studies to the graduating senior who has demonstrated excellence in European history.

The Wall Street Journal Student Achievement Awards
The gift of Dow Jones & Company, publishers of the Wall Street Journal, to be given to the senior who ranks highest in finance and in economics.

Special Awards

The AFROTC Award
The gift of the President of Loyola Marymount University to the graduating senior in the Air Force ROTC who exemplifies the high ideals of the University through leadership and service to AFROTC, the school, and the community.

The Samuel Z. Arkoff Awards
The gift of Samuel Z. Arkoff, awarded annually in two categories of achievement: best film and best full-length film script by an undergraduate student.

Eugene Escallier Foreign Study Scholarship Award
An endowed gift of Lucien Escallier to a full-time junior or senior student for educational enrichment through travel and foreign study within the area where western culture was born.

The Jack Haley, Jr., Film Award
Originally created by Jack Haley, Sr., and now supported by a grant from Jack Haley, Jr. Designed to foster and encourage excellence in student film production.

Rev. James N. Loughran, S.J., Award for Community Service
Presented to the outstanding graduating senior in good academic standing who, through his/her leadership, activities, and involvement with the community beyond the campus and throughout his or her years at Loyola Marymount University, has improved relations between the community and the University and has created a positive view of Loyola Marymount University. The recipient has exemplified Jesuit and Marymount ideals of hard work and generosity, has had a significant impact in off-campus service, and has given promise of selfless and effective leadership in the years ahead.
Sr. Raymunde McKay, R.S.H.M., Service and Leadership
Award for Seniors

Presented to ten graduating seniors in good academic standing who, during their years at Loyola Marymount, have excelled as leaders and servants. The recipients of the McKay Award have: been instrumental in initiating change; taken on leadership roles that have motivated their peers to challenge themselves and others; enriched the quality of University life by building school spirit and by creating a positive and respectful community; and given selflessly of their time and energy in an attempt to make the world—that of the University, local community, and nation—a better place.
University Honors Program

![Graduate in academic robes]
University Honors Program

Objectives

The University Honors core curriculum is an intensive undergraduate experience beginning with four interdisciplinary courses in the humanities and sciences with an individualized sequence in writing, critical thinking, and cultural studies. A second-year sequence in historiography, theology, and natural philosophy prepares the Honors student for the third-year seminars in ethics, interdisciplinary studies, and thesis preparation. The fourth year results in the publication of the capstone thesis project: the culmination of independent research under the individual guidance of a professor and the participation in the Senior Thesis Forum.

University Honors students must maintain an average GPA of 3.50 and display proficiency in a foreign language. Successful completion of the University Honors Program is announced at the annual commencement ceremonies and noted on the student’s permanent transcript. This recognition is of lasting personal, professional, and academic value.

The University Honors Program is open to incoming and current first year students. First semester sophomores and transfer students may also apply. More is expected of students in the Honors Program; not everyone is qualified to join. We are interested in: a sense of academic adventure, highly motivated individuals, rigorous educational experience, social awareness, personal responsibility, interesting personal background, a first-rate cumulative GPA (4.0 scale), highly competitive test scores (SAT and/or ACT), the constant pursuit of excellence. Interested students should complete an application; schedule an interview with the Director or member of the Honors Advisory Council; provide a critical writing sample; and submit a letter of reference.

Each Fall the University Honors Program carefully selects a limited number of incoming students to join the Program. Application materials are available at http://www.lmu.edu/honors.

Program Requirements

Year One
HNRS 100: Writing Tutorial
HNRS 101: American Persona
HNRS 105: Wealth of Nations
HNRS 115: On the Sublime
HNRS 120: On Human Dignity
HNRS 130: Society and Its Discontents
HNRS 140: On Motion and Mechanics

Year Two
HNRS 215: Imago Dei
HNRS 220: Republic to Prince
HNRS 230: Age of Leviathan
HNRS 240: On the Nature of Things

Year Three
HNRS 330: Beyond Good and Evil
HNRS 398: Interdisciplinary Seminar
HNRS 495: Thesis Seminar I

Year Four
HNRS 496: Thesis Seminar II
HNRS 497: Honors Thesis

Additional core chosen from University offerings
Arts, critical or creative
Theological Studies, 300-level

Foreign Language Requirement
Proficiency to the level of nine semester hours

AP and transfer credits are applicable to the foreign language requirements (as well as results from the Language Placement Examination administered during Summer Orientation). Students pursuing a Bachelor of Science degree or a Bachelor of Arts degree in mathematics are exempt from taking HNRS 140. In addition, Engineering majors take either HNRS 220 or HNRS 230 and are exempt from HNRS 105.

HNRS 100
Writing Tutorial
1 Semester Hour

An individual tutorial which guides students in the writing of clear, logical, and cogent essays, with an emphasis on close and accurate readings of the texts from HNRS 115.

Concurrent enrollment in HNRS 115.

HNRS 101
American Persona
3 Semester Hours

A writing intensive course based on readings reflecting the political, social, and literary diversity of the cultures in which we live.

Bellarmine College of Liberal Arts
Bellarmine College of Liberal Arts

Administration

Dean: Michael E. Engh, S.J.
Associate Deans: Jennifer Abe-Kim, John R. Popiden

Mission of the College

The Bellarmine College of Liberal Arts (BCLA) embodies the wider University goals of liberal education and commitment to Roman Catholicism and the Judaeo-Christian tradition. The curriculum in the College liberates the mind, nourishes the spirit, and cultivates creativity for the challenges of today and tomorrow. Its courses, therefore, are at the heart of the University’s core curriculum for all undergraduates.

BCLA Student Learning Outcomes

By virtue of their liberal arts courses, LMU students should understand:

- The various ways in which knowledge is established and integrated
- The broad outlines of human history and the interconnectedness of the world
- The philosophical and theological dimensions of our intellectual traditions.

By virtue of their liberal arts courses, LMU students should be able to:

- Demonstrate written and oral competencies
- Synthesize and apply knowledge to solve problems, personal and social
- Interact cross-culturally and pursue justice, locally and globally.

By virtue of their liberal arts courses, LMU students should value:

- The life of the mind, enhanced self-awareness and social awareness
- Critical reflection that leads to thoughtful action
- Diversity, responsibility, justice, and globally sound human practice.

Similarly, BCLA students attain the learning outcomes of their majors and minors, found in the following program descriptions.

Organization of the College

The College offers undergraduate majors and/or minors in the following fields of learning:

- African American Studies ........................................ AFAM
- Archaeology .................................................. ARCH
- Asian Pacific American Studies ........................ APAM
- Asian and Pacific Studies ................................ ASPA
- Catholic Studies ................................................ CATH
- Chicano/a Studies ............................................... CHST
- Classical Civilizations ........................................... CLCV
- Classics ........................................................ CLAS
- Economics ....................................................... ECON
- English ........................................................... ENGL
- Ethics ............................................................. ETHC
- European Studies ............................................. EURO
- French ............................................................. FREN
- German ........................................................... GRMN
- Greek ............................................................. GREK
- History ............................................................. HIST
- Humanities ....................................................... HMNT
- Individualized Studies ........................................... ISLA
- Italian ............................................................. ITAL
- Irish Studies ....................................................... IRST
- Latin ............................................................... LATN
- Liberal Studies (Elementary Education) .................... LBST
- Modern Greek Studies ........................................ MDGK
- Peace Studies .................................................... PCST
- Philosophy ......................................................... PHIL
- Political Science ................................................... POLS
- Psychology ........................................................ PSYC
- Sociology .......................................................... SOCL
- Spanish ............................................................ SPAN
- Theological Studies ............................................... THST
- Urban Studies ..................................................... URBN
- Women’s Studies ................................................ WNST

Graduate programs are also offered in Bioethics, English, Philosophy, and Theological Studies. For further information, consult the Graduate Bulletin.
Application of General University Requirements

The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the Bellarmine College of Liberal Arts.

Degree Requirements for a Baccalaureate Degree in the Bellarmine College of Liberal Arts

The degree program has three components: core, major, and electives. The core curriculum, which is taken throughout the four-year program, provides educational breadth and embodies Loyola Marymount's educational mission and vision. The major provides a field of concentration that develops a depth of understanding in the humanities or social sciences. Finally, up to one-third of the program is made up of electives. This provides the opportunity for exploring fields of study complementary to the major or for developing expertise in a second major or minor.

Total Program

120 semester hours are required for graduation with the following distribution: a) at least 45 semester hours of upper division, and b) a maximum of 30 upper division semester hours in any one department will be accepted toward graduation requirements.

No more than 9 semester hours in any of the following programs will be accepted toward degree requirements: ART, DANC (studio technique/performance), MUSC (applied music, studio, or performance), THEA (technical or performance).

Liberal Arts students with a double major or minor in one of the above departments are allowed to exceed the 9 semester hour limit in order to complete their programs. Only those units that are applicable to the double major or minor will be accepted toward graduation requirements.

Enrollment by degree-seeking students at another institution at the same time they are enrolled at LMU is not permitted.

The Bellarmine College of Liberal Arts accepts a maximum of two semester hours of physical education only upon entrance for a new transfer student. Other physical education hours do not count toward degree requirements.

A maximum of 10 semester hours of Aerospace credit will be accepted. This credit is limited to:

- AERO 100: 1 semester hour
- AERO 101: 1 semester hour
- AERO 200: 1 semester hour
- AERO 201: 1 semester hour
- AERO 300/400: 3 semester hours
- AERO 301/401: 3 semester hours

Students should consult the Dean’s Office for specific policies applicable to the Bellarmine College of Liberal Arts.

Core Curriculum for the Baccalaureate Degree in the Bellarmine College of Liberal Arts

(Majors in Liberal Studies (LBST), consult page 172.)

American Cultures
3 Semester Hours

Course Selection:
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours

Course Selection:
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- (1.7) or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking
3 Semester Hours

Course Selection:
Communication: Choose from CMST 100, 110, 130, or 140

or

Critical Thinking: Choose from CMST 206 or PHIL 220.
Critical and Creative Arts
6 Semester Hours

Course Selection:
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FTVS 210, 314, 315; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Creative Arts: Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); MUSC 105, 106, 107; PROD 200; SCWR 220; THEA 110, 400.

History
6 Semester Hours

Course Selection:
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection:
Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430. Or choose any upper division literature course in a modern or classical language, e.g., CHIN, FLPN, FREN, GREK, GRMN, ITAL, JAPN, LATN, MDGK, or SPAN.

Mathematics
3 Semester Hours

Course Selection:
Choose MATH 102 or higher. Some majors require a specific mathematics course, which also fulfills this requirement.

Science and Technology
3 Semester Hours

Course Selection:
Choose one lower division course from a department other than Mathematics. Courses numbered 260-279 in each department of the Frank R. Seaver College of Science and Engineering are specifically designed for non-science majors. Choose from BIOL, CHEM, CMSI, ELEC, MECH, NTLS, or PHYS.

Philosophy
6 Semester Hours

Course Selection:
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose one PHIL course numbered 320 through 330.

Social Sciences
6 Semester Hours

Course Selection:

1. Select two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100, and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies
6 Semester Hours

Course Selection:
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose from the 300-level series of THST courses only.

Major Requirements

Students must have a major. Please see the following pages for the requirements for specific programs. Students ordinarily enter the University with a major but may enter undeclared. Undeclared students must declare a major prior to enrolling in classes for their junior year.
Minor Requirements

Students may, if they so desire, dedicate some of their electives in pursuit of a minor. Please see the following pages for the requirements for specific programs.

Recommendations

Students are encouraged to enrich their program of study with courses from the following areas.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select courses that deal with international and/or global issues. Such courses are offered throughout the University and are available as electives or as options within the core or major. Consult the Bulletin listings.

Internships
Students are encouraged to link academics and career exploration through internships. Internships may be arranged through the Career Development Office. Also, internship courses are offered through various academic departments.

Study Abroad
A semester of international study abroad is also recommended for the junior year. Consult the Study Abroad Office.

Students Interested in Teaching in California Public Schools

Students wishing to teach grades K-5 in California public schools are required to obtain a Multiple Subjects Subject Matter Teaching Credential and demonstrate “subject matter competence” to teach the many subjects commonly taught in elementary school. Subject matter competence must be demonstrated by passing the California Subject Examination for Teachers (CSET). To prepare for this examination, students complete the requirements of the Liberal Studies Bachelor’s of Arts degree in the Bellarmine College of Liberal Arts. Students interested in the Liberal Studies degree program should consult a Liberal Studies advisor.

Students wishing to teach in grades 6-12 in California public schools are required to obtain a Single Subject Credential and demonstrate “subject matter competence” to teach a particular subject (e.g., English, Social Studies, Foreign Language, Mathematics, or Science). Subject matter competence can be demonstrated by either passing a national exam or by successfully completing an approved subject matter preparation program in English. Students interested in teaching English at the 6-12 grades levels should consult the English Subject Matter advisor in the English Department. The Frank R. Seaver College of Science and Engineering offers an approved single subject preparation program in mathematics. Students interested in teaching mathematics should consult an advisor in the Mathematics Department. Subject matter preparation programs in science and French are pending, whereas Spanish and the social sciences have been approved.

A Multiple Subjects Subject Matter or Single Subject Matter teaching credential can be earned concurrently with a Bachelor’s degree. Except for Liberal Studies majors, students may declare a minor in Education and begin taking Education courses after completion of 30 semester hours (first semester Sophomore standing). In order to maximize the full potential of taking Education courses with the undergraduate program, students are strongly encouraged to declare the Education minor early in their career. Credential programs are also available in Special Education (K-12) and Bilingual Education (Spanish, K-12). For more information on Education programs, see the School of Education section in this Bulletin.
Secondary Teacher Preparation Programs

Secondary Teacher Preparation Program for English

A Message from the LMU School of Education: Please contact the School of Education at soeinfo@lmu.edu for information about all available Secondary Teacher Preparation Programs. All students interested in teaching English in middle schools or high schools should meet with their departmental advisors as soon as possible and must also attend a mandatory School of Education Undergraduate Information Session. Please call (310) 338-7845 to obtain the next scheduled meeting time and to confirm attendance.

Students interested in completing the coursework for the Secondary Teacher Preparation Program for English must fulfill all of the requirements for the major in English and must also fulfill special course requirements specified by the State of California. These requirements are set forth in detail below and in the “Secondary Teacher Preparation Program for English” section of the Guide for English Majors. The updated Guide will be available from the administrative assistant to the English Department, Maria Jackson (mjackson@lmu.edu, University Hall 3868, x83018).

Students who entered the University prior to Spring 2007 should consult Prof. Richard Kocher (rkocher@lmu.edu, University Hall 3866, x82850) for information about the “Subject Matter Preparation Program” in English. He is the English Department advisor for the previously approved program, which applied to students who entered prior to Spring 2007.

Students who entered the University in Spring 2007 or after should consult with the Director/Advisor for the Secondary Teacher Preparation Program for English, Prof. Linda Bannister (lbannist@lmu.edu, University Hall 3875, x82854) to sign up for the program and to discuss their course of study.

The LMU Secondary Teacher Preparation Program for English is approved by the California Commission on Teacher Credentialing.

POLS 130 American Politics 3 s.h.

or
POLS 135 Contemporary American Politics 3 s.h.

Principles of Economics
ECON 100 Economic Literacy 3 s.h.

Principles of Geography
GEOG 100 Human Geography 3 s.h.
GEOG 300 The Human Physical Environment 3 s.h.

Required Extended Studies Courses in the Secondary Teacher Preparation Program in Social Science (15 semester hours)

EDUC 485 Teaching Social Studies in Secondary Schools 3 s.h.
PHIL 160 Philosophy of Human Nature 3 s.h.
PHIL 320 Ethics 3 s.h.
THST 180 Religions of the World 3 s.h.

Required Courses in the Secondary Teacher Preparation Program in Social Science Needed to Complete Either a History or a Political Science Major (HIST Majors: 24 semester hours; POLS Majors: 45 semester hours)

Both History and Political Science majors choose either HIST 152: Modern Middle East, HIST 172: Modern Latin America, HIST 182: Modern Asia, or HIST 192: Contemporary Africa. 3 s.h.

POLS 210: Empirical Approaches to Politics (a requirement for POLS majors); HIST 310: History and Historians, or HIST 330: History as Detective (a requirement for HIST majors) 3 s.h.

A Message from the LMU School of Education: Please contact the School of Education at soeinfo@lmu.edu for information about all available Secondary Teacher Preparation Programs. All students interested in teaching English in middle schools or high schools should meet with their departmental advisors as soon as possible and must also attend a mandatory School of Education Undergraduate Information Session. Please call (310) 338-7845 to obtain the next scheduled meeting time and to confirm attendance.

In order to meet the academic requirements of the LMU Secondary Teacher Preparation Program in Social Science, students must complete the following courses granting either 141 semester hours of credit for a Political Science major or 120 semester hours of credit for a History major.
Political Science majors must complete POLS 220: Foundations of Political Thought. 3 s.h. (POLS Majors)

Both History and Political Science majors choose five upper division HIST courses. Not more than half of the total upper division semester hours may be taken from one of the following areas: a) Europe; b) United States; or c) Africa, Asia, Latin America, and modern Middle East. 15 s.h. (HIST and POLS Majors)

Political Science majors choose six upper division POLS courses, at least one course in three of these five groups: Political Thought, U.S. Politics, Public Administration and Policy Analysis, Comparative Politics, and Public Law. 18 s.h. (POLS Majors)

History majors choose one HIST 500-level senior seminar. Political Science majors choose one POLS 500-level seminar. 3 s.h. (HIST and POLS Majors)

**Total:**
HIST Majors: 24 semester hours
POLS Majors: 45 semester hours

**Education Courses Required for the 2042 Preliminary Single-Subject Teaching Credential (not included in the Extended Studies Courses of the Secondary Teacher Preparation Program in Social Science) (24 semester hours)**

African American Studies

Faculty
Acting Chairperson: Ronald K. Barrett
Assistant Professor: Dionne Bennett

Objectives
African American Studies is an interdisciplinary department with a worldview grounded in the perspective of Africa and the Diaspora. This worldview forms the basis of our intellectual, theoretical, and methodological approaches. The objective of African American Studies is to understand the forces that impact the lives of people of African descent in America as well as the influences of African descent on America and beyond. The Department’s curriculum challenges students to integrate knowledge and analytical skills from disciplines such as sociology, history, literature, political science, philosophy, and economics so that a more holistic understanding emerges.

By examining the lived experiences of Africans in America and throughout the Diaspora from the perspective of various disciplines, students develop a deeper understanding of themselves and their interactions within a diverse society. Thus, African American Studies provides students with an excellent preparation for graduate study, professional schools, social advocacy and activism to promote social justice, and numerous employment opportunities (e.g., law, education, counseling, entertainment, social work, public relations, business, etc.) that require a Bachelor of Arts degree.

African American Studies Student Learning Outcomes
By virtue of exposure to African American Studies courses, African American Studies students should know:

- The general history of African American people in the U.S. and the Diaspora
- The significance of the concept of an African worldview and its significance to African American-centered scholarship
- How to conduct social science research and to interpret scientific data
- The basic research questions posed by the various disciplines contributing to a better understanding of the African American experience
- The value of embracing the concept of diversity in the modern and complex world in which we live
- The pathways to graduate schools and professional careers provided to a major or minor in African American Studies
- The scope and content of African-centered knowledge systems;

African American Studies students should be able to:

- Effectively employ social science methodologies in the analysis of issues related to African Americans
- Demonstrate written and oral competencies in the analysis of theories and practices
- Identify and utilize appropriate primary data, including census and demographic data
- Apply their understanding of social issues to the development and critical analysis of programs and policies that impact residents in rural and urban areas
- Develop a basic knowledge and appreciation of the Black Aesthetic
- Develop an understanding of the forces that negatively impact the Black family and other institutions in the Black community;

African American Studies students should value:

- The contributions of Black people to America and to world civilization
- The importance of diversity in a complex world
- Critical thinking as an important problem solving skill
- Community service and service learning as meaningful activities
- The dignity of all human cultures.

Major Requirements

Lower Division:
AFAM 115
AFAM 150
AFAM 155

One course in research methods chosen from the following:
AFAM 208
POLS 210
SOCL 109
Upper Division:

24 semester hours in upper division courses must include AFAM 335 (SOCL 335) and AFAM 497. AFAM 335 should be taken in the first semester of the junior or senior year. AFAM 497 should be taken in the senior year. The remaining 18 hours are to be chosen from the five focus areas in which the upper division courses in African American Studies are grouped: I) Sociology, II) History, III) Literature/English, IV) Economics and Urban Studies, V) Senior Seminar. An average grade of C (2.0) must be obtained in courses included in the major.

I. Sociology
AFAM 301 Black Family Life
AFAM 334 Race and Ethnic Relations*
AFAM 335 Sociology of the Black Community
AFAM 435 Sex, Race, and Violence
AFAM 485 African American Social Thought*

II. History
AFAM 390 African Kingdom*
AFAM 392 Colonial Africa 1860-1960*
AFAM 490 The Nile Quest*
AFAM 491 South Africa*
AFAM 590 Seminar in African History*

III. Literature/English
AFAM 337 Black Arts Movements
AFAM 395 Black Drama
AFAM 396 Survey of African Amer. Literature

IV. Economics and Urban Studies
AFAM 36 Econ. Dev. Minority Communities*
AFAM 365 Metropolitan L.A.*

V. Senior Seminar
AFAM 497 Senior Seminar

* cross-listed courses

Minor Requirements

18 semester hours, including AFAM 115, 150 or 155, and 335 and nine (9) semester hours in upper division courses. An average grade of C (2.0) must be obtained in the courses included in the minor.

African American Studies Model

Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as AFAM major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

AFAM 301 Black Identities, Families, and Cultures

This course examines relevant issues about life within the Black Family and the impact that these issues have on the identity, community, and culture. Emphasis is placed on myths, gender roles, socialization, parenting styles, and male/female relationships. The course gives students an opportunity to select an aspect of Black life and do an in-depth critical analysis of it with a focus on the current research, competing views, and implications for the future.

AFAM 335 Sociology of the Black Community

A survey of the effects of long-standing discrimination and deprivation upon family structure, occupational patterns, health and educational conditions, motivation, and personal as well as group identity. An analysis of the Black power concept and its influence upon the growing community control of the ghetto.

AFAM 395 Black Drama

A survey of dramatic literature written by African American playwrights from the 19th century to the current day. Representative playwrights include Garland Anderson, Theodore Ward, Langston Hughes, James Baldwin, Lorraine Hansberry, Charles Gordone, Charles Fuller, Ntozake Shange, and August Wilson. Students will have opportunities to attend live performances of African American drama in L.A. communities and to stage readings of selected works.

AFAM 396 Survey of African American Literature

A study of the major themes in selected works of African American literature; examination of their social, historical, cultural, and contemporary significance.

AFAM 397 Hip Hop Culture

This course will explore how and how hip hop has become a global phenomenon, examining themes within hip hop culture with a primary focus on race, gender, class, sexuality, and youth politics of hip hop.

AFAM 435 Sex, Race, and Violence

This course examines the issues of sex, race, and violence and their implications for the individual, the family, and the community. Emphasis is placed on the role of socialization and the myths that impact societal attitudes about sex and violence. Students have an opportunity to identify and to explore factors that influence the manifestation of physical violence (including dating violence, child abuse, and domestic violence) and sexual violence (including date rape, stranger rape, and marital rape) across the dimensions of race, ethnicity, and gender.

AFAM 485 African American Social Thought

A survey of the development of African American social thought with special emphasis upon current philosophies which have influenced contemporary African American social movements.

AFAM 497 Senior Seminar

Designed as a capstone experience for African American Studies majors and minors. In the seminar format, students will be challenged to integrate knowledge, skills gained in course work, and life experiences into a meaningful project that meets the challenge of academic excellence and social responsibility.

Prerequisite: Senior standing.

American Cultures Studies

Coordinator
Edward Park

Mission of American Cultures Studies

Courses in American Cultures Studies will enhance students’ familiarity with and appreciation of several of the diverse cultural groups that comprise the multi-ethnic society of the United States. The in-depth, comparative, and interdisciplinary study of the cultures, behaviors, experiences, and inter-group relations of the following groups—African American, Asian/Pacific Islander American, Chicano/Latino American, Euro-American, and Native American—will provide students with competencies and sensibilities that will enable them to contribute to and thrive in a culturally diverse world. (It is understood that the above categories do not include the entirety of peoples comprising the United States of America. Moreover, it is recognized that a rich variety of cultures is also represented within these broad groups.)

Students will strengthen their knowledge and awareness of various ethnic or cultural groups. They will also develop analytical responses to various forms of cultural expression. This approach asks students to challenge the boundaries of ethnicity, culture, and academic discipline. In so doing, students improve their intergroup communication skills and become better able to see, appreciate, and respect the perspectives of others—factors that are essential to the creation of a more understanding and just society.

Goals of American Cultures Studies

Courses in American Cultures Studies are designed to:

- Provide strategies and competencies necessary to thrive in and contribute to a multiethnic and inter-cultural environment.
- Link theory and practice in the Jesuit-Marymount tradition.

American Cultures Studies Student Learning Outcomes

Students who have completed an AMCS course will:

- Know the histories, cultures, and politics of major ethno-racial groups in American society
- Know the role of race and ethnicity in shaping the American experience.

Students who have completed an AMCS course will be able to:

- Become more informed and effective participants in a culturally diverse world
- Evaluate the multiracial and multiethnic dimension of American life.

Students who have completed an AMCS course will value:

- Historical and contemporary efforts to build a more just and inclusive America
- Commitment to social justice and inter-culturalism.

All courses in this curriculum satisfy the AMCS component of the student’s core requirement. Some of the courses are also cross-listed in other disciplines.

AMCS 100
Introduction to American Cultures
3 Semester Hours

Lower division introductory courses in American Cultures Studies explore the meaning and dynamics of such issues as race, ethnicity, gender, class, sexuality, and other factors that define members of our society. These issues are explored from the vantage point of at least three ethnocultural groups. Courses may be taught from myriad disciplinary perspectives and emphasize the development of basic skills for understanding and interacting in today’s multicultural society.

Not repeatable for credit.
Freshman and Sophomore students only.

AMCS 105
History of Ethnic America
3 Semester Hours

A historical and comparative approach to the study of America’s racial and ethnic diversity.

Freshman and Sophomore students only.

AMCS 110
Race in Contemporary American Society
3 Semester Hours

A critical examination of the role of race and ethnicity in contemporary American society.

Freshman and Sophomore students only.

Asian and Pacific Studies

Director
Robin Wang

Objectives
Asian and Pacific Studies, an interdisciplinary area studies program, provides a general background to the traditions and cultures of Asia and the Pacific as well as an understanding of contemporary issues relating to that region. Furthermore, given the present shift of interest to the Pacific region, it aims to deepen the student's knowledge of Asia and the Pacific or of a country/area through a concentrated study in one academic discipline. This academic program, therefore, is intended to develop the student's personal interest in Asian and Pacific affairs and to prepare her or him for Asia-related career opportunities. All students are encouraged to spend some time in Asia through the various programs available to them.

Asian and Pacific Studies Student Learning Outcomes

- Students will come to understand the culture of the Asia Pacific region and its contributions to human civilization, with special attention to distinctively Asian culture and spiritual traditions that originated in this region
- Students will enhance their competencies by doing original research on topics of concern in the Asia Pacific region, and communicate their findings in both written and oral presentations. Students will also acquire a basic knowledge and skill in an Asian language
- Students will have the opportunity to develop self-awareness by exploring interactively the relationships between their own cultures and those of the Asian Pacific region.

Major Requirements

Lower Division Requirements (18 semester hours) including:

ASPA 201 Asian Civilizations
HIST 182 Modern Asia

Language Requirement:
Study of an Asian language (competence expected is the equivalent of a two-year study, i.e., 12 semester hours). Native speakers of an Asian language may be exempted from the language requirement but will be strongly encouraged to study another language. At LMU, course credit may be obtained for CHIN 101, 102, 203, 204; CLCV 201, 202 (Sanskrit); FLPN 101, 102, 203, 204; JAPN 101, 102, 203, 204. At UCLA, credit may be obtained through the SOCCIS program for Arabic, Korean, and Mongolian.

Upper Division Requirements (24 semester hours):

ASPA 301, 305, 500.

Choose the additional fifteen upper-division semester hours from ASPA courses or, in consultation with the Director, from courses with substantial content focused on Asia and the Pacific region in other disciplines, including art, business, economics, history, philosophy, political science, and theological studies.

Minor Requirements

18 semester hours

HIST 182, one semester of Asian language, plus 12 upper-division semester hours in ASPA including ASPA 500. In consultation with the Director, the student may choose one course in another college or school, provided it has substantial content focused on Asia and the Pacific region.
Asian and Pacific Studies Model
Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as ASPA major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

ASPA 201
Asian Civilizations
3 Semester Hours

A study of Asian civilizations through history, literature, art, philosophy, and film. Topics to be covered will emphasize the intellectual, cultural, social, and political factors which shaped the civilizations of Asia and the Pacific.

ASPA 298
Special Studies
1-3 Semester Hours

ASPA 299
Independent Studies
1-3 Semester Hours

ASPA 301
Geography of Asia and the Pacific
3 Semester Hours

An introductory geography class in which basic geography concepts and the relationship between humans and nature are presented in the context of East and Southeast Asia. Emphasis will be placed on the study of resource base and the impact of the economy upon settlement, agriculture, transportation, and industrial growth in Asian countries and regions.

ASPA 304
Politics of Asia
3 Semester Hours

This course deals with the politics of East Asia, emphasizing China, South Korea, and Japan. In particular, the concept of democratization is examined by looking at the political institutions, history, culture, ideologies, and economies of these countries.

ASPA 305
Economic and Political Issues in Contemporary Asia
3 Semester Hours

This course covers various issues that contemporary Asia, the most politically, economically, and socially dynamic region in the world today, is facing. Some of the issues to be dealt with are: economic uncertainties in Asian nations, population, human rights, reunification, and others.

ASPA 386
Introduction to Asian Literature
3 Semester Hours

An introductory course in Asian literature from China, Japan, and India. Various literary genres such as poetry, fiction, diary, biographies, and drama and their relation to the Asian literary tradition will be examined.

ASPA 398
Special Studies
1-3 Semester Hours

ASPA 399
Independent Studies
1-3 Semester Hours

ASPA 486
Topics in Asian Literature
3 Semester Hours

The subject matter of this course will vary from semester to semester.

ASPA 487
Asian Mythology
3 Semester Hours

This class will examine mythology and folktales from various Asian traditions: China, Japan, Korea, and India. The reading materials will be examined through psychological, philosophical, and cultural approaches. The topics for discussion include creation myths, heaven and hell, the mythic hero, metamorphosis, and immortality.

ASPA 488
Modern Asian Fiction
3 Semester Hours

This course examines twentieth-century Chinese and Japanese fiction through the study of novels, short stories, novellas, biographies, diaries, and film. The class will also study major literary trends and movements.
ASPA 489
Women in Asian Literature
3 Semester Hours

This course is a cross-cultural study of Asian women through the analysis of literary works including drama, fiction, and diaries in both classical and modern literature in China, Japan, Korea, and India. The class will examine patterns of sexism, women as literary subjects and personae, as well as images of women in various sociosexual roles.

ASPA 490
Asian Women Writers
3 Semester Hours

This is a cross-cultural study of Asian women writers through the readings of poetry, short stories, autobiographies, diaries, and novels. Most readings are derived from contemporary female writers from China, Japan, Korea, Hong Kong, Taiwan, and the United States.

ASPA 498
Special Studies
1-3 Semester Hours

ASPA 499
Independent Studies
1-3 Semester Hours

ASPA 500
Senior Integrating Seminar
3 Semester Hours

This requirement enables the students to integrate their work in Asian and Pacific Studies. The actual content of the course will depend on the student’s chosen focus. Students write a senior thesis under the guidance of a faculty member. The thesis, while focused on a particular topic, is intended to be interdisciplinary.

Credit is contingent upon substantial work on Asia and/or the Pacific. Check for course prerequisites or requirements.

Additionally, courses in BLAW, ECON, FNCE, MGMT, MRKT, and POLS with an international focus and courses in DANC, ENGL, and MUSC with a world focus and that have substantial work on Asia and/or the Pacific may fulfill upper division hours in the major or minor. Please consult with the Director.

In all cases, check for course prerequisites or requirements.
Asian Pacific American Studies

Director
Edward Park

Faculty
Associate Professor: Edward Park

Objectives
Asian Pacific American Studies (APAM) is a program that supports Loyola Marymount's commitment to multicultural education. APAM grew out of the Asian Pacific Studies Program (ASPA) in 1992. While ASPA focuses on the traditions and cultures of Asia and the Pacific, APAM is designed to enhance student understanding of the history and contemporary issues that impact the lives of Asian Pacific Americans in the United States. A minor in APAM is available at LMU.

People of all races and ethnicities are encouraged to enroll in APAM courses. Only through a critical understanding of our multicultural society can we begin to “live together, learn together, work together, and forge new ties that bind together.”

Asian Pacific American Studies Student Learning Outcomes

• A greater understanding of the historical contributions of Asian Pacific Americans
• A more critical understanding of contemporary issues facing the Asian Pacific American communities
• A deeper appreciation of the ethnic, class, gender, and generation diversity of Asian Pacific Americans
• A greater appreciation of Asian Pacific American cultural, literary, and artistic expressions

APAM Minor Requirements

18 semester hours

APAM 117
Introduction to Asian Pacific American Studies
3 Semester Hours

An introductory course which surveys the cultures and histories of the Asian Pacific American in the U.S. Interaction among various Asian Pacific American groups and various issues facing Asian Pacific Americans in the United States will also be discussed.

Fulfills core curriculum requirement for Social Sciences.

APAM 198

3 Semester Hours

APAM 398
Special Studies
1-3 Semester Hours

APAM 399
Independent Studies
1-3 Semester Hours

APAM 417
Contemporary Issues of Asian Pacific Americans
3 Semester Hours

Topical studies of timely and pertinent contemporary interest involving Asian Americans in the U.S. Focus will change from year to year.

APAM 427
Asian American Psychology
3 Semester Hours

Coverage of major psychological issues relevant to Asian American personality, identity, and mental health, including acculturation, stereotypes, racial identity, intergenerational conflict, etc.
APAM 435
Asian Pacific American Women’s Experience
3 Semester Hours

An interdisciplinary and comparative examination of the histories and experiences of Asian Pacific American women. Topics include social and economic inequality, literary and cultural representation, and political and community activism.

APAM 437
Asian Pacific Americans and the American Law
3 Semester Hours

An examination of constitutional, immigration, and civil rights laws and their impact on the Asian Pacific American experience. Analysis of historical court cases and legislation, including those pertaining to citizenship, exclusion, and World War II internment. Study of contemporary legal issues in Asian Pacific American communities.

APAM 450
Specific Ethnic Focus Seminars
3 Semester Hours

An in-depth examination of the experience of a single Asian American subgroup. Populations covered will vary.

APAM 453
Filipino American Experience
3 Semester Hours

Comprehensive introduction to the Filipino American experience. Historical analysis of U.S. colonialism and the experiences of Filipino Americans as “American Nationals.” Review of contemporary issues such as immigration patterns, community formation, and family dynamics. In-depth study of Filipino Americans in Los Angeles and Southern California.

APAM 457
Vietnamese American Experience
3 Semester Hours

Comprehensive introduction to the Vietnamese American experience. Review of Southeast Asian politics during the Cold War with emphasis on U.S. policies in Vietnam. Review of contemporary issues in the Vietnamese American community including economic integration, political mobilization, and community and family dynamics. In-depth study of the social and cultural life of Vietnamese Americans in Los Angeles and California.

APAM 459
Pacific Islander American Experience
3 Semester Hours

Comprehensive study of the Pacific Islander American experience, including the history and culture of Pacific Islands, especially Hawaii, and contemporary issues facing the Pacific Islander American communities, particularly in Southern California.

APAM 478
Comparative Study of Asian Pacific American History
3 Semester Hours

Traces the many-faceted histories of Asian Americans and Pacific Islanders from cross-cultural and transnational perspectives, focusing on interactions and exchanges between Asian Pacific Americans and various ethnic and racial groups.

APAM 498
Special Studies
1-3 Semester Hours

APAM 499
Independent Studies
1-3 Semester Hours

APAM 500
Capstone Course
3 Semester Hours

A mandatory course that provides APAM minors with the opportunity to create an individualized thesis project that draws on knowledge and experiences gained from previous coursework in APAM studies. Specific requirements will be finalized based on research interest.

Prerequisite: Completion of all other APAM requirements.
The Bioethics Institute

Faculty

Chairperson: James J. Walter
Professor: James J. Walter (O’Malley Chair)
Adjunct Professor: Michael B. Pesce

The Bioethics Institute is a graduate department within the Bellarmine College of Liberal Arts. The faculty teach not only graduate courses within the College but also offer courses in bioethics at the undergraduate level through the Department of Theological Studies. Please consult the course listings of that department for further details.
Catholic Studies

Director: José Ignacio Badenes, S.J.

Objectives

Catholic Studies is an academic interdisciplinary minor program designed to expose students to the study of the intellectual, social, cultural, and spiritual expressions of Catholicism. It is grounded in Vatican II’s discussion of the Church in the modern world, with its focus on human culture, dignity, and justice. On the one hand, Catholic Studies’ interdisciplinary nature mirrors the complex diversity that is Catholicism, as it intersects and interacts with history and culture. On the other hand, its intellectual and academic focus gives it purpose and direction as a program intent on studying, exploring, critiquing, and understanding the relationship between faith and culture. Therefore, it welcomes students and professors from any religious background and/or faith commitment and viewpoints.

Catholic Studies’ students pursue such issues as the influence of Catholicism upon the development of philosophy and the arts; the relationship between Catholicism and the history of world civilizations; the intellectual and ethical issues raised by the interactions of theology, science, and modern culture; Catholic social thought and practice; and the theological foundations of Catholicism. In addition, it offers students opportunities to explore the Ignatian tradition that grounds LMU’s founding orders, the Society of Jesus and the Religious of the Sacred Heart of Mary. Moreover, it also makes available opportunities for community service and spiritual activities, expressions of the University’s commitment to a faith that does justice. Catholic Studies celebrates Catholicism as a living heritage.

Faculty from a number of LMU’s departments, schools, and colleges teach courses cross-listed with Catholic Studies.

Catholic Studies Student Learning Outcomes

1. Students minoring in Catholic Studies will be given opportunities to learn about Catholicism as an intellectual, social, spiritual, and cultural tradition within the history of ideas.
2. Students minoring in Catholic Studies will be given opportunities to develop
   a) their ability to do scholarly work on various topics having to do with Catholicism, ranging from theology and philosophy to the creative and critical arts, the humanities, business, and the social and natural sciences
   b) their ability to appreciate and evaluate Catholic contributions to and expressions in all fields of learning

   c) their ability to make connections among the many disciplines focusing on Catholicism
3. Students minoring in Catholic Studies will be encouraged to examine and value the distinctive contribution of Catholicism to world civilization.
4. Students minoring in Catholic Studies will be able to draw on their own experience and insights to further their self-reflection.

CATH Minor Requirements

The Catholic Studies minor program consists of 18 semester hours, with at least 12 being upper division, structured as follows:

A. Foundational course: CATH/THST 122: Theological Foundations of Catholicism (3 semester hours).
B. Faith and Culture (3 semester hours upper division): One course that explores Catholicism as an intellectual, social, spiritual, and/or cultural tradition within the history of ideas.
C. Critical/Creative Arts (3 semester hours upper division): One course that critically explores the interplay between Catholicism and the arts or one course that allows students to explore and express Catholic faith creatively.
D. Additional CATH (6 semester hours, at least 3 being upper division).
E. Capstone: CATH 490: Seminar in Catholic Studies (3 semester hours).

A service-learning course with a Catholic focus would replace any one course from the Faith and Culture and Creative/Critical Arts categories.

Area 1: Foundations

CATH 122
Theological Foundations of Catholicism
(See THST 122)

Area 2: Faith and Culture

CATH 310
Guadalupe: Queen of the Américas
(See CHST 310)

CATH 390
Body, Desire, and Catholic Spirituality

The course explores the relationship between flesh and spirit in light of Catholic spirituality through the history of Western culture, including issues of gender, sexuality, and relationships.

CATH 428
Spanish Philosophy
(See PHIL 428)
### Area 3: Creative/Critical Arts

Area 5: Capstone

CATH 490  Seminar in Catholic Studies  
3 Semester Hours

The capstone seminar in Catholic Studies explores the relationship between Catholicism and culture organized around a central theme. This interdisciplinary course provides an opportunity for students to synthesize their Catholic Studies courses.
Chicana/o Studies

Faculty
Chairperson: Deena J. González
Professor: Deena J. González
Associate Professors: KarenMary Davalos, Fernando J. Guerra
Assistant Professor: “Sonny” Richard E. Espinoza

Objectives
The interdisciplinary Chicana/o Studies curriculum is designed to enhance student understanding of the unique influence of the Chicano/Latino community in the United States. It is the belief of the Department that a liberal arts education should expose students to as many cultures and perspectives as possible. This exposure emphasizes the following aspects of the goals of the University: the encouragement of learning, the education of the whole person, the service of faith, and the promotion of justice. The goals of Chicana/o Studies have a special meaning given the significant historical and contemporary presence of Mexican and Chicana/o peoples in Los Angeles. Chicana/o Studies courses attempt to prepare all students to live in and contribute to a society which is increasingly diverse.

Chicana/o Studies Student Learning Outcomes
At the end of a course of study, in the major or minor in Chicana/o Studies, students will be able to:

- Interpret, define, and evaluate historical and contemporary information about Mexican-origin people living in the U.S.;
- Use and apply humanistic, scientific, and/or social science methods to arrive at understandings about Chicana/os;
- Compare and contrast recent theories, methodologies, ideas, and developments central to the discipline of Chicana/o Studies.

Major Requirements
Lower Division Requirements:

9 semester hours
CHST 116
CHST 126
CHST 206

Upper Division Requirements:
24 semester hours: 12 semester hours in upper division requirements (CHST 302 or 404, 332, 360, and 461) and 12 semester hours in Chicana/o Studies upper division electives.

Minor Requirements
18 semester hours: CHST 116, 206, 302 or 404, 360, 461, and one additional Chicana/o Studies upper division course.

Chicana/o Studies Model Four-Year Plan
The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.

---

**CHST 116 Introduction to Chicana/o Studies**

*3 Semester Hours*

An interdisciplinary overview of Chicana/o Studies to familiarize the student with historical and contemporary issues in Chicana/o and Latina/o communities.

---

**CHST 126 Chicana/o Cultural Production**

*3 Semester Hours*

Examines contemporary Chicana/o cultural production, including performance, film, and art. Comparisons are made to other ethnic groups and crosscultural production.

---

**CHST 198 Special Studies**

*1-3 Semester Hours*

---

**CHST 199 Independent Studies**

*1-3 Semester Hours*

---

**CHST 206 Introduction to Chicana/o-Latina/o Literature**

*3 Semester Hours*

An overview of a range of genres, themes, and concepts created by Chicana/o and other U.S. Latina/o writers.
CHST 298
Special Studies
1-3 Semester Hours

CHST 299
Independent Studies
1-3 Semester Hours

CHST 302
Chicanas and Other Latinas in the U.S.
3 Semester Hours
Analysis of the historical, social, and cultural variables that have conditioned the roles of Chicanas and Latinas in the U.S.

CHST 306
Chicana/o Popular Culture
3 Semester Hours
Surveys Chicano/a popular culture and critically examines the content, styles, and meanings of religious rituals, sports, music, graffiti, murals, and theater arts.

CHST 308
Contemporary Urban Chicana/o and Other Latina/o Issues
3 Semester Hours
Using service learning in Los Angeles, the course helps students understand how the lives of Chicanas/os and Latinas/as are shaped by politics, economics, culture, history, and access to nation-state institutions.

CHST 310
Guadalupe, Queen of the Américas
3 Semester Hours
The course investigates the Virgin of Guadalupe’s religious, cultural, and artistic significance among Mexicans and Mexican Americans in the United States. It uses interdisciplinary methods to examine Latino theology, the faith-practices and devotions to Guadalupe, and contemporary visual arts.

CHST 332
Survey of Chicana/o-Latina/o Literature
3 Semester Hours
A course to acquaint students with prose, poetry, drama, essay, and literary criticism written by Chicana/o-Latina/o authors.

CHST 337
Racial and Ethnic Politics
3 Semester Hours
Comparative analysis of racial and ethnic groups within the United States political system. A focus on the effect of political institutions on minority groups at federal, state, and local levels. Examines the experience of minority groups to illuminate political process in the U.S.
(See POLS 337)

CHST 360
Chicana/o History
3 Semester Hours
An analytical survey of Native America, Mexican America, and the recent past with a focus on race, ethnicity, sexuality, and class.

CHST 366
History of California
(See HIST 366)

CHST 372
History of Mexico
(See HIST 372)

CHST 398
Special Studies
1-3 Semester Hours

CHST 399
Independent Studies
1-3 Semester Hours

CHST 404
Chicana and Third World Feminisms
3 Semester Hours
Focuses on current writings by Chicana feminists and connects this material to African American and Asian American feminist theory. The course traces the development of Chicana feminism and its concern with the interlocking conditions of gender, race, sexuality, and class.

CHST 406
Chicana/o Conciencia
3 Semester Hours
Surveys through literature and critical theory a Chicana/o form of conciencia, Spanish for “consciousness.”
CHST 407
Chicana/o Art: Performing Politics
3 Semester Hours

A historical and social investigation of Chicana/o art and the politics of identity and museum practices, including exhibition, collection, interpretation, and preservation. The course includes options for curating a virtual art gallery and field trips.

CHST 435
The Politics of California
1-3 Semester Hours

An examination of the structure and dynamics of California government and politics.

(See POLS 435)

CHST 436
The Politics of Los Angeles
3 Semester Hours

A study of the structure and dynamics of county, city, and special district governments in the Los Angeles metropolitan area.

(See POLS 436)

CHST 437
Chicana/o Politics
3 Semester Hours

A study of the social and political development of the Chicano community in the United States.

(See POLS 437)

CHST 460
The Chicana/o Southwest
3 Semester Hours

An examination of the historical and contemporary issues shaping this important region of the U.S. Attention to indigenous communities, women, and current political issues.

CHST 461
Chicana/o Research Seminar
3 Semester Hours

A seminar and practicum using the research tools of social scientists and humanists, including oral interviews and primary documents to explore Mexican/American, Chicana/o Los Angeles. The collections of the Center for the Study of Los Angeles assist the topics students explore.

CHST 465
Chicana/os-Latina/os in Film and Mass Media
3 Semester Hours

An examination of film and other forms of mass media, focusing on issues of representation as well as production. Subject matter addresses both Chicano cinema and Mexican/Latin American cinema.

CHST 498
Special Studies
1-3 Semester Hours

CHST 499
Independent Studies
1-3 Semester Hours

Recommended Electives

For the purpose of providing our majors and minors with a broader perspective, the Department recommends courses in American Cultures Studies that include a Latino component, as well as the following courses:

- GEOG 361 Geog. of Mexico & Central America
- HIST 367 History of Los Angeles
- POLS 354 Politics of Latin America
- PSYC 324 Ethnopsychology
- SOCL 334 Race and Ethnic Relations
- SOCL 336 Social Stratification
- SPAN 441 Latin American Novel
- SPAN 442 Latin American Poetry
- SPAN 443 Latin American Women Writers
- SPAN 444 Latin American Drama
- THST 346 The Latino Exp. in the U.S. Church
Classics and Archaeology

Faculty

Acting Chairperson: Katerina Zacharia
Professors: Matthew Dillon, William J. Fulco, S.J. (National Endowment for the Humanities Professor of Ancient Mediterranean Studies), Robert B. Lawton, S.J.
Associate Professor: Katerina Zacharia
Assistant Professor: Ethan Adams

Objectives

The study of Greek and Latin language and literature, the foundation of the Western humanistic and scientific traditions, offers the student a well-rounded liberal arts education. It is also a practical study. The student receives an excellent preparation not only for the graduate study of Classics, Theology, or Comparative Literature but also for professional school in law, medicine, or business.

Classics and Archaeology Student Learning Outcomes

As a Classics major, the student will:

• Master the grammar and syntax of Classical Greek and Latin
• Be able to read and analyze Classical authors in the original
• Value the lasting influence of Greco-Roman literature from antiquity to the present.

As a Classical Civilizations major, the student will:

• Know numerous aspects of Ancient Mediterranean and Near Eastern culture, including language (optional, but recommended); literature, in the original or in translation; art; history; archaeology
• Be able to express with elegant language ideas and arguments about these cultures
• Value the lasting influence of these cultures from antiquity to the present.

As a Greek major, the student will:

• Master the grammar and syntax of Classical Greek
• Be able to read and analyze Greek authors in the original
• Value the lasting influence of Greek literature from antiquity to the present.

As a Latin major, the student will:

• Master the grammar and syntax of Classical Latin
• Be able to read and analyze Latin authors in the original
• Value the lasting influence of Roman literature from antiquity to the present.

Major Programs

The Department of Classics and Archaeology offers a variety of majors: Classics, Greek, Latin, and Classical Civilizations. The Classics major offers a traditional training in both Greek and Latin language and literature (in the original), although students may opt to major exclusively in Greek or Latin. The Classical Civilizations major allows the student to study the cultures of Greece, Rome, and the Near East from various cultural perspectives in conjunction with other departments; in this major, language study is encouraged but not required.

Classics Major: Requirements

Lower Division (18 semester hours):

LATN 101, 102, and 201.
GREK 101, 102, and 201.
These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.

Note: It is recommended that Classics majors take HIST 100 as part of the University Core.

Upper Division Requirements (24 semester hours):

LATN 302 and GREK 302
These requirements may be waived if the student has received prior language sufficient for entry into higher level upper division courses. A total of 24 upper division semester hours is still required for the major.

GREK 303 or LATN 303
GREK 311
LATN 312
LATN 321
and one additional upper division course in GREK or LATN.

In certain circumstances, upper division Classical Civilization courses may be substituted for upper division Latin or Greek, at the discretion of the Chairperson of the Department.
Graduation with Honors: an additional 3 semester hours

In addition to the program above, a student wishing to graduate with honors in Classics must complete CLCV 500: Senior Thesis. See below.

**Classics Minor: Requirements**

18 semester hours, at least 9 in upper division. All courses must be in Greek and/or Latin Language and Literature. Students who test out of lower division language courses will fulfill 18 semester hours in the upper division.

Upper Division Requirements:

- GREK 303 or LATN 303
- GREK 311 or LATN 312

**Classical Civilizations Major: Requirements**

The Classical Civilizations major is an interdisciplinary program focusing on the classical civilizations of Greece, Rome, and the Near East through the study of literature, history, archaeology, art history, philosophy, theatre, and theology. Greek and/or Latin language study is encouraged but not required.

The Classical Civilizations major consists of 39 semester hours, at least 24 of which must be in upper division courses emphasizing Greek, Roman, or Near Eastern civilization. The study of the Greek and/or Latin language is highly recommended.

Lower Division Requirements (9 semester hours):

- CLCV 200
- CLCV 210 or CLCV 220
- CLCV 230

Note: It is recommended that HIST 100 be taken as the core class in Western Civilization.

Upper Division Requirements (24 semester hours):

- CLCV 301 or 302
- CLCV 451
- ARCH 361 or ARCH 364 or ARCH 401

The remaining 15 semester hours may be elected from any upper division CLCV, LATN, GREK, and ARCH offerings. In addition, the following courses may be taken as part of the Classical Civilizations major, with the approval of the Director of the major:

- HIST 405, 406, 407, 408, 410, 411
- PHIL 381, 382
- THEA 331
- THST 320

Graduation with Honors: an additional 3 semester hours

In addition to the program above, a student wishing to graduate with honors in Classical Civilizations must complete CLCV 500: Senior Thesis. See below.

**Classical Civilizations Minor: Requirements**

18 semester hours, at least 9 in the upper division.

Lower Division Requirement:

- CLCV 200 or CLCV 210

Upper Division Requirement:

- CLCV 451

**Greek Major: Requirements**

Lower Division:

- GREK 101, 102, 201;
  Note: These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.

Upper Division (24 semester hours):

- GREK 302
  Note: This requirement may be waived if the student has received prior language sufficient for entry into higher level upper division courses. A total of 24 upper division semester hours is still required for the major.

- GREK 303
- GREK 311
- GREK 312
- GREK 321 or GREK 322
  and an additional 9 semester hours of upper division GREK

Graduation with Honors: an additional 3 semester hours

In addition to the program above, a student wishing to graduate with honors in Greek must complete CLCV 500: Senior Thesis. See below.

**Greek Minor: Requirements**

18 semester hours, at least 9 in the upper division.

Lower Division Requirements:

- GREK 101, 102, 201
  Note: Students who test out of lower division language courses will fulfill 18 semester hours of upper division work in Greek language and literature.
Upper Division Requirements:
GREK 302 or 303
GREK 311 or 312
GREK 321 or 322

Latin Major: Requirements
Lower Division Requirements:
LATN 101, 102, 201
Note: These requirements may be waived if the student has received prior language sufficient for entry into upper division courses.
Upper Division Requirements (24 semester hours):
LATN 302
Note: This requirement may be waived if the student has received prior language sufficient for entry into higher level upper division courses. A total of 24 upper division semester hours is still required for the major.
LATN 303
LATN 311
LATN 312
LATN 321
and an additional 9 semester hours of upper division LATN

Graduation with Honors: an additional 3 semester hours
In addition to the program above, a student wishing to graduate with honors in Latin must complete CLCV 500: Senior Thesis. See below.

Latin Minor: Requirements
18 semester hours, at least 9 in the upper division.
Lower Division Requirements:
LATN 101, 102, 201
Note: Students who test out of lower division language courses will fulfill 18 semester hours of upper division work in Latin language and literature.
Upper Division Requirements:
LATN 302 or 303
LATN 312
LATN 321

Graduation with Honors: CLCV 500: Senior Thesis
For Graduation with Honors in Classics, Classical Civilizations, Latin, or Greek, the student must have a minimum GPA of 3.3 within the major, enroll in CLCV 500: Senior Thesis, and receive at least a grade of B+ (3.3) on that project. A thesis prospectus must be approved in the previous semester by the faculty member who will oversee the project.

Archaeology Minor: Requirements
The minor in Archaeology consists of ARCH 401 and 15 additional semester hours, of which 6 may be in courses in an appropriate Mediterranean language (e.g., ancient or modern Greek, Latin, Hebrew, or Arabic, or a Romance language if it is relevant to a particular archaeological emphasis).

For the minor in Modern Greek Studies, see below.

Classics Model Four-Year Plan
The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

The fundamentals of Sanskrit; exercises in reading. Sanskrit is the primary language for the Hindu and Buddhist traditions and the oldest surviving member of the Indo-European language group. Students learn the Devanagari script, basic vocabulary, rules for sound combination (sandhi), and foundational grammar.

Latin

The LATN 101, 102, 201 sequence covers the full grammar and syntax of the Classical language and prepares the student to read and write basic prose. This series requires one additional weekly contact hour for drill and practice.

LATN 101
Elementary Latin I
3 Semester Hours

Basic introduction to grammar and syntax; the first three declensions of Latin nouns; demonstrative and personal pronouns; all four conjugations and all six tenses of Latin verbs (active voice). Translation of simple prose passages.

Prerequisite: LATN 101 or equivalent.

LATN 102
Elementary Latin II
3 Semester Hours

Continuation of Latin grammar and syntax, covering the last two declensions of nouns; relative pronouns; passive voice and subjunctive mood of verbs; indirect statement; conditions. Translation of more complex prose passages.

LATN 198
Special Studies
1-3 Semester Hours

LATN 199
Independent Studies
1-3 Semester Hours

ARCH 201
Beginning and Intermediate Classical Hebrew
3 Semester Hours
A concentrated course in Hebrew, with attention paid to
its historical development and to comparative phonetics
and morphology.

ARCH 298
Special Studies
1-3 Semester Hours

ARCH 299
Independent Studies
1-3 Semester Hours

ARCH 301
Rapid Readings in Classical Hebrew
3 Semester Hours
Selected readings in both prose and poetry.
Prerequisite: ARCH 201 or equivalent.

ARCH 354
Near Eastern Religions
3 Semester Hours
Study of the religions, rituals, and pantheons of ancient
Near Eastern societies.

ARCH 361
Ancient Near East
3 Semester Hours
Study of the Near Eastern background of classical
civilizations from the Neolithic to the Hellenistic periods.

ARCH 362
Ancient Near Eastern Languages
3 Semester Hours
Study of the languages and writing systems of the ancient
Near East, including Sumerian, Babylonian, Egyptian,
Hebrew, Aramaic, and Arabic.

ARCH 363
Archaeology and the Bible
3 Semester Hours
Study of selections from the Old or New Testament,
combining historical criticism and exegesis with the relevant
archaeological data.
This course may be repeated for credit.

ARCH 364
Principles of Archaeology
3 Semester Hours
Modern archaeological methodology, theory, and
interpretation.

ARCH 398
Special Studies
1-3 Semester Hours

ARCH 399
Independent Studies
1-3 Semester Hours

ARCH 401
Near Eastern Archaeology
3 Semester Hours
Hands-on study of the archaeology and excavated artifacts
of the Levant, from the paleolithic to the Roman periods.

ARCH 402
Mediterranean Archaeological Studies
3 Semester Hours
Study of the archaeology of a specific ancient Mediterranean
culture, period, type of artifact, or phenomenon in Egypt,
Anatolia, Crete, Greece, Italy, Israel-Palestine, etc.
This course may be repeated for credit.

ARCH 403
Classical Numismatics
3 Semester Hours
Hands-on study of the coinages of ancient Greece,
Rome, and the Eastern Mediterranean, with emphasis on
archaeology, art history, and monetary origins.

ARCH 404
Egyptology
3 Semester Hours
Study of Egypt from the Neolithic to the Roman period:
history, culture, religion, art, language, and literature.

ARCH 405
The Silk Road
3 Semester Hours
A study of the archaeology and history of the Silk Road in
NW China.
ARCH 410  
Archaeology Field Experience  
1-3 Semester Hours  
Active participation in archaeological excavations or surveys at Near Eastern, Classical, or selected New World sites.  
This course may be repeated for credit.

ARCH 411  
Near Eastern Archaeology Lab  
1-3 Semester Hours  
This course may be repeated for credit.  
Prerequisite: ARCH 401 or concurrent enrollment.

ARCH 415  
Special Topics in Near Eastern Archaeology  
3 Semester Hours  
This course may be repeated for credit.

Modern Greek

Objectives
The Modern Greek Studies Program offers students the opportunity to study Modern Greece—its language, literature, history (from the Byzantine Empire to the present), its Christian Orthodox tradition, and its arts. Modern Greek Studies on the LMU campus may be supplemented by the Summer Study Abroad courses of The Odyssey Program.

Minor Program
The minor in Modern Greek Studies consists of 18 semester hours, of which at least 6 hours must be at the 300 or 400 level. The following distribution is recommended, with the approval of the Director of the minor:

- 9 semester hours of Modern Greek language instruction;
- 3-6 semester hours from MDGK 341, 354, 398, 399;
- 3-6 semester hours from the following: CLCV 200, 210, 220, 230, 402, 451, 452; DANC 390; HIST 410, 450; THST 322; or any course in Ancient Greek (GREK 101-415).

MDGK 100  
Modern Greece  
3 Semester Hours  
Introduction to Modern Greek language, culture, and history.

MDGK 101  
Elementary Modern Greek I  
3 Semester Hours  
An introductory course covering the fundamentals of grammar, syntax, reading skills, and oral expression.

MDGK 102  
Elementary Modern Greek II  
3 Semester Hours  
Continuation of MDGK 101.

MDGK 198  
Special Studies  
1-3 Semester Hours

MDGK 199  
Independent Studies  
1-3 Semester Hours
### MDGK 203
**Intermediate Modern Greek I**  
3 Semester Hours  
Completion of the study of grammar and syntax. This course is designed to help the student improve conversational skills through listening comprehension and class discussion.

### MDGK 204
**Intermediate Modern Greek II**  
3 Semester Hours  
A course aimed at furthering proficiency through reading, listening comprehension, composition, and discussion.

### MDGK 298
**Special Studies**  
1-3 Semester Hours

### MDGK 299
**Independent Studies**  
1-3 Semester Hours

### MDGK 305
**Art and Architecture of the Ancient World**  
3 Semester Hours  
A survey of Greek art from the Neolithic age through the Hellenistic period.

### MDGK 321
**Advanced Modern Greek**  
3 Semester Hours  
A course designed to enable the students to refine their understanding of the language and enhance their verbal abilities. A reasonable command of Modern Greek is a prerequisite.

### MDGK 325
**Advanced Modern Greek Conversation**  
3 Semester Hours  
Texts from prose and poetry serve as a basis for advanced discussion and composition.

### MDGK 341
**Introduction to Modern Greek Literature (in Translation)**  
3 Semester Hours  
Study of the works of Kazantzakis, Cavafy, Seferis, Elytis, and Ritsos.  
This course may be repeated for credit.

### MDGK 350
**Greek Orthodox Tradition**  
3 Semester Hours  
A review of the unbroken dogmatic tradition of the Greek Orthodox Church, her liturgy, and her place in the religious life of the United States.  
*(See THST 322)*

### MDGK 352
**Orthodox Christian Spirituality**  
3 Semester Hours  
The history of the monastic life of the desert fathers and the spiritual tradition of Eastern Christianity will be examined and made relevant to the present-day world.  
*(See THST 352)*

### MDGK 354
**Greek Cinema**  
3 Semester Hours  
Study of the reworking of themes from Greek myth and literature in Greek cinema.

### MDGK 398
**Special Studies**  
1-3 Semester Hours

### MDGK 399
**Independent Studies**  
1-3 Semester Hours

### MDGK 450
**Modern Greek History and Society**  
3 Semester Hours  
An examination of the crises and challenges that have shaped Modern Greek society, the transformations that have taken place, and the culture and literature it produced.

### MDGK 498
**Special Studies**  
1-3 Semester Hours

### MDGK 499
**Independent Studies**  
1-3 Semester Hours
The Basil P. Caloyeras Center also sponsors the following courses with other departments:

- CLCV 305 Art and Architecture of the Ancient World
- DANC 390 Dances of Greece
- HIST 410 History of the Byzantine Empire
Economics

Faculty

Chairperson: James Konow
Professors: James Devine, James Konow, Seid Zekavat
Associate Professors: Joseph E. Earley, Zaki Eusufzai,
Robert Singleton, Renate Thimester
Assistant Professors: Andrew J. Healy,
Dorothea K. Herreiner, Jennifer P. Offenberg

Objectives

The study of economics illuminates both the limitations and successes of different systems of the production, distribution, and consumption of material wealth. Because of the economy's importance to the human condition, economic knowledge is useful to many other fields, such as political science, sociology, anthropology, law, and history. It, thus, is as central to a liberal arts education as it is to the business program.

The study of economics involves (1) the development of theories of economic behavior and their application to new problems; (2) the use of statistics and other evidence to test or add content to existing theories; (3) the development of perspective on economic institutions, economic history, and the development of economic philosophy. Students are encouraged to engage in independent research on all of these levels.

The goal of the program is to provide the student with the best preparation for employment in business, government, or secondary education, or for continuation to graduate studies in business, law, or economics, leading to careers in management, banking, finance, law, government, or academia.

Economics Student Learning Outcomes

- Students should demonstrate a solid understanding of modern microeconomics, macroeconomics, and statistics, including the dominant theories of decision-making, markets, and the macroeconomy;
- Students should be able to think analytically using both the verbal and quantitative tools commonly employed in economics and to apply those tools to solve both theoretical as well as practical real world problems;
- Students should appreciate the importance of economics in human endeavors and the value of rigorous economic training for evaluating social phenomena; they should understand the ethical concerns that underlie economic policy, including efficiency and equity.

Major Requirements

Students may pursue either a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. The specific requirements of these degrees are explained below.

Bachelor of Arts (B.A. Economics)

This degree is suitable for pre-law students or those interested in careers in education; urban planning; and federal, state, and local government.

Lower Division Requirements:

Economics requirements (6-9 semester hours): ECON 110 and 120, or 105, and ECON 230 or 235. A grade of at least B- (2.7) is required in each of these courses.

Mathematics requirements (6 to 8 semester hours): The mathematics requirement for economics may be satisfied with one of two plans, Plan A or Plan B:

- Plan A: Two courses from MATH 10, 131, 131, and 234. A grade of at least C (2.0) is required in each of these two courses.
- Plan B: MATH 111 and 112. A grade of at least B- (2.7) is required in each of these courses.

Students are encouraged to follow Plan A and to take additional mathematics courses beyond these basic requirements in consultation with their economics advisor.

Upper Division Requirements (24 semester hours):

Eight upper division economics courses. Three theory courses are required: ECON 310, 320, and 410. These courses should be taken by the junior year, although well-prepared students can take them in their sophomore year. Five additional upper division economics courses are required, of which at least two (6 semester hours) must be at the 400 level. No more than 30 semester hours of upper division economics may count toward the degree requirement of 120 hours.

Bachelor of Science (B.S. Economics)

The Bachelor of Science degree is suitable for students who 1) wish to continue to graduate school in economics or business (especially finance), 2) are particularly interested in statistics or forecasting, or 3) are interested in any of the careers mentioned for the B.A. degree but who desire a more quantitative preparation. The B.S. degree has the same requirements as the B.A. degree, except for two upper division economics course requirements. Specifically, the B.S. degree additionally requires Mathematics for Economics (ECON 530) and Econometrics (ECON 532).
Lower Division Requirements:

These requirements are the same as for the B.A. Economics degree. Students pursuing the B.S. Economics degree, however, are strongly advised to follow Plan A for the mathematics requirements and to take additional mathematics courses beyond this sequence in consultation with their economics advisor.

Upper Division Requirements (24 semester hours):

Eight upper division economics courses. In addition to ECON 310, 320, and 410, students are required to take ECON 530 and 532. Three additional upper division economics courses are required, of which at least two (6 semester hours) must be at the 400 level. No more than 30 semester hours of upper division economics may count toward the degree requirement of 120 hours.

Bachelor of Arts (B.A. Economics) with an International Emphasis

At least eight upper division economics courses are needed for the B.A. degree in Economics with an International emphasis, although students can take up to ten. Six of these courses are required: ECON 310, 320, 410, 470, 471, and 474. ECON 310 and 320 should be taken in the sophomore or junior year, and ECON 410, 470, 471, and 474 should be taken in the junior or senior year. Upper division economics courses must be taken in the LMU Economics Department, except by prior permission of the Chairperson. The B.A. degree with an International emphasis is suitable for students who intend to pursue careers in international agencies of government, NGO, and private corporations doing business in the international arena.

Business and Economics Double Major Requirements

Students with majors in business may also pursue a major in economics by fulfilling the requirements of the B.A. or B.S. track described above. With prior permission of the Department, double majors in Business and Economics may select two upper division Business Administration courses as part of their economics electives.

Minor Requirements

18 semester hours consisting of ECON 110, 120, and four upper division ECON courses, or ECON 105 and five upper division ECON courses. The upper division courses should be chosen in consultation with an economics advisor. A grade of at least B- (2.7) is required in ECON 110 and 120, or 105.

Assessment Tests

All Economics majors are required to take two tests of learning, one at the end of their freshman year, and another at the end of their senior year. These tests do not determine any grade, but they are required for graduation. In addition, students with the highest scores receive an award and cash prizes, which are bestowed at the Department’s annual year-end banquet.

Test of Introductory Economics

During the Spring semester, all Economics majors who have taken ECON 105, 110, or 120 during that academic year are required to take a test of learning of introductory economics.

Comprehensive Test of Economics

All Economics majors who will have completed 100 hours or more by the end of the Spring semester are required to enroll in ECON 490. This is a zero unit course, required for graduation, which includes a comprehensive test of economics, a senior exit interview, and possible additional Department evaluation.

Economics Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

#### Notes

- Students may take no more than **ten upper division** courses in Economics.
- Students must complete a minimum of 120 credits to graduate.
ECON 100
Economic Literacy
3 Semester Hours

Overview of microeconomics and macroeconomics, including supply and demand, theory of production and cost, competition, monopoly, inflation, unemployment, and government money and spending policy. Some attention may be given to issues of the history of economic ideas and economic history. Not intended for economics or business majors.

ECON 105
Accelerated Introductory Economics
3 Semester Hours

Accelerated introduction to both microeconomics and macroeconomics. Supply and demand, elasticity, and theories of production, cost, competition, monopoly, and other market structures. Aggregate supply, aggregate demand and Keynesian Cross analysis, and discussion of GDP, national income, inflation, and unemployment. This course can be taken in lieu of ECON 110 and 120 and substitutes for those courses wherever one or both are stated as prerequisites.

Requirements: A minimum score of 600 on the Mathematics section of the SAT, or of 30 on the LMU Mathematics Placement Examination, or of 4 on the Advanced Placement Macroeconomics examination.

ECON 110
Introductory Microeconomics
3 Semester Hours

Analysis of behavior of individual economic agents including consumers and firms. Supply and demand, elasticity, theory of production, and cost. Pricing and output decisions under competition, monopoly, and other market forms.

ECON 120
Introductory Macroeconomics
3 Semester Hours

Analysis of inflation, unemployment, and gross national product. Money and banking, Keynesian and Monetarist economics, government policy toward money supply, spending, the national debt, and exchange rates.

ECON 230
Introductory Statistics
3 Semester Hours

An introduction to the modern methods of analyzing sample data. Topics include descriptive statistics, probability theory, binomial and normal distributions, estimation, hypothesis testing, and simple regression analysis.

Prerequisite: MATH 131 (or 112).

ECON 235
Accelerated Introductory Statistics
3 Semester Hours

Accelerated introduction to statistics with applications to economics. Topics include descriptive statistics, probability theory, binomial and normal distributions, estimation, hypothesis testing, and regression analysis. This course also involves exercises in applying theoretical concepts to real world empirical problems, e.g., for policy analysis. This course can be taken in lieu of ECON 230 and substitutes for 230 wherever it is stated as a prerequisite.

ECON 310
Intermediate Microeconomics I
3 Semester Hours

Microeconomic theory applied to the private sector. Indifference curves, utility theory, Slutsky equation, individual and market demand, technology, cost minimization, cost curves, consumer and producer surplus, efficiency, perfect competition, monopoly, price discrimination, classical oligopoly theory, game theory including Nash equilibrium, resource markets.

Prerequisites: ECON 110 (or 105), MATH 131 (or 112).

Offered in the Fall semester only.

ECON 320
Intermediate Macroeconomics
3 Semester Hours

Macroeconomic analysis: The determination of national income and output and their components, employment, the price level (and inflation), interest rates, and long-term economic growth. An introduction to business cycle theory, monetary theory, balance of payments, and exchange rates. A study of economic policies to achieve goals and the limits of such policies.

Prerequisites: ECON 120 (or 105), MATH 131 (or 112).

Offered in the Spring semester only.

ECON 322
Money and Banking
3 Semester Hours

The role of monetary matters in the economy. The organization, operation, and impact of money, banks and nonbank financial intermediaries, and financial markets in the economy. The impact of these on the determination of interest rates, the price level, and economic activity. The role of central bank and regulatory agency policies in financial markets and the economy.

Prerequisite: ECON 120 (or 105).
ECON 330
Regression Analysis
3 Semester Hours

Analysis of the linear regression model and its practical applications in economics, finance, marketing, and other areas of business. Material covered will be the two variable model, hypothesis testing, forecasting, functional forms of regression models, regression using dummy explanatory variables, multiple regression, autocorrelation, heteroscedasticity, and multicollinearity. Emphasis is placed on the application of the techniques covered in the course to the solution of real world problems.

Prerequisites: ECON 110 and 120 (or 105).

ECON 332
Introductory Computer Applications in Economics
3 Semester Hours

An introduction to the computer software used by economists to model economic and business problems. Designed for beginning users of computers.

Prerequisite: ECON 110 or 120 (or 105). Recommended: ECON 230.

ECON 334
Forecasting Methods
3 Semester Hours

Analysis of a wide range of forecasting methods, including regression, smoothing, and arima models.

Prerequisite: ECON 230 (or 235).

ECON 336
Seminar in Guided Business and Economic Research
3 Semester Hours

Designed to teach students the skills necessary to perform actual quantitative research in a workshop setting. Involves the use of actual data and the application of appropriate research tools such as Box and Whisker Plot, Risk Analysis, Chi-square, analysis of Variance, Quality Control, Multiple Regression, Time Series Forecasting, and Linear Programming.

Prerequisite: ECON 230.

ECON 340
U.S. Economic History
3 Semester Hours

Historical study of the economic growth and institutional development of the U.S. economy from the colonial era to the twentieth century. Topics may include: the economic ramifications of the American Revolution and the Constitution, the economics of slavery, industrialization, and the origins of the Great Depression.

Prerequisites: ECON 110 and 120 (or 105).

ECON 342
History of Economic Thought
3 Semester Hours

An analysis of the evolution of moral, political, and economic ideas and theories and their influence on the development of economic society.

Prerequisites: ECON 110 and 120 (or 105).

ECON 352
Labor Economics
3 Semester Hours

Modern theories of market and non-market behavior relating to issues of labor and the determination of wages, salaries, and perquisites. Empirical evidence and public policy considerations are always relevant. Topics may include: education, poverty, discrimination, internal job ladders and management systems, collective bargaining, and unemployment.

Prerequisite: ECON 110 (or 105).

ECON 356
Urban Economics
3 Semester Hours

A survey of the policy and theoretical issues that are raised when economic analysis is applied in an urban setting. Topics include urbanization and urban growth housing markets, location decisions of households and firms, transportation, urban labor markets, the local public sector, and discrimination.

Prerequisite: ECON 110 (or 105).

ECON 360
Financial Economics
3 Semester Hours

Practical application of financial theory in both a certain and uncertain environment. Focus on capital budgeting, financial structure, cost of capital, and dividend policy.

Prerequisites: ECON 110 and 120 (or 105).
ECON 362
Managerial Economics
3 Semester Hours

Provides a solid foundation of economic understanding for use in managerial decision making. It focuses on optimization techniques in the solution of managerial problems.

Prerequisites: ECON 110 and 120 (or 105).

ECON 364
Multinational Corporation
3 Semester Hours

The economic power and impact; the expansion of multinational business, international movement of management techniques, labor, resources, and technology.

Prerequisite: ECON 110 or 120 (or 105).

ECON 366
Personal Finance
3 Semester Hours

This course is a comprehensive coverage of consumer finance. Topics are consumer credit, consumer spending, and investing for the short run and the long run. Housing and real estate investing, personal financial planning, and various investment vehicles such as equity, fixed rate of return instruments, annuities, and insurance as well as the fundamentals of tax planning are addressed. The emphasis is on evaluating choices and understanding the consequences of decisions in terms of opportunity costs.

Prerequisite: ECON 110 or 120 (or 105).

ECON 369
Chinese Economic and Business System
3 Semester Hours

This course aims to provide an introduction to Chinese economic and business system as well as the major strategic and operational issues facing multinational corporations in doing business in China.

Taught only in Beijing, China.

ECON 370
International Trade
3 Semester Hours

Analysis of classical and modern theories of international trade and their relation to internal and external equilibria. Income and monetary factors, commercial policies affecting international trade. Resource movements, regional economic integration.

Prerequisite: ECON 110 (or 105).

ECON 372
International Finance Theory
3 Semester Hours

Introduction to foreign exchange markets and the determination of exchange rates. Understanding balance of payments accounts, enacting policies to affect the current account, and examining balance of payments crises. Overview of international policy coordination and the international monetary system. Application of theory to current international issues.

Prerequisite: ECON 120 (or 105).

ECON 374
Economic Development of Minority Communities
3 Semester Hours

Historical study of minority groups in the American economy. Emphasis upon institutions, ideas, and individuals.

Prerequisite: ECON 110 (or 105).

ECON 410
Intermediate Microeconomics II
3 Semester Hours

Prerequisite: ECON 310.

Offered in the Spring semester only.

ECON 412
Economics and Ethics
3 Semester Hours

Economics and Ethics examines the roles and effects of ethics on economic analysis, behavior, and institutions. These issues arise, for example, in matters of charity, labor markets, and taxation. This course treats both descriptive and prescriptive theories as well as evidence on ethics from behavioral and experimental economics. It covers standard philosophical theories and connects them to empirical evidence and real world decision-making.

Prerequisite: ECON 310. Recommended: ECON 410 or concurrent enrollment.
ECON 414
Game Theory
3 Semester Hours

Game Theory is the study of strategic interaction. This course will focus on analyzing these interactions and predicting equilibrium outcomes. Topics to be covered include utility theory, rationality, simultaneous and sequential move games, Nash equilibrium, backward induction, repeated games, and games of incomplete information.

Prerequisite: ECON 310.

ECON 416
Environmental Economics
3 Semester Hours

Environmental Economics deals with the use of society's scarce environmental resources. Economic theory and analysis are applied to various environmental issues, including pollution, sustainable development, clean air, and quality of life.

Prerequisite: ECON 310.

ECON 434
Experimental Economics
3 Semester Hours

Experimental methods of research in economics. Basic experimental concepts, induced value theory, individual decisions, game theory, market experiments, auctions, bargaining, public choice.

Prerequisite: ECON 310.

ECON 450
Industrial Organization
3 Semester Hours

Analysis of firm behavior. Classical models of perfect competition, monopoly and oligopoly. Game theory including dominant strategy, Nash and subgame perfect equilibrium. Price discrimination, antitrust policy and regulation.

Prerequisite: ECON 310.

ECON 454
Public Choice
3 Semester Hours

The study of political decision making using economic theories and methods. Theory of voting rules, the theory of regulation, taxation, interest groups, the growth of government, and the design of constitutions.

Prerequisite: ECON 310.

ECON 456
Law and Economics
3 Semester Hours

This course will explore the field of law and economics. We will use standard microeconomic tools to examine torts, contracts, and property law, as well as the theory and empirical evidence on criminal behavior.

Prerequisite: ECON 310.

ECON 474
Economic Development
3 Semester Hours

This course is about global poverty, with a focus on the market failures that often characterize countries in the developing world and the solutions that countries have adopted to deal with these failures. We will explore how missing or incomplete markets for land, insurance, and credit give rise to the institutions that we see in developing countries, particularly in rural areas. Evidence about important policy debates, such as the role of industrialized countries in the development process, will be discussed in detail.

Prerequisite: ECON 310.
ECON 530
Mathematics for Economics
3 Semester Hours

Absolutely necessary for those continuing to graduate school and required for those pursuing the B.S. degree in economics. Review of fundamental mathematical concepts and logic. Treatment of linear algebra, univariate and multivariate calculus, real analysis, and unconstrained and constrained optimization. Applications of mathematical techniques to typical problems in microeconomics and macroeconomics.

Offered only in the Fall semester.

Prerequisites: ECON 310 and MATH 131 (or 112). Recommended: ECON 320.

ECON 532
Econometrics
3 Semester Hours

This branch of economics uses mathematical and statistical tools to analyze economic phenomena. Mathematical formulation, establishment of hypotheses, model construction, data collection, and statistical estimation and inference. Required for the B.S. degree in Economics.

Offered only in the Spring semester.

Prerequisite: ECON 530 (or MATH 250).
English

Faculty
Chairperson: David Killoran
Professors: Linda Bannister, Theresia de Vroom, Paul Harris, David Killoran, Rubén Martínez (Fletcher Jones Chair in Literature and Writing), John Menaghan, Barbara Roche Rico, Chuck Rosenthal, Lucy Wilson, Gail Wronsky
Associate Professors: Stuart Ching, Holli G. Levitsky, K.J. Peters, John Reilly, Stephen Shepherd, Kelly Younger
Assistant Professors: Juan Mah y Busch, Robin Miskolcze, Dermot Albert Ryan, Molly Youngkin

English Department Mission
Believing that literature is a profound expression of human experience, the English Department uses a range of critical methods to introduce students to literatures in English from a variety of cultural traditions. The course work reveals the art form's creative beauty, strategies for representing the human experience, and its power to shape the reader.

The English Department encourages an understanding of the critical and creative union of reading and writing as fundamental to the processes of developing the self. Through their imaginations, students who major or minor in English interact with language and literature, thereby encountering another equally open and attentive mind: that of the writer they are reading or of the reader who comes to the work they have created. As students of the literary arts, English majors and minors prepare for a lifetime of reading and writing, enlightenment and fulfillment, learning to do what Toni Morrison describes as a dance of two minds.

A Note on the Core: English majors and minors must take a course to satisfy the University's core literature requirement, and this course is separate from and in addition to the courses taken to fulfill the English major and minor requirements.

English Student Learning Outcomes
English majors know:
- The history of literatures in the English language
- A variety of critical theories
- The range of creative choices made by the literary artist.

English majors are able to:
- Read literary texts closely and carefully
- Interpret analytically and innovatively using a variety of critical and theoretical approaches
- Write creatively and effectively
- Perceive and express the artistry, ideas, and social significance of language.

English majors value:
- The ways in which literature represents human experience
- The affect of literature on the artist and reader
- The artistry of precise and elegant expression.

Major Requirements

Lower Division Requirements (12 semester hours):
ENGL 201 and either ENGL 200 or 202; ENGL 203 and 204.

A grade of C (2.0) is required in each premajor course before qualifying for upper division status as an English major. Students transferring into the Department after their sophomore year may enroll in upper division courses in the major concurrently with the premajor courses. Students must complete all upper division courses in the major with a minimum grade of C (2.0) in order to maintain status as English majors. Failure to maintain this standard or failure to make sufficient progress toward completion of the major will result in probation or disqualification from the Department.

Upper Division Requirements:

There are two programs for the major in English:

I. The English Major: Literature Emphasis
27 semester hours in upper division courses. Up to six of these semester hours may be taken in writing classes.

Upper Division Requirements:
ENGL 321 or 322.
One course in English and/or American Literature prior to 1800, excluding Shakespeare.
One of the two survey courses in the History of American Literature (ENGL 371 or 372).
Two courses in English and/or American Literature after 1800.
One course in Theory (consult with your advisor).
One course in Comparative/Cultural Literatures (includes any course in multi-ethnic literature, gender-based literature, world literature, or foreign language literature in translation. Check with your advisor to determine which courses may be used to fulfill this requirement.)

**Required Semester Hours: Literature Emphasis**

**Lower Division Requirements:**
12 semester hours (ENGL 201, 200 or 202, 203, 204)

**Upper Division Requirements:**
21 semester hours (see above)

**Upper Division English Electives:**
6 semester hours

Total: 39 semester hours

A minimum grade of C (2.0) must be obtained in each course in the major.

**II. The English Major: Writing Emphasis**

27 semester hours in upper division courses.

**Upper Division Requirements:**
ENGL 321 or 322.

One of the two survey courses in the History of American Literature (ENGL 371 or 372).

One course in English or American Literature before or after 1800, excluding ENGL 321 and 322.

Two 400- or 500-level writing courses, excluding ENGL 402 and 569.

One course in Theory (consult with your advisor).

One course in Comparative/Cultural Literatures/Writing (includes any multi-ethnic writing or literature course, gender-based writing or literature course, world writing or literature course, or any foreign language literature course in translation. Check with your advisor to determine which courses may be used to fulfill this requirement.)

**Required Semester Hours: Writing Emphasis**

**Lower Division Requirements:**
12 semester hours (ENGL 201, 200 or 202, 203, 204)

**Upper Division Requirements:**
21 semester hours (see above)

**Upper Division English Electives:**
6 semester hours

Total: 39 semester hours

A minimum grade of C (2.0) must be obtained in each course in the major.

**Minor Requirements**

18 semester hours beyond 100-level. ENGL 200 or 201 or 202 and at least one “survey” course selected from ENGL 203, 204, 371, or 372 must be included. At least nine semester hours, exclusive of ENGL 371 or 372, must be at the 300-, 400-, or 500-level. Three of these nine hours (or at least one course) must be selected from pre-1800 literature courses. Students may select ENGL 203 or 371 to fulfill this pre-1800 course requirement, but then they must take a second course from ENGL 203, 204, 371, or 372 to fulfill the “survey” requirement.

A minimum grade of C (2.0) must be obtained in each course in the minor.

**Minor in Screenwriting for English Majors**

The School of Film and Television offers a minor as an option to students majoring in the writing emphasis in the English Department. The minor consists of 18 semester hours. Check for the full description of the minor under the Screenwriting section of this Bulletin.
Pre-Journalism Curriculum

Although LMU doesn’t offer a journalism major or minor, a large number of LMU graduates have gone on to successful careers or graduate work in journalism. These students, who have majored or minored in English or Communication Studies, have taken advantage of a number of exciting LMU courses. These courses comprise the LMU “Pre-Journalism Curriculum” and are particularly recommended for students who intend pursuing a Masters or Ph.D. in Journalism, or who plan to work as a journalist, freelance, or for a newspaper or magazine. No student need complete all of the courses listed below, but a healthy sampling will stand a future journalist in good stead and will assist in admission to most graduate programs in journalism across the country.

It is important to note that a working journalist often develops a specialization in a particular area, such as sports, entertainment, or the environment. Content courses in these areas would, of course, be useful. The Pre-Journalism Curriculum includes Political Science courses specifically, since local, state, and national politics have an impact on most news, and politics is considered an important working knowledge base for any journalist.

A pre-journalism certificate can be issued to the student who successfully completes 18 semester hours of pre-journalism coursework. Students must take at least five of the six courses from the English Department. Only one course may be selected from another discipline. Students who seek a certificate will be advised on how to create a program that focuses on their area of interest: for example, political reporting, sports reporting, electronic media, etc.

Pre-Journalism courses are offered by a variety of departments and colleges across the University, making the Pre-Journalism Curriculum truly interdisciplinary.

Students interested in assembling a Pre-Journalism Curriculum should review each semester’s course offerings across the colleges, paying particular attention to special studies courses focusing on journalistic issues, media topics, or related fields. Students may consult with Prof. Linda Bannister, Pre-Journalism Advisor, to determine which special or new courses may be appropriate.

There are a number of Pre-Journalism eligible courses offered by the College of Communication and Fine Arts, some of which may entail prerequisites and/or college permission. Please consult with Dr. Linda Bannister for more information about these courses.

Note: Although there is no set sequence for taking pre-journalism courses, some of the above listed courses may carry prerequisite courses that must be completed first. Students interested in journalism are also strongly advised to participate in LMU’s award-winning student newspaper The Los Angeles Loyolan, the campus yearbook The Tower, and/or radio station KXLU.

A Pre-Journalism Curriculum Completion Certificate is available to those students who successfully complete (earning a C [2.0] or better in each course) 18 semester hours of approved pre-journalism coursework. Bring transcript showing 18 semester hours of accepted completed courses to Dr. Bannister at least two months prior to intended graduation. If courses are in progress during the last semester before graduation, the certificate will be issued after a final grade of C (2.0) or better is posted for each course.
Undergraduate-Level Coursework Plan for the Secondary Teacher Preparation Program for English

The Secondary Teacher Preparation Program for English is designed for students who anticipate teaching English in grades 6-8 or 9-12. Because of the rigorous standards set by the State of California for teacher credentialing, the Program at LMU is very specific in terms of the coursework you will be taking. With careful planning, however, it is possible to complete an English major, the University’s Core Curriculum requirements, the Secondary Teacher Preparation Program for English, and the School of Education’s required courses in four years (eight semesters).

This four-year plan is only a model. Course offerings vary from semester to semester. In every semester the students must meet with his or her advisor in order to decide how best to continue one’s education.

**English Model Four-Year Plan**

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

### Freshman Year

### Student Notes

- Students are advised to consult with their advisor to determine the best courses and sequence for their individual educational goals.
- Elective courses should be chosen based on personal interests and career aspirations.
- Changes to the plan may be required due to factors such as availability of courses, personal circumstances, and academic performance.
- Students are encouraged to maintain a balanced workload and to prioritize their academic success.

---

**Course Descriptions**

- **AMCS**: University Core
- **ENGL**: College Writing
- **PHIL**: Phil. of Human Nature
- **MATH**: University Core
- **HIST**: University Core
- **THST**: University Core
- **ENGL Elective Upper Division**: Students interested in creative writing should consider 300-level writing courses. These courses are prerequisites for advanced writing workshops offered in the Spring.
- **PHIL 320-330**: University Core
- **THST 3xx**: Upper Division Elective
- **Elective**: Students are advised to consult with their advisor to determine the best courses and sequence for their individual educational goals.

#### 15

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

Upper division courses are open to juniors and seniors only. With the permission of the Chairperson, ENGL 321, 322, 371, and 372 may be open to sophomores who have taken or are concurrently enrolled in the required lower division, pre-major English courses.

---

**ENGL 100**

**English as a Second Language**

3 Semester Hours

Students enroll in ENGL 100 based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A course designed to give students essential skills in writing and reading English. Students must earn a grade of C (2.0) or better in order to pass this course. Concurrent enrollment in ENGL 101 required.

**ENGL 101**

**Required Writing Lab—ESL**

1 Semester Hour

The required lab component of English 100. Taken concurrently with English 100.

Credit/No Credit grading.

Students must earn a grade of Credit in this lab course in order to pass ENGL 100.

**ENGL 110**

**College Writing**

3 Semester Hours

The art of clear and effective college writing. This course will teach students how to generate clear and persuasive expository prose suitable to a variety of academic disciplines.

A grade of C (2.0) or better is required.

**ENGL 111**

**Elective Writing Lab**

1 Semester Hour

A program of individualized tutorial instruction designed specifically to reinforce and develop those skills important to improving college-level prose.

Credit/No Credit grading.

**ENGL 115**

**University Writing Lab**

1 Semester Hour

Intensive work on individual writing issues encountered in course work across the curriculum. Emphasis is placed on clarity and style.

Credit/F grading. This course may be repeated twice for degree credit.

**ENGL 116**

**Practicum in Tutoring Writing and Liberal Arts**

1 Semester Hour

Credit/No Credit grading.

</table>
ENGL 332
The Short Story
3 Semester Hours
A study of the short story as a literary form; close reading of representative short stories by American, British, and continental writers.
Prerequisite: Junior or senior standing.

ENGL 341
Studies in World Literature
3 Semester Hours
A study of literature(s) written outside the United States and Britain.
Fulfills comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 342
The Image of Woman in Nineteenth-Century England
3 Semester Hours
A study of the attitudes towards women as they emerge in the writings of both men and women in 19th-century England.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 343
Twentieth-Century Women's Writing
3 Semester Hours
A study of literary and critical texts written by women in the 20th century.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 344
Survey of African American Writing
(See AFAM 396)
Fulfills comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 345
Studies in Multi-Ethnic Literature
3 Semester Hours
The comparative study of literatures within the American experience.
This course is repeatable for degree credit up to two times provided new course material (literature) is covered and a new subtitle has been designated.
Fulfills comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 346
Children's Literature
3 Semester Hours
A study of children's literature and the critical discussions it raises across literary and educational studies.
Open to Liberal Studies majors who are juniors or seniors.

ENGL 347
Survey in Chicana/o-Latina/o Literature
3 Semester Hours
Examines Chicana/o-Latina/o literature, its criticism as well as its various artistic genres, introducing students to its aesthetic and social value/s (see CHST 33).
Fulfills post-1800 or comparative/cultural requirement.
Prerequisite: Junior or senior standing.

ENGL 348
Modern Southern Fiction
3 Semester Hours
A study of the extraordinary artistry and unique vision of novelists from the American South, including Faulkner, Hurston, O'Connor, and Percy.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 351
Classical Mythology
3 Semester Hours
Study of the basic myths and myth patterns of the Greeks and Romans and the mythological heritage in Western Literature (see CLCV 451).
Fulfills pre-1800 requirement.
Prerequisite: Junior or senior standing.
ENGL 352
Portraits of the Artist
3 Semester Hours

Fictional, poetic, and dramatic portraits of the developing artist.

Prerequisite: Junior or senior standing.

ENGL 353
Chicana/o Conciencia
3 Semester Hours

Surveys through literary analysis and critical theory a Chicana/o form of awareness, “conciencia,” with particular attention to the intersection in Latina/o intellectual history of the aesthetic, the ethical, and the political (see CHST 406).

Fulfills post-1800 or comparative/cultural requirement.

Prerequisite: Junior or senior standing.

ENGL 354
Prison Literature
3 Semester Hours

Surveys literature written by political prisoners to examine its artistry as well as its attempt to intervene in a culture of incarceration.

Fulfills post-1800 or comparative/cultural requirement.

Prerequisite: Junior or senior standing.

ENGL 361
Reading Methods
3 Semester Hours

A survey of various methods of reading literary texts.

Fulfills theory requirement.

Prerequisite: Junior or senior standing.

ENGL 362
Reading Cultural Studies
3 Semester Hours

Examines the concept of culture in literary analysis, introducing students to different methods of reading and the analysis of power in various social categories such as race and gender, religion and nationalism.

Fulfills theory requirement.

Prerequisite: Junior or senior standing.

ENGL 371
American Literature I
3 Semester Hours

A survey of American literature from colonial times to 1865.

Fulfills pre-1800 requirement or American Survey.

Prerequisite: Junior or senior standing, or permission of the Chairperson.

ENGL 372
American Literature II
3 Semester Hours

A survey of American literature from 1865 to the present.

Fulfills post-1800 requirement or American Survey.

Prerequisite: Junior or senior standing, or permission of the Chairperson.

ENGL 373
RoadRead
3 Semester Hours

This multi-genre course explores the literature of Los Angeles and California. Involves field trips. Lab fee.

Prerequisites: ENGL 201 and either 200 or 202.

Open to English majors and minors who are juniors or seniors.

ENGL 374
RoadWrite
3 Semester Hours

This multi-genre writing course explores the literature of Los Angeles and California. Involves field trips. Lab fee.

Prerequisites: ENGL 201 and either 200 or 202.

Open to English majors and minors who are juniors or seniors.

ENGL 375
StreetRead
3 Semester Hours

Students will respond critically to literature in the classroom and run reading groups in the community.

Prerequisites: ENGL 201 and either 200 or 202.

Open to English majors and minors who are juniors or seniors.

</table>
ENGL 521
British Literature: 1660-1800
3 Semester Hours

Studies in British literature of the Restoration and eighteenth century, exclusive of the novel.
Fulfills pre-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 522
Eighteenth-Century English Novel
3 Semester Hours

The development of the English novel in its first century.
Fulfills pre-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 531
Romantic Poetry
3 Semester Hours

English poetry from Blake to Keats.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 532
The Nineteenth-Century English Novel
3 Semester Hours

The development of the English novel from Austen to Hardy.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 533
Victorian Literature
3 Semester Hours

Selected works of major poets and prose writers of the period from 1832 to 1900.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 534
Literature of the Holocaust
3 Semester Hours

A study of the literature of the Holocaust including fiction, poetry, drama, and film.
Fulfills post-1800 or comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 541
British Fiction: 1900-1950
3 Semester Hours

A study of British novels and short fiction from 1900 to 1950.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 542
British Fiction: 1950 to the Present
3 Semester Hours

A study of British novels and short fiction from 1950 to the present.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 543
British Poetry: 1900-1950
3 Semester Hours

A study of the poetry of Yeats, Eliot, Auden, Thomas, and other modernists.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 544
Modern Irish Literature
3 Semester Hours

A study of Irish literature from 1900 to World War II.
Fulfills post-1800 or comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.
ENGL 545
Contemporary Irish Literature
3 Semester Hours
A study of Irish literature from the end of World War II to the present.
Fulfills post-1800 or comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 546
Irish Renaissance
3 Semester Hours
A study of the period from the 1890s through the 1900s in Ireland focusing on the effort of Irish writers (and others) to preserve the rich legacy of Irish culture and carry it forward into the modern age.
Fulfills post-1800 or comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 547
Irish Short Story
3 Semester Hours
A study of the short story in Ireland during the twentieth century.
Fulfills post-1800 or comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 551
Early American Literature, Art, and Ideas
3 Semester Hours
An interdisciplinary survey of representative writers, artists, and philosophers from the colonial, revolutionary, and transcendental periods.
Fulfills pre-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 552
American Romanticism
3 Semester Hours
The study of such representative American writers as Poe, Hawthorne, Melville, and Whitman.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 553
American Realism and Naturalism
3 Semester Hours
The study of such representative American fiction writers as Twain, James, and Crane.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 554
Modern American Fiction
3 Semester Hours
The study of such representative novelists as Hemingway, Faulkner, Anderson, and Fitzgerald.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 555
American Fiction Since 1950
3 Semester Hours
A study of American novels and short fiction from 1950 to the present.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 556
Modern American Poetry
3 Semester Hours
The study of representative American poets from Whitman to the mid-twentieth century.
Fulfills post-1800 requirement.
Prerequisite: Junior or senior standing.

ENGL 557
Modern Drama
3 Semester Hours
British, American, and continental drama, from Ibsen to O'Neill.
Fulfills post-1800 or comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.
ENGL 558
Caribbean Literature
3 Semester Hours
The study of representative writers from the English-speaking Caribbean, such as George Lamming, Jean Rhys, Sam Salvon, and Jamaica Kincaid.
Fulfills post-1800 or comparative/cultural literatures requirement.
Prerequisite: Junior or senior standing.

ENGL 559
Survey of Literary Criticism
3 Semester Hours
The principles and practice of literary criticism from the ancient Greeks to World War II.
Fulfills theory requirement.
Prerequisite: Junior or senior standing.

ENGL 561
Contemporary Literary Criticism
3 Semester Hours
The principles and practice of literary criticism from World War II to the present.
Fulfills theory requirement.
Prerequisite: Junior or senior standing.

ENGL 562
Contemporary Rhetorical Theory
3 Semester Hours
Textual analysis and production based on contemporary rhetorical theory.
Fulfills theory or writing requirement.
Prerequisite: Junior or senior standing.

ENGL 563
Creative Writing Seminar
3 Semester Hours
An intensive writing class in fiction, poetry, drama, creative non-fiction, or some combination of these genres.
This course is repeatable for degree credit up to two times, provided new course material is covered and a new subtitle has been designated.
Prerequisites: Undergraduates must complete ENGL 311 and 411 or ENGL 312 and 412 or ENGL 313 and 413 before enrolling in ENGL 563. Junior or senior standing.

ENGL 565
Theory of Teaching Writing and Literature
3 Semester Hours
A course for current and future teachers of composition and literature designed to facilitate the application of theory to pedagogy.
Fulfills theory or writing requirement.
Prerequisite: Junior or senior standing.

ENGL 566
Metaphor: Theory and Practice
3 Semester Hours
A course investigating metaphor theoretically and in the students’ own writing.
Fulfills theory or writing requirement.
Prerequisite: Junior or senior standing.

ENGL 567
Style in Writing
3 Semester Hours
An examination of prose styles and theories of style to help students develop their own writing styles.
Fulfills theory or writing requirement.
Prerequisite: Junior or senior standing.

ENGL 569
Linguistics
3 Semester Hours
An introduction to issues in linguistics, such as phonology, morphology, syntax, and sociolinguistics.
Fulfills theory requirement.
Prerequisite: Junior or senior standing.

ENGL 571
Writing the Novella: Workshop
3 Semester Hours
Practice in writing extended narrative forms.
Prerequisite: Junior or senior standing.
ENGL 574
Rhetoric and Media
3 Semester Hours

A study of persuasion and rhetorical strategies used by the media.

Fulfills theory, writing, or comparative/cultural literatures requirement.

Prerequisite: Junior or senior standing.

ENGL 575
The Art of Rhetoric
3 Semester Hours

A survey of rhetoric from the classical to the modern period.

Fulfills theory requirement.

Prerequisite: Junior or senior standing.

ENGL 580
Comparative Drama
3 Semester Hours

An exploration of dramatic text, theory, and criticism that leads the student to an appreciation of theatre both as a literary and performance art.

Fulfills comparative/cultural literatures requirement.

Prerequisite: Junior or senior standing.

ENGL 584
The Black Aesthetic
3 Semester Hours

Study of theories of African American aesthetics.

Fulfills theory requirement.

Prerequisite: Junior or senior standing.

ENGL 598
Special Studies
1-3 Semester Hours

Prerequisite: Junior or senior standing.

ENGL 599
Independent Studies
1-3 Semester Hours

Prerequisite: Junior or senior standing.
Ethics

Director
W. Scott Cameron

Objectives
In response to the need to address ethical issues in the various professions, the Philosophy Department, in conjunction with other departments in the different Colleges and Schools of the University, offers a minor in Ethics. Its main focus is to deepen and broaden the student’s grasp of the theoretical foundations and practical applications of ethical thought. The Ethics minor will complement and support the student’s studies by encouraging reflection on the ethical issues that arise in his or her major field of study.

The objectives of this program are: 1) to heighten the student’s awareness of the pervasive moral dimensions of human experience; 2) to broaden and deepen the student’s understanding of ethical theories and their foundations; and 3) to promote moral deliberation, evaluation, decision-making, and conduct that alone can renew and sustain healthy economic, social, political, and professional institutions in concrete human communities.

Ethics Minor Student Learning Outcomes
Ethics minor students will understand:

- The historical context, the import, and the strengths and weaknesses of various paradigms of ethical reflection
- The ways in which ethical theories have been applied to concrete human concerns
- The relevance of ethical reflection to critical issues arising in their chosen major field of study.

Ethics minor students will be able to:

- Demonstrate written competency in the analysis and application of ethical theories to vexed practical problems
- Draw on their own experience and on insights gleaned from their major field of study to further the evaluation and refinement of ethical theories.

Ethics minor students will value:

- The importance of ethical reflection in creating and sustaining healthy human communities
- The productive relation between ethical reflection and other practical and theoretical pursuits
- The power of reflection and self-criticism to transform one’s self-conception as well as one’s relationships to others.

Minor Requirements
The minor in Ethics consists of 18 semester hours divided as follows:

FOUR Foundations Courses, including:

PHIL 160 and PHIL 320, which also satisfy the University’s core requirements in Philosophy.

Two further classes chosen in consultation with the Ethics minor advisor, at least one of which must be in Philosophy, though the second may be offered by departments in any of the Colleges or Schools in the University. These courses should deepen the student’s awareness of the context, presuppositions, and implications of various approaches to ethical reflection.

TWO Applications Courses including:

One course in Applied Ethics related to the student’s College or School of origin chosen from PHIL 31-330.

One elective course in Applied Ethics selected from the PHIL 31-330 options without regard for the student’s College or School of origin.

ONE Assessment Course:

PHIL 494 is a 0 credit hour Ethics Minor assessment class, to be taken once all other Ethics minor credit hours are completed or during the semester the student is completing his or her final classes for the minor.

Note: Philosophy majors or minors cannot also have an Ethics minor.
European Studies

Director
Véronique Flambard-Weisbart

Faculty
The faculty of the European Studies major are those professors in various departments of the University who regularly offer courses that are directly concerned with issues relating to Europe, or to specific countries or traditions of Europe, past and present.

Description
The European Studies major is an integrated, interdisciplinary area-studies program. Students choose from a range of courses taught in different departments, selecting a focus that reflects their individual interests (e.g., German or Irish Studies). Since the program provides the student with competence in a European language, sufficient background to grasp the complexity of European history and civilization as a whole, as well as a specialization in one field of study, it is a solid preparation for graduate school or a career in government or private enterprise. A semester of study in Europe is strongly recommended but is not mandatory.

Objectives
- Intermediate proficiency in one European language (equivalent to level 2/3 on the scale of five levels developed by the American Council on the Teaching of Foreign Language). LMU offers French, German, Italian, and Spanish in the Department of Modern Languages and Literatures as well as Greek, Latin, and Modern Greek in the Department of Classics and Archaeology.
- Knowledge of the historical, intellectual, political, and religious contexts of Europe, past and present.
- Knowledge of the art and literary works of Europeans, past and present.

European Studies Student Learning Outcomes
Students should demonstrate:
- Linguistic proficiency in one European language (French, German, Italian, Spanish, Greek, Latin, and/or Modern Greek)
- Knowledge and understanding of:
  - the history of Europe (History)
  - the history of ideas in Europe (Philosophy)
  - the politics of Europe (Political Science)
  - the religious contexts of Europe (Theological Studies)
- Familiarity with cultural expressions of Europeans such as:
  - European literature (Classics, English, European Studies, Foreign Literature in Translation, French, German, Italian, Spanish)
  - European art history and creative arts (Art History, Film, Theatre Arts)
- Reflection on/assessment of:
  - reasons why the major in European Studies was chosen
  - cultural competency (what they have learned)
  - content of the courses selected for the European Studies major
  - development and evolution in the European Studies major
  - extracurricular activities connected with the European Studies major (study abroad experiences, program-related activities, work experience/internships).

Student Learning Outcomes will be assessed through a Senior Capstone Project (EURO 500), which consists of a portfolio during the second semester of the senior year. The portfolio is a collection of multiple samples usually compiled over time accompanied by a personal reflection essay, which would show that the student has met the objectives of the European Studies Program.

Major Requirements
Lower Division Requirements (18 semester hours):

HIST 100 and 101

Elementary I and II and Intermediate I and II, or the equivalent, of one European language: FREN, GRMN, ITAL, SPAN, GREK, LATN, or MDGK (i.e., 12 semester hours). EURO 181, 182, 283, 284 language courses are available in the LMU Study Abroad Programs in Europe; Study Abroad students must take the LMU Placement Exam upon return to fulfill lower division requirements.
Upper Division Requirements (25 semester hours):

At least 9 semester hours chosen from these courses examining the historical, intellectual, political, and religious contexts of Europe, past and present.

- **CLCV: 353**
- **EURO: 381**
- **HIST: Area I: Europe, Seminars Area 1: Europe**
- **IRST: 310, 319, 345, 441**
- **PHIL: Area V: History of Philosophy, 422, 423, 424, 426, 451**
- **POLS: 324, 351, 352, 357**
- **THST: 320, 321, 322, 323, 328, 420, 425, 427**

At least 9 semester hours chosen from these courses examining the art and literary works of Europeans, past and present.

- **ARCH: 403**
- **ARHS: 303, 304, 306, 315, 410, 413, 415, 419**
- **CLCV: 304, 306, 451, 452, 454**
- **ENGL: 321, 322, 342, 502, 503, 504, 511, 512, 513, 521, 522, 531, 532, 533, 541, 542, 543, 544, 545, 546, 547, 559, 561**
- **EURO: 312, 323, 336, 339, 371, 372, 373, 432**
- **FNLT: 341**
- **FTVS: 314, 413, 514, with a European focus**
- **FREN: 333, 334, 431, 432, 443**
- **GREK: 311, 312, 321, 322, 331, 415**
- **GRMN: 321, 340, 352, 431, 432, 433**
- **IRST: 300, 303, 304, 305, 309, 317, 330, 435**
- **ITAL: 332, 333, 334, 350, 351**
- **MDGK: 341, 354, 450**
- **SPAN: 331, 451, 452, 453, 455, 457, 460**
- **THEA: 331, 336, 341, 346, 349, with a European focus**

One hour: **EURO 500**

Alternatively, students may take a second or third European language for up to 6 semester hours, and up to the same number of semester hours will be waived from the total upper division requirement. Students must still meet the University degree requirement of 45 upper division hours.

European Studies majors are encouraged to select core classes with a European focus.

---

**European Studies Model Four-Year Plan**

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

**Freshman Year**

### Fall Semester

- European Language.......................... 3
- AMCS University Core...................... 3
- ENGL 110 College Writing............... 3
- HIST 100 Found. West. Civ. to 1500.... 3
- MATH University Core.................... 3

**S.H.** 15

### Spring Semester

- European Language.................... 3
- HIST 101 Western Traditions......... 3
- Critical/Creative Arts Core......... 3
- Literature Core.................... 3
- Social Science Core............. 3

**S.H.** 15

**Sophomore Year**

### Fall Semester

- European Language.................... 3
- or HIST Contemporary Societies..... 3
- PHIL 160 Phil. of Human Nature.... 3
- THST University Core........... (3)
- CMST/Crit Thinking Core........ 3
- Social Science Core........... 3

**S.H.** 15
Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**EURO 181**

European Language and Culture I
3 Semester Hours

Introduction to a specific European language. Designed for complete beginners. No placement test necessary upon on-site arrival.

Only available to LMU Study Abroad Program students.

**EURO 182**

European Language and Culture II
3 Semester Hours

Designed for false beginners—i.e., students who either took a language a long time ago and do not remember it, or students who were exposed to the language, but not in a formal way—in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.

**EURO 198**

Special Studies
1-3 Semester Hours

**EURO 199**

Independent Studies
1-3 Semester Hours

**EURO 283**

European Language and Culture III
3 Semester Hours

Designed for students with intermediate proficiency in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.
**EURO 284**  
European Language and Culture IV  
3 Semester Hours

Designed for students with intermediate to advanced proficiency in a specific European language. Students will take a placement test upon on-site arrival to be assigned to the appropriate level.

Only available to LMU Study Abroad Program students.

**EURO 298**  
Special Studies  
1-3 Semester Hours

**EURO 299**  
Independent Studies  
1-3 Semester Hours

**EURO 370**  
Poetics of Modern Landscape  
3 Semester Hours

Comparative study of the poetics of modern landscape as reflected in contemporary French/European literature and the arts.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Summer Study Abroad Program in Paris, France.

**EURO 373**  
Paris Metisse: Multiculturalism in Paris  
3 Semester Hours

The course’s objective is to understand the concept of “métissage” in contemporary Parisian society through contact with the modern arts—poetic, pictorial, and musical—through an analysis of various texts and through personal interviews with exiles.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Summer Study Abroad Program in Paris, France.

**EURO 381**  
British Life and Cultures  
3 Semester Hours

This course will cover the historical processes that have shaped British society and that govern the social attitudes and outlook of modern Britons.

(This course can fulfill some of the requirements for the major in European Studies.)

Only available to students in the LMU Semester Study Abroad Program in London, England.

**EURO 398**  
Special Studies  
1-3 Semester Hours

**EURO 399**  
Independent Studies  
1-3 Semester Hours

**EURO 498**  
Special Studies  
1-3 Semester Hours

**EURO 499**  
Independent Studies  
1-3 Semester Hours

**EURO 500**  
Capstone Project  
1 Semester Hour

The capstone project consists of a portfolio that meets the objectives of the European Studies major.

Credit/No Credit grading.  
Prerequisite: Senior standing.

**Cross-listed Courses**

**EURO 312**  
History of International Film  
(See FTVS 314)

**EURO 324**  
Art and Architecture of Ancient Greece  
(See CLCV 304)

**EURO 325**  
Art and Architecture of Ancient Rome  
(See CLCV 306)

**EURO 336**  
Marx and Marxism  
(See POLS 324)

Geography

Director
Peter Hoffman

Objectives
Geography is one of the fundamental disciplines in the social sciences and an essential component in a liberal arts education. The critical importance of geography and the topics addressed by the discipline are recognized by its inclusion in the core curricula of the Bellarmine College of Liberal Arts, the College of Communication and Fine Arts, and the School of Film and Television.

Geography examines the relationships between people and their environment—its focus is sometimes simply referred to as “human ecology.” With a distinctly spatial perspective, geography examines the wide range of places that humans have come to occupy on the Earth. Critical to that examination are an analysis of the ways in which people have modified the environment, for both better and worse, and the long term consequences of such modifications. Geography has also traditionally been the discipline that engages in the systematic study of the world’s diverse countries and regions. With the dramatic political and economic transformations occurring throughout the world as a result of contemporary globalization, regional geographic analysis represents a continuing challenge to the discipline and gains greater importance every day.

Geography Student Learning Outcomes
By virtue of their Geography courses, students should know:

- The general global patterns of major geographic elements and processes
- The regional structures and expressions of human environmental relationships associated with the modern and postmodern realm
- The structures and expressions of human settlement associated with the developed realms/core and those associated with the less developed realm/periphery
- The basic research questions and agendas associated with human and regional geography
- The common theories, practices, and methodologies employed in contemporary human geography
- The global patterns of contemporary societies differentiated by their social and economic structures, values, and practices;

By virtue of their Geography courses, students should be able to:

- Effectively employ contemporary social science methodology in the analysis of environmental and geographic issues
- Demonstrate written and oral competencies in the analysis of environmental and geographic issues and policy
- Identify and utilize appropriate primary data for the analysis of environmental and geographic issues
- Apply their understanding of environmental and geographic issues to the development and critical analysis of programs and policies appropriate to addressing contemporary social and economic problems;

By virtue of their Geography courses, students should value:

- Diverse perspectives in the analysis and assessment of human environmental issues and global policies
- Thoughtful analysis of the implications of human population growth and evolving technologies in the context of social justice and sound environmental practices
- Rigorous, scientific research that enlightens human ecology and contributes to the resolution of social and environmental problems
- Community-based participation in the development of programs and policies that contribute to social, economic, political, and environmental improvement.

GEOG 100
Human Geography
3 Semester Hours
An introduction to general world patterns of major cultural elements and processes and their influence on relationships between human societies and their environment. Cultural and environmental differences between developed and less developed nations and their regional implications in the modern world are emphasized.

GEOG 125
Urban Physical Environment
(See URBN 125)

GEOG 198
Special Studies
1-3 Semester Hours

GEOG 298
Special Studies
1-3 Semester Hours
GEOG 299
Independent Studies
1-3 Semester Hours

GEOG 360
Modern Mexico
3 Semester Hours

A survey of the distinctive social, cultural, economic, and political elements of modern Mexico. The environmental and historical basis of the country’s recent development is examined.

GEOG 365
Metropolitan Los Angeles
(See URBN 365)

GEOG 378
International Tourism
3 Semester Hours

A survey of the social, cultural, economic, and environmental elements of international tourism with special emphasis on the impacts of the expansion of tourism from the developed nations into the less developed realm. Modern trends in tourism, such as ecotourism, are analyzed for their potential costs-benefits and their implications for careers in the tourist industry.

History

Faculty
Chairperson: John H. Grever, C.F.M.M.
Professors: Michael E. Engh, S.J.,
John H. Grever, C.F.M.M., Ernest Sweeney, S.J.,
Joseph S. Tiedemann, Lawrence A. Tittle
Associate Professors: Najwa Al-Qattan, Cara Anzilotti,
Jok Madut Jok
Assistant Professors: Carla J. Bittel, Constance J.S. Chen,
Elizabeth Drummond, Daria Muller, Suzanne O'Brien,
Anthony M. Perron, Nigel A. Raab, Nicolas Rosenthal,
Amy Woodson-Boulton

Objectives
Since history takes all knowledge for its province, it forms a bridge between all disciplines. To arrive at a fuller awareness and understanding of the many vital problems of existence, the Loyola Marymount student requires history, for without a knowledge of man and his past, no one can claim to be an educated individual or can hope to establish perspective and meaning in a course of studies for life.

History also makes an invaluable contribution to an understanding of the learning process itself and to the achievement of "learning goals." In history, the student studies evidence, selects relevant materials, searches for causes and effects, and formulates conclusions. In studying the past, a person must analyze, synthesize, evaluate, and interpret evidence. With knowledge of the historical setting, one can understand and appreciate one's own heritage and culture and the cultural experience of others.

History Student Learning Outcomes

• History students develop an understanding of events, processes, and patterns in the human experience. History students should gain an understanding of how their lives relate to a larger historical process.

• Students should be able to analyze historical texts and to gain an understanding of the methods used in interpreting the past, such as criticism of sources, the definition of historical questions, comparative analysis, and the diverse perspectives of participants in history. They will employ evidence to craft arguments about historical change and analyze the factors that cause change on local, national, and global scales.

• Students should value the vast range of ways in which individuals and societies have responded to the problems confronting them. The insights they have gained through historical analysis will enrich their lives as citizens of an interconnected world.

Major Requirements

Lower Division Requirements:
15 semester hours distributed as follows: HIST 100, 101, 161, 162, and one course selected from HIST 152, 172, 182, and 192. A student must accumulate a C (2.0) average in the prerequisite courses. In addition, the Department recommends the study of geography and foreign languages.

Upper Division Requirements:
24 semester hours in upper division courses.

All major programs must include a course in historical method (HIST 310 or 330) and at least one 500-level seminar. The remaining courses are to be chosen with the approval of the student's advisor, and not more than half of the total 24 semester hours may be taken from one of the following areas: 1) Europe, 2) United States, or 3) Africa, Asia, Latin America and modern Middle East. An average grade of C (2.0) must be obtained in the courses included in the major.

Minor Requirements
21 semester hours. One course must be selected from HIST 100 or 101; one course from 161 or 162. At least 9 semester hours must be from upper division course offerings.

The history minor is a flexible program. Aside from the two lower division course requirements, students can select any history course as long as at least three of the remaining five courses are upper division history courses. However, students might want to consider selecting courses that relate to their major and belong to geographical or thematic units.

Undergraduate-Level Coursework Plan for the Secondary Teacher Preparation Program in Social Science (History)

The Secondary Teacher Preparation Program in Social Science is designed for students who anticipate teaching history and social science in grades 6-8 or 9-12 in school settings that are departmentalized. Because of the rigorous standards set by the State of California for teacher credentialing, the Program at LMU is very specific in terms of the coursework you will be taking. With careful planning, however, it is possible to complete a History major, the University's Core Curriculum requirements, the Secondary Teacher Preparation Program's subject-matter courses in social science, and the School of Education's required courses in four years (eight semesters). Students with a History major, choosing to complete this four-year plan, will fulfill all of the required coursework at the undergraduate...
level that will lead to a B.A. degree, with a major in History, and the California 2042 Preliminary Social Science Single-Subject Credential.

This four-year plan serves only as a general model. Please meet with your advisor at least once a semester to discuss your progress in the program and plans for future semesters.

### History Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as HIST major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible in implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen. No more than 12 of the 24 upper division HIST semester hours (including seminars, but excluding HIST 310 or 330) may be taken from one of the following areas: 1) Europe, 2) United States, or 3) Africa, Asia, Latin America, and modern Middle East.

# Lower Division Courses

**HIST 100**  
**Foundations of Western Civilization to 1500**  
3 Semester Hours  
Survey of Western civilization in the ancient and medieval periods.

**HIST 101**  
**Western Traditions**  
3 Semester Hours  
Survey of Western civilization from the Renaissance to the present.

**HIST 152**  
**Modern Middle East**  
3 Semester Hours  
An introduction to the social and political history of the Middle East during the 19th and 20th centuries.

# Upper Division Courses

**HIST 161**  
**Young America, 1607-1900**  
3 Semester Hours  
A survey of American history during the colonial period, the Revolutionary era, and the 19th century.  
Fulfills U.S. Constitution requirement.

**HIST 162**  
**Contemporary America**  
3 Semester Hours  
The United States from 1900 to the present; emphasis on political and social history.  
Fulfills U.S. Constitution requirement.

**HIST 172**  
**Modern Latin America**  
3 Semester Hours  
An introduction to 19th- and 20th-century developments in Latin America.

**HIST 182**  
**Modern Asia**  
3 Semester Hours  
This course introduces major themes in East Asian history and historiography since 1600, comparing the experiences of China and Japan, and placing them in a global context.

**HIST 192**  
**Contemporary Africa**  
3 Semester Hours  
An introduction to the history of sub-Saharan Africa, from the colonial to the modern period.

# Historical Method Courses

**HIST 310**  
**History and Historians**  
3 Semester Hours  
An introduction to the study of history, including historical method, writing of history, and historical interpretation.

**HIST 330**  
**History as Detective**  
3 Semester Hours  
This course on historical evidence examines the sources which historians use: oral tradition, archeology, objects, sites, and documents.
### Area 1: Europe

HIST 485
Twentieth-Century Japan
3 Semester Hours
This course examines the history of Japanese experiences of modernity across the 20th century, focusing on the diversity, unevenness, and conflicts that are often elided by assertions of Japanese homogeneity.

HIST 490
The Quest for the Nile's Source
3 Semester Hours
A study of the quest for the source of the Nile River and the interaction of African, European, and Asian peoples in the area.

HIST 491
South Africa
3 Semester Hours
The history of South Africa during the last two centuries with emphasis on political rivalries, apartheid, and economic development.

HIST 494
Bodies and Gender in Japanese History
3 Semester Hours
This course investigates how embodiment, a fundamental aspect of human experience, varies over time and across cultures. Readings and lectures compare Euro-American ideas about bodies and gender with Japanese examples from various time periods.

Humanities

Director
Ethan Adams

Objectives
The Humanities major is designed to meet the needs of a student who has a broad interest in liberal arts but whose interest would not be served by a major program within a single department. The Humanities major is an interdisciplinary program. In the first two years the student acquires a broad background in the arts, history, and literature. Language study through the advanced level is also required. In the second two years, the student concentrates in a particular area of interest. The concentration consists of five (5) upper division courses taken from departmental offerings in Archaeology, Art History, Classics, English, French, German, Greek, History, Italian, Latin, Philosophy, Spanish, or Theological Studies. The concentration is then supported by two (2) upper division history or philosophy courses and two (2) upper division courses in either an ancient or a modern literature selected in consultation with the Humanities advisor. All Humanities majors are required to complete, in their final semester, a final project which marks the culmination of the student's interdisciplinary course of study. There are two options: the student may complete a Capstone Project (HMNT 497), which consists of a portfolio that encapsulates the student's course of study; alternately, the student may elect to write a Senior Thesis (HMNT 490), which is a substantial research project based on the student's concentration. The student who elects to write a senior thesis will choose a topic and a thesis advisor in consultation with the Director. Working closely with the thesis advisor, the student will produce a thesis which integrates the student's interests in language, literature, history, art history, or philosophy. The senior thesis is reviewed and graded by the thesis advisor and the Director.

The program is a fine preparation for students interested in professional courses in law, business, or education. Also, the program is designed to allow students to complete a major in a departmental area which would qualify them for graduate studies.

Humanities Student Learning Outcomes
By virtue of pursuing a major in Humanities,

Students should know:
- How knowledge has been pursued, established, and critically evaluated in the three different disciplines representing their concentration, their literature support, and their historical or philosophical support
- The various ways in which artists have developed the fine arts to convey their sense of the world's surface and its depth
- A foreign language
- The content as well as analytical and communicative skills that the study of their concentration demands;

Students should be able to:
- Communicate insights clearly, effectively, and with nuance in both oral and written form
- Synthesize insights from a variety of disciplines
- Develop insights from one discipline for the enrichment of others;

Students should value:
- The variety of ways in which cognitive, moral, and aesthetic disciplines have enriched our sense of the human condition
- The further pursuit of those disciplines, as required by their deeper sense of the complexity of the human condition
- Their responsibility to serve the world as whole persons, with head, heart, and hand.
Major Requirements

Lower Division Requirements:

15 semester hours distributed as follows:

- 6 semester hours from ARHS 200, 201, 202.
- 3 semester hours in Studio or Performance Arts.
- 6 semester hours from one of the following language sequences:
  - CHIN 203, 204;
  - FREN 203, 204;
  - GREK 201, any upper division Greek;
  - GRMN 201, 202;
  - ITAL 203, 204;
  - JAPN 203, 204;
  - LATN 201, any upper division Latin;
  - MDGK 203, 204;
  - SPAN 203, 204.

An average grade of C (2.0) must be obtained in courses included in the major.

Upper Division Requirements:

At least 30 semester hours in upper division courses distributed as follows:

- 15 semester hours in concentration in a departmental major.
- 6 semester hours in either an ancient or a modern literature which supports the concentration.
- 6 semester hours in either art history, history, or philosophy which supports the concentration.

And, in the final semester, either

- 3 semester hours for the Senior Thesis (HMNT 490), or 1 semester hour for the Capstone Project (HMNT 497) plus 3 semester hours in an ancient or modern literature, art history, history, or philosophy.

An average grade of C (2.0) must be obtained in courses included in the major.

The choice of a concentration and of support courses must be formally approved by the Director.

Humanities Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**HMNT 490 Senior Thesis**

3 Semester Hours

The student completes a substantive research project on his/her concentration, approaching it from the perspectives of language, literature, art history, history, and philosophy.

Prerequisites: Senior standing and consent of Director.
HMNT 497
Capstone Project
1 Semester Hour

The capstone project consists of a portfolio which summarizes the student's interdisciplinary course of study and shows how the student has integrated his or her coursework and met the objectives of the Humanities Major. C/NC grading.

Prerequisite: Senior standing.

HMNT 498
Special Studies

Irish Studies

Director
John Menaghan

Objectives
Irish Studies is an interdisciplinary minor designed to complement a wide variety of majors by providing students with an understanding of the historical and cultural development of the Irish people and the significance of their intellectual, artistic, spiritual, and economic contribution to world civilization, including their experiences as both a post-colonial nation and an emigrant diaspora. Taken together, Ireland’s historical evolution; its long experience of colonization and cultural oppression; its rich contribution to world literature, art, and music; the creative tension in contemporary Ireland between its ancient Celtic heritage and its modern Anglo-Irish/Hiberno-English identity; and its remarkable though often unacknowledged influence upon the countries—chiefly the United States, Great Britain, Canada, Australia, New Zealand and South Africa—that make up the far-flung Irish diaspora constitute a fertile field for intellectual inquiry.

Focused simultaneously on a small nation on the edge of Europe and a far-flung diaspora and offered within the context of the most culturally diverse city in the world, the minor in Irish Studies is designed to be not merely interdisciplinary but intercultural. At a time when the nearly simultaneous phenomena of a European drive toward unification and an American emphasis on diversity both complicate and enrich our very notions of what constitutes a nation, culture, or people, students minoring in Irish Studies will have the flexibility to explore the richness of the Irish experience from a broad range of perspectives and the opportunity to assess its influence not only in Europe and America but on struggles against cultural and political oppression around the globe.

Irish Studies Student Learning Outcomes

Students minoring in Irish Studies are given opportunities to learn about:

- The general history of Ireland and the Irish diaspora
- The distinctive literary achievements of the Irish
- Irish achievements in cinema and dance
- Historical, religious, and moral issues in contemporary Irish politics
- The intersection/intermingling of Celtic and Christian worldviews
- The connection of Irish struggles for freedom and self-determination to similar struggles in the United States and around the world

Students minoring in Irish Studies will be given opportunities to develop:

- Their ability to perform research into several distinct aspects of the Irish experience
- Their ability to compose well-written and thoughtful essays on Irish history, politics, religion, and culture
- Their ability to evaluate and appreciate Irish achievements in the arts
- Their ability to make connections across disciplines, countries, and cultures

Students minoring in Irish Studies will be encouraged to value:

- The Irish struggle against cultural and political oppression and its relation and continuing relevance to similar struggles around the world
- The distinctive contributions of the Irish to European, American, and world civilization.

Study Abroad
Students can earn up to six semester hours toward the minor in Irish Studies in the LMU Summer in Ireland Program at Trinity College Dublin, one of the oldest and most renowned universities in the world. Students can also arrange to spend a semester or year abroad at an Irish university.

Minor Requirements
18 semester hours, including at least one course in Irish literature and one in Irish history. At least 12 semester hours must be in upper division courses. An average grade of C (2.0) must be maintained in Irish Studies courses.

Note:

Courses offered in other departments and programs may be used as semester hours to fulfill the minor requirements in IRST, provided the student receives the approval of the Director in advance of taking the course. Students seeking such approval must arrange with the relevant instructor to complete a substantial paper/project on Ireland and/or the Irish diaspora and must submit a copy of same to the Director at the end of the course. No more than nine semester hours (3 such courses) may be applied toward the 18 total semester hours required to complete the Irish Studies minor. Such courses may also have departmental prerequisites; consult course descriptions for further details.
Liberal Arts

The following courses, offered by the Bellarmine College of Liberal Arts, are designed to enrich the academic, career-related, and life skills of our students.

**LIBA 101**
Mastering Educational Technology  
*1 Semester Hour*

A competence-based course designed to prepare first-year students to use the tools to conduct basic research, creative writing, and other academic work. Consideration of academic honesty and ethics will also be discussed.

Credit/No Credit grading.

**LIBA 125**
Study and Library Research Skills  
*1 Semester Hour*

This course covers academic skills for a successful university experience, including time management, library research processes, note taking, reading for meaning, avoiding plagiarism, and using MS Office applications.

Credit/F grading.

**LIBA 170**
An Orientation to Learning I  
*1 Semester Hour*

Information on coping with the technicalities of being a college student—registration, matriculation, library use, study skills, learning resources, career planning, college re-entry. Credit applicable for baccalaureate degree is determined by individual colleges or schools.

Encore students only.

Credit/No Credit grading.

**LIBA 171**
An Orientation to Learning II  
*1 Semester Hour*

Prerequisite: LIBA 170.

Encore students only.

Credit/No Credit grading.

**LIBA 198**
Special Studies  
*1-3 Semester Hours*

**LIBA 199**
Independent Studies  
*1-3 Semester Hours*

---

**LIBA 250**
Strategies for Career Development  
*2 Semester Hours*

This course utilizes the popular models of career theory and traditional personality assessments to help students identify interests, skills, and values and describe how they relate to a career choice. The decision-making model is utilized to synthesize personal information, and research is conducted on employment trends. By the end of the course, students will be familiarized with the job search process including resume writing, interviewing skills, and job search strategies.

Credit/No Credit grading.

**LIBA 251**
Career Development Internship  
*1 Semester Hour*

Engage in a mentoring/training type relationship with an employer in a career field of interest. Internships are established through the office of Career Development Services to aid in career decision-making, to make contacts with employers, and to evaluate employment opportunities firsthand.

This course may be repeated 3 times.

Credit/No Credit grading.

**LIBA 291**
Intercultural Practicum I  
*1 Semester Hour*

This course will teach students advanced human relations skills and provide them the occasion for integrating intercultural theory and practice in an increasingly diverse society.

Credit/No Credit grading.

**LIBA 292**
Intercultural Practicum II  
*2 Semester Hours*

This course will teach students advanced skills in cross-cultural conflict management, intercultural leadership, strategies for organizational change in multiethnic settings, institutionalizing social change, and preparing personal action plans.

Prerequisite: LIBA 291.

Credit/No Credit grading.

Completion of LIBA 291 and 292 earns the Certificate for Intercultural Competence.
LIBA 298
Special Studies
1-3 Semester Hours

LIBA 299
Independent Studies
1-3 Semester Hours

LIBA 300
Internship
0 Semester Hours

This course provides a supervised internship either on or off campus.

Credit/No Credit grading.

LIBA 351
Career Development Internship
1 Semester Hour

Engage in a mentoring/training type relationship with an employer in a career field of interest. Internships are established through the office of Career Development Services to aid in career decision-making, to make contacts with employers, and to evaluate employment opportunities firsthand.

This course may be repeated 3 times.

Credit/No Credit grading.

LIBA 398
Special Studies
1-3 Semester Hours

LIBA 399
Independent Studies
1-3 Semester Hours

LIBA 495
Seminar in College Teaching
3 Semester Hours

Seminar for students serving as teaching assistants in undergraduate courses. Topics include college teaching techniques, problems, and ethical considerations.

Consent of instructor required.

Prerequisite: Senior standing.

LIBA 498
Special Studies
1-3 Semester Hours

LIBA 499
Independent Studies
1-3 Semester Hours
Liberal Studies

Director
Linda Matthews

Objectives
The Liberal Studies program enables the student to meet the teacher preparation standards mandated by the California Commission on Teacher Credentialing. The Liberal Studies program curriculum likewise serves the Loyola Marymount University mission.

Liberal Studies Student Learning Outcomes
The Liberal Studies program student will master the content required of professional educators in the State of California, to include:

- Key concepts in the following academic fields: the social sciences and history, the arts and humanities, language studies, mathematics and science, health, physical education, human development, and in an approved academic concentration of the candidate’s choice
- Candidates will demonstrate their mastery of the subject matter by successfully passing the CSET (California Subject Examination for Teachers) at the completion of their coursework;

The Liberal Studies program student will master the skills required of professional educators in the State of California:

- To synthesize subject content in the liberal arts, professional content related to classroom teaching, and educational policies
- To apply reading, writing, and research skills appropriate to the work of the academic disciplines being studied
- To apply academic concepts to practical teaching contexts
- To analyze, reflect on, and evaluate the relationships among academic theories, the practical and applied contexts of teaching, and the multiple and complex needs of students comprising a rich and diverse globe
- Candidates will demonstrate the ability to synthesize and the other skills listed above in an exit interview conducted by the Director of Liberal Studies at the completion of required coursework;

The Liberal Studies program student will value:
- Intellectual inquiry across a range of subjects
- A world view comprising faith, social justice, and a respect for diversity
- The individual’s role as a future educator who will shape the lives of children, local communities, and larger national and global societies.

There are five components to the Liberal Studies major:

I. University Core Curriculum

50 Semester Hours
Because the subject-matter requirements set by the Commission on Teacher Credentialing are very specific, many of the core requirements for Liberal Studies majors are specified and may differ from those of other majors within the Bellarmine College of Liberal Arts. These core requirements are as follows:

- College Writing (3 semester hours): ENGL 110;
- Communication or Critical Thinking (3 semester hours): choice of one of the following: CMST 100, 110, 140, or 06;
- History (6 semester hours): HIST 300 and 301;
- Social Sciences (6 semester hours): PSYC 100 and choice of one of the following: AFAM 115, APAM 117, or CHST 116;
- American Cultures (3 semester hours): HIST 161 (fulfills the U.S. Constitution requirement for credential candidates);
- Literature (3 semester hours): choice of one of the following drama-based courses: CLCV 10, ENGL 150, 170; THEA 40, 45;
- Mathematics (see major requirements)
- Science and Technology (8 semester hours): NTLS 270 and 271 (4 semester hours each);
- Fine Arts Critical (3 semester hours): MUSC 104;
- Fine Arts Creative (3 semester hours): ART 250;
- Philosophy (6 semester hours): PHIL 160 and one course from PHIL 320-330;
- Theological Studies (6 semester hours): one course from the THST 100-level series and one course from the 300-level series.

II. Liberal Studies Major Requirements

24 Semester Hours
DANC 384: Creative Dance for Children (3 semester hours)
DANC 385: Movement Arts for Children (3 semester hours)
ENGL 305: Advanced Composition for Credential Candidates (3 semester hours)
ENGL 346: Children's Literature (3 semester hours)
HIST 366: History of California (3 semester hours)
MATH 106, 107: Mathematics for Elementary Teachers I, II (6 semester hours) Liberal Studies majors must either pass out of or take MATH 101 as a prerequisite to MATH 106, 107.
PSYC 352: Developmental Psychology (3 semester hours)

III. Education Program Requirements

21 Semester Hours
EDUC 400: Sociocultural Analysis of Education (3 semester hours)
EDUC 401: Educational Psychology for the Childhood and Adolescent Years (3 semester hours)
EDUC 409: Reading and Language Arts in the Elementary Curriculum (3 semester hours)*
EDUC 414: Theories of Second Language Acquisition (3 semester hours)
EDUC 425: Methods in English Language Development/Specially Designed Academic Instruction in English (3 semester hours)*
EDUC 434: Elementary Curriculum and Methods (3 semester hours)*
EDUC 440: Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs (3 semester hours)
EDUC 8000: Health Education in the Schools (0 semester hours)
* Starred courses require a separate application to and acceptance into the Elementary Education program or the Mild/Moderate Specialist Credential program. Acceptance into either of these programs requires an LMU cumulative GPA of 2.8. See the Director of Liberal Studies for other application requirements.

IV. Concentration

12-18 Semester Hours

In addition, Liberal Studies majors also fulfill a concentration (generally, 12 upper division semester hours) in a subject commonly taught in elementary schools or closely related areas of study. Courses applying to the concentration may not be those required of all Liberal Studies majors (see above). With careful planning the concentration can constitute most, if not all, of an LMU minor. See the Director of Liberal Studies for qualifying concentrations and their specific requirements.

V. Electives

Remaining baccalaureate units are elective. They may include the 9 semester hours of student teaching, after the Education program requirements have been completed.

Liberal Studies Model Four-Year Plan

This model is based on the student having a 12-semester-hour concentration. Students with larger concentrations or required to take MATH 101 will need to work those courses into their schedules—overloading some semesters and/or taking summer courses. This model also includes some 0-semester-hour Education requirements (TPAs: Teaching Performance Assessments which students fulfill once accepted into the Education program) which are not part of the Liberal Studies degree but are required for the teaching credential; they are represented on the model plan during the semesters in which the School of Education anticipates they would be fulfilled. In addition, before being granted the teaching credential, candidates must demonstrate basic computer skills and knowledge of health education in the schools; this is accomplished through EDUX 8000, a short course which students must arrange to take on their own before admission into the School of Education program.

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Before beginning EDUC 410: Directed Teaching, Elementary, credential candidates are required to take the CSET examination. For information about this exam, see the School of Education.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.
Modern Languages and Literatures

Faculty

Chairperson: Alicia Partnoy
Professors: Jennifer L. Eich, Véronique Flambard-Weisbart, Aíne O’Healy
Associate Professors: Rebeca Acevedo, José Ignacio Badenes, S.J., Petra Liedke Konow, Marc Lony, Alicia Partnoy, Antonia Petro
Assistant Professor: Mónica Cabrera

Objectives

Our Department equips students with language proficiency as it introduces them to the multicultural nature and historical evolution of literary and other texts in the target languages. Our courses provide opportunities to comprehend, interpret, and practice linguistic skills through oral and written exercises and assignments. Through a judicious selection of required courses and electives that include literature, history, and the arts, students explore their own beliefs and learn about those of other peoples. We thrive to provide tools to foster intercultural understanding as the basis for mutual respect, global harmony and social justice.

Courses Exempted from Challenge Examination

Lower division language courses (100-200) may not be challenged by exam. Additionally, students with significant course credit in a language from high school or college will not be allowed to enroll in the 101 course of that language.

Chinese

The 101, 102, 203, 204 series emphasizes speaking and understanding Mandarin while developing a command of Chinese characters for reading and writing. This series requires one hour weekly language lab.

CHIN 101
Elementary Chinese I
3 Semester Hours

This course enables students to speak and understand the basic linguistics of Mandarin and to read and write a limited number of Chinese characters. Importance is placed on mastery of the Pin-Yin system of pronunciation and tonal emphasis. Students develop a comprehensive speaking and listening vocabulary of approximately 450 words and a reading and writing knowledge of approximately 150 Chinese characters. Introduction to the fundamentals of Chinese grammar and selected topics on Chinese culture.

Fall semester only.

CHIN 102
Elementary Chinese II
3 Semester Hours

This course continues the study of Chinese grammar patterns; up to two-thirds of the fundamentals are taught. The primary emphasis is on speaking and understanding Mandarin. Four hundred fifty new words are introduced into the speaking and listening vocabulary and 250 new characters into the reading and writing vocabulary.

Spring semester only.

Prerequisite: CHIN 101 or equivalent, or consent of instructor.

CHIN 198
Special Studies
1-3 Semester Hours

CHIN 199
Independent Studies
1-3 Semester Hours
CHIN 203
Intermediate Chinese I
3 Semester Hours

Builds upon the fundamentals of Chinese grammar studied in CHIN 101 and 102 and introduces students to translation. Intensive practice in oral skills and the development of an increased command of reading and writing Chinese characters. Introduction of 450 new words into the speaking and listening vocabulary and 200 new characters into the reading and writing vocabulary.

Fall semester only.
Prerequisite: CHIN 102 or equivalent, or consent of instructor.

CHIN 204
Intermediate Chinese II
3 Semester Hours

Strengthens and improves Chinese language skills: speaking, listening, reading, and writing. This course emphasizes grammar, idiomatic expression, writing short paragraphs in Chinese, and translation skills. Introduction of 450 new words into the speaking and listening vocabulary and 250 characters into the reading and writing vocabulary.

Spring semester only.
Prerequisite: CHIN 203 or equivalent, or consent of instructor.

CHIN 298
Special Studies
1-3 Semester Hours

CHIN 299
Independent Studies
1-3 Semester Hours

CHIN 398
Special Studies
1-3 Semester Hours

CHIN 399
Independent Studies
1-3 Semester Hours

Filipino

The courses are designed to develop student competency in Filipino/Tagalog focusing first on the sounds and rhythm of the language, vocabulary building, and sentence patterns. A functional-situational approach to language learning is utilized to develop an understanding and appreciation of Filipino culture and customs associated with the use of various linguistic forms. All levels will enhance and work toward increased proficiency in speaking, listening, reading, and writing through language games and exercises.

FLPN 101
Elementary Filipino I
3 Semester Hours

This course is designed for students who have little or no knowledge of the language. Students will learn how to construct the basic sentence patterns in Filipino/Tagalog and to use the actor focus verbs UM, MAG, and MA and the object focus verb -IN, as well as the different sets of pronouns and their proper use: nominative, dative, and genitive.

FLPN 102
Elementary Filipino II
3 Semester Hours

This course is a continuation of FLPN 101. The course will also cover the object focus verbs -IN, I-, and -AN, the abilitative focus verbs MAKA- and MAKAPAG-, and the causative verb MAGPA-. There will be extensive role play and multimedia materials to assist students in learning the language.

Prerequisite: FLPN 101 or consent of instructor.

FLPN 203
Intermediate Filipino I
3 Semester Hours

This course is designed to strengthen listening, speaking, reading, and writing skills and to improve communicative competence by teaching social rules along with the linguistic rules. Students will be introduced to more complex sentence structures and the other verb focuses: locative, instrumental, and directional.

Prerequisite: FLPN 102 or consent of instructor.
FLPN 204
Intermediate Filipino II
3 Semester Hours

This course is a continuation of FLPN 203. Students will have extensive practice in narration (pagsasalaysay); description of people, places, objects, feelings (paglalarawan); defining and explaining a procedure (paglalahad); and argumentation (pangangatwiran). More complex grammatical structures and readings will be used to further the students' proficiency in the language.

Prerequisite: FLPN 203 or consent of instructor.

Foreign Literature in English Translation

The following are courses offered in foreign literature for which no knowledge of the foreign language is required.

FNLT 180
World Literature
3 Semester Hours

A study of selected texts from international literature.

FNLT 341
Introduction to Modern Greek Literature
(See MDGK 341)

FNLT 398
Special Studies
1-3 Semester Hours

FNLT 399
Independent Studies
1-3 Semester Hours
French/Francophone Studies

Objectives

The French/Francophone Studies curriculum is designed to enhance students' understanding of the French/Francophone world by exposing them to French/Francophone cultures and perspectives. It also responds to the increasing demand for a more practical emphasis in language learning after the lower division level and allows students to tackle the professional world immediately beyond graduation. It may complement LMU’s Summer Study Abroad Program in Paris, France.

French/Francophone Studies Student Learning Outcomes

Student Learning Outcomes will be assessed through a Senior Capstone Project (FREN 500) which consists of a portfolio during the second semester of the senior year. The portfolio is a collection of multiple samples usually compiled over time accompanied by a personal reflection essay which would show that the student has met the objectives of the French/Francophone Studies program.

Majors in French/Francophone Studies will know:

• The principal aspects of the French language
• The principal aspects of French/Francophone cultures and civilizations
• The principal aspects of cultural expressions such as literature, art, social practices, gender, and media of the French-speaking world;

Majors in French/Francophone Studies will be able to:

• Understand spoken French
• Speak and write French
• Read literary texts in French and discuss their content, technique, and social significance;

Majors in French/Francophone Studies will value:

• French/Francophone cultures and civilizations
• French cultural expressions
• Increasing intercultural awareness.

Major Requirements

Lower Division Requirements:

FREN 101, 102, 203, 204.

These requirements may be waived or modified based upon proficiency demonstrated on the LMU French Placement Examination. For majors, a minimum grade of C (2.0) is required in all pre-major courses.

Upper Division Requirements:

25 semester hours in upper division courses: FREN 301, 314, 321, 333, 334, three courses in the 400-level series, and 500.

A minimum grade of C (2.0) must be maintained in all upper division courses.

Minor Requirements

18 semester hours taken beyond FREN 203: FREN 204, 301, 314, 321, 333 or 334, and one (1) course in the 400-level series.

The FREN 101, 102, 203, and 204 series is recommended for those who seek basic proficiency in the language. This series requires attendance of a one hour weekly language lab.

French Placement Exam

Any student who has knowledge of or has had prior instruction in French in high school or at a college or university other than LMU must take the French Placement Exam. This exam is administered by the Learning Resource Center during summer Orientation sessions and at the beginning of the Fall and Spring terms.

This requirement includes students who have taken the AP French Exam in high school. Generally, a student who receives a score of 5 or 4 on the AP French Exam (Language or Literature) places in FREN 204. Final placement is conditional upon the instructor’s consent. Course credit will be given for FREN 101, 102, and 203 once the student’s official scores have been received from the College Board. It is the responsibility of each student to ensure that the official AP scores have been sent to Loyola Marymount University.

French/Francophone Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

S.H. 16

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.
FREN 101  
Elementary French I  
3 Semester Hours

A course intended for students who have not taken French before. Based on a communicative approach, the course emphasizes reading, writing, and oral proficiency in basic French. Materials covered include an introduction to all articles, pronouns, regular and irregular verbs in past and present tenses and in indicative and imperative modes, adjectives, prepositions, and basic vocabulary.

FREN 102  
Elementary French II  
3 Semester Hours

A continuation of FREN 101. New materials covered include an introduction to pronominal verbs, verbs in the future tense and in the subjunctive and conditional modes, adjectives, pronouns, adverbs, and many idiomatic vocabulary and verbal expressions.

Prerequisite: FREN 101 or by LMU Placement Exam.

FREN 203  
Intermediate French I  
3 Semester Hours

After reviewing FREN 101 and 102, an introduction to more complex linguistic patterns presented in a French/Francophone cultural and comparative context. Includes practice in speaking, listening, reading, and writing through discussion of short texts, written exercises and short compositions, and work with multimedia resources.

Prerequisite: FREN 102 or LMU Placement Exam.

FREN 204  
Intermediate French II  
3 Semester Hours

Developing complex linguistic patterns introduced in FREN 203 in a French/Francophone cultural and comparative context. Includes more practice in speaking, listening, reading, and writing through discussion of various texts, written exercises and longer compositions, and work with multimedia resources.

Prerequisite: FREN 203 or by LMU Placement Exam.

FREN 298  
Special Studies  
1-3 Semester Hours

FREN 299  
Independent Studies  
1-3 Semester Hours

FREN 301  
French Pronunciation Clinic  
3 Semester Hours

A course designed for students who want to specialize and/or improve their pronunciation in French. Offers an initiation to French literature, drama, and poetry through the apprenticeship of French pronunciation.

Spring semester only.

Prerequisite: FREN 204 or by consent of instructor. May be taken concurrently with FREN 204.

FREN 314  
Stylistics and Translation  
3 Semester Hours

A study of different modes of writing and of the major grammatical, stylistic, and vocabulary challenges when translating from English into French and vice versa. Practice with a broad range of literary, professional, and journalistic texts.

Spring semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

FREN 321  
Writing Workshop in French  
3 Semester Hours

A course designed to improve written expository prose in French. Practice of various forms of writing, such as extensive, intensive, and team writing, through the approach of global simulations.

Fall semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.

FREN 333  
French Literature and Society I  
3 Semester Hours

A survey of literary themes and of the evolution of the social, political, and philosophical ideas in France, expressed in a variety of forms through the works of major writers, from the inception of French literature to the French Revolution.

Fall semester only.

Prerequisite: FREN 204 or by LMU Placement Exam.
FREN 334
French Literature and Society II
3 Semester Hours
An overview of French literature and of modernity through the study of French novels, short fiction, drama, and poetry, by representative writers, from the French Revolution to present times.
Spring semester only.
Prerequisite: FREN 204 or by LMU Placement Exam.

FREN 398
Special Studies
1-3 Semester Hours
Prerequisite: FREN 204 or by LMU Placement Exam or consent of instructor.

FREN 399
Independent Studies
1-3 Semester Hours
Prerequisite: FREN 204 or by LMU Placement Exam or consent of instructor.

FREN 431
Fictions of Culture, Film, and Other Media
3 Semester Hours
A course designed to introduce students to French culture through films and other media.
May be repeated as specific content changes.
Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 432
Women in French
3 Semester Hours
An examination of the issues raised in women's writings in French as well as a study of French feminism across the disciplines.
May be repeated as specific content changes.
Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 433
Francophone Literature
3 Semester Hours
A study of representative writers from the French-speaking world outside of France.
May be repeated as specific content changes.
Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 443
Selected Topics in French
3 Semester Hours
Topics in French literature and culture.
May be repeated as specific content changes.
Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 498
Special Studies
1-3 Semester Hours
Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 499
Independent Studies
1-3 Semester Hours
Prerequisite: One (1) FREN 300-level course or by consent of instructor.

FREN 500
Senior Capstone Project
1 Semester Hour
Exit portfolio (for majors only).
Credit/No Credit grading.
Seniors only.
German

Objectives

During the phase of early language acquisition, our German courses build students’ language skills and intercultural awareness. While still perfecting their language skills, students in GRMN 203 and above are introduced to short German prose from a variety of literary traditions. Literature courses range from a general survey of German literature over the centuries to the study of specific genres, such as drama, the novella, and the German fairy tale. In addition to literary studies, the German section also offers a course on German film and a course on German culture and civilization that provides an introduction to German history, society, politics, and the arts, while developing students’ general intercultural awareness. For students interested in the language of business, the German section offers two business-related courses.

German Student Learning Outcomes

Students minoring in German will know:

- The principal aspects of the German language
- The principal aspects of the history of German literature and film
- The principal aspects of the history and culture of German-speaking countries;

Students minoring in German will be able to:

- Speak, understand, read, and write German in meaningful contexts
- Use the latest relevant applications in educational technology
- Read literary texts in German and discuss their content, techniques, and social significance;

Students minoring in German will value:

- German language, literature, and culture
- Expressing independent critical opinions
- Increasing intercultural awareness.

German courses at LMU foster communication and understanding others as essential aspects of the education of the whole person. Students thus embark on a road of lifelong learning that will take them into a richer future.

Minor Requirements

The German minor consists of 18 semester hours above the 100 level: GRMN 203, 204, 301, and three courses from upper division offerings (300-400 level). Within this minor a professional German emphasis is possible, with GRMN 302 and 437 as upper division course options for the business-oriented student.

The GRMN 101, 102, 203 series is recommended for those who seek a basic speaking, writing, and reading knowledge of the language. GRMN 101 and 102 require one hour weekly in the Department’s language center, or its equivalent. The conversation courses are designed to be taken concurrently with regular language courses.

Once per year in the Spring, the German section offers a general proficiency test in German (ZD), which is internationally recognized and certifies the language skills of the student to prospective employers in the public and private sector.

Students of German may wish to take advantage of LMU’s semester or full year New Europe Program in Bonn, Germany, to improve their language skills. Lower division elementary and intermediate German language courses in Bonn are listed as EURO 181 and 283 each semester. Upper division German courses are also available.

<td></td>
</tr>
</tbody>
</table>

Prerequisite: GRMN 102 or concurrent enrollment.
GRMN 203
Intermediate German I
3 Semester Hours

The first part of an intermediate course designed to review elementary grammar, as well as to develop further oral competence, with a stronger emphasis on reading and writing. Short texts provide the springboard for the promotion of vocabulary acquisition, comprehension, and the active use of oral and written German.

Prerequisite: GRMN 102 or equivalent.

GRMN 204
Intermediate German II
3 Semester Hours

The second part of an intermediate course designed to review elementary grammar, as well as to develop further oral competence, with a stronger emphasis on reading and writing. Short texts provide the springboard for the promotion of vocabulary acquisition, comprehension, and the active use of oral and written German.

Prerequisite: GRMN 203 or equivalent.

GRMN 211
Intermediate Conversational German
3 Semester Hours

Continuation of GRMN 112. A course designed to promote oral and aural proficiency and practical competence in intermediate German.

Prerequisite: GRMN 203 or concurrent enrollment.

GRMN 298
Special Studies
1-3 Semester Hours

GRMN 299
Independent Studies
1-3 Semester Hours

GRMN 301
Mastery of German
3 Semester Hours

A finishing course emphasizing oral proficiency as well as more advanced grammar aspects, reading, and writing.

Prerequisite: GRMN 204 or equivalent.

GRMN 302
Business German
3 Semester Hours

An advanced German course introducing the specialized language of everyday business dealings.

Prerequisite: GRMN 204 or equivalent.

GRMN 321
Survey of German Literature: From Beginning to Present
3 Semester Hours

An introduction to German literature from its beginning to the 20th century by means of representative texts in all genres.

Prerequisite: GRMN 204 or equivalent.

GRMN 340
German Culture and Civilization
3 Semester Hours

A survey of key aspects of German history, society, politics, and arts from the time of the Germanic tribes more than 2,000 years ago till present-day Germany.

Prerequisite: GRMN 204 or equivalent.

GRMN 352
German Cinema
3 Semester Hours

A seminar on the historical development of German cinema from German Expressionism to the present.

Prerequisite: GRMN 204 or equivalent.

GRMN 398
Special Studies
1-3 Semester Hours

GRMN 399
Independent Studies
1-3 Semester Hours

GRMN 431
German Drama
3 Semester Hours

An introduction to representative German plays since the 19th century. It includes classics from Büchner to Brecht and beyond.

Prerequisite: GRMN 204 or equivalent.

GRMN 432
German Folklore
3 Semester Hours

An introduction to the fairy tales of the Brothers Grimm and the multi-faceted fairy tale research.

Prerequisite: GRMN 204 or equivalent.
GRMN 433
The German Novella
3 Semester Hours

A close reading of representative German novellas since the 19th century. It primarily covers novellas from the Romantic and Realist tradition.

Prerequisite: GRMN 204 or equivalent.

GRMN 437
Internship Portfolio
1 Semester Hour

In conjunction with MGMT 491 (International Fieldwork Practicum) as part of the New Europe Program in Bonn, Germany. Professional German language skills are demonstrated by means of a portfolio.

Prerequisite: GRMN 204 or equivalent.

GRMN 498
Special Studies
1-3 Semester Hours

GRMN 499
Independent Studies
1-3 Semester Hours

---

Italian

Objectives

The Italian minor introduces students to the rich, complex culture of Italy, first by providing them with basic linguistic skills in the Italian language, and subsequently by familiarizing them with important literary works produced in Italy over the centuries as well as with historically significant films.

Italian Minor Learning Outcomes

Italian minors will know:

- The principal elements of Italian syntax and morphology
- Representative works of Italian literature, cinema, and other forms of cultural production
- Theoretical concepts essential for the analysis of these texts.

Italian minors will be able to:

- Communicate effectively in written and oral forms in Italian
- Understand spoken Italian
- Read modern Italian literature
- Apply acquired critical skills to textual analysis and scholarly research.

Italian minors will be encouraged to value:

- The distinctive contributions of Italian culture to world civilization
- The interconnectedness of all cultures in the global era
- The complex ways in which issues of social justice find expression in cultural production.

Minor Requirements

The minor consists of 18 semester hours taken above the 100 level: ITAL 203, 204, and four courses taken from upper division offerings. Students who have not previously studied Italian and who wish to declare a minor in Italian are advised to begin their study of the language in their freshman year.

The ITAL 101, 102, 203 series is recommended for those who seek a basic speaking, writing, and reading knowledge of the language. This series requires one hour of independent study in the language lab each week.

Japanese

The courses develop listening, speaking, reading, and writing skills using the direct method. Grammar points are explained in English. The student is provided an opportunity to practice conversation with native speakers to further improve oral skills. Selected topics are presented to enhance awareness and understanding of Japanese culture.

JAPN 101
Elementary Japanese I
3 Semester Hours

An introduction to the fundamentals of Japanese, emphasizing listening and speaking skills. Students learn to ask and answer simple questions in the present and past tense. Introduces reading and writing of Hiragana and approximately 30 Kanji along with essentials of Japanese culture and custom.

Fall semester only.

JAPN 102
Elementary Japanese II
3 Semester Hours

A continuation of JAPN 101. Introduction of Katakana and approximately 60 new Kanji. Useful grammatical patterns emphasizing the use of adjectives and verb conjugations. Practical patterns such as polite commands, permissions, prohibitions, and progressive forms are studied. Students continue to learn fundamentals of Japanese culture and lifestyle.

Spring semester only.

Prerequisite: JAPN 101 or equivalent, or consent of instructor.

JAPN 198
Special Studies
1-3 Semester Hours

JAPN 199
Independent Studies
1-3 Semester Hours

JAPN 203
Intermediate Japanese I
3 Semester Hours

A course designed to improve oral proficiency as well as reading and writing skills in Hiragana, Katakana, and Kanji. More complex grammatical patterns such as potentials, giving advice, and expressing one’s desires. Approximately 75 new Kanji are introduced, and students write short essays on selected topics. Increased knowledge and understanding of Japanese culture and customs.

Fall semester only.

Prerequisite: JAPN 102 or equivalent, or consent of instructor.

JAPN 204
Intermediate Japanese II
3 Semester Hours

A continuation of JAPN 203. A course designed to enable students to express their ideas effectively through the use of more complex patterns such as advanced relative clauses, giving and receiving verbs, volitional forms and hearsay reports. Seventy-five new Kanji are practiced, and students write short essays on selected topics. Increased knowledge and understanding of Japanese culture and customs.

Spring semester only.

Prerequisite: JAPN 203 or equivalent, or consent of instructor.

Modern Greek

For courses and curriculum in Modern Greek, see Classics and Archaeology.

Nepali

NPLI 101
Elementary Nepali I
3 Semester Hours

An introduction to the Nepali language that will provide students with the basic grammatical structures, syntax, and phonology as well as dialectal varieties of the language. The course will lead to a basic proficiency in the spoken word and written language and a cultural understanding of how the language was formed and how it functions in everyday use.

Taught in Sikkim, India.
Spanish

Spanish Major

Objectives

This major equips students with language proficiency in Spanish as it introduces them to the multicultural nature and historical evolution of Hispanic literary and cultural expressions in Europe and the Americas. It provides students with opportunities to comprehend, interpret, and practice advanced linguistic skills in Spanish through oral and written exercises and assignments. Survey and seminar classes familiarize them with representative literary works and cultural texts from Spain, Spanish America, and the U.S., and provide theoretical terminology and concepts essential for structural and conceptual analyses of these products. The major also requires the study of Spanish phonology, morphology, syntax, and dialectal varieties. Finally, it helps students to develop a sense of social justice through their consistent participation in intercultural events and service learning activities that involve both academic and culturally significant contexts.

Spanish Student Learning Outcomes

Spanish majors will know:

- The variety and nature of linguistic practices, cultural texts, and perspectives in Spanish-speaking countries
- Representative literary works and cultural texts from Spain, Spanish America, and the Latino U.S.
- Theoretical terminology and concepts essential for structural and conceptual analyses of these texts.

Spanish majors will be able to:

- Communicate creatively and effectively in written and oral forms in Spanish
- Understand spoken Spanish
- Read Spanish literature
- Apply acquired theoretical and critical skills in textual analyses and scholarly research
- Demonstrate an advanced command of how literary works, cultural expressions, and linguistic varieties of the Spanish-speaking world represent the multiplicity of human experience.

Spanish majors will value:

- The evolution and variety of perspectives in Hispanic cultures
- Social justice and intercultural awareness.

Major Requirements

Lower Division Requirements:

SPAN 101, 102, 203, and 204 or 205.

The elementary and intermediate courses may be satisfied by Advanced Placement examination. A minimum grade of C (2.0) is required in all pre-major courses.

Upper Division Requirements:

Spanish Major: The major in Spanish requires 25 semester hours in upper division courses: SPAN 321, 322, 330, 331, 332; 9 semester hours in 400-level Spanish electives; and SPAN 500, a senior portfolio (1 semester hour). Students are permitted to take up to 30 upper division hours in Spanish. Students must complete all upper division courses with a minimum grade of C (2.0) to maintain status.

Spanish Major Portfolio Requirement:

Spanish majors are required to register for a one-credit course (SPAN 500, Senior Capstone Project) in their senior year. Each graduating student constructs a portfolio that includes a 6-8 page reflective essay written in Spanish that demonstrates how the student has met the goals of the Spanish program. These goals comprise language proficiency, cultural competency, mastery of literary and linguistic studies, development of a sense of social justice through intercultural understanding, and the prospect of using this knowledge after graduation. In addition, the portfolio contains a brief description of the student's involvement in extracurricular intercultural activities connected with the Spanish major. Finally, students must orally present their portfolio to their peers and the Spanish program faculty at a group meeting.

Guidelines for the collection of materials included in the portfolio as well as deadlines for the oral presentation of the material are available in the Department. This exit interview course is graded Credit/No Credit.

Secondary Teacher Preparation in Spanish

Students interested in obtaining a secondary teaching credential in Spanish must fulfill the requirements for the Spanish major and take SPAN 420 and 432 or their equivalent. Students must attend an orientation meeting at the School of Education and apply for admission to the Secondary Teacher Preparation Program. To complete both programs in four years, students are encouraged to start this process early. Prospective teachers are also required to meet with a faculty member in the School of Education.
Spanish Minor

Lower Division Requirements:

SPAN 101, 102, 203, and 204 or 205.

Successful completion of the above courses or
placement by LMU testing in upper division course
level is a requirement prior to beginning the minor.

Upper Division Requirements:

Spanish Minor: The minor consists of 18 semester hours taken beyond SPAN 204 or 205: SPAN 321,
322, and 330, to be followed by SPAN 331, 332,
and one upper division 400-level Spanish elective.
Students must complete all upper division courses with a minimum grade of C (2.0) to maintain status.

Spanish Placement Exam

Any student who has knowledge of or has had prior
instruction in Spanish in high school or at a college or
university other than LMU must take the LMU Spanish
Placement Exam. This exam is administered by the Learning
Resource Center during the summer Orientation sessions
and at the beginning of the Fall and Spring terms.

This requirement includes students who have taken an
AP Spanish Exam in high school. Generally, a student
who receives a score of 5 or 4 on the AP Spanish Exam
(Language or Literature) places in SPAN 204 (Intermediate
Spanish II) or SPAN 205 (Intermediate Spanish II for
Latino Students). Final placement is conditional upon the
instructor’s consent. Course credit will be given for SPAN
101, 102, and 203 once the student’s official scores have
been received from the College Board. It is the responsibility
of each student to ensure that the official AP scores have
been sent to Loyola Marymount University.

Study Abroad

Students are strongly encouraged to go abroad for a
semester either during their sophomore year (Spring
semester) or junior year (Fall or Spring semester). Prior to
departure, students must obtain transfer credit approval
for any courses that they take, and no more than two
Spanish courses will transfer for the major. Consult the
Study Abroad Office or the Spanish language professors for
information about semester, year-long, or Summer study
abroad programs offered by other universities that the
Spanish program endorses.

Spanish Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By
following the model below, a student will complete all lower
division core requirements by the end of the sophomore
year as well as most major prerequisites. Note that core
areas are suggested to provide a distribution of various
disciplines every semester. Please be flexible implementing
these suggestions, given your own interests and course
availability. In four years, this plan meets all common
graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**Spanish Program Course Offerings***

* All courses are taught in Spanish unless otherwise indicated.

**SPAN 101**
**Elementary Spanish I**  
3 Semester Hours

The course emphasizes reading, writing, aural, and oral proficiency in basic Spanish and reflects the diversity within Hispanic cultures. Instruction includes articles, pronouns, regular and irregular verbs (including reflexive verbs) in the present and the past tenses of the indicative mood, adjectives, and basic vocabulary.

Prerequisite: Students with no prior study of Spanish or LMU Placement Exam.

**SPAN 102**
**Elementary Spanish II**  
3 Semester Hours

A continuation of SPAN 101. New material studied includes an introduction to the present and present perfect subjunctive, the preterite vs. imperfect tense distinction, passive se, uses of por and para, direct and indirect object pronouns, past participle, formal commands, comparisons, and additional vocabulary and idioms.

Prerequisite: SPAN 101 or LMU Placement Exam.

**SPAN 112**
**Conversational Spanish**  
1-3 Semester Hours

A course designed to permit students to learn and practice communicative strategies, increase their vocabulary, and to become acquainted with Spanish, Latin American, and U.S. Latino cultures. A final oral presentation is required.

Credit/No Credit only.

**SPAN 203**
**Intermediate Spanish I**  
3 Semester Hours

After a review of SPAN 101 and 102 material, topics include the preterite vs. imperfect tense distinction, the pluperfect indicative tense, the present and present perfect subjunctive contrasted with the indicative mood, commands, and the ser vs. estar distinction. Coursework includes the discussion of short texts, oral exercises, and medium-length compositions.

Prerequisite: SPAN 102 or LMU Placement Exam.

**SPAN 204**
**Intermediate Spanish II**  
3 Semester Hours

Course strengthens the students' receptive and productive skills in Spanish while developing an appreciation and deeper knowledge of diversity of Hispanic cultures. After a grammatical review, the course studies adverbial conjunctions, indirect speech, "SI" clauses, uses of the infinitive, relative pronouns, and the description of reciprocal actions. Students present oral and written reports in formal Spanish, to narrate and describe in paragraphs of connected discourse in high-frequency linguistic structures.

Prerequisite: SPAN 203 or by LMU Placement Exam.

**SPAN 205**
**Intermediate Spanish II for Latino Students**  
3 Semester Hours

This course, specially designed for students with a cultural Latino/Hispanic background, is the equivalent of SPAN 204. It strengthens the students' communicative skills in Spanish while developing an appreciation and deeper knowledge of their cultural background. Students are trained to present oral and written reports in formal Spanish, to narrate and describe in paragraphs of connected discourse in high-frequency linguistic structures. They will acquire and demonstrate a solid knowledge of Spanish grammar.

Prerequisite: SPAN 203 or by LMU Placement Exam.

**SPAN 211**
**Advanced Conversational Spanish**  
1-3 Semester Hours

A course designed to permit intermediate students of Spanish to learn and practice communicative strategies, increase their vocabulary, and become acquainted with Spanish, Latin American, and U.S. Latino cultures. Oral presentations are required.

Prerequisite: SPAN 203 or concurrent enrollment.

Credit/No Credit only.

**SPAN 298**
**Special Studies**  
1-3 Semester Hours

**SPAN 299**
**Independent Studies**

SPAN 453
Twentieth-Century Spanish Literature
3 Semester Hours

Analysis of representative literary works and authors from the Spanish 20th century in their historical and cultural contexts through a particular theme and from different perspectives.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 455
Early Modern Spanish Drama and Poetry
3 Semester Hours

The course analyzes poetic and dramatic works of the early modern period in Spain studied within their historical and cultural contexts. It will pay particular attention to their relevance for modern and contemporary literature.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 457
Spanish Authors
3 Semester Hours

An in-depth study of the work of a specific author, such as Miguel de Cervantes or Federico García Lorca, or a group of authors, such as Spanish women writers.

May be repeated for degree credit, when content varies.

Prerequisite: SPAN 322 or consent of instructor.

SPAN 460
Selected Topics in Spanish Studies
3 Semester Hours

Topics in Peninsular Spanish literature, film, and culture.

May be repeated for degree credit, when content varies.

Prerequisite: SPAN 322 or consent of instructor.

Tibetan

TIBN 101
Elementary Tibetan I
3 Semester Hours

This introductory course in the Tibetan language will provide students with the basic grammatical structures, syntax, and phonology as well as the varying dialects of the language. Students will have a basic proficiency in the spoken and written language by the completion of the course, and will also gain an understanding of the cultural context within the language.

Taught in Sikkim, India.
Peace Studies

Director
Daniel L. Smith-Christopher

Objectives
In order to accommodate the significant diversity in approaches to peace and justice, Loyola Marymount University’s Peace Studies program is a contract-based minor that is arranged on an individual basis, working with the particular interests and study areas of each student. Students may choose from a variety of courses that relate to chosen fields of interest and emphasis, drawing from programs such as Political Science, History, Ethnic Studies, Theological Studies, Philosophy, Classics, English, Sociology, and any number of other departments. The proposed contract, with the suggested list of courses, must be accepted in writing by both the Director of the Program and the Dean of the Bellarmine College of Liberal Arts before the minor is officially entered in the academic record of each student who wishes to enter the program.

Minor Requirements
18 semester hours (6 courses) are required for the minor. There are no required courses, but it is strongly suggested that students take THST 304, War and Peace in the Bible, as a foundation course for the program. There is a limit of 2 courses (6 semester hours) in lower division courses, and a single 400-level course is strongly encouraged. A Thesis/Independent Study option is available to fulfill this recommended course, to be arranged with the Director.

Peace Studies Student Learning Outcomes

Peace Studies minors will know:

- The approaches to war and peace of various religious traditions
- Nonviolence and Nonviolent Strategy as exemplified by Gandhi or Dr. King
- The significance of personal values arising from a commitment to peacemaking that may be applicable to one’s personal as well as social life.

Peace Studies minors will be able to:

- Suggest skills and activities that may contribute to minimizing the potential for conflict and contribute to peacemaking in a given conflict situation
- Present a coherent defense of the values of peace within selected traditions, both religious and political.

Peace Studies minors will value:

- The diversity of approaches relevant to peacemaking skills
- The historical contributions made by peacemakers in the past, and assess their contributions to continued thought in Peace Studies
- The unique legacy of nonviolence in world history
- The varied Christian traditions of peacemaking and nonviolence as a theological as well as social value
- Contributions to peacemaking that are unique to their own tradition, if non-Christian (e.g., Jewish, Islamic, Buddhist).

To demonstrate the attainment of these learning outcomes, students submit a portfolio of class papers, tests, and other assignments from the six courses approved by the Director for their minor. Please direct all questions to the Director of Peace Studies.
Philosophy

Faculty
Chairperson: Elizabeth Murray
Professors: James G. Hanink,
Mary Elizabeth Ingham, C.S.J., Mark D. Morelli,
Elizabeth Murray, Timothy Shanahan
Associate Professors: W. Scott Cameron,
Christopher Kaczor, Eric D. Perl, Thomas Sherman, S.J.,
Robin Wang
Assistant Professors: Jason S. Baehr,
Virgil Martin Nemoianu, Daniel Speak,
Brad Elliott Stone, Brian Treanor, Jeffrey Wilson

Objectives
Philosophy is a reflective and critical discipline whose aim is
to explore fundamental ideas which underlie and penetrate
human existence and constitute the deep background of
all human endeavors: ideas such as Meaning and Truth,
Knowledge and Being, Objectivity and Bias, Good and Evil,
Value and Disvalue. Philosophic inquiry into these and
related notions is governed by the complementary ideals
of analytic precision and comprehensive synthesis, and
so it aims to raise these basic notions from their everyday
obscurity, to articulate them with logical precision and rigor,
and to bind them together into an overarching vision of the
nature and purpose of human life.

Accordingly, the Department of Philosophy offers basic
courses in Critical Thinking, Human Nature, Ethics, and
Contemporary Moral Problems in the core curriculum and a
wide variety of courses complementary to studies in a broad
range of fields. For convenience, courses are grouped into
eight content areas:

I. Morality, Law, and Politics (320 through 334)
II. Natural and Social Sciences (341, 342, 343)
III. Arts and Literature (254, 351, 352, 353, 354)
IV. Religion and Theology (361 through 368)
V. History of Philosophy (381, 382, 383, 385, 387)
VI. Contemporary Movements (421 through 426)
VII. Major Thinkers (451)
VIII. Mind and Reality (461 through 464)

Philosophy Student Learning Outcomes
Philosophy students will understand:

- The history of philosophy from the pre-Socratics
to modern European thinkers
- Contemporary philosophical movements, issues,
and techniques
- Central themes in the primary texts of important
philosophers

Philosophy students will be able to:

- Demonstrate written competency in the analysis
of philosophical issues
- Apply the tools of logic in the analysis and critical
evaluation of philosophical texts
- Synthesize philosophical insights in relation to
their own lived experience

Philosophy students will value:

- The contributions of philosophers to civilization
- An understanding of the relationship of philosophy
to a variety of areas of human experience such as
faith, morality, and culture
- Rigorous philosophical inquiry and reflection
in relation to their own self-development, their
interactions with others, and the quest for a
better world.

Major Requirements
An overall GPA of C (2.0) is required for students wishing to
declare a Philosophy major.

Required:

HIST 100 and HIST 101 and PHIL 201.
The History of Philosophy sequence—PHIL 381, 383,
385, 387.

Five Philosophy electives, at least three of which must
be upper division courses taken at LMU.

PHIL 495: Senior Assessment.

Students are strongly encouraged to study a foreign
language to enhance their philosophical studies.
Programs should be planned in consultation with their
faculty advisor.

An average grade of C+ (2.3) must be maintained in
Philosophy courses by majors.

Majors may take up to 13 upper division courses in
Philosophy.
Honors in Philosophy

To graduate with honors in Philosophy, a Philosophy major must have a minimum GPA in Philosophy of 3.3, enroll in the PHIL 500 Senior Project in place of one of the upper division electives, and receive at least a grade of B+ (3.3) on the project.

Minor Requirements

18 semester hours in Philosophy, of which at least 12 are in upper division courses. Core requirements PHIL 160, 220, and 320 through 330 may be counted towards the minor. An average of C (2.0) must be attained in courses in the minor.

The Department of Philosophy also offers a minor in Ethics for students who wish to explore further the foundations of ethics and ethical issues as they arise in a range of theoretical and applied domains. Philosophy majors and minors may not minor in Ethics.

Philosophy Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as PHIL major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

### PHIL 160
**Philosophy of Human Nature**
3 Semester Hours

An introductory exploration of central questions and interpretations of human existence, carried on in light of the Catholic intellectual tradition. Satisfies core requirement in all Colleges and Schools.

### PHIL 201
**Symbolic Logic**
3 Semester Hours

An introduction to the techniques of modern mathematical logic, including proofs relying on the logic of truth-functions and quantifiers and their application to arguments in English. No mathematical training presupposed. Required for Philosophy majors.

### PHIL 220
**Critical Thinking**
3 Semester Hours

An introduction to the methods and principles of sound reasoning, with special attention to the analysis of deductive and inductive arguments, informal fallacies, and the nature and purpose of definition. Satisfies core requirement.

### PHIL 254
**Philosophy and Film**
3 Semester Hours

An investigation of the philosophical use of the film medium and an examination of particular philosophical ideas portrayed in films.

### PHIL 296
**Philosophy Proseminar**
3 Semester Hours

An introduction to philosophic research and dialogue through the examination of a philosophic issue or thinker in a seminar setting.

### PHIL 298
**Special Studies**
1-3 Semester Hours

### PHIL 299
**Independent Studies**
1-3 Semester Hours

Students may take a maximum of thirteen upper division courses in Philosophy.
### I. Morality, Law, and Politics

**PHIL 320**  
**Ethics**  
3 Semester Hours  
A study of the questions which a person must ask in forming an intelligent philosophy of moral choice, carried on in the light of the Catholic intellectual tradition. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 321**  
**Bioethics**  
3 Semester Hours  
This course looks carefully at ethical issues that arise in the field of medicine, such as abortion, euthanasia, physician-assisted suicide, and the distribution of medical resources and care. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 322**  
**Business Ethics**  
3 Semester Hours  
This course considers ethical issues that arise in the field of business. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 324**  
**Engineering Ethics**  
3 Semester Hours  
This course looks at ethical questions that arise in the sciences, especially engineering, focusing on examples such as the Challenger disaster and the decisions that led up to it. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 326**  
**Ethics of Love and Marriage**  
3 Semester Hours  
This course focuses on the ethical dimensions of friendship, love, marriage, and commitment. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 327**  
**Ethics and Education**  
3 Semester Hours  
A look at the ethical and justice-related issues posed by the institutions of public and private education in modern democracies, with special focus on education in America. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 328**  
**Media Ethics**  
3 Semester Hours  
An exploration of the ethical challenges of professionals working in the media and communications industries, providing strategies for students to assess ethical dilemmas in business and creative decisions in film, television, popular music, news, public relations, and advertising professions. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 329**  
**Topics in Applied Ethics**  
3 Semester Hours  
An in-depth study of a contemporary ethical issue. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 330**  
**Contemporary Moral Problems**  
3 Semester Hours  
A study from the perspective of ethical theory of selected moral problems of contemporary interest and significance. Fulfills the upper-division Philosophy core requirement for all Colleges and Schools.  
Prerequisite: Junior standing.

**PHIL 331**  
**Political Philosophy**  
3 Semester Hours  
A philosophical analysis of the purposes and functions of the political state, including an analysis of the limits of political authority. Course content may vary from historical surveys (of, for example, Hobbes, Locke, Hume, Rousseau, Mill) to in-depth treatments of specific schools of political theory.
PHIL 332
Philosophy of Law
3 Semester Hours

A philosophical analysis of the rule of law and the operation of contemporary legal systems. Topics will include the nature of law and legal obligations, the relation between law and morality, and the criteria for ascribing both civil and criminal (legal) liability.

PHIL 333
Feminist Theory
3 Semester Hours

A survey of the political, epistemological, and metaphysical questions raised for philosophy as traditionally conceived by the claim that sex and/or gender should play a significant role in its self-understanding.

PHIL 334
Images of Women in Philosophy
3 Semester Hours

An exploration of the understanding of women and human nature in the various philosophical traditions.

II. Natural and Social Sciences

PHIL 341
Philosophy of Science
3 Semester Hours

A study of the nature of science, with special attention to the history of science, contemporary scientific developments, and scientific method.

PHIL 342
Philosophy of Biology
3 Semester Hours

A critical examination of central philosophical issues and controversies in the life sciences.

PHIL 343
Environmental Philosophy
3 Semester Hours

This course addresses fundamental issues associated with the human relationship to the natural world. Specific topics will vary from semester to semester.

III. Arts and Literature

PHIL 351
Philosophy and Culture
3 Semester Hours

A study of cultural forms as carriers of meaning and value. Topics may vary from year to year and could include analysis of cultural modes of expression, their interpretation and their origins, cultural pluralism, cultural relativism, and the notion of the transcultural.

PHIL 352
Philosophy and the Arts
3 Semester Hours

A study of the meaning of art and what it can tell us about human beings, the nature of artistic intuition, and the creative process.

PHIL 353
Philosophy and Literature
3 Semester Hours

An investigation of the philosophical use of literature and an examination of philosophical ideas portrayed in a variety of literary works, which may include plays, novels, autobiographies, and short stories.

PHIL 354
Aesthetics in the Catholic Tradition
3 Semester Hours

A survey of aesthetic theories from the Catholic tradition, their application to religious and non-religious works of art, and a consideration of the role of the arts and imagination in Catholic intellectual life and spirituality.

IV. Religion and Theology

PHIL 361
Philosophy of God
3 Semester Hours

The focus of this course is on the debate regarding concepts of God and the arguments for and against God’s existence. It will examine the contributions of both classical and contemporary schools of thought to the debate.

PHIL 362
Philosophy and Christianity
3 Semester Hours

An exploration of central philosophical issues that arise in Christian life—understood as pilgrimage. What is happiness? How does one integrate the immanent and the transcendent? How does Christian praxis relate to the political sphere?
PHIL 363
Personalism
3 Semester Hours
An exploration of the nature of personhood and its implications for building a just society. Major personalist thinkers and critics—including Maritain, Mounier, Wojtyla, Weil, and Bellah—may provide a context for analysis.

PHIL 364
Indian Philosophy
3 Semester Hours
An introduction to Indian philosophy through a study of classic texts and contemporary philosophical developments.

PHIL 365
Chinese Philosophy
3 Semester Hours
An introduction to Chinese philosophy, its subject matter, and methodologies, with special attention to the six philosophical schools and some fundamental philosophical concepts and persistent issues that arise in the development of the Chinese philosophical tradition.

PHIL 366
Philosophy of Religion
3 Semester Hours
A philosophical investigation of the issues surrounding religion and religious beliefs. Possible topics will include: religious language, problem of evil, immortality, theism, and atheism.

PHIL 368
Chinese Ethics and Asian Values
3 Semester Hours
This course explores four schools of thought in ancient China—Confucianism, Taoism, Moism, and Legalism—focusing on each school’s texts, important characteristics, influences, ethical ideas, and their impacts on contemporary Chinese ethical thought.

Offered in Beijing.

V. History of Philosophy

PHIL 381
Ancient Philosophy
3 Semester Hours
A study of pre-Socratic thought, Plato, and Aristotle. Part of the history sequence for majors.

PHIL 382
Philosophy in Late Antiquity
3 Semester Hours
A study of major philosophical currents after Aristotle, including Neo-Platonism, Stoicism, and early Christian reactions to Greek philosophy.

PHIL 383
Medieval Philosophy
3 Semester Hours
A study of the major philosophical movements from Augustine to Ockham. Part of the history sequence for majors.

PHIL 385
Modern Philosophy I
3 Semester Hours
A study of 17th-century Rationalism and 18th-century Empiricism, including Descartes, Spinoza, Leibniz, Locke, Berkeley, and Hume. Part of the history sequence for majors.

PHIL 387
Modern Philosophy II
3 Semester Hours
A study of Kant and post-Kantian developments, including 19th-century German idealism. Part of the history sequence for majors.

PHIL 388
Special Studies
1-3 Semester Hours

PHIL 399
Independent Studies
1-3 Semester Hours

VI. Contemporary Movements

PHIL 421
Pragmatism
3 Semester Hours
A study of 19th and 20th century pragmatism, including the philosophies of Charles Sanders Peirce, William James, and John Dewey.
PHIL 422
The Analytic Tradition
3 Semester Hours
An examination of some of the most influential philosophers whose work constitutes the Anglo-American tradition of the 20th century, including Frege, Russell, G.E. Moore, Wittgenstein, the Logical Positivists, the Ordinary Language Philosophers, and several contemporary post-analytic philosophers.

PHIL 423
Phenomenology
3 Semester Hours
An introduction to phenomenological method through the close study of the works of Husserl and later phenomenologists.

PHIL 424
Existentialism
3 Semester Hours

PHIL 426
Postmodernism
3 Semester Hours
A study of strategies in Western philosophy from Meister Eckhart and Nicolaus Cusanus to Spinoza/Nietzsche/ Scheler, Fichte/Peirce/Mead, Wittgenstein/Heidegger/ Gadamer, and Derrida/Foucault.

PHIL 427
Chinese Contemporary Philosophy
3 Semester Hours
An exploration of contemporary Chinese thought, focusing on its relationship to historically important philosophies such as Confucianism and Marxism, as well as to contemporary political, ecological, and religious influences.

PHIL 428
Spanish Philosophy
3 Semester Hours
An exploration of Spanish (Iberian) philosophical figures and themes, including one or more of the following thinkers: Seneca, Averroës, Maimonides, Llull, Ibn Al'Arabi, Vives, St. Teresa of Jesus, St. John of the Cross, Suárez, Unamuno, Ortega y Gasset, Zubiri, Mora, Marias, and/or Trias.

VII. Major Thinkers

PHIL 451
Major Thinkers
3 Semester Hours
Concentrated study of a single, major philosopher. Repeatable for degree credit.

VIII. Mind and Reality

PHIL 461
Epistemology
3 Semester Hours
An introduction to the principal problems of epistemology as they appear in both classical and contemporary theories.

PHIL 463
Metaphysics
3 Semester Hours
An introduction to classical and contemporary metaphysics, the general theory of being. Topics often include analogy, essence and existence, matter and form, potency and act, causality, and the transcendentals.

PHIL 464
Philosophy of Mind
3 Semester Hours
An exploration of the nature of mind. Topics may vary and may include consciousness, experience, the self, the historical discovery of mind, and consideration of psychological theories of mental operations. Alternative theories will be critically examined.

PHIL 481
Special Topics
3 Semester Hours
A seminar course which aims to expose students to the current research and special philosophical interests of departmental faculty. Topics vary from semester to semester.

PHIL 494
Ethics Minor Assessment
0 Semester Hours
Assessment of student learning outcomes for the Ethics minor program. Includes completion of survey instruments, senior exit interview, and other forms of program evaluation.
CR/NC grading only.
Senior Ethics minor program students only.
Prerequisites: All required courses for the Ethics minor program either already completed or currently in progress.
PHIL 495
Senior Assessment
0 Semester Hours

Assessment of student learning outcomes in the field of philosophy. Includes completion of survey instruments, senior exit interview, or other forms of end-of-program evaluation.

CR/NC grading only.

Senior Philosophy majors only.

Prerequisites: All required courses for the major in Philosophy completed or currently in progress.

PHIL 498
Special Studies
1-3 Semester Hours

PHIL 499
Independent Studies
1-3 Semester Hours

PHIL 500
Senior Project
3 Semester Hours

A research and writing project completed under the guidance and direction of a faculty supervisor.
Political Science

Faculty
Chairperson: Evan Gerstmann
Professors: Michael A. Genovese, Seth B. Thompson
Associate Professors: Lance H. Blakesley, Jodi Susan Finkel, Evan Gerstmann, Fernando J. Guerra, Janie S. Steckenrider
Assistant Professors: Richard Fox, Wayne Le Cheminant, John Parrish

Objectives
The Department challenges and encourages students to:

• be perceptive observers of political life in all its variety and richness;
• seek a systematic understanding of the causes and consequences of political institutions, policies, and behavior;
• develop a moral and ethical perspective that allows them to critically evaluate actions, institutions, and policies; and
• prepare themselves for a life of active citizenship and involvement in creating a more just and humane world.

The Department challenges and encourages its faculty to:

• master the art of teaching,
• contribute to their profession as active scholars and researchers, and
• promote an atmosphere of care and concern for each student inside and outside the classroom.

Both faculty and students share a responsibility for creating a lively and diverse community of scholars marked by civility, mutual respect, and support.

Political Science Student Learning Outcomes
The Political Science Department strives to help all majors:

1) Broaden and deepen their knowledge of political institutions and of the forces that drive political movements, public policy, and public law.
2) Be able to use the major analytic and theoretical frameworks in several subfields of political science in order to effectively describe, explain, and predict political phenomena.
3) Be able to structure and evaluate normative political arguments.
4) Be able to effectively use evidence to analyze empirical political statements.
5) Develop a greater appreciation of the values and factual assumptions that underlie one's own political ideology.
6) Value active and engaged citizenship.

Major Requirements
Lower Division Requirements: 12 semester hours

POLS 130, 150, 210, 220.

An average grade of C (2.0) must be obtained in these courses.

Upper Division Requirements: 24 semester hours, including

1) At least one course in three of these five groups: Political Thought, U.S. Politics, Public Administration and Policy Analysis, Comparative Politics, and Public Law;
2) At least one course in International and World Politics. It is strongly recommended that POLS 360 be the first course taken in this group;
3) At least one 500-level seminar, preferably in the senior year.

An average grade of C (2.0) must be obtained in courses included in the major.

Minor Requirements
18 semester hours in Political Science, including two of the lower division major required courses listed. The remaining 12 semester hours must be upper division and selected from at least two of the groups 2 through 7. Specific programs should be planned individually with the advice of a faculty advisor.

An average grade of C (2.0) must be obtained in the courses included in the minor.

Honors in Political Science
Students who attain a GPA of 3.5 of higher, both overall and in the major, are eligible to enroll in the Honors Seminar (POLS 581) in the Fall of their senior year and to write an Honors Thesis (POLS 591) in the Spring of the senior year. The Honors Seminar is a prerequisite for the Honors Thesis. Students who attain a grade of A- or higher for the Honors Thesis will graduate with Honors in Political Science. Both the Honors Seminar and Honors Thesis count toward the 27 semester hours of upper division course work required of majors.
Undergraduate-Level Coursework Plan for the Secondary Teacher Preparation Program in Social Science (Political Science)

The Secondary Teacher Preparation Program in Social Science is designed for students who anticipate teaching history and social science in grades 6-8 or 9-12 in school settings that are departmentalized. Because of the rigorous standards set by the State of California for teacher credentialing, the Program at LMU is very specific in terms of the coursework you will be taking. With careful planning, however, it is possible to complete a Political Science major, the University's Core Curriculum requirements, the Secondary Teacher Preparation Program's subject-matter courses in social science, and the School of Education's required courses in four years (eight semesters). Students with a History major, choosing to complete this four-year plan, will fulfill all of the required coursework at the undergraduate level that will lead to a B.A. degree, with a major in Political Science, and the California 04 Preliminary Social Science Single-Subject Credential.

Four-and-One-Half-Year Plan for the Political Science Major (141 Semester Hours)

### Political Science Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

### Group 1:

#### POLS 130
**American Politics**

*3 Semester Hours*

- A survey of the basic structure and procedures of the American political system.
- Prerequisite: Political Science majors and minors only.

#### POLS 135
**Contemporary American Politics**

*3 Semester Hours*

- An overview of the major political processes in contemporary American life.
- Prerequisite: Non-Political Science majors only.

#### POLS 150
**Comparative Politics**

*3 Semester Hours*

- Analyzes political institutions and policies in democratic and authoritarian countries. Combines conceptual understanding with case studies from Europe, Africa, Asia, and Latin America.
- Prerequisite: Political Science majors and minors only.

#### POLS 155
**Comparative Foreign Governments**

*3 Semester Hours*

- Analyzes political institutions and policies in democratic and authoritarian countries. Combines conceptual understanding with case studies from Europe, Africa, Asia, and Latin America.
- Prerequisite: Non-Political Science majors only.

#### POLS 198
**Special Studies**

*1-3 Semester Hours*

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.
POLS 199
Independent Studies
1-3 Semester Hours

POLS 210
Empirical Approaches to Politics
3 Semester Hours

This course introduces the assumptions of the scientific approach in the study of politics, the process of concept formation, and research design. Includes data analysis laboratory sessions.

Prerequisite: POLS 130.

POLS 220
Survey of Political Thought
3 Semester Hours

An overview of major issues and key concepts in political theory. The course develops students’ writing skills.

POLS 298
Special Studies
1-3 Semester Hours

POLS 299
Independent Studies
1-3 Semester Hours

POLS 380
Washington Internship
1-6 Semester Hours

The academic component of a supervised internship in Washington, D.C.

Credit/No Credit grading only.

POLS 381
Internship
1-3 Semester Hours

The academic component of a supervised internship in an appropriate agency in Los Angeles or Sacramento.

In addition to the internship itself, the student must meet regularly with a faculty member selected prior to the start of the internship and write a research paper.

Credit/No Credit grading only.

POLS 385
Political Films and Media
3 Semester Hours

An examination of the role of print and electronic media in politics and an exploration of political themes as presented in movies.

POLS 398
Special Studies
1-3 Semester Hours

POLS 399
Independent Studies
1-3 Semester Hours

POLS 430
Campaign
1 Semester Hour

A study of the candidates and issues involved in the fall campaign of each election year.

Offered for Credit/No Credit only.

POLS 435
The Politics of California
1-3 Semester Hours

An examination of the structure and dynamics of California government and politics.

POLS 485
Practicum in Politics
3 Semester Hours

Involves a combination of field work with assigned readings, research, and group discussion with others engaged in these same endeavors.

POLS 491
Special Studies
1-3 Semester Hours

POLS 498
Special Studies
1-3 Semester Hours

POLS 499
Independent Studies
1-3 Semester Hours

POLS 581
Honors Seminar
3 Semester Hours

A particularly challenging senior seminar for students contemplating graduate work. Also provides preparation for writing a senior thesis.

Prerequisites: POLS 210, 220, senior standing, and consent of instructor.
POLS 590
Senior Thesis
3 Semester Hours

The senior thesis provides the opportunity for students to complete a substantive research project to culminate their study of Political Science.

Prerequisites: POLS 210, senior standing, and consent of department chairperson. Also, the student must obtain the written approval of the faculty supervisor the semester prior to writing the thesis.

POLS 591
Honors Thesis
3 Semester Hours

This is an opportunity for Honors-Eligible students to complete a substantive research project to qualify for Departmental Honors.

Prerequisite: POLS 581.

Group 2: Political Thought

POLS 323
American Political Thought
3 Semester Hours

A study of the origin and development of liberal democracy from Hobbes and Locke to contemporary American thinkers and groups.

POLS 324
Marx and Marxism
3 Semester Hours

An examination of the Marxist contribution to socio-political thought from Marx to the current era.

POLS 325
Classical and Christian Political Theory
3 Semester Hours

A survey of Western political thought from ancient Greece through the Renaissance.

POLS 326
Modern Political Theory
3 Semester Hours

A survey of Western political thought from the Renaissance through the 19th Century.

POLS 327
Contemporary Political Theory
3 Semester Hours

POLS 392
Special Studies in Political Thought
1-3 Semester Hours

POLS 420
Ethics, Politics, and Policy
3 Semester Hours

An examination of the ethical dimensions of domestic policy and political action. The course combines theoretical analyses and case studies.

POLS 421
Ethics of War
3 Semester Hours

An examination of the ethical dimensions of military and political action, with special attention to just war theory and its applicability to today's world. The course combines theoretical analyses and case studies.

POLS 422
Human Nature and Politics
3 Semester Hours

An examination of how conceptions of human nature have shaped our conception and practice of the good life and the good polity.

POLS 423
Political Rhetoric
3 Semester Hours

An examination of how rhetoric shapes political life and social goals. This course analyzes how the structure and content of arguments helps to create political narrative and guide political action.

POLS 492
Special Studies in Political Thought
1-3 Semester Hours

POLS 520
Modes of Political Inquiry
3 Semester Hours

An examination of the major frameworks of political inquiry: traditional, behavioral, and critical approaches.

Prerequisite: POLS 210.

POLS 521
Visions of Freedom
3 Semester Hours

This course focuses on issues such as “what is a free society?” and “why is freedom important?” Also examines legal and constitutional issues of freedom.
### POLS 592
**Special Studies in Political Thought**  
*1-3 Semester Hours*

Prerequisites: POLS 210 and senior standing.

### Group 3: U.S. Politics

#### POLS 331
**Political Socialization**  
*3 Semester Hours*

This course focuses on the processes of political learning involved in the development of the political self from childhood through the adult years. Emphasis on the individual's orientations and on political culture.

#### POLS 332
**Political Parties and Elections**  
*3 Semester Hours*

An analysis of political parties from the institutional and behavioral perspectives. Focus on party structures, participation, and the contemporary electoral process.

#### POLS 333
**The United States Congress**  
*3 Semester Hours*

A study of the workings of the U.S. Congress with an emphasis on congressional elections, the legislative process, relations with other institutions, and representation.

#### POLS 334
**Presidency**  
*3 Semester Hours*

A study of the powers, process, and problems of the modern United States presidency.

#### POLS 336
**The Judiciary**  
*3 Semester Hours*

A study of how America's courts really work, focusing on the role of judges, juries, and attorneys.

#### POLS 337
**Racial and Ethnic Politics**  
*3 Semester Hours*

Comparative analysis of racial and ethnic groups within the United States political system. A focus on the effect of political institutions on minority groups at federal, state, and local levels. Examines the experience of minority groups to illuminate political process in the U.S.  
(See CHST 337)

#### POLS 338
**Civil Rights Movements**  
*3 Semester Hours*

An analysis of the current issues and controversies facing several civil rights movements.

#### POLS 393
**Special Studies in U.S. Politics**  
*1-3 Semester Hours*

#### POLS 431
**Public Opinion and Polling**  
*3 Semester Hours*

An examination of public opinion and political participation in terms of their development, trends, measurement, and influencing factors.

#### POLS 436
**Politics of Los Angeles**  
*3 Semester Hours*

A study of the structure and dynamics of county, city, and special district governments in the Los Angeles metropolitan area.

#### POLS 437
**Chicana/o Politics**  
*3 Semester Hours*

A study of the social and political development of the Chicano community in the United States.  
(See CHST 337)

#### POLS 438
**Women and Politics**  
*3 Semester Hours*

An analysis of the issues and topics resulting from the intersection of gender with the political system.

#### POLS 439
**Political Psychology**  
*3 Semester Hours*

A study of the relationship between selected psychological and social-psychological characteristics of individuals and political behavior.

#### POLS 493
**Special Studies in U.S. Politics**  
*1-3 Semester Hours*

#### POLS 593
**Special Studies in U.S. Politics**  
*1-3 Semester Hours*

Prerequisites: POLS 210 and senior standing.

</table>
Group 6: International and World Politics

POLS 360
World Politics
3 Semester Hours

An analysis of how nations behave and why. International conflict and cooperation, with an emphasis on nation-state interaction.

Prerequisite: Political Science majors and minors only.

POLS 361
International Cooperation
3 Semester Hours

A study of the patterns of formal institution building and informal regime definition that underlie and define the development of cooperative relationships among the nations of the world.

POLS 362
International Security
3 Semester Hours

A survey of challenges to security and peace in modern international relations, such as war, the nuclear peril, terrorism, revolution, ecological dangers, economic pressures, and sociodemographic crises.

POLS 365
United States Foreign Policy
3 Semester Hours

Analysis of recent United States foreign policy with a focus on the policy making and implementation process.

POLS 396
Special Studies in International and World Politics
1-3 Semester Hours

POLS 461
United States and Latin America
3 Semester Hours

A survey of the international relations between the United States and the countries of Latin America.

POLS 465
World Political Economy
3 Semester Hours

A study of international political economy with an emphasis on North-South relations.

POLS 496
Special Studies in World Politics
1-3 Semester Hours

POLS 560
Global Agenda
3 Semester Hours

A senior seminar focusing on global political dynamics, transformations, and issues.

Prerequisites: POLS 210 and senior standing.

POLS 596
Special Studies in World Politics
1-3 Semester Hours

Prerequisites: POLS 210 and senior standing.

Group 7: Public Law

POLS 370
Elderly and the Law
3 Semester Hours

A study of the intersection of aging issues with the legal system including advance directives, guardianships, wills and trusts, assisted living arrangements, health care benefits, age discrimination in employment, long term care, and elder abuse.

POLS 397
Special Studies in Public Law
1-3 Semester Hours

POLS 471
United States Constitutional Law: Case Method I
3 Semester Hours

Judicial, executive, and legislative power; individual rights.

POLS 472
United States Constitutional Law: Case Method II
3 Semester Hours

Freedom of Speech and Equal Protection.

POLS 475
International Law
3 Semester Hours

Focus on some of the major doctrines of international law and the processes of making and implementing law in the contemporary international system.

POLS 497
Special Studies in Public Law
1-3 Semester Hours
POLS 570
Child Advocacy Seminar
3 Semester Hours

Internship and seminar exploring family and juvenile law with an emphasis on Los Angeles.

Prerequisites: POLS 210, senior standing, and consent of instructor.

POLS 571
The Law and Presidential Power
3 Semester Hours

A senior seminar examining the ways and extent to which the Constitution and statutes empower and enchain the American President.

Prerequisites: POLS 210 and senior standing.

POLS 572
Women and the Law
3 Semester Hours

This course focuses on the evolution and current situation of how women and their related issues fare in the legal system, including domestic violence, child custody, reproductive rights, marriage and divorce, domestic partnerships, education, employment, sexual harassment, prostitution and pornography.

Prerequisites: Senior standing and Political Science majors only.

POLS 597
Special Studies in Public Law
1-3 Semester Hours

Prerequisites: POLS 210 and senior standing.
Psychology

Faculty
Chairperson: Cheryl N. Grills
Associate Professors: Jennifer S. Abe-Kim, Joseph W. LaBrie, S.J., Michael E. Mills
Assistant Professors: Adam Fingerhut, Máire Ford, David J. Hardy, Margaret Kasimatis, Nora Murphy, Vandana Thadani

Mission
The Psychology program shares the University's commitment to develop ethical leaders for a culturally diverse world, and contributes to the liberal education of students. Through a comprehensive education in the science of psychology, the Psychology Department seeks to educate the whole person, pursue academic excellence, advance scholarship, promote service and justice, and encourage life-long learning.

Description
The Psychology Department provides a high quality curriculum emphasizing excellence in teaching and learning. Students majoring in psychology examine in depth many aspects of human and animal behavior, along with the biological, psychological, and sociocultural aspects of behavior. Students are provided the opportunity to apply these perspectives to a variety of individual, family, and community contexts. As students progress through the curriculum, they have opportunities to assist faculty with research and engage in their own research with faculty supervision. The program prepares students for graduate study in psychology and related fields or careers in other professions.

Goals and Objectives
The goals of the Psychology curriculum focus on educating students in the methodology, content, and application of psychological science.

Goal 1: Theory and Methodology in Psychology
Students should:
• Understand the role of psychology as a discipline that uses an empirical approach to knowledge; and
• Use, respect, and value skeptical inquiry, critical thinking, and the scientific approach to understanding behavior.

Knowledge areas students will study/learn:
• Basic research methods and ethics
• History and systems and philosophy of science
• Data analysis and interpretation
• Scientific and critical thinking
• Scientific writing and communication.

Goal 2: Mastery of Content (Discipline Specific Knowledge)
Students should be familiar with:
• Core theoretical approaches and research findings that reflect a biopsychosocial understanding of behavior; and
• More in-depth theoretical approaches and research findings within at least one subject area in psychology.

Core knowledge areas students will study/learn:
• Biological foundations of behavior
• Psychological foundations of behavior
• Social and cultural foundations of behavior
• Biopsychosocial development across the lifespan.

Goal 3: Application of Knowledge and Scientific Method
Students should demonstrate the application of psychological theory, methodology, and findings to:
• An understanding of the whole person, as an individual and as a member of a larger community, society, and culture; and
• The promotion of social justice in these contexts.
Psychology Student Learning Outcomes

Upon completion of the Psychology curriculum, students will demonstrate knowledge of the history, foundations, content, and analytical skills of psychology in their ability to:

- Value the importance of a scientific approach to understanding human behavior
- Apply critical thinking in their understanding of psychological principles
- Evaluate critically research both in the social sciences and as presented in the media
- Locate, understand, and critique relevant empirical research on a selected topic
- Identify ethical issues in research
- Apply ethical principles in their own research
- Formulate a hypothesis based on past research
- Design research to test a hypothesis
- Write complete manuscripts in APA style
- Analyze and critically evaluate the biopsychosocial components of behavior
- Apply psychological principles, including the consideration of ethics and social justice, in understanding and solving contemporary problems/issues

Major Requirements

Pre-major Requirements (12 semester hours):

- Introduction to Psychology (PSYC 101)
- Critical Thinking (PHIL 220)
- Human Anatomy & Physiology (NTLS 150)
- Elementary Statistics (MATH 104)

Note: A student must earn a grade of C (2.0) or higher in each of these courses. If a student earns a grade of C- (1.7) or lower, the student must repeat the course in the subsequent semester.

A) A calculus course with a grade of C or higher may be substituted for MATH 104 after consultation with a departmental advisor.

B) Another biology course with a grade of C or higher, containing information on anatomy, physiology, or human biology, may be substituted for NTLS 150 after consultation with a departmental advisor.

Upper Division Major Requirements (24 semester hours):

1. Cognition (PSYC 401). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).

2. Social (PSYC 410). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).

3. Lifespan Development (PSYC 415). Prerequisites: PSYC 251, 261, and 265 (grade of C [2.0] or higher in each).

NOTE: Students must earn a grade of C (2.0) or higher in each course fulfilling these three requirements before they can (a) continue on in a Concentration in the major, and (b) take other 400- or 500-level PSYC courses. Students must retake any of these courses for which they earned a grade of C- (1.7) or lower and achieve a grade of C (2.0) or higher.

4. Concentration (12 semester hours). Students will declare one of the four concentrations listed below. In consultation with their academic advisor, students will select four upper division courses within their concentration. No more than 6 semester hours may be taken from the PSYC 300 series.
Concentrations:

General Psychology: This concentration provides the greatest flexibility. Students will select any four upper division courses. No more than two courses may be taken from the PSYC 300 series.

Biology and Behavior: This concentration emphasizes theory and research investigating the interrelation between biology and behavior. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 310, 351, 357, 402, 430, 432, 443, 445, 452, 455, 456, 457, 458.

Individual/Family: This concentration emphasizes the application of psychological theory and research to individuals and families. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 301, 310, 315, 319, 320, 321, 325, 330, 345, 357, 362, 402, 430, 432, 434/435, 436, 438, 442, 445, 452, 455, 456, 465.

Community/Organizational: This concentration emphasizes the application of psychological theory and research to communities and organizations. Students will select four of the following courses (no more than two courses may be taken from the PSYC 300 series): PSYC 301, 315, 320, 330, 357, 362, 432, 433, 442, 445, 462.

5. Capstone Course: PSYC 510 or 515. Prerequisites: All required courses completed or currently in progress.

6. Senior Assessment: PSYC 595. Prerequisite: Concurrent enrollment in PSYC 510 or 515, or completed with a grade of C (2.0) or higher.

Students may take an additional 6 semester hours of upper division psychology courses and have them count as electives. Students may not take more than 30 semester hours of upper division psychology courses.

Honors in Psychology

To qualify for the Honors in Psychology program, a Psychology major must have senior status (completed 90 semester hours or more), a minimum overall GPA of 3.5, and a Psychology GPA ranking in the top 10% of senior psychology majors. Eligible students enroll in the Honors Seminar (PSYC 540) in the Fall of their senior year and complete the Honors Research Thesis (PSYC 545) in the Spring of their senior year. The Honors Seminar is a prerequisite for the Honors Research Thesis. Both PSYC 540 and PSYC 545 are in addition to the 24 semester hours of upper division course work required of majors.

Senior Assessment

All senior students majoring in Psychology are required to register for and take the Senior Assessment (PSYC 595) prior to graduating. The assessment is offered each semester and summer.

A grade of C (2.0) or higher must be obtained in major courses. Psychology majors are prohibited from taking 400-level or higher psychology courses before completing all lower division Psychology major requirements. Exceptions to this policy may be made only with the prior consent of the Psychology Department Chairperson.

All courses fulfilling lower division pre-major and major requirements, PSYC 401, PSYC 410, and PSYC 415 must be taken at Loyola Marymount University. Transfer students are exempt from this requirement only for those courses they have completed prior to admission to Loyola Marymount University.

Minor Requirements

MATH 104; NTLS 150; PHIL 220; PSYC 100 or 101, 241, 243, 251, 261, 265; and at least two of the following upper division courses: PSYC 401, 410, 415, or any 300-level PSYC course. Courses are selected in consultation with the Psychology Department Chairperson. A grade of C (2.0) or higher must be obtained in minor courses. All courses fulfilling minor requirements must be taken at Loyola Marymount University. Transfer students are exempt from this requirement only for those courses they have completed prior to admission to Loyola Marymount University.

Psychology Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Freshman Year

Fall Semester S.H.
PSYC 101 Introduction to Psychology .......... 3
ENGL 110 College Writing ..................... 3
MATH 104 Elementary Statistics ............... 3
NTLS 150 Human Anatomy & Physiology ...... 3
PHIL 220 Critical Thinking ................... 3

**Units:**
- 1st Year: 9 units
- 1st & 2nd Year: 16 units
- 2nd & 3rd Year: 9 units
- 3rd & 4th Year: 12 units
- 4th Year: 3 units

**Note:** All courses are 3 units unless otherwise specified.

A line with an arrow indicates a prerequisite (completed with a grade of C or better) required for the next course or level on the chart.
Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**PSYC 100**
**General Psychology**
*3 Semester Hours*

Introduction to psychology: historical origins; methods of investigation; topics such as sensation, perception, learning, cognition, motivation, and emotion; fields such as physiological, development, personality, social, abnormal, testing, applied psychology, and psychotherapy.

**PSYC 101**
**Introduction to Psychology**
*3 Semester Hours*

Introduction to the scientific study of behavior, including an overview of the history of psychology, biological basis of behavior, sensation/perception, consciousness, learning, memory, cognition, language, motivation, emotion, intelligence, development, personality, psychological disorders, therapy, social behavior, and psychological testing.

Majors/minors only.

**PSYC 198**
**Special Studies**
*1-3 Semester Hours*

**PSYC 199**
**Independent Studies**
*1-3 Semester Hours*

**PSYC 241**
**Statistical Methods for Psychology**
*3 Semester Hours*

Statistical concepts and methods related to psychological testing and research, including measures of central tendency, variance, hypothesis testing, analysis of variance, correlation, regression, non-parametric tests, use of computer aids.

Lab Required.

Prerequisites: Grade of C (2.0) or higher in each: MATH 104, PSYC 100 or 101, 243 or concurrent enrollment.

**PSYC 243**
**Statistical Methods for Psychology Lab**
*1 Semester Hour*

Companion lab course to PSYC 241. Data management and statistical analysis using SPSS.

Prerequisite: Grade of C (2.0) or higher in PSYC 241 or concurrent enrollment.

**PSYC 251**
**Brain and Behavior**
*3 Semester Hours*

Biological basis of behavior; structure and function of the sensory and effector mechanisms, neural and endocrine systems, and their underlying physiological substrates.

Prerequisites: Grade of C (2.0) or higher in each: NTLS 150, PSYC 100 or 101, or consent of instructor.

**PSYC 261**
**Experimental Methods**
*3 Semester Hours*

Introduces the basic principles of experimental designs. Provides students with fundamental background for planning, conducting, and critiquing experimental research in psychology. Emphasizes scientific writing, including APA style; and data interpretation using inferential, descriptive, and relational statistics. Includes how to generate and test hypotheses, search the scientific literature, the nature of variables, types of measurement, types and assessment of reliability and validity, and ethical issues in empirical research.

Prerequisites: Grade of C (2.0) or higher in each: PHIL 220; PSYC 100 or 101, 241, 243.

**PSYC 265**
**Nonexperimental Methods**
*3 Semester Hours*

Introduces the basic principles of nonexperimental and quasi-experimental designs. Provides students with fundamental background for planning, conducting, and critiquing nonexperimental, quasi-experimental, and qualitative research in psychology. Emphasizes philosophy of science and scientific writing, including APA style. Methods and designs may include quasi-experimental, correlational, meta-analytic, survey, longitudinal, narrative, participatory action, ethnographic, focus groups, and mixed methodologies. Statistical procedures include those appropriate to these methods and designs.

Prerequisites: Grade of C (2.0) or higher in each: PHIL 220; PSYC 100 or 101, 241, 243.

**PSYC 298**
**Special Studies**
*1-3 Semester Hours*

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.
PSYC 299
Independent Studies
1-3 Semester Hours

Prerequisite: Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 301
Introduction and Overview of Alcohol, Tobacco, and Other Drugs
3 Semester Hours

History of alcohol and other mood-altering drugs in the United States, the myths and stereotypes of alcohol use, the socio-cultural factors that contribute to drug use, and the patterns and progressions of alcoholism and other drug dependency.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 310
Psychology of Sex Differences
3 Semester Hours

Explores sex and sex differences from a biosocial or evolutionary psychology perspective. Examines evolution of sexual reproduction, the two sexes, sexually dimorphic morphology, behavior, and emotion. Identifies and examines different reproductive strategies employed by males and females (including nonhuman species) and resulting conflicts of interests between the sexes. Particular focus given to sex differences in sexuality, courtship, jealousy, mating systems, and parenting.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 319
African and Black Psychology
3 Semester Hours

A biopsychosocial/spiritual review of topics in psychology from an Africentric perspective. A survey course examining and contrasting basic theories, research, and concepts in African psychology and Black psychology. Selected features of the discipline of western psychology are critiqued from an African-centered perspective.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 320
Psychology of Race, Culture, and Ethnicity
3 Semester Hours

Theories and research on psychological, social, and cultural influences in prejudice, racism, ethnic identification, stereotyping, and racial conflict.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 321
Psychology of Marriage
3 Semester Hours

Exploration of theories and research on psychological processes in interpersonal attraction; intimacy, marriage, and family relationships.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 325
Applied Sport Psychology
3 Semester Hours

Explores the relationship of psychological factors to performance in sports. Emphasizes the application of psychological techniques to sport and exercise, including such topics as: personality, motivation, arousal, anxiety, competitiveness, and aggression. Examines psychosocial aspects of team versus individual sports, performance enhancement strategies, and injury avoidance and recovery. Self-assessment and activities facilitate growth and development in personal abilities to enhance performance in a sport and in a variety of non-sport settings.

Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.
PSYC 330
Forensic Psychology
3 Semester Hours
Examines the interaction of psychology and law. Topics include basic assumptions of law and professional and academic psychology; psychological malpractice; role of mental health experts as expert witnesses, diagnosticians, treatment providers, and advisors in tort law, family law, mental health law, criminal law, and alternative dispute resolution including mediation. Covers fundamental legal procedures, roles of mental health professionals who interact with the legal system, psychological research on legal issues, and common ethical and legal issues related to psychological practices in these areas.
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 332
Psychological Disorders
3 Semester Hours
An introduction to the biological, psychological, and social determinants of psychopathology and maladaptive behaviors. Focus on the causes, diagnosis, and treatment of these disorders. This course is designed for students not majoring in Psychology.
Not open to majors in Psychology.
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 335
Psychology on Film
3 Semester Hours
An investigation of principles and theories of psychology through the analysis of characters in quality, character-based films.
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 351
Comparative Animal Behavior
3 Semester Hours
An examination of the ecological and social determinants of the evolution of adaptive behavioral strategies for various classes of behavior across species, including foraging, courtship and reproduction, mating systems, aggression, territoriality, and parenting. Field trips to observe animals.
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 352
Developmental Psychology
3 Semester Hours
Research and theories of normal human development from conception through adult maturity, old age, and death. Focus on growth and change in biological, cognitive, and social processes in psychological development. This course is designed for students not majoring in Psychology.
Not open to majors in Psychology.
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 357
Language, Literacy, and Community
3 Semester Hours
Study of psychological processes and social structures involved in early reading. Course contains a community-based learning component where students participate in interventions with at-risk children.
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 362
Psychology of Religion
3 Semester Hours
Examines the religious experience from a psychological perspective, including methods of developing spiritual awareness, classic writings in the field, and review of empirical research.
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 398
Special Studies
1-3 Semester Hours
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.

PSYC 399
Independent Studies
1-3 Semester Hours
Prerequisites: Junior standing. Grade of C (2.0) or higher in PSYC 100 or 101.
PSYC 401
Cognition
3 Semester Hours
Contemporary theories and research regarding cognitive processes: perception, pattern recognition, attention, memory, representation of knowledge, mental imagery, psycholinguistics, concept formation, problem-solving, and reasoning. Explores the application of these theories to study skills, education, neuropsychology, psychopathology, cognitive development, intelligence, and computer models of cognition.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, 261, 265.

PSYC 402
Learning
3 Semester Hours
Systematic theories of learning and problem solving in animals and humans, with a discussion of the relation of such theories to theories of psychopathology, education, and psychotherapy.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 410
Social Psychology
3 Semester Hours
Contemporary theories and empirical research related to person perception, affiliation, interpersonal attraction, group structure and dynamics, social influence, attitude change, aggression, prosocial behavior, and prejudice.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, 261, 265.

PSYC 415
Lifespan Development
3 Semester Hours
Research and theories of normal human development from conception through death, with emphasis on changes in physical, cognitive, and social-emotional processes with age.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 100 or 101, 251, 261, 265.

PSYC 430
Motivation and Emotion
3 Semester Hours
Animal and human research related to needs, desires, feelings, and purposes that arouse and direct behavior.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 432
Health Psychology
3 Semester Hours
Explores the relationship between behavioral principles/ personality and physical health/illness.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 433
Community Psychology
4 Semester Hours
History and principles of human services delivery systems of community mental and physical health in settings affected by poverty, social discord, and dehumanizing factors in urban living.
Lab Required.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 434
Psychology of Death and Dying
3 Semester Hours
Theoretical and empirical research on the psychological nature of death and dying in the human life span process will be fully examined.
Lab Required.
Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415, 435 or concurrent enrollment.

PSYC 435
Psychology of Death and Dying Lab
1 Semester Hour
Companion lab course to PSYC 434. Observation and data collection from various institutions and community settings related to concerns of illness, health maintenance, dying, death, and funerals.
Prerequisites: Grade of C (2.0) or higher in PSYC 434 or concurrent enrollment.

<td>PSYC 457</td>
<td>Psycholinguistics Research</td>
<td>3</td>
<td>Students participate in on-going studies in the areas of speech, language, and reading under the mentorship of the professor. Students study a current research topic in detail, formulate a research hypothesis, design an experiment, and collect and statistically analyze the data. The final product for the course is dissemination of the research report at a major conference and/or submission of the APA-style manuscript to a major journal.</td>
<td>Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401, 410, 415. Consent of instructor.</td>
</tr>
</tbody>
</table>
PSYC 458
Psychobiology Research
3 Semester Hours

Students participate in on-going laboratory research on the psychobiology of learning and memory. Emphasis is on theoretical and methodological issues, research design, data collection, analysis, and interpretation.

Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401, 410, 415. Consent of instructor.

PSYC 462
Industrial/Organizational Psychology
3 Semester Hours

Human problems in industry and business: motivation, morale, efficiency, human relations, occupational fatigue and rest, accident proneness, human engineering, and leadership.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 465
Couple and Family Systems
3 Semester Hours

Imparts an understanding of individuals in systems and introduces the practice of therapeutic intervention at the couple and family level. Some of the major approaches are critically reviewed, demonstrated, and practiced. Students explore themselves, their own backgrounds and biases, their ability to work therapeutically at the systemic level, and sensitivities relating to cultural and other difference in people from various backgrounds. Covers ethics and professional issues in working with people in systems. Requires participation in self-development exercises such as role-playing, as well as self, peer, and instructor critiques of one's performance.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 490
Teaching Internship
1-3 Semester Hours

Guided teaching of undergraduate laboratories. May be repeated for credit.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 498
Special Studies
1-3 Semester Hours

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 499
Independent Studies
1-3 Semester Hours

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 510
Capstone Course: The History and Future of Psychology
3 Semester Hours

Survey of major trends in philosophy and science culminating in the establishment of scientific psychology, with attention to theories and systems that have influenced psychology to the present time. Review and critique of psychology and the biopsychosocial model. Future of psychology and its methods and models. Course fulfills capstone requirement.

Senior Psychology majors only.

Prerequisites: All required courses for the major completed or currently in progress.

PSYC 515
Capstone Seminar
3 Semester Hours

Seminar focuses on a faculty-selected topic to be investigated using the biopsychosocial perspective. The topic of this seminar may be related to the focus of the annual Bellarmine Forum, other major university forum, or a selected issue of current social importance. Students will review and integrate their learning in psychology. Course fulfills capstone requirement.

Senior Psychology majors only.

Prerequisites: All required courses for the major completed or currently in progress.

PSYC 540
Honors Seminar
3 Semester Hours

For departmental Honors-Eligible students, this seminar examines a faculty-selected topic from one or more of the biopsychosocial perspectives. Students will complete an extensive literature review on the topic.

Senior Psychology majors only.

Prerequisites: Consent of Department Chairperson.
PSYC 545  
Honors Research Thesis  
3 Semester Hours  

Departmental Honors-Eligible students design and conduct empirical research in a specific area of psychology. The completed research report, written in APA style, is the student’s Honors Thesis.

Senior Psychology majors only.

Prerequisites: Consent of Department Chairperson.

PSYC 595  
Senior Assessment  
0 Semester Hours  

Assessment of student learning outcomes in the field of psychology. Includes written examination or some other form of written assessment, completion of survey instruments, senior exit interview, or other forms of end-of-program evaluation. PSYC 595 is offered three times a year (Spring, Summer, and Fall) on a Credit/No Credit basis.

CR/NC grading only.

Lab fee.

Senior Psychology majors only.

Prerequisites: All required courses for the major completed or currently in progress.

PSYC 598  
Special Studies  
1-3 Semester Hours  

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.

PSYC 599  
Independent Studies  
1-3 Semester Hours  

Students work individually with a selected professor on a specific area of interest. Students who have completed PSYC 445 may wish to conduct further research independently.

Prerequisites: Grade of C (2.0) or higher in each: PSYC 401, 410, 415.
Sociology

Faculty
Chairperson: Stacy Lee Burns
Professor: James Faught
Associate Professors: Stacy Lee Burns, Peter Hoffman, Margaret L. Hunter,
Assistant Professors: Nadia Kim, Eric Magnuson, David Marple, Anna Muraco, Rebecca Sager

Objectives
As a department, our objectives are to foster the intellectual
development of students and to promote lifetime learning
experiences. We do this through teaching and applying the
insights of sociological perspectives to achieve a critical
understanding of social reality and the human condition.

Our curriculum is designed to explore relationships within
society, the social and cultural influences on human
behavior, dynamics of interaction, and social institutions
and social change in a global context.

Sociology Student Learning Outcomes
Students majoring in Sociology should know:
- The processes and structures that establish the
  underlying regularities of social life
- How social life is continually reconstructed
  through opposition and deviance
- The significance of cultural differences in
  traditional and modern societies
- The origin and development of principal theoretical
  ideas that inform contemporary sociological
  inquiries
- The basic methodological and statistical strategies
  used in contemporary sociology;

Students majoring in Sociology should be able to:
- Recognize how social life is structured in ways
  that influence choices, opportunities, and action
- Demonstrate an ability to write and speak
  effectively about contemporary social issues
- Read, assess, and interpret the results of
  sociological research
- Successfully complete an independent research
  project that competently draws from current
  theoretical, methodological, and empirical
  research;

Students majoring in Sociology should value:
- A knowledge of the range of interests and goals
  expressed by groups and organizations in society
- The ways in which sociological research may
  be effectively employed by organizations and
  institutions
- The application of sociological knowledge in order
  to enhance the quality of life
- A reasoned participation in community life that is
  informed by grounded sociological knowledge.

Major Requirements
Lower Division Requirements (12 semester hours):
SOCL 100, 105, 109, 210. A grade of at least C (2.0)
will be required in all lower division courses.

Upper Division Requirements:
27 semester hours in upper division courses in
sociology which must include SOCL 301, 401, and
495. An average grade of C (2.0) must be obtained in
courses included in the major.

SOCL 495 should be taken in the senior year. The
remaining 18 semester hours are to be chosen from
the six theme areas into which upper division sociology
courses are grouped: I. Deviance and Control; II. Social
Inequality; III. Urban, Population, and Demographic
Processes; IV. Social Structure, Culture, and Process;
V. Family and Life Cycle; and VI. Globalization.
Students must take at least one course from four of
the theme areas. The remaining courses may be taken
from any of the upper division offerings.

At least two 300- or 400-level sociology courses must
be taken in the senior year.

Minor Requirements
18 semester hours, including SOCL 100 or 105, 109, 301
or 401, and 9 semester hours in upper division courses.
An average grade of C (2.0) must be obtained in courses
included in the minor. At least one 300- or 400-level
sociology course must be taken in the senior year.

Sociology Model Four-Year Plan
The normal course load is 15 semester hours (5 classes). By
following the model below, a student will complete all lower
division core requirements by the end of the sophomore
year as well as most major prerequisites. Note that core
areas are suggested to provide a distribution of various
disciplines every semester. Please be flexible implementing
these suggestions, given your own interests and course
availability. In four years, this plan meets all common
graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, in which the maximum is thirteen.
SOCL 100
Principles of Sociology
3 Semester Hours
Development of the perspectives, concepts, and methodologies needed for objective, analytical thinking about human interaction. Relationships explored in terms of the development of the self through interaction, basic types of social organization, collective behavior, types of institutions, and aspects of the total social system such as social change and population phenomena.

SOCL 105
Cultural Anthropology
3 Semester Hours
An introduction to the social organization and culture of preliterate and modern societies. Major emphasis is on cultural anthropology, a study of how humans have learned to cope with their world, and the varieties and similarities of this coping.

SOCL 109
Social Research Methods
3 Semester Hours
An introduction to scientific inquiry and research in the social sciences, with special emphasis on conceptualization and operationalization process, various data collection strategies, and the use of computers in data analysis.

SOCL 210
Elementary Social Statistics
3 Semester Hours
An introduction to basic inferential and descriptive statistics commonly used in the social sciences. Among the topics covered are: table construction; central tendency; variation; probability, sampling distributions, and the normal curve; hypothesis testing; and measures of association.

Recommended to be taken concurrently with SOCL 109.

SOCL 301
Development of Sociological Theory
3 Semester Hours
An introduction to 19th century contributions to sociological thought: Comte, Tocqueville, Marx, Durkheim, Weber, and others are examined within their historical settings.

SOCL 401
Contemporary Theory
3 Semester Hours
A survey of the variety of 20th century sociological perspectives, including symbolic interactionism, ethnomethodology, functionalism, critical theory, and others.

SOCL 495
Sociology Seminar
3 Semester Hours
Designed as a senior seminar for Sociology majors. Stress will be on organization and integration of sociology studies, bringing together in a meaningful way sociological facts, understandings, and knowledge. Students must have 90 semester hours completed at time of registration.

Prerequisites: SOCL 209 and SOCL 301 or 401. Senior majors only.

I. Deviance and Social Control

SOCL 322
Deviant Behavior
3 Semester Hours
A social interactionist approach to the study of deviant behavior; an examination of the process whereby society defines and labels an act as deviant, trends in deviance theory, deviant careers, and the mechanisms involved in confronting the label.

SOCL 422
Criminal Justice
3 Semester Hours
An introduction to the system of criminal justice in contemporary America with a focus on how criminal behavior is processed by the system’s agencies: police, courts, and correctional institutions. Legal concerns such as the rights of the accused and due process will also be discussed in terms of their application in each of these areas.

SOCL 423
Criminal Law
3 Semester Hours
This course examines the criminal law in the U.S. from a sociological perspective, as a set of “social control” processes by which norms are transmitted and enforced. Topics include how the law defines crime and particular forms of crime, drug abuse and alcohol-related crime, and various legal defenses available to the accused.

SOCL 424
Crime and Delinquency
3 Semester Hours
An introduction to the nature and dynamics of criminal and delinquent behavior from a sociological viewpoint. Topics to be covered: the nature of crime and the criminal law, the measurement of crime, major theories—both historical and contemporary, and patterns of criminal and delinquent behavior.
II. Social Inequality

SOCL 332
Gender and Society
3 Semester Hours

An examination of processes resulting in socio-cultural sex role differences and the cultural consequences relating to opportunity, power, and prestige in society. An attempt to understand the effects of social organization and change on the status of women and men.

SOCL 333
Men and Masculinities
3 Semester Hours

An exploration of masculinity through critical examination of men, women, gender, politics, identity, and social change from a social scientific perspective. Topics include: gender socialization, the diversity of masculinities, race and ethnicity, class, age, sexuality, and men's social movements.

SOCL 334
Race and Ethnic Relations
3 Semester Hours

An examination of the interaction between ethnic and racial minorities and the dominant group in the light of current sociological theories of social conflict and social change.

SOCL 335
Sociology of the Black Community
3 Semester Hours

A survey of the effects of long-standing discrimination and deprivation upon family structure, occupational patterns, health and education conditions, motivation, and personal as well as group identity. An analysis of the black power concept and its influence upon the concept of Afrocentrism and the focus on community control.

SOCL 336
Social Stratification
3 Semester Hours

An examination of the historical roots and contemporary patterns of social and economic inequality in the United States. Distribution of income and wealth, social mobility, life chances, education, and race and ethnicity will be discussed.

SOCL 338
Sociology of Racism
3 Semester Hours

An exploration and examination of the interaction between the major ethnic and racial groups in the United States with emphasis on the current context, the social contact, intergroup conflicts, and social changes affecting the various groups.

III. Urban, Population, and Demographic Processes

SOCL 340
Urban Sociology
3 Semester Hours

An examination of the basic historical processes which have shaped cities, including spatial differentiation. Topics may include the formation of community, metropolitan deconcentration, urban poverty, housing segregation, and third world urbanization.

SOCL 341
Community
3 Semester Hours

This course examines a wide range of American community studies, ranging from the 1920s to the present. Primary attention is directed toward an understanding of the scope of change in community structure and process in industrial society.

SOCL 342
Demography and Population Analysis
3 Semester Hours

An analysis of major international population trends, problems of overpopulation, and population control, with an introduction to the methods and techniques of demographic and ecological analysis.

SOCL 348
Urban Anthropology
3 Semester Hours

A comparative analysis of urban social relationships. Emphasis is directed to the use of ethnographic methodologies in understanding contemporary American urbanism and to the problems associated with pluralistic urban society.
SOCL 349
Research in Urban Society
3 Semester Hours
An examination of the methodologies and strategies employed by social scientists researching urban society. Case studies and research agendas are drawn from modern and postmodern cities, including metropolitan Los Angeles.

IV. Social Structure, Culture, and Process

SOCL 351
Sociology of Sport
3 Semester Hours
An examination of the social nature of sport in society. Topics may include the interrelation of sport and culture, sport and the socialization process, deviance and violence in sport, sport and race, the status of women in sport, and the political and economic ramifications of sport.

SOCL 352
Political Sociology
3 Semester Hours
An analysis of the relationship between forms of social organization and the exercise of power in society. Among the subjects considered are: types of political regimes, cross-cultural patterns of voting, voluntary associations, social classes, social movements, and revolution.

SOCL 354
Social Organization
3 Semester Hours
The study of large-scale, highly structured groups, such as athletic teams, local school systems, colleges and universities, hospitals, businesses, and governmental agencies.

SOCL 355
Social Psychology
3 Semester Hours
The interrelationships between individual behavior and the larger social order. Language and communication, the self, interaction and interactional strategy, aggression, perception and attribution theory, prejudice and discrimination, and collective behavior.

SOCL 356
Sociology of Law
3 Semester Hours
A survey of the important theoretical and research traditions and recent empirical developments in sociology of law. A variety of law-related topics will be covered, including law and social structure, the economy and culture, law and inequality, law and social control, courts and alternative dispute resolution, and the legal profession.

SOCL 357
Media and Society
3 Semester Hours
An examination of the social role of the media in our lives and our society. Topics include: culture, race, class, and gender, as well as alternative media and the political struggles over social change and the media system.

SOCL 358
Medical Sociology
3 Semester Hours
Development of the field of medical sociology, with emphasis on changing patterns in the health care and delivery systems, doctor-patient relationships and health care.

SOCL 359
Sociology of Popular Culture
3 Semester Hours
The study of the artifacts of everyday life—newspapers, films, sports, music, and such—as important sources of sociological knowledge.

SOCL 454
Religion, Culture, and Society
3 Semester Hours
The study of religion as an expression of culture, its diverse subcultural characteristics as a social institution, and the interrelationships of religion and other social institutions.

V. Family and Life Cycle

SOCL 361
Sociology of Marriage and Families
3 Semester Hours
A study of marriage and family as social institutions, including normative aspects, socialization activities, value orientations, family structures and behavior, and societal influences on families.
SOCL 362
Sociology of Children
3 Semester Hours
A sociological study of the world of children, interactional events in children’s activities, and examination of the cultures of children and of adults.

SOCL 363
Concepts and Issues in Aging
3 Semester Hours
A general introduction to the study of physiological, psychological, and sociological aspects of aging. The focus is on the individual in society throughout the adult phase of the lifespan.

SOCL 367
Sociology of Adolescence
3 Semester Hours
An examination of the adolescent society with particular focus on the high school. Topics to be discussed: peer socializations, cliques and crowd formations, lifestyles, fads and fashions, and changing patterns and relations resulting from globalization.

VI. Globalization

SOCL 370
Social Change
3 Semester Hours
An examination of the social, economic, and political sources of social change.

SOCL 371
Social Ecology
3 Semester Hours
An analysis of the interaction and interrelationship of population, natural resources, and environment as they affect social organization and place limits on life on the earth.

SOCL 372
Sociology of Work and Occupations
3 Semester Hours
Explores the social dynamics of work and occupations in terms of culture, ideology, race, class, and gender. Topics will include the day-to-day experiences of the workplace, the politics of the economic system, and the social changes related to globalization and the international economy.

SOCL 378
International Tourism
3 Semester Hours
A survey of the social, cultural, economic, and environmental elements of international tourism with special emphasis on the impacts of the expansion of tourism from the developed nation into the less developed realm. Modern trends in tourism, such as ecotourism, are analyzed for their potential costs-benefits and their implications for careers in the tourist industry.

SOCL 379
Sociology of Immigration
3 Semester Hours
An investigation into current and historical immigration trends as they encompass the economy, education, language, identity, politics, and culture. There is a particular focus on globalization and Los Angeles as an immigration center.

VII. Special Areas

SOCL 398
Special Studies
1-3 Semester Hours

SOCL 399
Independent Studies
1-3 Semester Hours

SOCL 498
Special Studies
1-3 Semester Hours

SOCL 499
Independent Studies
1-3 Semester Hours
Theological Studies

Faculty

Chairperson: Jeffrey S. Siker
Professors: Wilkie Au, Douglas Burton-Christie, Christopher Key Chapple, John A. Coleman, S.J. (Casassa Chair), John R. Connolly, James L. Fredericks, Michael P. Horan, Robert B. Lawton, S.J., Thomas P. Rausch, S.J. (Chilton Chair), Jeffrey S. Siker, Daniel L. Smith-Christopher
Associate Professors: Roberto Dell'Oro, Amir Hussain, John R. Popiden
Assistant Professors: Cecilia Gonzalez-Andrieu, Anna Harrison, Kristin Heyer, Michael Lee, S.J., Dorian Llywelyn, S.J., Charlotte C. Radler, David Sanchez, Steven J. Sauer, S.J., Tracy Sayuki Tiemeier

Objectives

The Department of Theological Studies is committed to the encouragement of learning within the intellectual and cultural heritage of the Catholic tradition, valuing imagination and intellect, seeking an integration of knowledge, and promoting ecumenical and inter-religious discourse. We seek to educate the whole person and to serve faith by an academic exploration of its possibilities, challenges, and ambiguities in dialogue with the contemporary world. We strive to promote justice by the structure of our curriculum and by encouraging students and faculty to engage their theological understanding in a broken world.

Theological Studies Student Learning Outcomes

By virtue of their Theological Studies courses, students should know:

- The nature of religion and religious experience
- The beliefs and practices of Christianity, with emphasis on the Catholic Tradition
- The central contours of the Bible, Church History, Systematic Theology, Theological Ethics, and Comparative Theology
- How culture, race, gender, class, and ethnicity impact theological reflection
- The social implications of religious beliefs and practices;

By virtue of their Theological Studies courses, students should be able to:

- Conduct critical research and write intelligently and persuasively on theological and religious issues
- Critically interpret theological or religious texts
- Articulate the significance of theological and religious values for church, society, and culture;

By virtue of their Theological Studies courses, students should value:

- The Catholic theological tradition
- The beliefs and practices of the religions of the world
- Ecumenical and interfaith dialogue and cooperation
- The development of a spiritual life
- Living responsibly within a culturally diverse world
- Action in the promotion of justice and service of faith.

Major Requirements

The undergraduate major consists of 36 semester hours total (12 courses).

Lower Division Requirements (6 semester hours):

THST 100: Introduction to the Old Testament (3 semester hours)
THST 110: Introduction to the New Testament (3 semester hours)
(Normally, THST 100 and 110 are taken at the beginning of the program of study.)

Upper Division Requirements (30 semester hours):

Required Upper Division Courses (9 semester hours)

THST 320: History of Christianity I (3 semester hours)
THST 321: History of Christianity II (3 semester hours)
(Students are encouraged to take this sequence in their Sophomore or Junior year.)
THST 496: Senior Integrating Seminar (3 semester hours) (for graduating seniors)

Distribution Requirements (18 semester hours, at least 12 of which must be 400-level)

Area A: Sacred Scriptures, Religious Sources, and Traditions—two courses (6 semester hours)
Area B: Theology, Ethics, and Spirituality—three courses (9 semester hours)
Area C: Faith, Culture, and Ministry—one course (3 semester hours)
One additional upper division THST course of the student’s choice (3 semester hours)

An average grade of C (2.0) must be obtained in the courses included in the major.

We highly recommend that students wishing to pursue graduate study in Theology have a reading knowledge of two languages, either classical or modern.

We further recommend that additional philosophy courses be taken as early as possible. The specific courses are to be determined in conjunction with the student’s Theological Studies advisor.

Theology Minor Requirements

18 semester hours with at least 12 semester hours from upper division courses, including six semester hours at the 400 level. The courses for the minor must be selected in conjunction with the Theological Studies advisor for minors.

Lay Ministry Minor Requirements

18 semester hours with at least 15 semester hours from upper division courses, including six semester hours at the 400 level. The courses for the minor must be selected under the direction of the faculty advisor for the Lay Ministry Minor. The student must select no more than two courses from each of areas A, B, and C (see above).

In addition, the student will be required to participate in 90 hours of active service in related fields of lay ministry. This will be under the direction of the faculty advisor and contracted through the Career Development office.

An average grade of C (2.0) must be obtained in the courses included in the minors.

Catholic Studies Minor

Students with particular interest in Catholic Studies are encouraged to consider the Catholic Studies Minor described in this Bulletin.

Theology Society

The Theology Society is a co-curricular student group open to all Theological Studies undergraduate majors and minors, as well as non-majors/minors who are interested in theological issues and topics. The group convenes monthly, typically sharing lunch and discussion, often with a guest speaker. The group also organizes various outings as opportunities for students to socialize with one another and with Theological Studies faculty. The Theology Society hosts annual visits from admissions representatives from graduate theological programs around the country for interested students. The Theology Society’s members also participate in an annual paper competition sponsored by the Department of Theological Studies, in which the winning paper is presented to faculty and students each Spring.

Core Curriculum in Theological Studies

One course from THST 100-199;

One course from THST 300-399 (Prerequisite: Junior standing).

Only courses in the 100 series and 300 series will fulfill the core curriculum requirements. All 400-level courses have a prerequisite of one 300-level course. The 400-level courses fulfill major or minor requirements. Except for those entering LMU as a transfer student, no student may take a 300-level course without successful prior completion of a 100-level course.

For students interested in the study of Catholicism in the core curriculum, the Theological Studies Department offers three courses, THST 120, 326, and 345, which are designed to study the Catholic tradition. For the non-majors who wish a core sequence in Catholic Theology, we recommend THST 120 and either 326 or 345.

Theological Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.
Lower Division

THST 100
Introduction to the Old Testament
3 Semester Hours

A general introduction to the literary, historical, and religious traditions of the Old Testament.

THST 109
Introduction to Scripture and Prayer
3 Semester Hours

For Jesuit Novices only.

THST 110
Introduction to the New Testament
3 Semester Hours

An introduction to the literary, historical, and theological dimensions of the New Testament.

THST 120
The Roots of Catholic Christianity
3 Semester Hours

THST 122
Theological Foundations of Catholicism
3 Semester Hours

An introduction to the theological roots of the Roman Catholic Tradition, with attention to the historical and theological development of the Catholic tradition in its cultural contexts.

Required for the Catholic Studies Minor.

THST 125
Introduction to Global Christianity
3 Semester Hours

An introduction to the history of Christianity as a global movement, incorporating historical, theological, and social issues in Christianity from both non-western and western perspectives.

THST 130
Exploring Christian Faith
3 Semester Hours

A study of the ways in which Christians think about God, Christ, themselves, their scriptures, and religious experiences.

THST 149
Introduction to Christian Spirituality
3 Semester Hours

For Jesuit Novices only.

THST 150
Belief and Unbelief
3 Semester Hours

An examination of the various forms of unbelief, the meaning and significance of belief, and the relationship between belief and unbelief.

THST 160
Introduction to Christian Ethics
3 Semester Hours

An examination of ethical issues in light of Christian scriptures, traditions, and experiences.

THST 170
Christian Faith and American Cultures
3 Semester Hours

This course explores Christian faith in the diverse cultural context of the contemporary United States.

THST 175
Narratives of Christian Faith
3 Semester Hours

A study of Christian faith as explored through narratives: a gospel, some saints' lives, and the work of contemporary storytellers.

THST 180
Religions of the World
3 Semester Hours

An introduction to the history, literature, and thought patterns of the major religions of the world.

THST 198
Special Studies
1-3 Semester Hours

THST 199
Independent Studies
1-3 Semester Hours
<table>

</tbody>
</table>
THST 361  
Christian Ethics in the Marketplace  
3 Semester Hours  
An analysis and discussion of business ethics case studies in the light of Christian economic teachings.

THST 363  
Christian Marriage and Sexuality  
3 Semester Hours  
An examination of the varieties of Christian views of marriage and the full range of moral issues concerning human sexuality today.

THST 367  
Christian Voices on War and Peace  
3 Semester Hours  
An examination of Christian attitudes toward war and peace that address U.S. policies during the twentieth century and beyond.

THST 368  
Bioethics and Christian Morality  
3 Semester Hours  
A theological and ethical study of bioethical topics, e.g., euthanasia, assisted reproductive technologies, and human cloning, that confront contemporary society.

THST 381  
Contemporary Judaism and Its Historical Background  
3 Semester Hours  
An understanding of Jewish beliefs and practices, their Biblical and historical roots, their theological and cultural motivations.

THST 382  
Religions of India  
3 Semester Hours  
An exploration of the cultural/historical background and theological insight of Hinduism and Jainism. Sikhism, Christianity, and Islam in India are also discussed.

THST 383  
Religions of the Near East  
3 Semester Hours  
An overview of the history, theology, and interactions of Judaism, Christianity, and Islam, both in their Middle Eastern and global contexts.

THST 384  
Religions of East Asia  
3 Semester Hours  
The history and development of Confucianism, Taoism, Tibetan and Zen Buddhism, and Shinto, emphasizing primary textual sources. Islam and Christianity in East Asia will also be discussed.

THST 385  
Buddhism  
3 Semester Hours  
A survey of the history of Buddhism in India and Southeast Asia, China, Japan, Tibet, and North America. Discussion of Buddhism’s contributions to social ethics, ecological concern, and dialogue with Christianity.

THST 386  
Islam  
3 Semester Hours  
This course will introduce students to the religion of Islam. Key topics will be Muhammad and the Qur’an, Islamic religious practices, the Sunni-Shi'i split, Sufism, Islam in North America, and Christian-Muslim dialogue.

THST 430  
Christology  
3 Semester Hours  
An investigation of the Christology of the New Testament, the early councils, and contemporary issues in Christology.

THST 431  
Rahner  
3 Semester Hours  
A study of the life, context, and theology of Karl Rahner.

THST 450  
Topics in Christian Spirituality  
3 Semester Hours  
A survey of key persons and movements in the history of Western Christian spirituality.

THST 455  
Theology of Liberation  
3 Semester Hours  
A study of recent Latin American theology as a Christian response to current political, social, and economic injustice in Latin American countries.
### THST 465
**Moral Theology Today**  
3 Semester Hours

A study of the developments and critical issues within Roman Catholic moral theology since 1940.

### THST 470
**Topics in Theological Ethics**  
3 Semester Hours

An exploration of the history and methods of theological ethics with analysis of contemporary moral issues.

### THST 480
**Topics in Comparative Theology**  
3 Semester Hours

Multiple religious perspectives will be utilized in this course to explore one or more topics of theological concern, such as violence and nonviolence, myth and symbol, modes of spirituality, images of God, and/or multicultural religious presence in Los Angeles.

### THST 495
**Seminar: Major Christian Thinker**  
3 Semester Hours

An examination of the theological work of one major thinker, studying the work both as an integrated theological statement and as a part of continuing theological dialogue.

### Area C: Faith, Culture, and Ministry

#### THST 307
**Interpreting Jesus**  
3 Semester Hours

This course takes a close look at the conversation between the Jesus of the Gospels and contemporary embodiments of his Ministry. Community-based learning component required.

#### THST 331
**Salvation and Liberation**  
3 Semester Hours

An examination of the theme of liberation in Scripture, church history, and the recent theologies, as well as its impact on our own lives.

#### THST 341
**Liturgy and Culture**  
3 Semester Hours

A study of Christian worship examining the historical development of worship in its interaction with various cultures from ancient to modern.

#### THST 346
**The Latino Experience in the U.S. Church**  
3 Semester Hours

A review of the Latino presence in the Catholic Church with emphasis on the historical experience, Latino popular religion, and current trends and issues in Hispanic ministry and theology.

#### THST 348
**African American Religious Experience**  
3 Semester Hours

A survey of African American religious experience from the time of slavery to the present, emphasizing the role of faith in African American society and the role of the church in the struggle for equality.

#### THST 373
**Catholic Social Teaching and Action**  
3 Semester Hours

This course examines Catholic social teaching thematically, focusing on such principles as human dignity, solidarity, the common good, and the option for the poor; contemporary activist groups are also studied as part of the living tradition of Catholic social teaching.

This course requires a weekly community service placement where the student will perform at least 20 hours of service during the semester.

#### THST 375
**Service, Justice, and Ministry**  
3 Semester Hours

This course engages students in active reflection on Christian theology and practice. The course analyzes selected sources from the Christian theological tradition concerning the relationship among three phenomena: service, justice, and ministry. Weekly field placement in off-campus service activity is required for this course.

#### THST 435
**Eucharistic Theology**  
3 Semester Hours

An in-depth study of the theology of the Eucharist from an ecumenical perspective, highlighting the teaching of the Roman Catholic Church.

#### THST 451
**Ignatian Spirituality**  
3 Semester Hours

A study of the spirituality of Ignatius of Loyola based on a close reading of his Spiritual Exercises and contemporary writings on Ignatian themes.
THST 497  
Youth and Young Adult Ministry  
3 Semester Hours  
The course examines the theory and practice of ministry to youth and young adults, emphasizing faith development, community building, justice and service education, advocacy, and guidance of youth and young adults.

Special Courses

THST 398  
Special Studies  
1-3 Semester Hours

THST 399  
Independent Studies  
1-3 Semester Hours

THST 496  
Senior Integration Seminar  
3 Semester Hours  
The course stresses the integration of the various dimensions and methods of Theological Studies.  
Prerequisites: Senior standing and Theological Studies majors and minors only.

THST 498  
Special Studies  
1-3 Semester Hours

THST 499  
Independent Studies  
1-3 Semester Hours
Urban Studies

Director
Peter R. Hoffman

Faculty
Associate Professor: Peter R. Hoffman
Assistant Professor: Mara Marks

Objectives
As an interdisciplinary program, Urban Studies encourages students to examine urbanization and the multitude of issues inherent in urban life from the perspectives of a wide range of disciplines and methodological traditions. The critical analysis of urban issues helps students evaluate the various political, sociocultural, and economic strategies available to urban planners, local governments, law enforcement agencies, and others seeking to remedy the problems of contemporary cities.

The curriculum of the Urban Studies program, including its internship program, allows students to take advantage of one of LMU’s greatest assets: the many linkages that connect LMU to the extraordinarily dynamic, multicultural metropolitan area surrounding the University. Los Angeles is both an educational resource and a laboratory for Urban Studies students.

Career options for Urban Studies majors may be found in local government, law enforcement, real estate development, and urban social services. The major is also appropriate preparation for students seeking careers or graduate education in urban planning, public administration, social welfare, policy analysis, or the law.

Urban Studies Student Learning Outcomes
By virtue of their Urban Studies Program courses, students should know:

- The general history of urbanization and urban life associated with contemporary Los Angeles
- The common theories, practices, and methodologies employed in contemporary urban planning and policy analysis;

By virtue of their Urban Studies Program courses, students should be able to:

- Effectively employ contemporary social science methodology in the analysis of urban issues
- Demonstrate written and oral competencies in the analysis of urban issues and policy
- Identify and utilize appropriate primary data, including census materials, for the analysis of urban issues
- Apply their understanding of urban issues to the development and critical analysis of programs and policies appropriate to addressing contemporary social and economic problems
- Successfully pursue graduate education in such areas as urban planning, public administration, policy analysis, social welfare, and the law upon completion of their major;

By virtue of their Urban Studies Program courses, students should value:

- Diverse perspectives in the analysis and assessment of urban issues and policies
- Thoughtful analysis of the implications of urbanization and urban policy in the context of social justice and sound environmental practices
- Rigorous, scientific research that enlightens the experience of urban populations and contributes to the resolution of the social and environmental problems associated with urbanization
- Community-based participation in the development of programs and policies that contribute to the social, economic, political, and environmental improvement of their communities and cities.

Major Requirements
Lower Division Requirements:

15 semester hours:

URBN 125 and 135;
AFAM 115 or APAM 117 or CHST 116;
SOCL 109 and 210.

A grade of C (2.0) will be required in all lower division major courses. It is recommended that students majoring in Urban Studies complete ECON 100, 105, 110, or 120 in partial fulfillment of the University Core Curriculum requirement in social science.
Upper Division Requirements:

24 semester hours in upper division courses, including:

URBN 345, 347, 455, and 456;

and 12 semester hours in one or more of the following areas:

1. Law and Justice:
   - POLS 336 The Judiciary
   - POLS 471 U.S. Constitutional Law: Case Method I
   - POLS 472 U.S. Constitutional Law: Case Method II
   - SOCL 322 Deviant Behavior
   - SOCL 356 Sociology of Law
   - SOCL 422 Criminal Justice
   - SOCL 423 Criminal Law
   - SOCL 424 Crime and Delinquency

2. Urban Politics, Public Administration, and Policy Analysis:
   - CHST 337 Racial and Ethnic Politics
   - CHST 437 Chicana/o Politics
   - ECON 356 Urban Economics
   - POLS 340 Public Administration
   - POLS 341 Race, Class, Culture, and Public Policy
   - POLS 345 Urban Politics
   - POLS 436 Politics of Los Angeles
   - POLS 440 Public Policy Analysis
   - SOCL 354 Social Organization

3. Urban Culture:
   - HIST 367 History of Los Angeles
   - SOCL 340 Urban Sociology
   - SOCL 341 Community
   - SOCL 348 Urban Anthropology
   - SOCL 349 Research in Urban Society
   - URBN 365 Metropolitan Los Angeles

4. Urban-Ethnic Communities:
   - APAM 427 Asian American Psychology
   - CHST 308 Contemporary Urban Chicana/o and Other Latina/o Issues
   - CHST 485 Community Research & Internship
   - ECON 371 Economic Development of Minority Communities
   - SOCL 334 Race and Ethnic Relations
   - SOCL 335 Sociology of the Black Community

5. Urban Planning:
   - ECON 330 Regression Analysis
   - ECON 334 Business Forecasting
   - ECON 532 Econometrics
   - SOCL 342 Demography and Population Analysis
   - SOCL 371 Social Ecology

An average grade of C (2.0) must be obtained in the upper division courses included in the major.

Minor Requirements

18 semester hours, including URBN 125, 135, 345, 347, 455, and 3 semester hours in upper division courses selected from one or more of the areas of specialization.

An average grade of C (2.0) must be obtained in the courses included in the minor.

Urban Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

**Total:** 15 semester hours

Students may take no more than ten upper division courses in any one department, except for Philosophy, in which the maximum is thirteen.

**URBN 125**  
**Urban Physical Environment**  
3 Semester Hours

An introduction to the physical-biotic and structural consequences of urbanization. The internal structure of contemporary American cities is emphasized.

**URBN 135**  
**Urban Social Environment**  
3 Semester Hours

An introduction to the social, economic, political, and spatial developments associated with urbanization and a pluralistic society. The nature of contemporary American urbanism is emphasized.

**URBN 198**  
**Special Studies**  
1-3 Semester Hours

**URBN 199**  
**Independent Studies**  
1-3 Semester Hours

**URBN 298**  
**Special Studies**  
1-3 Semester Hours

**URBN 299**  
**Independent Studies**  
1-3 Semester Hours

**URBN 345**  
**Urban Planning**  
3 Semester Hours

An introduction to the problems, principles, and practices of modern urban planning.

**URBN 347**  
**Community Development**  
3 Semester Hours

An exploration of the meanings and methodologies of community development, especially in contemporary urban America.

**URBN 349**  
**Research in Urban Society**  
(See SOCL 349)

**URBN 365**  
**Metropolitan Los Angeles**  
3 Semester Hours

An overview of the social, economic, political, environmental, and spatial characteristics and dynamics of metropolitan Los Angeles in the context of contemporary urbanization in the United States.

**URBN 398**  
**Special Studies**  
1-3 Semester Hours

**URBN 399**  
**Independent Studies**  
1-3 Semester Hours

**URBN 455**  
**Urban Internship**  
3 Semester Hours

A supervised internship in public administration, social service, urban planning, or law enforcement. Individual assignments are made on the basis of the intern's academic preparation and career aspirations.

Prerequisite: Approval of the Program Director.

**URBN 456**  
**Senior Project**  
3 Semester Hours

Directed research on a specific urban topic in the social sciences, natural sciences, business administration, and/or arts and humanities incorporating methodologies of primary and secondary research, and/or participant observation.

Prerequisites: URBN 455 and senior standing.

**URBN 498**  
**Special Studies**  
1-3 Semester Hours

**URBN 499**  
**Independent Studies**  
1-3 Semester Hours
Women’s Studies

Faculty
Chairperson: Nancy W. Jabbra
Professor: Nancy W. Jabbra
Assistant Professor: Stella Oh

Objectives
The mission of Women's Studies at Loyola Marymount University is to engage students in a critical understanding of the complex ways gender shapes the world around them, particularly in relation to race, sexuality, class, and other social factors. Women's Studies invites all students to participate in a vibrant interdisciplinary program of study that places women at the center of traditional disciplines in which they have been historically marginalized. It encourages the critical examination of academic fields such as the humanities, social sciences, natural sciences, and the arts, together with the gendered assumptions that underwrite them. Further, Women's Studies proposes not only that we ask different questions of academic disciplines from the perspective of women, but also that we transform those fields and ways of knowing through the innovative theoretical tools and new methodologies that have been developed by feminist scholars and activists over the past thirty years. As a department committed to transformation through education, the mission of Women's Studies is to call attention to the androcentric nature of society, propose alternatives and strategies that honor women's human rights, and promote a vision of society where gender hierarchy, as well as other forms of social injustice, are eliminated. Grounded in feminist pedagogy, Women's Studies courses provide students with a broad understanding of the asymmetry of gender relations within diverse historical and cultural contexts. Our mission is to foster a vigorous intellectual environment where students can develop their analytical thinking skills and conceptual tools for social change.

Women’s Studies Student Learning Outcomes
After completing their program in Women’s Studies, students will have:

- Acquired a critical understanding of the complex ways gender shapes the world, particularly in relation to race, sexuality, class, and other social factors
- Acquired a strong commitment to social justice for women of all ethnicities
- Learned new methodologies and theoretical tools
- Learned to express themselves well both orally and in writing.

Major Requirements

Lower Division Requirements: 12 semester hours

WNST 100, 101, and 200, plus one of the following for the Lower Division Health and Sexualities Requirement: WNST 220, 221, or 222.

Upper Division Requirements: 24 semester hours

WNST 301, 302, 351, and 497.

Upper Division Options: 12 semester hours

Choose 9 semester hours (3 classes) from one of the following clusters, plus 3 semester hours (1 class) from one of the others. Please note that some classes are listed in more than one cluster. Students may take such classes for credit in only one cluster. At times a special studies class may be taken in lieu of one of the electives listed below. Please consult the Department for advice.

Note: One of the upper division options must include WNST 303 or another History of Women class. If History of Women is chosen as a cluster, then the student must choose one course from another cluster.

Gender at the Intersection of Race, Ethnicity, Class, and Sexuality: WNST 341, 342, 344, 345, 348, 349, 440, 453, 461, or 462.

Social Movements, Social Justice, and Public Policy: WNST 347, 451, 454, or 490.

Feminist Theology and Philosophy: WNST 361, 370, 371, or 372.

Total: 36 semester hours. Women’s Studies majors should have a minimum of a C (2.0) in all Women’s Studies classes.

Please note that cross-listed courses may have departmental prerequisites; consult departments for details.
Minor Requirements

18 semester hours, including WNST 100 or 101, 301, and 497. At least 12 semester hours must be in upper division courses. A minimum grade of C (2.0) must be earned in both WNST 100 and 497. An average grade of C (2.0) must be earned in the Women’s Studies minor courses.

Please note that cross-listed courses may have departmental prerequisites; consult departments for details.

Women’s Studies Model Four-Year Plan

The normal course load is 15 semester hours (5 classes). By following the model below, a student will complete all lower division core requirements by the end of the sophomore year as well as most major prerequisites. Note that core areas are suggested to provide a distribution of various disciplines every semester. Please be flexible in implementing these suggestions, given your own interests and course availability. In four years, this plan meets all common graduation requirements.

Students may take no more than **ten upper division** courses in any one department, except for Philosophy, for which the maximum is thirteen.

#### WNST 100
**Introduction to Women's Studies**

3 Semester Hours

An interdisciplinary study of women in society oriented toward exploring women's experiences in a variety of contexts. Topics covered include biology, sociology, psychology, politics, economics, religion, philosophy, history, literature and language, law, and culture. Course content is focused on North America and is multicultural.

Satisfies social science core requirement.

#### WNST 101
**Women of Color in the U.S.**

3 Semester Hours

An introduction to critical thinking skills about concepts such as gender, race, class, and sexuality, how these intersect in lives of women of color together with women's strategies of surviving, resisting, and overcoming barriers.

Satisfies American Cultures core requirement.

#### WNST 198
**Special Studies**

1-3 Semester Hours

#### WNST 199
**Independent Studies**

1-3 Semester Hours

### WNST 200
**Women in Global Communities**

3 Semester Hours

This course introduces students to the cultural, social, political, and economic contexts in which non-Western women live. It addresses the impact of globalization, colonialization, and post-coloniality, and women's responses to these processes.

#### WNST 220
**Women's Bodies, Health, and Sexuality**

3 Semester Hours

This course addresses women's health and sexuality from a feminist perspective. It also deals with body images not only from the perspective of health but also in terms of their relationship to structures of power.

#### WNST 221
**Women in Science and Mathematics: Breaking the Stereotype**

(See NTLS 265)

#### WNST 222
**Human Reproduction and Development**

(See BIOL 271)

#### WNST 298
**Special Studies**

1-3 Semester Hours

#### WNST 299
**Independent Studies**

1-3 Semester Hours

#### WNST 301
**Feminist Theories**

3 Semester Hours

Focuses on the historical roots of feminist political thought in relation to other social movements. Examines the intellectual traditions within feminist theory today such as postmodernism, psychoanalysis, postcolonial theory, queer theory, and the intersectional analyses produced by women of color.

Normally offered in the Fall semester.
WNST 302
Investigating Women: Feminist Research Methods
3 Semester Hours

Examines feminist methodologies through hands-on research and considers the complex relationships between researchers and their subjects, the impact of social location on our field of vision, ethical issues in the research process, as well as research that facilitates social and gender justice.

Normally offered in the Spring semester.

WNST 303
History of Feminisms
3 Semester Hours

This course traces the development of feminist theories as structures of ideas and relates them to the historical contexts and feminist movements in which they developed.

WNST 311
Gender Communication
(See CMST 335)

WNST 331
The Image of Woman in Nineteenth-Century England
(See ENGL 342)

WNST 332
Twentieth-Century Women's Writing
(See ENGL 343)

WNST 333
Literature by Women of Color
3 Semester Hours

The course explores contemporary literature by women of color in the United States and their immigrant experiences. It attends to the ways that authors imaginatively use genres to represent and challenge gender and race construction.

WNST 334
Italian Women Writers
(See ITAL 380)

WNST 341
Black Identities, Families, and Cultures
(See AFAM 301)

WNST 342
Chicanas and Other Latinas in the U.S.
(See CHST 302)

WNST 344
Gender and Society
(See SOCL 332)

WNST 345
Sociology of Marriage and Families
(See SOCL 361)

WNST 346
Women in the Middle East
3 Semester Hours

This course explores the themes and variations in women's lives in the Middle East. Particular attention will be paid to family structures, rural-urban, social class and ethnic differences, social and political movements, religion, work, and education.

WNST 347
Women's Movements in Latin America and the Caribbean
3 Semester Hours

Examines feminisms and women's participation in indigenous, environmental, and labor movements, Christian-based communities, peasant struggles, and new social movements concerned with race, sexuality, feminism, and human rights.

WNST 348
Men and Masculinities
(See SOCL 333)

WNST 349
Ethnicity, Race, and Gender
3 Semester Hours

This course is an exploration of the ways in which gender, race, ethnicity, and class intersect to shape individuals' life chances and experiences in the contemporary United States. The following areas will be emphasized: income and occupation, the justice system, social reputation and credibility, religion, education, and health. Treatment of these topics will be analytical and comparative, focusing on the experiences of African Americans, Latinas/os, and European-Americans.

Satisfies American Cultures core requirement.

Prerequisites: SOCL 100, 105; WNST 100 or 101.

WNST 351
Genders and Sexualities
3 Semester Hours

This course explores the relationship between sexuality and gender as well as a diversity of sexual identities. It focuses on issues of the body, sex, nature, and power within the context of history, culture, and public policy.

WNST 361
Women in Christian History
(See THST 324)

IT SYSTEMS PLANNING PRODUCES A PLAN

The 5 step IT systems planning process includes:

1. Aligning Organizational Goals and IT
2. Identifying Specific Processes
3. Identifying Specific Information
4. Evaluating IT Systems
5. Planning for What You Can’t Live Without

The result is the INFORMATION TECHNOLOGY (IT) SYSTEMS PLAN that documents the results of the IT systems planning process.
College of Business Administration

Administration

Dean: Dennis T. Draper
Associate Deans: George L. Hess (Undergraduate), Rachelle Katz (Graduate), William Lindsey (Center for Executive Learning)
Directors: John Daly, S.J. (Center for Asian Business); Alan K. Hogenauer (Center for Travel and Tourism); Lawrence P. Kalbers (Center for Accounting Ethics, Governance, and the Public Interest); Fred Keisner (Center for Entrepreneurship); Thomas White (Center for Ethics and Business)

Organization

The College has four Departments, six Centers, one Program, an MBA Program, and an Executive MBA Program, each led by a Chairperson or Associate Dean. The Areas of Concentration within these units are designated by four letter codes.

- Department of Accounting (ACCT)
- Department of Finance and Computer Information Systems (FNCE), (ISQM)
- Department of Management (MGMT), (ENTR), (INBA)
- Department of Marketing and Business Law (MRKT), (BLAW)
- Center for Accounting Ethics, Governance, and the Public Interest
- Center for Asian Business
- Center for Entrepreneurship (courses are offered through the Departments)
- Center for Ethics and Business (courses and activities are offered through the Departments)
- Center for Executive Learning
- Center for Travel and Tourism (TOUR)

The College offers the Master of Business Administration in different formats. The traditional MBA (MBAA) addresses the educational demands of persons who recognize the need to continue to build their careers. The Executive MBA (EMBA) is for the experienced business leader who aspires to executive-level responsibility.

Baccalaureate Degree Program

The College offers two Baccalaureate Degrees: Bachelor of Business Administration (B.B.A.) and the Bachelor of Science in Accounting (B.S.A.).

The Vision and Mission of the College of Business Administration

The vision of the College is to be recognized as a leading College of Business Administration within a Catholic university through our commitment to learning, values, and research. The underlying theme is the development of ethical leaders for a diverse, technologically-driven, global economy. These statements confirm our commitment to the principles of continuous improvement. The primary focus is on excellence in instruction and learning.

The mission of the College is to continuously develop an environment in which all stakeholders learn and grow together and contribute to an understanding of:

- The global economy,
- The business theories and practices which explain its operations,
- The decision models and analytical frameworks for meeting ethical challenges,
- The importance and interdependence of people in the work environment,
- The technologies that stimulate change, and
- The skills and management tools needed to manage an enterprise successfully.

The mission of the undergraduate programs is to:

- Help students of high potential experience personal growth in the acquisition of knowledge in a broad range of subjects based on the University core curriculum and an integrated business curriculum;
- Help students develop technical, analytical, and interpersonal skills and personal qualities and values to realize their potential as future leaders in a global economy; and
- Graduate students who are able to demonstrate a depth of understanding in their primary field of interest.
**University Core Curriculum for the Baccalaureate Degree in the College of Business Administration**

**American Cultures**  
3 Semester Hours

Course Selection  
First- and second-year students choose from any lower division course (100s or 200s) listed. Third- and fourth-year students choose from any upper division course (300s or 400s) listed. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement, which is also cross-listed as AMCS (please see the Associate Dean’s Office for details).

**College Writing**  
3 Semester Hours

Course Selection  
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

**Communication**  
3 Semester Hours

Course Selection  
Choose from CMST 100, 110, 130, or 140.

**Critical and Creative Arts**  
6 Semester Hours

Course Selection  
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts:  
Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FTVS 210, 314, 315; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Creative Arts:  
Choose from ANIM 120, 220; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); MUSC 105, 106, 107; PROD 200; SCWR 220; THEA 110, 400.

**History**  
6 Semester Hours

Course Selection  
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization:  
Choose from HIST 100 or 101.

Contemporary Societies:  
Choose from HIST 152, 162, 172, 182, 192.

**Literature**  
3 Semester Hours

Course Selection  
Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

**Mathematics, Science and Technology**  
6 Semester Hours

Course Selection  
Prerequisite: Success on the Mathematics Placement Examination or successful completion of MATH 101.

Students must complete MATH 112. MATH 101 and 111 are normally required as prerequisites but may be waived if the student has a high enough score on the Mathematics Placement Examination. All incoming College of Business Administration students must take the Mathematics Placement Examination unless they have already completed MATH 112 or its equivalent. If MATH 111 is waived, the student must complete a 3 semester hour non-business course for MATH 111.

Students must complete one 3 semester hour science and technology course. Courses ordinarily recommended to students majoring outside the Frank R. Seaver College of Science and Engineering are those numbered 260-279 in each department within the College (with the exception of computer [CMSI] and Mathematics [MATH] courses). Courses in this series are specifically designed for the non-major.

Choose from BIOL 260, 261, 262, 263, 264, 265, 271, 272, 275, 276; CHEM 260, 261, 262, 263, 264; ELEC 260, 265; MECH 260, 270, 275; NTLS 260, 270; PHYS 271, 272. Other Physical Science courses from the Frank R. Seaver College of Science and Engineering may be used to satisfy this requirement with the approval of the Associate Dean’s office of the College of Business Administration.
Philosophy
6 Semester Hours

Course Selection
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempt from the lower division requirement. The College of Business Administration requires that PHIL 160 be replaced with a 3-semester-hour non-business course.

Upper Division:
Choose one course from PHIL 320 through 330.

Social Sciences
6 Semester Hours

Course Selection
Choose ECON 105 or 10 and PSYC 100.

Theological Studies
6 Semester Hours

Course Selection
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempt from the lower division requirement. The College of Business Administration requires 100-level series of THST courses be replaced with a 3-semester-hour non-business course.

Upper Division:
Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses that include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, 210, 220; DANC 281; FILM 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; HIST 172, 182; MUSC 303, 365; THEA 348; THST 180, 361, 382, 383, 384, 385.

All College of Business Administration students should be alert to the following policies:

Students on academic probation can enroll in a maximum of 15.0 semester hours and will need to have their Advisor Hold removed prior to registration by their academic advisors.

Certain courses must be taken in residence at LMU.

Upper division business courses may only be transferred from AACSB accredited institutions.

Transfer course approvals must be obtained from the Associate Dean’s office prior to enrollment.

Credits for approved internships are not part of the three courses required for an area of emphasis, unless it is repeated three times.

A minimum of 50% of the business-related coursework must be completed at LMU.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Senior Exam
All senior students of the College are required to take the Senior Exam, which is offered each semester.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad Office.
Total Program

The B.B.A. degree program requires a minimum of 120 semester hours, and the B.S.A. degree program requires a minimum of 126 hours, including the prescribed business administration core courses and those listed above. A minimum of 45 semester hours must be from upper division course offerings.

Students should consult the Associate Dean's office for specific policies applicable to the College of Business Administration.

All courses are 3 semester hours unless otherwise stated.

Business Administration

Curriculum

The courses within the two degree programs (Bachelor of Business Administration and Bachelor of Science in Accounting) are categorized in six groups:

<table>
<thead>
<tr>
<th>B.B.A.</th>
<th>B.S.A.</th>
</tr>
</thead>
<tbody>
<tr>
<td>S.H.</td>
<td>S.H.</td>
</tr>
<tr>
<td>A.</td>
<td>University Core Curriculum</td>
</tr>
<tr>
<td>B.</td>
<td>Business/Econ. Core Requirement</td>
</tr>
<tr>
<td>C.</td>
<td>Math/Science Requirement</td>
</tr>
<tr>
<td>D.</td>
<td>Business Concentration Courses and/or Accounting</td>
</tr>
<tr>
<td>E.</td>
<td>Non-business electives</td>
</tr>
<tr>
<td>F.</td>
<td>Free Electives</td>
</tr>
<tr>
<td>Total</td>
<td>120</td>
</tr>
</tbody>
</table>

The specific courses in the two curricula are as follows:

A. University Core Curriculum

B. Business/Economics Core Requirements:

<table>
<thead>
<tr>
<th>Course Code</th>

</tbody>
</table>

C. Math/Science Requirement

D. Student Academic Plan: Students will develop an Academic Plan to identify the degree sought and the majors, minors, and areas of emphasis or concentration in their degree track program of study. Students working toward the Bachelor of Business Administration (BBA) degree will select one or two of the following Areas of Emphasis:

- Business Law
- Entrepreneurship
- Finance
- Computer Information Systems
- International Business
- Management
- Marketing
- Travel and Tourism

For each Area of Emphasis, the student will select three Advanced Business Electives. Students will also select minors and/or other majors as well as elective courses which may be taken as part of their Academic Plan. This Plan will be developed and implemented in consultation with the student's Academic Advisor and the Office of the Associate Dean.

</tbody>
</table>
Agreements are in place with a number of the departments in the University under which students may take all or most of their non-business and free electives in a single area. By using a planned sequence of recommended courses and, in some cases, by taking extra courses, it is possible for a student to complete a minor area of study and, in a few cases, even a second major. It is recommended that each student consider this possibility in terms of career and personal objectives.

F. Free Electives: Students in the B.B.A. program have 9 semester hours of electives that may be taken from any College or School within the University, including Business Administration. These 9 semester hours may be used to complete a second area of emphasis.

Special Note:
The purpose of the above listing is simply to indicate the overall structure of the two programs in business. The order in which the courses must be taken is governed in all cases by the contribution of each course to the overall system. The suggested sequence of courses is shown in the following curriculum sections.

Transfer Credit
Lower division courses in business and economics that may be accepted include the equivalents of the following Loyola Marymount courses:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 211</td>
<td>Financial Accounting</td>
</tr>
<tr>
<td>ACCT 212</td>

<td>Introductory Macroeconomics</td>
</tr>
<tr>
<td>ECON 230</td>
<td>Introductory Statistics</td>
</tr>
<tr>
<td>ISQM 275</td>
<td>Computers in Business</td>
</tr>
</tbody>
</table>

The following policies apply to all work transferred to the College of Business Administration at Loyola Marymount, whether from a two-year or a four-year school. The College can accept only those business and economics courses which are reasonably equivalent and at the same level of instruction as courses offered by Loyola Marymount. Thus, a course that Loyola Marymount offers at the junior level (courses numbered 300 and above) but that is taken by a transfer student at the sophomore level at a previous school cannot be accepted for credit. Such courses can be recognized only if the student takes the appropriate examinations after admission to the College (see Credit by Examination). Further, all transfer courses must be taken for a letter grade, and the student must receive a grade of C (2.0) or higher in order to obtain transfer credit.
Upper division business courses may only be transferred from a four-year, AACSB-accredited institution.

All courses in the College are open only to declared majors and approved minors in the College of Business Administration. Students wishing to transfer into the College must have a 3.0 GPA, have completed MATH 112 or its equivalent with a grade of C (2.0) or higher, and completed at least one semester of economics (ECON 105, 110, or 120) with a grade of B- (2.7) or higher.

Bachelor of Business Administration Curriculum

The following curriculum represents the order or sequence in which it is expected that students will take the various courses required for the B.B.A. degree.

Freshman Year

Fall Semester
- ECON 105 Accelerated Introductory Economics
- ECON 110 Introductory Microeconomics
- ENGL 110 College Writing
- HIST 10 Western Traditions 100 or 101
- MATH 111 Math Analysis for Business I
- THST 1XX Lower Division THST

Spring Semester
- ECON 105 Accelerated Introductory Economics
- ECON 10 Introductory Macroeconomics
- ENGL ___ Literature (See Core Curriculum)
- HIST ___ HIST 15, 16, 17, 18, or 19
- MATH 11 Math Analysis for Business II
- PHIL 160 Philosophy of Human Nature

Sophomore Year

Fall Semester
- ACCT 211 Financial Accounting
- BLAW 205 Legal Environment of Business
- ECON 230 Introductory Statistics
- PSYC 100 General Psychology
- SCTC ___ Science (See Core Curriculum)

Spring Semester
- ACCT 212 Managerial Accounting
- CMST ___ Communications (See Core Curriculum)
- ISQM 275 Computers in Business
- Elect. ___ Critical Arts (See Core Curriculum)
- Elect. ___ Creative Arts (See Core Curriculum)

Junior Year

Fall Semester
- FNCE 325 Financial Planning and Control
- INBA 340 Intro to International Business
- MGMT 355 Principles of Mgmt & Org. Behavior
- MRKT 365 Principles of Marketing
- THST 3XX Upper Division Theology

Spring Semester
- AMCS ___ American Cultures (3 s.h.)
- ISQM 370 Management Info Systems
- ISQM 377 Production Operations Systems
- MGMT 335 Human Resources Management
- PHIL 320-330 Ethics-related Course

Senior Year

Fall Semester
- MGMT 405 Business as an Institution in Society
- Elect. ___ Non-Business Elective (3 s.h.)
- Elect. ___ Free Elective (3 semester hours)

Spring Semester
- MGMT 409 Management Policy
- Elect. ___ Non-Business Elective (3 s.h.)
- Elect. ___ Free Elective (3 semester hours)
- Elect. ___ Free Elective (3 semester hours)
Business Administration Minor

Requirements

The minor in Business Administration is open to non-Business majors only. (Business Administration majors must take all courses required for the minor in order to complete the Business major.) Courses required for the Business minor include ACCT 211, ECON 100, 105, or 110, MGMT 355, and MRKT 365. Two additional courses must be taken at the upper division level (300s-400s). Upper division courses may only be transferred from AACSB-accredited institutions. A minimum cumulative GPA of 2.5 must be earned in the minor area.

Hispanic Business Studies Minor

In recognition of the growing number of Spanish-speaking people in the United States and the world, as well as the potential business opportunities they represent, the College of Business Administration offers a minor in Hispanic Business Studies. This minor requires that three of the courses be in Spanish language and three in Hispanic culture. The courses in this minor are selected in consultation with the Associate Dean of Business Administration. This minor is available to Business Administration and Accounting majors only. A minimum cumulative GPA of C (2.0) must be earned in the minor area.

Travel and Tourism Management Minor

Selected courses in the Program in Travel and Tourism are available as a minor for non-business students only. The Travel and Tourism Management minor includes one of the following courses: ECON 100, 105, or 110; each of the following four courses: TOUR 380, 382, 383, and 384; one of the elective courses listed; and at least one internship (TOUR 381).

Beta Gamma Sigma Honor Society

Beta Gamma Sigma is the honor society for students enrolled in business and management programs accredited by AACSB International—the Association to Advance Collegiate Schools of Business. Election to lifetime membership in Beta Gamma Sigma is the highest honor a business student can achieve. Juniors and seniors in the top 10% and MBA students in the top 20% of their class may be invited to membership.

Beta Gamma Sigma membership provides recognition for a lifetime. With alumni chapters in major metropolitan areas across the United States, the BGS Career Central job board and the BetaLink on-line membership community, those recognized for their academic achievements at Loyola Marymount University can continue an active relationship with Beta Gamma Sigma long after graduation. This lifelong commitment to its members’ academic and professional success is defined in the Society’s mission: to encourage and honor academic achievement in the study of business and personal and professional excellence in the practice of business.

Bachelor of Science in Accounting Curriculum

The first two years of the program are identical to the Bachelor of Business Administration Curriculum. All 300- and 400-level accounting courses must be taken in residence at Loyola Marymount University.

Junior Year

Fall Semester
ACCT 311 Intermediate Accounting I
ACCT 314 Accounting Info. Systems
AMCS ___ American Cultures (3 s.h.)
FNCE 325 Financial Planning and Control
MRKT 365 Principles of Marketing

Spring Semester
ACCT 312 Intermediate Accounting II
ACCT 313 Cost Accounting
ISQM 377 Production Operations Systems
MGMT 355 Principles of Mgmt and Org. Behavior
THST 3XX Upper Division Theology

Senior Year

Fall Semester
ACCT 405 Accounting Ethics, Professionalism, and the Public Interest
ACCT 411 Advanced Accounting
ACCT 416 Auditing, Assurance, and Attestation
INBA 340 Intro to International Business
PHIL 320-330 Ethics-related Course
Spring Semester
ACCT 412 Income Tax Accounting
BLAW 301 Business Law Applications and Cases
MGMT 409 Management Policy
Elect. ___ Non-Business Elective (3 s.h.)
Elect. ___ Non-Business Elective (3 s.h.)

Academic Plan

Accounting majors are encouraged, but not required, to include 150 semester hours of study in their academic planning process. The 150 semester hours of study is now required to practice public accounting in most states and for Pathway Two in the State of California. Their plan might include undertaking minors and/or an additional major or pursuing graduate studies. Students are encouraged to discuss with the Associate Dean and/or their Accounting academic advisor various possible tracks to earn the 150 semester hours.

Accounting Minor Requirements

ACCT 211, 212, and at least three of the following courses: ACCT 311, 312, 313, and 412. All upper division Accounting courses must be taken in residence. A minimum grade of C (2.0) must be earned in each minor course.
Accounting

Faculty

Chairperson: Alan Cherry
Professors: J. Ross Bengel, Alan Cherry, Frank Daroca, George Dasaro, Alan Falcon, Lawrence Kalbers (R. Chad Dreier Chair in Accounting), Mahmoud Nourayi
Associate Professor: Patricia Douglas

Objectives

The Bachelor of Science in Accounting degree program is designed to prepare students for a career in public, corporate, or governmental accounting. Students will learn the basic definitions, concepts, and techniques of accounting, as well as the role accounting plays in society.

Learning Objectives

• Students will be able to describe, apply, and evaluate financial accounting concepts and standards at a professional level
• Students will be able to use managerial accounting methods and techniques to solve both structured and unstructured, real-world business problems
• Students will be able to explain, apply, and evaluate the key provisions and exceptions in the federal tax code
• Students will be able to explain and apply an ethical conceptual framework to solve real-world ethical problems
• At least 80 percent of our graduates will be able to start graduate studies or careers in accounting at entry-level professional positions

Major Requirements

Lower Division Requirements:

ACCT 211, 212; BLAW 205; ECON 110, 120, or 105, 230; ISQM 275; MATH 111, 112.

Upper Division Requirements:

ACCT 311, 312, 313, 314, 411, 412, 416; BLAW 301; FNCE 325; INBA 340; ISQM 377; MGMT 355, 405, 409; MRKT 365. All upper division accounting courses must be taken in residence at LMU. A cumulative GPA of C (2.0) must be achieved in the major requirements (all business, economics, and math courses).

For purposes of meeting the requirements for the B.S.A. degree and determination of academic probation, an overall cumulative grade point average of at least a C (2.0) must be obtained in the following Accounting major courses: 311, 312, 313, 314, 411, 412, and 416.

ACCT 211

Financial Accounting

3 Semester Hours

This is the first course in a two-accounting-course sequence that is required for all business majors and business minors. This course introduces the student to 1) the role of accounting in business and society, 2) the basic concepts and techniques of financial accounting, and 3) the use of financial statements for decision-making purposes. Topics covered include a summary of the accounting cycle, analyzing and recording transactions, accounting valuation and allocation practices, preparation, interpretation, and analysis of financial statements.

ACCT 212

Managerial Accounting

3 Semester Hours

This is the second in a two-semester sequence in accounting required of all business majors and is a prerequisite to all other accounting courses. Building on the basic understanding of accounting systems developed in ACCT 211, managerial accounting introduces concepts of cost behavior and analysis, as well as techniques for using operational and financial information within the business firm for decision-making, planning, and control.

Prerequisite: ACCT 211.

ACCT 311

Intermediate Accounting I

4 Semester Hours

This course begins the in-depth study of financial accounting and reporting. Topics covered include the environment of the standard setting process for financial accounting and reporting, the conceptual framework, accounting cycle procedures, financial statement preparation and financial disclosures, basic ratio analysis, and accounting standards and procedures for cash, notes and accounts receivable, and inventories. Uses and limitations of the balance sheet and the income statement are studied. Researching accounting issues through the use of a database and accounting websites are a course requirement.

Prerequisites: ACCT 212 and ISQM 275.
ACCT 312
Intermediate Accounting II
4 Semester Hours

This course continues the in-depth study of financial accounting and reporting begun in ACCT 311. The conceptual and procedural aspects of some of the most complex and controversial topics in financial accounting are studied. Topics include the accounting for property, plant, and equipment, intangible assets, investments, long-term debt, derivatives, leases, deferred taxes, stock options, error correction, and the statement of cash flows. Coverage of these topics includes an historical perspective, learning the current standards under generally accepted accounting principles, awareness of the flaws and limitations in current practice, and possible future directions.

Prerequisite: ACCT 311 with a minimum grade of C (2.0).

ACCT 313
Cost Accounting
4 Semester Hours

Continuing the study of the managerial uses of cost data begun in ACCT 212. The procedural aspects will be considered as they relate to ACCT 212 concepts. Allocation approaches will be discussed. The conceptual aspect will be enhanced to include resource management and performance evaluation.

Prerequisites: ACCT 212 and ISQM 275.

ACCT 314
Accounting Information Systems
3 Semester Hours

This course introduces business processes utilizing transaction processing cycles and accounting-based information technology (IT) such as e-commerce, electronic data processing, and continuous auditing. The course also stresses the design, development, implementation, and auditing of accounting information systems.

Prerequisites: ACCT 212 and ISQM 275.

ACCT 405
Accounting Ethics, Professionalism, and the Public Interest
3 Semester Hours

Accountants and the accounting profession play an important role in society. The role is examined in this course through an in-depth study of accounting ethics, professionalism, and the public interest. Students will learn about and analyze the history of the profession; the legal and ethical responsibilities of the profession; important legislation that has impacted the profession and the practice of accounting, particularly auditing; and the current environment in which accountants and auditors work. The course also will expose students to moral reasoning and ethical decision making, and encourage students to adopt the objectivity, integrity, and ethical standards necessary to serve society as an accounting professional.

Prerequisite: ACCT 311.

ACCT 411
Advanced Accounting
4 Semester Hours

This course completes the undergraduate study of financial accounting and reporting. An emphasis is placed on consolidated financial statements. Additional topics covered include foreign currency transactions, translation of the financial statements of foreign entities, governmental accounting for local and state governments, and accounting and reporting of private not-for-profit organizations.

Prerequisites: ACCT 312 with a minimum grade of C (2.0) and 314.

Accounting majors only, except by permission of instructor.

ACCT 412
Federal Income Taxation
4 Semester Hours

A comprehensive study of federal tax laws and administration with emphasis on the taxation of individuals. In addition, application of the components of the federal income tax formulas for partnerships, corporations, and other business entities will be examined.

Prerequisite: ACCT 311.
ACCT 416
Auditing, Assurance, and Attestation
4 Semester Hours

The study of the methodology used by public accountants to obtain and evaluate evidence regarding assertions concerning financial statements and internal controls over financial reporting. Ethical and legal aspects of the auditing profession are examined with special reference to ramifications of the Sarbanes-Oxley Act.

Prerequisites: ACCT 312 with a minimum grade of C (2.0), 313, 314; ECON 230.

Accounting majors only, except by permission of instructor.

ACCT 418
Fraud Examination
3 Semester Hours

An introductory course designed for business managers and those beginning careers in accounting and auditing. The course stresses the nature of fraud, its litigation, approaches to detecting and preventing fraud, fraud inquiry methods, and reports issued by fraud examiners. Specific topics covered include: financial statement fraud, asset conversion frauds, computer frauds, and bankruptcy frauds. The course advocates a more careful and skeptical view of financial transactions and information.

Prerequisite: ACCT 311.
Finance, Computer Information Systems and Operations Management

Faculty
Chairperson: Richard J. Perle
Associate Professors: Dolphy Abraham, Allen Gray, Charles J. Higgins, Chun I. Lee, Linda A. Leon, Robbie Nakatsu, Kala Chand Seal
Assistant Professors: Susan Elkinawy, David Offenberg, Ying Sai

Objectives
The Bachelor of Business Administration degree with an emphasis on finance prepares students for careers in the private and public sectors. Students develop skills in the application of concepts and techniques essential to financial planning, investments, and corporate planning.

The computer information systems and operations management emphasis involves the application of computers to meet the information needs of organizations. It prepares students to use modern information technology to solve business problems at the operational, technical, and strategic levels.

Finance

FNCE 325
Financial Planning and Control
3 Semester Hours
Topics include structure and financial problems of business enterprises; methods and instruments available for promoting, financing, recapitalizing, and reorganizing business enterprises; and social control of security issues and exchanges. In addition, time value of money, risk and return trade-offs, security valuation, and working capital management will be studied.

Prerequisites: ACCT 212; ECON 105 or 110 and 120, 230; MATH 112.

FNCE 381
Internship
1 Semester Hour
The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student’s major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

May be repeated for degree credit.

FNCE 412
Income Tax Accounting
3 Semester Hours
A practical guide for the professional manager and the entrepreneur to help them understand federal tax laws with emphasis on tax considerations in entrepreneurial and strategic planning.

FNCE 426
Investments
3 Semester Hours
Topics to be discussed include sources of, and demand for, investment capital; determination of investment policy and current procedures for the analysis of securities will be covered. Financial instruments examined include futures contracts, options, and convertibles.

Prerequisite: FNCE 325.
FNCE 427  
Financial Policy  
3 Semester Hours  

Use of cases to analyze problems and policies of business as well as investment issues related to discounted cash flow, securities valuation, cost of capital, capital budgeting, and mergers and acquisitions will be examined. Focus also includes capital structure policy, dividend policy, and working capital management.

Prerequisite: FNCE 325.

FNCE 428  
Real Estate Finance and Investment and Entrepreneurship  
3 Semester Hours  

Financial modeling and analysis of real estate investment opportunities to include financing strategy, risk analysis, taxation, market area supply and demand analysis by property type, as well as evaluating alternative financing instruments in both primary and secondary markets.

Prerequisite: FNCE 325.

FNCE 429  
Capital Markets  
3 Semester Hours  

This course examines the development, regulation, and management of each of the financial institutions and markets. The activities of these institutions and government and individuals in the markets are then studied.

Prerequisite: FNCE 325.

FNCE 430  
Mergers and Acquisitions  
3 Semester Hours  

This course focuses on how value is created (or destroyed) as a result of mergers, acquisitions, divestitures, joint ventures, and spin-offs. Students will learn how to develop acquisition plans, value firms, build financial models, structure deals, and implement common takeover tactics and defenses.

Prerequisite: FNCE 325.

FNCE 431  
Entrepreneurial Finance  
(See ENTR 431)

FNCE 432  
Tax Law and Planning  
(See ENTR 432)

FNCE 442  
Multinationals and the Third World  
3 Semester Hours  

This course examines business activity by multinational corporations in Third World countries. It focuses on conventional theory of multinational enterprises, financing decisions, technology transfer, institutional arrangements, entry strategy and options, host country bargaining power, settlement of investment disputes, workplace protection and safety ethics, and case studies of Third World countries.

Prerequisites: FNCE 325 and INBA 340.

FNCE 443  
International Investments  
3 Semester Hours  

Theories of international trade will be introduced, as well as international business finance and its environment. Additional topics to be examined include: risk and the foreign investment decision and institutions and instruments of international finance.

Prerequisite: FNCE 325.

FNCE 448  
International Finance  
3 Semester Hours  

Theories of international trade will be introduced, as well as international business finance and its environment. Additional topics to be examined include: risk and the foreign investment decision and institutions and instruments of international finance.

Prerequisite: FNCE 325.

FNCE 498  
Special Studies  
1-3 Semester Hours

FNCE 499  
Independent Studies  
1-3 Semester Hours
Computer Information Systems and Operations Management

**ISQM 275**  
**Computers in Business**  
*3 Semester Hours*

An introduction to computers and related technologies, including basic computer concepts and terminology and hands-on experience in use of spreadsheets, programming language, and database applications. In addition, an introduction to the role of IS in business organizations will be discussed.

Prerequisite: MATH 101, 111, or 112, or consent of instructor.

**ISQM 370**  
**Management Information Systems**  
*3 Semester Hours*

This course stresses the role of managers in the analysis, design, development, implementation, maintenance, and control of information systems as shared corporate resources. This course also stresses the critical role of IS in business organizations.

Accounting majors should substitute ACCT 314.

Prerequisite: ISQM 275.

**ISQM 377**  
**Production Operations Analysis**  
*3 Semester Hours*

This course will introduce students to decision making; forecasting, capacity, layout, aggregate, and material planning; inventory; scheduling; simulation and quality assurance; with computer applications.

Prerequisites: ECON 105 or 110, 230; ISQM 275; MATH 112.

**ISQM 381**  
**Internship**  
*1 Semester Hour*

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student’s major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

**ISQM 471**  
**Database Management Systems**  
*3 Semester Hours*

This course provides an introduction to the concepts of database systems. Topics to be covered include technical and managerial issues involved in the analysis and design of databases. The ER model and logical data models such as the relational, network, and hierarchical are discussed. Concepts of object-oriented and distributed databases are also discussed.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

**ISQM 472**  
**Object Oriented Systems Analysis and Design**  
*3 Semester Hours*

A rigorous approach to information analysis essential to information systems design. Emphasizes the formalization of the information systems design process and explores relevant state-of-the-art techniques.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

**ISQM 473**  
**Data Communications and Networks**  
*3 Semester Hours*

An introduction to the use of data communications and other automation systems in the business environment, including the study of local and wide area networks, voice and electronic mail, video conferencing, and other automation tools in support of management.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.

**ISQM 474**  
**Management Support Systems**  
*3 Semester Hours*

Examines the concepts and techniques associated with decision support systems, executive information systems, and expert systems. The course focuses on the specification, design, and implementation of DSS, EIS, and ES in organizations for solving real-world business problems.

Prerequisite: ACCT 314 or ISQM 370 or consent of instructor.
ISQM 476  
**PC-Based Decision Support Modeling**  
3 Semester Hours  
Explores the potential of personal computer spreadsheet models as a medium for providing strategic information to managers. Emphasizes how database modeling, risk analysis, LP, and forecasting can be performed and integrated in the spreadsheet environment.  
Prerequisite: ISQM 377 or consent of instructor.

ISQM 477  
**Total Quality Management**  
3 Semester Hours  
Reviews the contributions of notable professionals in the TQM movement: Deming, Juran, Crosby and Taguchi. Tools for planning and improving quality are examined and demonstrated. Finally, TQM procedures such as SPC and D of E are studied. Software packages are employed. Relevant statistical methods will be reviewed.  
Prerequisite: ISQM 377 or consent of instructor.

ISQM 478  
**Electronic Business**  
3 Semester Hours  
A focused study of how to plan, analyze, design, develop, and implement information systems to support business activity via electronic mediums such as the Internet. Also includes an assessment of current business and technology factors that impact such business activity.  
Prerequisite: ACCT 314 or ISQM 370.

ISQM 498  
**Special Studies**  
1-3 Semester Hours

ISQM 499  
**Independent Studies**  
1-3 Semester Hours
Management, Entrepreneurship, and International Business

Faculty
Chairperson: Edmund Gray
Professors: Jeffrey Gale, Edmund Gray, George Hess, Fred Kiesner, David Mathison, Yongsun Paik, Peter Ring, Charles Vance, John T. Wholihan, Anatoly Zhuplev
Associate Professors: Ellen Enscher, Cathleen McGrath
Assistant Professors: Dong Chen, David Choi, Patricia Garcia Martinez

Objectives
Management is planning, organizing, leading, and controlling the activities necessary to successfully run an organization. In studying management, the student will focus on the practical skills, ethical issues, and management theory necessary to succeed in our diverse global economy. The Department offers, essentially, two types of courses: general knowledge courses and specialized courses. General knowledge courses are required of all business majors. Specialized elective courses are chosen by majors and minors who wish to gain specialized instruction in specific areas of management.

Management

MGMT 101
Your Future in Business
1 Semester Hour
Examines the major business disciplines and exciting career opportunities in today’s organizations—large and small, profit and non-profit, domestic and global. This course also provides a valuable introduction to important skills and campus resources that contribute to success, both now and in the future.

Open to all majors.

MGMT 335
Human Resource Management
3 Semester Hours
Examines critical issues and concepts for managing human resources in organizations, including planning, staffing, training, performance evaluation, compensation, discipline, labor relations, and employment law. Special attention is paid to career development.

MGMT 355
Principles of Management and Organizational Behavior
3 Semester Hours
Provides a foundation of important concepts and principles for managing organizations effectively by understanding how groups and individuals function within organizations. The critical functions of planning, organizing, directing, and controlling and basic concepts of organizational behavior will also be examined.

MGMT 381
Internship
1 Semester Hour
The objective of this one-semester-hour course is to help students achieve a worthwhile learning experience relevant to their major program of study or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

May be repeated for degree credit.

MGMT 405
Business as an Institution in Society
3 Semester Hours
A practical course that focuses on the social, economic, and political implications of modern business in society. Social responsibilities and ethical problems faced by practicing managers are stressed.

Must be taken in residence at LMU.
MGMT 409  
Management Policy  
3 Semester Hours

An integrating course dealing with the problems of general management, using cases, simulations, and field study for analysis and decision-making practice. Issues related to business and corporate-level strategies will be stressed.

Must be taken in residence at LMU with senior standing. Business Administration and Accounting majors only.

Prerequisites: FNCE 325, ISQM 377, MGMT 355, MRKT 365.

MGMT 431  
Entrepreneurial Finance  
(See ENTR 431)

MGMT 432  
Tax Law/Planning for Small Business  
(See ENTR 432)

MGMT 435  
Employee and Labor Relations  
3 Semester Hours

Focuses on developing students’ knowledge and skills in key areas such as managing employee performance, analyzing real-world cases, and balancing competing interests within union and non-union environments. Students will learn to write performance appraisals, lead a coaching and counseling discussion, practice collective bargaining negotiation techniques, and design an employee relations simulation.

Prerequisite: MGMT 335.

MGMT 436  
Training and Development  
3 Semester Hours

Important concepts and skills for developing human performance in organizations through training needs assessment, design and development, and evaluation. Stresses current methods and approaches for effective employee training and management development.

Prerequisite: MGMT 335.

MGMT 437  
Professional Development Practicum  
3 Semester Hours

An individual-directed course combining 100 hours of relevant work experience with career development tests, models, and exercises. Each student develops an experience-based career development plan.

MGMT 438  
Managing Compensation and Rewards  
3 Semester Hours

This course examines various theories, strategies, and practices of employee compensation. A central focus throughout this course is on what forms or types of compensation practices and incentives motivate and stimulate employee performance and commitment in the workplace. This course will help students understand the complexities of compensation practices as future HR professionals, managers, or employees.

Prerequisite: MGMT 335.

MGMT 439  
Human Resource Management Practicum  
3 Semester Hours

This course helps facilitate students’ entry into a career in human resources. Students complete a consulting project, a career action plan, as well as several research papers, all designed to broaden students’ understanding of the HR profession. Pedagogical methods include case studies, site visits, guest speakers, and applied learning exercises.

MGMT 440  
International Management  
3 Semester Hours

This course examines various managerial issues facing multinational companies operating in international business environments. Building upon the comprehensive understanding of the global economy, students will study various factors that affect the success of global business. These include the extent of globalization strategy, organization structure, mode of entry and control, managing government intervention, human resource management practices, ethics, and social responsibility.

Prerequisites: INBA 340 and MGMT 355.

MGMT 441  
International Entrepreneurship  
(See ENTR 441)

MGMT 449  
Doing Business with East Asia  
3 Semester Hours

This course introduces students to the vital business environments of East Asia. Students study the political, economic, and socio-cultural influences on business and the historical background of the region.

Prerequisite: INBA 340.
MGMT 451  
Business Practices in a Global Context  
3 Semester Hours

This course, through an extensive program of speakers and site visits in a foreign setting, provides a broad exposure to several important environments affecting international business markets and practices, including technical, political, social, and economic environments.

Taught on site as part of the Study Abroad Programs.

MGMT 456  
Behavioral Science in Management  
3 Semester Hours

In-depth study of the application of concepts in leadership, motivation, and decision-making and how these are applied to problems faced by managers.

Prerequisite: MGMT 355.

MGMT 457  
Entrepreneurship  
(See ENTR 457)

MGMT 458  
Small Business Management  
(See ENTR 458)

MGMT 459  
Leadership  
3 Semester Hours

Focuses on the role of leadership and leaders in organizations. Principal topics include sources and uses of power, leadership traits, leadership styles and behaviors, contingency theories, charisma, transformational leadership, team leadership, strategic leadership, and the development of leaders. Lectures, discussions, case studies, videos, experimental exercises, and field research.

Prerequisite: MGMT 355.

MGMT 460  
Entertainment Management  
3 Semester Hours

Focuses on industry organizational models to describe structures and functions of executives and managers within their organizations as this industry consolidates and is impacted by technology.

Entrepreneurship

ENTR 381  
Internship  
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience relevant to their major program of study or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

May be repeated for degree credit.

ENTR 428  
Real Estate Finance and Investment and Entrepreneurship  
3 Semester Hours

Financial modeling and analysis of real estate investment opportunities to include financing strategy, risk analysis, taxation, market area supply and demand analysis by property type, as well as evaluating alternative financing instruments in both primary and secondary markets.

ENTR 431  
Entrepreneurial Finance  
3 Semester Hours

In this course, students are introduced to the financial aspects of small businesses and entrepreneurial ventures. The key topics include evaluating new business ideas and ventures, reading and understanding financial statements of rapidly growing companies, and developing financing strategies. We also discuss various debt and equity alternatives of financing, the different valuation techniques, and key tactics and approaches to negotiating term sheets.

ENTR 432  
Tax Law/Planning for Small Business  
3 Semester Hours

A practical guide for the professional manager and the entrepreneur to help them understand federal tax laws with emphasis on tax considerations in entrepreneurial and strategic planning.
ENTR 441
International Entrepreneurship
3 Semester Hours

Focuses on developing knowledge and skills in three key components of international entrepreneurship: initiating entrepreneurial ventures, managing international business transactions, and dealing with multicultural business environments. Includes a feasibility study of an international small business venture start up, case study, and experiential learning.

Prerequisites: INBA 340 and MGMT 355.

---

ENTR 457
Entrepreneurship
3 Semester Hours

Provides an overall understanding of entrepreneurship and small business management. Emphasis placed on the development of a business plan and application of the proper methods, techniques, and skills needed for developing a new venture.

Prerequisites: MGMT 355 and MRKT 365.

---

ENTR 458
Small Business Management
3 Semester Hours

An integrative course combining skills in all business disciplines. The focus is on the identification and analysis of operating problems confronting the small business manager.

Prerequisites: MGMT 355 and MRKT 365.

---

ENTR 461
Technology Ventures
3 Semester Hours

Explores emerging trends and opportunities arising from innovations in science and technology and examines strategies that ventures utilize to exploit them.

Prerequisite: MGMT 355.

---

ENTR 476
Entrepreneurial and Small Business Marketing
3 Semester Hours

Whereas traditional marketing courses often assume that marketers are operating in a predictable environment with generous budgets, this course examines shoestring methods to be used under conditions of considerable uncertainty.

Prerequisite: MRKT 365.
International Business Studies

INBA 340
Introduction to International Business
3 Semester Hours

This course introduces students to the international business environments: political, economic, financial, and socio-cultural. As the global economy becomes closely integrated, the need for understanding its driving forces as well as its impacts on the domestic economy becomes critical. To help students prepare for this challenge, areas such as international trade and investment policies, cross-cultural differences, foreign exchange market, and business strategies in manufacturing, marketing, and human resources will be examined.

INBA 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience which is relevant to the program of study in the student’s major or area of emphasis. The internship, conducted with an off-campus operating organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

May be repeated for degree credit.

INBA 440
International Management
3 Semester Hours

This course examines various managerial issues facing multinational companies operating in international business environments. Building upon the comprehensive understanding of the global economy, students will study various factors that affect the success of global business. These include the extent of globalization strategy, organization structure, mode of entry and control, managing government intervention, human resource management practices, ethics, and social responsibility.

Prerequisites: INBA 340 and MGMT 355.

INBA 441
International Entrepreneurship
(See MGMT 441)

INBA 442
Multinationals and the Third World
(See FNCE 442)

INBA 443
International Investments
(See FNCE 443)

INBA 445
International Marketing
(See MRKT 445)

INBA 447
International Business Law
(See BLAW 447)

INBA 448
International Finance
(See FNCE 448)

INBA 451
Business Practices in a Global Context
(See MGMT 451)

INBA 464
International Supply Chain Management
(See MRKT 464)

INBA 481
Strategic Management Seminar in Travel and Tourism
(See TOUR 481)

INBA 491
International Elective
3 Semester Hours

INBA 496
Travel and Tourism Information
(See TOUR 496)

INBA 498
Special Studies
1-3 Semester Hours

INBA 499
Independent Studies
1-3 Semester Hours
Marketing and Business Law

Faculty

Co-Chairperson: Renee Florsheim
Co-Chairperson: Arthur Gross-Schaefer
Professors: Arthur Gross-Schaefer, Gary P. Sibeck, Robert D. Winsor
Associate Professors: Renee Florsheim, Ralph L. Quiñones
Assistant Professors: Mark Bandsuch, S.J., Velitchka D. Kaltcheva, Mark Leach, Annie Liu, Anthony D. Patino

Objectives

Marketing focuses on activities that facilitate exchange between individuals and organizations. It prepares students for careers in marketing research, sales and sales management, marketing management, retailing, and advertising—all of which can serve as good career paths leading to top-level positions in general management in all types of organizations and industries.

Business Law courses introduce students to the legal environment of business. A focus in Business Law will prepare students for the fundamental legal challenges that affect all aspects of business including: Marketing, Management, Human Resources Management, Accounting, International Business, and Entrepreneurship and will prepare them for careers in highly-regulated industries, contract-based positions (e.g., insurance), or those in which intellectual property considerations play a strong role (e.g., entertainment).

Business Law

BLAW 205
Legal Environment of Business
3 Semester Hours

The nature, formation, and application of the law; law and the business environment; law and society; the social significance of law; the judicial system. This core requirement of Business Administration majors will give students a solid introduction to the legal aspects of a business relationship.

BLAW 301
Business Law Applications and Cases
3 Semester Hours

The course offers a detailed study of the nature of contracts and their applications in business organizations, personal property, real property, and commercial transactions. A focus will be placed on interpreting the law through existing case studies.

Prerequisite: BLAW 205.

BLAW 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile learning experience that is relevant to the program of study in the student's major or area of emphasis. The internship, conducted with an off-campus organization, will help the student gain insights relative to his/her strengths and weaknesses in the job environment.

May be repeated for degree credit.

BLAW 383
Legal Foundations of Travel and Tourism
(See TOUR 383)

BLAW 404
Employment Law
3 Semester Hours

A survey course on general employment law concepts, this study will take a management perspective in understanding the legal interaction of the employer and the employee in the work environment. A focus will be placed on the evolution of employment law and current interpretations by related employment protection agencies.

Prerequisite: BLAW 205.
BLAW 408  
Real Estate Law  
3 Semester Hours  
A study of the legal aspects involved in real estate ventures. Will explore the nature of property and land transactions, management based on current law code, and existing case law. This course provides an excellent legal foundation for students with an interest in future property ownership.  
Prerequisite: BLAW 205.

BLAW 412  
Tax Law and Planning  
3 Semester Hours  
A detailed study of the laws involved with business taxation. From a management perspective, this class will focus on understanding legal interpretations of tax code and how managers apply these legal factors when planning and forecasting business development.  
Prerequisite: BLAW 205.

BLAW 447  
International Business Law  
3 Semester Hours  
This course provides an excellent legal foundation for the international operation of businesses. Students will address balancing the legal interests of domestic and international parties and will explore the applicable legal guidelines and case history.  
Prerequisite: BLAW 205.

BLAW 462  
Entertainment Law  
3 Semester Hours  
Law as it applies to the entertainment (motion picture, sound, television) industry, with particular focus on contracts and agency.  
Prerequisite: BLAW 205.

BLAW 473  
Marketing Law  
3 Semester Hours  
This course focuses on the various legal constraints, problems, and ramifications that should be recognized and addressed by marketers during decision-making processes. This will explore the legal interaction of the marketer and the customer in the development of product, promotion, pricing, and distribution plans.  
Prerequisites: BLAW 205 and MRKT 365.

BLAW 474  
Sports Law  
3 Semester Hours  
A practical course that focuses on the nature, formation, and application of the law in relation to sports as a business and social entity. This upper division elective will give students a solid introduction into the legal aspects of the business of sports, including contracts, torts, antitrust, agency, property, crimes, and labor law. The course examines current statutory and case law in order to help students develop managerial and decision-making skills in the areas of business, sports, and law.  
Prerequisites: BLAW 205 and Junior standing.

BLAW 498  
Special Studies  
I-3 Semester Hours  

BLAW 499  
Independent Studies  
I-3 Semester Hours
Marketing

MRKT 365
Principles of Marketing
3 Semester Hours

This course will introduce the role of marketing management in a market economy as well as in the modern organization. Students will be exposed to consumer-oriented managerial decisions regarding product planning, pricing structures, distribution channels, and promotional methods for a variety of products and services and in a range of organizational settings.

Prerequisite: ECON 100, 105, or 110.

MRKT 381
Internship
1 Semester Hour

The objective of this one-semester-hour course is to help the student achieve a worthwhile employment experience as part of an overall program of study in Marketing. The internship, conducted with an off-campus organization and coordinated by a department faculty member, will develop marketing skills, assist the student in tying coursework to the workplace experience, and allow the student to realize and understand better what it is that (s)he is looking for in a career.

May be repeated for degree credit.

MRKT 382
Marketing and Selling Travel and Tourism
3 Semester Hours

Provides an in-depth examination of travel and tourism marketing from both the supplier and destination perspectives. Case studies are extensively utilized to discuss product development, pricing management, sales strategies, service practices, promotion methods, and distribution channels, both personal and electronic.

Prerequisite: MRKT 365.

MRKT 445
International Marketing
3 Semester Hours

This course will examine marketing principles and planning factors and techniques applied in a global environment. Students will develop an appreciation for the external forces which shape the international marketer’s decisions and will learn about strategies used by international firms as they successfully enter and adapt to new cultures and nations.

Prerequisite: MRKT 365.

MRKT 461
E-Commerce Marketing
3 Semester Hours

This course introduces the student to e-Marketing, which refers to the use of the Internet and related technologies to adapt traditional marketing activities to suit the creation, offer, and exchange of products and services online. The focus will be on the use of emerging technologies and related ideas to enhance marketing outcomes.

Prerequisite: MRKT 365.

MRKT 462
Perspectives on Consumption
3 Semester Hours

This course examines the roles individuals play in society and the economy through the acts of shopping, consuming, discussing, displaying, and disposing of goods and services. In addition, the processes by which organizations conceptualize, reinforce, and exploit these roles in the marketing of goods and services will be examined.

Prerequisite: MRKT 365.

MRKT 463
Entertainment Marketing
3 Semester Hours

Marketing is an essential element in the commercial success of entertainment products in the world today. Los Angeles is the center of the world’s entertainment industry. This course looks at product development, market research, distribution, and promotional methods used in the marketing of films, music, television, and new media products.

Prerequisite: MRKT 365.

MRKT 464
International Supply Chain Management
3 Semester Hours

A look at the front-end functions of marketing planning, logistical planning, business relationships, networking, and the marketing benefits of business collaboration inherent in the dynamic channels of distribution used in a global business environment. Note that this is the same course previously named “International Logistics.”

Prerequisite: MRKT 365.
**MRKT 465**  
**Marketing Promotional Strategy**  
*3 Semester Hours*  
  
The new term, Integrated Marketing Communications (IMC), is a recognition of the need for firms to coordinate their various promotional activities and expenditures. This course will cover advertising, public relations, sales promotions, and direct marketing techniques, and will allow students to develop overall promotional programs using elements of each of these vehicles as appropriate.  
Prerequisite: MRKT 365.

**MRKT 466**  
**Sports Marketing**  
*3 Semester Hours*  
  
A thorough examination of the expanding field of sports marketing, including team, event, personality, and facility marketing, sponsorship, and merchandising. Some prior familiarity with sport is highly recommended.  
Prerequisite: MRKT 365.

**MRKT 467**  
**Marketing Research**  
*3 Semester Hours*  
  
The application of both qualitative and quantitative research methodology to the solution of marketing questions. Students will study the role of marketing research and will be involved in the design, execution, analysis, and implementation of a complete research project.  
Prerequisite: MRKT 365.

**MRKT 469**  
**Consumer Behavior**  
*3 Semester Hours*  
  
This course is designed to refocus the student on the consumer as the object of marketing programs. Social science concepts (from psychology, sociology, anthropology, and economics) are used to examine influences on consumer behavior, as well as to study the consumer decision process itself. Emphasis will be put on how marketers use this knowledge to develop their overall strategies.  
Prerequisite: MRKT 365.

**MRKT 471**  
**Retail Management**  
*3 Semester Hours*  
  
This course examines various aspects of retailing. The focus is on analyzing situations faced by a variety of managers in the effective distribution of goods and services.  
Prerequisite: MRKT 365.

**MRKT 472**  
**Sales Management**  
*3 Semester Hours*  
  
An examination of the sales function, encompassing both personal selling and sales management principles. This course emphasizes development of professional sales techniques as well as creation of sales objectives and strategies, selection, training, compensation and motivation of the sales force, and the use of technology in the contemporary sales function.  
Prerequisite: MRKT 365.

**MRKT 473**  
**Marketing Law**  
*3 Semester Hours*  
  
Focuses on the various legal constraints, problems, and ramifications which should be recognized and addressed by marketers during decision-making processes. This will explore the legal interaction of the marketer and the customer in the development of product, promotion, pricing, and distribution plans.  
Prerequisites: BLAW 205 and MRKT 365.

**MRKT 474**  
**Competitive Strategy**  
*3 Semester Hours*  
  
This course provides an in-depth analysis of competition and competitive strategy from both theoretical and applied perspectives. Competitive models, strategic metaphors, game-theory, product positioning, and competitive pricing strategy are explored in detail.  
Prerequisite: MRKT 365.

**MRKT 475**  
**Marketing Planning**  
*3 Semester Hours*  
  
Even the most experienced marketer would run into difficulties without a plan. A comprehensive marketing plan is essential for obtaining funding of an enterprise as well as for coordinating marketing efforts for that organization. This course encompasses a study of all of the elements of a successful marketing plan and entails the development of a finished plan by the students.  
Prerequisite: MRKT 365.
MRKT 476  
Entrepreneurial and Small Business Marketing  
3 Semester Hours

Whereas traditional marketing courses often assume that marketers are operating in a predictable environment with generous budgets, this course examines shoestring methods to be used under conditions of considerable uncertainty.

Prerequisite: MRKT 365.

MRKT 477  
Brand Management  
3 Semester Hours

The objective of this course is to learn the decision-making processes used by product or brand managers with primary responsibility for the market success of the company’s products and services, including environmental scanning and coordination of marketing activities for the firm’s offerings.

Prerequisite: MRKT 365.

MRKT 478  
Business to Business Marketing  
3 Semester Hours

The purpose of this course is to introduce students to business-to-business marketing by identifying the distinctive characteristics of the business market, exploring the way in which organizations make buying decisions, and isolating the requirements for marketing strategy success. The course also provides a vehicle for profiling leading business marketing firms and their marketing practices.

MRKT 498  
Special Studies  
1-3 Semester Hours

MRKT 499  
Independent Studies  
1-3 Semester Hours
Travel and Tourism

**Director**
Alan K. Hogenauer

**Faculty**
Associate Professor: Alan K. Hogenauer
Adjunct Professor: David Marchese

**Objectives**
Tourism is considered to be the largest industry in the world. It is also one of the fastest growing industries when all of its related business are included. Employment within this industry in the United States is estimated at over eight million people (Bureau of Economic Analysis, 2005).

The mission of the Center for Travel and Tourism in the College of Business Administration is to:

- Prepare graduates for leadership and professional positions in the tourism-travel industry;
- Provide service to the global economy by providing well-qualified, ethically sensitive graduates; and
- Generate new knowledge in the industry through research.

The courses are designed to build on the Business core curriculum, with advanced courses covering specific industry technologies, business practices, and operations. Students will be advised to consider related courses in the social sciences and modern languages to complement their studies in this area. The Travel and Tourism Management concentration comprises 9 semester hours, including one approved internship. Students must take TOUR 380, 381, one TOUR advanced business elective for 2 semester hours, and one of the following: TOUR 382, 383, or 384.

**TOUR 380**
Introduction to Travel and Tourism
3 Semester Hours

Provides a comprehensive overview of the global travel and tourism industry. Examines transportation (air, rail, cruise, and road), accommodations, attractions, and intermediaries (tour packagers, travel agencies, visitor bureaus, government tourist offices, travel literature and media) and their interaction. Also covers world destinations in the context of the above.

**TOUR 381**
Travel and Tourism Internship
1 Semester Hour (one internship required)

Provides a valuable learning experience relevant to the student's desired emphasis within the industry. Offered as a tri-partite arrangement that involves the student, a faculty mentor, and the course instructor, the internship provides unique, real-world work experience and networking opportunities.

May be repeated for degree credit.

**TOUR 382**
Marketing and Selling Travel and Tourism
3 Semester Hours

Provides an in-depth examination of travel and tourism marketing from both the supplier and destination perspectives. Case studies are extensively utilized to discuss product development, pricing management, sales strategies, service practices, promotion methods, and distribution channels, both personal and electronic.

Prerequisite: MRKT 365.

**TOUR 383**
Legal Foundations of Travel and Tourism
3 Semester Hours

Encompasses a comprehensive review of legal and regulatory issues in travel and tourism, including government regulation, the deregulation trend, unilateral/bilateral/multilateral agreements, and the legal liability of suppliers and intermediaries.

Prerequisite: BLAW 205.

**TOUR 384**
Financial Management in Travel and Tourism
3 Semester Hours

Examines in detail financial planning for selected segments of the industry. Covers both capital and operating aspects, including pricing, yield management, bidding, rebates, service fees, commissions, public and private capital programs, and short- and long-term investment strategies.

Prerequisite: FNCE 325.

**TOUR 481**
Strategic Management Seminar in Travel and Tourism
2 Semester Hours

This course requires the development of a comprehensive travel and tourism marketing or business plan on a topic of the student’s choice, subject to instructor approval.
TOUR 482
Air Transportation in Travel and Tourism
2 Semester Hours

Examines domestic and international air passenger transportation in greater detail, using case studies from all six populated continents.

TOUR 483
The Cruise Industry
2 Semester Hours

Examines the cruise industry in greater detail, using case studies in the Caribbean, Mediterranean, Alaska, Panama Canal, and elsewhere.

The class may participate in an optional cruise during the course.

TOUR 484
Eco-Tourism
2 Semester Hours

Examines the concept of eco-tourism, its historic foundations, and its present implementation in both developed and developing tourist economies, using case studies in the U.S., Costa Rica, Europe, Africa, Australia, Antarctica, and elsewhere.

TOUR 485
Field Experience/Familiarization Trips
2 Semester Hours

Guided local and regional field trips to tourist attractions in both the U.S. and Mexico will serve as the basis for further understanding of the tourism industry.

TOUR 486
Gaming Industry Management
2 Semester Hours

Examines the gaming industry worldwide, with focus on both established (Las Vegas, Monte Carlo, etc.) and emerging (Native American reservations, riverboats, etc.) destinations.

TOUR 487
Hospitality Management
2 Semester Hours

Examines the nature of the hospitality industry in greater detail, focusing on both accommodations and food services.

TOUR 488
Human Resources in Travel and Tourism
2 Semester Hours

Examines the role of human resources in the travel and tourism industry, including transnational employment, labor relations, and case studies of both successful and unsuccessful employment practices.

TOUR 489
Global Tourism Destinations
2 Semester Hours

Examines the cruise industry in greater detail, using case studies in the Caribbean, Mediterranean, Alaska, Panama Canal, and elsewhere.

The class may participate in an optional cruise during the course.

TOUR 492
Meeting and Convention Management
2 Semester Hours

Examines in greater detail the nature of the meeting and convention components of the travel and tourism industry, focusing on the development of convention centers, the role of the meeting planner, and the role of convention and visitor bureaus.

TOUR 493
Road and Rail Transportation in Travel and Tourism
2 Semester Hours

Examines in greater detail the role of surface transportation in travel and tourism, including highway networks, bus and rental car transportation, and both scheduled and seasonal tourist rail transportation.

TOUR 494
Services Enterprise Management
2 Semester Hours

Explores in greater detail the management of the services enterprise, focusing on product planning, product implementation, financial analysis, and customer satisfaction measurement.

TOUR 495
Tourism and Travel Packaging and Management
2 Semester Hours

Examines in greater detail the operation of the packager intermediary in travel and tourism, focusing on product design, competition, and sales strategies.
TOUR 496
Travel and Tourism Information
1 Semester Hour

Examines in greater detail the role of technology in travel and tourism information, including CRS systems, the Internet, wireless innovations, and traditional personal contact in connection with technology.

TOUR 498
Special Studies
1-3 Semester Hours

Requires approval of the Director.

TOUR 499
Independent Studies
1-3 Semester Hours

Requires approval of the Director.
College of Communication and Fine Arts
College of Communication and Fine Arts

Administration
Dean: Barbara J. Busse
Associate Dean: Dean Scheibel

Mission of the College

Grounded in and sustained by a significant commitment to the liberal arts, the College of Communication and Fine Arts aims to promote the Mission of Loyola Marymount University in the following ways:

- foster the encouragement of learning in all of our academic programs;
- contribute in a distinctive way to the education of the whole person;
- create in our own community and in the larger community beyond LMU the individual and collective resources and orientations that will allow us to create a more just world.

CFA's programs and curricula create an environment conducive to understanding the complex phenomena of art and art making as well as human communication in all manner of forms. Driven by a passionate commitment to study, understand, and experience human creative expression requires that we assist students and our various publics in adopting a critical and discerning orientation to all forms of human expression. We commit to develop the capacity to use human expression in ways that are life enhancing, promoting the common good and contributing to the full development of our students, faculty, staff, alumni, and those we serve beyond LMU.

Our undergraduate programs in Art and Art History, Communication Studies, Dance, Music, and Theatre Arts and our graduate program in Marital and Family Therapy foster deep inquiry into the processes and artifacts of human expression and their capacity to shape life's experiences, meanings, and expectations. We are intrigued by the ways in which art and communication reveal human interiority in all its mysterious and complex variety. Ultimately, our shared objective is to create and sustain a learning community composed of individuals, each more fully alive, more capable of experiencing life in all its complexity, in order to assist all to live more meaningful and productive lives.

Application of General University Requirements

The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the College of Communication and Fine Arts.

Teacher Preparation Program

The College of Communication and Fine Arts offers a subject matter preparation program in art education specially designed to meet the State of California subject matter requirements for a secondary credential. The Bachelor of Arts degree with an emphasis in Art Education is designed to allow completion of the California Preliminary Single Subject (Secondary) credential in four years. This program is offered in conjunction with the School of Education. All students interested in teaching art at a secondary level should contact Teresa Lenihan as soon as possible and should also contact the School of Education to arrange a time to attend an Undergraduate Information Session.

College Curriculum

The curriculum of each department in the College of Communication and Fine Arts incorporates required courses in general education, major sequences, and elective courses which complement and enhance the student's major field of concentration.

Core Curriculum for the Baccalaureate Degree in the College of Communication and Fine Arts

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.
**College Writing**  
*3 Semester Hours*

Course Selection  
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

**Communication or Critical Thinking**  
*3 Semester Hours*

Course Selection  
Communication: Choose from CMST 100, 110, 130, or 140.

OR

Critical Thinking: Choose from CMST 206, PHIL 220.

Communication Studies majors must choose CMST 100 or 206.

**Critical and Creative Arts**  
*6 Semester Hours*

Course Selection  
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FTVS 210, 314, 315; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Creative Arts: Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); MUSC 105, 106, 107; PROD 200; SCWR 220; THEA 110, 400.

Courses must be taken outside of the student's major program of study.

**History**  
*6 Semester Hours*

Course Selection  
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

**Literature**  
*3 Semester Hours*

Course Selection  
Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

**Mathematics**  
*3 Semester Hours*

Course Selection  
Choose MATH 102 or higher. Some majors require a specific mathematics course, which also fulfills this requirement.

**Science and Technology**  
*3 Semester Hours*

Course Selection  
Choose one lower division course from a department other than Mathematics. Courses numbered 260-279 in each department of the Frank R. Seaver College of Science and Engineering are specifically designed for non-science majors. Choose from BIOL, CHEM, CMSI, ELEC, MECH, NTLS, or PHYS.

**Philosophy**  
*6 Semester Hours*

Course Selection  
Lower Division: Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division: Choose one PHIL course from 320 through 330.
Social Sciences
6 Semester Hours

Students must select one of the following options:

1. Two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. One course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies
6 Semester Hours

Course Selection
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete HIST 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, 210, 220; DANC 281; FNTL 180; FTVS 314; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331. To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; HIST 172, 182; MUSC 303, 365; POLS 155; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad office.

Total Program

120 semester hours are required for graduation with the following distribution:

a) a maximum of 36 upper division semester hours in any one department will be accepted toward the 120 semester hours requirement; and

b) at least 45 semester hours are required from upper division offerings.

Students should consult the Dean’s Office for specific policies applicable to the College of Communication and Fine Arts.
**Individualized Study Program**

Admission to the Individualized Study Program in Communication and Fine Arts requires:

1. a B (3.0) grade point average.
2. the submission of an Individualized Study Program form delineating courses and signed by the student’s advisor and the chairperson of the advisor’s department.
3. the submission by the advisor of a complete curriculum from an accredited college or university.
4. the signature of the Dean of the College.

All subsequent changes in the Individualized Study Program require points 2, 3, and 4 above.

Students registering for an Individualized Study Program are advised that their diploma and transcript will read “Individualized Study” and not the specific major they elect within that program.
Art and Art History

Faculty
Co-Chairpersons: Katherine Anne Harper, Teresa Muñoz
Professors: Michael Brodsky, Jane Marie Brucker, Rudolf Fleck, Teresa Muñoz, Rev. Michael R. Tang
Associate Professors: Katherine Anne Harper, Garland P. Kirkpatrick, Kirstin J. Noreen
Assistant Professors: Saeri Cho, Dmitry Kmelnitsky, Terry Lenihan, Diane M. Meyer, Damon Willick, Han Dai Yu

Objectives
The philosophy of the Department rests on the premise that its students should receive a broad education which combines creativity and scholarly study. Two majors are offered, Studio Arts and Art History. The foremost objective is to prepare the student intellectually and professionally for careers in Studio Arts and Art History and/or graduate studies. Courses offered to undergraduate majors and non-majors stress the cultural value of the visual arts.

The Department is a fully accredited member of the National Association of Schools of Art and Design.

Semester Hours
For studio classes, a semester hour of credit, one unit, represents three hours of work each week. In lecture and seminar courses, an hour of credit represents one hour each week in class and two hours of work outside of class.

The Department of Art and Art History reserves the right to retain, display, use, and reproduce any student course work, including original work, a student has rendered or created for course credit; this material will be used solely for educational and University purposes, including without limitation for recruitment, display, and republication in University media and publications.

Art History Major (ARHS)
The major in Art History is designed to increase the student's understanding of the meaning and purpose of the arts, their historical development, their formal and expressive means, their role in society, and their relationship to other humanistic disciplines.

Goals for Art History Majors
We seek to expose students to diverse artistic traditions, providing a full understanding of the historical, spiritual, and cultural context of the works. In addition, we strive to develop in our students excellent research skills and a capacity for critical thinking and writing in preparation for graduate studies.

Major Requirements
Lower Division Requirements:
12 semester hours of lower division courses: ARHS 200, 201, 202, and any 3 semester hours of one lower division Studio Arts course.

Upper Division Requirements:
30 semester hours of upper division courses, including ARHS 449 and 6 semester hours of a non-Western Art History course (ARHS 320, 321, 420, 421, 425, 428, or special approved course).

Required: 6 semester hours of French or German recommended (6 semester hours from either: GRMN 101, 102, 203, 204 or FREN 101, 102, 203, 204). Other languages possible with advisor approval.

A minimum grade of C (2.0) must be obtained in each course included in the major requirements.

Minor Requirements (ARHS)
18 semester hours:
ARHS 200, 201, 202; and 9 semester hours in upper division courses selected under the direction of an advisor in the department. Studio Arts majors who elect an Art History minor are required to take the three upper division requirements and an additional 3 semester hours of upper division work for the total of 21 hours in the minor. (ARHA)

Recommended: ARHS 449 and 6 semester hours of a non-Western Art History course (ARHS 320, 321, 420, 421, 425, 428, or special approved course).

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor.
Art History

ARHS 200
Art of the Western World I
3 Semester Hours
An introductory survey of the visual arts from the Prehistoric through the early Medieval Period.

ARHS 201
Art of the Western World II
3 Semester Hours
An introduction to painting and sculpture from the Medieval to the late Nineteenth Century.

ARHS 202
Modernism
3 Semester Hours
Study of Modernism from Impressionism through Post-Modernism. Focus on artists, movements, art issues, theory, and practice in Europe, the United States, and Mexico.

ARHS 230
Multimedia Art Survey
3 Semester Hours
Critical and historical examination of multimedia arts through research, discussions, and presentations.

ARHS 302
Modern and Contemporary Art (for the Art Educator)
3 Semester Hours
Study of the Twentieth Century artists and movements in Europe and America from 1900 to the present. This course is designed to meet the needs of the Art Education Emphasis student.

ARHS 303
Arts of Ancient Greece
3 Semester Hours
A survey of Greek art from the Neolithic Age through the Hellenistic Period.

ARHS 304
Arts of Ancient Rome
3 Semester Hours
A survey of Roman art from the early days of the Republic through the decline of the Empire.

ARHS 306
Medieval Art
3 Semester Hours
A survey of the visual arts of the Medieval Period in Europe.

ARHS 310
Study in Florence: The Italian Renaissance
3 Semester Hours
Study of Italian Renaissance art and architecture in Florence and Tuscany.

ARHS 314
American Art
3 Semester Hours
Art in the United States from the Colonial Period to 1900.

ARHS 315
Nineteenth-Century European Art
3 Semester Hours
Study of the life and work of European painters and sculptors of the Nineteenth Century, from Neo-Classicism and Romanticism to Realism, Impressionism, and Post-Impressionism.

ARHS 320
The Arts of Islam
3 Semester Hours
Islamic arts of the Middle East and Persia from the Eighth through the Nineteenth Centuries.

ARHS 321
Arts of Asia: Zen
3 Semester Hours
A survey of Buddhist arts with particular focus on the Zen sect and its concomitant arts (architecture, gardens, painting, tea ceremony, ceramics, flower arranging, and the martial arts).

ARHS 340
History of Photography
3 Semester Hours
A survey of photography as art from its invention to the present day. Emphasis is on Twentieth Century developments and contemporary trends.

ARHS 345
Modern and Contemporary Art Criticism
3 Semester Hours
An examination of Twentieth and Twenty-First Century theory and practice.

Recommended: ARHS 202.

Recommended: ARHS 202 or 419.
ARHS 494
Curatorial Practices
3 Semester Hours

Study of the professional aspects of museum and gallery work including exhibition preparation, design, and the curatorial process.

Prerequisite: ARHS 202.

ARHS 498
Special Studies
3 Semester Hours

ARHS 499
Independent Studies
1-3 Semester Hours

Prerequisite: Senior standing.

---

**Studio Arts Major (STAR)**

This program of study provides a broad foundation in fundamental techniques and concepts and permits each individual to experience the possibilities of creative expression and to develop an understanding of art as a key to cultural awareness. Students in Studio Arts are expected to engage in studio work in addition to scheduled class time. Most studios are open to enrolled students outside of class time on a 24-hour basis. At the end of the sophomore year, students are required to declare an Art Education, Fine Arts, Graphic Design, or Multimedia Arts Emphasis.

A minimum grade of C (2.0) must be obtained in each course included in the major requirements.

**Art Education Emphasis (ARTE)**

**Secondary Teacher Preparation in Art**

The Art Education Emphasis provides experience in the studio arts and art history appropriate for those interested in pursuing teaching careers. Students interested in art education are encouraged to pursue either an Art Education Emphasis or an Art Education Emphasis with State of California Secondary Teaching Credential. Students who seek graduation with an Art Education Emphasis and a teaching credential should ideally declare the Art Education Emphasis as a freshman.

**Secondary Teacher Preparation**

All students interested in teaching art in middle schools or high schools should meet with their departmental advisors as soon as possible and should attend a mandatory School of Education Undergraduate Information Session. Please call (310) 338-7845 to confirm attendance.

**Major Requirements**

The Art Education Emphasis is in the process of being revised based on the new Standards of Quality and Effectiveness for Subject Matter Programs of the Commission on Teacher Credentialing. The new program will start Fall 2007. For candidates starting their program on or after Fall 2007, please consult the Director of Secondary Teacher Preparation of Art. Courses listed here represent the types of program requirements during past years.

**Core Requirements**

Consult with the Director of Secondary Teacher Preparation of Art for Core recommendations. HIST 162 or POLS 135 required for students pursuing a teaching credential and recommended for all Art Education Emphasis students.
Lower Division Requirements:

24 semester hours of lower division courses: ART 153, 160, 257, 260, 275 or 276, 278; ARHS 200, 201. (Note: ARHS 200 or 201 also satisfies Critical Arts Core, and ART 153 satisfies Creative Arts Core.)

Upper Division Requirements:

27 semester hours of upper division courses: ART 351, 397 in the Junior year, 450, and 12 units of upper division ART electives; ARHS 302, and an upper division non-Western Art History Elective (ARHS 320, 321, 420, 421, 425, 428), or any non-Western ARHS 398 or 498 course.

The following education course requirements apply ONLY to those students who entered LMU after Spring 2003.

EDUC 400 Sociocultural Analysis of Education*
EDUC 401 Educational Psychology for the Childhood and Adolescent Years*
EDUC 412 Fieldwork: Secondary Directed Teaching
EDUC 414 Theories of Second Language Acquisition*
EDUC 425 ELD Methods and SDAIE
EDUC 428 Reading/Language Arts for the Single Subject
EDUC 440 Education of Culturally and Linguistically Diverse Students with Exceptional Needs*

* Prerequisite courses along with these additional requirements are necessary for applying to the School of Education to earn the State of California Teaching Credential:

- U.S. Constitution Requirement (HIST 162 or POLS 135);
- CBEST Test;
- 20 hours of grade-level instruction (letter from ARTsmart Program Director);
- Health Education Course (EDUC 8000);
- Technology Requirement (self-verification form);

See School of Education listing for additional requirements.

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor.

Additional education courses are required for those students who plan to complete the State of California Secondary Teaching Credential. Additionally, prerequisite courses are required along with these additional requirements and are necessary for applying to the School of Education to earn the State of California Teaching Credential.

Courses listed here represent the types of program requirements during past years. Currently, both the Art Education Emphasis and the Art Education Emphasis with State of California Secondary Teaching Credential are under review. All students interested in art education are required to consult closely with the CFA Dean's office, the Director of Secondary Teacher Preparation of Art, and the School of Education for the updated program requirements. Consultation is critical to insure timely completion of the programs. Additionally, students should contact the School of Education to arrange a time to attend an Undergraduate Information Session.

### Fine Arts Emphasis

#### Major Requirements

Fine Arts Emphasis majors choose a concentration in:

- Ceramics (FACR),
- Drawing/Painting (FADP),
- Photography (FAPH),
- or Printmaking (FAPR).

then select both lower and upper division courses from within the same concentration.

#### Lower Division Requirements:

27 semester hours of lower division courses: ART 153, 160, 260, 275; ARHS 200, 201, 202; and 6 semester hours from one of the concentrations listed below. (Photography concentration may choose either ART 275 or 276).

- Ceramics: ART 276 and 278.
- Drawing/Painting: ART 154 and 257.
- Photography: ART 280 and 285.

Upper Division Requirements:

27 semester hours of upper division courses: 12 semester hours from one of the concentrations listed below; 6 semester hours of ART electives; ART 397, 497; and an upper division non-Western Art History (ARHS 320, 321, 420, 421, 425, 428), or any non-Western ARHS 398 or 498 course.

Drawing/Painting: ART 356, 358 or 359 or 398 Life Painting, 453 and 454. (Recommended: ART 300 or 301 and/or 400 and/or 401.)

Photography: ART 380, 382, and 480; ARHS 340. (Recommended: ART 387, 398 Special Topics in Photography.)

Printmaking: ART 385, 386, 387, and 485. (Recommended: ART 353 or 368, 380 or 382.)

or
### Graphic Design Emphasis (GRPH)

Designers are visual communicators who use words and images to capture our attention and imagination in a spectrum of media. From advertising to books, posters, film titles, and websites, design surrounds us. The graphic design area prepares students to envision the future of this commercial, social, and public medium.

In the sophomore year students begin by developing a strong foundation in visual literacy. In the junior year students begin an intensive study of typography and graphic design. In the senior year students deepen their understanding of graphic design practices which culminates in a relevant body of work that comprises their portfolio.

### Major Requirements

**Lower Division Requirements:**

27 semester hours of lower division courses: ART 153, 154, 160, 257 or 280, 260, 275 or 276; ARHS 200, 201, 202.

**Upper Division Requirements:**

30 semester hours of upper division courses: ART 360, 368, 369; 396 in the Junior year; 460, 468; ARHS 360, an upper division non-Western Art History (ARHS 320, 321, 420, 421, 425, 428), or any non-Western ARHS 398 or 498 course, and two courses selected from the Intensive Professional Track.

**Intensive Professional Track:**

This spectrum of studio electives is designed to broaden the outlook on the design professions. The following courses should be selected in consultation with an advisor: ART 362, 364, 365, 366, 367, 374, 382, 388, and 495.

Multimedia Arts Emphasis (MTMD)

Major Requirements

Lower Division Requirements:

21 semester hours of lower division courses: ART 160, 260; ARHS 202, 230; CMSI 182.

Students who elect a Multimedia emphasis are interested in a future of authoring and designing in a world of new media and emerging technologies. This Emphasis provides a strong foundation in the visual arts and understanding of critical theory, with the addition of computer science for a solid grasp of underlying technologies. The career outlook for students in all areas of visual communication is very encouraging. Multimedia students at Loyola Marymount have the flexibility to concentrate in one of the following areas, and to hone in their creative and professional interests: TEXT, IMAGE, SOUND, or MOTION.

Students choose a concentration in Text, Image, Sound, or Motion, then choose both lower and upper division courses from within that same concentration. In consultation with an advisor, students may select an individualized option in Multimedia Arts Concentrations.

Text: ARHS 200, 201; ENGL 201, 202; SCWR 220.

Image: ART 153, 154, 257, 280; PROD 200, 250.

Motion: ANIM 120, 220; DANC 160, 163; PROD 200, 250.

Upper Division Requirements:

33 semester hours of upper division courses: ART 363, 366, 367, 374, 382, 494; ARHS 340 or 360 or 419; CMSI 461, 462.

Choose two courses from one of the following concentrations: Text, Image, Sound, or Motion below. In consultation with an advisor, students may select an Individualized option in Multimedia Arts concentrations.

Text: ARHS 340, 345, 360; ART 360, 362, 368; ENGL 311, 312; SCWR 320; THEA 400.

Image: ART 356, 360, 362, 365, 368, 380, 453 or 454, 481; PROD 365, 366.

Sound: MUSC 303, 304, 316, 317, 318; RECA 367; THEA 312, 314.

Recommended Courses

It is also recommended that the student take additional courses in Animation, Studio Arts, Art History, Communication Arts, and Computer Science.

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor.

### Minor Requirements

18 semester hours:

- ART 153 or 160, and 15 semester hours of Studio Arts electives with at least 6 semester hours in upper division courses.

### Studio Arts

#### ART 150

**Introduction to Studio Arts**

*3 Semester Hours*

Open to non-Studio Arts majors only.

Exploration of the materials, techniques, and inspiration of the artist in the media of drawing, painting, printmaking, sculpture, and two- and three-dimensional design.

#### ART 151

**Introduction to Drawing and Printmaking**

*3 Semester Hours*

Open to non-Studio Arts majors only.

Development of basic drawing skills in various media and the exploration of printmaking techniques.

#### ART 153

**Drawing I**

*3 Semester Hours*

An introduction to drawing and the development of visual awareness. Experimentation and exploration of technique developed through a variety of subject matter. Varied media, including pencil, charcoal, ink, and conte.

#### ART 154

**Drawing II: Figure Drawing**

*3 Semester Hours*

Development of technique and principles used in Drawing I, ART 153, with emphasis placed on working from the figure and anatomy.

Prerequisite: ART 153.

#### ART 160

**Two-Dimensional Design**

*3 Semester Hours*

Examination of the basic elements of two-dimensional design emphasizing the conceptual process and utilizing various media and techniques.
ART 200
Figure Drawing Workshop I
1 Semester Hour
A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.
May be repeated once for degree credit.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 201
Figure Drawing Workshop II
1 Semester Hour
Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.
May be repeated once for degree credit.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 250
Visual Arts for the Elementary Teacher
3 Semester Hours
Designed to develop the visual arts for the Liberal Studies student. Emphasizes media, techniques, art history, and studio art fundamentals. Students will complete a teaching portfolio. Participation in the ARTsmart Program is required.
Liberal Studies majors only.

ART 257
Painting I
3 Semester Hours
Study of basic theoretical methods and techniques as applied to both representation and abstraction. Acrylic paints will be utilized.
Prerequisite: ART 153, 160, or consent of instructor.

ART 260
Computer Graphics I
3 Semester Hours
Introduction to principles and practices of electronic imaging as they apply to graphics, art, and design.
Recommended: ART 160.

ART 275
Three-Dimensional Design
3 Semester Hours
Examination of the basic elements of three-dimensional design emphasizing the conceptual process and utilizing various media.
Prerequisite: ART 160 or consent of instructor.

ART 276
Ceramic Sculpture
3 Semester Hours
Examination of ceramics as a sculptural medium. Students will explore technical and conceptual processes of ceramics. While clay is the focus, other materials will be utilized.

ART 278
Ceramics I
3 Semester Hours
Basic techniques of hand building and throwing on the potter’s wheel integrated with aesthetic exploration through various projects.

ART 280
Photography I
3 Semester Hours
This course focuses on photography as a medium of personal and artistic expression. Students learn camera, darkroom, and presentation fundamentals, and consider aesthetic and technical issues. Students must supply their own 35mm SLR camera.

ART 285
Introduction to Printmaking
3 Semester Hours
Introduction to the basic printmaking and transfer processes, using monoprinting, linocuts, woodcuts, drypoints, water etchings, and collagraphs. Both black and white and multicolor images will be produced.
Recommended: ART 151, 153, and 160.

ART 290
Multimedia Survey
3 Semester Hours
Critical and historical examination of multimedia arts through research, discussions, and presentations.

ART 298
Special Studies
1-3 Semester Hours
ART 299
Independent Studies
1-3 Semester Hours

ART 300
Figure Workshop I
1 Semester Hour
A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.
May be repeated once for degree credit.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 301
Figure Workshop II
1 Semester Hour
Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.
May be repeated once for degree credit.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 350
Visual Thinking
3 Semester Hours
This course promotes concept development and creative thinking. Visual problem solving and projects will be based on a concern for how each person examines and explores, ultimately interprets and recreates the world around them.

ART 351
Media and Methods: Contemporary Craft
3 Semester Hours
Methods and techniques for creating expression in printmaking and crafts including fibers and wearable art, and techniques using wood, glass, metal, and found objects.
Required for Art Education Emphasis majors.
Prerequisites: ART 153 and 160. Majors only.

ART 353
Advanced Figure Composition
3 Semester Hours
This course promotes concept development and psychological possibilities inherent in the human form. Using a variety of media, it explores anatomical structure, imaginative composition, and perspective.
May be repeated for degree credit.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 356
Painting II
3 Semester Hours
A continuation of theoretical methods and techniques used in Painting I, ART 257. Emphasis is on color, materials, and individual concept development. A variety of media will be utilized.
Prerequisites: ART 153, 160, and 257, or consent of instructor.

ART 358
Painting III
3 Semester Hours
A continuation of Painting II, ART 356. Emphasis is on color, materials, and individual concept development. May be repeated for degree credit with consent of instructor.
Prerequisite: ART 356 or consent of instructor.

ART 359
Mural Painting
3 Semester Hours
Emphasis on student collaboration in the process and execution of large-scale paintings and public mural projects.
May be repeated for degree credit with consent of instructor.

ART 360
Graphic Design I
3 Semester Hours
The application of the basic principles of graphic design and visual problem solving in the creation of effective visual communications. Projects emphasize the uses of metaphor, typography, symbol, and image-making in communication design.
Prerequisites: ART 160, 260, and 368; recommended: ART 369; Junior standing.

ART 361
Product and Packaging Design
3 Semester Hours
The application of design principles and marketing concepts in the development of products and packaging.
Prerequisites: ART 160, 260, 360, and 368.
ART 362
Advertising Design
3 Semester Hours

The application of design principles and marketing concepts in the development of advertising campaigns and collateral materials.

May be repeated for degree credit.
Prerequisites: ART 160 and 260; Junior standing.

ART 363
3D Digital Toolbox
3 Semester Hours

Survey of concepts and processes utilized in the production of artworks with 3D digital software applications. Study of computer techniques integrating digital processing into the creative process.

May be repeated for degree credit.
Prerequisites: ART 160 and 260.

ART 364
Digital Illustration
3 Semester Hours

The integration of illustration practices, design principles, and conceptual problem solving procedures in the creation of illustrations for editorial designs, book jackets, and advertising. Illustrations are computer assisted or computer generated in black and white and in color.

May be repeated for degree credit.
Prerequisites: ART 153, 160, and 260.

ART 365
Illustration
3 Semester Hours

The integration of illustration practices, design principles, and conceptual problem-solving procedures in the creation of illustrations for editorial designs, book jackets, and advertising art. Illustrations are conceived of by conventional means.

May be repeated for degree credit.
Prerequisites: ART 153, 160, and 260; Junior standing.

ART 366
Multimedia Computer Arts
3 Semester Hours

Explorations of interactive computer multimedia technologies with emphasis on the development of personal artistic expression.

May be repeated twice for degree credit.
Prerequisite: ART 260.

ART 367
Online Computer Arts
3 Semester Hours

An emphasis on a working expertise in graphics, art, design, and aesthetics as they apply to interactive web authoring. This course will also utilize interactive linkages to a larger virtual arts community.

May be repeated for degree credit.
Prerequisites: ART 160 and 260.

ART 368
Typography I
3 Semester Hours

An introduction to the basic principles of typography in both the historical and contemporary practice of communication design. Course emphasizes type anatomy as well as how type works as a compositional element in the creation of effective visual communication.

Prerequisites: ART 160 and 260; recommended: ART 369; Junior standing.

ART 369
Design and Pre-press
3 Semester Hours

The integration of design, pre-press planning, and problem solving practices.
Prerequisites: ART 160 and 260; Junior standing.

ART 370
Beginning Wheel Throwing
3 Semester Hours

Introduction to throwing, glazing, and firing at several temperature levels with the aim of developing skills to enhance the student’s artistic voice in the contemporary clay context.
<table>
<thead>

<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
<th>Description</th>
<th>Prerequisites / Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 371</td>
<td>Advanced Wheel Throwing</td>
<td>1-3</td>
<td>Advanced work with wheel thrown forms with the aim of developing a thematic body of creative work in clay.</td>
<td>Prerequisite: ART 370.</td>
</tr>
<tr>
<td>ART 372</td>
<td>Jewelry I</td>
<td>3</td>
<td>A basic jewelry course with an emphasis on creative design and various techniques including fabrication, soldering, forging, wax working, and casting. Also includes bezel stone setting.</td>
<td></td>
</tr>
<tr>
<td>ART 373</td>
<td>Jewelry II</td>
<td>3</td>
<td>Advanced jewelry making with an emphasis on creative design and exploration of various techniques such as fabrication, casting, rolling mill texturing, hydraulic press forming, enameling processes, and the setting of faceted stones. Also an introduction to larger scale, sculptural design.</td>
<td>Prerequisite: ART 372.</td>
</tr>
<tr>
<td>ART 374</td>
<td>Motion Graphics</td>
<td>3</td>
<td>Advanced multimedia-oriented design concepts of the “on-screen” motion graphics and interactive presentations of images, text, motion, and sound.</td>
<td>Prerequisites: ART 160 and 260.</td>
</tr>
<tr>
<td>ART 375</td>
<td>Figure Sculpture</td>
<td>3</td>
<td>Modeling of the human figure with an emphasis on anatomy, leading to the extension of the figure as image.</td>
<td>Prerequisite: ART 260 or consent of instructor; recommended: ART 280.</td>
</tr>
<tr>
<td>ART 376</td>
<td>Sculpture Workshop</td>
<td>3</td>
<td>Advanced exploration of sculptural problems, techniques, and concepts using a variety of materials.</td>
<td>Prerequisite: ART 275 or consent of instructor.</td>
</tr>
<tr>
<td>ART 377</td>
<td>Drawing and Clay</td>
<td>3</td>
<td>Emphasis on the surface treatment of ceramic work incorporating drawing, painting, and printmaking techniques.</td>
<td></td>
</tr>
<tr>
<td>ART 378</td>
<td>Photography II</td>
<td>3</td>
<td>Exploration of advanced concepts of photography as applied to the development of personal expression. Students learn medium and large format photography, studio lighting, and other advanced concepts.</td>
<td>May be repeated for degree credit.</td>
</tr>
<tr>
<td>ART 380</td>
<td>Digital Photography</td>
<td>3</td>
<td>An emphasis on a working expertise in digital imaging, technologies utilizing Adobe Photoshop for image creation, manipulation, with input and output to various media.</td>
<td>May be repeated for degree credit.</td>
</tr>
<tr>
<td>ART 385</td>
<td>Relief Printmaking</td>
<td>3</td>
<td>Exploration of relief printing, photo-etching, and monotype processes. Graphic image making will be pursued through multiprintings. Personal visual development, technical skill, and conceptual development will be emphasized.</td>
<td>Recommended: ART 151 or 285, or consent of instructor.</td>
</tr>
</tbody>
</table>

*ART 370, ART 375, ART 376, ART 378,ART 380, ART 382, ART 385 are repeatable for credit with consent of instructor.*
ART 386
Etching Printmaking
3 Semester Hours

Process using etching, aquatint, and other incising techniques on metal plates. Emphasis on black and white images with an introduction to multicolor printing.

May be repeated for degree credit.
Recommended: ART 151, 280, 285.

ART 387
Silkscreen Printmaking
3 Semester Hours

Introduction to the use of serigraphy to create posters and fine art prints. Handcut, handpainted, and photographic techniques will be used. The emphasis is on the development of personal expression in the creation of multicolor prints.

May be repeated for degree credit.
Recommended: ART 160 and 280.

ART 388
Screen Printing
3 Semester Hours

Introduction to the use of silkscreening to communicate a message. Basic screening techniques will be used, including using hand-cut, photographic, and computer-generated images. Water-based textile and plastisol inks will be used. Emphasis will be on producing multicolor prints on T-shirts and posters.

May be repeated for degree credit.
Recommended: ART 160, 260, and 280.

ART 396
Professional Practices in Graphic Design
3 Semester Hours

Examination of contemporary graphic design and design career options through research, discussions, and guest speakers. Includes development and presentation of a professional portfolio and resume.

Prerequisites: Art major or consent of instructor; Junior standing.

ART 397
Professional Practices in Studio Arts
3 Semester Hours

Examination of the current state of the studio arts and various career options through research, discussions, and guest speakers. Includes development and presentation of a professional portfolio and resume.

Prerequisites: Art major or consent of instructor; Junior standing.

ART 400
Figure Workshop I
1 Semester Hour

A studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 401
Figure Workshop II
1 Semester Hour

Continuation of a studio workshop for art and animation majors with emphasis placed on working from the figure and anatomy.

May be repeated once for degree credit.
Prerequisites: ART 153 and 154, or consent of instructor.

ART 450
Methods in Teaching Secondary Art
3 Semester Hours

This methodology seminar is designed to provide opportunities for prospective secondary art educators to critically examine the theoretical, historical, psychological, sociological, and practical applications of art education. Projects will involve the development, implementation, and assessment of a successful and socially responsible art education curriculum.

Required for Art Education Emphasis majors.
Prerequisite: Art major or consent of instructor; Junior standing.
ART 453
Drawing III: Formal Issues  
3 Semester Hours

This course explores traditional and contemporary issues in drawing. Using a variety of media, content, space, color, value, and form are examined.

May be repeated for degree credit with consent of instructor.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 454
Drawing IV: Figure Composition  
3 Semester Hours

This course promotes concept development and psychological possibilities inherent in the human form. Using a variety of media, it explores anatomical structure and imaginative composition.

May be repeated for degree credit with consent of instructor.

Prerequisites: ART 153 and 154, or consent of instructor.

ART 460
Graphic Design II  
3 Semester Hours

This course builds on the fundamental concepts learned in Graphic Design I, ART 360. The portfolio-oriented projects cover the gamut of print to electronic media.

Prerequisites: ART 160, 260, 360, 368, and 369; Senior standing.

ART 468
Typography II  
3 Semester Hours

Typography II extends the fundamental concepts introduced in Typography I, ART 368. Projects emphasize advanced typographic principles as they are applied to multiple levels of text in both print and multimedia.

Prerequisites: ART 160, 260, 360, and 368; Senior standing.

ART 478
Ceramics Workshop  
3 Semester Hours

Design problems with ceramic materials incorporating wheel-thrown and hand building techniques. Development of a personal style in addition to advanced firing techniques.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 278 or consent of instructor.

ART 481
Color Photography  
3 Semester Hours

Introduction to general color principles and lab procedures with an emphasis on personal expression. Students learn color printing, negative, and transparency films, medium format photography, and some basic digital concepts.

May be repeated for degree credit.

Prerequisite: ART 280.

ART 485
Advanced Printmaking  
1-3 Semester Hours

Continuation and more advanced work in relief, etching, or silkscreen techniques.

May be repeated for degree credit with consent of instructor.

Prerequisite: ART 385 or 386 or 387.

ART 494
Multimedia Internship  
3 Semester Hours

Professional experience in multimedia.

Prerequisites: Art major and consent of instructor.

ART 495
Advanced Studio Studies  
1-3 Semester Hours

Pre-professional directed study in studio art.

May be repeated for degree credit three times.

Prerequisite: Permission of instructor and Department Chairperson.
ART 497
Senior Thesis
1-3 Semester Hours

This course continues for Fine Arts emphasis students the professional development experience of ART 397, Senior Seminar. The curriculum includes all aspects of exhibition design, promotion, and artwork presentation.

Required for Fine Arts Emphasis majors.

Prerequisites: ART 397 and Art Major Fine Arts Emphasis, or consent of instructor.

ART 498
Special Studies
1-3 Semester Hours

ART 499
Independent Studies
1-3 Semester Hours

Prerequisite: Senior standing.
Communication Studies

Faculty
Chairperson: Abhik Roy
Professors: Wenshu Lee, Abhik Roy, Dean Scheibel,
Philip C. Wander (President’s Professor)
Associate Professors: Barbara J. Busse, Jay B. Busse,
Paige Pettyjohn Edley
Assistant Professors: Michele Hammers, JongHwa Lee,
Nina Maria Reich, Kyra L. Pearson

Mission
The Communication Studies Department encourages
in its faculty and its students an education that fosters
the development of the whole person, while promoting
a commitment to social justice and cultural diversity.
Our curriculum and faculty confront the most pressing
contemporary political, social, and moral issues of our
time.

To this end, our program prepares students to communicate
effectively in the service of human dignity, civic engagement,
and global equity. It seeks out and cultivates a faculty
committed to generating scholarship and creating a
curriculum balancing communication theory and practice.
We strive to create an environment that facilitates faculty
involvement in scholarship, outreach, and leadership in
local, national, and international arenas.

Drawing on the unique cultural, commercial, and civic
mix in the Los Angeles area, our program takes critical
and creative approaches to personal and professional
experience. Our faculty prepares students to distinguish
themselves in a variety of professions, including education,
law, social advocacy, politics, and non-profit and corporate
communication. Our overriding goal, however, transcends
professional achievement. It is to offer our students and
ourselves the tools to make our global community a more
equitable and just place to live and work.

Objectives
Students majoring in Communication Studies should know:
1) Basic communication theories and principles
2) The significance of cultural differences in
communication practices
3) Basic methodological strategies used in
Communication Studies.

Students majoring in Communication Studies should be able to:
1) Demonstrate an ability to write and speak effectively
2) Critically analyze, assess, and interpret scholarly
and everyday discourse.

Students majoring in Communication Studies are encouraged to value:
1) Critical orientation to the study of communication
practices
2) Diversity issues in communication
3) A broad understanding of the relationships among
communication, social justice, and ethics.

Major Requirements: (42 semester hours) (CMST)
Lower Division Requirements:
12 semester hours of lower division: CMST 130, 170,
and 203 and 204 (both completed with a grade of
C [2.0] or better). CMST 100 or 206 must be taken
to fulfill the communication skills requirement in the
University core.

Upper Division Requirements:
30 semester hours of upper division: Satisfactory
completion of CMST 351, 35, 451, and 452 (all
four completed with a grade of C [2.0] or better). Six
courses of “communication applications” selected
from CMST 330, 335, 336, 375, 376, 385, 386,
387, 393, 490, or 495.

Minor Requirements: (18 semester hours) (CMST)
Lower Division Requirements:
6 semester hours of lower division: CMST 203 and
204 (both completed with a grade of C [2.0] or
better).

Upper Division Requirements:
12 semester hours of upper division: CMST 351 or
352 (completed with a grade of C [2.0] or better), and
three courses selected from CMST 330, 335, 336,
375, 376, 385, 386, 387, or 393.

* These courses can be taken either semester.

** A total of six “communication applications” courses are required.

This schedule is typical. The sequence and choices of courses must be decided in consultation with an advisor.

**CMST 100**
**Introduction to Public Speaking**
**3 Semester Hours**

Designed to assist the student in developing the skills necessary to communicate effectively to others and to listen effectively to communication from others. Development of proficiency in speaking results from the practice and criticism of informative speeches, persuasive speeches, and discussion.

**CMST 110**
**Interpersonal Communication**
**3 Semester Hours**

Examination of students’ communication strengths and weaknesses in order to develop proficiency in interpersonal communication. A variety of practice speaking contexts is provided, including public speaking, group discussion and problem solving, and informal and formal one-to-one communication.

**CMST 130**
**Argumentation and Debate**
**3 Semester Hours**

The principles of reasoning, evidence, and organization of argumentation for debate and related forms of competitive speech; practical application in debate and other forensic speech.

**CMST 131**
**Argumentation Practicum**
**3 Semester Hours**

Forensics competition in various debate formats requiring intramural and intercollegiate debate competition.

Prerequisite: CMST 130 and consent of instructor.

**CMST 140**
**Business and Professional Communication**
**3 Semester Hours**

A study of the principles and methods involved in improving oral communication in business and the professions. Emphasis on interviewing, conference speaking, selling and persuading, problem-solving discussions, and interpersonal relations.

For non-majors only.

**CMST 170**
**Interpersonal and Small Group Communication**
**3 Semester Hours**

This course is designed to introduce the students to interpersonal and small group communication theories, processes, and skills. The course challenges students to examine their own communication behaviors and focus on their strengths and weaknesses as a way to develop and apply new communication skills and proficiencies. The course includes a variety of oral and written presentations at both the individual and group levels.

**CMST 198**
**Special Studies**
**1-3 Semester Hours**

**CMST 199**
**Independent Studies**
**1-3 Semester Hours**

**CMST 203**
**Foundations of Communication Theory**
**3 Semester Hours**

This course introduces students to the field of communication studies and its major areas of inquiry. It begins with an overview of the history of the discipline, tracing its humanistic roots, social scientific orientations, and approaches which combine these two traditions. The course then examines communication studies from the standpoint of four perspectives that can be used to organize major movements in the field: mechanistic, psychosymbolic, pragmatic, and critical. These perspectives are used to organize the variety of communication theories examined in the course.

**CMST 204**
**Introduction to Research in Communication Studies**
**3 Semester Hours**

This course introduces students to scholarship conducted in communication studies. It overviews the research process, including generating research questions, constructing bibliographies, gathering and assessing information, and developing scholarly arguments. Students will learn research techniques, including location and retrieval of information sources (i.e., newspapers, journals, books, electronic databases, and Internet sources). They will apply critical thinking skills to the evaluation of information sources and data/arguments in qualitative and quantitative research. Students will also be introduced to basic aspects of writing for the discipline, as well as expectations for scholarly ethics and proper citation of courses.

Prerequisite: CMST 203 with a grade of C (2.0) or better, or permission of instructor.
CMST 206
Critical Thinking and Communication
3 Semester Hours

A study of the techniques of critical thinking as applied to communication and rhetoric.

CMST 298
Special Studies
1-3 Semester Hours

CMST 299
Independent Studies
1-3 Semester Hours

CMST 330
Advanced Forensics
3 Semester Hours

A study of advanced principles of debate with emphasis on interdisciplinary research on current national collegiate debate topic.

Prerequisites: CMST 130 or consent of instructor; Junior standing.

CMST 331
Argumentation Practicum
3 Semester Hours

Forensics competition in various debate formats requiring intramural and intercollegiate debate competition.

Prerequisites: CMST 130 and consent of instructor.

CMST 335
Gender Communication
3 Semester Hours

Course surveys gender similarities and differences in verbal and nonverbal communication. Emphasis is also placed on how males and females perceive the world and how these perceptions affect the human communication process.

Prerequisite: Junior standing.

CMST 336
Intercultural Communication
3 Semester Hours

A study of the principles and theories of human communication related to cross cultural encounters. Emphasis is placed on cultural relativity, culture shock, verbal and nonverbal interaction, and value differences among diverse cultures.

Prerequisite: Junior standing.

CMST 351
Contemporary Rhetorical Theory
3 Semester Hours

This course provides a survey of major rhetorical themes and theories, including classical, symbolic, argumentation, critical, feminist, and non-Western approaches to rhetoric. Students will explore the relationship between rhetorical theory and practice, the contributions of rhetorical theory to the social world, and the potential for rhetorical studies to inform issues of democratic governance, marginalized groups, social justice, and technology in society.

Prerequisites: CMST 203 and 204 with a grade of C (2.0) or better.

CMST 352
Theories of Organizational Communication
3 Semester Hours

This course is designed to introduce the students to the field of organizational communication and the relationship between organization and communication. The course is designed to allow students to examine a range of organizational communication perspectives, theories, issues, and constructs. At the same time, students are encouraged to explore the ways these perspectives shape, expand, and limit our understanding of communicating and organizing. Significantly, the course encourages critical and analytical thinking by using the course content as a basis for critique.

Prerequisites: CMST 203 and 204 with a grade of C (2.0) or better.

CMST 375
Organizational Communication Advanced Topical Seminar
3 Semester Hours

Advanced topical studies in organizational communication. May be repeated once for degree credit with a different topic.

CMST 376
Communication and Consulting
3 Semester Hours

Course surveys methods of designing, conducting, and evaluating organizational communication change strategies. Emphasis is on various methods of conducting organizational communication needs analysis, designing training programs, implementing organizational development strategies, and evaluating change efforts.

Prerequisite: Junior standing.
CMST 385
Political Communication
3 Semester Hours

Course analyzes the rhetorical dimensions of political campaigns and methods of carrying out various political objectives.

Prerequisite: Junior standing.

CMST 386
Rhetoric of Social Movements
3 Semester Hours

This course is a survey of historical and current events and rhetorical documents of movements for social change. Movements may include: abolitionist (antislavery), labor, socialist, women's rights, environmental justice, civil rights (Black, Chicana/o, and Native American), gay and lesbian, and student movements. Emphasis will be placed on rhetorical strategies and tactics relating to effects of movements on systems and structures conceived as dominant; analyses of how social movement actors construct meaning and identity in their discourses is also stressed.

Prerequisite: Junior standing.

CMST 387
Communication and Legal Practice
3 Semester Hours

This course brings the legal trial to the classroom, providing students an opportunity to incorporate an array of communication principles and skills with the experience of trial practice. Students are introduced progressively to key aspects of communication and litigation and participate in exercises that culminate in mock trials before a jury.

Prerequisite: Junior standing.

CMST 393
Topical Seminars in Communication Studies
3 Semester Hours

Further studies in communication.

May be repeated for degree credit when a different topic is studied.

Prerequisite: Junior standing.

CMST 398
Special Studies
1-3 Semester Hours

CMST 399
Independent Studies
1-3 Semester Hours

CMST 451
Rhetorical Methods
3 Semester Hours

This course examines various ways rhetorical theories may be applied to discourse in order to highlight methods of rhetorical criticism.

Prerequisite: CMST 351 with a grade of C (2.0) or better.

CMST 452
Qualitative Research Methods
3 Semester Hours

Study of qualitative research methods in communication, including data collection, analysis, and interpretation of observations and interview data.

Prerequisite: CMST 352 with a grade of C (2.0) or better.

CMST 490
Communication Practicum
3 Semester Hours

Students participate in an internship with one of several Los Angeles area companies or institutions currently accepting LMU students. The internship focuses on practical experience working in a position that utilizes communication skills. Students will integrate communication theory with their internship experience.

Prerequisites: Majors only; Junior standing.

CMST 495
Senior Thesis
3 Semester Hours

The senior thesis provides the opportunity for students to perform original research using qualitative and/or rhetorical methods and culminates in a substantial written project.

Prerequisites: CMST 451 and 452 with a grade of C (2.0) or better and Senior standing. Also, the student must obtain the written approval of the faculty member directing the thesis project and the Department Chairperson the semester prior to writing the thesis.

CMST 498
Special Studies
1-3 Semester Hours

CMST 499
Independent Studies
1-3 Semester Hours
Dance—Department of Theatre Arts and Dance

Faculty
Co-chairperson: Judith M. Scalin
Professors: Scott T. Heinzerling, Judith M. Scalin
Associate Professor: Patrick Damon Rago
Assistant Professor: Teresa L. Heiland

Objectives
The Dance major curriculum builds upon the foundation of dance as a humanistic experience. The study of dance as an art form serves as the heart of the course of study. Studio and theory coursework are designed to integrate practical dance experience with more formal academic study so that the student is educated as a dancer who can perform, write, and speak about the art of dance and dancing. Dance majors earn a B.A. degree and are prepared for advanced study in graduate school as well as careers in performing, teaching, and related work in the fields of business and health care.

The Dance program is housed in the Department of Theatre Arts and Dance. It offers coursework for the Dance major, the Dance minor and the general student. The program is accredited by the National Association of Schools of Dance.

Dance Major (DANC)

Dance Generalist Track (GENL)

Major Requirements
Lower Division Requirements:
A minimum of 21 semester hours: DANC 100, 101, 160, 161, 183, 260, 262, 281; and taken for at least 4 semester hours and at the level of proficiency: for 0-2 semester hours Modern Dance and Ballet each semester, and for 0-2 semester hours World Dance one semester.

Upper Division Requirements:
A minimum of 25 semester hours: DANC 377, 378, 380, 381 (counts also as AMCS core), 460 (or PHIL 352), 461 (minimum of C [2.0] grade), 480, 481 (counts also as science core), 484; and taken for at least 4 semester hours and at the level of proficiency: for 0-2 semester hours Modern Dance and Ballet each semester, and for 0-2 semester hours World Dance one semester.

A minimum of a C (2.0) must be maintained in major coursework. A minimum grade of C (2.0) must be earned in each Dance major technique course and DANC 461.

Dance Performance Track (PRFM)

Major Requirements
- Faculty review for acceptance into Track at the end of the first or second year.
- Faculty review for approval for continuation in Track at the end of the second and third years.

Dance Technique and Performance Requirements:
Coursework (minimum): Technique
1. Modern Dance Six semesters
2. Ballet Eight semesters
3. Jazz Dance Two semesters
4. World Dance Two semesters
5. Pilates and/or Yoga Two semesters

Coursework (minimum): Performance
Performance in at least two dance concerts (DANC 279) in the lower division and three dance concerts (selected from DANC 379, 479) in the upper division.

Daily Study of Dance Technique: At least one class three days a week and at least two classes two days a week.

Proficiency:
At least two semesters in DANC 402, Modern Dance IV, and two semesters in DANC 423, Ballet V or
At least four semesters in DANC 402, Modern Dance IV, two semesters in DANC 420, Ballet IV, and two semesters in DANC 446, Jazz Dance VI or equivalent.
Lower Division Requirements:

Upper Division Requirements:

A minimum of 27 semester hours: DANC 360, 380, 381 (counts as AMCS core), 384, 460 (or PHIL 352), 461 (minimum of C [2.0] grade), 480, 481 (counts as science core), 484. See above for Dance Technique and Performance requirements.

A minimum of a C (2.0) must be maintained in major coursework. A minimum grade of C (2.0) must be earned in each Dance major technique course and DANC 461.

Minor Requirements

General minor (DNGL)—17-18 semester hours: DANC 160; one course selected from DANC 161, 260, 281, 374, 381; one additional theory course selected from DANC 260, 262, 281, 384, 385, 480, 481, 484; one pedagogy or dance science course selected from DANC 384, 385, 480 or 482, 484.

Performance minor (DNPF)—20-21 semester hours: DANC 160 (3 semester hours); DANC 183 (1 semester hour); dance technique (8 U.D. semester hours); one course selected from DANC 161, 260, 281, 374, 381, 397 (2-3 semester hours); performance in at least three dance concerts (3 semester hours); and one course selected from DANC 384, 385, 480, 481, 484 (3 semester hours).

</tbody>
</table>
DANC 378
Service Project
0-1 Semester Hours
Completion of a service project on campus or in the community.

DANC 379
Dance Touring Group
0-3 Semester Hours
Performance group which tours local K-12 schools.
May be repeated for degree credit up to 4 times.

DANC 380
Music for Dance
3 Semester Hours
Study of the elements of music theory and history which are common to dance and music.

DANC 381
To Dance Is Human: Dance, Culture, and Society
3 Semester Hours
A study of dance as a cultural, political, and socioeconomic phenomena. The dance of three selected cultures in the United States today with origins in Africa, Asia, and Europe and current life in the United States will form the focus of study. (Fall)

DANC 382
Drumming for Dance
2 Semester Hours
African drumming techniques used in dance for dancers and musicians.

DANC 383
Dance Improvisation
0-1 Semester Hours
Movement exploration of time, space, energy, use of gravity, partnering, music and text as sources of movement invention.
May be repeated for degree credit up to 4 times.

DANC 384
Creative Dance for Children
3 Semester Hours
Creative dance experience designed to prepare the elementary school teacher to offer dance instruction.
Meets Liberal Studies Credential requirements.

DANC 385
Movement Arts for Children
3 Semester Hours
Movement arts experience ("new games," dance, sport) and study of the child's physical and motor development. Designed as pre-service Elementary School teacher training. Meets Liberal Studies Credential requirements.

DANC 389
Independent Studies
1-3 Semester Hours

DANC 390
Dance of Greece
0-2 Semester Hours
Intensive study of folk dance of Greece with historical and cultural perspectives.
Offered in the Fall semester only.

DANC 394
Dunham Dance Technique
0-2 Semester Hours
A study of the dance technique of Katherine Dunham.
Audition: First class meeting.
May be repeated for degree credit up to 6 times.

DANC 396
Musical Theatre Dance
0-2 Semester Hours
Practice and study of dances from the musical theatre repertory.
May be repeated for degree credit up to 2 times.

DANC 397
World Dance
0-3 Semester Hours
Intensive study of selected world cultures from Africa, Asia, the Pacific, and Europe with particular attention to historical and cultural perspective.
May be repeated for degree credit as long as selected culture differs.

Music

Faculty
Chairperson: Mary C. Breden
Professors: Mary C. Breden, Mark Saya, Virginia Saya
Associate Professor: Paul W. Humphrey
Assistant Professor: Michael Miranda

Objectives
The purpose of the Department of Music is to provide quality music instruction both for students who wish to pursue music as a career and for students who wish to enrich their lives through non-career oriented study and performance. Students and faculty work together to foster aesthetic involvement and creative and scholarly inquiry that support a vital community of music learning. Instruction emphasizes a personal approach. Through the presentation of diverse musical programs, the department also sustains and enriches the cultural vitality of the University and its surrounding communities. The work of the department further supports the goals of Jesuit and Marymount education by strengthening the socializing influence of music both within the University and the world at large.

The Department of Music offers the Bachelor of Arts in Music degree, the requirements of which can serve as an excellent foundation for students undertaking advanced studies in preparation for such careers as musicology, composition, ethnomusicology, music librarianship, and pedagogy-oriented teaching. In addition to meeting all University admissions requirements, students who wish either to major or minor in Music must meet specific Department of Music entrance requirements.

Loyola Marymount University and the Department of Music are accredited by the National Association of Schools of Music.

Student Learning Objectives
Students majoring in Music should be able to:
- Develop physical coordination and technical skills required for specific musical activities (conducting, singing, instrumental performance)
- Apply essential principles of music theory and form to the study and evaluation of musical scores (critical skills)
- Display familiarity with musical notation in performance and original composition (creative skills).

Students majoring in Music should know:
- The historical evolution of Western music as evidenced by style periods, performance practices, and representative composers and their works
- The varieties of music as a cultural phenomenon seen in its interrelationship with belief systems, life-ways, and language.

Students majoring in Music are presented with the opportunity to value:
- The power of music as an expression and reflection of human emotion and responsiveness
- The experience of aesthetic engagement that allows for deep identification with music
- The synthesis of perspectives—physical, technical, analytical, historical—that leads to a cultured musical sensibility and artistic performance.

Admission to the Major and Minor
An audition in the applied emphasis (Instrument or Voice) is required before admission to the major or minor. Audition requirements appropriate to each instrumental and voice emphasis are available from the Secretary of the Department of Music.

A grade of C (2.0) or better is required in:
- MUSC 122 (Music Theory & Form II)

A grade of B (3.0) or better is required in:
- MUSC 181, 280, 281 (Applied Lessons)

Foreign Language Requirement
Two semesters of foreign language(s) through selection of one of the following options:
- ITAL 101, 102 or GRMN 101, 102 or FREN 101, 102 or ITAL 101, GRMN 101 or ITAL 101, FREN 101 or GRMN 101, FREN 101

The language options selected may be taken credit/no credit but require the approval of the Chairperson and the applied emphasis instructor.
Music Major Curriculum (MUSC)

48 Semester Hours (plus Foreign Language Requirement)

General Requirements

38 Semester Hours

Concentration Requirements

10 Semester Hours/Upper Division

With the approval of the Director of the Concentration, every music major must declare and complete an upper division Concentration. It is possible to complete two Concentrations with the approval of the Advisor and the Department Chairperson. In order to fulfill the double Concentration, the student will take all classes required in each of the selected Concentrations. Music courses fulfilling one Concentration may not be used to satisfy the requirements of the second Concentration.

Applied Music

Individual Instructions

Music Major/Minor

Music majors are required to complete a minimum of four semesters, and Music minors two semesters, of individual instruction in the following emphasis areas:

- Piano, Guitar, Percussion, Strings, or Voice:
  - MUSC 180, 181, 280, 281 (Major/4 semester hours)
  - MUSC 180, 181 (Minor/2 semester hours)

Each semester hour of earned credit in private applied lessons requires the following:

A. One 50-minute private lesson weekly (total 14)
B. Enrollment in MUSC 101, Studio Class
C. Minimum of one (1) Studio Class performance per semester

Only students who have been officially accepted through audition and declared music majors or minors by the Department of Music may enroll in private applied lessons (180, 181, 280, 281, 380, 381, 480, 481). No applied music fee is required.

Practice room facilities (free of charge) are available to all applied music students enrolled for credit.

Applied music courses are repeatable for credit. Majors who wish to continue credit enrollment beyond minimum requirements may enroll in the subsequent MUSC 380, 381, 480, and 481 offerings.
Music Non-Major/Non-Minor

Individual instruction is available in Piano, Guitar, Drum Set, Strings, and Voice:

- Permission of professor required.
- MUSC 182, 282, 382, 482 . . . .1 S.H. each

There is an applied music fee of $420.00 per semester for fourteen 30-minute weekly lessons. Applied music courses are repeatable for credit.

Class instruction is available in Piano, Guitar, and Voice for students at the beginning level:

- MUSC 175, 176, 177 Piano Class . .1 S.H. each
- MUSC 178 Voice Class . . . . . . . .1 S.H.
- MUSC 179 Guitar Class . . . . . . . .1 S.H.

These classes meet once weekly, have a limited enrollment, and may only be repeated once for credit. There is a $20 lab fee for the piano classes.

Ensembles

Music Major/Minor

Music majors are required to complete four semesters, and Music minors two semesters, of active participation in an ensemble appropriate to the area of individual instruction emphasis.

Music Non-Major/Non-Minor

Membership is open to all students and the University community on audition-after-enrollment basis.

MUSC 101
Studio Class
0 Semester Hours

Recital class for music majors and minors enrolled in applied lessons, including composition lessons.

May be repeated for degree credit.

MUSC 102
Enjoyment of Music
3 Semester Hours

An overview of the evolution of Western Art music from the era of Gregorian Chant to modern times. Focus is on style periods and the contributions of the great composers. Concert attendance required.

Non-majors and non-minors only.

MUSC 104
Fundamentals of Music
3 Semester Hours

Practical study of the rudiments of music—notation, rhythm, keys, scales, and terminology, with the object of attaining and applying a basic musical literacy. Concert attendance required.

Non-majors and non-minors only.

MUSC 105
The Vocal Experience
3 Semester Hours

Exploration of the basic techniques of singing with emphasis on the expressive elements inherent in simple vocal literature; study of fundamental musical elements—rhythm, melody, key structures, notation—leading to successful sight singing.
MUSC 106
The Guitar Experience
3 Semester Hours
Exploration of the basic technique of performing on the guitar including 1) learning to read music, 2) chords and styles of accompaniment, and 3) the preparation of solo pieces.

MUSC 107
The Piano Experience
3 Semester Hours
Exploration of the basic techniques of performing piano literature; study of fundamental musical elements—rhythm, melody, key structures, notation, and reading music.

MUSC 121
Music Theory and Form I
3 Semester Hours
Introduction to the fundamentals of functional tonal harmony, basic musical terminology and notation, figured bass, and diatonic harmonic progression and voice leading.
Corequisite: MUSC 133.

MUSC 122
Music Theory and Form II
3 Semester Hours
Continuation of MUSC 121, introducing cadences, nonchord tones, 7th chords, chromatic harmony and voice leading (secondary chords), and various types of modulation. Also includes an introduction to formal analysis through the study of period and other phrase structures.
Corequisite: MUSC 134.

MUSC 131
Sight Singing I
1 Semester Hour
Study of notation, keys, scales, rhythm; recognition of intervals; development of the ability to sight-read vocally from the score and to take melodic dictation.

MUSC 132
Sight Singing II
1 Semester Hour
Continuation of MUSC 131.
Prerequisite: MUSC 131.

MUSC 133
Aural Skills I
1 Semester Hour
Developing of the aural skills of sight singing, audiation, and pitch discrimination leading to the ability to take musical dictation from simple to intermediate levels involving melody, rhythm and meter, chords in root position, and cadential harmony. Includes Computer Assisted Instruction (CAI).
Corequisite: MUSC 121.

MUSC 134
Aural Skills II
1 Semester Hour
Continuation of MUSC 133, further developing the ability to take musical dictation from intermediate to advanced levels involving tonal, modal, and atonal melody, rhythm and meter, all chord types including inversions and functional harmonic progression. Continuation of CAI.
Prerequisite: MUSC 133.
Corequisite: MUSC 122.

MUSC 135
Functional Piano I
1 Semester Hour
Development of pragmatic keyboard reading skills.
Music majors/minors only.

MUSC 136
Functional Piano II
1 Semester Hour
Continuation of MUSC 135.
Prerequisite: MUSC 135 or consent of instructor.

MUSC 175
Beginning Piano Class
1 Semester Hour
Development of pragmatic keyboard reading skills.

MUSC 176
Intermediate Piano Class
1 Semester Hour
Application of fundamental keyboard reading skills through sight reading, ensemble work, harmonizing, and improvising. Development of interpretive skills through the use of repertoire from different eras.
Prerequisite: MUSC 175 or consent of instructor.
**MUSC 177**  
**Advanced Piano Class**  
*1 Semester Hour*

Application of interpretive skills using more complex repertoire. Fundamentals of tonal music theory are addressed along with sight reading and improving. Individual projects may be assigned.

Prerequisite: MUSC 176 or consent of instructor.

**MUSC 178**  
**Beginning Voice Class**  
*1 Semester Hour*

Group instruction in singing. The basics of breathing, tone production, diction and articulation, song preparation, and performance.

**MUSC 179**  
**Beginning Guitar Class**  
*1 Semester Hour*

The study of the classical guitar: learning to read music, learning to use the hands efficiently, gaining an understanding of the structures of music in order to develop an interpretive style.

**MUSC 180**  
**Guitar, Percussion, Piano, Strings, Voice**  
*1 Semester Hour*

First semester of private applied lessons in the major/minor.

Corequisite: MUSC 101.

**MUSC 181**  
**Guitar, Percussion, Piano, Strings, Voice**  
*1 Semester Hour*

Second semester of private applied lessons in the major/minor.

Prerequisite: MUSC 180.

Corequisite: MUSC 101.

**MUSC 182**  
**Guitar, Percussion, Piano, Strings, Voice**  
*1 Semester Hour*

First year of private applied lessons for non-majors, non-minors (repeatable credit).

Permission of instructor required.

**MUSC 221**  
**Music Theory and Form III**  
*3 Semester Hours*

Introduction to modal species counterpoint, fugal process, fundamentals of formal analysis, binary and ternary forms, and further chromatic harmony and voice leading, including borrowed chords, the Neapolitan, and augmented 6th chords.

Prerequisite: MUSC 122.

**MUSC 222**  
**Music Theory and Form IV**  
*3 Semester Hours*

Introduction to song forms, rondo and sonata forms, and further chromatic harmony, including chromatic mediant relationships and enharmonic modulation. Introduction to 20th century concerns including modality, atonality, Impressionism, Expressionism, polyrhythm and polytonality, serial techniques, minimalism, and improvisation and chance.

Prerequisite: MUSC 221.

**MUSC 235**  
**Instrumentation**  
*2 Semester Hours*

Ranges, limits, use possibilities, technical parameters, and transpositions of instruments used for the making of music in performance.

Prerequisite: MUSC 122.

**MUSC 280**  
**Guitar, Percussion, Piano, Strings, Voice**  
*1 Semester Hour*

Third semester of private applied lessons in the major.

Prerequisite: MUSC 181.

Corequisite: MUSC 101.

**MUSC 281**  
**Guitar, Percussion, Piano, Strings, Voice**  
*1 Semester Hour*

Fourth semester of private applied lessons in the major.

Prerequisite: MUSC 280.

Corequisite: MUSC 101.
MUSC 282
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Second year of private applied lessons for non-majors (repeatable credit).
Permission of instructor required.

MUSC 303
Introduction to World Music Cultures
3 Semester Hours
A preliminary survey of traditional and “syncretic” popular musics, chosen from a representative world sample. Activities include guided listening (with some in-class performance), cultural analysis, and discussion of contemporary issues.

MUSC 304
Topics in World Music Cultures
3 Semester Hours
A closer investigation of four music cultures chosen from a world sample. Activities include continuing application of musical and cultural concepts as well as critical examination of ethnomusicological perspectives.
Prerequisite: MUSC 303.

MUSC 309
History/Literature of the Guitar
3 Semester Hours
The development of the guitar and related plucked instruments from the Renaissance to the present; a survey of notational systems, techniques, historical styles, and the representative works for the lute, vihuela, five-course guitar, and six-string guitar.
Prerequisite: MUSC 281.

MUSC 310
Instrumental Pedagogy
3 Semester Hours
Research, concepts, and methodology common to the teaching of instruments.
Prerequisite: MUSC 222.

MUSC 316
Music History: Antiquity to 1600
3 Semester Hours
A historical survey of Western music traditions from antiquity and early chants through the Renaissance (1600). Includes methodology and procedures which are fundamental to scholarly research and inquiry in musicology.
Prerequisite: MUSC 122.

MUSC 317
Music History: 1600-1820
3 Semester Hours
A continuation of the historical survey of Western music traditions from the Baroque Era (1600) through the Classic Era (1820). Includes methodology and procedures which are fundamental to scholarly research and inquiry in musicology.
Prerequisite: MUSC 316.

MUSC 318
Music History: 1820 to Present
3 Semester Hours
A continuation of the historical survey of Western music traditions from the beginnings of Romanticism through the milieu of twentieth-century music, concluding with current practices and trends. Includes methodology and procedures which are fundamental to scholarly research and inquiry in musicology.
Prerequisite: MUSC 317.

MUSC 319
Analytic Techniques
3 Semester Hours
The study of concerto and variation forms, tonal pairing and other 19th century developments, and an introduction to linear-graphic analysis and set theory.
Prerequisite: MUSC 222.

MUSC 320
Notation and Copying
1 Semester Hour
A survey of the fundamentals of traditional musical notation, with emphasis on the development of practical notational skills. Includes Computer Assisted Instruction (CAI).
Prerequisite: MUSC 222.

MUSC 322
Modal Counterpoint
3 Semester Hours
Introduction to the style of sixteenth-century counterpoint, as exemplified by the vocal works of Palestrina. Topics covered include species counterpoint, the setting of Latin texts, and techniques of mass composition.
Prerequisite: MUSC 221.
MUSC 323
Tonal Counterpoint
3 Semester Hours

Introduction to the style of eighteenth-century counterpoint, as exemplified by the instrumental works of J.S. Bach. Techniques and procedures covered include species counterpoint, canon, invention, and fugue.

Prerequisite: MUSC 221.

MUSC 325
Music for the Recordist
3 Semester Hours

An in-depth investigation of the businesses of music as they apply to the recording and entertainment industry.

MUSC 328
Choral Methods I
2 Semester Hours

Practical aspects of choral techniques ranging from the audition through the working rehearsal with emphasis on development of choral tone, phrasing, articulation, dynamics, blend, and balance, as well as selection of repertoire.

Prerequisites: MUSC 281 (voice), 332, and 491 or 495.

MUSC 330
Score Reading I
2 Semester Hours

Score reading preparation of concert and transposed musical scores involving two through six parts including the use of multiple clefs.

Prerequisite: MUSC 333.

MUSC 331
Score Reading II
2 Semester Hours

Score reading preparation of concert and transposed scores involving seven or more diverse instrumentations including the use of multiple clefs.

Prerequisite: MUSC 330.

MUSC 332
Choral Conducting
2 Semester Hours

Basic conducting skills, technical and expressive uses of the conducting gesture, and methods of verbal and nonverbal communication appropriate to a choral ensemble.

MUSC 333
Instrumental Conducting
2 Semester Hours

Basic conducting skills, technical and expressive uses of the conducting gesture, and methods of communication appropriate to an instrumental ensemble.

Prerequisite: MUSC 235.

MUSC 335
Accompanying I
1 Semester Hour

The literature and performance practices applicable for solo and small genre accompaniment.

Prerequisite: Consent of instructor.

MUSC 336
Accompanying II
1 Semester Hour

Continuation of 335.

Prerequisite: MUSC 335 or consent of instructor.

MUSC 340
Diction for Singers I
1 Semester Hour

Development and refinement of enunciation and performing skills in English, Italian, and Latin. An extensive working knowledge of the International Phonetic Alphabet will be acquired.

Prerequisite: Major or minor.

MUSC 341
Vocal Pedagogy
3 Semester Hours

Study of the physiology and acoustics of the voice and its application to singing and to the teaching of singing.

Prerequisite: Major or minor.

MUSC 342
Diction for Singers II
1 Semester Hour

Continuation of MUSC 340; emphasis on German and French.

Prerequisite: MUSC 340.
MUSC 343
Opera Scenes/Workshop
1-2 Semester Hours
Preparation of scenes from major operas in either staged or concert versions, and study of the complete works to aid singers in establishing context and characterization.
Prerequisites: Audition after enrollment.
May be repeated for degree credit.

MUSC 344
Alexander Technique
0-1 Semester Hours
Basic skills of coordinated movement appropriate to stage work for vocalists and instrumentalists. Exploration of the elements of poise, postural habits, and style based on principles developed by F.M. Alexander.
Corequisite: MUSC 343.
May be repeated for degree credit.

MUSC 361
Music of Africa
3 Semester Hours
An in-depth investigation of differences found in Sub-Saharan and North African genres.

MUSC 365
History of Jazz
3 Semester Hours
A survey of the origins and major style periods of jazz from the ante-bellum era to the present. Listening assignments emphasize the ways in which specific musical features reflect currents of history and culture.

MUSC 366
History of Rock
3 Semester Hours
Evolution of rock and roll from its African-American origins to the present.

MUSC 367
History of Popular Music
3 Semester Hours
Survey of the musical and cultural history of the diverse styles and artists associated with popular music. Exploration will range from rock to blues to hip hop to heavy metal to country. The course will consider the social, political, and cultural themes that influence and are influenced by music.

MUSC 380
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Fifth semester of private applied lessons in the major.
Prerequisite: MUSC 281.
Corequisite: MUSC 101.

MUSC 381
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Sixth semester of private applied lessons in the major.
Prerequisite: MUSC 380.
Corequisite: MUSC 101.

MUSC 382
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour
Third year of private applied lessons for non-majors (repeatable credit).
Permission of instructor required.

MUSC 387
Music Composition I
1 Semester Hour
The composition of original instrumental and vocal works for solo performers and small ensembles employing structures such as binary, ternary, and song forms.
Prerequisite: MUSC 222.

MUSC 388
Music Composition II
1 Semester Hour
Continuation of 387.
Prerequisite: MUSC 387.

MUSC 401
Music in Native North America
3 Semester Hours
A survey of traditional and contemporary music/dance within primary culture areas.

MUSC 402
Music of East, Central, and Southeast Asia
3 Semester Hours
A historically-oriented survey of traditional, art, and popular genres within each region.
MUSC 403
Music of Indonesia
3 Semester Hours
An exploration of performing arts in Java, Bali, and outer islands of the archipelago.

MUSC 404
Music of India
3 Semester Hours
An exploration of performing arts in North and South India.

MUSC 405
Music in Contemporary Society
3 Semester Hours
Using live performance as the springboard, the elements of music are examined from a cross-cultural perspective.

MUSC 407
Research and Methods in Ethnomusicology
1 Semester Hour
A survey of the essential literature of ethnomusicology; introduction to field methods, transcription, and analysis.
Prerequisite: MUSC 303 or consent of instructor.

MUSC 412
Pre-Renaissance and Renaissance Music
3 Semester Hours
The study of the major musical figures and their representative works from the chants of the early Christian church to the Baroque Era.
Prerequisites: MUSC 316, 317, and 318.

MUSC 413
Music of the Baroque
3 Semester Hours
Composers, music, and practices from 1600 to 1750 with emphasis on historical development culminating in the works of G.F. Handel and J.S. Bach.
Prerequisites: MUSC 316, 317, and 318.

MUSC 414
Music of the Classical Era
3 Semester Hours
Composers, music, and practices from 1750 to 1827 with emphasis on historical developments of musical trends through the works of Gluck, Haydn, Mozart, Beethoven, and Schubert.
Prerequisites: MUSC 316, 317, and 318.

MUSC 415
Music of the Romantic Age
3 Semester Hours
Composers, music, and musical developments from the death of Beethoven through the end of the nineteenth century.
Prerequisites: MUSC 316, 317, and 318.

MUSC 416
Music of the Twentieth-Century Era
3 Semester Hours
Composers, music, trends, and musical arts-related developments from the close of the nineteenth century through contemporary practices.
Prerequisites: MUSC 316, 317, and 318.

MUSC 425
Electronic Music
3 Semester Hours
The history and investigation of electronic, electroacoustic, and computer generated sounds as music composition and production tools.
Prerequisite: MUSC 222.

MUSC 426
Arranging and Scoring
1 Semester Hour
Principles, methods, formats, and techniques employed in arranging or scoring existing musical materials for instrumental or vocal genre in selected styles.
Prerequisite: MUSC 222.

MUSC 428
Choral Methods II
1 Semester Hour
Continuation of MUSC 328.
Prerequisite: MUSC 328.

MUSC 432
Advanced Choral Conducting
2 Semester Hours
Application of concepts and fundamentals experienced in MUSC 332, development and application of interpretive conducting skills through study of choral works representing the major style periods.
Prerequisite: MUSC 332.
MUSC 433
Advanced Instrumental Conducting
2 Semester Hours

Application of concepts and fundamentals experienced in MUSC 333, development and application of interpretive conducting skills through major orchestral works.

Prerequisite: MUSC 333.

MUSC 435
Instrumental Conducting Practicum
2 Semester Hours

Preparation and application of conducting skills with a departmental instrumental ensemble resulting in a recital performance appearance as a student conductor.

Prerequisite: MUSC 433.

MUSC 445
Choral Practicum
1 Semester Hour

In-depth study of choral rehearsal practices resulting in a senior project or conducting recital.

Prerequisite: MUSC 432.

MUSC 450
Senior Project/Recital
1 Semester Hour

Preparation and presentation of a solo performance in a student recital format.

Permission of Applied instructor, advisor, and Chairperson required.

MUSC 454
World Music Ensembles I
0-1 Semester Hours

Practice and performance of West African drumming and Balinese gamelan including both traditional and new compositions.

Prerequisite: Audition after enrollment.

May be repeated for degree credit.

MUSC 455
World Music Ensembles II
0-1 Semester Hours

Practice and performance of intermediate-level techniques in West African drumming and xylophone as well as Balinese gamelan and gender wayang.

Prerequisites: MUSC 454; permission of instructor required.

May be repeated for degree credit.

MUSC 457
Music Management I
3 Semester Hours

Subjects include but are not limited to: the music business system, professional songwriting, music publishing, music copyright, music licensing, unions and guilds, agents, managers and attorneys, artist management, concert promotion, theatrical production, music merchandising, and arts administration.

MUSC 458
Music Management II
3 Semester Hours

Subjects include but are not limited to: scope of the record industry, record markets, artists’ recording contracts, record production, record promotion, distribution and merchandising, studios and engineers, environmental music, music in radio, music in telecommunications, music in advertising, film scoring, career options, and career development.

Prerequisite: MUSC 457.

MUSC 480
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

Seventh semester of private applied lessons in the major.

Prerequisite: MUSC 381.

Corequisite: MUSC 101.

MUSC 481
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

Eighth semester of private applied lessons in the major.

Prerequisite: MUSC 480.

Corequisite: MUSC 101.
MUSC 482
Guitar, Percussion, Piano, Strings, Voice
1 Semester Hour

Fourth year of private applied lessons for non-majors (repeatable credit).
Permission of instructor required.

MUSC 487
Music Composition III
1 Semester Hour

The composition of original instrumental and vocal works for large ensembles employing extended structures such as sonata, rondo, variation, and concerto forms.
Prerequisite: MUSC 388.

MUSC 488
Music Composition IV
1 Semester Hour

Continuation of MUSC 487.
Prerequisite: MUSC 487.

MUSC 490
Chamber Orchestra
0-1 Semester Hours

Offers students and members of the community instruction in orchestral music through the study and performance of quality literature representing a variety of style periods and musical genre.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 491
Consort Singers
0-1 Semester Hours

Smaller, more advanced choral ensemble provides an opportunity for students to perform challenging choral literature from a wide range of composers and styles.
Should have previous choral experience.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 492
Chamber Music Ensembles
0-1 Semester Hours

To gain an understanding of and to develop the skills necessary for small ensemble playing (includes guitar, string, and piano ensembles).
Prerequisite: Audition after enrollment; permission of instructor required (piano ensembles).
May be repeated for degree credit.

MUSC 493
Women’s Chorus
0-1 Semester Hours

The ensemble explores and performs choral literature for treble voices.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 494
Men’s Chorus
0-1 Semester Hours

The ensemble explores and performs choral literature for male voices.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 495
Concert Choir
0-1 Semester Hours

The large choral ensemble offers students and members of the community instruction in choral music with emphasis on vocal techniques as well as the study and performance of quality literature representing a variety of style periods and musical genres.
Prerequisite: Audition after enrollment.
May be repeated for degree credit.

MUSC 496
Theory Placement Practicum
0-1 Semester Hours

Review of selected topics from Music Theory & Form I-IV and techniques of preparation for theory placement examinations required by music graduate schools.
MUSC 497
Musicology Placement Practicum
0-1 Semester Hours

Techniques of preparation for musicology placement examinations required for entrance into music graduate school programs.

MUSC 498
Special Studies*
1-3 Semester Hours

MUSC 499
Independent Studies*
1-3 Semester Hours

* MUSC 498 and 499 may not be designated to stand in lieu of course content addressed by another course in the music curriculum, except by permission of the Chairperson.
Theatre Arts—
Department of
Theatre Arts and
Dance

Faculty
Co-chairperson: Ron Marasco
Professors: Katharine B. Free,
Beth Henley (Presidential Professor), Ron Marasco,
Judith Royer, S.J.
Associate Professors: Diane Benedict, Charles E. Erven
Assistant Professors: Grant S. Garinger, S.J.,
Katharine M. Noon, Dan Weingarten,
Kevin J. Wetmore, Jr.

Objectives
The Theatre Arts curriculum is planned to provide a broad
education in the humanities and to develop in the student
an appreciation of self and the universality of the human
experience. Participation in the performing arts experience
is central to this work. All students pursue a general
theatre program. Some students may elect to emphasize
work in the areas of acting, directing, playwriting, history/
literature/criticism, or design/technical theatre. The Theatre
Arts program is accredited by the National Association of
Schools of Theatre.

Major Requirements (THEA)
Lower Division Requirements:
24 semester hours: THEA 111, 120, 220, 240, 245,
260, and 6 semester hours of lower division Theatre
coursework planned in consultation with departmental
advisor.

Upper Division Requirements:
30 semester hours: 9 hours of Theatre history/literature/
criticism courses from the THEA 330s, 340s, 430s of
which 3 semester hours must be chosen from THEA
347, 348, 349, 430, or 435; THEA 370, THEA 450,
THEA 490, and 12 semester hours of upper division
Theatre electives.

A minimum grade of C (2.0) must be obtained in each
course included in the major requirements.

Minor Requirements (THEA)
18 semester hours divided into 6 semester hours of lower
division work, 12 semester hours of upper division theatre
offerings, and participation in Departmentally-sponsored
events.

Minor programs must be planned in consultation with a
departmental advisor. A minimum grade of C (2.0) must be
obtained in each course included in the minor program.

This schedule is typical. The sequence and choice of courses must be decided in consultation with an advisor.

---

**THEA 110**

**Beginning Acting**

3 Semester Hours

An introduction to the interpretation of drama through the art of the actor. Designed for the non-major.

**THEA 111**

**Introduction to Theatre Performance**

3 Semester Hours

A study of acting, directing, and writing techniques that create the theatre event. (Fall)

Prerequisite: Theatre Arts majors/minors only.

**THEA 112**

**Voice and Movement for Stage**

3 Semester Hours

A practicum designed to develop and practice movement skills to free the natural voice for the actor.

Prerequisites: THEA 111 or equivalent experience, Theatre Arts majors/minors only.

**THEA 120**

**Basic Stagecraft**

3 Semester Hours

A practical study of modern theatrical practice with the purpose of developing the student’s awareness of and sensitivity to the many different aspects of a theatre production: acting, directing, set design and construction, costumes, stage management, lighting, sound, make-up, as well as handling administration and publicity. Included is a lab format which provides practical experience and hands-on work in the scene shop.

Corequisite: THEA 121.
THEA 121  
Basic Stagecraft Lab  
0 Semester Hours  
A practical study of modern theatrical practice in a lab format which provides hands-on work in the scene shop.  
Corequisite: THEA 120.  
Offered for Credit/No Credit only.  

THEA 210  
Scene Study and Presentation  
3 Semester Hours  
Concentrated approach to scene analysis and presentation. Emphasis on further development and integration of acting skills in voice, movement, interpretation, and characterization for performance. (Fall)  
Prerequisites: THEA 111 or equivalent experience, Theatre Arts majors/minors only.  

THEA 212  
Genre Performance Workshop  
3 Semester Hours  
An intensive study of the vocal, physical, and textual elements of selected styles and genres: Chekhov, Brecht, Shakespeare, or musical theatre. (Spring)  
Prerequisites: THEA 210 or consent of instructor, Theatre Arts majors/minors only.  

THEA 220  
Introduction to Basic Scene, Lighting, and Costume Design  
3 Semester Hours  
A practical study of the elements and principles inherent in all modern theatrical design with the purpose of developing the students’ awareness of and sensitivity to design in the world around them.  
Lab included.  

THEA 221  
Visual Communication 2D  
3 Semester Hours  
This course refines the sense of color and design begun in earlier courses by enhancing students’ responsiveness to visual form, organization, and structure. By learning basic sketching and painting techniques in a variety of media, this course examines methods and procedures for effective communication and realization of visual concepts.  
Prerequisite: THEA 220 or consent of instructor.  

THEA 222  
Visual Communication 3D  
3 Semester Hours  
Building on the lessons learned in THEA 221, this course applies various sceno-graphic techniques used in the various stages of planning and executing a setting for the theatre. It seeks to bring together for the special use of drafting techniques selected portions of descriptive geometry, pattern making or developments from engineering drawing, model construction, and the graphics of perspective.  
Prerequisite: THEA 221 or consent of instructor.  

THEA 225  
Basic Stage Make-Up  
2 Semester Hours  
The art and application of stage make-up. Recommended for acting students and cast members.  

THEA 240  
Western Theatre History and Literature I  
3 Semester Hours  
A study of the theatre (literature, playhouse, performance conventions) of the ancient Greek and Roman worlds, the Medieval world, the Renaissance, and the Elizabethan period. (Fall)  
THEA 245  
Western Theatre History and Literature II  
3 Semester Hours  
A study of the theatre (literature, playhouse, performance conventions) from the 17th century to the 20th century. (Spring)  

THEA 251  
Theatre Practicum: Performance  
1-3 Semester Hours  
Participation in performance in theatre presentations.  
May be repeated for credit up to 9 semester hours.  
Prerequisite: By audition.  

THEA 252  
Workshop: Playwrights and Actors  
1-3 Semester Hours  
The development of new scripts through several possible stages of interaction between actors and writers, leading to staged readings and/or workshop productions. May be repeated for credit up to 9 semester hours.  
Prerequisites: Theatre Arts majors/minors only, consent of instructor.
THEA 260
Theatre and Events Promotion
3 Semester Hours
Participation in preparations for departmental performances and events.
May be repeated for credit up to 9 semester hours.
Prerequisite: Theatre Arts majors/minors only.

THEA 298
Special Studies
1-3 Semester Hours

THEA 299
Independent Studies
1-3 Semester Hours

THEA 300
Theatre in Los Angeles
3 Semester Hours
Theatre-going and appreciation designed for the potential audience member through first-hand meetings with theatre artists and attendance at Los Angeles productions. Lab fee.

THEA 312
Voice Development
3 Semester Hours
The development of the full range of expressiveness in the speaking voice.

THEA 314
Intermediate Acting for Non-Majors
3 Semester Hours
A continuation of THEA 110.
Prerequisite: THEA 110 or consent of instructor.

THEA 315
Alexander Technique
3 Semester Hours
A course for actors and other performers to improve the use of their bodies, voices, and breathing. Through application of the Alexander Technique, interfering habits of tension and personality are transformed for greater command over the physical and emotional instrument. Movement ease and coordination as well as improved posture are achieved through informed choices.
Prerequisites: Theatre Arts majors/minors only, consent of instructor.

THEA 320
Intermediate Scene Design
3 Semester Hours
This course examines the theory and practice of scene design and manipulation of stage space. Special emphasis is placed on the development of a point of view toward the production of the play as related to all aspects of theatrical design.
Prerequisite: Consent of instructor.

THEA 321
Intermediate Lighting Design
3 Semester Hours
This course examines the theory and practice of lighting design. The core of this course is a series of discovery projects using minimal resources, to explore the use of light in the theatre. Through this exploration, students will discover a variety of approaches to developing a successful lighting design.
Prerequisite: Consent of instructor.

THEA 322
Intermediate Costume Design and Construction
3 Semester Hours
This course examines the craft of designing, planning, and constructing costumes, including beginning pattern-drafting.
Prerequisite: Consent of instructor.

THEA 324
Intermediate Technical Theatre
3 Semester Hours
This course illustrates the array of accepted responsibilities that are needed to operate a scene shop efficiently. Construction techniques, drafting, problem solving, estimating, and scheduling are among a few topics covered.
Prerequisite: Consent of instructor.

THEA 331
Classical Spirit in Drama
3 Semester Hours
An exploration of the classical drama throughout major periods.

THEA 336
Romantic Spirit in Drama
3 Semester Hours
An exploration of the romantic drama throughout major periods.

</table>
THEA 422
Advanced Costume Design
3 Semester Hours

Advanced study in theatre costume construction including pattern-making, advanced sewing techniques, and millinery.

Prerequisite: THEA 322 or consent of instructor.

THEA 425
Scene Painting
3 Semester Hours

This course is a guide to the tools and techniques used in modern scene painting.

Prerequisite: Consent of instructor.

THEA 426
Advanced Scene and Lighting Design
3 Semester Hours

This course is an advanced study of scene design and lighting design for the theatre with emphasis on their roles as creative members of a collaborative team.

Prerequisites: THEA 320 and 321.

THEA 430
Special Author/Genre Seminar
3 Semester Hours

Study of Shakespeare or other topics in selected authors and/or dramatic genres. May be repeated only when a different genre and/or author is studied.

THEA 435
Special Period Seminar
3 Semester Hours

Study of 20th Century American Drama, American Drama through the 19th Century, Modern British Playwrights, 17th and 18th Century Comedy, or other topics in theatre history. May be repeated only when a different topic and/or period is studied.

THEA 450
Theatre Practicum: Crew
3 Semester Hours

Participation in production in Theatre and Dance presentations. May be repeated for credit up to 9 semester hours.

Prerequisites: THEA 260, Theatre Arts majors/minors only.

THEA 451
Theatre Practicum: Performance
1-3 Semester Hours

Participation in performance in Theatre presentations. May be repeated for credit up to 9 semester hours.

Prerequisite: By audition.

THEA 452
Advanced Workshop: Playwrights and Actors
1-3 Semester Hours

The development of new scripts through several possible stages of interaction between actors and writers, leading to staged readings and/or workshop productions. May be repeated for credit up to 9 semester hours.

Prerequisites: Theatre Arts majors/minors only, consent of instructor.

THEA 461
Acting: Special Genre
3 Semester Hours

Acting techniques and style for particular genres such as musical theatre, Shakespeare, Molière, and ancient Greek drama.

May be repeated for credit up to 3 times as long as course content differs.

Prerequisites: Theatre Arts majors/minors only, consent of instructor.

THEA 463
Acting: Auditions and Cold Reading
3 Semester Hours

This course is structured to give the advanced actor practical experience learning the techniques and developing the effective skills for the interview and cold reading process in order to get professional work. Students will develop an effective and organized business approach toward their careers by learning how to market their talent, acquire an effective headshot, and organize a professional resume for the auditioning process.

Prerequisites: Theatre Arts majors/minors only, consent of instructor.
THEA 467
Career Development
3 Semester Hours

A course in the how-to’s of getting professional work in theatre, television, and film. Visits with agents and casting directors, the development of a professional portfolio, and a professional showcase are aspects of the course.

Prerequisites: Theatre Arts majors/minors only, consent of chairperson and instructor.

THEA 490
Senior Thesis: Project
3 Semester Hours

Preparation and presentation of performance or research thesis.

Prerequisites: Theatre Arts majors only, consent of instructor.

THEA 498
Special Studies
1-3 Semester Hours

THEA 499
Independent Studies
1-3 Semester Hours
Frank R. Seaver College of Science and Engineering
Frank R. Seaver College of Science and Engineering

Administration
Dean: Richard G. Plumb
Associate Deans: James M. Landry, Jeff Sanny
Graduate Director: Joseph C. Reichenberger

College Mission Statement
The Frank R. Seaver College of Science and Engineering is dedicated to providing outstanding educational opportunities in science, engineering, and mathematics in a mentoring environment to an increasingly diverse student body. The College emphasizes development of the whole person through its focus on ethical behavior and service to society.

College Goals
Particularly applicable to the College are these goals: (1) to develop in the student the understanding that education is a self-discipline, and to place a greater responsibility for learning on the individual, (2) to integrate ethics into the curriculum in order to develop personal and professional integrity, (3) to help the student to become cognizant of the changing needs of humankind while interpreting and implementing the ever-increasing body of knowledge, (4) to encourage the student to recognize the wide applicability of scientific, engineering, and mathematical methods and to become skillful in their use, (5) to prepare the student for a world of accelerating scientific and technological change, (6) to impress upon the student that education must be a continuous process throughout one's professional career, and (7) to enable the Loyola Marymount graduate, through theological and philosophical studies, to make absolute and genuinely intellectual decisions and commitments about truth as it exists in the world and about one's own nature as a human being.

Programs
The College offers degree programs in Applied Mathematics, Athletic Training, Biochemistry, Biology, Chemistry, Civil Engineering, Computer Science, Electrical Engineering, Engineering Physics, Environmental Science, Individualized Studies, Mathematics, Mechanical Engineering, Natural Science, Physics, and Systems Engineering. Frank R. Seaver College of Science and Engineering faculty also teach the math, science and technology component of the University core curriculum.

Courses numbered from 260-279 are designed specifically to meet the University core requirements in math, science and technology for students not majoring within the College. With the exception of MATH 101, other lower-division courses in the College may also satisfy University core requirements. Check with your Dean's office.

Application of General University Requirements
The University requirements for admission and graduation and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the Frank R. Seaver College of Science and Engineering.

Degrees Offered
Bachelor of Arts in: Biology and Mathematics
Bachelor of Science in Engineering in: Civil, Electrical, and Mechanical Engineering
Bachelor of Science in: Applied Mathematics, Athletic Training, Biochemistry, Biology, Chemistry, Computer Science, Engineering Physics, Environmental Science, Individualized Studies, Mathematics, Natural Science, and Physics
Master of Arts in Teaching in: Mathematics
Master of Science in Engineering in: Civil, Electrical, and Mechanical Engineering
Master of Science in: Computer Science, Environmental Science, and Systems Engineering
Teacher Preparation Programs in Biology, Chemistry, and Mathematics

The College offers subject matter preparation programs in mathematics and in science specifically designed to meet State of California subject matter requirements for a secondary teaching credential. Both the Bachelor of Arts degree in Mathematics (see the Mathematics section) and the Bachelor of Science degree in Natural Science following the secondary science emphasis in either Biology or Chemistry (see the Natural Science section) are designed to allow completion of the 2042 California Preliminary Single Subject (Secondary) credential in four years, although this may require some summer coursework. These programs are offered in conjunction with the School of Education. The College also offers courses in mathematics and science to support the multiple subject credential program for teaching elementary school (see the Liberal Studies section in the Liberal Arts part of the Bulletin).

All students interested in teaching mathematics or science at the secondary level should inform their departmental advisors as soon as possible and should also contact the School of Education to arrange a time to attend an Undergraduate Information Session.

The Center for Student Success in Science and Engineering

The Center for Student Success in Science and Engineering is designed to provide a wide range of services and special activities aimed at enhancing students’ academic performance and career potential. The services provided include career workshops, counseling on summer jobs and research internships, counseling on graduate and health professional schools, Academic Excellence Workshops, support for science and engineering clubs, and community outreach to local high schools, including a science and engineering summer camp. For more information about the Center for Student Success in Science and Engineering, contact Barbara A. Christie, Ph.D., Director, at (310) 258-8647 or bchristie@lmu.edu.

Core Curriculum

Students in the Frank R. Seaver College of Science and Engineering will follow core curriculum A, B, or C below, depending on degree plan.

Note: Engineering and Engineering Physics students should follow Core Curriculum B.

A. Core Curriculum for the Bachelor of Science Degree

American Cultures

3 Semester Hours

Course Selection

First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing

3 Semester Hours

Course Selection

ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking

3 Semester Hours

Course Selection

Communication:

Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:

Choose from CMST 206 or PHIL 220.

Critical/Creative Arts

3 Semester Hours

Course Selection

Choose from ANIM 120; ART 150, 250, 350; DANC 163; MUSC 105, 106; THEA 110, 400.
History
3 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization.

Western Civilization:
Choose from HIST 100 or 101.

Literature
3 Semester Hours

Course Selection
Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology
18 Semester Hours

Course Selection
This requirement is met by the curriculum of the major.

Philosophy
6 Semester Hours

Course Selection
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose one course from PHIL 320 through 330.

Social Sciences
6 Semester Hours

Student must select one of the following options:

1. Select two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies
6 Semester Hours

Course Selection
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose from the 300-level series of THST courses only.

Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: CLCV 200, 210, 220; FNLT 180; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: GEOG 100; POLS 155; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.
International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad Office.

B. Core Curriculum for the Bachelor of Science in Engineering or the Bachelor of Science in Engineering Physics Degree

American Cultures
3 Semester Hours
Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad Office.

C. Core Curriculum for the Bachelor of Arts Degree

American Cultures
3 Semester Hours

Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours

Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay administered in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.

Communication or Critical Thinking
3 Semester Hours

Course Selection
Communication:
Choose from CMST 100, 110, 130, or 140.

OR Critical Thinking:
Choose from CMST 206 or PHIL 220.
Critical/Creative Arts
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts:
Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; FTVS 210, 314, 315; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Creative Arts:
Choose from ANIM 120; ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 311 (Prerequisite 201), 312 (Prerequisite 202); MUSC 105, 106, 107; PROD 100; SCWR 10; THEA 110, 400.

History
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization:
Choose from HIST 100 or 101.

Contemporary Societies:
Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection
Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Prerequisite: Successful completion of college writing requirement.

Mathematics, Science and Technology
18 Semester Hours

Course Selection
This requirement is met by the curriculum of the major.

Philosophy
6 Semester Hours

Course Selection
Lower Division:
Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose one course from PHIL 320 through 330.

Social Sciences
6 Semester Hours

Student must select one of the following options:
1. Select two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies
6 Semester Hours

Course Selection
Lower Division:
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:
Choose from the 300-level series of THST courses only.
Note: International/Global Studies

The current core curriculum includes many courses dealing with international and global studies. All students are required to complete History 100 or 101, which deal with European culture. In addition, it is recommended that students take additional core courses which include the study of European cultures such as: ARHS 200, 201, 202; CLCV 200, 210, 220; DANC 281; FTVS 314; FNLT 180; MUSC 102; THEA 240, 245, 331, 336, 341; THST 320, 322, 331.

To further augment the understanding of world cultures, it is recommended that students also choose at least one core course that includes the study of Africa, Asia, the Pacific, or Latin/Indigenous America. These core courses include: ARHS 321; DANC 381; GEOG 100; HIST 172, 182; MUSC 303, 365; POLS 158; SOCL 105; THEA 348; THST 180, 381, 382, 383, 384, 385.

Recommendations

Students are encouraged to enrich their program of study with selected electives from the following areas. Consult the Bulletin for specific offerings.

Business
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad
A semester of international study abroad is also recommended. Consult the Study Abroad Office.
Biology

Faculty

Chairperson: Roy S. Houston
Professors: Michael Danciger, Roy S. Houston, Anthony P. Smulders, CFMM, John P. Waggoner III
Associate Professors: Philippa M. Drennan, Gary Kuleck, M. Catharine McElwain, Martin Ramirez
Assistant Professors: Wendy J. Binder, Kam D. Dahlquist, Michelle R. Lum, Carl R. Urbinati

The mission of the Biology Department is to promote an appreciation for and understanding of the science of biology in our students. The particular objectives of the Biology Department are to: (1) provide students with a broad background in the biological sciences; (2) enable students to master the essential concepts of biology; (3) develop students’ ability to think critically about scientific information and solve scientific problems; (4) enable students to articulate ideas and present information in both written and oral forms in a clear, organized fashion; (5) teach students the skills of both field and laboratory biology, and enable them to participate directly in the scientific discovery process; (6) facilitate students’ independent exploration of career opportunities; and (7) participate in the University’s effort to educate nonscience majors in the areas of science and technology.

The B.S. in Biology

The B.S. in Biology degree prepares students for a variety of careers following graduation. Substantial numbers of students go on to health professional schools to study medicine, dentistry, pharmacy, optometry, podiatric medicine, and veterinary medicine. Other students go on to various graduate programs in the basic biological sciences (e.g., physiology, genetics, molecular biology, immunology, microbiology, marine biology, ecology, etc.), college teaching, and positions in industry and in research and development.

The B.S. in Biology program provides for the opportunity to double major in Biology-Chemistry, Biology-Physics, Biology-Mathematics, Biology-Engineering, and Biology-Psychology. A special option is available in Marine Biology.

Major Requirements, Lower Division: for the B.S. in Biology

BIOL 101*, 10*, 111*, 11*, 01*, 0*; CHEM 110*, 111*, 11*, 113*, 0, 1, 3; MATH 1*, 13 (MATH 131, 13 may be substituted for MATH 1, 13); PHYS 53, 54.

* A student must complete with a C (2.0) average the lower division requirements indicated by asterisks, including a C (2.0) average in BIOL 101, 102, 111, 112, 201, and 202, prior to becoming eligible to take any upper division biology course.

The B.A. in Biology

The B.A. in Biology degree is a general liberal arts and sciences program. The core curriculum for the B.A. in Biology is identical to that of the Bellarmine College of Liberal Arts except no additional core Mathematics, Science and Technology courses are required. The B.A. will allow for a double major with other liberal arts programs. Preprofessional students should select the program leading to the B.S. degree.

Major Requirements, Lower Division: for the B.A. in Biology

BIOL 101*, 10*, 111*, 112*, 201*, 202*; CHEM 110*, 111*, 112*, 113*, 220, 6 semester hours of mathematics to include MATH 122*, plus 3.0 additional semester hours in science to be approved by the Department Chairperson.

* A student must complete with a C (2.0) average the courses indicated with an asterisk, including a C (2.0) average in BIOL 101, 102, 111, 112, 201, 202, prior to becoming eligible to take any upper division biology course.

Major Requirements, Upper Division: (both B.S. and B.A. in Biology)

27 (B.S.) or 24 (B.A.) upper division semester hours in Biology, to be selected from the groups listed below, and to include at least 4 laboratory courses.

(a) One course in Cell/Organism Function, to be selected from BIOL 351, 353, 355, 356, 357, 371.

(b) One course in Molecular Biology, to be selected from BIOL 330, 437, 439, 443, 478, 479.

(c) One course in Organismal Diversity, to be selected from BIOL 312, 328, 329, 333, 334, 335, 338, 361, 421, 422.

(d) One course in Populations, to be selected from BIOL 315, 316, 318, 328, 329, 338, 422, 475, 477.

Note: BIOL 328, 329, or 422 can satisfy only (c) or (d).

(e) One 2 semester hour seminar or research course.
(f) 3 (B.S.) or 2 (B.A.) additional upper division biology courses.

(g) The above requirements must also include one plant biology course to be selected from BIOL 312, 315, 353, 371, 437, and one field biology course to be selected from BIOL 312, 318 plus 319, 328, 329, 333, 338, 380, 381, 421, 422, (BIOL 312 can satisfy only one of these two categories).

In addition to the 27 or 24 required semester hours, upper division biology courses may be taken as electives. Students preparing for specific graduate careers should discuss appropriate courses with their advisors.

To graduate as a biology major, a student must accumulate a C (2.0) average in all major requirements.

**Minor Requirements**

BIOL 101, 102, 111, 112, 201, and 202; CHEM 110 and 112; plus 7 semester hours in upper division BIOL courses. The upper division courses for the minor must be selected under the direction of the Chairperson of the Department.

An average grade of C (2.0) must be accumulated in all lower division requirements prior to taking upper division courses. An average grade of C (2.0) must also be accumulated in all upper division courses included in the minor.

* The course sequence in Mathematics depends on the results of the Mathematics Placement Exam.

Students who have completed MATH 123 or 132 may begin the physics sequence in the Fall semester of either the sophomore or junior year.

The sequence of the University Core courses should be discussed with the student’s advisor.

Tropical Marine Ecology  
*3 Semester Hours*  
Field studies of the tropical marine habitats on Isla Roatán, Honduras. This includes the examination of physical, chemical, and ecological aspects as applied to coral reefs, mangroves, seagrass beds, and intertidal communities.  
Summer only—Study Abroad Program.  
Prerequisites: BIOL 101, 102; CHEM 110, 112. Open water SCUBA certification highly recommended.

**BIOL 329**  
Marine Ecology of Baja, California  
*3 Semester Hours*  
Field studies of subtropical, intertidal, and subtidal habitats along the coasts of Baja, California peninsula.  
Emphasis on community structure.  
Summer only. Entire course held at the LMU Baja, California Biological Station.  
Prerequisites: BIOL 102, 111; CHEM 110, 112.

**BIOL 330**  
Embryology and Development  
*4 Semester Hours*  
The development of chordates with emphasis on experimental embryology and underlying molecular mechanisms.  
Lecture, 3 hours; Laboratory, 4 hours.  
Prerequisites: BIOL 202; CHEM 222, 223.

**BIOL 333**  
Biology of Mammals  
*4 Semester Hours*  
Examination of physical, physiological, and ecological characteristics of mammals, including taxonomic relationships, feeding and reproductive strategies, and local and world distribution of mammalian orders and families.  
Lecture, 3 hours; Laboratory, 4 hours; Weekend field trips.  
For majors only.  
Prerequisites: BIOL 102; CHEM 110, 112.

**BIOL 334**  
Invertebrate Zoology  
*4 Semester Hours*  
A study of the anatomy, physiology, behavior, and ecology of invertebrates and the evolutionary relationships within and among the invertebrate phyla.  
Lecture, 3 hours; Laboratory, 4 hours.  
Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

**BIOL 335**  
Comparative Anatomy  
*4 Semester Hours*  
A comparative study of the vertebrate structures and their significance in terms of their evolution and function.  
Lecture, 3 hours; Laboratory, 4 hours.  
Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 112.

**BIOL 338**  
Animal Behavior  
*4 Semester Hours*  
Study of the evolutionary aspects of behavioral ecology including foraging strategies, social competition, communication, sexual selection, mating systems, cooperation, and social organization.  
Lecture, 3 hours; Laboratory, 4 hours.  
Prerequisite: BIOL 102.

**BIOL 351**  
General Physiology  
*3 Semester Hours*  
Introduction to physiological principles and concepts with emphasis on organ systems.  
Prerequisite: BIOL 201.
BIOL 352
Physiology Laboratory
1 Semester Hour

Laboratory experiments in physiology.
Laboratory, 4 hours; Data analysis, 1 hour.
Prerequisite: BIOL 351 or 356 or 357, or concurrent enrollment.

BIOL 353
Plant Physiology
3 Semester Hours

Introduction to plant function, including photosynthesis, mineral nutrition, water relations, metabolism, and growth processes.
Prerequisites: BIOL 01; CHEM 220, 221; MATH 122 or 131.

BIOL 354
Plant Physiology Laboratory
1 Semester Hour

Laboratory experiments in plant physiology.
Laboratory, 4 hours.
Prerequisite: BIOL 353 or concurrent enrollment.

BIOL 355
Physiology of Drugs
3 Semester Hours

A study of the absorption, distribution, action, biotransformation, and elimination of drugs. An introduction to the pharmacology of certain drugs.
Prerequisites: BIOL 202; CHEM 222, 223.

BIOL 356
Cell Biology
3 Semester Hours

A detailed study of subcellular organelles, including their origin, function, and regulation within the cell.
Prerequisites: BIOL 202; CHEM 222, 223.

BIOL 357
Comparative Animal Physiology
3 Semester Hours

A study of the different strategies utilized by various organisms to deal with problems of oxygen supply, temperature, water, salt balance, etc. Emphasis is on the vertebrates.
Prerequisites: BIOL 102, 201; CHEM 110, 112.

BIOL 359
Cell Biology Lab
1 Semester Hour

Laboratory experiments in cell biology.
Laboratory, 4 hours.
Prerequisites: BIOL 201 and CHEM 220.

BIOL 361
General Microbiology
3 Semester Hours

Properties and ecology of viruses, bacteria, and protists; principles of genetics and physiology of bacteria; pathogenesis of bacteria and viruses; microbes as tools for molecular biology.
Prerequisites: BIOL 202; CHEM 220.

BIOL 362
General Microbiology Laboratory
1 Semester Hour

Laboratory experiments in general microbiology.
Laboratory, 4 hours.
Prerequisite: BIOL 361 or concurrent enrollment.

BIOL 371
Plant Biochemistry
3 Semester Hours

Primary and secondary biosynthesis of plants; photosynthesis; nutrient acquisition and transport; plant pathogen/predator defense mechanism. Integration of these processes into an overall biochemical strategy.
Prerequisites: BIOL 201; CHEM 110, 112.

BIOL 375
Advanced Genetics
3 Semester Hours

Topics in genetics including both meiotic and mitotic recombination, quantitative genetics, gene structure, genetic control, and gene therapy.
Lecture, 3 hours.
Prerequisites: BIOL 202; CHEM 222, 223.
BIOL 376
Genetics Laboratory
1 Semester Hour

Laboratory experiments in genetics.
Laboratory, 4 hours.
Prerequisites: BIOL 202; CHEM 110, 112.

BIOL 380
Tropical Marine Ecology Laboratory
1 Semester Hour

Requires consent of instructor.

BIOL 381
Baja Marine Ecology Laboratory
1 Semester Hour

Requires consent of instructor.

BIOL 394
Independent Research
0-4 Semester Hours

Independent research in a faculty laboratory.

BIOL 395
Biology Internship
1-2 Semester Hours

Work experience involving research, industry-, or community-based projects. May be taken only once for credit.
CR/NC only.

BIOL 398
Special Studies
1-4 Semester Hours

BIOL 399
Independent Studies
1-4 Semester Hours

BIOL 422
Marine Biology
4 Semester Hours

Study of the marine environment, including physical, chemical, and biological aspects as applied to littoral, deep sea, and pelagic organisms.
Lecture, 3 hours; Laboratory, 4 hours.
Prerequisites: BIOL 102, 112; CHEM 110, 112.

BIOL 433
Histology
3 Semester Hours

The structure and function of human tissue types including basic histological techniques.
Prerequisites: BIOL 102, 112; CHEM 110, 112.

BIOL 437
Plant Development
3 Semester Hours

Biochemical, molecular, and genetic approaches to the study of pattern and tissue formation, embryogenesis, germination, flowering, photosynthesis, and plantmicrobe interaction.
Prerequisites: BIOL 202; CHEM 222, 223 or concurrent enrollment.

BIOL 438
Plant Development Laboratory
1 Semester Hour

Laboratory experiments in plant developmental biology.
Laboratory, 4 hours.
Prerequisite: BIOL 437 or concurrent enrollment.

BIOL 439
Molecular Biology Applications
4 Semester Hours

The application of the techniques employed in molecular biology to the study of inherited diseases, genetic engineering, infectious diseases, cancer, and gene therapy.
Lecture, 2 hours; Laboratory, 6 hours.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 443
Molecular Biology
3 Semester Hours

Study of properties, synthesis, and interactions of macromolecules; genetic engineering.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 445
Endocrinology
3 Semester Hours

The study of the production, functions, and interactions of hormones and other chemical messengers involved in the integration of the living organism.
Prerequisites: BIOL 202 and CHEM 220.
BIOL 449
Immunology
3 Semester Hours
The study of the immune response mechanisms in the vertebrate organism, with special reference to humans.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 461
Microbial Genetics
3 Semester Hours
Mechanisms of inheritance and the regulation of gene expression in bacteria and viruses. Viral interactions with higher eukaryotes.
Prerequisites: BIOL 202; CHEM 222, 223 or concurrent enrollment.

BIOL 474
Principles of Evolution
3 Semester Hours
Study of the pattern and process of evolution. Topics include the development of theories of evolutionary change; the mechanisms of evolutionary change at the population (micro) level; and evolution at the macro level, focusing on speciation, phylogenetic analysis, historical biogeography, and extinctions.
Lecture, 3 hours.
Prerequisites: BIOL 101, 102, 111, 201, 202.

BIOL 475
Evolution
4 Semester Hours
Study of the pattern and process of evolution. Topics include the development of theories of evolutionary change; the mechanisms of evolutionary change at the population (micro) level; and evolution at the macro level, focusing on speciation, phylogenetic analysis, historical biogeography, and extinctions.
Lecture, 3 hours; Laboratory, 4 hours.
Prerequisites: BIOL 101, 102, 112, 201, 202.

BIOL 477
Conservation Genetics
4 Semester Hours
Survey of the major topics in conservation genetics. Basic models of population genetics and topics relevant to conservation genetics, such as population structure, inbreeding, genetic load, genetic variation, reserve design, and the ethical, moral, and political aspects of species conservation.
Lecture, 3 hours; Laboratory, 4 hours.
Prerequisites: BIOL 101, 102, 202.

BIOL 478
Molecular Biology of the Genome
4 Semester Hours
Advances in understanding cellular processes, gene expression, and the structure and function of macromolecules due to The Human Genome Project and associated new high-throughput technologies. Use of systems biology perspectives and bioinformatics tools to answer biological questions. May include: functional genomics, sequence alignment and phylogeny, comparative genomics, and biological pathways and networks.
Lecture, 2 hours; Laboratory, 6 hours.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 479
Molecular Mechanisms of Disease
3 Semester Hours
Analysis of the molecular mechanisms which underlie the pathology of genetic and infectious diseases. Particular attention paid to molecular mechanisms of disease treatment and experimental analysis in the field of human molecular genetics.
Prerequisites: BIOL 202 and CHEM 220.

BIOL 490
Biological Teaching
1-2 Semester Hours
Guided teaching of undergraduate laboratories.
May be repeated for credit.
Requires consent of instructor.

BIOL 494
Independent Research
0-4 Semester Hours
Independent research in a faculty laboratory.
BIOL 498  
Special Studies  
1-4 Semester Hours

BIOL 499  
Independent Studies  
1-4 Semester Hours

All 500-level courses require consent of instructor.

BIOL 522  
Marine Biology Research  
2 Semester Hours

An introduction to marine biology research techniques and basic marine ecosystems.

Requires consent of instructor.

BIOL 523  
Scientific Diving  
2 Semester Hours

Introduction to scientific diving, including studies of benthic populations and communities using line and belt transects, plot sampling methods, and fish survey techniques. The design, data collection, and analysis will be from local submarine coastal habitats. The class will also cover fundamentals of dive physics and physiology, first aid, CPR, oxygen administration, and dive tables.

Requires consent of instructor and basic open water SCUBA certification.

BIOL 525  
Subtidal Ecology Seminar  
2 Semester Hours

An introduction to the ecology of subtidal systems including coral reefs, kelp forests, hard and soft bottoms, deep sea and pelagic communities.

Requires consent of instructor.

BIOL 527  
Benthic Ecology Research  
2 Semester Hours

An introduction to underwater research techniques and studies of soft and hard bottom communities.

Requires consent of instructor.

Prerequisite: Basic open water SCUBA certification.

BIOL 528  
Invertebrate Conservation Research  
2 Semester Hours

Participation in research on topics in invertebrate conservation biology. Research may include ecological and/or genetic approaches and methodologies.

Requires consent of instructor.

BIOL 531  
Developmental Genetics Research  
2 Semester Hours

Investigation through original literature and laboratory experience of the ways in which genes direct development.

Requires consent of instructor.

Prerequisites: BIOL 394, 494, or 594.

BIOL 532  
Drosophila Genetics Research  
2 Semester Hours

An introduction to the use of drosophila as a research tool in classical and molecular genetics.

Requires consent of instructor.

Prerequisite: CHEM 220.

BIOL 536  
Functional Morphology Research  
1-2 Semester Hours

Participation in original research investigating the functional aspects of morphology and development in carnivorous mammals.

Requires consent of instructor.

BIOL 546  
Physiology of Drugs Seminar  
2 Semester Hours

An introduction into the pharmacology of certain drugs, their absorption, metabolism, use, misuse, abuse.

Requires consent of instructor.

BIOL 561  
Bioinformatics and Genomics Research  
2 Semester Hours

Investigation of the systems-level properties of biological pathways and networks. Research may include bioinformatics and/or functional genomics techniques.

Requires consent of instructor.
BIOL 563
Molecular Genetics Research
2 Semester Hours

Laboratory work in gene mapping and gene isolation.
Requires consent of instructor.

BIOL 564
Vision Genetics Research
2 Semester Hours

Research on the influence of genetic background and modifier genes on the course of inherited and age-related retinal degenerations.
Requires consent of instructor.

BIOL 565
Plant Developmental Biology Research
2 Semester Hours

Laboratory work in molecular and genetic analysis of plant development.
Requires consent of instructor.

BIOL 566
Plant Research
2 Semester Hours

Participation in laboratory and/or field research on the ecophysiological response of plants to environmental extremes.
Requires consent of instructor.

BIOL 569
Ethnobotany Seminar
2 Semester Hours

An introduction to the mutual relationships between plants and traditional peoples with an emphasis on phyto medicines and sustainability.
Requires consent of instructor.

BIOL 571
Conservation Biology Seminar
2 Semester Hours

A survey of topics relating to the conservation of animals and plants, including extinction, genetic aspects, demography, insularization, threats to biodiversity, economics and politics, religious and ethical perspectives, and practical applications.
Requires consent of instructor.

BIOL 585
Issues in Biotechnology Seminar
2 Semester Hours

An interdisciplinary seminar series bringing together faculty from different disciplines to present and discuss topics in biotechnology. Examples include sustainable agriculture, advances in medicine and biotechnology, legal and ethical considerations and biotechnology, the environment and biotechnology, the manipulation of biological machinery (proteins), the fusion of engineering and biotechnology (nanotechnology), the business of biotechnology.
Requires consent of instructor.

BIOL 586
Molecular Cell Biology Research
2 Semester Hours

Independent laboratory research examining questions pertaining to gene expression, including ribosome biogenesis and mRNA transport/localization, utilizing techniques of molecular and cell biology, biochemistry, and genetics.
Requires consent of instructor.

BIOL 587
Molecular Mechanisms in Development Seminar
2 Semester Hours

An exploration of current research utilizing molecular/genetic techniques to study developmental biology.
Requires consent of instructor.

BIOL 594
Independent Research
0-4 Semester Hours

Independent research in a faculty laboratory. Results must be presented formally.

BIOL 598
Special Studies
1-3 Semester Hours

Requires consent of instructor.

BIOL 599
Independent Studies
1-3 Semester Hours

Requires consent of instructor.
Chemistry and Biochemistry

Faculty
Chairperson: James A. Roe
Professors: William F. Cain, S.J., S.W. Tina Choe, Rebecca D. Crawford, James M. Landry, James A. Roe
Associate Professor: Thomas J. Reilly
Assistant Professors: Lambert A. Doezema, Jeremy E.B. McCallum, David A. Moffet
Clinical Faculty: Gary M. Landers

Chemistry and biochemistry are empirical sciences. In addition to intellectual mastery of the disciplines, the major programs also develop practical experimental skills. The LMU student obtains “hands on” experience, both in traditional synthetic and analytic bench chemistry, and with all the major contemporary methods and techniques, taking advantage of the department's complete instrumentation. This equipment includes preparative, separative, thermal analysis, and spectroscopic instruments. Besides ordinary laboratory apparatus, the student will have the opportunity to work with a high speed centrifuge, HPLC, GC, GC-MS, DSC, FT-IR, UV-Vis, flame and furnace AA, fluorometer, and FT-NMR.

Because of the complex and sensitive nature of the equipment and techniques of chemistry and biochemistry, continued participation in the programs is contingent on appropriate development of the ability to work maturely and responsibly in the laboratory.

Chemistry
Objectives
The Bachelor of Science degree program, approved by the Committee on Professional Training of the American Chemical Society, is designed to prepare the student not only for immediate entry into the profession of chemistry at the Bachelor’s level but also for graduate study toward advanced degrees. It is also an excellent preparation for entry into medical, dental, and other health professional schools.

Major Requirements
Lower Division Requirements: Chemistry

CHEM 110, 111, 112, 113, 220, 221, 222, 223. A grade of at least C (2.0) is required in each of the above courses. CHEM 190; MATH 131 and 132; PHYS 101 and 201. With approval of the Chairperson, MATH 122 and 123; PHYS 253 and 254 may be substituted, as a complete package, for MATH 131 and 132; PHYS 101 and 201. Recommended elective: MATH 234.

An average of C (2.0) is required for the above MATH and PHYS courses.

Upper Division Requirements: Chemistry

34 upper division semester hours of chemistry, which will include CHEM 330, 340, 341, 342, 343, 360, 361, 370 or 376, 390, 391, 420, 421, 430, 431, 460, 461, 490, and 491, but not 495.

Except for CHEM 390 and 490, a grade of at least C (2.0) must be obtained in each course included in the upper division requirements of the major.

Strongly recommended for those intending graduate study: CHEM 399 or 499.

A maximum of 12 semester hours of Chemistry/Biochemistry Internship and/or Directed Research (CHEM 393, 399, 493, 499) may be included toward the 124-hour baccalaureate requirement.

Minor Requirements: Chemistry
CHEM 110, 111, 112, 113, 220, 221, 222, 223; plus a minimum of 7 upper division semester hours of CHEM courses including one upper division laboratory course. These must be selected under the direction of the Chairperson of the Department.

A grade of C (2.0) must be obtained in each course included in the minor.

No chemistry minor is available in conjunction with a biochemistry major. It is suggested that the student interested in in-depth study of both subjects should major in chemistry and minor in biochemistry.

Variances
Petitions for waivers of departmental requirements or prerequisites should be addressed to the Chairperson of the Department.

Biochemistry

Objectives
The Bachelor of Science in Biochemistry degree program is designed to prepare the student for a career in the intensively active biochemistry or chemical biology fields, seeking to understand the functions and intricate interactions of those molecules that give rise to the phenomenon of life. There are many opportunities either for immediate entry into the field or for further study at the graduate level. In addition, for qualified students, biochemistry is one of the best preparations for entry into health professional schools.

Major Requirements

Lower Division Requirements: Biochemistry

CHEM 110, 111, 112, 113, 220, 221, 222, and 223. A grade of at least C (2.0) is required in each of the above courses. BIOL 101, 111, 112, 201, and 202; CHEM 190; MATH 131 and 132; PHYS 101 and 201. With approval of the chairperson, MATH 122 and 123; PHYS 253 and 254 may be substituted, as a complete package, for MATH 131 and 132; PHYS 101 and 201.

An average of C (2.0) is required for the above BIOL, MATH, and PHYS courses.

Upper Division Requirements: Biochemistry

30 upper division semester hours of chemistry and biochemistry, which includes CHEM 340, 341, 346, 360, 361, 376, 377, 397, 379, 390, 391, 434, 480, 490, and 491, or other advanced biochemical elective, but not CHEM 495. Three upper division courses in biology which will include BIOL 356 and two others selected from BIOL 330, 351, 353, 361, 371, 343, 349, 443, 445, or 449. It is recommended that this selection include one laboratory course or one molecular biology course. An additional advanced biochemical elective may be taken in place of one of the upper division biology courses.

Except for CHEM 390 and 490, a grade of at least C (2.0) must be obtained in each course included in the upper division requirements of the major.

Strongly recommended for those intending graduate study: CHEM 399 or 499.

A maximum number of 12 semester hours of Chemistry/Biochemistry Internship and/or Directed Research (CHEM 393, 399, 493, 499) may be included toward the 124-hour baccalaureate requirement.

Minor Requirements: Biochemistry

BIOL 101, 111, 201; CHEM 110, 111, 112, 113, 220, 221, 222, 223, and 370 or 376; and 4 additional upper division semester hours selected from CHEM 377, 378, 379, or 480 or other advanced biochemical elective including one upper division laboratory course. These must be selected under the direction of the Chairperson of the Department.

A grade of C (2.0) must be obtained in each course included in the minor.

Variances

Petitions for waivers of departmental requirements or prerequisites should be addressed to the Chairperson of the Department.

### CHEM 110

**General Chemistry I**

3 Semester Hours

Atomic theory; chemical nomenclature; chemical equations and reactions; stoichiometry; properties of gases, solids, and liquids; electronic structure of atoms and periodic properties of the elements; covalent bonding and molecular geometry; solutions.

Lecture, 3 hours.

### CHEM 111

**General Chemistry I Lab**

1 Semester Hour

Basic chemical lab technique; conservation of mass; definite composition; molar masses; gravimetric and titrimetric analyses; redox chemistry.

Lecture and laboratory, 4 hours.

Prerequisite: CHEM 110 or concurrent enrollment.
CHEM 112  
**General Chemistry II**  
3 Semester Hours  

Chemical kinetics; thermodynamics; acids and bases; equilibria; electrochemistry, nuclear reactions; introduction to organic chemistry; selected additional topics.  

Lecture, 3 hours.  
Prerequisite: CHEM 110.

---

CHEM 113  
**General Chemistry II Lab**  
1 Semester Hour  

Chemical kinetics; equilibrium; complex ions; solubility; visible spectrophotometry; inorganic synthesis; crystallization, inorganic qualitative analysis.  

Lecture and laboratory, 4 hours.  
Prerequisite: CHEM 112 or concurrent enrollment.

---

CHEM 190  
**World of Chemistry and Biochemistry**  
1 Semester Hour  

Introduction to the Chemistry and Biochemistry program, faculty, staff, and the facilities. Students will have the opportunity to learn about the various research programs in the department. Students will also be introduced to various chemistry and biochemistry careers.  

Seminar, 2 hours.  
CR/NC Grading only.

---

CHEM 198  
**Special Studies: Chemistry Topics**  
0-3 Semester Hours  

---

CHEM 199  
**Independent Studies**  
0-3 Semester Hours  

---

CHEM 220  
**Organic Chemistry I**  
3 Semester Hours  

Introduction to the fundamental theories of organic chemistry; chemical properties, synthesis, and nomenclature of alkanes, alkenes, alkynes, cycloalkanes, aromatic hydrocarbons, and alkyl halides are covered.  

Lecture, 3 hours.  
Prerequisite: CHEM 112.

---

CHEM 221  
**Organic Chemistry I Lab**  
1 Semester Hour  

Introduction to the fundamental theories of organic chemistry; spectroscopy; chemical properties, synthesis, and nomenclature of alkanes, alkenes, alkynes, cycloalkanes, aromatic hydrocarbons, and alkyl halides are covered.  

Lecture and laboratory, 4 hours.  
Prerequisite: CHEM 220 or concurrent enrollment.

---

CHEM 222  
**Organic Chemistry II**  
3 Semester Hours  

Continuation of CHEM 220; students will be introduced to chemistry of alcohols, ethers, carbonyl compounds, amines, and carbohydrates.  

Lecture, 3 hours.  
Prerequisite: CHEM 220.

---

CHEM 223  
**Organic Chemistry II Lab**  
1 Semester Hour  

Continuation of CHEM 221; additional laboratory experience in synthesis of organic compounds.  

Lecture and laboratory, 4 hours.  
Prerequisite: CHEM 222 or concurrent enrollment.

---

CHEM 261  
**The Science in Science Fiction**  
3 Semester Hours  

The physics, chemistry, and biology found in science fiction literature, examined for accuracy and probability. Topics include the physics of space and space habitats, the chemistry and biology of life arising under nonearthlike conditions, and the ecology of imagined worlds. “Engineering” new worlds on the basis of sound scientific theory will be expected. Understanding of physical implications of simple algebraic expressions is required.  

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

CHEM 350  
*Geochemistry*  
3 Semester Hours  

Lecture, 3 hours.  
Prerequisites: CHEM 112 and 113.

---

CHEM 360  
*Analytical Chemistry*  
4 Semester Hours  

Theory and practice of chemical analyses. Statistical analyses in chemistry. Introduction to spectroscopy.  

Lecture, 2 hours.  
Prerequisites: CHEM 112 and 113.  
Corequisite: CHEM 361.

---

CHEM 361  
*Analytical Chemistry Lab*  
0 Semester Hours  

Calibration of glassware, analysis of selected unknown samples by volumetric and gravimetric methods, instrumental analysis using UV-visible spectroscopy.  

Laboratory, 6 hours.  
Corequisite: CHEM 360.

---

CHEM 370  
*Introduction to Biochemistry*  
3 Semester Hours  

Fundamentals of macromolecular structure, function, and central metabolic pathways as well as nucleic acid metabolism.  

Chemistry and other non-biochemistry majors. This course is designed to meet the needs of students requiring a one-semester biochemistry course for health professions schools. Not available for credit with CHEM 376 or CHEM 378.  

Lecture, 3 hours.  
Prerequisites: CHEM 222 and 223.

---

CHEM 376  
*Biochemistry I*  
3 Semester Hours  

Macromolecular structure and function; enzymology; bioenergetics and kinetics; biotechnology; major metabolic pathways.  

Lecture, 3 hours.  
Prerequisites: CHEM 222 and 223.

---

CHEM 377  
*Biochemistry I Lab*  
1 Semester Hour  

Techniques of protein purification, enzyme assay, and kinetics.  

Lecture and laboratory, 4 hours.  
Prerequisite: CHEM 370 or 376 or concurrent enrollment.

---

CHEM 378  
*Biochemistry II*  
3 Semester Hours  

Metabolic regulation; macromolecular structure, function, and synthesis; membrane transport. DNA and RNA metabolism and control. Biochemistry of vitamins and other nutrients. Protein biosynthesis.  

Lecture, 3 hours.  
Prerequisite: CHEM 376.

---

CHEM 379  
*Biochemistry II Lab*  
1 Semester Hour  

Techniques in lipid and carbohydrate analysis; enzyme regulation; enzymes as diagnostic tools, restriction enzymes.  

Lecture and laboratory, 4 hours.  
Prerequisites: CHEM 377, 378 or concurrent enrollment.

---

CHEM 380  
*Forensic Chemistry*  
3 Semester Hours  

An introduction to the forensic sciences with an emphasis on chemistry. This course gives students an appreciation for the activities of a real forensic laboratory. Topics covered include basic analytical techniques, arson investigation, and fingerprint, drug, blood, and DNA analyses.  

Lecture, 3 hours.  
Prerequisites: CHEM 222, 223, and 360 or consent of instructor.
CHEM 390
Chemistry Seminar
1 Semester Hour
Regular attendance at Departmental Seminar Program.
CR/NC grading only.

CHEM 391
Chemistry Seminar
1 Semester Hour
Regular attendance at Departmental Seminar Program and presentation of a seminar.

CHEM 393
Chemistry/Biochemistry Internship
1-3 Semester Hours
Research/Development work conducted in a professional chemical setting in a local government or industrial laboratory. Work includes both theory and laboratory practice on a project designed cooperatively by the laboratory's supervisory staff and LMU faculty. The project is jointly supervised by on-site staff and LMU faculty.
May be repeated for credit up to 6 semester hours.

CHEM 398
Special Studies: Chemistry Topics
0-3 Semester Hours

CHEM 399
Independent Studies
1-3 Semester Hours

CHEM 420
Advanced Organic Chemistry
3 Semester Hours
Modern synthetic reactions, mechanisms and study of organic synthesis.
Lecture, 3 hours.
Prerequisites: CHEM 222, 223, 342, 343, 360, 460, 461.

CHEM 421
Advanced Organic Chemistry Lab
1 Semester Hour
Laboratory techniques for multi-step synthesis of organic compounds and analysis using spectroscopy.
Lecture and Laboratory, 4 hours.
Prerequisites: CHEM 222, 223, 342, 343, 360, 460, 461; CHEM 420 or concurrent enrollment.

CHEM 430
Advanced Inorganic Chemistry
3 Semester Hours
Chemical bonding treated from the viewpoints of valence bond, ligand field, and molecular orbital theories. Applied thermodynamics, kinetics, and acid-base concepts.
Lecture, 3 hours.
Prerequisites: CHEM 342 and 343.

CHEM 431
Advanced Inorganic Chemistry Lab
1 Semester Hour
Inorganic synthesis using special methods such as furnace, dry box, high vacuum, and electric discharge. Resolution of stereoisomers, and determination of magnetic susceptibility.
Lecture and laboratory, 4 hours.
Prerequisites: CHEM 360; CHEM 430 or concurrent enrollment.

CHEM 434
Bioinorganic Chemistry
3 Semester Hours
The study of the function and structure of metal ions in biology: the properties and spectroscopy of metal ions; metalloproteins; the interaction between metal ions and DNA or RNA; introduction of metal ions into biological systems as probes and as drugs.
Lecture, 3 hours.
Prerequisite: CHEM 370 or 376, or by consent of instructor.

CHEM 442
Physical Methods in Chemistry
3 Semester Hours
Development of physical methods of analysis incorporating elements of group theory and molecular orbital theory. Molecular spectroscopy; nuclear magnetic, electron paramagnetic, and nuclear quadrupole resonance spectroscopy; magnetism; Mossbauer spectroscopy; and X-ray spectroscopy.
Lecture, 3 hours.
Prerequisites: CHEM 342 and 460.
CHEM 460
Instrumental Analysis
4 Semester Hours

Theory of analytical methods including gas and liquid chromatography, atomic, molecular, nuclear magnetic resonance, and mass spectroscopy.

Lecture, 3 hours.

Prerequisites: CHEM 340 and 341 or concurrent enrollment and CHEM 360. Concurrent enrollment in CHEM 461.

CHEM 461
Instrumental Analysis Lab
0 Semester Hours

Laboratory in selected methods of modern instrumental analysis, including gas and liquid chromatography, atomic absorption spectroscopy, Fourier-transform infrared spectroscopy, nuclear magnetic resonance spectroscopy, laboratory computers.

Laboratory, 4 hours.

Prerequisites: CHEM 360 and concurrent enrollment in CHEM 460.

CHEM 474
Food Chemistry
3 Semester Hours

The chemistry involved in food preparation and development. Examples include flavorings, food additives, what happens when it is cooked, then eaten; nutritional aspects of foods, food supplements, preservation, food fads.

Prerequisite: CHEM 370 or 376.

CHEM 480
Medicinal Chemistry
3 Semester Hours

Chemical principles involved in design and formulation of drugs; their absorption, distribution, and elimination; and their interaction at possible active sites. Mechanism of action of specific groups of drugs are discussed.

Lecture, 3 hours.

Prerequisite: CHEM 370 or 376 or consent of instructor.

CHEM 491
Chemistry Seminar
1 Semester Hour

Regular attendance at Departmental Seminar Program and presentation of a seminar.

CHEM 493
Chemistry/Biochemistry Internship
1-3 Semester Hours

Research/Development work conducted in a professional chemical setting in a local government or industrial laboratory. Work includes both theory and laboratory practice on a project designed cooperatively by the laboratory’s supervisory staff and LMU faculty. The project is jointly supervised by on-site staff and LMU faculty.

May be repeated for credit up to 6 semester hours.

CHEM 495
Chemistry Teaching
0-1 Semester Hours

Guided teaching of the undergraduate laboratories. Credit/No Credit grading only. May be repeated for additional credit.

Prerequisite: Approval of Department Chairperson.

May be repeated for credit up to 8 semester hours.

CHEM 497
Introduction to Chemistry/Biochemistry Research
1 Semester Hour

May be repeated for credit up to 8 semester hours.

CHEM 498
Special Studies: Chemistry Topics
1-3 Semester Hours

CHEM 499
Independent Studies: Directed Research
1-3 Semester Hours

May be repeated for credit up to 6 semester hours.
Civil Engineering and Environmental Science

Faculty
Chairperson: William J. Trott*
Professors: Michael E. Manoogian*,
Joseph C. Reichenberger*, William J. Trott*
Assistant Professors: Rachel G. Adams, Jeremy S. Pal,
Jose A. Saez*
Adjunct Professors: Joseph Haworth*,
Donald Kowalewsky**
* Registered Professional Civil Engineer
** Certified Engineering Geologist and Registered Geologist

Description
The civil engineer applies scientific and economic principles to plan, design, and oversee a wide variety of public and private projects which improve the quality of life, protect the environment, and facilitate economic growth. These projects include roads and highways, railroads, mass transit systems, airports, bridges, buildings, structures, harbors, flood control and drainage works, water supply, treatment and distribution systems, wastewater treatment and reuse systems, irrigation systems, pipelines, and power plants.

The civil engineering curriculum emphasizes practicality and design, supported by a strong background in scientific and mathematical concepts. The program provides a broad background in all aspects of civil engineering, providing our graduates with the flexibility to practice in any of the specialties or to pursue an advanced degree. The program provides an opportunity to get hands-on experience with classes in surveying as well as laboratories in fluid mechanics, hydraulics, soil mechanics, mechanics of materials, structures, steel, and reinforced concrete design. Engineering design experiences are integrated throughout the curriculum beginning with the freshman engineering courses and extending through the last semester of the senior year. Design courses provide working experience with computer software used in the profession. Group and team projects prepare the student for real world engineering experiences.

The civil engineering student can select courses and electives that emphasize environmental engineering as described below.

Accreditation
The Civil Engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700.

Mission
The mission of the Department of Civil Engineering and Environmental Science is to provide opportunities for students to develop the skills and knowledge necessary to become productive professionals through a rigorous, student-centered curriculum that balances theory and practice, serving the needs of society by emphasizing sustainability and environmental justice and meets the challenges of an ever-changing, complex world through a dynamic engineering program combined with a comprehensive liberal arts core.

Objectives
The Civil Engineering program has established the following program educational objectives that are consistent with the mission of the University and that describe the expected accomplishments of graduates during the first several years following graduation. Civil Engineering program graduates will:

1) Be productive in the civil engineering profession or other professional fields;
2) Further develop their professional and technical skills through graduate studies and continuing education;
3) Be involved with civil engineering professional organizations;
4) Uphold the code of ethics of the profession and be cognizant of social justice issues in the practice of civil engineering; and
5) Exhibit leadership in the practice of civil engineering.

To accomplish these program educational objectives, analysis and design courses in the fields of environmental, geotechnical, hydraulic, structural, and water resources engineering are offered in addition to preparatory courses in oral and written communications, mathematics, sciences, and basic mechanics. A broad base of theory and design is provided along with discussion of current issues and practices of the profession. Through class assignments, students will become proficient in the use of computers and pertinent software, spreadsheets, presentations, drawing, and geographical information system (GIS) programs. Integrated with these courses is the University core curriculum.
Design in Civil Engineering

The civil engineering student participates in design projects throughout the curriculum both as an individual and as a member of a design team. The design experience varies in complexity as the student progresses through the program ending with the senior capstone design experience. Engineering design is the process of devising a system, component, or process to meet a specified need in an optimal manner. While the resulting design must stay within the appropriate specifications and constraints, consideration must also be given to economic, social, and environmental impacts and constructability. Accomplishing these varied goals requires creativity and involves considerable decision making. Many design projects are performed while part of a project team.

Environmental Engineering Emphasis within the Civil Engineering Major

(132 S.H.)

The civil engineering student may choose to take courses and electives emphasizing environmental engineering. Opportunities exist to take classes in aquatic chemistry; microbiology; air pollution control; and solid, hazardous, and industrial waste management.

Major Requirements

Lower Division Requirements:

- CHEM 110, 111; CIVL 200, 210, 230; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; MECH 251; PHYS 101, 201.

Upper Division Requirements:

- CIVL 302, 310, 315, 340, 395, 400, 406, 410, 411, 460; ENGR 300, 400; ELEC 313; ENVS 300, 320, 420, 510; Civil Engineering or Environmental Science Electives (8 semester hours).

## Civil Engineering

### CIVL 200
**Mechanics of Materials**
3 Semester Hours

Development of relationships between loads applied to an elastic body to stresses and deformations produced in the body, the relation between stresses and strains, approaches for finding necessary dimensions of a member with respect to material capabilities and design constraints.

Lecture, 3 hours.
Prerequisite: ENGR 200.

### CIVL 210
**Surveying and Mapping**
3 Semester Hours

Study of basic surveying and related computations for topographic surveys, horizontal and vertical curves, and the design of highways. The course will include computer aided design and geographic information systems (applications of AutoCAD to civil engineering design and fundamentals of GIS using ArcView).

Lecture, 2 hours; Laboratory, 4 hours.
Prerequisite: Sophomore standing.

### CIVL 230
**Particle Dynamics**
2 Semester Hours

Kinetics and kinematics of particles. Application of Newton’s laws, principles of work and energy, impulse and momentum.

Lecture, 2 hours.
Prerequisite: ENGR 200.

### CIVL 302
**Seismic Design of Structures**
3 Semester Hours

Free and forced vibration of discrete single and multiple degree of freedom systems, continuous systems, design for earthquake loading, application of the International Building Code to the seismic design of structures.

Lecture, 3 hours.
Prerequisite: CIVL 200.

### CIVL 305
**Structural Theory**
3 Semester Hours

Introduction to the International Building Code. Analysis of determinate and indeterminate deformable structures using classical methods and an introduction to computer methods of analysis.

Lecture, 3 hours.
Prerequisite: CIVL 200.

### CIVL 310
**Fluid Mechanics I**
3 Semester Hours

Properties of fluids, fluid statics, kinematics, energy, hydrodynamics, momentum and dynamic forces, steady flow of compressible and incompressible fluids.

Lecture, 3 hours.

### CIVL 315
**Fluid Mechanics II**
3 Semester Hours

A continuation of CIVL 310. Similarity and dimensional analysis, laboratory experiments with fluid flow phenomena, fluid measurements, pipe and open channel flow, forces on immersed bodies.

Lecture, 2 hours; Laboratory, 3 hours.
Prerequisite: CIVL 310.

### CIVL 340
**Analytical Methods in Civil Engineering I**
3 Semester Hours

Introduction to probability and statistics with an emphasis on techniques and applications useful in engineering.

Lecture, 3 hours.
Prerequisite: MATH 234.

### CIVL 395
**Engineering Economics and Decision Theory**
3 Semester Hours

The economic evaluation of engineering alternatives. Topics include: time value of money relationships, nominal and effective interest rates, present worth method, annual worth method, rate of return and incremental analysis, depreciation and income taxes, replacement analysis and benefit/cost analysis.

Lecture, 3 hours.
CIVL 400
Fundamentals of Water and Waste-Water Treatment
3 Semester Hours

Basic concepts of water quality management. Review of the chemical and biological basis for water and wastewater treatment and disposal.

Lecture, 3 hours.

Prerequisites: CIVL 310 and ENVS 320.

CIVL 406
Water Resources Planning and Design
3 Semester Hours

Flood control hydrology including rainfall, unit hydrographs, flood frequency analysis, and flood routing. Development of surface and groundwater supplies, reservoir yield and operation, determination of water requirements, analysis of water supply and distribution systems, including reservoirs and pump stations.

Lecture, 3 hours.

Prerequisite: CIVL 315.

CIVL 410
Soil Mechanics
4 Semester Hours

Physical and mechanical properties of soil, consolidation, settlement of structures, shear strength, analysis of earth pressures, bearing capacity, slope stability, flow through porous media, and open ended design problems.

Lecture, 3 hours; Laboratory, 3 hours.

Prerequisites: CIVL 200 and 310 and ENVS 300.

CIVL 411
Design of Foundations and Earth Structures
2 Semester Hours

Design methods for foundations and earth structures. Design of footings and piles including stability and settlement, slopes, and retaining structures.

Lecture, 2 hours.

Prerequisite: CIVL 410.

CIVL 415
Reinforced Concrete Design
4 Semester Hours

Theory and design of reinforced concrete columns, beams, retaining walls, footings, and slabs. Application to design projects.

Lecture, 3 hours; Laboratory, 3 hours.

Prerequisite: CIVL 200.

CIVL 450
Analytical Methods in Civil Engineering II
3 Semester Hours

Specific application of mathematical techniques to a variety of civil engineering problems, with an emphasis on the mathematical formulation and subsequent computer solution of practical problems utilizing ordinary and partial differential equations; linear regression analysis; optimization techniques.

Lecture, 3 hours.

Prerequisites: CIVL 310, 340; MATH 245.

CIVL 460
Civil Engineering Design
4 Semester Hours

An integrated senior design experience which utilizes knowledge from the civil engineering curriculum. In addition to the technical aspects, the designs consider costs, economics, and environmental factors. Class lectures include discussion of the design process, environmental impact, engineering and professional ethics, the engineering profession, professional practice issues, the role of the engineer in the construction process, and procurement of engineering work. Student presentations are required.

Lecture, 2 hours; Design Laboratory, 4 hours.

Prerequisites: Senior standing and CIVL 210, 395, 400, 406, 410.

Corequisite: ENGR 400.

CIVL 493
Civil Engineer Design Internship
2-4 Semester Hours

Students work in teams to perform specific design projects for local public agencies and engineering consulting firms in the area of storm water and municipal waste water.

Requires consent of instructor.
CIVL 498
Special Studies
1-4 Semester Hours

CIVL 499
Independent Studies
1-4 Semester Hours

CIVL 504
Applied Fluid Mechanics
2 Semester Hours
Fundamentals of fluid mechanics and review of the underlying mathematical principles, viscosity, fluid statics, conservation of mass, energy equation, momentum principle, fluid flow in pipes, hydraulic machinery.
Open to science majors interested in a Master’s degree in Environmental Science.
Lecture, 2 hours.
Requires consent of instructor.

CIVL 510
Open Channel Hydraulics
2 Semester Hours
Study of steady uniform and non-uniform flow in open channels; design of channels, transitions, confluences, culverts, and other hydraulic structures.
Lecture, 2 hours.
Prerequisite: CIVL 315.

CIVL 511
Hydraulic Analysis and Design
2 Semester Hours
Design and analysis of hydraulic structures and pump stations; rainfall-runoff models; determination of reservoir storage; unsteady flow and water hammer; flood routing techniques; sediment transport.
Lecture, 2 hours.

CIVL 512
Air Pollution Analysis
2 Semester Hours
Detailed analysis of emission sources, emission calculation methods, and air pollution controls. The dispersion of air pollutants in the atmosphere (fates and lifetimes, dispersion modeling methods). In-depth techniques of conducting risk assessments due to exposure to air pollutants.
Lecture, 2 hours.

CIVL 514
Groundwater Hydrology
2 Semester Hours
Theory of the movement and occurrence of water in a porous medium; steady and unsteady flow in confined and unconfined aquifers; Darcy’s law; equilibrium and non-equilibrium hydraulics of wells; computer applications.
Lecture, 2 hours.
Prerequisite: CIVL 315.

CIVL 515
Industrial Waste Management
2 Semester Hours
Principles and methods of treatment and disposal of industrial wastes that may adversely affect the environment, including general characterization of wastes from industries of major significance and typical treatment processes involved. Regulatory constraints.
Lecture, 2 hours.
Prerequisites: CIVL 400 and ENVS 510.

CIVL 548
Hazardous Substances Management
2 Semester Hours
The study of regulation and management strategies for environmental programs (hazardous substances) including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.
Lecture, 2 hours.

CIVL 549
Hazardous Waste Remediation
2 Semester Hours
This course provides an overview of the regulatory framework, site assessment and sampling techniques, and remediation technologies for hazardous waste sites. Emphasis is placed on cost-effective remediation technologies, regulatory agency coordination, and new emerging technologies for hazardous waste site clean-up projects.
Lecture, 2 hours.
CIVL 550
Fundamentals of Environmental Health Risk Assessment
2 Semester Hours

The fundamental technical aspects and non-technical policy aspects of environmental health risk assessments. Basics of environmental chemistry partitioning; fate and transport of pollutants in the atmosphere and water; human exposure scenarios; fundamentals of toxicology and epidemiology.

Lecture, 2 hours.

CIVL 595
Structural Steel Design
3 Semester Hours

Theory and design of steel structures, component members, and connections using codes and specifications. Design projects.

Lecture, 3 hours.

Prerequisite: CIVL 200.

CIVL 598
Special Studies
1-4 Semester Hours

CIVL 599
Independent Studies
1-4 Semester Hours

Environmental Science

ENVS 300
Engineering Geology
3 Semester Hours

Atmospheric, aqueous, and igneous agencies; river and marine deposits, glaciers, earth movements, volcanos, earthquakes. Emphasis placed on factors affecting engineering projects; field trips.

Lecture, 3 hours.

ENVS 320
Introduction to Environmental Engineering
3 Semester Hours

Introduction to elements of water treatment, water pollution control, solid and hazardous waste disposal, and air pollution control. The interrelationships of the movement of pollutants between the land, air, and water media are discussed.

Lecture, 3 hours.

Prerequisites: CHEM 110 and MATH 123 or 132.

ENVS 420
Environmental Systems Laboratory
2 Semester Hours

Chemical and microbiological tests and demonstrations for environmental systems.

Laboratory, 3 hours.

ENVS 498
Special Studies
1-4 Semester Hours

ENVS 499
Independent Studies
1-4 Semester Hours

ENVS 510
Chemistry for Environmental Engineers and Scientists
2 Semester Hours

Review of inorganic chemistry with emphasis on gas laws, chemical equilibrium, oxidation-reduction, thermodynamics and chemical kinetics. An introduction to organic chemistry is presented.

Lecture, 2 hours.

Prerequisite: CHEM 110.
ENVS 513
Solid Wastes Engineering
2 Semester Hours
An application of current technology in the control, disposal, and recovery of value from solid wastes.
Lecture, 2 hours.

ENVS 515
Environmental Impact Reports
2 Semester Hours
An engineering perspective of managing projects through the California Environmental Quality Act (CEQA) process.
Lecture, 2 hours.

ENVS 518
Applied Oceanography
2 Semester Hours
A study of the physical, chemical, and biological characteristics of the oceans which must be considered in the design of wastewater outfalls, marine structures, etc.
Lecture, 2 hours.

ENVS 525
Inland Waters
2 Semester Hours
The structure and movement of water in lakes, rivers, and estuaries; cyclical and progressive changes of the physical, chemical, and biological composition of aquatic systems are discussed along with an explanation of lake remediation techniques.
Lecture, 2 hours.
Prerequisites: ENVS 510 and 544.

ENVS 533
Aquatic Chemistry
2 Semester Hours
Equilibrium chemistry concepts including gas- and solid-liquid equilibria applied to aquatic systems. Emphasis on calculation methods for solving for chemical speciation in natural and treated aquatic systems.
Lecture, 2 hours.
Prerequisite: ENVS 510.

ENVS 544
Applied Microbiology
2 Semester Hours
Emphasis on physical and biochemical aspects of bacterial metabolism and behavior as applied to environmental engineering; kinetics and energetics of microbial growth.
Lecture, 2 hours.
Prerequisites: CIVL 400 and ENVS 510.

ENVS 598
Special Studies
1-4 Semester Hours

ENVS 599
Independent Studies
1-4 Semester Hours
Electrical Engineering and Computer Science

Faculty

Chairperson: Nazmul Ula
Director, Computer Science: Raymond J. Toal
Professors: Philip M. Dorin, Tai-Wu Kao, John A. Page, Richard G. Plumb, Paul A. Rude, Raymond J. Toal, Nazmul Ula
Associate Professors: Stephanie E. August, Barbara E. Marino
Assistant Professors: John David N. Dionisio, Lei Huang

Note: The computer science program is described immediately following the electrical engineering course descriptions.

Electrical Engineering

Description

The electrical engineering curriculum consists of classroom and laboratory experiences related to the following topics: engineering design, electrical and electronic circuits and models, control systems, communication systems, properties of electromagnetic waves, design of analog and digital systems, and organization and design of microprocessor-based computer systems.

The electrical engineering curriculum leads to the B.S.E. degree in Electrical Engineering. Department criteria for graduation include completion of all courses in one of the two emphases, with a minimum grade point average of C (2.0) in the Upper Division Requirements.

A minor field program in electrical engineering is also supported. Course work includes 18 semester hours to be determined in consultation with the Department Chairperson. All minor field programs require the approval of the student’s major field faculty advisor and the Department Chairperson in the student's major field.

Objectives

The electrical engineering program has established the following program educational objectives that are consistent with the mission of the University and the Frank R. Seaver College of Science and Engineering. The objectives describe the expected accomplishments of graduates during the first several years following graduation. The electrical engineering program graduates will:

1) Perform effectively as practicing engineers and/or successfully undertake graduate study in electrical engineering or related fields;
2) Meet the challenges of the future through continuing professional growth; and
3) Exhibit concern for service and justice through leadership within their profession, as well as the community as a whole.

These program educational objectives are met by providing a curriculum which has both breadth and depth. Engineering science and design, mathematics and basic sciences are significant components of the electrical engineering program. In addition to these traditional technical courses, and in keeping with the Jesuit tradition of educating the whole person, the curriculum includes core requirements in the humanities, communications, and the fine arts.

Opportunities for involvement in professional societies, student design competitions, and University co-curricular activities are plentiful and help to accomplish these objectives.

Design in Electrical Engineering

Design is interwoven throughout the electrical engineering curriculum, culminating in a formal senior design project course. Freshman and sophomore engineering courses provide an introduction to design. The two junior and first semester senior laboratory courses extend this design experience to the integration of material from the upper division electrical engineering courses. Finally, the senior design project experience builds on the analytical and theoretical background developed throughout the curriculum as well as topics covered in the University’s core curriculum.

Accreditation

The electrical engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700.
Electrical Engineering Curriculum

(128 S.H.)

Major Requirements

Lower Division Requirements:

CHEM 110, 111; ELEC 232, 281; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245, 250; PHYS 101, 201.

Upper Division Requirements:

ELEC 301, 302, 333, 353, 354, 361, 371, 383, 400, 401, 402, 423, 424 and two courses selected from other offerings in Electrical Engineering; ENGR 400; MATH 355.

Electives

One course selected from other offerings in the Frank R. Seaver College of Science and Engineering with advisor approval.

### Electrical Engineering

#### ELEC 232

**Circuits**

3 Semester Hours

Introduction to techniques in electrical circuit analysis, including branch, node, and mesh methods; Thevenin and Norton theorems; step and sinusoidal responses of RLC circuits; operational amplifier circuits; single phase power.

Lecture, 3 hours.

Prerequisites: CMSI 185 or ENGR 240; MATH 132; PHYS 201 recommended.

#### ELEC 260

**Introduction to Electricity and Applications**

3 Semester Hours

Presentation of a brief history of electricity and electrical devices. Introduction to basic concepts of circuit and system analysis, electronic instruments, devices, and modern electric equipment. Demonstrations of concepts and devices are included.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

#### ELEC 281

**Logic Design**

3 Semester Hours

Introduction to computer systems, number systems. Boolean algebra, combinational and sequential logic design, minimization and analysis techniques. Concepts of programmable logic devices.

Lecture, 3 hours.

#### ELEC 301

**Junior Lab I**

3 Semester Hours

Introduction to the use of contemporary lab equipment and techniques of measurement and experimentation; introduction to technical report writing; class is used to provide a laboratory experience related to junior level courses.

Laboratory, 3 hours; Lecture, 1 hour.

Prerequisites: ELEC 281 and concurrent enrollment in ELEC 333 and 353 or permission of the instructor.
ELEC 302  
Junior Lab II  
3 Semester Hours

Continuation of ELEC 301 with emphasis on design; introduction to use of CAD tools and FPGA-based system design.

Laboratory, 4 hours.

Prerequisites: ELEC 301 and 383; concurrent enrollment in ELEC 354.

ELEC 311  
Electronics and Instrumentation  
3 Semester Hours

Introduction to circuit principles, amplifiers, op-amps, transducers, digital components and systems, system analysis, and instrumentation techniques.

For mechanical engineering or science majors.

Lecture, 3 hours; Laboratory, 2 hours.

ELEC 313  
Electronics and Instrumentation  
3 Semester Hours

Introduction to circuit principles, amplifiers, op-amps, digital components and systems, power and machines, and instrumentation techniques.

For civil engineering or science majors.

Lecture, 3 hours.

ELEC 333  
Circuit Applications  
3 Semester Hours

Laplace transform applications, network functions, frequency response, analog filters, two-ports, three phase power, Fourier series.

Lecture, 3 hours.

Prerequisites: ELEC 232 and MATH 245.

ELEC 353  
Electronics I  
3 Semester Hours

Fundamentals of semiconductor devices and the physics of their operation. Applications of semiconductor devices in electronic circuits and device modeling. Introduction to CAD tools. Design of single stage amplifiers.

Lecture, 3 hours.

Prerequisites: ELEC 232.

ELEC 354  
Electronics II  
3 Semester Hours

Introduction to engineering design methods utilized in the synthesis of contemporary analog electronic circuits including extensive use of CAD tools. Topics include multitransistor circuits, large signal limitations, feedback techniques, amplifier frequency response, stability and oscillation.

Lecture, 3 hours.

Prerequisite: ELEC 353.

ELEC 361  
Electromagnetics  
3 Semester Hours

Introduction to Maxwell’s equations, wave propagation, transmission line theory, and the solution of static and time varying field problems.

Lecture, 3 hours.

Prerequisites: MATH 355 and PHYS 201.

ELEC 371  
Linear Systems  
3 Semester Hours

Time and frequency domain analysis of continuous and discrete linear systems including simulation diagrams, state variable analysis, Fourier and Z transforms.

Lecture, 3 hours.

Prerequisites: ELEC 333 and MATH 355 or concurrent enrollment in MATH 355.

ELEC 383  
Introduction to Microprocessors  
3 Semester Hours

Basic concepts in design and organization of microprocessors and microcomputers. Assembly language programming design for incorporating peripheral devices in solving application designs.

Lecture, 3 hours.

Prerequisite: ELEC 281.
ELEC 385
Computer Systems Design
3 Semester Hours

Lecture, 3 hours.

Prerequisite: CMSI 84.

ELEC 398
Special Studies
1-4 Semester Hours

ELEC 399
Independent Studies
1-4 Semester Hours

ELEC 400
Design Methodology
2 Semester Hours

An introduction to systems engineering, including a study of design methodology and development of professional project-oriented skills such as communication, team management, creative problem solving, interpersonal management, and leadership skills.

Lecture, 2 hours.

Prerequisite: Concurrent enrollment in ELEC 401.

ELEC 401
Senior Lab I
3 Semester Hours

Course is intended to provide a laboratory experience related to other senior level courses; emphasis is on design, technical report writing, and oral presentation.

Laboratory, 4 hours.

Prerequisites: ELEC 30, 354, 383, concurrent enrollment in ELEC 400.

ELEC 402
Senior Project
3 Semester Hours

A study of design methodology and development of professional project-oriented skills including communication, team management, creative problem solving, interpersonal management, and leadership skills. Team project activities are used to apply project-oriented skills to solution of design problems. Periodic design reports and design reviews are presented to and critiqued by the faculty and the design team.

Lecture, 1 hour; Laboratory, 3 hours.

Prerequisites: ELEC 400 and 3 hours.

Corequisite: ENGR 400.

ELEC 423
Communications I
3 Semester Hours

Introduction to signals, spectra, Fourier Transforms, AM, FM, and digital communication systems.

Lecture, 3 hours.

Prerequisite: ELEC 371.

ELEC 424
Communications II
3 Semester Hours

Probability and random processes, correlation and power spectral density, noise and signal detection, analysis of communication links will be discussed.

Lecture, 3 hours.

Prerequisite: ELEC 423 or permission of the instructor.

ELEC 453
Digital Integrated Electronics
3 Semester Hours

Extensive coverage of digital integrated circuit design, including TTL, NMOS, CMOS and BiCMOS digital logic circuits, Read Only Memory (ROM), and Random Access Memory (RAM).

Lecture, 3 hours.

Prerequisites: ELEC 281 and 354.
ELEC 462
Microwave and Optical Communications
3 Semester Hours

Applications of electromagnetic theory. Topics include transmission lines, waveguides, impedance transformations and matching, passive devices, scatter parameters and their applications in circuits, antennas and wave propagation, fiber optics, and other communication links.

Lecture, 2 hours; Laboratory, 3 hours.

Prerequisite: ELEC 361.

ELEC 472
Control Systems
3 Semester Hours

Analysis and design of feedback systems using root locus, Bode, Nyquist, and state variable techniques; introduction to discrete feedback control system analysis.

Lecture, 3 hours.

Prerequisite: ELEC 371.

ELEC 481
Introduction to Computer Networks
3 Semester Hours

This course provides a basic introduction to computer networking. The topics covered include: types and uses of computer networks, data transmission, protocols and protocol layering, packets, message transactions, layered architecture, and a client-server introduction.

Lecture, 3 hours.

Prerequisites: Senior standing and permission of instructor.

ELEC 498
Special Studies
1-4 Semester Hours

ELEC 499
Independent Studies
1-4 Semester Hours

ELEC 521
Introduction to Communication Systems
3 Semester Hours

The concept of signal formulation, modulation, transmission and reception, and demodulation of signals in noise will be discussed.

Prerequisites: ELEC 423 and 532, or equivalents.

ELEC 525
Digital Signal Processing
3 Semester Hours

The representation, analysis, and processing of discrete signals are discussed. Topics include sampling, quantization, Z-transform of signal, discrete Fourier and fast Fourier transforms, analysis and design of digital filters, and spectral estimation of random digital signals.

Prerequisite: ELEC 371.

ELEC 532
Probability and Random Processes
3 Semester Hours

Studies of probability, random variables, and stochastic processes, correlation, power spectral density, and linear mean-square estimation with emphasis on their application to electrical engineering are included.

Prerequisite: Senior or graduate standing.

ELEC 561
IC Fabrication Processes
3 Semester Hours

Overview of processes in manufacture of integrated circuits. Topics include: single crystal growth, oxide growth, photolithographic processes, ion implantation and impurity diffusion, metal deposition, and passivation and packaging of chips. Use is made of Unix workstations for modeling and simulation.

Prerequisite: ELEC 353 or equivalent.

ELEC 562
Digital System Design with VHDL
3 Semester Hours

Computer aided design of digital VLSI (Very Large Scale Integrated) systems using Very High Speed Integrated Circuits (VHSIC) Hardware Description Language (VHDL).

Prerequisites: ELEC 281 and 383, or equivalents.

ELEC 563
ASIC Design
3 Semester Hours

Topics include programmable logic devices and gate array architectures, programmability of PLDs and gate arrays, field programmable gate arrays (FPGAs), and applications of FPGAs in digital system design. Course includes laboratory experiments and extensive use of Computer Aided Design tools.

Prerequisite: ELEC 383 and 562, or permission of instructor.
ELEC 567
Introduction to Digital VLSI Design
3 Semester Hours

Custom and semi-custom design of VLSI circuits using standard cells, design methodologies of advanced complementary metal-oxide-semiconductor (CMOS) circuits, and simulation of designed circuits will be emphasized. At the end of the semester, circuits designed by the students will be sent for fabrication through MOSIS and later tested by the students for functionality.

Prerequisite: ELEC 383 or permission of instructor.

ELEC 583
Finite State Machines
3 Semester Hours

An introduction to the theory and design of finite state automata and sequential machines.

Prerequisite: ELEC 281 or equivalent.

ELEC 584
Introduction to Microprocessors II
3 Semester Hours

Design and applications of 32-bit microprocessors. Topics include: basic concepts, software, architecture, programming, interfacing, and system design.

Prerequisite: ELEC 383 or equivalent.

ELEC 585
Computer Organization and Architecture
3 Semester Hours

System structure of minicomputers and mainframe computers. Structured memory based systems; parallel and multunit processors; introduction to input/output processing.

Prerequisite: ELEC 385 or equivalent.

ELEC 598
Special Studies
1-4 Semester Hours

ELEC 599
Independent Studies
1-4 Semester Hours

Computer Science

Description

The computer science curriculum consists of classroom and laboratory experiences related to the following topics: algorithms and data structures, theory and design of computer programming languages and systems, operating systems, compilers, interaction design, computer graphics, distributed systems, database systems, artificial intelligence, networks, and organization and design of microprocessor-based computer systems. The curriculum embraces the values, best practices, and philosophy of the open source culture.

The B.S. degree is awarded upon successful completion of the computer science curriculum. Department criteria for graduation include completion of all courses in the curriculum with a minimum grade point average of C (2.0) in the Upper Division Requirements listed below.

A minor field program in computer science is also offered, which emphasizes traditional topics such as programming and data structures. The course requirements are CMSI 185, 186, 281, 284, and two upper division CMSI electives.

Objectives

The program educational objectives for graduates are: 1) preparation for professional practice; 2) preparation for advanced study; 3) promotion of the ideas of lifelong learning; 4) development of self-fulfillment through professional activity; and 5) development of ethical values and personal responsibility.

The program educational objectives are met by providing a curriculum which follows contemporary guidelines for computer science. Mathematics and digital hardware courses are important components of the curriculum. In addition to these traditional technical courses, and in keeping with the Jesuit tradition of educating the whole person, the curriculum includes core requirements in the humanities, communications, social sciences, and the fine arts.

Opportunities for involvement in professional societies, student design competitions, public open source projects, and University co-curricular activities are plentiful and help to accomplish these objectives.
Computer Science Curriculum

(124 S.H.)

Major Requirements

Lower Division Requirements:

CMSI 185, 186, 281, 282, 284; ELEC 281; MATH 131, 132, 248.

Upper Division Requirements:

CMSI 370, 371, 385, 386, 387, 401, 402, 486, 488; ELEC 385; MATH 360, 366.

Electives

Eighteen (18) semester hours designated as electives are to be selected as follows:

(a) At least six semester hours to be selected from:

300 and 400-Level CMSI courses and/or MATH 321, 331, 357, 471, or 500-level MATH courses.

(b) At least twelve semester hours of science electives, including a two-semester sequence of laboratory science.

## Computer Science

### CMSI 182

**Introduction to Computer Science**

3 Semester Hours

Great ideas in computer science, including some programming using a contemporary programming language.

Lecture, 3 hours.

### CMSI 185

**Computer Programming**

3 Semester Hours

Introduction to algorithms and computer programming using Java.

Lecture, 3 hours.

### CMSI 186

**Programming Laboratory**

3 Semester Hours

Workshop in Java programming, treating one medium-sized application every two weeks in a laboratory setting. Typical projects: discrete simulation, randomized estimation, maze solving, dynamic programming, large-number arithmetic, numerical methods, GUIs.

For majors and minors only.

Prerequisite: A grade of C (2.0) or better in CMSI 185.

### CMSI 261

**Epistemological Foundations of Computer Science**

3 Semester Hours

A study of the philosophical and epistemological roots of computer science. Topics include: language, thought, cognition, logic, computation, the Church-Turing thesis, computer programming, and artificial intelligence.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

### CMSI 264

**Cryptography through the Ages**

3 Semester Hours

Descriptions of mathematical systems that have been used for enciphering and deciphering information, and a study of the context in which these systems arose.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMSI 281</td>
<td>Data Structures and Algorithms I</td>
<td>3</td>
<td>Introduction to data types, information structures, and algorithms. Topics include: collection classes and interfaces for sets, lists, stacks, queues, and dictionaries; implementation techniques such as arrays, linked lists, and efficient tree structures; introduction to computational complexity; elementary sorting; hashing.</td>
</tr>
<tr>
<td>CMSI 282</td>
<td>Data Structures and Algorithms II</td>
<td>3</td>
<td>Algorithm paradigms, with an emphasis on combinatorial search. Topics include: generating combinatorial objects; greedy methods; dynamic programming; randomized algorithms; modern heuristics such as genetic programs and simulated annealing; advanced sorts and order statistics; cake-cutting and fair division; graph algorithms; computational geometry.</td>
</tr>
<tr>
<td>CMSI 284</td>
<td>Computer Systems Organization</td>
<td>3</td>
<td>Basic principles of computer systems. Topics include: data representations, instructions and instruction formats, assemblers and assembly languages, linking and loading, process execution, interrupt and device-handling, file management, and mixed-language programming.</td>
</tr>
<tr>

<td>Special Studies</td>
<td>1-3</td>
<td></td>
</tr>
<tr>
<td>CMSI 290</td>
<td>Independent Studies</td>
<td>1-3</td>
<td></td>
</tr>
<tr>
<td>CMSI 355</td>
<td>Networks</td>
<td>3</td>
<td>A detailed study of the design and use of internetworking technologies in modern digital communication systems. Topics include: routing and control protocols, signalling, multicasting, OSI model, sockets, IPv4, IPv6, UDP, TCP, ARP, ICMP, IGMP, Mobile IP, DNS, SMTP, FTP, VoIP, and HTTP.</td>
</tr>
<tr>
<td>CMSI 365</td>
<td>Enterprise Production Practicum</td>
<td>1-3</td>
<td>The design, construction, and management of an online information system. Experience will be gained producing an in-use online system with emphasis on stability and usability for the target audience.</td>
</tr>
<tr>
<td>CMSI 370</td>
<td>Interaction Design</td>
<td>3</td>
<td>Introduction to interaction design and human-computer interaction, with equal emphasis on 1) learning how to design and evaluate interaction architectures and 2) learning how to use existing frameworks to implement such architectures. Topics include: interaction guidelines, principles, and theories; usability engineering; the model-view-controller (MVC) paradigm; and current frameworks such as Swing, GLUT, and Cocoa.</td>
</tr>
<tr>
<td>CMSI 371</td>
<td>Computer Graphics</td>
<td>3</td>
<td>Introduction to interactive computer graphics, emphasizing raster-scan techniques. Topics include the design and use of graphics packages and standards such as OpenGL and Java2D, graphics engines, animation, three dimensional modeling, computational geometry, shading, and ray tracing.</td>
</tr>
</tbody>
</table>

Lecture, Prerequisite: CMSI 281.
CMSI 385
Introduction to the Theory of Computation
3 Semester Hours

Introduction to the formal theory of computation. Topics include: finite automata and regular sets; context-free grammars and pushdown automata; Turing machines and computability; intractability.

Lecture, 3 hours.

Prerequisites: CMSI 281 and MATH 248.

CMSI 386
Programming Languages
3 Semester Hours

A comparative study of the rationale, concepts, design, and features of several major programming languages. Topics include the role of bindings, control flow, types, subroutines, modules, objects, and concurrency. Major attention is given to C, Java, ML, Perl, and JavaScript.

Lecture, 3 hours.

Prerequisite: CMSI 284.

CMSI 387
Operating Systems
3 Semester Hours

Concepts in the design of operating systems, including: processes, mutual exclusion, synchronization and message-passing, memory management, multiprogramming, paged allocation and paging policies, resource and I/O management, file systems, and security.

Lecture, 3 hours.

Prerequisite: CMSI 284.

CMSI 398
Special Studies
1-4 Semester Hours

CMSI 399
Independent Studies
1-4 Semester Hours

CMSI 401
Software Engineering Lab
3 Semester Hours

Specification, design, and implementation of large programs in a group setting, including the software development life-cycle and use of the Unified Modeling Language (UML) for specifying, visualizing, and documenting models.

Lecture and Laboratory, 3 hours.

Prerequisite: Consent of instructor.

CMSI 402
Senior Project Lab
4 Semester Hours

Analysis, design, implementation, and presentation of a large-scale, individual project, demonstrating mastery of the computer science curriculum.

Lecture and Laboratory, 4 hours.

Prerequisite: Consent of instructor.

CMSI 475
Computational Complexity
3 Semester Hours

Introduction to the study of computational complexity, including efficient algorithms for matrix multiplication and fast Fourier transforms, the classes P and NP, approximation algorithms, randomized algorithms and RP, parallel algorithms and NC.

Lecture, 3 hours.

Prerequisites: CMSI 282 and 385.

CMSI 485
Artificial Intelligence
3 Semester Hours

Introduction to the theory and applications of artificial intelligence. Topics include heuristic search theory, knowledge representation and symbolic reasoning, natural language understanding, and machine learning.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386.

CMSI 486
Introduction to Database Systems
3 Semester Hours

Theory and design of database systems, with emphasis on relational and object-oriented models. Topics include semantic data modeling, database languages, data integrity, physical database design, normalization, indexing, query processing, transaction management, concurrency control, and object-relational mapping.

Lecture, 3 hours.

Prerequisites: CMSI 386 and 387.
### CMSI 488
**Compiler Construction**  
*4 Semester Hours*

Introduction to the theory and design of translators for high-level computer programming languages. Topics include programming language specification, scanner construction, parser construction, intermediate representations, code generation, and optimization. Coursework includes implementation of a compiler.

Lecture, 3 hours.

Prerequisites: CMSI 385 and 386.

### CMSI 498
**Special Studies**  
*1-4 Semester Hours*

### CMSI 499
**Independent Studies**  
*1-4 Semester Hours*

### CMSI 583
**Theory of Computation**  
*3 Semester Hours*

Finite automata, regular sets; context-free grammars, pushdown automata; context-free languages; Turing machines, decidable and undecidable problems; complexity, intractability, and NP-completeness.

Lecture, 3 hours.

Prerequisite: CMSI 281.

### CMSI 585
**Programming Languages**  
*3 Semester Hours*

Introduction to the principles of programming language design and implementation via a comparative study of several major languages. Topics include syntactic and semantic specification, bindings, control flow, types, subroutines, modules, objects, and concurrency. Major attention is given to C/C++, Java, ML, Perl, and JavaScript.

Prerequisites: CMSI 284 and 386.
General Engineering

A General Engineering curriculum is offered during the first three semesters in which all requirements are nearly identical regardless of major. This provides maximum flexibility since students can switch to any major at any time during their first three semesters without losing any time or credit. During this period, students can be classified as "Undecided Engineering" or can opt for one of the engineering majors—civil, electrical, or mechanical engineering. The principles and concepts that students learn during the General Engineering curriculum provide the foundation necessary for more advanced study in all engineering disciplines.

The freshman engineering faculty advisor advises all engineering students during the first three semesters. Students must consult each semester with the freshman advisor and register for the appropriate courses listed under the General Engineering curriculum. Any variation from the recommended paradigm must be approved by the freshman advisor.

Unless unusual circumstances suggest otherwise, a commitment to a particular major should be made before the second semester of the sophomore year. Students will then be assigned to a faculty advisor within their major. The Office of the Registrar must be informed whenever a student changes or declares a major.

* Students following the Computer Engineering emphasis take CMSI 185, Computer Programming, in place of ENGR 240 (see Electrical Engineering).

ENGR 100
Introduction to Engineering Analysis and Problem Solving
3 Semester Hours

This course is designed to excite an interest in the engineering profession, establish a foundation of proper study skills, encourage creativity, stimulate cooperative learning, enhance communication skills, improve problem solving skills, introduce the design process, and develop a working knowledge of spreadsheets.

Lecture, 2 hours; Workshop, 2 hours.

ENGR 140
Engineering Graphics and Design
3 Semester Hours

Introduction to the design process through a hands-on design project performed in teams. In addition, engineering graphics and communication skills are introduced in the areas of computer aided drafting (CAD) and technical communication (graphical, written, and oral). Engineering graphics topics include orthographic and isometric projections and dimensioning. CAD tools, such as AutoCAD and Inventor, are introduced and used for rapid prototyping and geometric analysis. Students present the results of their design projects.

Lecture, 2 hours; Laboratory, 2 hours.
ENGR 200  
Statics  
3 Semester Hours  

Resultants of force systems, free-body diagrams, equations of equilibrium and their applications, analysis of trusses, centroids and moments of inertia, shear and moment diagrams.  

Lecture, 3 hours.  

Prerequisites: MATH 132 or concurrent enrollment, PHYS 101.

ENGR 240  
Algorithms and Applications  
3 Semester Hours  

The development of algorithms for the computer solution of engineering problems and the implementation of the algorithms using MATLAB.  

Lecture, 3 hours.

ENGR 278  
The Science of the Automobile  
3 Semester Hours  

An introduction to today's automotive technology, and the science that supports it, using a systems approach to automotive design. Automotive design, function, and features are discussed, along with the manufacturing processes involved in automotive construction and the effect of globalization on the automotive industry.  

Lecture, 3 hours.  

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

ENGR 300  
Fundamentals of Engineering (FE) Examination  
0 Semester Hours  

Prerequisite: Junior standing.

ENGR 400  
Senior Seminar  
0 Semester Hours  

Presentations emphasizing ethics; economics; societal, political, and global issues; lifelong learning; and contemporary engineering issues.  

Lecture, 1 hour.  

Prerequisite: Senior standing.
Mathematics

Faculty

Chairperson: Curtis D. Bennett
Associate Professors: Lily S. Khadjavi, Blake Mellor, Patrick D. Shanahan, Thomas Zachariah
Assistant Professors: Erika T. Camacho, Alissa S. Crans, Edward C. Mosteig
Clinical Faculty: Chien-Ling Tseng

Objectives

Mathematics, as an intellectual activity, is both an art and a powerful tool for problem solving and for understanding the physical universe. A mathematics major explores the different facets of the discipline through a broad spectrum of courses in applied, computational, and pure mathematics. In addition to exploring mathematics, a student majoring in mathematics takes classes from other fields (e.g., science and education) that help her/him prepare for her/his chosen career. The Department's programs allow a student to focus on different aspects of the discipline and lead to one of three undergraduate degrees:

- Bachelor of Arts with a major in Mathematics
- Bachelor of Science with a major in Mathematics
- Bachelor of Science with a major in Applied Mathematics

The Department offers minors in Pure Mathematics, Applied Mathematics, and Secondary Education Mathematics. These minors are designed for students majoring in another field (e.g., engineering, physics, business, economics, computer science, or liberal studies) who wish to develop an undergraduate background in mathematics that goes beyond the requirements of their degree program.

In addition to its major and minor degree programs, the Mathematics Department serves every department in LMU’s four Colleges, the School of Film and Television, and the School of Education through the core curriculum and by providing students in other majors courses designed to serve the mathematical needs of their fields of study.

Mathematics Placement Examination

The purpose of this examination is to determine the level of preparation of the student and to place her/him in the appropriate mathematics course. Any student with three years of high school mathematics including two years of algebra and one year of geometry should be adequately prepared to take this examination. However, students may wish to review these areas.

All first-year students with majors in the Frank R. Seaver College of Science and Engineering or the College of Business Administration, or who are Economics majors or Liberal Studies majors, must take the mathematics placement examination. Psychology majors are required to take MATH 104. All other majors are required to take MATH 102 or higher (see the section on Proficiency in Mathematics).

All students transferring into the Frank R. Seaver College of Science and Engineering or the College of Business Administration, or who are Economics majors or Liberal Studies majors, must take the mathematics placement examination unless they have transferred a college algebra or higher level college mathematics class approved by the Mathematics Department before entering LMU.

Any student, no matter her/his major, who plans to take MATH 106, 111, 112, 120, 122, or 131 and who has not transferred a college algebra or higher level college mathematics class is required first to take the mathematics placement examination. The mathematics placement examination may only be taken one time.

General Major Requirements

Students must complete the corresponding Bachelor of Arts or Bachelor of Science University Core requirements as defined by the Frank R. Seaver College of Science and Engineering; students will choose the proper sequence of University Core courses in consultation with their advisor.

Mathematics majors and minors are not permitted to enroll in a mathematics course without a minimum grade of C (2.0) in that course’s prerequisite. A minimum grade of C (2.0) is required in each course in the lower division major requirements. A minimum cumulative grade point average of C (2.0) is required in the upper division major requirements for graduation.
Lower Division Major Requirements
MATH 131, 132, 190, 191, 234, 245, 248, 250, 282; one science course chosen from PHYS 101, 201; or CMSI 185, 281. The Bachelor of Science in Mathematics and the Bachelor of Science in Applied Mathematics degrees require an additional science course chosen from the PHYS and CMSI courses listed above; a second CMSI or PHYS course may also be counted towards the Bachelor of Arts degree in Mathematics (please see upper division requirements below).

Bachelor of Arts with a Major in Mathematics
This major is designed for students who are interested in pursuing a career in teaching mathematics at the secondary (i.e., high school) level. With the help of her/his advisor, the student may design a schedule carefully so that s/he can complete the 2042 California Preliminary Single Subject (Secondary) Teaching Credential during her/his four years at LMU. Furthermore, a program may be designed that allows a student to complete the mathematics degree, credential, and a Master of Arts in Teaching Mathematics at LMU in five years including two summer sessions.

Upper Division Requirements (11 courses):
MATH 321, 331, 357, 360, 490, 493 or 497, 550, and one additional 3 semester hour upper division MATH elective (excluding MATH 301, 302, 308, and 309) chosen in consultation with her/his advisor; EDUC 488; and two 3 semester hour EDUC courses chosen from the list of requirements for the preliminary single subject secondary credential or one such EDUC course and one course from BIOL 101, 102, 201, 202; CHEM 110, 112, 220; CMSI 185, 281, 282; or PHYS 101, 201.

Bachelor of Science with a Major in Mathematics
This degree program is designed for students who want a broad foundation in pure mathematics. It is especially suited for students who expect to pursue a graduate degree in mathematics.

Upper Division Requirements (10 courses):
MATH 321, 322, 331, 332 or 350, 357, 360, 471 or 473, 491 or 497, and two additional 3 semester hour upper division MATH electives (excluding MATH 301, 302, 308, and 309) chosen in consultation with her/his advisor.

Bachelor of Science with a Major in Applied Mathematics
This degree program is designed for students who want a broad foundation in applied and computational mathematics. It is especially suited for students who intend to work in a mathematics-related field in industry or who wish to pursue a graduate degree in applied mathematics or science.

Upper Division Requirements (10 courses):
MATH 321, 322 or 357, 331 or 350, 355, 360, 495 or 497, 560, one of 561, 562, or 582; and two additional 3 semester hour courses chosen in consultation with his/her advisor from the following list: upper division mathematics classes numbered MATH 321 or higher; CIVL 310, 319; CMSI 282, 371, 385, 583; ELEC 232, 333, 361; PHYS 212, 301, 302, 321, 322.

Biomathematics
Under the direction of an advisor, the student selects courses from the fields of biology, chemistry, computer science, and mathematics and obtains a Bachelor of Science degree through the Individualized Studies Program.

Any deviation from the above programs requires formal approval of the student’s advisor and the Department Chairperson.

Minor in Applied Mathematics Requirements
At least 24 semester hours including MATH 131, 132, 234, 245; MATH 355, 360 or 366; MATH 321 (MATH 248 is a prerequisite for MATH 321, so the MATH 321 option requires 27 semester hours), 357, 560, or 562; and MATH 250 or one additional 3 semester-hour upper division MATH course chosen in consultation with the applied mathematics minor advisor. A cumulative grade point average of C (2.0) or better is required in the courses included in the minor.

Minor in Pure Mathematics Requirements
At least 24 semester hours including MATH 131, 132, 234, 248; MATH 331, 350, or 366; MATH 321, 357, 471, or 550; and MATH 250 or one additional 3 semester-hour upper division MATH course chosen in consultation with the pure mathematics minor advisor. A minimum cumulative grade point average of C (2.0) is required in the courses included in the minor.
Minor in Secondary Education Mathematics
Requirements
At least 24 semester hours including MATH 131, 132, 234, 248, 360, 490, and 550. A cumulative grade point average of C (2.0) or better is required in the courses included in the minor.

Upon successful completion of MATH 248, the student must make an appointment with her/his advisor to discuss which of the three major programs the student wishes to pursue. The student should then contact the Chairperson of the Mathematics Department to have an upper division advisor appropriate to that major assigned.

*** Either MATH 491 or MATH 497 is required (but not both) for the Bachelor of Science in Mathematics.

** MATH 101

Algebra

*3 Semester Hours*

Polynomials, rational expressions, exponents, radicals, equations in one and two variables, the quadratic formula, functions and graphs.

** MATH 102

Quantitative Skills for the Modern World

*3 Semester Hours*

Quantitative and analytic skills used to understand personal and social issues faced in everyday life. Topics include problem solving, computer spreadsheets, probability and statistics, and the mathematics of finance.

Corequisite: MATH 103.

** MATH 103

Quantitative Skills for the Modern World Lab

*0 Semester Hours*

Concurrent laboratory for MATH 102.

Corequisite: MATH 102.

** MATH 104

Elementary Statistics

*3 Semester Hours*

Introduction to methods of inferential statistics, histograms, elementary probability, and random variables and distributions.
MATH 106
Mathematics for Elementary Teachers I
3 Semester Hours

Foundations of arithmetic from an advanced standpoint: sets, numeration systems, the structure of number systems, and problem solving strategies.

This course is recommended before enrolling in MATH 107.

For Liberal Studies majors only, or by consent of the instructor.

Prerequisite: MATH 101 with a minimum grade of C (2.0) or Mathematics Placement Examination.

MATH 107
Mathematics for Elementary Teachers II
3 Semester Hours

Geometry, metric system, and introduction to probability and statistics.

For Liberal Studies majors only, or by consent of the instructor.

Prerequisite: MATH 101 with a minimum grade of C (2.0) or Mathematics Placement Examination.

MATH 111
Mathematical Analysis for Business I
3 Semester Hours

Systems of equations and inequalities, exponential and logarithmic functions, math of finance, linear programming.

Prerequisite: MATH 101 or Mathematics Placement Examination.

MATH 112
Mathematical Analysis for Business II
3 Semester Hours

Introduction to the differential and integral calculus of elementary functions. Applications of the methods of calculus to business and economics problems.

Prerequisite: MATH 111 or 120 or Mathematics Placement Examination.

MATH 120
Precalculus Mathematics
3 Semester Hours

Functions; polynomial, rational, trigonometric, exponential and logarithmic functions.

Prerequisite: MATH 101 or Mathematics Placement Examination.

MATH 122
Calculus for the Life Sciences I
3 Semester Hours

An introduction to calculus. Derivatives and integrals of the elementary functions, and applications.

Prerequisite: MATH 120 or Mathematics Placement Examination.

MATH 123
Calculus for the Life Sciences II
3 Semester Hours

Integration methods with applications, differential equations and modeling, and introduction to multivariate calculus.

Prerequisite: MATH 122 or equivalent.

MATH 131
Calculus I
4 Semester Hours

Limits, continuity, derivatives of algebraic and transcendental functions, applications of the derivative, antiderivatives, introduction to the definite integral, Fundamental Theorem of Calculus.

Prerequisite: MATH 120 or Mathematics Placement Examination.

MATH 132
Calculus II
4 Semester Hours

Techniques of integration, numerical methods of integration with error analysis, applications of the integral, improper integrals, infinite series, an introduction to parametric equations and polar coordinates.

Prerequisite: MATH 131 or equivalent.

MATH 190
Workshop in Mathematics I
2 Semester Hours

Study skills, analytical and problem solving skills, technical writing, recent fields of study, and advances in mathematics, mathematical career opportunities.

MATH 191
Workshop in Mathematics II
2 Semester Hours

A continuation of MATH 190.

MATH 198
Special Studies
1-4 Semester Hours
MATH 199
Independent Studies
1-4 Semester Hours

MATH 234
Calculus III
4 Semester Hours
Partial derivatives, multiple integrals, three-dimensional space, vectors in two- and three-dimensional space, line integrals, Green's theorem.
Prerequisite: MATH 132 or equivalent.

MATH 245
Ordinary Differential Equations
3 Semester Hours
Differential equations as mathematical models; analytical, qualitative, and numerical approaches to differential equations and systems of differential equations; and Laplace transform techniques.
Prerequisite: MATH 132 or equivalent.

MATH 248
Introduction to Methods of Proof
3 Semester Hours
Number theory, sets, functions, equivalence relations, cardinality, methods of proof, induction, contradiction, contraposition. Student portfolios will be collected.
Prerequisite: MATH 132 or equivalent.

MATH 250
Linear Algebra
3 Semester Hours
Prerequisite: MATH 234 or 248 or consent of instructor.

MATH 261
Mathematics: Contributions by Women
3 Semester Hours
A study of the lives and work of women mathematicians from the 4th through the 21th centuries. Topics include prime numbers, conic sections, cycloid curve, functions, sequences, series, polyhedra, and group theory.
Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MATH 264
Cryptography through the Ages
3 Semester Hours
A study of mathematical systems used for enciphering and deciphering information and the context in which these systems arose.
Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MATH 282
Elementary Numerical Methods
3 Semester Hours
Computer solutions of applied mathematical problems using a procedural programming language and a computer algebra system. Nonlinear equations, differentiation, integration.
Prerequisite: MATH 13 or equivalent.

MATH 285
Discrete Mathematics for Engineering
3 Semester Hours
An introduction to basic counting; permutations; combinations; probability; the binomial distribution; set theory; generating functions; recurrence relations; with C programming.
Prerequisite: MATH 132 or equivalent.

MATH 293
Mathematics Teaching Field Experience
0 Semester Hours
Planned observation, instruction or tutoring experiences appropriate for future secondary or middle school mathematics teachers; related professional reading and reflections.

MATH 298
Special Studies
1-4 Semester Hours

MATH 299
Independent Studies
1-4 Semester Hours
MATH 301
Mathematical Ideas for Future Teachers I
3 Semester Hours
A selection of topics from number theory, algebra, game theory, probability, and statistics of interest to future teachers. The emphasis is on deepening students' understanding of the methods and philosophy of mathematics. Students will actively engage in exploring mathematics through student investigations and presentations.
Prerequisites: MATH 107 and MATH 111 or 112 or 120 or 122 or 131.

MATH 302
Mathematical Ideas for Future Teachers II
3 Semester Hours
A selection of topics from geometry and topology of interest to future teachers. The emphasis is on deepening students' understanding of the methods and philosophy of mathematics. Students will actively engage in exploring mathematics through student investigations and presentations.
Prerequisites: MATH 107 and MATH 111 or 112 or 120 or 122 or 131.

MATH 308
Mathematics for Elementary Teachers Workshop I
1 Semester Hour
Hands-on use of math manipulatives related to the elementary school concepts of sets, systems of numeration, whole numbers, integers, fractions, and decimals.
Prerequisite: MATH 106 or concurrent enrollment or consent of instructor.

MATH 309
Mathematics for Elementary Teachers Workshop II
1 Semester Hour
Hands-on use of math manipulatives related to geometry, probability, and statistics appropriate to the elementary school mathematics curriculum.
Prerequisite: MATH 107 or concurrent enrollment or consent of instructor.

MATH 321
Real Variables I
3 Semester Hours
The real number system, least upper bound, sequences, Cauchy sequences, functions, limits of functions, continuity, derivatives, and Riemann integration.
Prerequisite: MATH 248.

MATH 322
Real Variables II
3 Semester Hours
Infinite series, uniform convergence, power series, and improper integrals.
Prerequisite: MATH 321.

MATH 331
Elements of Group Theory
3 Semester Hours
Group theory, binary operations, subgroups, cyclic groups, factor groups, isomorphism, homomorphism, and Cayley's theorem.
Prerequisite: MATH 248.

MATH 332
Elements of the Theory of Rings and Fields
3 Semester Hours
Rings, integral domains, fields, ideals, factor rings, polynomial rings, and unique factorization domains.
Prerequisite: MATH 331.

MATH 350
Advanced Linear Algebra
3 Semester Hours
Vector spaces over an arbitrary field, dual spaces, Cayley-Hamilton theorem, invariant subspaces, canonical forms for matrices, inner product spaces over C, the spectral theorem.
Prerequisites: MATH 248 and 250.

MATH 355
Methods of Applied Mathematics
3 Semester Hours
Series solutions and special functions, orthogonal functions and Fourier series, linear partial differential equations and boundary-value problems.
Prerequisites: MATH 234 and 245.

MATH 357
Complex Variables
3 Semester Hours
Complex variables, analytic functions, Laurent expansions and residues, evaluation of real integrals by residues, integral transforms.
Prerequisite: MATH 234.

</table>
**MATH 495**  
**Mathematical Modeling**  
3 Semester Hours

Introduction to various modeling techniques, design and implementation of algorithms, organization and presentation of results, introduction to problem solving using computer algebra systems.

Prerequisite: Senior standing or consent of instructor.

**MATH 497**  
**Senior Thesis**  
3 Semester Hours

This course is intended to provide the student with an opportunity to complete a substantive research project under the guidance of a faculty member. The student will prepare a written report and an oral presentation on the project at the end of the semester.

Prerequisite: Senior standing and the consent of both the Chairperson and a faculty thesis advisor.

**MATH 498**  
**Special Studies**  
1-3 Semester Hours

**MATH 499**  
**Independent Studies**  
1-3 Semester Hours

**MATH 511**  
**Mathematics and Gender Issues**  
3 Semester Hours

Historical and current gender issues in mathematics examined through 1) the lives and mathematical work of women mathematicians from the 4th to the 21st centuries and 2) equity issues in K-12 mathematics education and math-related careers. Mathematical topics include prime numbers, conic sections, functions, sequences and series, polyhedra and group theory.

Prerequisites: MATH 107 and 111 or 112 or 120 or 122 or 131 or consent of instructor.

**MATH 550**  
**Fundamental Concepts of Geometry**  
3 Semester Hours

Euclidean and non-Euclidean planar geometries, axiomatic systems, synthetic and analytic representations, relationships with algebra, and selected topics and applications.

Prerequisites: MATH 248 and 250.

**MATH 560**  
**Advanced Topics in Probability and Statistics**  
3 Semester Hours

Material to be covered will be determined by the instructor. Consult with the instructor for the specific topics in probability and statistics that will be covered in any given semester.

Prerequisites: MATH 234 and 360.

**MATH 561**  
**Computational Methods in Linear Algebra**  
3 Semester Hours

Numerical solutions of linear systems of equations, Gauss elimination and iterative methods, eigenvalues and eigenvectors.

Prerequisites: CMSI 185 or ENGR 240 or MATH 282, and MATH 250 or consent of instructor.

**MATH 562**  
**Numerical Analysis**  
3 Semester Hours

Prerequisites: CMSI 185 or ENGR 240 or MATH 282, and MATH 245 or consent of instructor.

**MATH 568**  
**Mathematical Methods of Operations Research**  
3 Semester Hours

Linear and dynamic programming, network analysis, inventory control.

Prerequisite: MATH 360.

**MATH 575**  
**Introduction to Orbit Determination**  
3 Semester Hours

A brief introduction to Banach and Hilbert spaces, the Projection Theorem, linear minimum variance estimates, the Kalman filter, variational equations and orbit determination examples. The final exam is a computer problem that involves tracking a spacecraft orbiting an asteroid by means of Doppler measurements.

Prerequisites: MATH 245, 250, and consent of instructor.
MATH 582
Analysis of Algorithms
3 Semester Hours

Design, comparison, and analysis of mathematical algorithms, including implementation and testing using Fortran.

Prerequisite: CMSI 185 or ENGR 240 or MATH 282 or consent of instructor.

MATH 590
History of Mathematics for Secondary Teachers
3 Semester Hours

The development of mathematics from historical and cultural viewpoints, including both European and non-European roots of mathematics as well as contributions by women. Course content will be connected to the secondary classroom.

Prerequisite: MATH 248.

MATH 598
Special Studies
1-3 Semester Hours

MATH 599
Independent Studies
1-3 Semester Hours
Mechanical Engineering

Faculty
Chairperson: Nader Saniei
Professors: Omar S. Es-Said, Mel I. Mendelson, Rafiqul I. Noorani, Bohdan W. Oppenheim, Nader Saniei
Assistant Professor: Matthew T. Siniawski

Description
Mechanical Engineering is very broad in scope and is pertinent to a variety of engineering activities and products including vehicles for ground, sea, air, and space transportation, power plants, machines, manufacturing systems, structures, and process plants. The Mechanical Engineering program provides a solid foundation for work in all of these fields. Engineering design is a major emphasis of the curriculum and is supported by modern, well-equipped laboratories. Laboratories include the computer-aided design, engineering and manufacturing laboratory, the materials processing and structures laboratory, the thermal/fluids laboratory, the Engineering Design Center, and the video/multimedia laboratory. The curriculum covers contemporary technology as well as the fundamentals for future technologies. It is designed to prepare students for graduate school as well as for employment in industry.

Students can participate in national and regional design competitions and in the work of the U.S. Department of Energy Industrial Assessment Center located on the LMU campus. THE DOE/IAC affords LMU engineering students the opportunity to gain income, academic credit, and professional experience as they perform on-site energy, pollution, and productivity audits for small- and medium-sized manufacturing firms.

Accreditation
The Mechanical Engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700.

Mission
The mission of the Mechanical Engineering Department is to provide a high quality, practice-oriented, design-focused curriculum that prepares students for both graduate studies and leadership roles in industry.

Objectives
The Mechanical Engineering program has established the following program educational objectives that are consistent with the University’s mission and the department’s program outcomes. During the first 3-5 years after graduation, Mechanical Engineering graduates will:

1. Advance in their professional careers and pursue graduate studies and continuous learning in areas relevant to their long-term goals;
2. Demonstrate leadership in professional activities such as research, experimental studies, and industrial projects;
3. Be capable of working effectively in cross-functional teams, communicating effectively, and participating in the practice of mechanical engineering design; and
4. Contribute to professional societies and demonstrate ethical conduct.

These program educational objectives are accomplished through the major requirements, the core curriculum, design competitions, internships, professional society involvement, and extracurricular activities.

Design in Mechanical Engineering
Engineering design is the key task of the engineer. It is the process of creatively conceiving a system, component, or process to meet a specified societal need in an optimal manner. While the resulting design must satisfy the appropriate specifications and constraints, consideration must also be given to economics, social impact, marketability, manufacturability, product support, environmental impact, safety, and final disposition. The Mechanical Engineering faculty have adopted a methodology of design which guides the student through the design process. The steps of this methodology are studied and practiced in the Mechanical Engineering curriculum. The course descriptions which follow reflect how the design methodology is integrated throughout the curriculum.
Mechanical Engineering Curriculum

(132 S.H.)

Major Requirements

Lower Division Requirements:

CHEM 110, 111; CIVL 200; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; MECH 231, 240, 251; PHYS 101, 201.

Upper Division Requirements:

CIVL 310, 395; ELEC 311; ENGR 300, 400; MATH 355; MECH 300, 312, 315, 334, 340, 341, 342, 345, 353, 441, 483, 484, 488, 536, 550; Mechanical Engineering Elective (3 semester hours of 400- or 500-level MECH course work).

The proper sequence of the University Core courses should be discussed with the student’s advisor.

---

### MECH 231

**Dynamics I**

3 Semester Hours

Kinematics and kinetics of particles and rigid bodies, Newton's Laws, application of principles of work and energy, impulse and momentum, and vector approach.

Lecture, 3 hours.

Prerequisites: ENGR 200 and MATH 234.

---

### MECH 240

**Engineering Systems I**

2 Semester Hours

Introduction to computer-aided design techniques and applications to design and manufacturing problems. Topics include: computer graphics for geometric design, design of curves and shapes, numerical methods for CAD and optimization. Practice and use of solid modeling software package.

Lecture and Lab, 2 hours.

---

### MECH 251

**Thermodynamics**

3 Semester Hours

The fundamental concepts of classical thermodynamics including properties, work and heat; first and second laws; entropy; irreversible processes; and thermodynamic analysis of power cycles and refrigeration cycles.

Lecture, 3 hours.

Prerequisites: Sophomore standing in engineering.

---

### MECH 260

**Nanotechnology**

3 Semester Hours

An introduction to the nanotechnology language, relationship between the macroscopic-microscopic-nanoscopic worlds, and exploring the social and ethical implications. Applications will be covered in biology, medicine, computers, and electronics.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

---

### MECH 261

**Biotechnology**

3 Semester Hours

An introduction to the integration of nanotechnology and molecular biology to solve industrial, economic, and medical problems. Such topics will include biological processes, DNA sequencing, recombinant DNA, genes, RNA, proteins, engineering bacteria, cloning, diagnostics, and drug delivery. The social and ethical implications will be covered.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

---

### MECH 262

**Information Technology**

3 Semester Hours

An introduction to communication systems and data processing. Such topics will include the electromagnetic spectrum, analog/digital transmission, Internet, computers, telephones, cell phones, radio, television, micro/nano-electronics, the history of modern information technology, and the social/ethical consequences.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.
MECH 270
Materials
3 Semester Hours

Introduction to the chemistry and physics of different materials. Types of materials (metals, ceramics, polymers, and composites) and the relation between their structure and properties. Selection of materials in different applications.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MECH 275
Energy and the Environment
3 Semester Hours

The basic concepts of temperature, heat, and energy conversion; various methods of energy conversion including stationary electric power plants, nuclear energy, solar heating and cooling, wind energy, geothermal energy, and ocean thermal energy; the effects of energy conversion on the environment.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

MECH 298
Special Studies
1-3 Semester Hours

MECH 299
Independent Studies
1-3 Semester Hours

MECH 300
Professional Seminar
1 Semester Hour

Preparation for professional work and graduate studies. Resume and cover letter. Mock interviews. Career options: small, medium, and large firms; consulting; government service. US and foreign graduate schools, patent, trademark, and copyright law. Professional societies.

Lecture, 1 hour.

MECH 312
Materials Science
3 Semester Hours

A study of metallic, polymeric, and ceramic materials, emphasizing dependence of mechanical and electrical properties on solid-state bonding forces and microstructure. Introductory design considerations.

Lecture, 3 hours.

Prerequisites: CHEM 110 and 111.

Corequisite: MECH 341.

MECH 315
Metallurgical and Materials Engineering
3 Semester Hours

A concise introduction to the relationship of the microstructures and processing of metallic, ceramic, polymer, and composite materials and their relation to the properties required in engineering design.

Lecture, 3 hours.

Prerequisites: CIVL 200 and MECH 312.

Corequisite: MECH 342.

MECH 334
Dynamics II
3 Semester Hours

Lecture, 3 hours.

Prerequisite: MECH 231.

MECH 340
Engineering Systems II
3 Semester Hours

Process dynamics, instrumentation, and feedback applied to automatic process control.

Lecture, 3 hours.

Prerequisite: MATH 245.
MECH 341  
Mechanical Engineering Lab I  
2 Semester Hours

Students, working in teams, implement experimental projects in the disciplines of material science, mechanics of materials, fluid mechanics, and thermodynamics. Lab safety, instrumentation, test planning, data analysis, and report writing are emphasized.

Lecture/Laboratory, 3 hours.

Prerequisite: Junior standing.

MECH 342  
Mechanical Engineering Lab II  
2 Semester Hours

A continuation of MECH 341 with projects in the disciplines of metallurgy and heat transfer. Lab safety, statistical data analysis, and report writing are emphasized.

Lecture/Laboratory, 3 hours.

Prerequisite: MECH 341.

Corequisites: MECH 315 and 353.

MECH 345  
Introduction to Probability and Statistics  
1 Semester Hour

An introductory course into probability and statistics: conditional probability, independence, random variables, distributions, densities, sampling, statistical confidence.

Lecture, 1 hour.

Prerequisite: Junior standing in Mechanical Engineering.

MECH 353  
Heat Transfer  
3 Semester Hours

Lecture, 3 hours.

Prerequisite: MECH 251 or PHYS 202 and CMSI 185 or ENGR 240.

MECH 398  
Special Studies  
1-3 Semester Hours

MECH 399  
Independent Studies  
1-3 Semester Hours

MECH 441  
Mechanical Engineering Lab III  
2 Semester Hours

Laboratory applications of vibrations and data acquisition; elasticity, buckling, material testing; computer-aided manufacturing such as NC machining, rapid prototyping, and robotics; tribology; alternative energy technologies such as solar panels and fuel cells.

Lecture/Laboratory, 3 hours.

Corequisites: MECH 483 and 550.

MECH 483  
Elements of Design  
3 Semester Hours

The philosophy of design. Development of the methods of design. Application of the analysis of mechanical systems for stress, deflection, buckling, fatigue, and general reliability to the design of components such as springs, power screws, fasteners, bearings, and gears.

Lecture, 3 hours.

Prerequisites: CIVL 200 and MECH 334.

MECH 484  
Mechanical Engineering Design  
3 Semester Hours

Capstone design projects. The philosophy and methodology of design applied to mechanical engineering systems. The main steps involved in the design process include needs assessment, problem formulation, abstraction and synthesis, and analysis. Project record books, design reviews, design drawings, oral presentations, and a final report are required.

Prerequisite: MECH 483.

Corequisite: ENGR 400.

MECH 488  
Thermal Systems Engineering  
3 Semester Hours

Selected topics from thermodynamics, fluid mechanics, and heat transfer to include: review of fundamental concepts; boundary layer theory; isentropic flow through nozzles; shock waves; exergy analysis; gas mixtures; heat exchangers and design.

Lecture, 3 hours.

Prerequisites: CIVL 310 and MECH 353.
MECH 491
Industrial Assessment Center Practicum
3 Semester Hours

MECH 493
Mechanical Engineering Internship
1-3 Semester Hours

Engineering analysis, testing, design, and/or production work conducted by the student in an industrial setting. The work will be supervised jointly by an engineer with the industrial firm and by an LMU Mechanical Engineering faculty member. The project must be approved by the Departmental faculty. Senior standing is required.

MECH 496
ASME Student Design Contest
1-3 Semester Hours

Participation in a multidisciplinary team competition, namely the ASME Student Design Contest or others approved by the Department. The main steps involved in producing the completed design include problem formulation, abstraction and synthesis, analysis, building a prototype design, testing and building the final design.

MECH 498
Special Studies
1-3 Semester Hours

MECH 499
Independent Studies
1-3 Semester Hours

MECH 500
Quality
3 Semester Hours

History and philosophy of quality; concurrent engineering; design and optimization of both product and process, optimization of matrix organizations; continuous improvement; spontaneous suggestions, PDCA cycle, Kaizen, Six Sigma, Theory of Constraint, benchmarking, brainstorming, re-engineering; Deming's profound knowledge and 14 points, Quantitative Methods; charts, Andon, Design of Experiments (optimization of processes, robustness, full factorials, fractional factorials, folding, Plackett-Burnam, introduction to nonlinear designs), Statistical Process Control; Quality systems; ISO 9001:2000, ISO 14001, CMMI, Malcolm Baldridge, TQM Self-Assessment Tool.

Lecture, 3 hours.

MECH 516
Materials Selection in Design
3 Semester Hours

Application of principles of materials engineering to selection of materials for optimized engineering design, case studies in failure analysis.

Lecture, 3 hours.
Prerequisite: Senior standing in Mechanical Engineering.

MECH 525
Advanced Mechanics of Materials
3 Semester Hours

General case of bending, combined bending and axial loads, curved bars, energy methods, buckling and elastic stability. Inelastic and plastic deformations.

Lecture, 3 hours.
Prerequisite: Senior standing in Mechanical Engineering.

Natural Science

Bachelor of Science in Natural Science

**General Science Emphasis**

**Pre-Physical/Occupational Therapy Emphasis**

**Secondary Science Education Emphases**

Bachelor of Science in Athletic Training

Bachelor of Science in Environmental Science

**Faculty**

Chairperson: John H. Dorsey
Professor: James M. Landry
Associate Professor: John H. Dorsey
Assistant Professors: Hawley C. Almstedt, David A. Ramirez, Sarah Strand, Carolyn M. Viviano

The Natural Science Department offers programs of study applying basic scientific knowledge to either multidisciplinary fields of study or specialties not easily accommodated through the traditional science disciplines. The Department offers three majors: the Natural Science major, with emphases in General Science, Pre-Physical/Occupational Therapy, and Secondary Science Education; the Athletic Training major, and the Environmental Science major. All students in the Department of Natural Science are required to complete an Independent Studies course. This can be accomplished by carrying out a research project under the guidance of a faculty member or through an internship in the area of interest.

### Bachelor of Science in Natural Science

The Natural Science major fills a need within the University for a more flexible general undergraduate degree program with an emphasis on natural sciences. In addition, specialized programs within Natural Science provide prerequisite training for graduate programs in physical and occupational therapies (and other allied health professions) and content preparation for a high school teaching credential.

### General Science Emphasis

#### Objectives

The Natural Science major, General Science emphasis, is designed to serve those students interested in a broad education combining general science, engineering science, and liberal arts.

The program prepares students interested in the areas of law, business, elementary education, studio and graphic arts, journalism, and other professions for work where a science background could be an asset.

#### Major Requirements

66 semester hours are to be taken from course offerings in the Departments of Biology, Chemistry, Mathematics, Natural Science, Physics, and Engineering.

**Lower Division Requirements:**

- NTLS 190 and one additional course must be taken in Natural Science. At least two courses numbered 100-259 must be taken from the Departments of Biology, Chemistry, Mathematics, and Physics. MATH 122 or 131 must be included. In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

**Upper Division Requirements:**

- 7 semester hours must be taken in upper division offerings in the Departments of Biology, Chemistry, Natural Science, or Physics. This includes an upper division NTLS course with lab and two additional upper division laboratory courses. Up to 6 semester hours of internship courses, undergraduate research courses, and natural science teaching courses can be counted toward the upper division science requirement.

- This requirement includes completion of 3 semester hours of Independent Studies at the senior level to enhance development of the student's science program.

- A student must have a C (2.0) average in upper division science courses.

#### Minor Requirements

18 semester hours consisting of four courses at the lower division level (excluding NTLS 190) and two courses at the upper division level. In addition, one laboratory course is required.

This minor is not available to students within the Frank R. Seaver College of Science and Engineering.

The proper sequence of the University Core courses should be discussed with the student’s advisor. The course sequence in Mathematics depends on the results of the mathematics placement examination.
Pre-Physical/Occupational Therapy Emphasis

Objectives

This emphasis provides the student with the required courses in science, mathematics, psychology, and liberal arts needed to apply to either physical therapy or occupational therapy graduate programs. In addition, students are required to do internship work in a physical therapy or occupational therapy setting. This internship experience helps satisfy the volunteer hours required by the physical therapy or occupational therapy graduate programs.

Major Requirements

Lower Division Requirements:

BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; MATH 104, 122; NTLS 151, 152, 153, 154, 190, 255; PHYS 253, 254; PSYC 100.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

27 semester hours must be taken in upper division offerings in the Departments of Biology, Chemistry, Natural Science, or Physics and must include: NTLS 355, 356, 480, 485, and 495. Two additional upper division laboratory courses must be taken. Up to 6 semester hours of internship courses, undergraduate research courses, and natural science teaching courses can be counted toward the upper division science requirement.

A student must have a C (2.0) average in upper division science courses.

The following upper division psychology courses are required: PSYC 332 and 352.

Secondary Science Education

**Emphases**

**Objectives**

These programs of study provide a good grounding in basic scientific and mathematical principles appropriate for those interested in pursuing teaching careers at the secondary level. The programs consist of: a breadth of knowledge requirement specifying courses in Biology, Chemistry, Geosciences, and Physics, a concentration requirement which allows for in-depth study in Biology or Chemistry, and an education requirement. Our subject matter preparation programs have been approved by the California Commission on Teacher Credentialing.

Bachelor of Science in Athletic Training

Director: David A. Ramirez

The Athletic Training major is designed for students interested in pursuing a career as a certified athletic trainer. The profession of Athletic Training is recognized by the American Medical Association as an allied health profession. Certified Athletic Trainers (ATC) are members of the National Athletic Trainers' Association (NATA) and are medical experts in preventing, assessing, managing, and rehabilitating injuries that result from physical activity. ATCs function as integral members of the health care team in professional sports organizations, colleges and universities, secondary schools, military branches, sports medicine clinics, industrial settings, and other health care venues.

Accreditation

The Athletic Training major curriculum, referred to as the Athletic Training Education Program (ATEP), is seeking accreditation through the Commission on the Accreditation of Athletic Training Education (CAATE). Accreditation will follow pending completion of a minimum of two years of candidacy, submission of a self-study, and undergoing a site visit.

Objectives

Once accredited, the LMU athletic training student who successfully completes the ATEP curriculum earning a Bachelor of Science degree in Athletic Training will qualify to take the National Athletic Trainers’ Association—Board of Certification national exam to become a Certified Athletic Trainer. Also, the athletic training program provides the prerequisites needed to apply to graduate programs in a number of allied health careers. These include, but are not limited to, athletic training, physical therapy, occupational therapy, exercise science, and nutrition.

Athletic Training Education Program (ATEP)

As well as the general LMU entrance requirements, there are additional standards for continuation and completion of the ATEP. Each student will be reviewed in five areas: 1) collegiate academic performance, 2) personal and professional recommendations, 3) written communications, 4) oral communications, and 5) practical experiences. Each student in the ATEP will commit to a minimum of four semesters of clinical experiences. Those in the ATEP will be progressively rotated through a variety of clinical settings to learn and perfect the needed knowledge and skills.

Those students interested in the Athletic Training Education Program should meet as soon as possible with the Director to plan their academic program.

Major Requirements

Lower Division Requirements:

BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; MATH 104 and 122; NTLS 151, 152, 153, 154, 160, 162, 190, 255; PHYS 253, 254; PSYC 100.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

Upper Division Requirements:

37 semester hours must be taken in upper division natural science courses which include: NTLS 355, 356, 360, 362, 368, 369, 397, 460, 462, 464, 468, 469, 480, 485, and 497.

A student must have a C (2.0) average in upper division science courses.

One upper division psychology course is required: PSYC 332 or 352.

---
The proper sequence of the University Core courses should be discussed with the student’s advisor. The course sequence in Mathematics depends on the results of the mathematics placement examination.

**Bachelor of Science in Environmental Science**

**Objectives**

The objective of the Environmental Science major is to prepare a student for a career in the field of environmental sciences. Students receiving this degree can either pursue graduate studies, or enter the field of environmental science where many jobs are available, for example, with various private businesses, government agencies, and environmental advocacy groups.

The Environmental Science major is a rigorous interdisciplinary program involving course work in biology, chemistry, physics, and environmental science and engineering. Environmental science classes focus on theoretical and technical knowledge of the generation, transport and fate of pollutants, their impacts on natural resources and human health, resource management, and conveying technical information. Laboratory courses are designed to maximize hands-on experience in collecting samples from various media, and using an array of equipment to characterize samples of soils, water, and air. Many of the environmental science courses include field trips to the adjacent Ballona Wetlands and Santa Monica Bay to demonstrate methods for collecting samples, and to study environmental conditions and resident biota. Internships with local environmental organizations and companies are an integral component of the program. The major requires that the student conduct a research project followed by presentation of results upon completion.

### Major Requirements

#### Lower Division Requirements:

- BIOL 101, 102, 111, and 112; CHEM 110, 111, 112, 113, 220, 221, 222, and 223; MATH 104, 122, and 123; NTLS 101, 190, and 50; PHYS 253 and 254.

In order to be eligible to take an upper division science course, a student must have a C (2.0) average in the lower division science courses.

#### Upper Division Requirements:

33 upper division hours which will include: BIOL 318, 319, 361, and 362; CHEM 360 and 361; and NTLS 301, 302, 330, 332, 401, 512, and 525. In addition, an upper division elective course in natural science and an upper division science elective are required.

A student must have a C (2.0) average in upper division science courses.

#### Minor Requirements: Environmental Science

- BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113; NTLS 101, 301, 302, 330. Any substitution must be made with the consent of the Chairperson of the Department.

A grade of C (2.0) must be obtained in each course included in the minor.

The proper sequence of the University Core courses should be discussed with the student's advisor. The course sequence in Mathematics depends on the results of the Mathematics Placement Exam.

**NTLS 101**

**Introduction to Environmental Science**

*3 Semester Hours*

Introduction to the study of environmental science. Examination of issues and problems associated with the environment including examples from air, water, and soil pollution and some remediation strategies.
NTLS 120
Biology and Chemistry Applications
4 Semester Hours

Fundamentals of biology and chemistry for engineering and science applications. Topics include microbial processes, cell chemistry and biology, rates of reaction, chemical equilibria, acid-base chemistry, and reduction oxidation reactions as they apply to bioengineering, material science, nanotechnology, medical, and environmental applications. This is a project-based course conducted in a laboratory environment.

Lecture/lab, 4 hours.

NTLS 150
Human Anatomy and Physiology
3 Semester Hours

The development, structure, and function of the human body with emphasis on integration and homeostasis.

For majors in psychology only.

NTLS 151
Human Anatomy and Physiology I
3 Semester Hours

Comprehensive coverage of anatomy and physiology for the pre-health professions major. Topics include homeostasis and integumentary, skeletal, muscular, nervous, and endocrine systems.

Lecture, 3 hours.

NTLS 152
Human Anatomy and Physiology I Lab
1 Semester Hour

Companion lab course to NTLS 151.

Laboratory, 4 hours.

Prerequisite: NTLS 151 or concurrent enrollment.

NTLS 153
Human Anatomy and Physiology II
3 Semester Hours

Continuation of comprehensive coverage of anatomy and physiology for the pre-health professions major. Topics include blood, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems.

Lecture, 3 hours.

NTLS 154
Human Anatomy and Physiology II Lab
1 Semester Hour

Companion lab course to NTLS 153.

Laboratory, 4 hours.

Prerequisite: NTLS 153 or concurrent enrollment.

NTLS 160
Principles of Athletic Training
3 Semester Hours

Provides knowledge in prevention, care and treatment practices relating to activities and the physical conditioning of the physically active. Serves as an introduction to pathology, signs and symptoms recognition and management procedures of common injuries.

Lecture, 3 hours.

NTLS 162
First Aid and Emergency Response
2 Semester Hours

An advanced first aid course addressing responses to life-threatening emergencies. Injuries examined include those to the head, spine, and abdominal/thorax, while illnesses discussed include heat illness, shock, asthma, and diabetes. CPR and first aid certificate granted upon successful completion.

Lecture, 2 hours.

NTLS 180
Freshman Academic Excellence Workshop
1 Semester Hour

This workshop co-sponsored by the Frank R. Seaver College of Science and Engineering’s Center for Student Success and the LMU Learning Resource Center is designed to increase potential for academic success in freshman coursework with an emphasis on General Chemistry.

Workshop, 1.5 hours.

Corequisite: CHEM 110 or 111 or 112 or 113.

NTLS 190
Exploring the Natural Sciences
1 Semester Hour

Introduction to the areas of study and career opportunities within the natural sciences.

Frank R. Seaver College of Science and Engineering majors only.
**NTLS 198**  
Special Studies  
0-4 Semester Hours

**NTLS 199**  
Independent Studies  
1-4 Semester Hours

**NTLS 250**  
The Blue Planet: Introduction to Earth System Science  
3 Semester Hours

Students will learn about the earth's internal and external structure and the different types of materials that make up the planet. Students will study the various processes that are acting to alter and change the minerals and rocks within the earth and the geomorphic processes such as weathering, erosion, and deposition that are acting at the surface. Students will also learn about natural/environmental hazards, the importance of various natural mineral resources, and the history of the earth and its life forms.

Lecture, 3 hours.

**NTLS 255**  
Nutrition  
3 Semester Hours

Nutrients and their functions; recommended nutrient intakes and dietary adequacy; relationship of nutrition to optimum health and the relationship between diet and disease.

Lecture, 3 hours.

**NTLS 261**  
The Science in Science Fiction  
3 Semester Hours

The physics, chemistry, and biology found in science fiction literature are examined for accuracy and probability. Topics include the physics of space and space habitats, the chemistry and biology of life arising under non-earthlike conditions, and the ecology of imagined worlds. “Engineering” new worlds on the basis of sound scientific theory will be expected. Understanding of physical implications of simple algebraic expressions is required.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

**NTLS 263**  
Surfin’ Science  
3 Semester Hours

Various basic principles of oceanography, meteorology, and marine biology are explored as applied to the art of surfing. Topics include the genesis, propagation, and dynamics of waves; marine weather systems and surf prediction; marine organisms; and marine pollution issues of concern to surfers.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

**NTLS 264**  
Survey of Marine Pollution  
3 Semester Hours

Information and discussion about marine pollution problems in Southern California. Issues of safe swimming, safe consumption of fish, and protection of marine environment will be examined.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

**NTLS 265**  
Women in Science and Mathematics: Breaking the Stereotype  
3 Semester Hours

A study of the work of prominent women scientists and mathematicians. The course will also examine their lives and how they succeeded in traditionally male disciplines.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

**NTLS 267**  
The Science and Life of Galileo  
3 Semester Hours

A study of the scientific works of Galileo and how they influenced changes in our world view during the 17th century.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.
NTLS 270
Experimenting in Science I
4 Semester Hours
Combination lecture and laboratory course designed to acquaint student with how science is done. Emphasis on active learning strategies such as performing experiments, demonstrations, group discussions. The study of general science principles, such as those typically introduced in K-8 education, in the areas of physical and earth science.

Lecture, 3 hours; Laboratory, 2 hours.

Liberal Studies majors only.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 271
Experimenting in Science II
4 Semester Hours
Combination lecture and laboratory course designed to acquaint student with how science is done. Emphasis on active learning strategies such as performing experiments, demonstrations, group discussions. The study of general science principles, such as those typically introduced in K-8 education, in the areas of earth science and life science.

Lecture, 3 hours; Laboratory, 2 hours.

Liberal Studies majors only.

Prerequisite: NTLS 270.

NTLS 272
Technology and the Environment
3 Semester Hours
Scientific principles applied to Environmental Management and Public Health. The historical perspective. Pollution control and planning in the area of water resources, solid and liquid waste management. Radiation and thermonuclear power production, fundamentals of energy.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 273
Earthquakes and Landslides
3 Semester Hours
Examination of the processes that control the genesis and distribution of earthquakes, and review of methods of measuring and predicting earth movements.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 274
Volcanoes—Origins and Processes
3 Semester Hours
Examination of volcanoes, their etiology, world-wide distribution, and evaluation of their impact on local and global ecologies.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 276
Atmospheric Science
3 Semester Hours
The study of general phenomena of weather, including storms, atmospheric disturbances, and possible effects of pollution. This course involves weather forecasting using real-time meteorological data.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 278
Special Studies
1-4 Semester Hours

NTLS 299
Independent Studies
1-4 Semester Hours

NTLS 301
Environmental Science
3 Semester Hours
Study of environmental science problems stressing an interdisciplinary approach. Analysis of problem and formulation of remediation strategies considering appropriate principles from biology, chemistry, physics, earth science, and engineering.

Prerequisites: BIOL 101 and 102; CHEM 110 and 112.

NTLS 302
Environmental Science Lab I
1 Semester Hour
Use of standard tests in environmental science to determine chemical and biological species of interest in air, water, and soil systems.

Laboratory, 4 hours.

Prerequisite: NTLS 301 or concurrent enrollment.
NTLS 310
Oceanography
3 Semester Hours
The basic concepts of physical and biological oceanography will be presented.
Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113.

NTLS 320
Science, Theology, and the Future
3 Semester Hours
A look at scientific discoveries, advances, and knowledge will be presented. The implications of the findings in science on theological questions and our world view will be explored.
Prerequisites: BIOL 101, 102, 111, 112; CHEM 110, 111, 112, 113.

NTLS 330
Environmental Chemistry
3 Semester Hours
A study of environmental chemistry. Topics include stratospheric chemistry, the chemistry of ground-level air and air pollution, toxic organic chemicals, the chemistry of natural waters, soil chemistry and heavy metals, energy production and the environment.
Prerequisites: CHEM 112 and 113.

NTLS 332
Environmental Science Lab II
1 Semester Hour
Use of standard methods of analysis to determine pollutants found in air, water, and soil systems. Emphasis will be on the use of instrumental methods and techniques.
Laboratory, 4 hours.
Prerequisites: BIOL 101 and 102; CHEM 110 and 112.

NTLS 355
Exercise Physiology
3 Semester Hours
Thorough examination of the biochemical, cellular, and organ system functions and adaptations associated with acute and chronic exercise.
Prerequisites: NTLS 153 and 154.

NTLS 356
Exercise Physiology Lab
1 Semester Hour
Hands-on application of exercise physiology. Exercise testing, evaluation of health status, and exercise prescription.
Prerequisite: NTLS 355 or concurrent enrollment.

NTLS 360
Upper Extremity Evaluation
3 Semester Hours
In-depth instruction on anatomy and functional abilities of the upper extremity. Emphasis on the assessment techniques for recognizing and evaluating athletic-related injuries. Additional concentration on the cervical region and postural issues of the spine will be addressed.
Prerequisites: NTLS 151 and 152 or concurrent enrollment.

NTLS 362
Lower Extremity Evaluation
3 Semester Hours
In-depth instruction on anatomy and functional abilities of the lower extremity. Emphasis on the assessment techniques for recognizing and evaluating athletic-related injuries. Additional concentration on the thoracic, lumbar, and sacral regions of the spine and gait analysis will be addressed.
Prerequisites: NTLS 153 and 154 or concurrent enrollment; NTLS 360.

NTLS 367
The Science and Life of Galileo
3 Semester Hours
A study of the scientific works of Galileo and how they influenced changes in our world view during the 17th century.
Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

NTLS 368
Athletic Training Practicum I
1 Semester Hour
Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.
Prerequisite: NTLS 160 or 360.
NTLS 369
Athletic Training Practicum II
1 Semester Hour

Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.

Prerequisite: NTLS 368.

NTLS 370
Workshop Biology: Life Works I
3 Semester Hours

The course discusses science pedagogy and allows students to experience working with science content as teachers, before they enter the classroom. Students will complete at least twenty hours of observation in high school classrooms and will be teaching lessons that they develop.

NTLS 371
Workshop Biology: Life Works I Laboratory
0 Semester Hours

The laboratory companion course for NTLS 370.

Corequisite: NTLS 370.

NTLS 372
Workshop Biology: Life Works II
3 Semester Hours

This course is a continuation of NTLS 370.

Prerequisites: NTLS 370 and 371.

NTLS 373
Workshop Biology: Life Works II Laboratory
0 Semester Hours

The laboratory companion course for NTLS 372.

Corequisite: NTLS 372.

NTLS 376
Workshop Chemistry: The Elements of Nature I
3 Semester Hours

The course discusses science pedagogy and allows students to experience working with science content as teachers, before they enter the classroom. Students will complete at least twenty hours of observation in high school classrooms and will be teaching lessons that they develop.

NTLS 377
Workshop Chemistry: The Elements of Nature I Laboratory
0 Semester Hours

The laboratory companion course for NTLS 376.

Corequisite: NTLS 376.

NTLS 378
Workshop Chemistry: The Elements of Nature II
3 Semester Hours

This course is a continuation of NTLS 376.

Prerequisites: NTLS 376 and 377.

NTLS 379
Workshop Chemistry: The Elements of Nature II Laboratory
0 Semester Hours

The laboratory companion course for NTLS 378.

Corequisite: NTLS 378.

NTLS 380
Freshman Academic Excellence Facilitation
0-1 Semester Hours

Advanced undergraduate students in the Frank R. Seaver College of Science and Engineering serve as facilitators to help freshman students enrolled in NTLS 180 learn to work through academic problems, identify patterns within those problems, and solve them with an emphasis on General Chemistry.

Workshop, 1.5 hours.

NTLS 397
Athletic Training Internship I
4 Semester Hours

Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. Emphasis on sport assignment and the daily working experience and duties associated with each respective team. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.

Prerequisite: NTLS 468.

NTLS 398
Special Studies
1-4 Semester Hours
NTLS 399
Independent Studies
1-4 Semester Hours

NTLS 401
Senior Seminar/Project
3 Semester Hours

Research work on a project within the field of environmental science including presentation of a seminar over work.

NTLS 455
Advanced Nutrition
3 Semester Hours

Chemical and physiological studies of carbohydrate, protein, lipid, vitamin, and mineral metabolism. Application to the normal nutrition of human beings with special focus on optimal health and performance. Evaluation and interpretation of nutritional research methodology and findings.

Prerequisite: NTLS 255.

NTLS 456
Advanced Nutrition Laboratory
1 Semester Hour

Application and evaluation of techniques used to assess nutritional status. Biochemical analysis of nutrients and metabolites in body fluids. Communication, marketing, and counseling in the nutrition field.

Corequisite: NTLS 455.

NTLS 458
Psychobiology Research
3 Semester Hours

Students participate in on-going laboratory research on the psychobiology of learning and memory. Emphasis is on theoretical and methodological issues, research design, data collection, analysis, and interpretation.

Prerequisites: Grade of B (3.0) or higher in each: PSYC 241, 243, 261, 265. Grade of C (2.0) or higher in each: PSYC 401, 410, 415. Consent of instructor.

NTLS 460
Therapeutic Modalities in Sports Medicine
3 Semester Hours

Provides information regarding the physics and physiological effects of athletic training modalities. Gain understanding of the inflammatory process and pain management in relation to athletic injuries. Includes the physiological reactions, contraindications, and indications to such modalities as heat, cold, electricity, ultrasound, water, and massage. Instruction on proper use and application of specific modalities.

Prerequisites: NTLS 153 and 154.

NTLS 462
Therapeutic Rehabilitation in Sports Medicine
3 Semester Hours

Instruction on how to design, implement, and supervise rehabilitation programs for sports-related injuries and conditions. Theoretical and clinical bases for the use of therapeutic exercises, basic biomechanics, indications, contraindications, and proper application of exercises in therapeutic rehabilitation.

Prerequisites: NTLS 153 and 154.

NTLS 464
Administration in Sports Medicine
3 Semester Hours

Addresses organization and administration of athletic training programs both in athletic training rooms and clinical sites. Areas such as building a facility, legal issues, staffing, budgeting, insurance, computer use, record keeping, emergency care planning, and public relations will be discussed. Pharmacological issues as they pertain to athletic performance will be addressed.

NTLS 468
Athletic Training Practicum III
1 Semester Hour

Supervised experience in an athletic training environment. Additional study required with an emphasis on athletic training techniques and athletic injury management. An athletic training environment consists of any of the following sites: LMU athletic training room; local high school, college or university athletic training room; physical therapy clinic; or related health care facility.

Prerequisite: NTLS 369.

</tr>
</tbody>
</table>
### NTLS 513
**Solid Wastes Engineering**  
2 Semester Hours  

An application of current technology in the control, disposal, and recovery of value from solid wastes.

### NTLS 525
**Inland Waters**  
2 Semester Hours  

The structure and movement of water in lakes, rivers, and estuaries; cyclical and progressive changes of the physical, chemical, and biological composition of aquatic systems are discussed along with an explanation of lake remediation techniques.

Lecture, 2 hours.

### NTLS 531
**Principles of Water Quality**  
2 Semester Hours  

Review of basic parameters used to describe water quality. Fundamentals of aquatic interaction in natural systems and fate of pollutants in the natural environments. Basic water and wastewater treatment systems.

Prerequisite: Consent of Director.

### NTLS 534
**Groundwater Management**  
2 Semester Hours  

Management of groundwater basins for optimum yield, quality, and environmental consideration, artificial recharge, methods of exploration, groundwater models, water rights, and conjunctive use of surface and groundwater.

### NTLS 548
**Hazardous Substances Management**  
2 Semester Hours  

The study of regulation and management strategies for environment programs (hazardous substances), including hazardous waste, asbestos, underground tanks, air pollution, and the California Environmental Quality Act.

### NTLS 591
**Science Education Internship**  
1-4 Semester Hours  

Work on a project in science education either in the elementary school or secondary school setting or at another appropriate location.

### NTLS 593
**Environmental Science Internship Workshop**  
1-4 Semester Hours  

Advanced work experience in the field of environmental science in a research, industry, or municipal setting.

### NTLS 598
**Special Studies**  
1-4 Semester Hours  

### NTLS 599
**Independent Studies**  
1-4 Semester Hours
Physics and Engineering Physics

Faculty

Professors: John B. Bulman, Vincent P. Coletta, Jeff Sanny  
Associate Professor: Gabriele Varieschi  
Assistant Professors: Jonas R. Mureika, Jeffrey A. Phillips  
Adjunct Professor: James McCarthy

Physics

Objectives
The B.S. Physics degree provides a solid foundation in classical and modern physics. This program is well suited for the student who wishes to continue the study of physics at the graduate level, leading to a career in research and/or university teaching. With a proper choice of electives, the physics degree is also suitable for a variety of other careers requiring graduate education. Physics graduates can pursue advanced studies in fields such as optics, biophysics, geophysics and space science, nuclear engineering, business management, or law. Some physics majors choose electives that prepare them for medical school. Physics graduates can also select immediate employment in a number of areas, including high school teaching and various areas of industrial science and technology. Because of the flexibility of the physics major, with its numerous electives, it is possible to double major in physics and some other discipline. Examples of double degrees that can be completed in four years are physics and math, or physics and chemistry. Each of these double majors is very powerful, in that it develops the ability to solve problems that require a knowledge of two separate disciplines.

Major Requirements

Lower Division Requirements:

CHEM 110, 111, 112, 113; CMSI 185; MATH 131, 132, 234, 245; PHYS 101, 190, 201, 202, 212. Each course in MATH and PHYS listed above must be passed with a grade of C (2.0) or better.

Upper Division Requirements:

MATH 355 and one from MATH 350, 357 or 360; PHYS 301, 302, 321, 322, 411, 412, 421, 441, 451. To graduate, a student must have at least a 2.0 average in all upper division physics courses.

Minor Requirements

21 semester hours with at least 6 semester hours in upper division courses. These shall include PHYS 101, 201, 202, or PHYS 253, 254.

A grade of C (2.0) is required for every course included in the minor.

Engineering Physics

Objectives
The B.S. Engineering Physics degree provides extensive education in engineering as well as physics. The curriculum combines the strengths of a physics curriculum (with emphasis on understanding basic principles) and an engineering curriculum (with emphasis on applications). Graduates are especially well prepared for either graduate work in engineering or applied physics or for immediate employment by companies with an engineering research orientation. With the right electives, the curriculum provides excellent preparation for graduate work in biomedical engineering.

Major Requirements

Lower Division:

CHEM 110, 111; ELEC 232, 281; ENGR 100, 140, 200, 240; MATH 131, 132, 234, 245; PHYS 101, 190, 201, 202, 212.

Each course in MATH and PHYS listed above must be passed with a grade of C (2.0) or better.

Upper Division:

ELEC 301, 353, 354; MATH 355; PHYS 301, 302, 321, 322, 412, 421, 441. Students must also take a two-course sequence in a technical area. Among the options are: ELEC 302 and ELEC 383; MECH 353 and PHYS 451; ELEC 371 and ELEC 423. To graduate, a student must have at least a 2.0 average in all upper division physics courses.

* A two-course sequence in a technical area is required. Some recommended sequences are:

a) ELEC 302 Junior Lab II and ELEC 383 Introduction to Microprocessors
b) MECH 353 Heat Transfer and PHYS 451 Thermodynamics and Statistical Mechanics
c) ELEC 371 Linear Systems and ELEC 423 Communications I
PHYS 101
Introduction to Mechanics
4 Semester Hours

Vectors, Newton's laws of motion, work and energy, impulse and momentum, rotation, angular momentum, static equilibrium, harmonic motion. May include a brief introduction to quantum mechanics. Laboratory experiments pertaining to mechanics. Measurement, estimation, and uncertainty. Projectile motion, Newton's laws, friction, torque.

Lecture, 3 hours; Laboratory, 2 hours.
Prerequisite or concurrent enrollment: MATH 131.

PHYS 103
Introduction to Mechanics Laboratory
0 Semester Hours

Laboratory experiments pertaining to mechanics. Measurement, estimation, and uncertainty. Projectile motion, Newton's laws, friction, torque.

Laboratory, 2 hours.
Corequisite: PHYS 101.

PHYS 150
Fundamental Ideas of Physics
4 Semester Hours

Discussions and experiments on selected topics such as motion, electricity and magnetism, heat, sound, and light.

Liberal Studies majors only.

Lecture, 3 hours; Laboratory, 1 hour.
Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

PHYS 151
Physical Science
4 Semester Hours

An introduction to the physical sciences, including physics, chemistry, astronomy, and geology, with an emphasis on conceptual understanding.

Lecture, 3 hours; Laboratory, 2 hours.
Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

PHYS 190
Workshop in Physics
1 Semester Hour

Problem-solving skills. Fields of study and recent advances in physics. Career opportunities in physics.

Lecture, 1 hour.

PHYS 198
Special Studies
1-4 Semester Hours

PHYS 199
Independent Studies
1-4 Semester Hours

PHYS 201
Introduction to Electricity and Magnetism
4 Semester Hours

Lecture, 3 hours; Laboratory, 2 hours.
Prerequisite: PHYS 101.
Prerequisite or concurrent enrollment: MATH 13.

PHYS 202
Introduction to Thermodynamics and Optics
4 Semester Hours

Lecture, 3 hours; Laboratory, 2 hours.
Prerequisite: PHYS 101.
Prerequisite or concurrent enrollment: MATH 132.
PHYS 203
Introduction to Electricity and Magnetism Laboratory
0 Semester Hours

Laboratory experiments pertaining to electricity and magnetism. Coulomb's Law, static electricity, electric field plotting, circuits, charge/mass ratio for electron.

Laboratory, 2 hours.

Corequisite: PHYS 201.

PHYS 204
Introduction to Thermodynamics and Optics Laboratory
0 Semester Hours

Laboratory experiments pertaining to thermodynamics and optics. Thermal expansion of solids, specific heat, mechanical equivalent of heat, ray tracing, spherical mirrors, thin lenses, optical model of the human eye, diffraction.

Laboratory, 2 hours.

PHYS 212
Intermediate Mechanics
3 Semester Hours

Lecture, 3 hours.

Prerequisite: PHYS 101.

Prerequisite or concurrent enrollment: MATH 245.

PHYS 253
General Physics I
4 Semester Hours

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisite or concurrent enrollment: MATH 122 or 131.

NOTE: The PHYS 253-254 series is suitable for biology and chemistry majors and others desiring a college-level experience in physics. This series is not acceptable for credit in the physics or engineering programs.

PHYS 254
General Physics II
4 Semester Hours

Lecture, 3 hours; Laboratory, 2 hours.

Prerequisite: PHYS 253.

PHYS 255
General Physics I Laboratory
0 Semester Hours

Laboratory experiments pertaining to mechanics, thermodynamics, and fluid mechanics.

Laboratory, 2 hours.

Corequisite: PHYS 253.

PHYS 256
General Physics II Laboratory
0 Semester Hours

Laboratory experiments pertaining to electricity, magnetism, and optics.

Laboratory, 2 hours.

Corequisite: PHYS 254.

PHYS 271
Astronomy
3 Semester Hours

Understanding the universe. Topics include: history of astronomy, solar system, stars, galaxies, evolution of the universe.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

PHYS 272
Physics
3 Semester Hours

An introduction to basic principles of physics. History of the development of physical theories, and the effects of science and technology on the world.

Lecture, 3 hours.

Prerequisite: MATH 101 or higher, or placement into MATH 106 or higher.

Clinical Education
Assistant Dean: Marta Sanchez
Coordinator of Clinical Education: Yolanda Neal
Coordinators of Fieldwork: Monica Boomgard, Elena Arriola-Freeman

Mission Statement
In accordance with the Mission of Loyola Marymount University, the faculty, staff, and students of the School of Education understand and declare our purpose to be the encouragement of life-long learning and academic excellence, the education of the whole person, and the promotion of service and justice for all. We commit ourselves to serving public and private education by fostering excellence inspired by the Marymount and Jesuit traditions of Catholic education.

Goal Statement
The faculty, staff, and students of the School of Education strive to work collaboratively in a student-centered environment to be professionals who act to:

- **Value and respect all individuals**
  We believe in the worth of each individual. We affirm the inherent dignity and value of each person as a child of God. Therefore, we believe that all individuals have the potential to be successful learners with unique characteristics and experiences that bring positive value and meaning to the learning experience.

- **Promote social justice**
  We recognize the existence of social inequity, marginalization, and the different faces of oppression, and we commit ourselves to work actively for the establishment of a just and equitable society. While it is important to understand critically the structures, practices, and discourses that cause and perpetuate injustice, we also aim to nurture transformative structures, practices, and discourses that actively promote greater equity. This commitment challenges us to think with a global perspective, to embrace the notion of a preferential option for the poor, and to act with a conviction of equity.

- **Promote cultural responsiveness**
  We recognize diversity as a strength, and we commit ourselves personally and professionally to serve culturally and linguistically diverse populations. These populations include those who represent cultural diversity broadly defined, including race, ethnicity, socio-economic status, gender, religion, sexual orientation, ability, and age. Among other valuable theories and approaches, we utilize sociocultural and constructivist perspectives in teaching and learning. We value these and other perspectives that promote active participation in learning as well as meaningful and authentic instruction and assessment and emphasize students’ cultural and linguistic background experiences.
• **Integrate theory and practice**
  We strive to unite theory and practice in a reciprocal relationship that mutually informs each other. We are a community of reflective practitioners, guided by critical inquiry and social responsibility. We actively engage in educational research, including faculty/student collaboration. We affirm the use of technology in education as authentic, meaningful, and accessible to all learners.

• **Develop moral, intellectual, responsible, and caring leaders**
  We are committed to the preparation of educators who will be leaders in the field and who reflect high standards of ethics and values. We seek to be, and to encourage others to be, women and men who have the intellectual skills to critically evaluate educational issues, have the moral conviction to respond as agents of change, and exhibit an ethic of care in the service of others.

• **Collaborate and share leadership across communities**
  We believe in the value of working collaboratively with the districts, schools, parents, and students of the communities we serve to successfully educate all learners. We recognize, support, and promote the gifts and talents of community members and encourage their participation in decision-making processes.

### Statement of Professional Dispositions

The National Council for Accreditation of Teacher Education (NCATE) requires the LMU School of Education to assess the professional dispositions of education credential and degree candidates. According to NCATE, professional dispositions are “The values, commitments, and professional ethics that influence behavior toward students, families, colleagues, and communities and affect student learning, motivation, and development as the educator’s own professional growth. Dispositions are guided by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility, and social justice.” Throughout a candidate's program, the faculty will assess the School of Education Unit and Program Professional Dispositions, and failure to meet professional expectations may result in a remediation process for the candidate. In extreme cases, failure to meet professional expectations could warrant dismissal from an education program. The School of Education holds four Unit Dispositions that shape the professional expectations for all candidates: “We strive to be, and to educate professionals to be, educators who: Respect and value all individuals and communities; Educate by integrating theory and practice; Advocate for access to a socially just education; and Lead in order to facilitate transformation.”

### Department of Teacher Education

**Chairperson:** Magaly Lavadenz

### Objectives

The Department of Teacher Education offers credential programs and minors in Education and is committed to preparing excellent teachers to educate the diverse population in California’s K-12 public and private schools. As an NCATE-accredited program, we offer professional preparation in research-based exemplary practices that include the requisite knowledge, skills, and dispositions required to ensure equity and excellence in education.

### I. CREDENTIAL PROGRAMS

**Preliminary California Teaching Credentials in**

- Elementary Education (SB 2042 Multiple Subjects)
- Secondary Education (SB 2042 Single Subject)
- Elementary or Secondary Education with a Bilingual Emphasis (Bilingual, Crosscultural, Language, and Academic Development (BCLAD), Spanish emphasis)
- Special Education (Education Specialist: Mild/Moderate Disabilities Level I and II)

Teaching credential requirements (listed within each program) are governed by the California Commission on Teacher Credentialing (CCTC) and are subject to change.

Students interested in pursuing credentials in Elementary Education, Secondary Education, Elementary Education with a Bilingual emphasis, Secondary Education with a Bilingual Emphasis, or Special Education, must attend an information session to begin the application process.

**APPLICATION DEADLINES:** Priority application deadlines are as follows:

- June 15—Fall semester
- November 15—Spring semester
- March 15—Summer Session

Students applying for admission to the School of Education are highly encouraged to submit their applications for admission and all supporting documents by the priority deadlines outlined above. Qualified applicants meeting this deadline will be given priority consideration for program placement.
Initial Application Process for Elementary, Secondary, BCLAD, and Special Education:

- Attend a mandatory information session to receive the following application materials:
  - School of Education application
  - Recommendation forms
  - Subject matter plan of action
  - Statement of Intent guidelines
  - Technology Self-Verification form
- A minimum GPA of 2.8 is required.
  - Students who do not meet this requirement must schedule an appointment with the Academic Program Director to be considered for admission.

Contact the School of Education Admissions Coordinator at (310) 338-7845 or soeinfo@lmu.edu for information session dates and times.

II. EDUCATION MINORS

Education minors are offered in Elementary Education, Secondary Education, Bilingual Education, and Special Education. Students pursuing a minor must complete 18 semester hours in Education coursework:

- Take the four prerequisite courses (see programs for specific courses)
- Meet with the Academic Program Director to declare the minor and obtain permission for additional coursework

III. TECHNOLOGY REQUIREMENT

All education courses require the usage of LiveText. An Electronic Portfolio fee will be billed by the student account upon admission to the School of Education.

Elementary Education

Academic Program Director: Irene Oliver

The 2042 Multiple Subject Preliminary Credential program is designed for students who are seeking teaching positions in grades K-5 or any self-contained classrooms in grades 6-8. A student successfully completing this program is eligible to receive a minor in Elementary Education and to apply for a California Preliminary Multiple Subject Credential.

Requirements for Provisional Admission

All of the following requirements must be completed and submitted to the School of Education, UH 2100, prior to scheduling an interview with the Academic Program Director.

- Complete three of the four following prerequisite courses and maintain a GPA of 2.8 or better
  - EDUC 400 Sociocultural Analysis of Education
  - EDUC 401 Educational Psychology for the Childhood and Adolescent Years
  - EDUC 414 Theories of Second Language Acquisition
  - EDUC 440 Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs
- Prerequisite courses are only available to sophomores (30 semester hours earned) or higher.
- Interested first year students should contact the Academic Program Director.
  - Plan to complete the fourth prerequisite prior to student teaching
  - Teacher Education Application form
  - Statement of Intent
  - Candidate Information Sheet
  - Submit one set of official transcripts from all colleges and universities attended other than LMU
  - Four letters of recommendations: three out of the four must be submitted for an interview. One letter must be from your major advisor
  - Verification of 0 hours of experience working with culturally and linguistically diverse youth groups, ages 4-13, or Plan of Action of Completion of 20 hours prior to student teaching
  - California Basic Educational Skills Test (CBEST) original passing score report
• Subject Matter Plan of Action completion
  - Students must demonstrate mastery of the required subject matter by passing the Multiple Subject California Subject Matter Exam for Teachers (Multiple Subject CSET).
  - Results of the CSET are only valid for five years.
• Technology Requirement
• Interview with Academic Program Director

Requirements for Formal Admission

All of the following are required once you have been formally admitted to the School of Education and must be fulfilled prior to enrollment in student teaching.

A “B” (3.0) grade point average must be maintained in all education coursework. A “D” (1.0) is not acceptable in any of the coursework in the sequence.

• Fingerprint Clearance – An original Certificate of Clearance must be received from the CCTC prior to enrolling in student teaching.
• TB test results—Valid within one year prior to student teaching.
• U.S. Constitution Requirement—Satisfied by one of the following:
  - Successfully completing one of the following LMU courses: AMCS 162, HIST 161, HIST 162, POLS 130, or POLS 135; or
  - Passing an approved examination through the History Department; or
  - Completing an approved course at another institution.
• Health Education requirement (verified on transcripts), satisfied by one of the following:
  - Completing EDUC 8000 (1 semester hour); or
  - Completing a 2042 approved health education course through another institution.
• Multiple Subject CSET original passing score report
• Complete the following methods courses (maintaining a GPA of 3.0 or better)
  EDUC 409 Literacy in the Curriculum
  EDUC 425 Methods in English Language Development and Specially Designed Academic Instruction in English
  EDUC 434 Elementary Curriculum and Methods
• Reading Instruction Competence Assessment (RICA)
  - Must be taken following completion of EDUC 409
  - Required to take, pass, and submit an original passing score report to the School of Education before the completion of student teaching
• Teaching Performance Assessment (TPA) 1 and 2 (fee based, 0 unit courses)
  EDUC 461 (TPA 1)
  EDUC 462 (TPA 2)

Requirements for Student Teaching

In order to be accepted and successfully complete student teaching, all students must comply with the policies and requirements set forth by the School of Education's Clinical Education Division. All student teacher placements will be made by the Clinical Education Division.

• Students must clear all incompletes prior to student teaching
• Students must schedule an appointment with the Academic Advisor
• Students must complete the fieldwork application (available from the Academic Advisor) and schedule an interview with the Coordinator of Fieldwork
• Enroll in EDUC 410: Elementary Directed Teaching (9-12 semester hours)
• Enroll in EDUC 463: TPA 3
• Enroll in EDUC 464: TPA 4

Application Process for the Preliminary Multiple Subject Credential

1) Successful completion of all the requirements outlined above
2) Students must submit an official transcript with the Bachelor’s degree posted to the Credential Office in the School of Education.
3) Complete the credential application through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

Review by the Teacher Admission and Advisory Committee (TAAC)

After the requirements for provisional admission, outlined above, have been completed, the candidate's file will be submitted to the TAAC for review. It is the student's responsibility to ensure that all items have been received. Students will be notified of the committee's decision in writing. All documents become the property of the University and will not be released to any person or institution.
Secondary Education

Academic Program Director: Irene Oliver

The **2042 Single Subject Preliminary Credential** program is designed for students who are seeking teaching positions in grades 9-12, or in 6-8 school settings that require teachers to teach in departments. A student successfully completing this program will be eligible to receive a minor in Secondary Education as well as to apply for a California Preliminary Single Subject Credential.

The following Single Subject Preliminary Credentials are offered through the School of Education:

- Art
- Biology
- Chemistry
- Dance/Physical Education
- Earth Science
- English
- French
- Mathematics
- Physics
- Social Science
- Spanish

**Requirements for Provisional Admission**

All the following must be submitted to the School of Education, UH 2100, prior to scheduling an interview with the Academic Program Director.

- Complete three of the four following prerequisite courses and maintain a GPA of 2.8 or better
  - **EDUC 400** Sociocultural Analysis of Education
  - **EDUC 401** Educational Psychology for the Childhood and Adolescent Years
  - **EDUC 414** Theories of Second Language Acquisition
  - **EDUC 440** Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs

  - Prerequisite courses are only available to sophomores (30 semester hours earned) or higher
  - Interested first year students should contact the Academic Program Director

Complete and submit:

- Plan to complete the fourth prerequisite prior to student teaching
- Teacher Education Application form
- Statement of Intent
- Candidate Information Sheet
• Submit one set of official transcripts from all colleges and universities attended other than LMU
• Four letters of recommendations: three out of the four must be submitted for an interview. One letter must be from your major advisor
• Verification of 20 hours of experience working with culturally and linguistically diverse youth groups, ages 4-13, or Plan of Action of Completion of 20 hours prior to student teaching
• California Basic Educational Skills Test (CBEST) original passing score report
• Subject Matter Plan of Action completion
  - Students must demonstrate mastery of the required subject matter by passing the Single Subject California Subject Matter Exam for Teachers (Single Subject CSET)
  - Results of the CSET are only valid for five years.
• Technology Requirement
• Interview with Academic Program Director

Requirements for Formal Admission

All of the following is required once you have been formally admitted to the School of Education and must be fulfilled prior to enrolling in Student Teaching

A “B” (3.0) grade point average must be maintained in all education coursework. A “D” (1.0) is not acceptable in any of the coursework in the sequence.

• Fingerprint Clearance—An original Certificate of Clearance must be received from the CCTC prior to enrolling in student teaching.
• TB test results—Valid within one year prior to student teaching.
• U.S. Constitution Requirement—Satisfied by one of the following:
  - Successfully completing one of the following LMU courses: AMCS 162, HIST 161, HIST 162, POLS 130, or POLS 135; or
  - Passing an approved examination through the History Department; or
  - Completing an approved course at another institution.
• Health Education Requirement (verified on transcripts), satisfied by one of the following:
  - Completing EDUC 8000 (1 semester hour); or
  - Completing a 2042 approved health education course through another institution.
• Single Subject CSET in credential content area (original passing score report) or official letter confirming the completion and approval of a Subject Matter Waiver Program. See your Major Advisor for further information.

• Complete the following methods courses (maintain a GPA of 3.0 or better)
  EDUC 428 Reading/Language Arts for Single Subject Teachers
  EDUC 425 Methods in English Language Development and Specially Designed Academic Instruction in English

One of the following courses, depending on the credential content area:
  ART 450 Methods in Teaching Secondary Art; or
  EDUC 484 Methods in Teaching Secondary Languages Other than English; or
  EDUC 485 Methods in Teaching Secondary Social Studies; or
  EDUC 486 Methods in Teaching Secondary English; or
  EDUC 487 Methods in Teaching Secondary Science; or
  EDUC 488 Methods in Teaching Secondary Math

• Teaching Performance Assessment (TPA) 1 and 2 (fee based, 0 unit courses)
  EDUC 461 TPA 1 (in subject emphasis)
  EDUC 462 TPA 2

Requirements for Student Teaching

In order to be accepted and successfully complete student teaching, all students must comply with the policies and requirements set forth by the School of Education’s Clinical Education Division. All student teacher placements will be made by the Clinical Education Division.

• Students must clear all incompletes prior to student teaching.
• Students must schedule an appointment with the Academic Advisor.
• Students must complete the fieldwork application (available from the Academic Advisor) and schedule an interview with the Coordinator of Fieldwork.
• Enroll in EDUC 412: Secondary Directed Teaching (9-12 semester hours)
• Enroll in EDUC 463: TPA 3
• Enroll in EDUC 464: TPA 4

Application Process for the Preliminary Single Subject Credential

1) Successful completion of all of the requirements outlined above

2) Students must submit an official transcript with the degree posted to the Credential Office in the School of Education.
3) Complete the Credential application through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

Review by the Teacher Admission and Advisory Committee (TAAC)

After the requirements for provisional admission, outlined above, have been completed, the candidate’s file will be submitted to the TAAC for review. It is the student’s responsibility to ensure that all items have been received. Students will be notified of the committee's decision in writing. All documents become the property of the University and will not be released to any person or institution.

2042 Professional Clear Single Subject Teaching Credential

A student has five years after obtaining the preliminary credential in which to complete the requirements for the professional clear credential. For more information, contact the Academic Program Director.

Bilingual Education

Academic Program Director: Magaly Lavadenz

The Bilingual teaching credential (BCLAD Spanish) emphasis is designed for future teachers who want to conduct classroom instruction in both Spanish and English. The BCLAD component can be added to either a multiple (elementary) or single (secondary) subject teaching credential. Acceptance into the BCLAD teaching credential program is accomplished by completing and submitting the following items to the School of Education:

Requirements for Provisional Admission

• Minimum Language Requirement: Satisfied by one of the following:
  - Official transcript showing completion of a Spanish major or minor; or
  - Passing an approved language examination (such as the one offered by LMU’s Department of Modern Languages and Literatures); or
  - Transcript showing extensive schooling in a Spanish-speaking country, or appropriate Peace Corps experience in a Spanish-speaking country.

Requirements for Formal Admission

• Complete the following courses with a 3.0 or better:
  EDUC 416  Methodology for Primary Language Instruction in a Bilingual Setting
  EDUC 420  Chicano-Latino Cultures: An Interdisciplinary Perspective

Requirements for Student Teaching

• BCLAD TEST 6:
  - Must pass Test 6 (Spanish language) of the BCLAD exam prior to enrolling in student teaching. Candidates who are completing or have completed a degree with a Spanish major are exempt from this requirement.

In addition to the standard requirements for student teaching for the Multiple or Single Subject programs, BCLAD candidates will complete half the student teaching assignments in a bilingual or dual language setting. Lesson plans, instruction and feedback for this portion of the student teaching experience will be conducted in Spanish.
Special Education

Academic Program Director: Victoria Graf

The Special Education program allows students from a variety of academic backgrounds to pursue a minor in Special Education or the Education Specialist Credential: Mild/Moderate Disabilities. These programs include preparation in the education of culturally and linguistically diverse students with exceptional needs. The Education Specialist Credential: Mild/Moderate Disabilities authorizes candidates to teach students with specific learning disabilities, mental retardation, emotional disturbance, or other health impairments.

Requirements for Provisional Admission

All of the following requirements must be submitted to the School of Education Admission's Office, UH 2100, prior to scheduling an interview with the Academic Program Director.

- Complete three of the four following prerequisite courses and maintain a GPA of 2.8 or better
  EDUC 400 Sociocultural Analysis of Education
  EDUC 414 Theories of Second Language Acquisition
  EDUC 440 Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs
  EDUC 444 Observation and Participation in General and Special Education Programs
  - Prerequisite courses are only available to sophomores (30 semester hours earned) or higher
  - Interested first year students need to contact the Academic Program Director
- Plan to complete the fourth prerequisite prior to student teaching
- Teacher Education Application Form
- Statement of Intent
- Candidate Information Sheet
- One set of official transcripts from all colleges and universities attended other than LMU
- Four letters of recommendations: three out of the four must be submitted for an interview. One letter must be from your major advisor
- Verification of 20 hours of experience working with culturally and linguistically diverse youth groups, ages 4-22, or Plan of Action of Completion of 20 hours prior to student teaching
- California Basic Educational Skills Test (CBEST) original passing score report
- Subject Matter Plan of Action Completion
  - Elementary Emphasis: Students must demonstrate mastery of the required subject matter by passing the Multiple Subject California Subject Matter Exam for Teachers (Multiple Subject CSET)
  - Secondary Emphasis: Students must demonstrate mastery of the required subject matter (mathematics, language arts, or science) by passing the Single Subject California Subject Matter Exam for Teachers (Single Subject CSET in credential content area).
  - Results of the CSET are only valid for five years.
- Technology Requirement
- Interview with the Academic Program Director

Requirements for Formal Admission

All of the following are required once you have been formally admitted to the School of Education and must be fulfilled prior to enrolling in Student Teaching.

A “B” (3.0) grade point average must be maintained in all education coursework. A “D” (1.0) is not acceptable in any of the coursework in the sequence.

- Fingerprint Clearance—An original Certificate of Clearance must be received from the CCTC prior to enrolling in student teaching.
- TB test results—Valid within one year prior to student teaching.
- U.S. Constitution Requirement—Satisfied by one of the following:
  - Taking one of the following LMU courses: AMCS 162, HIST 161, HIST 16, POLS 130, or POLS 135; or
  - Passing an approved examination through the History Department; or
  - Completing an approved course at another institution.
- CSET (Original passing score report)
- Elementary Emphasis: Complete the following professional coursework (maintaining a GPA of 3.0 or better)
  EDUC 409 Literacy in the Curriculum (3 semester hours)
  EDUC 427 Creating Effective Classrooms in Diverse Settings (3 semester hours)
  EDUC 434 Elementary Curriculum and Teaching Methods (3 semester hours)
  EDUC 436 Creating Collaborative Partnerships (2 semester hours)
EDUC 443 Informal Assessment and Individual Education Program (IEP) Development (3 semester hours)
EDUC 475 Teaching and Assessing Students with Mild/Moderate Disabilities (4 semester hours)

- Secondary Emphasis: Complete the following professional coursework (maintaining a GPA of 3.0 or better)
  EDUC 427 Creating Effective Classrooms in Diverse Settings (2 semester hours)
  EDUC 428 Reading/Language Arts for Single Subject Teachers
  EDUC 436 Creating Collaborative Partnerships (2 semester hours)
  EDUC 443 Informal Assessment and Individual Education Program (IEP) Development (3 semester hours)
  EDUC 475 Teaching and Assessing Students with Mild/Moderate Disabilities (4 semester hours)

One of the following courses, depending on the credential content area emphasis:
EDUC 486 Methods in Teaching Secondary English (English/Social Studies emphasis); or
EDUC 487 Methods in Teaching Secondary Science (Science emphasis); or
EDUC 488 Methods in Teaching Secondary Math (Math emphasis)

Requirements for Student Teaching

Students must clear all incompletes prior to student teaching.

- Reading Instruction Competence Assessment (RICA)
  - Recommend taken following completion of EDUC 409 (Elementary Emphasis) or EDUC 428 (Secondary Emphasis)
  - Required to take, pass, and submit an original passing score report to the School of Education before the completion of student teaching
- Students must complete the fieldwork application (available from the Academic Program Director) and schedule an interview with the Coordinator of Fieldwork
- Enroll in EDUC 456: Direct Teaching with Culturally/Linguistically Diverse Students with Mild/Moderate Disabilities (12 semester hours)

Application Process for the Education Specialist Credential: Mild/Moderate Disabilities

1) Successful completion of all of the requirements outlined above.
2) Students must submit an official transcript with the degree posted to the Credential Office in the School of Education.
3) Complete the Credential application through the School of Education to the Commission on Teacher Credentialing, State of California (additional fee required; see website for more information).

Review by the Teacher Admission and Advisory Committee (TAAC)

After the requirements for each section outlined above have been completed, the candidate's file will be submitted to the TAAC for review. It is the student's responsibility to ensure that all items have been received. Students will be notified of the committee's decision in writing. All documents become the property of the University and will not be released to any person or institution.

Combined Program Requirements: Education Specialist Credential: Mild/Moderate Disabilities with the 2042 Multiple Subject/Elementary Emphasis

The 2042 Multiple Subject/Secondary Teaching Credential can be pursued concurrently with the Education Specialist Credential: Mild/Moderate Disabilities. In addition to the previously listed program sequence for the Education Specialist Credential, the following are required.

Professional Coursework

A. Elementary Emphasis:
   EDUC 401: Educational Psychology for the Childhood and Adolescent Years (3 semester hours)
   EDUC 410: Elementary Directed Teaching (9 semester hours)
   EDUC 425: Methods in English Language Development and Specially Designed Academic Instruction in English (3 semester hours)
   EDUC 456: Directed Teaching with Students with Mild/Moderate Disabilities (3 semester hours)
B. Secondary Emphasis:

EDUC 401: Educational Psychology for the Childhood and Adolescent Years (3 semester hours)

EDUC 412: Secondary Directed Teaching (9 semester hours)

EDUC 425: Methods in English Language Development and Specially Designed Academic Instruction in English (3 semester hours)

EDUC 456: Directed Teaching with Students with Mild/Moderate Disabilities (3 semester hours)

Student Teaching: Students in the combined program will have both a general education and special education teaching placement during their student teaching.

Professional Level II Education Specialist Credential: Mild/Moderate Disabilities Credential

Candidates who have completed the Preliminary Level I Mild/Moderate Specialist Credential Program and have a full-time special education teaching position working with students with mild/moderate disabilities must enroll in an approved program for Professional Level II Education Specialist Credential within 120 calendar days of service on the Preliminary Credential. (See Graduate Bulletin for more details.)

Department of Professional Services

Chairperson: Mary McCullough

The Department of Professional Services offers graduate programs in Administration, School Counseling, School Psychology, and Catholic School Administration. Please consult the Graduate Bulletin for more information on graduate programs.
Minor in Education

Students may declare a minor in Education so that their Education coursework is duly acknowledged in their official transcript. In order to maximize the full potential of taking Education courses within the undergraduate program, students are strongly encouraged to declare the Education minor early in their career. The Education minor is not applicable to Liberal Studies majors (multiple subject credential). Completion of an Education minor does not equal completion of the requirements for a teaching credential. Students may complete the Education minor without completing all the requirements for a teaching credential.

Students wishing to be admitted to the Minor in Education program must complete all the requirements for admission to the School of Education except for the subject matter competency and CBEST requirements.

Minor in Elementary Education
(18 Semester Hours)

For non-Liberal Studies majors only.

18 semester hours in Education from the following courses:

- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses from the following: EDUC 409, 425, 434

Minor in Secondary Education
(18 Semester Hours)

18 semester hours in Education from the following courses:

- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses from the following: EDUC 425, 434, 428, 484, 485, 486, 487, 488

Minor in Bilingual Education
(18 Semester Hours)

For non-Liberal Studies majors only.

18 semester hours in Education from the following courses:

- 4 prerequisite Education courses: EDUC 400, 401, 414, and 440
- 2 courses in Bilingual Education: EDUC 416 and 420

Minor in Special Education
(19 Semester Hours)

The recommended course sequence is as follows:

Sophomore Year: EDUC 400 and 440
Junior Year: EDUC 444 (2 semester hours) and EDUC 445 (3 semester hours)
Senior Year: EDUC 427 (3 semester hours), 436 (2 semester hours), and capstone course (3 semester hours)

EDUC 400
Sociocultural Analysis of Education
3 Semester Hours

A study of the sociological and anthropological analysis of contemporary education with emphases on historical and cultural contexts, culturally sensitive pedagogy, cultural and ethnic diversity, social/cultural issues, equity, access to the core curriculum, and demographic trends in schools and society. Emphasis is placed on the preparation of professionals for the teaching profession and their awareness of social, psychological, and cultural forces shaping society today so that they are prepared to work with all learners. This course is designed for undergraduates in the traditional and/or blended teacher preparation program.

Prerequisite: Sophomore or higher.

EDUC 401
Educational Psychology for the Childhood and Adolescent Years
3 Semester Hours

A study of the learning environment, the evaluation of learning, and the teaching/learning process. An analysis of the physical, intellectual, emotional, cultural, and ethnic factors affecting development, learning, and behavior. This course is a prerequisite for acceptance into the Multiple and Single Subject Credential Program. Emphasis is placed on implications for teaching and learning in the primary, elementary, middle, and senior high schools. Fieldwork is required.

Prerequisite: Sophomore or higher.
EDUC 409  
Literacy in the Curriculum  
3 Semester Hours  
This course is designed to provide opportunities for prospective teachers to develop their understanding and ability to teach reading/language arts to all students in the elementary grades. Particular emphasis will be placed on strategies which will accommodate culturally and linguistically diverse learners. Consideration is given to the procedures, skills development, organizations, systems of instruction, and instructional materials utilized in the development of an effective balanced and integrated approach to the teaching of reading/language arts instruction in the elementary school that supports literacy development. This course meets the requirements of section 44755 of the California Education Code. This course will be preparation for the RICA (Reading Instruction Competency Assessment) based on the following reading domains:

- **Domain I** Organizing Reading Instruction Based on Ongoing Assessment  
- **Domain II** Phonological and other Linguistic Processes Related to Reading  
- **Domain III** Developing Reading Comprehension and Promoting Independent Reading  
- **Domain IV** Supporting Reading through Oral and Written Language

Prerequisite: Special approval required.

EDUC 410  
Elementary Directed Teaching  
9-12 Semester Hours  
Full-time supervised teaching in two culturally diverse public elementary schools; seminar sessions held throughout the semester, which include instruction in art, music, and physical education.

Offered on a Credit/No Credit basis only.

Admission by special approval.

EDUC 412  
Secondary Directed Teaching  
9-12 Semester Hours  
Full-time supervised teaching in one culturally diverse public middle and/or high school; seminar sessions held throughout the semester support the student in successfully completing his or her student teaching.

Offered on a Credit/No Credit basis only.

Admission by special approval.

EDUC 414  
Theories of Second Language Acquisition  
3 Semester Hours  
Course content includes theoretical perspectives in first and second language learning, language teaching methodologies, assessment, identification, and program placement for Limited English Proficient students. The course provides an introduction to instructional strategies including English Language Development (ELD), Specially Designed Academic Instruction in English (SDAIE), and cooperative learning. Historical, political, legal, and social factors related to second language acquisition are addressed, including the history of bilingual education; federal, state, and local legislation; bilingual education models; and the role of parents and paraprofessionals in English language development. Fieldwork in a setting with English language learners is a required component of this class.

Prerequisite: Sophomore or higher.

EDUC 415  
Politics of Education  
3 Semester Hours  
An overview of the historical and contemporary organization of schools, including federal, state, and local education and language policies. The philosophical and decision-making structures within schools will be examined from various perspectives. Of particular emphasis will be the impact of these on linguistically and culturally diverse populations.

Prerequisite: EDUC 414.

EDUC 416  
Methodology for Primary Language Instruction in a Bilingual Setting  
3 Semester Hours  
Consideration is given to current trends and social issues affecting bilingual programs including program characteristics, instructional approaches, and selection and use of primary language materials. Specific emphasis is placed on literacy/biliteracy in the primary language, with an integrated approach to content area instruction. Fluency and literacy in Spanish is required.

Prerequisites: EDUC 415 and special approval required.

EDUC 420  
Chicano-Latino Culture: An Interdisciplinary Perspective  
3 Semester Hours  
The presentation of a cultural analysis of the diversity within Chicano/Latino groups. Historical, political, economic, and social issues will be addressed, including the expression of culture in areas such as language, literature, and religion.

Prerequisite: Special approval required.
EDUC 425
Methods in English Language Development and Specially Designed Academic Instruction in English
3 Semester Hours

The goal of this course is to provide students with the opportunity to acquire knowledge, skills, and ability to deliver comprehensive instruction to English learners. Students will learn how to implement instructional programs that facilitate English language acquisition and development, including receptive and productive language skills, and that logically progress to the grade level reading/language arts program for English speakers. Students will acquire and demonstrate the ability to utilize assessment information to diagnose students’ language abilities and to develop lessons that promote students’ access and achievement in relation to state-adopted academic content standards. Fieldwork observation is included as part of the class requirement.

Prerequisite: Special approval required.

EDUC 427
Creating Effective Classrooms in Diverse Settings
3 Semester Hours

This course is designed to prepare candidates to be able to demonstrate knowledge and skills in managing environments for diverse learners that are safe and effective and that facilitate positive self-esteem and self-advocacy. In addition, the candidate will be prepared to demonstrate knowledge of behavioral management strategies, varying communication styles that impact learning and laws, and regulations for promoting behavior that is positive and self-regulatory.

EDUC 428
Reading/Language Arts for Single Subject Teachers
3 Semester Hours

This course is designed to provide opportunities for prospective teachers to develop understanding of the nature of the reading process in grades 7-12. Emphasis is placed on the role of subject-matter teachers in the overall school reading program. Provides training in a variety of instructional methodologies including strategies designed for culturally and linguistically diverse learners.

Prerequisite: Special approval required.

EDUC 434
Elementary Curriculum and Methods
3 Semester Hours

Designed to provide opportunities for prospective teachers to develop professional knowledge and competence for teaching history/social science, mathematics, and science in kindergarten and grades 1 through 12, this course will deal with purpose, content, procedures and organization, and instruction in those curricular areas as prescribed by the California State adopted frameworks and academic content standards. This course focuses on instructional methods and classroom management for the elementary classroom. A fieldwork component will be required. Students should acquire skills in classroom discipline, creation of lesson plans, utilizing a variety of instructional and evaluation methods, and classroom teaching. Course shall include all state-mandated content areas including culturally and linguistically diverse teaching techniques/methods for history/social science, mathematics, and science.

Prerequisite: Special approval required.

EDUC 435
What Is School?
3 Semester Hours

This course focuses on the governmental, political, financial, legal, and historical perspectives of education in the United States. Students are given opportunities to integrate course topics and relate policy initiatives to the welfare of all students in responsible and ethical ways. School governance and management of human and fiscal resources in culturally diverse settings are stressed.

EDUC 436
Creating Collaborative Partnerships
2 Semester Hours

This course is designed to prepare candidates to be able to collaborate and communicate effectively with individuals with disabilities and their parents, other family members and primary care givers, school administrators, general and special education teachers, specialists, paraprofessionals, and community agency and related service personnel. The candidate will learn how to work in partnership to be able to design, implement, and evaluate integrated services that reflect transitional stages across life span for all learners.

EDUC 440
Introduction to the Culturally and Linguistically Diverse Student with Exceptional Needs
3 Semester Hours

General survey of exceptionalities affecting normal child development. Causation, diagnosis, treatment, programs, and resources are included. Implications of recent legislation for the disabled will be emphasized.
**EDUC 443**  
Informal Assessment and Individual Education Program (IEP) Development for Students with Exceptional Needs  
3 Semester Hours  
A survey of strategies for assessing and teaching FEP and LEP students in all areas of exceptionality.  
Prerequisite: EDUC 409.

**EDUC 444**  
Observation and Participation in General and Special Education Programs  
2-3 Semester Hours  
Direct contact experience observing and working with FEP and LEP students in all areas of exceptionality. A minimum of 100 clock hours must be spent with three exceptionalities.  
Credit/No Credit.

**EDUC 445**  
Special Education Advocacy and the Law  
3 Semester Hours  
This course examines federal and California special education law with particular emphasis on the Individuals with Disabilities Education Improvement Act (IDEA 2004) and the Rehabilitation Act of 1973. The first half of the course will involve reading of material that will give a legal and practical background to the specifics of the law, its purpose, and how it is implemented by school districts. This background will serve as a foundation for the students to effectively advocate (with proper supervision) for their clients during the clinical portion of the class. The overall goal of the course is to give students insight into how to work with families and school personnel and how to ultimately avoid the pitfalls of non-compliance. The second half of the course will be a supervised clinical experience where students will handle a special education case. This will include: interviewing potential clients, analysis of facts, and advocacy at an IEP. Depending on the facts of the case, students may also file a state complaint and prepare a case for mediation and/or for due process hearing.  
Prerequisite: EDUC 440.

**EDUC 452**  
Psychological and Educational Assessment  
3 Semester Hours  
Basic concepts of psychological testing, measurement, and evaluation applicable to the rationale, construction, evaluation, use, and interpretation of tests, rating scales, etc.; essential statistics. Practice required.  
Prerequisite: Senior class standing.

**EDUC 456**  
Directed Teaching with Culturally and Linguistically Diverse Students with Mild/Moderate Disabilities  
9 Semester Hours  
Actual teaching experience with culturally and linguistically diverse students with mild/moderate disabilities. Must have completed prerequisite and professional coursework in Special Education and be approved by the Coordinator of Fieldwork the semester prior to enrolling.  
Credit/No Credit.  
Admission by special approval.

**EDUC 461**  
Teaching Performance Assessment 1  
0 Semester Hours  
Students enrolled in the course will complete Task 1 of the Teaching Performance Assessment.  
Fee required.  
Admission by special approval.

**EDUC 462**  
Teaching Performance Assessment 2  
0 Semester Hours  
Students enrolled in the course will complete Task 2 of the Teaching Performance Assessment.  
Fee required.  
Admission by special approval.

**EDUC 463**  
Teaching Performance Assessment 3  
0 Semester Hours  
Students enrolled in the course will complete Task 3 of the Teaching Performance Assessment.  
Fee required.  
Prerequisites: EDUC 461 and 462.  
Concurrent enrollment with EDUC 410 or 412 required.

**EDUC 464**  
Teaching Performance Assessment 4  
0 Semester Hours  
Students enrolled in the course will complete Task 4 of the Teaching Performance Assessment.  
Fee required.  
Prerequisites: EDUC 461 and 462.  
Concurrent enrollment with EDUC 410 or 412 required.
EDUC 475  
**Teaching and Assessing Students with Mild/Moderate Disabilities**  
*3-4 Semester Hours*

Principles and techniques for diagnosing learning and behavioral strengths and weaknesses in children and youth with specific learning disability, mental retardation, other health impairments, or serious emotional disturbance. Additional emphasis is placed on effective techniques and methods in working with culturally and linguistically diverse youth. Development of teaching strategies, goals, and objectives suitable for direct intervention, implementation of individual instructional programs, and evaluation of program approaches and effectiveness.

EDUC 476  
**Policies and Issues in Education for Diverse Learners with Disabilities**  
*3 Semester Hours*

Survey of current issues and trends in the psychology and education of students with learning handicaps, e.g., theoretical instructional systems, use of research findings in program implementation, counseling, career guidance, and program evaluation with emphasis on history and practices of bilingual education, including organizational models and instructional strategies.

EDUC 484  
**Methods in Teaching Secondary Languages Other Than English**  
*3 Semester Hours*

This class will address the communicative approach to instruction in languages other than English. Major themes to include: proficiency-based instruction, the competency-based classroom/curriculum, critical issues in the reception and the production stages of second language acquisition, strategies to support and achieve these goals.

Prerequisite: Special approval required.

EDUC 485  
**Methods in Teaching Secondary Social Studies**  
*3 Semester Hours*

This methodology course provides prospective secondary social studies teachers the opportunity to develop lesson plans and assessments incorporating state and national standards and pedagogically sound teaching methods. Drawing on social studies concepts, case studies, and cross-cultural activities will practice basic analysis skills in history and social studies. Students will develop classroom activities enhancing critical thinking and study skills, as well as interrelating ideas within and across history/social science and other subject areas. Emphasis will be placed on designing instructional activities to engage all learners.

Prerequisite: Special approval required.

EDUC 486  
**Methods in Teaching Secondary English**  
*3 Semester Hours*

This course addresses the concerns and needs of future English teachers. Major areas covered include developing a multicultural curriculum for all students, creating lesson plans, examining meaning making strategies for reading, instructing the writing process, teaching grammar in context, looking at methods of authentic classroom assessment, and building classroom portfolios.

Prerequisite: Special approval required.

EDUC 487  
**Methods in Teaching Secondary Science**  
*3 Semester Hours*

This course covers programs, guidelines, and practices in the individualization of instruction with emphasis on culturally and linguistically diverse student needs in relation to science and uses of technology; continuous progress curriculum in science; and uses of individualized science labs.

Prerequisite: Special approval required.

EDUC 488  
**Methods in Teaching Secondary Math**  
*3 Semester Hours*

This course covers programs, guidelines, and practices in the individualization of instruction with emphasis on culturally and linguistically diverse student needs in relation to mathematics; uses of technology and continuous progress curriculum.

Prerequisite: Special approval required.
EDUC 489
Leadership Seminar I
1 Semester Hour
This course is designed to develop student leaders’ understanding of the basic concepts of personal and group leadership development. Participants will define an issue facing student leaders and identify a theoretical framework to address the issue. The class integrates readings, written reflection, in-class exercises, and a group project.

Prerequisites: Permission of instructor and concurrent leadership position in a student organization.

EDUC 490
Leadership Seminar II
1 Semester Hour
This course develops student leaders’ understanding of the basic concepts of personal and group leadership development. Participants will apply a theoretical framework to an issue facing student leaders, create an implementation plan, and develop an evaluation process. The class integrates readings, written reflection, in-class exercises, and a group project.

Prerequisites: Permission of instructor and concurrent leadership position in a student organization.

EDUC 491
Leadership Seminar III
1 Semester Hour
A capstone leadership experience for advanced student leaders, this class combines readings, in-class activities, and experiential involvement as a peer educator with research and creation of a comprehensive leadership portfolio.

Prerequisites: Permission of instructor, successful completion of EDUC 489 or 490, and concurrent leadership position in a student organization.

EDUC 492
Behavior and Classroom Management Techniques for Teachers
3 Semester Hours
Explores current, alternative approaches to classroom discipline, management, and organization. Focuses on how teacher behavior, the learning task, and the classroom environment affect student behavior.

EDUC 498
Special Studies
1-3 Semester Hours

EDUC 499
Independent Studies
1-3 Semester Hours

EDUC 8000
Health Education
1 Semester Hour
This course will introduce health concepts, skills, and behaviors important for today’s students to make informed choices. Candidates will be able to gather, interpret, evaluate, and use health information and topics in their future activities as teachers. The course consists of four modules: 1) overview of the California health framework and consumer and community health resources; 2) personal health with a focus on nutrition and tobacco, drugs, and alcohol use; 3) health choices that impact communicable and chronic diseases; and 4) the role of environmental health with a focus on injury prevention and safety.

Fee required.

Credit/No Credit.
School of Film and Television
School of Film and Television

Administration
Dean: Teri Schwartz

Objectives
All School of Film and Television courses, whether they be humanistic inquiries into the nature of the media or professionally-oriented exercises in writing and producing film and television, animation, or writing for film or television, are aimed at developing critical discernment and equipping the student with the technical, theoretical, and aesthetic means to communicate these insights effectively to an audience.

Major Requirements
Lower Division Requirements:
The School of Film and Television offers four majors: Animation, Production—Film and Television, Recording Arts, and Screenwriting.

The 12-26 semester hours (depending upon program) of requirement must be completed by all students, including transfer students, before upper division classes are attempted.

Upper Division Requirements:
The requirements are between 24-33 semester hours chosen from the 300-500 level School of Film and Television courses under the direction of the appropriate school program advisor. All majors must complete a senior thesis project accomplished through ANIM 495 and 496; PROD 400, 450, or 461; RECA 450; or SCWR 420.

Change of Program/Major
There is a formal application procedure for students who wish to be accepted into the School of Film and Television or who wish to transfer from one SFTV program to another. This procedure is explained in the SFTV Application Form available from the School.

Applications are due on the last working day of February for admission to the following Fall semester and on the last working day of September for admission to the following Spring semester.

Application of General University Requirements
The University requirements for admission, graduation, and all general rules and regulations of the University as set forth in this Bulletin are applicable to and binding upon all students enrolled in the School of Film and Television.

School Curriculum
The curriculum of the School of Film and Television incorporates required courses in general education, major sequences, and elective courses which complement and enhance the student's major field of concentration.

Core Curriculum for the Baccalaureate Degree in the School of Film and Television

American Cultures
3 Semester Hours
Course Selection
First- and second-year students choose from any lower division course listed or cross-listed as AMCS. Third- and fourth-year students choose from any upper division course listed or cross-listed as AMCS. A single course will generally not fulfill two core requirements. The only exception is a course that satisfies another core requirement which is also cross-listed as AMCS.

College Writing
3 Semester Hours
Course Selection
ENGL 110 will fulfill the college writing requirement. ENGL 100 will not fulfill the college writing requirement but is required of certain students based on their performance in the essay written in all ENGL 110 sections during the first week of classes. A minimum grade of C (2.0) is required in ENGL 110. All students who receive a grade of C- or lower must retake ENGL 110 as soon as possible.

Choose: ENGL 110.
Communication or Critical Thinking
3 Semester Hours

Course Selection
Communication: Choose from CMST 100, 110, 130, or 140.

OR

Critical Thinking: Choose from CMST 206, PHIL 220.

Communication Studies majors must choose CMST 100 or 206.

Critical and Creative Arts
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Critical Arts and one course from Creative Arts.

Critical Arts: Choose from ANIM 100; ARHS 200, 201, 202, 321, 340, 345; DANC 281, 381; MUSC 102, 104, 303, 365; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, 430.

Creative Arts: Choose from ANIM 120, ART 150, 151, 153, 278, 280, 350; DANC 163; ENGL 205, 310 (Prerequisite 201), 312 (Prerequisite 202); MUSC 105, 106, 107; SCWR 220; THEA 110, 400.

Students may not select courses which are requirements for their major.

History
6 Semester Hours

Course Selection
This requirement is satisfied by taking one course from Western Civilization and one course from Contemporary Societies.

Western Civilization: Choose from HIST 100 or 101.

Contemporary Societies: Choose from HIST 152, 162, 172, 182, or 192.

Literature
3 Semester Hours

Course Selection
Prerequisite: Successful completion of college writing requirement.

Choose from CLCV 200, 210, 220, 230; ENGL 130, 140, 150, 170; FNLT 180; THEA 240, 245, 331, 336, 341, 346, 347, 348, 349, or 430.

Mathematics, Science and Technology
6 Semester Hours

Course Selection
All students take MATH 102 and 103 and one other course in Science and Engineering. The MATH 102 course is designed to allow students to attain a level of mathematical literacy which will enable them to deal with the types of mathematical questions that they will encounter on a regular basis after they graduate.

Prerequisite: Demonstration of proficiency in mathematics by success in MATH 102 or a grade of C or better in MATH 111, 112, 120, 122, 131, or 306. The Mathematics Placement Examination is required before taking any of these courses.

The course in science and engineering introduces the student to the methodology used in that field of science or engineering. These courses include laboratories and/or demonstrations providing the student with hands-on experience.

Courses ordinarily recommended to students majoring outside the Frank R. Seaver College of Science and Engineering are those numbered 260-279 in each department within the College. Courses in this series are specifically designed for the non-major.

Choose from BIOL 260, 261, 262, 263, 264, 265, 271, 272, 275, 276; CHEM 260, 261, 262, 263, 264; CMSI 261; ELEC 260, 265; MECH 260, 270, 275; NTLS 260, 270; PHYS 271, 272. All other lower division courses (at least 3 semester hours) in the Frank R. Seaver College of Science and Engineering also satisfy this requirement.

Only one mathematics course will be credited toward the Mathematics, Science and Technology component of the Core.

Philosophy
6 Semester Hours

Course Selection
Lower Division:

Choose PHIL 160. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:

Choose one PHIL course from 320 through 330.
Social Sciences  
6 Semester Hours  

Student must select one of the following options:

1. Select two courses from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. Courses must be from different departments.

2. Select one course from: AFAM 115, APAM 117, CHST 116, or WNST 100; and one course from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105.

3. Select two courses from the same department. The first is selected from ECON 100, 105, 110, 120; GEOG 100; POLS 135, 155; PSYC 100; SOCL 100 or 105. The second course in the same department is selected from upper division courses that the student is qualified to take.

Theological Studies  
6 Semester Hours  

Course Selection  

Lower Division:  
Choose from the 100-level series of THST courses. Transfer students who enter LMU with a minimum of sixty (60) accepted transfer hours are exempted from the lower division requirement.

Upper Division:  
Choose from the 300-level series of THST courses only.

European Satellite Program  

This program is located in Dusseldorf, Germany, and focuses on film in the European context—the Avante Garde, independent film making, and other experimental media. This is designed as a semester program with Fall semester offerings focusing on Film and TVPD majors, and with the Spring semester focusing on Media Studies for all students. Taught by LMU faculty and European film and television experts in the Loyola Marymount University tradition, the courses are offered in the form of master workshops, providing students with an exclusive learning experience. The close interaction with faculty that is afforded by this format makes the program unique. Students receive 15 semester hours of credit by taking workshops and a German language and culture course.

The semester in Dusseldorf includes excursions and educational field trips to give students a deeper insight into film and TV production in Europe. Depending on the semester and opportunity, students will attend film festivals, visit production sites, go to film museums, and meet and talk with directors, producers, and others in the media field. A week excursion to Berlin and Prague, two centers of film production, will bring to life the theories learned in the classroom and will help to inform and stimulate students in their own artistic productions. Each student will produce a 10-15 minute video documentary. Staff and teaching assistants in film will assist with the technical and creative needs, if necessary.

Students with a minimum GPA of 2.8, who are in good standing at any university or college and, for the Fall semester, have completed the FTWV and PROD prerequisites, are invited to apply. The program cost is comparable to full-time residency at LMU and includes tuition, housing, breakfast and dinner, excursions, and public transportation within Dusseldorf. Applications are available through the Study Abroad Office in University Hall, Suite 1840.

Recommendations  

Students are encouraged to enrich their program of study with selected electives from the following areas.

Business  
Students are encouraged to take a course in the issues of business. Consult the Bulletin listings.

Computer Skills  
Students are expected to become proficient in computer skills. Courses or workshops may be taken to help students develop existing skills.

Foreign Language  
Students are encouraged to study foreign languages to the intermediate level. LMU offers Chinese, Filipino, French, German, Greek (Modern and Classical), Italian, Japanese, Latin, and Spanish on a regular basis.

International/Global Studies  
Students are encouraged to select elective courses that deal with international and/or global issues. Consult the Bulletin listings.

Study Abroad  
A semester of international study abroad is also recommended. Consult the Study Abroad office.
Total Program

121 semester hours are required for graduation with the following distribution:

a) a maximum of 36 upper division semester hours in any one department will be accepted toward the 121 semester hours requirement; and

b) at least 45 semester hours are required from upper division offerings.

Students should consult the Dean's Office for specific policies applicable to the School of Film and Television.
Animation

Faculty

Chairperson: Rob Burchfield
Associate Professor: Rob Burchfield
Assistant Professors: Kathy Baur, Jose Garcia-Moreno, Thomas F. Klein

Major Requirements

Lower Division Requirements:

27 semester hours of lower division courses distributed as follows:

ANIM 100, 120 (completed with a grade of B [3.0] or better), 110, 220, 230 or 231, 260; ART 153, 154; 2 semester hours of Drawing for Animation (ART 200, 201); and FTVS 100.

Starting in the Fall semester of the sophomore year, Animation majors are required to complete a minimum of 6 semester hours of drawing lab taken each semester until graduation for 1 semester hour (ART 200, 201, 300, 301, 400, 401).

Note: ART 153 and ART 154 are prerequisites for all Figure Drawing Workshops.

Required fine arts core courses:

Critical Arts: ARHS 200, 201, or 202
Creative Arts: ART 153

Upper Division Requirements:

25 semester hours from ANIM 310, 330 or 331, 340, 490, 495, 496, 4 semester hours of Drawing for Animation, and one upper division Animation elective.

Minor Requirements

18 semester hours divided into 9 semester hours of lower division work from:

ANIM 100, 210, and 220;
and 9 semester hours of upper division Animation work under the direction of the program advisor.

### Suggested Additional Electives—Animation Program

- **Acting**: Especially helpful for those interested in character animation, where the animator is the actor or actress.
- **Cinematography and Lighting**: Useful for 3D computer animation/stop motion.
- **Computer Programming**: Useful for interactive media and new technology.
- **Dance**: Also useful for those interested in character animation. These classes will foster an additional understanding of movement, meter, and rhythm.
- **Design**: 2D, 3D, and multimedia.
- **Directing**
- **Drawing**: Any drawing courses in addition to those required are recommended, especially for those interested in character animation. When appropriate (and pending approval of specific instructors), students are encouraged to attend additional sections of the life drawing labs. Other drawing courses may be taken at the Union school, ASIFA, and any number of other art academies in the Los Angeles area.
- **Editing**: Recommended especially for those without any previous film background.
- **Music**: As a source and as a partner.
- **Mythology, Literature**: For understanding storytelling.
- **Painting**: Also highly recommended for those persons who are interested in environmental animation, storyboarding, and background painting.
- **Perspective and Color Theory**
- **Screenwriting**: Useful for understanding the format of visual storytelling.
- **Sound Design**: Useful for engineering, mixing, and using sound creatively.

### ANIM 100

**History of Animation**

3 Semester Hours

Survey of historical developments, styles, techniques, theory, and criticism of animation as an art form. History and use of creative arts used in animation to form effective communication in film and video.

The proper sequence of these courses should be discussed with the student's advisor.

ANIM 340
Interactive Animation I
3 Semester Hours

Introduction to creative and technical aspects of interactive animation technology.

Prerequisites: ANIM 230 or 231.

ANIM 398
Special Studies
1-3 Semester Hours

ANIM 399
Independent Studies
1-3 Semester Hours

ANIM 420
Experimental Animation
3 Semester Hours

Workshop in the art of animated film production. Further development of student projects from ANIM 320.

Prerequisite: ANIM 320.

ANIM 440
Interactive Animation II
3 Semester Hours

Production and design using interactive animation technology.

Prerequisite: ANIM 340.

ANIM 490
Animation Internship
3 Semester Hours

Prerequisite: Senior standing.

ANIM 495
Senior Project in Animation/Pre-Production
3 Semester Hours

Practical experience in animation pre-production. This course centers on the animation thesis project. Development, direction, production of a sophisticated, well-produced film or project. Students are free to determine style, format, and genre of project.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

ANIM 496
Senior Project in Animation/Production
3 Semester Hours

Continuation of practical experience in animation production. Completion of animation thesis project.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Prerequisite: ANIM 495.

ANIM 498
Special Studies
1-3 Semester Hours

ANIM 499
Independent Studies
1-3 Semester Hours
Film/TV Studies

Faculty
Chairperson: Susan Torrey Barber
Associate Professors: Susan Torrey Barber, Patrick J. Connolly, S.J., Richard P. Hadley, Jr., Susan Scheibler

FTVS 100
Storytelling
1 Semester Hour
An exploration of the art of storytelling involving discussions of its history and art and experimentation with its various processes.
Majors only.
CR/NC grading.

FTVS 200
Survey of Mass Media
3 Semester Hours
Structure, function, and effects of the mass media.

FTVS 210
Art of the Cinema
3 Semester Hours
An introduction to the elements of film language and aesthetics and an explanation as a powerful cultural artifact.
Selected screenings, readings, and lecture/discussions.
Lab fee.

FTVS 211
Art of the Cinema Lab
0 Semester Hours
Weekly film discussion sections.

FTVS 212
Art of Television
3 Semester Hours
An introduction to the aesthetic and cultural elements of television.
Selected screenings, readings, and lecture/discussions.
Lab fee.

FTVS 213
Art of Television Lab
0 Semester Hours
Weekly TV discussion sections.

FTVS 313
History of American Film
3 Semester Hours
A critical and historical survey of American film.
Screenings, lectures, and discussions.
Lab fee.

FTVS 314
History of International Film
3 Semester Hours
A critical and historical survey of international film.
Screenings, lectures, and discussions.
Lab fee.

FTVS 315
History of the Documentary
3 Semester Hours
A critical and historical survey of the documentary film.
Screenings, lectures, and discussions.
Lab fee.

FTVS 398
Special Studies
1-3 Semester Hours

FTVS 399
Independent Studies
1-3 Semester Hours

FTVS 400
Professional Transition
2 Semester Hours
Seminar in the real-world skills of networking in the industry, job-seeking, and professional presentation.

FTVS 410
Motion Picture Analysis
3 Semester Hours
Critical analysis of representative current movies joined, whenever possible, by class encounters with the filmmakers themselves.
Prerequisite: FTVS 210 or 212.
FTVS 411
Film Genres
3 Semester Hours
An in-depth study of one film genre (the western, the musical, film noir, etc.).
Screenings, lectures, and discussions.
Lab fee. May be repeated only when a different genre is studied.

FTVS 412
Film Authors
3 Semester Hours
An in-depth study of films of a specific film author (director, writer, etc.).
Screenings, lectures, and discussions.
Lab fee. May be repeated only when a different author is studied.

FTVS 413
National Film
3 Semester Hours
An in-depth study of the films of one nation.
Screenings, lectures, and discussions.
Lab fee. May be repeated only when a different nation is studied.

FTVS 416
Television Genres
3 Semester Hours
In-depth historical study of a television genre (situation comedy, police drama, news, etc.).
Screenings, lectures, and discussions.
Lab fee. May be repeated only when a different genre is studied.

FTVS 417
History of Broadcasting
3 Semester Hours
An introduction to the history, structure, and procedures of the broadcasting industry.
Lab fee.

FTVS 473
Women in Film
3 Semester Hours
Explore the ways that women are represented in historical and contemporary film in a variety of cultures. This course also examines the works of woman directors in an international context.

FTVS 498
Special Studies
1-3 Semester Hours

FTVS 499
Independent Studies
1-3 Semester Hours

FTVS 510
Theory and Analysis
3 Semester Hours
An examination of key theoretical issues and questions and an application of these through close analysis of media texts.
Lab fee.

FTVS 513
Seminar in American Film
3 Semester Hours
Advanced studies in American film.
Screenings, lectures, and discussions.
Lab Fee.

FTVS 514
Seminar in International Film
3 Semester Hours
Advanced studies in international film.
Screenings, lectures, and discussions.
Lab Fee.

FTVS 515
Seminar on the Documentary
3 Semester Hours
Advanced critical and analytical study of the evolution of documentary film/television.
Screenings, lectures, and discussions.
Lab fee.
FTVS 518
Analysis of Video Games
3 Semester Hours

An examination of the history, development, aesthetics, and power of video games, including their relationship to other media texts, including movies and television.

Screenings, lectures, and discussions.

Lab fee.

FTVS 598
Special Studies
1-3 Semester Hours

FTVS 599
Independent Studies
1-3 Semester Hours
Production (Film and Television)

Faculty
Chairperson: Luís Proença, S.J.
Professors: Art Nomura, John A. Stewart, Donald Zirpola
Associate Professors: Glenn Gebhard, Howard S. Lavick, Luís Proença, S.J.
Assistant Professors: Sylvia Morales, Gregory Ruzzin, Charles Swanson, Kennedy Wheatley

Objectives
The School of Film and Television's major in Production (Film and Television) is designed to enable students to express their ideas on the screen—whether that screen is in a theater, at home, or held in one's hand. Beyond the existing television and theatrical feature landscape, new forms of media empower a single person to be both a worldwide broadcaster and a very selective receiver. Digital technologies have created new ways of working that transcend the traditional distinctions between film and television. The SFTV Production (Film and Television) major combines the best of both of these fields.

Students admitted to this rigorous major become quickly immersed in the art of storytelling for the screen. They encounter and study great works of world cinema, both past and present, and ponder the ramifications of the emerging media of the future. They receive expert hands-on training in writing the screenplay, directing actors, cinematography, sound recording and design, and editing. In the process, each student learns about the challenging relationship between art and technique, and how both serve each other. Students learn the practical aspects of mounting a production: budgeting, location scouting, casting, set design and construction, post-production, and the importance of safety in all aspects of what they do. Complete premier state-of-the-art equipment and technology are available 24/7—all in service of story. Through teamwork, students learn an appreciation for all of the artists who labor to serve the story, and the camaraderie that comes from working as part of a crew engaged in a large, collaborative creative enterprise.

Students also learn to find their individual voices and express their own points of view on projects driven by their own creative choices. Beginning with their work on a series of short and intermediate films, students forge the fundamental skills of visual storytelling. Each student's experience culminates with a senior project in which advanced students write, cast, direct, and edit their own thesis films.

These projects may be entirely from the imagination, or they may document the real world. These finished works are produced and owned by the students, and many are distributed and celebrated far beyond the confines of our campus, through the exciting world of festivals, theatrical, television, and other channels of local, national, and international exhibition.

Production (Film and Television) Student Learning Outcomes
Production students will understand:

- The processes of directing, screenwriting, cinematography, editing, sound, and set design, while developing leadership and teamwork skills.

Production students will:

- Gain a knowledge of film and video production by creating and directing finished, individual projects that are based in creative storytelling
- Gain an appreciation for a wide variety of films/videos, including foreign, independent, documentary, and experimental
- Gain an understanding of the importance of film history and theory
- Balance creative and organizational skills, while complying with insurance and safety requirements
- Learn to value constructive feedback and revision of creative work
- Learn to respect the personal history and cultural diversity of fellow students
- Learn the value of collaboration and teamwork in the production process.

Major Requirements

Lower Division Requirements:

22 semester hours of lower division courses distributed as follows: FTVS 100; 200; 210 or 212; PROD 180; PROD 200 and 250 (completed with a grade of B [3.0] or better); RECA 250; and SCWR 220.

Upper Division Requirements:

Satisfactory completion of PROD 300 or 350; PROD 365, 366, and 379; PROD 400, 450, or 461; PROD 420 or 426; PROD 441, 466, 467, 469, or 476; RECA 367; two cinema/TV history courses chosen from FTVS 313, 314, 315, 410, 411, 412, 413, 416, 417, 473, or 510; SCWR 326 or 400; FTVS 400 is highly recommended.

_The proper sequence of these courses should be discussed with the student’s advisor. Students at the 300 and 400 Production level have the choice of either fiction or non-fiction (300 or 350; 400 or 450). Since each Production class has its own SCWR prerequisite, students should discuss the sequencing of those courses with their advisors._

Acting, drawing, photography, computer graphics, additional film history, screenwriting, and business classes are among the suggested electives for Production (Film and Television) majors.

### PROD 180
**Pre-Production I**
3 Semester Hours

A series of pre-production intensive and creative workshop modules focusing on specialty proficiencies. These will include: set, sound, lighting, and costume design; rudimentary editing; acting; and professional storyboarding.

Majors only.

Lab fee.

### PROD 200
**Production I**
3 Semester Hours

An introduction to the aesthetic and practical problems of communicating visually through motion pictures. Each student is required to produce several movies.

Lab fee.

Prerequisite: FTVS 210 or 212. Majors only

### PROD 201
**Introduction to Film Production Lab**
0 Semester Hours

Training in the technical aspects of beginning film production: camera, sound, and lighting.
**PROD 368**  
**Production Planning**  
3 Semester Hours  

Pre-production theory and practice as applied to film/television. Special emphasis on the latest production facilities and their use.

Prerequisites: PROD 200 or 250 completed with a grade of B (3.0) or better. Majors only.

**PROD 379**  
**Fundamentals of Directing**  
3 Semester Hours  

Survey of pre-production preparation for directors, including script analysis, casting, visualization, and working with actors.

Prerequisites: PROD 200 or 250 completed with a grade of B (3.0) or better. Majors only.

**PROD 389**  
**Special Studies**  
1-3 Semester Hours

**PROD 399**  
**Independent Studies**  
1-3 Semester Hours

**PROD 400**  
**Production IV (fiction)**  
3 Semester Hours  

Practical experience in motion picture production on a para-professional level including writing, directing, and editing a film. Sync sound project, maximum length 15 minutes.

Note: Insurance required for off-campus use of equipment. The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Lab fee.

Prerequisites: PROD 300 or 350, 426; RECA 367. Majors only.

**PROD 420**  
**Pre-Production for Production IV (fiction project)**  
3 Semester Hours  

Preparation of the shooting script, casting, scheduling, budgeting, art design, pre-visualization, and other preparation prior to principal photography.

Prerequisite: PROD 300 or 350.

**PROD 426**  
**Documentary Pre-Production (non-fiction project)**  
3 Semester Hours  

Writing the thesis (documentary) project and preparing the script for production.

Prerequisite: PROD 300 or 350.

**PROD 441**  
**Advanced TV Production**  
3 Semester Hours  

Practicum in production of student projects from initial concept through post-production with rotating crew assignments in multi-camera TV studio.

Lecture and Lab, 6 hours.

Prerequisites: PROD 300 or 350; RECA 367. Majors only.

**PROD 450**  
**Production IV (non-fiction)**  
3 Semester Hours  

Practical experience in motion picture production on a para-professional level including writing, directing, and editing a documentary or experimental piece. Project maximum length 15 minutes.

Note: Insurance required for off-campus use of equipment. The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Lab fee.

Prerequisites: PROD 300 or 350, 46; RECA 367. Majors only.

**PROD 461**  
**Directed Study in Film Production**  
3 Semester Hours  

This class will fulfill your thesis requirement in lieu of PROD 400 or 450. The course is an intensive investigation in one or more areas of production based upon a mentorship, interviews, practical experience, and a final research paper and presentation. It is an alternative form for the student to gain in-depth knowledge of the professional practices within the entertainment industry.

The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.

Prerequisites: PROD 300 or 350; RECA 367. Majors only.
PROD 466
Advanced Editing
3 Semester Hours
Further studies in aesthetics and the techniques of editing for film and/or TV.
Lab fee.
Prerequisites: PROD 300 or 350, 365, 366, 379; RECA 367. Majors only.

PROD 467
Post-Production Sound
3 Semester Hours
Advanced sound theory with actual experience in sound re-recording for both film and television.
Prerequisite: RECA 367.

PROD 469
Advanced Cinematography
3 Semester Hours
Further studies in the techniques of camera and lighting for film and video.
Lab fee.
Prerequisites: PROD 300 or 350, 365, 366, 379. Majors only.

PROD 476
Post-Production Effects
3 Semester Hours
This course addresses the process of communication through typographic animation and visual effects. Emphasis is placed on creating emotional expression and identity through composites of video, text, and special effects.
Prerequisite: PROD 300 or 350.

PROD 490
Internship I
3 Semester Hours
Internship with one of several Los Angeles media companies currently accepting LMU students. Practical experience working at a professional level for a network, film studio, advertising agency, radio station, etc.
May be repeated once.
Majors only.

PROD 491
Internship II
3 Semester Hours
Further directed experience with a professional company in a media field.

PROD 495
Advanced Studies
1-3 Semester Hours
Pre-professional individualized study within the School of Film and Television.
May be repeated for degree credit three times.
Permission of instructor required.

PROD 498
Special Studies
1-3 Semester Hours

PROD 499
Independent Studies
1-3 Semester Hours

PROD 598
Special Studies
1-3 Semester Hours

PROD 599
Independent Studies
1-3 Semester Hours
Recording Arts

Faculty
Chairperson: Mladen Milicevic
Professor: Mladen Milicevic
Associate Professor: Roger Pardee
Assistant Professor: Kurt Daugherty

Objectives
Recording Arts students explore the theoretical and practical elements of sound recording, reproduction, and design—the fundamentals crucial to successful work in all media that tap into the creative power of sound.

Given the enormous influence of these media, it is vital that these studies are given perspective by courses in LMU's Liberal Arts core curriculum. Recording Arts students are also required to take one music class that deals with the fundamentals of music theory. In upper division courses, students study the science of sound behavior, reproduction, and modification. They learn audio techniques that apply to both film/television sound and music recording.

The SFTV sound stages, studios, and audio workstations are the laboratories where students put their knowledge and creativity to work and build a portfolio. Each Recording Arts student gains experience with film and television sound production and produces an advanced multi-track music recording as a senior project. Creative collaboration is key to success in this field.

Recording Arts Student Learning Outcomes
Recording Arts students will understand:

- The physical and psychoacoustic properties of sound
- The techniques of making, editing, and processing sound recordings
- The aesthetic contribution of sound to media.

Recording Arts students will be able to:

- Make technically competent recordings of music as well as production and post-production sound for film and television media
- Effectively edit and process sound for those media
- Create technically competent and aesthetically pleasing mixes for those media.

Recording Arts students will value:

- The transformative power of challenging and meaningful art
- The collaborative and rigorous nature of working in sound for music, film, and television
- The cultural impact and significance of this media—past, present, and future.

Major Requirements

Lower Division Requirements:
16 semester hours of lower division courses distributed as follows: FTVS 100 and 200; FTVS 210 or 212; MUSC 104; PROD 200; and RECA 250 (completed with a grade of B [3.0] or better).

Upper Division Requirements:
Satisfactory completion of RECA 350, 352, 353, 355, 356, 357, 450, 457, and 467; and at least one cinema history course chosen from FTVS 313, 314, 315, 411, 412, 413, 473, or 510.

#### The proper sequence of these courses should be discussed with the student’s advisor.

### RECA 250

**Sound Design**

*3 Semester Hours*

An introduction to the aesthetic, pragmatic, and technical issues of motion picture sound recording, editing, and mixing.

School of Film and Television majors only.

Prerequisites: FTVS 200 and 210.

### RECA 298

**Special Studies**

*1-3 Semester Hours*

### RECA 299

**Independent Studies**

*1-3 Semester Hours*

### RECA 350

**Recording Technology**

*3 Semester Hours*

The electronic theories of sound recording and reproduction.

Prerequisites: RECA 250 and concurrent enrollment in RECA 352 and 353.

RECA students only.
**RECA 352**  
The Nature of Sound  
3 Semester Hours  
The behavior of sound in various environments and techniques of modifying sound.  
Prerequisites: RECA 250 and concurrent enrollment in RECA 350 and 353.  
RECA students only.

**RECA 353**  
Production Sound Techniques  
3 Semester Hours  
Production sound theory and practice, with actual experience in recording, producing sound, and introduction to initial post-production procedures for film and TV.  
Prerequisites: Concurrent enrollment in RECA 350 and 352.  
RECA students only.

**RECA 355**  
Live Studio Recording  
3 Semester Hours  
The theory and practice of recording small ensemble groups in the studio, capturing the immediacy of a “live” performance with no overdubs.  
Lecture and Lab, 6 hours.  
Prerequisites: RECA 350, 352, and 353.  
RECA students only.

**RECA 356**  
Multi-Track Studio Recording  
3 Semester Hours  
Music production and sound engineering using multi-track studio recording techniques.  
Lecture and Lab, 6 hours.  
Prerequisites: RECA 350, 352, 353, and 355.  
RECA students only.

**RECA 357**  
Digital Sound Editing  
3 Semester Hours  
Introduction to sound effects and dialog editing using random access digital sound and picture.  
Prerequisite: RECA 250.  
RECA students only.

**RECA 367**  
Production Sound  
3 Semester Hours  
Production sound theory and practice, with actual experience in recording, producing sound, and introduction to initial post-production procedures for film and TV.  
Prerequisites: PROD 200 completed with a grade of B (3.0) or better.  
PROD students only.

**RECA 398**  
Special Studies  
1-3 Semester Hours

**RECA 399**  
Independent Studies  
1-3 Semester Hours

**RECA 450**  
Senior Music Project  
3 Semester Hours  
Supervised project in multi-track recording and production of music.  
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.  
Prerequisites: RECA 350, 352, 353, 355, 356, 357, and 467.  
RECA students only.

**RECA 457**  
Advanced Audio  
3 Semester Hours  
Supervised and advanced projects in audio applications.  
Prerequisites: RECA 350, 352, 353, 355, 356, 357, and 467.  
RECA students only.

**RECA 467**  
Post-Production Sound  
3 Semester Hours  
Advanced applications in film and television sound post-production: ADR, Foley, dialog and sound effects editing, and mixing.  
Prerequisites: RECA 350, 352, 355, 357, and 367.  
RECA students only.
RECA 493
Contemporary Issues: Recording Arts
3 Semester Hours

Further studies in sound recording theory and practice.
Prerequisite: RECA 356.

RECA 498
Special Studies
1-3 Semester Hours

RECA 499

Screenwriting

Faculty

Chairperson: Stephen V. Duncan
Professor: Marilyn Beker
Associate Professors: Jeffrey Davis, Stephen V. Duncan, Mark Evan Schwartz
Assistant Professor: Beth Serlin

Major Requirements

Lower Division Requirements:

13 semester hours of lower division courses distributed as follows: FTVS 100 and 200, FTVS 210 or 212; PROD 200; SCWR 220 (completed with a grade of B [3.0] or better).

Upper Division Requirements:

Satisfactory completion of SCWR 320, 321, 325 or 426, 329, 420, 428; and two cinema/TV history courses from FTVS 313, 314, 315, 411, 412, 413, 416, 417, 473, or 510. In consultation with the advisor, it is also recommended that the student take courses outside the major in writing, literature, and drama courses from English, Classics, and Theatre Arts department offerings.

Minor in Screenwriting for English Majors

The School of Film and Television offers a minor as an option to students majoring in the writing emphasis in the English Department. The minor consists of 18 semester hours.

Required Courses:

- FTVS 210 Art of the Cinema
- SCWR 220 Beginning Screenwriting
- SCWR 320 Intermediate Screenwriting
- SCWR 321 Completing or Rewriting the Feature

Upon completion of the required courses, students will choose two from the following:

- SCWR 325 Writing the TV Situation Comedy
- SCWR 326 Writing the Documentary
- SCWR 426 Writing for Television
- SCWR 428 Adaptation: One Medium to Another

---

### SCWR 220

**Beginning Screenwriting**

3 Semester Hours

Practicum in the basics of screenwriting; idea, outline, plot, characterization, etc. Analysis of scripts.

Lab fee.

### SCWR 298

**Special Studies**

1-3 Semester Hours

### SCWR 299

**Independent Studies**

1-3 Semester Hours

### SCWR 320

**Intermediate Screenwriting**

3 Semester Hours

Practical experience in writing feature film scripts with individualized analysis of plot, character development, and structure.

Prerequisite: SCWR 220.

Majors/minors only. Lab fee.

### SCWR 321

**Completing or Rewriting the Feature**

3 Semester Hours

Practical experience in completing or rewriting a feature-length screenplay.

Prerequisite: SCWR 320.

Majors/minors only.

May be repeated once.

### SCWR 325

**Writing the TV Situation Comedy**

3 Semester Hours

Practical experience in writing in various comic forms with emphasis on television situation comedy.

Prerequisite: SCWR 220.

Majors/minors only.
SCWR 326  
Writing the Documentary  
3 Semester Hours  
This course surveys the theory and practice of writing for the documentary and other forms of non-fiction media in television and film.  
Prerequisite: SCWR 220.  
Majors/minors only.

SCWR 329  
Directing for Screenwriters  
3 Semester Hours  
An in-depth workshop/lecture demonstration on production and post-production processes and aesthetics of film and video.  
May require a lab fee.  
Prerequisites: PROD 200 and SCWR 220.  
Majors/minors only.

SCWR 398  
Special Studies  
1-3 Semester Hours

SCWR 399  
Independent Studies  
1-3 Semester Hours

SCWR 400  
Writing for Production I  
3 Semester Hours  
Elements of screenwriting as applied to short films intended for production.

SCWR 420  
Senior Writing Project  
3 Semester Hours  
Specially directed projects in writing for film, television, or other media from initial concept through finished form.  
The student must provide a professional copy of all senior thesis-level projects to the School of Film and Television in partial fulfillment of degree requirements.  
Prerequisites: SCWR 320 and 321.  
Lab Fee.

SCWR 426  
Writing One-Hour Episodic TV  
3 Semester Hours  
Practical experience in writing one-hour episodic television drama.  
Prerequisites: SCWR 220 and 320; School of Film and Television majors only.

SCWR 428  
Adaptation: One Medium to Another  
3 Semester Hours  
Practical experience in translating books (novels and/or non-fiction) into film scripts.  
Prerequisite: SCWR 320.

SCWR 498  
Special Studies  
1-3 Semester Hours

SCWR 499  
Independent Studies  
1-3 Semester Hours
Department of Aerospace Studies
Aerospace Studies

All University Colleges and Schools

Faculty
Douglas Erlenbusch, John Holt, Charles Washuk

General Military Course
The first two years of Aerospace Studies (AERO 100, 200) are designated the General Military Course (GMC) for students enrolled in Air Force Reserve Officer Training Corps (AFROTC). There are no prerequisites for these courses, and all University students may participate. These courses focus on developing individual communication skills, understanding the environment of the Air Force officer, and comprehending the historical development of the United States Air Force in the national security structure. AERO 100 and 200 may be taken concurrently to allow late entry into the program by sophomores or second-semester freshmen.

Professional Officer Course
The last two years of AFROTC (AERO 300, 400) are designated the Professional Officer Course (POC) for students enrolled in AFROTC. They are designed to prepare cadets for duty as officers in the United States Air Force and provide students with a working knowledge of advanced leadership and management theories and applications, as well as an understanding of the United States national security processes. The POC includes academics, interaction with military and national security professionals, and the practice of leadership and management in a large group environment. Students not currently enrolled in AFROTC who desire to enroll as a cadet in the POC should contact the Department early in their sophomore year. This does not preclude normal enrollment in the class by students who are not cadets.

Special Notes
Aerospace Studies courses may or may not count toward graduation, depending upon the student’s major. Students should consult their Dean and Department Chairperson for allowable courses. Leadership laboratories are mandatory for members of the cadet corps but optional for students taking the academic courses as electives.

Air Force Reserve Officer Training Corps Program
The AFROTC program at Loyola Marymount University is conducted by active duty Air Force Officers assigned to the Department of Aerospace Studies. The program is designed to prepare qualified men and women for careers as commissioned officers in the United States Air Force. Textbooks, uniforms, and all other equipment used in this program are furnished by the Air Force at no expense to the student.

Air Force ROTC offers two-, three-, and four-year scholarships. Additionally, Loyola Marymount University supplements some Air Force ROTC scholarships with room and board.

A nominal four-year program consists of two years of the General Military Course, followed by two years of the Professional Officer Course. Admission into the Professional Officer Course is limited to those students who successfully pass required written, oral, and physical examinations. During the summer between the sophomore and junior year, cadets are required to attend four weeks of field training at an Air Force Base to familiarize them with Air Force life. The Air Force furnishes all uniforms, equipment, and transportation. Students also receive pay and allowances authorized by current directives at the time of field training attendance. After successfully completing field training, qualified cadets enter the Professional Officer Course and receive $350-400 per month, tax-free, during the final two years of AFROTC.

An accelerated two-year program may be available. It consists of a longer field training and the two-year professional officer course. Interested students should contact the AFROTC Department early in their sophomore year for application procedures.

AFROTC offers students expanded access to management theories and practice, exposure to industry and military leaders, and opportunities to better comprehend international political and security environment. All of this is in a small campus environment but includes extensive interaction with students from other local universities and colleges who participate in the program. Besides a commission upon graduation, completed cadets may apply for careers as pilots, navigators, space and missile operators, business administrators, engineers, health professionals, intelligence, and many other leadership positions.

AERO 302
Laboratory V
0 Semester Hours

Students experience leadership by supervising basic military drill and ceremonies and by planning and participating in physical fitness activities and challenging group activities.

(Taken concurrently with AERO 301, mandatory for cadets, optional for other students.)

AERO 303
Laboratory VI
0 Semester Hours

Students experience leadership by supervising basic military drill and ceremonies and by planning and participating in physical fitness activities and challenging group activities.

(Taken concurrently with AERO 301, mandatory for cadets, optional for other students.)

AERO 400
National Security Affairs Preparation for Active Duty I
3 Semester Hours

Students examine the national security process, regional studies, the laws of armed conflict, advanced leadership ethics, and Air Force and joint doctrine. Special topics of interest focus on the military profession, officership, civilian control of the military, and current issues. Effective communication skills continue to be emphasized.

AERO 401
National Security Affairs Preparation for Active Duty II
3 Semester Hours

Students examine the national security process, regional studies, the laws of armed conflict, advanced leadership ethics, and Air Force and joint doctrine. Special topics of interest focus on the military profession, officership, civilian control of the military, and current issues. Effective communication skills continue to be emphasized.

AERO 402
Laboratory VII
0 Semester Hours

Students assume full responsibility for planning and executing the leadership laboratory to include control of budgets and equipment, directing military drill and ceremonies, planning and participating in physical fitness activities, organizing trips and formal dinners, and designing and executing challenging group activities.

(Taken concurrently with AERO 400, mandatory for cadets, optional for other students.)

AERO 403
Laboratory VIII
0 Semester Hours

Students assume full responsibility for planning and executing the leadership laboratory to include control of budgets and equipment, directing military drill and ceremonies, planning and participating in physical fitness activities, organizing trips and formal dinners, and designing and executing challenging group activities.

(Taken concurrently with AERO 401, mandatory for cadets, optional for other students.)

University Faculty
JENNIFER S. ABE-KIM (1994)
Associate Professor of Psychology and Associate Dean of the Bellarmine College of Liberal Arts
B.A., Wheaton College, 1985;
M.A., U.C. Los Angeles, 1987;

LEV ABOLNIKOV (1981)
Professor of Mathematics
M.S., Leningrad University, 1961;
Ph.D., Leningrad University, 1970.

DOLPHY ABRAHAM (1993)
Associate Professor of Computer Information Systems
B.Com., Bangalore University, 1986;
M.B.A., Syracuse University, 1988;
Ph.D., University of Pittsburgh, 1993.

REBECA ACEVEDO (1996)
Associate Professor of Modern Languages and Literatures
B.A., University of Guadalajara, 1984;
M.A., U.C. Los Angeles, 1991;
Ph.D., University of Michigan, 1996.

ETHAN ADAMS (2005)
Assistant Professor of Classics and Archaeology and Director of Humanities
B.A., College of the Holy Cross, 1995;
M.A., University of Washington, 1998;

Assistant Professor of Civil Engineering
B.S., University of Michigan, 1994;
M.S., Massachusetts Institute of Technology, 2000;
Ph.D., Massachusetts Institute of Technology, 2002.

HAWLEY C. ALMSTEDT (2005)
Assistant Professor of Natural Science
B.S., San José State University, 1999;
M.A., San José State University, 2001;
Ph.D., Oregon State University, 2005.

NAJWA AL-QATTAN (1998)
Associate Professor of History
B.A., American University in Beirut, Lebanon, 1977;
M.A., Georgetown University, 1979;
M.A., Harvard University, 1984;
Ph.D., Harvard University, 1996.

KRISTEN RIZZO ANGUIANO (2006)
Assistant Professor of Education
B.A., University of Kentucky, 1989;
M.A., University of Iowa, 1997;
Ph.D., University of Iowa, 2006.

CARA ANZILOTTI (1996)
Associate Professor of History
B.A., U.C. Davis, 1978;
M.A., California State University, Long Beach, 1987;

WILKIE AU (2003)
Professor of Theological Studies
B.A., Gonzaga University, 1968;
M.S.Ed., University of Southern California, 1971;
M.Div., Jesuit School of Theology, Berkeley, 1973;
S.T.M., Jesuit School of Theology, Berkeley, 1976;

STEPHANIE E. AUGUST (1999)
Associate Professor of Computer Science and Director of the Graduate Programs in Electrical Engineering and Computer Science
B.A., U.C. Los Angeles, 1972;
M.S., U.C. Los Angeles, 1985;

JOSÉ IGNACIO BADENES, S.J. (1997)
Associate Professor of Modern Languages and Literatures and Director of Catholic Studies
B.S., Georgetown University, 1980;
M.A., University of North Carolina, Chapel Hill, 1986;
M.Div., Jesuit School of Theology, Berkeley, 1993;
Th.M., Jesuit School of Theology, Berkeley, 1993;
Ph.D., U.C. Santa Barbara, 1996.

JASON S. BAEHR (2003)
Assistant Professor of Philosophy
B.A., Arizona State University, 1994;
M.A., Biola University, 1996;
Ph.D., University of Washington, 2002.

MARTA BALTODANO (2000)
Associate Professor of Education
J.D., Universidad Centro Americana, 1980;
B.S., Universidad Centro Americana, 1985;
M.A., U.C. Los Angeles, 1993;
Ph.D., Claremont Graduate University, 1998.

Assistant Professor of Business Law
B.S.A., Miami University, 1984;
J.D., Cleveland State University, 1987;

LINDA BANNISTER (1983)
Professor of English
B.A., University of Michigan, 1974;
M.A., University of Southern California, 1976;
Ph.D., University of Southern California, 1982.
SUSAN TORREY BARBER (1991)
Associate Professor of Film/TV Studies and Chairperson of the Department
B.A., University of Michigan, 1969;
M.E., University of Montana, 1973;
M.A., University of Southern California, 1983;
Ph.D., University of Southern California, 1988.

RONALD K. BARRETT (1978)
Professor of Psychology and Acting Chairperson of African American Studies
B.S., Morgan State University, 1970;
M.S., University of Pittsburgh, 1974;
Ph.D., University of Pittsburgh, 1977.

THOMAS M. BATSIS, O.CARM. (1982)
Professor of Education
B.A., Bellarmine College, 1963;
M.Ed., University of Louisville, 1972;
Ph.D., California Graduate Institute, 1983.

KATHY BAUR (2004)
Assistant Professor of Film and Television
B.A., Loyola Marymount University, 1987;

MARILYN BEKER (1986)
Professor of Screenwriting
B.A., University of Toronto, 1967;
M.A., Concordia University, 1974.

DIANE BENEDICT (1997)
Associate Professor of Theatre Arts
B.A., University of Southern California, 1977;

J. ROSS BENGEL (1986)
Professor of Accounting
B.A., Dickinson College, 1969;
J.D., University of South Carolina, 1975;
M.A., University of South Carolina, 1976;

CURTIS D. BENNETT (2002)
Professor of Mathematics and Chairperson of the Department
B.S., Colorado State University, 1985;
M.S., University of Chicago, 1986;
Ph.D., University of Chicago, 1990.

DIONNE BENNETT (2004)
Assistant Professor of African American Studies
B.A., Yale University, 1990;
M.A., Yale University, 1998;

MICHAEL C. BERG (1989)
Professor of Mathematics
B.A., U.C. Los Angeles, 1978;

LARRY C. BERNARD (1987)
Professor of Psychology
B.A., University of Southern California, 1970;
M.A., California State University, Los Angeles, 1975;
Ph.D., University of Southern California, 1980.

Assistant Professor of Biology
B.S., U.C. Los Angeles, 1990;
M.S., Purdue University, 1993;

Assistant Professor of History
B.A., U.C. Davis, 1995;
M.A., Cornell University, 1999;
Ph.D., Cornell University, 2003.

LANCE H. BLAKESLEY (1974)
Associate Professor of Political Science
B.A., University of Illinois, 1965;
M.A., Northwestern University, 1967;
Ph.D., Northwestern University, 1970.

BENJAMIN F. BOBO (1992)
Professor of Finance
B.S., California State University, Long Beach, 1969;
M.B.A., U.C. Los Angeles, 1971;

MARY C. BREDEN (1992)
Professor of Music, Director of Choral Activities, and Chairperson of the Department
B.A., Mount St. Mary’s College, 1972;
B.M., Mount St. Mary’s College, 1973;
M.M., Arizona State University, 1981;
D.M.A., Arizona State University, 1983.

MICHAEL BRODSKY (1988)
Professor of Art and Art History
B.A., U.C. Santa Cruz, 1975;
B.A., U.C. Santa Cruz, 1975;

JANE MARIE BRUCKER (1993)
Professor of Art and Art History
B.A., San Diego State University, 1982;
M.F.A., Claremont Graduate University, 1985;
M.A., Claremont School of Theology, 1992.

JOHN BULMAN (1982)
Professor of Physics
B.S., Brown University, 1973;
M.S., University of Pennsylvania, 1975;
Ph.D., Tufts University, 1981.
ROB BURCHFIELD (1998)
Associate Professor of Animation and Chairperson of the Department

STACY LEE BURNS (2000)
Associate Professor of Sociology and Chairperson of the Department

DOUGLAS BURTON-CHRISTIE (1994)
Professor of Theological Studies and Director of the Graduate Program in Theological Studies and Pastoral Studies

BARBARA J. BUSSE (1969-72; 1980)
Associate Professor of Communication Studies and Dean of the College of Communication and Fine Arts
B.A., California State University, Fullerton, 1968; M.A., California State University, Northridge, 1969.

JAY B. BUSSE (1970)
Associate Professor of Communication Studies
B.A., California State University, Fullerton, 1968; M.A., California State University, Northridge, 1969.

MÓNICA CABRERA (2005)
Assistant Professor of Modern Languages and Literatures
B.A., Pontificia Universidad Católica del Perú, 1991; M.A., University of Southern California, 2001; Ph.D., University of Southern California, 2005.

Professor of Chemistry
B.S., Loyola University, 1958; M.S., University of Detroit, 1965; S.T.M., Santa Clara University, 1971; Ph.D., U.C. San Diego, 1975.

ERIKA T. CAMACHO (2004)
Assistant Professor of Mathematics

WILLIAM SCOTT K. CAMERON (1995)
Associate Professor of Philosophy and Director of Ethics
B.A., Queen's University, 1984; M.A., Queen's University, 1988; Ph.D., Fordham University, 1995.

MICHAEL P. CARUSO, S.J. (2001)
Associate Professor of Education

CHRISTOPHER KEY CHAPPLE (1985)
Professor of Theological Studies and Director of LMU Extension

CONSTANCE J.S. CHEN (2003)
Assistant Professor of History

DONG CHEN (2004)
Assistant Professor of Management
B.A., Renmin University of China, 1994; M.A., Renmin University of China, 1996; Ph.D., Renmin University of China, 1999; Ph.D., Rutgers University, 2004.

ALAN A. CHERRY (1983)
Professor of Accounting and Chairperson of the Department

STUART CHING (2001)
Associate Professor of English

Sir Thomas More Chair in Engineering Ethics

SAERI CHO (2007)
Assistant Professor of Art and Art History

S.W. TINA CHOE (1996)
Professor of Chemistry
DAVID CHOI (2003)
Assistant Professor of Management
B.S.E., U.C. Berkeley, 1989;
M.E., U.C. Berkeley, 1990;

JOHN A. COLEMAN, S.J. (1997)
Casassa Chair of Social Values and
Professor of Theological Studies
B.A., St. Louis University, 1960;
M.A., St. Louis University, 1961;
St.M., Santa Clara University, 1968;
Ph.D., U.C. Berkeley, 1973;

VINCENT P. COLETTA (1969)
Professor of Physics
B.S., Christian Brothers College, 1964;
Ph.D., University of Notre Dame, 1970.

Assistant Professor of Education
B.A., Loyola University Chicago, 1987;
M.A., University of Toronto, 1988;
M.Div., Jesuit School of Theology, Berkeley, 1993;

JOHN R. CONNOLLY, JR. (1971)
Professor of Theological Studies
B.A., St. Mary's, 1960;
S.T.B., St. Mary's, 1963;
B.S., Loyola University, New Orleans, 1964;
M.A., Marquette University, 1966;
Ph.D., Marquette University, 1971.

PATRICK CONNOLLY, S.J. (1975)
Associate Professor of Film/TV Studies
B.A., St. Louis University, 1959;
M.A., St. Louis University, 1960;
S.T.L., Gregorian, 1967;
Ph.D., University of Southern California, 1973.

ALISSA S. CRANS (2004)
Assistant Professor of Mathematics
B.S., University of Redlands, 1999;
M.S., U.C. Riverside, 2000;

REBECCA D. CRAWFORD (1987)
Professor of Chemistry
B.A., U.C. Los Angeles, 1973;
Ph.D., University of Southern California, 1982.

KAM D. DAHLQUIST (2005)
Assistant Professor of Biology
B.A., Pomona College, 1993;

MICHAEL DANCICER (1978)
Professor of Biology
B.S., Drexel University, 1966;
Ph.D., University of Oregon, 1971.

FRANK P. DAROCA (1986)
Professor of Accounting
B.S., Louisiana State University, 1964;
M.S., Louisiana State University, 1974;
Ph.D., University of Illinois, 1981;

GEORGE DASARO (1977)
Professor of Accounting
B.B.A., Loyola University, Los Angeles, 1963;
M.S., California State University, Los Angeles, 1966;

KURT DAUGHERTY (2006)
Assistant Professor of Recording Arts
B.A., San Diego State University, 1981;

KARENMARY DAVALOS (1997)
Associate Professor of Chicana/o Studies
B.A., Stanford University, 1987;
M.A., Stanford University, 1987;
Ph.D., Yale University, 1993.

JEFFREY DAVIS (2001)
Associate Professor of Screenwriting
B.A., Emerson College, 1970;
M.F.A., University of Iowa, 1972.

FRANCA DELL'OLIO (2006)
Assistant Professor of Education
B.A., Loyola Marymount University, 1990;
M.A., Loyola Marymount University, 1996;
Ed.D., Pepperdine University, 2006.

ROBERTO DELL'ORO (2003)
Associate Professor of Theological Studies
S.T.B., University of Milan, 1983;
S.T.L., Gregorian University, 1985;
Ph.D., Gregorian University, 1992.

PAUL A. DeSENA (1966)
Professor of Education
M.S., Central Connecticut State University, 1958;
M.Ed., Hartford University, 1960;

JAMES DEVINE (1985)
Professor of Economics
B.A., Yale University, 1974;
THERESIA DE VROOM (1990)
Professor of English and Director of the
Marymont Institute for Faith, Culture, and the Arts
B.M., University of Southern California, 1980;
B.A., University of Southern California, 1980;
M.A., Emory University, 1982;
Ph.D., University of Southern California, 1988.

JACQUELINE M. DEWAR (1973)
Professor of Mathematics and
Director of the Center for Teaching Excellence
B.S., St. Louis University, 1968;
M.S., University of Southern California, 1971;
Ph.D., Yale University, 1984.

MATTHEW DILLON (1987)
Professor of Classics and Archaeology
B.A., Wesleyan University, 1974;
M.A., Yale University, 1979;
Ph.D., Yale University, 1984.

JOHN DAVID N. DIONISIO (2004)
Assistant Professor of Computer Science
B.S., Loyola Marymount University, 1991;
M.S., U.C. Los Angeles, 1993;

LAMBERT A. DOEZEMA (2004)
Assistant Professor of Chemistry
B.S., Trinity University, 1998;
M.S., U.C. Irvine, 2000;

PHILIP M. DORIN (1971)
Professor of Electrical Engineering and Computer Science
B.S., Massachusetts Institute of Technology, 1970;
M.S., Northeastern University, 1971;

JOHN H. DORSEY (2002)
Associate Professor of Natural Science and
Chairperson of the Department
B.A., California State University, Long Beach, 1972;
M.A., California State University, Long Beach, 1975;
Ph.D., University of Melbourne, 1982.

PATRICIA C. DOUGLAS (1995)
Associate Professor of Accounting
B.S., University of Colorado, 1982;
M.S., University of Virginia, 1990;
Ph.D., Virginia Commonwealth University, 1995;

DENNIS T. DRAPER (2007)
Professor of Finance and
Dean, College of Business Administration
B.S., Northwestern University, 1970;
M.S., Stanford University, 1972;
Ph.D., Stanford University, 1979.

PHILIPPA M. DRENNAN (1995)
Associate Professor of Biology
B.Sc., University of Natal, Durban, 1979;
B.Sc. (Hons), University of Natal, Durban, 1980;
Ph.D., University of Natal, Durban, 1987.

ELIZABETH DRUMMOND (2006)
Assistant Professor of History
B.S., Georgetown University, 1993;
M.A, Georgetown University, 1997;
Ph.D., Georgetown University, 2004.

STEPHEN V. DUNCAN (1999)
Associate Professor of Screenwriting and
Chairperson of the Department
B.S., North Carolina A&T State University, 1971;
M.B.A, Baruch College, NY, 1977;
M.A., Loyola Marymount University, 1979.

JOSEPH E. EARLEY (1975)
Associate Professor of Economics
B.A., Gannon College, 1967;
M.S., Rensselaer Polytechnical Institute, 1968;

PAIGE PETTYJOHN EDLEY (2003)
Associate Professor of Communication Studies
B.A., Wake Forest University, 1984;
M.A., Wake Forest University, 1989;
Ph.D., Rutgers University, 1997.

JENNIFER L. EICH (1994)
Professor of Modern Languages and Literatures
B.A., Knox College, 1981;
M.A., U.C. Los Angeles, 1987;

SUSAN EKINAWY (2003)
Assistant Professor of Finance
B.A., U.C. Los Angeles, 1992;
M.B.A., Loyola Marymount University, 1998;
M.S., University of Oregon, 2001;
Ph.D., University of Oregon, 2003.

Professor of History and
Dean of the Bellarmine College of Liberal Arts
B.A., Loyola University, Los Angeles, 1972;
M.A., Gonzaga University, 1978;
M.Div., Jesuit School of Theology, Berkeley, 1982;
ELLEN A. ENSHER (1997)
Associate Professor of Management
B.A., Loyola Marymount University, 1987;
M.A., Claremont Graduate University, 1994;
Ph.D., Claremont Graduate University, 1997.

CHARLES E. ERVEN (2002)
Associate Professor of Theatre Arts

RICHARD ESPINOZA (2002)
Assistant Professor of Chicana/o Studies
B.A., U.C. Los Angeles, 1992;
M.F.A., U.C. Los Angeles, 1995;

RITA ESQUIVEL (1995)
Adjunct Professor of Education
B.A., Our Lady of the Lake University, 1953;
M.Ed., Our Lady of the Lake University, 1960.

OMAR S. ES-SAID (1985)
Professor of Mechanical Engineering
B.S., American University, Cairo, 1976;
M.S., American University, Cairo, 1978;
Ph.D., University of Kentucky, 1985.

ZAKI EUSUFZAI (1989)
Associate Professor of Economics
B.S.S., University of Dhaka, 1980;
M.A., Illinois State University, 1982;

KWEKU EWUSI-MENSAH (1986)
Professor of Computer Information Systems
B.S., University of Ghana, 1970;
M.S., University of Alberta, 1972;

ALAN H. FALCON (1979)
Professor of Accounting
B.A., Temple University, 1970;
M.A., University of Arizona, 1973;
C.M.A., 1980;
C.P.A., 1982;

JAMES D. FAUGHT (1974)
Professor of Sociology
B.A., San José State University, 1967;
M.A., San José State University, 1969;

ADAM FINGERHUT (2007)
Assistant Professor of Psychology
B.A., Stanford University, 1996;

JODI SUSAN FINKEL (2001)
Associate Professor of Political Science
B.A., U.C. Los Angeles, 1989;
M.A., U.C. San Diego, 1992;

EMILY S. FISHER (2005)
Assistant Professor of Education
B.A., Connecticut College, 1996;
M.A., U.C. Santa Barbara, 2002;

BEN F. FITZPATRICK (2001)
Professor of Mathematics and
Clarence J. Wallen, S.J., Chair
B.S., Auburn University, 1981;
M.S., Auburn University, 1983;

VÉRONIQUE FLAMBARD-WEISBART (1992)
Professor of Modern Languages and Literatures and
Director of European Studies
D.E.U.G., Université de Paris X, 1982;
Licence, Université de Paris X, 1983;
M.A., U.C. Los Angeles, 1985;

RUDOLF FLECK (1977)
Professor of Art and Art History
B.A., Loyola University, Los Angeles, 1973;

RENEE FLORSHEIM (1989)
Associate Professor of Marketing and
Co-Chairperson of the Department
B.S., California State Polytechnic University, 1976;
M.B.A., U.C. Los Angeles, 1979;
Ph.D., Northwestern University, 1988;
J.D., Loyola Law School, 1999.

MÁIRE FORD (2006)
Assistant Professor of Psychology
B.A., Santa Clara University, 1996;
M.A., U.C. Santa Barbara, 2003;

RICHARD FOX (2007)
Assistant Professor of Political Science
B.A., Claremont McKenna College, 1989;
M.A., U.C. Santa Barbara, 1990;

JUDITH G. FOY (1991)
Professor of Psychology
B.A., Eastern Washington University, 1980;
M.S., Eastern Washington University, 1981;
M.A., Kent State University, 1986;
Ph.D., Kent State University, 1987.
MICHAEL R. FOY (1987)
Professor of Psychology
B.S., U.C. Irvine, 1977;
M.S., Kent State University, 1981;
Ph.D., Kent State University, 1983.

JAMES L. FREDERICKS (1992)
Professor of Theological Studies
B.A., St. Joseph's College, 1973;
M.A., St. Patrick's Seminary, 1976;
S.T.L., Jesuit School of Theology, 1983;

KATHARINE B. FREE (1970)
Professor of Theatre Arts
B.A., Marymount College, 1966;
M.A., U.C. Los Angeles, 1968;

Professor of Classics and Archaeology and
NEH Professor of Ancient Mediterranean Studies
B.A., Gonzaga University, 1959;
M.A., Gonzaga University, 1960;
S.T.M., Santa Clara University, 1967;
Ph.D., Yale University, 1971.

JEFFREY GALE (1985)
Professor of Management
B.S., Massachusetts Institute of Technology, 1970;
S.M., Massachusetts Institute of Technology, 1971;
J.D., U.C. Los Angeles, 1975;

JOSE GARCIA-MORENO (2003)
Assistant Professor of Animation
B.A., Universidad Iberoamericana, Mexico, 1984;
M.A., Charles University, Czech Republic, 1989;

Assistant Professor of Theatre Arts
B.A., St. Louis University, 1989;
B.A., St. Louis University, 1989;
M.Div., Jesuit School of Theology, Berkeley, 1996;

GLENN GEBHARD (1995)
Professor of Production (Film and Television) and
Graduate Director of the School of Film and Television
B.A., University of Dayton, 1973;
M.F.A., University of Southern California, 1980.

MICHAEL GENOVESE (1983)
Professor of Political Science and
Loyola Chair of Leadership Studies
B.A., St. Mary's College, 1972;
M.A., University of Southern California, 1975;
Ph.D., University of Southern California, 1978.

EVAN GERSTMANN (1996)
Associate Professor of Political Science and
Chairperson of the Department
B.A., Oberlin College, 1983;
J.D., University of Michigan Law School, 1986;
M.A. University of Wisconsin, 1992;
Ph.D., University of Wisconsin, 1996.

RICHARD GILBERT (1986)
Professor of Psychology
B.A., Princeton University, 1977;
M.A., U.C. Los Angeles, 1979;

CECILIA GONZALEZ-ANDRIEU (2007)
Assistant Professor of Theological Studies
B.A., Loyola Marymount University, 1980;
M.A., Loyola Marymount University, 2001;
Ph.D., Graduate Theological Union, 2007.

DEENA J. GONZÁLEZ (2001)
Professor of Chicano Studies and
Chairperson of the Department
B.A., New Mexico State University, 1974;
M.A., U.C. Berkeley, 1976;

MICHAEL D. GRADY (1975)
Professor of Mathematics
B.A., University of Missouri, 1968;
M.S., Southern Illinois University, 1970;
Ph.D., Utah, 1975.

VICTORIA L. GRAF (1979)
Professor of Education
B.A., De Paul University, 1972;
M.A., U.C. Riverside, 1975;

ALLEN P. GRAY (1980)
Associate Professor of Computer Information Systems
B.A., Loyola University, Los Angeles, 1970;
vM.A., California State University, Los Angeles, 1971;

EDMUND R. GRAY (1986)
Professor of Management and
Chairperson of the Department
B.A., Hofstra University, 1956;
M.B.A., U.C. Los Angeles, 1961;

JOHN H. GREVER, C.F.M.M. (1973)
Professor of History and Chairperson of the Department
B.A., Loyola University, Los Angeles, 1965;
M.A., Loyola University, Los Angeles, 1967;
CHERYL GRILLS (1987)
Professor of Psychology and Chairperson of the Department
B.A., Yale University, 1980;
M.A., U.C. Los Angeles, 1982;

ARTHUR GROSS-SCHAEFER (1980)
Professor of Business Law and Co-Chairperson of the Department
B.S., University of Southern California, 1973;
J.D., Boston College, 1976;
M.H.L., Hebrew Union, 1982;
C.P.A.

FERNANDO J. GUERRA (1987)
Associate Professor of Chicana/o Studies and Political Science and Director, Center for the Study of Los Angeles
B.A., University of Southern California, 1980;
M.A., University of Michigan, 1982;
Ph.D., University of Michigan, 1990.

RICHARD P. HADLEY, JR. (1991)
Associate Professor of Film/TV Studies
B.A., U.C. Berkeley, 1970;
M.A., University of Wisconsin, Madison, 1972;
M.F.A., University of Southern California, 1980;
Ph.D., University of Southern California, 1989.

MICHELE HAMMERS (2004)
Assistant Professor of Communication Studies
B.S., Boston University, 1992;
J.D., University of Texas at Austin, 1995;
M.A., Arizona State University, 2000;

JAMES G. HANINK (1976)
Professor of Philosophy
B.A., St. Mary's College, 1968;
M.A., Michigan State University, 1971;
Ph.D., Michigan State University, 1975.

DAVID J. HARDY (2004)
Assistant Professor of Psychology
B.A., California State University, Long Beach, 1990;
M.A., California State University, Long Beach, 1994;

KATHERINE ANNE HARPER (1977)
Associate Professor of Art and Art History
B.A., U.C. Los Angeles, 1967;
M.A., U.C. Los Angeles, 1969;

PAUL A. HARRIS (1995)
Professor of English and Director of the Graduate Program in English
B.A., McGill University, 1984;
M.A., U.C. Irvine, 1986;

ANNA HARRISON (2006)
Assistant Professor of Theological Studies
B.A., Barnard College, 1986;
M.A., Fordham University, 1994;
M. Phil., Columbia University, 2000;
Ph.D., Columbia University, 2006.

KAREN KOMOSA HAWKINS (2006)
Assistant Professor of Education
B.S., University of Illinois at Urbana-Champaign, 1994;
M.A., Loyola University Chicago, 1997;
Ph.D., Loyola University Chicago, 2005.

JOSEPH HAWORTH (1988)
Adjunct Professor of Civil Engineering
B.S., Yale University, 1967;
M.S., Stanford University, 1968.

ANDREW J. HEALY (2005)
Assistant Professor of Economics
B.S., Yale University, 1998;
B.A., Yale University, 1998;
Ph.D., Massachusetts Institute of Technology, 2005.

Teresa L. Heiland (2004)
Assistant Professor of Dance
B.A., University of Akron, 1975;
M.F.A., Ohio State University, 1991.

JOSEPH HELLIGE (2007)
Professor of Psychology and Vice President, Research and Graduate Studies
B.A., Saint Mary’s University of Minnesota, 1970;
M.A., University of Wisconsin—Madison, 1972;

ELIZABETH BECKER HENLEY (2005)
Presidential Professor of Theatre Arts

DOROTHEA K HERREINER (2005)
Assistant Professor of Economics
B.A., University of Karlsruhe, 1990;
M.Sc., London School of Economics and Political Science, 1991;
Ph.D., European University, 2000.

GEORGE L. HESS (1975)
Professor of Management, Associate Dean of the College of Business Administration, and Director of Small Business Institute
B.S., Xavier University, 1956;
M.B.A., Xavier University, 1957;
KRISTIN HEYER (2003)
Assistant Professor of Theological Studies
B.A., Brown University, 1996;

IGNACIO HIGAREDA (2005)
Assistant Professor of Education
B.A., U.C. Santa Cruz, 1996;
Ph.D., University of Southern California, 2005.

CHARLES J. HIGGINS (1982)
Associate Professor of Finance
B.A., University of Southern California, 1968;
M.B.A., University of Southern California, 1972;
Ph.D., Claremont Graduate University, 1984.

PETER R. HOFFMAN (1977)
Associate Professor of Sociology and
Director of Geography and Urban Studies
B.A., U.C. Los Angeles, 1969;
M.A., Arizona, 1974;

ALAN K. HOGENAUER (2000)
Associate Professor of Travel and Tourism and
Director, Center for Travel and Tourism
A.B., City University of New York, 1962;
M.A., Columbia University, 1968;
M.Phil., Columbia University, 1975;
Ph.D., Columbia University, 1975.

MICHAEL P. HORAN (1994)
Professor of Theological Studies
B.A., Iona College, 1977;
M.R.E., The Catholic University of America, 1982;

ROY S. HOUSTON (1974)
Professor of Biology and Chairperson of the Department
B.S., University of Arizona, 1968;
M.S., University of the Pacific, 1970;
Ph.D., University of Arizona, 1974.

LEI HUANG (2003)
Assistant Professor of Electrical Engineering
B.E., Beijing University of Posts and Telecommunications, 1993;
M.E., Nanyang Technological University, Singapore, 1998;
M.S. in E.E., University of Southern California, 1999;
Ph.D, University of Southern California, 2003.

PAUL W. HUMPHREYS (1997)
Associate Professor of Music and
Director, LMU World Music Ensembles
B.M., University of Cincinnati, 1976;
M.A., U.C. Los Angeles, 1983;

MARGARET L. HUNTER (2001)
Associate Professor of Sociology
B.A., University of Wisconsin, 1994;
M.A., U.C. Los Angeles, 1996;

AMIR HUSSAIN (2005)
Associate Professor of Theological Studies
B.S., University of Toronto, 1987;
M.A., University of Toronto, 1990;
Ph.D., University of Toronto, 2005.

MARY ELIZABETH INGHAM, C.S.J. (1987)
Professor of Philosophy and
Director of the University Honors Program
B.A., Marymount College, 1973;
B.A., Loyola Marymount University, 1981;
Lic.-es-arts, University of Fribourg, Switzerland, 1985;
Ph.D., University of Fribourg, Switzerland, 1989.

NANCY W. JABBRA (1990)
Professor of Women's Studies and
Chairperson of the Department
B.A., U.C. Santa Barbara, 1964;
M.A., Indiana University, 1970;
Ph.D., Catholic University of America, 1975.

TERESE C. JIMENEZ (2004)
Assistant Professor of Education
B.A., U.C. Berkeley, 1992;
M.A., Loyola Marymount University, 1997;
M.Ed., U.C. Santa Barbara, 2003;

JOK MADUT JOK (1997)
Associate Professor of History
B.A., University of Alexandria, Egypt, 1988;
M.A., American University in Cairo, 1991;

CHRISTOPHER KACZOR (1998)
Associate Professor of Philosophy
B.A., Boston College, 1992;
M.A., University of Notre Dame, 1994;
Ph.D., University of Notre Dame, 1996.

LAWRENCE P. KALBERS (2005)
Professor of Accounting,
R. Chad Dreier Chair in Accounting, and
Director of Center for Accounting Ethics, Governance, and
the Public Interest
B.A., Wittenberg University, 1974;
M.S., Kent State University, 1975;
Ph.D., The Pennsylvania State University, 1989;
C.P.A.
VELITCHKA D. KALTCHEVA (2006)
Assistant Professor of Marketing
B.A., Trinity College, Washington, D.C., 1993;
M.B.A., Higher Institute of Economics, Sofia, Bulgaria, 1994;

TAI-WU KAO (1965)
Professor of Electrical Engineering
B.S.E.E., National Taiwan University, 1958;
M.S.E.E., National Chiao-tung University, Taiwan, 1961;
Ph.D., University of Utah, 1965.

RACHELLE KATZ (1976)
Professor of Finance, Associate Dean and
Director of the MBA Program
B.S., Purdue University, 1969;
M.B.A., University of Michigan, 1972;
Ph.D., Stanford University, 1980.

LILY KHADJAVI (1999)
Associate Professor of Mathematics
A.B., Harvard University, 1990.

W. FREDERICK KIESNER, JR. (1977)
Professor of Management and
Hilton Chair in Entrepreneurship
B.S.B., University of Minnesota, 1961;
M.B.A., Northwestern University, 1962;
Ph.D., Claremont Graduate University, 1985.

DAVID D. KILLORAN (1969)
Professor of English and Chairperson of the Department
B.A., Michigan State University, 1965;
Ph.D., Tulane University of Louisiana, 1974.

NADIA KIM (2007)
Assistant Professor of Sociology
B.A., U.C. Santa Barbara, 1996;
M.A., University of Michigan, 2000;
Ph.D., University of Michigan, 2003.

GARLAND P. KIRKPATRICK (2003)
Associate Professor of Art and Art History
B.A., Amherst College, 1983;
M.F.A., Yale University, 1990.

THOMAS F. KLEIN (2006)
Assistant Professor of Animation
B.A., Rutgers University, 1991;

DMITRY KMELENTSKY (2004)
Assistant Professor of Art and Art History
B.A., U.C. Los Angeles, 1997;

JAMES D. KONOW (1989)
Professor of Economics and
Chairperson of the Department
B.A., Arizona State University, 1977;
M.A., U.C. San Diego, 1983;

GARY KULECK (1994)
Associate Professor of Biology and
William McLaughlin Professor of Biology
B.A., University of Maryland, 1975;

Associate Professor of Psychology
B.S., Marquette University, 1983;
Ph.L., Gonzaga University, 1988;
M.S., University of North Carolina at Chapel Hill, 1989;
M.Div., Jesuit School of Theology, Berkeley, 1995;
Ph.D., University of Southern California, 2002.

JAMES M. LANDRY (1984)
Professor of Chemistry and Natural Science and
Associate Dean for Undergraduate Studies,
Frank R. Seaver College of Science and Engineering
B.S., Xavier University, 1978;
M.S., Xavier University, 1983;
Ph.D., Miami University, 1984.

YVETTE LAPAYESE (2003)
Assistant Professor of Education
B.A., California State University, Fullerton, 1995;
M.A., University of Southern California, 1998;

SUZANNE LARSON (1986)
Professor of Mathematics
B.A., St. Olaf College, 1979;
Ph.D., Claremont Graduate University, 1984.

MAGALY LAVADENZ (1994)
Professor of Education and
Chairperson of Teacher Education
B.S., Oakland University, 1979;
M.A., California State University, Northridge, 1991;
Ph.D., University of Southern California, 1993.

HOWARD S. LAVICK (1986)
Associate Professor of Production (Film and Television)
M.A., University of Minnesota, 1969;
M.F.A., University of Southern California, 1976.

ROBERT B. LAWTON, S.J. (1999)
Professor of Classics and Archaeology and
Theological Studies and President of the University
A.B., Fordham University, 1971;
Ph.D., Harvard University, 1977.
MARK LEACH (2001)
Assistant Professor of Marketing
B.S., University of Arizona, 1991;
Ph.D., Georgia State University, 1998.

WAYNE Le CHEMINANT (2006)
Assistant Professor of Political Science
B.A., Brigham Young University, 1993;
M.A., California State University, Los Angeles, 1999;
Ph.D., University of Southern California, 2001.

CHUN I. LEE (2001)
Associate Professor of Finance, Computer Information Systems and Operations Management
B.S., Chiao Tung University, Taiwan, 1980;
M.S., U.C. Los Angeles, 1985;
M.S., Carnegie-Mellon University, 1987;
M.S., Washington University in St. Louis, 1990;
Ph.D., University of Southern California, 2004.

JONGHWA LEE (2004)
Assistant Professor of Communication Studies
B.A., Kei-Myung University, 1994;
M.A., San José State University, 1998;
Ph.D., Ohio University, 2003.

Assistant Professor of Theological Studies
B.A., University of Nebraska—Lincoln, 1983;
M.A., St. Louis University, 1989;
M.Div., Weston Jesuit School of Theology, 1995;
Th.M., Weston Jesuit School of Theology, 1996;

WENSHU LEE (2007)
Professor of Communication Studies
B.A., National Taiwan University, 1983;
M.A., University of Southern California, 1985;
Ph.D., University of Southern California, 1989.

TERESA I. LENIHAN (2004)
Assistant Professor of Art and Art History
B.F.A., San José State University, 1982;
M.F.A., Claremont Graduate University, 1984.

LINDA LEON (1988)
Associate Professor of Finance
B.A., U.C. Los Angeles, 1982;

BRIAN P. LEUNG (1990)
Professor of Education
A.A., Pasadena City, 1974;
B.A., University of Southern California, 1976;
M.A., California State University, Long Beach, 1979;
Ph.D., University of Southern California, 1990.

HOLL G. LEVITSKY (1991)
Associate Professor of English
B.A., University of Michigan, 1979;
M.A., University of Michigan, 1982;

PETRA LIEDE KONOW (1995)
Associate Professor of Modern Languages and Literatures
B.A., Universität zu Köln, Germany, 1977;
M.A., Universität zu Köln, Germany, 1983;

DEBRA B. LINESCH (1991)
Professor of Marital and Family Therapy and Chairperson of the Department
B.A., University of Toronto, 1975;
B.Ed., Queens University, 1976;
M.A., Loyola Marymount University, 1981;
Ph.D., Union Institute, 1992.

EDMUNDO LITTON (1999)
Associate Professor of Education
B.A., De La Salle University, Philippines, 1985;
M.A., Georgetown University, 1989;

ANNIE LIU (2001)
Assistant Professor of Marketing
B.B.A., Chinese Culture University, Taipei, 1983;
M.S., Purdue University, 1988;
Ph.D., Georgia State University, 1998.

DORIAN LLYWELYN, S.J. (2005)
Assistant Professor of Theological Studies
B.A., University of Cambridge, 1977;
M.A., University of Cambridge, 1981;
S.T.B., Universidad Pontificia de Salamanca, 1990;
S.T.L., Jesuit School of Theology, Berkeley, 1995;
Ph.D., University of Wales, Lampeter, 2005.

MARC G. LONY (1998)
Associate Professor of Modern Languages and Literatures
DEUG, Université de Paris III, 1978;
M.A., Université de Paris VIII, 1980;
M.A., Université de Paris VIII, 1988;

MICHELLE R. LUM (2007)
Assistant Professor of Biology
B.A., U.C. San Diego, 1995;
B.S., U.C. San Diego, 1995;

RICARDO A. MACHÓN (1986)
Professor of Psychology and Interim Vice President, Undergraduate Education
B.A., University of Southern California, 1979;
M.A., University of Southern California, 1982;
Ph.D., University of Southern California, 1986.
ERIC MAGNUSON (2003)
Assistant Professor of Sociology
B.A., Brown University, 1991;
M.A., U.C. Los Angeles, 1994;

JUAN MAH Y BUSCH (2002)
Assistant Professor of English
B.A., U.C. Los Angeles, 1993;
M.A., Cornell University, 1998;
Ph.D., Cornell University, 2003.

CHRISTOPHER A. MANNING (1986)
Professor of Finance
B.S., San Diego State University, 1967;
M.B.A., Northwestern University, 1971;

MICHAEL E. MANOOGIAN (1993)
Professor of Civil Engineering
B.S., Loyola Marymount University, 1975;
M.S., California State University, Northridge, 1983;
M.S., California State University, Northridge, 1983;
E.C.E., University of Southern California, 1987;
Ph.D., University of Southern California, 1992;
Registered Professional Engineer.

RON MARASCO (1993)
Professor of Theatre Arts and
Co-Chairperson of the Department
B.A., Fordham University, 1983;
M.A., U.C. Los Angeles, 1988;

DAVID MARCHESE (2005)
Adjunct Professor of Travel and Tourism
B.A., Washington and Lee University, 1966;
M.A., Syracuse University, 1967.

BARBARA E. MARINO (1997)
Associate Professor of Electrical Engineering
B.S.E.E., Marquette University, 1989;
M.S.E.E., University of Notre Dame, 1993;
Ph.D., University of Notre Dame, 1996.

MARA MARKS (2006)
Assistant Professor of Urban Studies
B.A., Colorado College, 1990;
M.A., U.C. Los Angeles, 1993;

DAVID MARPLE (1978)
Assistant Professor of Sociology
B.A., Western Kentucky University, 1968;
M.A., State University New York, Albany, 1970;
Ph.D., Cincinnati University, 1981.

SHANE P. MARTIN (1995)
Professor of Education and
Dean of the School of Education
B.A., Loyola Marymount University; 1980;
M.Div., Jesuit School of Theology, Berkeley, 1991;
Th.M., Jesuit School of Theology, Berkeley, 1992;
Ph.D., University of Southern California, 1995.

PATRICIA GARCIA MARTINEZ (2006)
Assistant Professor of Management
B.S., California State Polytechnic University, Pomona, 1991;

RUBÉN MARTÍNEZ (2006)
Professor of English and
Fletcher Jones Chair in Literature and Writing

DAVID L. MATHISON (1983)
Professor of Management
B.A., Whittier College, 1969;
M.Div., Bethel Theological Seminary, 1975;
Ph.D., Bowling Green State University, 1978.

JEREMY E.B. MCCALLUM (2005)
Assistant Professor of Chemistry
B.A., Princeton University, 1996;

JAMES McCARTHY (2001)
Adjunct Professor of Physics
B.S., Pennsylvania State University, 1982;

MARY McCULLOUGH (1995)
Professor of Education and
Chairperson of Professional Services
B.A., Mount St. Mary’s College, 1968;
M.A., University of San Francisco, 1985;
Ph.D., University of Southern California, 1992.

MARY CATHARINE McELWAIN (1987)
Associate Professor of Biology
A.B., Bryn Mawr College, 1973;
Ph.D., University of Utah, 1985.

CATHLEEN McGRATH (1998)
Associate Professor of Management
B.A., University of Notre Dame, 1989;

HERBERT A. MEDINA (1992)
Professor of Mathematics
B.S., U.C. Los Angeles, 1985;
M.S., U.C. Berkeley, 1987;
BLAKE MELLOR (2002)
Associate Professor of Mathematics
B.A., Harvard University, 1993;

JOHN M. MENAGHAN (1989)
Professor of English and Director of Irish Studies
A.B., Boston College 1976;
M.A., Syracuse University, 1979;

MEL I. MENDELSON (1994)
Professor of Mechanical Engineering
B.S., U.C. Berkeley, 1964;
M.S., Northwestern University, 1966;
Ph.D., Northwestern University, 1973.

DIANE M. MEYER (2005)
Assistant Professor of Art and Art History
B.F.A., New York University, 1999;

MLADEN MILICEVIC (1999)
Professor of Recording Arts and Chairperson of the Department
B.A., Academy of Music, Sarajevo, 1982;
M.A., Academy of Music, Sarajevo, 1986;
M.A., Wesleyan University, 1988;

MICHAELE E. MILLS (1985)
Associate Professor of Psychology
B.A., U.C. Los Angeles, 1975;
M.S., California State University, Long Beach, 1977;
Ph.D., U.C. Santa Barbara, 1983.

MICHAELEL MIRANDA (2001)
Assistant Professor of Music
B.A., California State University, Northridge, 1984;
M.A., California State University, Los Angeles, 1988;
Ph.D., Claremont Graduate University, 2001.

ROBIN MISKOLCZE (2002)
Assistant Professor of English
B.A., Indiana University of Pennsylvania, 1991;
M.A., University of Nebraska—Lincoln, 1992;
Ph.D., University of Nebraska—Lincoln, 2000.

DAVID A. MOFFET (2005)
Assistant Professor of Chemistry
B.S., Shippensburg University, 1997;
Ph.D., Princeton University, 2002.

SYLVIA MORALES (2003)
Assistant Professor of Production (Film and Television)
B.A., U.C. Los Angeles, 1972;

MARK D. MORELLI (1981)
Professor of Philosophy and Director of the Graduate Program in Philosophy
B.A., Santa Clara University, 1970;
M.A., University of Toronto, 1973;
Ph.D., University of Toronto, 1979.

EDWARD C. MOSTEIG (2002)
Assistant Professor of Mathematics
B.S., University of Michigan, Ann Arbor, 1993;
M.S., University of Illinois, Champaign-Urbana, 1996;
M.S., Cornell University, 1999;
Ph.D., Cornell University, 2002.

DARIA MULLER (2007)
Assistant Professor of History
B.A., Yale University, 1999;

TERESA MUNOZ (1974)
Professor of Art and Art History
B.A., Marymount College, 1971;
M.A., California State University, Northridge, 1974;
M.F.A., California State University, Long Beach, 1982.

ANNA MURACO (2006)
Assistant Professor of Sociology
B.A., Santa Clara University, 1991;
M.A., San José State University, 1997;

Assistant Professor of Physics
B.Sc., University of Toronto, 1993;
M.Sc., University of Waterloo, 1995;
Ph.D., University of Toronto, 2002.

NORA MURPHY (2007)
Assistant Professor of Psychology
B.S., Trinity College, 1996;
M.A., Northeastern University, 2000;
Ph.D., Northeastern University, 2003.

ELIZABETH MURRAY (1987)
Professor of Philosophy and Chairperson of the Department
B.A., Santa Clara University, 1971;
M.A., University of Toronto, 1973;
Ph.D., University of Toronto, 1981.

ROBBIE NAKATSU (2000)
Associate Professor of Finance and Computer Information Systems
B.A., Yale University, 1986;
VIRGIL MARTIN NEMOIANU (2005)  
*Assistant Professor of Philosophy*  
B.A., The Catholic University of America, 1996;  
Ph.D., University of Toronto, 2002.

ART NOMURA (1990)  
*Professor of Production (Film and Television)*  
B.A., California State University, Los Angeles, 1970;  

KATHARINE M. NOON (2004)  
*Assistant Professor of Theatre Arts*  
B.A., University of Puget Sound, 1985;  

RAFIQUL I. NOORANI (1989)  
*Professor of Mechanical Engineering*  
B.S., Bangladesh University of Engineering and Technology, 1969;  
M.E., Texas A&M University, 1977;  
Ph.D., Texas A&M University, 1982.

KIRSTIN J. NOREEN (2006)  
*Associate Professor of Art and Art History*  
B.A., Reed College, 1992;  
M.A., Johns Hopkins University, 1995;  
Ph.D., Johns Hopkins University, 1999.

MAHMOUD MEHRDAD NOURAYI (1990)  
*Professor of Accounting and Chairperson of the Department*  
B.S., Institute of Advanced Accounting, 1975;  
M.B.A., West Coast University, 1978;  
M.S.B.A., California State University, Los Angeles, 1983;  
Ph.D., University of Southern California, 1989;  
C.P.A., C.M.A.

SUZANNE O’BRIEN (2001)  
*Assistant Professor of History*  
B.A., Stanford University, 1991;  
M.A., Columbia University, 1997;  

DAVID OFFENBERG (2006)  
*Assistant Professor of Finance and Computer Information Systems*  
B.S., Purdue University, 1996;  
Ph.D., Purdue University, 2005.

JENNIFER R. OFFENBERG (2005)  
*Assistant Professor of Economics*  
B.A., U.C. Davis, 2001;  
M.S., Purdue University, 2002;  
Ph.D., Purdue University, 2005.

STELLA OH (2005)  
*Assistant Professor of Women’s Studies*  
B.A., U.C. Los Angeles, 1997;  
M.A., U.C. Irvine, 2000;  

ÁINE O’HEALY (1989)  
*Professor of Modern Languages and Literatures*  
B.A., University College, Galway, 1969;  
M.A., University College Galway, 1971;  
Ph.D., University of Wisconsin, Madison, 1976.

IRENE OLIVER (1982)  
*Associate Professor of Education*  
B.A., Marymount College, 1973;  
M.Ed., Loyola Marymount University, 1976;  
Ed.D., Pepperdine University, 1997.

BOHDAN W. OPPENHEIM (1983)  
*Professor of Mechanical Engineering and Director of the Graduate Program in Mechanical Engineering*  
B.S.C., Warsaw Polytechnic, 1970;  
M.S.C., Stevens Institute of Technology, 1972;  
Naval Architect, Massachusetts Institute of Technology, 1974;  
Ph.D., Southampton University, 1980.

MICHAEL O’SULLIVAN (1985)  
*Professor of Psychology*  
B.A., St. Louis University, 1972;  
M.S., St. Louis University, 1973;  
M.Div., Jesuit School of Theology, Berkeley, 1978;  
S.T.M., Jesuit School of Theology, Berkeley, 1979;  
Ph.D., St. Louis University, 1982.

JOHN A. PAGE (1962)  
*Professor of Electrical Engineering*  
B.S. in E.E., Loyola University, Los Angeles, 1961;  
M.S. in E.E., U.C. Los Angeles, 1964;  
Ph.D., U.C. Los Angeles, 1970;  
Registered Professional Engineer.

YONGSUN PAIK (1991)  
*Professor of Management*  
B.A., Yonsei University, 1978;  
M.B.A., Chung-Ang University;  
M.A., University of Texas, Austin, 1986;  

JEREMY S. PAL (2006)  
*Assistant Professor of Civil Engineering*  
B.S.E., Loyola Marymount University, 1994;  
M.S., Massachusetts Institute of Technology, 1997;  
Ph.D., Massachusetts Institute of Technology, 2001.
RODGER PARDEE (2000)  
Associate Professor of Recording Arts  
B.A., University of Nebraska—Lincoln, 1977;  
M.A., University of Southern California, 1980.

EDWARD PARK (1999)  
Associate Professor of Asian Pacific American Studies,  
Director of Asian Pacific American Studies, and  
Director of American Cultures Studies  
A.B., U.C. Berkeley, 1986;  
M.C.P., U.C. Berkeley, 1988;  

JOHN PARRISH (2006)  
Assistant Professor of Political Science  
A.B., William Jewell College, 1994;  
M.Phil., University of Cambridge, 1996;  
M.A., Harvard University, 2000;  
Ph.D., Harvard University, 2002.

ALICIA M. PARTNOY (1998)  
Associate Professor of Modern Languages and Literatures  
and Chairperson of the Department  
B.A., Universidad Nacional del Sur, 1989;  
M.A., The Catholic University of America, 1991;  

ANTHONY D. PATINO (2006)  
Assistant Professor of Marketing  
B.A., Drew University, 1985;  
M.A., Harvard University, 1989;  
M.B.A., Duke University, 1991;  
Ph.D., Temple University, 2006.

KYRA L. PEARSON (2002)  
Assistant Professor of Communication Studies  
B.A., U.C. Davis, 1995;  
M.A., University of Iowa, 1999;  
Ph.D., University of Iowa, 2003.

ERIC D. PERL (2004)  
Associate Professor of Philosophy  
B.A., Yale University, 1984;  
M.A., University of Toronto, 1985;  
Ph.D., Yale University, 1991.

RICHARD J. PERLE (1975)  
Professor of Finance and  
Chairperson of the Department  
B.S., Michigan Technological University, 1967;  
M.B.A., California State University, Long Beach, 1972;  
M.S., University of Southern California, 1974;  
Ph.D., University of Southern California, 1981.

ANTHONY M. PERRON (2004)  
Assistant Professor of History  
B.A., University of Chicago, 1994;  
M.A., University of Chicago, 1996;  
Ph.D., University of Chicago, 2002.

MICHAEL B. PESCE (2003)  
Adjunct Professor of Bioethics  
B.A., U.C. Davis, 1972;  
M.D., Mount Sinai School of Medicine, 1977;  
J.D., University of San Diego School of Law, 1985.

K.J. PETERS (2000)  
Associate Professor of English  
B.A., Tabor College, 1985;  
M.A., Wichita State University, 1988;  
Ph.D., University of Nebraska—Lincoln, 1998.

ANTONIA PETRO (2000)  
Associate Professor of Modern Languages and Literatures  
B.A., University of Salamanca, 1994;  
M.A., Michigan State University, 1996;  
Ph.D., Michigan State University, 2000.

JEFFREY A. PHILLIPS (2001)  
Assistant Professor of Physics  
B.S., University of Virginia, 1993;  
M.S., U.C. Irvine, 1996;  

RICHARD G. PLUMB (2005)  
Professor of Electrical Engineering and  
Dean of the Frank R. Seaver College of  
Science and Engineering  
B.S.E.E., Syracuse University, 1982;  
M.S.E.E., Syracuse University, 1985;  
Ph.D., Syracuse University, 1988.

CANDACE A. POINDEXTER (1987)  
Professor of Education  
B.A., U.C. Los Angeles, 1967;  
M.Ed., Loyola Marymount University, 1977;  

JOHN R. POPIDEN (1977)  
Associate Professor of Theological Studies and  
Associate Dean, Bellarmine College of Liberal Arts  
B.A., Rice University, 1972;  
M.A., University of Notre Dame, 1977;  
Ph.D., University of Notre Dame, 1980.

LUÍS PROENÇA, S.J. (2002)  
Associate Professor of Production (Film and Television)  
and Chairperson of the Department  
B.A., Coimbra University, 1980;  
S.T.L., Universidade Católica Portuguesa, Brage, 1986;  
M.Div., Jesuit School of Theology, Berkeley, 1991;  
M.A., Jesuit School of Theology, Berkeley, 1992;  

ZBIGNIEW H. PRZASNYSKI (1985)  
Professor of Operations Management  
B.S., University of Sussex, 1972;  
M.S., University of Sussex, 1973;  
Ph.D., University of Sussex, 1977.
RALPH L. QUIÑONES (1986)
Associate Professor of Business Law
B.A., Vassar College, 1974;
J.D., New York University, 1980;

NIGEL A. RAAB (2005)
Assistant Professor of History
B.Sc., Queen's University, Kingston, 1990;
B.A., Queen's University, Kingston, 1995;
M.A., University of Zurich, 1997;
M.Phil., Columbia University, 1997;
Ph.D., Columbia University, 2002.

CHARLOTTE C. RADLER (2003)
Assistant Professor of Theological Studies
B.A., University of Lund, 1997;
M.A., University of Lund, 1997;

PATRICK DAMON RAGO (2001)
Associate Professor of Dance
B.A., California State University, Fullerton, 1994;
M.F.A., University of Utah, 1996.

DAVID A. RAMIREZ (2002)
Assistant Professor of Natural Science
B.A., California State Polytechnic University, Pomona, 1991;
A.T.C., 1991;
M.A., California State University, Fresno, 1993;

MARTIN RAMIREZ (1999)
Associate Professor of Biology
B.S., Loyola Marymount University, 1981;

FRANCISCO RAMOS (2003)
Associate Professor of Education
B.A., Escuela Universiteria de Formación del Profesorado de Soria, 1982;
M.A., Universidad de Zaragoza, 1985;
M.A., California State University, Los Angeles, 1995;
Ph.D., University of Southern California, 2000.

Professor of Theological Studies and
T. Marie Chilton Chair of Catholic Theology
B.A., Gonzaga University, 1966;
M.A., Gonzaga University, 1967;
S.T.M., Jesuit School of Theology, Berkeley, 1972;
Ph.D., Duke University, 1976.

NINA MARIA REICH (2003)
Assistant Professor of Communication Studies
B.A., California State University, Long Beach, 1998;
M.A., California State University, Long Beach, 2000;
Ph.D., University of North Carolina at Chapel Hill, 2003.

JOSEPH C. REICHENBERGER (1993)
Professor of Civil Engineering, and
Graduate Director of the Frank R. Seaver College of Science and Engineering
B.C.E., Marquette University, 1964;
M.S., University of Southern California, 1967;
Registered Professional Engineer.

JOHN T. REILLY (1984)
Associate Professor of English
B.A., Harpur College, 1968;
M.F.A., Cornell University, 1971;
Ph.D., Cornell University, 1977.

THOMAS J. REILLY (1976)
Associate Professor of Chemistry
B.A., Brooklyn College, 1963;
Ph.D., University of Southern California, 1971.

BARBARA ROCHE RICO (1989)
Professor of English
B.A., Yale University, 1977;
M.Phil., Yale University, 1981;
Ph.D., Yale University, 1987.

PETER SMITH RING (1990)
Professor of Management
B.A., St. Anselm College, 1963;
L.L.B., Georgetown, 1966;
M.P.A., Harvard University, 1970;

JAMES A. ROE (1991)
Professor of Chemistry and Chairperson of the Department
A.B., Williams College, 1977;

ERNEST ROSE (2005)
Professor of Education and Senior Vice President and
Chief Academic Officer
B.A., U.C. Santa Barbara, 1970;
M.S., University of Utah, 1978;
Ph.D., University of Utah, 1984.

CHUCK ROSENTHAL (1986)
Professor of English
B.A., Allegheny University, 1973;
M.A., Bowling Green State University, 1975;
M.A., U.C. Davis, 1981;
Ph.D., University of Utah, 1986.
NICOLAS ROSENTHAL (2006)
Assistant Professor of History
B.A., University of Oregon, 1997;
M.A., University of Oregon, 2000;

ABHIK ROY (2006)
Professor of Communication Studies and
Chairperson of the Department
B.S., St. Xavier's College, Calcutta, India, 1975;
L.L.B., University of Calcutta, 1979;
M.S., University of Kansas, 1985;
Ph.D., University of Kansas, 1996.

JUDITH ROYER, C.S.J. (1973)
Professor of Theatre Arts
B.A., St. Joseph Teachers College, 1967;
M.A., California State University, Fullerton, 1973;
Ph.D., U.C. Santa Barbara, 1983.

PAUL A. RUDE (1963)
Professor of Electrical Engineering
B.S. in E., U.C. Los Angeles, 1955;
M.S. in E.E., University of Pittsburgh, 1957;
Ph.D., University of Pittsburgh, 1962.

GREGORY RUZZIN (2005)
Assistant Professor of Production (Film and Television)
B.G.S., University of Michigan, 1986;
M.F.A., University of Southern California, 1989.

DERMOT ALBERT RYAN (2007)
Assistant Professor of English
B.A., Trinity College, Dublin, 1992;
M.A., Queens University, Belfast, 1997;
M.A., Columbia University, 2000;
M.Phil., Columbia University, 2003.

JOSE A. SAEZ (2002)
Assistant Professor of Civil Engineering
B.S.E., Loyola Marymount University, 1986;
M.S.E., Loyola Marymount University, 1991;
Ph.D., U.C. Los Angeles, 2004;
Registered Professional Engineer.

REBECCA SAGER (2007)
Assistant Professor of Sociology
B.A., U.C. San Diego, 2000;

YING SAI (2004)
Assistant Professor of Computer Information Systems
B.S., Beijing Institute of Light Industry, 1983;
M.S., Carnegie Mellon University, 1986;
Ph.D., University of Texas at Austin, 2002.

DAVID SANCHEZ (2006)
Assistant Professor of Theological Studies
B.A., California State University, Los Angeles, 1988;
M.A., Claremont School of Theology, 1997;
M.A., Union Theological Seminary, 2004;
Ph.D., Union Theological Seminary, 2005.

NADER SANIEI (2004)
Professor of Mechanical Engineering and
Chairperson of the Department
B.S., Purdue University, 1981;
M.S., U.C. Davis, 1984;

JEFF SANNY (1980)
Professor of Physics and Associate Dean for Research,
Graduate Studies, and External Initiatives, Frank R. Seaver
College of Science and Engineering
B.S., Harvey Mudd College, 1974;
M.S., U.C. Los Angeles, 1976;

Assistant Professor of Theological Studies
B.A., Georgetown University, 1983;
M.A., University of Minnesota, 1991;
S.T.B., Pontificia Università Gregoriana, Rome, 1997;
S.T.L./M.A., Institut Catholique de Paris, 1999;

MARK SAYA (1993)
Professor of Music
B.M., Indiana University, 1978;
M.M., University of Cincinnati, 1980;

VIRGINIA SAYA (1989)
Professor of Music
B.Mus., Simpson College, 1975;
M.Mus., University of Cincinnati, 1983;
Ph.D., University of Cincinnati, 1989.

JUDITH M. SCALIN (1976)
Professor of Dance and
Co-Chairperson of the Department
B.A., U.C. Los Angeles, 1968;

DEAN SCHEIBEL (1991)
Professor of Communication Studies and
Associate Dean of the College of Communication and
Fine Arts
B.S., California State University, Northridge, 1975;
B.A., California State University, Northridge, 1984;
M.A., California State University, Northridge, 1986;
SUSAN SCHEIBLER (2001)
Associate Professor of Film-TV Studies
B.A., Biola University, 1976;
M.A., Claremont Graduate University, 1986;
M.A., University of Southern California, 1986;
Ph.D., University of Southern California, 1994.

MARK EVAN SCHWARTZ (2001)
Associate Professor of Screenwriting
B.F.A., East Carolina University, 1975;
M.F.A., Boston University, 1980.

TERI SCHWARTZ (2004)
Dean, School of Film and Television
B.A., U.C. Los Angeles, 1971;

KALA CHAND SEAL (1990)
Professor of Computer Information Systems
B.Tech., India Institute of Technology, 1985;
M.S., University of Texas, Dallas, 1989;
Ph.D., University of Texas, Dallas, 1990.

BETH SERLIN (2005)
Assistant Professor of Screenwriting
B.A., University of Michigan, Ann Arbor, 1989;
M.F.A., University of Southern California, 1992.

ANA SERRANO (2006)
Associate Professor of Education
B.S., University of Southern California, 1979;
M.S., University of Southern California, 1990;
Ph.D., University of Southern California, 1996.

PATRICK D. SHANAHAN (1996)
Associate Professor of Mathematics
B.A., California State University, Long Beach, 1990;
M.S., U.C. Santa Barbara, 1992;
Ph.D., University of Notre Dame, 1996.

TIMOTHY D. SHANAHAN (1988)
Professor of Philosophy
B.S./B.A., State University New York, Cortland, 1983;
M.A., University of Notre Dame, 1986;
Ph.D., University of Notre Dame, 1988.

STEPHEN SHEPHERD (2006)
Associate Professor of English
B.A., Queen's University, Kingston, Canada, 1983;
M.A., Queen's University, Kingston, Canada, 1984;

THOMAS SHERMAN, S.J. (2001)
Associate Professor of Philosophy
B.A., Marquette University, 1977;
M.A., St. Louis University, 1981;
M.Div., Weston School of Theology, 1987;
Ph.D., University of Toronto, 1999.

GARY P. SIBECK (1965)
Professor of Business Law
B.A., University of Oklahoma, 1951;
M.A., University of Oklahoma, 1960;
J.D., University of Oklahoma, 1962;
Ph.D., University of Southern California, 1971.

JEFFREY S. SIKER (1987)
Professor of Theological Studies and
Chairperson of the Department
B.A., Indiana University, 1976;
M.A., Indiana University, 1978;
M.Div., Yale University, 1981;
Ph.D., Princeton Theological Seminary, 1989.

ROBERT SINGLETON (1982)
Associate Professor of Economics
B.A., U.C. Los Angeles, 1960;
M.A., U.C. Los Angeles, 1962;

Assistant Professor of Mechanical Engineering
B.S., Illinois Institute of Technology, 2000;
Ph.D., Northwestern University, 2004.

DAVID SMITH (1978)
Professor of Mathematics
B.S., Oklahoma State University, 1971;
M.S., Oklahoma State University, 1973;
Ph.D., Oklahoma State University, 1978.

DANIEL L. SMITH-CHRISTOPHER (1989)
Professor of Theological Studies and
Director of Peace Studies
B.A., George Fox College, 1977;
Ph.D., Oxford University, 1986.

Professor of Biology
B.S., Loyola University, Los Angeles, 1966;

DANIEL SPEAK (2007)
Assistant Professor of Philosophy
B.A., Biola University, 1990;
M.A., Claremont Graduate University, 1996;

JANIE S. STECKENRIDER (1991)
Associate Professor of Political Science
B.A., University of Illinois, 1976;
M.A., University of Notre Dame, 1978;
Ph.D., University of Southern California, 1988.
JOHN A. STEWART (1989)
Professor of Production (Film and Television)
B.A., U.C. Los Angeles, 1968;

ELIZABETH A. STODDARD (2005)
Associate Professor of Education and
Associate Dean of the School of Education
B.A., Western Michigan University, 1977;
M.A., Western Michigan University, 1979;
Ph.D., Oregon State University, 1996.

BRAD ELLIOTT STONE (2003)
Assistant Professor of Philosophy
B.A., Georgetown College, 1998;
M.A., The University of Memphis, 2001;

SARAH STRAND (2007)
Assistant Professor of Natural Science
B.A., Bethel University, 2001;
M.A., Concordia University, 2003;
A.T.C.

CHARLES SWANSON (2003)
Assistant Professor of Production (Film and Television)
B.A., Morehouse College, 1990;
M.F.A., University of Southern California, 1998.

ERNEST S. SWEENEY, S.J. (1972)
Professor of History
A.B., Loyola University Chicago, 1955;
Ph.L., West Baden College, 1957;
M.A., Loyola University Chicago, 1959;
S.T.L., Woodstock College, 1964;
Ph.D., University of Texas, Austin, 1970.

REV. MICHAEL R. TANG (1990)
Professor of Art and Art History
B.A., Loyola Marymount University, 1981;
M.F.A., The School of the Art Institute, Chicago, 1983;
M.Div, Jesuit School of Theology, Berkeley, 1989;

VANDANA THADANI (2004)
Assistant Professor of Psychology
B.A., University of Chicago, 1992;
M.A., U.C. Los Angeles, 1995;

RENADE THIMESTER (1971)
Associate Professor of Economics
Diplome D’Etudes de Civilization Francaise, Degree Superior, Sorbonne, Paris, 1961;
B.S., University of Alabama, 1963;
M.S., University of Alabama, 1965;
Ph.D., University of Alabama, 1967.

SETH B. THOMPSON (1970)
Professor of Political Science
B.A., Santa Clara University, 1966;
M.A., University of Oregon, 1968;
Ph.D., University of Oregon, 1972.

JOSEPH S. TIEDEMANN (1979)
Professor of History
B.A., St. Francis College, 1968;
Ph.D., City University of New York, 1977.

TRACY SAYUKI TIEMEIER (2006)
Assistant Professor of Theological Studies
B.A., University of Notre Dame, 1997;
M.A., University of Notre Dame, 1999;
Ph.D., Boston College, 2006.

RAYMOND J. TOAL (1986)
Professor of Electrical Engineering/Computer Science
and Director of Computer Science
B.S., Loyola Marymount University, 1985;
M.S., Loyola Marymount University, 1986;

BRIAN TREANOR (2003)
Assistant Professor of Philosophy
B.A., U.C. Los Angeles, 1991;
M.A., California State University, Long Beach, 1997;

LAWRENCE A. TRITLE (1978)
Professor of History
B.A., U.C. Los Angeles, 1968;
M.A., University of South Florida, 1972;
Ph.D., University of Chicago, 1978.

WILLIAM J. TROTT (1975)
Professor of Civil Engineering and
Chairperson of the Department
B.S., U.C. Los Angeles, 1971;
M.S., U.C. Los Angeles, 1972;
Ph.D., U.C. Los Angeles, 1979;
Registered Professional Engineer.

NAZMUL ULA (1991)
Professor of Electrical Engineering and
Chairperson of the Department
B.S., Bangladesh University of Engineering and
Technology, 1979;
M.S., University of Wyoming, 1985;

Assistant Professor of Biology
B.S., University of Illinois at Urbana-Champaign, 1992;
Ph.D., Loyola University Chicago, 1998.
CHARLES VANCE (1986)
Professor of Management
B.S., Brigham Young University, 1975;
M.A., Brigham Young University, 1977;
Ph.D., Syracuse University, 1981.

GABRIELE VARIIESCHI (2000)
Associate Professor of Physics and Chairperson of the Department
B.S., University of Milano, Italy, 1989;
M.S., U.C. Los Angeles, 1996;

CAROLYN M. VIVIANO (2002)
Assistant Professor of Natural Science
B.A., Amherst College, 1986;
M.S., Columbia University, 1985;
M.Phil, Columbia University, 1985;
Ph.D., Columbia University, 1990.

JOHN P. WAGGONER, III (1976)
Professor of Biology
B.A., Duke University, 1965;
M.S., University of Nebraska, 1967;

JAMES J. WALTER (1999)
Austin and Ann O'Malley Chair of Bioethics and Chairperson of The Bioethics Institute
B.A., St. Meinrad College, 1969;
B.A., Katholieke Universiteit Leuven, 1970;
S.T.B., Katholieke Universiteit Leuven, 1971;
M.A., Katholieke Universiteit Leuven, 1971;
Ph.B., Katholieke Universiteit Leuven, 1972;

PHILIP C. WANDER (2007)
President's Professor of Communication Studies
B.S., Southern Illinois University, 1963;
M.A., University of Pittsburgh, 1965;
Ph.D., University of Pittsburgh, 1968.

ROBIN WANG (1999)
Associate Professor of Philosophy and Director of Asian and Pacific Studies
B.A., Peking University, 1980;
M.A., Peking University, 1983;
M.A., University of Notre Dame, 1988;
Ph.D., University of Wales, 1998.

SHARON WATT (1995)
Adjunct Professor of Education
B.S., University of Southern California, 1971;
M.S., University of Southern California, 1972;
J.D., Loyola University School of Law, 1978.

CONNIE J. WEEKS (1987)
Professor of Mathematics
B.S., Harvey Mudd College, 1970;
M.S., University of Southern California, 1972;
Ph.D., University of Southern California, 1977.

DAN WEINGARTEN (2004)
Assistant Professor of Theatre Arts
B.S., Drexel University, 1988;

LAWRENCE A. WENNER (2000)
Von der Ahe Chair of Communication and Ethics
B.A., California State University, Northridge, 1974;
M.A., University of Iowa, 1976;
Ph.D., University of Iowa, 1977.

KEVIN J. WETMORE, JR. (2005)
Assistant Professor of Theatre Arts
B.A., Bates College, 1991;
M.A., University of Leeds, 1992;
Ph.D., University of Pittsburgh, 1999.

KENNEDY WHEATLEY (2000)
Assistant Professor of Production (Film and Television)
B.A., Michigan State University, 1980;
M.F.A., University of Southern California, 1998.

THOMAS I. WHITE (1994)
Hilton Professor in Business Ethics, and Adjunct Professor of Philosophy
A.B., College of the Holy Cross, 1969;
M.A., Columbia University, 1970;
Ph.D., Columbia University, 1974.

JOHN T. WHOLIHAN (1984)
Professor of Management and Dean Emeritus, College of Business Administration
B.S., University of Notre Dame, 1959;
M.B.A., Indiana University, 1960;
Ph.D., American University, 1973.

DAMON WILLICK (2005)
Assistant Professor of Art History
B.A., U.C. Los Angeles, 1994;
M.A., U.C. Riverside, 1996;

JEFFREY L. WILSON (1995)
Assistant Professor of Philosophy
B.A., St. John's College, 1985;
M.A., Emory University, 1991;
Ph.D., Emory University, 1995.

LUCY WILSON (1982)
Professor of English
B.A., Kutztown University, Pennsylvania, 1974;
M.A., Kutztown University, Pennsylvania, 1975;
Ph.D., Temple University, 1982.
ROBERT D. WINSOR (1991)
Professor of Marketing
B.A., University of La Verne, 1982;
B.A., Claremont McKenna College, 1983;
Ph.D., University of Southern California, 1989.

AMY WOODSON-BOULTON (2004)
Assistant Professor of History
B.A., U.C. Berkeley, 1994;
M.A., U.C. Los Angeles, 1999;

WARREN S. WRIGHT (1967)
Professor of Mathematics
B.A., Pomona College, 1963;
M.A., University of Southern California, 1965.

GAIL WRONSKY (1987)
Professor of English
B.A., University of Virginia, 1978;
M.F.A., University of Virginia, 1981;
Ph.D., University of Utah, 1986.

KELLY YOUNGER (2001)
Associate Professor of English
B.A., Loyola Marymount University, 1994;
M.A., Loyola University Chicago, 1996;
Ph.D., University College, Dublin, 1999.

MOLLY YOUNGKIN (2007)
Assistant Professor of English
B.G.S., University of Dayton, 1995;
M.A., Wright State University, 1998;
Ph.D., Ohio State University, 2002.

HAN DAI YU (2006)
Assistant Professor of Art and Art History
B.A., China National Academy of Art, 1991;

KATERINA ZACHARIA (1999)
Associate Professor of Classics and Archaeology and
Acting Chairperson of the Department
B.A., Capodistrian University, 1988;
M.A., University College, London, 1990;

THOMAS M. ZACHARIAH (1988)
Associate Professor of Mathematics
B.S., Kerala University, 1971;
M.S., Kerala University, 1973;
M.A., Claremont Graduate University, 1980;
Ph.D., Claremont Graduate University, 1984.

SEID M. ZEKAVAT (1964)
Professor of Economics
B.A., Tehran University, 1955;
B.A., Pepperdine University, 1960;
M.A., University of Southern California, 1961;
Ph.D., University of Southern California, 1964.

ANATOLY ZHUPLEV (1992)
Professor of Management
B.S., Ordzhonikidze Engineering-Economics Institute,
Moscow, 1974;
Ph.D., Moscow Management Institute, 1981.

DONALD ZIRPOLA (1978)
Professor of Production (Film and Television)
B.A., Chapman College, 1970;

University Librarians

ANTHONY J. AMODEO (1984)
Reference Librarian
B.A., De Paul University, 1967;
M.A.L.S., Rosary, 1981;
M.A., Loyola Marymount University, 1989.

CYNTHIA BECHT (1995)
Special Collections Librarian
B.A., U.C. Los Angeles, 1987;

KRISTINE BRANCOLINI (2006)
Dean of University Libraries
B.A., Scripps College, 1973;
M.L.S., Indiana University, 1974;
Ph.D., Indiana University, 1983.

PAMELA CLARKE (2005)
Cataloging Librarian
B.A., California State University, Fullerton, 1989;

JAMIE HAZLITT (2006)
Reference Librarian
B.A., University of Washington, 1998;

CHRISTINA HENNESSEY (2002)
Systems Librarian
B.S., Virginia Polytechnic Institute & State University, 1992;

GLENN JOHNSON-GRAU (1996)
Head of Cataloging Department
B.A., U.C. Los Angeles, 1987;

ALEXANDER JUSTICE (2002)
Reference Librarian
B.A., Loyola Marymount University, 1991;

JANET H. LAI (1971)
Head Acquisitions/Serials Librarian
B.A., Tamkang College, 1961;
RHONDA ROSEN (1987)
Head of Media and Reserve Services
B.A., U.C. Los Angeles, 1977;

ELISA SLATER (1999)
Reference Librarian
B.A., U.C. Riverside, 1991;

CLAY STALLS (2000)
Manuscript Curator/Librarian
B.A., Texas Tech University, 1979;
Ph.D., U.C. Los Angeles, 1991;

WALTER WALKER (1996)
Head Cataloging Librarian
B.A., U.C. Santa Barbara, 1979;

SACHI YAGYU (1990)
Head of Reference/Circulation Services
B.A., Minnesota, 1980;
