See page 21 of FHB found on the [Resources](#) page of the Faculty Hub. Below is an excerpt from page 21.

“The process for applying for early tenure and promotion may be initiated by the candidate, Chair/Director or the Dean. An application for early tenure and/or promotion shall be accepted only when the Dean, in consultation with the faculty member’s Chair/Director, grants permission. If an early application for tenure and/or promotion is denied, faculty members may not reapply until the final year of their probationary period. Denial of early tenure and/or promotion shall in no way prejudice an application for tenure and promotion in a subsequent year.”
